625 ILCS 5/11-501.01 — Additional administrative sanctions

Sec. 11-501.01. Additional administrative sanctions.

(a) After a finding of guilt and prior to any final sentencing or an order for supervision, for an offense based upon an arrest for a violation of Section 11-501 or a similar provision of a local ordinance, individuals shall be required to undergo a professional evaluation to determine if an alcohol, drug, or intoxicating compound abuse problem exists and the extent of the problem, and undergo the imposition of treatment as appropriate. Programs conducting these evaluations shall be licensed by the Department of Human Services. The cost of any professional evaluation shall be paid for by the individual required to undergo the professional evaluation.

(b) Any person who is found guilty of or pleads guilty to violating Section 11-501, including any person receiving a disposition of court supervision for violating that Section, may be required by the Court to attend a victim impact panel offered by, or under contract with, a county State's Attorney's office, a probation and court services department, Mothers Against Drunk Driving, or the Alliance Against Intoxicated Motorists. All costs generated by the victim impact panel shall be paid from fees collected from the offender or as may be determined by the court.

(c) (Blank).

(d) The Secretary of State shall revoke the driving privileges of any person convicted under Section 11-501 or a similar provision of a local ordinance.

(e) The Secretary of State shall require the use of ignition interlock devices for a period not less than 5 years on all vehicles owned by a person who has been convicted of a second or subsequent offense of Section 11-501 or a similar provision of a local ordinance. The person must pay to the Secretary of State DUI Administration Fund an amount not to exceed \$30 for each month that he or she uses the device. The Secretary shall establish by rule and regulation the procedures for certification and use of the interlock system, the amount of the fee, and the procedures, terms, and conditions relating to these fees. During the time period in which a person is required to install an ignition interlock device under this subsection (e), that person shall only operate vehicles in which ignition interlock devices have been installed, except as allowed by subdivision (c)(5) or (d)(5) of Section 6-205 of this Code.

(f) (Blank).

(g) The Secretary of State Police DUI Fund is created as a special fund in the State treasury and, subject to appropriation, shall be used for enforcement and prevention of driving while under the influence of alcohol, other drug or drugs, intoxicating compound or compounds or any combination thereof, as defined by Section 11-501 of this Code, including, but not limited to, the purchase of law enforcement equipment and commodities to assist in the prevention of alcohol-related criminal violence throughout the State; police officer training and education in areas related to alcohol-related crime, including, but not limited to, DUI training; and police officer salaries, including, but not limited to, salaries for hire-back funding for safety checkpoints, saturation patrols, and liquor store sting operations. Notwithstanding any other provision of law, on July 1, 2025, or as soon thereafter as practical, the State Comptroller shall direct and the State Treasurer shall transfer the remaining balance from the Secretary of State Police DUI Fund into the Secretary of State Police Services Fund. Upon completion of the transfers, the Secretary of State Police DUI Fund is dissolved, and any future deposits due to that Fund and any outstanding obligations or liabilities of that Fund shall pass to the Secretary of State Police Services Fund.

(h) Whenever an individual is sentenced for an offense based upon an arrest for a violation of Section 11-501 or a similar provision of a local ordinance, and the professional evaluation recommends remedial or rehabilitative treatment or education, neither the treatment nor the education shall be the sole disposition and either or both may be imposed only in conjunction with another disposition. The court shall monitor compliance with any remedial education or treatment recommendations contained in the professional evaluation. Programs conducting alcohol or other drug evaluation or remedial education must be licensed by the Department of Human Services. If the individual is not a resident of Illinois, however, the court may accept an alcohol or other drug evaluation or remedial education program in the individual's state of residence. Programs providing treatment must be licensed under existing applicable alcoholism and drug treatment licensure standards.

(j) A person that is subject to a chemical test or tests of blood under subsection

(a) of Section 11-501.1 or subdivision (c)(2) of Section 11-501.2 of this Code, whether or not that person consents to testing, shall be liable for the expense up to \$500 for blood withdrawal by a physician authorized to practice medicine, a licensed physician assistant, a licensed advanced practice registered nurse, a registered nurse, a trained phlebotomist, a licensed paramedic, or a qualified person other than a police officer approved by the Illinois State Police to withdraw blood, who responds, whether at a law enforcement facility or a health care facility, to a police department request for the drawing of blood based upon refusal of the person to submit to a lawfully requested breath test or probable cause exists to believe the test would disclose the ingestion, consumption, or use of drugs or intoxicating compounds if:

(1) the person is found guilty of violating Section 11-501 of this Code or a similar provision of a local ordinance; or

(2) the person pleads guilty to or stipulates to facts supporting a violation of Section 11-503 of this Code or a similar provision of a local ordinance when the plea or stipulation was the result of a plea agreement in which the person was originally charged with violating Section 11-501 of this Code or a similar local ordinance.

625 ILCS 5/11-501.1

Sec. 11-501.1. Suspension of drivers license; statutory summary alcohol, other drug or drugs, or intoxicating compound or compounds related suspension or revocation; implied consent.

(a) Any person who drives or is in actual physical control of a motor vehicle upon the public highways of this State shall be deemed to have given consent, subject to the provisions of Section 11-501.2, to a chemical test or tests of blood, breath, other bodily substance, or urine for the purpose of determining the content of alcohol, other drug or drugs, or intoxicating compound or compounds or any combination thereof in the person's blood if arrested, as evidenced by the issuance of a Uniform Traffic Ticket, for any offense as defined in Section 11-501 or a similar provision of a local ordinance, or if arrested for violating Section 11-401. If a law enforcement officer has probable cause to believe the person was under the influence of alcohol, other drug or drugs, intoxicating compound or compounds, or any combination thereof, the law enforcement officer shall request a chemical test or tests which shall be administered at the direction of the arresting officer. The law enforcement agency employing the officer shall designate which of the aforesaid tests shall be administered. Up to 2 additional tests of urine or other bodily substance may be administered even after a blood or breath test or both has been administered. For purposes of this Section, an Illinois law enforcement officer of this State who is investigating the person for any offense defined in Section 11-501 may travel into an adjoining state, where the person has been transported for medical care, to complete an investigation and to request that the person submit to the test or tests set forth in this Section. The requirements of this Section that the person be arrested are inapplicable, but the officer shall issue the person a Uniform Traffic Ticket for an offense as defined in Section 11-501 or a similar provision of a local ordinance prior to requesting that the person submit to the test or tests. The issuance of the Uniform Traffic Ticket shall not constitute an arrest, but shall be for the purpose of notifying the person that he or she is subject to the provisions of this Section and of the officer's belief of the existence of probable cause to arrest. Upon returning to this State, the officer shall file the Uniform Traffic Ticket with the Circuit Clerk of the county where the offense was committed, and shall seek the issuance of an arrest warrant or a summons for the person. (a-5) (Blank).

(b) Any person who is dead, unconscious, or who is otherwise in a condition rendering the person incapable of refusal, shall be deemed not to have withdrawn the consent provided by paragraph

(a) of this Section and the test or tests may be administered, subject to the provisions of Section 11-501.2.

(c) A person requested to submit to a test as provided above shall be warned by the law enforcement officer requesting the test that a refusal to submit to the test will result in the statutory summary suspension of the person's privilege to operate a motor vehicle, as provided in Section 6-208.1 of this Code, and will also result in the disqualification of the person's privilege to operate a commercial motor vehicle, as provided in Section 6-514 of this Code, if the person is a CDL holder. The person shall also be warned that a refusal to submit to the test, when the person was involved in a motor vehicle crash that caused personal injury or death to another, will result in the statutory summary revocation of the person's privilege to operate a motor vehicle, as provided in Section 6-208.1, and will also result in the disqualification of the person's privilege to operate a commercial motor vehicle, as provided in Section 6-514 of this Code, if the person is a CDL holder. The person shall also be warned by the law enforcement officer that if the person submits to the test or tests provided in paragraph

(a) of this Section and the alcohol concentration in the person's blood, other bodily substance, or breath is 0.08 or greater, or testing discloses the presence of cannabis as listed in the Cannabis Control Act with a tetrahydrocannabinol concentration as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of this Code, or any amount of a drug, substance, or compound resulting from the unlawful use or consumption of a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act is detected in the person's blood, other bodily substance or urine, a statutory summary suspension of the person's privilege to operate a motor vehicle, as provided in Sections 6-208.1 and 11-501.1 of this Code, will be imposed. If the person is also a CDL holder, he or she shall be warned by the law enforcement officer that if the person submits to the test or tests provided in paragraph

(a) of this Section and the alcohol concentration in the person's blood, other bodily substance, or breath is 0.08 or greater, or any amount of a drug, substance, or compound resulting from the unlawful use or consumption of cannabis as covered by the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act is detected in the person's blood, other bodily substance, or urine, a disqualification of the person's privilege to operate a commercial motor vehicle, as provided in Section 6-514 of this Code, will be imposed. A person who is under the age of 21 at the time the person is requested to submit to a test as provided above shall, in addition to the warnings provided for in this Section, be further warned by the law enforcement officer requesting the test that if the person submits to the test or tests provided in paragraph

(a) of this Section and the alcohol concentration in the person's blood, other bodily substance, or breath is greater than 0.00 and less than 0.08, a suspension of the person's privilege to operate a motor vehicle, as provided under Sections 6-208.2 and 11-501.8 of this Code, will be imposed. The results of this test shall be admissible in a civil or criminal action or proceeding arising from an arrest for an offense as defined in Section 11-501 of this Code or a similar provision of a local ordinance or pursuant to Section 11-501.4 in prosecutions for reckless homicide brought under the Criminal Code of 1961 or the Criminal Code of 2012. These test results, however, shall be admissible only in actions or proceedings directly related to the incident upon which the test request was made. A person requested to submit to a test shall also acknowledge, in writing, receipt of the warning required under this Section. If the person refuses to acknowledge receipt of the warning, the law enforcement officer shall make a written notation on the warning that the person refused to sign the warning. A person's refusal to sign the warning shall not be evidence that the person was not read the warning.

(d) If the person refuses testing or submits to a test that discloses an alcohol concentration of 0.08 or more, or testing discloses the presence of cannabis as listed in the Cannabis Control Act with a tetrahydrocannabinol concentration as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of this Code, or any amount of a drug, substance, or intoxicating compound in the person's breath, blood, other bodily substance, or urine resulting from the unlawful use or consumption of a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act, the law enforcement officer shall immediately submit a sworn report to the circuit court of venue and the Secretary of State, certifying that the test or tests was or were requested under paragraph

(a) and the person refused to submit to a test, or tests, or submitted to testing that disclosed an alcohol concentration of 0.08 or more, testing discloses the presence of cannabis as listed in the Cannabis Control Act with a tetrahydrocannabinol concentration as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of this Code, or any amount of a drug, substance, or intoxicating compound in the person's breath, blood, other bodily substance, or urine resulting from the unlawful use or consumption of a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act. If the person is also a CDL holder and refuses testing or submits to a test that discloses an alcohol concentration of 0.08 or more, or any amount of a drug, substance, or intoxicating compound in the person's breath, blood, other bodily substance, or urine resulting from the unlawful use or consumption of cannabis listed in the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act, the law enforcement officer shall also immediately submit a sworn report to the circuit court of venue and the Secretary of State, certifying that the test or tests was or were requested under paragraph

(a) and the person refused to submit to a test, or tests, or submitted to testing that disclosed an alcohol concentration of 0.08 or more, or any amount of a drug, substance, or intoxicating compound in the person's breath, blood, other bodily substance, or urine resulting from the unlawful use or consumption of cannabis listed in the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act.

(e) Upon receipt of the sworn report of a law enforcement officer submitted under paragraph (d), the Secretary of State shall enter the statutory summary suspension or revocation and disqualification for the periods specified in Sections 6-208.1 and 6-514, respectively, and effective as provided in paragraph (g). If the person is a first offender as defined in Section 11-500 of this Code, and is not convicted of a violation of Section 11-501 of this Code or a similar provision of a local ordinance, then reports received by the Secretary of State under this Section shall, except during the actual time the Statutory Summary Suspension is in effect, be privileged information and for use only by the courts, police officers, prosecuting authorities or the Secretary of State, unless the person is a CDL holder, is operating a commercial motor vehicle or vehicle required to be placarded for hazardous materials, in which case the suspension shall not be privileged. Reports received by the Secretary of State under this Section shall also be made available to the parent or guardian of a person under the age of 18 years that holds an instruction permit or a graduated driver's license, regardless of whether the statutory summary suspension is in effect. A statutory summary revocation shall not be privileged information.

(f) The law enforcement officer submitting the sworn report under paragraph

(d) shall serve immediate notice of the statutory summary suspension or revocation on the person and the suspension or revocation and disqualification shall be effective as provided in paragraph (g).

(1) In cases involving a person who is not a CDL holder where the blood alcohol concentration of 0.08 or greater or any amount of a drug, substance, or compound resulting from the unlawful use or consumption of a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act is established by a subsequent analysis of blood, other bodily substance, or urine or analysis of whole blood or other bodily substance establishes a tetrahydrocannabinol concentration as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of this Code, collected at the time of arrest, the arresting officer or arresting agency shall give notice as provided in this Section or by deposit in the United States mail of the notice in an envelope with postage prepaid and addressed to the person at his or her address as shown on the Uniform Traffic Ticket and the statutory summary suspension shall begin as provided in paragraph (g). (1.3) In cases involving a person who is a CDL holder where the blood alcohol concentration of 0.08 or greater or any amount of a drug, substance, or compound resulting from the unlawful use or consumption of cannabis as covered by the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act is established by a subsequent analysis of blood, other bodily substance, or urine collected at the time of arrest, the arresting officer or arresting agency shall give notice as provided in this Section or by deposit in the United States mail of the notice in an envelope with postage prepaid and addressed to the person at his or her address as shown on the Uniform Traffic Ticket and the statutory summary suspension and disqualification shall begin as provided in paragraph (g). (1.5) The officer shall confiscate any Illinois driver's license or permit on the person at the time of arrest. If the person has a valid driver's license or permit, the officer shall issue the person a receipt, in a form prescribed by the Secretary of State, that will allow that

person to drive during the periods provided for in paragraph (g). The officer shall immediately forward the driver's license or permit to the Secretary of State along with the sworn report provided for in paragraph (d).

(2) (Blank).

(g) The statutory summary suspension or revocation and disqualification referred to in this Section shall take effect on the 46th day following the date the notice of the statutory summary suspension or revocation was given to the person.

(h) The following procedure shall apply whenever a person is arrested for any offense as defined in Section 11-501 or a similar provision of a local ordinance: Upon receipt of the sworn report from the law enforcement officer, the Secretary of State shall confirm the statutory summary suspension or revocation by mailing a notice of the effective date of the suspension or revocation to the person and the court of venue. The Secretary of State shall also mail notice of the effective date of the disqualification to the person. However, should the sworn report be defective by not containing sufficient information or be completed in error, the confirmation of the statutory summary suspension or revocation shall not be mailed to the person or entered to the record; instead, the sworn report shall be forwarded to the court of venue with a copy returned to the issuing agency identifying any defect.

(i) As used in this Section, "personal injury" includes any Type A injury as indicated on the traffic crash report completed by a law enforcement officer that requires immediate professional attention in either a doctor's office or a medical facility. A Type A injury includes severely bleeding wounds, distorted extremities, and injuries that require the injured party to be carried from the scene.

625 ILCS 5/11-501.2 — Chemical and other tests

Sec. 11-501.2. Chemical and other tests.

(a) Upon the trial of any civil or criminal action or proceeding arising out of an arrest for an offense as defined in Section 11-501 or a similar local ordinance or proceedings pursuant to Section 2-118.1, evidence of the concentration of alcohol, other drug or drugs, or intoxicating compound or compounds, or any combination thereof in a person's blood or breath at the time alleged, as determined by analysis of the person's blood, urine, breath, or other bodily substance, shall be admissible. Where such test is made the following provisions shall apply: 1. Chemical analyses of the person's blood, urine, breath, or other bodily substance to be considered valid under the provisions of this Section shall have been performed according to standards promulgated by the Illinois State Police by a licensed physician, registered nurse, trained phlebotomist, licensed paramedic, or other individual possessing a valid permit issued by that Department for this purpose. The Director of the Illinois State Police is authorized to approve satisfactory techniques or methods, to ascertain the qualifications and competence of individuals to conduct such analyses, to issue permits which shall be subject to termination or revocation at the discretion of that Department and to certify the accuracy of breath testing equipment. The Illinois State Police shall prescribe regulations as necessary to implement this Section. 2. When a person in this State shall submit to a blood test at the request of a law enforcement officer under the provisions of Section 11-501.1, only a physician authorized to practice medicine, a licensed physician assistant, a licensed advanced practice registered nurse, a registered nurse, trained phlebotomist, or licensed paramedic, or other qualified person approved by the Illinois State Police may withdraw blood for the purpose of determining the alcohol, drug, or alcohol and drug content therein. This limitation shall not apply to the taking of breath, other bodily substance, or urine specimens. When a blood test of a person who has been taken to an adjoining state for medical treatment is requested by an Illinois law enforcement officer, the blood may be withdrawn only by a physician authorized to practice medicine in the adjoining state, a licensed physician assistant, a licensed advanced practice registered nurse, a registered nurse, a trained phlebotomist acting under the direction of the physician, or licensed paramedic. The law enforcement officer requesting the test shall take custody of the blood sample, and the blood sample shall be analyzed by a laboratory certified by the Illinois State Police for that purpose. 3. The person tested may have a physician, or a qualified technician, chemist, registered nurse, or other qualified person of their own choosing administer a chemical test or tests in addition to any administered at the direction of a law enforcement officer. The failure or inability to obtain an additional test by a person shall not preclude the admission of evidence relating to the test or tests taken at the direction of a law enforcement officer. 4. Upon the request of the person who shall submit to a chemical test or tests at the request of a law enforcement officer, full information concerning the test or tests shall be made available to the person or such person's attorney. 5. Alcohol concentration shall mean either grams of alcohol per 100 milliliters of blood or grams of alcohol per 210 liters of breath. 6. Tetrahydrocannabinol concentration means either 5 nanograms or more of delta-9-tetrahydrocannabinol per milliliter of whole blood or 10 nanograms or more of delta-9-tetrahydrocannabinol per milliliter of other bodily substance. (a-5) Law

enforcement officials may use validated roadside chemical tests or standardized field sobriety tests approved by the National Highway Traffic Safety Administration when conducting investigations of a violation of Section 11-501 or similar local ordinance by drivers suspected of driving under the influence of cannabis. The General Assembly finds that

(i) validated roadside chemical tests are effective means to determine if a person is under the influence of cannabis and
(ii) standardized field sobriety tests approved by the National Highway Traffic Safety Administration are divided attention tasks that are intended to determine if a person is under the influence of cannabis. The purpose of these tests is to determine the effect of the use of cannabis on a person's capacity to think and act with ordinary care and therefore operate a motor vehicle safely. Therefore, the results of these validated roadside chemical tests and standardized field sobriety tests, appropriately administered, shall be admissible in the trial of any civil or criminal action or proceeding arising out of an arrest for a cannabis-related offense as defined in Section 11-501 or a similar local ordinance or proceedings under Section 2-118.1 or 2-118.2. Where a test is made the following provisions shall apply: 1. The person tested may have a physician, or a qualified technician, chemist, registered nurse, or other qualified person of their own choosing administer a chemical test or tests in addition to the standardized field sobriety test or tests administered at the direction of a law enforcement officer. The failure or inability to obtain an additional test by a person does not preclude the admission of evidence relating to the test or tests taken at the direction of a law enforcement officer. 2. Upon the request of the person who shall submit to validated roadside chemical tests or a standardized field sobriety test or tests at the request of a law enforcement officer, full information concerning the test or tests shall be made available to the person or the person's attorney. 3. At the trial of any civil or criminal action or proceeding arising out of an arrest for an offense as defined in Section 11-501 or a similar local ordinance or proceedings under Section 2-118.1 or 2-118.2 in which the results of these validated roadside chemical tests or standardized field sobriety tests are admitted, the person may present and the trier of fact may consider evidence that the person lacked the physical capacity to perform the validated roadside chemical tests or standardized field sobriety tests.

(b) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person while driving or in actual physical control of a vehicle while under the influence of alcohol, the concentration of alcohol in the person's blood or breath at the time alleged as shown by analysis of the person's blood, urine, breath, or other bodily substance shall give rise to the following presumptions: 1. If there was at that time an alcohol concentration of 0.05 or less, it shall be presumed that the person was not under the influence of alcohol. 2. If there was at that time an alcohol concentration in excess of 0.05 but less than 0.08, such facts shall not give rise to any presumption that the person was or was not under the influence of alcohol, but such fact may be considered with other competent evidence in determining whether the person was under the influence of alcohol. 3. If there was at that time an alcohol concentration of 0.08 or more, it shall be presumed that the person was under the influence of alcohol. 4. The foregoing provisions of this Section shall not be construed as limiting the introduction of any other relevant evidence bearing upon the question whether the person was under the influence of alcohol. (b-5) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person while driving or in actual physical control of a vehicle while under the influence of alcohol, other drug or drugs, intoxicating compound or compounds or any combination thereof, the concentration of cannabis in the person's whole blood or other bodily substance at the time alleged as shown by analysis of the person's blood or other bodily substance shall give rise to the following presumptions: 1. If there was a tetrahydrocannabinol concentration of 5 nanograms or more in whole blood or 10 nanograms or more in an other bodily substance as defined in this Section, it shall be presumed that the person was under the influence of cannabis. 2. If there was at that time a tetrahydrocannabinol concentration of less than 5 nanograms in whole blood or less than 10 nanograms in an other bodily substance, such facts shall not give rise to any presumption that the person was or was not under the influence of cannabis, but such fact may be considered with other competent evidence in determining whether the person was under the influence of cannabis.

(c) 1. If a person under arrest refuses to submit to a chemical test under the provisions of Section 11-501.1, evidence of refusal shall be admissible in any civil or criminal action or proceeding arising out of acts alleged to have been committed while the person under the influence of alcohol, other drug or drugs, or intoxicating compound or compounds, or any combination thereof was driving or in actual physical control of a motor vehicle. 2. Notwithstanding any ability to refuse under this Code to submit to these tests or any ability to revoke the implied consent to these tests, if a law enforcement officer has probable cause to believe that a motor vehicle driven by or in actual physical control of a person under the influence of alcohol, other drug or drugs, or intoxicating compound or compounds, or any combination thereof has caused the death or personal injury to another, the law enforcement officer shall request, and that person shall submit, upon the request of a law enforcement officer, to a chemical test or tests of his or her blood, breath, other bodily substance, or

urine for the purpose of determining the alcohol content thereof or the presence of any other drug or combination of both. This provision does not affect the applicability of or imposition of driver's license sanctions under Section 11-501.1 of this Code. 3. For purposes of this Section, a personal injury includes any Type A injury as indicated on the traffic crash report completed by a law enforcement officer that requires immediate professional attention in either a doctor's office or a medical facility. A Type A injury includes severe bleeding wounds, distorted extremities, and injuries that require the injured party to be carried from the scene.

(d) If a person refuses validated roadside chemical tests or standardized field sobriety tests under Section 11-501.9 of this Code, evidence of refusal shall be admissible in any civil or criminal action or proceeding arising out of acts committed while the person was driving or in actual physical control of a vehicle and alleged to have been impaired by the use of cannabis.

(e) Illinois State Police compliance with the changes in this amendatory Act of the 99th General Assembly concerning testing of other bodily substances and tetrahydrocannabinol concentration by Illinois State Police laboratories is subject to appropriation and until the Illinois State Police adopt standards and completion validation. Any laboratories that test for the presence of cannabis or other drugs under this Article, the Snowmobile Registration and Safety Act, or the Boat Registration and Safety Act must comply with ISO/IEC 17025:2005.

625 ILCS 5/11-501.4

Sec. 11-501.4. Admissibility of chemical tests of blood, other bodily substance, or urine conducted in the regular course of providing emergency medical treatment.

(a) Notwithstanding any other provision of law, the results of blood, other bodily substance, or urine tests performed for the purpose of determining the content of alcohol, other drug or drugs, or intoxicating compound or compounds, or any combination thereof, of an individual's blood, other bodily substance, or urine conducted upon persons receiving medical treatment in a hospital emergency room are admissible in evidence as a business record exception to the hearsay rule only in prosecutions for any violation of Section 11-501 of this Code or a similar provision of a local ordinance, or in prosecutions for reckless homicide brought under the Criminal Code of 1961 or the Criminal Code of 2012, when each of the following criteria are met:

(1) the chemical tests performed upon an individual's blood, other bodily substance, or urine were ordered in the regular course of providing emergency medical treatment and not at the request of law enforcement authorities;

(2) the chemical tests performed upon an individual's blood, other bodily substance, or urine were performed by the laboratory routinely used by the hospital; and

(3) results of chemical tests performed upon an individual's blood, other bodily substance, or urine are admissible into evidence regardless of the time that the records were prepared.

(b) The confidentiality provisions of law pertaining to medical records and medical treatment shall not be applicable with regard to chemical tests performed upon an individual's blood, other bodily substance, or urine under the provisions of this Section in prosecutions as specified in subsection

(a) of this Section. No person shall be liable for civil damages as a result of the evidentiary use of chemical testing of an individual's blood, other bodily substance, or urine test results under this Section, or as a result of that person's testimony made available under this Section.

625 ILCS 5/11-501.4-1

Sec. 11-501.4-1. Reporting of test results of blood, other bodily substance, or urine conducted in the regular course of providing emergency medical treatment.

(a) Notwithstanding any other provision of law, the results of blood, other bodily substance, or urine tests performed for the purpose of determining the content of alcohol, other drug or drugs, or intoxicating compound or compounds, or any combination thereof, in an individual's blood, other bodily substance, or urine conducted upon persons receiving medical treatment in a hospital emergency room for injuries resulting from a motor vehicle crash shall be disclosed to the Illinois State Police or local law enforcement agencies of jurisdiction, upon request. Such blood, other bodily substance, or urine tests are admissible in evidence as a business record exception to the hearsay rule only in prosecutions for any violation of Section 11-501 of this Code or a similar provision of a local ordinance, or in prosecutions for reckless homicide brought under the Criminal Code of 1961 or the Criminal Code of 2012.

No person shall be liable for civil damages or professional discipline as a result of the disclosure or reporting of the tests or the evidentiary use of an individual's blood, other bodily substance, or urine test results under this Section or Section 11-501.4 or as a result of that person's testimony made available under this Section or Section 11-501.4, except for willful or wanton misconduct.

625 ILCS 5/11-501.5 — Preliminary Breath Screening Test

Sec. 11-501.5. Preliminary Breath Screening Test.

(a) If a law enforcement officer has reasonable suspicion to believe that a person is violating or has violated Section 11-501 or a similar provision of a local ordinance, the officer, prior to an arrest, may request the person to provide a sample of his or her breath for a preliminary breath screening test using a portable device approved by the Illinois State Police. The person may refuse the test. The results of this preliminary breath screening test may be used by the law enforcement officer for the purpose of assisting with the determination of whether to require a chemical test as authorized under Sections 11-501.1 and 11-501.2, and the appropriate type of test to request. Any chemical test authorized under Sections 11-501.1 and 11-501.2 may be requested by the officer regardless of the result of the preliminary breath screening test, if probable cause for an arrest exists. The result of a preliminary breath screening test may be used by the defendant as evidence in any administrative or court proceeding involving a violation of Section 11-501 or 11-501.1.

(b) The Illinois State Police shall create a pilot program to establish the effectiveness of pupillometer technology (the measurement of the pupil's reaction to light) as a noninvasive technique to detect and measure possible impairment of any person who drives or is in actual physical control of a motor vehicle resulting from the suspected usage of alcohol, other drug or drugs, intoxicating compound or compounds or any combination thereof. This technology shall also be used to detect fatigue levels of the operator of a Commercial Motor Vehicle as defined in Section 6-500(6), pursuant to Section 18b-105 (Part 395-Hours of Service of Drivers) of the Illinois Vehicle Code. A State Police officer may request that the operator of a commercial motor vehicle have his or her eyes examined or tested with a pupillometer device. The person may refuse the examination or test. The State Police officer shall have the device readily available to limit undue delays. If a State Police officer has reasonable suspicion to believe that a person is violating or has violated Section 11-501, the officer may use the pupillometer technology, when available. The officer, prior to an arrest, may request the person to have his or her eyes examined or tested with a pupillometer device. The person may refuse the examination or test. The results of this examination or test may be used by the officer for the purpose of assisting with the determination of whether to require a chemical test as authorized under Sections 11-501.1 and 11-501.2 and the appropriate type of test to request. Any chemical test authorized under Sections 11-501.1 and 11-501.2 may be requested by the officer regardless of the result of the pupillometer examination or test, if probable cause for an arrest exists. The result of the examination or test may be used by the defendant as evidence in any administrative or court proceeding involving a violation of 11-501 or 11-501.1. The pilot program shall last for a period of 18 months and involve the testing of 15 pupillometer devices. Within 90 days of the completion of the pilot project, the Illinois State Police shall file a report with the President of the Senate and Speaker of the House evaluating the project.

625 ILCS 5/11-501.6 — Driver involvement in personal injury or fatal motor vehicle crash; chemical test

Sec. 11-501.6. Driver involvement in personal injury or fatal motor vehicle crash; chemical test.

(a) Any person who drives or is in actual control of a motor vehicle upon the public highways of this State and who has been involved in a personal injury or fatal motor vehicle crash, shall be deemed to have given consent to a breath test using a portable device as approved by the Illinois State Police or to a chemical test or tests of blood, breath, other bodily substance, or urine for the purpose of determining the content of alcohol, other drug or drugs, or intoxicating compound or compounds of such person's blood if arrested as evidenced by the issuance of a Uniform Traffic Ticket for any violation of the Illinois Vehicle Code or a similar provision of a local ordinance, with the exception of equipment violations contained in Chapter 12 of this Code, or similar provisions of local ordinances. The test or tests shall be administered at the direction of the arresting officer. The law enforcement agency employing the officer shall designate which of the aforesaid tests shall be administered. Up to 2 additional tests of urine or other bodily substance may be administered even after a blood or breath test or both has been administered. Compliance with this Section does not relieve such person from the requirements of Section 11-501.1 of this Code.

(b) Any person who is dead, unconscious or who is otherwise in a condition rendering such person incapable of refusal shall be deemed not to have withdrawn the consent provided by subsection

(a) of this Section. In addition, if a driver of a vehicle is receiving medical treatment as a result of a motor vehicle crash, any physician licensed to practice medicine, licensed physician assistant, licensed advanced practice registered nurse, registered nurse or a phlebotomist acting under the direction of a licensed physician shall withdraw blood for testing purposes to ascertain the presence of alcohol, other drug or drugs, or intoxicating compound or compounds, upon the specific request of a law enforcement officer. However, no such testing shall be performed until, in the opinion of the medical personnel on scene, the withdrawal can be made without interfering with or endangering the well-being of the patient.

(c) A person requested to submit to a test as provided above shall be warned by the law enforcement officer requesting the test that a refusal to submit to the test, or submission to the test resulting in an alcohol concentration of 0.08 or more, or testing discloses the presence of cannabis as listed in the Cannabis Control Act with a tetrahydrocannabinol concentration as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of this Code, or any amount of a drug, substance, or intoxicating compound resulting from the unlawful use or consumption of a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act as detected in such person's blood, other bodily substance, or urine, may result in the suspension of such person's privilege to operate a motor vehicle. If the person is also a CDL holder, he or she shall be warned by the law enforcement officer requesting the test that a refusal to submit to the test, or submission to the test resulting in an alcohol concentration of 0.08 or more, or any amount of a drug, substance, or intoxicating compound resulting from the unlawful use or consumption of cannabis, as covered by the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act as detected in the person's blood, other bodily substance, or urine, may result in the disqualification of the person's privilege to operate a commercial motor vehicle, as provided in Section 6-514 of this Code. The length of the suspension shall be the same as outlined in Section 6-208.1 of this Code regarding statutory summary suspensions. A person requested to submit to a test shall also acknowledge, in writing, receipt of the warning required under this Section. If the person refuses to acknowledge receipt of the warning, the law enforcement officer shall make a written notation on the warning that the person refused to sign the warning. A person's refusal to sign the warning shall not be evidence that the person was not read the warning.

(d) If the person refuses testing or submits to a test which discloses an alcohol concentration of 0.08 or more, the presence of cannabis as listed in the Cannabis Control Act with a tetrahydrocannabinol concentration as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of this Code, or any amount of a drug, substance, or intoxicating compound in such person's blood or urine resulting from the unlawful use or consumption of a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act, the law enforcement officer shall immediately submit a sworn report to the Secretary of State on a form prescribed by the Secretary, certifying that the test or tests were requested under subsection

(a) and the person refused to submit to a test or tests or submitted to testing which disclosed an alcohol concentration of 0.08 or more, the presence of cannabis as listed in the Cannabis Control Act with a tetrahydrocannabinol concentration as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of this Code, or any amount of a drug, substance, or intoxicating compound in such person's blood, other bodily substance, or urine, resulting from the unlawful use or consumption of a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act. If the person is also a CDL holder and refuses testing or submits to a test which discloses an alcohol concentration of 0.08 or more, or any amount of a drug, substance, or intoxicating compound in the person's blood, other bodily substance, or urine resulting from the unlawful use or consumption of cannabis listed in the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act, the law enforcement officer

shall immediately submit a sworn report to the Secretary of State on a form prescribed by the Secretary, certifying that the test or tests were requested under subsection

(a) and the person refused to submit to a test or tests or submitted to testing which disclosed an alcohol concentration of 0.08 or more, or any amount of a drug, substance, or intoxicating compound in such person's blood, other bodily substance, or urine, resulting from the unlawful use or consumption of cannabis listed in the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act. Upon receipt of the sworn report of a law enforcement officer, the Secretary shall enter the suspension and disqualification to the individual's driving record and the suspension and disqualification shall be effective on the 46th day following the date notice of the suspension was given to the person. The law enforcement officer submitting the sworn report shall serve immediate notice of this suspension on the person and such suspension and disqualification shall be effective on the 46th day following the date notice was given. In cases involving a person who is not a CDL holder where the blood alcohol concentration of 0.08 or more, or blood testing discloses the presence of cannabis as listed in the Cannabis Control Act with a tetrahydrocannabinol concentration as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of this Code, or any amount of a drug, substance, or intoxicating compound resulting from the unlawful use or consumption of a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act, is established by a subsequent analysis of blood, other bodily substance, or urine collected at the time of arrest, the arresting officer shall give notice as provided in this Section or by deposit in the United States mail of such notice in an envelope with postage prepaid and addressed to such person at his or her address as shown on the Uniform Traffic Ticket and the suspension shall be effective on the 46th day following the date notice was given. In cases involving a person who is a CDL holder where the blood alcohol concentration of 0.08 or more, or any amount of a drug, substance, or intoxicating compound resulting from the unlawful use or consumption of cannabis as listed in the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act, is established by a subsequent analysis of blood, other bodily substance, or urine collected at the time of arrest, the arresting officer shall give notice as provided in this Section or by deposit in the United States mail of such notice in an envelope with postage prepaid and addressed to the person at his or her address as shown on the Uniform Traffic Ticket and the suspension and disqualification shall be effective on the 46th day following the date notice was given. Upon receipt of the sworn report of a law enforcement officer, the Secretary shall also give notice of the suspension and disqualification to the driver by mailing a notice of the effective date of the suspension and disqualification to the individual. However, should the sworn report be defective by not containing sufficient information or be completed in error, the notice of the suspension and disqualification shall not be mailed to the person or entered to the driving record, but rather the sworn report shall be returned to the issuing law enforcement agency.

(e) A driver may contest this suspension of his or her driving privileges and disqualification of his or her CDL privileges by requesting an administrative hearing with the Secretary in accordance with Section 2-118 of this Code. At the conclusion of a hearing held under Section 2-118 of this Code, the Secretary may rescind, continue, or modify the orders of suspension and disqualification. If the Secretary does not rescind the orders of suspension and disqualification, a restricted driving permit may be granted by the Secretary upon application being made and good cause shown. A restricted driving permit may be granted to relieve undue hardship to allow driving for employment, educational, and medical purposes as outlined in Section 6-206 of this Code. The provisions of Section 6-206 of this Code shall apply. In accordance with 49 C.F.R. 384, the Secretary of State may not issue a restricted driving permit for the operation of a commercial motor vehicle to a person holding a CDL whose driving privileges have been suspended, revoked, cancelled, or disqualified.

(f) (Blank).

(g) For the purposes of this Section, a personal injury shall include any type A injury as indicated on the traffic crash report completed by a law enforcement officer that requires immediate professional attention in either a doctor's office or a medical facility. A type A injury shall include severely bleeding wounds, distorted extremities, and injuries that require the injured party to be carried from the scene.

625 ILCS 5/11-501.7

Sec. 11-501.7.

(a) As a condition of probation or discharge of a person convicted of a violation of Section 11-501 of this Code, who was less than 21 years of age at the time of the offense, or a person adjudicated delinquent pursuant to the Juvenile Court Act of 1987, for violation of Section 11-501 of this Code, the Court may order the offender to participate in the Youthful Intoxicated Drivers' Visitation Program. The Program shall consist of a supervised visitation as provided by this Section by the person to at least one of the following, to the extent that personnel and facilities are available:

(1) A State or private rehabilitation facility that cares for victims of motor vehicle crashes involving persons under the influence of alcohol.

(2) A facility which cares for advanced alcoholics to observe persons in the terminal stages of alcoholism, under the supervision of appropriately licensed medical personnel.

(3) If approved by the coroner of the county where the person resides, the county coroner's office or the county morgue to observe appropriate victims of motor vehicle crashes involving persons under the influence of alcohol, under the supervision of the coroner or deputy coroner.

(b) The Program shall be operated by the appropriate probation authorities of the courts of the various circuits. The youthful offender ordered to participate in the Program shall bear all costs associated with participation in the Program. A parent or guardian of the offender may assume the obligation of the offender to pay the costs of the Program. The court may waive the requirement that the offender pay the costs of participation in the Program upon a finding of indigency.

(c) As used in this Section, "appropriate victims" means victims whose condition is determined by the visit supervisor to demonstrate the results of motor vehicle crashes involving persons under the influence of alcohol without being excessively gruesome or traumatic to the observer.

(d) Any visitation shall include, before any observation of victims or persons with disabilities, a comprehensive counseling session with the visitation supervisor at which the supervisor shall explain and discuss the experiences which may be encountered during the visitation in order to ascertain whether the visitation is appropriate.

625 ILCS 5/11-501.8 — Suspension of driver's license; persons under age 21

Sec. 11-501.8. Suspension of driver's license; persons under age 21.

(a) A person who is less than 21 years of age and who drives or is in actual physical control of a motor vehicle upon the public highways of this State shall be deemed to have given consent to a chemical test or tests of blood, breath, other bodily substance, or urine for the purpose of determining the alcohol content of the person's blood if arrested, as evidenced by the issuance of a Uniform Traffic Ticket for any violation of the Illinois Vehicle Code or a similar provision of a local ordinance, if a police officer has probable cause to believe that the driver has consumed any amount of an alcoholic beverage based upon evidence of the driver's physical condition or other first hand knowledge of the police officer. The test or tests shall be administered at the direction of the arresting officer. The law enforcement agency employing the officer shall designate which of the aforesaid tests shall be administered. Up to 2 additional tests of urine or other bodily substance may be administered even after a blood or breath test or both has been administered.

(b) A person who is dead, unconscious, or who is otherwise in a condition rendering that person incapable of refusal, shall be deemed not to have withdrawn the consent provided by paragraph

(a) of this Section and the test or tests may be administered subject to the following provisions:

(i) Chemical analysis of the person's blood, urine, breath, or other bodily substance, to be considered valid under the provisions of this Section, shall have been performed according to standards promulgated by the Illinois State Police by an individual possessing a valid permit issued by that Department for this purpose. The Director of the Illinois State Police is authorized to approve satisfactory techniques or methods, to ascertain the qualifications and competence of individuals to conduct analyses, to issue permits that shall be subject to termination or revocation at the direction of that Department, and to certify the accuracy of breath testing equipment. The Illinois State Police shall prescribe regulations as necessary.

(ii) When a person submits to a blood test at the request of a law enforcement officer under the provisions of this Section, only a physician authorized to practice medicine, a licensed physician assistant, a licensed advanced practice registered nurse, a registered nurse, or other qualified person trained in venipuncture and acting under the direction of a licensed physician may withdraw blood for the purpose of determining the alcohol content therein. This limitation does not apply to the taking of breath, other bodily substance, or urine specimens. (iii) The person tested may have a physician, qualified technician, chemist, registered nurse, or other qualified person of his or her own choosing administer a chemical test or

tests in addition to any test or tests administered at the direction of a law enforcement officer. The failure or inability to obtain an additional test by a person shall not preclude the consideration of the previously performed chemical test. (iv) Upon a request of the person who submits to a chemical test or tests at the request of a law enforcement officer, full information concerning the test or tests shall be made available to the person or that person's attorney.

(v) Alcohol concentration means either grams of alcohol per 100 milliliters of blood or grams of alcohol per 210 liters of breath. (vi) If a driver is receiving medical treatment as a result of a motor vehicle crashes, a physician licensed to practice medicine, licensed physician assistant, licensed advanced practice registered nurse, registered nurse, or other qualified person trained in venipuncture and acting under the direction of a licensed physician shall withdraw blood for testing purposes to ascertain the presence of alcohol upon the specific request of a law enforcement officer. However, that testing shall not be performed until, in the opinion of the medical personnel on scene, the withdrawal can be made without interfering with or endangering the well-being of the patient.

(c) A person requested to submit to a test as provided above shall be warned by the law enforcement officer requesting the test that a refusal to submit to the test, or submission to the test resulting in an alcohol concentration of more than 0.00, may result in the loss of that person's privilege to operate a motor vehicle and may result in the disqualification of the person's privilege to operate a commercial motor vehicle, as provided in Section 6-514 of this Code, if the person is a CDL holder. The loss of driving privileges shall be imposed in accordance with Section 6-208.2 of this Code. A person requested to submit to a test shall also acknowledge, in writing, receipt of the warning required under this Section. If the person refuses to acknowledge receipt of the warning, the law enforcement officer shall make a written notation on the warning that the person refused to sign the warning. A person's refusal to sign the warning shall not be evidence that the person was not read the warning.

(d) If the person refuses testing or submits to a test that discloses an alcohol concentration of more than 0.00, the law enforcement officer shall immediately submit a sworn report to the Secretary of State on a form prescribed by the Secretary of State, certifying that the test or tests were requested under subsection

(a) and the person refused to submit to a test or tests or submitted to testing which disclosed an alcohol concentration of more than 0.00. The law enforcement officer shall submit the same sworn report when a person under the age of 21 submits to testing under Section 11-501.1 of this Code and the testing discloses an alcohol concentration of more than 0.00 and less than 0.08. Upon receipt of the sworn report of a law enforcement officer, the Secretary of State shall enter the suspension and disqualification on the individual's driving record and the suspension and disqualification shall be effective on the 46th day following the date notice of the suspension was given to the person. If this suspension is the individual's first driver's license suspension under this Section, reports received by the Secretary of State under this Section shall, except during the time the suspension is in effect, be privileged information and for use only by the courts, police officers, prosecuting authorities, the Secretary of State, or the individual personally, unless the person is a CDL holder, is operating a commercial motor vehicle or vehicle required to be placarded for hazardous materials, in which case the suspension shall not be privileged. Reports received by the Secretary of State under this Section shall also be made available to the parent or guardian of a person under the age of 18 years that holds an instruction permit or a graduated driver's license, regardless of whether the suspension is in effect. The law enforcement officer submitting the sworn report shall serve immediate notice of this suspension on the person and the suspension and disqualification shall be effective on the 46th day following the date notice was given. In cases where the blood alcohol concentration of more than 0.00 is established by a subsequent analysis of blood, other bodily substance, or urine, the police officer or arresting agency shall give notice as provided in this Section or by deposit in the United States mail of that notice in an envelope with postage prepaid and addressed to that person at his last known address and the loss of driving privileges shall be effective on the 46th day following the date notice was given. Upon receipt of the sworn report of a law enforcement officer, the Secretary of State shall also give notice of the suspension and disqualification to the driver by mailing a notice of the effective date of the suspension and disqualification to the individual. However, should the sworn report be defective by not containing sufficient information or be completed in error, the notice of the suspension and disqualification shall not be mailed to the person or entered to the driving record, but rather the sworn report shall be returned to the issuing law enforcement agency.

(e) A driver may contest this suspension and disqualification by requesting an administrative hearing with the Secretary of State in accordance with Section 2-118 of this Code. An individual whose blood alcohol concentration is shown to be more than 0.00 is not subject to this Section if he or she consumed alcohol in the performance of a religious service or ceremony. An individual whose blood alcohol concentration is shown to be more than 0.00 shall not be subject to this

Section if the individual's blood alcohol concentration resulted only from ingestion of the prescribed or recommended dosage of medicine that contained alcohol. The petition for that hearing shall not stay or delay the effective date of the impending suspension. The scope of this hearing shall be limited to the issues of:

- (1) whether the police officer had probable cause to believe that the person was driving or in actual physical control of a motor vehicle upon the public highways of the State and the police officer had reason to believe that the person was in violation of any provision of the Illinois Vehicle Code or a similar provision of a local ordinance; and
 - (2) whether the person was issued a Uniform Traffic Ticket for any violation of the Illinois Vehicle Code or a similar provision of a local ordinance; and
 - (3) whether the police officer had probable cause to believe that the driver had consumed any amount of an alcoholic beverage based upon the driver's physical actions or other first-hand knowledge of the police officer; and
 - (4) whether the person, after being advised by the officer that the privilege to operate a motor vehicle would be suspended if the person refused to submit to and complete the test or tests, did refuse to submit to or complete the test or tests to determine the person's alcohol concentration; and
 - (5) whether the person, after being advised by the officer that the privileges to operate a motor vehicle would be suspended if the person submits to a chemical test or tests and the test or tests disclose an alcohol concentration of more than 0.00, did submit to and complete the test or tests that determined an alcohol concentration of more than 0.00; and
 - (6) whether the test result of an alcohol concentration of more than 0.00 was based upon the person's consumption of alcohol in the performance of a religious service or ceremony; and
 - (7) whether the test result of an alcohol concentration of more than 0.00 was based upon the person's consumption of alcohol through ingestion of the prescribed or recommended dosage of medicine. At the conclusion of the hearing held under Section 2-118 of this Code, the Secretary of State may rescind, continue, or modify the suspension and disqualification. If the Secretary of State does not rescind the suspension and disqualification, a restricted driving permit may be granted by the Secretary of State upon application being made and good cause shown. A restricted driving permit may be granted to relieve undue hardship by allowing driving for employment, educational, and medical purposes as outlined in item
- (3) of part
- (c) of Section 6-206 of this Code. The provisions of item
- (3) of part
- (c) of Section 6-206 of this Code and of subsection
- (f) of that Section shall apply. The Secretary of State shall promulgate rules providing for participation in an alcohol education and awareness program or activity, a drug education and awareness program or activity, or both as a condition to the issuance of a restricted driving permit for suspensions imposed under this Section.
- (f) The results of any chemical testing performed in accordance with subsection
- (a) of this Section are not admissible in any civil or criminal proceeding, except that the results of the testing may be considered at a hearing held under Section 2-118 of this Code. However, the results of the testing may not be used to impose driver's license sanctions under Section 11-501.1 of this Code. A law enforcement officer may, however, pursue a statutory summary suspension or revocation of driving privileges under Section 11-501.1 of this Code if other physical evidence or first hand knowledge forms the basis of that suspension or revocation.
- (g) This Section applies only to drivers who are under age 21 at the time of the issuance of a Uniform Traffic Ticket for a violation of the Illinois Vehicle Code or a similar provision of a local ordinance, and a chemical test request is made under this Section.
- (h) The action of the Secretary of State in suspending, revoking, cancelling, or disqualifying any license or permit shall be subject to judicial review in the Circuit Court of Sangamon County or in the Circuit Court of Cook County, and the provisions of the Administrative Review Law and its rules are hereby adopted and shall apply to and govern every action for the judicial review of final acts or decisions of the Secretary of State under this Section.

625 ILCS 5/11-501.9

Sec. 11-501.9. Suspension of driver's license; failure or refusal of validated roadside chemical tests; failure or refusal of field sobriety tests; implied consent.

(a) A person who drives or is in actual physical control of a motor vehicle upon the public highways of this State shall be deemed to have given consent to

(i) validated roadside chemical tests or (ii) standardized field sobriety tests approved by the National Highway Traffic Safety Administration, under subsection (a-5) of Section 11-501.2 of this Code, if detained by a law enforcement officer who has a reasonable suspicion that the person is driving or is in actual physical control of a motor vehicle while impaired by the use of cannabis. The law enforcement officer must have an independent, cannabis-related factual basis giving reasonable suspicion that the person is driving or in actual physical control of a motor vehicle while impaired by the use of cannabis for conducting validated roadside chemical tests or standardized field sobriety tests, which shall be included with the results of the validated roadside chemical tests and field sobriety tests in any report made by the law enforcement officer who requests the test. The person's possession of a registry identification card issued under the Compassionate Use of Medical Cannabis Program Act alone is not a sufficient basis for reasonable suspicion. For purposes of this Section, a law enforcement officer of this State who is investigating a person for an offense under Section 11-501 of this Code may travel into an adjoining state where the person has been transported for medical care to complete an investigation and to request that the person submit to field sobriety tests under this Section.

(b) A person who is unconscious, or otherwise in a condition rendering the person incapable of refusal, shall be deemed to have withdrawn the consent provided by subsection

(a) of this Section.

(c) A person requested to submit to validated roadside chemical tests or field sobriety tests, as provided in this Section, shall be warned by the law enforcement officer requesting the field sobriety tests that a refusal to submit to the validated roadside chemical tests or field sobriety tests will result in the suspension of the person's privilege to operate a motor vehicle, as provided in subsection

(f) of this Section. The person shall also be warned by the law enforcement officer that if the person submits to validated roadside chemical tests or field sobriety tests as provided in this Section which disclose the person is impaired by the use of cannabis, a suspension of the person's privilege to operate a motor vehicle, as provided in subsection

(f) of this Section, will be imposed.

(d) The results of validated roadside chemical tests or field sobriety tests administered under this Section shall be admissible in a civil or criminal action or proceeding arising from an arrest for an offense as defined in Section 11-501 of this Code or a similar provision of a local ordinance. These test results shall be admissible only in actions or proceedings directly related to the incident upon which the test request was made.

(e) If the person refuses validated roadside chemical tests or field sobriety tests or submits to validated roadside chemical tests or field sobriety tests that disclose the person is impaired by the use of cannabis, the law enforcement officer shall immediately submit a sworn report to the circuit court of venue and the Secretary of State certifying that testing was requested under this Section and that the person refused to submit to validated roadside chemical tests or field sobriety tests or submitted to validated roadside chemical tests or field sobriety tests that disclosed the person was impaired by the use of cannabis. The sworn report must include the law enforcement officer's factual basis for reasonable suspicion that the person was impaired by the use of cannabis.

(f) Upon receipt of the sworn report of a law enforcement officer submitted under subsection

(e) of this Section, the Secretary of State shall enter the suspension to the driving record as follows:

(1) for refusal or failure to complete validated roadside chemical tests or field sobriety tests, a 12-month suspension shall be entered; or

(2) for submitting to validated roadside chemical tests or field sobriety tests that disclosed the driver was impaired by the use of cannabis, a 6-month suspension shall be entered. The Secretary of State shall confirm the suspension by mailing a notice of the effective date of the suspension to the person and the court of venue. However, should the sworn report be defective for insufficient information or be completed in error, the confirmation of the suspension shall not be mailed to the person or entered to the record; instead, the sworn report shall be forwarded to the court of venue with a copy returned to the issuing agency identifying the defect.

(g) The law enforcement officer submitting the sworn report under subsection

(e) of this Section shall serve immediate notice of the suspension on the person and the suspension shall be effective as provided in subsection

(h) of this Section. If immediate notice of the suspension cannot be given, the arresting officer or arresting agency shall give notice by deposit in the United States mail of the notice in an envelope with postage prepaid and addressed to the person at his or her address as shown on the Uniform Traffic Ticket and the suspension shall begin as provided in subsection

(h) of this Section. The officer shall confiscate any Illinois driver's license or permit on the person at the time of arrest. If the person has a valid driver's license or permit, the officer shall issue the person a receipt, in a form prescribed by the Secretary of State, that will allow the person to drive during the period provided for in subsection

(h) of this Section. The officer shall immediately forward the driver's license or permit to the circuit court of venue along with the sworn report under subsection

(e) of this Section.

(h) The suspension under subsection

(f) of this Section shall take effect on the 46th day following the date the notice of the suspension was given to the person.

(i) When a driving privilege has been suspended under this Section and the person is subsequently convicted of violating Section 11-501 of this Code, or a similar provision of a local ordinance, for the same incident, any period served on suspension under this Section shall be credited toward the minimum period of revocation of driving privileges imposed under Section 6-205 of this Code.

(c) and in Sections 6-6.5 and 6-33 of the Liquor Control Act of 1934, no driver may transport, carry, possess or have any alcoholic liquor within the passenger area of any motor vehicle upon a highway in this State except in the original container and with the seal unbroken.

(b) Except as provided in paragraph

(c) and in Sections 6-6.5 and 6-33 of the Liquor Control Act of 1934, no passenger may carry, possess or have any alcoholic liquor within any passenger area of any motor vehicle upon a highway in this State except in the original container and with the seal unbroken.

(c) This Section shall not apply to the passengers in a limousine when it is being used for purposes for which a limousine is ordinarily used, the passengers on a chartered bus when it is being used for purposes for which chartered buses are ordinarily used or on a motor home or mini motor home as defined in Section 1-145.01 of this Code. However, the driver of any such vehicle is prohibited from consuming or having any alcoholic liquor in or about the driver's area. Any evidence of alcoholic consumption by the driver shall be prima facie evidence of such driver's failure to obey this Section. For the purposes of this Section, a limousine is a motor vehicle of the first division with the passenger compartment enclosed by a partition or dividing window used in the for-hire transportation of passengers and operated by an individual in possession of a valid Illinois driver's license of the appropriate classification pursuant to Section 6-104 of this Code.

(f) Any driver, who is less than 21 years of age at the date of the offense and who is convicted of violating subsection

(a) of this Section or a similar provision of a local ordinance, shall be subject to the loss of driving privileges as provided in paragraph 13 of subsection

(a) of Section 6-205 of this Code and paragraph 33 of subsection

(a) of Section 6-206 of this Code.

(b) the emergency operation of a motor vehicle when avoiding imminent danger; nor

(c) any raceway, racing facility or other public event, not part of a highway, sanctioned by the appropriate governmental authority.

625 ILCS 5/11-507

Sec. 11-507. Supervising a minor driver while under the influence of alcohol, other drug or drugs, intoxicating compound or compounds or any combination thereof.

(a) A person shall not accompany or provide instruction, pursuant to subsection

(a) of Section 6-107.1 of this Code, to a driver who is a minor and driving a motor vehicle pursuant to an instruction permit under Section 6-107.1 of this Code, while:

(1) the alcohol concentration in the person's blood, other bodily substance, or breath is 0.08 or more based on the definition of blood and breath units in Section 11-501.2 of this Code;

(2) under the influence of alcohol;

(3) under the influence of any intoxicating compound or combination of intoxicating compounds to a degree that renders the person incapable of properly supervising or providing instruction to the minor driver;

(4) under the influence of any other drug or combination of drugs to a degree that renders the person incapable of properly supervising or providing instruction to the minor driver;

(5) under the combined influence of alcohol, other drug or drugs, or intoxicating compound or compounds to a degree that renders the person incapable of properly supervising or providing instruction to the minor driver; or

(6) there is any amount of a drug, substance, or compound in the person's breath, blood, other bodily substance, or urine resulting from the unlawful use or consumption of cannabis listed in the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act.

(b) A person found guilty of violating this Section is guilty of an offense against the regulations governing the movement of vehicles.

625 ILCS 5/11-601 — General speed restrictions

Sec. 11-601. General speed restrictions.

(a) No vehicle may be driven upon any highway of this State at a speed which is greater than is reasonable and proper with regard to traffic conditions and the use of the highway, or endangers the safety of any person or property. The fact that the speed of a vehicle does not exceed the applicable maximum speed limit does not relieve the driver from the duty to decrease speed when approaching and crossing an intersection, approaching and going around a curve, when approaching a hill crest, when traveling upon any narrow or winding roadway, or when special hazard exists with respect to pedestrians or other traffic or by reason of weather or highway conditions. Speed must be decreased as may be necessary to avoid colliding with any person or vehicle on or entering the highway in compliance with legal requirements and the duty of all persons to use due care. (a-5) For purposes of this Section, "urban district" does not include any interstate highway as defined by Section 1-133.1 of this Code which includes all highways under the jurisdiction of the Illinois State Toll Highway Authority.

(b) No person may drive a vehicle upon any highway of this State at a speed which is greater than the applicable statutory maximum speed limit established by paragraphs (c), (d), (e),

(f) or

(g) of this Section, by Section 11-605 or by a regulation or ordinance made under this Chapter.

(c) Unless some other speed restriction is established under this Chapter, the maximum speed limit in an urban district for all vehicles is: 1. 30 miles per hour; and 2. 15 miles per hour in an alley.

(d) Unless some other speed restriction is established under this Chapter, the maximum speed limit outside an urban district for any vehicle is

(1) 65 miles per hour for all or part of highways that are designated by the Department, have at least 4 lanes of traffic, and have a separation between the roadways moving in opposite directions and

(2) 55 miles per hour for all other highways, roads, and streets. (d-1) Unless some other speed restriction is established under this Chapter, the maximum speed limit outside an urban district for any vehicle is

(1) 70 miles per hour on any interstate highway as defined by Section 1-133.1 of this Code which includes all highways under the jurisdiction of the Illinois State Toll Highway Authority;

(2) 65 miles per hour for all or part of highways that are designated by the Department, have at least 4 lanes of traffic, and have a separation between the roadways moving in opposite directions; and

(3) 55 miles per hour for all other highways, roads, and streets. The counties of Cook, DuPage, Kane, Lake, Madison, McHenry, St. Clair, and Will may adopt ordinances setting a maximum speed limit on highways, roads, and streets that is lower than the limits established by this Section.

(e) In the counties of Cook, DuPage, Kane, Lake, McHenry, and Will, unless some lesser speed restriction is established under this Chapter, the maximum speed limit outside an urban district for a second division vehicle designed or used for the carrying of a gross weight of 8,001 pounds or more (including the weight of the vehicle and maximum load) is 60 miles per hour on any interstate highway as defined by Section 1-133.1 of this Code and 55 miles per hour on all other highways, roads, and streets. (e-1) (Blank).

(f) Unless some other speed restriction is established under this Chapter, the maximum speed limit outside an urban district for a bus is: 1. 65 miles per hour upon any highway which has at least 4 lanes of traffic and of which the roadways for traffic moving in opposite directions are separated by a strip of ground which is not surfaced or suitable for vehicular traffic, except that the maximum speed limit for a bus on all highways, roads, or streets not under the jurisdiction of the Department or the Illinois State Toll Highway Authority is 55 miles per hour; 1.5. 70 miles per hour upon any interstate highway as defined by Section 1-133.1 of this Code outside the counties of Cook, DuPage, Kane, Lake, McHenry, and Will; and 2. 55 miles per hour on any other highway.

(g) (Blank).

625 ILCS 5/11-601.5 — Driving 26 miles per hour or more in excess of applicable limit

Sec. 11-601.5. Driving 26 miles per hour or more in excess of applicable limit.

(a) A person who drives a vehicle upon any highway of this State at a speed that is 26 miles per hour or more but less than 35 miles per hour in excess of the applicable maximum speed limit established under this Chapter or a local ordinance commits a Class B misdemeanor.

(b) A person who drives a vehicle upon any highway of this State at a speed that is 35 miles per hour or more in excess of the applicable maximum speed limit established under this Chapter or a local ordinance commits a Class A misdemeanor.

625 ILCS 5/11-602 — Alteration of limits by Department

Sec. 11-602. Alteration of limits by Department. Whenever the Department determines, upon the basis of an engineering and traffic investigation concerning any highway for which the Department has maintenance responsibility, that a maximum speed limit prescribed in Section 11-601 of this Chapter is greater or less than is reasonable or safe with respect to the conditions found to exist at any intersection or other place on such highway or along any part or zone thereof, the Department shall determine and declare a reasonable and safe absolute maximum speed limit applicable to such intersection or place, or along such part or zone. However, such limit shall conform with the maximum speed limit restrictions provided for in Section 11-601 of this Code. Where a highway under the Department's jurisdiction is

contiguous to school property, the Department may, at the school district's request, set a reduced maximum speed limit for student safety purposes in the portion of the highway that faces the school property and in the portions of the highway that extend one-quarter mile in each direction from the opposite ends of the school property. A limit determined and declared as provided in this Section becomes effective, and suspends the applicability of the limit prescribed in Section 11-601 of this Chapter, when appropriate signs giving notice of the limit are erected at such intersection or other place, or along such part or zone of the highway. Electronic speed-detecting devices shall not be used within 500 feet beyond any such sign in the direction of travel; if so used in violation hereof, evidence obtained thereby shall be inadmissible in any prosecution for speeding. However, nothing in this Section prohibits the use of such electronic speed-detecting devices within 500 feet of a sign within a special school speed zone indicating such zone, conforming to the requirements of Section 11-605 of this Act, nor shall evidence obtained thereby be inadmissible in any prosecution for speeding provided the use of such device shall apply only to the enforcement of the speed limit in such special school speed zone.

625 ILCS 5/11-603 — Alteration of limits by Toll Highway Authority

Sec. 11-603. Alteration of limits by Toll Highway Authority. Whenever the Illinois State Toll Highway Authority determines, upon the basis of an engineering and traffic investigation concerning a toll highway under its jurisdiction, that a maximum speed limit prescribed in Section 11-601 of this Chapter is greater or less than is reasonable or safe with respect to conditions found to exist at any place or along any part or zone of such highway, the Authority shall determine and declare by regulation a reasonable and safe absolute maximum speed limit at such place or along such part or zone, and the speed limit shall conform with the maximum speed limit restrictions provided for in Section 11-601 of this Code. A limit so determined and declared becomes effective, and suspends the application of the limit prescribed in Section 11-601 of this Chapter, when

(a) the Department concurs in writing with the Authority's regulation, and

(b) appropriate signs giving notice of the limit are erected at such place or along such part or zone of the highway.

Electronic speed-detecting devices shall not be used within 500 feet beyond any such sign in the direction of travel; if so used in violation hereof, evidence obtained thereby shall be inadmissible in any prosecution for speeding.

625 ILCS 5/11-604 — Alteration of limits by local authorities

Sec. 11-604. Alteration of limits by local authorities.

(a) Subject to the limitations set forth in this Section, the county board of a county may establish absolute maximum speed limits on all county highways, township roads and district roads as defined in the Illinois Highway Code, except those under the jurisdiction of the Department or of the Illinois State Toll Highway Authority, as described in Sections 11-602 and 11-603 of this Chapter; and any park district, city, village, or incorporated town may establish absolute maximum speed limits on all streets which are within its corporate limits and which are not under the jurisdiction of the Department or of such Authority, and for which the county or a highway commissioner of such county does not have maintenance responsibility.

(b) Whenever any such park district, city, village, or incorporated town determines, upon the basis of an engineering or traffic investigation concerning a highway or street on which it is authorized by this Section to establish speed limits, that a maximum speed limit prescribed in Section 11-601 of this Chapter is greater or less than is reasonable or safe with respect to the conditions found to exist at any place or along any part or zone of such highway or street, the local authority or park district shall determine and declare by ordinance a reasonable and safe absolute maximum speed limit at such place or along such part or zone, which:

(1) Decreases the limit within an urban district, but not to less than 20 miles per hour; or

(2) Increases the limit within an urban district, but not to more than 55 miles per hour; or

(3) Decreases the limit outside of an urban district, but not to less than 35 miles per hour, except as otherwise provided in subparagraph 4 of this paragraph; or

(4) Decreases the limit within a residence district, but not to less than 25 miles per hour, except as otherwise provided in subparagraph 1 of this paragraph. The park district, city, village, or incorporated town may make such limit applicable at all times or only during certain specified times. Not more than 6 such alterations shall be made per mile along a highway or street; and the difference in limit between adjacent altered speed zones shall not be more than 10 miles per hour. A limit so determined and declared by a park district, city, village, or incorporated town becomes effective, and suspends the application of the limit prescribed in Section 11-601 of this Chapter, when appropriate signs giving notice of the limit

are erected at the proper place or along the proper part or zone of the highway or street. Electronic speed-detecting devices shall not be used within 500 feet beyond any such sign in the direction of travel; if so used in violation of this Section evidence obtained thereby shall be inadmissible in any prosecution for speeding. However, nothing in this Section prohibits the use of such electronic speed-detecting devices within 500 feet of a sign within a special school speed zone indicating such zone, conforming to the requirements of Section 11-605 of this Act, nor shall evidence obtained thereby be inadmissible in any prosecution for speeding provided the use of such device shall apply only to the enforcement of the speed limit in such special school speed zone.

(c) A county engineer or superintendent of highways may submit to the Department for approval, a county policy for establishing altered speed zones on township and county highways based upon engineering and traffic investigations.

(d) Whenever the county board of a county determines that a maximum speed limit is greater or less than is reasonable or safe with respect to the conditions found to exist at any place or along any part or zone of the highway or road, the county board shall determine and declare by ordinance a reasonable and safe absolute maximum speed limit at that place or along that part or zone. However, the maximum speed limit shall not exceed 55 miles per hour. Upon receipt of an engineering study for the part or zone of highway in question from the county engineer, and notwithstanding any other provision of law, the county board of a county may determine and declare by ordinance a reduction in the maximum speed limit at any place or along any part or zone of a county highway whenever the county board, in its sole discretion, determines that the reduction in the maximum speed limit is reasonable and safe. The county board may post signs designating the new speed limit. The limit becomes effective, and suspends the application of the limit prescribed in Section 11-601 of this Chapter, when appropriate signs giving notice of the limit are erected at the proper place or along the proper part of the zone of the highway. Electronic speed-detecting devices shall not be used within 500 feet beyond any such sign in the direction of travel; if so used in violation of this Section, evidence obtained thereby shall be inadmissible in any prosecution for speeding. However, nothing in this Section prohibits the use of such electronic speed-detecting devices within 500 feet of a sign within a special school speed zone indicating such zone, conforming to the requirements of Section 11-605 of this Act, nor shall evidence obtained thereby be inadmissible in any prosecution for speeding provided the use of such device shall apply only to the enforcement of the speed limit in such special school speed zone.

625 ILCS 5/11-605 — Special speed limit while passing schools

Sec. 11-605. Special speed limit while passing schools.

(a) For the purpose of this Section, "school" means the following entities:

(1) A public or private primary or secondary school.

(2) A primary or secondary school operated by a religious institution.

(3) A public, private, or religious nursery school. On a school day when school children are present and so close thereto that a potential hazard exists because of the close proximity of the motorized traffic, no person shall drive a motor vehicle at a speed in excess of 20 miles per hour while passing a school zone or while traveling on a local, county, or State roadway on public school property or upon any public thoroughfare where children pass going to and from school. For the purpose of this Section, a school day begins at 6:30 a.m. and concludes at 4 p.m. This Section shall not be applicable unless appropriate signs are posted upon streets and highways under their respective jurisdiction and maintained by the Department, township, county, park district, city, village or incorporated town wherein the school zone is located. With regard to the special speed limit while passing schools, such signs shall give proper due warning that a school zone is being approached and shall indicate the school zone and the maximum speed limit in effect during school days when school children are present.

(b) (Blank).

(c) Nothing in this Chapter shall prohibit the use of electronic speed-detecting devices within 500 feet of signs within a special school speed zone indicating such zone, as defined in this Section, nor shall evidence obtained thereby be inadmissible in any prosecution for speeding provided the use of such device shall apply only to the enforcement of the speed limit in such special school speed zone.

(d) (Blank).

(e) Except as provided in subsection (e-5), a person who violates this Section is guilty of a petty offense. Violations of this Section are punishable with a minimum fine of \$150 for the first violation, a minimum fine of \$300 for the second or

subsequent violation, and community service in an amount determined by the court. (e-5) A person committing a violation of this Section is guilty of aggravated special speed limit while passing schools when he or she drives a motor vehicle at a speed that is:

(1) 26 miles per hour or more but less than 35 miles per hour in excess of the applicable special speed limit established under this Section or a similar provision of a local ordinance and is guilty of a Class B misdemeanor; or

(2) 35 miles per hour or more in excess of the applicable special speed limit established under this Section or a similar provision of a local ordinance and is guilty of a Class A misdemeanor.

(f) (Blank).

(g) (Blank).

(h) (Blank).

625 ILCS 5/11-605.1 — Special limit while traveling through a highway construction or maintenance speed zone

Sec. 11-605.1. Special limit while traveling through a highway construction or maintenance speed zone.

(a) A person may not operate a motor vehicle in a construction or maintenance speed zone at a speed in excess of the posted speed limit when workers are present. (a-5) A person may not operate a motor vehicle in a construction or maintenance speed zone at a speed in excess of the posted speed limit when workers are not present.

(b) Nothing in this Chapter prohibits the use of electronic speed-detecting devices within 500 feet of signs within a construction or maintenance speed zone indicating the zone, as defined in this Section, nor shall evidence obtained by use of those devices be inadmissible in any prosecution for speeding, provided the use of the device shall apply only to the enforcement of the speed limit in the construction or maintenance speed zone.

(c) As used in this Section, a "construction or maintenance speed zone" is an area in which the Department, Toll Highway Authority, or local agency has posted signage advising drivers that a construction or maintenance speed zone is being approached, or in which the Department, Authority, or local agency has posted a lower speed limit with a highway construction or maintenance speed zone special speed limit sign after determining that the preexisting established speed limit through a highway construction or maintenance project is greater than is reasonable or safe with respect to the conditions expected to exist in the construction or maintenance speed zone. If it is determined that the preexisting established speed limit is safe with respect to the conditions expected to exist in the construction or maintenance speed zone, additional speed limit signs which conform to the requirements of this subsection

(c) shall be posted. Highway construction or maintenance speed zone special speed limit signs shall be of a design approved by the Department. The signs must give proper due warning that a construction or maintenance speed zone is being approached and must indicate the maximum speed limit in effect. The signs also must state the amount of the minimum fine for a violation.

(d) Except as provided under subsection (d-5), a person who violates this Section is guilty of a petty offense. Violations of this Section are punishable with a minimum fine of \$250 for the first violation and a minimum fine of \$750 for the second or subsequent violation. (d-5) A person committing a violation of this Section is guilty of aggravated special speed limit while traveling through a highway construction or maintenance speed zone when he or she drives a motor vehicle at a speed that is:

(1) 26 miles per hour or more but less than 35 miles per hour in excess of the applicable special speed limit established under this Section or a similar provision of a local ordinance and is guilty of a Class B misdemeanor; or

(2) 35 miles per hour or more in excess of the applicable special speed limit established under this Section or a similar provision of a local ordinance and is guilty of a Class A misdemeanor.

(e) (Blank). (e-5) The Illinois State Police and the local county police department have concurrent jurisdiction over any violation of this Section that occurs on an interstate highway.

(f) The Transportation Safety Highway Hire-back Fund, which was created by Public Act 92-619, shall continue to be a special fund in the State treasury. Subject to appropriation by the General Assembly and approval by the Secretary, the Secretary of Transportation shall use all moneys in the Transportation Safety Highway Hire-back Fund to hire off-duty Illinois State Police officers to monitor construction or maintenance zones. (f-5) Each county shall create a Transportation Safety Highway Hire-back Fund. The county shall use the moneys in its Transportation Safety Highway Hire-back Fund to

hire off-duty county police officers to monitor construction or maintenance zones in that county on highways other than interstate highways. The county, in its discretion, may also use a portion of the moneys in its Transportation Safety Highway Hire-back Fund to purchase equipment for county law enforcement and fund the production of materials to educate drivers on construction zone safe driving habits.

(g) For a second or subsequent violation of this Section within 2 years of the date of the previous violation, the Secretary of State shall suspend the driver's license of the violator for a period of 90 days. This suspension shall only be imposed if the current violation of this Section and at least one prior violation of this Section occurred during a period when workers were present in the construction or maintenance zone.

625 ILCS 5/11-605.2 — Delegation of authority to set a special speed limit while traveling through highway construction or maintenance zones

Sec. 11-605.2. Delegation of authority to set a special speed limit while traveling through highway construction or maintenance zones.

(a) A local agency may delegate to its superintendent of highways the authority to set and post a reduced speed limit for a construction or maintenance zone, as defined in Section 11-605.1, under subsection

(c) of that Section.

(b) If a superintendent of highways sets a reduced speed limit for a construction or maintenance zone in accordance with this Section, the local agency must maintain a record that indicates:

- (1) the location of the construction or maintenance zone;
- (2) the reduced speed limit set and posted for the construction or maintenance zone; and
- (3) the dates during which the reduced speed limit was in effect.

625 ILCS 5/11-605.3 — Special traffic protections while passing parks and recreation facilities and areas

Sec. 11-605.3. Special traffic protections while passing parks and recreation facilities and areas.

(a) As used in this Section:

(1) "Park district" means the following entities: (A) any park district organized under the Park District Code; (B) any park district organized under the Chicago Park District Act; and (C) any municipality, county, forest district, school district, township, or other unit of local government that operates a public recreation department or public recreation facilities that has recreation facilities that are not on land owned by any park district listed in subparagraphs (A) and (B) of this subdivision (a)(1).

(2) "Park zone" means the recreation facilities and areas on any land owned or operated by a park district that are used for recreational purposes, including but not limited to: parks; playgrounds; swimming pools; hiking trails; bicycle paths; picnic areas; roads and streets; and parking lots.

(3) "Park zone street" means that portion of any State or local street or intersection, adjacent to a park zone, where the local unit of government has, by ordinance or resolution, designated and approved the street or intersection as a park zone street. If, before the effective date of this amendatory Act of the 94th General Assembly, a street already had a posted speed limit lower than 20 miles per hour, then the lower limit may be used for that park zone street.

(4) "Safety purposes" means the costs associated with: park zone safety education; the purchase, installation, and maintenance of signs, roadway painting, and caution lights mounted on park zone signs; and any other expense associated with park zones and park zone streets.

(b) On any day when children are present and within 50 feet of motorized traffic, a person may not drive a motor vehicle at a speed in excess of 20 miles per hour or any lower posted speed while traveling on a park zone street that has been designated for the posted reduced speed.

(c) On any day when children are present and within 50 feet of motorized traffic, any driver traveling on a park zone street who fails to come to a complete stop at a stop sign or red light, including a driver who fails to come to a complete stop at a red light before turning right onto a park zone street, is in violation of this Section.

(d) This Section does not apply unless appropriate signs are posted upon park zone streets maintained by the Department or by the unit of local government in which the park zone is located. With regard to the special speed limit on park zone streets, the signs must give proper due warning that a park zone is being approached and must indicate the

maximum speed limit on the park zone street.

(e) A first violation of this Section is a petty offense with a minimum fine of \$250. A second or subsequent violation of this Section is a petty offense with a minimum fine of \$500.

(f) (Blank).

(g) The Department shall, within 6 months of the effective date of this amendatory Act of the 94th General Assembly, design a set of standardized traffic signs for park zones and park zone streets, including but not limited to: "park zone", "park zone speed limit", and "warning: approaching a park zone". The design of these signs shall be made available to all units of local government or manufacturers at no charge, except for reproduction and postage.

625 ILCS 5/11-606 — Minimum speed regulation

Sec. 11-606. Minimum speed regulation.

(a) No person shall drive a motor vehicle at such a slow speed as to impede or block the normal and reasonable movement of traffic except when reduced speed is necessary for safe operation of his vehicle or in compliance with law.

(b) Whenever the Department, The Illinois State Toll Highway Authority, or a local authority described in Section 11-604 of this Chapter determines, upon the basis of an engineering and traffic investigation concerning a highway or street under its jurisdiction that slow vehicle speeds along any part or zone of such highway or street consistently impede the normal and reasonable movement of traffic, the Department, the Toll Highway Authority, or local authority (as appropriate) may determine and declare by proper regulation or ordinance a minimum speed limit below which no person shall drive except when necessary for safe operation of his vehicle or in compliance with law. A limit so determined and declared becomes effective when appropriate signs giving notice of the limit are erected along such part or zone of the highway or street.

625 ILCS 5/11-608 — Special speed limitation on elevated structures

Sec. 11-608. Special speed limitation on elevated structures.

(a) No person shall drive a vehicle over any bridge or other elevated structure constituting a part of a highway at a speed which is greater than the maximum speed which can be maintained with safety to such bridge or structure, when such structure is sign posted as provided in this Section.

(b) The Department upon request from any local authority shall, or upon its own initiative may, conduct an investigation of any bridge or other elevated structure constituting a part of a highway, and if it shall thereupon find that such structure cannot with safety to itself withstand vehicles traveling at the speed otherwise permissible under this Chapter, the Department shall determine and declare the maximum speed of vehicles which such structure can safely withstand, and shall cause or permit suitable signs stating such maximum speed to be erected and maintained before each end of such structure.

(c) Upon the trial of any person charged with a violation of this Section proof of the determination of the maximum speed by the Department and the existence of such signs is conclusive evidence of the maximum speed which can be maintained with safety to such bridge or structure.

625 ILCS 5/11-610 — Charging violations and rule in civil actions

Sec. 11-610. Charging violations and rule in civil actions.

(a) In every charge of violation of any speed regulation in this Article the complaint, and also the summons or notice to appear, shall specify the speed at which the defendant is alleged to have driven and the maximum speed applicable within the district or at the location.

(b) The provision of this Article declaring maximum speed limitations shall not be construed to relieve the plaintiff in any action from the burden of proving negligence on the part of the defendant as the proximate cause of a crash.

625 ILCS 5/11-611

Sec. 11-611. No person shall drive or operate any motor vehicle on any street or highway in this State where the minimum allowable speed on that street or highway, as posted, is greater than the maximum attainable operating speed of the vehicle. Maximum attainable operating speed shall be determined by the manufacturer of the vehicle and clearly published in the manual of specifications and operation, or it shall be determined by applicable rule and regulation promulgated by the Secretary of State.

625 ILCS 5/11-612 — Certain systems to record vehicle speeds prohibited

Sec. 11-612. Certain systems to record vehicle speeds prohibited. Except as authorized in the Automated Traffic Control Systems in Highway Construction or Maintenance Zones Act and Section 11-208.8 of this Code, no photographic, video, or other imaging system may be used in this State to record vehicle speeds for the purpose of enforcing any law or ordinance regarding a maximum or minimum speed limit unless a law enforcement officer is present at the scene and witnesses the event. No State or local governmental entity, including a home rule county or municipality, may use such a system in a way that is prohibited by this Section. The regulation of the use of such systems is an exclusive power and function of the State. This Section is a denial and limitation of home rule powers and functions under subsection (h) of Section 6 of Article VII of the Illinois Constitution.

625 ILCS 5/11-701 — Drive on right side of roadway - exceptions

Sec. 11-701. Drive on right side of roadway - exceptions.

(a) Upon all roadways of sufficient width a vehicle shall be driven upon the right half of the roadway, except as follows: 1. When overtaking and passing another vehicle proceeding in the same direction under the rules governing such movements; 2. When an obstruction exists making it necessary to drive to the left of the center of the roadway; provided, any person so doing shall yield the right-of-way to all vehicles traveling in the proper direction upon the unobstructed portion of the roadway within such distance as to constitute an immediate hazard; 3. Upon a roadway divided into 3 marked lanes for traffic under the rules applicable thereon; 4. Upon a roadway restricted to one way traffic; 5. Whenever there is a single track paved road on one side of the public highway and 2 vehicles meet thereon, the driver on whose right is the wider shoulder shall give the right-of-way on such pavement to the other vehicle.

(b) Upon a 2 lane roadway, providing for 2-way movement of traffic, a vehicle shall be driven in the right-hand lane available for traffic, or as close as practicable to the right hand curb or edge of the roadway, except when overtaking and passing another vehicle proceeding in the same direction or when preparing for a left turn at an intersection or into a private road or driveway.

(c) Upon any roadway having 4 or more lanes for moving traffic and providing for 2-way movement of traffic, no vehicle shall be driven to the left of the center line of the roadway, except when authorized by official traffic-control devices designating certain lanes to the left side of the center of the roadway for use by traffic not otherwise permitted to use such lanes, or except as permitted under Subsection

(a) 2. However, this Subsection shall not be construed as prohibiting the crossing of the center line in making a left turn into or from an alley, private road or driveway.

(d) Upon an Interstate highway or fully access controlled freeway, a vehicle may not be driven in the left lane, except when overtaking and passing another vehicle.

(e) Subsection

(d) of this Section does not apply:

- (1) when no other vehicle is directly behind the vehicle in the left lane;
- (2) when traffic conditions and congestion make it impractical to drive in the right lane;
- (3) when snow and other inclement weather conditions make it necessary to drive in the left lane;
- (4) when obstructions or hazards exist in the right lane;
- (5) when a vehicle changes lanes to comply with Sections 11-907, 11-907.5, and 11-908 of this Code;
- (6) when, because of highway design, a vehicle must be driven in the left lane when preparing to exit;
- (7) on toll highways when necessary to use I-Pass, and on toll and other highways when driving in the left lane is required to comply with an official traffic control device; or
- (8) to law enforcement vehicles, ambulances, and other emergency vehicles engaged in official duties and vehicles engaged in highway maintenance and construction operations.

625 ILCS 5/11-702 — Passing vehicles proceeding in opposite directions

Sec. 11-702. Passing vehicles proceeding in opposite directions. Drivers of vehicles proceeding in opposite directions shall pass each other to the right, and upon roadways having width for not more than one line of traffic in each direction each driver shall give to the other at least one-half of the main-traveled portion of the roadway as nearly as possible.

625 ILCS 5/11-703 — Overtaking a vehicle on the left

Sec. 11-703. Overtaking a vehicle on the left. The following rules govern the overtaking and passing of vehicles proceeding in the same direction, subject to those limitations, exceptions, and special rules otherwise stated in this Chapter:

- (a) The driver of a vehicle overtaking another vehicle proceeding in the same direction shall pass to the left thereof at a safe distance and shall not again drive to the right side of the roadway until safely clear of the overtaken vehicle. In no event shall such movement be made by driving off the pavement or the main traveled portion of the roadway.
- (b) Except when overtaking and passing on the right is permitted, the driver of an overtaken vehicle shall give way to the right in favor of the overtaking vehicle on audible signal and shall not increase the speed of his vehicle until completely passed by the overtaking vehicle.
- (c) The driver of a 2 wheeled vehicle may not, in passing upon the left of any vehicle proceeding in the same direction, pass upon the right of any vehicle proceeding in the same direction unless there is an unobstructed lane of traffic available to permit such passing maneuver safely.
- (d) The operator of a motor vehicle overtaking a bicycle or individual proceeding in the same direction on a highway shall:
 - (1) if another lane of traffic proceeding in the same direction is available, make a lane change into another available lane with due regard for safety and traffic conditions, if practicable and not prohibited by law, before overtaking or passing the bicycle or individual; and
 - (2) leave a safe distance, but not less than 3 feet, when passing the bicycle or individual and shall maintain that distance until safely past the overtaken bicycle or individual. (d-5) A driver of a motor vehicle overtaking a bicycle proceeding in the same direction on a highway may, subject to the provisions in paragraph
- (d) of this Section and Section 11-706 of this Code, pass to the left of the bicycle on a portion of the highway designated as a no-passing zone under Section 11-707 of this Code if the driver is able to overtake and pass the bicycle when:
 - (1) the bicycle is traveling at a speed of less than half of the posted speed limit of the highway;
 - (2) the driver is able to overtake and pass the bicycle without exceeding the posted speed limit of the highway; and
 - (3) there is sufficient distance to the left of the centerline of the highway for the motor vehicle to meet the overtaking and passing requirements under this Section.
- (e) A person driving a motor vehicle shall not, in a reckless manner, drive the motor vehicle unnecessarily close to, toward, or near a bicyclist, pedestrian, or a person riding a horse or driving an animal drawn vehicle.
- (f) Every person convicted of paragraph
- (e) of this Section shall be guilty of a Class A misdemeanor if the violation does not result in great bodily harm or permanent disability or disfigurement to another. If the violation results in great bodily harm or permanent disability or disfigurement to another, the person shall be guilty of a Class 3 felony.

625 ILCS 5/11-704 — When overtaking on the right is permitted

Sec. 11-704. When overtaking on the right is permitted.

- (a) The driver of a vehicle with 3 or more wheels may overtake and pass upon the right of another vehicle only under the following conditions: 1. When the vehicle overtaken is making or about to make a left turn. 2. Upon a roadway with unobstructed pavement of sufficient width for 2 or more lines of vehicles moving lawfully in the direction being traveled by the overtaking vehicle. 3. Upon a one-way street, or upon any roadway on which traffic is restricted to one direction of movement, where the roadway is free from obstructions and of sufficient width for 2 or more lines of moving vehicles.
- (b) The driver of a 2-wheeled vehicle may not pass upon the right of any other vehicle proceeding in the same direction unless the unobstructed pavement to the right of the vehicle being passed is of a width of not less than 8 feet. This subsection does not apply to devices propelled by human power.
- (c) The driver of a vehicle may overtake and pass another vehicle upon the right only under conditions permitting such movement in safety. Such movement shall not be made by driving off the roadway.

625 ILCS 5/11-705 — Limitations on overtaking on the left

Sec. 11-705. Limitations on overtaking on the left. No vehicle shall be driven to the left side of the center of the roadway in overtaking and passing another vehicle proceeding in the same direction unless authorized by the provisions of this

Chapter and unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken. In every event the overtaking vehicle must return to an authorized lane of travel as soon as practicable and in the event the passing movement involves the use of a lane authorized for vehicles approaching from the opposite direction, before coming within 200 feet of any vehicle approaching from the opposite direction.

625 ILCS 5/11-706 — Further limitations on driving to the left of center of roadway

Sec. 11-706. Further limitations on driving to the left of center of roadway.

(a) No vehicle shall be driven on the left side of the roadway under the following conditions: 1. When approaching or upon the crest of a grade or a curve in the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction. 2. When approaching within 100 feet of or traversing any intersection or railroad grade crossing. 3. When the view is obstructed upon approaching within 100 feet of any bridge, viaduct or tunnel.

(b) The limitations in sub-paragraphs 1, 2 and 3 do not apply upon a one-way roadway nor upon a roadway with unobstructed pavement of sufficient width for 2 or more lanes of moving traffic in each direction nor to the driver of a vehicle turning left into or from an alley, private road or driveway when such movements can be made with safety.

625 ILCS 5/11-707 — No-passing zones

Sec. 11-707. No-passing zones.

(a) The Department and local authorities are authorized to determine those portions of any highway under their respective jurisdictions where overtaking and passing or driving on the left of the roadway would be especially hazardous and may by appropriate signs or markings on the roadway indicate the beginning and end of such zones. Upon request of a local school board, the Department or local authority which has jurisdiction over the roadway in question, shall determine whether a hazardous situation exists at a particular location and warrants a no-passing zone. If the Department or local authority determines that a no-passing zone is warranted, the school board and the Department or local authority shall share equally the cost of designating the no-passing zone by signs and markings. When such signs or markings are in place and clearly visible to an ordinarily observant person every driver of a vehicle shall obey the directions thereof.

(b) Where signs or markings are in place to define a no-passing zone as set forth in paragraph

(a) no driver may at any time drive on the left side of the roadway within the no-passing zone or on the left side of any pavement striping designed to mark such no-passing zone throughout its length.

(c) This Section does not apply under the conditions described in Section 11-701

(a) 2, subsection (d-5) of Section 11-703, nor to the driver of a vehicle turning left into or from an alley, private road or driveway. The pavement striping designed to mark the no-passing zone may be crossed from the left hand lane for the purpose of completing a pass that was begun prior to the beginning of the zone in the driver's direction of travel.

(d) Special speed limit areas required under Section 11-605 of this Code in unincorporated areas only shall also be no-passing zones.

625 ILCS 5/11-708 — One-way roadways and rotary traffic islands

Sec. 11-708. One-way roadways and rotary traffic islands.

(a) The Department and local authorities, with respect to highways under their respective jurisdictions, may designate any highway, roadway, part of a roadway or specific lanes upon which vehicular traffic shall proceed in one direction at all or such times as shall be indicated by official traffic control devices.

(b) Upon a roadway so designated for one-way traffic, a vehicle shall be driven only in the direction designated at all or such times as shall be indicated by official traffic control devices.

(c) A vehicle passing around a rotary traffic island must be driven only to the right of such island.

(d) Whenever any highway has been divided into 2 or more roadways by leaving an intervening space or by a physical barrier or a clearly indicated dividing section so constructed as to impede vehicular traffic, every vehicle must be driven only upon the right-hand roadway unless directed or permitted to use another roadway by official traffic-control devices or police officers. No vehicle may be driven over, across, or within any such dividing space, barrier, or section, except

through an opening in the physical barrier, or dividing section, or space, or at a cross-over or intersection as established by public authority.

(e) The driver of a vehicle may turn left across a paved noncurbed dividing space unless prohibited by an official traffic-control device.

625 ILCS 5/11-709 — Driving on roadways laned for traffic

Sec. 11-709. Driving on roadways laned for traffic. Whenever any roadway has been divided into 2 or more clearly marked lanes for traffic the following rules in addition to all others consistent herewith shall apply.

(a) A vehicle shall be driven as nearly as practicable entirely within a single lane and shall not be moved from such lane until the driver has first ascertained that such movement can be made with safety.

(b) Upon a roadway which is divided into 3 lanes and provides for two-way movement of traffic, a vehicle shall not be driven in the center lane except when overtaking and passing another vehicle traveling in the same direction when such center lane is clear of traffic within a safe distance, or in preparation for making a left turn or where such center lane is at the time allocated exclusively to traffic moving in the same direction that the vehicle is proceeding and such allocation is designated by official traffic control devices.

(c) Official traffic control devices may be erected directing specific traffic to use a designated lane or designating those lanes to be used by traffic moving in a particular direction regardless of the center of the roadway and drivers of vehicles shall obey the directions of every such device. On multi-lane controlled access highways with 3 or more lanes in one direction or on any multi-laned highway with 2 or more lanes in one direction, the Department may designate lanes of traffic to be used by different types of motor vehicles. Drivers must obey lane designation signing except when it is necessary to use a different lane to make a turning maneuver.

(d) Official traffic control devices may be installed prohibiting the changing of lanes on sections of roadway and drivers of vehicles shall obey the directions of every such device.

(e) A person is not in violation of this Section if he or she is complying with Section 11-907, 11-907.5, or 11-908.

625 ILCS 5/11-709.1 — Driving on the shoulder

Sec. 11-709.1. Driving on the shoulder.

(a) Vehicles shall be driven on a roadway, and shall only be driven on the shoulder for the purpose of stopping or accelerating from a stop while merging into traffic. It shall be a violation of this Section if while merging into traffic and while on the shoulder, the vehicle passes any other vehicle on the roadway adjacent to it.

(b) This Section shall not apply to any authorized emergency vehicle, to any authorized transit bus, to any bicycle, to any farm tractor or implement of husbandry, to any service vehicle while engaged in maintenance of the highway or related work, or to any authorized vehicle within a designated construction zone.

625 ILCS 5/11-709.2 — Bus on shoulder program

Sec. 11-709.2. Bus on shoulder program.

(a) The use of specifically designated shoulders of roadways by transit buses may be authorized by the Department in cooperation with the Regional Transportation Authority and the Suburban Bus Division of the Regional Transportation Authority. The Department shall prescribe by rule which transit buses are authorized to operate on shoulders, as well as times and locations. The Department may erect signage to indicate times and locations of designated shoulder usage.

(b) (Blank).

(c) (Blank). (Text of Section after amendment by P.A. 104-457) Sec. 11-709.2. Bus on shoulder program.

(a) The use of specifically designated shoulders of roadways by transit buses may be authorized by the Department in cooperation with the Northern Illinois Transit Authority or a local mass transit system. The Department shall prescribe by rule which transit buses are authorized to operate on shoulders, as well as times and locations. The Department may erect signage to indicate times and locations of designated shoulder usage.

(b) (Blank).

(c) (Blank).

625 ILCS 5/11-709.3 — Transit buses on shoulders - toll highways

Sec. 11-709.3. Transit buses on shoulders - toll highways. The Illinois State Toll Highway Authority may allow transit buses to use the shoulders of highways under its jurisdiction.

625 ILCS 5/11-710 — Following too closely

Sec. 11-710. Following too closely.

(a) The driver of a motor vehicle shall not follow another vehicle more closely than is reasonable and prudent, having due regard for the speed of such vehicles and the traffic upon and the condition of the highway.

(b) The driver of any truck or motor vehicle drawing another vehicle when traveling upon a roadway outside of a business or residence district and which is following another truck or motor vehicle drawing another vehicle shall, whenever conditions permit, leave sufficient space so that an overtaking vehicle may enter and occupy such space without danger, except that this shall not prevent a truck or motor vehicle drawing another vehicle from overtaking and passing any vehicle or combination of vehicles.

(c) Motor vehicles being driven upon any roadway outside of a business or residence district in a caravan or motorcade whether or not towing other vehicles shall be so operated as to allow sufficient space between each such vehicle or combination of vehicles so as to enable any other vehicle to enter and occupy such space without danger. This provision shall not apply to funeral processions.

625 ILCS 5/11-711 — Restrictions on use of controlled access highway

Sec. 11-711. Restrictions on use of controlled access highway.

(a) No person may drive a vehicle onto or from any controlled access highway except at entrances and exits established by public authority.

(b) The Department with respect to any controlled access highway under its jurisdiction may prohibit the use of any such highways by pedestrians (except in authorized areas or facilities), bicycles, farm tractors, implements of husbandry, funeral processions, and any vehicle unable to maintain the minimum speed for which the highway is posted, or other non-motorized traffic or by any person operating a motor driven cycle. The Department may also prohibit the use of such highway to school buses picking up and discharging children and mail delivery vehicles picking up or delivering mail. The Department shall erect and maintain official signs on the controlled access highway on which such prohibitions are applicable and when so erected no person may disobey the restrictions stated on such sign.

625 ILCS 5/11-801 — Required position and method of turning

Sec. 11-801. Required position and method of turning.

(a) The driver of a vehicle intending to turn at an intersection shall do so as follows:

(1) Both the approach for a right turn and a right turn shall be made as close as practical to the right-hand curb or edge of the roadway.

(2) The driver of a vehicle intending to turn left at any intersection shall approach the intersection in the extreme left-hand lane lawfully available to traffic moving in the direction of travel of such vehicle, and after entering the intersection, the left turn shall be made so as to leave the intersection in a lane lawfully available to traffic moving in such direction upon the roadway being entered. Whenever practicable the left turn shall be made in that portion of the intersection to the left of the center of the intersection.

(3) The Department and local authorities in their respective jurisdictions may cause official traffic control devices to be placed within or adjacent to intersections and thereby require and direct that a different course from that specified in this Section be traveled by vehicles turning at an intersection, and when such devices are so placed no driver of a vehicle shall turn a vehicle at an intersection other than as directed and required by such devices.

(b) Two-way left turn lanes. Where a special lane for making left turns by drivers proceeding in opposite directions has been indicated by official traffic-control devices:

(1) A left turn shall not be made from any other lane.

(2) A vehicle shall not be driven in the lane except when preparing for or making a left turn from or into the roadway or when preparing for or making a U turn when otherwise permitted by law.

(c) When a motor vehicle and a mass transit bus are traveling in the same direction on the same multi-laned highway, street or road, the operator of the motor vehicle overtaking such bus, which is stopped at an intersection on the right side

of the roadway to receive or discharge passengers, shall pass to the left of the bus at a safe distance and shall not turn to the right in front of the bus at that intersection.

625 ILCS 5/11-802 — Limitations on U turns

Sec. 11-802. Limitations on U turns.

(a) The driver of any vehicle shall not turn such vehicle so as to proceed in the opposite direction unless such movement can be made in safety and without interfering with other traffic.

(b) No vehicle shall be turned so as to proceed in the opposite direction upon any curve, or upon the approach to or near the crest of a grade, where such vehicle cannot be seen by the driver of any other vehicle approaching from either direction within 500 feet.

625 ILCS 5/11-803 — Starting parked vehicle

Sec. 11-803. Starting parked vehicle. No person shall start a vehicle which is stopped, standing, or parked unless and until such movement can be made with reasonable safety.

625 ILCS 5/11-804 — When signal required

Sec. 11-804. When signal required.

(a) No person may turn a vehicle at an intersection unless the vehicle is in proper position upon the highway as required in Section 11-801 or turn a vehicle to enter a private road or driveway, or otherwise turn a vehicle from a direct course or move right or left upon a roadway unless and until such movement can be made with reasonable safety. No person may so turn any vehicle without giving an appropriate signal in the manner hereinafter provided.

(b) A signal of intention to turn right or left, change lanes, otherwise turn a vehicle from a direct course, move right or left upon a highway, or when required must be given continuously during not less than the last 100 feet traveled by the vehicle within a business or residence district, and such signal must be given continuously during not less than the last 200 feet traveled by the vehicle outside a business or residence district.

(c) No person may stop or suddenly decrease the speed of a vehicle without first giving an appropriate signal in the manner provided in this Chapter to the driver of any vehicle immediately to the rear when there is opportunity to give such a signal.

(d) The electric turn signal device required in Section 12-208 of this Act must be used and operated as prescribed in subsection

(b) of this Section to indicate an intention to turn, change lanes, turn a vehicle from a direct course, move right or left upon a highway, or start from a parallel parked position. Unless the conditions of subsection

(b) of this Section are met, an electric turn signal device required in Section 12-208 shall not be left in the on position and must not be flashed on one side only on a parked or disabled vehicle or flashed as a courtesy or "do pass" signal to operators of other vehicles approaching from the rear. However, such signal devices may be flashed simultaneously on both sides of a motor vehicle to indicate the presence of a vehicular traffic hazard requiring unusual care in approaching, overtaking and passing.

625 ILCS 5/11-805 — Signal by hand or arm or signal device

Sec. 11-805. Signal by hand or arm or signal device. Any stop or turn signal when required herein shall be given either by means of the hand and arm or by an electric turn signal device conforming to the requirements provided in Section 12-208 of this Act.

625 ILCS 5/11-806 — Method of giving hand and arm signals

Sec. 11-806. Method of giving hand and arm signals. All signals herein required given by hand and arm shall be given from the left side of the vehicle in the following manner and such signals shall indicate as follows: 1. Left turn - Hand and arm extended horizontally. 2. Right turn - Hand and arm extended upward, except that a person operating a bicycle may extend the right hand and arm horizontally and to the right side of the bicycle. 3. Stop or decrease of speed - Hand and arm extended downward.

625 ILCS 5/11-901 — Vehicles approaching or entering intersection

Sec. 11-901. Vehicles approaching or entering intersection.

(a) When 2 vehicles approach or enter an intersection from different roadways at approximately the same time, the driver of the vehicle on the left must yield the right-of-way to the vehicle on the right.

(b) The right-of-way rule declared in paragraph

(a) of this Section is modified at through highways and otherwise as stated in this Chapter.

625 ILCS 5/11-901.01 — Vehicles approaching or entering a "T" intersection

Sec. 11-901.01. Vehicles approaching or entering a "T" intersection. The driver of a vehicle approaching the intersection of a highway from a highway which terminates at the intersection, not otherwise regulated by this Act or controlled by traffic control signs or signals, shall stop, yield, and grant the privilege of immediate use of the intersection to another vehicle which has entered the intersection from the non-terminating highway or is approaching the intersection on the non-terminating highway in such proximity as to constitute a hazard and after stopping may proceed when the driver may safely enter the intersection without interference or collision with the traffic using the non-terminating highway.

625 ILCS 5/11-902 — Vehicle turning left

Sec. 11-902. Vehicle turning left. The driver of a vehicle intending to turn to the left within an intersection or into an alley, private road, or driveway shall yield the right-of-way to any vehicle approaching from the opposite direction which is so close as to constitute an immediate hazard, but said driver, having so yielded may proceed at such time as a safe interval occurs.

625 ILCS 5/11-903 — Vehicles entering stop crosswalk

Sec. 11-903. Vehicles entering stop crosswalk. Where stop signs or flashing red signals are in place at an intersection or flashing red signals are in place at a plainly marked crosswalk between intersections, drivers of vehicles shall stop before entering the nearest crosswalk and pedestrians within or entering the crosswalk at either edge of the roadway shall have the right-of-way over vehicles so stopped. Drivers of vehicles having so yielded the right-of-way to pedestrians entering or within the nearest crosswalk at an intersection shall also yield the right-of-way to pedestrians within any other crosswalk at the intersection.

625 ILCS 5/11-904 — Vehicle entering stop or yield intersection

Sec. 11-904. Vehicle entering stop or yield intersection.

(a) Preferential right-of-way at an intersection may be indicated by stop or yield signs as authorized in Section 11-302 of this Chapter.

(b) Except when directed to proceed by a police officer or traffic-control signal, every driver of a vehicle approaching a stop intersection indicated by a stop sign shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection. After having stopped, the driver shall yield the right-of-way to any vehicle which has entered the intersection from another roadway or which is approaching so closely on the roadway as to constitute an immediate hazard during the time when the driver is moving across or within the intersection, but said driver having so yielded may proceed at such time as a safe interval occurs.

(b) Except as provided in subsection (e), where a sidewalk is not available, any pedestrian walking along and upon a highway shall walk only on a shoulder, as far as practicable from the edge of the roadway.

(c) Except as provided in subsection (e), where neither a sidewalk nor a shoulder is available, any pedestrian walking along and upon a highway shall walk as near as practicable to an outside edge of a roadway, and, if on a two-way roadway, shall walk only on the left side of the roadway.

(d) Except as otherwise provided in this Chapter, any pedestrian upon a roadway shall yield the right-of-way to all vehicles upon the roadway.

Pedestrians wearing in-line speed skates upon a roadway may not impede or obstruct other vehicular traffic. Pedestrians wearing in-line speed skates shall be subject to all other rights and duties under this Article X. Nothing in this Code shall be construed to prevent a pedestrian wearing in-line speed skates from using a lane designated for bicycles.

625 ILCS 5/11-1008 — Right-of-way on sidewalks

Sec. 11-1008. Right-of-way on sidewalks. The driver of a vehicle shall yield the right-of-way to any pedestrian on a sidewalk.

625 ILCS 5/11-1009 — Pedestrians yield to authorized emergency vehicles

Sec. 11-1009. Pedestrians yield to authorized emergency vehicles. Upon the immediate approach of an authorized emergency vehicle making use of an audible signal and visual signals meeting the requirements of Section 12-217 of this Chapter, or of a police vehicle properly and lawfully making use of an audible signal only, every pedestrian shall yield the right-of-way to the authorized emergency vehicle.

625 ILCS 5/11-1010 — Pedestrians under influence of alcohol or drugs

(a) No pedestrian shall enter or remain upon any bridge or approach thereto beyond the bridge signal, gate, or barrier after a bridge operation signal indication has been given.

(b) No pedestrian shall pass through, around, over, or under any crossing gate or barrier at a railroad grade crossing or bridge while such gate or barrier is closed or is being opened or closed.

(c) No pedestrian shall enter, remain upon or traverse over a railroad grade crossing or pedestrian walkway crossing a railroad track when an audible bell or clearly visible electric or mechanical signal device is operational giving warning of the presence, approach, passage, or departure of a railroad train or railroad track equipment.

(d) A violation of any part of this Section is a petty offense for which a \$250 fine shall be imposed for a first violation, and a \$500 fine shall be imposed for a second or subsequent violation. The court may impose 25 hours of community service in place of the \$250 fine for a first violation.

(e) Local authorities shall impose fines as established in subsection

(d) for pedestrians who fail to obey signals indicating the presence, approach, passage, or departure of a train or railroad track equipment.

625 ILCS 5/11-1101 — Passing street car on left

Sec. 11-1101. Passing street car on left.

(a) The driver of a vehicle shall not overtake and pass upon the left nor drive upon the left side of any street car proceeding in the same direction, whether such street car is actually in motion or temporarily at rest, except: 1. When so directed by a police officer; 2. When upon a one-way street; or 3. When upon a street where the tracks are so located as to prevent compliance with the section.

(b) The driver of any vehicle when permitted to overtake and pass upon the left of a street car which has stopped for the purpose of receiving or discharging any passenger shall reduce speed and may proceed only upon exercising due caution for pedestrians and shall accord pedestrians the right-of-way when required by other Sections of this Chapter.

625 ILCS 5/11-1102 — Passing street car on right

Sec. 11-1102. Passing street car on right. The driver of a vehicle overtaking upon the right any street car stopped or about to stop for the purpose of receiving or discharging any passenger shall stop such vehicle at least ten feet to the rear of the nearest running board or door of such street car and thereupon remain standing until all passengers have boarded such car or upon alighting have reached a place of safety, except that where a safety zone has been established a vehicle need not be brought to a stop before passing any such street car but may proceed past such car at a speed not greater than is reasonable and proper and with due caution for the safety of pedestrians.

625 ILCS 5/11-1103 — Driving on street car tracks

Sec. 11-1103. Driving on street car tracks.

(a) The driver of any vehicle proceeding upon any street car track in front of a street car upon a street shall remove such vehicle from the track as soon as practical after signal from the operator of said street car.

(b) The driver of a vehicle upon overtaking and passing a street car shall not turn in front of such street car so as to interfere with or impede its movement.

625 ILCS 5/11-1104 — Driving through safety zone prohibited

Sec. 11-1104. Driving through safety zone prohibited. No vehicle shall at any time be driven through or within a safety zone.

625 ILCS 5/11-1201 — Obedience to signal indicating approach of train or railroad track equipment

Sec. 11-1201. Obedience to signal indicating approach of train or railroad track equipment.

(a) Whenever any person driving a vehicle approaches a railroad grade crossing where the driver is not always required to stop, the person must exercise due care and caution as the existence of a railroad track across a highway is a warning of danger, and under any of the circumstances stated in this Section, the driver shall stop within 50 feet but not less than 15 feet from the nearest rail of the railroad and shall not proceed until the tracks are clear and he or she can do so safely. The foregoing requirements shall apply when: 1. A clearly visible electric or mechanical signal device gives warning of the immediate approach of a railroad train or railroad track equipment; 2. A crossing gate is lowered or a human flagman gives or continues to give a signal of the approach or passage of a railroad train or railroad track equipment; 3. A railroad train or railroad track equipment approaching a highway crossing emits a warning signal and such railroad train or railroad track equipment, by reason of its speed or nearness to such crossing, is an immediate hazard; 4. An approaching railroad train or railroad track equipment is plainly visible and is in hazardous proximity to such crossing; 5. A railroad train or railroad track equipment is approaching so closely that an immediate hazard is created. (a-1) Whenever any person driving a commercial motor vehicle, as defined in Section 6-500 of this Code, approaches a railroad grade crossing where the driver is not always required to stop, the person must exercise due care and caution as the existence of a railroad track across a highway is a warning of danger, and under any of the circumstances stated in this Section, the driver shall stop within 50 feet but not less than 15 feet from the nearest rail of the railroad and shall not proceed until the tracks are clear and he or she can do so safely. The foregoing requirements shall apply when: 1. A clearly visible electric or mechanical signal device gives warning of the immediate approach of a railroad train or railroad track equipment; 2. A crossing gate is lowered or a human flagman gives or continues to give a signal of the approach or passage of a railroad train or railroad track equipment; 3. A railroad train or railroad track equipment approaching a highway crossing emits a warning signal and such railroad train or railroad track equipment, by reason of its speed or nearness to such crossing, is an immediate hazard; 4. An approaching railroad train or railroad track equipment is plainly visible and is in hazardous proximity to such crossing; 5. A railroad train or railroad track equipment is approaching so closely that an immediate hazard is created. (a-5) Whenever a person driving a commercial motor vehicle, as defined in Section 6-500 of this Code, approaches a railroad grade crossing where the driver is not always required to stop but must slow down, the person must exercise due care and caution as the existence of a railroad track across a highway is a warning of danger, and under any of the circumstances stated in this Section, the driver shall slow down within 50 feet but not less than 15 feet from the nearest rail of the railroad and shall not proceed until he or she checks that the tracks are clear of an approaching train or railroad track equipment.

(b) No person shall drive any vehicle through, around or under any crossing gate or barrier at a railroad crossing while such gate or barrier is closed or is being opened or closed.

(c) The Department, and local authorities with the approval of the Department, are hereby authorized to designate particularly dangerous highway grade crossings of railroads and to erect stop signs thereat. When such stop signs are erected the driver of any vehicle shall stop within 50 feet but not less than 15 feet from the nearest rail of such railroad and shall proceed only upon exercising due care.

(d) At any railroad grade crossing provided with railroad crossbuck signs, without automatic, electric, or mechanical signal devices, crossing gates, or a human flagman giving a signal of the approach or passage of a train or railroad track equipment, the driver of a vehicle shall in obedience to the railroad crossbuck sign, yield the right-of-way and slow down to a speed reasonable for the existing conditions and shall stop, if required for safety, at a clearly marked stopped line, or if no stop line, within 50 feet but not less than 15 feet from the nearest rail of the railroad and shall not proceed until he or she can do so safely. If a driver is involved in a collision at a railroad crossing or interferes with the movement of a train or railroad track equipment after driving past the railroad crossbuck sign, the collision or interference is prima facie evidence of the driver's failure to yield right-of-way. (d-1) No person shall, while driving a commercial motor vehicle, fail to negotiate a railroad-highway grade railroad crossing because of insufficient undercarriage clearance. (d-5) (Blank).

(e) It is unlawful to violate any part of this Section.

(1) A violation of this Section is a petty offense for which a fine of \$500 shall be imposed for a first violation, and a fine of \$1,000 shall be imposed for a second or subsequent violation. The court may impose 25 hours of community service in

place of the \$500 fine for the first violation.

(2) For a second or subsequent violation, the Secretary of State may suspend the driving privileges of the offender for a minimum of 6 months.

(f) Corporate authorities of municipal corporations regulating operators of vehicles that fail to obey signals indicating the presence, approach, passage, or departure of a train or railroad track equipment shall impose fines as established in subsection

(e) of this Section.

625 ILCS 5/11-1201.1 — Automated railroad crossing enforcement system

Sec. 11-1201.1. Automated railroad crossing enforcement system.

(a) For the purposes of this Section, an automated railroad grade crossing enforcement system is a system in a municipality or county operated by a governmental agency that produces a recorded image of a motor vehicle's violation of a provision of this Code or local ordinance and is designed to obtain a clear recorded image of the vehicle and vehicle's license plate. The recorded image must also display the time, date, and location of the violation. As used in this Section, "recorded images" means images recorded by an automated railroad grade crossing enforcement system on:

(1) 2 or more photographs;

(2) 2 or more microphotographs;

(3) 2 or more electronic images; or

(4) a video recording showing the motor vehicle and, on at least one image or portion of the recording, clearly identifying the registration plate or digital registration plate number of the motor vehicle.

(b) The Illinois Commerce Commission may, in cooperation with a local law enforcement agency, establish in any county or municipality an automated railroad grade crossing enforcement system at any railroad grade crossing equipped with a crossing gate designated by local authorities. Local authorities desiring the establishment of an automated railroad crossing enforcement system must initiate the process by enacting a local ordinance requesting the creation of such a system. After the ordinance has been enacted, and before any additional steps toward the establishment of the system are undertaken, the local authorities and the Commission must agree to a plan for obtaining, from any combination of federal, State, and local funding sources, the moneys required for the purchase and installation of any necessary equipment. (b-1) (Blank).

(c) For each violation of Section 11-1201 of this Code or a local ordinance recorded by an automated railroad grade crossing enforcement system, the county or municipality having jurisdiction shall issue a written notice of the violation to the registered owner of the vehicle as the alleged violator. The notice shall be delivered to the registered owner of the vehicle, by mail, no later than 90 days after the violation. The notice shall include:

(1) the name and address of the registered owner of the vehicle;

(2) the registration number of the motor vehicle involved in the violation;

(3) the violation charged;

(4) the location where the violation occurred;

(5) the date and time of the violation;

(6) a copy of the recorded images;

(7) the amount of the civil penalty imposed and the date by which the civil penalty should be paid;

(8) a statement that recorded images are evidence of a violation of a railroad grade crossing;

(9) a warning that failure to pay the civil penalty or to contest liability in a timely manner is an admission of liability; and

(10) a statement that the person may elect to proceed by: (A) paying the fine; or (B) challenging the charge in court, by mail, or by administrative hearing.

(d) (Blank). (d-1) (Blank). (d-2) (Blank).

(e) Based on inspection of recorded images produced by an automated railroad grade crossing enforcement system, a notice alleging that the violation occurred shall be evidence of the facts contained in the notice and admissible in any proceeding alleging a violation under this Section. (e-1) Recorded images made by an automated railroad grade crossing

enforcement system are confidential and shall be made available only to the alleged violator and governmental and law enforcement agencies for purposes of adjudicating a violation of this Section, for statistical purposes, or for other governmental purposes. Any recorded image evidencing a violation of this Section, however, may be admissible in any proceeding resulting from the issuance of the citation. (e-2) The court or hearing officer may consider the following in the defense of a violation:

(1) that the motor vehicle or registration plates or digital registration plates of the motor vehicle were stolen before the violation occurred and not under the control of or in the possession of the owner or lessee at the time of the violation; (1.5) that the motor vehicle was hijacked before the violation occurred and not under the control of or in the possession of the owner or lessee at the time of the violation;

(2) that the driver of the motor vehicle received a Uniform Traffic Citation from a police officer at the time of the violation for the same offense;

(3) any other evidence or issues provided by municipal or county ordinance. (e-3) To demonstrate that the motor vehicle was hijacked or the motor vehicle or registration plates or digital registration plates were stolen before the violation occurred and were not under the control or possession of the owner or lessee at the time of the violation, the owner or lessee must submit proof that a report concerning the motor vehicle or registration plates was filed with a law enforcement agency in a timely manner.

(f) Rail crossings equipped with an automatic railroad grade crossing enforcement system shall be posted with a sign visible to approaching traffic stating that the railroad grade crossing is being monitored, that citations will be issued, and the amount of the fine for violation.

(g) The compensation paid for an automated railroad grade crossing enforcement system must be based on the value of the equipment or the services provided and may not be based on the number of citations issued or the revenue generated by the system.

(h) (Blank).

(i) If any part or parts of this Section are held by a court of competent jurisdiction to be unconstitutional, the unconstitutionality shall not affect the validity of the remaining parts of this Section. The General Assembly hereby declares that it would have passed the remaining parts of this Section if it had known that the other part or parts of this Section would be declared unconstitutional.

(j) Penalty. A civil fine of \$250 shall be imposed for a first violation of this Section, and a civil fine of \$500 shall be imposed for a second or subsequent violation of this Section.

625 ILCS 5/11-1201.5

Sec. 11-1201.5. (Repealed).

Sec. 11-1202. Certain vehicles must stop at all railroad grade crossings.

(a) The driver of any of the following vehicles shall, before crossing a railroad track or tracks at grade, stop such vehicle within 50 feet but not less than 15 feet from the nearest rail and, while so stopped, shall listen and look for the approach of a train or railroad track equipment and shall not proceed until such movement can be made with safety: 1. Any second division vehicle carrying passengers for hire; 2. Any bus that meets all of the special requirements for school buses in Sections 12-801, 12-803, and 12-805 of this Code. The driver of the bus, in addition to complying with all other applicable requirements of this subsection (a), must also

(Blank). (a-1) The driver of any of the following vehicles shall, before crossing a railroad track or tracks at grade, stop such vehicle within 50 feet but not less than 15 feet from the nearest rail and, while so stopped, shall listen and look for the approach of a train or railroad track equipment and shall not proceed until such movement can be made with safety: 1. A commercial motor vehicle, as defined in Section 6-500 of this Code, carrying passengers for hire; 2. Any bus that meets all of the special requirements for school buses in Sections 12-801, 12-803, and 12-805 of this Code and is designed to transport 16 or more persons, including the driver. The driver of the bus, in addition to complying with all other applicable requirements of this subsection (a-1), must also

(i) turn off all noise producing accessories, including heater blowers, defroster fans, auxiliary fans, and radios, and (ii) open the service door and driver's window, before crossing a railroad track or tracks; 3. Any other vehicle which is required by federal or State law to be placarded when carrying as a cargo or part of a cargo hazardous material as defined in the Illinois Hazardous Materials Transportation Act. After stopping as required in this Section, the driver shall proceed only in a gear not requiring a change of gears during the crossing, and the driver shall not shift gears while crossing the track or tracks.

(b) This Section shall not apply: 1. At any railroad grade crossing where traffic is controlled by a police officer or flagperson; 2. At any railroad grade crossing controlled by a functioning traffic-control signal transmitting a green indication which, under law, permits the vehicle to proceed across the railroad tracks without slowing or stopping, except that subsection

(a) shall apply to any school bus; 3. At any streetcar grade crossing within a business or residence district; or 4. At any abandoned, industrial or spur track railroad grade crossing designated as exempt by the Illinois Commerce Commission and marked with an official sign as authorized in the State Manual on Uniform Traffic Control Devices for Streets and Highways.

Sec. 11-1203. Moving heavy equipment at railroad grade crossing.

(a) No person shall operate or move any crawler-type tractor, power shovel, derrick, roller, or any equipment or structure having a normal operating speed of 10 or less miles per hour, or, for such equipment with 18 feet or less distance between two adjacent axles, having a vertical body or load clearance of less than 9 inches above a level surface, or, for such equipment with more than 18 feet between two adjacent axles, having a vertical body or load clearance of less than 1/2 inch per foot of distance between such adjacent axles above a level surface upon or across any tracks at a railroad grade crossing without first complying with this Section.

(b) Notice of any such intended crossing shall be given to a superintendent of such railroad and a reasonable time be given to such railroad to provide proper protection at such crossing.

(c) Before making any such crossing the person operating or moving any such vehicle or equipment shall first stop the same not less than 15 feet nor more than 50 feet from the nearest rail of such railway and while so stopped shall listen and look in both directions along such track for any approaching train or railroad track equipment and for signals indicating the approach of a train or railroad track equipment, and shall not proceed until the crossing can be made safely.

(d) No such crossing shall be made when warning is given by automatic signal or crossing gates or a flagman or otherwise of the immediate approach of a railroad train, railroad track equipment, or car.

625 ILCS 5/11-1204 — Stop and yield signs

Sec. 11-1204. Stop and yield signs.

(a) Preferential right-of-way at an intersection may be indicated by stop signs or yield signs as authorized in Section 11-302 of this Act.

(b) Except when directed to proceed by a police officer or traffic control signal, every driver of a vehicle and every motorman of a streetcar approaching a stop intersection indicated by a stop sign shall stop at a clearly marked stop line, but if none, before entering the crosswalk on the near side of the intersection, or if none, then at the point nearest the intersection roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection.

(c) The driver of a vehicle approaching a yield sign if required for safety to stop shall stop before entering the crosswalk on the near side of the intersection or, in the event there is no crosswalk, at a clearly marked stop line, but if none, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway.

625 ILCS 5/11-1205 — Emerging from alley, building, or private road or driveway

Sec. 11-1205. Emerging from alley, building, or private road or driveway. The driver of a vehicle emerging from an alley, building, private road or driveway within an urban area shall stop such vehicle immediately prior to driving into the sidewalk area extending across such alley, building entrance, road or driveway, or in the event there is no sidewalk area, shall stop at the point nearest the street to be entered where the driver has a view of approaching traffic thereon, and shall yield the right-of-way to any pedestrian as may be necessary to avoid collision, and upon entering the roadway shall

yield the right-of-way to all vehicles approaching on such roadway.

625 ILCS 5/11-1301 — Stopping, standing or parking outside of business or residence district

Sec. 11-1301. Stopping, standing or parking outside of business or residence district.

(a) Outside a business or residence district, no person shall stop, park or leave standing any vehicle, whether attended or unattended, upon the roadway when it is practicable to stop, park or so leave such vehicle off the roadway, but in every event an unobstructed width of the highway opposite a standing vehicle shall be left for the free passage of other vehicles and a clear view of such stopped vehicle shall be available from a distance of 200 feet in each direction upon such highway.

(b) The Department with respect to highways under its jurisdiction or for the maintenance of which it is responsible may place signs prohibiting or restricting the stopping, standing or parking of vehicles on any highway where in its opinion such stopping, standing or parking is dangerous to those using the highway or where the stopping, standing or parking of vehicles would unduly interfere with the free movement of traffic thereon. Any such regulations adopted by the Department regarding the stopping, standing or parking of vehicles upon any specific street, streets or highways become effective at the time of the erection of appropriate signs indicating such regulations. Any such signs may be erected either by the Department or by a local authority with the approval of the Department.

(c) This Section, Section 11-1303 and Section 11-1304 shall not apply to the driver of any vehicle which is disabled in such manner and to such extent that it is impossible to avoid stopping and temporarily leaving the vehicle in such position.

(d) Any second division vehicle used exclusively for the collection of garbage, refuse, or recyclable material may stop or stand on the road in a business, rural, or residential district for the sole purpose of collecting garbage, refuse, or recyclable material. The vehicle, in addition to having its hazard lights lighted at all times that it is engaged in stopping or standing, shall also use its amber oscillating, rotating, or flashing light or lights as authorized under paragraph 12 of subsection

(b) of Section 12-215, if so equipped.

(a) The Secretary of State shall provide for, by administrative rules, the design, size, color, and placement of a person with disabilities motorist decal or device and shall provide for, by administrative rules, the content and form of an application for a person with disabilities motorist decal or device, which shall be used by local authorities in the issuance thereof to a person with temporary disabilities, provided that the decal or device is valid for no more than 90 days, subject to renewal for like periods based upon continued disability, and further provided that the decal or device clearly sets forth the date that the decal or device expires. The application shall include the requirement of an Illinois Identification Card number or a State of Illinois driver's license number or, if the applicant does not have an identification card or driver's license number, then the applicant may use a valid identification number issued by a branch of the U.S. military or a federally issued Medicare or Medicaid identification number. This decal or device may be used by the authorized holder to designate and identify a vehicle not owned or displaying a registration plate or digital registration plate as provided in Sections 3-609 and 3-616 of this Act to designate when the vehicle is being used to transport said person or persons with disabilities, and thus is entitled to enjoy all the privileges that would be afforded a person with disabilities licensed vehicle. Person with disabilities decals or devices issued and displayed pursuant to this Section shall be recognized and honored by all local authorities regardless of which local authority issued such decal or device. The decal or device shall be issued only upon a showing by adequate documentation that the person for whose benefit the decal or device is to be used has a disability as defined in Section 1-159.1 of this Code and the disability is temporary. (a-5) The Secretary may provide a disabilities motorist decal or device to an expectant mother during her third trimester. An application under this subsection is subject to application requirements under subsection (a). The decal or device shall be valid for no more than 90 days, and shall clearly set forth the date that the decal or device expires. The decal or device shall be issued only upon a showing by adequate documentation that the expectant mother has entered her third trimester.

(c) The Secretary of State may, pursuant to Section 3-616(c), issue a person with disabilities parking decal or device to a person with disabilities as defined by Section 1-159.1. Any person with disabilities parking decal or device issued by the Secretary of State shall be registered to that person with disabilities in the form to be prescribed by the Secretary of State. The person with disabilities parking decal or device shall not display that person's address. One additional decal or device may be issued to an applicant upon his or her written request and with the approval of the Secretary of State. The written request must include a justification of the need for the additional decal or device. (c-5) Beginning January 1, 2014, the Secretary shall provide by administrative rule for the issuance of a separate and distinct parking decal or device for persons with disabilities as defined by Section 1-159.1 of this Code and who meet the qualifications under this subsection. The authorized holder of a decal or device issued under this subsection (c-5) shall be exempt from the payment of fees generated by parking in a metered space, a parking area subject to paragraph

(10) of subsection

(i) has been issued registration plates or digital registration plates under subsection

(a) of Section 3-609 or Section 3-616 of this Code or a special decal or device under this Section, (ii) holds a valid Illinois driver's license, and (iii) is unable to do one or more of the following:

(1) manage, manipulate, or insert coins, or obtain tickets or tokens in parking meters or ticket machines in parking lots, due to the lack of fine motor control of both hands;

(2) reach above his or her head to a height of 42 inches from the ground, due to a lack of finger, hand, or upper extremity strength or mobility;

(3) approach a parking meter due to his or her use of a wheelchair or other device for mobility; or

(4) walk more than 20 feet due to an orthopedic, neurological, cardiovascular, or lung condition in which the degree of debilitation is so severe that it almost completely impedes the ability to walk. The application for a meter-exempt parking decal or device shall contain a statement certified by a licensed physician, physician assistant, or advanced practice registered nurse attesting to the permanent nature of the applicant's condition and verifying that the applicant meets the physical qualifications specified in this subsection (c-5). Notwithstanding the requirements of this subsection (c-5), the Secretary shall issue a meter-exempt decal or device to a person who has been issued registration plates or digital registration plates under Section 3-616 of this Code or a special decal or device under this Section, if the applicant is the parent or guardian of a person with disabilities who is under 18 years of age and incapable of driving.

(e) A person classified as a veteran under subsection

625 ILCS 5/11-1301.3 — Unauthorized use of parking places reserved for persons with disabilities

Sec. 11-1301.3. Unauthorized use of parking places reserved for persons with disabilities.

(a) It shall be prohibited to park any motor vehicle which is not properly displaying registration plates or decals issued to a person with disabilities, as defined by Section 1-159.1, pursuant to Sections 3-616, 11-1301.1 or 11-1301.2, or to a veteran with a disability pursuant to Section 3-609 of this Act, as evidence that the vehicle is operated by or for a person with disabilities or a veteran with a disability, in any parking place, including any private or public offstreet parking facility, specifically reserved, by the posting of an official sign as designated under Section 11-301, for motor vehicles displaying such registration plates. It shall be prohibited to park any motor vehicle in a designated access aisle adjacent to any parking place specifically reserved for persons with disabilities, by the posting of an official sign as designated under Section 11-301, for motor vehicles displaying such registration plates. When using the parking privileges for persons with disabilities, the parking decal or device must be displayed properly in the vehicle where it is clearly visible to law enforcement personnel, either hanging from the rearview mirror or placed on the dashboard of the vehicle in clear view. Disability license plates and parking decals and devices are not transferable from person to person. Proper usage of the disability license plate or parking decal or device requires the authorized holder to be present and enter or exit the vehicle at the time the parking privileges are being used. It is a violation of this Section to park in a space reserved for a person with disabilities if the authorized holder of the disability license plate or parking decal or device does not enter or exit the vehicle at the time the parking privileges are being used. Any motor vehicle properly displaying a disability license plate or a parking decal or device containing the International symbol of access issued to persons with disabilities by any local authority, state, district, territory or foreign country shall be recognized by State and local authorities as a valid license

plate or device and receive the same parking privileges as residents of this State. (a-1) An individual with a vehicle displaying disability license plates or a parking decal or device issued to a qualified person with a disability under Sections 3-616, 11-1301.1, or 11-1301.2 or to a veteran with a disability under Section 3-609 is in violation of this Section if

(i) the person using the disability license plate or parking decal or device is not the authorized holder of the disability license plate or parking decal or device or is not transporting the authorized holder of the disability license plate or parking decal or device to or from the parking location and (ii) the person uses the disability license plate or parking decal or device to exercise any privileges granted through the disability license plate or parking decals or devices under this Code. (a-2) A driver of a vehicle displaying disability license plates or a parking decal or device issued to a qualified person with a disability under Section 3-616, 11-1301.1, or 11-1301.2 or to a veteran with a disability under Section 3-609 is in violation of this Section if

(i) the person to whom the disability license plate or parking decal or device was issued is deceased and (ii) the driver uses the disability license plate or parking decal or device to exercise any privileges granted through a disability license plate or parking decal or device under this Code.

(b) Any person or local authority owning or operating any public or private offstreet parking facility may, after notifying the police or sheriff's department, remove or cause to be removed to the nearest garage or other place of safety any vehicle parked within a stall or space reserved for use by a person with disabilities which does not display person with disabilities registration plates or a special decal or device as required under this Section.

(c) Any person found guilty of violating the provisions of subsection

(a) shall be fined \$250 in addition to any costs or charges connected with the removal or storage of any motor vehicle authorized under this Section; but municipalities by ordinance may impose a fine up to \$350 and shall display signs indicating the fine imposed. If the amount of the fine is subsequently changed, the municipality shall change the sign to indicate the current amount of the fine. It shall not be a defense to a charge under this Section that either the sign posted pursuant to this Section or the intended accessible parking place does not comply with the technical requirements of Section 11-301, Department regulations, or local ordinance if a reasonable person would be made aware by the sign or notice on or near the parking place that the place is reserved for a person with disabilities. (c-1) Any person found guilty of violating the provisions of subsection (a-1) a first time shall be fined \$600. Any person found guilty of violating subsection (a-1) a second or subsequent time shall be fined \$1,000. Any person who violates subsection (a-2) is guilty of a Class A misdemeanor and shall be fined \$2,500. The circuit clerk shall distribute 50% of the fine imposed on any person who is found guilty of or pleads guilty to violating this Section, including any person placed on court supervision for violating this Section, to the law enforcement agency that issued the citation or made the arrest. If more than one law enforcement agency is responsible for issuing the citation or making the arrest, the 50% of the fine imposed shall be shared equally. If an officer of the Secretary of State Department of Police arrested a person for a violation of this Section, 50% of the fine imposed shall be deposited into the Secretary of State Police Services Fund.

(d) Local authorities shall impose fines as established in subsections

(c) and (c-1) for violations of this Section.

(e) As used in this Section, "authorized holder" means an individual issued a disability license plate under Section 3-616 of this Code, an individual issued a parking decal or device under Section 11-1301.2 of this Code, or an individual issued a license plate for veterans with disabilities under Section 3-609 of this Code.

(f) Any person who commits a violation of subsection (a-1) or a similar provision of a local ordinance may have his or her driving privileges suspended or revoked by the Secretary of State for a period of time determined by the Secretary of State. Any person who commits a violation of subsection (a-2) or a similar provision of a local ordinance shall have his or her driving privileges revoked by the Secretary of State. The Secretary of State may also suspend or revoke the disability license plates or parking decal or device for a period of time determined by the Secretary of State.

This State shall grant the same parking privileges which are granted to residents of this State with disabilities to any non-resident whose motor vehicle is licensed in another state, district, territory or foreign country if such vehicle displays the International symbol of access or a distinguishing insignia on license plates or parking device issued in accordance with the laws of the non-resident's state, district, territory or foreign country.

(b) The Secretary may issue a one-time decal or device to any non-resident of this State who is a person with disabilities and who is displaced from another jurisdiction due to a national disaster as declared by the federal government. If, however, there is no such bus stop, parking lane or shoulder within 50 feet of the residence or temporary residence of the passenger transported or to be transported by the bus or within 50 feet of the religious facility, the driver may stop the bus on the pavement of the highway after activating unison amber warning lights for not less than 200 feet before the bus is brought to a stop and while passengers are being loaded or unloaded, or if the bus is equipped as a school bus and meets the requirements of Article VIII of this Act, by complying with the subsections (b),

(b) or (b-5) of this Section or a similar provision of a local ordinance shall be subject to a mandatory fine of \$500 or 50 hours of community service. Any person given a disposition of court supervision for violating subsection

(b) or (b-5) of this Section or a similar provision of a local ordinance shall also be subject to a mandatory fine of \$500 or 50 hours of community service. Upon a second or subsequent violation, in addition to the suspensions authorized by this Section, the person shall be subject to a mandatory fine of \$500 and 50 hours community service. The Secretary may also grant, for the duration of any suspension issued under this subsection, a restricted driving permit granting the privilege of driving a motor vehicle between the driver's residence and place of employment or within other proper limits that the Secretary of State shall find necessary to avoid any undue hardship. A restricted driving permit issued hereunder shall be subject to cancellation, revocation, and suspension by the Secretary of State in like manner and for like cause as a driver's license may be cancelled, revoked, or suspended; except that a conviction upon one or more offenses against laws or ordinances regulating the movement of traffic shall be deemed sufficient cause for the revocation, suspension, or cancellation of the restricted driving permit. The Secretary of State may, as a condition to the issuance of a restricted driving permit, require the applicant to participate in a designated driver remedial or rehabilitative program. Any conviction for a violation of this subsection shall be included as an offense for the purposes of determining suspension action under any other provision of this Code, provided however, that the penalties provided under this subsection shall be imposed unless those penalties imposed under other applicable provisions are greater.

625 ILCS 5/11-1426

Sec. 11-1426. (Repealed).

625 ILCS 5/11-1426.1 — Operation of non-highway vehicles on streets, roads, and highways

Sec. 11-1426.1. Operation of non-highway vehicles on streets, roads, and highways.

(a) As used in this Section, "non-highway vehicle" means a motor vehicle not specifically designed to be used on a public highway, including:

- (1) an all-terrain vehicle, as defined by Section 1-101.8 of this Code;
- (2) a golf cart, as defined by Section 1-123.9;
- (3) an off-highway motorcycle, as defined by Section 1-153.1; and
- (4) a recreational off-highway vehicle, as defined by Section 1-168.8.

(b) Except as otherwise provided in this Section, it is unlawful for any person to drive or operate a non-highway vehicle upon any street, highway, or roadway in this State. If the operation of a non-highway vehicle is authorized under subsection (d), the non-highway vehicle may be operated only on streets where the posted speed limit is 35 miles per hour or less. This subsection

(b) does not prohibit a non-highway vehicle from crossing a road or street at an intersection where the road or street has a posted speed limit of more than 35 miles per hour. (b-5) A person may not operate a non-highway vehicle upon any street, highway, or roadway in this State unless he or she has a valid driver's license issued in his or her name by the Secretary of State or by a foreign jurisdiction.

(c) No person operating a non-highway vehicle shall make a direct crossing upon or across any tollroad, interstate highway, or controlled access highway in this State. No person operating a non-highway vehicle shall make a direct

crossing upon or across any other highway under the jurisdiction of the State except at an intersection of the highway with another public street, road, or highway. (c-5) (Blank).

(d) A municipality, township, county, or other unit of local government may authorize, by ordinance or resolution, the operation of non-highway vehicles on roadways under its jurisdiction if the unit of local government determines that the public safety will not be jeopardized. The Department may authorize the operation of non-highway vehicles on the roadways under its jurisdiction if the Department determines that the public safety will not be jeopardized. The unit of local government or the Department may restrict the types of non-highway vehicles that are authorized to be used on its streets. Before permitting the operation of non-highway vehicles on its roadways, a municipality, township, county, other unit of local government, or the Department must consider the volume, speed, and character of traffic on the roadway and determine whether non-highway vehicles may safely travel on or cross the roadway. Upon determining that non-highway vehicles may safely operate on a roadway and the adoption of an ordinance or resolution by a municipality, township, county, or other unit of local government, or authorization by the Department, appropriate signs shall be posted. If a roadway is under the jurisdiction of more than one unit of government, non-highway vehicles may not be operated on the roadway unless each unit of government agrees and takes action as provided in this subsection.

(e) No non-highway vehicle may be operated on a roadway unless, at a minimum, it has the following: brakes, a steering apparatus, tires, a rearview mirror, red reflectorized warning devices in the front and rear, a slow moving emblem (as required of other vehicles in Section 12-709 of this Code) on the rear of the non-highway vehicle, a headlight that emits a white light visible from a distance of 500 feet to the front, a tail lamp that emits a red light visible from at least 100 feet from the rear, brake lights, and turn signals. When operated on a roadway, a non-highway vehicle shall have its headlight and tail lamps lighted as required by Section 12-201 of this Code.

(f) A person who drives or is in actual physical control of a non-highway vehicle on a roadway while under the influence is subject to Sections 11-500 through 11-502 of this Code.

(g) Any person who operates a non-highway vehicle on a street, highway, or roadway shall be subject to the mandatory insurance requirements under Article VI of Chapter 7 of this Code.

(h) It shall not be unlawful for any person to drive or operate a non-highway vehicle, as defined in paragraphs

(1) and

(4) of subsection

(a) of this Section, on a county roadway or township roadway for the purpose of conducting farming operations to and from the home, farm, farm buildings, and any adjacent or nearby farm land. Non-highway vehicles, as used in this subsection (h), shall not be subject to subsections

(e) and

(g) of this Section. However, if the non-highway vehicle, as used in this Section, is not covered under a motor vehicle insurance policy pursuant to subsection

(g) of this Section, the vehicle must be covered under a farm, home, or non-highway vehicle insurance policy issued with coverage amounts no less than the minimum amounts set for bodily injury or death and for destruction of property under Section 7-203 of this Code. Non-highway vehicles operated on a county or township roadway at any time between one-half hour before sunset and one-half hour after sunrise must be equipped with head lamps and tail lamps, and the head lamps and tail lamps must be lighted. Non-highway vehicles, as used in this subsection (h), shall not make a direct crossing upon or across any tollroad, interstate highway, or controlled access highway in this State. Non-highway vehicles, as used in this subsection (h), shall be allowed to cross a State highway, municipal street, county highway, or road district highway if the operator of the non-highway vehicle makes a direct crossing provided:

(1) the crossing is made at an angle of approximately 90 degrees to the direction of the street, road or highway and at a place where no obstruction prevents a quick and safe crossing;

(2) the non-highway vehicle is brought to a complete stop before attempting a crossing;

(3) the operator of the non-highway vehicle yields the right of way to all pedestrian and vehicular traffic which constitutes a hazard; and

(4) that when crossing a divided highway, the crossing is made only at an intersection of the highway with another public street, road, or highway.

(i) No action taken by a unit of local government under this Section designates the operation of a non-highway vehicle as an intended or permitted use of property with respect to Section 3-102 of the Local Governmental and Governmental Employees Tort Immunity Act.

625 ILCS 5/11-1426.2 — Operation of low-speed vehicles on streets

Sec. 11-1426.2. Operation of low-speed vehicles on streets.

(a) Except as otherwise provided in this Section, it is lawful for any person to drive or operate a low-speed vehicle upon any street in this State where the posted speed limit is 30 miles per hour or less.

(b) Low-speed vehicles may cross a street at an intersection where the street being crossed has a posted speed limit of not more than 45 miles per hour. Low-speed vehicles may not cross a street with a speed limit in excess of 45 miles per hour unless the crossing is at an intersection controlled by a traffic light or 4-way stop sign.

(c) The Department of Transportation or a municipality, township, county, or other unit of local government may prohibit, by regulation, ordinance, or resolution, the operation of low-speed vehicles on streets under its jurisdiction where the posted speed limit is 30 miles per hour or less if the Department of Transportation or unit of local government determines that the public safety would be jeopardized.

(d) Upon determining that low-speed vehicles may not safely operate on a street, and upon the adoption of an ordinance or resolution by a unit of local government, or regulation by the Department of Transportation, the operation of low-speed vehicles may be prohibited. The unit of local government or the Department of Transportation may prohibit the operation of low-speed vehicles on any and all streets under its jurisdiction. Appropriate signs shall be posted in conformance with the State Manual on Uniform Traffic Control Devices adopted pursuant to Section 11-301 of this Code.

(e) If a street is under the jurisdiction of more than one unit of local government, or under the jurisdiction of the Department of Transportation and one or more units of local government, low-speed vehicles may be operated on the street unless each unit of local government and the Department of Transportation agree and take action to prohibit such operation as provided in this Section. (e-5) A unit of local government may, by ordinance or resolution, authorize the operation of low-speed vehicles on one or more streets under its jurisdiction that have a speed limit of more than 30 miles per hour but not greater than 35 miles per hour. Before authorizing the operation of low-speed vehicles on any street under this subsection (e-5), the unit of local government must consider the volume, speed, and character of traffic on the street and determine whether low-speed vehicles may travel safely on that street. If a street is under the jurisdiction of more than one unit of government, low-speed vehicles may not be operated on the street under this subsection (e-5) unless each unit of government agrees and takes action as provided in this subsection. Upon the adoption of an ordinance authorizing low-speed vehicles under this subsection (e-5), appropriate signs shall be posted.

(f) No low-speed vehicle may be operated on any street unless, at a minimum, it has the following: a parking brake, a steering apparatus, tires, a windshield that conforms to the federal vehicle safety standards on glazing materials as set forth in 49 CFR part 571.205, a vehicle identification number, seat belts, a rearview mirror, an exterior rearview mirror mounted on the driver's side of the vehicle, red reflectorized warning devices on each rear side and one on the center rear of the vehicle, a headlight that emits a white light visible from a distance of 500 feet to the front, a tail lamp that emits a red light visible from at least 100 feet from the rear, brake lights, and front and rear turn signals. When operated on a street, a low-speed vehicle shall have its headlight and tail lamps lighted as required by Section 12-201 of this Code.

(g) A person may not operate a low-speed vehicle upon any street in this State unless he or she has a valid driver's license issued in his or her name by the Secretary of State or a foreign jurisdiction.

(h) The operation of a low-speed vehicle upon any street is subject to the provisions of Chapter 11 of this Code concerning the Rules of the Road, and applicable local ordinances.

(i) Every owner of a low-speed vehicle is subject to the mandatory insurance requirements specified in Article VI of Chapter 7 of this Code.

(j) Any person engaged in the retail sale of low-speed vehicles are required to comply with the motor vehicle dealer licensing, registration, and bonding laws of this State, as specified in Sections 5-101 and 5-102 of this Code.

(k) No action taken by a unit of local government under this Section designates the operation of a low-speed vehicle as an intended or permitted use of property with respect to Section 3-102 of the Local Governmental and Governmental Employees Tort Immunity Act.

(l) Every owner of a low-speed vehicle which may be operated upon a highway shall secure a certificate of title and display valid registration.

625 ILCS 5/11-1427 — Illegal operation of an all-terrain vehicle or off-highway motorcycle

Sec. 11-1427. Illegal operation of an all-terrain vehicle or off-highway motorcycle. It is unlawful for any person to drive or operate any all-terrain vehicle or off-highway motorcycle in the following ways:

(a) Careless Operation. No person shall operate any all-terrain vehicle or off-highway motorcycle in a careless or heedless manner so as to be grossly indifferent to the person or property of other persons, or at a rate of speed greater than will permit him in the exercise of reasonable care to bring the all-terrain vehicle or off-highway motorcycle to a stop within the assured clear distance ahead.

(b) Reckless Operation. No person shall operate any all-terrain vehicle or off-highway motorcycle in such a manner as to endanger the life, limb or property of any person.

(c) Within any nature preserve as defined in Section 3.11 of the Illinois Natural Areas Preservation Act.

(d) On the tracks or right of way of an operating railroad.

(e) In any tree nursery or planting in a manner which damages or destroys growing stock, or creates a substantial risk thereto.

(f) On private property, without the written or verbal consent of the owner or lessee thereof. Any person operating an all-terrain vehicle or off-highway motorcycle upon lands of another shall stop and identify himself upon the request of the landowner or his duly authorized representative, and, if requested to do so by the landowner shall promptly remove the all-terrain vehicle or off-highway motorcycle from the premises.

(g) Notwithstanding any other law to the contrary, an owner, lessee, or occupant of premises owes no duty of care to keep the premises safe for entry or use by others for use by an all-terrain vehicle or off-highway motorcycle, or to give warning of any condition, use, structure or activity on such premises. This subsection does not apply where permission to drive or operate an all-terrain vehicle or off-highway motorcycle is given for a valuable consideration other than to this State, any political subdivision or municipality of this State, or any landowner who is paid with funds from the Off-Highway Vehicle Trails Fund. In the case of land leased to the State or a subdivision of the State, any consideration received is not valuable consideration within the meaning of this Section. Nothing in this subsection limits in any way liability which otherwise exists for willful or malicious failure to guard or warn against a dangerous condition, use, structure, or activity.

(h) On publicly owned lands unless such lands are designated for use by all-terrain vehicles or off-highway motorcycles. For publicly owned lands to be designated for use by all-terrain vehicles or off-highway motorcycles a public hearing shall be conducted by the governmental entity that has jurisdiction over the proposed land prior to the designation. Nothing in this subsection limits in any way liability which otherwise exists for willful or malicious failure to guard or warn against a dangerous condition, use, structure, or activity. (h-1) At a rate of speed too fast for conditions, and the fact that the speed of the all-terrain vehicle or off-highway motorcycle does not exceed the applicable maximum speed limit allowed does not relieve the driver from the duty to decrease speed as may be necessary to avoid colliding with any person, vehicle, or object within legal requirements and the duty of all persons to use due care. (h-2) On the frozen surface of public waters of this State within 100 feet of a person, including a skater, not in or upon an all-terrain vehicle or off-highway motorcycle; within 100 feet of a person engaged in fishing, except at the minimum speed required to maintain forward movement of the all-terrain vehicle or off-highway motorcycle; on an area which has been cleared of snow for skating purposes unless the area is necessary for access to the frozen waters of this State. (h-3) Within 100 feet of a dwelling between midnight and 6 a.m. at a speed greater than the minimum required to maintain forward movement of the all-terrain vehicle or off-highway motorcycle. This subdivision (h-5) does not apply on private property where verbal or written consent of the owner or lessee has been granted to drive or operate an all-terrain vehicle or off-highway motorcycle upon the private property or frozen waters of this State.

(i) Other Prohibitions.

(1) No person, except persons permitted by law, shall operate or ride any all-terrain vehicle or off-highway motorcycle with any firearm in his or her possession unless he or she is in compliance with Section 2.33 of the Wildlife Code.

(2) No person shall operate any all-terrain vehicle or off-highway motorcycle emitting pollutants in violation of standards established pursuant to the Environmental Protection Act.

(3) No person shall deposit from an all-terrain vehicle or off-highway motorcycle on the snow, ice or ground surface, trash, glass, garbage, insoluble material, or other offensive matter.

625 ILCS 5/11-1427.2 — Special all-terrain vehicle or off-highway motorcycle event

Sec. 11-1427.2. Special all-terrain vehicle or off-highway motorcycle event. Nothing contained in Section 11-1427 or 11-1427.1 shall be construed to prohibit any local authority of this State from designating a special all-terrain vehicle or off-highway motorcycle event. In such case the provisions of Sections 11-1427 and 11-1427.1 shall not apply to areas or highways under the jurisdiction of that local authority.

625 ILCS 5/11-1427.3 — Rules for all-terrain vehicles and off-highway motorcycles

Sec. 11-1427.3. Rules for all-terrain vehicles and off-highway motorcycles. The Department of Natural Resources may adopt rules to implement and administer the provisions of Sections 11-1427, 11-1427.1, and 11-1427.2.

- (2) interfere with or endanger the law enforcement officer or another person or vehicle; or
- (3) increase speed or attempt to flee or elude the officer.

625 ILCS 5/11-1427.5 — Recreational off-highway vehicles

(b) As used in this Section, "affected areas" means the counties of Cook, DuPage, Lake, Kane, McHenry, Will, Madison, St. Clair, and Monroe and the townships of Aux Sable and Goose Lake in Grundy County and the township of Oswego in Kendall County.

(c) A person that operates a motor vehicle operating on diesel fuel in an affected area may not cause or allow the motor vehicle, when it is not in motion, to idle for more than a total of 10 minutes within any 60 minute period, except under the following circumstances:

- (1) the motor vehicle has a Gross Vehicle Weight Rating of less than 8,000 pounds;
- (2) the motor vehicle idles while forced to remain motionless because of on-highway traffic, an official traffic control device or signal, or at the direction of a law enforcement official;
- (3) the motor vehicle idles when operating defrosters, heaters, air conditioners, or other equipment solely to prevent a safety or health emergency;
- (4) a police, fire, ambulance, public safety, other emergency or law enforcement motor vehicle, or any motor vehicle used in an emergency capacity, idles while in an emergency or training mode and not for the convenience of the vehicle operator;

Sec. 11-1430. Vehicle immobilization and impoundment upon certification of the Department of Healthcare and Family Services. Any municipality may provide by ordinance for a program of vehicle immobilization and impoundment in cases in which the Department of Healthcare and Family Services has certified to the municipality under Section 10-17.13 of the Illinois Public Aid Code that the registered owner of a vehicle owes past due support. The program shall provide for immobilization of any eligible vehicle upon the public way by presence of a restraint in a manner to prevent operation of the vehicle and for subsequent towing and impoundment of such vehicle solely upon the certification of past due support by the Department of Healthcare and Family Services. Further process, hearings, or redetermination of the past due support by the municipality shall not be required under the ordinance. The ordinance shall provide that the municipality may terminate immobilization and impoundment of the vehicle if the registered owner has arranged for payment of past and current support obligations in a manner satisfactory to the Department of Healthcare and Family Services.

(a) A municipality may provide by ordinance for a program of vehicle immobilization to facilitate enforcement of municipal vehicle tax liability. The program of vehicle immobilization shall provide for immobilizing an eligible vehicle upon the public way by presence of a restraint in a manner to prevent operation of the vehicle. An ordinance establishing a program of vehicle immobilization under this Section shall include the following provisions:

(c) of Section 11-208.3 of this Code.

(3) The vehicle owner shall have the right to a prompt hearing after a vehicle has been immobilized or subsequently towed for nonpayment of outstanding fines and penalties for which final determinations have been issued. An order issued after the hearing is a final administrative decision within the meaning of Section 3-101 of the Code of Civil Procedure.

(4) A post-immobilization and post-towing notice shall be provided to the registered owner of the vehicle advising the registered owner of the right to a hearing to challenge the validity of the impoundment.

(c) A fine, penalty, or part thereof, remaining unpaid after the exhaustion of, or the failure to exhaust, administrative remedies and the conclusion of judicial review procedures shall be a debt due and owing the municipality and, as such, may be collected in accordance with applicable law. Payment in full of any fine or penalty resulting from a vehicle tax violation shall constitute a final disposition of that violation.

one wheel on a motorcycle and at least 2 wheels on all other first division and second division vehicles. If these 2 separate means of applying the brakes are connected in any way, they shall be so constructed that failure of any one part of the operating mechanism shall not leave the motor vehicle without brakes. 2. Every motor-driven cycle when operated upon a highway shall be equipped with at least one brake which may be operated by hand or foot. 3. Every antique vehicle shall be equipped with the brakes of the same type originally installed by the manufacturer as original equipment and in working order. 4. Except as provided in paragraph 4.1, every trailer or semitrailer of a gross weight of over 3,000 pounds, when operated upon a highway must be equipped with brakes adequate to control the movement of, to stop and to hold such vehicle, and designed so as to be operable by the driver of the towing vehicle from its cab. Such brakes must be so designed and connected that in case of an accidental breakaway of a towed vehicle over 5,000 pounds, the brakes are automatically applied. 4.1. Every boat trailer of a gross weight of over 3,000 pounds, when operated upon a highway, must be equipped with brakes adequate to control the movement of, to stop, and to hold that boat trailer. The brakes must be designed to ensure that, in case of an accidental breakaway of a towed boat trailer over 5,000 pounds, the brakes are automatically applied. 5. Every motor vehicle, expanded-use antique vehicle, trailer, pole trailer or semitrailer, sold in this State or operated upon the highways shall be equipped with service brakes upon all wheels of every such vehicle, except any motor-driven cycle, and except that any trailer, pole trailer or semitrailer 3,000 pounds gross weight or less need not be equipped with brakes, and except that any trailer or semitrailer with gross weight over 3,000 pounds but under 5,001 pounds need be equipped with brakes on only one wheel on each side of the vehicle. Any motor vehicle and truck tractor having 3 or more axles and manufactured prior to July 25, 1980 need not have brakes on the front wheels, except when such vehicles are equipped with at least 2 steerable axles, the wheels of one such axle need not be equipped with brakes. However, a vehicle that is more than 30 years of age and which is driven on the highways only in going to and returning from an antique auto show or for servicing or for a demonstration need be equipped with 2 wheel brakes only.

(b) Performance ability of brakes. 1. The service brakes upon any motor vehicle or combination of vehicles operating on a level surface shall be adequate to stop such vehicle or vehicles when traveling 20 miles per hour within a distance of 30 feet when upon dry asphalt or concrete pavement surface free from loose material. 2. Under the above conditions the hand brake shall be adequate to stop such vehicle or vehicles, except any motorcycle, within a distance of 55 feet and the hand brake shall be adequate to hold such vehicle or vehicles stationary on any grade upon which operated. 3. Under the above conditions the service brakes upon an antique vehicle or expanded-use antique vehicle shall be adequate to stop the vehicle within a distance of 40 feet and the hand brake adequate to stop the vehicle within a distance of 55 feet. 4. All braking distances specified in this Section apply to all vehicles mentioned, whether such vehicles are unloaded or are loaded to the maximum capacity permitted under this Act. 5. All brakes shall be maintained in good working order and shall be so adjusted as to operate as equally as practicable with respect to the wheels on opposite sides of the vehicle. 6. Brake assembly requirements for mobile homes shall be the standards required by the United States Department of Housing and Urban Development adopted under Title VI of the Housing and Community Development Act of 1974.

(c) (Blank).

625 ILCS 5/12-302 — Brake fluid

Sec. 12-401. Restriction as to tire equipment. No metal tired vehicle, including tractors, motor vehicles of the second division, traction engines and other similar vehicles, shall be operated over any improved highway of this State, if such vehicle has on the periphery of any of the road wheels any block, stud, flange, cleat, ridge, lug or any projection of metal or wood which projects radially beyond the tread or traffic surface of the tire. This prohibition does not apply to pneumatic tires with metal studs used on vehicles operated by rural letter carriers who are employed or enjoy a contract with the United States Postal Service for the purpose of delivering mail if such vehicle is actually used for such purpose during operations between November 15 of any year and April 1 of the following year, or to motor vehicles displaying a disability license plate or a license plate for veterans with disabilities whose owner resides in an unincorporated area located upon a county or township highway or road and possesses a valid driver's license and operates the vehicle with such tires only during the period heretofore described, or to tracked type motor vehicles when that part of the vehicle coming in contact with the road surface does not contain any projections of any kind likely to injure the surface of the road; however, tractors, traction engines, and similar vehicles may be operated which have upon their road wheels V-shaped, diagonal or

other cleats arranged in such a manner as to be continuously in contact with the road surface, provided that the gross weight upon such wheels per inch of width of such cleats in contact with the road surface, when measured in the direction of the axle of the vehicle, does not exceed 800 pounds. All motor vehicles and all other vehicles in tow thereof, or thereunto attached, operating upon any roadway, shall have tires of rubber or some material of equal resiliency. Solid tires shall be considered defective and shall not be permitted to be used if the rubber or other material has been worn or otherwise reduced to a thickness of less than three-fourths of an undue vibration when the vehicle is in motion or to cause undue concentration of the wheel load on the surface of the road. The requirements of this Section do not apply to agricultural tractors or traction engines or to agricultural machinery, including wagons being used for agricultural purposes in tow thereof, or to road rollers or road building machinery operated at a speed not in excess of 10 miles per hour. All motor vehicles of the second division, operating upon any roadway shall have pneumatic tires, unless exempted herein. Nothing in this Section shall be deemed to prohibit the use of tire chains of reasonable proportion upon any vehicle when required for safety because of snow, ice or other conditions tending to cause a vehicle to skid.

625 ILCS 5/12-402 — Sale or lease of siped or regrooved pneumatic tire

Sec. 12-402. Sale or lease of siped or regrooved pneumatic tire. No person or organization shall sell or lease or offer for sale or lease, for use on a highway, any pneumatic tire, either original tread or retread, on which the tread is siped or regrooved to a depth equal to or deeper than the molded groove depth, unless the tire was constructed or retreaded with sufficient tread material and type of labels to permit such siping or regrooving. Such labels and siping or regrooving shall be in compliance with Part 569 of Title 49 of the Code of Federal Regulations, and after siping or regrooving the tire shall conform to that Part. For the purpose of this Article, siped shall mean cut without removing material, and regrooved shall mean the tread groove pattern is renewed, or a new pattern generated, or both, without additional tread material being added.

625 ILCS 5/12-403 — Sale or lease of retreaded or "recapped" pneumatic tire

Sec. 12-403. Sale or lease of retreaded or "recapped" pneumatic tire. No person or organization shall sell or lease or offer for sale or lease, for use on a highway, any pneumatic tire produced or rebuilt by a process in which tread material is attached to a used tire, unless the tire, tread material, labelling and certification, before and after processing, conform to Part 571.117 of Title 49 of the Code of Federal Regulations.

625 ILCS 5/12-404 — Sale or lease of pneumatic tire without marking

Sec. 12-404. Sale or lease of pneumatic tire without marking. No person or organization shall sell or lease or offer for sale or lease, for use on a highway, any pneumatic tire that does not bear the special marking required by this Section.

(a) Regrooved or siped tire. In addition to the identification, labelling and certification required under Section 12-402, either the word "regrooved" or the word "siped" shall be branded on each side of a pneumatic tire on which the tread is either regrooved or siped, as the case may be. In the case of a tire that is both regrooved and siped, the word "regrooved" alone on each side shall suffice, although both words may appear on each side. Each branding shall be conspicuous but shall be sized, located and applied so as not to weaken or damage the tire or otherwise degrade the performance of the tire or shorten its useful life.

(b) Retreaded tire. In addition to the labelling, identification, certification and other marking required under Section 12-403, the word "retreaded" shall be branded or molded into or onto each side of a pneumatic tire that has been retreaded or "recapped". Each molding or branding shall be conspicuous but shall be sized, located and applied so as not to weaken or damage the tire or otherwise degrade the performance of the tire or shorten its useful life.

(c) New tire. The labelling, identification, certification and other marking required by Part 571.109 of Title 49 of the Code of Federal Regulations shall appear on each new pneumatic tire intended for use on a passenger car other than a multipurpose passenger vehicle. The labelling, identification, certification and other marking required by Part 571.119 of Title 49 of the Code of Federal Regulations shall appear on each new pneumatic tire intended for use on either a multipurpose passenger vehicle or other type of vehicle that is not a passenger car.

(a) Definition. The term "spare tire" as used in this Section 12-405 means any new, used or specially constructed tire that is either carried or installed for short term emergency use.

(b) Promulgated Rules. The Department shall promulgate rules concerning unsafe operating conditions of pneumatic tires. The rules shall be enforced by police officers by visual inspection of tires, including visual comparison with simple measuring scales or gauges. The rules shall include precepts and standards for determining unsafe conditions, including the determination of an effective depth of tread groove, and shall be based upon, to the extent that it is reasonable and practical, all provisions set forth in paragraph

(d) of this Section.

(c) Use of Unsafe Tire. 1. No person or organization shall place, drive or move, or cause or allow to be placed, driven or moved, on a highway of this State, any vehicle equipped with one or more pneumatic tires deemed to be unsafe under a provision of paragraph

(d) of this Section or a rule promulgated under paragraph

(b) of this Section. 2. Exemptions. Any restriction stated in this paragraph

(c) shall not apply:

(i) To a tire on a damaged, disabled, abandoned, or other unsafe or unwanted vehicle being legally towed, pushed or otherwise transferred to a repair, relocation, storage, salvage, junking, or other collection site; (ii) To a tire on a racing or other competitive vehicle being legally moved or transported, not under its own power, to a lawful competition site or to a bona fide testing site; or (iii) To a spare tire either carried or in short term emergency use for only such distance or time as is reasonably necessary to accomplish the repair or replacement of the damaged or unsafe tire for which the spare was substituted.

(d) Criteria for Unsafe Pneumatic Tires. A pneumatic tire shall be deemed to be unsafe if it has: 1. Any part of a ply or cord exposed; 2. A tread or sidewall crack, cut, snag, or other surface interruption deep enough to expose a ply or cord; 3. Any bulge, knot, or separation; 4. Tread wear indicators flush with the tread outer surface in any 2 or more adjacent tread grooves at 3 locations approximately equally spaced around the circumference of the tire; 5. A depth of tread groove less than 2/32 of an inch or less than 1/32 of an inch if on a motorcycle or truckster, measured in any 2 or more adjacent tread grooves at 3 locations approximately equally spaced around the circumference of the tire, at least one of which, in the judgment of the inspecting officer, is a location at which the tread is thinnest, provided that any measurement over a tie bar, tread wear indicator, hump or fillet is excluded; 6. A depth of tread groove less than 4/32 of an inch at any one location and the tire is mounted on the front wheel of a motor vehicle subject to the provisions of Chapter 18B of this Code, provided that any measurement over a tie bar, tread wear indicator, hump or fillet is excluded; 7. A marking which indicates that the tire is not intended for use on a public highway; 8. Been regrooved or recut below the bottom of an original tread groove, except in the case of a special "regroovable" tire that was manufactured or retreaded with thick undertread, identified and regrooved in compliance with the applicable federal standard in Title 49 of the Code of Federal Regulations, and in compliance with each applicable Section of this Code; or 9. Other condition, marking or lack of marking that may be reasonably demonstrated to identify the tire as unsuitable for highway use, including inflation, load, speed or installation condition seriously incompatible with the tire size, construction, or other pertinent marking or feature.

(e) Sale, Lease or Installation of Pneumatic Tires. 1. No person or organization shall sell, lease, or offer for sale or lease, or mount, install, or cause or allow to be mounted or installed, for use on a highway, any pneumatic tire deemed to be unsafe under paragraph

(d) of this Section or under a rule promulgated under paragraph

(b) of this Section. Except as provided in paragraph

(c) of this Section, any person or organization offering a vehicle for sale or lease shall, prior to its being placed, driven or moved on a highway, correct any unsafe tire condition. 2. No person or organization shall sell, lease, or offer for sale or lease, for highway use, any pneumatic tire, or any vehicle equipped with a pneumatic tire, which has a depth of tread groove less than 3/32 of an inch; except a pneumatic tire on a motorcycle or truckster may have a depth of tire groove of not less than 2/32 of an inch. Groove depth shall not be measured where a tie bar, tread wear indicator, hump or fillet is located.

(f) Compliance and Enforcement. Any police officer, upon reasonable cause to believe that a person or organization has acted or is acting in violation of any provision of this Section, shall require the driver, owner, or other appropriate custodian to submit the tire or tires to an inspection. When so required, the owner or other appropriate custodian shall allow the tire inspection and the driver of a vehicle or combination of vehicles shall stop at a designated location and allow the tire or tires to be inspected or shall move the vehicle or combination to a location that is reasonably convenient and is

suitable for such inspection.

625 ILCS 5/12-407 — Rules and regulations

Sec. 12-407. Rules and regulations. The Department may promulgate rules and regulations to clarify or specify the requirements of this Article IV.

625 ILCS 5/12-500

Sec. 12-500. (Repealed).

625 ILCS 5/12-501 — Windshields and safety glazing material in motor vehicles

Sec. 12-501. Windshields and safety glazing material in motor vehicles.

(a) Every motor vehicle operated upon the highways of this State shall be equipped with a front windshield which complies with those standards as established pursuant to this Section and Section 12-503 of this Code. This subsection shall not apply to motor vehicles designed and used exclusively for off-highway use, motorcycles, motor-driven cycles, motorized pedalcycles, nor to motor vehicles registered as antique vehicles, expanded-use antique vehicles, custom vehicles, or street rods when the original design of such vehicles did not include front windshields.

(b) No person shall knowingly sell any 1936 or later model motor vehicle unless such vehicle is equipped with safety glazing material conforming to specifications prescribed by the Department wherever glazing material is used in doors, windows and windshields. Regulations promulgated by the Department specifying standards for safety glazing material on windshields shall, as a minimum, conform with those applicable Federal Motor Vehicles Safety Standards (49 CFR 571.205). These provisions apply to all motor vehicles of the first and second division but with respect to trucks, including truck tractors, the requirements as to safety glazing material apply to all glazing material used in doors, windows and windshields in the drivers' compartments of such vehicles.

(c) It is unlawful for the owner or any other person knowingly to install or cause to be installed in any motor vehicle any glazing material other than safety glazing material conforming to the specifications prescribed by the Department.

625 ILCS 5/12-502 — Mirrors

Sec. 12-502. Mirrors. Every motor vehicle, operated singly or when towing another vehicle, shall be equipped with a mirror so located as to reflect to the driver a view of the highway for a distance of at least 200 feet to the rear of such motor vehicle.

625 ILCS 5/12-503 — Windshields must be unobstructed and equipped with wipers

Sec. 12-503. Windshields must be unobstructed and equipped with wipers.

(a) No person shall drive a motor vehicle with any sign, poster, window application, reflective material, nonreflective material, or tinted film upon the front windshield, except that a nonreflective tinted film may be used along the uppermost portion of the windshield if such material does not extend more than 6 inches down from the top of the windshield. (a-3) No new or used motor vehicle dealer shall permit a driver to drive a motor vehicle offered for sale or lease off the premises where the motor vehicle is being offered for sale or lease, including when the driver is test driving the vehicle, with signs, decals, paperwork, or other material on the front windshield or on the windows immediately adjacent to each side of the driver that would obstruct the driver's view in violation of subsection

(a) of this Section. For purposes of this subsection (a-3), "test driving" means when a driver, with permission of the new or used vehicle dealer or employee of the new or used vehicle dealer, drives a vehicle owned and held for sale or lease by a new or used vehicle dealer that the driver is considering to purchase or lease. (a-5) No window treatment or tinting shall be applied to the windows immediately adjacent to each side of the driver, except:

(1) On vehicles where none of the windows to the rear of the driver's seat are treated in a manner that allows less than 30% light transmittance, a nonreflective tinted film that allows at least 50% light transmittance, with a 5% variance observed by any law enforcement official metering the light transmittance, may be used on the vehicle windows immediately adjacent to each side of the driver.

(2) On vehicles where none of the windows to the rear of the driver's seat are treated in a manner that allows less than 35% light transmittance, a nonreflective tinted film that allows at least 35% light transmittance, with a 5% variance observed by any law enforcement official metering the light transmittance, may be used on the vehicle windows immediately adjacent to each side of the driver.

(3) (Blank).

(4) On vehicles where a nonreflective smoked or tinted glass that was originally installed by the manufacturer on the windows to the rear of the driver's seat, a nonreflective tint that allows at least 50% light transmittance, with a 5% variance observed by a law enforcement official metering the light transmittance, may be used on the vehicle windows immediately adjacent to each side of the driver. (a-10) No person shall install or repair any material prohibited by subsection

(a) of this Section.

(1) Nothing in this subsection shall prohibit a person from removing or altering any material prohibited by subsection (a) to make a motor vehicle comply with the requirements of this Section.

(2) Nothing in this subsection shall prohibit a person from installing window treatment for a person with a medical condition described in subsection

(g) of this Section. An installer who installs window treatment for a person with a medical condition described in subsection

(g) must obtain a copy of the certified statement or letter written by a physician described in subsection

(g) from the person with the medical condition prior to installing the window treatment. The copy of the certified statement or letter must be kept in the installer's permanent records.

(b) On motor vehicles where window treatment has not been applied to the windows immediately adjacent to each side of the driver, the use of a perforated window screen or other decorative window application on windows to the rear of the driver's seat shall be allowed. (b-5) Any motor vehicle with a window to the rear of the driver's seat treated in this manner shall be equipped with a side mirror on each side of the motor vehicle which are in conformance with Section 12-502.

(c) No person shall drive a motor vehicle with any objects placed or suspended between the driver and the rear window, side wings, or side windows immediately adjacent to each side of the driver which materially obstructs the driver's view.

(c-5) No person shall drive a motor vehicle with any objects placed or suspended between the driver and the front windshield which materially obstruct the driver's view. No motor vehicle, or driver or passenger of such vehicle, shall be stopped or searched by any law enforcement officer solely on the basis of a violation or suspected violation of this subsection.

(d) Every motor vehicle, except motorcycles, shall be equipped with a device, controlled by the driver, for cleaning rain, snow, moisture, or other obstructions from the windshield; and no person shall drive a motor vehicle with snow, ice, moisture, or other material on any of the windows or mirrors, which materially obstructs the driver's clear view of the highway.

(e) No person shall drive a motor vehicle when the windshield, side, or rear windows are in such defective condition or repair as to materially impair the driver's view to the front, side, or rear. A vehicle equipped with a side mirror on each side of the vehicle which are in conformance with Section 12-502 will be deemed to be in compliance in the event the rear window of the vehicle is materially obscured.

(f) Subsections (a), (a-5), (b), and (b-5) of this Section shall not apply to:

(1) (Blank).

(2) those motor vehicles properly registered in another jurisdiction.

(g) Subsections

(a) and (a-5) of this Section shall not apply to window treatment, including, but not limited to, a window application, nonreflective material, or tinted film, applied or affixed to a motor vehicle for which distinctive license plates or license plate stickers have been issued pursuant to subsection

(k) of Section 3-412 of this Code, and which:

(1) is owned and operated by a person afflicted with or suffering from a medical disease, including, but not limited to, systemic or discoid lupus erythematosus, disseminated superficial actinic porokeratosis, light sensitivity as a result of a traumatic brain injury, or albinism, which would require that person to be shielded from the direct rays of the sun; or

(2) is used in transporting a person when the person resides at the same address as the registered owner of the vehicle and the person is afflicted with or suffering from a medical disease which would require the person to be shielded from the direct rays of the sun, including, but not limited to, systemic or discoid lupus erythematosus, disseminated superficial actinic porokeratosis, light sensitivity as a result of a traumatic brain injury, or albinism. The owner must obtain a certified

statement or letter written by a physician licensed to practice medicine in Illinois that such person owning and operating or being transported in a motor vehicle is afflicted with or suffers from such disease, including, but not limited to, systemic or discoid lupus erythematosus, disseminated superficial actinic porokeratosis, light sensitivity as a result of a traumatic brain injury, or albinism. However, no exemption from the requirements of subsection (a-5) shall be granted for any condition for which protection from the direct rays of the sun can be adequately obtained by the use of sunglasses or other eye protective devices. Such certification must be carried in the motor vehicle at all times. The certification shall be legible and shall contain the date of issuance, the name, address, and signature of the attending physician, and the name, address, and medical condition of the person requiring exemption. The information on the certificate for a window treatment must remain current and shall be renewed every 4 years by the attending physician. The owner shall also submit a copy of the certification to the Secretary of State. The Secretary of State may forward notice of certification to law enforcement agencies. (g-5) (Blank). (g-7) Installers shall only install window treatment authorized by subsection (g) on motor vehicles for which distinctive plates or license plate stickers have been issued pursuant to subsection (k) of Section 3-412 of this Code. The distinctive license plates or plate sticker must be on the motor vehicle at the time of window treatment installation.

(h) Subsection

(a) of this Section shall not apply to motor vehicle stickers or other certificates issued by State or local authorities which are required to be displayed upon motor vehicle windows to evidence compliance with requirements concerning motor vehicles.

(i) (Blank).

A second or subsequent violation of subsection (a), (a-3), (a-5), (a-10), (b), (b-5), or (g-7) of this Section shall be treated as a Class C misdemeanor and the violator fined no less than \$100 nor more than \$500. Any person convicted under subsection (a), (a-5), (b), or (b-5) of this Section shall be ordered to alter any nonconforming windows into compliance with this Section.

(k) Except as provided in subsection (a-3) of this Section, nothing in this Section shall create a cause of action on behalf of a buyer against a vehicle dealer or manufacturer who sells a motor vehicle with a window which is in violation of this Section.

(l) The Secretary of State shall provide a notice of the requirements of this Section to a new resident applying for vehicle registration in this State pursuant to Section 3-801 of this Code. The Secretary of State may comply with this subsection by posting the requirements of this Section on the Secretary of State's website.

625 ILCS 5/12-710 — Rear fender splash guards

Sec. 12-710. Rear fender splash guards. It is unlawful for any person to operate any vehicle of the second division, except a truck tractor, to which this Section is applicable upon any highway of this State unless such vehicle is equipped with rear fender splash guards of either the contour type or the flap type which comply with the specifications provided in this Section for the type of splash guards used on the vehicle, and which are so attached as to prevent the splashing of mud or water upon the windshield of other motor vehicles.

(a) Specifications for contour type splash guards. When contour type rear fender splash guards are used, they shall contour the wheel in such a manner that the relationship of the inside surface of any such splash guard to the tread surface of the tire or wheel shall be relatively parallel, both laterally and across the wheel, at least throughout the top 90 degrees of the rear 180 degrees of the wheel surface; provided however, on vehicles which have a clearance of less than 5 inches between the top of the tire or wheel and that part of the body of the vehicle directly above the tire or wheel when the vehicle is loaded to maximum legal capacity, the curved portion of the splash guard need only extend from a point directly behind the center of the rear axle and to the rear of the wheel surface upwards to within at least 2 inches of the bottom line of the body when the vehicle is loaded to maximum legal capacity. There shall be a downward extension of the curved surface which shall end not more than 12 inches from the ground when the vehicle is loaded to maximum legal capacity. This downward extension shall be part of the curved surface or attached directly to such curved surface, but it need not contour the wheel. Such contour type splash guards shall be wide enough to cover the full tread width of the tire or tires being protected and shall be installed not more than 6 inches from the tread surface of the tire or wheel when the vehicle is loaded to maximum legal capacity. The splash guard shall have a lip or flange on its outside edge to minimize side throw and splash. The lip or flange shall extend toward the center of the wheel, and shall be perpendicular to and extend not less than 2 inches below the inside or bottom surface line or plane of the guard. Such contour type splash

guards may be constructed of either a rigid or flexible material, but shall be attached in such a manner that, regardless of movement either by the splash guards or the vehicle, the splash guards will retain their general parallel relationship to the tread surface of the tire or wheel under all ordinary operating conditions.

(b) Specifications for flap type splash guards. When flap type splash guards are used, they shall be wide enough to cover the full tread width of the tire or tires being protected; shall be so installed that they extend from the underside of the vehicle in a vertical plane behind the rear wheels to within 12 inches of the ground, when the vehicle is loaded to maximum legal capacity; shall be so constructed and attached so that when the vehicle is in forward motion such splash guard will not deviate or move backward from the vertical plane by an angle of more than 30 degrees measured from the vertical plane and so that when the forward motion of the vehicle causes such splash guard to deviate from the vertical plane, the bottom of such flap type splash guard will not be more than 15 inches from the ground, when the vehicle is loaded to maximum legal capacity. Such flap type splash guard may be constructed of either a rigid or flexible material.

(c) Exemptions. This Section shall not apply to vehicles the construction or design of which does not require such splash guards, nor to vehicles in-transit and capable only of using temporary splash guards prescribed by the Department, nor to pole trailers.

Any such device or mechanism shall be taken and held for the period when needed as evidence. When no longer needed for evidence, the defendant may petition the court for the return of the device or mechanism; provided the defendant shall prove to the court by a preponderance of the evidence that the device or mechanism will be used only for a legitimate and lawful purpose.

Upon the payment of a fee of \$50 and the filing of an application by the proprietor of a company or municipality seeking to perform mobile safety inspections upon forms furnished by the Department, accompanied by proof of experience, training, and ability of the operator of the testing equipment, together with proof of approved testing equipment as defined in Section 13-102 and the giving of a bond conditioned upon faithful observance of this Section and rules adopted by the Department in the amount of \$10,000 with security approved by the Department, the Department shall issue a permit to the proprietor to operate an official mobile safety testing company. An official mobile safety testing company must maintain a physical office in this State. The permit shall expire 12 months following its issuance, but may be renewed annually by complying with the requirements set forth in this Section and upon the payment of a renewal fee of \$50. The permit so issued shall at all times be displayed in a prominent place in the official mobile safety testing vehicle as well as at the required physical office of the testing company. No person or official mobile safety testing company shall in any manner claim or represent himself, herself, or itself to be an official mobile safety testing company unless a permit has been issued to the person or company as provided in this Section. Any person or municipality that has received a permit under this Section may test the second division vehicles owned by the person or municipality and issue certificates of safety vehicles owned by the person or municipality in accordance with the requirements of Section 13-109.1 with respect to any such vehicles owned, operated, or controlled by the person or municipality. Each such permit issued by the Department shall state on its face the location of the physical office of the official mobile safety testing company. The physical office shall be the location in which all records are stored and retained. Official mobile safety testing companies shall only perform safety tests of vehicles at the vehicle owner's place of business with a 48-hour advance notice to the Department. The Department may, upon application, authorize a change in the location of the physical office to a new location. Upon the approval of such an application, the Department shall issue an endorsement, which the applicant shall affix to his or her permit. Such an endorsement constitutes authority for the applicant to operate. As used in this Section, "official mobile safety testing company" means a safety testing company permitted to test trucks, truck tractors, trailers, semi-trailers, and buses engaged in interstate commerce as defined Section 1-133 of this Code. The safety test shall be conducted in accordance with the Minimum Periodic Inspection Standards promulgated by the Federal Highway Administration of the United States Department of Transportation and contained in Appendix G to Subchapter B of Chapter III of Title 49 of the Code of Federal Regulations. The Department shall adopt rules to implement this Section.

625 ILCS 5/13-104 — Obtaining or issuing a certificate of safety without proper test- Suspension or revocation of license

Sec. 13-104. Obtaining or issuing a certificate of safety without proper test- Suspension or revocation of license. Any motor vehicle owner, driver or operator who accepts, obtains or attempts to obtain a certificate of safety without securing a test, or by a test which is known by him to have been improperly made, shall be guilty of a petty offense and shall be fined not less than \$5.00 nor more than \$100.00 for the first such certificate so accepted or obtained, or attempted to be obtained; and for the second such certificate obtained or attempted to be obtained, not less than \$25.00 nor more than \$200.00; and for each certificate after the second certificate, obtained or attempted to be obtained, not less than \$100.00 nor more than \$300.00. The same penalties shall apply to official testing station operators who issue certificates of safety in violation of this Chapter. When a license is suspended, the suspension shall be for not less than 30 nor more than 180 days. When a license is revoked, the owner of the station cannot make an application for a new license within the period of twelve months after the date of the revocation and then, upon his making an application, the Department of Transportation shall consider this record in deciding whether or not to grant the license.

625 ILCS 5/13-105 — Inspection of official testing stations

Sec. 13-105. Inspection of official testing stations. Employees specifically authorized by the Department so to do shall inspect all "Official Testing Stations" at frequent intervals. Such employees shall have access to all records relating to tests and work done or parts sold as a result of such tests, to ascertain whether or not tests are properly, fairly and honestly made, and may examine the owner of the official testing station or any officer or employee thereof under oath. The Department shall conduct periodic nonscheduled inspection on owners premises of vehicles owned and operated by licensed "Independent Official Testing Stations."

625 ILCS 5/13-105.1 — Inspection of official portable emissions testing company

Sec. 13-105.1. Inspection of official portable emissions testing company. Employees specifically authorized by the Department shall inspect, at frequent intervals, vehicles, equipment, and the recordkeeping office used by an official portable emissions testing company. Department employees under this Section shall have access to all records, relating to tests and work done or parts sold as a result of such tests, to ascertain whether tests are properly, fairly, and honestly made. Department employees under this Section may examine the owner of an official portable emissions company or any officer or employee thereof under oath. The Department shall conduct periodic nonscheduled inspections of the premises of vehicles owned and operated by a licensed official portable emissions testing company.

625 ILCS 5/13-105.2 — Inspection of official mobile safety testing companies

Sec. 13-105.2. Inspection of official mobile safety testing companies. Employees specifically authorized by the Department to conduct inspections shall inspect all official mobile safety testing companies at frequent intervals. Such employees shall have access to all records relating to tests and work done or parts sold as a result of such tests, to ascertain whether the tests are properly, fairly, and honestly made, and may examine the owner of the official mobile safety testing company or any officer or employee thereof under oath.

625 ILCS 5/13-106

Sec. 13-106. Rates and charges by official testing stations, official mobile testing companies, and official portable emissions testing companies; schedule to be filed. Every operator of an official testing station or official portable emissions testing company shall file with the Department, in the manner prescribed by the Department, a schedule of all rates and charges made by him for performing the tests provided for in Section 13-101 and Section 13-109.1. Such rate or charge shall include an amount to reimburse the operator of the official testing station or official portable emissions testing company for the purchase from the Department of the certificate of safety required by this chapter, not to exceed that fee paid to the Department by the operator authorized by this chapter. Such rates and charges shall be just and reasonable and the Department upon its own initiative or upon complaint of any person or corporation may require the testing station operator to appear for a hearing and prove that the rates so filed are just and reasonable. A "just and reasonable" rate or charge, for the purposes of this Section, means a rate or charge which is the same, or nearly the same, as the prevailing rate or charge for the same or similar tests made in the community where the station is located. No operator may change this schedule of rates and charges until the proposed changes are filed with and approved by the Department. No license may be issued to any official testing station or official portable emissions testing company unless the applicant has filed with the Department a proposed schedule of rates and charges and unless such rates and charges have been approved by the Department. No operator of an official testing station or official portable emissions testing company shall charge more or less than the rates so filed with and approved by the Department.

625 ILCS 5/13-107

Sec. 13-107. Investigation of complaints against official testing stations, official mobile testing companies, and official portable emissions testing companies. The Department shall, upon its own motion, or upon charges made in writing verified under oath, investigate complaints that an official testing station or official portable emissions testing company is willfully falsifying records or tests, either for the purpose of selling parts or services not actually required, or for the purpose of issuing a certificate of safety for a vehicle designed to carry 15 or fewer passengers operated by a contract carrier transporting employees in the course of their employment on a highway of this State, second division vehicle, or medical transport vehicle that is not in safe mechanical condition as determined by the standards of this Chapter in violation of the provisions of this Chapter or of the rules and regulations issued by the Department. The Secretary of Transportation, for the purpose of more effectively carrying out the provisions of Chapter 13, may appoint such a number of inspectors as he may deem necessary. Such inspectors shall inspect and investigate applicants for official testing station or official portable emissions testing company permits and investigate and report violations. With respect to enforcement of the provisions of this Chapter 13, such inspectors shall have and may exercise throughout the State all the powers of police officers. The Secretary must authorize to each inspector and to any other employee of the Department exercising the powers of a peace officer a distinct badge that, on its face,

(i) clearly states that the badge is authorized by the Department and (ii) contains a unique identifying number. No other badge shall be authorized by the Department. Nothing in this Section prohibits the Secretary from issuing shields or other distinctive identification to employees not exercising the powers of a peace officer if the Secretary determines that a shield or distinctive identification is needed by the employee to carry out his or her responsibilities.

625 ILCS 5/13-108

Sec. 13-108. Hearing on complaint against official testing station, official mobile testing company, or official portable emissions testing company; suspension or revocation of permit. If it appears to the Department, either through its own investigation or upon charges verified under oath, that any of the provisions of this Chapter or the rules and regulations of the Department are being violated, the Department shall, after notice to the person, firm, or corporation charged with such violation, conduct a hearing. At least 10 days prior to the date of such hearing the Department shall cause to be served upon the person, firm, or corporation charged with such violation, a copy of such charge or charges by registered mail or by the personal service thereof, together with a notice specifying the time and place of such hearing. At the time and place specified in such notice, the person, firm, or corporation charged with such violation shall be given an opportunity to appear in person or by counsel and to be heard by the Secretary of Transportation or an officer or employee of the Department designated in writing by him to conduct such hearing. If it appears from the hearing that such person, firm, or corporation is guilty of the charge preferred against the person, firm, or corporation, the Secretary of Transportation may order the permit suspended or revoked, and the bond forfeited. Any such revocation or suspension shall not be a bar to subsequent arrest and prosecution for violation of this Chapter.

625 ILCS 5/13-109 — Safety test prior to application for license - Subsequent tests - Repairs - Retest

Sec. 13-109. Safety test prior to application for license - Subsequent tests - Repairs - Retest.

(a) Except as otherwise provided in Chapter 13, each second division vehicle, first division vehicle including a taxi which is used for a purpose that requires a school bus driver permit, and medical transport vehicle, except those vehicles other than school buses or medical transport vehicles owned or operated by a municipal corporation or political subdivision having a population of 1,000,000 or more inhabitants which are subjected to safety tests imposed by local ordinance or resolution, operated in whole or in part over the highways of this State, motor vehicle used for driver education training, and each vehicle designed to carry 15 or fewer passengers operated by a contract carrier transporting employees in the course of their employment on a highway of this State, shall be subjected to the safety test provided for in Chapter 13 of this Code. Tests shall be conducted at an official testing station or by an official mobile safety testing company within 6 months prior to the application for registration as provided for in this Code. Subsequently each vehicle shall be subject to tests

(i) at least every 6 months, (ii) in the case of school buses and first division vehicles including taxis which are used for a purpose that requires a school bus driver permit, at least every 6 months or 10,000 miles, whichever occurs first, (iii) in the case of driver education vehicles used by public high schools, at least every 12 months for vehicles over 5 model years of age or having an odometer reading of over 75,000 miles, whichever occurs first, or (iv) in the case of truck tractors, semitrailers, and property-carrying vehicles registered for a gross weight of more than 10,000 pounds but less

than 26,001 pounds, at least every 12 months, and according to schedules established by rules and regulations promulgated by the Department. Any component subject to regular inspection which is damaged in a reportable crash must be reinspected before the bus or first division vehicle including a taxi which is used for a purpose that requires a school bus driver permit is returned to service.

(b) The Department shall also conduct periodic nonscheduled inspections of school buses, of buses registered as charitable vehicles and of religious organization buses. If such inspection reveals that a vehicle is not in substantial compliance with the rules promulgated by the Department, the Department shall remove the Certificate of Safety from the vehicle, and shall place the vehicle out-of-service. A bright orange, triangular decal shall be placed on an out-of-service vehicle where the Certificate of Safety has been removed. The vehicle must pass a safety test at an official testing station or official mobile safety testing company before it is again placed in service.

(c) If the violation is not substantial a bright yellow, triangular sticker shall be placed next to the Certificate of Safety at the time the nonscheduled inspection is made. The Department shall reinspect the vehicle after 3 working days to determine that the violation has been corrected and remove the yellow, triangular decal. If the violation is not corrected within 3 working days, the Department shall place the vehicle out-of-service in accordance with procedures in subsection (b).

(d) If a violation is not substantial and does not directly affect the safe operation of the vehicle, the Department shall issue a warning notice requiring correction of the violation. Such correction shall be accomplished as soon as practicable and a report of the correction shall be made to the Department within 30 days in a manner established by the Department. If the Department has not been advised that the corrections have been made, and the violations still exist, the Department shall place the vehicle out-of-service in accordance with procedures in subsection (b).

(e) The Department is authorized to promulgate regulations to implement its program of nonscheduled inspections. Causing or allowing the operation of an out-of-service vehicle with passengers or unauthorized removal of an out-of-service sticker is a Class 3 felony. Causing or allowing the operation of a vehicle with a 3-day sticker for longer than 3 days with the sticker attached or the unauthorized removal of a 3-day sticker is a Class C misdemeanor.

(f) If a second division vehicle, first division vehicle including a taxi which is used for a purpose that requires a school bus driver permit, medical transport vehicle, or vehicle operated by a contract carrier as provided in subsection

(a) of this Section is in safe mechanical condition, as determined pursuant to Chapter 13, the operator of the official testing station or official mobile safety testing company must at once issue to the second division vehicle, first division vehicle including a taxi which is used for a purpose that requires a school bus driver permit, or medical transport vehicle a certificate of safety, in the form and manner prescribed by the Department, which shall be affixed to the vehicle by the certified safety tester who performed the safety tests. The owner of the second division vehicle, first division vehicle including a taxi which is used for a purpose that requires a school bus driver permit, or medical transport vehicle or the contract carrier shall at all times display the Certificate of Safety on the second division vehicle, first division vehicle including a taxi which is used for a purpose that requires a school bus driver permit, medical transport vehicle, or vehicle operated by a contract carrier in the manner prescribed by the Department.

(g) If a test shows that a second division vehicle, first division vehicle including a taxi which is used for a purpose that requires a school bus driver permit, medical transport vehicle, or vehicle operated by a contract carrier is not in safe mechanical condition as provided in this Section, it shall not be operated on the highways until it has been repaired and submitted to a retest at an official testing station or official mobile safety testing company. If the owner or contract carrier submits the vehicle to a retest at a different official testing station or official mobile safety testing company from that where it failed to pass the first test, he or she shall present to the operator of the second station the report of the original test, and shall notify the Department in writing, giving the name and address of the original testing station or official mobile safety testing company and the defects which prevented the issuance of a Certificate of Safety, and the name and address of the second official testing station or official mobile safety testing company making the retest.

625 ILCS 5/13-109.1 — Annual emission inspection tests; standards; penalties; funds

Sec. 13-109.1. Annual emission inspection tests; standards; penalties; funds.

(a) For each diesel powered vehicle that

(i) is registered for a gross weight of more than 16,000 pounds, (ii) is registered within an affected area, and (iii) is a 2 year or older model year, an annual emission inspection test shall be conducted at an official testing station or by an official portable emissions testing company certified by the Illinois Department of Transportation to perform diesel

emission inspections pursuant to the standards set forth in subsection

(b) of this Section. This annual emission inspection test may be conducted in conjunction with a semi-annual safety test. (a-5) (Blank).

(b) Diesel emission inspections conducted under this Chapter 13 shall be conducted in accordance with the Society of Automotive Engineers Recommended Practice J1667 "Snap-Acceleration Smoke Test Procedure for Heavy-Duty Diesel Powered Vehicles" and the cutpoint standards set forth in the United States Environmental Protection Agency guidance document "Guidance to States on Smoke Opacity Cutpoints to be used with the SAE J1667 In-Use Smoke Test Procedure". Those procedures and standards, as now in effect, are made a part of this Code, in the same manner as though they were set out in full in this Code. Notwithstanding the above cutpoint standards, for motor vehicles that are model years 1973 and older, until December 31, 2002, the level of peak smoke opacity shall not exceed 70 percent. Beginning January 1, 2003, for motor vehicles that are model years 1973 and older, the level of peak smoke opacity shall not exceed 55 percent.

(c) If the annual emission inspection under subsection

(a) reveals that the vehicle is not in compliance with the diesel emission standards set forth in subsection

(b) of this Section, the operator of the official testing station or official portable emissions testing company shall issue a warning notice requiring correction of the violation. The correction shall be made and the vehicle submitted to an emissions retest at an official testing station or official portable emissions testing company certified by the Department to perform diesel emission inspections within 30 days from the issuance of the warning notice requiring correction of the violation. If, within 30 days from the issuance of the warning notice, the vehicle is not in compliance with the diesel emission standards set forth in subsection

(b) as determined by an emissions retest at an official testing station or through an official portable emissions testing company, the certified emissions testing operator or the Department shall place the vehicle out-of-service in accordance with the rules promulgated by the Department. Operating a vehicle that has been placed out-of-service under this subsection

(c) is a petty offense punishable by a \$1,000 fine. The vehicle must pass a diesel emission inspection at an official testing station before it is again placed in service. The Secretary of State, Illinois State Police, and other law enforcement officers shall enforce this Section. No emergency vehicle, as defined in Section 1-105, may be placed out-of-service pursuant to this Section. The Department, an official testing station, or an official portable emissions testing company may issue a certificate of waiver subsequent to a reinspection of a vehicle that failed the emissions inspection. Certificate of waiver shall be issued upon determination that documented proof demonstrates that emissions repair costs for the noncompliant vehicle of at least \$3,000 have been spent in an effort to achieve compliance with the emission standards set forth in subsection (b). The Department of Transportation shall adopt rules for the implementation of this subsection including standards of documented proof as well as the criteria by which a waiver shall be granted. (c-5) (Blank).

(d) (Blank).

(c) of Section 3-815 are exempt from the diesel emissions inspection requirements set forth in this Chapter.

625 ILCS 5/13-110 — Certificate of safety

Sec. 13-110. Certificate of safety.

(a) Certificates of Safety shall be in contrasting colors, with a number on the face of the Certificate indicating the month of the next inspection period the vehicle is subject to inspection. Certificates for school buses shall also indicate the mileage at which the school bus shall be subject to inspection if it occurs before the next regular inspection period. The colors of Certificates of Safety shall be prescribed by the Department.

(b) Certificates of Safety, which remain the property of the State of Illinois, will be provided to Official Testing Stations and official mobile safety testing companies by the Department at the fee of \$1 each. Certificates of Safety which remain unused at the end of each inspection period will be redeemed for the same amount in a manner prescribed by the Department.

(c) Nothing in this Chapter shall be construed as a suggestion or direction to any owner to require him to have any repairs made or any work done by any official testing station or official mobile safety testing company, but all tests must be made at an official testing station to secure the issuance of a certificate of safety, and no certificate of safety issued by any other than an official testing station or official mobile safety testing company shall be deemed a compliance with this Chapter.

625 ILCS 5/13-111 — Operation without certificate of safety attached; effective date of certificate

Sec. 13-111. Operation without certificate of safety attached; effective date of certificate.

(a) Except as provided for in Chapter 13, no person shall operate any vehicle required to be inspected by this Chapter upon the highways of this State unless there is affixed to that vehicle a certificate of safety then in effect. The Secretary of State, State Police, and other police officers shall enforce this Section. The Department shall determine the expiration date of the certificate of safety. The certificates, all forms and records, reports of tests and retests, and the full procedure and methods of making the tests and retests, shall be in the form prescribed by the Department.

(b) Every person convicted of violating this Section is guilty of a petty offense with a minimum fine of \$95 and a maximum fine of \$250; unless the violation is contemporaneous with a motor vehicle crash, in which case the person is guilty of a Class C misdemeanor.

Any vehicle registered in Illinois and operated by an interstate carrier of property shall be exempt from the provisions of this Chapter provided such carrier has registered with the Bureau of Motor Carrier Safety of the Federal Highway Administration as an interstate motor carrier of property and has been assigned a federal census number by such Bureau. An interstate carrier of property, however, is not exempt from the provisions of Section 13-111(b) of this Chapter. Any vehicle registered in Illinois and operated by a private interstate carrier of property shall be exempt from the provisions of this Chapter, except the provisions of Section 13-111(b), provided it: 1. is registered with the Bureau of Motor Carrier Safety of the Federal Highway Administration, and 2. carries in the motor vehicle documentation issued by the Bureau of Motor Carrier Safety of the Federal Highway Administration displaying the federal census number assigned, and 3. displays on the sides of the motor vehicle the census number, which must be no less than 2 inches high, with a brush stroke no less than 1/4 inch wide in a contrasting color.

625 ILCS 5/13-115 — School buses-pretrip inspections

Sec. 13-115. School buses-pretrip inspections. "Registration" of a vehicle means its registration under Article IV of Chapter 3 of this Code. "Vehicle age" means the numerical difference between the current calendar year and the vehicle model year.

625 ILCS 5/13C-10 — Program

Sec. 13C-10. Program.

(a) The Agency shall establish a program to begin February 1, 2007, to reduce the emission of pollutants by motor vehicles. This program shall be a replacement for and continuation of the program established under the Vehicle Emissions Inspection Law of 1995, Chapter 13B of this Code. At a minimum, this program shall provide for all of the following:

- (1) The inspection of certain motor vehicles every 2 years, as required under Section 13C-15.
- (2) The establishment and operation of official inspection stations.
- (3) The designation of official test equipment and testing procedures.
- (4) The training and supervision of inspectors and other personnel.
- (5) Procedures to assure the correct operation, maintenance, and calibration of test equipment.
- (6) Procedures for certifying test results and for reporting and maintaining relevant data and records.
- (7) The funding of electric vehicle rebates and grants as authorized by the Electric Vehicle Rebate Act.

(b) The Agency shall provide for the operation of a sufficient number of official inspection stations to prevent undue difficulty for motorists to obtain the inspections required under this Chapter. In the event that the Agency operates inspection stations or contracts with one or more parties to operate inspection stations on its behalf, the Agency shall endeavor to:

- (i) locate the stations so that the owners of vehicles subject to inspection reside within 12 miles of an official inspection station; and (ii) have sufficient inspection capacity at the stations so that the usual wait before the start of an inspection does not exceed 15 minutes.

625 ILCS 5/13C-15 — Inspections

Sec. 13C-15. Inspections.

(a) Computer-Matched Inspections and Notification.

(1) The provisions of this subsection

(a) are operative until the implementation of the registration denial inspection and notification mechanisms required by subsection (b). Beginning with the implementation of the program required by this Chapter, every motor vehicle that is owned by a resident of an affected county, other than a vehicle that is exempt under paragraph (a)(6) or (a)(7), is subject to inspection under the program. The Agency shall send notice of the assigned inspection month, at least 15 days before the beginning of the assigned month, to the owner of each vehicle subject to the program. An initial emission inspection sticker or initial inspection certificate, as the case may be, expires on the last day of the third month following the month assigned by the Agency for the first inspection of the vehicle. A renewal inspection sticker or certificate expires on the last day of the third month following the month assigned for inspection in the year in which the vehicle's next inspection is

required. The Agency or its agent may issue an interim emission inspection sticker or certificate for any vehicle subject to inspection that does not have a currently valid emission inspection sticker or certificate at the time the Agency is notified by the Secretary of State of its registration by a new owner, and for which an initial emission inspection sticker or certificate has already been issued. An interim emission inspection sticker or certificate expires no later than the last day of the sixth complete calendar month after the date the Agency issued the interim emission inspection sticker or certificate. The owner of each vehicle subject to inspection shall obtain an emission inspection sticker or certificate for the vehicle in accordance with this paragraph (1). Before the expiration of the emission inspection sticker or certificate, the owner shall have the vehicle inspected and, upon demonstration of compliance, obtain a renewal emission inspection sticker or certificate. A renewal emission inspection sticker or certificate shall not be issued more than 5 months before the expiration date of the previous inspection sticker or certificate.

(2) Except as provided in paragraph (a)(3), vehicles shall be inspected every 2 years on a schedule that begins either in the second, fourth, or later calendar year after the vehicle model year. The beginning test schedule shall be set by the Agency and shall be consistent with the State's requirements for emission reductions as determined by the applicable United States Environmental Protection Agency vehicle emissions estimation model and applicable guidance and rules.

(3) A vehicle may be inspected at a time outside of its normal 2-year inspection schedule, if

(i) the vehicle was acquired by a new owner and (ii) the vehicle was required to be in compliance with this Act at the time the vehicle was acquired by the new owner, but it was not then in compliance.

(4) The owner of a vehicle subject to inspection shall have the vehicle inspected and shall obtain and display on the vehicle or carry within the vehicle, in a manner specified by the Agency, a valid unexpired emission inspection sticker or certificate in the manner specified by the Agency. A person who violates this paragraph

(4) is guilty of a petty offense, except that a third or subsequent violation within one year of the first violation is a Class C misdemeanor. The fine imposed for a violation of this paragraph

(4) shall be not less than \$50 if the violation occurred within 60 days following the date by which a new or renewal emission inspection sticker or certificate was required to be obtained for the vehicle, and not less than \$300 if the violation occurred more than 60 days after that date.

(5) For a \$20 fee, to be paid into the Vehicle Inspection Fund, the Agency may inspect: (A) A vehicle registered in and subject to the emission inspections requirements of another state. (B) A vehicle presented for inspection on a voluntary basis. Any fees collected under this paragraph

(5) shall not offset Motor Fuel Tax Funds normally appropriated for the program.

(6) The following vehicles are not subject to inspection: (A) Vehicles not subject to registration under Article IV of Chapter 3 of this Code, other than vehicles owned by the federal government. (B) Motorcycles, motor driven cycles, and motorized pedalcycles. (C) Farm vehicles and implements of husbandry. (D) Implements of warfare owned by the State or federal government. (E) Antique vehicles, expanded-use antique vehicles, custom vehicles, street rods, and vehicles of model year 1967 or before. (F) Vehicles operated exclusively for parade or ceremonial purposes by any veterans, fraternal, or civic organization, organized on a not-for-profit basis. (G) Vehicles for which the Secretary of State, under Section 3-117 of this Code, has issued a Junking Certificate. (H) Diesel powered vehicles and vehicles that are powered exclusively by electricity. (I) Vehicles operated exclusively in organized amateur or professional sporting activities, as defined in Section 3.310 of the Environmental Protection Act. (J) Vehicles registered in, subject to, and in compliance with the emission inspection requirements of another state. (K) Vehicles participating in an OBD continuous monitoring program operated in accordance with procedures adopted by the Agency. (L) Vehicles of model year 1995 or earlier that do not have an expired emissions test sticker or certificate on February 1, 2007. The Agency may issue temporary or permanent exemption stickers or certificates for vehicles temporarily or permanently exempt from inspection under this paragraph

(6). An exemption sticker or certificate does not need to be displayed.

(7) According to criteria that the Agency may adopt, a motor vehicle may be exempted from the inspection requirements of this Section by the Agency on the basis of an Agency determination that the vehicle is located and primarily used outside of the affected counties or in other jurisdictions where vehicle emission inspections are not required. The Agency may issue an annual exemption sticker or certificate without inspection for any vehicle exempted from inspection under this paragraph (7).

(8) Any owner or lessee of a fleet of 15 or more motor vehicles that are subject to inspection under this Section may apply to the Agency for a permit to establish and operate a private official inspection station in accordance with rules adopted by

the Agency.

(9) Pursuant to Title 40, Section 51.371 of the Code of Federal Regulations, the Agency may establish a program of on-road testing of in-use vehicles through the use of remote sensing devices. In any such program, the Agency shall evaluate the emission performance of 0.5% of the subject fleet or 20,000 vehicles, whichever is less. Under no circumstances shall on-road testing include any sort of roadblock or roadside pullover or cause any type of traffic delay. If, during the course of an on-road inspection, a vehicle is found to exceed the on-road emissions standards established for the model year and type of vehicle, the Agency shall send a notice to the vehicle owner. The notice shall document the occurrence and the results of the on-road exceedance. The notice of a second on-road exceedance shall indicate that the vehicle has been reassigned and is subject to an out-of-cycle follow-up inspection at an official inspection station. In no case shall the Agency send a notice of an on-road exceedance to the owner of a vehicle that was found to exceed the on-road emission standards established for the model year and type of vehicle, if the vehicle is registered outside of the affected counties.

(b) Registration Denial Inspection and Notification.

(1) No later than January 1, 2008, every motor vehicle that is owned by a resident of an affected county, other than a vehicle that is exempt under paragraph (b)(8) or (b)(9), is subject to inspection under the program. The owner of a vehicle subject to inspection shall have the vehicle inspected and obtain proof of compliance from the Agency in order to obtain or renew a vehicle registration for a subject vehicle. The Secretary of State shall notify the owner of a vehicle subject to inspection of the requirement to have the vehicle tested at least 30 days prior to the beginning of the month in which the vehicle's registration is due to expire. Notwithstanding the preceding, vehicles with permanent registration plates shall be notified at least 30 days prior to the month corresponding to the date the vehicle was originally registered. This notification shall clearly state the vehicle's test status, based upon the vehicle type, model year and registration address. The owner of each vehicle subject to inspection shall have the vehicle inspected and, upon demonstration of compliance, obtain an emissions compliance certificate for the vehicle.

(2) Except as provided in paragraphs (b)(3), (b)(4), and (b)(5), vehicles shall be inspected every 2 years on a schedule that begins in the fourth calendar year after the vehicle model year. Even model year vehicles shall be inspected and comply in order to renew registrations expiring in even calendar years and odd model year vehicles shall be inspected and comply in order to renew registrations expiring in odd calendar years.

(3) A vehicle shall be inspected and comply at a time outside of its normal 2-year inspection schedule if

(i) the vehicle was acquired by a new owner and (ii) the vehicle had not been issued a Compliance Certificate within one year of the date of application for the title or registration, or both, for the vehicle.

(4) Vehicles with 2-year registrations shall be inspected every 2 years at the time of registration issuance or renewal on a schedule that begins in the fourth year after the vehicle model year.

(5) Vehicles with permanent vehicle registration plates shall be inspected every 2 years on a schedule that begins in the fourth calendar year after the vehicle model year in the month corresponding to the date the vehicle was originally registered. Even model year vehicles shall be inspected and comply in even calendar years, and odd model year vehicles shall be inspected and comply in odd calendar years.

(6) The Agency and the Secretary of State shall endeavor to ensure a smooth transition from test scheduling from the provisions of subsection

(a) to subsection (b). Passing tests and waivers issued prior to the implementation of this subsection

(b) may be utilized to establish compliance for a period of one year from the date of the emissions or waiver inspection.

(7) For a \$20 fee, to be paid into the Vehicle Inspection Fund, the Agency may inspect: (A) A vehicle registered in and subject to the emissions inspections requirements of another state. (B) A vehicle presented for inspection on a voluntary basis. Any fees collected under this paragraph

(7) shall not offset Motor Fuel Tax Funds normally appropriated for the program.

(8) The following vehicles are not subject to inspection: (A) Vehicles not subject to registration under Article IV of Chapter 3 of this Code, other than vehicles owned by the federal government. (B) Motorcycles, motor driven cycles, and motorized pedalcycles. (C) Farm vehicles and implements of husbandry. (D) Implements of warfare owned by the State or federal government. (E) Antique vehicles, expanded-use antique vehicles, custom vehicles, street rods, and vehicles of model year 1967 or before. (F) Vehicles operated exclusively for parade or ceremonial purposes by any veterans, fraternal, or

civic organization, organized on a not-for-profit basis. (G) Vehicles for which the Secretary of State, under Section 3-117 of this Code, has issued a Junking Certificate. (H) Diesel powered vehicles and vehicles that are powered exclusively by electricity. (I) Vehicles operated exclusively in organized amateur or professional sporting activities, as defined in Section 3.310 of the Environmental Protection Act. (J) Vehicles registered in, subject to, and in compliance with the emission inspection requirements of another state. (K) Vehicles participating in an OBD continuous monitoring program operated in accordance with procedures adopted by the Agency. (L) Vehicles of model year 1995 or earlier that do not have an expired emissions test sticker or certificate on February 1, 2007. (M) Vehicles of model year 2006 or earlier with a manufacturer gross vehicle weight rating between 8,501 and 14,000 pounds. (N) Vehicles with a manufacturer gross vehicle weight rating greater than 14,000 pounds. The Agency may issue temporary or permanent exemption certificates for vehicles temporarily or permanently exempt from inspection under this paragraph (8). An exemption sticker or certificate does not need to be displayed.

(9) According to criteria that the Agency may adopt, a motor vehicle may be exempted from the inspection requirements of this Section by the Agency on the basis of an Agency determination that the vehicle is located and primarily used outside of the affected counties and in other jurisdictions where vehicle emissions inspections are not required. The Agency may issue an annual exemption certificate without inspection for any vehicle exempted from inspection under this paragraph (9).

(10) Any owner or lessee of a fleet of 15 or more motor vehicles that are subject to inspection under this Section may apply to the Agency for a permit to establish and operate a private official inspection station in accordance with rules adopted by the Agency.

(11) Pursuant to Title 40, Section 51.371 of the Code of Federal Regulations, the Agency may establish a program of on-road testing of in-use vehicles through the use of remote sensing devices. In any such program, the Agency shall evaluate the emission performance of 0.5% of the subject fleet or 20,000 vehicles, whichever is less. Under no circumstances shall on-road testing include any sort of roadblock or roadside pullover or cause any type of traffic delay. If, during the course of an on-road inspection, a vehicle is found to exceed the on-road emissions standards established for the model year and type of vehicle, the Agency shall send a notice to the vehicle owner. The notice shall document the occurrence and the results of the on-road exceedance. The notice of a second on-road exceedance shall indicate that the vehicle has been reassigned and is subject to an out-of-cycle follow-up inspection at an official inspection station. In no case shall the Agency send a notice of an on-road exceedance to the owner of a vehicle that was found to exceed the on-road emissions standards established for the model year and type of vehicle, if the vehicle is registered outside of the affected counties.

625 ILCS 5/13C-20 — Rules and standards

Sec. 13C-20. Rules and standards.

(a) The rules and emission standards adopted under subsection

(a) of Section 13B-20 of this Code shall apply to the program established under this Chapter and continue in effect until amended or repealed by the Board under this subsection. The Agency shall propose any other standards necessary to achieve reductions in the emission of hydrocarbons, carbon monoxide, and oxides of nitrogen from motor vehicles subject to inspection under this Chapter. Within 120 days after the Agency proposes those standards, the Board shall adopt any necessary rules establishing standards for the emission of hydrocarbons, carbon monoxide, and oxides of nitrogen from motor vehicles subject to inspection under this Chapter. The rules may be amended from time to time pursuant to Agency proposals. The Board shall set standards necessary to achieve the reductions in vehicle hydrocarbons, carbon monoxide, and oxides of nitrogen emissions, as determined by the applicable vehicle emission estimation model and rules developed by the United States Environmental Protection Agency, that are required by the federal Clean Air Act. A predetermined rate of failure shall not be used in determining standards necessary to achieve the reductions in vehicle hydrocarbons, carbon monoxide, and oxides of nitrogen emissions. The emission standards established by the Board for vehicles of model year 1981 or later shall be identical in substance, as defined in Section 7.2(a) of the Environmental Protection Act, to the emission standards promulgated by the United States Environmental Protection Agency. Except as otherwise provided in this subsection, subsection

(b) of Section 27 of the Environmental Protection Act and the rulemaking provisions of the Illinois Administrative Procedure Act do not apply to rules adopted by the Board under this subsection. Challenges to the validity of rules adopted by the Board under this subsection or subsection

(a) of Section 13B-20 may be brought only by filing a petition for review in the Appellate Court under Section 29 of the Environmental Protection Act within 35 days after the rule is filed with the Secretary of State.

(b) The procedures established by the Agency under subsection

(b) of Section 13B-20 of this Code shall apply to the program established under this Chapter and remain in effect until amended or repealed under this subsection. The Agency may at any time amend or repeal those procedures and may establish additional procedures designed to implement this Chapter.

625 ILCS 5/13C-25 — Performance of inspections

Sec. 13C-25. Performance of inspections.

(a) Except as provided in subsection (b), the inspection of vehicles required under this Chapter shall be performed only:

(i) by inspectors who have been certified by the Agency after successfully completing a course of training and successfully passing a written test; (ii) at official inspection stations, including on-road inspection sites established under this Chapter; and (iii) with equipment that has been approved by the Agency for these inspections.

(b) The requirements of subdivisions (a)(i) and (a)(ii) of this Section do not preclude the performance of inspections

(1) at self-service official inspection stations,

(2) using Agency-approved wireless communication interfaces, and

(3) using systems designed to perform remote on-board diagnostic inspections.

(c) Except as provided in subsection (h), the inspection shall consist of an on-board diagnostic system test. The owner of the vehicle or the owner's agent shall be entitled to an emission inspection certificate issued by the Agency only if all required tests are passed at the time of the inspection.

(d) (Blank).

(e) (Blank).

(f) (Blank).

(g) The on-board diagnostic system test shall consist of accessing the vehicle's on-board computer system, determining the vehicle's readiness status and MIL status, and retrieving any stored diagnostic codes that may be present. The vehicle shall be deemed to have passed this test if the vehicle readiness status indicates that the vehicle's OBD system has completed all required system and component checks, the MIL status is appropriate, and the diagnostic codes retrieved do not exceed standards set for vehicles of that type under Section 13C-20.

(h) A visual inspection test of the MIL may be substituted for the on-board diagnostic system test on any vehicle for which on-board diagnostic testing is not possible due to the vehicle's originally certified design or its design as modified in accordance with federal law and regulations, and on any vehicle with known on-board diagnostic communications or software problems, as determined by the Agency. The visual inspection test shall consist of verifying the status of the MIL in the key-on/engine off position and the key-on/engine on position. The vehicle shall be deemed to have passed this test if the MIL illuminates briefly during the key-on/engine off position and does not illuminate during the key-on/engine on position.

625 ILCS 5/13C-30 — Waivers

Sec. 13C-30. Waivers.

(a) The Agency shall certify that a vehicle that has failed a vehicle emission retest qualifies for a waiver of the emission inspection standards if all of the following criteria are met:

(1) The vehicle has received all repairs and adjustments for which it is eligible under any emission performance warranty provided under Section 207 of the federal Clean Air Act.

(2) The Agency determines by normal inspection procedures that the vehicle's emission control devices are present and appear to be properly connected and operating.

(3) Consistent with Title 40, Section 51.360 of the Code of Federal Regulations, for vehicles required to be tested under this Chapter, an expenditure of at least \$450 in emission-related repairs (but exclusive of any repairs related to tampering) has been made.

(4) For a vehicle of model year 1981 or later, the repairs were performed by a recognized repair technician.

(5) Evidence of repair is presented, consisting of either

(i) signed and dated receipts identifying the vehicle and describing the work performed and the amount charged for the eligible emission-related repairs or (ii) an affidavit executed by the person performing the eligible emission-related repairs.

(b) The Agency may issue an emission inspection certificate to a vehicle failing a retest if a complete documented physical and functional diagnosis and inspection shows that no additional emission-related repairs are needed. This diagnostic inspection must be performed by the Agency or its designated agent and shall be available only to a vehicle owner whose vehicle was repaired by a recognized repair technician.

(c) The Agency may extend the emission inspection certificate expiration date by one year upon receipt of a petition by the vehicle owner that needed repairs cannot be made due to economic hardship. Consistent with Title 40, Section 51.360 of the Code of Federal Regulations, this extension may be granted more than once during the life of the vehicle.

(d) The Agency may issue an emission inspection certificate for a vehicle subject to inspection under this Chapter that is located and primarily used in an area subject to the vehicle inspection requirements of another state. An emission inspection certificate shall be issued under this subsection only upon receipt by the Agency of evidence that the vehicle has been inspected and is in compliance with the emission inspection requirements and standards applicable in the state or local jurisdiction where the vehicle is being used.

625 ILCS 5/13C-35 — Inquiries

Sec. 13C-35. Inquiries. The Agency shall develop a means of responding to inquiries from inspectors and members of the public concerning the program, including

(i) when inspections are required, (ii) what kind of inspections are required, (iii) whether emission inspection stickers or certificates previously required for a vehicle have been obtained, and (iv) the procedures for resolving disputes concerning inspections.

625 ILCS 5/13C-40 — Grievance and damage claim requirements and procedures

Sec. 13C-40. Grievance and damage claim requirements and procedures.

(a) Emissions inspection and waiver denial grievance procedures.

(1) Any person aggrieved by a decision regarding the failure of an emissions test or the denial of a waiver may file a petition with the Agency within 30 days after the decision was made, and the Agency shall thereupon investigate the matter. Within 45 days after its receipt of the petition, the Agency shall submit to the petitioner and any affected inspector or station its written determination of the correctness or incorrectness of the decision being grieved. The written determination shall include a statement of the facts relied upon and the legal and technical issues decided by the Agency in making its determination, and may also include an order directing the inspector

(i) to issue an emission inspection certificate for the vehicle effective on such date as the Agency may specify, (ii) to reinspect the vehicle, (iii) to apply the standards that the Agency has determined to be applicable, or (iv) to take any other action that the Agency deems to be appropriate. In conducting the investigation, the Agency may require the petitioner to present the vehicle for inspection by the Agency or its designated agent.

(2) The written determination of the Agency shall be subject to review in circuit court in accordance with the provisions of the Administrative Review Law, except that no challenge to the validity of a rule adopted or continued under subsection

(a) of Section 13C-20 shall be heard by the circuit court if the challenge could have been raised in a timely petition for review as provided in Section 13C-20.

(b) Vehicle damage claim requirements and procedures.

(1) The contractor shall make vehicle damage claim forms authorized by the Agency available for vehicle owners in sufficient quantities at all official inspection stations.

(2) Notice of the vehicle damage claim procedures and the vehicle owner's rights in relation to a vehicle damage claim shall be conspicuously posted at all official inspection stations.

(3) If a vehicle owner believes that his or her vehicle was damaged by an act or omission of the contractor during or as a result of an emissions inspection performed on or after August 1, 2002, the owner may initiate resolution of the damage claim under this subsection by complying with the following: (A) Within 30 days of the date of the vehicle emissions inspection that allegedly caused the vehicle damage, the vehicle owner shall submit a vehicle damage claim to the

contractor at the official inspection station at which the vehicle damage allegedly occurred. (B) Within 30 days of filing the claim, the owner shall submit to the contractor any relevant information relating to the owner's claim for vehicle damage, including but not limited to evaluations conducted by a claims evaluation center or automotive repair shop meeting standards prescribed by the Agency.

(4) The contractor shall promptly notify the Agency of each vehicle damage claim received by the contractor under subdivision (b)(3) and shall forward to the Agency any additional information provided by the owner.

(5) Within 60 days after the filing of a vehicle damage claim, the contractor shall notify the vehicle owner of its proposed resolution of the damage claim.

(6) Within 30 days after receiving the contractor's proposed resolution of the damage claim, the owner may petition the Agency for a review of the adequacy and completeness of the contractor's proposed resolution. The petition shall be in a form specified by the Agency.

(7) Upon receiving a petition for review, the Agency shall request the contractor to deliver to the Agency a copy of the contractor's proposed resolution of the damage claim, together with all documents, videotapes, and information relevant to the damage claim and the proposed resolution. The contractor shall provide the requested materials to the Agency within 15 days of receiving the Agency's request.

(8) Within 30 days after receiving the relevant materials from the contractor, the Agency shall review the materials and determine whether the contractor's proposed resolution of the damage claim is adequate and complete. The Agency may deem the proposed resolution of the damage claim to be adequate and complete. If the Agency does not deem the proposed resolution of the damage claim to be adequate and complete, it may request the contractor to further investigate and evaluate the damage claim and resubmit its proposed resolution of the claim. The contractor shall then have 30 days to respond in writing to the Agency with the results of its further evaluation of the damage claim and its proposed resolution.

(9) The Agency shall notify the vehicle owner in writing of the result of its review of the adequacy and completeness of the contractor's proposed resolution of the damage claim. Copies of all correspondence between the Agency and the contractor relating to the damage claim shall also be sent to the vehicle owner.

(10) If, after the Agency's review, the vehicle owner still does not agree with all or a portion of the proposed resolution of the damage claim by the contractor, the vehicle owner may further pursue the damage claim through the binding arbitration process established by the contractor and accepted by the Agency, or in circuit court.

(11) The Agency's review of the adequacy and completeness of the contractor's proposed resolution of a damage claim is not binding upon the vehicle owner or the contractor and does not affect the rights of the vehicle owner or the contractor under law. The Agency's review of the adequacy and completeness of the contractor's proposed resolution of a damage claim is not a final action subject to administrative review and is not subject to review by the Pollution Control Board or otherwise appealable.

625 ILCS 5/13C-45 — Contracts

Sec. 13C-45. Contracts.

(a) The Agency may enter into contracts with one or more responsible parties to construct and operate official inspection stations, provide and maintain approved test equipment, administer tests, certify results, issue emission inspection stickers or certificates, maintain records, train personnel, provide information to the public concerning the program, or to otherwise further the goals of this Chapter.

(b) In preparing its proposals for bidding by potential contractors, the Agency shall endeavor to include provisions relating to the following factors:

(1) The demonstrated financial responsibility of the potential contractor.

(2) The specialized experience and technical competence of the potential contractor in connection with the type of services required and the complexity of the project.

(3) The potential contractor's past record of performance on contracts with the Agency, with other government agencies or public bodies, and with private industry, including such items as cost, quality of work, and ability to meet schedules.

(4) The capacity of the potential contractor to perform the work within the time limitations.

(5) The familiarity of the potential contractor with the types of problems applicable to the project.

(6) The potential contractor's proposed method to accomplish the work required, including where appropriate any demonstrated capability of exploring and developing innovative or advanced techniques and methods.

(7) Avoidance of personal and organizational conflicts of interest prohibited under federal, State, or local law.

(8) The potential contractor's present and prior involvement in the community and in the State of Illinois.

625 ILCS 5/13C-50 — Costs

Sec. 13C-50. Costs.

(a) Except as otherwise provided in paragraph (a)(5) or (b)(7) of Section 13C-15, no fee shall be charged to motor vehicle owners for obtaining inspections required under this Chapter. The Vehicle Inspection Fund, which is a fund created in the State treasury for the purpose of receiving moneys from the Motor Fuel Tax Fund and other sources, shall be used, subject to appropriation, for the payment of the costs of the program, including reimbursement of those agencies of the State that incur expenses in the administration or enforcement of the program. The Vehicle Inspection Fund shall continue in existence notwithstanding the repeal of Chapter 13B. Any money in the Vehicle Inspection Fund on February 1, 2007, shall be used for the purposes set forth in this Chapter.

(b) The Agency may acquire, own, maintain, operate, sell, lease and otherwise transfer real and personal property and interests in real and personal property for the purpose of creating or operating inspection stations and for any other purpose relating to the administration of this Chapter, and may use money from the Vehicle Inspection Fund for these purposes.

625 ILCS 5/13C-55 — Enforcement

Sec. 13C-55. Enforcement.

(a) Computer-Matched Enforcement.

(1) The provisions of this subsection

(a) are operative until the implementation of the registration denial enforcement mechanism required by subsection (b). The Agency shall cooperate in the enforcement of this Chapter by

(i) identifying probable violations through computer matching of vehicle registration records and inspection records; (ii) sending one notice to each suspected violator identified through such matching, stating that registration and inspection records indicate that the vehicle owner has not complied with this Chapter; (iii) directing the vehicle owner to notify the Agency or the Secretary of State if he or she has ceased to own the vehicle or has changed residence; and (iv) advising the vehicle owner of the consequences of violating this Chapter. The Agency shall cooperate with the Secretary of State in the administration of this Chapter and the related provisions of Chapter 3, and shall provide the Secretary of State with such information as the Secretary of State may deem necessary for these purposes, including regular and timely access to vehicle inspection records. The Secretary of State shall cooperate with the Agency in the administration of this Chapter and shall provide the Agency with such information as the Agency may deem necessary for the purposes of this Chapter, including regular and timely access to vehicle registration records. Section 2-123 of this Code does not apply to the provision of this information.

(2) The Secretary of State shall suspend either the driving privileges or the vehicle registration, or both, of any vehicle owner who has not complied with this Chapter, if

(i) the vehicle owner has failed to satisfactorily respond to the one notice sent by the Agency under paragraph (a)(1), and (ii) the Secretary of State has mailed the vehicle owner a notice that the suspension will be imposed if the owner does not comply within a stated period, and the Secretary of State has not received satisfactory evidence of compliance within that period. The Secretary of State shall send this notice only after receiving a statement from the Agency that the vehicle owner has failed to comply with this Section. Notice shall be effective as specified in subsection

(c) of Section 6-211 of this Code. A suspension under this paragraph (a)(2) shall not be terminated until satisfactory proof of compliance has been submitted to the Secretary of State. No driver's license or permit, or renewal of a license or permit, may be issued to a person whose driving privileges have been suspended under this Section until the suspension has been terminated. No vehicle registration or registration plate or digital registration plate that has been suspended under this Section may be reinstated or renewed, or transferred by the owner to any other vehicle, until the suspension has been terminated.

(b) Registration Denial Enforcement.

(1) No later than January 1, 2008, and consistent with Title 40, Part 51, Section 51.361 of the Code of Federal Regulations, the Agency and the Secretary of State shall design, implement, maintain, and operate a registration denial enforcement mechanism to ensure compliance with the provisions of this Chapter, and cooperate with other State and local governmental entities to effectuate its provisions. Specifically, this enforcement mechanism shall contain, at a minimum, the following elements: (A) An external, readily visible means of determining vehicle compliance with the registration requirement to facilitate enforcement of the program; (B) A biennial schedule of testing that clearly determines when a vehicle shall comply prior to registration; (C) A testing certification mechanism (either paper-based or electronic) that shall be used for registration purposes and clearly states whether the certification is valid for purposes of registration, including:

(i) Expiration date of the certificate; (ii) Unambiguous vehicle identification information; and (iii) Whether the vehicle passed or received a waiver; (D) A commitment to routinely issue citations to motorists with expired or missing license plates, with either no registration or an expired registration, and with no license plate decals or expired decals, and provide for enforcement officials other than police to issue citations (e.g., parking meter attendants) to parked vehicles in noncompliance; (E) A commitment to structure the penalty system to deter noncompliance with the registration requirement through the use of mandatory minimum fines (meaning civil, monetary penalties) constituting a meaningful deterrent and through a requirement that compliance be demonstrated before a case can be closed; (F) Ensurance that evidence of testing is available and checked for validity at the time of a new registration of a used vehicle or registration renewal; (G) Prevention of owners or lessors from avoiding testing through manipulation of the title or registration system; title transfers may re-start the clock on the inspection cycle only if proof of current compliance is required at title transfer; (H) Prevention of the fraudulent initial classification or reclassification of a vehicle from subject to non-subject or exempt by requiring proof of address changes prior to registration record modification, and documentation from the testing program (or delegate) certifying based on a physical inspection that the vehicle is exempt; (I) Limiting and tracking of the use of time extensions of the registration requirement to prevent repeated extensions; (J) Providing for meaningful penalties for cases of registration fraud; (K) Limiting and tracking exemptions to prevent abuse of the exemption policy for vehicles claimed to be out-of-state; and (L) Encouraging enforcement of vehicle registration transfer requirements when vehicle owners move into the affected counties by coordinating with local and State enforcement agencies and structuring other activities (e.g., driver's license issuance) to effect registration transfers.

(2) The Agency shall cooperate in the enforcement of this Chapter by providing the owner or owners of complying vehicles with a Compliance Certificate stating that the vehicle meets all applicable requirements of this Chapter. The Agency shall cooperate with the Secretary of State in the administration of this Chapter and the related provisions of Chapter 3, and shall provide the Secretary of State with such information as the Secretary of State may deem necessary for these purposes, including regular and timely access to vehicle inspection records. The Secretary of State shall cooperate with the Agency in the administration of this Chapter and shall provide the Agency with such information as the Agency may deem necessary for the purposes of this Chapter, including regular and timely access to vehicle registration records. Section 2-123 of this Code does not apply to the provision of this information.

(3) Consistent with the requirements of Section 13C-15, the Secretary of State shall not renew any vehicle registration for a subject vehicle that has not complied with this Chapter. Additionally, the Secretary of State shall not allow the issuance of a new registration nor allow the transfer of a registration to a subject vehicle that has not complied with this Chapter.

(4) The Secretary of State shall suspend the registration of any vehicle which has permanent vehicle registration plates or digital registration plates that has not complied with the requirements of this Chapter. A suspension under this paragraph (4) shall not be terminated until satisfactory proof of compliance has been submitted to the Secretary of State. No permanent vehicle registration plate or digital registration plate that has been suspended under this Section may be reinstated or renewed, or transferred by the owner to any other vehicle, until the suspension has been terminated.

625 ILCS 5/13C-60 — Other offenses

Sec. 13C-60. Other offenses.

(a) Any person who knowingly displays an emission inspection or exemption certificate for any vehicle other than the one for which the certificate was lawfully issued in accordance with the provisions of this Chapter, or duplicates, alters, uses, possesses, issues, or distributes any emission inspection or exemption certificate, or facsimile thereof, except in accordance with the provisions of this Chapter and the rules and regulations adopted hereunder, is guilty of a Class C misdemeanor.

(b) A vehicle owner shall pay a monetary fine equivalent to the test fee plus the applicable waiver repair expenditure for the continued operation of a non-complying vehicle beyond 4 months past the expiration of the vehicle emission inspection certificate. Any fines collected under this Section shall be divided equally between the local jurisdiction issuing the citation and the Vehicle Inspection Fund.

625 ILCS 5/13C-75 — Home rule

Sec. 13C-75. Home rule. The vehicle emission inspection program created by this Chapter is hereby declared to be the subject of exclusive State jurisdiction. Pursuant to subsection

(h) of Section 6 of Article VII of the Illinois Constitution, the exercise by a home rule unit of any power that is inconsistent with this Chapter is hereby specifically denied and preempted.

625 ILCS 5/15-100

Sec. 15-100. (Repealed).

625 ILCS 5/15-101 — Scope and effect of Chapter 15

Sec. 15-101. Scope and effect of Chapter 15.

(a) It is unlawful for any person to drive or move on, upon or across or for the owner to cause or knowingly permit to be driven or moved on, upon or across any highway any vehicle or vehicles of a size and weight exceeding the limitations stated in this Chapter or otherwise in violation of this Chapter, and the maximum size and weight of vehicles herein specified shall be lawful throughout this State, and local authorities shall have no power or authority to alter such limitations except as express authority may be granted in this Chapter.

(b) The provisions of this Chapter governing size, weight, and load do not apply to equipment for snow and ice removal operations owned or operated by any governmental body, or to implements of husbandry, as defined in Chapter 1 of this Code, temporarily operated or towed in a combination upon a highway provided such combination does not consist of more than 3 vehicles or, in the case of hauling fresh, perishable fruits or vegetables from farm to the point of first processing, not more than 3 wagons being towed by an implement of husbandry, or to a vehicle operated under the terms of a special permit issued hereunder. Except for weight limits on Class I highways under this Chapter, the provisions of this Chapter governing size, weight, and load do not apply to fire apparatus or emergency vehicles.

(c) The provisions of this Chapter governing size, weight, and load do not apply to any snow and ice removal equipment that is no more than 12 feet in width, if the equipment displays flags at least 18 inches square mounted on the driver's side of the snow plow. These vehicles must be equipped with an illuminated rotating, oscillating, or flashing amber light or lights, or a flashing amber strobe light or lights, mounted on the top of the cab and of sufficient intensity to be visible at 500 feet in normal sunlight. If the load on the transport vehicle blocks the visibility of the amber lighting from the rear of the vehicle, the vehicle must also be equipped with an illuminated rotating, oscillating, or flashing amber light or lights, or a flashing amber strobe light or lights, mounted on the rear of the load and of sufficient intensity to be visible at 500 feet in normal sunlight.

625 ILCS 5/15-102 — Width of vehicles

Sec. 15-102. Width of vehicles.

(a) On Class III and non-designated State and local highways, the total outside width of any vehicle or load thereon shall not exceed 8 feet 6 inches.

(b) Except during those times when, due to insufficient light or unfavorable atmospheric conditions, persons and vehicles on the highway are not clearly discernible at a distance of 1000 feet, the following vehicles may exceed the 8 feet 6 inch limitation during the period from a half hour before sunrise to a half hour after sunset:

(1) Loads of hay, straw or other similar farm products provided that the load is not more than 12 feet wide.

(2) Implements of husbandry being transported on another vehicle and the transporting vehicle while loaded. The following requirements apply to the transportation on another vehicle of an implement of husbandry wider than 8 feet 6 inches on the National System of Interstate and Defense Highways or other highways in the system of State highways:

(A) The driver of a vehicle transporting an implement of husbandry that exceeds 8 feet 6 inches in width shall obey all traffic laws and shall check the roadways prior to making a movement in order to ensure that adequate clearance is available for the movement. It is prima facie evidence that the driver of a vehicle transporting an implement of husbandry

has failed to check the roadway prior to making a movement if the vehicle is involved in a collision with a bridge, overpass, fixed structure, or properly placed traffic control device or if the vehicle blocks traffic due to its inability to proceed because of a bridge, overpass, fixed structure, or properly placed traffic control device. (B) Flags shall be displayed so as to wave freely at the extremities of overwidth objects and at the extreme ends of all protrusions, projections, and overhangs. All flags shall be clean, bright red flags with no advertising, wording, emblem, or insignia inscribed upon them and at least 18 inches square. (C) "OVERSIZE LOAD" signs are mandatory on the front and rear of all vehicles with loads over 10 feet wide. These signs must have 12-inch high black letters with a 2-inch stroke on a yellow sign that is 7 feet wide by 18 inches high. (D) One civilian escort vehicle is required for a load that exceeds 14 feet 6 inches in width and 2 civilian escort vehicles are required for a load that exceeds 16 feet in width on the National System of Interstate and Defense Highways or other highways in the system of State highways. (E) The requirements for a civilian escort vehicle and driver are as follows:

- (1) The civilian escort vehicle shall be a vehicle not exceeding a gross vehicle weight rating of 26,000 pounds that is designed to afford clear and unobstructed vision to both front and rear.
 - (2) The escort vehicle driver must be properly licensed to operate the vehicle.
 - (3) While in use, the escort vehicle must be equipped with illuminated rotating, oscillating, or flashing amber lights or flashing amber strobe lights mounted on top that are of sufficient intensity to be visible at 500 feet in normal sunlight.
 - (4) "OVERSIZE LOAD" signs are mandatory on all escort vehicles. The sign on an escort vehicle shall have 8-inch high black letters on a yellow sign that is 5 feet wide by 12 inches high.
 - (5) When only one escort vehicle is required and it is operating on a two-lane highway, the escort vehicle shall travel approximately 300 feet ahead of the load. The rotating, oscillating, or flashing lights or flashing amber strobe lights and an "OVERSIZE LOAD" sign shall be displayed on the escort vehicle and shall be visible from the front. When only one escort vehicle is required and it is operating on a multilane divided highway, the escort vehicle shall travel approximately 300 feet behind the load and the sign and lights shall be visible from the rear.
 - (6) When 2 escort vehicles are required, one escort shall travel approximately 300 feet ahead of the load and the second escort shall travel approximately 300 feet behind the load. The rotating, oscillating, or flashing lights or flashing amber strobe lights and an "OVERSIZE LOAD" sign shall be displayed on the escort vehicles and shall be visible from the front on the lead escort and from the rear on the trailing escort.
 - (7) When traveling within the corporate limits of a municipality, the escort vehicle shall maintain a reasonable and proper distance from the oversize load, consistent with existing traffic conditions.
 - (8) A separate escort shall be provided for each load hauled.
 - (9) The driver of an escort vehicle shall obey all traffic laws.
 - (10) The escort vehicle must be in safe operational condition.
 - (11) The driver of the escort vehicle must be in radio contact with the driver of the vehicle carrying the oversize load. (F) A transport vehicle while under load of more than 8 feet 6 inches in width must be equipped with an illuminated rotating, oscillating, or flashing amber light or lights or a flashing amber strobe light or lights mounted on the top of the cab that are of sufficient intensity to be visible at 500 feet in normal sunlight. If the load on the transport vehicle blocks the visibility of the amber lighting from the rear of the vehicle, the vehicle must also be equipped with an illuminated rotating, oscillating, or flashing amber light or lights or a flashing amber strobe light or lights mounted on the rear of the load that are of sufficient intensity to be visible at 500 feet in normal sunlight. (G) When a flashing amber light is required on the transport vehicle under load and it is operating on a two-lane highway, the transport vehicle shall display to the rear at least one rotating, oscillating, or flashing light or a flashing amber strobe light and an "OVERSIZE LOAD" sign. When a flashing amber light is required on the transport vehicle under load and it is operating on a multilane divided highway, the sign and light shall be visible from the rear. (H) Maximum speed shall be 45 miles per hour on all such moves or 5 miles per hour above the posted minimum speed limit, whichever is greater, but the vehicle shall not at any time exceed the posted maximum speed limit.
- (3) Portable buildings designed and used for agricultural and livestock raising operations that are not more than 14 feet wide and with not more than a one-foot overhang along the left side of the hauling vehicle. However, the buildings shall not be transported more than 10 miles and not on any route that is part of the National System of Interstate and Defense Highways. All buildings when being transported shall display at least 2 red cloth flags, not less than 12 inches square, mounted as high as practicable on the left and right side of the building. An Illinois State Police escort shall be required if

it is necessary for this load to use part of the left lane when crossing any 2-laned State highway bridge.

(c) Vehicles propelled by electric power obtained from overhead trolley wires operated wholly within the corporate limits of a municipality are also exempt from the width limitation.

(d) (Blank). (d-1) A recreational vehicle, as defined in Section 1-169, may exceed 8 feet 6 inches in width if:

(1) the excess width is attributable to appurtenances that extend 6 inches or less beyond either side of the body of the vehicle; and

(2) the roadway on which the vehicle is traveling has marked lanes for vehicular traffic that are at least 11 feet in width. As used in this subsection (d-1) and in subsection (d-2), the term appurtenance includes

(i) a retracted awning and its support hardware and (ii) any appendage that is intended to be an integral part of a recreational vehicle. (d-2) A recreational vehicle that exceeds 8 feet 6 inches in width as provided in subsection (d-1) may travel any roadway of the State if the vehicle is being operated between a roadway permitted under subsection (d-1) and:

(1) the location where the recreational vehicle is garaged;

(2) the destination of the recreational vehicle; or

(3) a facility for food, fuel, repair, services, or rest.

(e) A vehicle and load traveling upon the National System of Interstate and Defense Highways or any other highway in the system of State highways that has been designated as a Class I or Class II highway by the Department, or any street or highway designated by local authorities, may have a total outside width of 8 feet 6 inches, provided that certain safety devices that the Department determines as necessary for the safe and efficient operation of motor vehicles shall not be included in the calculation of width. Section 5-35 of the Illinois Administrative Procedure Act relating to procedures for rulemaking shall not apply to the designation of highways under this paragraph (e).

(f) Mirrors required by Section 12-502 of this Code may project up to 14 inches beyond each side of a bus and up to 6 inches beyond each side of any other vehicle, and that projection shall not be deemed a violation of the width restrictions of this Section.

(g) Any person who is convicted of violating this Section is subject to the penalty as provided in paragraph

(b) of Section 15-113.

(h) Safety devices identified by the Department in accordance with Section 12-812 shall not be deemed a violation of the width restrictions of this Section.

625 ILCS 5/15-103 — Height of vehicles

Sec. 15-103. Height of vehicles. The height of a vehicle from the under side of the tire to the top of the vehicle, inclusive of load, shall not exceed 13 feet, 6 inches on any highway in the State. A person convicted of violating this Section is subject to the penalty provided in paragraph

(b) of Section 15-113.

625 ILCS 5/15-105 — Projecting loads on passenger vehicles

Sec. 15-105. Projecting loads on passenger vehicles. No passenger-type vehicle shall be operated on any highway with any load carried thereon extending beyond the line of the fenders on the left side of such vehicle nor extending more than 6 inches beyond the line of the fenders on the right side thereof.

625 ILCS 5/15-106 — Protruding members of vehicles

Sec. 15-106. Protruding members of vehicles. No vehicle with boom, arm, drill rig or other protruding component shall be operated upon any highway in this State unless such protruding component is fastened so as to prevent shifting, bouncing or moving in any manner.

625 ILCS 5/15-107 — Length of vehicles

Sec. 15-107. Length of vehicles.

(a) The maximum length of a single vehicle on any highway of this State may not exceed 42 feet except the following:

(1) Semitrailers.

(2) Charter or regulated route buses may be up to 45 feet in length, not including energy absorbing bumpers. (a-1) A motor home as defined in Section 1-145.01 may be up to 45 feet in length, not including energy absorbing bumpers. The length limitations described in this subsection (a-1) shall be exclusive of energy-absorbing bumpers and rear view mirrors.

(b) The Department shall have the authority to restrict vehicle length on its roadways as it deems appropriate.

(c) Except as provided in subsections (c-1) and (c-2), combinations of vehicles may not exceed a total of 2 vehicles except the following:

(1) A truck tractor semitrailer may draw one trailer.

(2) A truck tractor semitrailer may draw one converter dolly or one semitrailer.

(3) A truck tractor semitrailer may draw one vehicle that is defined in Chapter 1 as special mobile equipment, provided the overall dimension does not exceed 60 feet.

(4) A truck in transit may draw 3 trucks in transit coupled together by the triple saddlemount method.

(5) Recreational vehicles consisting of 3 vehicles, provided the following: (A) The total overall dimension does not exceed 60 feet. (B) The towing vehicle is a properly registered vehicle capable of towing another vehicle using a fifth-wheel type assembly. (C) The second vehicle in the combination of vehicles is a recreational vehicle that is towed by a fifth-wheel assembly. This vehicle must be properly registered and must be equipped with brakes, regardless of weight. (D) The third vehicle must be the lightest of the 3 vehicles and be a trailer or semitrailer designed or used for transporting a boat, all-terrain vehicle, personal watercraft, or motorcycle. (E) The towed vehicles may be only for the use of the operator of the towing vehicle. (F) All vehicles must be properly equipped with operating brakes and safety equipment required by this Code, except the additional brake requirement in subdivision (C) of this subparagraph (5).

(6) A tow truck in combination with a disabled vehicle or combination of disabled vehicles, provided the towing vehicle: (A) Is specifically designed as a tow truck having a gross vehicle weight rating of at least 18,000 pounds and equipped with air brakes, provided that air brakes are required only if the towing vehicle is towing a vehicle, semitrailer, or tractor-trailer combination that is equipped with air brakes. For the purpose of this subsection, gross vehicle weight rating, or GVWR, means the value specified by the manufacturer as the loaded weight of the tow truck. (B) Is equipped with flashing, rotating, or oscillating amber lights, visible for at least 500 feet in all directions. (C) Is capable of utilizing the lighting and braking systems of the disabled vehicle or combination of vehicles. (D) Does not engage a tow exceeding 50 highway miles from the initial point of wreck or disablement to a place of repair. Any additional movement of the vehicles may occur only upon issuance of authorization for that movement under the provisions of Sections 15-301 through 15-318 of this Code. The Department may by rule or regulation prescribe additional requirements regarding length limitations for a tow truck towing another vehicle. For purposes of this Section, a tow-dolly that merely serves as substitute wheels for another legally licensed vehicle is considered part of the licensed vehicle and not a separate vehicle.

(7) Commercial vehicles consisting of 3 vehicles, provided the following: (A) The total overall dimension does not exceed 65 feet. (B) The towing vehicle is a properly registered vehicle capable of towing another vehicle using a fifth-wheel type assembly or a goose-neck hitch ball. (C) The third vehicle must be the lightest of the 3 vehicles and be a trailer or semitrailer. (D) All vehicles must be properly equipped with operating brakes and safety equipment required by this Code. (E) The combination of vehicles must be operated by a person who holds a commercial driver's license (CDL). (F) The combination of vehicles must be en route to a location where new or used trailers are sold by an Illinois or out-of-state licensed new or used trailer dealer. (c-1) A combination of 3 vehicles is allowed access to any State designated highway if:

(1) the length of neither towed vehicle exceeds 28.5 feet;

(2) the overall wheel base of the combination of vehicles does not exceed 62 feet; and

(3) the combination of vehicles is en route to a location where new or used trailers are sold by an Illinois or out-of-state licensed new or used trailer dealer. (c-2) A combination of 3 vehicles is allowed access from any State designated highway onto any county, township, or municipal highway for a distance of 5 highway miles for the purpose of delivery or collection of one or both of the towed vehicles if:

(1) the length of neither towed vehicle exceeds 28.5 feet;

(2) the combination of vehicles does not exceed 40,000 pounds in gross weight and 8 feet 6 inches in width;

(3) there is no sign prohibiting that access;

(4) the route is not being used as a thoroughfare between State designated highways; and

(5) the combination of vehicles is en route to a location where new or used trailers are sold by an Illinois or out-of-state licensed new or used trailer dealer.

(d) On Class I highways there are no overall length limitations on motor vehicles operating in combinations provided:

(1) The length of a semitrailer, unladen or with load, in combination with a truck tractor may not exceed 53 feet.

(2) The distance between the kingpin and the center of the rear axle of a semitrailer longer than 48 feet, in combination with a truck tractor, may not exceed 45 feet 6 inches. The limit contained in this paragraph

(2) shall not apply to trailers or semi-trailers used for the transport of livestock as defined by Section 18b-101.

(3) The length of a semitrailer or trailer, unladen or with load, operated in a truck tractor-semitrailer-trailer or truck tractor semitrailer-semitrailer combination, may not exceed 28 feet 6 inches.

(4) Maxi-cube combinations, as defined in Chapter 1, may not exceed 65 feet overall dimension.

(5) Combinations of vehicles specifically designed to transport motor vehicles or boats may not exceed 65 feet overall dimension. The length limitation is inclusive of front and rear bumpers but exclusive of the overhang of the transported vehicles, as provided in paragraph

(i) of this Section.

The length limitation is inclusive of front and rear bumpers but exclusive of the overhang of the transported vehicles, as provided in paragraph

(i) of this Section.

(7) A truck in transit transporting 3 trucks coupled together by the triple saddlemount method may not exceed 97 feet overall dimension.

(8) A towaway trailer transporter combination may not exceed 82 feet overall dimension. Vehicles operating during daylight hours when transporting poles, pipes, machinery, or other objects of a structural nature that cannot readily be dismantled or disassembled are exempt from length limitations, provided that no object may exceed 80 feet in length and the overall dimension of the vehicle including the load may not exceed 100 feet. This exemption does not apply to operation on a Saturday, Sunday, or legal holiday. Legal holidays referred to in this Section are the days on which the following traditional holidays are celebrated: New Year's Day; Memorial Day; Independence Day; Labor Day; Thanksgiving Day; and Christmas Day. Vehicles and loads operated by a public utility while en route to make emergency repairs to public service facilities or properties are exempt from length limitations, provided that during night operations every vehicle and its load must be equipped with a sufficient number of clearance lamps on both sides and marker lamps on the extreme ends of any projecting load to clearly mark the dimensions of the load. A tow truck in combination with a disabled vehicle or combination of disabled vehicles, as provided in paragraph

(6) of subsection

(c) of this Section, is exempt from length limitations. The length limitations described in this paragraph

(d) shall be exclusive of safety and energy conservation devices, such as bumpers, refrigeration units or air compressors and other devices, that the Department may interpret as necessary for safe and efficient operation; except that no device excluded under this paragraph shall have by its design or use the capability to carry cargo. Section 5-35 of the Illinois Administrative Procedure Act relating to procedures for rulemaking shall not apply to the designation of highways under this paragraph (d).

(e) On Class II highways there are no overall length limitations on motor vehicles operating in combinations, provided:

(1) The length of a semitrailer, unladen or with load, in combination with a truck tractor, may not exceed 53 feet overall dimension.

(2) The distance between the kingpin and the center of the rear axle of a semitrailer longer than 48 feet, in combination with a truck tractor, may not exceed 45 feet 6 inches. The limit contained in this paragraph

(2) shall not apply to trailers or semi-trailers used for the transport of livestock as defined by Section 18b-101.

(3) A truck tractor-semitrailer-trailer or truck tractor semitrailer-semitrailer combination may not exceed 65 feet in dimension from front axle to rear axle.

(4) The length of a semitrailer or trailer, unladen or with load, operated in a truck tractor-semitrailer-trailer or truck tractor semitrailer-semitrailer combination, may not exceed 28 feet 6 inches.

(5) Maxi-cube combinations, as defined in Chapter 1, may not exceed 65 feet overall dimension.

(6) A combination of vehicles, specifically designed to transport motor vehicles or boats, may not exceed 65 feet overall dimension. The length limitation is inclusive of front and rear bumpers but exclusive of the overhang of the transported vehicles, as provided in paragraph

(i) of this Section.

(7) Stinger-steered semitrailer vehicles specifically designed to transport motor vehicles or boats may not exceed 80 feet overall dimension. The length limitation is inclusive of front and rear bumpers but exclusive of the overhang of the transported vehicles, as provided in paragraph

(i) of this Section.

(8) A truck in transit transporting 3 trucks coupled together by the triple saddlemount method may not exceed 97 feet overall dimension.

(9) A towaway trailer transporter combination may not exceed 82 feet overall dimension. Vehicles operating during daylight hours when transporting poles, pipes, machinery, or other objects of a structural nature that cannot readily be dismantled or disassembled are exempt from length limitations, provided that no object may exceed 80 feet in length and the overall dimension of the vehicle including the load may not exceed 100 feet. This exemption does not apply to operation on a Saturday, Sunday, or legal holiday. Legal holidays referred to in this Section are the days on which the following traditional holidays are celebrated: New Year's Day; Memorial Day; Independence Day; Labor Day; Thanksgiving Day; and Christmas Day. Vehicles and loads operated by a public utility while en route to make emergency repairs to public service facilities or properties are exempt from length limitations, provided that during night operations every vehicle and its load must be equipped with a sufficient number of clearance lamps on both sides and marker lamps on the extreme ends of any projecting load to clearly mark the dimensions of the load. A tow truck in combination with a disabled vehicle or combination of disabled vehicles, as provided in paragraph

(6) of subsection

(c) of this Section, is exempt from length limitations. Local authorities, with respect to streets and highways under their jurisdiction, may also by ordinance or resolution allow length limitations of this subsection (e). The length limitations described in this paragraph

(e) shall be exclusive of safety and energy conservation devices, such as bumpers, refrigeration units or air compressors and other devices, that the Department may interpret as necessary for safe and efficient operation; except that no device excluded under this paragraph shall have by its design or use the capability to carry cargo. Section 5-35 of the Illinois Administrative Procedure Act relating to procedures for rulemaking shall not apply to the designation of highways under this paragraph (e). (e-1) (Blank). (e-2) Except as provided in subsection (e-3), combinations of vehicles over 65 feet in length, with no overall length limitation except as provided in subsections

(d) and

(e) of this Section, are allowed access as follows:

(1) From a Class I highway onto any street or highway for a distance of one highway mile for the purpose of loading, unloading, food, fuel, repairs, and rest, provided there is no sign prohibiting that access.

(2) From a Class I or Class II highway onto any non-designated highway for a distance of 5 highway miles for the purpose of loading, unloading, food, fuel, repairs, and rest if: (A) there is no sign prohibiting that access; and (B) the route is not being used as a thoroughfare between Class I or Class II highways. (e-3) Combinations of vehicles over 65 feet in length operated by household goods carriers or towaway trailer transporter combinations, with no overall length limitations except as provided in subsections

(d) and

(e) of this Section, have unlimited access to points of loading, unloading, or delivery to or from a manufacturer, distributor, or dealer.

(f) On non-designated highways, the maximum length limitations for vehicles in combination are as follows:

(1) A truck tractor in combination with a semitrailer may not exceed 65 feet overall dimension.

(2) Semitrailers, unladen or with load, may not exceed 53 feet overall dimension.

(3) A truck tractor-semi-trailer-trailer or truck tractor semi-trailer-semi-trailer may not exceed 60 feet overall dimension.

(4) The distance between the kingpin and the center axle of a semi-trailer longer than 48 feet, in combination with a truck tractor, may not exceed 42 feet 6 inches. The limit contained in this paragraph

(4) shall not apply to trailers or semi-trailers used for the transport of livestock as defined by Section 18b-101. An agency or instrumentality of the State or any unit of local government shall not be required to design, construct, alter, widen, or maintain any non-designated highway to accommodate vehicles in combination under this subsection (f). For the purposes of designing or modifying the intersection of a local roadway and a State roadway that does not accommodate vehicles under this subsection (f), a local unit of government may request in writing for the Department to restrict the length of vehicles turning on to or off of any jurisdiction roadway of the intersection. The Department may, in its sole discretion, restrict the length of vehicles turning on to or off of any jurisdiction roadway of the intersection. A restriction so determined and declared by the Department becomes effective, when appropriate signs giving notice of the limit are erected. Each governmental entity shall cause signage to be installed on its respective roadway to notify vehicles of turning and length restrictions. Vehicles that exceed posted measurements shall be prohibited from turning to access the roadway.

(g) Length limitations in the preceding subsections of this Section 15-107 do not apply to the following:

(1) Vehicles operated in the daytime, except on Saturdays, Sundays, or legal holidays, when transporting poles, pipe, machinery, or other objects of a structural nature that cannot readily be dismantled or disassembled, provided the overall length of vehicle and load may not exceed 100 feet and no object exceeding 80 feet in length may be transported unless a permit has been obtained as authorized in Section 15-301. As used in this Section, "legal holiday" means any of the following days: New Year's Day; Memorial Day; Independence Day; Labor Day; Thanksgiving Day; and Christmas Day.

(2) Vehicles and loads operated by a public utility while en route to make emergency repairs to public service facilities or properties, but during night operation every vehicle and its load must be equipped with a sufficient number of clearance lamps on both sides and marker lamps upon the extreme ends of any projecting load to clearly mark the dimensions of the load.

(3) A tow truck in combination with a disabled vehicle or combination of disabled vehicles, as provided in paragraph (6) of subsection

(c) of this Section, is exempt from length limitations. The towing vehicle, however, may tow any disabled vehicle from the initial point of wreck or disablement to a point where repairs are actually to occur. This movement shall be valid only on State routes. The tow must abide by posted bridge weight limits. All other combinations not listed in this subsection

(f) may not exceed 60 feet overall dimension.

(h) The load upon any vehicle operated alone, or the load upon the front vehicle of a combination of vehicles, shall not extend more than 3 feet beyond the front wheels of the vehicle or the front bumper of the vehicle if it is equipped with a front bumper. The provisions of this subsection

(h) shall not apply to any vehicle or combination of vehicles specifically designed for the collection and transportation of waste, garbage, or recyclable materials during the vehicle's operation in the course of collecting garbage, waste, or recyclable materials if the vehicle is traveling at a speed not in excess of 15 miles per hour during the vehicle's operation and in the course of collecting garbage, waste, or recyclable materials. However, in no instance shall the load extend more than 7 feet beyond the front wheels of the vehicle or the front bumper of the vehicle if it is equipped with a front bumper.

(i) The load upon the front vehicle of an automobile transporter or a stinger-steered vehicle specifically designed to transport motor vehicles shall not extend more than 4 feet beyond the foremost part of the transporting vehicle and the load upon the rear transporting vehicle shall not extend more than 6 feet beyond the rear of the bed or body of the vehicle. This paragraph shall only be applicable upon highways designated in paragraphs

(d) and

(e) of this Section.

(j) Articulated vehicles comprised of 2 sections, neither of which exceeds a length of 42 feet, designed for the carrying of more than 10 persons, may be up to 60 feet in length, not including energy absorbing bumpers, provided that the vehicles are: 1. operated by or for any public body or motor carrier authorized by law to provide public transportation services; or 2.

operated in local public transportation service by any other person and the municipality in which the service is to be provided approved the operation of the vehicle. (j-1) (Blank).

(k) Any person who is convicted of violating this Section is subject to the penalty as provided in paragraph

(b) of Section 15-113.

(l) (Blank).

625 ILCS 5/15-108 — Planking edge of a pavement

Sec. 15-108. Planking edge of a pavement. No tractor, traction engine or other metal tired vehicle, weighing more than 4 tons, including the weight of the vehicle and its load, shall drive up onto, off or over the edge of any paved public highway in this State, without protecting such edge by putting down solid planks or other suitable device to prevent such vehicle from breaking off the edges or corners of such pavement.

625 ILCS 5/15-109 — Spilling loads on highways prohibited

Sec. 15-109. Spilling loads on highways prohibited.

(a) No vehicle shall be driven or moved on any highway unless such vehicle is so constructed or loaded as to prevent any of its load from dropping, shifting, leaking or otherwise escaping therefrom, except that sand may be dropped for the purpose of securing traction, or water or other substance may be sprinkled on a roadway in cleaning or maintaining such roadway.

(b) No person shall operate on any highway any vehicle with any load unless said load and any covering thereon is securely fastened so as to prevent said covering or load from becoming loose, detached, or in any manner a hazard to other users of the highway.

(c) The Department shall adopt such rules and regulations it deems appropriate which require the securing of steel rolls and other objects on flatbed trucks so as to prevent injury to users of highways and damage to property. Any person who operates a flatbed truck on any highway in violation of the rules and regulations promulgated by the Department under this subsection shall be guilty of a Class A misdemeanor.

625 ILCS 5/15-109.1 — Covers or tarpaulins required for certain loads

Sec. 15-109.1. Covers or tarpaulins required for certain loads.

(a) No person shall operate or cause to be operated, on a highway, any second division vehicle loaded with dirt, aggregate, garbage, refuse, or other similar material, when any portion of the load is falling, sifting, blowing, dropping or in any way escaping from the vehicle.

(b) No person shall operate or cause to be operated, on a highway, any second division vehicle having a gross vehicle weight rating of 8,000 pounds or more loaded with dirt, aggregate, garbage, refuse, or other similar material in or on any part of the vehicle other than in the cargo area. In addition, no person shall operate on any highway, such vehicle unless the tailgate on the vehicle is in good repair and operating condition and closes securely so as to prevent any load, residue, or other material from escaping.

(c) This Section shall not apply to the operation of highway maintenance vehicles engaged in removing snow and ice from the roadway, nor to implements of husbandry or other farm vehicles while transporting agricultural products to or from the original place of production.

(d) For the purpose of this Section "aggregate" shall include all ores, minerals, sand, gravel, shale, coal, clay, limestone or any other ore or mineral which may be mined.

(e) Notwithstanding any other penalty, whenever a police officer determines that the operator of a vehicle is in violation of this Section, as evidenced by the issuance of a citation for a violation of Section 15-109.1 of this Code, or where a police officer determines that a dangerous condition exists whereby any portion of the load may fall, sift, blow, drop, or in any way escape or fall from the vehicle, the police officer shall require the operator to stop the vehicle in a suitable place and keep such vehicle stationary until the load has either been reduced, secured, or covered with a cover or tarpaulin of sufficient size to prevent any further violation of this Section.

(f) No person shall operate or cause to be operated, on a highway, a commercial motor vehicle, with the exception of a highway maintenance vehicle, transporting garbage or refuse unless the tailgate on the vehicle is in good working repair, good operating condition, and closes securely, with a cover or tarpaulin of sufficient size attached, so as to prevent any

load, residue, or other material from escaping.

(g) Any violation of the provisions of this Section shall be a petty offense punishable by a fine not to exceed \$150. In addition, a person, firm, or corporation convicted of 4 or more violations of subsection

(f) within a 12-month period shall be fined an additional amount of \$150 for the fourth and each subsequent conviction within the 12-month period. Regarding a firm or corporation, a fourth or subsequent conviction means a fourth or subsequent conviction attributable to one employee-driver.

625 ILCS 5/15-110 — Towed vehicles

Sec. 15-110. Towed vehicles.

(a) When one vehicle is towing another, the drawbar or other connection shall be of sufficient strength to pull all the weight towed thereby and the drawbar or other connection shall not exceed 15 feet from one vehicle to the other, except for the connection between any 2 vehicles transporting poles, pipes, machinery or other objects of structural nature which cannot readily be dismembered.

(b) Outside a business, residential or suburban district or on any controlled access highway, no vehicle other than a pole trailer or a semitrailer which is being towed by a truck tractor and is connected by the means of a fifth wheel shall be towed on a roadway except by a drawbar and each such vehicle so towed shall, in addition, be coupled with 2 safety chains or cables to the towing vehicle. Such chains or cables shall be of sufficient size and strength to prevent the towed vehicle parting from the drawing vehicle in case the drawbar should break or become disengaged.

(c) The provisions of this section shall not apply to any second division vehicle owned, operated or controlled by any person who is registered with the Bureau of Motor Carrier Safety of the Federal Highway Administration and has complied with the federal safety provisions of the Bureau of Motor Carrier Safety of the Federal Highway Administration and the rules and regulations of the Bureau.

625 ILCS 5/15-111 — Wheel and axle loads and gross weights

Sec. 15-111. Wheel and axle loads and gross weights.

(a) No vehicle or combination of vehicles with pneumatic tires may be operated, unladen or with load, when the total weight on the road surface exceeds the following: 20,000 pounds on a single axle; 34,000 pounds on a tandem axle with no axle within the tandem exceeding 20,000 pounds; 80,000 pounds gross weight for vehicle combinations of 5 or more axles; or a total weight on a group of 2 or more consecutive axles in excess of that weight produced by the application of the following formula: $W = 500 \text{ times the sum of } (LN \text{ divided by } N-1) + 12N + 36$, where "W" equals overall total weight on any group of 2 or more consecutive axles to the nearest 500 pounds, "L" equals the distance measured to the nearest foot between extremes of any group of 2 or more consecutive axles, and "N" equals the number of axles in the group under consideration. The above formula when expressed in tabular form results in allowable loads as follows: Distance measured to the nearest foot between the extremes of any Maximum weight in pounds group of 2 or of any group of more consecutive 2 or more consecutive axles axles feet 2 axles 3 axles 4 axles 5 axles 6 axles 4 34,000 5 34,000 6 34,000 7 34,000 8 34,000* 34,000 Between 8 and 9 38,000 42,000 9 39,000 42,500 10 40,000 43,500 11 44,000 12 45,000 50,000 13 45,500 50,500 14 46,500 51,500 15 47,000 52,000 16 48,000 52,500 58,000 17 48,500 53,500 58,500 18 49,500 54,000 59,000 19 50,000 54,500 60,000 20 51,000 55,500 60,500 66,000 21 51,500 56,000 61,000 66,500 22 52,500 56,500 61,500 67,000 23 53,000 57,500 62,500 68,000 24 54,000 58,000 63,000 68,500 25 54,500 58,500 63,500 69,000 26 55,500 59,500 64,000 69,500 27 56,000 60,000 65,000 70,000 28 57,000 60,500 65,500 71,000 29 57,500 61,500 66,000 71,500 30 58,500 62,000 66,500 72,000 31 59,000 62,500 67,500 72,500 32 60,000 63,500 68,000 73,000 33 64,000 68,500 74,000 34 64,500 69,000 74,500 35 65,500 70,000 75,000 36 66,000** 70,500 75,500 37 66,500** 71,000 76,000 38 67,500** 72,000 77,000 39 68,000 72,500 77,500 40 68,500 73,000 78,000 41 69,500 73,500 78,500 42 70,000 74,000 79,000 43 70,500 75,000 80,000 44 71,500 75,500 45 72,000 76,000 46 72,500 76,500 47 73,500 77,500 48 74,000 78,000 49 74,500 78,500 50 75,500 79,000 51 76,000 80,000 52 76,500 53 77,500 54 78,000 55 78,500 56 79,500 57 80,000 *If the distance between 2 axles is 96 inches or less, the 2 axles are tandem axles and the maximum total weight may not exceed 34,000 pounds, notwithstanding the higher limit resulting from the application of the formula. **Two consecutive sets of tandem axles may carry 34,000 pounds each if the overall distance between the first and last axles of these tandems is 36 feet or more. Vehicles not in a combination having more than 4 axles may not exceed the weight in the table in this subsection

(a) for 4 axles measured between the extreme axles of the vehicle. Vehicles in a combination having more than 6 axles may not exceed the weight in the table in this subsection

(a) for 6 axles measured between the extreme axles of the combination. Local authorities, with respect to streets and highways under their jurisdiction, without additional fees, may also by ordinance or resolution allow the weight limitations of this subsection, provided the maximum gross weight on any one axle shall not exceed 20,000 pounds and the maximum total weight on any tandem axle shall not exceed 34,000 pounds, on designated highways when appropriate regulatory signs giving notice are erected upon the street or highway or portion of any street or highway affected by the ordinance or resolution. The following are exceptions to the above formula:

(1) Vehicles for which a different limit is established and posted in accordance with Section 15-316 of this Code.

(2) Vehicles for which the Department of Transportation and local authorities issue overweight permits under authority of Section 15-301 of this Code. These vehicles are not subject to the bridge formula.

(3) Cities having a population of more than 50,000 may permit by ordinance axle loads on 2-axle motor vehicles 33 1/2% above those provided for herein, but the increase shall not become effective until the city has officially notified the Department of the passage of the ordinance and shall not apply to those vehicles when outside of the limits of the city, nor shall the gross weight of any 2-axle motor vehicle operating over any street of the city exceed 40,000 pounds.

(4) Weight limitations shall not apply to vehicles (including loads) operated by a public utility when transporting equipment required for emergency repair of public utility facilities or properties or water wells. (4.5) A 3-axle or 4-axle vehicle (including when laden) operated or hired by a municipality within Cook, Lake, McHenry, Kane, DuPage, or Will county being operated for the purpose of performing emergency sewer repair that would be subject to a weight limitation less than 66,000 pounds under the formula in this subsection

(a) shall have a weight limitation of 66,000 pounds or the vehicle's gross vehicle weight rating, whichever is less. This paragraph (4.5) does not apply to vehicles being operated on the National System of Interstate and Defense Highways, or to vehicles being operated on bridges or other elevated structures constituting a part of a highway.

(5) Two consecutive sets of tandem axles may carry a total weight of 34,000 pounds each if the overall distance between the first and last axles of the consecutive sets of tandem axles is 36 feet or more, notwithstanding the lower limit resulting from the application of the above formula.

(6) A truck, not in combination and used exclusively for the collection of rendering materials, may, when laden, transmit upon the road surface, except when on part of the National System of Interstate and Defense Highways, the following maximum weights: 22,000 pounds on a single axle; 40,000 pounds on a tandem axle.

(7) A truck not in combination, equipped with a self compactor or an industrial roll-off hoist and roll-off container, used exclusively for garbage, refuse, or recycling operations, may, when laden, transmit upon the road surface, except when on part of the National System of Interstate and Defense Highways, the following maximum weights: 22,000 pounds on a single axle; 40,000 pounds on a tandem axle; 40,000 pounds gross weight on a 2-axle vehicle; 54,000 pounds gross weight on a 3-axle vehicle. This vehicle is not subject to the bridge formula. (7.5) A 3-axle rear discharge truck mixer registered as a Special Hauling Vehicle, used exclusively for the mixing and transportation of concrete in the plastic state, may, when laden, transmit upon the road surface, except when on part of the National System of Interstate and Defense Highways, the following maximum weights: 22,000 pounds on single axle; 40,000 pounds on a tandem axle; 54,000 pounds gross weight on a 3-axle vehicle. This vehicle is not subject to the bridge formula.

(8) Except as provided in paragraph (7.5) of this subsection (a), tandem axles on a 3-axle truck registered as a Special Hauling Vehicle, manufactured prior to or in the model year of 2024 and first registered in Illinois prior to January 1, 2025, with a distance greater than 72 inches but not more than 96 inches between any series of 2 axles, is allowed a combined weight on the series not to exceed 36,000 pounds and neither axle of the series may exceed 20,000 pounds. Any vehicle of this type manufactured after the model year of 2024 or first registered in Illinois after December 31, 2024 may not exceed a combined weight of 34,000 pounds through the series of 2 axles and neither axle of the series may exceed 20,000 pounds. A 3-axle combination sewer cleaning jetting vacuum truck registered as a Special Hauling Vehicle, used exclusively for the transportation of non-hazardous solid waste, manufactured before or in the model year of 2014, first registered in Illinois before January 1, 2015, may, when laden, transmit upon the road surface, except when on part of the National System of Interstate and Defense Highways, the following maximum weights: 22,000 pounds on a single axle; 40,000 pounds on a tandem axle; 54,000 pounds gross weight on a 3-axle vehicle. This vehicle is not subject to the bridge formula.

(9) A 4-axle truck mixer registered as a Special Hauling Vehicle, used exclusively for the mixing and transportation of concrete in the plastic state, and not operated on a highway that is part of the National System of Interstate Highways, is allowed the following maximum weights: 20,000 pounds on any single axle; 36,000 pounds on a series of axles greater than 72 inches but not more than 96 inches; and 34,000 pounds on any series of 2 axles greater than 40 inches but not more than 72 inches. The gross weight of this vehicle may not exceed the weights allowed by the bridge formula for 4 axles. The bridge formula does not apply to any series of 3 axles while the vehicle is transporting concrete in the plastic state, but no axle or tandem axle of the series may exceed the maximum weight permitted under this paragraph

(9) of subsection (a).

(10) Combinations of vehicles, registered as Special Hauling Vehicles that include a semitrailer manufactured prior to or in the model year of 2024, and registered in Illinois prior to January 1, 2025, having 5 axles with a distance of 42 feet or less between extreme axles, may not exceed the following maximum weights: 20,000 pounds on a single axle; 34,000 pounds on a tandem axle; and 72,000 pounds gross weight. This combination of vehicles is not subject to the bridge formula. For all those combinations of vehicles that include a semitrailer manufactured after the effective date of P.A. 92-0417, the overall distance between the first and last axles of the 2 sets of tandems must be 18 feet 6 inches or more. Any combination of vehicles that has had its cargo container replaced in its entirety after December 31, 2024 may not exceed the weights allowed by the bridge formula.

(11) The maximum weight allowed on a vehicle with crawler type tracks is 40,000 pounds.

(12) A combination of vehicles, including a tow truck and a disabled vehicle or disabled combination of vehicles, that exceeds the weight restriction imposed by this Code, may be operated on a public highway in this State provided that neither the disabled vehicle nor any vehicle being towed nor the tow truck itself shall exceed the weight limitations permitted under this Chapter. During the towing operation, neither the tow truck nor the vehicle combination shall exceed 24,000 pounds on a single rear axle and 44,000 pounds on a tandem rear axle, provided the towing vehicle:

(i) is specifically designed as a tow truck having a gross vehicle weight rating of at least 18,000 pounds and is equipped with air brakes, provided that air brakes are required only if the towing vehicle is towing a vehicle, semitrailer, or tractor-trailer combination that is equipped with air brakes; (ii) is equipped with flashing, rotating, or oscillating amber lights, visible for at least 500 feet in all directions; (iii) is capable of utilizing the lighting and braking systems of the disabled vehicle or combination of vehicles; and (iv) does not engage in a tow exceeding 20 miles from the initial point of wreck or disablement. Any additional movement of the vehicles may occur only upon issuance of authorization for that movement under the provisions of Sections 15-301 through 15-318 of this Code. The towing vehicle, however, may tow any disabled vehicle to a point where repairs are actually to occur. This movement shall be valid only on State routes. The tower must abide by posted bridge weight limits. (12.5) The vehicle weight limitations in this Section do not apply to a covered heavy duty tow and recovery vehicle. The covered heavy duty tow and recovery vehicle license plate must cover the operating empty weight of the covered heavy duty tow and recovery vehicle only.

(13) Upon and during a declaration of an emergency propane supply disaster by the Governor under Section 7 of the Illinois Emergency Management Agency Act:

(i) a truck not in combination, equipped with a cargo tank, used exclusively for the transportation of propane or liquefied petroleum gas may, when laden, transmit upon the road surface, except when on part of the National System of Interstate and Defense Highways, the following maximum weights: 22,000 pounds on a single axle; 40,000 pounds on a tandem axle; 40,000 pounds gross weight on a 2-axle vehicle; 54,000 pounds gross weight on a 3-axle vehicle; and (ii) a truck when in combination with a trailer equipped with a cargo tank used exclusively for the transportation of propane or liquefied petroleum gas may, when laden, transmit upon the road surface, except when on part of the National System of Interstate and Defense Highways, the following maximum weights: 22,000 pounds on a single axle; 40,000 pounds on a tandem axle; 90,000 pounds gross weight on a 5-axle or 6-axle vehicle. Vehicles operating under this paragraph

(13) are not subject to the bridge formula.

(14) A vehicle or combination of vehicles that uses natural gas or propane gas as a motor fuel may exceed the above weight limitations by up to 2,000 pounds, the total allowance is calculated by an amount that is equal to the difference between the weight of the vehicle attributable to the natural gas or propane gas tank and fueling system carried by the vehicle, and the weight of a comparable diesel tank and fueling system. This paragraph

(14) shall not allow a vehicle to exceed any posted weight limit on a highway or structure.

(15) An emergency vehicle or fire apparatus that is a vehicle designed to be used under emergency conditions to transport personnel and equipment, and used to support the suppression of fires and mitigation of other hazardous situations on a Class I highway, may not exceed 86,000 pounds gross weight, or any of the following weight allowances:

(i) 24,000 pounds on a single steering axle; (ii) 33,500 pounds on a single drive axle; (iii) 62,000 pounds on a tandem axle; or (iv) 52,000 pounds on a tandem rear drive steer axle.

(16) A bus, motor coach, or recreational vehicle may carry a total weight of 24,000 pounds on a single axle, but may not exceed other weight provisions of this Section. Gross weight limits shall not apply to the combination of the tow truck and vehicles being towed. The tow truck license plate must cover the operating empty weight of the tow truck only. The weight of each vehicle being towed shall be covered by a valid license plate issued to the owner or operator of the vehicle being towed and displayed on that vehicle. If no valid plate issued to the owner or operator of that vehicle is displayed on that vehicle, or the plate displayed on that vehicle does not cover the weight of the vehicle, the weight of the vehicle shall be covered by the third tow truck plate issued to the owner or operator of the tow truck and temporarily affixed to the vehicle being towed. If a roll-back carrier is registered and being used as a tow truck, however, the license plate or plates for the tow truck must cover the gross vehicle weight, including any load carried on the bed of the roll-back carrier. The Department may by rule or regulation prescribe additional requirements. However, nothing in this Code shall prohibit a tow truck under instructions of a police officer from legally clearing a disabled vehicle, that may be in violation of weight limitations of this Chapter, from the roadway to the berm or shoulder of the highway. If in the opinion of the police officer that location is unsafe, the officer is authorized to have the disabled vehicle towed to the nearest place of safety. For the purpose of this subsection, gross vehicle weight rating, or GVWR, means the value specified by the manufacturer as the loaded weight of the tow truck.

(b) As used in this Section, "recycling haul" or "recycling operation" means the hauling of non-hazardous, non-special, non-putrescible materials, such as paper, glass, cans, or plastic, for subsequent use in the secondary materials market.

(c) No vehicle or combination of vehicles equipped with pneumatic tires shall be operated, unladen or with load, upon the highways of this State in violation of the provisions of any permit issued under the provisions of Sections 15-301 through 15-318 of this Chapter.

(d) No vehicle or combination of vehicles equipped with other than pneumatic tires may be operated, unladen or with load, upon the highways of this State when the gross weight on the road surface through any wheel exceeds 800 pounds per inch width of tire tread or when the gross weight on the road surface through any axle exceeds 16,000 pounds.

(e) No person shall operate a vehicle or combination of vehicles over a bridge or other elevated structure constituting part of a highway with a gross weight that is greater than the maximum weight permitted by the Department, when the structure is sign posted as provided in this Section.

(f) The Department upon request from any local authority shall, or upon its own initiative may, conduct an investigation of any bridge or other elevated structure constituting a part of a highway, and if it finds that the structure cannot with safety to itself withstand the weight of vehicles otherwise permissible under this Code the Department shall determine and declare the maximum weight of vehicles that the structures can withstand, and shall cause or permit suitable signs stating maximum weight to be erected and maintained before each end of the structure. No person shall operate a vehicle or combination of vehicles over any structure with a gross weight that is greater than the posted maximum weight.

(g) Upon the trial of any person charged with a violation of subsection

(e) or

(f) of this Section, proof of the determination of the maximum allowable weight by the Department and the existence of the signs, constitutes conclusive evidence of the maximum weight that can be maintained with safety to the bridge or structure. (Text of Section after amendment by P.A. 104-436) Sec. 15-111. Wheel and axle loads and gross weights.

(a) No vehicle or combination of vehicles with pneumatic tires may be operated, unladen or with load, when the total weight on the road surface exceeds the following: 20,000 pounds on a single axle; 34,000 pounds on a tandem axle with no axle within the tandem exceeding 20,000 pounds; 80,000 pounds gross weight for vehicle combinations of 5 or more axles; or a total weight on a group of 2 or more consecutive axles in excess of that weight produced by the application of the following formula: $W = 500 \text{ times the sum of } (LN \text{ divided by } N-1) + 12N + 36$, where "W" equals overall total weight on any group of 2 or more consecutive axles to the nearest 500 pounds, "L" equals the distance measured to the nearest foot between extremes of any group of 2 or more consecutive axles, and "N" equals the number of axles in the group under consideration. The above formula when expressed in tabular form results in allowable loads as follows: Distance

Vehicles not in a combination having more than 4 axles may not exceed the weight in the table in this subsection

(a) for 4 axles measured between the extreme axles of the vehicle. Vehicles in a combination having more than 6 axles may not exceed the weight in the table in this subsection

(a) for 6 axles measured between the extreme axles of the combination. Local authorities, with respect to streets and highways under their jurisdiction, without additional fees, may also by ordinance or resolution allow the weight limitations of this subsection, provided the maximum gross weight on any one axle shall not exceed 20,000 pounds and the maximum total weight on any tandem axle shall not exceed 34,000 pounds, on designated highways when appropriate regulatory signs giving notice are erected upon the street or highway or portion of any street or highway affected by the ordinance or resolution. The following are exceptions to the above formula:

(1) Vehicles for which a different limit is established and posted in accordance with Section 15-316 of this Code.

(2) Vehicles for which the Department of Transportation and local authorities issue overweight permits under authority of Section 15-301 of this Code. These vehicles are not subject to the bridge formula.

(3) Cities having a population of more than 50,000 may permit by ordinance axle loads on 2-axle motor vehicles 33 1/2% above those provided for herein, but the increase shall not become effective until the city has officially notified the Department of the passage of the ordinance and shall not apply to those vehicles when outside of the limits of the city, nor shall the gross weight of any 2-axle motor vehicle operating over any street of the city exceed 40,000 pounds.

(4) Weight limitations shall not apply to vehicles (including loads) operated by a public utility when transporting equipment required for emergency repair of public utility facilities or properties or water wells. (4.5) A 3-axle or 4-axle vehicle (including when laden) operated or hired by a municipality within Cook, Lake, McHenry, Kane, DuPage, or Will county being operated for the purpose of performing emergency sewer repair that would be subject to a weight limitation less than 66,000 pounds under the formula in this subsection

(a) shall have a weight limitation of 66,000 pounds or the vehicle's gross vehicle weight rating, whichever is less. This paragraph (4.5) does not apply to vehicles being operated on the National System of Interstate and Defense Highways, or to vehicles being operated on bridges or other elevated structures constituting a part of a highway.

(5) Two consecutive sets of tandem axles may carry a total weight of 34,000 pounds each if the overall distance between the first and last axles of the consecutive sets of tandem axles is 36 feet or more, notwithstanding the lower limit resulting from the application of the above formula.

(6) A truck, not in combination and used exclusively for the collection of rendering materials, may, when laden, transmit upon the road surface, except when on part of the National System of Interstate and Defense Highways, the following maximum weights: 22,000 pounds on a single axle; 40,000 pounds on a tandem axle.

(7) A truck not in combination, equipped with a self compactor or an industrial roll-off hoist and roll-off container, used exclusively for garbage, refuse, or recycling operations, may, when laden, transmit upon the road surface, except when on part of the National System of Interstate and Defense Highways, the following maximum weights: 22,000 pounds on a single axle; 40,000 pounds on a tandem axle; 40,000 pounds gross weight on a 2-axle vehicle; 54,000 pounds gross

weight on a 3-axle vehicle. This vehicle is not subject to the bridge formula. (7.5) A 3-axle rear discharge truck mixer registered as a Special Hauling Vehicle, used exclusively for the mixing and transportation of concrete in the plastic state, may, when laden, transmit upon the road surface, except when on part of the National System of Interstate and Defense Highways, the following maximum weights: 22,000 pounds on single axle; 40,000 pounds on a tandem axle; 54,000 pounds gross weight on a 3-axle vehicle. This vehicle is not subject to the bridge formula.

(8) Except as provided in paragraph (7.5) of this subsection (a), tandem axles on a 3-axle truck registered as a Special Hauling Vehicle, manufactured prior to or in the model year of 2024 and first registered in Illinois prior to January 1, 2025, with a distance greater than 72 inches but not more than 96 inches between any series of 2 axles, is allowed a combined weight on the series not to exceed 36,000 pounds and neither axle of the series may exceed 20,000 pounds. Any vehicle of this type manufactured after the model year of 2024 or first registered in Illinois after December 31, 2024 may not exceed a combined weight of 34,000 pounds through the series of 2 axles and neither axle of the series may exceed 20,000 pounds. A 3-axle combination sewer cleaning jetting vacuum truck registered as a Special Hauling Vehicle, used exclusively for the transportation of non-hazardous solid waste, manufactured before or in the model year of 2014, first registered in Illinois before January 1, 2015, may, when laden, transmit upon the road surface, except when on part of the National System of Interstate and Defense Highways, the following maximum weights: 22,000 pounds on a single axle; 40,000 pounds on a tandem axle; 54,000 pounds gross weight on a 3-axle vehicle. This vehicle is not subject to the bridge formula.

(9) A 4-axle truck mixer registered as a Special Hauling Vehicle, used exclusively for the mixing and transportation of concrete in the plastic state, and not operated on a highway that is part of the National System of Interstate Highways, is allowed the following maximum weights: 20,000 pounds on any single axle; 36,000 pounds on a series of axles greater than 72 inches but not more than 96 inches; and 34,000 pounds on any series of 2 axles greater than 40 inches but not more than 72 inches. The gross weight of this vehicle may not exceed the weights allowed by the bridge formula for 4 axles. The bridge formula does not apply to any series of 3 axles while the vehicle is transporting concrete in the plastic state, but no axle or tandem axle of the series may exceed the maximum weight permitted under this paragraph

(9) of subsection (a).

(10) Combinations of vehicles, registered as Special Hauling Vehicles that include a semitrailer manufactured prior to or in the model year of 2024, and registered in Illinois prior to January 1, 2025, having 5 axles with a distance of 42 feet or less between extreme axles, may not exceed the following maximum weights: 20,000 pounds on a single axle; 34,000 pounds on a tandem axle; and 72,000 pounds gross weight. This combination of vehicles is not subject to the bridge formula. For all those combinations of vehicles that include a semitrailer manufactured after the effective date of P.A. 92-0417, the overall distance between the first and last axles of the 2 sets of tandems must be 18 feet 6 inches or more. Any combination of vehicles that has had its cargo container replaced in its entirety after December 31, 2024 may not exceed the weights allowed by the bridge formula.

(11) The maximum weight allowed on a vehicle with crawler type tracks is 40,000 pounds.

(12) A combination of vehicles, including a tow truck and a disabled vehicle or disabled combination of vehicles, that exceeds the weight restriction imposed by this Code, may be operated on a public highway in this State provided that neither the disabled vehicle nor any vehicle being towed nor the tow truck itself shall exceed the weight limitations permitted under this Chapter. During the towing operation, neither the tow truck nor the vehicle combination shall exceed 24,000 pounds on a single rear axle and 44,000 pounds on a tandem rear axle, provided the towing vehicle:

(i) is specifically designed as a tow truck having a gross vehicle weight rating of at least 18,000 pounds and is equipped with air brakes, provided that air brakes are required only if the towing vehicle is towing a vehicle, semitrailer, or tractor-trailer combination that is equipped with air brakes; (ii) is equipped with flashing, rotating, or oscillating amber lights, visible for at least 500 feet in all directions; (iii) is capable of utilizing the lighting and braking systems of the disabled vehicle or combination of vehicles; and (iv) does not engage in a tow exceeding 20 miles from the initial point of wreck or disablement. Any additional movement of the vehicles may occur only upon issuance of authorization for that movement under the provisions of Sections 15-301 through 15-318 of this Code. The towing vehicle, however, may tow any disabled vehicle to a point where repairs are actually to occur. This movement shall be valid only on State routes. The tower must abide by posted bridge weight limits. (12.5) The vehicle weight limitations in this Section do not apply to a covered heavy duty tow and recovery vehicle. The covered heavy duty tow and recovery vehicle license plate must cover the operating empty weight of the covered heavy duty tow and recovery vehicle only.

(13) Upon and during a declaration of an emergency propane supply disaster by the Governor under Section 7 of the Illinois Emergency Management Agency Act:

(i) a truck not in combination, equipped with a cargo tank, used exclusively for the transportation of propane or liquefied petroleum gas may, when laden, transmit upon the road surface, except when on part of the National System of Interstate and Defense Highways, the following maximum weights: 22,000 pounds on a single axle; 40,000 pounds on a tandem axle; 40,000 pounds gross weight on a 2-axle vehicle; 54,000 pounds gross weight on a 3-axle vehicle; and (ii) a truck when in combination with a trailer equipped with a cargo tank used exclusively for the transportation of propane or liquefied petroleum gas may, when laden, transmit upon the road surface, except when on part of the National System of Interstate and Defense Highways, the following maximum weights: 22,000 pounds on a single axle; 40,000 pounds on a tandem axle; 90,000 pounds gross weight on a 5-axle or 6-axle vehicle. Vehicles operating under this paragraph

(13) are not subject to the bridge formula.

(14) A vehicle or combination of vehicles that uses either natural gas or propane gas as a motor fuel or is operated by an engine fueled wholly or partially by an electric battery or hydrogen fuel cell electric fueling system may exceed the above weight limitations by up to 2,000 pounds, the total allowance is calculated by an amount that is equal to the difference between the weight of the vehicle attributable to the natural gas or propane or hydrogen gas tank, batteries, and fueling system carried by the vehicle, and the weight of a comparable diesel tank and fueling system. This paragraph

(14) shall not allow a vehicle to exceed any posted weight limit on a highway or structure.

(15) An emergency vehicle or fire apparatus that is a vehicle designed to be used under emergency conditions to transport personnel and equipment, and used to support the suppression of fires and mitigation of other hazardous situations on a Class I highway, may not exceed 86,000 pounds gross weight, or any of the following weight allowances:

(i) 24,000 pounds on a single steering axle; (ii) 33,500 pounds on a single drive axle; (iii) 62,000 pounds on a tandem axle; or (iv) 52,000 pounds on a tandem rear drive steer axle.

(16) A bus, motor coach, or recreational vehicle may carry a total weight of 24,000 pounds on a single axle, but may not exceed other weight provisions of this Section. Gross weight limits shall not apply to the combination of the tow truck and vehicles being towed. The tow truck license plate must cover the operating empty weight of the tow truck only. The weight of each vehicle being towed shall be covered by a valid license plate issued to the owner or operator of the vehicle being towed and displayed on that vehicle. If no valid plate issued to the owner or operator of that vehicle is displayed on that vehicle, or the plate displayed on that vehicle does not cover the weight of the vehicle, the weight of the vehicle shall be covered by the third tow truck plate issued to the owner or operator of the tow truck and temporarily affixed to the vehicle being towed. If a roll-back carrier is registered and being used as a tow truck, however, the license plate or plates for the tow truck must cover the gross vehicle weight, including any load carried on the bed of the roll-back carrier. The Department may by rule or regulation prescribe additional requirements. However, nothing in this Code shall prohibit a tow truck under instructions of a police officer from legally clearing a disabled vehicle, that may be in violation of weight limitations of this Chapter, from the roadway to the berm or shoulder of the highway. If in the opinion of the police officer that location is unsafe, the officer is authorized to have the disabled vehicle towed to the nearest place of safety. For the purpose of this subsection, gross vehicle weight rating, or GVWR, means the value specified by the manufacturer as the loaded weight of the tow truck.

(b) As used in this Section, "recycling haul" or "recycling operation" means the hauling of non-hazardous, non-special, non-putrescible materials, such as paper, glass, cans, or plastic, for subsequent use in the secondary materials market.

(c) No vehicle or combination of vehicles equipped with pneumatic tires shall be operated, unladen or with load, upon the highways of this State in violation of the provisions of any permit issued under the provisions of Sections 15-301 through 15-318 of this Chapter.

(d) No vehicle or combination of vehicles equipped with other than pneumatic tires may be operated, unladen or with load, upon the highways of this State when the gross weight on the road surface through any wheel exceeds 800 pounds per inch width of tire tread or when the gross weight on the road surface through any axle exceeds 16,000 pounds.

(e) No person shall operate a vehicle or combination of vehicles over a bridge or other elevated structure constituting part of a highway with a gross weight that is greater than the maximum weight permitted by the Department, when the structure is sign posted as provided in this Section.

(f) The Department upon request from any local authority shall, or upon its own initiative may, conduct an investigation of any bridge or other elevated structure constituting a part of a highway, and if it finds that the structure cannot with safety

to itself withstand the weight of vehicles otherwise permissible under this Code the Department shall determine and declare the maximum weight of vehicles that the structures can withstand, and shall cause or permit suitable signs stating maximum weight to be erected and maintained before each end of the structure. No person shall operate a vehicle or combination of vehicles over any structure with a gross weight that is greater than the posted maximum weight.

(g) Upon the trial of any person charged with a violation of subsection

(e) or

(f) of this Section, proof of the determination of the maximum allowable weight by the Department and the existence of the signs, constitutes conclusive evidence of the maximum weight that can be maintained with safety to the bridge or structure.

625 ILCS 5/15-112 — Officers to weigh vehicles and require removal of excess loads

Sec. 15-112. Officers to weigh vehicles and require removal of excess loads.

(a) Any police officer having reason to believe that the weight of a vehicle and load is unlawful shall require the driver to stop and submit to a weighing of the same either by means of a portable or stationary scales that have been tested and approved at a frequency prescribed by the Illinois Department of Agriculture, or for those scales operated by the State, when such tests are requested by the Illinois State Police, whichever is more frequent. If such scales are not available at the place where such vehicle is stopped, the police officer shall require that such vehicle be driven to the nearest available scale that has been tested and approved pursuant to this Section by the Illinois Department of Agriculture. Notwithstanding any provisions of the Weights and Measures Act or the United States Department of Commerce NIST handbook 44, multi or single draft weighing is an acceptable method of weighing by law enforcement for determining a violation of Chapter 3 or 15 of this Code. Law enforcement is exempt from the requirements of commercial weighing established in NIST handbook 44. Within 18 months after the effective date of this amendatory Act of the 91st General Assembly, all municipal and county officers, technicians, and employees who set up and operate portable scales for wheel load or axle load or both and issue citations based on the use of portable scales for wheel load or axle load or both and who have not successfully completed initial classroom and field training regarding the set up and operation of portable scales, shall attend and successfully complete initial classroom and field training administered by the Illinois Law Enforcement Training Standards Board.

(b) Whenever an officer, upon weighing a vehicle and the load, determines that the weight is unlawful, such officer shall require the driver to stop the vehicle in a suitable place and remain standing until such portion of the load is removed as may be necessary to reduce the weight of the vehicle to the limit permitted under this Chapter, or to the limit permitted under the terms of a permit issued pursuant to Sections 15-301 through 15-318 and shall forthwith arrest the driver or owner. All material so unloaded shall be cared for by the owner or operator of the vehicle at the risk of such owner or operator; however, whenever a 3 or 4 axle vehicle with a tandem axle dimension greater than 72 inches, but less than 96 inches and registered as a Special Hauling Vehicle is transporting asphalt or concrete in the plastic state that exceeds axle weight or gross weight limits by less than 4,000 pounds, the owner or operator of the vehicle shall accept the arrest ticket or tickets for the alleged violations under this Section and proceed without shifting or reducing the load being transported or may shift or reduce the load under the provisions of subsection

(d) or

(e) of this Section, when applicable. Any fine imposed following an overweight violation by a vehicle registered as a Special Hauling Vehicle transporting asphalt or concrete in the plastic state shall be paid as provided in subsection 4 of paragraph

(a) of Section 16-105 of this Code.

(c) The Department of Transportation may, at the request of the Illinois State Police, erect appropriate regulatory signs on any State highway directing second division vehicles to a scale. The Department of Transportation may also, at the direction of any State Police officer, erect portable regulating signs on any highway directing second division vehicles to a portable scale. Every such vehicle, pursuant to such sign, shall stop and be weighed.

(d) Whenever any axle load of a vehicle exceeds the axle or tandem axle weight limits permitted by paragraph

(a) of Section 15-111 by 2000 pounds or less, the owner or operator of the vehicle must shift or remove the excess so as to comply with paragraph

(a) of Section 15-111. No overweight arrest ticket shall be issued to the owner or operator of the vehicle by any officer if the excess weight is shifted or removed as required by this paragraph.

(e) Whenever the gross weight of a vehicle with a registered gross weight of 77,000 pounds or less exceeds the weight limits of paragraph

(a) of Section 15-111 of this Chapter by 2000 pounds or less, the owner or operator of the vehicle must remove the excess. Whenever the gross weight of a vehicle with a registered gross weight over 77,000 pounds or more exceeds the weight limits of paragraph

(a) of Section 15-111 by 1,000 pounds or less or 2,000 pounds or less if weighed on wheel load weighers, the owner or operator of the vehicle must remove the excess. In either case no arrest ticket for any overweight violation of this Code shall be issued to the owner or operator of the vehicle by any officer if the excess weight is removed as required by this paragraph. A person who has been granted a special permit under Section 15-301 of this Code shall not be granted a tolerance on wheel load weighers. (e-5) Auxiliary power or idle reduction unit (APU) weight.

(1) A vehicle with a fully functional APU shall be allowed an additional 550 pounds or the certified unit weight, whichever is less. The additional pounds may be allowed in gross, axles, or bridge formula weight limits above the legal weight limits except when overweight on an axle or axles of the towed unit or units in combination. This tolerance shall be given in addition to the limits in subsection

(d) of this Section.

(2) An operator of a vehicle equipped with an APU shall carry written certification showing the weight of the APU, which shall be displayed upon the request of any law enforcement officer.

(3) The operator may be required to demonstrate or certify that the APU is fully functional at all times.

(4) This allowance may not be granted above the weight limits specified on any loads permitted under Section 15-301 of this Code.

(f) Whenever an axle load of a vehicle exceeds axle weight limits allowed by the provisions of a permit an arrest ticket shall be issued, but the owner or operator of the vehicle may shift the load so as to comply with the provisions of the permit. Where such shifting of a load to comply with the permit is accomplished, the owner or operator of the vehicle may then proceed.

(g) Any driver of a vehicle who refuses to stop and submit his vehicle and load to weighing after being directed to do so by an officer or removes or causes the removal of the load or part of it prior to weighing is guilty of a business offense and shall be fined not less than \$500 nor more than \$2,000.

625 ILCS 5/15-113 — Violations; penalties

Sec. 15-113. Violations; penalties.

(d) of Section 3-401, the owner or driver of such vehicle shall be deemed guilty of such violation and either the owner or the driver of such vehicle may be prosecuted for such violation. Any person charged with a violation of any of these provisions who pleads not guilty shall be present in court for the trial on the charge. Any person, firm, or corporation convicted of any violation of Section 15-111 including, but not limited to, a maximum axle or gross limit specified on a regulatory sign posted in accordance with paragraph

In addition, any person, firm, or corporation convicted of 4 or more violations of Section 15-111 within any 12 month period shall be fined an additional amount of \$5,000 for the fourth and each subsequent conviction within the 12 month period. Provided, however, that with regard to a firm or corporation, a fourth or subsequent conviction shall mean a fourth or subsequent conviction attributable to any one employee-driver.

(b) Whenever any vehicle is operated in violation of the provisions of Sections 15-102, 15-103 or 15-107, the owner or driver of such vehicle shall be deemed guilty of such violation and either may be prosecuted for such violation. Any person, firm, or corporation convicted of any violation of Sections 15-102, 15-103 or 15-107 shall be fined for the first or second conviction an amount equal to not less than \$50 nor more than \$500, and for the third and subsequent convictions by the same person, firm, or corporation within a period of one year after the date of the first offense, not less than \$500 nor more than \$1,000.

(c) All proceeds equal to 50% of the fines recovered under subsection

(a) of this Section shall be remitted to the State Treasurer and deposited into the Capital Projects Fund.

625 ILCS 5/15-113.1 — Violations-sentence of permit moves

Sec. 15-113.1. Violations-sentence of permit moves. Whenever any vehicle is operated in violation of the provisions of a permit issued under the provisions of Sections 15-301 through 15-318 of this Chapter by operating under a fraudulent permit or under a permit not specifically covering the move, the owner or driver of such vehicle shall be deemed guilty of a business offense and either the owner or the driver of such vehicle may be prosecuted for such violation. When any person, firm or corporation is convicted of such violation, the permit shall be null and void and such person, firm or corporation shall be fined in an amount not less than 10 cents per pound for each pound the gross weight of the vehicle exceeds the gross weight of such vehicles allowable under Section 15-111 of this Chapter. Penalties for violations of this Section shall be in addition to any penalties imposed for violation of Section 15-301(j) of this Chapter.

625 ILCS 5/15-113.2 — Violations-sentence of permit moves exceeding axle weights

Sec. 15-113.2. Violations-sentence of permit moves exceeding axle weights. Whenever any vehicle is operated in violation of the provisions of a permit issued under the provisions of Sections 15-301 through 15-318 of this Chapter by operating with axle weights in excess of those authorized in such permit, the owner or driver of such vehicle shall be deemed guilty of a business offense and either the owner or the driver of such vehicle may be prosecuted for such violation. Any person, firm or corporation convicted of such violation shall be fined in an amount not less than 2 cents nor more than 5 cents per pound for each pound of excess weight on such axle or tandem axle in excess of the weight authorized in the permit when the excess is 1,000 pounds or less; not less than 5 cents nor more than 10 cents per pound for each pound of excess weight when the excess exceeds 1,000 pounds and is 2,000 pounds or less; not less than 10 cents nor more than 15 cents per pound for each pound of excess weight when the excess exceeds 2,000 pounds and is 3,000 pounds or less; and not less than 15 cents nor more than 20 cents per pound for each pound of excess weight when the excess exceeds 3,000 pounds. Penalties for violations of this Section shall be in addition to any penalties imposed for violation of Section 15-301(j) of this Chapter.

625 ILCS 5/15-113.3 — Violations-sentence of permit moves exceeding gross weight

Whenever any vehicle is operated in violation of the provisions of a permit issued under the provisions of Sections 15-301 through 15-318 of this Chapter by operating with the gross weight in excess of that authorized in such permit, the owner or driver of such vehicle shall be deemed guilty of a business offense and either the owner or the driver of such vehicle may be prosecuted for such violation. Any person, firm or corporation convicted of such violation shall be fined in an amount not less than 2 cents nor more than 5 cents per pound for each pound of excess weight in excess of the gross weight authorized in the permit when the excess is 1,000 pounds or less; not less than 4 cents nor more than 7 cents per pound for each pound of excess weight when the excess exceeds 1,000 pounds and is 2,000 pounds or less; not less than 7 cents nor more than 10 cents per pound for each pound of excess weight when the excess exceeds 2,000 pounds and is 3,000 pounds or less; not less than 10 cents nor more than 15 cents per pound for each pound of excess weight when the excess exceeds 3,000 pounds and is 4,000 pounds or less; not less than 15 cents nor more than 20 cents per pound for each pound of excess weight when the excess exceeds 4,000 pounds and is 5,000 pounds or less; and not less than 17 cents nor more than 25 cents per pound for each pound of excess weight when the excess exceeds 5,000 pounds. Sec. 15-114. Pushing of disabled vehicles. It is unlawful under any circumstances for any vehicle to push any other vehicle on or along any highway outside an urban area in this State, except in an extreme emergency and then the vehicle shall not be pushed farther than is reasonably necessary to remove it from the roadway or from the immediate

hazard that exists.

(c) Local agencies shall be responsible for reporting to the Department all streets and highways under their jurisdiction designated Class II. Local agencies shall also provide to the Department reference contact names and telephone numbers.

(d) The Department shall also maintain and provide an official map of the Designated State Truck Route System that includes State and local streets and highways that have been designated Class I or Class II.

(e) If a unit of local government has no Class II designated truck routes, the unit of local government shall affirm to the Department that it has no such truck routes.

(f) Each unit of local government shall report to the Department, and the Department shall post on its official website, any limitations prohibiting the operation of vehicles imposed by ordinance or resolution in the unit of local government's non-designated highway system and any non-designated highway that is not designed and constructed after January 1, 2024 to the overall length dimension of vehicles permitted under subsection

(f) of Section 15-107.

625 ILCS 5/15-117

Sec. 15-117. (Repealed).

625 ILCS 5/15-201 — Vehicles exceeding prescribed weight limits - Preventing use of highway by

Sec. 15-201. Vehicles exceeding prescribed weight limits - Preventing use of highway by. The Illinois State Police is directed to institute and maintain a program designed to prevent the use of public highways by vehicles which exceed the maximum weights allowed by Section 15-111 of this Act or which exceeds the maximum weights allowed as evidenced by the license plates attached to such vehicle and which license is required by this Act.

625 ILCS 5/15-202 — Enforcement

Sec. 15-202. Enforcement. Such program shall make provision for an intensive campaign by the Illinois State Police to apprehend any violators of the acts above mentioned, and at all times to maintain a vigilant watch for possible violators of such acts.

625 ILCS 5/15-203 — Records of violations

Sec. 15-203. Records of violations. The Illinois State Police shall maintain records of the number of violators of such acts apprehended and the number of convictions obtained. A resume of such records shall be included in the Department's annual report to the Governor; and the Department shall also present such resume to each regular session of the General Assembly. The requirement for reporting to the General Assembly shall be satisfied by filing copies of the report as required by Section 3.1 of the General Assembly Organization Act, and filing such additional copies with the State Government Report Distribution Center for the General Assembly as is required under paragraph

(t) of Section 7 of the State Library Act.

625 ILCS 5/15-301 — Permits for excess size and weight

Sec. 15-301. Permits for excess size and weight.

(a) The Department with respect to highways under its jurisdiction and local authorities with respect to highways under their jurisdiction may, in their discretion, upon application and good cause being shown therefor, issue a special permit

authorizing the applicant to operate or move a vehicle or combination of vehicles of a size or weight of vehicle or load exceeding the maximum specified in this Code or otherwise not in conformity with this Code upon any highway under the jurisdiction of the party granting such permit and for the maintenance of which the party is responsible. Applications and permits other than those in written or printed form may only be accepted from and issued to the company or individual making the movement. Except for an application to move directly across a highway, it shall be the duty of the applicant to establish in the application that the load to be moved by such vehicle or combination cannot reasonably be dismantled or disassembled, the reasonableness of which shall be determined by the Secretary of the Department. For the purpose of over length movements, more than one object may be carried side by side as long as the height, width, and weight laws are not exceeded and the cause for the over length is not due to multiple objects. For the purpose of over height movements, more than one object may be carried as long as the cause for the over height is not due to multiple objects and the length, width, and weight laws are not exceeded. For the purpose of an over width movement, more than one object may be carried as long as the cause for the over width is not due to multiple objects and length, height, and weight laws are not exceeded. Except for transporting fluid milk products, no State or local agency shall authorize the issuance of excess size or weight permits for vehicles and loads that are divisible and that can be carried, when divided, within the existing size or weight maximums specified in this Chapter. Any excess size or weight permit issued in violation of the provisions of this Section shall be void at issue and any movement made thereunder shall not be authorized under the terms of the void permit. In any prosecution for a violation of this Chapter when the authorization of an excess size or weight permit is at issue, it is the burden of the defendant to establish that the permit was valid because the load to be moved could not reasonably be dismantled or disassembled, or was otherwise nondivisible. (a-1) As used in this Section, "extreme heavy duty tow and recovery vehicle" means a tow truck manufactured as a unit having a lifting capacity of not less than 50 tons, and having either 4 axles and an unladen weight of not more than 80,000 pounds or 5 axles and an unladen weight not more than 90,000 pounds. Notwithstanding otherwise applicable gross and axle weight limits, an extreme heavy duty tow and recovery vehicle may lawfully travel to and from the scene of a disablement and clear a disabled vehicle if the towing service has obtained an extreme heavy duty tow and recovery permit for the vehicle. The form and content of the permit shall be determined by the Department with respect to highways under its jurisdiction and by local authorities with respect to highways under their jurisdiction.

(b) The application for any such permit shall:

- (1) state whether such permit is requested for a single trip or for limited continuous operation;
- (2) (blank);
- (3) specifically describe and identify the vehicle or vehicles and load to be operated or moved;
- (4) state the routing requested, including the points of origin and destination, and may identify and include a request for routing to the nearest certified scale in accordance with the Department's rules and regulations, provided the applicant has approval to travel on local roads; and
- (5) (blank).

(c) The Department or local authority when not inconsistent with traffic safety is authorized to issue or withhold such permit at its discretion; or, if such permit is issued at its discretion to prescribe the route or routes to be traveled, to limit the number of trips, to establish seasonal or other time limitations within which the vehicles described may be operated on the highways indicated, or otherwise to limit or prescribe conditions of operations of such vehicle or vehicles, when necessary to assure against undue damage to the road foundations, surfaces or structures, and may require such undertaking or other security as may be deemed necessary to compensate for any injury to any roadway or road structure. The Department shall maintain a daily record of each permit issued along with the fee and the stipulated dimensions, weights, conditions, and restrictions authorized and this record shall be presumed correct in any case of questions or dispute. The Department shall install an automatic device for recording telephone conversations involving permit applications. The Department and applicant waive all objections to the recording of the conversation.

(d) The Department shall, upon application in writing from any local authority, issue an annual permit authorizing the local authority to move oversize highway construction, transportation, utility, and maintenance equipment over roads under the jurisdiction of the Department. The permit shall be applicable only to equipment and vehicles owned by or registered in the name of the local authority, and no fee shall be charged for the issuance of such permits.

(e) As an exception to subsection

(a) of this Section, the Department and local authorities, with respect to highways under their respective jurisdictions, in their discretion and upon application in writing, may issue a special permit for limited continuous operation, authorizing the applicant to move loads of agricultural commodities on a 2-axle single vehicle registered by the Secretary of State with axle loads not to exceed 35%, on a 3-axle or 4-axle vehicle registered by the Secretary of State with axle loads not to exceed 20%, and on a 5-axle vehicle registered by the Secretary of State not to exceed 10% above those provided in Section 15-111. The total gross weight of the vehicle, however, may not exceed the maximum gross weight of the registration class of the vehicle allowed under Section 3-815 or 3-818 of this Code. As used in this Section, "agricultural commodities" means:

(1) cultivated plants or agricultural produce grown, including, but not limited to, corn, soybeans, wheat, oats, grain sorghum, canola, and rice;

(2) livestock, including, but not limited to, hogs, equine, sheep, and poultry;

(3) ensilage; and

(4) fruits and vegetables. Permits may be issued for a period not to exceed 40 days and moves may be made of a distance not to exceed 50 miles from a field, an on-farm grain storage facility, a warehouse as defined in the Grain Code, or a livestock management facility as defined in the Livestock Management Facilities Act over any highway except the National System of Interstate and Defense Highways. The operator of the vehicle, however, must abide by posted bridge and posted highway weight limits. All implements of husbandry operating under this Section between sunset and sunrise shall be equipped as prescribed in Section 12-205.1. (e-1) A special permit shall be issued by the Department under this Section and shall be required from September 1 through December 31 for a vehicle that exceeds the maximum axle weight and gross weight limits under Section 15-111 of this Code or exceeds the vehicle's registered gross weight, provided that the vehicle's axle weight and gross weight do not exceed 10% above the maximum limits under Section 15-111 of this Code and does not exceed the vehicle's registered gross weight by 10%. All other restrictions that apply to permits issued under this Section shall apply during the declared time period and no fee shall be charged for the issuance of those permits. Permits issued by the Department under this subsection (e-1) are only valid on federal and State highways under the jurisdiction of the Department, except interstate highways. With respect to highways under the jurisdiction of local authorities, the local authorities may, at their discretion, waive special permit requirements and set a divisible load weight limit not to exceed 10% above a vehicle's registered gross weight, provided that the vehicle's axle weight and gross weight do not exceed 10% above the maximum limits specified in Section 15-111. Permits issued under this subsection (e-1) shall apply to all registered vehicles eligible to obtain permits under this Section, including vehicles used in private or for-hire movement of divisible load agricultural commodities during the declared time period.

(f) The form and content of the permit shall be determined by the Department with respect to highways under its jurisdiction and by local authorities with respect to highways under their jurisdiction. Every permit shall be in written form and carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by any police officer or authorized agent of any authority granting the permit and no person shall violate any of the terms or conditions of such special permit. Violation of the terms and conditions of the permit shall not be deemed a revocation of the permit; however, any vehicle and load found to be off the route prescribed in the permit shall be held to be operating without a permit. Any off-route vehicle and load shall be required to obtain a new permit or permits, as necessary, to authorize the movement back onto the original permit routing. No rule or regulation, nor anything herein, shall be construed to authorize any police officer, court, or authorized agent of any authority granting the permit to remove the permit from the possession of the permittee unless the permittee is charged with a fraudulent permit violation as provided in subsection (i). However, upon arrest for an offense of violation of permit, operating without a permit when the vehicle is off route, or any size or weight offense under this Chapter when the permittee plans to raise the issuance of the permit as a defense, the permittee, or his agent, must produce the permit at any court hearing concerning the alleged offense. If the permit designates and includes a routing to a certified scale, the permittee, while en route to the designated scale, shall be deemed in compliance with the weight provisions of the permit provided the axle or gross weights do not exceed any of the permitted limits by more than the following amounts: Single axle 2000 pounds Tandem axle 3000 pounds Gross 5000 pounds

(g) The Department is authorized to adopt, amend, and make available to interested persons a policy concerning reasonable rules, limitations and conditions or provisions of operation upon highways under its jurisdiction in addition to those contained in this Section for the movement by special permit of vehicles, combinations, or loads which cannot reasonably be dismantled or disassembled, including manufactured and modular home sections and portions thereof. All

rules, limitations and conditions or provisions adopted in the policy shall have due regard for the safety of the traveling public and the protection of the highway system and shall have been promulgated in conformity with the provisions of the Illinois Administrative Procedure Act. The requirements of the policy for flagmen and escort vehicles shall be the same for all moves of comparable size and weight. When escort vehicles are required, they shall meet the following requirements:

(1) All operators shall be 18 years of age or over and properly licensed to operate the vehicle.

(2) Vehicles escorting oversized loads more than 12 feet wide must be equipped with a rotating or flashing amber light mounted on top as specified under Section 12-215. The Department shall establish reasonable rules and regulations regarding liability insurance or self insurance for vehicles with oversized loads promulgated under the Illinois Administrative Procedure Act. Police vehicles may be required for escort under circumstances as required by rules and regulations of the Department.

(h) Violation of any rule, limitation or condition or provision of any permit issued in accordance with the provisions of this Section shall not render the entire permit null and void but the violator shall be deemed guilty of violation of permit and guilty of exceeding any size, weight, or load limitations in excess of those authorized by the permit. The prescribed route or routes on the permit are not mere rules, limitations, conditions, or provisions of the permit, but are also the sole extent of the authorization granted by the permit. If a vehicle and load are found to be off the route or routes prescribed by any permit authorizing movement, the vehicle and load are operating without a permit. Any off-route movement shall be subject to the size and weight maximums, under the applicable provisions of this Chapter, as determined by the type or class highway upon which the vehicle and load are being operated.

(i) Whenever any vehicle is operated or movement made under a fraudulent permit, the permit shall be void, and the person, firm, or corporation to whom such permit was granted, the driver of such vehicle in addition to the person who issued such permit and any accessory, shall be guilty of fraud and either one or all persons may be prosecuted for such violation. Any person, firm, or corporation committing such violation shall be guilty of a Class 4 felony and the Department shall not issue permits to the person, firm, or corporation convicted of such violation for a period of one year after the date of conviction. Penalties for violations of this Section shall be in addition to any penalties imposed for violation of other Sections of this Code.

(j) Whenever any vehicle is operated or movement made in violation of a permit issued in accordance with this Section, the person to whom such permit was granted, or the driver of such vehicle, is guilty of such violation and either, but not both, persons may be prosecuted for such violation as stated in this subsection (j). Any person, firm, or corporation convicted of such violation shall be guilty of a petty offense and shall be fined, for the first offense, not less than \$50 nor more than \$200 and, for the second offense by the same person, firm, or corporation within a period of one year, not less than \$200 nor more than \$300 and, for the third offense by the same person, firm, or corporation within a period of one year after the date of the first offense, not less than \$300 nor more than \$500 and the Department may, in its discretion, not issue permits to the person, firm, or corporation convicted of a third offense during a period of one year after the date of conviction or supervision for such third offense. If any violation is the cause or contributing cause in a motor vehicle crash causing damage to property, injury, or death to a person, the Department may, in its discretion, not issue a permit to the person, firm, or corporation for a period of one year after the date of conviction or supervision for the offense.

(k) Whenever any vehicle is operated on local roads under permits for excess width or length issued by local authorities, such vehicle may be moved upon a State highway for a distance not to exceed one-half mile without a permit for the purpose of crossing the State highway.

(l) Notwithstanding any other provision of this Section, the Department, with respect to highways under its jurisdiction, and local authorities, with respect to highways under their jurisdiction, may at their discretion authorize the movement of a vehicle in violation of any size or weight requirement, or both, that would not ordinarily be eligible for a permit, when there is a showing of extreme necessity that the vehicle and load should be moved without unnecessary delay. For the purpose of this subsection, showing of extreme necessity shall be limited to the following: shipments of livestock, hazardous materials, liquid concrete being hauled in a mobile cement mixer, or hot asphalt.

(m) Penalties for violations of this Section shall be in addition to any penalties imposed for violating any other Section of this Code.

(n) The Department with respect to highways under its jurisdiction and local authorities with respect to highways under their jurisdiction, in their discretion and upon application in writing, may issue a special permit for continuous limited operation, authorizing the applicant to operate a tow truck that exceeds the weight limits provided for in subsection

(a) of Section 15-111, provided:

- (1) no rear single axle of the tow truck exceeds 26,000 pounds;
- (2) no rear tandem axle of the tow truck exceeds 50,000 pounds; (2.1) no triple rear axle on a manufactured recovery unit exceeds 60,000 pounds;
- (3) neither the disabled vehicle nor the disabled combination of vehicles exceed the weight restrictions imposed by this Chapter 15, or the weight limits imposed under a permit issued by the Department prior to hookup;
- (4) the tow truck prior to hookup does not exceed the weight restrictions imposed by this Chapter 15;
- (5) during the tow operation the tow truck does not violate any weight restriction sign;
- (6) the tow truck is equipped with flashing, rotating, or oscillating amber lights, visible for at least 500 feet in all directions;
- (7) the tow truck is specifically designed and licensed as a tow truck;
- (8) the tow truck has a gross vehicle weight rating of sufficient capacity to safely handle the load;
- (9) the tow truck is equipped with air brakes;
- (10) the tow truck is capable of utilizing the lighting and braking systems of the disabled vehicle or combination of vehicles;
- (11) the tow commences at the initial point of wreck or disablement and terminates at a point where the repairs are actually to occur;
- (12) the permit issued to the tow truck is carried in the tow truck and exhibited on demand by a police officer; and
- (13) the movement shall be valid only on State routes approved by the Department.

(o) (Blank).

(p) In determining whether a load may be reasonably dismantled or disassembled for the purpose of subsection (a), the Department shall consider whether there is a significant negative impact on the condition of the pavement and structures along the proposed route, whether the load or vehicle as proposed causes a safety hazard to the traveling public, whether dismantling or disassembling the load promotes or stifles economic development, and whether the proposed route travels less than 5 miles. A load is not required to be dismantled or disassembled for the purposes of subsection

(a) if the Secretary of the Department determines there will be no significant negative impact to pavement or structures along the proposed route, the proposed load or vehicle causes no safety hazard to the traveling public, dismantling or disassembling the load does not promote economic development, and the proposed route travels less than 5 miles. The Department may promulgate rules for the purpose of establishing the divisibility of a load pursuant to subsection (a). Any load determined by the Secretary to be nondivisible shall otherwise comply with the existing size or weight maximums specified in this Chapter.

625 ILCS 5/15-302 — Fees for special permits

Sec. 15-302. Fees for special permits. The Department with respect to highways under its jurisdiction shall collect a fee from the applicant for the issuance of a permit to operate or move a vehicle or combination of vehicles or load as authorized in Section 15-301. The charge for each permit shall consist of: 1. a service charge for special handling of a permit when requested by an applicant; 2. fees for any dimension, axle weight or gross weight in excess of the maximum size or weight specified in this Chapter; and 3. additional fees for special investigations as in Section 15-311 and special police escort as in Section 15-312 when required. With respect to overweight fees, the charge shall be sufficient to compensate in part for the cost of the extra wear and tear on the mileage of highways over which the load is to be moved. With respect to over-dimension permits, the fee shall be sufficient to compensate in part for the special privilege of transporting oversize vehicle or vehicle combination and load and to compensate in part for the economic loss of operators of vehicles in regular operation due to inconvenience occasioned by the oversize movements. Fees to be paid by the applicant are to be at the rates specified in this Chapter. In determining the fees in Section 15-306 and paragraph (f) of Section 15-307, all weights shall be to the next highest 1,000 pounds and all distances shall be determined from the Illinois Official Highway Map. For repeated moves of like objects which cannot be dismantled or disassembled and which are monolithically structured for permanent use in the transported form, the fees specified in Sections 15-305, 15-306 and 15-307 for other than the first move shall be reduced by \$4 provided the objects are to be moved from the same origin to the same destination, the number of trips will not be less than 5, the trips will be completed within 30 days, and all

applications are submitted at one time. Round trip permits shall be the same as a single trip permit except the fee shall be computed based upon the total distance traveled, and shall be for the same vehicle, vehicle combination or like load traveling both directions over the same route, provided a description including make and model of the equipment being transported is furnished to the Department. Limited continuous operation permits are to be valid for a period of 90 days or one year, and shall be for the same vehicle, vehicle combination or like load.

The operator must determine if it complies with the provisions of the federal motor carrier safety regulation capable of being determined from an inspection. If the operator determines that the vehicle does not comply with the provisions of the federal motor carrier safety regulations, the equipment provider shall immediately perform the necessary repairs to the vehicle so that it complies with the federal motor carrier safety regulations or shall immediately provide the operator with another vehicle.

(d) Presumption of defect prior to interchange.

(K) There is a defect with the chassis locking pins when there is any twist lock or fitting for securement that is sprung, broken, or improperly latched.

(3) If an operator receives a citation for a violation due to a defect in any equipment specified in subsection (d)(2), the equipment provider shall reimburse the operator for any: (A) fines and costs, including court costs and reasonable attorneys fees, incurred as a result of the citation; and (B) costs incurred by the operator to repair the defects specified in the citation, including any towing costs incurred. The equipment provider shall reimburse the operator within 30 days of the final court action. Suit for penalties shall not be a prerequisite to injunctive relief. No bond shall be required when injunctive relief is granted at the request of the Commission.

(6) Suspension or Revocation of Licenses and Registrations.

(a) Availability of Suspension and Revocation as Sanctions. Violation of this Chapter by a motor carrier of property or passengers shall, in addition to other sanctions provided herein, subject the violator to suspension or revocation of any or all Commission licenses and registrations. The Commission may impose the sanctions of suspension and revocation. Where the violation is failure of a motor carrier of property or passengers to have in effect and file proof of continuous insurance coverage in accordance with this Chapter, Commission regulations and orders, the license or registration or both may be suspended by telephonic or telegraphic directive, confirmed by certified or registered mail or personal service, pending final disposition of revocation proceedings.

(b) Suspension Pending Adjudication. Where the violation is failure of a motor carrier of property to pay a franchise or franchise renewal fee, the license or registration or both may be suspended by certified or registered mail or personally served directive, pending final disposition of revocation proceedings.

(c) Special Revocation Procedures.

(i) Notice. The Commission shall serve notice upon all persons who have failed to pay a franchise tax, license fee, or penalty required under the Business Corporation Act of 1983, or who have failed to comply with this Chapter, Commission regulations and orders, regarding the filing of proof of continuous insurance or bond coverage, the payment of periodic fees, the filing of periodic reports, the payment of civil penalties, or the filing of rates to the full extent of a carrier's authority. The notice shall advise such person of the apparent violations and state that, unless the Commission receives a written request for hearing or extension of time within 30 days from the date the notice is served, the person's license or registration will be revoked by operation of law without further action by the Commission. (ii) Extensions of Time. The Commission may grant one extension of time not exceeding 60 days where the extension will not endanger the public. (iii) Request for Hearing. If a timely written request for hearing is received, no further action shall be taken until the requirements of Section 18c-2102 of this Chapter have been satisfied. (iv) Revocation by Operation of Law. If, at the expiration of the applicable time period, the person has not complied with the pertinent requirements, and a written request for hearing has not been received, the person will be deemed to have waived hearing and the license or registration shall be revoked by operation of law without further action by the Commission as if the Commission has served an order on the date following expiration revoking the license or registration.

(7) Probation. The Commission may probate the imposition of any of the sanctions set forth in this Section.

625 ILCS 5/18c-1705 — Expedited Enforcement Procedures

Sec. 18c-1705. Expedited Enforcement Procedures. The Commission shall, within 60 days from the effective date of this amendatory Act of 1987, implement expedited administrative enforcement procedures.

(a) Initiation of Administrative Enforcement Proceedings. The Transportation Division Manager or his designee shall have the power to issue, or refuse to issue, a notice or citation instituting an administrative enforcement proceeding.

(b) Settlement of Enforcement Proceedings by Stipulation.

(i) Power to Negotiate Settlements. The Transportation Division Manager or his designee shall have the power to negotiate and sign proposed settlements of enforcement proceedings by written stipulation. (ii) Review and Acceptance of Stipulations. The Commission shall provide for any appropriate and necessary review of proposed settlements within 30 days after a stipulation is signed by the parties. Unless a stipulation is suspended for review by order of the Commission served within 30 calendar days after it was signed by the parties, it shall be deemed accepted by operation of law. A stipulation which has been suspended for review shall likewise be deemed accepted by operation of law unless it is rejected by order of the Commission served within 45 days after it was suspended. A stipulation which is deemed accepted under this sub-paragraph shall become effective and shall be enforceable in the same manner as an order of the Commission. (iii) Administrative Appeal of Settlements. Administrative appeal of a stipulation which has been approved by order of the Commission or by operation of law shall be by motion for rehearing or reconsideration in accordance with Section 18c-2110 of this Chapter. The right to administratively appeal a settlement may be waived by written stipulation.

625 ILCS 5/18c-1801 — Persons Who May be Served

Sec. 18c-1801. Persons Who May be Served. It shall be the responsibility of each person subject to the licensing or ratemaking provisions of this Chapter to keep on file with the Commission the name of a person upon whom notices, orders, or process in administrative or judicial proceedings under this Chapter may be served, together with a current address within the State of Illinois at which such person may be served. The Commission shall maintain a file of such "agents for service of process." Service of any Commission notice, order, or process on the agent for service of process at the address shown in the file shall be conclusively presumed to be service on the carrier, broker, or other person. If a person fails to make the filing required herein, the person may be served at the most current address in other records of the Commission, or at the address on file with the Secretary of State for service of process, and the same conclusive presumption shall apply.

625 ILCS 5/18c-1802 — Time of Service

Sec. 18c-1802. Time of Service. Notices, orders, process and other correspondence of the Commission shall be deemed served at the time they are deposited in the United States mail or delivered to a commercial delivery service or delivered in person by an employee or agent of the Commission. Notices, orders, process and other correspondence shall be deemed served on the Commission at the time of receipt.

(1) Hearing required. The Commission shall issue orders in household goods carrier licensing cases only after notice and hearing in accordance with the rules of practice applicable to proceedings under this Chapter.

(2) Hearing not required. Hearing shall be required in household goods carrier licensing cases, except as provided in Sections 18c-2107 and 18c-4306 of this Chapter.

625 ILCS 5/18c-2102 — Hearings in other than household goods carrier authority cases

Sec. 18c-2102. Hearings in other than household goods carrier authority cases.

(1) Hearing required. Except as otherwise provided in subsection

(2) of this Section, and in Section 18c-2108 of this Chapter the Commission shall, in other than household goods carrier authority cases, issue orders granting authority or other relief, prescribing rates, imposing sanctions, or directing that a person take, continue to take, refrain from taking or cease and desist from continuing to take any action, only after notice and hearing in accordance with the rules of practice applicable to proceedings under this Chapter. (1.1) Service of notice in a case involving a motor carrier of passengers. In any case involving a motor carrier of passengers, if an airport is a point to be served, in addition to public notice by publication, notice of an application for a license or transfer of a license must be served by certified mail, return receipt requested, on

(i) the corporation counsel or chief legal officer of any municipality or other political subdivision operating the airport and
(ii) the agent for service of process in Illinois of any motor carrier possessing a license under Section 18c-6201 authorizing all or part of the service for which authority is sought under Section 18c-6201 of this Chapter.

(2) Hearing not required. Except as otherwise provided in Section 18c-2108 of this Chapter, the Commission may, in other than household goods carrier authority cases, conduct its review and issue orders without hearing, the taking of

evidence, or the making of a record where action taken in the order:

- (a) Was not opposed in a timely pleading addressed to the Commission;
- (b) Was opposed in a timely pleading, but such opposition was later withdrawn or the parties in opposition waived further hearing and taking of evidence;
- (c) Was taken on an emergency temporary or interim basis in accordance with Section 18c-2108 of this Chapter; or
- (d) Is interlocutory in nature.

(3) Section not applicable to household goods carrier authority cases. Nothing in this Section shall have application to any household goods carrier authority case.

625 ILCS 5/18c-2103 — Rules of Practice

Sec. 18c-2103. Rules of Practice.

(1) General Provisions. The Commission shall adopt General and Special rules of practice to govern administrative proceedings under this Chapter. Such rules shall be designed to effectuate the purposes of this Chapter. Rules of practice heretofore issued by the Commission shall be the rules of practice applicable under this Chapter unless changed, repealed, or supplemented by the Commission.

(2) Verification of Pleadings. Unless otherwise expressly provided therein, the signature on any pleading, document, or other paper filed with the Commission on which a verification or oath is required under applicable statutes or regulations shall constitute the verification or oath of the signatory and no further verification or oath shall be required. False verification or oath shall be a violation of this Chapter.

625 ILCS 5/18c-2104 — Rules of Evidence

Sec. 18c-2104. Rules of Evidence. The rules of evidence which apply in civil cases before the circuit courts of this State shall, except as otherwise provided herein, apply to proceedings before the Commission under this Chapter. Evidence not admissible under the rules of evidence applicable in civil courts may be admitted if it is of a type commonly relied upon by prudent persons in the conduct of their affairs. Objections must be made at hearing to preserve them on appeal. Evidence may be received orally or in writing.

625 ILCS 5/18c-2105 — Discovery

Sec. 18c-2105. Discovery.

(1) Discovery Generally. Any party may utilize written interrogatories, depositions, requests for discovery or inspection of documents or property and other discovery tools commonly utilized in civil actions in the circuit courts in the State of Illinois in the manner contemplated by the Code of Civil Procedure and the Rules of the Supreme Court of Illinois; except that discovery must be completed by the 30th day after the party filed its petition for leave to intervene, unless the period of discovery is extended by agreement of the parties or by the Commission. The Chairman or a hearing examiner may, at any time, on his own motion or at the request of a party, issue such rulings denying, limiting, conditioning, or regulating discovery as justice requires, and may supervise all or part of any discovery procedure. Parties to proceedings before the Commission are encouraged to clarify and resolve issues where possible through the use of pre-hearing discovery. However, discovery order should be calculated to lessen the time and expense required to reach an informed resolution of the issues.

(2) Subpoenas. The Chairman or a hearing examiner may, for good cause, issue a subpoena directing a person to appear and testify, and to produce records, documents, or other papers, at a time and place set forth in the subpoena, in connection with a proceeding before the Commission. Service of the subpoena shall be in the same manner as a subpoena issued by a court. The Commission may, on its own motion or the motion of a person served with a subpoena, quash the subpoena, in whole or in part.

(3) Appeal from Discovery and Subpoenas. A person served with a discovery request or subpoena may appeal such interlocutory matter to the Commission. Such appeals shall set forth grounds for seeking to quash or limit the scope of the discovery or subpoena, as well as the specific relief sought, and must be filed within 10 days after service of the discovery or subpoena. If discovery is stayed by the Commission, the person served shall be excused from compliance with the discovery order or subpoena until a decision on its appeal is made by the Commission.

(4) **Assessment and Payment of Discovery Costs.** The Commission may assess the costs of discovery, including fees for witness attendance and travel, against the party by which discovery was requested. Where a subpoena is issued on the Commission's own motion, fees for witness attendance and travel shall be paid by the Commission on request. Witness fees shall be the same as for a circuit court proceeding. Deposits to insure payment of costs and fees may be required.

(5) **Enforcement of Discovery Procedures.** The Commission may, where a person has failed to comply with or permit discovery authorized hereunder, determine any or all issues within the scope of the discovery or subpoena adverse to such person without further evidence. The Commission may, in addition, assess civil penalties under Article VII of Sub-chapter 1 of this Chapter for such violator for contempt and may assess the costs of enforcement, both before the Commission and before the court, against the violator.

625 ILCS 5/18c-2106 — Standing

Sec. 18c-2106. Standing.

(1) **General Provisions.** Each person with an administratively cognizable interest in a proceeding before the Commission shall, upon compliance with procedural rules adopted by the Commission for such proceedings, be entitled to appear and participate as a party to the proceeding. The Commission may, in addition, grant leave to appear and participate on such terms as it may prescribe, where to do so would assist the Commission in reaching an informed and just decision in the proceeding.

(2) **Definition of Administratively Cognizable Interest.** The following persons or entities shall be deemed to have an administratively cognizable interest in proceedings under this Chapter:

(a) **Licensing Proceedings.** A person or an entity shall be deemed to have an administratively cognizable interest in a proceeding in which an application for a new, amended, or extended intrastate license is under consideration only if:

(i) A carrier authorized to transport traffic such as would be subject to or affected by the rates; (ii) A shipper or receiver of traffic such as would be subject to or affected by the rates; (iii) An association of two or more carriers, acting at the request of and on behalf of one or more carriers authorized to transport traffic such as would be subject to or affected by the rates; or an association of two or more shippers or receivers acting at the request of and on behalf of one or more shippers or receivers of such traffic; or (iv) An organization representing employees of a household goods carrier.

(c) **Proceedings to Transfer a License.** A person shall be deemed to have an administratively cognizable interest in a proceeding to transfer an intrastate license only if the person:

(v) Is an organization representing employees of a household goods carrier; or (vi) Is a municipality or other political subdivision operating an airport that is a point to be served for the license under consideration.

(d) **Complaint and Enforcement Proceedings.** A person shall be deemed to have an administratively cognizable interest in a complaint proceeding if the person:

(i) Has an ownership interest in or control of the license which is the subject of the proceeding; (ii) Would be directly and adversely affected by failure to grant relief sought in the complaint or enforcement action and such adverse effect is contrary to the purposes of this Chapter; or (iii) Is an organization representing employees of a household goods carrier of property.

- (e) All Proceedings. Notwithstanding the provisions of subsections (2)(a) through (2)(d) of this Section, a person shall be deemed to have an administratively cognizable interest in a proceeding other than a complaint proceeding if the person:
- (i) Filed the pleading pursuant to which the proceeding was initiated; or
 - (ii) Is an organization representing employees of a household goods carrier.

625 ILCS 5/18c-2107 — Orders in household goods carrier authority proceedings

Sec. 18c-2107. Orders in household goods carrier authority proceedings.

(1) Emergency Proceedings Orders. The Commission may, on request, and upon a finding that urgent and immediate public need requires emergency temporary action, issue orders granting emergency temporary relief in household goods carrier authority proceedings. The Commission shall promptly post notice of any such request at a prominent location at the Commission offices in Springfield and Chicago, and where action affecting a specific named person is requested shall promptly notify the person by telephone or telegram. Such orders may be issued without hearing and shall remain in effect pending notice and hearing in accordance with subsection

(1) of Section 18c-2101 of this Chapter, but shall not remain in effect for a period exceeding 45 days from issuance, and shall not be renewed or extended. Any person in opposition to such relief shall be entitled, on request, to an oral hearing on the request for emergency temporary relief. The filing or granting of a request for an oral hearing shall not, unless the Commission so provides, stay the issuance or effect of any emergency temporary order under this subsection.

(2) Interim orders. The Commission may, on request, issue interim orders for temporary authority in household goods carrier authority proceedings making temporary disposition of issues in a proceeding after notice and review of verified supporting statements. Such orders shall remain in effect pending final disposition in accordance with Section 18c-2101 of this Chapter unless otherwise provided in the interim order or the interim order is modified or rescinded by the Commission. Any person in opposition to such relief shall be entitled, on request, to an oral hearing on the request for temporary relief. The filing or granting of such a request for an oral hearing shall not, unless the Commission so provides, stay the issuance or effect of any interim order under this subsection. A request for oral hearing on a request for interim relief shall, unless otherwise specified by the party making the request for oral hearing, be construed as a request for oral hearing on the application for permanent relief as well.

(3) Final Orders. Final orders shall be issued in household goods carrier of property authority proceedings only after an oral hearing.

625 ILCS 5/18c-2108 — Orders in other than household goods carriers authority and enforcement proceedings

Sec. 18c-2108. Orders in other than household goods carriers authority and enforcement proceedings.

(1) Emergency Orders. The Commission may, on request, and upon a finding that urgent and immediate public need requires emergency temporary action, issue orders granting emergency temporary relief in other than household goods carrier authority or enforcement cases. The Commission shall promptly post notice of any such request at a prominent location at the Commission offices in Springfield and Chicago, and where action affecting a specific named person is requested shall promptly notify the person by telephone or telegram. Such orders may be issued without hearing and shall remain in effect pending notice and hearing in accordance with subsection

(1) of Section 18c-2101 of this Chapter, but shall not remain in effect for a period exceeding 45 days from issuance, and shall not be renewed or extended. Any person in opposition to such relief shall be entitled, on request, to an oral hearing on the request for emergency temporary relief. The filing or granting of such request for oral hearing shall not, unless the Commission so provides, stay the issuance or effect of any emergency temporary order under this subsection.

(2) Interim Orders. The Commission may, on request, issue interim orders making temporary disposition of issues in a proceeding, other than a household goods carrier authority or enforcement proceeding, after notice and hearing on written submissions. Such orders shall remain in effect pending final disposition in accordance with Section 18c-2102 of this Chapter unless otherwise provided in the interim order or the interim order is modified or rescinded by the Commission. Any person in opposition to such relief shall be entitled, on request, to an oral hearing on the request for temporary relief. The filing or granting of such a request for oral hearing shall not, unless the Commission so provides, stay the issuance or effect of any interim order under this subsection. A request for oral hearing on a request for temporary relief shall, unless otherwise specified by the party making the request for oral hearing, be construed as a request for oral hearing on the application for permanent relief as well.

(3) Final orders. Any party to a proceeding before the Commission shall be entitled, on timely written request, to an oral hearing prior to issuance of a final order in the proceeding. Where the Commission has issued an interim order and no timely request for oral hearing has been filed or is pending, the Commission may issue a final order without oral hearing, except in household goods carrier authority proceedings.

(4) Section not applicable to household goods carrier authority proceedings. Nothing in this Section shall have application to any household goods carrier authority proceeding.

625 ILCS 5/18c-2109 — Prompt Final Disposition of Proceedings

Sec. 18c-2109. Prompt Final Disposition of Proceedings. The Commission shall consider matters properly before it in the most expeditious manner possible, and in no case shall the final order resolving matters in a proceeding be entered later than the 90th day following the close of oral hearing. Proceedings may be reassigned in order to expedite consideration and disposition.

625 ILCS 5/18c-2110 — Reconsideration, Rehearing and Reopening of Proceedings

Sec. 18c-2110. Reconsideration, Rehearing and Reopening of Proceedings.

(b) Relief Which May Be Sought. A motion may request modification or rescission of a Commission or Employee Board order, or of the action or inaction of the Commission, Employee Board, or Commission staff; the Commission or Employee Board may likewise request such relief

(c) To Whom Motions May Be Addressed. If the order appealed is a nonfinal order of an Employee Board, the motion may be addressed to the Board or to the Commission; otherwise, the motion must be addressed to the Commission.

(d) Deadline For Filing Motions. The motion must be filed within 30 days after service of the order, or of the action or inaction appealed, unless the time for filing a motion is extended by the Commission in writing.

(e) Style and Contents of Motions. The motion must set forth specific grounds for modification or rescission of the order. Appeals from orders issued by the Commission, or from the action or inaction of the Commission shall be styled "motions for rehearing;" appeals from orders of an Employee Board, or from the action or inaction of Employee Board or staff, shall be styled "motions for reconsideration."

(f) Grant or Denial of Motions. The Commission may grant or deny such motions, in whole or in part. If the Commission grants such a motion a new order shall be issued within 180 days after service of the order granting the motion unless the order granting the motion also disposed of the issues in the proceeding and is therefore a final, appealable order. If the Commission fails to act on any such motion within 45 days after it is filed, or up to 90 days if the period for acting on the motion has been extended by the Commission in writing, the motion shall be deemed to have been denied by operation of law.

(g) Appeals of Rulings by Hearing Examiners. Notwithstanding any other provision of this Section, interlocutory appeals of rulings by hearing examiners shall be as provided by the Commission's Rules of Practice; no other appeals of action or inaction by a hearing examiner may be taken.

(2) Motions to Reopen. The Commission may, at any time after notice to the parties and the public, reopen a proceeding to consider clarification, modification, or rescission of its order. Reopening may be on the Commission's own motion or on the motion of any interested person. Upon a finding of clerical or technical error the Commission may modify or rescind its order in the proceeding. The Commission may not, on reopening, impair the vested rights of any person.

625 ILCS 5/18c-2201 — Availability of Judicial Review

Sec. 18c-2201. Availability of Judicial Review.

(1) Standing to Seek Judicial Review. No person shall have standing to seek judicial review of a Commission action unless such person shall have an administratively cognizable interest in the order, be aggrieved by it, and have exhausted its administrative remedies. A person admitted as a party to an administrative proceeding shall be presumed to have an administratively cognizable interest in orders issued in the proceeding for purposes of standing to seek judicial review.

(2) Exhaustion of Administrative Remedies. A person shall be deemed to have exhausted its administrative remedies only if:

- (a) The person participated as a party to the proceeding before the Commission, or filed a timely pleading seeking to participate as a party and was entitled as matter of right to participate as a party;
 - (b) The person filed a timely motion for reconsideration or rehearing which was denied by the Commission or by operation of law, unless the Commission expressly waived the filing of such a motion; and
 - (c) The action of which judicial review is sought is, in all respects, a final order of the Commission.
- (3) Deadline for Filing Petitions for Judicial Review. A petition for judicial review must be filed within 35 days after the order of the Commission becomes final.
- (4) Remedy Exclusive. Judicial review as provided for under this Article shall be exclusive of all other remedies at law or equity in regard to review of Commission actions, regulations or orders.

625 ILCS 5/18c-2202 — Scope of Judicial Review

Sec. 18c-2202. Scope of Judicial Review.

 - (b) The order is contrary to provisions of this Chapter or Commission regulations;
 - (c) The order is an abuse of discretion;
 - (d) The order is beyond the jurisdiction of the Commission; or
 - (e) The order denies constitutional rights of the person seeking judicial review.
- (2) Record on Review. In reviewing an order of the Commission, the court shall be limited to issues of fact or law presented to the Commission in either a motion for reconsideration or a motion for rehearing, and to:

625 ILCS 5/18c-2203 — Submission of the Administrative Record

Sec. 18c-2203. Submission of the Administrative Record. It shall be the responsibility of the Commission to submit to the court certified copies of the record before the Commission. The record submitted must be complete in all respects unless all parties have, by written stipulation, agreed to deletion of materials not relevant to the issues raised in the petition for judicial review. The cost of preparing certified copies of the record may be assessed, in whole or in part, to the party seeking judicial review, and failure to pay such costs shall be grounds for dismissal in accordance with the Illinois Administrative Review Law.

- (2) Power of Court to Stay Commission Orders. During the pendency of a petition for judicial review the reviewing court in its discretion may, except as provided in this subsection, stay, suspend, restrain or enjoin, in whole or in part, the operation of a Commission regulation or order. No order staying, suspending, restraining or enjoining a Commission regulation or order shall be made by the court except upon 3 days' actual notice to the Commission and the Attorney General and after hearing. Where the Commission action relates to enforcement of this Chapter, the reviewing court shall not stay, suspend, restrain or enjoin the action of the Commission for a period longer than 180 days from the filing of the

appeal; unless at the expiration of the initial 180 day period, the court finds that continuation is necessary for the informed and just resolution of the issues; and unless the court does continue the stay, suspension, restraint, or injunction in effect for one or more definite periods of time not to exceed 180 days each.

(3) Bond Required. In case an action, regulation or order of the Commission is stayed, suspended, restrained, or enjoined, the order of the court shall not become effective until a bond shall first have been executed and filed with and approved by the court, except as otherwise provided in this paragraph. Where the order under review does not relate to enforcement of this law, the court may, for good cause, waive the requirement of a bond.

625 ILCS 5/18c-2206 — Application of the Illinois Administrative Review Law

625 ILCS 5/18c-3102 — Geographical Restrictions

Sec. 18c-3102. Geographical Restrictions. A prima facie determination whether transportation is within the geographical scope of a license may be made by reference to a copy of the official state highway map and the distance scale shown thereon. Such a determination may be rebutted by a showing, based on a municipal ordinance; other official document; or commercially published map, chart or other competent evidence; that the geographical scope of the license is other than as represented on the official state highway map.

625 ILCS 5/18c-3201 — Prohibition of transportation services in the absence of effective rates

Sec. 18c-3201. Prohibition of transportation services in the absence of effective rates. No common carrier by pipeline, household goods carrier, rail carrier, or passenger carrier shall render service until such carrier has in effect a tariff or schedule of rates applicable to such service in compliance with this Chapter. Likewise, no such carrier shall render service under a license issued by the Commission if the Commission has suspended or cancelled the tariff or schedule of rates previously in effect and applicable to such service, or if the tariff or schedule is, by action of a party thereto or by its own terms, no longer effective.

Sec. 18c-3203. Filing, publishing and posting of tariffs and schedules.

- (1) General requirement of filing, publication and posting. Each common carrier of household goods or passengers shall file, publish, and make available for public inspection its current tariffs (other than rail contract rate tariffs). Copies of such tariffs shall be provided by the carrier to any member of the public on request and at a reasonable cost. Each contract carrier of household goods shall file its current schedule of rates and provisions.
- (2) Tariff and schedule specifications. Tariffs and schedules filed in accordance with this subsection shall be in such form and contain such information as the Commission may specify. The Commission may, by special permission for good cause shown, grant permission to deviate from its tariff and schedule regulations.
- (3) Rejection of tariffs and schedules. The Commission may, at any time prior to the effective date of a tariff or schedule, reject or suspend a tariff or schedule which does not conform to its specifications or which on its face is in violation of this Chapter, Commission regulations or orders.
- (4) Right of independent action. Each carrier subject to this Chapter shall have the individual right to publish, file, and post any rate for transportation provided by such carrier or in connection with any other carrier. No carrier shall be a member of any bureau, tariff publishing agency, or other organization which, directly or indirectly, prohibits such carrier from publishing and filing any rate or which requires that such rate be published or filed by the bureau, publishing agency, or other organization.

625 ILCS 5/18c-3204 — Rate Proceedings

Sec. 18c-3204. Rate Proceedings.

- (1) Initiation of proceedings. The Commission may initiate a proceeding to investigate or prescribe tariffs or schedules on its own motion or on complaint.
- (2) Suspension of tariffs and schedules.
 - (a) Suspension of tariffs. The Commission may suspend a tariff, in whole or in part, during the pendency of a proceeding to consider the reasonableness of the tariff, or to consider whether the tariff is discriminatory, or to consider whether the tariff otherwise violates provisions of this Chapter, Commission regulations or orders, provided the order of suspension is issued prior to the effective date of the tariff. The suspension shall remain in effect for the period allowed under this Chapter unless the Commission order provides for a shorter period of suspension. At the end of the statutory suspension period the suspension may be extended by agreement of the parties; otherwise, the tariff shall go into effect. The statutory suspension period is:
 - (i) Seven months for public carriers and household goods common carriers; (ii) One hundred and twenty days for motor carriers of passengers; and (iii) Five months for rail carriers, unless the period is extended for an additional 3 months in accordance with provisions of the Interstate Commerce Act.
 - (b) Suspension of schedules. The Commission may suspend a household goods contract carrier schedule, in whole or in part, during the pendency of a proceeding to consider whether the schedule violates provisions of this Chapter, Commission regulations or orders, provided the order of suspension is issued prior to the effective date of the schedule. The suspension shall remain in effect for 7 months unless the Commission order provides for a shorter period of suspension. At the end of this period, the suspension may be extended by agreement of the parties; otherwise, the schedule shall go into effect.

(c) Burden of proof in investigation proceedings. The burden of proof in an investigation proceeding shall be on the proponent of the rate unless otherwise provided in a valid preemptive federal statute which governs the rate.

(3) Prescription of tariffs and schedules. The Commission may prescribe tariffs where it has determined, in accordance with Section 18c-2102 of this Chapter, that a tariff published by a carrier is unreasonable, discriminatory, or otherwise in violation of this Chapter, Commission regulations or orders. The Commission may prescribe schedules where it has determined, after hearing, that a schedule filed by a carrier is in violation of this Chapter, Commission regulations or orders.

(4) Relief. The Commission may, where it finds a tariff or schedule to be in violation of this Chapter, its regulations or orders, or finds rates or provisions in a tariff unjust, unreasonable, or discriminatory, and in accordance with Section 18c-2102 of this Chapter, direct the carrier to:

- (a) Publish and file a supplement cancelling the tariff or file notice of cancellation of the schedule, in whole or in part;
- (b) Publish and file a new tariff or file a new schedule containing rates and provisions prescribed by the Commission; and
- (c) Repay any overcharges or collect any undercharges, and, except with regard to household goods carriers, pay reparations.

625 ILCS 5/18c-3205 — Ratemaking Standards

Sec. 18c-3205. Ratemaking Standards.

(1) Reasonableness. Rates for household goods common carrier service must be just, reasonable, and not discriminatory.

(2) Factors to be Considered. The Commission shall, in exercising its ratemaking powers consider, among other factors, the inherent advantages of transportation by a particular class of carriers, the public need for and interest in adequate and efficient transportation service, at rates consistent with provision of such service, and the revenue needs of carriers under honest, economical and efficient management.

(3) Factors Not Considered. The Commission shall not, in exercising its ratemaking powers, consider the value of any operating authority held by a carrier, or the value of any goodwill or earning power connected with operations of the carrier.

625 ILCS 5/18c-3206 — Charges to conform to tariffs or schedules and orders of the Commission

Sec. 18c-3206. Charges to conform to tariffs or schedules and orders of the Commission.

(1) Overcharges and undercharges prohibited. No common or contract household goods or passenger carrier shall offer, advertise, charge, demand, collect, or receive, in any manner, a greater, lesser, or different compensation for transportation or for any service in connection therewith than the rates and charges specified in tariffs or schedules on file with the Commission and in effect at the time the transportation or any other service is rendered; nor shall any such carrier offer, advertise, charge, demand, collect, or receive any compensation for transportation or for any other service rendered in connection therewith where there is not in effect at the time a lawfully applicable tariff or schedule. Likewise, no such carrier shall refund or remit, in any manner or by any device, whether directly or indirectly, or through any agent or otherwise, or pursuant to Commission order, any portion of the rates or charges specified in tariffs or schedules on file with the Commission and in effect at the time; nor shall any such carrier extend to any person any discount, value, privilege, or facilities for transportation or any service rendered in connection therewith, except as are specified in tariffs or schedules on file with the Commission and in effect at the time.

(2) Repayment of overcharges, collection of undercharges and reparations.

(a) Repayment of overcharges and payment of reparations. The Commission may, in accordance with Section 18c-2101 of this Chapter, order any carrier to pay to one or more shippers the amount by which the carrier received compensation greater than the rates and charges specified in tariffs or schedules in effect at the time the carrier rendered the transportation or other service in connection therewith. The Commission may likewise, in accordance with Section 18c-2101 of this Chapter, order any carrier other than a household goods carrier to pay to one or more shippers the amount by which the carrier received compensation greater than reasonable rates and charges as determined by the Commission.

(b) Collection of undercharges. The Commission may, in accordance to Section 18c-2101 of this Chapter, order any carrier to make all reasonable efforts to collect from one or more shippers the difference between amounts collected and

the amount of compensation specified in tariffs or schedules in effect at the time the transportation or other service in connection therewith was rendered.

625 ILCS 5/18c-3207 — Zones of Rate Flexibility

Sec. 18c-3207. Zones of Rate Flexibility.

(1) Zone for Motor Carriers of Passengers. Notwithstanding any other provisions of this Sub-chapter, the Commission may not investigate, suspend, revise, or revoke any single-line rate proposed by a motor carrier of passengers, or joint rate proposed by one or more such companies, applicable to any transportation on the grounds that such rate is unreasonably high or low if:

(a) The rate was published in accordance with provisions of this Chapter, Commission regulations and orders;

(b) The Commission was properly notified that the carrier or carriers wish to have the rate considered pursuant to this subsection; and

(c) The net of all increases and decreases, during the calendar year in which the rate is to become effective, is not more than 25%.

(2) Zone for Rail Carriers. Notwithstanding any other provision of this Sub-chapter the Commission may not investigate, suspend, revise, or revoke any rate proposed by a rail carrier on the grounds that such rate is unreasonably high or low if:

(a) The rate was published in accordance with provisions of this Chapter and Commission regulations;

(b) Commission was properly notified that the carrier wished to have the rate to be considered pursuant to this subsection; and

(c) The net of all increases and decreases, during the calendar year in which the rate is to become effective, is not more than the amount specified under 49 U.S. Code 10707a and 10708.

(3) Commission to Adopt Regulations. The Commission may adopt regulations specifying procedures for determining whether a rate published by a carrier falls within the zone of rate flexibility.

625 ILCS 5/18c-3208 — Joint rates and routes

Sec. 18c-3208. Joint rates and routes.

(1) Establishment by carriers. Two or more common carriers of household goods or passengers may establish through routes and joint rates, provided that the rates, and divisions and practices relating thereto, are just, reasonable, and not discriminatory.

(2) Establishment by the Commission. The Commission may, on its own motion or on petition or complaint, where 2 or more carriers have failed to establish through routes, joint rates, or divisions and practices relating thereto, establish such routes, rates, divisions and practices. The Commission shall take such action only after notice and hearing to consider whether any proposed routes, rates, divisions and practices are just, reasonable and not discriminatory, whether any carrier has a reasonable objection to establishment of such routes, rates, divisions and practices, and whether such objections can be satisfied by imposing reasonable terms and conditions on the application of such routes, rates, divisions and practices. The provisions of this subsection shall have no application to household goods carriers.

625 ILCS 5/18c-3209 — Charges Not Part of Direct Transportation Cost

Sec. 18c-3209. Charges Not Part of Direct Transportation Cost. Any agreement, arrangement, or device, or part thereof, which, as a condition to the provision of transportation service, requires or permits any carrier, shipper, or receiver to pay a charge to any person, where such charge is not part of the direct cost of transportation service, shall be void.

625 ILCS 5/18c-3210 — Presentation of freight bills, payment of freight charges, and extension of credit

Sec. 18c-3210. Presentation of freight bills, payment of freight charges, and extension of credit. Except as otherwise provided in this Chapter, this Section is applicable only to household goods carriers.

(1) Presentation of freight bills. Freight bills shall be presented to the person responsible for payment of freight charges not later than the 7th day following delivery of the freight.

(2) Payment required before delivery or relinquishment of possession. Except as provided in subsection

(3) of this Section, no common carrier shall deliver or relinquish possession of a shipment transported by it until all freight charges for such shipment under lawfully applicable rates have been paid to the carrier. Where credit has been extended

in accordance with this Section, and all freight charges on the shipment under lawfully applicable rates have not been paid before expiration of the period for which credit has been extended, the carrier shall cease delivering or relinquishing possession of the shipment and may decline to transport future shipments until all such charges have been paid.

(3) Exception: Delivery or relinquishment of possession before payment. A carrier may deliver or relinquish possession of a shipment transported by it in advance of payment of all freight charges on the shipment under lawfully applicable rates if the carrier has, in accordance with this Section, extended credit to the person responsible for payment of freight charges.

(4) Extension of credit. Credit, if extended by a carrier, must be extended without discrimination. Credit for payment of freight charges shown on the initial freight bill shall be for a period not to exceed 30 days, beginning on the later of the date of delivery or the date on which the freight bill is presented. If freight charges shown on the initial freight bill are paid and the carrier subsequently presents a supplemental freight bill, the carrier may extend credit in the amount of freight charges shown on the supplemental freight bill for an additional period not to exceed 15 days, beginning on the date on which the supplemental freight bill is presented.

(5) Commission regulation of credit terms. The Commission may regulate the extension and terms of credit extended by carriers under this Section, and no credit shall be extended except in accordance with such regulations.

(6) Use of U.S. Postal Service for presentation of bills or payment of charges. Where the United States Postal Service is used for the presentation of freight bills or payment of freight charges, the date of mailing, as indicated by the postmark, shall be the date of presentation or payment.

(7) Calculation of times for extension of credit. Time periods of extension of credit under this Section shall commence at midnight on the date of the event (delivery or presentation of freight bill). The initial 7 day period shall not include Saturdays, Sundays, or legal holidays.

625 ILCS 5/18c-3211 — Free or Reduced Rate Carriage

Sec. 18c-3211. Free or Reduced Rate Carriage. Nothing in this Chapter shall prevent a carrier from establishing reduced rate or free carriage rates applicable to transportation provided for the United States, the State of Illinois, or any municipality or subdivision of this State, where it is required by law that the carrier providing such transportation be selected by competitive bid. Such rates shall be filed in the form and manner required by the Commission.

625 ILCS 5/18c-3212 — Statute of Limitations for Freight Charges

Sec. 18c-3212. Statute of Limitations for Freight Charges.

(2) Reparations or Overcharge Proceedings. Petitions seeking reparations or repayment of overcharges must be filed with the Commission within 3 years after rendition of the service, and any action seeking judicial enforcement of a Commission order awarding reparations must be instituted within 1 year after issuance of such order. Where an action seeking judicial review of a Commission order awarding reparations is filed, the time preceding final adjudication of the action shall be excluded in computing the time for instituting the action seeking judicial enforcement of the Commission order.

625 ILCS 5/18c-3213 — Application of Rate Regulations to Exempt Traffic

Sec. 18c-3213. Application of Rate Regulations to Exempt Traffic. Notwithstanding any other provision of this Chapter to the contrary, the provisions of this Article shall not apply to traffic which is altogether exempt from Commission jurisdiction under this Chapter or a valid, preemptive federal statute.

625 ILCS 5/18c-3301 — Certain Third Party Payments Prohibited

Sec. 18c-3301. Certain Third Party Payments Prohibited. Whenever a shipper or receiver of property requires that any person who owns or operates a motor vehicle transporting property in intrastate commerce under the provisions of this Chapter be assisted in the loading or unloading of such vehicle, the shipper or receiver shall be responsible for providing such assistance or shall compensate the owner or operator for all costs associated with securing and compensating the person or persons providing such assistance. It shall be unlawful to coerce or attempt to coerce any person providing transportation of property by motor vehicle for-hire in intrastate commerce to employ or pay one or more persons to load or unload any part of such property onto or from such vehicle, except that this subsection shall not be construed as making unlawful any activity which is not unlawful under the National Labor Relations Act or any other acts governing

labor practices.

625 ILCS 5/18c-3302 — Prohibition against discrimination

Sec. 18c-3302. Prohibition against discrimination. It shall be unlawful for any household goods carrier, rail carrier, common carrier by pipeline, or passenger carrier to discriminate by giving or causing to be given any unreasonable preference or advantage to any person or traffic, or to subject any such person or traffic to unreasonable prejudice or disadvantage.

625 ILCS 5/18c-3303 — Failure to Reject or Suspend, or to Invoke Sanctions, Not to be Construed as Acceptance

Sec. 18c-3303. Failure to Reject or Suspend, or to Invoke Sanctions, Not to be Construed as Acceptance. Failure of the Commission to reject or suspend any rate, contract, application, or other document filed with it, or to initiate enforcement proceedings or invoke sanctions against any person for action or violation of this Chapter, Commission regulations or orders, shall not be construed in any proceeding of either any administrative or judicial nature as authorization or acceptance of such document or action, or any portion thereof. Nothing in this Section shall be construed to affect the date on which a rate or tariff is lawfully in effect.

625 ILCS 5/18c-3304 — Records and accounts

Sec. 18c-3304. Records and accounts. Each household goods carrier, rail carrier, common carrier by pipeline, and passenger carrier shall:

- (1) Keep written accounts and records of its revenues, expenses, contracts, and other activities subject to regulation under this Chapter in accordance with regulations prescribed by the Commission;
- (2) Maintain, for a period of 3 years, copies of all accounts and records required by Commission regulations; and
- (3) Make such accounts and records available for inspection, on request, by any authorized employee of the Commission. Accounts and records kept pursuant to this Section shall be kept at an office in the State of Illinois unless the Commission shall have authorized maintenance at a location outside of the State.

625 ILCS 5/18c-4101 — Scope of Commission Jurisdiction

Sec. 18c-4101. Scope of Commission Jurisdiction. Except as provided in Section 18c-4102 of this Chapter, the jurisdiction of the Commission shall extend to all motor carriers of property operating within the State of Illinois.

Emergency transportation of wrecked or disabled vehicles shall include the transportation, pursuant to written authorization of law enforcement official if the owner is unavailable or unable to make the request, of wrecked or disabled vehicles which might otherwise constitute a public safety hazard along a street or highway, and transportation of wrecked or disabled vehicles in other bona fide emergency situations;
- (l) consisting of transportation by a tow truck or rollback car carrier equipped as a tow truck of a motor vehicle when requested by the owner;

- (b) Be responsible for or hold itself out to be responsible for driver's wages, payroll, unemployment compensation, social security tax, income withholding tax or any other taxes or payments normally due by reason of the employer-employee relationship, or any other compensation to drivers. The provision of motor vehicles with drivers shall constitute motor carrier operations subject to the licensing, ratemaking, and other jurisdiction of the Commission under this Chapter.

(2) Exclusive Use of Household Goods Contract Carrier Vehicles. The prohibition against single source leasing in subsection

This subsection shall apply regardless of whether the household goods contract carrier's permit expressly provides for the lease of vehicles, with drivers, to contracting shippers.

(3) Equipment Leasing.

(a) Requirements for Content, Filing, and Carrying of Leases. The Commission may prescribe requirements for the leasing of equipment, with driver, and of equipment without driver, to or by a motor carrier of property; provided that such regulations shall not encompass the leasing of equipment, without drivers, from a bona fide equipment leasing company to a motor carrier of property. Such leases shall be in writing, constitute the complete and exclusive statement of terms between the parties, specify the compensation for the lease and the duration of the lease, be signed by the parties thereto, be filed with the Commission, and be carried in each motor vehicle covered thereby, provided, however, that the Commission may exempt from the foregoing requirements leases between parties, all of whom hold public carrier certificates issued by the Commission. The provisions of this paragraph shall not apply to the interchange of equipment or drivers between carriers for use wholly within a county having a population of more than 1,000,000 inhabitants.

(b) Direction and Control of Leased Equipment. It shall be the responsibility of the license holder to exercise full direction and control of all equipment and personnel used in its operations. Equipment used in its operations must be owned by or under lease to the carrier.

625 ILCS 5/18c-4104 — Unlawful Operations

Presentation, at hearing, of a copy of a current license or registration issued by the Commission to the carrier which was valid on the date the violation occurred shall, if no concurrent violations of this Chapter, Commission regulations or orders are found, excuse the carrier from any penalties under paragraph

(c) of subsection

(1) of this Section. Presentation, at hearing, of an executed copy of the current lease in the form prescribed by and on file with the Commission shall, if no concurrent violations of this Chapter, Commission regulations or orders are found, excuse the carrier from penalties under paragraph

(d) of subsection

(1) of this Section. Presentation, at hearing, of the required intrastate or interstate cab card, with the required Illinois intrastate or interstate identifier affixed or printed thereon, if valid on the date the violation occurred, and if no concurrent violations are found, shall excuse the carrier from penalties under paragraph

(g) of subsection

625 ILCS 5/18c-4105 — Indemnity agreement in motor carrier transportation contracts void

Sec. 18c-4105. Indemnity agreement in motor carrier transportation contracts void.

(a) For a license authorizing a carrier to operate as an intrastate household goods carrier;

(b) To transfer a certificate, permit, or license or to change the name on a certificate, permit, or license; and

(c) To convert household goods contract carrier authority to household goods common carrier authority.

(2) Form and content of household goods carrier licensing applications. Household goods carrier licensing applications shall be on such forms and contain such information as may be prescribed by the Commission, be verified under oath, and shall be accompanied by the required filing fee.

(3) Public notice of applications.

(a) Review of applications prior to publication. The Commission may provide for preliminary review of each application to determine if it is complete, if it gives adequate notice, and if the authority requested is unenforceably vague or otherwise contrary to the provisions of this Chapter.

(b) Authorization to submit application for publication. If the Commission determines after review that the application is defective in any respect, it shall promptly notify the applicant. No application shall be submitted to the official newspaper for publication until after it has been approved for publication, if the Commission has provided for preliminary review. If the Commission does not find that the application is defective, or if it finds that any defects have been removed by amendment, the applicant shall be permitted to submit the application to the official newspaper for publication. The Commission shall complete its review and notify the applicant within 15 days after filing of the application.

(c) Additional notice prescribed by the Commission. The Commission may direct applicant to give such further notice in connection with its application as the Commission deems necessary. The Commission may, itself, give such additional notice as it deems necessary.

Petitions for leave to intervene must be filed within 15 days after publication, unless the Commission provides for filing at a later date. The Commission may permit additional persons to appear and participate, on such terms as the Commission shall prescribe, where such participation is deemed necessary to an informed and just resolution of the issues in the proceeding.

(b) Setting, notice, and hearing. Notwithstanding any contrary provisions in Section 18c-2101 of this Chapter, a hearing shall be held on each licensing application to determine that the requirements of this Chapter have been satisfied, except as otherwise provided in Section 18c-4306 of this Chapter. The Commission shall set the hearing at a time not less than 15 days after publication in the official newspaper. The Commission shall serve notice of hearing on each party of record.

(c) Issuance of orders after hearing. Summary orders shall be issued within 10 days after the close of oral hearing or such other period as the Commission may prescribe. Where a party requests, in a properly filed motion for reconsideration or rehearing, a detailed statement of findings and conclusions, the Commission shall vacate the summary order and issue a new order in accordance with Sub-chapters 1 and 2 of this Chapter. Otherwise, orders shall be issued in accordance with provisions of Sub-chapters 1 and 2 of this Chapter.

(2) Requirements for issuance. The Commission shall grant an application for a common carrier of household goods certificate, in whole or in part, to the extent that it finds that the application was properly filed; a public need for the service exists; the applicant is fit, willing and able to provide the service in compliance with this Chapter, Commission regulations or orders; and the public convenience and necessity requires issuance of the certificate. Otherwise, the application shall be denied. The burden of proving that the requirements for issuance of a common carrier of household goods certificate have been met shall be borne by the applicant.

(3) Duties and practices of household goods common carriers. Household goods common carriers shall provide safe and adequate transportation service to the general public within the scope of their authorities and in compliance with this Chapter, Commission regulations and orders. Such service shall be at reasonable rates and without discrimination.

625 ILCS 5/18c-4203 — Household goods contract carrier permits

Sec. 18c-4203. Household goods contract carrier permits.

(1) Prerequisite to operation as a household goods contract carrier. No person shall operate as a household goods contract carrier of property unless such person possesses a household goods contract carrier permit issued by the Commission and in good standing.

(2) Requirements for issuance.

(a) General requirements. The Commission shall grant an application for a household goods contract carrier permit, in whole or in part, to the extent that it finds that the application was properly filed; the applicant is fit, willing and able to provide the service in compliance with this Chapter, Commission regulations and orders; and issuance of the permit will be consistent with the public interest. Otherwise, the application shall be denied. The burden of proving that the requirements for issuance of a household goods contract carrier permit have been met shall be borne by the applicant.

(b) Conversion to household goods common carrier authority. The Commission may, at the request of the holder, authorize the conversion of household goods contract carrier authority to household goods common carrier authority, subject to the same terms, conditions, limitations, and regulations as other household goods common carriers.

(c) Cancellation and non-renewal of contracts. Cancellation or non-renewal of a contract, or failure to keep on file with the Commission a copy of a valid contract, shall render a permit void with regard to the involved shipper.

(3) Duties and practices of household goods contract carriers.

(a) Services. Household goods contract carriers shall provide safe and adequate transportation service to their contracting shippers within the scope of their authorities and contracts and in compliance with this Chapter, Commission regulations and orders.

(b) Contracts. Each household goods contract carrier shall file with the Commission a copy of each contract executed under authority of its permit, and shall provide no service except in accordance with contracts on file with the Commission. The Commission may, at any time, reject contracts filed with it which do not comply with the provisions of this Chapter, Commission regulations and orders.

625 ILCS 5/18c-4204 — Standards to be considered in issuing common and contract household goods carrier licenses

Sec. 18c-4204. Standards to be considered in issuing common and contract household goods carrier licenses. The Commission shall exercise its discretion in regard to issuance of common carrier of household goods or contract carrier of household goods licenses in accordance with standards enumerated in this Section.

(1) Standards relevant to both common and contract household goods carrier licenses. In determining whether to issue a common carrier of household goods certificate or a contract carrier of household goods permit under Sections 18c-4202 and 18c-4203 of this Chapter, the Commission shall consider, in addition to other standards enumerated in this Chapter:

(a) (Blank);

(b) The existing authorized carriers' services, including the adequacy of such services and the effect which issuance of a new certificate or permit would have on such services;

(c) (Blank);

(d) Any evidence bearing on the fitness, willingness, or ability of the applicant, including but not limited to any past history of violations of this Chapter, Commission regulations or orders, whether or not such violations were the subject of an enforcement proceeding; and

(e) The effect which issuing the certificate or permit would have on the development, maintenance and preservation of the highways of this State for commercial and other public use.

(2) Additional standards relevant to household goods contract carrier licenses. In determining whether to issue a household goods contract carrier permit under Section 18c-4203 of this Chapter, the Commission shall consider, in addition to standards enumerated in subsection

(1) of this Section or elsewhere in this Sub-chapter:

(a) Whether the proposed service is contract carrier service; and

(b) The effect which failure to issue the permit would have on the supporting shipper or shippers.

(3) Standards not relevant to either household goods common or household goods contract carrier licenses. In determining whether to issue a household goods common carrier certificate or a household goods contract carrier permit under Sections 18c-4202 and 18c-4203 of this Chapter, the Commission shall not consider:

(a) The mere preference of the supporting shipper or shippers or their receiver or receivers for the applicant's service; or

(b) Any illegal operations of the applicant as evidence of shipper need or the inadequacy of existing carriers' services.

625 ILCS 5/18c-4204a — Fitness standards

Sec. 18c-4204a. Fitness standards.

(1) Establishment of administrative standards. The Commission shall, within 180 days from the effective date of this amendatory Act of 1987, adopt and implement standards for determining fitness to hold or continue to hold a household goods carrier license.

(2) Statutory standards. A person shall not be considered fit for purposes of this Section unless the record shows that, at the time of hearing, the person:

(a) Is aware of its obligations under this Chapter, Commission regulations and orders, and other provisions of The Illinois Vehicle Code;

(b) Has substantially complied with applicable statutes and regulations; and

(c) Possesses the equipment, facilities, financial resources, knowledge and experience to provide the proposed service and meet the needs of supporting shippers, in compliance with applicable statutes and regulations, on a long-term basis.

(3) Burden of proof in application proceedings.

(a) Temporary authority. Each applicant for temporary household goods carrier authority shall have the burden of making a prima facie showing of fitness. The Commission may, in its discretion, deny an application for temporary household goods authority where the applicant's fitness is controverted by specific allegations, under oath, by an intervenor.

(b) Permanent authority. Each applicant for permanent household goods authority shall have the burden of proving its fitness by clear and convincing evidence.

(c) Findings. The order granting permanent household goods authority shall contain specific findings, with citation to the record, on each aspect of fitness.

(4) Revocation proceedings. If the record in a revocation proceeding shows that a licensee is no longer fit to hold a household goods carrier license, the Commission shall suspend or revoke the license. When a license is suspended under this Section, the holder shall have 6 months in which to demonstrate, by clear and convincing evidence, that its fitness has been restored. Unless the Commission finds that such a demonstration has been made, the license shall be revoked. A license revoked under this Section shall not be reinstated.

625 ILCS 5/18c-4206 — Dual operations

Sec. 18c-4206. Dual operations.

(1) Dual common/contract operations. No person shall hold both a household goods common carrier certificate and a household goods contract carrier permit unless the Commission determines, or has determined, that both licenses may be held consistent with the public interest and authorizes such dual licensing. Issuance of household goods contract carrier authority after the effective date of this amendatory Act of 1995 to a person that already holds household goods common carrier authority, or vice versa, shall be rebuttably presumed inconsistent with the public interest if the two authorities would be duplicative, in whole or in part.

(2) Merger of duplicative operating rights. The Commission may, except as otherwise provided in this subsection, order that duplicative operating rights, whether household goods common carrier or household goods contract carrier or both, be merged into a single license and may impose such requirements upon operations under such license as will promote the public interest and effectuate the purposes of this Chapter. The power of the Commission to order merger shall not extend to duplicative operating rights in existence on the effective date of this Chapter.

625 ILCS 5/18c-4207 — Cessation of service under a license

Sec. 18c-4207. Cessation of service under a license. No household goods carrier shall abandon, discontinue, or suspend any service that it is authorized to provide pursuant to a license issued by the Commission without authorization by the Commission. If the Commission finds good cause for the abandonment, discontinuance, or suspension, it may approve same. If the Commission finds that a household goods carrier has abandoned, discontinued, or suspended service without authorization, it may revoke the carrier's license.

625 ILCS 5/18c-4301 — Power of Commission to Approve Transfers

Sec. 18c-4301. Power of Commission to Approve Transfers. A license issued under this Sub-chapter may be transferred, with Commission approval, under the conditions specified in this Article and in accordance with such rules and regulations as the Commission may prescribe.

625 ILCS 5/18c-4302 — Types of Transfers Which May be Approved

Sec. 18c-4302. Types of Transfers Which May be Approved. It is lawful, with prior authorization from the Commission, for:

- (1) Two or more motor carriers of property to consolidate or merge their properties into one business entity for the ownership, management, or operation of the properties theretofore in separate ownership;
- (2) A motor carrier of property, or two or more such carriers jointly, to purchase, lease or contract to operate the properties of another such carrier;
- (3) A motor carrier of property, or two or more such carriers jointly, to acquire control of another such carrier through ownership of its stock or otherwise;
- (4) A person not a motor carrier of property, to acquire control of one or more such motor carriers through ownership of its or their stock or otherwise;
- (5) A person not a motor carrier of property and which has control of one or more such carriers to acquire control of another carrier through ownership of its stock or otherwise; or
- (6) A person to acquire possession, ownership, or control, by means of the sale or other conveyance of a license issued by the Commission to another person.

625 ILCS 5/18c-4303 — Applications for Approval

Sec. 18c-4303. Applications for Approval. Applications for approval of the transfer of a license shall be on forms prescribed by the Commission and shall, where possible, be accompanied by a copy of the written contract executed by parties to the proposed transfer. The contract must state that it:

- (1) Is expressly conditioned on approval of the transfer by the Commission;
- (2) Is a complete and exclusive statement of the rights of the parties in regard to the proposed transfer; and
- (3) Cannot be amended without notice to and approval by the Commission. The application shall also be accompanied by an abstract of shipments performed by the transferor within the last year prior to the date of the contract showing the date of each shipment, the identification number of the shipment, the origin and destination of the shipment, and a description of the commodity shipped. The application shall not be docketed until a contract and abstract have been filed. Where the contract cannot be signed because of some operation of law, the Commission may waive the signature of the transferor, but not the filing of the written contract.

625 ILCS 5/18c-4304 — Standard for Review of Applications

Sec. 18c-4304. Standard for Review of Applications. The Commission may approve a proposed transfer if it finds that:

- (1) The license to be transferred is in good standing and has not been abandoned, discontinued, or suspended, in whole or in part;
- (2) The proposed transferee is fit, willing, and able to provide service for which the license was issued, and to do so in compliance with provisions of this Chapter, Commission regulations and orders; and
- (3) The transfer would be consistent with the public interest and the state transportation policy. The Commission may approve or disapprove a transfer, in whole or in part, and may subject the transfer to such terms and conditions as will protect the public interest and effectuate the purposes of this Chapter.

625 ILCS 5/18c-4305 — Abandonment, Discontinuance, or Suspension of Service Under a License to be Transferred

Sec. 18c-4305. Abandonment, Discontinuance, or Suspension of Service Under a License to be Transferred. In determining whether the proposed transferor has abandoned, discontinued or suspended service without authorization, the Commission shall only consider the operations of the transferring party performed within the last 2 years prior to the date on which the contract between transferor and transferee was executed, or the date the application was filed.

625 ILCS 5/18c-4306 — Expedited Transfer Procedures

Sec. 18c-4306. Expedited Transfer Procedures.

- (1) The Commission may provide for the transfer of a license, without notice and hearing, and without the necessity of making the findings specified above, when such transfer or control is to:
 - (a) a member or members of the transferor's immediate family;

- (b) a corporation, the stock of which is wholly owned by the transferor or members of his immediate family or a member or members of the transferor partnership;
 - (c) a member or members of a partnership of which the transferor is a partner;
 - (d) a stockholder or stockholders of the transferor corporation or of a corporation wholly owned by the transferor or the transferor's immediate family;
 - (e) the heirs of a person who dies intestate or the legatees of a testator, upon order of the probate court having jurisdiction;
 - (f) the heirs or legatees of the transferor pursuant to the Probate Act of 1975, as amended;
 - (g) a corporation, more than 50% of the stock of which is controlled by the stockholders of the transferor corporation; or
 - (h) a corporation, all of the stock of which is controlled by a member or members of the immediate family of the stockholder or stockholders of the transferor corporation.
- (2) When a transfer of a license may be accomplished on an expedited basis without notice and hearing through 2 or more transactions of the type described in subsection (a), and they do, in fact, represent a single, contemporaneous transaction, then the Commission shall allow the transfer to be made as a single transaction in a single application. However, it shall be the applicants' burden to demonstrate that they are entitled to this treatment of their application by setting forth each of the individual qualifying transactions under subsection
- (1) with the same detail and specificity as if each individual application were filed.

625 ILCS 5/18c-4307 — Unapproved Transfers

Sec. 18c-4307. Unapproved Transfers.

- (1) Unapproved Transfers Prohibited. Except as provided in this Article, no person may enter into a transaction to accomplish or effectuate, or participate in accomplishing or effectuating, the ownership, control or management of any one or more motor carriers, however such result is attained, whether directly or indirectly by use of common directors, officers, or stockholders, a holding or investment company, a voting trust, or in any other manner, and regardless of whether or not the carrier received compensation or value from the transaction. Nor shall any person continue to maintain control or management accomplished or effectuated in violation of this Article. The words "control or management," when used in this Article, shall be construed to include the power to exercise control or management.
- (2) Direct Supervision and Control by License Holder Required. The holder of a motor carrier license shall exercise direct supervision and control over all operations conducted with vehicles registered under its license or utilized in conducting operations under its license. The holder may be called upon to demonstrate that it is exercising direct supervision and control. Failure to exercise active supervision and control shall constitute the unauthorized transfer of operating rights in violation of this Chapter. Where an unauthorized transfer occurs, both the transferor and transferee shall have committed violations of this Chapter. Nothing contained herein shall prevent the holder from exercising such supervision and control through a manager or other bona fide employee of the holder. Elements to be considered in evaluating whether supervision and control is being exercised include solicitation; public identification; billing; collecting; dispatching drivers and equipment; hiring; evaluation and firing of drivers and other personnel; liability for cargo loss or damage; and responsibility for payment of carrier expenses.

625 ILCS 5/18c-4308 — Enforcement of Transfer Requirements

Sec. 18c-4308. Enforcement of Transfer Requirements. The Commission may, on its own motion or on complaint, investigate and determine whether violations of this Article have occurred. When the Commission determines that a carrier or other person is violating the provisions of this Article it shall by order require the carrier or other person to take whatever action is necessary to prevent continuance of the violation, and may, in addition, impose sanctions as provided in this Chapter.

625 ILCS 5/18c-4309 — Temporary Suspension and Transfer

Sec. 18c-4309. Temporary Suspension and Transfer. Periods during which a license is temporarily suspended by order of the Commission shall not be considered as part of the 1-year period for which an abstract of shipments must be provided for application to transfer a license pursuant to Section 18c-4303 of this Chapter, or for the 2-year period used to determine whether a proposed transferor has abandoned, discontinued or suspended service without Commission authorization pursuant to Section 18c-4305 of this Chapter. This Section shall apply to all temporary suspension

applications filed, and all temporary suspensions granted, on or after January 1, 1986.

625 ILCS 5/18c-4401 — Registration required

Sec. 18c-4401. Registration required.

- (1) General provisions. No intrastate public carrier and no interstate carrier shall operate over the public roads of this State without a registration issued pursuant to this Article and in effect at the time operations are conducted. As used in this Article, "interstate carrier" includes any private carrier that is required to register under federal law.
- (2) Interstate intercorporate hauling and single-source leasing. Persons or entities engaged in interstate compensated intercorporate hauling, and interstate private carriers which lease equipment, with drivers, are interstate carriers for purposes of this Article notwithstanding any other provision of this Chapter. However, the Commission may:
 - (a) Exempt such carriers from the requirements of this Article;
 - (b) Subject any such exemption to such reasonable terms and conditions as the Commission deems necessary to effectuate the purposes of this Chapter; and
 - (c) Revoke any exemption granted hereunder if it deems revocation necessary to effectuate the purposes of this Chapter.

625 ILCS 5/18c-4402 — Registration Standards

Sec. 18c-4402. Registration Standards. The Commission shall not issue a registration until after the carrier has:

- (1) Properly filed an application for registration; and
- (2) Complied with Commission regulations and orders regarding:
 - (a) Application, franchise, franchise renewal, and other fees and levies; and
 - (b) Proof of insurance.

625 ILCS 5/18c-4403 — Issuance of registrations

Sec. 18c-4403. Issuance of registrations. The Commission may issue registrations to any qualified applicant authorizing bona fide intrastate public carrier or interstate operations, if it is found that the applicant is fit, willing, and able to provide service in conformity with the requirements of this Chapter, Commission regulations and orders.

625 ILCS 5/18c-4404 — Revocation of Registrations

Sec. 18c-4404. Revocation of Registrations. The Commission may revoke any registration if it determines that the carrier has failed to comply with this Chapter, Commission regulations or orders, or with any other statute or regulation of this State relating to the privilege of operating motor vehicles over the public roads of the State.

625 ILCS 5/18c-4405 — Intrastate public carrier rate filings

Sec. 18c-4405. Intrastate public carrier rate filings. Public carriers that voluntarily file rates under an agreement approved by the Commission under Section 18c-4502 of this Chapter are subject to all provisions of Sub-chapter 3, Article II, and Section 18c-4501 of this Chapter 18c.

625 ILCS 5/18c-4501 — Jurisdiction and power of the Commission

Sec. 18c-4501. Jurisdiction and power of the Commission.

- (1) Power to set rates. The Commission shall have jurisdiction and power to set the maximum or minimum, or maximum and minimum, lawful rates for intrastate service by common carriers of household goods, to set the minimum lawful rates for contract carriers of household goods, and to prescribe the form and content of tariffs and schedules containing such rates.
- (2) Power to Establish Ratemaking Procedures. The Commission may establish procedures for the filing, publication, investigation, suspension and prescription of rates. The Commission may provide that rates for particular services will go into effect unless suspended by the Commission, or may require that rates for such services be approved by the Commission before going into effect.

625 ILCS 5/18c-4502 — Collective ratemaking

Sec. 18c-4502. Collective ratemaking.

(1) Application for approval. Any carrier party to an agreement between or among 2 or more carriers relating to rates, fares, classifications, divisions, allowances, or charges (including charges between carriers and compensation paid or received for the use of facilities and equipment), or rules and regulations pertaining thereto, or procedures for the joint consideration, initiation, or establishment thereof, whether such conference, bureau, committee, or other organization be a "for-profit" or "not-for-profit" corporate entity or whether or not such conference, bureau, committee or other organization is or will be controlled by other businesses may, under such rules and regulations as the Commission may prescribe, apply to the Commission for approval of the agreement, and the Commission shall by order approve any such agreement, if approval thereof is not prohibited by subsection (3), (4), or

(5) of this Section, if it finds that, by reason of furtherance of the State transportation policy declared in Section 18c-1103 of this Chapter, the relief provided in subsection

(8) should apply with respect to the making and carrying out of such agreement; otherwise the application shall be denied. The approval of the Commission shall be granted only upon such terms and conditions as the Commission may prescribe as necessary to enable it to grant its approval in accordance with the standard above set forth in this paragraph.

(2) Accounts, reporting, and internal procedures. Each conference, bureau, committee, or other organization established or continued pursuant to any agreement approved by the Commission under the provisions of this Section shall maintain such accounts, records, files and memoranda and shall submit to the Commission such reports, as may be prescribed by the Commission, and all such accounts, records, files, and memoranda shall be subject to inspection by the Commission or its duly authorized representatives. Any conference, bureau committee, or other organization described in subsection

(1) of this Section shall cause to be published notice of the final disposition of any action taken by such entity together with a concise statement of the reasons therefor. The Commission shall withhold approval of any agreement under this Section unless the agreement specifies a reasonable period of time within which proposals by parties to the agreement will be finally acted upon by the conference, bureau, committee, or other organization.

(3) Matters which may be the subject of agreements approved by the Commission. The Commission shall not approve under this Section any agreement between or among carriers of different classes unless it finds that such agreement is of the character described in subsection

(1) of this Section and is limited to matters relating to transportation under joint rates or over through routes. For purposes of this paragraph carriers by railroad and express companies are carriers of one class; carriers by motor vehicle are carriers of one class and carriers by water are carriers of one class.

(4) Non-applicability of Section to transfers. The Commission shall not approve under this Section any agreement which it finds is an agreement with respect to a pooling, division, or other matter or transaction, to which Section 18c-4302 of this Chapter is applicable.

(5) Independent action. The Commission shall not approve under this Section any agreement which establishes a procedure for the determination of any matter through joint consideration unless it finds that under the agreement there is accorded to each party the free and unrestrained right to take independent action either before or after any determination arrived at through such procedures. The Commission shall not find that each party has a free and unrestrained right to take independent action if the conference, bureau, committee, or other organization is granted by the agreement any right to engage in proceedings before the Commission or before any court regarding any action taken by a party to an agreement authorized by this Section, or by any other party providing or seeking authority to provide transportation services.

(6) Investigation of activities. The Commission is authorized, upon complaint or upon its own initiative without complaint, to investigate and determine whether any agreement previously approved by it under this Section or terms and conditions upon which such approval was granted, is not or are not in conformity with the standard, set forth in subsection (1), or whether any such terms and conditions are not necessary for purposes of conformity with such standard, and, after such investigation, the Commission shall by order terminate or modify its approval of such agreement if it finds such action necessary to insure conformity with such standard, and shall modify the terms and conditions upon which such approval was granted to the extent it finds necessary to insure conformity with such standard or to the extent to which it finds such terms and conditions not necessary to insure such conformity. The effective date of any order terminating or modifying approval, or modifying terms and conditions, shall be postponed for such period as the Commission determines to be reasonably necessary to avoid undue hardship.

(7) Hearings and orders. No order shall be entered under this Section except after interested parties have been afforded reasonable opportunity for hearing.

(8) Exemption from State antitrust laws. Parties to any agreement approved by the Commission under this Section and other persons are, if the approval of such agreement is not prohibited by subsection (3), (4), or (5), hereby relieved from the operation of the antitrust laws with respect to the making of such agreement, and with respect to the carrying out of such agreement in conformity with its provisions and in conformity with the terms and conditions prescribed by the Commission.

(9) Other laws not affected. Any action of the Commission under this Section in approving an agreement, or in denying an application for such approval, or in terminating or modifying its approval of an agreement, or in prescribing the terms and conditions upon which its approval is to be granted, or in modifying such terms and conditions, shall be construed as having effect solely with reference to the applicability of the relief provisions of paragraph subsection

(8) of this Section.

625 ILCS 5/18c-4503 — Terminal Area Operations

Sec. 18c-4503. Terminal Area Operations.

(1) Exemption From Rate Regulation. Except as provided in subsection

(2) of this Section, nothing contained in this Chapter shall be construed to require any carrier engaged in the transportation of property by motor vehicle between points wholly within a terminal area to comply with the provisions of this Chapter with respect to the filing, publishing, observance or enforcement of tariffs or schedules of rates with respect to transportation wholly within any such area.

(2) Application of Section. Notwithstanding any contrary provisions therein, the ratemaking provisions of subsection

(1) of this Section shall have no application to transportation of household goods, as defined in Commission regulations, wholly within a county having a population of more than 1,000,000.

625 ILCS 5/18c-4601 — Cab Card and Identifier to be Carried and Displayed in Each Vehicle

Sec. 18c-4601. Cab Card and Identifier to be Carried and Displayed in Each Vehicle.

(1) General Provisions.

(a) Carrying Requirement. Each motor vehicle used in for-hire transportation upon the public roads of this State shall carry a current cab card together with an identifier issued by or under authority of the Commission. If the carrier is an intrastate motor carrier of property, the prescribed intrastate cab card and identifier shall be required; if the carrier is an interstate motor carrier of property, the prescribed interstate cab card and identifier shall be required.

(b) Execution and Presentation Requirement. Such cab card shall be properly executed by the carrier. The cab card, with an identifier affixed or printed thereon, shall be carried in the vehicle for which it was executed. The cab card and identifier shall be presented upon request to any authorized employee of the Commission or the Illinois State Police or Secretary of State.

(c) Deadlines for Execution, Carrying, and Presentation. Cab cards and identifiers shall be executed, carried, and presented no earlier than December 1 of the calendar year preceding the calendar year for which fees are owing, and no later than February 1 of the calendar year for which fees are owing, unless otherwise provided in Commission regulations and orders.

(2) Interstate Compensated Intercompany Hauling and Single-Source Leasing. The provisions of subsection

(1) of this Section apply to motor vehicles used in interstate compensated intercompany hauling or which are leased, with drivers, to private carriers for use in interstate commerce, as well as to other motor vehicles used in for-hire transportation upon the public roads of this State. However, the Commission may:

(a) Exempt such carriers from the requirements of this Article;

(b) Subject any exemption to such reasonable terms and conditions as the Commission deems necessary to effectuate the purposes of this Chapter; and

(c) Revoke any exemption granted hereunder if it deems revocation necessary to effectuate the purposes of this Chapter.

625 ILCS 5/18c-4602 — Commission to Prescribe Cab Cards and Identifiers

Sec. 18c-4602. Commission to Prescribe Cab Cards and Identifiers. The Commission shall prescribe the cab cards and identifiers required under Section 18c-4601 of this Chapter.

625 ILCS 5/18c-4603 — Issuance of Cab Cards and Identifiers

Sec. 18c-4603. Issuance of Cab Cards and Identifiers.

(1) Applications for Cards and Identifiers. Applications for cab cards and identifiers shall be on forms prescribed by the Commission and shall be accompanied by the per vehicle franchise or franchise renewal fee prescribed by the Commission.

(2) Expiration and Renewal of Cab Cards and Identifiers. Identifiers issued by or under authority of the Commission shall expire automatically on January 31 of each year, or on such other date as the Commission may prescribe. It shall be the responsibility of each carrier to insure that the cab cards and identifiers in its vehicles are current.

(3) Issuance of Cards and Identifiers. Applications and fees for cab cards and identifiers may be filed with, and cards or identifiers may be issued by, the Commission or its agent. The Commission shall issue intrastate cab cards and identifiers and interstate identifiers as proof of payment of franchise and franchise renewal fees by licensed intrastate and registered interstate carriers. Upon payment of the intrastate fee by a licensed intrastate motor carrier of property, the Commission shall issue a current Illinois cab card with identifier printed thereon. Upon payment of the interstate fee, the Commission shall issue a current Illinois interstate identifier.

625 ILCS 5/18c-4604 — Enforcement

- (2) Transfer a cab card and identifier to a vehicle other than the vehicle for which it was originally executed, except in accordance with Commission regulations;
- (3) Use a cab card and identifier issued to another carrier or permit the use of a cab card by another carrier except in accordance with Commission regulations; or

625 ILCS 5/18c-4701 — Insignia on vehicles

Sec. 18c-4701. Insignia on vehicles.

(1) General requirements to be prescribed by Commission. Except as otherwise provided in this Section, no intrastate carrier shall operate any motor vehicle upon the public roads of this State unless there is painted or affixed to both sides of the cab or power unit, in accordance with such specifications as the Commission may prescribe, the trade name of the carrier as it appears on the carrier's license or the carrier's recognized logo, together with the license and registration number of the carrier. Likewise, no interstate carrier shall operate any motor vehicle upon the public roads of this State unless there is painted or affixed to both sides of the cab or power unit, in accordance with such specifications as the Commission may prescribe, the registration or authority number of the carrier. However, except for a household goods carrier, an interstate carrier operating intrastate may operate a motor vehicle upon the public roads of this State without the intrastate authority number of the carrier painted or affixed to any side of the cab or power unit.

(2) Use of ICC-prescribed identification. Identifying information prescribed by the Interstate Commerce Commission may be used in satisfaction of requirements established under this Section, including special orders granting a petition for waiver of Sections 1057.22(a) and 1057.22(c)(2) and (4), as they relate to equipment receipts, of the Lease and Interchange of Vehicle Regulations (49 CFR 1057), in lieu of numbers or symbols prescribed by the Commission.

(3) Identification of Trip Lessees. Notwithstanding any other provision of this Section to the contrary, a motor vehicle trip leased in accordance with this Chapter, Commission regulations and orders shall not be required to bear the name and license number of the lessee if:

- (b) the lessor and lessee are commonly-owned; and

(c) the vehicle carries a photocopy of a letter signed by the lessor, on file with the Commission, stating that the lessor and lessee are commonly-owned.

(4) Rules not superseded. The authority of the Illinois Commerce Commission to regulate the identification of motor vehicles of intrastate and interstate carriers, engaged in the transportation of hazardous materials, shall not supersede or replace the rules and regulations of the Illinois Department of Transportation and Federal Motor Carrier Safety regulations Part 390.21, as relates now or hereafter to the markings and identification of such vehicles.

(5) Identification on vehicles under 9,000 pounds gross vehicle weight (GVW). Vehicles with a gross vehicle weight (GVW) less than 9,000 pounds may, in lieu of identification required under subsection

Such declarations or agreements have no other effect than to limit liability to an amount not exceeding the value declared or released, and are not in violation of this Chapter. A tariff containing such rates shall contain specific reference to the Commission order authorizing them.

(1) General Requirements. Except as provided in subsection

(2) of this Section, every motor common carrier of property shall be required to issue a bill of lading and freight bill indicating the commodities transported, weight thereof (where freight charges are assessed by weight), the points of origin and destination of such commodities, the consignor and consignee, and the charge therefor. If the commodities are not delivered by the originating carrier, the bill of lading or freight bill shall indicate the point of interchange and the connecting carrier. This Section shall not apply to motor contract carriers of property.

(2) Exceptions.

(a) Simplified Documentation. The Commission may prescribe simplified documentation to be issued by classes of carriers where such requirements would be less burdensome and would effectuate the purposes of this Chapter. Simplified documentation shall be prescribed for the following classes of carriers:

(c) Commodity descriptions for shipments weighing 10 pounds or less. Where a shipment weighs ten pounds or less, except when it contains dangerous articles or hazardous materials, the following may be used in lieu of a commodity description: "Parcel 10 Pounds or Under".

Each certificate or other proof of insurance or surety coverage shall have, as an implied term, that the insurance or surety coverage will remain in effect continuously until notice of cancellation is filed in accordance with Commission regulations, and that all motor vehicles operated by or under authority of the carrier will be covered, whether or not such vehicles have been reported to the insurance, surety, or other company. Filing proof of insurance with the Commission shall constitute acceptance of this implied term, and such acceptance may not thereafter be withdrawn except on withdrawal of all proof of insurance or surety coverage.

referenced sections. Each carrier so exempted shall file periodic reports, at such intervals as the Commission shall specify, showing its continuing ability to act as a self-insurer. The Commission may rescind an exemption on 10 days' notice if rescission appears necessary to protect the public. Upon the granting or rescission of a self-insured status of a carrier by the Commission, the Commission shall immediately notify, in writing, the Illinois Department of Transportation of the name, address, and other pertinent information required by the Department of Transportation concerning the status of the carrier.

- (1) Operate as a motor carrier of passengers unless the person possesses a valid license authorizing such operations.
- (2) Provide service at rates other than those contained in lawfully applicable tariffs for such service;
- (3) Otherwise operate as a motor carrier of passengers in violation of any provision of this Chapter, Commission regulations and orders, or any other law of this state; or
- (4) Aid or abet any other person in a violation of this Chapter, Commission regulations or orders, by soliciting or receiving, or by compensating service from a person not authorized to provide such service, or at other than lawful rates for such service, or otherwise.

625 ILCS 5/18c-6201 — Requirements for issuance of licenses

Sec. 18c-6201. Requirements for issuance of licenses.

- (1) General requirements. Except as provided in subsection
- (2) of this Section, the Commission shall grant an application for a motor carrier of passengers license, in whole or in part, to the extent that it finds that the application was properly filed, a need for the proposed service exists, the applicant if fit, willing, and able to provide the service in compliance with this Chapter, Commission regulations and orders, absent a showing that issuance of the license would be inconsistent with the public interest. Otherwise, the application shall be denied. In determining whether issuance of a motor carrier of passengers license would be inconsistent with the public interest, the Commission shall consider:
 - (a) the value of competition which would result from issuance to the travelling public;
 - (b) the effect of issuance on motor carrier of passengers service to small communities;
 - (c) the effect of issuance on the ability of any other carrier to provide a substantial portion of the passenger service such carrier provides over its entire system, except that diversion of revenue or traffic from a carrier in and of itself shall not be sufficient to support a finding that issuance of the license would impair the ability of the other carrier to provide a substantial portion of the passenger service such carrier provides over its entire system; and
 - (d) any other factor relevant to the public interest.
- (2) Motor carriers of passengers providing service to or from airports. The Commission shall grant an application for a motor carrier of passengers license authorizing service along any route where an airport is a point to be served on the route, in whole or in part, to the extent that it finds that the application was properly filed, a need for the proposed service exists, the applicant is fit, willing, and able to provide the service in compliance with this Chapter, Commission regulations and orders, and the public convenience and necessity requires issuance of the license. Otherwise, the application shall be denied. The provisions of this subsection shall be construed to impose the same entry requirements as were previously applicable under Section 55 of "An Act concerning public utilities", approved June 29, 1921, as amended.

625 ILCS 5/18c-6202 — Other Provisions Relating to Licensing and Registration

Sec. 18c-6202. Other Provisions Relating to Licensing and Registration. Provisions in Articles II, III, and IV of Sub-chapter 4 of this Chapter, governing the suspension, revocation, and transfer of motor carrier of property licenses, the registration of interstate motor carriers of property shall likewise govern motor carriers of passengers as if all references therein were to motor carriers of passengers.

625 ILCS 5/18c-6301 — General Provisions

Sec. 18c-6301. General Provisions. No motor common carrier of passengers shall add to, change, reduce, or discontinue service to any point along a route over which the carrier is authorized to provide intrastate service, except in accordance with the provisions of this Article.

625 ILCS 5/18c-6302 — Definitions

Sec. 18c-6302. Definitions. The following terms, when used in this Article, shall have the hereinafter designated meanings.

- (1) "Addition" to service means the institution of new scheduled service.
- (2) "Change" in service means a change in the time or times of scheduled service which does not constitute a reduction or discontinuance of service.
- (3) "Reduction" of service means any reduction in the level of scheduled service which does not constitute discontinuance of the carrier's service.
- (4) "Discontinuance" of service means total discontinuance of service to any point along a route over which the carrier is authorized to provide service or reduction in the level of service to any such point to less than one round trip per weekday (Monday through Friday).

625 ILCS 5/18c-6303 — Schedule Changes and Reductions in Service

Sec. 18c-6303. Schedule Changes and Reductions in Service. Any motor common carrier of passengers may add to, change, or reduce the level of its service to any point along a route over which the carrier is authorized to provide service, provided that the addition, change or reduction does not constitute discontinuance of service to any point along a route over which the carrier is authorized to serve, after the carrier has served notice in accordance with Commission regulations adopted pursuant to this Article, and without prior authorization.

625 ILCS 5/18c-6304 — Discontinuances

Sec. 18c-6304. Discontinuances. No motor common carrier of passengers shall discontinue service to any point along a route over which the carrier is authorized to provide service except in accordance with provisions of Section 18c-6305 of this Chapter.

625 ILCS 5/18c-6305 — Prior Notice and Petition for Authorization

Sec. 18c-6305. Prior Notice and Petition for Authorization.

- (1) Annual and Amended Lists of Points Under Consideration for Discontinuance. By March of each calendar year, each motor carrier of passengers shall submit to the Commission a list of routes and points which it is authorized to serve which the carrier has under consideration for discontinuance within the following 12 months. A carrier may amend its list on the 1st day of each subsequent month.
- (2) Notice of Intent to Discontinue. Not less than 30 days after a point appears on a list of points under consideration for discontinuance, the carrier may serve on the Commission the carrier's Notice of Intent to discontinue service. Such notice shall be for the purpose of alerting the Commission and allowing a period of time during which alternatives to discontinuance, or alternative service, may be explored.
- (3) Petitions to Discontinue. Not less than 60 nor more than 90 days after the filing of a Notice of Intent to discontinue, the carrier may formally propose discontinuance by filing in accordance with such requirements as to form and content as the Commission may prescribe. The Commission may investigate the proposal, and may suspend the discontinuance pending the outcome of the investigation for a period not to exceed 90 days from the date the proposal is filed. The Commission shall determine, after considering the public need for service, revenues (both those which have been received and those which might be received, by subsidy or otherwise) and variable costs associated with the service, and the availability of reasonable alternative transportation service whether the public convenience and necessity requires continuation of the service proposed to be discontinued. If the Commission determines that the public convenience and necessity requires continuation, it shall so order; otherwise, the proceeding shall be dismissed.
- (4) Waiver or Notice. Prior notice requirements under this Section may be waived for good cause or where the carrier has made substantial compliance with such prior notice requirements or compliance is not necessary to effectuate the purposes of this Chapter.

625 ILCS 5/18c-6401 — Ratemaking

Sec. 18c-6401. Ratemaking. The Commission may exercise, with respect to rate regulation of motor carriers of passengers, any and all power which it may exercise with respect to rate regulation of motor carriers of property. Motor carriers of passengers shall be in all respects subject to provisions of this Chapter governing ratemaking for motor carriers of property, except as provided in 49 U.S. Code 11501(e).

625 ILCS 5/18c-6501 — Hours of Service for Drivers

Sec. 18c-6501. Hours of Service for Drivers. No motor carrier of passengers shall operate any vehicle with a manufacturer's rated seating capacity of more than 8 persons, including the driver, except in compliance with federal hours of service regulations codified at 49 Code of Federal Regulations Part 395, Hours of Service of Drivers, as amended.

625 ILCS 5/18c-6502 — Report and investigation of crashes

Sec. 18c-6502. Report and investigation of crashes.

(1) Reports. Every motor carrier of passengers shall report to the Commission, by the speediest means possible, whether telephone, telegraph, or otherwise, every crash involving its equipment which resulted in loss of life to any person. In addition to reports required to be filed with the Department of Transportation, under Article IV of Chapter 11 and Chapter 7 of this Code, such carrier shall file a written report with the Commission, in accordance with regulations adopted hereunder, of any crash which results in injury or loss of life to any employee, or damage to the person or property of any member of the public. The Commission and the Department of Transportation may adopt, by reference, such state or federal reporting requirements as will effectuate the purposes of this Section and promote uniformity in bus crash reporting.

(2) Investigations. The Commission and the Department of Transportation may investigate any bus crash reported to it or of which it acquires knowledge independent of reports made by motor carriers of passengers, and shall have the power to enter such orders and adopt such regulations as will minimize the risk of future crashes.

625 ILCS 5/18c-6503 — Insurance

Sec. 18c-6503. Insurance. The provisions of Article IX of Subchapter 4 of this Chapter regarding insurance for motor carriers of property shall apply to motor carriers of passengers subject to the jurisdiction of the Commission under this Subchapter as if all references in Article IX were to motor carriers of passengers.

625 ILCS 5/18c-7101 — Jurisdiction Over Rail Carriers

Sec. 18c-7101. Jurisdiction Over Rail Carriers. The jurisdiction of the Commission under this Sub-chapter shall be exclusive and shall extend to all intrastate and interstate rail carrier operations within this State, except to the extent that its jurisdiction is preempted by valid provisions of the Staggers Rail Act of 1980 or other valid federal statute, regulation, or order.

625 ILCS 5/18c-7201 — Registration as a Rail Carrier

Sec. 18c-7201. Registration as a Rail Carrier.

(1) General Provisions. Except as provided in subsection

(2) of this Section, no person shall operate as a rail carrier, and no person shall begin or continue construction of any track or other facilities, other than the repair or replacement of existing plant, for use in operations as a rail carrier unless such person has registered with the Commission as a rail carrier.

(2) Exceptions. Each rail carrier operating within the State of Illinois on the effective date of this Chapter shall automatically be deemed, as of that date, to have registered as a rail carrier for purposes of this Section. Such constructive registration shall expire on the 180th day after the effective date of this amendatory Act of 1985.

625 ILCS 5/18c-7202 — Duties and Obligations of Rail Carriers

Sec. 18c-7202. Duties and Obligations of Rail Carriers. Each rail carrier shall provide adequate service to the public at reasonable rates and without discrimination.

625 ILCS 5/18c-7203

Sec. 18c-7203. (Repealed).

625 ILCS 5/18c-7301

Sec. 18c-7301. (Repealed).

625 ILCS 5/18c-7302

Sec. 18c-7302. (Repealed).

625 ILCS 5/18c-7401 — Safety requirements for track, facilities, and equipment

Sec. 18c-7401. Safety requirements for track, facilities, and equipment.

(1) General Requirements. Each rail carrier shall, consistent with rules, orders, and regulations of the Federal Railroad Administration, construct, maintain, and operate all of its equipment, track, and other property in this State in such a manner as to pose no undue risk to its employees or the person or property of any member of the public.

(2) Adoption of Federal Standards. The track safety standards and accident/incident standards promulgated by the Federal Railroad Administration shall be safety standards of the Commission. The Commission may, in addition, adopt by reference in its regulations other federal railroad safety standards, whether contained in federal statutes or in regulations adopted pursuant to such statutes.

(3) Railroad Crossings. No public road, highway, or street shall hereafter be constructed across the track of any rail carrier at grade, nor shall the track of any rail carrier be constructed across a public road, highway or street at grade, without having first secured the permission of the Commission; provided, that this Section shall not apply to the replacement of lawfully existing roads, highways, and tracks. No public pedestrian bridge or subway shall be constructed across the track of any rail carrier without having first secured the permission of the Commission. The Commission shall have the right to refuse its permission or to grant it upon such terms and conditions as it may prescribe. The Commission shall have power to determine and prescribe the manner, including the particular point of crossing, and the terms of installation, operation, maintenance, use, and protection of each such crossing. The Commission shall also have power, after a hearing, to require major alteration of or to abolish any crossing, heretofore or hereafter established, when in its opinion, the public safety requires such alteration or abolition, and, except in cities, villages, and incorporated towns of 1,000,000 or more inhabitants, to vacate and close that part of the highway on such crossing altered or abolished and cause barricades to be erected across such highway in such manner as to prevent the use of such crossing as a highway, when, in the opinion of the Commission, the public convenience served by the crossing in question is not such as to justify the further retention thereof; or to require a separation of grades, at railroad-highway grade crossings; or to require a separation of grades at any proposed crossing where a proposed public highway may cross the tracks of any rail carrier or carriers; and to prescribe, after a hearing of the parties, the terms upon which such separations shall be made and the proportion in which the expense of the alteration or abolition of such crossings or the separation of such grades, having regard to the benefits, if any, accruing to the rail carrier or any party in interest, shall be divided between the rail carrier or carriers affected, or between such carrier or carriers and the State, county, municipality or other public authority in interest. However, a public hearing by the Commission to abolish a crossing shall not be required when the public highway authority in interest vacates the highway. In such instance the rail carrier, following notification to the Commission and the highway authority, shall remove any grade crossing warning devices and the grade crossing surface. The Commission shall also have power by its order to require the reconstruction, minor alteration, minor relocation, or improvement of any crossing (including the necessary highway approaches thereto) of any railroad across any highway or public road, pedestrian bridge, or pedestrian subway, whether such crossing be at grade or by overhead structure or by subway, whenever the Commission finds after a hearing or without a hearing as otherwise provided in this paragraph that such reconstruction, alteration, relocation, or improvement is necessary to preserve or promote the safety or convenience of the public or of the employees or passengers of such rail carrier or carriers. By its original order or supplemental orders in such case, the Commission may direct such reconstruction, alteration, relocation, or improvement to be made in such manner and upon such terms and conditions as may be reasonable and necessary and may apportion the cost of such reconstruction, alteration, relocation, or improvement and the subsequent maintenance thereof, having regard to the benefits, if any, accruing to the railroad or any party in interest, between the rail carrier or carriers and public utilities affected, or between such carrier or carriers and public utilities and the State, county, municipality or other public authority in interest. The cost to be so apportioned shall include the cost of changes or alterations in the equipment of public utilities affected as well as the cost of the relocation, diversion or establishment of any public highway, made necessary by such reconstruction,

alteration, relocation, or improvement of said crossing. A hearing shall not be required in those instances when the Commission enters an order confirming a written stipulation in which the Commission, the public highway authority or other public authority in interest, the rail carrier or carriers affected, and in instances involving the use of the Grade Crossing Protection Fund, the Illinois Department of Transportation, agree on the reconstruction, alteration, relocation, or improvement and the subsequent maintenance thereof and the division of costs of such changes of any grade crossing (including the necessary highway approaches thereto) of any railroad across any highway, pedestrian bridge, or pedestrian subway. The Commission shall also have power to enter into stipulated agreements with a rail carrier or rail carriers or public authorities to fund, provide, install, and maintain safety treatments to deter trespassing on railroad property in accordance with paragraph

(1) of Section 18c-7503 at locations approved by such rail carrier or rail carriers following a diagnostic evaluation between the Commission and the rail carrier or rail carriers, including any public authority in interest or the Federal Railroad Administration, and to order the allocation of the cost of those treatments and their installation and maintenance from the Grade Crossing Protection Fund. Safety treatments approved under this paragraph by the Commission shall be deemed adequate and appropriate. Every rail carrier operating in the State of Illinois shall construct and maintain every highway crossing over its tracks within the State so that the roadway at the intersection shall be as flush with the rails as superelevated curves will allow, and, unless otherwise ordered by the Commission, shall construct and maintain the approaches thereto at a grade of not more than 5% within the right of way for a distance of not less than 6 feet on each side of the centerline of such tracks; provided, that the grades at the approaches may be maintained in excess of 5% only when authorized by the Commission. Every rail carrier operating within this State shall remove from its right of way at all railroad-highway grade crossings within the State, such brush, shrubbery, and trees as is reasonably practical for a distance of not less than 500 feet in either direction from each grade crossing. The Commission shall have power, upon its own motion, or upon complaint, and after having made proper investigation, to require the installation of adequate and appropriate luminous reflective warning signs, luminous flashing signals, crossing gates illuminated at night, or other protective devices in order to promote and safeguard the health and safety of the public. Luminous flashing signal or crossing gate devices installed at grade crossings, which have been approved by the Commission, shall be deemed adequate and appropriate. The Commission shall have authority to determine the number, type, and location of such signs, signals, gates, or other protective devices which, however, shall conform as near as may be with generally recognized national standards, and the Commission shall have authority to prescribe the division of the cost of the installation and subsequent maintenance of such signs, signals, gates, or other protective devices between the rail carrier or carriers, the public highway authority or other public authority in interest, and in instances involving the use of the Grade Crossing Protection Fund, the Illinois Department of Transportation. Except where train crews provide flagging of the crossing to road users, yield signs shall be installed at all highway intersections with every grade crossing in this State that is not equipped with automatic warning devices, such as luminous flashing signals or crossing gate devices. A stop sign may be used in lieu of the yield sign when an engineering study conducted in cooperation with the highway authority and the Illinois Department of Transportation has determined that a stop sign is warranted. If the Commission has ordered the installation of luminous flashing signal or crossing gate devices at a grade crossing not equipped with active warning devices, the Commission shall order the installation of temporary stop signs at the highway intersection with the grade crossing unless an engineering study has determined that a stop sign is not appropriate. If a stop sign is not appropriate, the Commission may order the installation of other appropriate supplemental signing as determined by an engineering study. The temporary signs shall remain in place until the luminous flashing signal or crossing gate devices have been installed. The rail carrier is responsible for the installation and subsequent maintenance of any required signs. The permanent signs shall be in place by July 1, 2011. No railroad may change or modify the warning device system at a railroad-highway grade crossing, including warning systems interconnected with highway traffic control signals, without having first received the approval of the Commission. The Commission shall have the further power, upon application, upon its own motion, or upon complaint and after having made proper investigation, to require the interconnection of grade crossing warning devices with traffic control signals at highway intersections located at or near railroad crossings within the distances described by the State Manual on Uniform Traffic Control Devices adopted pursuant to Section 11-301 of this Code. In addition, State and local authorities may not install, remove, modernize, or otherwise modify traffic control signals at a highway intersection that is interconnected or proposed to be interconnected with grade crossing warning devices when the change affects the number, type, or location of traffic control devices on the track approach leg or legs of the intersection or the timing of the railroad preemption sequence of operation until the Commission has approved the installation, removal, modernization, or modification. Commission approval shall be limited to consideration

of issues directly affecting the public safety at the railroad-highway grade crossing. The electrical circuit devices, alternate warning devices, and preemption sequences shall conform as nearly as possible, considering the particular characteristics of the crossing and intersection area, to the State manual adopted by the Illinois Department of Transportation pursuant to Section 11-301 of this Code and such federal standards as are made applicable by subsection

(2) of this Section. In order to carry out this authority, the Commission shall have the authority to determine the number, type, and location of traffic control devices on the track approach leg or legs of the intersection and the timing of the railroad preemption sequence of operation. The Commission shall prescribe the division of costs for installation and maintenance of all devices required by this paragraph between the railroad or railroads and the highway authority in interest and in instances involving the use of the Grade Crossing Protection Fund or a State highway, the Illinois Department of Transportation. Any person who unlawfully or maliciously removes, throws down, damages or defaces any sign, signal, gate, or other protective device, located at or near any public grade crossing, shall be guilty of a petty offense and fined not less than \$50 nor more than \$200 for each offense. In addition to fines levied under the provisions of this Section a person adjudged guilty hereunder may also be directed to make restitution for the costs of repair or replacement, or both, necessitated by his misconduct. It is the public policy of the State of Illinois to enhance public safety by establishing safe grade crossings. In order to implement this policy, the Illinois Commerce Commission is directed to conduct public hearings and to adopt specific criteria by July 1, 1994, that shall be adhered to by the Illinois Commerce Commission in determining if a grade crossing should be opened or abolished. The following factors shall be considered by the Illinois Commerce Commission in developing the specific criteria for opening and abolishing grade crossings:

- (a) timetable speed of passenger trains;
- (b) distance to an alternate crossing;
- (c) accident history for the last 5 years;
- (d) number of vehicular traffic and posted speed limits;
- (e) number of freight trains and their timetable speeds;
- (f) the type of warning device present at the grade crossing;
- (g) alignments of the roadway and railroad, and the angle of intersection of those alignments;
- (h) use of the grade crossing by trucks carrying hazardous materials, vehicles carrying passengers for hire, and school buses; and
- (i) use of the grade crossing by emergency vehicles. The Illinois Commerce Commission, upon petition to open or abolish a grade crossing, shall enter an order opening or abolishing the crossing if it meets the specific criteria adopted by the Commission. Except as otherwise provided in this subsection (3), in no instance shall a grade crossing be permanently closed without public hearing first being held and notice of such hearing being published in an area newspaper of local general circulation.

(4) Freight Trains; Radio Communications. The Commission shall after hearing and order require that every main line railroad freight train operating on main tracks outside of yard limits within this State shall be equipped with a radio communication system. The Commission after notice and hearing may grant exemptions from the requirements of this Section as to secondary and branch lines.

(5) Railroad Bridges and Trestles; Walkway and Handrail. In cases in which the Commission finds the same to be practical and necessary for safety of railroad employees, bridges and trestles, over and upon which railroad trains are operated, shall include as a part thereof, a safe and suitable walkway and handrail on one side only of such bridge or trestle, and such handrail shall be located at the outer edge of the walkway and shall provide a clearance of not less than 8 feet, 6 inches, from the center line of the nearest track, measured at right angles thereto.

(6) Packages Containing Articles for First Aid to Injured on Trains.

(a) All rail carriers shall provide a first aid kit that contains, at a minimum, those articles prescribed by the Commission, on each train or engine, for first aid to persons who may be injured in the course of the operation of such trains.

(b) A vehicle, excluding a taxi cab used in an emergency situation, operated by a contract carrier transporting railroad employees in the course of their employment shall be equipped with a readily available first aid kit that contains, as a minimum, the same articles that are required on each train or engine.

(7) Abandoned Bridges, Crossings, and Other Rail Plant. The Commission shall have authority, after notice and hearing, to order:

- (a) the removal of any abandoned railroad tracks from roads, streets or other thoroughfares in this State; and
- (b) the removal of abandoned overhead railroad structures crossing highways, waterways, or railroads. The Commission may equitably apportion the cost of such actions between the rail carrier or carriers, public utilities, and the State, county, municipality, township, road district, or other public authority in interest.
- (8) Railroad-Highway Bridge Clearance. A vertical clearance of not less than 23 feet above the top of rail shall be provided for all new or reconstructed highway bridges constructed over a railroad track. The Commission may permit a lesser clearance if it determines that the 23-foot clearance standard cannot be justified based on engineering, operational, and economic conditions.
- (9) Right of Access To Railroad Property.
- (a) A community antenna television company franchised by a municipality or county pursuant to the Illinois Municipal Code or the Counties Code, respectively, shall not enter upon any real estate or rights-of-way in the possession or control of a railroad subject to the jurisdiction of the Illinois Commerce Commission unless the community antenna television company first complies with the applicable provisions of subparagraph
- (f) of Section 11-42-11.1 of the Illinois Municipal Code or subparagraph
- (f) of Section 5-1096 of the Counties Code.
- (b) Notwithstanding any provision of law to the contrary, this subsection
- (9) applies to all entries of railroad rights-of-way involving a railroad subject to the jurisdiction of the Illinois Commerce Commission by a community antenna television company and shall govern in the event of any conflict with any other provision of law.
- (c) This subsection
- (9) applies to any entry upon any real estate or right-of-way in the possession or control of a railroad subject to the jurisdiction of the Illinois Commerce Commission for the purpose of or in connection with the construction, or installation of a community antenna television company's system or facilities commenced or renewed on or after August 22, 2017 (the effective date of Public Act 100-251).
- (d) Nothing in Public Act 100-251 shall be construed to prevent a railroad from negotiating other terms and conditions or the resolution of any dispute in relation to an entry upon or right of access as set forth in this subsection (9).
- (e) For purposes of this subsection (9): "Broadband service", "cable operator", and "holder" have the meanings given to those terms under Section 21-201 of the Public Utilities Act. "Community antenna television company" includes, in the case of real estate or rights-of-way in possession of or in control of a railroad, a holder, cable operator, or broadband service provider.
- (f) Beginning on August 22, 2017 (the effective date of Public Act 100-251), the Transportation Division of the Illinois Commerce Commission shall include in its annual Crossing Safety Improvement Program report a brief description of the number of cases decided by the Illinois Commerce Commission and the number of cases that remain pending before the Illinois Commerce Commission under this subsection
- (9) for the period covered by the report. (Text of Section after amendment by P.A. 104-457) Sec. 18c-7401. Safety requirements for track, facilities, and equipment.
- (1) General Requirements. Each rail carrier shall, consistent with rules, orders, and regulations of the Federal Railroad Administration, construct, maintain, and operate all of its equipment, track, and other property in this State in such a manner as to pose no undue risk to its employees or the person or property of any member of the public.
- (2) Adoption of Federal Standards. The track safety standards and accident/incident standards promulgated by the Federal Railroad Administration shall be safety standards of the Commission. The Commission may, in addition, adopt by reference in its regulations other federal railroad safety standards, whether contained in federal statutes or in regulations adopted pursuant to such statutes.
- (3) Railroad Crossings. No public road, highway, or street shall hereafter be constructed across the track of any rail carrier at grade, nor shall the track of any rail carrier be constructed across a public road, highway or street at grade, without having first secured the permission of the Commission; provided, that this Section shall not apply to the replacement of lawfully existing roads, highways, and tracks. No public pedestrian bridge or subway shall be constructed across the track of any rail carrier without having first secured the permission of the Commission. The Commission shall have the right to

refuse its permission or to grant it upon such terms and conditions as it may prescribe. The Commission shall have power to determine and prescribe the manner, including the particular point of crossing, and the terms of installation, operation, maintenance, use, and protection of each such crossing. The Commission shall also have power, after a hearing, to require major alteration of or to abolish any crossing, heretofore or hereafter established, when in its opinion, the public safety requires such alteration or abolition, and, except in cities, villages, and incorporated towns of 1,000,000 or more inhabitants, to vacate and close that part of the highway on such crossing altered or abolished and cause barricades to be erected across such highway in such manner as to prevent the use of such crossing as a highway, when, in the opinion of the Commission, the public convenience served by the crossing in question is not such as to justify the further retention thereof; or to require a separation of grades, at railroad-highway grade crossings; or to require a separation of grades at any proposed crossing where a proposed public highway may cross the tracks of any rail carrier or carriers; and to prescribe, after a hearing of the parties, the terms upon which such separations shall be made and the proportion in which the expense of the alteration or abolition of such crossings or the separation of such grades, having regard to the benefits, if any, accruing to the rail carrier or any party in interest, shall be divided between the rail carrier or carriers affected, or between such carrier or carriers and the State, county, municipality or other public authority in interest. However, a public hearing by the Commission to abolish a crossing shall not be required when the public highway authority in interest vacates the highway. In such instance the rail carrier, following notification to the Commission and the highway authority, shall remove any grade crossing warning devices and the grade crossing surface. The Commission shall also have power by its order to require the reconstruction, minor alteration, minor relocation, or improvement of any crossing (including the necessary highway approaches thereto) of any railroad across any highway or public road, pedestrian bridge, or pedestrian subway, whether such crossing be at grade or by overhead structure or by subway, whenever the Commission finds after a hearing or without a hearing as otherwise provided in this paragraph that such reconstruction, alteration, relocation, or improvement is necessary to preserve or promote the safety or convenience of the public or of the employees or passengers of such rail carrier or carriers. By its original order or supplemental orders in such case, the Commission may direct such reconstruction, alteration, relocation, or improvement to be made in such manner and upon such terms and conditions as may be reasonable and necessary and may apportion the cost of such reconstruction, alteration, relocation, or improvement and the subsequent maintenance thereof, having regard to the benefits, if any, accruing to the railroad or any party in interest, between the rail carrier or carriers and public utilities affected, or between such carrier or carriers and public utilities and the State, county, municipality or other public authority in interest. The cost to be so apportioned shall include the cost of changes or alterations in the equipment of public utilities affected as well as the cost of the relocation, diversion or establishment of any public highway, made necessary by such reconstruction, alteration, relocation, or improvement of said crossing. A hearing shall not be required in those instances when the Commission enters an order confirming a written stipulation in which the Commission, the public highway authority or other public authority in interest, the rail carrier or carriers affected, and in instances involving the use of the Grade Crossing Protection Fund, the Illinois Department of Transportation, agree on the reconstruction, alteration, relocation, or improvement and the subsequent maintenance thereof and the division of costs of such changes of any grade crossing (including the necessary highway approaches thereto) of any railroad across any highway, pedestrian bridge, or pedestrian subway. The Commission shall also have power to enter into stipulated agreements with a rail carrier or rail carriers or public authorities to fund, provide, install, and maintain safety treatments to deter trespassing on railroad property in accordance with paragraph

(1) of Section 18c-7503 at locations approved by such rail carrier or rail carriers following a diagnostic evaluation between the Commission and the rail carrier or rail carriers, including any public authority in interest or the Federal Railroad Administration, and to order the allocation of the cost of those treatments and their installation and maintenance from the Grade Crossing Protection Fund. Safety treatments approved under this paragraph by the Commission shall be deemed adequate and appropriate. Every rail carrier operating in the State of Illinois shall construct and maintain every highway crossing over its tracks within the State so that the roadway at the intersection shall be as flush with the rails as superelevated curves will allow, and, unless otherwise ordered by the Commission, shall construct and maintain the approaches thereto at a grade of not more than 5% within the right-of-way for a distance of not less the 6 feet on each side of the centerline of such tracks; provided, that the grades at the approaches may be maintained in excess of 5% only when authorized by the Commission. Every rail carrier operating within this State shall remove from its right-of-way at all railroad-highway grade crossings within the State, such brush, shrubbery, and trees as is reasonably practical for a distance of not less than 500 feet in either direction from each grade crossing. The Commission shall have power, upon its own motion, or upon complaint, and after having made proper investigation, to require the installation of adequate and

appropriate luminous reflective warning signs, luminous flashing signals, crossing gates illuminated at night, or other protective devices in order to promote and safeguard the health and safety of the public. Luminous flashing signal or crossing gate devices installed at grade crossings, which have been approved by the Commission, shall be deemed adequate and appropriate. The Commission shall have authority to determine the number, type, and location of such signs, signals, gates, or other protective devices which, however, shall conform as near as may be with generally recognized national standards, and the Commission shall have authority to prescribe the division of the cost of the installation and subsequent maintenance of such signs, signals, gates, or other protective devices between the rail carrier or carriers, the public highway authority or other public authority in interest, and in instances involving the use of the Grade Crossing Protection Fund, the Illinois Department of Transportation. Except where train crews provide flagging of the crossing to road users, yield signs shall be installed at all highway intersections with every grade crossing in this State that is not equipped with automatic warning devices, such as luminous flashing signals or crossing gate devices. A stop sign may be used in lieu of the yield sign when an engineering study conducted in cooperation with the highway authority and the Illinois Department of Transportation has determined that a stop sign is warranted. If the Commission has ordered the installation of luminous flashing signal or crossing gate devices at a grade crossing not equipped with active warning devices, the Commission shall order the installation of temporary stop signs at the highway intersection with the grade crossing unless an engineering study has determined that a stop sign is not appropriate. If a stop sign is not appropriate, the Commission may order the installation of other appropriate supplemental signing as determined by an engineering study. The temporary signs shall remain in place until the luminous flashing signal or crossing gate devices have been installed. The rail carrier is responsible for the installation and subsequent maintenance of any required signs. The permanent signs shall be in place by July 1, 2011. No railroad may change or modify the warning device system at a railroad-highway grade crossing, including warning systems interconnected with highway traffic control signals, without having first received the approval of the Commission. The Commission shall have the further power, upon application, upon its own motion, or upon complaint and after having made proper investigation, to require the interconnection of grade crossing warning devices with traffic control signals at highway intersections located at or near railroad crossings within the distances described by the State Manual on Uniform Traffic Control Devices adopted pursuant to Section 11-301 of this Code. In addition, State and local authorities may not install, remove, modernize, or otherwise modify traffic control signals at a highway intersection that is interconnected or proposed to be interconnected with grade crossing warning devices when the change affects the number, type, or location of traffic control devices on the track approach leg or legs of the intersection or the timing of the railroad preemption sequence of operation until the Commission has approved the installation, removal, modernization, or modification. Commission approval shall be limited to consideration of issues directly affecting the public safety at the railroad-highway grade crossing. The electrical circuit devices, alternate warning devices, and preemption sequences shall conform as nearly as possible, considering the particular characteristics of the crossing and intersection area, to the State manual adopted by the Illinois Department of Transportation pursuant to Section 11-301 of this Code and such federal standards as are made applicable by subsection (2) of this Section. In order to carry out this authority, the Commission shall have the authority to determine the number, type, and location of traffic control devices on the track approach leg or legs of the intersection and the timing of the railroad preemption sequence of operation. The Commission shall prescribe the division of costs for installation and maintenance of all devices required by this paragraph between the railroad or railroads and the highway authority in interest and in instances involving the use of the Grade Crossing Protection Fund or a State highway, the Illinois Department of Transportation. Any person who unlawfully or maliciously removes, throws down, damages or defaces any sign, signal, gate, or other protective device, located at or near any public grade crossing, shall be guilty of a petty offense and fined not less than \$50 nor more than \$200 for each offense. In addition to fines levied under the provisions of this Section a person adjudged guilty hereunder may also be directed to make restitution for the costs of repair or replacement, or both, necessitated by his misconduct. It is the public policy of the State of Illinois to enhance public safety by establishing safe grade crossings. In order to implement this policy, the Illinois Commerce Commission is directed to conduct public hearings and to adopt specific criteria by July 1, 1994, that shall be adhered to by the Illinois Commerce Commission in determining if a grade crossing should be opened or abolished. The following factors shall be considered by the Illinois Commerce Commission in developing the specific criteria for opening and abolishing grade crossings:

- (a) timetable speed of passenger trains;
- (b) distance to an alternate crossing;
- (c) accident history for the last 5 years;

- (d) number of vehicular traffic and posted speed limits;
 - (e) number of freight trains and their timetable speeds;
 - (f) the type of warning device present at the grade crossing;
 - (g) alignments of the roadway and railroad, and the angle of intersection of those alignments;
 - (h) use of the grade crossing by trucks carrying hazardous materials, vehicles carrying passengers for hire, and school buses; and
 - (i) use of the grade crossing by emergency vehicles. The Illinois Commerce Commission, upon petition to open or abolish a grade crossing, shall enter an order opening or abolishing the crossing if it meets the specific criteria adopted by the Commission. Except as otherwise provided in this subsection (3), in no instance shall a grade crossing be permanently closed without public hearing first being held and notice of such hearing being published in an area newspaper of local general circulation.
- (4) Freight Trains; Radio Communications. The Commission shall after hearing and order require that every main line railroad freight train operating on main tracks outside of yard limits within this State shall be equipped with a radio communication system. The Commission after notice and hearing may grant exemptions from the requirements of this Section as to secondary and branch lines.
- (5) Railroad Bridges and Trestles; Walkway and Handrail. In cases in which the Commission finds the same to be practical and necessary for safety of railroad employees, bridges and trestles, over and upon which railroad trains are operated, shall include as a part thereof, a safe and suitable walkway and handrail on one side only of such bridge or trestle, and such handrail shall be located at the outer edge of the walkway and shall provide a clearance of not less than 8 feet, 6 inches, from the center line of the nearest track, measured at right angles thereto.
- (6) Packages Containing Articles for First Aid to Injured on Trains.
- (a) All rail carriers shall provide a first aid kit that contains, at a minimum, those articles prescribed by the Commission, on each train or engine, for first aid to persons who may be injured in the course of the operation of such trains.
 - (b) A vehicle, excluding a taxi cab used in an emergency situation, operated by a contract carrier transporting railroad employees in the course of their employment shall be equipped with a readily available first aid kit that contains, as a minimum, the same articles that are required on each train or engine.
- (7) Abandoned Bridges, Crossings, and Other Rail Plant. The Commission shall have authority, after notice and hearing, to order:
- (a) the removal of any abandoned railroad tracks from roads, streets or other thoroughfares in this State; and
 - (b) the removal of abandoned overhead railroad structures crossing highways, waterways, or railroads. The Commission may equitably apportion the cost of such actions between the rail carrier or carriers, public utilities, and the State, county, municipality, township, road district, or other public authority in interest.
- (8) Railroad-Highway Bridge Clearance. A vertical clearance of not less than 23 feet above the top of rail shall be provided for all new or reconstructed highway bridges constructed over a railroad track. The Commission may permit a lesser clearance if it determines that the 23-foot clearance standard cannot be justified based on engineering, operational, and economic conditions.
- (9) Right of Access To Railroad Property.
- (a) A community antenna television company franchised by a municipality or county pursuant to the Illinois Municipal Code or the Counties Code, respectively, shall not enter upon any real estate or rights-of-way in the possession or control of a railroad subject to the jurisdiction of the Illinois Commerce Commission unless the community antenna television company first complies with the applicable provisions of subparagraph
 - (f) of Section 11-42-11.1 of the Illinois Municipal Code or subparagraph
 - (f) of Section 5-1096 of the Counties Code.
 - (b) Notwithstanding any provision of law to the contrary, this subsection
 - (9) applies to all entries of railroad rights-of-way involving a railroad subject to the jurisdiction of the Illinois Commerce Commission by a community antenna television company and shall govern in the event of any conflict with any other provision of law.

(c) This subsection

(9) applies to any entry upon any real estate or right-of-way in the possession or control of a railroad subject to the jurisdiction of the Illinois Commerce Commission for the purpose of or in connection with the construction, or installation of a community antenna television company's system or facilities commenced or renewed on or after August 22, 2017 (the effective date of Public Act 100-251).

(d) Nothing in Public Act 100-251 shall be construed to prevent a railroad from negotiating other terms and conditions or the resolution of any dispute in relation to an entry upon or right of access as set forth in this subsection (9).

(e) For purposes of this subsection (9): "Broadband service", "cable operator", and "holder" have the meanings given to those terms under Section 21-201 of the Public Utilities Act. "Community antenna television company" includes, in the case of real estate or rights-of-way in possession of or in control of a railroad, a holder, cable operator, or broadband service provider.

(f) Beginning on August 22, 2017 (the effective date of Public Act 100-251), the Transportation Division of the Illinois Commerce Commission shall include in its annual Crossing Safety Improvement Program report a brief description of the number of cases decided by the Illinois Commerce Commission and the number of cases that remain pending before the Illinois Commerce Commission under this subsection

(9) for the period covered by the report.

(10) The Commuter Rail Division of the Northern Illinois Transit Authority shall be treated as a rail carrier subject to the Illinois Commerce Commission's safety requirements for track, facilities, and equipment in accordance with Section 18c-7401 and eligible to receive money from the Grade Crossing Protection Fund or any fund of the State or other source available for purposes of promoting safety and separation of at-grade railroad crossings or highway improvements.

625 ILCS 5/18c-7401.1 — Rules for safe railroad worker walkways

Sec. 18c-7401.1. Rules for safe railroad worker walkways. Within 90 days after the effective date of this amendatory Act of the 93rd General Assembly, the Commission shall adopt rules regarding safe walkways for railroad workers in areas where work is regularly performed on the ground. The rules must include, at a minimum, a requirement that any walkway

(i) have a reasonably uniform surface, (ii) be maintained in a safe condition, and (iii) be reasonably free of obstacles, debris, and other hazards.

625 ILCS 5/18c-7402 — Safety requirements for railroad operations

Sec. 18c-7402. Safety requirements for railroad operations.

(1) Obstruction of crossings.

(a) Obstruction of emergency vehicles. Every railroad shall be operated in such a manner as to minimize obstruction of emergency vehicles at crossings. Where such obstruction occurs and the train crew is aware of the obstruction, the train crew shall immediately take any action, consistent with safe operating procedure, necessary to remove the obstruction. In the Chicago and St. Louis switching districts, every railroad dispatcher or other person responsible for the movement of railroad equipment in a specific area who receives notification that railroad equipment is obstructing the movement of an emergency vehicle at any crossing within such area shall immediately notify the train crew through use of existing communication facilities. Upon notification, the train crew shall take immediate action in accordance with this paragraph.

(b) Obstruction of highway at grade crossing prohibited. It is unlawful for a rail carrier to permit any train, railroad car or engine to obstruct public travel at a railroad-highway grade crossing for a period in excess of 10 minutes, except where such train or railroad car is continuously moving or cannot be moved by reason of circumstances over which the rail carrier has no reasonable control. In a county with a population of greater than 1,000,000, as determined by the most recent federal census, during the hours of 7:00 a.m. through 9:00 a.m. and 4:00 p.m. through 6:00 p.m. it is unlawful for a rail carrier to permit any single train or railroad car to obstruct public travel at a railroad-highway grade crossing in excess of a total of 10 minutes during a 30 minute period, except where the train or railroad car cannot be moved by reason or circumstances over which the rail carrier has no reasonable control. Under no circumstances will a moving train be stopped for the purposes of issuing a citation related to this Section. However, no employee acting under the rules or orders of the rail carrier or its supervisory personnel may be prosecuted for a violation of this subsection (b).

(c) Punishment for obstruction of grade crossing. Any rail carrier violating paragraph

(b) of this subsection shall be guilty of a petty offense and fined not less than \$200 nor more than \$500 if the duration of the obstruction is in excess of 10 minutes but no longer than 15 minutes. If the duration of the obstruction exceeds 15 minutes the violation shall be a business offense and the following fines shall be imposed: if the duration of the obstruction is in excess of 15 minutes but no longer than 20 minutes, the fine shall be \$500; if the duration of the obstruction is in excess of 20 minutes but no longer than 25 minutes, the fine shall be \$700; if the duration of the obstruction is in excess of 25 minutes, but no longer than 30 minutes, the fine shall be \$900; if the duration of the obstruction is in excess of 30 minutes but no longer than 35 minutes, the fine shall be \$1,000; if the duration of the obstruction is in excess of 35 minutes, the fine shall be \$1,000 plus an additional \$500 for each 5 minutes of obstruction in excess of 25 minutes of obstruction.

(2) Other operational requirements.

(a) Bell and whistle-crossings. Every rail carrier shall cause a bell, and a whistle or horn to be placed and kept on each locomotive, and shall cause the same to be rung or sounded by the engineer or fireman, at the distance of at least 1,320 feet, from the place where the railroad crosses or intersects any public highway, and shall be kept ringing or sounding until the highway is reached; provided that at crossings where the Commission shall by order direct, only after a hearing has been held to determine the public is reasonably and sufficiently protected, the rail carrier may be excused from giving warning provided by this paragraph. (a-5) The requirements of paragraph

(a) of this subsection

(2) regarding ringing a bell and sounding a whistle or horn do not apply at a railroad crossing that has a permanently installed automated audible warning device authorized by the Commission under Section 18c-7402.1 that sounds automatically when an approaching train is at least 1,320 feet from the crossing and that keeps sounding until the lead locomotive has crossed the highway. The engineer or fireman may ring the bell or sound the whistle or horn at a railroad crossing that has a permanently installed audible warning device.

(b) Speed limits. Each rail carrier shall operate its trains in compliance with speed limits set by the Commission. The Commission may set train speed limits only where such limits are necessitated by extraordinary circumstances affecting the public safety, and shall maintain such train speed limits in effect only for such time as the extraordinary circumstances prevail. The Commission and the Department of Transportation shall conduct a study of the relation between train speeds and railroad-highway grade crossing safety. The Commission shall report the findings of the study to the General Assembly no later than January 5, 1997.

(c) Special speed limit; pilot project. The Commission and the Board of the Commuter Rail Division of the Regional Transportation Authority shall conduct a pilot project in the Village of Fox River Grove, the site of the fatal school bus crash at a railroad crossing on October 25, 1995, in order to improve railroad crossing safety. For this project, the Commission is directed to set the maximum train speed limit for Regional Transportation Authority trains at 50 miles per hour at intersections on that portion of the intrastate rail line located in the Village of Fox River Grove. If the Regional Transportation Authority deliberately fails to comply with this maximum speed limit, then any entity, governmental or otherwise, that provides capital or operational funds to the Regional Transportation Authority shall appropriately reduce or eliminate that funding. The Commission shall report to the Governor and the General Assembly on the results of this pilot project in January 1999, January 2000, and January 2001. The Commission shall also submit a final report on the pilot project to the Governor and the General Assembly in January 2001. The provisions of this subsection (c), other than this sentence, are inoperative after February 1, 2001.

(d) Freight train crew size. No rail carrier shall operate or cause to operate a train or light engine used in connection with the movement of freight unless it has an operating crew consisting of at least 2 individuals. The minimum freight train crew size indicated in this subsection

(d) shall remain in effect until a federal law or rule encompassing the subject matter has been adopted. The Commission, with respect to freight train crew member size under this subsection (d), has the power to conduct evidentiary hearings, make findings, and issue and enforce orders, including sanctions under Section 18c-1704 of this Chapter. As used in this subsection (d), "train or light engine" does not include trains operated by a hostler service or utility employees.

(3) Report and investigation of rail accidents.

(a) Reports. Every rail carrier shall report to the Commission, by the speediest means possible, whether telephone, telegraph, or otherwise, every accident involving its equipment, track, or other property which resulted in loss of life to any person. In addition, such carriers shall file a written report with the Commission. Reports submitted under this paragraph

shall be strictly confidential, shall be specifically prohibited from disclosure, and shall not be admissible in any administrative or judicial proceeding relating to the accidents reported.

(b) Investigations. The Commission may investigate all railroad accidents reported to it or of which it acquires knowledge independent of reports made by rail carriers, and shall have the power, consistent with standards and procedures established under the Federal Railroad Safety Act, as amended, to enter such temporary orders as will minimize the risk of future accidents pending notice, hearing, and final action by the Commission. (Text of Section from P.A. 104-457, Article 5, Section 5-920) Sec. 18c-7402. Safety requirements for railroad operations.

(1) Obstruction of crossings.

(a) Obstruction of emergency vehicles. Every railroad shall be operated in such a manner as to minimize obstruction of emergency vehicles at crossings. Where such obstruction occurs and the train crew is aware of the obstruction, the train crew shall immediately take any action, consistent with safe operating procedure, necessary to remove the obstruction. In the Chicago and St. Louis switching districts, every railroad dispatcher or other person responsible for the movement of railroad equipment in a specific area who receives notification that railroad equipment is obstructing the movement of an emergency vehicle at any crossing within such area shall immediately notify the train crew through use of existing communication facilities. Upon notification, the train crew shall take immediate action in accordance with this paragraph.

(b) Obstruction of highway at grade crossing prohibited. It is unlawful for a rail carrier to permit any train, railroad car or engine to obstruct public travel at a railroad-highway grade crossing for a period in excess of 10 minutes, except where such train or railroad car is continuously moving or cannot be moved by reason of circumstances over which the rail carrier has no reasonable control. In a county with a population of greater than 1,000,000, as determined by the most recent federal census, during the hours of 7:00 a.m. through 9:00 a.m. and 4:00 p.m. through 6:00 p.m. it is unlawful for a rail carrier to permit any single train or railroad car to obstruct public travel at a railroad-highway grade crossing in excess of a total of 10 minutes during a 30 minute period, except where the train or railroad car cannot be moved by reason or circumstances over which the rail carrier has no reasonable control. Under no circumstances will a moving train be stopped for the purposes of issuing a citation related to this Section. However, no employee acting under the rules or orders of the rail carrier or its supervisory personnel may be prosecuted for a violation of this subsection (b).

(c) Punishment for obstruction of grade crossing. Any rail carrier violating paragraph

(b) of this subsection shall be guilty of a petty offense and fined not less than \$200 nor more than \$500 if the duration of the obstruction is in excess of 10 minutes but no longer than 15 minutes. If the duration of the obstruction exceeds 15 minutes the violation shall be a business offense and the following fines shall be imposed: if the duration of the obstruction is in excess of 15 minutes but no longer than 20 minutes, the fine shall be \$500; if the duration of the obstruction is in excess of 20 minutes but no longer than 25 minutes, the fine shall be \$700; if the duration of the obstruction is in excess of 25 minutes, but no longer than 30 minutes, the fine shall be \$900; if the duration of the obstruction is in excess of 30 minutes but no longer than 35 minutes, the fine shall be \$1,000; if the duration of the obstruction is in excess of 35 minutes, the fine shall be \$1,000 plus an additional \$500 for each 5 minutes of obstruction in excess of 25 minutes of obstruction.

(2) Other operational requirements.

(a) Bell and whistle-crossings. The Commission shall also submit a final report on the pilot project to the Governor and the General Assembly in January 2001. The provisions of this subsection (c), other than this sentence, are inoperative after February 1, 2001.

(d) Freight train crew size. No rail carrier shall operate or cause to operate a train or light engine used in connection with the movement of freight unless it has an operating crew consisting of at least 2 individuals. The minimum freight train crew size indicated in this subsection

(d) shall remain in effect until a federal law or rule encompassing the subject matter has been adopted. The Commission, with respect to freight train crew member size under this subsection (d), has the power to conduct evidentiary hearings, make findings, and issue and enforce orders, including sanctions under Section 18c-1704 of this Chapter. As used in this subsection (d), "train or light engine" does not include trains operated by a hostler service or utility employees.

(3) Report and investigation of rail accidents.

(a) Reports. 625 ILCS 5/18c-7402.1 — Pilot projects; automated audible warning devices

Sec. 18c-7402.1. Pilot projects; automated audible warning devices.

(a) The General Assembly finds and declares that, for the communities of the State that are traversed by railroads, there is a growing need to mitigate train horn noise without compromising the safety of the public. Therefore, after applications are filed and approved by the Commission, the Commission shall authorize pilot projects in the counties of Cook, DuPage, Lake, and Will to test the utility and safety of stationary automated audible warning devices as an alternative to trains having to sound their horns as they approach highway-rail crossings.

(b) In light of the pending proposed ruling by the Federal Railroad Administration on the use of locomotive horns at all highway-rail crossings across the nation, it is in the best interest of the State for the Commission to expedite the pilot projects in order to contribute data to the federal rulemaking process regarding the possible inclusion of stationary automated warning devices in the counties of Cook, DuPage, Lake, and Will as a safety measure option to the proposed federal rule.

(c) The Commission shall adopt rules for implementing the pilot projects in the counties of Cook, DuPage, Lake, and Will.

Otherwise, the provisions of this Chapter regarding enforcement procedures and sanctions shall apply.

(2) Waiver. The Commission may waive any of the safety requirements under this Article if continued adherence to the requirement or requirements is not required for the safety of railroad employees or the public.

Sec. 18c-7404. Transportation of Hazardous Materials by Rail Carriers.

(1) Commission to Regulate Hazardous Materials Transportation by Rail Carrier.

As used in this Section, "imminent hazard" means a substantial likelihood that death, serious illness, or severe personal injury will occur prior to the time during which an administrative proceeding to abate the danger could normally be completed.

(3) Commission to Adopt Regulations. The Commission may adopt regulations governing the transportation of hazardous materials by rail carrier where:

(a) The risk created by such transportation is susceptible to control by regulation;

(b) State regulation would be more effective in controlling the risk than federal regulation; and

(c) The regulations adopted by the Commission are not inconsistent with federal regulations.

625 ILCS 5/18d-110

Sec. 18d-110. The General Assembly finds and declares that commercial vehicle towing service in the State of Illinois fundamentally affects the public interest and public welfare. It is the intent of the General Assembly, in this amendatory Act of the 95th General Assembly, to promote the public interest and the public welfare by requiring similar basic consumer protections and fraud prevention measures that are required of other marketplace participants, including the disclosure of material terms and conditions of the service to consumers before consumers accept the terms and conditions. The General Assembly also intends that the provisions in this amendatory Act of the 95th General Assembly promote safety for all persons and vehicles that travel or otherwise use the public highways of this State. The General Assembly finds that it is in the public interest that persons whose vehicles are towed from the public highways know important basic information, such as where they can retrieve their vehicles and the cost to retrieve their vehicles, so that they can avoid vehicle deterioration and arrange for a prompt repair of the vehicles.

625 ILCS 5/18d-115 — Safety relocater registration required; application disclosures

Sec. 18d-115. Safety relocater registration required; application disclosures.

- (a) It is unlawful for any commercial vehicle safety relocater to operate in any county in which this Chapter is applicable without a valid, current safety relocater's registration certificate issued by the Commission.
- (b) The Commission shall issue safety relocater's registration certificates in accordance with administrative rules adopted by the Commission. The Commission shall require that in addition to such other information as the Commission may require by rule, any application for a safety relocater's registration be verified and disclose whether:

 - (2) any officer, employee, or agent of the applicant has failed to satisfy any fine or penalty issued by the Commission;
 - (3) any person or entity other than the applicant with a beneficial owner in common with the applicant has failed to satisfy any fine or penalty issued by the Commission; or

If the Commission finds that any failure to satisfy a fine or penalty issued by the Commission or a judgment entered by a court of competent jurisdiction was, or should have been, disclosed by the applicant, the Commission may deny the application.
- (c) The Commission may inquire into the conduct of any commercial vehicle safety relocater, or the beneficial owner of a commercial vehicle safety relocater, to determine if the provisions of this Chapter and the rules of the Commission adopted pursuant to this Chapter are being observed.
- (d) If the Commission finds any failure to satisfy a fine or penalty issued by the Commission or a judgment entered by a court of competent jurisdiction, as set forth in subsection (b), it shall revoke the issued safety relocater's registration

unless the Commission finds, through clear and convincing evidence, good cause for the failure.

625 ILCS 5/18d-116 — Business and storage location requirements; proof of right to use premises

Sec. 18d-116. Business and storage location requirements; proof of right to use premises.

- (e) Listing a primary business location or vehicle storage and redemption location on an application or update form that the safety relocater does not have a right to use or occupy by virtue of ownership or a written lease shall be considered a materially false statement for purposes of Section 18d-119. Failure to list a primary business location or vehicle storage and redemption location on an application or update form shall be considered a material omission for purposes of Section 18d-119.
- (f) Each business and storage location shall conform to Section 18d-130.

625 ILCS 5/18d-117 — Exemption

- (b) A tower operating for the limited purpose in subsection
 - (a) is not subject to the provisions of this Chapter.
 - (c) Subsection
 - (a) does not apply to towers that legally reside in both counties.

- (b) Other personal property in a relocated vehicle, excluding cargo, is exempt from a lien under the Labor and Storage Lien (Small Amount) Act and may be claimed by the owner of such personal property, or by the spouse, child, parent, or sibling of the owner of such personal property, as long as the related person provides the commercial vehicle safety relocater written authorization from the owner of such personal property, and provided the vehicle owner or related person provides the commercial vehicle safety relocater with proof that the vehicle owner has an insurance policy sufficient to pay applicable recovery, towing, and storage charges. Notwithstanding other provisions of this Code, cargo shall be subject to the tower's lien. The regulation of liens on personal property and exceptions to those liens in the case of vehicles towed as a result of being involved in a crash are exclusive powers and functions of the State. A home rule unit

may not regulate liens on personal property and exceptions to those liens in the case of vehicles towed as a result of being involved in a crash. This Section is a denial and limitation of home rule powers and functions under subsection (h) of Section 6 of Article VII of the Illinois Constitution.

- (d) Every commercial vehicle safety relocater must designate and maintain a registered agent for service of process. The registered agent must have a physical address within the State where the registered agent can receive legal documents and official notices. This address must be a physical location, not a post office box, and must be open and staffed during regular business hours.

625 ILCS 5/18d-157 — Vehicle impoundment

Sec. 18d-157. Vehicle impoundment.

- (a) The Commission police may seize and impound a tow truck by authorizing the towing and storage of the tow truck where the officer has probable cause to believe that:
- (1) the tow truck is being used, or was used, to remove a damaged or disabled vehicle from public or private property while the owner or operator of the tow truck does not hold a valid, current safety relocater's registration certificate issued by the Commission; or
 - (2) the registered owner of the tow truck owes past due fines, civil penalties, or fees to the Commission.
- (b) At the time the vehicle is towed, the officer ordering the tow shall provide to the person in control of the tow truck a copy of the vehicle impoundment report. The Commission shall mail a notice of impoundment to all registered owners and lienholders within 2 business days after the date the vehicle was impounded if the vehicle is registered in this State. If the vehicle is registered in a jurisdiction other than this State, the Commission shall request owner and lienholder information from the appropriate agency within 2 business days after the date the vehicle was impounded and shall mail a notice of impoundment to all registered owners and lienholders within 2 business days after receiving the information. Notices shall be mailed by certified mail, return receipt requested, to the addresses on file with the Secretary of State, or in the case of a foreign-registered vehicle, to the addresses on file with the State where the vehicle is registered. At minimum, the notice of impoundment shall contain:
- (1) in bold typeface, a heading with the words "Notice of Impoundment";
 - (2) a description of the impounded tow truck;
 - (3) the reason for impoundment;
 - (4) the location where the impounded tow truck is being stored;
 - (5) the potential fines, civil penalties, and fees that must be satisfied to reclaim the tow truck;
 - (6) procedures to request a hearing before the Commission; and
 - (7) a notice that if the tow truck remains unclaimed, it may be sold or disposed of in accordance with applicable law.
- (c) Before a vehicle impounded under this Section may be released, the owner or lienholder must obtain a release from the Commission and pay all storage and towing fees to the towing service. To obtain a release from the Commission, the owner or lienholder shall furnish to the Commission proof of ownership, such as title, vehicle registration, or bill of sale, or right to possession of the vehicle and valid identification, and:
- (1) pay the \$1,000 administrative fine plus any fines for concurrent violations, and pay all other fines, civil penalties, and fees owed to the Commission. Such payment shall constitute an admission of liability and a waiver of the right to a hearing;

Fines and civil penalties and posting of bond may be paid by certified or cashier's check or money order.

(d) A request for hearing shall, unless otherwise provided for by the Commission, be mailed to the Commission within 15 calendar days after the mailing date of the notice of impoundment. The Commission shall conduct a hearing within 10 business days after receipt of a request for hearing. The Commission shall determine, by a preponderance of the evidence, whether the vehicle should be released without payment of the administrative fine and any fines for concurrent violations. The failure of the owner of record to appear at the hearing or to request a continuance in a timely manner shall be deemed a waiver of the right to a hearing, and a default order in favor of the Commission may be entered. If, after the hearing, the Commission determines that the vehicle should be released without payment of the administrative fine and any fines for concurrent violations, any bond posted shall be refunded. If, after the hearing, the Commission determines that the vehicle should not be released without payment of the administrative fine and any fines for concurrent violations, the bond shall be forfeited to the Commission in the amount of the fines, civil penalties, and fees owed, and any surplus shall be refunded. Fines, civil penalties, and fees imposed pursuant to this Chapter shall constitute a debt owed to the Commission, which may be enforced in any manner provided for by law. Any cash bond posted pursuant to this Section shall be applied to the fines, civil penalties, and fees owed.

(e) Except as otherwise provided in this Section, a vehicle shall continue to be impounded until:

(1) the vehicle has been reclaimed pursuant to subsection (d); or

(2) the vehicle or equipment is deemed unclaimed.

(f) Any vehicle not reclaimed within 10 working days after the expiration of the time during which the owner of record may seek judicial review of the Commission's action, or within 10 working days after a final judgment in favor of the Commission, may be disposed of as an unclaimed vehicle in accordance with Sections 4-208 and 4-209.

(b) Prior to referral under this Section, the Commission shall issue a final demand for payment which shall clearly state that failure to pay the outstanding fines or penalties by the date provided in the demand will result in a referral to the Secretary of State for the suspension of that person's tow truck registrations in accordance with Section 3-704.4.

Combination application-receipt forms shall be provided by the Department and the dealer shall furnish the buyer with the completed receipt showing that application for registration has been made. Should the owner desire a new certificate of number, showing the new address, he shall surrender his old certificate and notify the Department of the new address, remitting one dollar to cover the issuance of a new certificate of number. No number or registration expiration decal, except a sticker or number which may be required by a political

subdivision, municipality, or state, other than the registration expiration decal issued to a snowmobile or granted reciprocity pursuant to this Act, shall be painted, attached, or otherwise displayed on either side of the cowling of such snowmobile. A dealer engaged in the manufacture, sale, or leasing of snowmobiles required to be numbered hereunder, upon application to the Department upon forms prescribed by it, may obtain certificates of number for use in the testing or demonstrating of such snowmobiles upon payment of \$30 for each registration. Certificates of number so issued may be used by the applicant in the testing or demonstrating of snowmobiles by temporary placement of the registration expiration decals assigned by such certificates on the snowmobile so tested or demonstrated. Sec. 5-1. Operation Generally. It is unlawful for any person to drive or operate any snowmobile in the following ways: A. I. Notwithstanding any other law to the contrary, an owner, lessee, or occupant of premises owes no duty of care to keep the premises safe for entry or use by others for snowmobiling, or to give warning of any condition, use, structure or activity on such premises. This subsection does not apply where permission to snowmobile is given for a valuable consideration other than to this State, any political subdivision or municipality thereof, or any landowner who is paid with funds from the Snowmobile Trail Establishment Fund. In the case of land leased to the State or a subdivision thereof, any consideration received is not valuable consideration within the meaning of this section. Nothing in this section limits in any way liability which otherwise exists for willful or malicious failure to guard or warn against a dangerous condition, use, structure, or activity. J. Notwithstanding any other law to the contrary, an owner, lessee or occupant of premises who gives permission to another to snowmobile upon such premises does not thereby extend any assurance that the premises are safe for such purpose, or assume responsibility for or incur liability for any injury to person or property caused by any act or omission of persons to whom the permission to snowmobile is granted. L. Within 100 feet of a dwelling between midnight and 6 a.m. at a speed greater than the minimum required to maintain forward movement of the snowmobile. This provision would not apply on private property where verbal or written consent of the owner or lessee has been granted to snowmobile upon such private property or frozen waters of this State. M. Notwithstanding any other law to the contrary, any owner, lessee or occupant of premises or any person or association who, with the permission of the owner of the premises, places, maintains or displays a sign, signal, marking or device to give warning of any unsafe condition on the premises for snowmobiling shall not be liable for any personal injuries allegedly caused by his or her acts or omissions in providing such warning unless the alleged misconduct was willful or malicious. This subsection shall not apply where the owner, occupant or lessee of the premises grants express permission for snowmobiling in exchange for valuable consideration. However, this subsection will apply where such consideration is given to such owner, occupant or

lessee by the State or one of its political subdivisions. N. Notwithstanding any other law or Section of this Act to the contrary, the State and any political subdivision or municipality thereof owes no duty of care to keep the premises safe for entry or use by others for snowmobiling or to guard against or give warnings of any condition, use, structure or activity on property in which the State and any political subdivision or municipality thereof has any interest.

(3) the operator yields the right of way to all oncoming traffic which constitutes a hazard. B. On highways other than tollways, interstate highways and fully or limited access-controlled highways snowmobiles may be operated not less than 10 feet from the roadway and in the same direction as traffic. On such highways, other than State highways, the corporate authorities of a city, village or incorporated town may adopt ordinances providing for variance from the 10-foot separation requirement of this subsection, including ordinances permitting the operation of snowmobiles upon the roadways of such highways, other than State highways, within city, village or town limits. In addition, the corporate authorities of any unit of local government with jurisdiction over such highways may adopt ordinances authorizing the operation of snowmobiles within 10 feet of the roadway to avoid obstructions or hazardous terrain. Other than for State highways, corporate authorities of a city, village or incorporated town may adopt ordinances providing for trails, including the designation of the roadways of highways referred to in this paragraph as snowmobile trails, and regulating snowmobile operation within city, village or town limits. C. D. Corporate authorities of a city, village or incorporated town may by ordinance designate 1 or more specific public highways or streets within their jurisdiction as egress and ingress routes for the use of snowmobiles. In the event that such public highways or streets are under the jurisdiction of the State of Illinois, express written consent of the Illinois Department of Transportation shall be required. The department may procure liability insurance coverage for certified instructors for work within the scope of

their duties under this section. Persons satisfactorily completing this program shall receive certification from the department. The department may charge each person who enrolls in the course an instruction fee of \$2.50. If a fee is authorized by the department, the department shall authorize instructors conducting such courses meeting standards established by it to retain \$1 of the fee to defray expenses incurred locally to operate the program. The remaining \$1.50 of the fee shall be retained by the department to defray a part of its expenses incurred to operate the safety and accident reporting program. A person over the age of 12 years but under the age of 16 years who holds a valid certificate issued by another state or province of the Dominion of Canada need not obtain a certificate from the department if the course content of the program in such other state or province substantially meets that established by the department under this section. (b) The fact that a person charged with violating this Section is or has been legally entitled to use alcohol, other drug or drugs, any intoxicating compound or compounds, or any combination of them does not constitute a defense against a charge of violating this Section.

(c) Every person convicted of violating this Section or a similar provision of a local ordinance is guilty of a Class A misdemeanor, except as otherwise provided in this Section. (c-1) As used in this Section, "first time offender" means any person who has not had a previous conviction or been assigned supervision for violating this Section or a similar provision of a local ordinance, or any person who has not had a suspension imposed under subsection

(e) of Section 5-7.1. (c-2) For purposes of this Section, the following are equivalent to a conviction:

(1) an unvacated revocation of pretrial release; or

(d) Every person convicted of violating this Section is guilty of a Class 4 felony if: 1. The person has a previous conviction under this Section; 2. A person guilty of a Class 4 felony under this paragraph 2, if sentenced to a term of imprisonment, shall be sentenced to not less than one year nor more than 12 years; or 3. The offense occurred during a period in which the person's privileges to operate a snowmobile are revoked or suspended, and the revocation or suspension was for a violation of this Section or was imposed under Section 5-7.1.

(e) Every person convicted of violating this Section is guilty of a Class 2 felony if the offense results in the death of a person. A person guilty of a Class 2 felony under this subsection (e), if sentenced to a term of imprisonment, shall be sentenced to a term of not less than 3 years and not more than 14 years. (e-1) Every person convicted of violating this Section or a similar provision of a local ordinance who had a child under the age of 16 on board the snowmobile at the time of offense shall be subject to a mandatory minimum fine of \$500 and shall be subject to a mandatory minimum of 5 days of community service in a program benefiting children. The assignment under this subsection shall not be subject to suspension nor shall the person be eligible for probation in order to reduce the assignment. (e-2) Every person found guilty of violating this Section, whose operation of a snowmobile while in violation of this Section proximately caused any incident resulting in an appropriate emergency response, shall be liable for the expense of an emergency response as provided in subsection

(i) of Section 11-501.01 of the Illinois Vehicle Code. (e-3) In addition to any other penalties and liabilities, a person who is found guilty of violating this Section, including any person placed on court supervision, shall be fined \$100, payable to the circuit clerk, who shall distribute the money to the law enforcement agency that made the arrest or as provided in subsection

Any moneys received by a law enforcement agency under this subsection (e-3) shall be used to purchase law enforcement equipment or to provide law enforcement training that will assist in the prevention of alcohol related criminal violence throughout the State. Law enforcement equipment shall include, but is not limited to, in-car video cameras, radar and laser speed detection devices, and alcohol breath testers.

(f) In addition to any criminal penalties imposed, the Department of Natural Resources shall suspend the snowmobile operation privileges of a person convicted or found guilty of a misdemeanor under this Section for a period of one year, except that first-time offenders are exempt from this mandatory one-year suspension.

(g) In addition to any criminal penalties imposed, the Department of Natural Resources shall suspend for a period of 5 years the snowmobile operation privileges of any person convicted or found guilty of a felony under this Section.

625 ILCS 40/5-7.1 — Implied consent

Sec. 5-7.1. Implied consent.

(a) A person who operates or is in actual physical control of a snowmobile in this State is deemed to have given consent to a chemical test or tests of blood, breath, other bodily substance, or urine for the purpose of determining the content of alcohol, other drug or drugs, intoxicating compound or compounds, or a combination of them in that person's blood or other bodily substance, if arrested for a violation of Section 5-7. The chemical test or tests shall be administered at the direction of the arresting officer. The law enforcement agency employing the officer shall designate which tests shall be

administered. Up to 2 additional tests of urine or other bodily substance may be administered even after a blood or breath test or both has been administered. (a-1) For the purposes of this Section, an Illinois law enforcement officer of this State who is investigating the person for any offense defined in Section 5-7 may travel into an adjoining state, where the person has been transported for medical care to complete an investigation and to request that the person submit to the test or tests set forth in this Section. The requirements of this Section that the person be arrested are inapplicable, but the officer shall issue the person a uniform citation for an offense as defined in Section 5-7 or a similar provision of a local ordinance prior to requesting that the person submit to the test or tests. The issuance of the uniform citation shall not constitute an arrest, but shall be for the purpose of notifying the person that he or she is subject to the provisions of this Section and of the officer's belief of the existence of probable cause to arrest. Upon returning to this State, the officer shall file the uniform citation with the circuit clerk of the county where the offense was committed and shall seek the issuance of an arrest warrant or a summons for the person. (a-2) Notwithstanding any ability to refuse under this Act to submit to these tests or any ability to revoke the implied consent to these tests, if a law enforcement officer has probable cause to believe that a snowmobile operated by or under actual physical control of a person under the influence of alcohol, other drug or drugs, intoxicating compound or compounds, or any combination of them has caused the death or personal injury to another, that person shall submit, upon the request of a law enforcement officer, to a chemical test or tests of his or her blood, breath, other bodily substance, or urine for the purpose of determining the alcohol content or the presence of any other drug or combination of both. For the purposes of this Section, a personal injury includes severe bleeding wounds, distorted extremities, and injuries that require the injured party to be carried from the scene for immediate professional attention in either a doctor's office or a medical facility.

(b) A person who is dead, unconscious, or who is otherwise in a condition rendering that person incapable of refusal, is deemed not to have withdrawn the consent provided in subsection (a), and the test or tests may be administered.

(c) A person requested to submit to a test as provided in this Section shall be verbally advised by the law enforcement officer requesting the test that a refusal to submit to the test will result in suspension of that person's privilege to operate a snowmobile for a minimum of 2 years.

(d) Following this warning, if a person under arrest refuses upon the request of a law enforcement officer to submit to a test designated by the officer, no tests may be given, but the law enforcement officer shall file with the clerk of the circuit court for the county in which the arrest was made, and with the Department of Natural Resources, a sworn statement naming the person refusing to take and complete the chemical test or tests requested under the provisions of this Section. The sworn statement shall identify the arrested person, the person's current residence address and shall specify that a refusal by that person to take the chemical test or tests was made. The sworn statement shall include a statement that the officer had reasonable cause to believe the person was operating or was in actual physical control of the snowmobile within this State while under the influence of alcohol, other drug or drugs, an intoxicating compound or compound, or a combination of them and that a chemical test or tests were requested as an incident to and following the lawful arrest for an offense as defined in Section 5-7 or a similar provision of a local ordinance, and that the person, after being arrested for an offense arising out of acts alleged to have been committed while operating a snowmobile, refused to submit to and complete a chemical test or tests as requested by the law enforcement officer.

(e) The law enforcement officer submitting the sworn statement shall serve immediate written notice upon the person refusing the chemical test or tests that the person's privilege to operate a snowmobile within this State will be suspended for a period of 2 years unless, within 28 days from the date of the notice, the person requests in writing a hearing on the suspension. If the person desires a hearing, the person shall file a complaint in the circuit court in the county where that person was arrested within 28 days from the date of the notice. The hearing shall proceed in the court in the same manner as other civil proceedings. The hearing shall cover only the following issues:

(1) whether the person was placed under arrest for an offense as defined in Section 5-7 or a similar provision of a local ordinance as evidenced by the issuance of a uniform citation;

(2) whether the arresting officer had reasonable grounds to believe that the person was operating a snowmobile while under the influence of alcohol, other drug or drugs, an intoxicating compound or compounds, or a combination of them; and

(3) whether that person refused to submit to and complete the chemical test or tests upon the request of the law enforcement officer. Whether the person was informed that the person's privilege to operate a snowmobile would be suspended if that person refused to submit to the chemical test or tests may not be an issue in the hearing. If the person fails to request a hearing in writing within 28 days of the date of the notice, or if a hearing is held and the court finds

against the person on the issues before the court, the clerk shall immediately notify the Department of Natural Resources, and the Department shall suspend the snowmobile operation privileges of that person for at least 2 years.

(f) (Blank). (f-1) If the person is a CDL holder and submits to a test that discloses an alcohol concentration of 0.08 or more, or any amount of a drug, substance, or intoxicating compound in the person's breath, blood, other bodily substance, or urine resulting from the unlawful use of cannabis listed in the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, methamphetamine as listed in the Methamphetamine Control and Community Protection Act, or an intoxicating compound listed in the Use of Intoxicating Compounds Act, the law enforcement officer shall immediately submit a sworn report to the circuit clerk of venue and the Department of Natural Resources, certifying that the test or tests was or were requested under subsection (a-1) of this Section and the person submitted to testing that disclosed an alcohol concentration of 0.08 or more, or any amount of a drug, substance, or intoxicating compound in the person's breath, blood, other bodily substance, or urine resulting from the unlawful use or consumption of cannabis listed in the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, methamphetamine as listed in the Methamphetamine Control and Community Protection Act, or an intoxicating compound listed in the Use of Intoxicating Compounds Act. (a) of Section 11-501.2 of the Illinois Vehicle Code, or any amount of a drug, substance, or intoxicating compound in such person's blood, other bodily substance, or urine, resulting from the unlawful use or consumption of a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act. In cases involving a person who is a CDL holder where the blood alcohol concentration of 0.08 or greater or any amount of drug, substance, or compound resulting from the unlawful use of cannabis, a controlled substance, methamphetamine, or an intoxicating compound is established by a subsequent analysis of blood, other bodily substance, or urine collected at the time of arrest, the arresting officer or arresting agency shall immediately submit a sworn report to the circuit clerk of venue and the Department of Natural Resources upon receipt of the test results. In cases involving a person who is not a CDL holder where the blood alcohol concentration of 0.08 or greater, a tetrahydrocannabinol concentration in the person's whole blood or other bodily substance as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of the Illinois Vehicle Code, or any amount of drug, substance, or compound resulting from the unlawful use of a controlled substance, methamphetamine, or an intoxicating compound is established by a subsequent analysis of blood, other bodily substance, or urine collected at the time of arrest, the arresting officer or arresting agency shall immediately submit a sworn report to the circuit clerk of venue and the Department of Natural Resources upon receipt of the test results.

(g) A person must submit to each chemical test offered by the law enforcement officer in order to comply with implied consent provisions of this Section.

(h) The provision of Section 11-501.2 of the Illinois Vehicle Code concerning the certification and use of chemical tests applies to the use of those tests under this Section.

625 ILCS 40/5-7.2 — Chemical and other tests

Sec. 5-7.2. Chemical and other tests.

(a) Upon the trial of a civil or criminal action or proceeding arising out of acts alleged to have been committed while under the influence of alcohol, other drug or drugs, intoxicating compound or compounds, or a combination of them, the concentration of alcohol, drug, or compound in the person's blood, other bodily substance, or breath at the time alleged as shown by analysis of the person's blood, urine, breath, or other bodily substance gives rise to the presumptions specified

in subdivisions 1, 2, and 3 of subsection

(b) and subsection (b-5) of Section 11-501.2 of the Illinois Vehicle Code.

(b) The provisions of subsection

(a) shall not be construed as limiting the introduction of any other relevant evidence bearing upon the question whether the person was under the influence of alcohol, other drug or drugs, intoxicating compound or compounds, or a combination of them.

(c) If a person under arrest refuses to submit to a chemical test under the provisions of Section 5-7.1, evidence of refusal is admissible in a civil or criminal action or proceeding arising out of acts alleged to have been committed while the person under the influence of alcohol, other drug or drugs, an intoxicating compound or compounds, or a combination of them was operating a snowmobile.

625 ILCS 40/5-7.3 — Supervision of operator; notification; 6 hour operating limitation

(a) Notwithstanding any other provision of law, the results of blood, other bodily substance, or urine tests performed for the purpose of determining the content of alcohol, other drug or drugs, intoxicating compound or compounds, or any combination of them in an individual's blood, other bodily substance, or urine conducted upon persons receiving medical treatment in a hospital emergency room, are admissible in evidence as a business record exception to the hearsay rule only in prosecutions for a violation of Section 5-7 of this Act or a similar provision of a local ordinance or in prosecutions for reckless homicide brought under the Criminal Code of 1961 or the Criminal Code of 2012. The results of the tests are admissible only when each of the following criteria are met: 1. the chemical tests performed upon an individual's blood, other bodily substance, or urine were ordered in the regular course of providing emergency treatment and not at the request of law enforcement authorities; and 2. the chemical tests performed upon an individual's blood, other bodily substance, or urine were performed by the laboratory routinely used by the hospital. Results of chemical tests performed upon an individual's blood, other bodily substance, or urine are admissible into evidence regardless of the time that the records were prepared.

(a) of this Section. No person shall be liable for civil damages as a result of the evidentiary use of the results of chemical testing of the individual's blood, other bodily substance, or urine under this Section or as a result of that person's testimony made available under this Section.

Sec. 5-7.5. Preliminary breath screening test. If a law enforcement officer has reasonable suspicion to believe that a person is violating or has violated Section 5-7 or a similar provision of a local ordinance, the officer, before an arrest, may request the person to provide a sample of his or her breath for a preliminary breath screening test using a portable device approved by the Department of State Police. The results of this preliminary breath screening test may be used by the law enforcement officer for the purpose of assisting with the determination of whether to require a chemical test, as authorized

under Sections 5-7.1 and 5-7.2 and the appropriate type of test to request. Any chemical test authorized under Sections 5-7.1 and 5-7.2 may be requested by the officer regardless of the result of the preliminary breath screening test if probable cause for an arrest exists. The result of a preliminary breath screening test may be used by the defendant as evidence in an administrative or court proceeding involving a violation of Section 5-7.

The blood, other bodily substance, or urine tests are admissible in evidence as a business record exception to the hearsay rule only in prosecutions for violations of Section 5-7 of this Code or a similar provision of a local ordinance, or in prosecutions for reckless homicide brought under the Criminal Code of 1961 or the Criminal Code of 2012.

(b) The confidentiality provisions of the law pertaining to medical records and medical treatment shall not be applicable with regard to tests performed upon an individual's blood, other bodily substance, or urine under the provisions of subsection

(a) of this Section. No person shall be liable for civil damages or professional discipline as a result of disclosure or reporting of the tests or the evidentiary use of an individual's blood, other bodily substance, or urine test results under this Section or Section 5-7.4 or as a result of that person's testimony made available under this Section or Section 5-7.4, except for willful or wanton misconduct.

Sec. 3A-14. Transfer to or from dealer - Records.

(a) If a dealer buys a watercraft and holds it for resale and procures the certificate of title from the owner or the lienholder within 10 days after delivery to him of the watercraft he need not send the certificate to the Department of Natural Resources but, upon transferring the watercraft to another person other than by the creation of a security interest, shall promptly and within 15 days execute the assignment and warranty of title by a dealer, showing the names and addresses of the transferee and of any lienholder holding a security interest created or reserved at the time of the resale and the date of his security agreement, in the spaces provided therefor on the certificate or as the Department of Natural Resources prescribes, and mail or deliver the certificate to the Department with the transferee's application for a new certificate.

(b) Every dealer shall maintain for 3 years a record in the form the Department of Natural Resources prescribes of every watercraft bought, sold or exchanged by him, or received by him for sale or exchange, which shall be open to inspection by a representative of the Department of Natural Resources or peace officer during reasonable business hours.

(c) The Department of Natural Resources may decline to process any application for a transfer of an interest in a watercraft if any fees or taxes due under this Act from the transferor or the transferee have not been paid upon reasonable notice and demand.

625 ILCS 45/3A-15 — Transfer by operation of law

Sec. 3A-15. Transfer by operation of law.

It shall be unlawful for any person having possession of a certificate of title for a watercraft by reason of his or her having a lien or encumbrance on such watercraft, to fail or refuse to deliver such certificate to the owner, upon the satisfaction or discharge of the lien or encumbrance, indicated upon such certificate of title.

(b) If the interest of an owner in a watercraft passes to another under the provisions of the Small Estates provisions of the Probate Act of 1975, as amended, the transferee shall promptly mail or deliver to the Department of Natural Resources, within 120 days, the last certificate of title, if available, the documentation required under the provisions of the Probate Act of 1975, as amended, and an application for certificate of title. The transfer may be to the transferee or to the nominee of the transferee.

(c) If the interest of an owner in a watercraft passes to another under other provisions of the Probate Act of 1975, as amended, and the transfer is made by an executor, administrator, or guardian for a person with a disability, such transferee shall promptly mail or deliver to the Department of Natural Resources, the last certificate of title, if available, and a certified copy of the letters testamentary, letters of administration or letters of guardianship, as the case may be, and an application for certificate of title. In all cases wherein a lienholder has found it necessary to repossess a watercraft and desires to obtain certificate of title for such watercraft in the name of such lienholder, the Department of Natural Resources shall not issue a certificate of title to such lienholder unless the person from whom such watercraft has been repossessed, is shown to be the last registered owner of such watercraft and such lienholder establishes to the satisfaction of the Department that he or she is entitled to such certificate of title.

(f) A person holding a certificate of title whose interest in the watercraft has been extinguished or transferred other than by voluntary transfer shall mail or deliver the certificate within 15 days upon request of the Department of Natural Resources. The delivery of the certificate pursuant to the request of the Department of Natural Resources does not affect the rights of the person surrendering the certificate, and the action of the Department in issuing a new certificate of title as provided herein is not conclusive upon the rights of an owner or lienholder named in the old certificate.

(g) The Department of Natural Resources may decline to process any application for a transfer of an interest hereunder if any fees or taxes due under this Act from the transferor or the transferee have not been paid upon reasonable notice and demand.

(h) The Department of Natural Resources shall not be held civilly or criminally liable to any person because any purported transferor may not have had the power or authority to make a transfer of any interest in any watercraft.

It is perfected as of the time of its creation if the delivery is completed within 21 days thereafter, otherwise as of the time of the delivery.
- (c) If a watercraft is subject to a security interest when brought into this State, the validity of the security interest is determined by the law of the jurisdiction where the watercraft was when the security interest attached, subject to the following: 1. If the parties understood at the time the security interest attached that the watercraft would be kept in this

State and it was brought into this State within 30 days thereafter for purposes other than transportation through this State, the validity of the security interest in this State is determined by the law of this State. 2. If the security interest was perfected under the law of the jurisdiction where the watercraft was when the security interest attached, the following rules apply: (A) If the name of the lienholder is shown on an existing certificate of title issued by that jurisdiction, his security interest continues perfected in this State. (B) If the name of the lienholder is not shown on an existing certificate of title issued by that jurisdiction, a security interest may be perfected by the lienholder delivering to the Department of Natural Resources the prescribed notice and by payment of the required fee. The delivery of the certificate does not affect the rights of the first lienholder under his security agreement.
- (d) Upon receipt of the certificate of title, application and the required fee, the Department of Natural Resources shall either endorse on the certificate or issue a new certificate containing the name and address of the new lienholder, and mail the certificate to the first lienholder named in it.

- (a) A lienholder may assign, absolutely or otherwise, his security interest in the watercraft to a person other than the owner without affecting the interest of the owner or the validity of the security interest, but any person without notice of the assignment is protected in dealing with the lienholder as the holder of the security interest and the lienholder remains liable for any obligations as lienholder until the assignee is named as lienholder on the certificate.
- (b) The assignee may, but need not to perfect the assignment, have the certificate of title endorsed or issued with the assignee named as lienholder, upon delivering to the Department of Natural Resources the certificate and an assignment by the lienholder named in the certificate in the form the Department prescribes.

625 ILCS 45/3B-5 — Release of security interest

Sec. 3B-5. Release of security interest.

- (a) Upon the satisfaction of a security interest in a watercraft for which the certificate of title is in the possession of the lienholder, he shall, within 10 days after demand and, in any event, within 30 days, execute a release of his security interest, and mail or deliver the certificate and release to the next lienholder named therein, or, if none, to the owner or any person who delivers to the lienholder an authorization from the owner to receive the certificate. The owner, other than a dealer holding the watercraft for resale, shall promptly cause the certificate and release to be mailed or delivered to the Department of Natural Resources, which shall release the lienholder's rights on the certificate or issue a new certificate.
- (b) Upon the satisfaction of a security interest in a watercraft for which the certificate of title is in the possession of a prior lienholder, the lienholder whose security interest is satisfied shall within 10 days after demand and, in any event, within 30

days execute a release and deliver the release to the owner or any person who delivers to the lienholder an authorization from the owner to receive it. The lienholder in possession of the certificate of title shall either deliver the certificate to the owner, or the person authorized by him, for delivery to the Department of Natural Resources, or, upon receipt of the release, mail or deliver the certificate and release to the Department, which shall release the subordinate lienholder's rights on the certificate or issue a new certificate.

The certificate of title was fraudulently procured or erroneously issued, or 2. The watercraft has been scrapped, dismantled or destroyed.
- (b) Suspension or revocation of a certificate of title does not, in itself, affect the validity of a security interest noted on it.
- (c) When the Department of Natural Resources suspends or revokes a certificate of title, the owner or person in possession of it shall, immediately upon receiving notice of the suspension or revocation, mail or deliver the certificate to the Department.
- (d) The Department of Natural Resources may seize and impound any certificate of title which has been suspended or revoked.

Sec. 3C-2. Notification to law enforcement agencies. When an abandoned, lost, stolen or unclaimed watercraft comes into the temporary possession or custody of a person in this State, not the owner of the watercraft, such person shall immediately notify the municipal police when the watercraft is within the corporate limits of any city, village or town having a duly authorized police department, or the Illinois State Police, Conservation Police or the county sheriff when the watercraft is outside the corporate limits of a city, village or town. Upon receipt of such notification, the municipal police, State Police, Conservation Police, or county sheriff will authorize a towing service to remove and take possession of the abandoned, lost, stolen or unclaimed watercraft. The towing service will safely keep the towed watercraft and its contents, and maintain a record of the tow as set forth in Section 3C-4 for law enforcement agencies, until the watercraft is claimed by the owner or any other person legally entitled to possession thereof or until it is disposed of as provided in this Article.

625 ILCS 45/3C-3 — Removal of watercraft

(a) When a watercraft is abandoned on any waters of this State for 24 hours or more, its removal by a towing service may be authorized by a law enforcement agency having jurisdiction.

(b) When an abandoned, unattended, wrecked, burned or partially dismantled watercraft is creating a traffic or navigational hazard because of its position in relation to the waterway or because its physical appearance is impeding traffic or navigation, its immediate removal from the waterway by a towing service may be authorized by a law enforcement agency having jurisdiction.

(c) When a watercraft removal from either public or private property is authorized by a law enforcement agency, the owner of the watercraft will be responsible for all towing costs. Watercraft removed from public or private property and stored by a commercial relocater or any other towing service shall be subject to a possessory lien for services pursuant to "An Act concerning liens for labor, services, skills or materials furnished upon or storage furnished for chattels", filed July 24, 1941, as amended, and the provisions of Section 1 of that Act relating to notice and implied consent shall be deemed satisfied. In no event shall such lien be greater than the rates established by that Act. In no event shall such lien be increased or altered to reflect any charge for services or materials rendered in addition to those authorized by this Article. Every such lien shall be payable in cash.

625 ILCS 45/3C-4 — Police tows; reports; release of watercraft; payment

Sec. 3C-4. Police tows; reports; release of watercraft; payment.

(a) When a watercraft is authorized to be towed away as provided in Section 3C-2 or 3C-3, the authorization, any hold order, and any release shall be in writing, or confirmed in writing, with a copy given to the towing service.

(b) When a watercraft is authorized to be towed away as provided in Section 3C-2, the police headquarters or office of the law enforcement officer authorizing the towing shall keep and maintain a record of the watercraft towed, listing the color, manufacturer's trade name, manufacturer's series name, hull type, hull material, hull identification number, and registration number displayed on the watercraft. The record shall also include the date and hour of tow, location towed from, location towed to, and reason for towing and the name of the officer authorizing the tow.

(c) The owner, operator, or other legally entitled person shall be responsible to the towing service for the payment of applicable removal, towing, storage, and processing charges and collection costs associated with a watercraft towed or held under order or authorization of a law enforcement agency. If a watercraft towed or held under order or authorization of a law enforcement agency is seized by the ordering or authorizing agency or any other law enforcement or governmental agency and sold, any unpaid removal, towing, storage, and processing charges and collection costs shall be paid to the towing service from the proceeds of the sale. If the applicable law provides that the proceeds are to be paid into the treasury of the appropriate civil jurisdiction, then any unpaid removal, towing, storage, and processing charges and collection costs shall be paid to the towing service from the treasury of the civil jurisdiction. Such payment shall not exceed the amount of proceeds from the sale, with the balance to be paid by the owner, operator, or other legally entitled person.

(d) Upon the delivery of a written release order to the towing service, a watercraft subject to a hold order shall be released to the owner, operator, or other legally entitled person upon proof of ownership or other entitlement and upon payment of applicable removal, towing, storage, and processing charges and collection costs.

625 ILCS 45/3C-5 — Record searches

Sec. 3C-5. Record searches. When a law enforcement agency authorizing the impounding of a watercraft does not know the identity of the registered owner, lienholder or other legally entitled person, that law enforcement agency will cause the watercraft registration records of the State of Illinois to be searched by the Department of Natural Resources for the purpose of obtaining the required ownership information. The law enforcement agency authorizing the impounding of a watercraft will cause the stolen watercraft files of the Illinois State Police to be searched by a directed communication to the Illinois State Police for stolen or wanted information on the watercraft. When the Illinois State Police files are searched with negative results, the information contained in the National Crime Information Center (NCIC) files will be searched by the Illinois State Police. The information determined from these record searches will be returned to the requesting law enforcement agency for that agency's use in sending a notification by certified mail to the registered owner, lienholder and other legally entitled persons advising where the watercraft is held, requesting that a disposition be made and setting forth public sale information. Notification shall be sent no later than 10 days after the date the law enforcement agency impounds or authorizes the impounding of a watercraft, provided that if the law enforcement agency is unable to determine the identity of the registered owner, lienholder or other person legally entitled to ownership of the impounded watercraft within a 10 day period after impoundment, then notification shall be sent no later than 2 days after the date the identity of the registered owner, lienholder or other person legally entitled to ownership of the impounded watercraft is determined. Exceptions to a notification by certified mail to the registered owner, lienholder and other legally entitled persons are set forth in Section 3C-9.

625 ILCS 45/3C-6 — Identifying and tracing of watercraft ownership by the Department of Natural Resources

Sec. 3C-6. Identifying and tracing of watercraft ownership by the Department of Natural Resources. When the registered owner, lienholder or other person legally entitled to the possession of a watercraft cannot be identified from the registration files of this State or from the registration files of a foreign state, if applicable, the law enforcement agency having custody of the watercraft shall notify the Department of Natural Resources, for the purpose of identifying the watercraft owner or other person legally entitled to the possession of the watercraft. The information obtained by the Department of Natural Resources will be immediately forwarded to the law enforcement agency having custody of the watercraft for notification purposes as set forth in Section 3C-5.

625 ILCS 45/3C-7 — Reclaimed watercraft

Sec. 3C-7. Reclaimed watercraft. Any time before a watercraft is sold at public sale or disposed of as provided in Section 3C-8, the owner, lienholder or other person legally entitled to its possession may reclaim the watercraft by presenting to the law enforcement agency having custody of the watercraft proof of ownership or proof of the right to possession of the watercraft. No watercraft shall be released to the owner, lienholder or other person under this Section until all towing and storage charges have been paid.

625 ILCS 45/3C-8 — Disposal of unclaimed watercraft

Sec. 3C-8. Disposal of unclaimed watercraft.

(a) In cities having a population of more than 500,000 inhabitants, whenever an abandoned, lost, stolen or unclaimed watercraft or other watercraft remains unclaimed by the registered owner, lienholder or other legally entitled person for a period of 15 days after notice has been given as provided in Sections 3C-5 and 3C-6, the watercraft may be disposed of as provided in the "Municipal purchasing act for cities of 500,000 or more population".

(b) Except as provided in subsection (a), when an abandoned, lost, stolen or unclaimed watercraft 7 years of age or newer remains unclaimed by the registered owner, lienholder or other person legally entitled to its possession for a period of 30 days after notice has been given as provided in Sections 3C-5 and 3C-6, the law enforcement agency or towing service having possession of the watercraft shall cause it to be sold at public sale to the highest bidder. Notice of the time and place of the sale shall be posted in a conspicuous place for at least 10 days prior to the sale, on the premises where the watercraft has been impounded. At least 10 days prior to the sale, the law enforcement agency where the watercraft is impounded, or the towing service where the watercraft is impounded, shall cause a notice of the time and place of the sale to be sent by certified mail to the registered owner, lienholder and other persons known by the law enforcement agency or towing service to be legally entitled to the possession of the watercraft. Such notice shall contain a complete description of the watercraft to be sold and what steps must be taken by any legally entitled person to reclaim the

watercraft. In those instances where the certified notification specified in Sections 3C-5 and 3C-6 has been returned by the postal authorities to the law enforcement agency or towing service due to the addressee having moved, or being unknown at the address obtained from the registration records of this State, the sending of a second certified notice will not be required.

625 ILCS 45/3C-9 — Disposal of unclaimed watercraft without notice

Sec. 3C-9. Disposal of unclaimed watercraft without notice.

(a) When the identity of the registered owner, lienholder and other person legally entitled to the possession of an abandoned, lost or unclaimed watercraft of 7 years of age or newer cannot be determined by any means provided for in this Article, the watercraft may be sold as provided in Section 3C-8 without notice to any person whose identity cannot be determined.

(b) When an abandoned watercraft of more than 7 years of age is impounded as specified by this Article, it will be kept in custody for a minimum of 10 days for the purpose of determining the identity of the registered owner and lienholder, contacting the registered owner and lienholder for a determination of disposition, and an examination of the Illinois State Police stolen watercraft files for the theft and wanted information. At the expiration of the 10 day period, if disposition information has not been received from the registered owner or the lienholder, the law enforcement agency having jurisdiction will authorize the disposal of the watercraft as junk. However, if, in the opinion of the police officer processing the watercraft, it has a value of \$200 or more and can be restored to safe operating condition, the law enforcement agency may authorize its purchase for salvage and the Department of Natural Resources may issue a certificate of title. A watercraft classified as a historical watercraft may be sold to a person desiring to restore it.

625 ILCS 45/3C-10 — Police reports

Sec. 3C-10. Police reports. When a watercraft in the custody of a law enforcement agency is reclaimed by the registered owner, lienholder or other legally entitled person, or when the watercraft is sold at public sale or otherwise disposed of as provided in this Article, a report of the transaction will be maintained by the law enforcement agency for a period of one year from the date of the sale or disposal.

625 ILCS 45/3C-11 — Disposition of proceeds

Sec. 3C-11. Disposition of proceeds.

(a) When a watercraft located within the corporate limits of a city, village or town is towed away by a law enforcement agency having jurisdiction and disposed of as set forth in this Article, the proceeds of the public sale or disposition, after the deduction of towing, storage and processing charges, shall be deposited in the treasury of such city, village or town.

(b) When a watercraft located outside the corporate limits of any city, village or town is towed away by a law enforcement agency having jurisdiction and disposed of as set forth in this Article, the proceeds of the public sale or disposition, after deducting towing, storage and processing costs, shall be deposited in the county treasury of the county where the watercraft was located at the time of the tow.

625 ILCS 45/3C-12 — Titling watercraft

Sec. 3C-12. Titling watercraft. When an applicant for a certificate of title presents to the Department of Natural Resources proof that he has purchased or acquired a watercraft at a public sale as authorized by this Article and such fact is certified by the law enforcement agency having jurisdiction over the public sale of the watercraft, the Department shall issue a certificate of title for the watercraft upon receipt of the statutory fee and a properly executed application for a certificate of title. The title issued by the Department under this Section shall be free of any lien that existed against the watercraft prior to the time the watercraft was acquired by the applicant under this Article.

625 ILCS 45/3C-13 — Liability

Sec. 3C-13. Liability. A law enforcement officer or agency, towing service owner, operator or employee shall not be held liable for damages in any action brought by the registered owner, former registered owner or his legal representative, lienholder or any other person legally entitled to the possession of a watercraft when the watercraft was processed and sold or disposed of as provided by this Article.

625 ILCS 45/3C-14 — Violations

Sec. 3C-14. Violations. Any person who violates or aids and abets in the violation of Section 3C-1 of this Act is guilty of a petty offense, and may be required by the court to make a disposition on the abandoned or unclaimed watercraft.

625 ILCS 45/4-1 — Personal flotation devices

Sec. 4-1. Personal flotation devices. A. No person may operate a watercraft unless at least one wearable U.S. Coast Guard approved personal flotation device for each person is on board, so placed as to be readily available for each person. B. No person may operate a personal watercraft or specialty prop-craft unless each person aboard is wearing a wearable U.S. Coast Guard approved personal flotation device. No person on board a personal watercraft shall use an inflatable PFD in order to meet the PFD requirements of subsection A of this Section. C. No person may operate a watercraft 16 feet or more in length, except a canoe or kayak, unless at least one readily accessible United States Coast Guard approved throwable PFD is on board. D. (Blank). E. When assisting a person on water skis, aquaplane or similar device, there must be one wearable U.S. Coast Guard approved PFD on board the watercraft for each person being assisted or towed or worn by the person being assisted or towed. F. No person may operate a watercraft unless each device required by this Section is: 1. in serviceable condition; 2. identified by a label bearing a description and approval number demonstrating that the device has been approved by the United States Coast Guard; 3. of the appropriate size for the person for whom it is intended; 4. in the case of a wearable PFD, readily accessible aboard the watercraft; 5. in the case of a throwable PFD, immediately available for use; 6. out of its original packaging; and 7. not stowed under lock and key. G. Approved personal flotation devices are defined as a device that is approved by the United States Coast Guard under Title 46 CFR Part 160. H. (Blank). H-5. An approved and appropriately sized wearable U.S. Coast Guard approved personal flotation device shall be worn by each person under the age of 13 while in tow. I. No person may operate any watercraft unless an approved and appropriately sized wearable U.S. Coast Guard approved personal flotation device is being properly worn by each person under the age of 13 on the deck of a watercraft or in an open watercraft at all times in which the watercraft is underway; however, this requirement shall not apply to persons who are enclosed in a cabin or below the top deck on a watercraft, on an anchored watercraft that is a platform for swimming or diving, or aboard a charter "passenger for hire" watercraft with a licensed captain. J. Racing shells, rowing sculls, racing canoes, and racing kayaks are exempt from the PFD, of any type, carriage requirements under this Section provided that the racing shell, racing scull, racing canoe, or racing kayak is participating in an event sanctioned by the Department as a PFD optional event. The Department may adopt rules to implement this subsection.

625 ILCS 45/4-2 — Navigation lights

Sec. 4-2. Navigation lights. A. Watercraft subject to this Section shall be divided into classes as follows: 1. Class 1: Less than 16 feet in length. 2. Class 2: 16 feet or over and less than 26 feet in length. 3. Class 3: 26 feet or over and less than 40 feet in length. 4. Class 4: 40 feet or over and less than 65 feet in length. B. Every motorboat, underway from sunset to sunrise or underway in weather causing reduced visibility, shall carry and exhibit the following United States Coast Guard approved lights when underway and, during such time, shall not use any other lights that may be mistaken for or interfere with those prescribed as follows: 1. A Class 1 or Class 2 motorboat shall carry the following lights:

(a) A bright white light aft to show all around the horizon; and

(b) A combined light in the fore part of the watercraft and lower than the white light aft, showing green to starboard and red to port, so fixed as to throw the light from right ahead to 2 points (22.5 degrees) abaft the beam on their respective sides. 2. A Class 3 or Class 4 motorboat shall carry the following lights:

(a) A bright white light in the fore part of the watercraft as near the stern as practicable, so constructed as to show the unbroken light over an arc of the horizon of 20 points (225 degrees) of the compass, so fixed as to throw the light 10 points (112.5 degrees) on each side of the watercraft, namely, from right ahead to 2 points (22.5 degrees) abaft the beam on either side;

(b) A bright white light aft, mounted higher than the white light forward, to show all around the horizon; and

(c) On the starboard side, a green light so constructed as to show an unbroken light over an arc of the horizon of 10 points (112.5 degrees) of the compass, so fixed as to throw the light from right ahead to 2 points (22.5 degrees) abaft the beam on the starboard side. On the port side, a red light so constructed as to show an unbroken light over an arc of the horizon of 10 points (112.5 degrees) of the compass, so fixed as to throw the light from right ahead to 2 points (22.5 degrees) abaft the beam on the port side. The side lights shall be fitted with inboard screens so set as to prevent these lights from being seen across the bow. 3. A Class 1 or Class 2 motorboat propelled by sail alone shall exhibit the combined light prescribed by paragraph

(1) and a 12-point (135 degrees) white light aft. A Class 3 or Class 4 motorboat, when so propelled, shall exhibit the colored side lights, suitably screened as prescribed by paragraph

(2) and a 12-point (135 degrees) white light aft. 4. Every white light prescribed by this Section shall be of such character as to be visible at a distance of at least 2 miles. Every colored light prescribed by this Section shall be of such character as to be visible at a distance of at least one mile. As used in this subsection "visible", when applied to lights, means visible on a dark night with clear atmosphere. 5. If propelled by sail and machinery, a motorboat shall carry the lights required by this Section for a motorboat propelled by machinery only. 6. All other watercraft over 65 feet in length and those propelled solely by wind effect on the sail shall display lights prescribed by federal regulations. C. Nonpowered watercraft shall carry, ready at hand, a lantern or flashlight showing a white light that shall be exhibited in sufficient time to avert collision. Manually propelled watercraft used on the waters of this State where power-driven vessels are prohibited are exempt from the provisions of this Section. D. Any watercraft may carry and exhibit the lights required by the international regulations in lieu of the lights required by subsection B of this Section. E. All watercraft, when anchored, other than in a special anchorage area as defined in 33 CFR 109.10, shall, from sunset to sunrise, carry and display a steady white light visible all around the horizon for a distance of no less than 2 miles. F. The lights prescribed in this Section shall at minimum have an intensity so as to be visible at the minimum ranges as set forth in 33 CFR 83.22. G. (Blank).

625 ILCS 45/4-3 — Mufflers

Sec. 4-3. Mufflers. A. All motorboats shall be equipped and maintained with an effective muffler or underwater exhaust system. For the purpose of this Section, an effective muffler or underwater exhaust system is one that does not produce sound levels that create excessive or unusual noise, or sound levels that are in excess of 90 decibels when subjected to a stationary sound level test as prescribed by the Society of Automotive Engineers in its procedure J2005. B. No person may operate a motorboat on the waters of this State in a manner to exceed a noise level of 75 decibels measured as specified in the Society of Automotive Engineers in its procedure J1970 from any point on the shoreline, or from any point on the water within 20 feet of the shoreline, of the body of water on which the motorboat is being operated. C. No person may manufacture or offer for sale any motorboat for use on the waters of this State if that motorboat cannot be operated in compliance with the sound levels in subsections A and B above. D. The provisions of this Section shall apply to all public waters over which the State has jurisdiction. E. This Section does not apply to:

(1) a motorboat tuning up for or participating in official trials for a sanctioned race or regatta conducted as authorized by the appropriate unit of government, or

(2) a motorboat being operated by a boat or marine engine manufacturer for the purpose of testing or development as authorized by the appropriate unit of government. F. Any person violating subsection A or B of this Section shall be required to:

(1) install an effective muffler system on the motorboat in violation;

(2) pass the sound level test prescribed by the Society of Automotive Engineers in its procedure J2005 before putting the motorboat back into use; and

(3) be subject to a Class B misdemeanor for the first offense and a Class A misdemeanor for any subsequent offense occurring within 3 years of the date of the most recent offense. G. Any person violating subsection C of this Section shall be required to:

(1) install an effective muffler system on the motorboat in violation;

(2) pass the sound level test prescribed by the Society of Automotive Engineers in its procedure J2005 before putting the motorboat back into use; and

(3) be subject to a Class A misdemeanor for the first offense and a Class 4 felony for any subsequent offense. H. Any person who operates any motorboat upon the waters of this State shall be deemed to have given consent to the test or tests as may be prescribed in this Section or by the Department to determine if the motorboat is in compliance with the provisions of this Section.

625 ILCS 45/4-4 — Whistles

Sec. 4-4. Whistles. It is unlawful to operate a motorboat without a mouth, hand or power operated whistle, horn or other appliance, capable of producing a blast of 2 seconds or more duration and having an audible distance as set forth in 33 CFR 86.01.

625 ILCS 45/4-5 — Fire extinguisher

Sec. 4-5. Fire extinguisher. It is unlawful to operate a motorboat equipped with an internal combustion engine anywhere in this State without at least one U. S. Coast Guard approved fire extinguisher, so placed as to be readily accessible and in such condition as to be ready for immediate and effective use.

625 ILCS 45/4-6 — Carburetor arrestors

Sec. 4-6. Carburetor arrestors. Carburetors on all engines of motorboats other than those propelled by a detachable outboard motor shall be fitted with or protected by a U. S. Coast Guard approved device for arresting backfire.

625 ILCS 45/4-7 — Ventilators

Sec. 4-7. Ventilators. Except for open boats, all motorboats which use fuel having a flashpoint of 110 degrees Fahrenheit or less shall have at least 2 ventilator ducts, fitted with cowls or their equivalent, for the efficient removal of explosive or flammable gases from the bilges of every engine and fuel tank compartment. There shall be at least one exhaust duct installed so as to extend from the open atmosphere to the lower portion of the bilge and at least one intake duct installed so as to extend to a point at least midway to the bilge or at least below the level of the carburetor air intake. The cowls shall be located and trimmed for maximum effectiveness and in such a manner so as to prevent displaced fumes from being recirculated.

625 ILCS 45/4-8 — Sirens and flashing lights

Sec. 4-8. Sirens and flashing lights.

(a) Except as provided in this Section, it shall be unlawful for any person to use a watercraft equipped with a siren or any red or blue oscillating, rotating, or flashing light. The use of a siren or light in violation of this Section shall constitute a public nuisance subject to confiscation and disposal as determined by a court of competent jurisdiction.

(b) Any authorized emergency watercraft described in subsection

(c) or

(d) may be equipped with a siren, but the siren shall not be used except when the watercraft is operating in response to an emergency call or in the immediate pursuit of an actual or suspected violator of the law.

(c) The use of blue oscillating, rotating, or flashing lights, whether lighted or unlighted, is prohibited except on law enforcement watercraft of State, federal, or local authorities.

(d) The use of red oscillating, rotating, or flashing lights, whether lighted or unlighted, is prohibited except on fire, rescue, or other emergency watercraft as authorized by State, federal, or local authorities having jurisdiction, provided the watercraft are clearly identifiable as such; the lights shall not be lighted except when responding to an emergency call or while actually engaged in a hazardous situation.

(e) The use of any other color of oscillating, rotating, or flashing lights, whether lighted or unlighted, is prohibited except as authorized by the Department.

625 ILCS 45/4-9 — Sealing of marine heads

Sec. 4-9. Sealing of marine heads. No marine head (toilet) on any watercraft used upon waters of this State may be so constructed and operated as to permit the discharge of any sewage into the waters directly or indirectly.

625 ILCS 45/4-10 — Battery Covers

Sec. 4-10. Battery Covers. Every motorboat equipped with storage batteries shall be provided with suitable supports and secured against shifting with the motion of the boat. Such storage batteries shall be equipped with non-conductive shielding means to prevent accidental shorting of battery terminals.

625 ILCS 45/4-11 — Engine cut-off switch

Sec. 4-11. Engine cut-off switch.

(a) As used in this Section: "Engine cut-off switch" means an emergency switch installed on a motorboat that:

(1) is designed to shut off the engine if: (A) the motorboat operator using a lanyard attachment activates the switch by falling overboard or otherwise moving beyond the length of the lanyard; or (B) the motorboat operator or a passenger using a wireless attachment activates the switch by falling overboard and submerging a man-overboard transmitter; and

(2) attaches: (A) physically to the motorboat operator through the use of a lanyard worn by the operator; or (B) wirelessly through the use of a water-activated man-overboard transmitter worn by the motorboat operator or any similarly equipped passenger on the motorboat.

(b) A motorboat operator may not operate a motorboat less than 26 feet in length that is equipped by the manufacturer with an engine cutoff switch and such switch is not in use while the motorboat is operating on plane or above displacement speed. No person may operate a watercraft without first verifying that the engine cut-off switch is operational and fully functional and properly attaching the lanyard or wireless attachment, as appropriate for the specific motorboat, to the operator's body or to the clothing or personal flotation device being worn by the operator.

(c) The requirement under paragraph

(1) of subsection

(a) shall not apply if: (A) the main helm of the covered vessel is installed within an enclosed cabin; or (B) the vessel does not have an engine cut-off switch.

625 ILCS 45/4-12 — Visual distress signals

Sec. 4-12. Visual distress signals. It is unlawful to operate any watercraft on the waters of Lake Michigan without having onboard visual distress signals as required and approved by the U.S. Coast Guard, so placed as to be readily accessible and in such condition as to be ready for immediate and effective use.

625 ILCS 45/5-1 — Careless operation

Sec. 5-1. Careless operation. No person shall operate any watercraft in a careless or heedless manner so as to endanger any person or property or at a rate of speed greater than will permit him in the exercise of reasonable care to bring the watercraft to a stop within the assured clear distance ahead.

625 ILCS 45/5-2 — Reckless operation

Sec. 5-2. Reckless operation.

(a) No person shall operate any watercraft, specialty prop-craft, personal watercraft or manipulate any water skis, aquaplane, or similar device in such a manner as to willfully or wantonly endanger the life, limb or property of any person, to weave through congested traffic, to jump the wake of another vessel unreasonably or unnecessarily close to the other vessel or when visibility around the other vessel is obstructed, to wait until the last possible moment to swerve to avoid collision, or operate any watercraft so as to approach or pass another watercraft in such a manner or at such a rate of speed as to create a hazardous wake or wash.

(b) A person convicted of committing a violation of this Section shall be guilty of aggravated reckless operation of a watercraft if the violation of this Section resulted in great bodily harm or permanent disability or disfigurement of another, when the violation was a proximate cause of the injuries.

625 ILCS 45/5-3 — Interference with navigation

Sec. 5-3. Interference with navigation.

(a) No person shall operate any watercraft in a manner which unreasonably or unnecessarily interferes with other watercraft or with the free and proper navigation of the waterways of the State.

(b) A vessel engaged in fishing shall not impede the passage of any other vessel navigating within a narrow channel or canal.

(c) A vessel nearing a bend or an area of a narrow channel or canal where other vessels may be obscured by an intervening obstruction shall navigate with alertness and caution and shall sound the appropriate audible signal as required by the Inland Rules as written by the United States Coast Guard and this Act.

(d) A vessel shall avoid anchoring in a narrow channel, under bridges, or in heavily traveled channels or canals, if unreasonable under the prevailing circumstances.

625 ILCS 45/5-4 — Overloading

Sec. 5-4. Overloading. A. No motorboat may be loaded with passengers or cargo beyond its safe carrying capacity taking into consideration weather and other existing operating conditions. Water skiers, tubers, parasailers, or other persons towed by the motorboat shall be considered part of the total number of passengers and cargo allowed by a watercraft's

capacity plate for the purpose of determining a motorboat's carrying capacity. B. Capacity plates.

(1) Every vessel less than 26 feet in length, designed to carry 2 or more persons and to be propelled by machinery as its principal source of power or designed to be propelled by oars shall, if manufactured or offered for sale in this State, have affixed permanently thereto by the manufacturer a capacity plate as required by this Section. As used in this Section, "manufacture" means to construct or assemble a vessel or alter a vessel in such manner as to change its weight capacity.

(2) A capacity plate shall bear the following information permanently marked thereon in such manner as to be clearly visible and legible from the position designed or normally intended to be occupied by the operator of the vessel when under way: a. For all vessels designed for or represented by the manufacturer as being suitable for use with outboard motor: 1. The total weight of persons, motor, gear and other articles placed aboard which the vessel is capable of carrying with safety under normal conditions. 2. The recommended number of persons commensurate with the weight capacity of the vessel and the presumed weight in pounds of each such person. In no instance may such presumed weight per person be less than 150 pounds. 3. Clear notice that the information appearing on the capacity plate is applicable under normal conditions and that the weight of the outboard motor and associated equipment is considered to be part of total weight capacity. 4. The maximum horsepower of the motor the vessel is designed or intended to accommodate. b. For all other vessels to which this Section applies: 1. The total weight of persons, gear and other articles placed aboard which the vessel is capable of carrying with safety under normal conditions. 2. The recommended number of persons commensurate with the weight capacity of the vessel and the presumed weight in pounds of each such person. In no instance shall such presumed weight per person be less than 150 pounds. 3. Clear notice that the information appearing on the capacity plate is applicable under normal conditions.

(3) The information relating to maximum capacity required to appear on capacity plates by Subsection B

(2) of this Section shall be determined in accordance with such methods and formulas as shall be prescribed by rule or regulation adopted by the Department. In prescribing such methods and formulas, the Department shall be guided by and give due regard to the necessity for uniformity in methods and formulas lawful for use in determining small vessel capacity in the several states and to any methods and formulas which may be recognized or recommended by the United States Coast Guard or any agency successor thereto.

(4) Any vessel to which this Section applies, not having a capacity plate meeting the requirements of law affixed thereto by the manufacturer thereof, may have such affixed by any other person in accordance with such rules and regulations as the Department may prescribe and may thereafter be offered for sale in this State, but no action taken pursuant to this Section or in the manner described herein, shall relieve any manufacturer from liability for failure to comply with the requirements of this Section.

(5) The information appearing on a capacity plate shall be deemed to warrant that the manufacturer, or the person affixing the capacity plate is permitted by Subsection B

(4) of this Section, as the case may be, has correctly and faithfully employed a method and formula for the calculation of maximum weight capacity prescribed by the Department and that the information appearing on the capacity plate with respect to maximum weight capacity and recommended number of persons is the result of the application of such method and formula, and with respect to information concerning horsepower limitations, that such information is not a deliberate or negligent misrepresentation.

(6) If any vessel required by this Section to have a capacity plate affixed thereto is of such design or construction as to make it impracticable or undesirable to affix such plate, the manufacturer, or other person having the responsibility for affixing the plate, may represent such impracticability or undesirability to the Department in writing. Upon determination by the Department that such representation has merit and that a proper and effective substitute for the capacity plate which will serve the same purpose is feasible, the Department may authorize such alternative compliance and such alternative compliance shall thereafter be deemed compliance with the capacity plate requirements of this Section.

(7) The Department may by rules or regulations exempt from the requirements of this Section vessels which it finds to be of such unconventional design or construction that the information required on capacity plates would not assist in promoting safety or is not reasonably obtainable.

(8) The Department is authorized to issue and amend rules and regulations to carry out the purposes of this Section. Failure to affix a proper capacity plate shall constitute a separate violation of this subsection B for each vessel with respect to which such failure occurs.

625 ILCS 45/5-5 — Incapacity of operator

Sec. 5-5. Incapacity of operator. The owner of any motorboat or any person having such in charge or in control shall not authorize or knowingly permit the same to be operated by any person who by reason of physical or mental disability is incapable of operating such motorboat under the prevailing circumstances.

625 ILCS 45/5-6 — Overpowering

Sec. 5-6. Overpowering. No motorboat shall be equipped with any motor or other propulsion machinery beyond its safe power capacity taking into consideration the type and construction of such motorboat and other existing operating conditions.

625 ILCS 45/5-7 — Restricted areas

Sec. 5-7. Restricted areas. No person shall operate a watercraft within a water area that has been clearly marked by buoys or some other distinguishing device as a bathing, fishing, swimming or otherwise restricted area by the Department or a political subdivision of the State or by an owner or lessee of property in accordance with his or her rights to the use of the property, except in the manner prescribed by the buoys or other distinguishing devices. This Section shall not apply in the case of an emergency, or to patrol or rescue craft. No person shall operate a watercraft within 150 feet of a public launching ramp owned, operated or maintained by the Department or a political subdivision of the State at greater than a "No Wake" speed as defined in Section 5-12 of this Act. Posting of the areas by the Department or a political subdivision of the State is not required. The Department and other political subdivisions of the State may, within their discretion and after issuing an administrative rule in accordance with the Illinois Administrative Procedure Act, designate certain areas by proper signs to be bathing, fishing, swimming or otherwise restricted areas, or eliminate, alter or otherwise modify existing areas. The Department or a political subdivision of the State shall further have the authority in order to fully carry out the provisions of this Act to place signs, beacons and buoys in designated areas controlling the flow of traffic. It shall be unlawful for any person to deface, move, obliterate, tear down, or destroy, in whole or in part, or attempt to deface, move, obliterate, tear down or destroy any buoys or signs posted pursuant to the provisions of this Act, except as authorized by the Department.

625 ILCS 45/5-12

Sec. 5-12. A wake is defined as a movement of the water created by a boat underway great enough to disturb a boat at rest, but under no circumstances shall a boat underway exceed 5 miles per hour while in a posted "No Wake" area. "No Wake" areas shall be clearly posted with buoys or appropriate signs except as provided in Section 5-7 of this Act. All buoys or signs posting "No Wake" areas shall meet the specifications as prescribed by the United States Coast Guard or the Illinois Department of Natural Resources.

625 ILCS 45/5-13 — Traffic rules

Sec. 5-13. Traffic rules. A. The area straight ahead of a vessel to the point that is 22.5 degrees beyond the middle of the vessel on the starboard side of the watercraft shall be designated the danger zone. An operator of a watercraft shall yield to any other watercraft occupying or entering into the danger zone that may result in collision. A-5. Head-on situation.

(1) If 2 power-driven vessels are meeting head-on or nearly head-on courses so as to involve risk of collision, each shall alter course to starboard so that each shall pass on the port side of the other.

(2) A vessel proceeding along the course of a narrow channel or canal shall keep as near to the outer limit of the channel or canal that lies on the starboard side as is safe and practicable.

(3) A power-driven vessel operating in narrow channels and proceeding downbound with a following current shall have the right-of-way over an upbound vessel, shall propose the manner and place of passage, and shall imitate the maneuvering signals as required by law. The vessel proceeding upstream shall yield as necessary to permit safe passing.

B. Crossing. As used in this Section, "crossing" means 2 or more watercraft traveling in directions that would have the path of travel of the watercraft intersect each other.

(1) If 2 power-driven vessels are crossing so as to involve the risk of collision, the vessel that has the other on the starboard side shall keep out of the way and shall avoid crossing ahead of the other vessel.

(2) A power-driven vessel crossing a river shall keep out of the way of a power-driven vessel ascending or descending the river.

(3) A vessel may not cross a narrow channel or canal if the crossing impedes the passage of a vessel that can only safely navigate within the channel or canal. C. Overtaking.

(1) A vessel overtaking any other shall give way to the vessel being overtaken.

(2) If a vessel operator is in doubt as to whether he or she is overtaking another vessel, the operator shall assume he or she is overtaking the other vessel and shall act accordingly.

(3) Any subsequent alteration of the bearing between the 2 vessels shall not make the overtaking vessel a crossing vessel within the meaning of this Section or relieve the overtaking operator of the duty to keep clear of the overtaken vessel until finally past and clear.

(4) When overtaking in a narrow channel or canal, the operator of a power-driven vessel intending to overtake another power-driven vessel shall proceed to pass safely only after indicating his or her intention by sounding the horn as follows:

(a) one short blast from the horn signifies a request to pass on the overtaken vessel's starboard side;

(b) 2 short blasts from the horn signify a request to pass on the overtaken vessel's port side.

(5) The operator of the power-driven vessel being overtaken shall:

(a) acknowledge the request by sounding the same signal; or

(b) sound 5 short blasts from the horn to indicate danger or to warn the overtaking vessel not to pass. No response from the overtaken vessel shall be interpreted as an indication of danger and is the same as if 5 short blasts from the horn were sounded. In the absence of an audible signal or horn, a light signal device using the appropriate number of rapid bursts of light may be used. D. Sailing vessels.

(1) The operator of a power-driven vessel shall yield the right-of-way to any nonpowered or sailing vessel unless the nonpowered vessel is overtaking the power-driven vessel or when a large craft is navigating in a confined channel, the large craft has the right-of-way over a boat propelled solely by oars or sails.

(2) If 2 sailing vessels are approaching one another, so as to involve risk of collision, one of them shall keep out of the way of the other as follows:

(a) If each has the wind on a different side, the vessel that has the wind on the port side shall give way to the other vessel.

(b) If both have the wind on the same side, the vessel that is to windward shall give way to the vessel that is to leeward.

(c) If a vessel with the wind on the port side sees a vessel to windward and cannot determine with certainty whether the other vessel has the wind on the port or starboard side, the vessel shall give way to the other vessel.

625 ILCS 45/5-14 — Towing of persons

Sec. 5-14. Towing of persons. A. No person may operate a motorboat that has in tow or is otherwise assisting a person on water skis, an aquaplane, or a similar contrivance in or upon any waterway, unless the motorboat has a capacity of at least 3 persons and is occupied by at least 2 competent persons. B. No person may operate a motorboat having in tow or otherwise be assisting a person on water skis, aquaplane or similar contrivance from the period of one-half hour after sunset to one-half hour before sunrise. This paragraph B does not apply to motorboats used in duly authorized water ski tournaments, competitions, exhibitions or trials therefor where adequate lighting is provided. C. All persons operating a motorboat having in tow or otherwise assisting a person on water skis, aquaplane or similar contrivance, must be careful and prudent in their operation and keep at a reasonable distance from persons and property so as not to endanger the life or property of any person. D. No person may operate or manipulate any vessel, tow rope or other device by which the direction or location of water skis, aquaplane, or similar device may be affected or controlled in such a way as to cause the water skis, aquaplane, or similar device, or any persons thereon to collide with or strike against any person or object, except ski jumps, buoys and like objects normally used in competitive or recreational skiing. E. The operator of any watercraft that is towing a person or persons shall display on the watercraft a bright or brilliant orange flag measuring not less than 12 inches per side. The flag shall be displayed at the highest point of the area surrounding the boat's helm as to be visible from all directions, continuously, while the person or persons being towed depart the boat in preparation for towing and until reentry into the boat when the activity has ceased. Display of the flag for purposes other than the activity described in this Section is prohibited.

625 ILCS 45/5-15 — Regattas and races

Sec. 5-15. Regattas and races. A. The Department may authorize the holding of regattas, motorboat or other boat races on any waters of this State. It shall adopt and may, from time to time, amend regulations concerning the safety of motorboats and other vessels and persons thereon, either observers or participants. Whenever a regatta, motorboat or other boat race is proposed to be held, the person in charge thereof, shall, at least 30 days prior thereto, file an application with the Department for permission to hold such regatta, motorboat or other boat race. The application shall set forth the date, time and location where it is proposed to hold such regatta, motorboat or other boat race and it shall not be conducted without authorization of the Department in writing. B. When a regatta, motorboat or other boat race authorized or proposed to be authorized under subsection A of this Section is to be held on a body of water owned and operated by a unit of local government, the unit of local government may schedule those events, but only after adopting an ordinance providing for such scheduling and filing it with the Department. C. The provisions of this Section do not exempt any person from compliance with applicable Federal law or regulation, but nothing contained herein may be construed to require the securing of a State permit pursuant to this Section if a permit therefor has been obtained from an authorized agency of the United States.

625 ILCS 45/5-16

Sec. 5-16. Operating a watercraft under the influence of alcohol, other drug or drugs, intoxicating compound or compounds, or combination thereof. (A) 1. A person shall not operate or be in actual physical control of any watercraft within this State while:

(a) The alcohol concentration in such person's blood, other bodily substance, or breath is a concentration at which driving a motor vehicle is prohibited under subdivision

(1) of subsection

(a) of Section 11-501 of the Illinois Vehicle Code;

(b) Under the influence of alcohol;

(c) Under the influence of any other drug or combination of drugs to a degree which renders such person incapable of safely operating any watercraft; (c-1) Under the influence of any intoxicating compound or combination of intoxicating compounds to a degree that renders the person incapable of safely operating any watercraft;

(d) Under the combined influence of alcohol and any other drug or drugs to a degree which renders such person incapable of safely operating a watercraft; (d-3) The person who is not a CDL holder has a tetrahydrocannabinol concentration in the person's whole blood or other bodily substance at which driving a motor vehicle is prohibited under subdivision

(7) of subsection

(a) of Section 11-501 of the Illinois Vehicle Code; (d-5) The person who is a CDL holder has any amount of a drug, substance, or compound in the person's breath, blood, other bodily substance, or urine resulting from the unlawful use or consumption of cannabis listed in the Cannabis Control Act; or

(e) There is any amount of a drug, substance, or compound in the person's blood, other bodily substance, or urine resulting from the unlawful use or consumption of a controlled substance listed in the Illinois Controlled Substances Act, methamphetamine as listed in the Methamphetamine Control and Community Protection Act, or an intoxicating compound listed in the Use of Intoxicating Compounds Act. 2. The fact that any person charged with violating this Section is or has been legally entitled to use alcohol, other drug or drugs, any intoxicating compound or compounds, or any combination of them, shall not constitute a defense against any charge of violating this Section. 3. Every person convicted of violating this Section shall be guilty of a Class A misdemeanor, except as otherwise provided in this Section. 4. Every person convicted of violating this Section shall be guilty of a Class 4 felony if:

(a) He or she has a previous conviction under this Section;

(b) The offense results in personal injury where a person other than the operator suffers great bodily harm or permanent disability or disfigurement, when the violation was a proximate cause of the injuries. A person guilty of a Class 4 felony under this subparagraph (b), if sentenced to a term of imprisonment, shall be sentenced to a term of not less than one year nor more than 12 years; or

(c) The offense occurred during a period in which his or her privileges to operate a watercraft are revoked or suspended, and the revocation or suspension was for a violation of this Section or was imposed under subsection (B). 5. Every person convicted of violating this Section shall be guilty of a Class 2 felony if the offense results in the death of a person. A

person guilty of a Class 2 felony under this paragraph 5, if sentenced to a term of imprisonment, shall be sentenced to a term of not less than 3 years and not more than 14 years. 5.1. A person convicted of violating this Section or a similar provision of a local ordinance who had a child under the age of 16 aboard the watercraft at the time of offense is subject to a mandatory minimum fine of \$500 and to a mandatory minimum of 5 days of community service in a program benefiting children. The assignment under this paragraph 5.1 is not subject to suspension and the person is not eligible for probation in order to reduce the assignment. 5.2. A person found guilty of violating this Section, if his or her operation of a watercraft while in violation of this Section proximately caused any incident resulting in an appropriate emergency response, is liable for the expense of an emergency response as provided in subsection

(m) of Section 11-501 of the Illinois Vehicle Code. 5.3. In addition to any other penalties and liabilities, a person who is found guilty of violating this Section, including any person placed on court supervision, shall be fined \$100, payable to the circuit clerk, who shall distribute the money to the law enforcement agency that made the arrest or as provided in subsection

(c) of Section 10-5 of the Criminal and Traffic Assessment Act if the arresting agency is a State agency, unless more than one agency is responsible for the arrest, in which case the amount shall be remitted to each unit of government equally. Any moneys received by a law enforcement agency under this paragraph 5.3 shall be used to purchase law enforcement equipment or to provide law enforcement training that will assist in the prevention of alcohol related criminal violence throughout the State. Law enforcement equipment shall include, but is not limited to, in-car video cameras, radar and laser speed detection devices, and alcohol breath testers. 6.

(a) In addition to any criminal penalties imposed, the Department of Natural Resources shall suspend the watercraft operation privileges of any person convicted or found guilty of a misdemeanor under this Section, a similar provision of a local ordinance, or Title 46 of the U.S. Code of Federal Regulations for a period of one year, except that a first time offender is exempt from this mandatory one year suspension. As used in this subdivision (A)6(a), "first time offender" means any person who has not had a previous conviction or been assigned supervision for violating this Section, a similar provision of a local ordinance or, Title 46 of the U.S. Code of Federal Regulations, or any person who has not had a suspension imposed under subdivision (B)3.1 of Section 5-16.

(b) In addition to any criminal penalties imposed, the Department of Natural Resources shall suspend the watercraft operation privileges of any person convicted of a felony under this Section, a similar provision of a local ordinance, or Title 46 of the U.S. Code of Federal Regulations for a period of 3 years. (B) 1. Any person who operates or is in actual physical control of any watercraft upon the waters of this State shall be deemed to have given consent to a chemical test or tests of blood, breath, other bodily substance, or urine for the purpose of determining the content of alcohol, other drug or drugs, intoxicating compound or compounds, or combination thereof in the person's blood or other bodily substance if arrested for any offense of subsection (A) above. The chemical test or tests shall be administered at the direction of the arresting officer. The law enforcement agency employing the officer shall designate which of the tests shall be administered. Up to 2 additional tests of urine or other bodily substance may be administered even after a blood or breath test or both has been administered. 1.1. For the purposes of this Section, an Illinois Law Enforcement officer of this State who is investigating the person for any offense defined in Section 5-16 may travel into an adjoining state, where the person has been transported for medical care to complete an investigation, and may request that the person submit to the test or tests set forth in this Section. The requirements of this Section that the person be arrested are inapplicable, but the officer shall issue the person a uniform citation for an offense as defined in Section 5-16 or a similar provision of a local ordinance prior to requesting that the person submit to the test or tests. The issuance of the uniform citation shall not constitute an arrest, but shall be for the purpose of notifying the person that he or she is subject to the provisions of this Section and of the officer's belief in the existence of probable cause to arrest. Upon returning to this State, the officer shall file the uniform citation with the circuit clerk of the county where the offense was committed and shall seek the issuance of an arrest warrant or a summons for the person. 1.2. Notwithstanding any ability to refuse under this Act to submit to these tests or any ability to revoke the implied consent to these tests, if a law enforcement officer has probable cause to believe that a watercraft operated by or under actual physical control of a person under the influence of alcohol, other drug or drugs, intoxicating compound or compounds, or any combination of them has caused the death of or personal injury to another, that person shall submit, upon the request of a law enforcement officer, to a chemical test or tests of his or her blood, breath, other bodily substance, or urine for the purpose of determining the alcohol content or the presence of any other drug, intoxicating compound, or combination of them. For the purposes of this Section, a personal injury includes severe bleeding wounds, distorted extremities, and injuries that require the injured party to be carried from the scene for immediate professional attention in either a doctor's office or a medical facility. 2. Any person who is dead, unconscious or

who is otherwise in a condition rendering such person incapable of refusal, shall be deemed not to have withdrawn the consent provided above, and the test may be administered. 3. A person requested to submit to a chemical test as provided above shall be verbally advised by the law enforcement officer requesting the test that a refusal to submit to the test will result in suspension of such person's privilege to operate a watercraft for a minimum of 2 years. Following this warning, if a person under arrest refuses upon the request of a law enforcement officer to submit to a test designated by the officer, no test shall be given, but the law enforcement officer shall file with the clerk of the circuit court for the county in which the arrest was made, and with the Department of Natural Resources, a sworn statement naming the person refusing to take and complete the chemical test or tests requested under the provisions of this Section. Such sworn statement shall identify the arrested person, such person's current residence address and shall specify that a refusal by such person to take the chemical test or tests was made. Such sworn statement shall include a statement that the arresting officer had reasonable cause to believe the person was operating or was in actual physical control of the watercraft within this State while under the influence of alcohol, other drug or drugs, intoxicating compound or compounds, or combination thereof and that such chemical test or tests were made as an incident to and following the lawful arrest for an offense as defined in this Section or a similar provision of a local ordinance, and that the person after being arrested for an offense arising out of acts alleged to have been committed while so operating a watercraft refused to submit to and complete a chemical test or tests as requested by the law enforcement officer. 3.1. The law enforcement officer submitting the sworn statement as provided in paragraph 3 of this subsection (B) shall serve immediate written notice upon the person refusing the chemical test or tests that the person's privilege to operate a watercraft within this State will be suspended for a period of 2 years unless, within 28 days from the date of the notice, the person requests in writing a hearing on the suspension. If the person desires a hearing, such person shall file a complaint in the circuit court for and in the county in which such person was arrested for such hearing. Such hearing shall proceed in the court in the same manner as other civil proceedings, shall cover only the issues of whether the person was placed under arrest for an offense as defined in this Section or a similar provision of a local ordinance as evidenced by the issuance of a uniform citation; whether the arresting officer had reasonable grounds to believe that such person was operating a watercraft while under the influence of alcohol, other drug or drugs, intoxicating compound or compounds, or combination thereof; and whether such person refused to submit and complete the chemical test or tests upon the request of the law enforcement officer. Whether the person was informed that such person's privilege to operate a watercraft would be suspended if such person refused to submit to the chemical test or tests shall not be an issue. If the person fails to request in writing a hearing within 28 days from the date of notice, or if a hearing is held and the court finds against the person on the issues before the court, the clerk shall immediately notify the Department of Natural Resources, and the Department shall suspend the watercraft operation privileges of the person for at least 2 years. 3.2. If the person is a CDL holder and submits to a test that discloses an alcohol concentration of 0.08 or more, or any amount of a drug, substance or intoxicating compound in the person's breath, blood, other bodily substance, or urine resulting from the unlawful use of cannabis listed in the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, methamphetamine as listed in the Methamphetamine Control and Community Protection Act, or an intoxicating compound listed in the Use of Intoxicating Compounds Act, the law enforcement officer shall immediately submit a sworn report to the circuit clerk of venue and the Department of Natural Resources, certifying that the test or tests were requested under paragraph 1 of this subsection (B) and the person submitted to testing that disclosed an alcohol concentration of 0.08 or more or any amount of a drug, substance or intoxicating compound in the person's breath, blood, other bodily substance, or urine resulting from the unlawful use of cannabis listed in the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, methamphetamine as listed in the Methamphetamine Control and Community Protection Act, or an intoxicating compound listed in the Use of Intoxicating Compounds Act. If the person is not a CDL holder and submits to a test that discloses an alcohol concentration of 0.08 or more, a tetrahydrocannabinol concentration in the person's whole blood or other bodily substance as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of the Illinois Vehicle Code, or any amount of a drug, substance or intoxicating compound in the person's breath, blood, other bodily substance, or urine resulting from the unlawful use of a controlled substance listed in the Illinois Controlled Substances Act, methamphetamine as listed in the Methamphetamine Control and Community Protection Act, or an intoxicating compound listed in the Use of Intoxicating Compounds Act, the law enforcement officer shall immediately submit a sworn report to the circuit clerk of venue and the Department of Natural Resources, certifying that the test or tests were requested under paragraph 1 of this subsection (B) and the person submitted to testing that disclosed an alcohol concentration of 0.08 or more, a tetrahydrocannabinol concentration in the person's whole blood or

other bodily substance as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of the Illinois Vehicle Code, or any amount of a drug, substance or intoxicating compound in the person's breath, blood, other bodily substance, or urine resulting from the unlawful use of a controlled substance listed in the Illinois Controlled Substances Act, methamphetamine as listed in the Methamphetamine Control and Community Protection Act, or an intoxicating compound listed in the Use of Intoxicating Compounds Act. In cases involving a person who is a CDL holder where the blood alcohol concentration of 0.08 or greater or any amount of drug, substance or compound resulting from the unlawful use of cannabis, a controlled substance, methamphetamine, or an intoxicating compound is established by a subsequent analysis of blood, other bodily substance, or urine collected at the time of arrest, the arresting officer or arresting agency shall immediately submit a sworn report to the circuit clerk of venue and the Department of Natural Resources upon receipt of the test results. In cases involving a person who is not a CDL holder where the blood alcohol concentration of 0.08 or greater, a tetrahydrocannabinol concentration in the person's whole blood or other bodily substance as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of the Illinois Vehicle Code, or any amount of drug, substance, or compound resulting from the unlawful use of a controlled substance, methamphetamine, or an intoxicating compound is established by a subsequent analysis of blood, other bodily substance, or urine collected at the time of arrest, the arresting officer or arresting agency shall immediately submit a sworn report to the circuit clerk of venue and the Department of Natural Resources upon receipt of the test results. 4. A person must submit to each chemical test offered by the law enforcement officer in order to comply with the implied consent provisions of this Section. 5. The provisions of Section 11-501.2 of the Illinois Vehicle Code, as amended, concerning the certification and use of chemical tests apply to the use of such tests under this Section. (C) Upon the trial of any civil or criminal action or proceeding arising out of acts alleged to have been committed by any person while operating a watercraft while under the influence of alcohol, other drug or drugs, intoxicating compound or compounds, or combination thereof, the concentration of alcohol, drug, or compound in the person's blood, other bodily substance, or breath at the time alleged as shown by analysis of a person's blood, urine, breath, or other bodily substance shall give rise to the presumptions specified in subdivisions 1, 2, and 3 of subsection

(b) and subsection (b-5) of Section 11-501.2 of the Illinois Vehicle Code. The foregoing provisions of this subsection (C) shall not be construed as limiting the introduction of any other relevant evidence bearing upon the question whether the person was under the influence of alcohol, other drug or drugs, intoxicating compound or compounds, or a combination thereof. (D) If a person under arrest refuses to submit to a chemical test under the provisions of this Section, evidence of refusal shall be admissible in any civil or criminal action or proceeding arising out of acts alleged to have been committed while the person under the influence of alcohol, other drug or drugs, intoxicating compound or compounds, or combination of them was operating a watercraft. (E) The owner of any watercraft or any person given supervisory authority over a watercraft, may not knowingly permit a watercraft to be operated by any person under the influence of alcohol, other drug or drugs, intoxicating compound or compounds, or combination thereof. (F) Whenever any person is convicted or found guilty of a violation of this Section, including any person placed on court supervision, the court shall notify the Office of Law Enforcement of the Department of Natural Resources, to provide the Department with the records essential for the performance of the Department's duties to monitor and enforce any order of suspension or revocation concerning the privilege to operate a watercraft. (G) No person who has been arrested and charged for violating paragraph 1 of subsection (A) of this Section shall operate any watercraft within this State for a period of 24 hours after such arrest.

625 ILCS 45/5-16a

Sec. 5-16a. Admissibility of chemical tests of blood, other bodily substance, or urine conducted in the regular course of providing emergency medical treatment.

(a) Notwithstanding any other provision of law, the written results of blood, other bodily substance, or urine alcohol and drug tests conducted upon persons receiving medical treatment in a hospital emergency room are admissible in evidence as a business record exception to the hearsay rule only in prosecutions for any violation of Section 5-16 of this Act or a similar provision of a local ordinance or in prosecutions for reckless homicide brought under the Criminal Code of 1961 or the Criminal Code of 2012, when:

(1) the chemical tests performed upon an individual's blood, other bodily substance, or urine were ordered in the regular course of providing emergency treatment and not at the request of law enforcement authorities; and

(2) the chemical tests performed upon an individual's blood, other bodily substance, or urine were performed by the laboratory routinely used by the hospital. Results of chemical tests performed upon an individual's blood, other bodily substance, or urine are admissible into evidence regardless of the time that the records were prepared.

(b) The confidentiality provisions of law pertaining to medical records and medical treatment shall not be applicable with regard to chemical tests performed upon an individual's blood, other bodily substance, or urine under the provisions of this Section in prosecutions as specified in subsection

(a) of this Section. No person shall be liable for civil damages as a result of the evidentiary use of the results of chemical testing of an individual's blood, other bodily substance, or urine under this Section or as a result of that person's testimony made available under this Section.

625 ILCS 45/5-16a.1

Sec. 5-16a.1. Reporting of test results of blood, other bodily substance, or urine conducted in the regular course of providing emergency medical treatment.

(a) Notwithstanding any other provision of law, the results of blood, other bodily substance, or urine tests performed for the purpose of determining the content of alcohol, other drug or drugs, intoxicating compound or compounds, or any combination of them in an individual's blood, other bodily substance, or urine, conducted upon persons receiving medical treatment in a hospital emergency room for injuries resulting from a boating accident, shall be disclosed to the Department of Natural Resources or local law enforcement agencies of jurisdiction, upon request. The blood, other bodily substance, or urine tests are admissible in evidence as a business record exception to the hearsay rule only in prosecutions for violations of Section 5-16 of this Code or a similar provision of a local ordinance, or in prosecutions for reckless homicide brought under the Criminal Code of 1961 or the Criminal Code of 2012.

(b) The confidentiality provisions of the law pertaining to medical records and medical treatment shall not be applicable with regard to tests performed upon an individual's blood, other bodily substance, or urine under the provisions of subsection

(a) of this Section. No person is liable for civil damages or professional discipline as a result of disclosure or reporting of the tests or the evidentiary use of an individual's blood, other bodily substance, or urine test results under this Section or Section 5-16a, or as a result of that person's testimony made available under this Section or Section 5-16a, except for willful or wanton misconduct.

625 ILCS 45/5-16b — Preliminary breath screening test

Sec. 5-16b. Preliminary breath screening test. If a law enforcement officer has reasonable suspicion to believe that a person is violating or has violated Section 5-16 or a similar provision of a local ordinance, the officer, prior to an arrest, may request the person to provide a sample of his or her breath for a preliminary breath screening test using a portable device approved by the Illinois State Police. The results of this preliminary breath screening test may be used by the law enforcement officer for the purpose of assisting with the determination of whether to require a chemical test as authorized under Section 5-16 and the appropriate type of test to request. Any chemical test authorized under Section 5-16 may be requested by the officer regardless of the result of the preliminary breath screening test if probable cause for an arrest exists. The result of a preliminary breath screening test may be used by the defendant as evidence in any administrative or court proceeding involving a violation of Section 5-16.

625 ILCS 45/5-16c — Operator involvement in personal injury or fatal boating accident; chemical tests

Sec. 5-16c. Operator involvement in personal injury or fatal boating accident; chemical tests.

(a) Any person who operates or is in actual physical control of a motorboat within this State and who has been involved in a personal injury or fatal boating accident shall be deemed to have given consent to a breath test using a portable device as approved by the Illinois State Police or to a chemical test or tests of blood, breath, other bodily substance, or urine for the purpose of determining the content of alcohol, other drug or drugs, or intoxicating compound or compounds of the person's blood if arrested as evidenced by the issuance of a uniform citation for a violation of the Boat Registration and Safety Act or a similar provision of a local ordinance, with the exception of equipment violations contained in Article IV of this Act or similar provisions of local ordinances. The test or tests shall be administered at the direction of the arresting officer. The law enforcement agency employing the officer shall designate which of the aforesaid tests shall be administered. Up to 2 additional tests of urine or other bodily substance may be administered even after a blood or breath test or both has been administered. Compliance with this Section does not relieve the person from the requirements of

any other Section of this Act.

(b) Any person who is dead, unconscious, or who is otherwise in a condition rendering that person incapable of refusal shall be deemed not to have withdrawn the consent provided by subsection

(a) of this Section. In addition, if an operator of a motorboat is receiving medical treatment as a result of a boating accident, any physician licensed to practice medicine, licensed physician assistant, licensed advanced practice registered nurse, registered nurse, or a phlebotomist acting under the direction of a licensed physician shall withdraw blood for testing purposes to ascertain the presence of alcohol, other drug or drugs, or intoxicating compound or compounds, upon the specific request of a law enforcement officer. However, this testing shall not be performed until, in the opinion of the medical personnel on scene, the withdrawal can be made without interfering with or endangering the well-being of the patient.

(c) A person who is a CDL holder requested to submit to a test under subsection

(a) of this Section shall be warned by the law enforcement officer requesting the test that a refusal to submit to the test, or submission to the test resulting in an alcohol concentration of 0.08 or more, or any amount of a drug, substance, or intoxicating compound resulting from the unlawful use or consumption of cannabis listed in the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act as detected in the person's blood, other bodily substance, or urine, may result in the suspension of the person's privilege to operate a motor vehicle and may result in the disqualification of the person's privilege to operate a commercial motor vehicle, as provided in Section 6-514 of the Illinois Vehicle Code. A person who is not a CDL holder requested to submit to a test under subsection

(a) of this Section shall be warned by the law enforcement officer requesting the test that a refusal to submit to the test, or submission to the test resulting in an alcohol concentration of 0.08 or more, a tetrahydrocannabinol concentration in the person's whole blood or other bodily substance as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of the Illinois Vehicle Code, or any amount of a drug, substance, or intoxicating compound resulting from the unlawful use or consumption of a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act as detected in the person's blood, other bodily substance, or urine, may result in the suspension of the person's privilege to operate a motor vehicle. The length of the suspension shall be the same as outlined in Section 6-208.1 of the Illinois Vehicle Code regarding statutory summary suspensions.

(d) If the person is a CDL holder and refuses testing or submits to a test which discloses an alcohol concentration of 0.08 or more, or any amount of a drug, substance, or intoxicating compound in the person's blood, other bodily substance, or urine resulting from the unlawful use or consumption of cannabis listed in the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act, the law enforcement officer shall immediately submit a sworn report to the Secretary of State on a form prescribed by the Secretary of State, certifying that the test or tests were requested under subsection

(a) of this Section and the person refused to submit to a test or tests or submitted to testing which disclosed an alcohol concentration of 0.08 or more, or any amount of a drug, substance, or intoxicating compound in the person's blood, other bodily substance, or urine, resulting from the unlawful use or consumption of cannabis listed in the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act. If the person is not a CDL holder and refuses testing or submits to a test which discloses an alcohol concentration of 0.08 or more, a tetrahydrocannabinol concentration in the person's whole blood or other bodily substance as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of the Illinois Vehicle Code, or any amount of a drug, substance, or intoxicating compound in the person's blood, other bodily substance, or urine resulting from the unlawful use or consumption of a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act, the law enforcement officer shall immediately submit a sworn report to the Secretary of State on a form prescribed by the Secretary of State, certifying that the test or tests were requested under subsection

(a) of this Section and the person refused to submit to a test or tests or submitted to testing which disclosed an alcohol concentration of 0.08 or more, a tetrahydrocannabinol concentration in the person's whole blood or other bodily substance as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of the Illinois Vehicle Code, or any amount of a drug, substance, or intoxicating compound in the person's blood or urine, resulting from the unlawful use or consumption of a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act. Upon receipt of the sworn report of a law enforcement officer, the Secretary of State shall enter the suspension and disqualification to the person's driving record and the suspension and disqualification shall be effective on the 46th day following the date notice of the suspension was given to the person. The law enforcement officer submitting the sworn report shall serve immediate notice of this suspension on the person and this suspension and disqualification shall be effective on the 46th day following the date notice was given. In cases involving a person who is a CDL holder where the blood alcohol concentration of 0.08 or more, or any amount of a drug, substance, or intoxicating compound resulting from the unlawful use or consumption of cannabis listed in the Cannabis Control Act, a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act, is established by a subsequent analysis of blood, other bodily substance, or urine collected at the time of arrest, the arresting officer shall give notice as provided in this Section or by deposit in the United States mail of this notice in an envelope with postage prepaid and addressed to the person at his or her address as shown on the uniform citation and the suspension and disqualification shall be effective on the 46th day following the date notice was given. In cases involving a person who is not a CDL holder where the blood alcohol concentration of 0.08 or more, a tetrahydrocannabinol concentration in the person's whole blood or other bodily substance as defined in paragraph 6 of subsection

(a) of Section 11-501.2 of the Illinois Vehicle Code, or any amount of a drug, substance, or intoxicating compound resulting from the unlawful use or consumption of a controlled substance listed in the Illinois Controlled Substances Act, an intoxicating compound listed in the Use of Intoxicating Compounds Act, or methamphetamine as listed in the Methamphetamine Control and Community Protection Act, is established by a subsequent analysis of blood, other bodily substance, or urine collected at the time of arrest, the arresting officer shall give notice as provided in this Section or by deposit in the United States mail of this notice in an envelope with postage prepaid and addressed to the person at his or her address as shown on the uniform citation and the suspension shall be effective on the 46th day following the date notice was given. Upon receipt of the sworn report of a law enforcement officer, the Secretary of State shall also give notice of the suspension and disqualification to the person by mailing a notice of the effective date of the suspension and disqualification to the person. However, should the sworn report be defective by not containing sufficient information or be completed in error, the notice of the suspension and disqualification shall not be mailed to the person or entered to the driving record, but rather the sworn report shall be returned to the issuing law enforcement agency.

(e) A person may contest this suspension of his or her driving privileges and disqualification of his or her CDL privileges by requesting an administrative hearing with the Secretary of State in accordance with Section 2-118 of the Illinois Vehicle Code. At the conclusion of a hearing held under Section 2-118 of the Illinois Vehicle Code, the Secretary of State may rescind, continue, or modify the orders of suspension and disqualification. If the Secretary of State does not rescind the orders of suspension and disqualification, a restricted driving permit may be granted by the Secretary of State upon application being made and good cause shown. A restricted driving permit may be granted to relieve undue hardship to allow driving for employment, educational, and medical purposes as outlined in Section 6-206 of the Illinois Vehicle Code. The provisions of Section 6-206 of the Illinois Vehicle Code shall apply. In accordance with 49 C.F.R. 384, the Secretary of State may not issue a restricted driving permit for the operation of a commercial motor vehicle to a person holding a CDL whose driving privileges have been suspended, revoked, cancelled, or disqualified.

(f) For the purposes of this Section, a personal injury shall include any type A injury as indicated on the accident report completed by a law enforcement officer that requires immediate professional attention in a doctor's office or a medical facility. A type A injury shall include severely bleeding wounds, distorted extremities, and injuries that require the injured party to be carried from the scene.

The Governor shall have power to fill vacancies in the office of any commissioner. Notwithstanding any provision of this Section to the contrary, the term of office of each member of the commission is abolished on the effective date of this amendatory Act of 1985, but the incumbent members shall continue to exercise all of the powers and be subject to all of the duties of members of the commission until their respective successors are appointed and qualified. The Governor shall appoint 2 members of the commission whose terms of office shall expire on February 1, 1986, 2 members of the commission whose terms of office shall expire on February 1, 1988, and one member of the commission whose term shall expire on February 1, 1990. Their respective successors shall be appointed for terms of 6 years from the first day of February of the year of appointment. Each member shall serve until his successor is appointed and qualified. The initial term of both of the 2 additional members appointed pursuant to this amendatory Act of the 91st General Assembly shall expire on February 1, 2006. Their respective successors shall be appointed for terms of 6 years from the first day of February of the year of appointment. Each member shall serve until his or her successor is appointed and qualified. Notwithstanding any action taken to fill the office on an acting, temporary, or other basis, the office of Executive Director of the Commission shall be vacant on January 1, 2019. On and after January 1, 2019, the Governor shall appoint the Executive Director of the Commission for a 4-year term, with the advice and consent of the Senate.

235 ILCS 5/3-3

Sec. 3-3. A majority of the commission shall constitute a quorum to transact business, but no vacancy shall impair the right of the remaining commissioners to exercise all of the powers of the commission; and every act of a majority of the members of the commission shall be deemed to be the act of the commission. The commission shall have a secretary who shall keep a record of all proceedings, transactions, communications and official acts of the commission and who shall be custodian of all records and perform such other duties as the commission may prescribe.

235 ILCS 5/3-4 — Authority to conduct investigations

Sec. 3-4. Authority to conduct investigations. The State Commission shall obtain, pursuant to the provisions of the Personnel Code, such inspectors, clerks, and other employees as may be necessary to carry out the provisions of this Act, or to perform the duties and exercise the powers conferred by law upon the State Commission. The inspectors

obtained by the State Commission shall not be peace officers and shall not exercise any powers of a peace officer. The State Commission shall have the power to appoint investigators to conduct investigations, searches, seizures, arrests, and other duties required to enforce the provisions of this Act, on behalf of the State Commission, and to ensure the health, safety, and welfare of the People of the State of Illinois. The Commission's investigators are peace officers and have all the powers possessed by police officers in cities and by sheriffs. State Commission investigators may exercise these powers throughout the State whenever enforcing the provisions of this Act, subject to the rules and orders of the State Commission. No State Commission investigator may have peace officer status or may exercise police powers unless:

(1) he or she successfully completes the basic police training course mandated and approved by the Illinois Law Enforcement Training Standards Board; or

(2) the Illinois Law Enforcement Training Standards Board waives the training requirement by reason of the investigator's prior law enforcement experience, training, or both. The Executive Director must authorize to each investigator of the State Commission and to any other employee of the Department exercising the powers of a peace officer a distinct badge that, on its face:

(1) clearly states that the badge is authorized by the State Commission; and

(2) contains a unique identifying number. No other badge shall be authorized by the State Commission. Nothing in this Section prohibits the Executive Director from issuing shields or other distinctive identification to employees performing security or regulatory duties who are not peace officers if the Executive Director determines that a shield or distinctive identification is needed by the employee to carry out his or her responsibilities.

235 ILCS 5/3-4.1 — Obtaining evidence

The State Commission has the power to expend sums that the Executive Director deems necessary for the purchase of evidence and for the employment of persons to obtain evidence. In addition, the Executive Director is authorized to maintain one or more commercial checking accounts with any State banking corporation or corporations organized under or subject to the Illinois Banking Act for the deposit and withdrawal of moneys to be used solely for the purchase of evidence and for the employment of persons to obtain evidence. No check may be written on nor any withdrawal made from such an account except on the written signature of 2 persons designated by the Executive Director to write those checks and make those withdrawals. The balance of moneys on deposit in any such account shall not exceed \$25,000 at any time, nor shall any one check written on or single withdrawal made from any such account exceed \$25,000.

The secretary, the Executive Director, and each inspector, clerk, and other employee shall devote his or her entire time to the duties of his or her office.

235 ILCS 5/3-6

Sec. 3-6. No person shall be appointed a commissioner, secretary, Executive Director, or inspector for the commission who is not a citizen of the United States. No commissioner, secretary, Executive Director, inspector, or other employee shall be appointed who has been convicted of any violation of any Federal or State law concerning the manufacture or sale of alcoholic liquor prior or subsequent to the passage of this Act or who has paid a fine or penalty in settlement of any prosecution against him or her for any violation of such laws or shall have forfeited his or her bond to appear in court to answer charges for any such violation, nor shall any person be appointed who has been convicted of a felony. No commissioner, Executive Director, inspector, or other employee, may, directly or indirectly, individually or as a member of a partnership, or as a shareholder of a corporation, have any interest whatsoever in the manufacture, sale or distribution of alcoholic liquor, nor receive any compensation or profit therefrom, nor have any interest whatsoever in the purchases or sales made by the persons authorized by this Act, or to purchase or to sell alcoholic liquor. No provision of this section shall prevent any such commissioner, secretary, Executive Director, inspector, or other employee from purchasing and keeping in his or her possession for the use of himself or herself or members of his or her family or guests any alcoholic liquor which may be purchased or kept by any person by virtue of this Act.

235 ILCS 5/3-7

Sec. 3-7. No commissioner, secretary, Executive Director, or person appointed or employed by the commission, shall solicit or accept any gift, gratuity, emolument or employment from any person subject to the provisions of this Act, or from any officer, agent or employee thereof, nor solicit, request from or recommend, directly or indirectly, to any such person or to any officer, agent or employee thereof, the appointment of any person to any place or position, and every such person, and every officer, agent or employee thereof, is hereby forbidden to offer to any commissioner, secretary, Executive Director, or to any person appointed or employed by the commission, any gift, gratuity, emolument or employment. If any commissioner, secretary, Executive Director, or any person appointed or employed by the commission shall violate any of the provisions of this Section, he or she shall be removed from the office or employment held by him or her. Every person violating the provisions of this Section shall be guilty of a Class A misdemeanor.

235 ILCS 5/3-8

Sec. 3-8. Before entering upon the duties of his office, each commissioner shall give a bond, with surety to be approved by the Governor, in the sum of five thousand dollars (\$5,000) for the faithful performance of his duties as such commissioner. The other commissioners shall receive an annual salary of \$28,000 or such greater amount as may be set by the Compensation Review Board. The secretary of the Commission shall receive an annual salary as set by the Compensation Review Board. All clerks, inspectors, and employees of the Commission shall receive reasonable compensation in an amount fixed by the Commission, subject to the approval in writing of the Governor.

235 ILCS 5/3-10

Sec. 3-10. The commissioners, the secretary, the Executive Director, and all clerks, inspectors, and other employees shall be reimbursed for all actual and necessary traveling and other expenses and disbursements incurred or made by them in the discharge of their official duties. The commission may also incur necessary expenses for office furniture and other incidental expenses.

235 ILCS 5/3-11 — Principal office; meetings; seal; proceedings

Sec. 3-11. Principal office; meetings; seal; proceedings. The principal office of the Commission shall be in Chicago, but the Commission may, with the approval of the Governor, establish and maintain branch offices at other places. The Commission shall hold regular meetings at least once a month at its office, and may hold such special meetings as it may deem necessary at any time and at any place within the State. The Commission may, for authentication of its records, process and proceedings, adopt, keep and use a common seal, of which seal judicial notice shall be taken in all of the courts of the State, and any process, notice or other paper which the Commission may be authorized by law to issue, shall be deemed sufficient if signed by the secretary of said Commission and authenticated by such seal; and all acts, orders, proceedings, rules, regulations, entries, minutes, and other records of said Commission, and all reports and documents filed with said Commission may be proved in any court of this State by copy thereof certified to by the secretary of said Commission with the seal of said Commission attached.

235 ILCS 5/3-12 — Powers and duties of State Commission

Sec. 3-12. Powers and duties of State Commission.

(a) The State Commission shall have the following powers, functions, and duties:

(1) To receive applications and to issue licenses to manufacturers, foreign importers, importing distributors, distributors, non-resident dealers, on premise consumption retailers, off premise sale retailers, special event retailer licensees, special use permit licenses, auction liquor licenses, brew pubs, caterer retailers, non-beverage users, railroads, including owners and lessees of sleeping, dining and cafe cars, airplanes, boats, brokers, and wine maker's premises licensees in accordance with the provisions of this Act, and to suspend or revoke such licenses upon the State Commission's determination, upon notice after hearing, that a licensee has violated any provision of this Act or any rule or regulation issued pursuant thereto and in effect for 30 days prior to such violation. Except in the case of an action taken pursuant to

a violation of Section 6-3, 6-5, or 6-9, any action by the State Commission to suspend or revoke a licensee's license may be limited to the license for the specific premises where the violation occurred. An action for a violation of this Act shall be commenced by the State Commission within 2 years after the date the State Commission becomes aware of the violation. In lieu of suspending or revoking a license, the commission may impose a fine, upon the State Commission's determination and notice after hearing, that a licensee has violated any provision of this Act or any rule or regulation issued pursuant thereto and in effect for 30 days prior to such violation. For the purpose of this paragraph (1), when determining multiple violations for the sale of alcohol to a person under the age of 21, a second or subsequent violation for the sale of alcohol to a person under the age of 21 shall only be considered if it was committed within 5 years after the date when a prior violation for the sale of alcohol to a person under the age of 21 was committed. The fine imposed under this paragraph may not exceed \$500 for each violation. Each day that the activity, which gave rise to the original fine, continues is a separate violation. The maximum fine that may be levied against any licensee, for the period of the license, shall not exceed \$20,000. The maximum penalty that may be imposed on a licensee for selling a bottle of alcoholic liquor with a foreign object in it or serving from a bottle of alcoholic liquor with a foreign object in it shall be the destruction of that bottle of alcoholic liquor for the first 10 bottles so sold or served from by the licensee. For the eleventh bottle of alcoholic liquor and for each third bottle thereafter sold or served from by the licensee with a foreign object in it, the maximum penalty that may be imposed on the licensee is the destruction of the bottle of alcoholic liquor and a fine of up to \$50. Any notice issued by the State Commission to a licensee for a violation of this Act or any notice with respect to settlement or offer in compromise shall include the field report, photographs, and any other supporting documentation necessary to reasonably inform the licensee of the nature and extent of the violation or the conduct alleged to have occurred. The failure to include such required documentation shall result in the dismissal of the action.

(2) To adopt such rules and regulations consistent with the provisions of this Act which shall be necessary to carry on its functions and duties to the end that the health, safety and welfare of the People of the State of Illinois shall be protected and temperance in the consumption of alcoholic liquors shall be fostered and promoted and to distribute copies of such rules and regulations to all licensees affected thereby.

(3) To call upon other administrative departments of the State, county and municipal governments, county and city police departments and upon prosecuting officers for such information and assistance as it deems necessary in the performance of its duties.

(4) To recommend to local commissioners rules and regulations, not inconsistent with the law, for the distribution and sale of alcoholic liquors throughout the State.

(5) To inspect, or cause to be inspected, any premises in this State where alcoholic liquors are manufactured, distributed, warehoused, or sold. Nothing in this Act authorizes an agent of the State Commission to inspect private areas within the premises without reasonable suspicion or a warrant during an inspection. "Private areas" include, but are not limited to, safes, personal property, and closed desks. (5.1) Upon receipt of a complaint or upon having knowledge that any person is engaged in business as a manufacturer, importing distributor, distributor, or retailer without a license or valid license, to conduct an investigation. If, after conducting an investigation, the State Commission is satisfied that the alleged conduct occurred or is occurring, it may issue a cease and desist notice as provided in this Act, impose civil penalties as provided in this Act, notify the local liquor authority, or file a complaint with the State's Attorney's Office of the county where the incident occurred or the Attorney General. (5.2) Upon receipt of a complaint or upon having knowledge that any person is shipping alcoholic liquor into this State from a point outside of this State if the shipment is in violation of this Act, to conduct an investigation. If, after conducting an investigation, the State Commission is satisfied that the alleged conduct occurred or is occurring, it may issue a cease and desist notice as provided in this Act, impose civil penalties as provided in this Act, notify the foreign jurisdiction, or file a complaint with the State's Attorney's Office of the county where the incident occurred or the Attorney General. (5.3) To receive complaints from licensees, local officials, law enforcement agencies, organizations, and persons stating that any licensee has been or is violating any provision of this Act or the rules and regulations issued pursuant to this Act. Such complaints shall be in writing, signed and sworn to by the person making the complaint, and shall state with specificity the facts in relation to the alleged violation. If the State Commission has reasonable grounds to believe that the complaint substantially alleges a violation of this Act or rules and regulations adopted pursuant to this Act, it shall conduct an investigation. If, after conducting an investigation, the State Commission is satisfied that the alleged violation did occur, it shall proceed with disciplinary action against the licensee as provided in this Act. (5.4) To make arrests and issue notices of civil violations where necessary for the enforcement of this Act. (5.5) To investigate any and all unlicensed activity. (5.6) To impose civil penalties or fines to any person who, without holding a valid license, engages in conduct that requires a license pursuant to this Act, in an amount not to exceed \$20,000 for

each offense as determined by the State Commission. A civil penalty shall be assessed by the State Commission after a hearing is held in accordance with the provisions set forth in this Act regarding the provision of a hearing for the revocation or suspension of a license.

(6) To hear and determine appeals from orders of a local commission in accordance with the provisions of this Act, as hereinafter set forth. Hearings under this subsection shall be held in Springfield or Chicago, at whichever location is the more convenient for the majority of persons who are parties to the hearing.

(7) The State Commission shall establish uniform systems of accounts to be kept by all retail licensees having more than 4 employees, and for this purpose the State Commission may classify all retail licensees having more than 4 employees and establish a uniform system of accounts for each class and prescribe the manner in which such accounts shall be kept. The State Commission may also prescribe the forms of accounts to be kept by all retail licensees having more than 4 employees, including, but not limited to, accounts of earnings and expenses and any distribution, payment, or other distribution of earnings or assets, and any other forms, records, and memoranda which in the judgment of the commission may be necessary or appropriate to carry out any of the provisions of this Act, including, but not limited to, such forms, records, and memoranda as will readily and accurately disclose at all times the beneficial ownership of such retail licensed business. The accounts, forms, records, and memoranda shall be available at all reasonable times for inspection by authorized representatives of the State Commission or by any local liquor control commissioner or his or her authorized representative. The commission may, from time to time, alter, amend, or repeal, in whole or in part, any uniform system of accounts, or the form and manner of keeping accounts.

(8) In the conduct of any hearing authorized to be held by the State Commission, to appoint, at the commission's discretion, hearing officers to conduct hearings involving complex issues or issues that will require a protracted period of time to resolve, to examine, or cause to be examined, under oath, any licensee, and to examine or cause to be examined the books and records of such licensee; to hear testimony and take proof material for its information in the discharge of its duties hereunder; to administer or cause to be administered oaths; for any such purpose to issue subpoena or subpoenas to require the attendance of witnesses and the production of books, which shall be effective in any part of this State, and to adopt rules to implement its powers under this paragraph (8). Any circuit court may, by order duly entered, require the attendance of witnesses and the production of relevant books subpoenaed by the State Commission and the court may compel obedience to its order by proceedings for contempt.

(9) To investigate the administration of laws in relation to alcoholic liquors in this and other states and any foreign countries, and to recommend from time to time to the Governor and through him or her to the legislature of this State, such amendments to this Act, if any, as it may think desirable and as will serve to further the general broad purposes contained in Section 1-2 hereof.

(10) To adopt such rules and regulations consistent with the provisions of this Act which shall be necessary for the control, sale, or disposition of alcoholic liquor damaged as a result of an accident, wreck, flood, fire, or other similar occurrence.

(11) To develop industry educational programs related to responsible serving and selling, particularly in the areas of overserving consumers and illegal underage purchasing and consumption of alcoholic beverages. (11.1) To license persons providing education and training to alcohol beverage sellers and servers for mandatory and non-mandatory training under the Beverage Alcohol Sellers and Servers Education and Training (BASSET) programs and to develop and administer a public awareness program in Illinois to reduce or eliminate the illegal purchase and consumption of alcoholic beverage products by persons under the age of 21. Application for a license shall be made on forms provided by the State Commission.

(12) To develop and maintain a repository of license and regulatory information.

(13) (Blank).

(14) On or before April 30, 2008 and every 2 years thereafter, the State Commission shall present a written report to the Governor and the General Assembly that shall be based on a study of the impact of Public Act 95-634 on the business of soliciting, selling, and shipping wine from inside and outside of this State directly to residents of this State. As part of its report, the State Commission shall provide all of the following information: (A) The amount of State excise and sales tax revenues generated. (B) The amount of licensing fees received. (C) The number of cases of wine shipped from inside and outside of this State directly to residents of this State. (D) The number of alcohol compliance operations conducted. (E) The number of winery shipper's licenses issued. (F) The number of each of the following: reported violations; cease and

desist notices issued by the Commission; notices of violations issued by the Commission and to the Department of Revenue; and notices and complaints of violations to law enforcement officials, including, without limitation, the Illinois Attorney General and the U.S. Department of Treasury's Alcohol and Tobacco Tax and Trade Bureau.

(15) As a means to reduce the underage consumption of alcoholic liquors, the State Commission shall conduct alcohol compliance operations to investigate whether businesses that are soliciting, selling, and shipping wine from inside or outside of this State directly to residents of this State are licensed by this State or are selling or attempting to sell wine to persons under 21 years of age in violation of this Act.

(16) The State Commission shall, in addition to notifying any appropriate law enforcement agency, submit notices of complaints or violations of Sections 6-29 and 6-29.1 by persons who do not hold a winery shipper's license under this Act to the Illinois Attorney General and to the U.S. Department of Treasury's Alcohol and Tobacco Tax and Trade Bureau.

(17)(A) A person licensed to make wine under the laws of another state who has a winery shipper's license under this Act and annually produces less than 25,000 gallons of wine or a person who has a first-class or second-class wine manufacturer's license, a first-class or second-class wine-maker's license, or a limited wine manufacturer's license under this Act and annually produces less than 25,000 gallons of wine may make application to the Commission for a self-distribution exemption to allow the sale of not more than 5,000 gallons of the exemption holder's wine to retail licensees per year and to sell cider, mead, or both cider and mead to brewers, class 1 brewers, class 2 brewers, and class 3 brewers that, pursuant to subsection

(e) of Section 6-4 of this Act, sell beer, cider, mead, or any combination thereof to non-licensees at their breweries. (B) In the application, which shall be sworn under penalty of perjury, such person shall state

(1) the date it was established;

(2) its volume of production and sales for each year since its establishment;

(3) its efforts to establish distributor relationships;

(4) that a self-distribution exemption is necessary to facilitate the marketing of its wine; and

(5) that it will comply with the liquor and revenue laws of the United States, this State, and any other state where it is licensed. (C) The State Commission shall approve the application for a self-distribution exemption if such person:

(1) is in compliance with State revenue and liquor laws;

(2) is not a member of any affiliated group that produces directly or indirectly more than 25,000 gallons of wine per annum, 930,000 gallons of beer per annum, or 50,000 gallons of spirits per annum;

(3) will not annually produce for sale more than 25,000 gallons of wine, 930,000 gallons of beer, or 50,000 gallons of spirits; and

(4) will not annually sell more than 5,000 gallons of its wine to retail licensees. (D) A self-distribution exemption holder shall annually certify to the State Commission its production of wine in the previous 12 months and its anticipated production and sales for the next 12 months. The State Commission may fine, suspend, or revoke a self-distribution exemption after a hearing if it finds that the exemption holder has made a material misrepresentation in its application, violated a revenue or liquor law of Illinois, exceeded production of 25,000 gallons of wine, 930,000 gallons of beer, or 50,000 gallons of spirits in any calendar year, or become part of an affiliated group producing more than 25,000 gallons of wine, 930,000 gallons of beer, or 50,000 gallons of spirits. (E) Except in hearings for violations of this Act or Public Act 95-634 or a bona fide investigation by duly sworn law enforcement officials, the State Commission, or its agents, the State Commission shall maintain the production and sales information of a self-distribution exemption holder as confidential and shall not release such information to any person. (F) The State Commission shall issue regulations governing self-distribution exemptions consistent with this Section and this Act. (G) Nothing in this paragraph

(17) shall prohibit a self-distribution exemption holder from entering into or simultaneously having a distribution agreement with a licensed Illinois distributor. (H) It is the intent of this paragraph

(17) to promote and continue orderly markets. The General Assembly finds that, in order to preserve Illinois' regulatory distribution system, it is necessary to create an exception for smaller makers of wine as their wines are frequently adjusted in varietals, mixes, vintages, and taste to find and create market niches sometimes too small for distributor or importing distributor business strategies. Limited self-distribution rights will afford and allow smaller makers of wine access to the marketplace in order to develop a customer base without impairing the integrity of the 3-tier system. (18)(A) A class 1 brewer licensee, who must also be either a licensed brewer or licensed non-resident dealer and annually

manufacture less than 930,000 gallons of beer, may make application to the State Commission for a self-distribution exemption to allow the sale of not more than 232,500 gallons per year of the exemption holder's beer to retail licensees and to brewers, class 1 brewers, and class 2 brewers that, pursuant to subsection

(e) of Section 6-4 of this Act, sell beer, cider, mead, or any combination thereof to non-licensees at their breweries. (B) In the application, which shall be sworn under penalty of perjury, the class 1 brewer licensee shall state

- (1) the date it was established;
- (2) its volume of beer manufactured and sold for each year since its establishment;
- (3) its efforts to establish distributor relationships;
- (4) that a self-distribution exemption is necessary to facilitate the marketing of its beer; and

(5) that it will comply with the alcoholic beverage and revenue laws of the United States, this State, and any other state where it is licensed. (C) Any application submitted shall be posted on the State Commission's website at least 45 days prior to action by the State Commission. The State Commission shall approve the application for a self-distribution exemption if the class 1 brewer licensee:

- (1) is in compliance with the State, revenue, and alcoholic beverage laws;
- (2) is not a member of any affiliated group that manufactures, directly or indirectly, more than 930,000 gallons of beer per annum, 25,000 gallons of wine per annum, or 50,000 gallons of spirits per annum;
- (3) shall not annually manufacture for sale more than 930,000 gallons of beer, 25,000 gallons of wine, or 50,000 gallons of spirits;
- (4) shall not annually sell more than 232,500 gallons of its beer to retail licensees and class 3 brewers and to brewers, class 1 brewers, and class 2 brewers that, pursuant to subsection

(e) of Section 6-4 of this Act, sell beer, cider, mead, or any combination thereof to non-licensees at their breweries; and

(5) has relinquished any brew pub license held by the licensee, including any ownership interest it held in the licensed brew pub. (D) A self-distribution exemption holder shall annually certify to the State Commission its manufacture of beer during the previous 12 months and its anticipated manufacture and sales of beer for the next 12 months. The State Commission may fine, suspend, or revoke a self-distribution exemption after a hearing if it finds that the exemption holder has made a material misrepresentation in its application, violated a revenue or alcoholic beverage law of Illinois, exceeded the manufacture of 930,000 gallons of beer, 25,000 gallons of wine, or 50,000 gallons of spirits in any calendar year or became part of an affiliated group manufacturing more than 930,000 gallons of beer, 25,000 gallons of wine, or 50,000 gallons of spirits. (E) The State Commission shall issue rules and regulations governing self-distribution exemptions consistent with this Act. (F) Nothing in this paragraph

(18) shall prohibit a self-distribution exemption holder from entering into or simultaneously having a distribution agreement with a licensed Illinois importing distributor or a distributor. If a self-distribution exemption holder enters into a distribution agreement and has assigned distribution rights to an importing distributor or distributor, then the self-distribution exemption holder's distribution rights in the assigned territories shall cease in a reasonable time not to exceed 60 days.

(G) It is the intent of this paragraph

(18) to promote and continue orderly markets. The General Assembly finds that in order to preserve Illinois' regulatory distribution system, it is necessary to create an exception for smaller manufacturers in order to afford and allow such smaller manufacturers of beer access to the marketplace in order to develop a customer base without impairing the integrity of the 3-tier system. (19)(A) A class 1 craft distiller licensee or a non-resident dealer who manufactures less than 50,000 gallons of distilled spirits per year may make application to the State Commission for a self-distribution exemption to allow the sale of not more than 5,000 gallons of the exemption holder's spirits to retail licensees per year. (B) In the application, which shall be sworn under penalty of perjury, the class 1 craft distiller licensee or non-resident dealer shall state

- (1) the date it was established;
- (2) its volume of spirits manufactured and sold for each year since its establishment;
- (3) its efforts to establish distributor relationships;
- (4) that a self-distribution exemption is necessary to facilitate the marketing of its spirits; and

(5) that it will comply with the alcoholic beverage and revenue laws of the United States, this State, and any other state where it is licensed. (C) Any application submitted shall be posted on the State Commission's website at least 45 days prior to action by the State Commission. The State Commission shall approve the application for a self-distribution exemption if the applicant:

(1) is in compliance with State revenue and alcoholic beverage laws;

(2) is not a member of any affiliated group that produces more than 50,000 gallons of spirits per annum, 930,000 gallons of beer per annum, or 25,000 gallons of wine per annum;

(3) does not annually manufacture for sale more than 50,000 gallons of spirits, 930,000 gallons of beer, or 25,000 gallons of wine; and

(4) does not annually sell more than 5,000 gallons of its spirits to retail licensees. (D) A self-distribution exemption holder shall annually certify to the State Commission its manufacture of spirits during the previous 12 months and its anticipated manufacture and sales of spirits for the next 12 months. The State Commission may fine, suspend, or revoke a self-distribution exemption after a hearing if it finds that the exemption holder has made a material misrepresentation in its application, violated a revenue or alcoholic beverage law of Illinois, exceeded the manufacture of 50,000 gallons of spirits, 930,000 gallons of beer, or 25,000 gallons of wine in any calendar year, or has become part of an affiliated group manufacturing more than 50,000 gallons of spirits, 930,000 gallons of beer, or 25,000 gallons of wine. (E) The State Commission shall adopt rules governing self-distribution exemptions consistent with this Act. (F) Nothing in this paragraph

(19) shall prohibit a self-distribution exemption holder from entering into or simultaneously having a distribution agreement with a licensed Illinois importing distributor or a distributor. (G) It is the intent of this paragraph

(19) to promote and continue orderly markets. The General Assembly finds that in order to preserve Illinois' regulatory distribution system, it is necessary to create an exception for smaller manufacturers in order to afford and allow such smaller manufacturers of spirits access to the marketplace in order to develop a customer base without impairing the integrity of the 3-tier system. (20)(A) A class 3 brewer licensee who must manufacture less than 465,000 gallons of beer in the aggregate and not more than 155,000 gallons at any single brewery premises may make application to the State Commission for a self-distribution exemption to allow the sale of not more than 6,200 gallons of beer from each in-state or out-of-state class 3 brewery premises, which shall not exceed 18,600 gallons annually in the aggregate, that is manufactured at a wholly owned class 3 brewer's in-state or out-of-state licensed premises to retail licensees and class 3 brewers and to brewers, class 1 brewers, class 2 brewers that, pursuant to subsection

(e) of Section 6-4, sell beer, cider, or both beer and cider to non-licensees at their licensed breweries. (B) In the application, which shall be sworn under penalty of perjury, the class 3 brewer licensee shall state:

(1) the date it was established;

(2) its volume of beer manufactured and sold for each year since its establishment;

(3) its efforts to establish distributor relationships;

(4) that a self-distribution exemption is necessary to facilitate the marketing of its beer; and

(5) that it will comply with the alcoholic beverage and revenue laws of the United States, this State, and any other state where it is licensed. (C) Any application submitted shall be posted on the State Commission's website at least 45 days before action by the State Commission. The State Commission shall approve the application for a self-distribution exemption if the class 3 brewer licensee:

(1) is in compliance with the State, revenue, and alcoholic beverage laws;

(2) is not a member of any affiliated group that manufacturers, directly or indirectly, more than 465,000 gallons of beer per annum;

(3) shall not annually manufacture for sale more than 465,000 gallons of beer or more than 155,000 gallons at any single brewery premises; and

(4) shall not annually sell more than 6,200 gallons of beer from each in-state or out-of-state class 3 brewery premises, and shall not exceed 18,600 gallons annually in the aggregate, to retail licensees and class 3 brewers and to brewers, class 1 brewers, and class 2 brewers that, pursuant to subsection

(e) of Section 6-4 of this Act, sell beer, cider, or both beer and cider to non-licensees at their breweries. (D) A self-distribution exemption holder shall annually certify to the State Commission its manufacture of beer during the

previous 12 months and its anticipated manufacture and sales of beer for the next 12 months. The State Commission may fine, suspend, or revoke a self-distribution exemption after a hearing if it finds that the exemption holder has made a material misrepresentation in its application, violated a revenue or alcoholic beverage law of Illinois, exceeded the manufacture of 465,000 gallons of beer in any calendar year or became part of an affiliated group manufacturing more than 465,000 gallons of beer, or exceeded the sale to retail licensees, brewers, class 1 brewers, class 2 brewers, and class 3 brewers of 6,200 gallons per brewery location or 18,600 gallons in the aggregate. (E) The State Commission may adopt rules governing self-distribution exemptions consistent with this Act. (F) Nothing in this paragraph shall prohibit a self-distribution exemption holder from entering into or simultaneously having a distribution agreement with a licensed Illinois importing distributor or a distributor. If a self-distribution exemption holder enters into a distribution agreement and has assigned distribution rights to an importing distributor or distributor, then the self-distribution exemption holder's distribution rights in the assigned territories shall cease in a reasonable time not to exceed 60 days. (G) It is the intent of this paragraph to promote and continue orderly markets. The General Assembly finds that in order to preserve Illinois' regulatory distribution system, it is necessary to create an exception for smaller manufacturers in order to afford and allow such smaller manufacturers of beer access to the marketplace in order to develop a customer base without impairing the integrity of the 3-tier system.

(b) On or before April 30, 1999, the Commission shall present a written report to the Governor and the General Assembly that shall be based on a study of the impact of Public Act 90-739 on the business of soliciting, selling, and shipping alcoholic liquor from outside of this State directly to residents of this State. As part of its report, the Commission shall provide the following information:

(i) the amount of State excise and sales tax revenues generated as a result of Public Act 90-739; (ii) the amount of licensing fees received as a result of Public Act 90-739; (iii) the number of reported violations, the number of cease and desist notices issued by the Commission, the number of notices of violations issued to the Department of Revenue, and the number of notices and complaints of violations to law enforcement officials. (Text of Section after amendment by P.A. 104-451) Sec. 3-12. Powers and duties of State Commission.

(a) The State Commission shall have the following powers, functions, and duties:

(1) To receive applications and to issue licenses to manufacturers, foreign importers, importing distributors, distributors, non-resident dealers, on premise consumption retailers, off premise sale retailers, special event retailer licensees, special use permit licenses, auction liquor licenses, brew pubs, caterer retailers, non-beverage users, railroads, including owners and lessees of sleeping, dining, and cafe cars, airplanes, boats, brokers, and wine maker's premises licensees in accordance with the provisions of this Act, and to suspend or revoke such licenses upon the State Commission's determination, upon notice after hearing, that a licensee has violated any provision of this Act or any rule or regulation issued pursuant thereto and in effect for 30 days prior to such violation. Except in the case of an action taken pursuant to a violation of Section 6-3, 6-5, or 6-9, any action by the State Commission to suspend or revoke a licensee's license may be limited to the license for the specific premises where the violation occurred. An action for a violation of this Act shall be commenced by the State Commission within 2 years after the date the State Commission becomes aware of the violation. In lieu of suspending or revoking a license, the State Commission may impose a fine, upon the State Commission's determination and notice after hearing, that a licensee has violated any provision of this Act or any rule or regulation issued pursuant thereto and in effect for 30 days prior to such violation. For the purpose of this paragraph (1), when determining multiple violations for the sale of alcohol to a person under the age of 21, a second or subsequent violation for the sale of alcohol to a person under the age of 21 shall only be considered if it was committed within 5 years after the date when a prior violation for the sale of alcohol to a person under the age of 21 was committed. The fine imposed under this paragraph may not exceed \$500 for each violation. Each day that the activity, which gave rise to the original fine, continues is a separate violation. The maximum fine that may be levied against any licensee, for the period of the license, shall not exceed \$20,000. The maximum penalty that may be imposed on a licensee for selling a bottle of alcoholic liquor with a foreign object in it or serving from a bottle of alcoholic liquor with a foreign object in it shall be the destruction of that bottle of alcoholic liquor for the first 10 bottles so sold or served from by the licensee. For the eleventh bottle of alcoholic liquor and for each third bottle thereafter sold or served from by the licensee with a foreign object in it, the maximum penalty that may be imposed on the licensee is the destruction of the bottle of alcoholic liquor and a fine of up to \$50. Any notice issued by the State Commission to a licensee for a violation of this Act or any notice with respect to settlement or offer in compromise shall include the field report, photographs, and any other supporting documentation necessary to reasonably inform the licensee of the nature and extent of the violation or the conduct alleged to have occurred. The failure to include such required documentation shall result in the dismissal of the action.

- (2) To adopt such rules and regulations consistent with the provisions of this Act which shall be necessary to carry on its functions and duties to the end that the health, safety, and welfare of the People of the State of Illinois shall be protected and temperance in the consumption of alcoholic liquors shall be fostered and promoted and to distribute copies of such rules and regulations to all licensees affected thereby.
- (3) To call upon other administrative departments of the State, county and municipal governments, county and city police departments, and prosecuting officers for such information and assistance as it deems necessary in the performance of its duties.
- (4) To recommend to local commissioners rules and regulations, not inconsistent with the law, for the distribution and sale of alcoholic liquors throughout the State.
- (5) To inspect, or cause to be inspected, any premises in this State where alcoholic liquors are manufactured, distributed, warehoused, or sold. Nothing in this Act authorizes an agent of the State Commission to inspect private areas within the premises without reasonable suspicion or a warrant during an inspection. "Private areas" includes, but is not limited to, safes, personal property, and closed desks. (5.1) Upon receipt of a complaint or upon having knowledge that any person is engaged in business as a manufacturer, importing distributor, distributor, or retailer without a license or valid license, to conduct an investigation. If, after conducting an investigation, the State Commission is satisfied that the alleged conduct occurred or is occurring, it may issue a cease and desist notice as provided in this Act, impose civil penalties as provided in this Act, notify the local liquor authority, or file a complaint with the State's Attorney's Office of the county where the incident occurred or the Attorney General. (5.2) Upon receipt of a complaint or upon having knowledge that any person is shipping alcoholic liquor into this State from a point outside of this State if the shipment is in violation of this Act, to conduct an investigation. If, after conducting an investigation, the State Commission is satisfied that the alleged conduct occurred or is occurring, it may issue a cease and desist notice as provided in this Act, impose civil penalties as provided in this Act, notify the foreign jurisdiction, or file a complaint with the State's Attorney's Office of the county where the incident occurred or the Attorney General. (5.3) To receive complaints from licensees, local officials, law enforcement agencies, organizations, and persons stating that any licensee has been or is violating any provision of this Act or the rules and regulations issued pursuant to this Act. Such complaints shall be in writing, signed and sworn to by the person making the complaint, and shall state with specificity the facts in relation to the alleged violation. If the State Commission has reasonable grounds to believe that the complaint substantially alleges a violation of this Act or rules and regulations adopted pursuant to this Act, it shall conduct an investigation. If, after conducting an investigation, the State Commission is satisfied that the alleged violation did occur, it shall proceed with disciplinary action against the licensee as provided in this Act. (5.4) To make arrests and issue notices of civil violations where necessary for the enforcement of this Act. (5.5) To investigate any and all unlicensed activity. (5.6) To impose civil penalties or fines to any person who, without holding a valid license, engages in conduct that requires a license pursuant to this Act, in an amount not to exceed \$20,000 for each offense as determined by the State Commission. A civil penalty shall be assessed by the State Commission after a hearing is held in accordance with the provisions set forth in this Act regarding the provision of a hearing for the revocation or suspension of a license.
- (6) To hear and determine appeals from orders of a local commission in accordance with the provisions of this Act, as hereinafter set forth. Hearings under this subsection shall be held in Springfield or Chicago, at whichever location is the more convenient for the majority of persons who are parties to the hearing.
- (7) The State Commission shall establish uniform systems of accounts to be kept by all retail licensees having more than 4 employees, and, for this purpose, the State Commission may classify all retail licensees having more than 4 employees and establish a uniform system of accounts for each class and prescribe the manner in which such accounts shall be kept. The State Commission may also prescribe the forms of accounts to be kept by all retail licensees having more than 4 employees, including, but not limited to, accounts of earnings and expenses and any distribution, payment, or other distribution of earnings or assets, and any other forms, records, and memoranda which in the judgment of the State Commission may be necessary or appropriate to carry out any of the provisions of this Act, including, but not limited to, such forms, records, and memoranda as will readily and accurately disclose at all times the beneficial ownership of such retail licensed business. The accounts, forms, records, and memoranda shall be available at all reasonable times for inspection by authorized representatives of the State Commission or by any local liquor control commissioner or his or her authorized representative. The State Commission may, from time to time, alter, amend, or repeal, in whole or in part, any uniform system of accounts, or the form and manner of keeping accounts.

(8) In the conduct of any hearing authorized to be held by the State Commission, to appoint, at the State Commission's discretion, hearing officers to conduct hearings involving complex issues or issues that will require a protracted period of time to resolve, to examine, or cause to be examined, under oath, any licensee, and to examine or cause to be examined the books and records of such licensee; to hear testimony and take proof material for its information in the discharge of its duties hereunder; to administer or cause to be administered oaths; for any such purpose to issue subpoena or subpoenas to require the attendance of witnesses and the production of books, which shall be effective in any part of this State, and to adopt rules to implement its powers under this paragraph (8). Any circuit court may, by order duly entered, require the attendance of witnesses and the production of relevant books subpoenaed by the State Commission and the court may compel obedience to its order by proceedings for contempt.

(9) To investigate the administration of laws in relation to alcoholic liquors in this and other states and any foreign countries, and to recommend from time to time to the Governor and through him or her to the legislature of this State, such amendments to this Act, if any, as it may think desirable and as will serve to further the general broad purposes contained in Section 1-2 hereof.

(10) To adopt such rules and regulations consistent with the provisions of this Act which shall be necessary for the control, sale, or disposition of alcoholic liquor damaged as a result of an accident, wreck, flood, fire, or other similar occurrence.

(11) To develop industry educational programs related to responsible serving and selling, particularly in the areas of overserving consumers and illegal underage purchasing and consumption of alcoholic beverages. (11.1) To license persons providing education and training to alcohol beverage sellers and servers for mandatory and non-mandatory training under the Beverage Alcohol Sellers and Servers Education and Training (BASSET) programs and to develop and administer a public awareness program in Illinois to reduce or eliminate the illegal purchase and consumption of alcoholic beverage products by persons under the age of 21. Application for a license shall be made on forms provided by the State Commission.

(12) To develop and maintain a repository of license and regulatory information.

(13) (Blank).

(14) On or before April 30, 2008 and every 2 years thereafter, the State Commission shall present a written report to the Governor and the General Assembly that shall be based on a study of the impact of Public Act 95-634 on the business of soliciting, selling, and shipping wine from inside and outside of this State directly to residents of this State. As part of its report, the State Commission shall provide all of the following information: (A) The amount of State excise and sales tax revenues generated. (B) The amount of licensing fees received. (C) The number of cases of wine shipped from inside and outside of this State directly to residents of this State. (D) The number of alcohol compliance operations conducted. (E) The number of winery shipper's licenses issued. (F) The number of each of the following: reported violations; cease and desist notices issued by the State Commission; notices of violations issued by the State Commission and to the Department of Revenue; and notices and complaints of violations to law enforcement officials, including, without limitation, the Illinois Attorney General and the U.S. Department of Treasury's Alcohol and Tobacco Tax and Trade Bureau.

(15) As a means to reduce the underage consumption of alcoholic liquors, the State Commission shall conduct alcohol compliance operations to investigate whether businesses that are soliciting, selling, and shipping wine from inside or outside of this State directly to residents of this State are licensed by this State or are selling or attempting to sell wine to persons under 21 years of age in violation of this Act.

(16) The State Commission shall, in addition to notifying any appropriate law enforcement agency, submit notices of complaints or violations of Sections 6-29 and 6-29.1 by persons who do not hold a winery shipper's license under this Act to the Illinois Attorney General and to the U.S. Department of Treasury's Alcohol and Tobacco Tax and Trade Bureau.

(17)(A) A person licensed to make wine under the laws of another state who has a winery shipper's license under this Act and annually produces less than 25,000 gallons of wine or a person who has a first-class or second-class wine manufacturer's license, a first-class or second-class wine-maker's license, or a limited wine manufacturer's license under this Act and annually produces less than 25,000 gallons of wine may make application to the State Commission for a self-distribution exemption to allow the sale of not more than 5,000 gallons of the exemption holder's wine to retail licensees per year and to sell cider, mead, or both cider and mead to brewers, class 1 brewers, class 2 brewers, class 3 brewers, and class 3 craft distillers that, pursuant to subsection

(e) of Section 6-4 of this Act, sell beer, cider, spirits, mead, or any combination thereof to non-licensees at their breweries or distilleries. (B) In the application, which shall be sworn under penalty of perjury, such person shall state

(1) the date it was established;

(2) its volume of production and sales for each year since its establishment;

(3) its efforts to establish distributor relationships;

(4) that a self-distribution exemption is necessary to facilitate the marketing of its wine; and

(5) that it will comply with the liquor and revenue laws of the United States, this State, and any other state where it is licensed. (C) The State Commission shall approve the application for a self-distribution exemption if such person:

(1) is in compliance with State revenue and liquor laws;

(2) is not a member of any affiliated group that produces directly or indirectly more than 25,000 gallons of wine per annum, 930,000 gallons of beer per annum, or 50,000 gallons of spirits per annum;

(3) will not annually produce for sale more than 25,000 gallons of wine, 930,000 gallons of beer, or 50,000 gallons of spirits; and

(4) will not annually sell more than 5,000 gallons of its wine to retail licensees. (D) A self-distribution exemption holder shall annually certify to the State Commission its production of wine in the previous 12 months and its anticipated production and sales for the next 12 months. The State Commission may fine, suspend, or revoke a self-distribution exemption after a hearing if it finds that the exemption holder has made a material misrepresentation in its application, violated a revenue or liquor law of Illinois, exceeded production of 25,000 gallons of wine, 930,000 gallons of beer, or 50,000 gallons of spirits in any calendar year, or become part of an affiliated group producing more than 25,000 gallons of wine, 930,000 gallons of beer, or 50,000 gallons of spirits. (E) Except in hearings for violations of this Act or Public Act 95-634 or a bona fide investigation by duly sworn law enforcement officials, the State Commission, or its agents, the State Commission shall maintain the production and sales information of a self-distribution exemption holder as confidential and shall not release such information to any person. (F) The State Commission shall issue regulations governing self-distribution exemptions consistent with this Section and this Act. (G) Nothing in this paragraph

(17) shall prohibit a self-distribution exemption holder from entering into or simultaneously having a distribution agreement with a licensed Illinois distributor. (H) It is the intent of this paragraph

(17) to promote and continue orderly markets. The General Assembly finds that, in order to preserve Illinois' regulatory distribution system, it is necessary to create an exception for smaller makers of wine as their wines are frequently adjusted in varietals, mixes, vintages, and taste to find and create market niches sometimes too small for distributor or importing distributor business strategies. Limited self-distribution rights will afford and allow smaller makers of wine access to the marketplace in order to develop a customer base without impairing the integrity of the 3-tier system. (18)(A) A class 1 brewer licensee, who must also be either a licensed brewer or licensed non-resident dealer and annually manufacture less than 930,000 gallons of beer, may make application to the State Commission for a self-distribution exemption to allow the sale of not more than 232,500 gallons per year of the exemption holder's beer to retail licensees and to brewers, class 1 brewers, and class 2 brewers that, pursuant to subsection

(e) of Section 6-4 of this Act, sell beer, cider, mead, or any combination thereof to non-licensees at their breweries. (B) In the application, which shall be sworn under penalty of perjury, the class 1 brewer licensee shall state

(1) the date it was established;

(2) its volume of beer manufactured and sold for each year since its establishment;

(3) its efforts to establish distributor relationships;

(4) that a self-distribution exemption is necessary to facilitate the marketing of its beer; and

(5) that it will comply with the alcoholic beverage and revenue laws of the United States, this State, and any other state where it is licensed. (C) Any application submitted shall be posted on the State Commission's website at least 45 days prior to action by the State Commission. The State Commission shall approve the application for a self-distribution exemption if the class 1 brewer licensee:

(1) is in compliance with the State, revenue, and alcoholic beverage laws;

(2) is not a member of any affiliated group that manufactures, directly or indirectly, more than 930,000 gallons of beer per annum, 25,000 gallons of wine per annum, or 50,000 gallons of spirits per annum;

(3) shall not annually manufacture for sale more than 930,000 gallons of beer, 25,000 gallons of wine, or 50,000 gallons of spirits;

(4) shall not annually sell more than 232,500 gallons of its beer to retail licensees and class 3 brewers and to brewers, class 1 brewers, and class 2 brewers that, pursuant to subsection

(e) of Section 6-4 of this Act, sell beer, cider, mead, or any combination thereof to non-licensees at their breweries; and

(5) has relinquished any brew pub license held by the licensee, including any ownership interest it held in the licensed brew pub. (D) A self-distribution exemption holder shall annually certify to the State Commission its manufacture of beer during the previous 12 months and its anticipated manufacture and sales of beer for the next 12 months. The State Commission may fine, suspend, or revoke a self-distribution exemption after a hearing if it finds that the exemption holder has made a material misrepresentation in its application, violated a revenue or alcoholic beverage law of Illinois, exceeded the manufacture of 930,000 gallons of beer, 25,000 gallons of wine, or 50,000 gallons of spirits in any calendar year or became part of an affiliated group manufacturing more than 930,000 gallons of beer, 25,000 gallons of wine, or 50,000 gallons of spirits. (E) The State Commission shall issue rules and regulations governing self-distribution exemptions consistent with this Act. (F) Nothing in this paragraph

(18) shall prohibit a self-distribution exemption holder from entering into or simultaneously having a distribution agreement with a licensed Illinois importing distributor or a distributor. If a self-distribution exemption holder enters into a distribution agreement and has assigned distribution rights to an importing distributor or distributor, then the self-distribution exemption holder's distribution rights in the assigned territories shall cease in a reasonable time not to exceed 60 days.

(G) It is the intent of this paragraph

(18) to promote and continue orderly markets. The General Assembly finds that in order to preserve Illinois' regulatory distribution system, it is necessary to create an exception for smaller manufacturers in order to afford and allow such smaller manufacturers of beer access to the marketplace in order to develop a customer base without impairing the integrity of the 3-tier system. (19)(A) A class 1 craft distiller licensee or a non-resident dealer who manufactures less than 50,000 gallons of distilled spirits per year may make application to the State Commission for a self-distribution exemption to allow the sale of not more than 5,000 gallons of the exemption holder's spirits to retail licensees per year. (B) In the application, which shall be sworn under penalty of perjury, the class 1 craft distiller licensee or non-resident dealer shall state

(1) the date it was established;

(2) its volume of spirits manufactured and sold for each year since its establishment;

(3) its efforts to establish distributor relationships;

(4) that a self-distribution exemption is necessary to facilitate the marketing of its spirits; and

(5) that it will comply with the alcoholic beverage and revenue laws of the United States, this State, and any other state where it is licensed. (C) Any application submitted shall be posted on the State Commission's website at least 45 days prior to action by the State Commission. The State Commission shall approve the application for a self-distribution exemption if the applicant:

(1) is in compliance with State revenue and alcoholic beverage laws;

(2) is not a member of any affiliated group that produces more than 50,000 gallons of spirits per annum, 930,000 gallons of beer per annum, or 25,000 gallons of wine per annum;

(3) does not annually manufacture for sale more than 50,000 gallons of spirits, 930,000 gallons of beer, or 25,000 gallons of wine; and

(4) does not annually sell more than 5,000 gallons of its spirits to retail licensees. (D) A self-distribution exemption holder shall annually certify to the State Commission its manufacture of spirits during the previous 12 months and its anticipated manufacture and sales of spirits for the next 12 months. The State Commission may fine, suspend, or revoke a self-distribution exemption after a hearing if it finds that the exemption holder has made a material misrepresentation in its application, violated a revenue or alcoholic beverage law of Illinois, exceeded the manufacture of 50,000 gallons of spirits, 930,000 gallons of beer, or 25,000 gallons of wine in any calendar year, or has become part of an affiliated group manufacturing more than 50,000 gallons of spirits, 930,000 gallons of beer, or 25,000 gallons of wine. (E) The State Commission shall adopt rules governing self-distribution exemptions consistent with this Act. (F) Nothing in this paragraph

(19) shall prohibit a self-distribution exemption holder from entering into or simultaneously having a distribution agreement with a licensed Illinois importing distributor or a distributor. (G) It is the intent of this paragraph

(19) to promote and continue orderly markets. The General Assembly finds that in order to preserve Illinois' regulatory distribution system, it is necessary to create an exception for smaller manufacturers in order to afford and allow such smaller manufacturers of spirits access to the marketplace in order to develop a customer base without impairing the integrity of the 3-tier system. (20)(A) A class 3 brewer licensee who must manufacture less than 465,000 gallons of beer in the aggregate and not more than 155,000 gallons at any single brewery premises may make application to the State Commission for a self-distribution exemption to allow the sale of not more than 6,200 gallons of beer from each in-state or out-of-state class 3 brewery premises, which shall not exceed 18,600 gallons annually in the aggregate, that is manufactured at a wholly owned class 3 brewer's in-state or out-of-state licensed premises to retail licensees and class 3 brewers and to brewers, class 1 brewers, class 2 brewers that, pursuant to subsection

(e) of Section 6-4, sell beer, cider, or both beer and cider to non-licensees at their licensed breweries. (B) In the application, which shall be sworn under penalty of perjury, the class 3 brewer licensee shall state:

(1) the date it was established;

(2) its volume of beer manufactured and sold for each year since its establishment;

(3) its efforts to establish distributor relationships;

(4) that a self-distribution exemption is necessary to facilitate the marketing of its beer; and

(5) that it will comply with the alcoholic beverage and revenue laws of the United States, this State, and any other state where it is licensed. (C) Any application submitted shall be posted on the State Commission's website at least 45 days before action by the State Commission. The State Commission shall approve the application for a self-distribution exemption if the class 3 brewer licensee:

(1) is in compliance with the State, revenue, and alcoholic beverage laws;

(2) is not a member of any affiliated group that manufacturers, directly or indirectly, more than 465,000 gallons of beer per annum;

(3) shall not annually manufacture for sale more than 465,000 gallons of beer or more than 155,000 gallons at any single brewery premises; and

(4) shall not annually sell more than 6,200 gallons of beer from each in-state or out-of-state class 3 brewery premises, and shall not exceed 18,600 gallons annually in the aggregate, to retail licensees and class 3 brewers and to brewers, class 1 brewers, and class 2 brewers that, pursuant to subsection

(e) of Section 6-4 of this Act, sell beer, cider, or both beer and cider to non-licensees at their breweries. (D) A self-distribution exemption holder shall annually certify to the State Commission its manufacture of beer during the previous 12 months and its anticipated manufacture and sales of beer for the next 12 months. The State Commission may fine, suspend, or revoke a self-distribution exemption after a hearing if it finds that the exemption holder has made a material misrepresentation in its application, violated a revenue or alcoholic beverage law of Illinois, exceeded the manufacture of 465,000 gallons of beer in any calendar year or became part of an affiliated group manufacturing more than 465,000 gallons of beer, or exceeded the sale to retail licensees, brewers, class 1 brewers, class 2 brewers, and class 3 brewers of 6,200 gallons per brewery location or 18,600 gallons in the aggregate. (E) The State Commission may adopt rules governing self-distribution exemptions consistent with this Act. (F) Nothing in this paragraph shall prohibit a self-distribution exemption holder from entering into or simultaneously having a distribution agreement with a licensed Illinois importing distributor or a distributor. If a self-distribution exemption holder enters into a distribution agreement and has assigned distribution rights to an importing distributor or distributor, then the self-distribution exemption holder's distribution rights in the assigned territories shall cease in a reasonable time not to exceed 60 days. (G) It is the intent of this paragraph to promote and continue orderly markets. The General Assembly finds that in order to preserve Illinois' regulatory distribution system, it is necessary to create an exception for smaller manufacturers in order to afford and allow such smaller manufacturers of beer access to the marketplace in order to develop a customer base without impairing the integrity of the 3-tier system. (21)(A) A class 3 craft distiller licensee who manufactures less than 100,000 gallons of spirits in the aggregate may make application to the State Commission for a self-distribution exemption to allow the sale of not more than 5,000 gallons of the exemption holder's spirits per year that are manufactured at a wholly owned class 3 craft distiller's in-state or out-of-state licensed premises to retail licensees and class 3 brewers and to class 3 craft distillers that, pursuant to subsection

(e) of Section 6-4, sell beer, cider, spirits, or any combination thereof to non-licensees at their licensed distilleries. (B) In the application, which shall be sworn under penalty of perjury, the class 3 craft distiller licensee shall state:

- (1) the date it was established;
- (2) its volume of spirits manufactured and sold for each year since its establishment;
- (3) its efforts to establish distributor relationships;
- (4) that a self-distribution exemption is necessary to facilitate the marketing of its spirits; and
- (5) that it will comply with the alcoholic beverage and revenue laws of the United States, this State, and any other state where it is licensed. (C) Any application submitted shall be posted on the State Commission's website at least 45 days before action by the State Commission. The State Commission shall approve the application for a self-distribution exemption if the class 3 craft distiller licensee:
 - (1) is in compliance with the State, revenue, and alcoholic beverage laws;
 - (2) is not a member of any affiliated group that manufacturers, directly or indirectly, more than 100,000 gallons of spirits per annum;
 - (3) shall not annually manufacture for sale more than 100,000 gallons of spirits; and
 - (4) does not sell more than 5,000 gallons of its spirits per year to retail licensees and class 3 brewers and to class 3 craft distillers that, pursuant to subsection

(e) of Section 6-4, sell beer, cider, spirits, or any combination thereof to non-licensees at their licensed distilleries. (D) A self-distribution exemption holder shall annually certify to the State Commission its manufacture of spirits during the previous 12 months and its anticipated manufacture and sales of spirits for the next 12 months. The State Commission may fine, suspend, or revoke a self-distribution exemption after a hearing if it finds that the exemption holder has made a material misrepresentation in its application, violated a revenue or alcoholic beverage law of Illinois, exceeded the manufacture of 100,000 gallons of spirits in any calendar year, or became part of an affiliated group manufacturing more than 100,000 gallons of spirits. (E) The State Commission may adopt rules governing self-distribution exemptions consistent with this Act. (F) Nothing in this paragraph shall prohibit a self-distribution exemption holder from entering into or simultaneously having a distribution agreement with a licensed Illinois importing distributor or a distributor. (G) It is the intent of this paragraph to promote and continue orderly markets. The General Assembly finds that, in order to preserve Illinois' regulatory distribution system, it is necessary to create an exception for smaller manufacturers in order to afford and allow such smaller manufacturers of spirits access to the marketplace in order to develop a customer base without impairing the integrity of the 3-tier system.

(b) On or before April 30, 1999, the Commission shall present a written report to the Governor and the General Assembly that shall be based on a study of the impact of Public Act 90-739 on the business of soliciting, selling, and shipping alcoholic liquor from outside of this State directly to residents of this State. As part of its report, the Commission shall provide the following information:

A brew pub licensee shall not under any circumstance sell or offer for sale beer manufactured by the brew pub licensee to retail licensees. A person who holds a class 2 brewer license may simultaneously hold a brew pub license if the class 2 brewer

(i) does not, under any circumstance, sell or offer for sale beer manufactured by the class 2 brewer to retail licensees; (ii) does not hold more than 3 brew pub licenses in this State; (iii) does not manufacture more than a combined 3,720,000 gallons of beer per year, including the beer manufactured at the brew pub; and (iv) is not a member of or affiliated with, directly or indirectly, a manufacturer that produces more than 3,720,000 gallons of beer per year or any other alcoholic liquor. (4) relinquishes all commonly owned retail licenses on or before December 31, 2022. If a brew pub licensee is issued a class 3 brewer license, the class 3 brewer license shall expire on the same date as the existing brew pub license and the State Commission shall not require a class 3 brewer licensee to obtain a brewer license or, in the alternative, to pay a fee for a brewer license, until the date the brew pub license of the applicant would have expired.

(o) A caterer retailer license shall allow the holder to serve alcoholic liquors as an incidental part of a food service that serves prepared meals which excludes the serving of snacks as the primary meal, either on or off-site whether licensed or unlicensed. A caterer retailer license shall allow the holder, a distributor, or an importing distributor to transfer any inventory to and from the holder's retail premises and shall allow the holder to purchase alcoholic liquor from a distributor or importing distributor to be delivered directly to an off-site event. Nothing in this Act prohibits a distributor or importing distributor from offering credit or a refund for unused, salable beer to a holder of a caterer retailer license or a caterer retailer licensee from accepting a credit or refund for unused, salable beer, in the event an act of God is the sole reason an off-site event is canceled and if:

(i) the holder of a caterer retailer license has not transferred alcoholic liquor from its caterer retailer premises to an off-site location; (ii) the distributor or importing distributor offers the credit or refund for the unused, salable beer that it delivered to the off-site premises and not for any unused, salable beer that the distributor or importing distributor delivered to the caterer retailer's premises; and (iii) the unused, salable beer would likely spoil if transferred to the caterer retailer's premises. A caterer retailer license shall allow the holder to transfer any inventory from any off-site location to its caterer retailer premises at the conclusion of an off-site event or engage a distributor or importing distributor to transfer any inventory from any off-site location to its caterer retailer premises at the conclusion of an off-site event, provided that the distributor or importing distributor issues bona fide charges to the caterer retailer licensee for fuel, labor, and delivery and the distributor or importing distributor collects payment from the caterer retailer licensee prior to the distributor or importing distributor transferring inventory to the caterer retailer premises. For purposes of this subsection (o), an "act of God" means an unforeseeable event, such as a rain or snow storm, hail, a flood, or a similar event, that is the sole cause of the cancellation of an off-site, outdoor event.

A special use permit license may be granted for the following time periods: one day or less; 2 or more days to a maximum of 15 days per location in any 12-month period. An applicant for the special use permit license must also submit with the application proof satisfactory to the State Commission that the applicant will provide dram shop liability insurance to the maximum limits and have local authority approval. A special use permit license shall allow the holder to transfer any inventory from the holder's special use premises to its retail premises at the conclusion of the special use event or engage a distributor or importing distributor to transfer any inventory from the holder's special use premises to its retail premises at the conclusion of an off-site event, provided that the distributor or importing distributor issues bona fide charges to the special use permit licensee for fuel, labor, and delivery and the distributor or importing distributor collects payment from the retail licensee prior to the distributor or importing distributor transferring inventory to the retail premises. Nothing in this Act prohibits a distributor or importing distributor from offering credit or a refund for unused, salable beer to a special use permit licensee or a special use permit licensee from accepting a credit or refund for unused, salable beer at the conclusion of the event specified in the license if:

(i) the holder of the special use permit license has not transferred alcoholic liquor from its retail licensed premises to the premises specified in the special use permit license; (ii) the distributor or importing distributor offers the credit or refund for the unused, salable beer that it delivered to the premises specified in the special use permit license and not for any unused, salable beer that the distributor or importing distributor delivered to the retailer's premises; and (iii) the unused, salable beer would likely spoil if transferred to the retailer premises.

(r) A winery shipper's license shall allow a person with a first-class or second-class wine manufacturer's license, a first-class or second-class wine-maker's license, or a limited wine manufacturer's license or who is licensed to make wine under the laws of another state to ship wine made by that licensee directly to a resident of this State who is 21 years of age or older for that resident's personal use and not for resale. Prior to receiving a winery shipper's license, an applicant for the license must provide the State Commission with a true copy of its current license in any state in which it is licensed as a manufacturer of wine. An applicant for a winery shipper's license must also complete an application form that provides any other information the State Commission deems necessary. The application form shall include all addresses from which the applicant for a winery shipper's license intends to ship wine, including the name and address of any third party, except for a common carrier, authorized to ship wine on behalf of the manufacturer. The application form shall include an acknowledgment consenting to the jurisdiction of the State Commission, the Illinois Department of Revenue, and the courts of this State concerning the enforcement of this Act and any related laws, rules, and regulations, including authorizing the Department of Revenue and the State Commission to conduct audits for the purpose of ensuring compliance with Public Act 95-634, and an acknowledgment that the wine manufacturer is in compliance with Section 6-2 of this Act. Any third party, except for a common carrier, authorized to ship wine on behalf of a first-class or second-class

wine manufacturer's licensee, a first-class or second-class wine-maker's licensee, a limited wine manufacturer's licensee, or a person who is licensed to make wine under the laws of another state shall also be disclosed by the winery shipper's licensee, and a copy of the written appointment of the third-party wine provider, except for a common carrier, to the wine manufacturer shall be filed with the State Commission as a supplement to the winery shipper's license application or any renewal thereof. The winery shipper's license holder shall affirm under penalty of perjury, as part of the winery shipper's license application or renewal, that he or she only ships wine, either directly or indirectly through a third-party provider, from the licensee's own production. Except for a common carrier, a third-party provider shipping wine on behalf of a winery shipper's license holder is the agent of the winery shipper's license holder and, as such, a winery shipper's license holder is responsible for the acts and omissions of the third-party provider acting on behalf of the license holder. A third-party provider, except for a common carrier, that engages in shipping wine into Illinois on behalf of a winery shipper's license holder shall consent to the jurisdiction of the State Commission and the State. Any third-party, except for a common carrier, holding such an appointment shall, by February 1 of each calendar year and upon request by the State Commission or the Department of Revenue, file with the State Commission a statement detailing each shipment made to an Illinois resident. The statement shall include the name and address of the third-party provider filing the statement, the time period covered by the statement, and the following information:

- (1) the name, address, and license number of the winery shipper on whose behalf the shipment was made;
 - (2) the quantity of the products delivered; and
 - (3) the date and address of the shipment. If the Department of Revenue or the State Commission requests a statement under this paragraph, the third-party provider must provide that statement no later than 30 days after the request is made. Any books, records, supporting papers, and documents containing information and data relating to a statement under this paragraph shall be kept and preserved for a period of 3 years, unless their destruction sooner is authorized, in writing, by the Director of Revenue, and shall be open and available to inspection by the Director of Revenue or the State Commission or any duly authorized officer, agent, or employee of the State Commission or the Department of Revenue, at all times during business hours of the day. Any person who violates any provision of this paragraph or any rule of the State Commission for the administration and enforcement of the provisions of this paragraph is guilty of a Class C misdemeanor. In case of a continuing violation, each day's continuance thereof shall be a separate and distinct offense. The State Commission shall adopt rules as soon as practicable to implement the requirements of Public Act 99-904 and shall adopt rules prohibiting any such third-party appointment of a third-party provider, except for a common carrier, that has been deemed by the State Commission to have violated the provisions of this Act with regard to any winery shipper licensee. A winery shipper licensee must pay to the Department of Revenue the State liquor gallonage tax under Section 8-1 for all wine that is sold by the licensee and shipped to a person in this State. For the purposes of Section 8-1, a winery shipper licensee shall be taxed in the same manner as a manufacturer of wine. A licensee who is not otherwise required to register under the Retailers' Occupation Tax Act must register under the Use Tax Act to collect and remit use tax to the Department of Revenue for all gallons of wine that are sold by the licensee and shipped to persons in this State. If a licensee fails to remit the tax imposed under this Act in accordance with the provisions of Article VIII of this Act, the winery shipper's license shall be revoked in accordance with the provisions of Article VII of this Act. If a licensee fails to properly register and remit tax under the Use Tax Act or the Retailers' Occupation Tax Act for all wine that is sold by the winery shipper and shipped to persons in this State, the winery shipper's license shall be revoked in accordance with the provisions of Article VII of this Act. A winery shipper licensee must collect, maintain, and submit to the State Commission on a semi-annual basis the total number of cases per resident of wine shipped to residents of this State. A winery shipper licensed under this subsection
- (r) must comply with the requirements of Section 6-29 of this Act. Pursuant to paragraph (5.1) or (5.3) of subsection (a) of Section 3-12, the State Commission may receive, respond to, and investigate any complaint and impose any of the remedies specified in paragraph (1) of subsection (a) of Section 3-12. As used in this subsection, "third-party provider" means any entity that provides fulfillment house services, including warehousing, packaging, distribution, order processing, or shipment of wine, but not the sale of wine, on behalf of a licensed winery shipper.
- (s) A craft distiller tasting permit license shall allow an Illinois licensed class 1 craft distiller or class 2 craft distiller to transfer a portion of its alcoholic liquor inventory from its class 1 craft distiller or class 2 craft distiller licensed premises to the premises specified in the license hereby created and to conduct a sampling, only in the premises specified in the

license hereby created, of the transferred alcoholic liquor in accordance with subsection

(c) of Section 6-31 of this Act. The transferred alcoholic liquor may not be sold or resold in any form. An applicant for the craft distiller tasting permit license must also submit with the application proof satisfactory to the State Commission that the applicant will provide dram shop liability insurance to the maximum limits and have local authority approval.

(t) A brewer warehouse permit may be issued to the holder of a class 1 brewer license or a class 2 brewer license. No holder of a retailer's license issued by the Illinois Liquor Control Commission shall purchase or receive any alcoholic liquor, the order for which was solicited or offered for sale to such retailer by a broker unless the broker is the holder of a valid broker's license. The broker shall, upon the acceptance by a retailer of the broker's solicitation of an order or offer to sell or supply or deliver or have delivered alcoholic liquors, promptly forward to the Illinois Liquor Control Commission a notification of said transaction in such form as the State Commission may by regulations prescribe. (ii) A broker's license shall be required of a person within this State, other than a retail licensee, who, for a fee or commission, promotes, solicits, or accepts orders for alcoholic liquor, for use or consumption and not for resale, to be shipped from this State and delivered to residents outside of this State by an express company, common carrier, or contract carrier. This Section does not apply to any person who promotes, solicits, or accepts orders for wine as specifically authorized in Section 6-29 of this Act. A broker's license under this subsection

(i) of this subsection, brew pubs wholly owned and operated by the same licensee may combine each location's production limit of 155,000 gallons of beer per year and allocate the aggregate total between the wholly owned, operated, and licensed locations. A brew pub licensee shall not under any circumstance sell or offer for sale beer manufactured by the brew pub licensee to retail licensees. A person who holds a class 2 brewer license may simultaneously hold a brew pub license if the class 2 brewer

(i) does not, under any circumstance, sell or offer for sale beer manufactured by the class 2 brewer to retail licensees; (ii) does not hold more than 3 brew pub licenses in this State; (iii) does not manufacture more than a combined 3,720,000 gallons of beer per year, including the beer manufactured at the brew pub; and (iv) is not a member of or affiliated with, directly or indirectly, a manufacturer that produces more than 3,720,000 gallons of beer per year or any other alcoholic liquor. Notwithstanding any other provision of this Act, a licensed brewer, class 2 brewer, or non-resident dealer who before July 1, 2015 manufactured less than 3,720,000 gallons of beer per year and held a brew pub license on or before July 1, 2015 may

(i) continue to qualify for and hold that brew pub license for the licensed premises and (ii) manufacture more than 3,720,000 gallons of beer per year and continue to qualify for and hold that brew pub license if that brewer, class 2 brewer, or non-resident dealer does not simultaneously hold a class 1 brewer license and is not a member of or affiliated with, directly or indirectly, a manufacturer that produces more than 3,720,000 gallons of beer per year or that produces any other alcoholic liquor. A brew pub licensee may apply for a class 3 brewer license and, upon meeting all applicable qualifications of this Act and relinquishing all commonly owned brew pub or retail licenses, shall be issued a class 3 brewer license. Nothing in this Act shall prohibit the issuance of a class 3 brewer license if the applicant:

(1) has a valid retail license on or before May 1, 2021;

(2) has an ownership interest in at least 2 brew pubs licenses on or before May 1, 2021;

(3) the brew pub licensee applies for a class 3 brewer license on or before October 1, 2022 and relinquishes all commonly owned brew pub licenses; and

(4) relinquishes all commonly owned retail licenses on or before December 31, 2022. If a brew pub licensee is issued a class 3 brewer license, the class 3 brewer license shall expire on the same date as the existing brew pub license and the State Commission shall not require a class 3 brewer licensee to obtain a brewer license or, in the alternative, to pay a fee for a brewer license, until the date the brew pub license of the applicant would have expired.

(o) A caterer retailer license shall allow the holder to serve alcoholic liquors as an incidental part of a food service that serves prepared meals which excludes the serving of snacks as the primary meal, either on or off-site whether licensed or

unlicensed. A caterer retailer license shall allow the holder, a distributor, or an importing distributor to transfer any inventory to and from the holder's retail premises and shall allow the holder to purchase alcoholic liquor from a distributor or importing distributor to be delivered directly to an off-site event. Nothing in this Act prohibits a distributor or importing distributor from offering credit or a refund for unused, salable beer to a holder of a caterer retailer license or a caterer retailer licensee from accepting a credit or refund for unused, salable beer, in the event an act of God is the sole reason an off-site event is canceled and if:

(i) the holder of a caterer retailer license has not transferred alcoholic liquor from its caterer retailer premises to an off-site location; (ii) the distributor or importing distributor offers the credit or refund for the unused, salable beer that it delivered to the off-site premises and not for any unused, salable beer that the distributor or importing distributor delivered to the caterer retailer's premises; and (iii) the unused, salable beer would likely spoil if transferred to the caterer retailer's premises. A caterer retailer license shall allow the holder to transfer any inventory from any off-site location to its caterer retailer premises at the conclusion of an off-site event or engage a distributor or importing distributor to transfer any inventory from any off-site location to its caterer retailer premises at the conclusion of an off-site event, provided that the distributor or importing distributor issues bona fide charges to the caterer retailer licensee for fuel, labor, and delivery and the distributor or importing distributor collects payment from the caterer retailer licensee prior to the distributor or importing distributor transferring inventory to the caterer retailer premises. For purposes of this subsection (o), an "act of God" means an unforeseeable event, such as a rain or snow storm, hail, a flood, or a similar event, that is the sole cause of the cancellation of an off-site, outdoor event.

(p) An auction liquor license shall allow the licensee to sell and offer for sale at auction wine and spirits for use or consumption, or for resale by an Illinois liquor licensee in accordance with provisions of this Act. An auction liquor license must be obtained for each auction at least 14 days in advance of the auction date.

(q) A special use permit license shall allow an Illinois licensed retailer to transfer a portion of its alcoholic liquor inventory from its retail licensed premises to the premises specified in the license hereby created; to purchase alcoholic liquor from a distributor or importing distributor to be delivered directly to the location specified in the license hereby created; and to sell or offer for sale at retail, only in the premises specified in the license hereby created, the transferred or delivered alcoholic liquor for use or consumption, but not for resale in any form. A special use permit license may be granted for the following time periods: one day or less; 2 or more days to a maximum of 15 days per location in any 12-month period. An applicant for the special use permit license must also submit with the application proof satisfactory to the State Commission that the applicant will provide dram shop liability insurance to the maximum limits and have local authority approval. A special use permit license shall allow the holder to transfer any inventory from the holder's special use premises to its retail premises at the conclusion of the special use event or engage a distributor or importing distributor to transfer any inventory from the holder's special use premises to its retail premises at the conclusion of an off-site event, provided that the distributor or importing distributor issues bona fide charges to the special use permit licensee for fuel, labor, and delivery and the distributor or importing distributor collects payment from the retail licensee prior to the distributor or importing distributor transferring inventory to the retail premises. Nothing in this Act prohibits a distributor or importing distributor from offering credit or a refund for unused, salable beer to a special use permit licensee or a special use permit licensee from accepting a credit or refund for unused, salable beer at the conclusion of the event specified in the license if:

(i) the holder of the special use permit license has not transferred alcoholic liquor from its retail licensed premises to the premises specified in the special use permit license; (ii) the distributor or importing distributor offers the credit or refund for the unused, salable beer that it delivered to the premises specified in the special use permit license and not for any unused, salable beer that the distributor or importing distributor delivered to the retailer's premises; and (iii) the unused, salable beer would likely spoil if transferred to the retailer premises.

(r) A winery shipper's license shall allow a person with a first-class or second-class wine manufacturer's license, a first-class or second-class wine-maker's license, or a limited wine manufacturer's license or who is licensed to make wine under the laws of another state to ship wine made by that licensee directly to a resident of this State who is 21 years of age or older for that resident's personal use and not for resale. Prior to receiving a winery shipper's license, an applicant for the license must provide the State Commission with a true copy of its current license in any state in which it is licensed as a manufacturer of wine. An applicant for a winery shipper's license must also complete an application form that provides any other information the State Commission deems necessary. The application form shall include all addresses

from which the applicant for a winery shipper's license intends to ship wine, including the name and address of any third party, except for a common carrier, authorized to ship wine on behalf of the manufacturer. The application form shall include an acknowledgment consenting to the jurisdiction of the State Commission, the Illinois Department of Revenue, and the courts of this State concerning the enforcement of this Act and any related laws, rules, and regulations, including authorizing the Department of Revenue and the State Commission to conduct audits for the purpose of ensuring compliance with Public Act 95-634, and an acknowledgment that the wine manufacturer is in compliance with Section 6-2 of this Act. Any third party, except for a common carrier, authorized to ship wine on behalf of a first-class or second-class wine manufacturer's licensee, a first-class or second-class wine-maker's licensee, a limited wine manufacturer's licensee, or a person who is licensed to make wine under the laws of another state shall also be disclosed by the winery shipper's licensee, and a copy of the written appointment of the third-party wine provider, except for a common carrier, to the wine manufacturer shall be filed with the State Commission as a supplement to the winery shipper's license application or any renewal thereof. The winery shipper's license holder shall affirm under penalty of perjury, as part of the winery shipper's license application or renewal, that he or she only ships wine, either directly or indirectly through a third-party provider, from the licensee's own production. Except for a common carrier, a third-party provider shipping wine on behalf of a winery shipper's license holder is the agent of the winery shipper's license holder and, as such, a winery shipper's license holder is responsible for the acts and omissions of the third-party provider acting on behalf of the license holder. A third-party provider, except for a common carrier, that engages in shipping wine into Illinois on behalf of a winery shipper's license holder shall consent to the jurisdiction of the State Commission and the State. Any third-party, except for a common carrier, holding such an appointment shall, by February 1 of each calendar year and upon request by the State Commission or the Department of Revenue, file with the State Commission a statement detailing each shipment made to an Illinois resident. The statement shall include the name and address of the third-party provider filing the statement, the time period covered by the statement, and the following information:

(1) the name, address, and license number of the winery shipper on whose behalf the shipment was made;

(2) the quantity of the products delivered; and

(3) the date and address of the shipment. If the Department of Revenue or the State Commission requests a statement under this paragraph, the third-party provider must provide that statement no later than 30 days after the request is made. Any books, records, supporting papers, and documents containing information and data relating to a statement under this paragraph shall be kept and preserved for a period of 3 years, unless their destruction sooner is authorized, in writing, by the Director of Revenue, and shall be open and available to inspection by the Director of Revenue or the State Commission or any duly authorized officer, agent, or employee of the State Commission or the Department of Revenue, at all times during business hours of the day. Any person who violates any provision of this paragraph or any rule of the State Commission for the administration and enforcement of the provisions of this paragraph is guilty of a Class C misdemeanor. In case of a continuing violation, each day's continuance thereof shall be a separate and distinct offense. The State Commission shall adopt rules as soon as practicable to implement the requirements of Public Act 99-904 and shall adopt rules prohibiting any such third-party appointment of a third-party provider, except for a common carrier, that has been deemed by the State Commission to have violated the provisions of this Act with regard to any winery shipper licensee. A winery shipper licensee must pay to the Department of Revenue the State liquor gallonage tax under Section 8-1 for all wine that is sold by the licensee and shipped to a person in this State. For the purposes of Section 8-1, a winery shipper licensee shall be taxed in the same manner as a manufacturer of wine. A licensee who is not otherwise required to register under the Retailers' Occupation Tax Act must register under the Use Tax Act to collect and remit use tax to the Department of Revenue for all gallons of wine that are sold by the licensee and shipped to persons in this State. If a licensee fails to remit the tax imposed under this Act in accordance with the provisions of Article VIII of this Act, the winery shipper's license shall be revoked in accordance with the provisions of Article VII of this Act. If a licensee fails to properly register and remit tax under the Use Tax Act or the Retailers' Occupation Tax Act for all wine that is sold by the winery shipper and shipped to persons in this State, the winery shipper's license shall be revoked in accordance with the provisions of Article VII of this Act. A winery shipper licensee must collect, maintain, and submit to the State Commission on a semi-annual basis the total number of cases per resident of wine shipped to residents of this State. A winery shipper licensed under this subsection

(r) must comply with the requirements of Section 6-29 of this Act. Pursuant to paragraph (5.1) or (5.3) of subsection

(a) of Section 3-12, the State Commission may receive, respond to, and investigate any complaint and impose any of the remedies specified in paragraph

(1) of subsection

(c) of Section 6-31 of this Act. The transferred alcoholic liquor may not be sold or resold in any form. An applicant for the craft distiller tasting permit license must also submit with the application proof satisfactory to the State Commission that the applicant will provide dram shop liability insurance to the maximum limits and have local authority approval.

A license shall be purely a personal privilege, good for not to exceed one year after issuance, except a non-beverage user's license, unless sooner revoked as in this Act provided, and shall not constitute property, nor shall it be subject to attachment, garnishment or execution, nor shall it be alienable or transferable, voluntarily or involuntarily, or subject to being encumbered or hypothecated. Such license shall not descend by the laws of testate or intestate devolution, but it shall cease upon the death of the licensee, provided that executors or administrators of the estate of any deceased licensee, and the trustee of any insolvent or bankrupt licensee, when such estate consists in part of alcoholic liquor, may continue the business of the sale or manufacture of alcoholic liquor under order of the appropriate court, and may exercise the privileges of the deceased or insolvent or bankrupt licensee after the death of such decedent, or such insolvency or bankruptcy until the expiration of such license but not longer than six months after the death, bankruptcy or insolvency of such licensee. Except in the case of a non-beverage user's license, a refund shall be made of that portion of the license fees paid for any period in which the licensee shall be prevented from operating under such license in accordance with the provisions of this paragraph. Any licensee may renew his license at the expiration thereof, provided he is then qualified to receive a license and the premises for which such renewal license is sought are suitable for such purpose; and provided further that the renewal privilege herein provided for shall not be construed as a vested right which shall in any case prevent the city council or village president and board of trustees or county board, as the case may be, from decreasing the number of licenses to be issued within its jurisdiction. No retailer's license shall be renewed if the Department of Revenue has reported to the Illinois Liquor Control Commission that such retailer is delinquent in filing any required tax returns or paying any amounts owed to the State of Illinois until the applicant is issued a certificate by the Department of Revenue stating that all delinquent returns or amounts owed have been paid by guaranteed remittance or the payment agreement to pay all amounts owed has been accepted by the Department. No retailer's license issued by a local liquor control commissioner shall be renewed unless the applicant provides documentation that any tax owed to

(i) the municipality in which the applicant is located (in the case of a license issued by the mayor or president of the board of trustees of a city, village or incorporated town acting as local liquor control commissioner) or (ii) the county in which the applicant is located (in the case of a license issued by the president or chairman of a county board acting as local liquor control commissioner) by the applicant has been satisfied by payment in the form of a cashier's check, certified check, money order, or cash. For a liquor license holder whose business or business operations have been suspended in any capacity due to any executive order issued on or after March 16, 2020 or any subsequent rule established by the Department of Public Health or any other agency of the State as a result of COVID-19, renewal of the license shall be automatically approved and the license shall be extended without limitation for 120 days after whichever of the following dates occurs the latest:

(1) the day on which the region in which the liquor licensee is located enters Phase 4 of the Governor's Restore Illinois Plan as issued on May 5, 2020;

(2) the day after the expiration of the latest executive order that limits or interrupts the business or business operations as a result of the COVID-19 pandemic; or

(3) the day after the expiration of any rules established by the Department of Public Health or any other agency of the State that limit or interrupt the business or business operations as a result of the COVID-19 pandemic. The renewal shall be based upon the most recent liquor license application or application for renewal that was approved and received by the State Commission prior to the limitations or interruptions implemented by the Executive Order on March 16, 2020. A negotiable instrument received as payment for a license fee, transfer fee, late fee, offer in compromise, pre-disciplinary conference settlement, or fine imposed by order that is dishonored on presentation shall not be considered payment and shall be cause for disciplinary action.

Such authorization shall be considered a privilege granted by the brewer license and, other than a manufacturer of beer as stated above, no manufacturer or distributor or importing distributor, excluding airplane licensees

exercising powers provided in paragraph

(i) of Section 5-1 of this Act, or any subsidiary or affiliate thereof, or any officer, associate, member, partner, representative, employee or agent, or shareholder shall be issued a retailer's license, nor shall any person having a retailer's license, excluding airplane licensees exercising powers provided in paragraph

(i) of Section 5-1 of this Act, or any subsidiary or affiliate thereof, or any officer, associate, member, partner, representative or agent, or shareholder be issued a manufacturer's license or importing distributor's license. A manufacturer of beer that imports or transfers beer into this State must comply with Sections 6-8 and 8-1 of this Act. A person who holds a class 2 brewer license and is authorized by this Section to sell beer to non-licensees shall not sell beer to non-licensees from more than 3 total brewer or commonly owned brew pub licensed locations in this State. The class 2 brewer shall designate to the State Commission the brewer or brew pub locations from which it will sell beer to non-licensees. A person licensed as a class 1 craft distiller or a class 2 craft distiller, including a person who holds more than one class 1 craft distiller or class 2 craft distiller license, not affiliated with any other person manufacturing spirits may be authorized by the State Commission to sell

(1) up to 5,000 gallons of spirits produced by the person to non-licensees for on or off-premises consumption for the premises in which he or she actually conducts business permitting only the retail sale of spirits manufactured at such premises and

(2) vermouth purchased through a licensed distributor for on-premises consumption. Such sales shall be limited to on-premises, in-person sales only, for lawful consumption on or off premises, and such authorization shall be considered a privilege granted by the class 1 craft distiller or class 2 craft distiller license. A class 1 craft distiller or class 2 craft distiller licensed for retail sale shall secure liquor liability insurance coverage in an amount at least equal to the maximum liability amounts set forth in subsection

(a) of Section 6-21 of this Act. A class 1 craft distiller or class 2 craft distiller license holder shall not deliver any alcoholic liquor to any non-licensee off the licensed premises. A class 1 craft distiller or class 2 craft distiller shall affirm in its annual license application that it does not produce more than 50,000 or 100,000 gallons of distilled spirits annually, whichever is applicable, and that the craft distiller does not sell more than 5,000 gallons of spirits to non-licensees for on or off-premises consumption. In the application, which shall be sworn under penalty of perjury, the class 1 craft distiller or class 2 craft distiller shall state the volume of production and sales for each year since the class 1 craft distiller's or class 2 craft distiller's establishment. A person who holds a class 1 craft distiller or class 2 craft distiller license and is authorized by this Section to sell spirits to non-licensees shall not sell spirits to non-licensees from more than 3 total distillery or commonly owned distilling pub licensed locations in this State. The class 1 craft distiller or class 2 craft distiller shall designate to the State Commission the distillery or distilling pub locations from which it will sell spirits to non-licensees.

(f) (Blank).

(g) Notwithstanding any of the foregoing prohibitions, a limited wine manufacturer may sell at retail at its manufacturing site for on or off premises consumption and may sell to distributors. A limited wine manufacturer licensee shall secure liquor liability insurance coverage in an amount at least equal to the maximum liability amounts set forth in subsection

(a) of Section 6-21 of this Act.

(h) The changes made to this Section by Public Act 99-47 shall not diminish or impair the rights of any person, whether a distiller, wine manufacturer, agent, or affiliate thereof, who requested in writing and submitted documentation to the State Commission on or before February 18, 2015 to be approved for a retail license pursuant to what has heretofore been subsection (f); provided that, on or before that date, the State Commission considered the intent of that person to apply for the retail license under that subsection and, by recorded vote, the State Commission approved a resolution indicating that such a license application could be lawfully approved upon that person duly filing a formal application for a retail license and if that person, within 90 days of the State Commission appearance and recorded vote, first filed an application with the appropriate local commission, which application was subsequently approved by the appropriate local commission prior to consideration by the State Commission of that person's application for a retail license. It is further provided that the State Commission may approve the person's application for a retail license or renewals of such license if such person continues to diligently adhere to all representations made in writing to the State Commission on or before February 18, 2015, or thereafter, or in the affidavit filed by that person with the State Commission to support the issuance of a retail license and to abide by all applicable laws and duly adopted rules.

(i) Notwithstanding any other provision of this Act, the common ownership of a brewery, winery, or a distillery shall not authorize the grant of and aggregation of retail privileges granted to any person or licensees in subsection (e). Any person or licensee with common ownership in a brewery, winery, or a distillery shall be limited to the retail privileges granted to only one of the commonly owned brewery, winery, or distillery. The State Commission is hereby authorized to restrict the locations of any commonly owned brewery, winery, or distillery to prevent the expansion of retail privileges, including, without limitation, restricting a commonly owned brewery, winery, or distillery from operating in adjacent licensed premises or restricting self-distribution privileges. (Text of Section after amendment by P.A. 104-451) Sec. 6-4. Prohibited ownership interests; retail sales by certain manufacturers.

(a) No person licensed by any licensing authority as a distiller, or a wine manufacturer, or any subsidiary or affiliate thereof, or any officer, associate, member, partner, representative, employee, agent or shareholder owning more than 5% of the outstanding shares of such person shall be issued an importing distributor's or distributor's license, nor shall any person licensed by any licensing authority as an importing distributor, distributor or retailer, or any subsidiary or affiliate thereof, or any officer or associate, member, partner, representative, employee, agent or shareholder owning more than 5% of the outstanding shares of such person be issued a distiller's license, a craft distiller's license, or a wine manufacturer's license; and no person or persons licensed as a distiller, craft distiller, class 1 craft distiller, or class 2 craft distiller by any licensing authority shall have any interest, directly or indirectly, with such distributor or importing distributor. However, an importing distributor or distributor, which on January 1, 1985 is owned by a brewer, or any subsidiary or affiliate thereof or any officer, associate, member, partner, representative, employee, agent or shareholder owning more than 5% of the outstanding shares of the importing distributor or distributor referred to in this paragraph, may own or acquire an ownership interest of more than 5% of the outstanding shares of a wine manufacturer and be issued a wine manufacturer's license by any licensing authority.

(b) The foregoing provisions shall not apply to any person licensed by any licensing authority as a distiller or wine manufacturer, or to any subsidiary or affiliate of any distiller or wine manufacturer who shall have been heretofore licensed by the State Commission as either an importing distributor or distributor during the annual licensing period expiring June 30, 1947, and shall actually have made sales regularly to retailers.

(c) Provided, however, that in such instances where a distributor's or importing distributor's license has been issued to any distiller or wine manufacturer or to any subsidiary or affiliate of any distiller or wine manufacturer who has, during the licensing period ending June 30, 1947, sold or distributed as such licensed distributor or importing distributor alcoholic liquors and wines to retailers, such distiller or wine manufacturer or any subsidiary or affiliate of any distiller or wine manufacturer holding such distributor's or importing distributor's license may continue to sell or distribute to retailers such alcoholic liquors and wines which are manufactured, distilled, processed or marketed by distillers and wine manufacturers whose products it sold or distributed to retailers during the whole or any part of its licensing periods; and such additional brands and additional products may be added to the line of such distributor or importing distributor, provided, that such brands and such products were not sold or distributed by any distributor or importing distributor licensed by the State Commission during the licensing period ending June 30, 1947, but can not sell or distribute to retailers any other alcoholic liquors or wines.

(d) It shall be unlawful for any distiller licensed anywhere to have any stock ownership or interest in any distributor's or importing distributor's license wherein any other person has an interest therein who is not a distiller and does not own more than 5% of any stock in any distillery. Nothing herein contained shall apply to such distillers or their subsidiaries or affiliates, who had a distributor's or importing distributor's license during the licensing period ending June 30, 1947, which license was owned in whole by such distiller, or subsidiaries or affiliates of such distiller.

(e) Any person licensed as a brewer, class 1 brewer, or class 2 brewer shall be permitted to sell on the licensed premises to non-licensees for on or off-premises consumption for the premises in which he or she actually conducts such business:

(i) beer manufactured by the brewer, class 1 brewer, class 2 brewer, or class 3 brewer; (ii) beer manufactured by any other brewer, class 1 brewer, class 2 brewer, or class 3 brewer; and (iii) cider or mead. Any person licensed as a class 3 brewer shall be permitted to sell on the licensed premises to non-licensees for on or off premises consumption for the premises in which he or she actually conducts such business:

(i) beer manufactured by the class 3 brewer on the premises; (ii) beer manufactured by any other brewer, class 1 brewer, class 2 brewer, or class 3 brewer; and (iii) cider, wine, and spirits. All products sold under this subsection that are not manufactured on premises must be purchased through a licensed distributor, importing distributor, or manufacturer with self-distribution privileges. Such sales shall be limited to on-premises, in-person sales only, for lawful consumption on or

off premises. Such authorization shall be considered a privilege granted by the brewer license and, other than a manufacturer of beer as stated above, no manufacturer or distributor or importing distributor, excluding airplane licensees exercising powers provided in paragraph

(i) of Section 5-1 of this Act, or any subsidiary or affiliate thereof, or any officer, associate, member, partner, representative, employee or agent, or shareholder shall be issued a retailer's license, nor shall any person having a retailer's license, excluding airplane licensees exercising powers provided in paragraph

(i) of Section 5-1 of this Act, or any subsidiary or affiliate thereof, or any officer, associate, member, partner, representative or agent, or shareholder be issued a manufacturer's license or importing distributor's license. A manufacturer of beer that imports or transfers beer into this State must comply with Sections 6-8 and 8-1 of this Act. A person who holds a class 2 brewer license and is authorized by this Section to sell beer to non-licensees shall not sell beer to non-licensees from more than 3 total brewer or commonly owned brew pub licensed locations in this State. The class 2 brewer shall designate to the State Commission the brewer or brew pub locations from which it will sell beer to non-licensees. A person licensed as a class 1 craft distiller or a class 2 craft distiller, including a person who holds more than one class 1 craft distiller or class 2 craft distiller license, not affiliated with any other person manufacturing spirits may be authorized by the State Commission to sell

(1) up to 5,000 gallons of spirits produced by the person to non-licensees for on or off-premises consumption for the premises in which he or she actually conducts business permitting only the retail sale of spirits manufactured at such premises and

(2) vermouth purchased through a licensed distributor for on-premises consumption. Such sales shall be limited to on-premises, in-person sales only, for lawful consumption on or off premises, and such authorization shall be considered a privilege granted by the class 1 craft distiller or class 2 craft distiller license. A class 1 craft distiller or class 2 craft distiller licensed for retail sale shall secure liquor liability insurance coverage in an amount at least equal to the maximum liability amounts set forth in subsection

(a) of Section 6-21 of this Act. A class 1 craft distiller or class 2 craft distiller license holder shall not deliver any alcoholic liquor to any non-licensee off the licensed premises. A class 1 craft distiller or class 2 craft distiller shall affirm in its annual license application that it does not produce more than 50,000 or 100,000 gallons of distilled spirits annually, whichever is applicable, and that the craft distiller does not sell more than 5,000 gallons of spirits to non-licensees for on or off-premises consumption. In the application, which shall be sworn under penalty of perjury, the class 1 craft distiller or class 2 craft distiller shall state the volume of production and sales for each year since the class 1 craft distiller's or class 2 craft distiller's establishment. A person who holds a class 1 craft distiller or class 2 craft distiller license and is authorized by this Section to sell spirits to non-licensees shall not sell spirits to non-licensees from more than 3 total distillery or commonly owned distilling pub licensed locations in this State. The class 1 craft distiller or class 2 craft distiller shall designate to the State Commission the distillery or distilling pub locations from which it will sell spirits to non-licensees. A class 3 craft distiller license shall allow the licensee to only

(i) manufacture up to 100,000 gallons of spirits per year, (ii) make sales of the spirits manufactured on the premises or, with the approval of the State Commission, spirits manufactured on another class 3 craft distiller's licensed premises that are wholly owned and operated by the same licensee to importing distributors and distributors, to retail licensees in accordance with the conditions set forth in paragraph

(21) of subsection

(a) of Section 3-12 of this Act, and to non-licensees for use and consumption, (iii) store the spirits upon the premises, (iv) sell and offer for sale at retail from the licensed premises for off-premises consumption no more than 5,000 gallons per year so long as such sales are only made in-person,

(v) sell and offer for sale at retail for use and consumption on the premises specified in the license any form of alcoholic liquor purchased from a licensed distributor or importing distributor, and (vi) with the prior approval of the State Commission, annually transfer no more than 2,500 gallons of spirits manufactured on the premises to a second and separate location licensed as a class 3 craft distiller if the second location is wholly owned and operated by the same licensee. The second location may operate with the same retail privileges as the original licensed premises.

(f) (Blank).

(g) Notwithstanding any of the foregoing prohibitions, a limited wine manufacturer may sell at retail at its manufacturing site for on or off premises consumption and may sell to distributors. A limited wine manufacturer licensee shall secure

liquor liability insurance coverage in an amount at least equal to the maximum liability amounts set forth in subsection (a) of Section 6-21 of this Act.

(h) The changes made to this Section by Public Act 99-47 shall not diminish or impair the rights of any person, whether a distiller, wine manufacturer, agent, or affiliate thereof, who requested in writing and submitted documentation to the State Commission on or before February 18, 2015 to be approved for a retail license pursuant to what has heretofore been subsection (f); provided that, on or before that date, the State Commission considered the intent of that person to apply for the retail license under that subsection and, by recorded vote, the State Commission approved a resolution indicating that such a license application could be lawfully approved upon that person duly filing a formal application for a retail license and if that person, within 90 days of the State Commission appearance and recorded vote, first filed an application with the appropriate local commission, which application was subsequently approved by the appropriate local commission prior to consideration by the State Commission of that person's application for a retail license. It is further provided that the State Commission may approve the person's application for a retail license or renewals of such license if such person continues to diligently adhere to all representations made in writing to the State Commission on or before February 18, 2015, or thereafter, or in the affidavit filed by that person with the State Commission to support the issuance of a retail license and to abide by all applicable laws and duly adopted rules.

(i) Notwithstanding any other provision of this Act, the common ownership of a brewery, winery, or a distillery shall not authorize the grant of and aggregation of retail privileges granted to any person or licensees in subsection (e). Any person or licensee with common ownership in a brewery, winery, or a distillery shall be limited to the retail privileges granted to only one of the commonly owned brewery, winery, or distillery. The State Commission is hereby authorized to restrict the locations of any commonly owned brewery, winery, or distillery to prevent the expansion of retail privileges, including, without limitation, restricting a commonly owned brewery, winery, or distillery from operating in adjacent licensed premises or restricting self-distribution privileges.

235 ILCS 5/6-4.5 — Prohibited ownership interests in a distributor, importing distributor, manufacturer of beer, or non-resident dealer

Sec. 6-4.5. Prohibited ownership interests in a distributor, importing distributor, manufacturer of beer, or non-resident dealer.

(a) The General Assembly finds, consistent with Section 6-1.5, that the 3-tier regulatory system is designed to prevent a manufacturer of beer as described in paragraph

(19) of subsection

(a) of Section 6-2 from exercising vertical integration between a manufacturer of beer and a distributor or importing distributor through any ownership interest, or through control of the distributor or importing distributor. The General Assembly further finds, consistent with Section 6-1.5, that the 3-tier regulatory system is designed to prevent a distributor or importing distributor as described in paragraph

(20) of subsection

(a) of Section 6-2 from having any ownership interest in a manufacturer of beer as described in paragraph

(20) of subsection

(a) of Section 6-2 except for the ownership of no more than 5% of the outstanding shares of a manufacturer of beer whose shares are publicly traded on an exchange within the meaning of the Securities Exchange Act of 1934. The General Assembly further finds that it is necessary to have the State Commission undertake an expedited investigation, in accordance with procedural due process, to determine whether any existing manufacturer of beer described in paragraph

(19) of subsection

(a) of Section 6-2 or any existing distributor or importing distributor described in paragraph

(20) of subsection

(a) of Section 6-2 owns a prohibited ownership interest, and an orderly process by which an existing manufacturer of beer, distributor, or importing distributor may divest itself of or sever the prohibited ownership interest by no later than January 1, 2015.

(b) Notwithstanding any provision of this Act to the contrary, no person licensed as a manufacturer of beer as described in paragraph

(19) of subsection

(a) of Section 6-2 shall have any prohibited ownership interest, directly or indirectly, in a person licensed as a distributor or importing distributor. Any person who holds a prohibited ownership interest in a person licensed as a distributor or importing distributor prior to this amendatory Act of the 98th General Assembly shall, in accordance with paragraph

(19) of subsection

(a) of Section 6-2, be ineligible to receive or hold any license issued by the State Commission, unless that person complies with the provisions of this Section.

(c) Notwithstanding any provision of this Act to the contrary, no person licensed in this State as a distributor or importing distributor as described in paragraph

(20) of subsection

(a) of Section 6-2 shall have any prohibited ownership interest, directly or indirectly, in a person licensed as a manufacturer of beer as described in paragraph

(20) of subsection

(a) of Section 6-2. Any person who holds an interest in a person licensed as a distributor or importing distributor in this State prior to this amendatory Act of the 98th General Assembly shall, in accordance with paragraph

(20) of subsection

(a) of Section 6-2, be ineligible to receive or hold a license by the State Commission, unless the person complies with the provisions of this Section. This subsection

(c) shall not apply to a person who owns, on or after the effective date of this amendatory Act of the 98th General Assembly, no more than 5% of the outstanding shares of a manufacturer of beer whose shares are publicly traded on an exchange within the meaning of the Securities Exchange Act of 1934.

(d) Within 30 days after the effective date of this amendatory Act of the 98th General Assembly, the State Commission shall notify in writing all persons licensed by the State Commission as a manufacturer of beer, as described in paragraph

(19) of subsection

(a) of Section 6-2 of the prohibited ownership interest provision set forth in subsection

(b) of this Section and paragraph

(19) of subsection

(a) of Section 6-2. Also within 30 days after the effective date of this amendatory Act of the 98th General Assembly, the State Commission shall notify in writing all persons licensed by the State Commission as a distributor or importing distributor of the prohibited ownership interest provision set forth in subsection

(c) of this Section and paragraph

(20) of subsection

(a) of Section 6-2. The notice provided by the State Commission shall also state for a manufacturer of beer, as described in paragraph

(19) of subsection

(a) of Section 6-2, that it is required to disclose in writing any ownership interest it directly or indirectly possesses in a distributor or importing distributor, as described in paragraph

(20) of subsection

(a) of Section 6-2, the type and amount of ownership interest possessed by it, the length of time the manufacturer of beer has held the ownership interest in the distributor or importing distributor, and any other information specified by the State Commission in its written notice. The notice provided by the State Commission shall also state for a distributor or importing distributor, as described in paragraph

(20) of subsection

(a) of Section 6-2, that it is required to disclose in writing any ownership interest it directly or indirectly possesses in a manufacturer of beer, as described in paragraph

(19) of subsection

(a) of Section 6-2, the type and amount of ownership interest possessed by it, the length of time the manufacturer of beer has held the ownership interest in the distributor or importing distributor, and any other information specified by the State Commission in its written notice.

(e) Within 60 days after the effective date of this amendatory Act of the 98th General Assembly, each manufacturer of beer, distributor, or importing distributor subject to notification under subsection

(d) of this Section shall disclose in writing and under oath the relevant ownership interest and other required information specified in the notification provided by the State Commission pursuant to that subsection. The written disclosure shall, as a mandatory obligation, be tendered to the State Commission by either personal service or via certified or registered mail at the State Commission's Springfield or Chicago office on or before the 60th day during regular business hours. Failure to tender the required written disclosure shall result in the immediate entry of an order by the State Commission suspending the licensee's license within 5 days after the 60th day, and the initiation of proceedings by the State Commission to enter an order to permanently revoke the licensee's license no later than 45 days after providing the licensee with notice and an opportunity for a hearing. Whenever the State Commission has reason to believe that a person has failed to comply with the Commission notice under this Section, it shall notify the Department of Revenue and the Attorney General, and shall file a complaint with the State's Attorney of the county where the alcoholic liquor was delivered or with appropriate law enforcement officials. Failure to make the written disclosure required under this subsection shall constitute a business offense for which the person shall be fined not more than \$5,000 for a first offense, not more than \$10,000 for a second offense, and not more than \$15,000 for a third or subsequent offense.

(f) Within 180 days after the effective date of this amendatory Act of the 98th General Assembly, the State Commission shall review each of the disclosures tendered to the State Commission by licensees pursuant to subsection

(e) and enter an order determining whether or not each licensee is in compliance with subsection

(b) or

(c) of this Section, whichever is applicable, after providing each licensee with notice and an opportunity for a hearing. As part of making its determination, the State Commission shall also consider any information otherwise admissible under Section 10-40 of the Illinois Administrative Procedure Act.

(g) If the State Commission determines, based on a preponderance of record evidence, that a manufacturer of beer, distributor, or importing distributor has no prohibited ownership interest in a licensee in violation of subsection

(b) or

(c) of this Section, then the State Commission shall enter an order finding that the manufacturer of beer, distributor, or importing distributor is in compliance with this Section, record the matter as closed, and serve a copy of the order of compliance on the licensee and each person with an ownership interest in the licensee. If the State Commission determines, based on a preponderance of record evidence, that a manufacturer of beer, as described in paragraph

(19) of subsection

(a) of Section 6-2, has a prohibited ownership interest as set forth in subsection

(b) of this Section, then the State Commission shall enter an order finding that the manufacturer of beer is not in compliance with this Section and that the manufacturer of beer shall divest itself of that interest on or before January 1, 2015, subject to the State Commission's approval of the successive owner pursuant to the State Commission's authority provided in this Act. In addition, the State Commission shall find that the relevant distributor or importing distributor is not in compliance with this Section and that the distributor or importing distributor is required to sever the prohibited ownership interest possessed by the relevant manufacturer of beer on or before January 1, 2015, subject to the State Commission's approval of the successive owner pursuant to the State Commission's authority provided in this Act. If the State Commission determines, based on a preponderance of record evidence, that a distributor or importing distributor, as described in paragraph

(20) of subsection

(a) of Section 6-2, has a prohibited ownership interest as set forth in subsection

(c) of this Section, then the State Commission shall enter an order finding that the relevant distributor or importing distributor is not in compliance with this Section and that the relevant distributor or importing distributor shall divest itself of that interest on or before January 1, 2015, subject to the State Commission's approval of the successive owner pursuant to the State Commission's authority provided in this Act. In addition, the State Commission shall find that the

manufacturer of beer is not in compliance with this Section and that the manufacturer of beer shall sever the prohibited ownership interest possessed by the distributor or importing distributor on or before January 1, 2015, subject to the State Commission's approval of the successive owner pursuant to the State Commission's authority provided in this Act. The State Commission's order shall further find that the continued ownership of the prohibited ownership interest beyond January 1, 2015 by the manufacturer of beer, distributor, or importing distributor is against the public interest and a violation of this Section and Section 6-1.5 of the Act. The State Commission's order shall further find for a manufacturer of beer, as described in paragraph

(19) of subsection

(a) of Section 6-2, found in non-compliance with subsection

(b) of this Section that its license is revoked on January 16, 2015 as to the transport, transfer, or sale of any alcoholic liquor to the relevant distributor or importing distributor that the manufacturer of beer has a prohibited ownership interest in if that interest is not properly divested on January 1, 2015, subject to the State Commission's approval of the successive owner pursuant to the State Commission's authority provided in this Act. In addition, the State Commission shall find that the license of a distributor or importing distributor that is subject to the prohibited ownership interest of the manufacturer of beer is revoked on January 16, 2015 as to the transport, transfer, or sale of alcoholic liquor from the relevant manufacturer of beer to any retailer if that ownership interest is not properly severed on January 1, 2015, subject to the State Commission's approval of the successive owner pursuant to the State Commission's authority provided in this Act. The State Commission's order shall further find for a distributor or importing distributor, as described in paragraph

(20) of subsection

(a) of Section 6-2, found in non-compliance with subsection

(c) of this Section, that its license is revoked on January 16, 2015 as to the transport, transfer, or sale of any alcoholic liquor from the relevant manufacturer of beer to any retailer if that prohibited ownership interest in the manufacturer of beer is not properly divested on January 1, 2015, subject to the State Commission's approval of the successive owner pursuant to the State Commission's authority provided in this Act. In addition, the State Commission shall find that the license of the manufacturer of beer that is subject to the prohibited ownership interest of a distributor or importing distributor is revoked on January 16, 2015 as to the transport, transfer, or sale of alcoholic liquor to the distributor or importing distributor if that ownership interest is not properly severed on January 1, 2015, subject to the State Commission's approval of the successive owner pursuant to the State Commission's authority provided in this Act. The State Commission shall serve a copy of the order of non-compliance on the licensee and each person with an ownership interest in the licensee.

(h) If a person with a prohibited ownership interest in a licensee under subsection

(b) or

(c) of this Section succeeds in divesting itself of or severing that interest and obtains the State Commission's approval of the successive owner pursuant to its authority provided in this Act on or before January 1, 2015, then the State Commission shall enter an order finding that the licensee is in compliance, record the matter as closed, and serve a copy of the order of compliance on the licensee and each person with an ownership interest in the licensee. If a person with a prohibited ownership interest in violation of subsection

(b) or

(c) of this Section fails to divest itself of or sever that interest and obtain the State Commission's approval of the successive owner pursuant to the State Commission's authority provided in this Act on or before January 1, 2015, then the State Commission shall, after notice and an opportunity for a hearing, revoke each licensee's license as specified in subsection

(g) of this Section on January 16, 2015. The State Commission, when entering the order, shall give notice to the person by certified mail to cease and desist all shipments of alcoholic liquor into or within this State and to withdraw from this State within 5 working days after receipt of the notice all shipments of alcoholic liquor in transit. Whenever the State Commission has reason to believe that a person has failed to comply with the State Commission's notice under this Section, it shall notify the Department of Revenue and the Attorney General, and shall file a complaint with the State's Attorney of the county where the alcoholic liquor was delivered, or with appropriate law enforcement officials. Failure to comply with the notice issued by the State Commission under this Section is against the public interest and constitutes a business offense for which the person shall be fined not more than \$5,000 for a first offense, not more than \$10,000 for a

second offense, and not more than \$15,000 for a third or subsequent offense. Each shipment or transfer of alcoholic liquor in violation of the cease and desist notice shall constitute a separate offense.

(i) The power and authority granted to the State Commission under this Section is in addition to any existing power or authority the State Commission has under this Act and its exercise shall be accorded precedence on the State Commission's meeting agenda so as to fully accommodate the schedule for any proceeding under the provisions of this Section. Nothing in this Act shall be construed as limiting or otherwise impairing the ability of the State Commission to conduct future investigations and proceedings sua sponte or pursuant to a complaint to ensure compliance with this Section or paragraph

(19) or

(20) of subsection

(a) of Section 6-2 of this Act. Any future investigations and proceedings shall be conducted by the State Commission on an expedited basis and pursuant to an initiating order entered by the State Commission. The State Commission shall enter its initiating order within 30 days after the receipt of a complaint. The initiating order shall set forth a schedule by which the required notices, disclosures, determinations, or orders specified in subsections (d), (e), (f), (g), and

(h) shall be made or entered, and the period of time by which a licensee shall divest itself of or sever a prohibited ownership interest, which shall be no later than 540 days after the entry of the initiating order.

(j) Any association or non-profit corporation representing beer distributors in this State shall have standing to intervene and otherwise participate as a party in any proceeding undertaken by the State Commission under this Section to review and determine compliance or non-compliance with this Section.

(k) For purposes of this Section, the term "ownership interest" means a legal, equitable, or beneficial interest recognized under Illinois law. The term "prohibited ownership interest" means an ownership interest in a distributor, importing distributor, or manufacturer of beer as specified in this Section.

235 ILCS 5/6-5

Sec. 6-5. Except as otherwise provided in this Section, it is unlawful for any person having a retailer's license or any officer, associate, member, representative or agent of such licensee to accept, receive or borrow money, or anything else of value, or accept or receive credit (other than merchandising credit in the ordinary course of business for a period not to exceed 30 days) directly or indirectly from any manufacturer, importing distributor or distributor of alcoholic liquor, or from any person connected with or in any way representing, or from any member of the family of, such manufacturer, importing distributor, distributor or wholesaler, or from any stockholders in any corporation engaged in manufacturing, distributing or wholesaling of such liquor, or from any officer, manager, agent or representative of said manufacturer. Except as provided below, it is unlawful for any manufacturer or distributor or importing distributor to give or lend money or anything of value, or otherwise loan or extend credit (except such merchandising credit) directly or indirectly to any retail licensee or to the manager, representative, agent, officer or director of such licensee. A manufacturer, distributor or importing distributor may furnish free advertising, posters, signs, brochures, hand-outs, or other promotional devices or materials to any unit of government owning or operating any auditorium, exhibition hall, recreation facility or other similar facility holding a retailer's license, provided that the primary purpose of such promotional devices or materials is to promote public events being held at such facility. A unit of government owning or operating such a facility holding a retailer's license may accept such promotional devices or materials designed primarily to promote public events held at the facility. No retail licensee delinquent beyond the 30 day period specified in this Section shall solicit, accept or receive credit, purchase or acquire alcoholic liquors, directly or indirectly from any other licensee, and no manufacturer, distributor or importing distributor shall knowingly grant or extend credit, sell, furnish or supply alcoholic liquors to any such delinquent retail licensee; provided that the purchase price of all beer sold to a retail licensee shall be paid by the retail licensee in cash on or before delivery of the beer, and unless the purchase price payable by a retail licensee for beer sold to him in returnable bottles shall expressly include a charge for the bottles and cases, the retail licensee shall, on or before delivery of such beer, pay the seller in cash a deposit in an amount not less than the deposit required to be paid by the distributor to the brewer; but where the brewer sells direct to the retailer, the deposit shall be an amount no less than that required by the brewer from his own distributors; and provided further, that in no instance shall this deposit be less than 50 cents for each case of beer in pint or smaller bottles and 60 cents for each case of beer in quart or half-gallon bottles; and provided further, that the purchase price of all beer sold to an importing distributor or distributor shall be paid by such importing distributor or distributor in cash on or before the 15th day (Sundays and holidays excepted) after delivery of such beer to such

purchaser; and unless the purchase price payable by such importing distributor or distributor for beer sold in returnable bottles and cases shall expressly include a charge for the bottles and cases, such importing distributor or distributor shall, on or before the 15th day (Sundays and holidays excepted) after delivery of such beer to such purchaser, pay the seller in cash a required amount as a deposit to assure the return of such bottles and cases. Nothing herein contained shall prohibit any licensee from crediting or refunding to a purchaser the actual amount of money paid for bottles, cases, kegs or barrels returned by the purchaser to the seller or paid by the purchaser as a deposit on bottles, cases, kegs or barrels, when such containers or packages are returned to the seller. Nothing herein contained shall prohibit any manufacturer, importing distributor or distributor from extending usual and customary credit for alcoholic liquor sold to customers or purchasers who live in or maintain places of business outside of this State when such alcoholic liquor is actually transported and delivered to such points outside of this State. A manufacturer, distributor, or importing distributor may furnish free social media advertising to a retail licensee if the social media advertisement does not contain the retail price of any alcoholic liquor and the social media advertisement complies with any applicable rules or regulations issued by the Alcohol and Tobacco Tax and Trade Bureau of the United States Department of the Treasury. A manufacturer, distributor, or importing distributor may list the names of one or more unaffiliated retailers in the advertisement of alcoholic liquor through social media. Nothing in this Section shall prohibit a retailer from communicating with a manufacturer, distributor, or importing distributor on social media or sharing media on the social media of a manufacturer, distributor, or importing distributor. A retailer may request free social media advertising from a manufacturer, distributor, or importing distributor. Nothing in this Section shall prohibit a manufacturer, distributor, or importing distributor from sharing, reposting, or otherwise forwarding a social media post by a retail licensee, so long as the sharing, reposting, or forwarding of the social media post does not contain the retail price of any alcoholic liquor. No manufacturer, distributor, or importing distributor shall pay or reimburse a retailer, directly or indirectly, for any social media advertising services, except as specifically permitted in this Act. No retailer shall accept any payment or reimbursement, directly or indirectly, for any social media advertising services offered by a manufacturer, distributor, or importing distributor, except as specifically permitted in this Act. For the purposes of this Section, "social media" means a service, platform, or site where users communicate with one another and share media, such as pictures, videos, music, and blogs, with other users free of charge. No right of action shall exist for the collection of any claim based upon credit extended to a distributor, importing distributor or retail licensee contrary to the provisions of this Section. Every manufacturer, importing distributor and distributor shall submit or cause to be submitted, to the State Commission, not later than Thursday of each calendar week, a verified written list of the names and respective addresses of each retail licensee purchasing spirits or wine from such manufacturer, importing distributor or distributor who, on the first business day of that calendar week, was delinquent beyond the above mentioned permissible merchandising credit period of 30 days; or, if such is the fact, a verified written statement that no retail licensee purchasing spirits or wine was then delinquent beyond such permissible merchandising credit period of 30 days. Every manufacturer, importing distributor and distributor shall submit or cause to be submitted, to the State Commission, a verified written list of the names and respective addresses of each previously reported delinquent retail licensee who has cured such delinquency by payment, which list shall be submitted not later than the close of the second full business day following the day such delinquency was so cured. The written list of delinquent retail licensees shall be developed, administered, and maintained only by the State Commission. The State Commission shall notify each retail licensee that it has been placed on the delinquency list. Determinations of delinquency or nondelinquency shall be made only by the State Commission. Such written verified reports required to be submitted by this Section shall be posted by the State Commission in each of its offices in places available for public inspection not later than the day following receipt thereof by the State Commission. The reports so posted shall constitute notice to every manufacturer, importing distributor and distributor of the information contained therein. Actual notice to manufacturers, importing distributors and distributors of the information contained in any such posted reports, however received, shall also constitute notice of such information. The 30-day merchandising credit period allowed by this Section shall commence with the day immediately following the date of invoice and shall include all successive days including Sundays and holidays to and including the 30th successive day. In addition to other methods allowed by law, payment by check or credit card during the period for which merchandising credit may be extended under the provisions of this Section shall be considered payment. All checks received in payment for alcoholic liquor shall be promptly deposited for collection. A post dated check or a check dishonored on presentation for payment shall not be deemed payment. A credit card payment in dispute by a retailer shall not be deemed payment, and the debt uncured for merchandising credit shall be reported as delinquent. Nothing in this Section shall prevent a distributor, self-distributing manufacturer, or importing distributor from assessing a usual and customary transaction fee representative of the actual finance charges incurred for processing a credit card payment. This transaction fee shall be disclosed on the invoice. It shall be considered unlawful for a distributor, importing distributor,

or self-distributing manufacturer to waive finance charges for retailers. A retail licensee shall not be deemed to be delinquent in payment for any alleged sale to him of alcoholic liquor when there exists a bona fide dispute between such retailer and a manufacturer, importing distributor or distributor with respect to the amount of indebtedness existing because of such alleged sale. A retail licensee shall not be deemed to be delinquent under this provision and 11 Ill. Adm. Code 100.90 until 30 days after the date on which the region in which the retail licensee is located enters Phase 4 of the Governor's Restore Illinois Plan as issued on May 5, 2020. A delinquent retail licensee who engages in the retail liquor business at 2 or more locations shall be deemed to be delinquent with respect to each such location. The license of any person who violates any provision of this Section shall be subject to suspension or revocation in the manner provided by this Act. If any part or provision of this Article or the application thereof to any person or circumstances shall be adjudged invalid by a court of competent jurisdiction, such judgment shall be confined by its operation to the controversy in which it was mentioned and shall not affect or invalidate the remainder of this Article or the application thereof to any other person or circumstance and to this and the provisions of this Article are declared severable.

235 ILCS 5/6-5.5 — Consignment sales prohibited; retailer returns

Sec. 6-5.5. Consignment sales prohibited; retailer returns.

(a) In this Section, "retailer" means a retailer, special event retailer, special use permit licensee, caterer retailer, or brew pub.

(b) It is unlawful for a manufacturer with self-distribution privileges, importing distributor, or distributor to sell, offer for sale, or contract to sell to any retailer, or for any such retailer to purchase, offer to purchase, or contract to purchase any products:

(1) on consignment or conditional sale, pursuant to which the retailer has no obligation to pay for the product until sold;

(2) with the privilege of return unless expressly authorized in this Act;

(3) on any basis other than a bona fide sale; or

(4) if any part of the sale involves, directly or indirectly, the acquisition by the retailer of other products from a manufacturer with self-distribution privileges, importing distributor, or distributor, or an agreement to acquire other products from the manufacturer with self-distribution privileges, importing distributor, or distributor.

(c) Transactions involving the bona fide return of products for ordinary and usual commercial reasons arising after the product has been sold are not prohibited.

(d) Unless there is a bona fide business reason for replacement of an alcoholic liquor product when delivered, the alcoholic liquor product may not be replaced free of charge to a retailer. Replacement of an alcoholic liquor product damaged while in a retailer's possession constitutes the providing of something of value and is a violation of Sections 6-4, 6-5, and 6-6 of this Act. A manufacturer with self-distribution privileges, importing distributor, or distributor is not required to accept the return of products for the reasons stated in items

(1) through

(7) of subsection (f).

(1) A manufacturer with self-distribution privileges, importing distributor, or distributor may not accept the return of alcoholic liquor products as breakage if the product was damaged after delivery and while in the possession of the retailer. The manufacturer with self-distribution privileges, importing distributor, or distributor may replace damaged cartons, packaging, or carrying containers of alcoholic liquor at any time.

(2) Alcoholic liquor products or other compensation shall not be furnished to a retailer for product breakage that occurs as a result of handling by the retailer or its agents, employees, or customers.

(3) If an alcoholic liquor product has been damaged prior to or at the time of actual delivery, the product may only be exchanged for an equal quantity of identical product or returned for credit. If an identical product is unavailable, a similar type of product, including a similarly priced product, may be exchanged.

(4) If an alcoholic liquor product has been damaged prior to or at the time of actual delivery, the product may be exchanged no later than 15 days after delivery under the following conditions: (A) If the pre-delivery damage is visible at the time of delivery, the retailer must identify the damaged product immediately. (B) If the damage is latent and not visible at the time of delivery, the retailer must notify the manufacturer with self-distribution privileges, importing distributor, or distributor of the pre-delivery damage within 15 days after delivery, or the date of invoice, whichever is later.

(e) It is unlawful to sell, offer to sell, or contract to sell alcoholic liquor products with the privilege of return for any reason, other than those considered to be ordinary and usual commercial reasons, arising after the product has been sold. A manufacturer with self-distribution privileges, importing distributor, or distributor is under no obligation to accept a return or make an exchange for any product. A manufacturer with self-distribution privileges, importing distributor, or distributor that elects to make an authorized exchange of a product or return of a product for cash or credit does so at its sole discretion and must maintain proper books and records of the transaction in accordance with 11 Ill. Adm. Code 100.130.

(f) Ordinary and usual commercial reasons for the return of alcoholic liquor products are limited to the following:

(1) Defective products. Products that are unmarketable because of product deterioration, leaking containers, damaged labels, or missing or mutilated tamper evident closures may be exchanged for an equal quantity of identical or similar products, including similarly priced products, or credit against outstanding indebtedness.

(2) Error in products delivered. Any discrepancy between products ordered and products delivered may be corrected, within 15 days after the date of delivery or date of invoice, whichever is later, by exchange of the products delivered for those that were ordered or by a return for credit against outstanding indebtedness.

(3) Products that may no longer be lawfully sold. Products that may no longer be lawfully sold may be returned for credit against outstanding indebtedness. This includes situations in which, due to a change in regulation or administrative procedure over which a retailer has no control, a particular size or brand is no longer permitted to be sold.

(4) Termination of business. Products on hand at the time a retailer terminates operations may be returned for cash or credit against outstanding indebtedness. This does not include a temporary seasonal shutdown.

(5) Change in products. A retailer's inventory of a product that has been changed in formula, proof, label, or container may be exchanged for equal quantities of the new version of that product.

(6) Discontinued products. If a manufacturer, non-resident dealer, foreign importer, or importing distributor discontinues the production or importation of a product, a retailer may return its inventory of that product for cash or credit against outstanding indebtedness.

(7) Seasonal dealers. Manufacturers with self-distribution privileges, importing distributors, or distributors may accept the return of product from retailers who are only open a portion of the year if the products are likely to spoil during the off-season. These returns shall be for cash or credit against outstanding indebtedness.

(g) Without limitation, the following are not considered ordinary and commercial reasons to justify a return of an alcoholic liquor product:

(1) Overstocked and slow-moving alcoholic liquor products. The return or exchange of a product because it is overstocked or slow moving does not constitute a return for ordinary and usual commercial reasons.

(2) Seasonal alcoholic liquor products. The return for cash or credit or exchange of wine or spirits for which there is only a limited or seasonal demand, such as holiday decanters and certain distinctive bottles, does not constitute a return for ordinary and usual commercial reasons. Nothing in this item

(2) prohibits the exchange of seasonal beer products for similarly priced beer products.

(h) Nothing in this Section prohibits a manufacturer with self-distribution privileges, importing distributor, or distributor from accepting the return of beer from a retailer if the beer is near or beyond its freshness date, code date, pull date, or other similar date marking the deterioration or freshness of the beer if:

(1) the brewer has policies and procedures in place that specify the date the retailer must pull the product;

(2) the brewer's freshness return or exchange policies and procedures are readily verifiable and consistently followed by the brewer; and

(3) the container has identifying markings that correspond with this date. Returns under this subsection may be accepted in return for credit against indebtedness or equal amounts of the same or similar beer, including a similarly priced product. For purposes of this Section, beer is near code on any date on or before the freshness or code date not to exceed 30 days prior to the freshness or code date. If near-code beer is returned, a manufacturer with self-distribution privileges, importing distributor, or distributor may sell near-code beer to another retailer who may reasonably sell the beer on or before the expiration of the freshness or code date. No beer shall be returned as near-code prior to 30 days of the freshness or code date. It is a violation of this Section for a retailer to hold beer for the purpose of returning beer as out of code.

235 ILCS 5/6-6

Sec. 6-6. Except as otherwise provided in this Act no manufacturer or distributor or importing distributor shall, directly or indirectly, sell, supply, furnish, give or pay for, or loan or lease, any furnishing, fixture or equipment on the premises of a place of business of another licensee authorized under this Act to sell alcoholic liquor at retail, either for consumption on or off the premises, nor shall he or she, directly or indirectly, pay for any such license, or advance, furnish, lend or give money for payment of such license, or purchase or become the owner of any note, mortgage, or other evidence of indebtedness of such licensee or any form of security therefor, nor shall such manufacturer, or distributor, or importing distributor, directly or indirectly, be interested in the ownership, conduct or operation of the business of any licensee authorized to sell alcoholic liquor at retail, nor shall any manufacturer, or distributor, or importing distributor be interested directly or indirectly or as owner or part owner of said premises or as lessee or lessor thereof, in any premises upon which alcoholic liquor is sold at retail. No manufacturer or distributor or importing distributor shall, directly or indirectly or through a subsidiary or affiliate, or by any officer, director or firm of such manufacturer, distributor or importing distributor, furnish, give, lend or rent, install, repair or maintain, to or for any retail licensee in this State, any signs or inside advertising materials except as provided in this Section and Section 6-5. With respect to retail licensees, other than any government owned or operated auditorium, exhibition hall, recreation facility or other similar facility holding a retailer's license as described in Section 6-5, a manufacturer, distributor, or importing distributor may furnish, give, lend or rent and erect, install, repair and maintain to or for any retail licensee, for use at any one time in or about or in connection with a retail establishment on which the products of the manufacturer, distributor or importing distributor are sold, the following signs and inside advertising materials as authorized in subparts (i), (ii), (iii), and (iv):

(i) Permanent outside signs shall cost not more than \$3,000 per brand, exclusive of erection, installation, repair and maintenance costs, and permit fees and shall bear only the manufacturer's name, brand name, trade name, slogans, markings, trademark, or other symbols commonly associated with and generally used in identifying the product including, but not limited to, "cold beer", "on tap", "carry out", and "packaged liquor". (ii) Temporary outside signs shall include, but not be limited to, banners, flags, pennants, streamers, and other items of a temporary and non-permanent nature, and shall cost not more than \$1,000 per manufacturer. Each temporary outside sign must include the manufacturer's name, brand name, trade name, slogans, markings, trademark, or other symbol commonly associated with and generally used in identifying the product. Temporary outside signs may also include, for example, the product, price, packaging, date or dates of a promotion and an announcement of a retail licensee's specific sponsored event, if the temporary outside sign is intended to promote a product, and provided that the announcement of the retail licensee's event and the product promotion are held simultaneously. However, temporary outside signs may not include names, slogans, markings, or logos that relate to the retailer. Nothing in this subpart (ii) shall prohibit a distributor or importing distributor from bearing the cost of creating or printing a temporary outside sign for the retail licensee's specific sponsored event or from bearing the cost of creating or printing a temporary sign for a retail licensee containing, for example, community goodwill expressions, regional sporting event announcements, or seasonal messages, provided that the primary purpose of the temporary outside sign is to highlight, promote, or advertise the product. In addition, temporary outside signs provided by the manufacturer to the distributor or importing distributor may also include, for example, subject to the limitations of this Section, preprinted community goodwill expressions, sporting event announcements, seasonal messages, and manufacturer promotional announcements. However, a distributor or importing distributor shall not bear the cost of such manufacturer preprinted signs. (iii) Permanent inside signs, whether visible from the outside or the inside of the premises, include, but are not limited to: alcohol lists and menus that may include names, slogans, markings, or logos that relate to the retailer; neons; illuminated signs; clocks; table lamps; mirrors; tap handles; decalcomanias; window painting; and window trim. All neons, illuminated signs, clocks, table lamps, mirrors, and tap handles are the property of the manufacturer and shall be returned to the manufacturer or its agent upon request. All permanent inside signs in place and in use at any one time shall cost in the aggregate not more than \$6,000 per manufacturer. A permanent inside sign must include the manufacturer's name, brand name, trade name, slogans, markings, trademark, or other symbol commonly associated with and generally used in identifying the product. However, permanent inside signs may not include names, slogans, markings, or logos that relate to the retailer. For the purpose of this subpart (iii), all permanent inside signs may be displayed in an adjacent courtyard or patio commonly referred to as a "beer garden" that is a part of the retailer's licensed premises. (iv) Temporary inside signs shall include, but are not limited to, lighted chalk boards, acrylic table tent beverage or hors d'oeuvre list holders, banners, flags, pennants, streamers, and inside advertising materials such as posters, placards, bowling sheets, table tents, inserts for acrylic table tent beverage or hors d'oeuvre list holders, sports schedules, or similar printed or illustrated materials and product displays, such as display racks, bins, barrels, or similar

items, the primary function of which is to temporarily hold and display alcoholic beverages; however, such items, for example, as coasters, trays, napkins, glassware, growlers, crowlers, and cups shall not be deemed to be inside signs or advertising materials and may only be sold to retailers at fair market value, which shall be no less than the cost of the item to the manufacturer, distributor, or importing distributor. All temporary inside signs and inside advertising materials in place and in use at any one time shall cost in the aggregate not more than \$1,000 per manufacturer. Nothing in this subpart (iv) prohibits a distributor or importing distributor from paying the cost of printing or creating any temporary inside banner or inserts for acrylic table tent beverage or hors d'oeuvre list holders for a retail licensee, provided that the primary purpose for the banner or insert is to highlight, promote, or advertise the product. For the purpose of this subpart (iv), all temporary inside signs and inside advertising materials may be displayed in an adjacent courtyard or patio commonly referred to as a "beer garden" that is a part of the retailer's licensed premises. The restrictions contained in this Section 6-6 do not apply to signs, or promotional or advertising materials furnished by manufacturers, distributors or importing distributors to a government owned or operated facility holding a retailer's license as described in Section 6-5. No distributor or importing distributor shall directly or indirectly or through a subsidiary or affiliate, or by any officer, director or firm of such manufacturer, distributor or importing distributor, furnish, give, lend or rent, install, repair or maintain, to or for any retail licensee in this State, any signs or inside advertising materials described in subparts (i), (ii), (iii), or (iv) of this Section except as the agent for or on behalf of a manufacturer, provided that the total cost of any signs and inside advertising materials including but not limited to labor, erection, installation and permit fees shall be paid by the manufacturer whose product or products said signs and inside advertising materials advertise and except as follows: A distributor or importing distributor may purchase from or enter into a written agreement with a manufacturer or a manufacturer's designated supplier and such manufacturer or the manufacturer's designated supplier may sell or enter into an agreement to sell to a distributor or importing distributor permitted signs and advertising materials described in subparts (ii), (iii), or (iv) of this Section for the purpose of furnishing, giving, lending, renting, installing, repairing, or maintaining such signs or advertising materials to or for any retail licensee in this State. Any purchase by a distributor or importing distributor from a manufacturer or a manufacturer's designated supplier shall be voluntary and the manufacturer may not require the distributor or the importing distributor to purchase signs or advertising materials from the manufacturer or the manufacturer's designated supplier. A distributor or importing distributor shall be deemed the owner of such signs or advertising materials purchased from a manufacturer or a manufacturer's designated supplier. The provisions of Public Act 90-373 concerning signs or advertising materials delivered by a manufacturer to a distributor or importing distributor shall apply only to signs or advertising materials delivered on or after August 14, 1997. A manufacturer, distributor, or importing distributor may furnish free social media advertising to a retail licensee if the social media advertisement does not contain the retail price of any alcoholic liquor and the social media advertisement complies with any applicable rules or regulations issued by the Alcohol and Tobacco Tax and Trade Bureau of the United States Department of the Treasury. A manufacturer, distributor, or importing distributor may list the names of one or more unaffiliated retailers in the advertisement of alcoholic liquor through social media. Nothing in this Section shall prohibit a retailer from communicating with a manufacturer, distributor, or importing distributor on social media or sharing media on the social media of a manufacturer, distributor, or importing distributor. A retailer may request free social media advertising from a manufacturer, distributor, or importing distributor. Nothing in this Section shall prohibit a manufacturer, distributor, or importing distributor from sharing, reposting, or otherwise forwarding a social media post by a retail licensee, so long as the sharing, reposting, or forwarding of the social media post does not contain the retail price of any alcoholic liquor. No manufacturer, distributor, or importing distributor shall pay or reimburse a retailer, directly or indirectly, for any social media advertising services, except as specifically permitted in this Act. No retailer shall accept any payment or reimbursement, directly or indirectly, for any social media advertising services offered by a manufacturer, distributor, or importing distributor, except as specifically permitted in this Act. For the purposes of this Section, "social media" means a service, platform, or site where users communicate with one another and share media, such as pictures, videos, music, and blogs, with other users free of charge. No person engaged in the business of manufacturing, importing or distributing alcoholic liquors shall, directly or indirectly, pay for, or advance, furnish, or lend money for the payment of any license for another. Any licensee who shall permit or assent, or be a party in any way to any violation or infringement of the provisions of this Section shall be deemed guilty of a violation of this Act, and any money loaned contrary to a provision of this Act shall not be recovered back, or any note, mortgage or other evidence of indebtedness, or security, or any lease or contract obtained or made contrary to this Act shall be unenforceable and void. This Section shall not apply to airplane licensees exercising powers provided in paragraph

(i) of Section 5-1 of this Act.

235 ILCS 5/6-6.1 — Stocking, rotation, resetting, and pricing services

Sec. 6-6.1. Stocking, rotation, resetting, and pricing services.

(a) In this Section: "Reset" means the large-scale rearrangement of the alcoholic liquor products at a retailer's premises. "Rotation" means moving newer, fresher products from a storage area to a point-of-sale area and the replenishing of the point-of-sale area with fresh products. "Stocking" means the placing of alcoholic liquors where they are to be stored or where they are offered for sale.

(b) Manufacturers, distributors, or importing distributors may stock at retail licensed establishments alcoholic liquors they sell, provided that the alcoholic liquor products of other manufacturers, distributors, or importing distributors are not moved, altered, or disturbed. This stocking may be done one time either during the normal course of, 24 hours before, or within 24 hours after a regular sales call or one time either during the normal course of, 24 hours before, or within 24 hours after delivery to the retailer. The stocking is considered service incidental to a sales call or delivery.

(c) Manufacturers, distributors, or importing distributors may rotate their own alcoholic liquor products at a retailer's premises one time either during the normal course of, 24 hours before, or within 24 hours after a regular sales call or one time either during the normal course of, 24 hours before, or within 24 hours after delivery to the retailer. Rotation may be performed at any location within a retailer's premises.

(d) Manufacturers, distributors, or importing distributors may participate in or be present at merchandising resets conducted at a retailer's premises no more than 4 times per year. During resets, manufacturers, distributors, or importing distributors may stock or restock entire sections of point-of-sale locations at the retailer's premises. No reset shall occur without at least 14 days' prior notice made by the retailer to all manufacturers, distributors, or importing distributors whose alcoholic liquor products are carried by the retailer. Manufacturers, distributors, or importing distributors may only move, alter, disturb, or displace their alcoholic liquor products and the products of properly notified, but nonattending, manufacturers, distributors, or importing distributors.

(e) Manufacturers, distributors, or importing distributors may provide to retailers recommended diagrams, shelf plans, or shelf schematics that suggest beneficial display locations for their alcoholic liquor products at the retailer's premises. Manufacturers, distributors, or importing distributors may not condition pricing discounts, credits, rebates, access to brands, or the provision of any other item or activity permissible under this Act upon a retailer's choice to implement or not implement diagrams, shelf plans, or shelf schematics.

(f) Manufacturers, distributors, or importing distributors may not affix prices to products on behalf of retailers. This prohibition includes the indirect affixing of prices to product, including entering prices into a retailer's computer system. This prohibition does not prohibit manufacturers, distributors, or importing distributors, after stocking a shelf, from affixing shelf tags that identify the product and price of the alcoholic liquor; however, at no time may manufacturers, distributors, or importing distributors delegate or contract this service to a third party. Shelf tags are considered point-of-sale advertising materials and are subject to Section 6-6. If permitted stocking by manufacturers, distributors, or importing distributors involves movement and a change in the placement of its product on the retailer's shelf, shelf tags may be moved to the new position of the product.

235 ILCS 5/6-6.3 — Non-alcoholic merchandise

Sec. 6-6.3. Non-alcoholic merchandise.

(a) Nothing in this Act shall authorize the Illinois Liquor Control Commission to regulate or exercise jurisdiction over any action, transaction, and business of manufacturers, distributors, or retailers engaged in any transaction involving the furnishing, selling, or offering for sale of non-alcoholic merchandise by manufacturers, distributors, or retailers, unless the transaction involves expressed or implied agreements or understandings prohibited by this Act.

(b) Non-alcoholic merchandise may be sold by a manufacturer class license holder, non-resident dealer, foreign importer, importing distributor, or distributor to a retail licensee if:

(1) the manufacturer class license holder, non-resident dealer, foreign importer, importing distributor, or distributor is also in business as a bona fide producer or vendor of other merchandise;

(2) the merchandise is sold at its fair market value;

(3) the non-alcoholic merchandise is not sold in combination with alcoholic liquor or conditioned on the sale of alcoholic liquor;

(4) the manufacturer class license holder's, non-resident dealer's, foreign importer's, importing distributor's, or distributor's acquisition or production costs of the non-alcoholic merchandise appear on the manufacturer class license holder's, non-resident dealer's, foreign importer's, importing distributor's, or distributor's purchase invoices or other records;

(5) the individual selling prices of the non-alcoholic merchandise and alcoholic liquor sold in a single transaction can be determined from commercial documents covering the sales transaction if non-alcoholic merchandise is sold in the same transaction as alcoholic liquor; and

(6) the price is collected by the manufacturer class license holder, non-resident dealer, foreign importer, or distributor within 30 days of the date of the sale, unless other terms are established in writing between the parties.

(c) The State Commission may not prohibit the sale of non-alcoholic merchandise if it is sold in the manner in which the non-alcoholic merchandise is sold by a manufacturer or distributor that is not licensed by the State Commission; provided, however, that all invoices for non-alcoholic merchandise sold by a manufacturer class license holder, non-resident dealer, foreign importer, importing distributor, or distributor that is also in business as a bona fide producer or vendor of other merchandise must be in compliance with the books and records requirements of 11 Ill. Adm. Code 100.130. If the non-alcoholic merchandise is sold on the same invoice as an alcoholic liquor product, the 30-day merchandising credit provisions of Section 6-5 of this Act shall apply to the entire transaction, including the non-alcoholic merchandise.

(d) Except as provided in subsection (f), a manufacturer class license holder, non-resident dealer, foreign importer, importing distributor, or distributor that is also in business as a bona fide producer or vendor of non-alcoholic merchandise shall not condition the sale of its alcoholic liquor on the sale of its non-alcoholic merchandise and shall not combine the sale of its alcoholic liquor with the sale of its non-alcoholic merchandise. A manufacturer class license holder, non-resident dealer, foreign importer, importing distributor, or distributor that is also in business as a bona fide producer or vendor of non-alcoholic merchandise may sell, market, and promote non-alcoholic merchandise in the same manner in which the non-alcoholic merchandise is sold, marketed, or promoted by a manufacturer or distributor not licensed by the State Commission.

(e) Notwithstanding the prohibited furnishing or providing of fixtures, equipment, and furnishings to retailers as contained in Section 6-6 of this Act, the act of a manufacturer class license holder, non-resident dealer, foreign importer, importing distributor, or distributor furnishing or providing retailers with fixtures, equipment, or furnishings for the limited purpose of storing, servicing, displaying, advertising, furnishing, selling, or aiding in the sale of non-alcoholic merchandise is permitted, only to the extent allowed by this Section, and such fixtures, equipment, and furnishings shall not be used by the retail licensee to store, service, display, advertise, furnish, sell, or aid in the sale of alcoholic liquors. All such fixtures, equipment, or furnishings shall be identified by the retail licensee as being furnished by a manufacturer class license holder, non-resident dealer, foreign importer, importing distributor, or distributor licensed by the State Commission and, if purchased by the retail licensee and sold on the same invoice as alcoholic liquor products, the price must be collected by the manufacturer class license holder, non-resident dealer, foreign importer, importing distributor, or distributor selling the same within 30 days of the date of sale.

(f) Notwithstanding any provision of this Act to the contrary, a manufacturer class license holder, non-resident dealer, foreign importer, importing distributor, or distributor may package and distribute alcoholic liquor in combination with other non-alcoholic merchandise products if the alcoholic liquor and non-alcoholic merchandise was originally packaged together for ultimate sale to consumers by the manufacturer or agent of the manufacturer as originally packaged by the manufacturer or agent of the manufacturer for ultimate sale to consumers.

235 ILCS 5/6-6.5 — Sanitation and use of growlers and crowlers

Sec. 6-6.5. Sanitation and use of growlers and crowlers.

(a) A manufacturer, distributor, or importing distributor may not provide for free, but may sell coil cleaning services and installation services, including labor costs, to a retail licensee at fair market cost. A manufacturer, distributor, or importing distributor may not provide for free, but may sell dispensing accessories to retail licensees at a price not less than the cost to the manufacturer, distributor, or importing distributor who initially purchased them. Dispensing accessories include, but are not limited to, items such as standards, faucets, cold plates, rods, vents, taps, tap standards, hoses, washers, couplings, gas gauges, vent tongues, shanks, glycol draught systems, pumps, and check valves. the manufacturer, distributor, or importing distributor. (a-5) A manufacturer of beer licensed under subsection (e) of Section 6-4 or a brew pub may transfer any beer manufactured or sold on its licensed premises to a growler or crowler and sell those growlers or crowlers to non-licensees for consumption off the premises. A manufacturer of beer under subsection

(e) of Section 6-4 or a brew pub is not subject to subsection

(b) of this Section.

(b) An on-premises retail licensee may transfer beer to a growler or crowler, which is not an original manufacturer container, but is a reusable rigid container that holds up to 128 fluid ounces of beer and is designed to be sealed on premises by the licensee for off-premises consumption, if the following requirements are met:

(5.5) the growler or crowler has been purged with CO₂ prior to sealing the container;

(6) the on-premises retail licensee complies with the sanitation requirements under subsections

(a) through

(c) of 11 Ill. Adm. Code 100.160 when sanitizing the dispensing equipment used to draw beer to fill the growler or crowler or refill the growler;

(7) before filling the growler or crowler or refilling the growler, the on-premises retail licensee or licensee's employee shall clean and sanitize the growler or crowler in one of the following manners: (A) By manual washing in a 3-compartment sink.

(i) Before sanitizing the growler or crowler, the sinks and work area shall be cleaned to remove any chemicals, oils, or grease from other cleaning activities. (ii) Any residual liquid from the growler shall be emptied into a drain. A growler shall not be emptied into the cleaning water. (iii) The growler and cap shall be cleaned in water and detergent. The water temperature shall be, at a minimum, 110 degrees Fahrenheit or the temperature specified on the cleaning agent manufacturer's label instructions. The detergent shall not be fat-based or oil-based. (iv) Any residues on the interior and exterior of the growler shall be removed.

(v) The growler and cap shall be rinsed with water in the middle compartment. Rinsing may be from the spigot with a spray arm, from a spigot, or from a tub as long as the water for rinsing is not stagnant but is continually refreshed. (vi) The growler shall be sanitized in the third compartment. Chemical sanitizer shall be used in accordance with the United States Environmental Protection Agency-registered label use instructions and shall meet the minimum water temperature requirements of that chemical. (vii) A test kit or other device that accurately measures the concentration in milligrams per liter of chemical sanitizing solutions shall be provided and be readily accessible for use. (B) By using a mechanical washing and sanitizing machine.

(i) Mechanical washing and sanitizing machines shall be provided with an easily accessible and readable data plate affixed to the machine by the manufacturer and shall be used according to the machine's design and operation specifications. (ii) Mechanical washing and sanitizing machines shall be equipped with chemical or hot water sanitization. (iii) The concentration of the sanitizing solution or the water temperature shall be accurately determined by using a test kit or other device. (iv) The machine shall be regularly serviced based upon the manufacturer's or installer's guidelines. (C) By transferring beer to a growler or crowler with a tube.

(i) Beer may be transferred to a growler or crowler from the bottom of the growler or crowler to the top with a tube that is attached to the tap and extends to the bottom of the growler or crowler or with a commercial filling machine. (ii) Food grade sanitizer shall be used in accordance with the United States Environmental Protection Agency-registered label use instructions. (iii) A container of liquid food grade sanitizer shall be maintained for no more than 10 malt beverage taps that

will be used for filling growlers or crowlers and refilling growlers. (iv) Each container shall contain no less than 5 tubes that will be used only for filling growlers or crowlers and refilling growlers.

(v) The growler or crowler must be inspected visually for contamination. (vi) After each transfer of beer to a growler or crowler, the tube shall be immersed in the container with the liquid food grade sanitizer. (vii) A different tube from the container must be used for each fill of a growler or crowler or refill of a growler.

(5) of subsection

(b) shall not be deemed an unsealed container for purposes of Section 11-502 of the Illinois Vehicle Code.

(d) Growlers and crowlers, as described and authorized under this Section, are not original packages for the purposes of this Act. Upon a consumer taking possession of a growler or crowler from an on-premises retail licensee, the growler or crowler and its contents are deemed to be in the sole custody, control, and care of the consumer.

235 ILCS 5/6-6.6 — Giving, selling, and leasing dispensing equipment

Sec. 6-6.6. Giving, selling, and leasing dispensing equipment. Notwithstanding any provision of this Act to the contrary, a manufacturer, distributor, or importing distributor may:

(1) give dispensing equipment free of charge to a retailer, special use permit licensee, or caterer retailer one time per year for a one-day period. A manufacturer, distributor, or importing distributor shall not supply a retailer, special use permit licensee, or caterer retailer with free beer, wine, spirits, or any other item of value for the same one-day period the dispensing equipment is given, except as otherwise provided in this Act or the Illinois Administrative Code;

(2) give dispensing equipment free of charge to a special event retailer only for the duration of the licensed special event. A manufacturer, distributor, or importing distributor shall not supply a special event retailer with free beer, wine, or distilled spirits for the event the dispensing equipment is given, except as otherwise provided in this Act or the Illinois Administrative Code; or

(3) sell dispensing equipment to a retailer, special event retailer, special use permit licensee, or caterer retailer for a price that is not less than the cost to the manufacturer, distributor, or importing distributor. For purposes of this paragraph (3), the cost of dispensing equipment is the amount that the manufacturer, distributor, or importing distributor paid for the dispensing equipment. If the manufacturer, distributor, or importing distributor did not pay for the dispensing equipment but was given the equipment, the cost of the dispensing equipment is equal to

(i) the amount another manufacturer, distributor, or importing distributor paid for the dispensing equipment, (ii) the cost of manufacturing or producing the dispensing equipment, or (iii) the fair market value of the dispensing equipment. A manufacturer, distributor, or importing distributor may also enter into a written lease for the fair market value of the dispensing equipment to retailers, special event retailers, special use permit licensees, or caterer retailers. The manufacturer, distributor, or importing distributor shall invoice and collect the sale price or payment for the entire lease period from the retailer, special event retailer, special use permit licensee, or caterer retailer within 30 days of the date of the invoice or from the date the lease is executed. The term of any lease for dispensing equipment shall not exceed 180 days in the aggregate in one calendar year, and no lease shall be renewed automatically. There shall be a lapse of 90 consecutive days before the beginning of a new lease term. At the direction of the manufacturer, distributor, or importing distributor, the retailer, special event retailer, special use permit licensee, or caterer retailer shall return the equipment or the manufacturer, distributor, or importing distributor shall retrieve the dispensing equipment at the termination of the lease. In this Section, "dispensing equipment" means any portable or temporary unit the primary purpose of which is to pour alcoholic liquor or to maintain the alcoholic liquor in a consumable state. "Dispensing equipment" includes courtesy wagons, beer wagons, beer trailers, ice bins, draft coolers, coil boxes, portable bars, and kiosks. "Dispensing equipment" does not include permanent tap systems, permanent refrigeration systems, or any other built-in or physically attached fixture of the retailer, special event retailer, special use permit licensee, or caterer retailer. In this Section, "fair market value" for the purposes of leasing dispensing equipment means

(i) the cost of depreciation of the dispensing equipment to the manufacturer, distributor, or importing distributor for the same period of the lease or (ii) the cost of depreciation the manufacturer, distributor, or importing distributor would have incurred based upon the market value of the dispensing equipment if the manufacturer, distributor, or importing distributor did not pay for the dispensing equipment or if the dispensing equipment is fully depreciated.

235 ILCS 5/6-7

Sec. 6-7. No manufacturer or distributor or importing distributor or foreign importer shall sell or deliver any package containing alcoholic liquor manufactured or distributed by him unless the same shall have affixed thereto all cancelled revenue stamps which may be provided by Federal law, and shall also bear thereon a clear and legible label containing the name and address of the manufacturer, the kind of alcoholic liquor contained therein, and in the case of alcoholic liquor (other than beer and imported Scotch whiskey and brandy 4 years old or more) the date when manufactured and the minimum alcoholic content thereof. No person or persons, corporation, partnership or firm shall label alcoholic liquor as "whiskey" or "gin" or shall import for sale or shall sell in this State alcoholic liquor labeled as "whiskey" or "gin" unless the entire alcoholic content thereof, except flavoring materials, is a distillate of fermented mash of grain or mixture of grains. Alcoholic liquor of the type of whiskey or gin not conforming to this requirement must be labeled "imitation whiskey" or "imitation gin" (as the case may be). No spirits shall contain any substance, compound or ingredient which is injurious to health or deleterious for human consumption. No package shall be delivered by any manufacturer or distributor or importing distributor or foreign importer unless the same shall be securely sealed so that the contents thereof cannot be removed without breaking the seal so placed thereon by said manufacturer, and no other licensee shall sell, have in his possession, or use any package or container which does not comply with this Section or does not bear evidence that said package, when delivered to him, complied herewith.

235 ILCS 5/6-8

Sec. 6-8. Each manufacturer or importing distributor or foreign importer shall keep an accurate record of all alcoholic liquors manufactured, distributed, sold, used, or delivered by him in this State during each month, showing therein to whom sold, and shall furnish a copy thereof or a report thereon to the State Commission, as the State Commission may, request. Each importing distributor or manufacturer to whom alcoholic liquors imported into this State have been consigned shall effect possession and physical control thereof by storing such alcoholic liquors in the premises wherein such importing distributor or manufacturer is licensed to engage in such business as an importing distributor or manufacturer and to make such alcoholic liquors together with accompanying invoices, bills of lading and receiving tickets available for inspection by an agent or representative of the Department of Revenue and of the State Commission. All alcoholic liquor imported into this State must be off-loaded from the common carrier, vehicle, or mode of transportation by which the alcoholic liquor was delivered into this State. The alcoholic liquor shall be stored at the licensed premises of the importing distributor before sale and delivery to licensees in this State. A distributor or importing distributor, upon application to the Commission, may secure a waiver of the provisions of this Section for purposes of delivering beer directly to a licensee holding or otherwise participating in a special event sponsored by a unit of government or a not-for-profit organization. A manufacturer of beer that imports or transfers beer into this State must comply with the provisions of this Section.

235 ILCS 5/6-9 — Registration of trade marks; sale within geographical area; delivery to authorized persons

Sec. 6-9. Registration of trade marks; sale within geographical area; delivery to authorized persons. The Legislature hereby finds and declares that for purposes of ensuring the preservation and enhancement of interbrand competition in the alcoholic liquor industry within the State, ensuring that importation and distribution of alcoholic liquor in the State will be subject to thorough and inexpensive monitoring by the State, reducing the importation of illicit or untaxed alcoholic liquor into the State, excluding misbranded alcoholic liquor products from the State, providing incentives to distributors to service and sell to larger numbers of retail licensees in the geographic area where such distributors are engaged in business, and reducing the amount of spoiled and overaged alcoholic liquor products sold to consumers, it is necessary to restrict the purchase of alcoholic liquors at wholesale in the State to those persons selected by the manufacturer, distributor, importing distributor or foreign importer who owns or controls the trade mark, brand or name of the alcoholic liquor products sold to such persons, and to restrict the geographic area or areas within which such persons sell such alcoholic liquor at wholesale, as provided in this Section. Each manufacturer, non-resident dealer, distributor, importing distributor, or foreign importer who owns or controls the trade mark, brand or name of any alcoholic liquor shall register with the State Commission, in the Chicago office, on or before the effective date, the name of each person to whom such manufacturer, non-resident dealer, distributor, importing distributor, or foreign importer grants the right to sell at wholesale in this State any such alcoholic liquor, specifying the particular trade mark, brand or name of alcoholic liquor as to which such right is granted, the geographical area or areas for which such right is granted and the period of time for which such rights are granted to such person. Each manufacturer, non-resident dealer, distributor or importing distributor, or foreign

importer who is required to register under this Section must furnish a copy of the registration statement at the time of appointment to the person who has been granted the right to sell alcoholic liquor at wholesale. However, if a person who has been appointed the right to sell alcoholic liquor at wholesale does not receive a copy of the registration statement as required under this Section, such person may file a registration statement with the State Commission, provided that the person furnishes a copy of that registration statement to the manufacturer, non-resident dealer, distributor, importing distributor, or foreign importer within 30 days of filing the registration statement. The registration statement shall state:

- (1) the name of the person appointed;
- (2) the name of the manufacturer, non-resident dealer, distributor, importing distributor, or foreign importer from whom the person received the right to sell alcoholic liquor;
- (3) the particular trade mark, brand, or name of alcoholic liquor as to which the right to sell at wholesale is granted; and
- (4) the geographical areas for which the right to sell at wholesale is granted. Such manufacturer, non-resident dealer, distributor, importing distributor, or foreign importer may grant the right to sell at wholesale any trade mark, brand or name of any alcoholic liquor in any geographical area to more than one person. If the registration is received after the effective date, the Commission shall treat the date the registration was received in the Chicago office as the effective date. Such registration shall be made on a form prescribed by the State Commission and the State Commission may require such registration to be on a form provided by it. A non-resident dealer or foreign importer who is not a manufacturer shall file the registration statement jointly with the manufacturer identifying the person authorized by the manufacturer to sign the registration statement on behalf of the manufacturer. No such registration shall be made in any other manner than as is provided in this Section and only those persons registered by the manufacturer, non-resident dealer, distributor, importing distributor or foreign importer, shall have the right to sell at wholesale in this State, the brand of alcoholic liquor specified on the registration form. However, a licensed Illinois distributor who has not been registered to sell a brand of alcoholic liquor, but for a period of 2 years prior to November 8, 1979 has been engaged in the purchase of a brand for resale from a licensed Illinois distributor who has the right to sell that brand at wholesale, may continue to purchase and resell the brand at wholesale, and may purchase from the same distributor and resell at wholesale any new brands of the same manufacturer, provided that:

- (1) Within 60 days after November 8, 1979 he identifies the brand which he so purchased to the State Commission and the Commission within 30 days thereafter verifies that the purchases have occurred;
- (2) Thereafter, he notifies the State Commission in writing of any brands of the same manufacturer which he wishes to purchase from the same distributor that were not available for distribution on or before November 8, 1979, and that the Commission within 30 days of such notification verifies that the brand is a new brand of the same manufacturer, and that the same licensed Illinois distributor has the right to sell the new brand at wholesale;
- (3) His licensed business address is within the geographical area for which the licensed Illinois distributor from whom the purchases are made has the right to sell said brand or brands of alcoholic liquor; and
- (4) His sales are made within the geographical area for which the licensed Illinois distributor from whom the purchases are made has the right to sell the brand or brands of alcoholic liquor and only to retail licensees whose licensed premises are located within the aforementioned geographical area. No person to whom such right is granted shall sell at wholesale in this State any alcoholic liquor bearing such trade mark, brand or name outside of the geographical area for which such person holds such selling right, as registered with the State Commission, nor shall he sell such alcoholic liquor within such geographical area to a retail licensee if the premises specified in such retailer's license are located outside such geographical area. Any licensed Illinois distributor who has not been granted the right to sell any alcoholic liquor at wholesale and is purchasing alcoholic liquor from a person who has been granted the right to sell at wholesale may sell and deliver only to retail licensees whose licensed premises are within the same geographical area as the person who has been granted the right to sell at wholesale. No manufacturer, importing distributor, distributor, non-resident dealer, or foreign importer shall sell or deliver any package containing alcoholic liquor manufactured or distributed by him for resale, unless the person to whom such package is sold or delivered is authorized to receive such package in accordance with the provisions of this Act.

235 ILCS 5/6-9.1 — Deliveries to retail establishments

Sec. 6-9.1. Deliveries to retail establishments.

(a) A distributor of wine or spirits shall deliver to any retailer within any geographic area in which that distributor has been granted by a wholesaler the right to sell its trademark, brand, or name at least once every 2 weeks if

(i) in the case of a retailer located in a county with a population of at least 3,000,000 inhabitants or in a county adjacent to a county with at least 3,000,000 inhabitants, the retailer agrees to purchase at least \$200 of wine or spirits from the distributor every 2 weeks; or (ii) in the case of a retailer located in a county with a population of less than 3,000,000 that is not adjacent to a county with a population of at least 3,000,000 inhabitants, the retailer agrees to purchase at least \$50 of wine or spirits from the distributor every 2 weeks.

(b) On January 1, 2002 and every 2 years thereafter, the dollar amounts in items

(i) and (ii) of subsection

(a) shall be increased or decreased by a percentage equal to the percentage increase or decrease in the Consumer Price Index during the previous 2 years according to the most recent available data.

(c) Any brewer or non-resident dealer which holds self-distribution privileges pursuant to a class 1 brewer license or a class 3 brewer license under this Act shall deliver beer to any retailer in the brewer's wholly owned or leased vehicles or through a freight forwarding service, excluding common carriers such as Federal Express, United Parcel Service, or similar common carriers, and shall provide services to the retailer upon the request of the retailer if such services are permitted under this Act and the rules of the Commission.

235 ILCS 5/6-9.5 — Definitions

Sec. 6-9.5. Definitions. As used in this Section through Section 6-9.15: "Common ownership" means any ownership interest of more than 5% of the total ownership interest of 2 or more retail licensees. "Cooperative agent" means a person or persons with the authority to contract for the purchase and delivery of wine and spirits on behalf of a cooperative purchase group. "Cooperative purchase group" means a group of 2 or more individually owned or commonly owned retail licensees who join together to enter into a cooperative purchase agreement. "Cooperative purchasing agreement" means an agreement entered into between 2 or more individually owned, commonly owned, or not commonly owned retail licensees for the purpose of purchasing wine or spirits, excluding any product fermented with malt or any substitute for malt, from a distributor or importing distributor. "Quantity discounting" means a sales program between a wine or spirits distributor or importing distributor and a retail licensee, retail licensees, or a cooperative purchase group in which the primary purpose of the program is to increase product sales to retail licensees and is not a subterfuge to provide prohibited things of value as inducements to retail licensees or to the members of a cooperative purchasing group. "Quantity discounting" includes circumstances in which a wine or spirits distributor or importing distributor offers a retail licensee, retail licensees, or a cooperative purchase group a discount based upon an agreement by which the retail licensee, retail licensees, or a cooperative purchase group may purchase a predetermined number of products in return for receiving a discount on the goods purchased that may be applied either as a price reduction at the time of sale or as a rebate or credit following the sale.

235 ILCS 5/6-9.10 — Cooperative purchasing agreements

Sec. 6-9.10. Cooperative purchasing agreements.

(a) A cooperative purchasing agreement shall only be valid if the following conditions are met:

(1) the agreement is in writing and signed by all parties to the agreement;

(2) the agreement contains the complete license information for all parties to the agreement, including State and local license numbers and expiration dates as well as the date on which the retail member joined the cooperative purchase group;

(3) a retail licensee that is a party to the agreement must not be a party to any other related cooperative purchasing agreement;

(4) the agreement identifies and designates the name and address of the agent or agents with the authority to contract for the purchase and delivery of wine or spirits on behalf of the cooperative purchase group;

(5) a copy of the executed agreement, including any amendments, deletions, or additions, is kept on the premises of each party to the agreement for a period of 3 years;

(6) a copy of the executed agreement, including any amendments, deletions, or additions, is delivered to the relevant licensee with distribution privileges and to the State Commission before making any purchases under the agreement; any

amendments, deletions, or additions must be submitted to the State Commission within 7 business days after the amendment, deletion, or addition is executed; and

(7) the agreement must designate whether the cooperative purchasing group is comprised of retail licenses engaged in the sale of wine or spirits on or off the premises.

(b) A retail licensee may, pursuant to a cooperative purchasing agreement, make purchases as a member of a cooperative purchase group or independently of any such group. Nothing in this Section or any other Section of this Act shall be construed to prohibit commonly or not commonly owned retail licensees from making purchases separate and apart from any membership in a cooperative purchase group.

(c) A retailer may only be a member of one cooperative purchase group at a time. A retail licensee may change to a different cooperative purchase group no more than twice in a 12-month period. However, if an existing cooperative purchase group member purchases a retail location from a member of another cooperative purchase group, the new owner of the retail location may move the membership of the retail licensee to a different cooperative purchasing group.

(d) When a retail licensee joins an existing cooperative purchasing group, the new member must be a member for a period of 7 days before being able to participate in any quantity discount programs.

(e) Cooperative purchasing group members must be either all on-premises retail licensees or all off-premises retail licensees.

(f) Any individual retail licensee that is a member of a cooperative purchase group that fails to comply with the terms and conditions of this Section may be deemed to be in violation of Section 6-5. Any distributor or importing distributor that fails to comply with this Section may be deemed to be in violation of Section 6-5.

(g) The State Commission shall keep a list of the members of each cooperative purchase group and shall make that list available on its website.

(h) A retail licensee that is a member of a cooperative purchase group shall not have an ownership interest, directly or indirectly, in any entity licensed by this Act other than a retailer.

(i) It is unlawful for a distributor or importing distributor to furnish, give, or lend money or anything of value to a cooperative agent.

(j) It is the duty of each retail licensee of the cooperative purchase group to make books and records available upon reasonable notice for the purpose of investigation and control by the State Commission or any local liquor control commission having jurisdiction over the retail licensee of the cooperative purchase group.

(k) A cooperative agent shall not have an ownership interest, directly or indirectly, in an entity licensed under any other license category under this Act.

(l) A retailer, manufacturer, importing distributor, distributor, or cooperative agent shall remain in compliance with federal law pursuant to the prohibitions and exceptions provided in 27 CFR Part 6 and any promulgated rules thereof. A cooperative agent that is compliant with Sections 6-5 and 6-6 shall not receive cash or anything of value from both the retail licensee and an importing distributor or distributor, non-resident dealer or manufacturers as part of a cooperative purchasing group agreement.

235 ILCS 5/6-9.15 — Quantity discounting terms for wine or spirits cooperative purchase agreements

Sec. 6-9.15. Quantity discounting terms for wine or spirits cooperative purchase agreements.

Quantity discount programs shall:

(1) be open and available for acceptance for 7 business days;

(2) be designed and implemented to produce product volume growth with retail licensees;

(3) be based on the volume of product purchased; however, discounts may include price reductions, cash, and credits, and no-charge wine or spirits products may be given instead of a discount;

(4) be documented on related sales invoices or credit memoranda;

- (5) not require a retail licensee to take and dispose of any quota of wine or spirits; however, bona fide quantity discounts shall not be deemed to be quota sales; and
- (6) not require a retail licensee to purchase one product in order to purchase another; this includes combination sales if one or more products may be purchased only in combination with other products and not individually.
- (b) A distributor or importing distributor that makes quantity discount sales to participating members of a cooperative purchase group shall issue customary invoices to each participating retail licensee itemizing the wine or spirit sold and delivered as part of a quantity discount program to each participating retail licensee.
- (c) If a distributor or importing distributor offers a quantity discount for wine or spirits, excluding any product fermented with malt or any substitute for malt, cooperative purchase groups shall purchase a minimum of 250 cases in each quantity discount program. Each individual participating member of a cooperative purchase group purchasing product through a quantity discount program may be required to purchase the following minimum amounts:
- (1) 2% of cases of any quantity discount program of 500 or fewer cases.
 - (2) 1.5% of cases of any quantity discount program of at least 501 and not more than 2,000 cases.
 - (3) 1% of cases of any quantity discount program of 2,001 or more cases.
- (d) The cooperative agent shall place each cooperative purchase order under the name of the cooperative purchase group and shall identify each participating retail member involved with the purchase, the quantity of product purchased, the price attributable to each retailer member's purchase, and a requested delivery date. A retail licensee may make purchases through a cooperative purchasing group or independently of such group. Nothing in this Section shall be construed to prohibit retail licensees from making purchases separate and apart from any cooperative purchasing group.
- (e) Each distributor or importing distributor shall separately invoice each participating cooperative purchase group member for the purchase made on behalf of such participating member.
- (f) A cooperative purchasing group shall maintain the records of each cooperative purchase order placed for 90 days. The records shall include:

 - (4) the price discounts and net price of all wine or spirits ordered by each cooperative purchase group member; and
 - (5) the requested delivery date for the order.
- (g) A cooperative purchase group is subject to the books and records requirements of Section 6-10 and subsection (e) of 11 Ill. Adm. Code 100.130.
- (h) A cooperative purchasing group shall retain a surety bond at all times for no less than \$250,000. If a cooperative purchasing group member is delinquent in payment pursuant to Section 6-5, the surety shall immediately pay the importing distributor or distributor the delinquent amount. The surety bond required by this Section may be acquired from a company, agent, or broker of the cooperative purchase group's choice. If the surety bond does not cure the indebtedness, the 30-day merchandising credit requirements of Section 6-5 shall apply jointly to each cooperative purchasing group until the indebtedness is cured. The cooperative purchasing group is responsible for all costs and fees related to the surety bond.
- (i) Any licensee that fails to comply with the terms and conditions of this Section may be deemed to be in violation of this Act.
- (j) Nothing in this Section shall apply to quantity discount programs offered for any product fermented with malt or any substitute for malt. Nothing in this Section shall be construed to prohibit, limit, or interfere with quantity discount, credit, or rebate programs offered for any product fermented with malt or any substitute for malt.

235 ILCS 5/6-10 — Books and records available for investigation and control; maintenance

Sec. 6-10. Books and records available for investigation and control; maintenance. It shall be the duty of every retail licensee to make books and records available upon reasonable notice for the purpose of investigation and control by the Illinois Liquor Control Commission or any local liquor control commission having jurisdiction over the licensee. Such books and records need not be maintained on the licensed premises, but must be maintained in the State of Illinois;

however, if access is available electronically, the books and records may be maintained out of state. However, all original invoices or copies thereof covering purchases of alcoholic liquor must be retained on the licensed premises for a period of 90 days after such purchase, unless the Commission has granted a waiver in response to a written request in cases where records are kept at a central business location within the State of Illinois or in cases where books and records that are available electronically are maintained out of state.

Sec. 6-11. Sale near churches, schools, and hospitals.

(a) No license shall be issued for the sale at retail of any alcoholic liquor within 100 feet of any church, school other than an institution of higher learning, hospital, home for aged or indigent persons or for veterans, their spouses or children or any military or naval station, provided, that this prohibition shall not apply to hotels offering restaurant service, regularly organized clubs, or to restaurants, food shops or other places where sale of alcoholic liquors is not the principal business carried on if the place of business so exempted is not located in a municipality of more than 500,000 persons, unless required by local ordinance; nor to the renewal of a license for the sale at retail of alcoholic liquor on premises within 100 feet of any church or school where the church or school has been established within such 100 feet since the issuance of the original license. In the case of a church, the distance of 100 feet shall be measured to the nearest part of any building used for worship services or educational programs and not to property boundaries. (a-5) Notwithstanding any provision of this Section to the contrary, a local liquor control commissioner may grant an exemption to the prohibition in subsection

(a) of this Section if a local rule or ordinance authorizes the local liquor control commissioner to grant that exemption.

(b) Nothing in this Section shall prohibit the issuance of a retail license authorizing the sale of alcoholic liquor to a restaurant, the primary business of which is the sale of goods baked on the premises if

(i) the restaurant is newly constructed and located on a lot of not less than 10,000 square feet, (ii) the restaurant costs at least \$1,000,000 to construct, (iii) the licensee is the titleholder to the premises and resides on the premises, and (iv) the construction of the restaurant is completed within 18 months of July 10, 1998 (the effective date of Public Act 90-617).

(c) Nothing in this Section shall prohibit the issuance of a retail license authorizing the sale of alcoholic liquor incidental to a restaurant if

(1) the primary business of the restaurant consists of the sale of food where the sale of liquor is incidental to the sale of food and the applicant is a completely new owner of the restaurant,

(2) the immediately prior owner or operator of the premises where the restaurant is located operated the premises as a restaurant and held a valid retail license authorizing the sale of alcoholic liquor at the restaurant for at least part of the 24 months before the change of ownership, and

(3) the restaurant is located 75 or more feet from a school.

For purposes of this Act, in addition to other methods authorized by law, an express company, common carrier, or contract carrier shall be considered served with process when a representative, agent, or employee alleged to have violated this Act is personally served. Each shipment of alcoholic liquor delivered in violation of this item (ii) of this subsection

(a) constitutes a separate offense. (iii) No person, after purchasing or otherwise obtaining alcoholic liquor, shall sell, give, or deliver such alcoholic liquor to another person under the age of 21 years, except in the performance of a religious ceremony or service. Except as otherwise provided in item (ii), any express company, common carrier, or contract carrier that transports alcoholic liquor within this State that violates the provisions of item (i), (ii), or (iii) of this paragraph of this subsection

(a) is guilty of a Class A misdemeanor and the sentence shall include, but shall not be limited to, a fine of not less than \$500. Any person who violates the provisions of item (iii) of this paragraph of this subsection

(a) is guilty of a Class A misdemeanor and the sentence shall include, but shall not be limited to a fine of not less than \$500 for a first offense and not less than \$2,000 for a second or subsequent offense. Any person who knowingly violates the provisions of item (iii) of this paragraph of this subsection

(a) is guilty of a Class 4 felony if a death occurs as the result of the violation. If a licensee or officer, associate, member, representative, agent, or employee of the licensee, or a representative, agent, or employee of an express company, common carrier, or contract carrier that carries or transports alcoholic liquor for delivery within this State, is prosecuted under this paragraph of this subsection

(a) for selling, giving, or delivering alcoholic liquor to a person under the age of 21 years, the person under 21 years of age who attempted to buy or receive the alcoholic liquor may be prosecuted pursuant to Section 6-20 of this Act, unless the person under 21 years of age was acting under the authority of a law enforcement agency, the Illinois Liquor Control Commission, or a local liquor control commissioner pursuant to a plan or action to investigate, patrol, or conduct any similar enforcement action. For the purpose of preventing the violation of this Section, any licensee, or his agent or employee, or a representative, agent, or employee of an express company, common carrier, or contract carrier that carries or transports alcoholic liquor for delivery within this State, shall refuse to sell, deliver, or serve alcoholic beverages to any person who is unable to produce adequate written evidence of identity and of the fact that he or she is over the age of 21 years, if requested by the licensee, agent, employee, or representative. Adequate written evidence of age and identity of the person is a document issued by a federal, state, county, or municipal government, or subdivision or agency thereof, including, but not limited to, a motor vehicle operator's license, a registration certificate issued under the Federal Selective Service Act, or an identification card issued to a member of the Armed Forces. Proof that the defendant-licensee, or his employee or agent, or the representative, agent, or employee of the express company, common carrier, or contract carrier that carries or transports alcoholic liquor for delivery within this State demanded, was shown and reasonably relied upon such written evidence in any transaction forbidden by this Section is an affirmative defense in any criminal prosecution therefor or to any proceedings for the suspension or revocation of any license based thereon. It shall not, however, be an affirmative defense if the agent or employee accepted the written evidence knowing it to be false or fraudulent. If a false or fraudulent Illinois driver's license or Illinois identification card is presented by a person less than 21 years of age to a licensee or the licensee's agent or employee for the purpose of ordering, purchasing, attempting to purchase, or otherwise obtaining or attempting to obtain the serving of any alcoholic beverage, the law enforcement officer or agency investigating the incident shall, upon the conviction of the person who presented the fraudulent license or identification, make a report of the matter to the Secretary of State on a form provided by the Secretary of State. However, no agent or employee of the licensee or employee of an express company, common carrier, or contract carrier that carries or transports alcoholic liquor for delivery within this State shall be disciplined or discharged

for selling or furnishing liquor to a person under 21 years of age if the agent or employee demanded and was shown, before furnishing liquor to a person under 21 years of age, adequate written evidence of age and identity of the person issued by a federal, state, county or municipal government, or subdivision or agency thereof, including but not limited to a motor vehicle operator's license, a registration certificate issued under the Federal Selective Service Act, or an identification card issued to a member of the Armed Forces. This paragraph, however, shall not apply if the agent or employee accepted the written evidence knowing it to be false or fraudulent. Any person who sells, gives, or furnishes to any person under the age of 21 years any false or fraudulent written, printed, or photostatic evidence of the age and identity of such person or who sells, gives or furnishes to any person under the age of 21 years evidence of age and identification of any other person is guilty of a Class A misdemeanor and the person's sentence shall include, but shall not be limited to, a fine of not less than \$500. Any person under the age of 21 years who presents or offers to any licensee, his agent or employee, any written, printed or photostatic evidence of age and identity that is false, fraudulent, or not actually his or her own for the purpose of ordering, purchasing, attempting to purchase or otherwise procuring or attempting to procure, the serving of any alcoholic beverage, who falsely states in writing that he or she is at least 21 years of age when receiving alcoholic liquor from a representative, agent, or employee of an express company, common carrier, or contract carrier, or who has in his or her possession any false or fraudulent written, printed, or photostatic evidence of age and identity, is guilty of a Class A misdemeanor and the person's sentence shall include, but shall not be limited to, the following: a fine of not less than \$500 and at least 25 hours of community service. If possible, any community service shall be performed for an alcohol abuse prevention program. Any person under the age of 21 years who has any alcoholic beverage in his or her possession on any street or highway or in any public place or in any place open to the public is guilty of a Class A misdemeanor. This Section does not apply to possession by a person under the age of 21 years making a delivery of an alcoholic beverage in pursuance of the order of his or her parent or in pursuance of his or her employment. (a-1) It is unlawful for any parent or guardian to knowingly permit his or her residence, any other private property under his or her control, or any vehicle, conveyance, or watercraft under his or her control to be used by an invitee of the parent's child or the guardian's ward, if the invitee is under the age of 21, in a manner that constitutes a violation of this Section. A parent or guardian is deemed to have knowingly permitted his or her residence, any other private property under his or her control, or any vehicle, conveyance, or watercraft under his or her control to be used in violation of this Section if he or she knowingly authorizes or permits consumption of alcoholic liquor by underage invitees. Any person who violates this subsection (a-1) is guilty of a Class A misdemeanor and the person's sentence shall include, but shall not be limited to, a fine of not less than \$500. Where a violation of this subsection (a-1) directly or indirectly results in great bodily harm or death to any person, the person violating this subsection shall be guilty of a Class 4 felony. Nothing in this subsection (a-1) shall be construed to prohibit the giving of alcoholic liquor to a person under the age of 21 years in the performance of a religious ceremony or service in observation of a religious holiday. For the purposes of this subsection (a-1) where the residence or other property has an owner and a tenant or lessee, the trier of fact may infer that the residence or other property is occupied only by the tenant or lessee.

(b) Except as otherwise provided in this Section whoever violates this Section shall, in addition to other penalties provided for in this Act, be guilty of a Class A misdemeanor.

(c) Any person shall be guilty of a Class A misdemeanor where he or she knowingly authorizes or permits a residence which he or she occupies to be used by an invitee under 21 years of age and:

(1) the person occupying the residence knows that any such person under the age of 21 is in possession of or is consuming any alcoholic beverage; and

(2) the possession or consumption of the alcohol by the person under 21 is not otherwise permitted by this Act. For the purposes of this subsection

(c) where the residence has an owner and a tenant or lessee, the trier of fact may infer that the residence is occupied only by the tenant or lessee. The sentence of any person who violates this subsection

(c) shall include, but shall not be limited to, a fine of not less than \$500. Where a violation of this subsection

(c) directly or indirectly results in great bodily harm or death to any person, the person violating this subsection

(c) shall be guilty of a Class 4 felony. Nothing in this subsection

(c) shall be construed to prohibit the giving of alcoholic liquor to a person under the age of 21 years in the performance of a religious ceremony or service in observation of a religious holiday. A person shall not be in violation of this subsection

(c) if (A) he or she requests assistance from the police department or other law enforcement agency to either

- (i) remove any person who refuses to abide by the person's performance of the duties imposed by this subsection
- (c) or (ii) terminate the activity because the person has been unable to prevent a person under the age of 21 years from consuming alcohol despite having taken all reasonable steps to do so and (B) this assistance is requested before any other person makes a formal complaint to the police department or other law enforcement agency about the activity.
- (d) Any person who rents a hotel or motel room from the proprietor or agent thereof for the purpose of or with the knowledge that such room shall be used for the consumption of alcoholic liquor by persons under the age of 21 years shall be guilty of a Class A misdemeanor.
- (e) Except as otherwise provided in this Act, any person who has alcoholic liquor in his or her possession on public school district property on school days or at events on public school district property when children are present is guilty of a petty offense, unless the alcoholic liquor
 - (i) is in the original container with the seal unbroken and is in the possession of a person who is not otherwise legally prohibited from possessing the alcoholic liquor or
 - (ii) is in the possession of a person in or for the performance of a religious service or ceremony authorized by the school board.

235 ILCS 5/6-16.1 — Enforcement actions

Notice provided under this Section shall be valid for a "sting operation" or enforcement action conducted within 60 days of the provision of that notice, unless the governing body of the municipality or county having jurisdiction sets a shorter period by ordinance.
- (b) A local liquor control commission or unit of local government that conducts alcohol and tobacco compliance operations shall establish a policy and standards for alcohol and tobacco compliance operations to investigate whether a licensee is furnishing
 - (1) alcoholic liquor to persons under 21 years of age in violation of this Act or
 - (2) tobacco to persons in violation of the Prevention of Tobacco Use by Persons under 21 Years of Age and Sale and Distribution of Tobacco Products Act.
- (c) The Illinois Law Enforcement Training Standards Board shall develop a model policy and guidelines for the operation of alcohol and tobacco compliance checks by local law enforcement officers. The Illinois Law Enforcement Training Standards Board shall also require the supervising officers of such compliance checks to have met a minimum training standard as determined by the Board. The Board shall have the right to waive any training based on current written policies and procedures for alcohol and tobacco compliance check operations and in-service training already administered by the local law enforcement agency, department, or office.
- (d) The provisions of subsections
 - (b) and
 - (c) do not apply to a home rule unit with more than 2,000,000 inhabitants.
- (e) A home rule unit, other than a home rule unit with more than 2,000,000 inhabitants, may not regulate enforcement actions in a manner inconsistent with the regulation of enforcement actions under this Section. This subsection
 - (e) is a limitation under subsection
 - (i) of Section 6 of Article VII of the Illinois Constitution on the concurrent exercise by home rule units of powers and functions exercised by the State.
- (f) A licensee who is the subject of an enforcement action or "sting operation" under this Section and is found, pursuant to the enforcement action, to be in compliance with this Act shall be notified by the enforcement agency action that no violation was found within 30 days after the finding.

235 ILCS 5/6-16.2 — Prohibited entry to a licensed premises

Sec. 6-16.2. Prohibited entry to a licensed premises. A municipality or county may prohibit a licensee or any officer, associate, member, representative, agent, or employee of a licensee from permitting a person under the age of 21 years to enter and remain in that portion of a licensed premises that sells, gives, or delivers alcoholic liquor for consumption on the premises. No prohibition under this Section, however, shall apply to any licensed premises, such as without limitation a restaurant or food shop, where selling, giving, or delivering alcoholic liquor is not the principal business of the licensee at those premises. In those instances where a person under the age of 21 years is prohibited from entering and remaining on the premises, proof that the defendant-licensee, or his employee or agent, demanded, was shown, and reasonably relied upon adequate written evidence for purposes of entering and remaining on the licensed premises is an affirmative defense in any criminal prosecution therefor or to any proceedings for the suspension or revocation of any license based thereon. It shall not, however, be an affirmative defense if the defendant-licensee, or his agent or employee, accepted the written evidence knowing it to be false or fraudulent. Adequate written evidence of age and identity of the person is a document issued by a federal, state, county, or municipal government, or subdivision or agency thereof, including, but not limited to, a motor vehicle operator's license, a registration certificate issued under the Federal Selective Service Act, or an identification card issued to a member of the armed forces. If a false or fraudulent Illinois driver's license or Illinois identification card is presented by a person less than 21 years of age to a licensee or the licensee's agent or employee for the purpose of obtaining entry and remaining on a licensed premises, the law enforcement officer or agency investigating the incident shall, upon the conviction of the person who presented the fraudulent license or identification, make a report of the matter to the Secretary of State on a form provided by the Secretary of State.

235 ILCS 5/6-17

Sec. 6-17.

(a) No licensee licensed under the provisions of this Act shall deny or permit his agents and employees to deny any person the full and equal enjoyment of the accommodations, advantages, facilities and privileges of any premises in which alcoholic liquors are authorized to be sold subject only to the conditions and limitations established by law and applicable alike to all citizens.

(b) A distributor or an importing distributor may refuse to sell beer, brew, or similar beverages containing 0.5% or less of alcohol by volume to a non-licensee.

235 ILCS 5/6-17.1 — Distributors; sales to retailers

Sec. 6-17.1. Distributors; sales to retailers. The General Assembly hereby finds and declares that for the purposes of ensuring that all retail licensees have the opportunity to receive alcoholic liquor, reducing the amount of spoiled and overaged alcoholic liquor sold to customers, and maintaining the distribution system and the State's ability to regulate against illegal importation of alcoholic liquor, it is necessary to prevent discrimination among retail licensees as provided in this Section. A distributor or importing distributor designated as a distributor or importing distributor for alcoholic liquor within a designated geographic area or areas under Section 6-9 of this Act shall use its best efforts to make available for sale to retail licensees, in its designated geographic area or areas, each brand of alcoholic liquor which the distributor or the importing distributor has been authorized to distribute. Nothing in this Section prohibits a distributor or importing distributor from establishing purchase requirements unless the requirements have the effect of excluding a majority of the retail licensees in the designated geographic area or areas from purchasing the alcoholic liquor.

235 ILCS 5/6-17.2 — Importation of alcoholic liquor into this State

Sec. 6-17.2. Importation of alcoholic liquor into this State. If a retail licensee

violates this Section a third time within the same 12-month period of the preceding 2 warnings, then the retailer licensee may be subject to the penalties under Section 10-1.

(b) A retailer that is delinquent in payment pursuant to Section 6-5 shall be prohibited from purchasing wine or spirits from another retailer pursuant to this Section until the indebtedness is cured.

235 ILCS 5/6-18

Sec. 6-18. No home rule unit, as defined in Article VII of the Illinois Constitution, may amend or alter or in any way change the legal age at which persons may purchase, consume or possess alcoholic liquors as provided in this Act, and it is declared to be the law of this State, pursuant to paragraphs

(h) and

(i) of Section 6 of Article VII of the Constitution, that the establishment of such legal age is an exercise of exclusive State power which may not be exercised concurrently by a home rule unit.

235 ILCS 5/6-19

Sec. 6-19. (Repealed).

235 ILCS 5/6-20 — Transfer, possession, and consumption of alcoholic liquor; restrictions

Sec. 6-20. Transfer, possession, and consumption of alcoholic liquor; restrictions.

(a) Any person to whom the sale, gift or delivery of any alcoholic liquor is prohibited because of age shall not purchase, or accept a gift of such alcoholic liquor or have such alcoholic liquor in his possession.

(b) If a licensee or his or her agents or employees believes or has reason to believe that a sale or delivery of any alcoholic liquor is prohibited because of the non-age of the prospective recipient, he or she shall, before making such sale or delivery demand presentation of some form of positive identification, containing proof of age, issued by a public officer in the performance of his or her official duties.

(c) No person shall transfer, alter, or deface such an identification card; use the identification card of another; carry or use a false or forged identification card; or obtain an identification card by means of false information.

(d) No person shall purchase, accept delivery or have possession of alcoholic liquor in violation of this Section.

(e) The consumption of alcoholic liquor by any person under 21 years of age is forbidden.

(f) Whoever violates any provisions of this Section shall be guilty of a Class A misdemeanor.

(g) The possession and dispensing, or consumption by a person under 21 years of age of alcoholic liquor in the performance of a religious service or ceremony, or the consumption by a person under 21 years of age under the direct supervision and approval of the parents or parent or those persons standing in loco parentis of such person under 21 years of age in the privacy of a home, is not prohibited by this Act.

(h) The provisions of this Act prohibiting the possession of alcoholic liquor by a person under 21 years of age and dispensing of alcoholic liquor to a person under 21 years of age do not apply in the case of a student under 21 years of age, but 18 years of age or older, who:

the instructor.

(i) A law enforcement officer may not charge or otherwise take a person into custody based solely on the commission of an offense that involves alcohol and violates subsection

(d) or

(e) of this Section if the law enforcement officer, after making a reasonable determination and considering the facts and surrounding circumstances, reasonably believes that all of the following apply:

(1) The law enforcement officer has contact with the person because that person either: (A) requested emergency medical assistance for an individual who reasonably appeared to be in need of medical assistance due to alcohol consumption; or (B) acted in concert with another person who requested emergency medical assistance for an individual who reasonably appeared to be in need of medical assistance due to alcohol consumption; however, the provisions of this subparagraph (B) shall not apply to more than 3 persons acting in concert for any one occurrence.

(2) The person described in subparagraph (A) or (B) of paragraph

(1) of this subsection (i): (A) provided his or her full name and any other relevant information requested by the law enforcement officer; (B) remained at the scene with the individual who reasonably appeared to be in need of medical assistance due to alcohol consumption until emergency medical assistance personnel arrived; and (C) cooperated with emergency medical assistance personnel and law enforcement officers at the scene. The report of a sexual assault may have been made to a health care provider, to law enforcement, including the campus police or security department of an institution of higher education, or to the Title IX coordinator of an institution of higher education or another employee of the institution responsible for responding to reports of sexual assault under State or federal law. (B) The person who reports the sexual assault:

235 ILCS 5/6-21

Sec. 6-21.

(a) Every person who is injured within this State, in person or property, by any intoxicated person has a right of action in his or her own name, severally or jointly, against any person, licensed under the laws of this State or of any other state to sell alcoholic liquor, who, by selling or giving alcoholic liquor, within or without the territorial limits of this State, causes the intoxication of such person. Any person at least 21 years of age who pays for a hotel or motel room or facility knowing that the room or facility is to be used by any person under 21 years of age for the unlawful consumption of alcoholic liquors and such consumption causes the intoxication of the person under 21 years of age, shall be liable to any person who is injured in person or property by the intoxicated person under 21 years of age. Any person owning, renting, leasing or permitting the occupation of any building or premises with knowledge that alcoholic liquors are to be sold therein, or who having leased the same for other purposes, shall knowingly permit therein the sale of any alcoholic liquors that have caused the intoxication of any person, shall be liable, severally or jointly, with the person selling or giving the liquors. However, if such building or premises belong to a minor or other person under guardianship the guardian of such person shall be held liable instead of the ward. A married woman has the same right to bring the action and to control it and the amount recovered as an unmarried woman. All damages recovered by a minor under this Act shall be paid either to the minor, or to his or her parent, guardian or next friend as the court shall direct. The unlawful sale or gift of alcoholic liquor works a forfeiture of all rights of the lessee or tenant under any lease or contract of rent upon the premises where the unlawful sale or gift takes place. All actions for damages under this Act may be by any appropriate action in the circuit court. An action shall lie for injuries to either means of support or loss of society, but not both, caused by an intoxicated person or in consequence of the intoxication of any person resulting as hereinabove set out. "Loss of society" means the mutual benefits that each family member receives from the other's continued existence, including love, affection, care, attention, companionship, comfort, guidance, and protection. "Family" includes spouse, children, parents, brothers, and sisters. The action, if the person from whom support or society was furnished is living, shall be brought by any person injured in means of support or society in his or her name for his or her benefit and the benefit of all other persons injured in means of support or society. However, any person claiming to be injured in means of support or society and not included in any action brought hereunder may join by motion made within the times herein provided for bringing such action or the personal representative of the deceased person from whom such support or society was furnished may so join. In every such action the jury shall determine the amount of damages to be recovered without regard to and with no special instructions as to the dollar limits on recovery imposed by this Section. The amount recovered in every such action is for the exclusive benefit of the person injured in loss of support or society and shall be distributed to such persons in the proportions determined by the verdict rendered or judgment entered in the action. If the right of action is settled by agreement with the personal representative of a deceased person from whom support or society was furnished, the court having jurisdiction of the estate of the deceased person shall distribute the amount of the settlement to the person injured in loss of support or society in the proportion, as determined by the court, that the percentage of dependency of each such person upon the deceased person bears to the sum of the percentages of dependency of all such persons upon the deceased person. For all causes of action involving persons injured, killed, or incurring property damage before September 12, 1985, in no event shall the judgment or recovery under this Act for injury to the person or to the property of any person as hereinabove set out exceed \$15,000, and recovery under this Act for loss of means of support resulting from the death or injury of any person, as hereinabove set out, shall not exceed \$20,000. For all causes of action involving persons injured, killed, or incurring property damage after September 12, 1985 but before July 1, 1998, in no event shall the judgment or recovery for injury to the person or property of any person exceed \$30,000 for each person incurring damages, and recovery under this Act for loss of means of support resulting from the death or injury of any person shall not exceed \$40,000. For all causes of action involving persons injured, killed, or incurring property damage on or after July 1, 1998, in no event shall the judgment or recovery for injury to the person or property of any person exceed \$45,000 for each person incurring damages, and recovery under this Act for either loss of means of support or loss of society resulting from the death or injury of any person shall not exceed \$55,000. Beginning in 1999, every January 20, these liability limits shall automatically be increased or decreased, as applicable, by a percentage equal to the percentage change in the consumer price index-u during the preceding 12-month calendar year. "Consumer price index-u" means the index published by the Bureau of Labor Statistics of the United States Department of Labor that measures the average change in prices of goods and services purchased by all urban consumers, United States city

average, all items, 1982-84 = 100. The new amount resulting from each annual adjustment shall be determined by the Comptroller and made available via the Comptroller's official website by January 31 of every year and to the chief judge of each judicial circuit. The liability limits at the time at which damages subject to such limits are awarded by final judgment or settlement shall be utilized by the courts. Nothing in this Section bars any person from making separate claims which, in the aggregate, exceed any one limit where such person incurs more than one type of compensable damage, including personal injury, property damage, and loss to means of support or society. However, all persons claiming loss to means of support or society shall be limited to an aggregate recovery not to exceed the single limitation set forth herein for the death or injury of each person from whom support or society is claimed. Nothing in this Act shall be construed to confer a cause of action for injuries to the person or property of the intoxicated person himself, nor shall anything in this Act be construed to confer a cause of action for loss of means of support or society on the intoxicated person himself or on any person claiming to be supported by such intoxicated person or claiming the society of such person. In conformance with the rule of statutory construction enunciated in the general Illinois saving provision in Section 4 of "An Act to revise the law in relation to the construction of the statutes", approved March 5, 1874, as amended, no amendment of this Section purporting to abolish or having the effect of abolishing a cause of action shall be applied to invalidate a cause of action accruing before its effective date, irrespective of whether the amendment was passed before or after the effective date of this amendatory Act of 1986. Each action hereunder shall be barred unless commenced within one year next after the cause of action accrued. However, a licensed distributor or brewer whose only connection with the furnishing of alcoholic liquor which is alleged to have caused intoxication was the furnishing or maintaining of any apparatus for the dispensing or cooling of beer is not liable under this Section, and if such licensee is named as a defendant, a proper motion to dismiss shall be granted.

(b) Any person licensed under any state or local law to sell alcoholic liquor, whether or not a citizen or resident of this State, who in person or through an agent causes the intoxication, by the sale or gift of alcoholic liquor, of any person who, while intoxicated, causes injury to any person or property in the State of Illinois thereby submits such licensed person, and, if an individual, his or her personal representative, to the jurisdiction of the courts of this State for a cause of action arising under subsection

(a) above. Service of process upon any person who is subject to the jurisdiction of the courts of this State, as provided in this subsection, may be made by personally serving the summons upon the defendant outside this State, as provided in the Code of Civil Procedure, as now or hereafter amended, with the same force and effect as though summons had been personally served within this State. Only causes of action arising under subsection

(a) above may be asserted against a defendant in an action in which jurisdiction over him or her is based upon this subsection. Nothing herein contained limits or affects the right to serve any process in any other manner now or hereafter provided by law.

235 ILCS 5/6-22

Sec. 6-22. No person except a manufacturer or distributor, or importing distributor, shall fill or refill, in whole or in part, any original package of alcoholic liquor with the same or any other kind or quality of alcoholic liquor, and it shall be unlawful for any person to have in his possession for sale at retail any bottles, casks or other containers containing alcoholic liquor, except in original packages.

235 ILCS 5/6-22.5 — Infusions

Sec. 6-22.5. Infusions.

(a) For purposes of this Section, "infusion" means a spirit where ingredients, including, but not limited to, fruits, spices, or nuts, are added to naturally infuse flavor into the spirit.

235 ILCS 5/6-23

Sec. 6-23. No manufacturer or distributor or importing distributor or foreign importer shall enter into any contract with any person licensed to sell at retail whereby such licensee agrees not to sell any alcoholic liquors manufactured or distributed by any other manufacturer or distributor or importing distributor or foreign importer, and any provision in any contract violative of this Section shall render the whole of such contract void and no action shall be brought thereon in any court. However, nothing in this Section shall prohibit the Department of Agriculture from entering into contracts for exclusive facilities upon the State Fair Grounds on an equal basis.

235 ILCS 5/6-24

235 ILCS 5/6-24a — Display of birth defects warning signs

Sec. 6-24a. Display of birth defects warning signs.

(a) The General Assembly finds that there is a need for public information about the risk of birth defects (specifically Fetal Alcohol Syndrome) when women consume alcoholic liquor during pregnancy. The United States Surgeon General has recommended abstinence from alcohol during pregnancy. Since Fetal Alcohol Syndrome and fetal alcohol effects are preventable, the General Assembly finds that it is in the public interest to provide warning about the risk of alcohol-related birth defects at places where alcoholic liquors are sold.

(b) Every holder of a retail license, whether the licensee sells or offers for sale alcoholic liquors for use or consumption on or off the retail license premises, shall cause a sign with the message "GOVERNMENT WARNING: ACCORDING TO THE SURGEON GENERAL, WOMEN SHOULD NOT DRINK ALCOHOLIC BEVERAGES DURING PREGNANCY BECAUSE OF THE RISK OF BIRTH DEFECTS." to be framed and hung in plain view. These signs shall be no less than 8 1/2 inches by 11 inches and shall provide the name and phone number of an authorized State alcoholism and substance abuse helpline.

(c) In the event there is no warning sign posted on the retailer's premises, it shall be the responsibility of the Illinois Liquor Control Commission to furnish the retailer with a warning sign. The retailer shall have 30 days from receipt of the warning sign to post it on the licensed premises. Thereafter, a retailer who violates this Section is subject to a written warning for the first violation. For a second or subsequent violation, the retailer shall pay a fine of at least \$20 but not more than \$100 for each such violation. For the third and subsequent violations, each day the activity continues shall be a separate violation.

235 ILCS 5/6-25

Sec. 6-25. No person shall receive a local license to sell alcoholic liquor upon any premises as a restaurant nor as a club unless it has the qualifications respectively described in Sections 1-3.23 and 1-3.24. No restaurant, licensed as such, shall sell alcoholic liquor except with meals.

235 ILCS 5/6-26 — Minimum size of container for spirits

235 ILCS 5/6-27.1 — Responsible alcohol service server training

Sec. 6-27.1. Responsible alcohol service server training.

(a) Unless issued a valid server training certificate between July 1, 2012 and July 1, 2015 by a certified Beverage Alcohol Sellers and Servers Education and Training (BASSET) trainer, all alcohol servers in Cook County are required to obtain and complete training in basic responsible alcohol service as outlined in 77 Ill. Adm. Code 3500, as those provisions exist on July 1, 2015 (the effective date of Public Act 98-939), by July 1, 2015 or within 120 days after the alcohol server begins his or her employment, whichever is later. All alcohol servers in a county, other than Cook County, with a population of 200,000 inhabitants or more are required to obtain and complete training in basic responsible alcohol service as outlined in 77 Ill. Adm. Code 3500, as those provisions exist on July 1, 2015 (the effective date of Public Act 98-939), by July 1, 2016 or within 120 days after the alcohol server begins his or her employment, whichever is later. All alcohol servers in a county with a population of more than 30,000 inhabitants and less than 200,000 inhabitants are required to obtain and complete training in basic responsible alcohol service as outlined in 77 Ill. There is no limit to the amount of times a server may take the training. A certificate of training belongs to the server, and a server may transfer a certificate of training to a different employer, but shall not transfer a certificate of training to another server. Proof that an alcohol server has been trained must be available upon reasonable request by State law enforcement officials. For the purpose of this Section, "alcohol servers" means persons who sell or serve open containers of alcoholic beverages at retail, anyone who delivers mixed drinks under Section 6-28.8, and anyone whose job description entails the checking of identification for the purchase of open containers of alcoholic beverages at retail or for entry into the licensed premises. The definition does not include

(c) Beginning on the effective date of this amendatory Act of the 98th General Assembly, but no later than October 1, 2015, all existing BASSET trainers who are already BASSET certified as of the effective date of this amendatory Act of the 98th General Assembly shall be recertified by the State Commission and be required to comply with the conditions for server training set forth in this amendatory Act of the 98th General Assembly.

(d) Training modules and certificate program plans must be approved by the State Commission. All documents, materials, or information related to responsible alcohol service training program approval that are submitted to the State Commission are confidential and shall not be open to public inspection or dissemination and are exempt from disclosure. The State Commission shall only approve programs that meet the following criteria:

(1) the training course covers the content specified in 77 Ill. Adm. Code 3500.155;

(2) if the training course is classroom-based, the classroom training is at least 4 hours, is available in English and Spanish, and includes a test;

(3) if the training course is online or computer-based, the course is designed in a way that ensures that no content can be skipped, is interactive, has audio for content for servers that have a disability, and includes a test;

(4) training and testing is based on a job task analysis that clearly identifies and focuses on the knowledge, skills, and abilities needed to responsibly serve alcoholic beverages and is developed using best practices in instructional design

and exam development to ensure that the program is fair and legally defensible;

(5) training and testing is conducted by any means available, including, but not limited to, online, computer, classroom, or live trainers; and

(6) the program must provide access on a 24-hour-per-day, 7-days-per-week basis for certificate verification for State Commission, State law enforcement officials, and employers to be able to verify certificate authenticity.

(e) Nothing in subsection

(d) of this Section shall be construed to require a program to use a test administrator or proctor.

(f) A certificate issued from a BASSET-licensed training program shall be accepted as meeting the training requirements for all server license and permit laws and ordinances in the State.

(g) A responsible alcohol service training certificate from a BASSET-licensed program shall be valid for 3 years.

(h) The provisions of this Section shall apply beginning July 1, 2015. From July 1, 2015 through December 31, 2015, enforcement of the provisions of this Section shall be limited to education and notification of the requirements to encourage compliance.

(i) The provisions of this Section do not apply to a special event retailer.

235 ILCS 5/6-27.5 — Mandatory schedule of prices

Sec. 6-27.5. Mandatory schedule of prices. All retail licensees shall maintain a schedule of the prices charged for all drinks of alcoholic liquor to be served and consumed on the licensed premises or in any room or part thereof. Whenever a hotel or multi-use establishment which holds a valid retailer's license operates on its premises more than one establishment at which drinks of alcoholic liquor are sold at retail, the hotel or multi-use establishment shall maintain at each such establishment a separate schedule of the prices charged for such drinks at that establishment.

(6) advertise or promote in any way, whether on or off the licensed premises, any of the practices prohibited under paragraphs

(1) through (5).

(c) (Blank).

(a) As used in this Section: "Dedicated event space" means a room or rooms or other clearly delineated space within a retail licensee's premises that is reserved for the exclusive use of party package invitees during the entirety of a party package. Furniture, stanchions and ropes, or other room dividers may be used to clearly delineate a dedicated event

(c) A violation of this Section shall be grounds for suspension or revocation of the retailer's license as provided by this Act. The State Commission may not enforce any trade practice policy or other rule that was not adopted in accordance with the Illinois Administrative Procedure Act.

(d) All licensees affected by this Section must also comply with Sections 6-16, 6-21, and 6-27.1 of this Act.

(a) In this Section: "Cocktail" or "mixed drink" means any beverage obtained by combining ingredients alcoholic in nature, whether brewed, fermented, or distilled, with ingredients non-alcoholic in nature, such as fruit juice, lemonade, cream, or a carbonated beverage. "Cocktail" or "mixed drink" does not include an original or sealed container that is filled, sealed, or labeled by the manufacturer. "Original container" means, for the purposes of this Section only, a container that is filled, sealed, and secured by a retail licensee's employee at the retail licensee's location with a tamper-evident lid or cap. "Sealed container" means a rigid container that contains a mixed drink or a single serving of wine, is new, has never been used, has a secured lid or cap designed to prevent consumption without removal of the lid or cap, and is tamper-evident. "Sealed container" does not include a container with a lid with sipping holes or openings for straws or a container made of plastic, paper, or polystyrene foam. "Tamper-evident" means a lid or cap that has been sealed with tamper-evident covers, including, but not limited to, wax dip or heat shrink wrap.

(b) A cocktail, mixed drink, or single serving of wine placed in a sealed container by a retail licensee at the retail licensee's location may be transferred and sold for off-premises consumption if the following requirements are met:

(1) the cocktail, mixed drink, or single serving of wine is transferred within the licensed premises, by a curbside pickup, or by delivery by an employee of the retail licensee who: (A) has been trained in accordance with Section 6-27.1 at the time of the sale; (B) is at least 21 years of age; and (C) upon delivery, verifies the age of the person to whom the cocktail, mixed drink, or single serving of wine is being delivered by obtaining a signature from a recipient aged 21 or over;

(2) if the employee delivering the cocktail, mixed drink, or single serving of wine is not able to safely verify a person's age or level of intoxication upon delivery or is otherwise not able to complete the delivery, the employee shall cancel the sale of alcohol and return the product to the retail license holder;

(3) the sealed container is placed in the trunk of the vehicle or if there is no trunk, in the vehicle's rear compartment that is not readily accessible to the passenger area;

(4) a container filled and sealed at a retail licensee's location shall be affixed with a label or tag that contains the following information: (A) the cocktail or mixed drink ingredients, type, and name of the alcohol; (B) the name, license number, and address of the retail licensee that filled the original container and sold the product; (C) the volume of the cocktail, mixed drink, or single serving of wine in the sealed container; and (D) the sealed container was filled less than 7 days before the date of sale.

(c) Third-party delivery services are not permitted to deliver cocktails and mixed drinks under this Section.

(d) If there is an executive order of the Governor in effect during a disaster, the employee delivering the mixed drink, cocktail, or single serving of wine must comply with any requirements of that executive order, including, but not limited to, wearing gloves and a mask and maintaining distancing requirements when interacting with the public.

(f-5) This Section shall only grant authorization to holders of State of Illinois retail liquor licenses but not to licensees that simultaneously hold any licensure or privilege to manufacture alcoholic liquors within or outside of the State of Illinois.

(g) This Section is not a denial or limitation of home rule powers and functions under Section 6 of Article VII of the Illinois Constitution.

(h) Except as provided in subsection (f-5), nothing in this Section shall be construed to prohibit an on-premises consumption retailer or a combined on-premises consumption retailer and off-premises sale retailer from delivering mixed drinks, cocktails, or single servings of wine pursuant to this Section.

235 ILCS 5/6-29 — Winery shipper's license

Sec. 6-29. Winery shipper's license.

(a) The General Assembly declares that the following is the intent of this Section:

(1) To authorize direct shipment of wine by an out-of-state maker of wine on the same basis permitted an in-state maker of wine pursuant to the authority of the State under the provisions of Section 2 of the Twenty-First Amendment to the United States Constitution and in conformance with the United States Supreme Court decision decided on May 16, 2005 in *Granholm v. Heald*.

(2) To reaffirm that the General Assembly's findings and declarations that selling alcoholic liquor through various direct marketing means such as catalogs, newspapers, mailings, and the Internet directly to consumers of this State poses a serious threat to the State's efforts to further temperance and prevent youth from accessing alcoholic liquor and the expansion of youth access to additional types of alcoholic liquors.

(3) To maintain the State's broad powers granted by Section 2 of the Twenty-First Amendment to the United States Constitution to control the importation or sale of alcoholic liquor and its right to structure its alcoholic liquor distribution system.

(4) To ensure that the General Assembly, by authorizing limited direct shipment of wine to meet the directives of the United States Supreme Court, does not intend to impair or modify the State's distribution of wine through distributors or importing distributors, but only to permit limited shipment of wine for personal use.

(5) To provide that, in the event that a court of competent jurisdiction declares or finds that this Section, which is enacted to conform Illinois law to the United States Supreme Court decision, is invalid or unconstitutional, the Illinois General Assembly at its earliest general session shall conduct hearings and study methods to conform to any directive or order of the court consistent with the temperance and revenue collection purposes of this Act.

(b) Notwithstanding any other provision of law, a wine shipper licensee may ship, for personal use and not for resale, not more than 12 cases of wine per year to any resident of this State who is 21 years of age or older. (b-3) Notwithstanding any other provision of law, sale and shipment by a winery shipper licensee pursuant to this Section shall be deemed to constitute a sale in this State. (b-5) The shipping container of any wine shipped under this Section shall be clearly labeled with the following words: "CONTAINS ALCOHOL. SIGNATURE OF A PERSON 21 YEARS OF AGE OR OLDER REQUIRED FOR DELIVERY. PROOF OF AGE AND IDENTITY MUST BE SHOWN BEFORE DELIVERY.". This warning must be prominently displayed on the packaging. A licensee shall require the transporter or common carrier that delivers the wine to obtain the signature of a person 21 years of age or older at the delivery address at the time of delivery. At the expense of the licensee, the licensee shall receive a delivery confirmation from the express company, common carrier, or contract carrier indicating the location of the delivery, time of delivery, and the name and signature of the individual 21 years of age or older who accepts delivery. The Commission shall design and create a label or approve a label that must be affixed to the shipping container by the licensee.

(c) No broker within this State shall solicit consumers to engage in direct wine shipments under this Section.

(d) It is not the intent of this Section to impair the distribution of wine through distributors or importing distributors, but only to permit shipments of wine for personal use.

235 ILCS 5/6-29.1 — Direct shipments of alcoholic liquor

Sec. 6-29.1. Direct shipments of alcoholic liquor.

(a) The General Assembly makes the following findings:

(1) The General Assembly of Illinois, having reviewed this Act in light of the United States Supreme Court's 2005 decision in *Granholm v. Heald*, has determined to conform that law to the constitutional principles enunciated by the Court in a manner that best preserves the temperance, revenue, and orderly distribution values of this Act.

(2) Minimizing automobile crashes and fatalities, domestic violence, health problems, loss of productivity, unemployment, and other social problems associated with dependency and improvident use of alcoholic beverages remains the policy of Illinois.

(3) To the maximum extent constitutionally feasible, Illinois desires to collect sufficient revenue from excise and use taxes on alcoholic beverages for the purpose of responding to such social problems.

(4) Combined with family education and individual discipline, retail validation of age, and assessment of the capacity of the consumer remains the best pre-sale social protection against the problems associated with the abuse of alcoholic liquor.

(5) Therefore, the paramount purpose of this amendatory Act is to continue to carefully limit direct shipment sales of wine produced by makers of wine and to continue to prohibit such direct shipment sales for spirits and beer. For these reasons, the Commission shall establish a system to notify the out-of-state trade of this prohibition and to detect violations. The Commission shall request the Attorney General to extradite any offender.

(b) Pursuant to the Twenty-First Amendment of the United States Constitution allowing states to regulate the distribution and sale of alcoholic liquor and pursuant to the federal Webb-Kenyon Act declaring that alcoholic liquor shipped in interstate commerce must comply with state laws, the General Assembly hereby finds and declares that selling alcoholic liquor from a point outside this State through various direct marketing means, such as catalogs, newspapers, mailers, and the Internet, directly to residents of this State poses a serious threat to the State's efforts to prevent youths from accessing alcoholic liquor; to State revenue collections; and to the economy of this State. Any person manufacturing,

distributing, or selling alcoholic liquor who knowingly ships or transports or causes the shipping or transportation of any alcoholic liquor from a point outside this State to a person in this State who does not hold a manufacturer's, distributor's, importing distributor's, or non-resident dealer's license issued by the Liquor Control Commission, other than a shipment of sacramental wine to a bona fide religious organization, a shipment authorized by Section 6-29, subparagraph

(17) of Section 3-12, or any other shipment authorized by this Act, is in violation of this Act. The Commission, upon determining, after investigation, that a person has violated this Section, shall give notice to the person by certified mail to cease and desist all shipments of alcoholic liquor into this State and to withdraw from this State within 5 working days after receipt of the notice all shipments of alcoholic liquor then in transit. A person who violates the cease and desist notice is subject to the applicable penalties in subsection

(a) of Section 10-1 of this Act.

235 ILCS 5/6-30

(b) Notwithstanding the provisions of subsection (a), an on-premises retail licensee may offer for sale and serve more than one drink per person for sampling purposes. In any event, all provisions of Section 6-28 shall apply to an on-premises retail licensee that conducts product sampling.

(c) A craft distiller tasting permit licensee may conduct product sampling of distilled spirits for consumption at the location specified in the craft distiller tasting permit license. Up to 3 samples, consisting of no more than 1/4 ounce of distilled spirits, may be served to a consumer in one day.

A retailers on premise consumption licensee, or any agent or employee of that licensee, may not use mace, pepper spray, or any other toxic air-released compound within its licensed premises. Violation of this subsection

(a) by any licensee or any employee or agent of a licensee is a Class 4 felony.

(b) No person may impede any person who is attempting to exit the premises of a retailers on premise consumption licensee due to an emergency that constitutes a threat to the health or safety of persons within the licensed premises. For the purpose of this Section, the term "impede a person who is attempting to exit" includes physically restraining the person or blocking or locking an exit while the licensed premises is open to the public. Violation of this subsection

(c) A retailers on premise consumption licensee with an authorized capacity

A retailers on premise consumption licensee with an authorized capacity of at least 500 persons that conducts live entertainment within its licensed premises must, before the commencement of the live entertainment, make an announcement to the patrons of the licensed premises that generally informs those patrons of the locations of exits and fire escapes at the licensed premises.

235 ILCS 5/6-33 — Sealing and removal of open wine bottles from a restaurant or winery

Sec. 6-33. Sealing and removal of open wine bottles from a restaurant or winery. Notwithstanding any other provision of this Act, a restaurant licensed to sell alcoholic liquor in this State may permit a patron to remove one unsealed and

partially consumed bottle of wine for off-premise consumption provided that the patron has purchased a meal and consumed a portion of the bottle of wine with the meal on the restaurant premises. Notwithstanding any other provision of this Act, a winery licensed to sell alcoholic liquor in this State may permit a patron to remove one unsealed and partially consumed bottle of wine for off-premise consumption. A partially consumed bottle of wine that is to be removed from the premises pursuant to this Section shall be securely sealed by the licensee or an agent of the licensee prior to removal from the premises and placed in a transparent one-time use tamper-proof bag. The licensee or agent of the licensee shall provide a dated receipt for the bottle of wine to the patron. Wine that is resealed in accordance with the provisions of this Section and not tampered with and transported in accordance with the restrictions of subsections

If the State commission affirms the local commissioner's order to suspend or revoke the license at the first hearing, the appellant shall cease to engage in the business for which the license was issued, until the local commissioner's order is terminated by its own provisions or reversed upon rehearing or by the courts. If the premises for which the license was issued are located within a city, village or incorporated town having a population of 500,000 or more inhabitants, the licensee shall have the privilege, within a period of 20 days after the receipt of such order of fine, suspension or revocation, of appealing the order to the local license appeal commission and upon the filing of such an appeal by the licensee the license appeal commission shall determine the appeal upon certified record of proceedings of the local liquor commissioner in accordance with the provisions of Section 7-9. Within 30 days after such appeal was heard the license appeal commission shall render a decision sustaining or reversing the order of the local liquor control commissioner. If the premises for which a license was issued are located within a city, village, or incorporated town having a population of 1,000,000 or more inhabitants and the local liquor control commissioner has evidence that the following criminal activity has occurred inside the licensed premises: the sale of or possession with intent to sell controlled substances or marijuana, the sale of or possession with intent to sell firearms, homicide, criminal sexual assault or criminal sexual abuse, aggravated assault or aggravated battery, then the local liquor control commissioner may, without notice or hearing, and upon the issuance of a written order stating that the continued operation of the licensed premises poses an immediate threat to the health, safety, or welfare of the community, order the licensed premises closed for a period of not more than 30 days, giving the licensee an opportunity to be heard during that period. Upon receipt of evidence of the criminal activity by the local liquor control commissioner, the name of the licensee and the address of the licensed premises where the criminal activity is alleged to have occurred may be submitted by the local liquor control commissioner to the State Commission. If such information is received by the State Commission, then the State Commission must post that information in each of its offices in places available for public inspection not later than the day following the State Commission's receipt of the information. If the licensee is granted a continuance during

the period of time the licensed premises is ordered to be closed, the licensed premises shall remain closed until a judgment is entered. Notwithstanding the foregoing, the licensed premises will be allowed to remain open if the criminal activity is timely reported by the licensee, or its agents, pursuant to local ordinance, and the criminal activity shall not be used as a basis for suspension under this Act. A distributor may, in coordination with the local liquor control commissioner and the local police department, remove any product from the licensed premises for which the distributor has not received full payment from the licensee at the time of the closure of the premises. The distributor shall provide the local liquor control commissioner with a document outlining the products for which full payment has not been received.

235 ILCS 5/7-6

Sec. 7-6. All proceedings for the revocation or suspension of licenses of manufacturers, distributors, importing distributors, non-resident dealers, foreign importers, non-beverage users, railroads, airplanes and boats shall be before the State Commission. All such proceedings and all proceedings for the revocation or suspension of a retailer's license before the State commission shall be in accordance with rules and regulations established by it not inconsistent with law. However, no such license shall be so revoked or suspended except after a hearing by the State commission with reasonable notice to the licensee served by registered or certified mail with return receipt requested at least 10 days prior to the hearings at the last known place of business of the licensee and after an opportunity to appear and defend. Such notice shall specify the time and place of the hearing, the nature of the charges, the specific provisions of the Act and rules violated, and the specific facts supporting the charges or violation. The findings of the Commission shall be predicated upon competent evidence. The revocation of a local license shall automatically result in the revocation of a State license. Upon notification by the Illinois Department of Revenue, the State Commission, in accordance with Section 3-12, may refuse the issuance or renewal of a license, fine a licensee, or suspend or revoke any license issued by the State Commission if the licensee or license applicant has violated the provisions of Section 3 of the Retailers' Occupation Tax Act. All procedures for the suspension or revocation of a license, as enumerated above, are applicable to the levying of fines for violations of this Act or any rule or regulation issued pursuant thereto.

235 ILCS 5/7-7

Sec. 7-7. Any five residents of the city, village or county shall have the right to file a complaint with the local commission stating that any retailer licensee, subject to the jurisdiction of the local commission, has been or is violating the provisions of this Act or the rules or regulations issued pursuant hereto. Such complaint shall be in writing in the form prescribed by the local commission and shall be signed and sworn to by the parties complaining. The complaint shall state the particular provision, rule or regulation believed to have been violated and the facts in detail upon which belief is based. If the local commission is satisfied that the complaint substantially charges a violation and that from the facts alleged there is reasonable cause for such belief, it shall set the matter for hearing and shall serve notice upon the licensee of the time and place of such hearing and of the particular charge in the complaint.

235 ILCS 5/7-8

Sec. 7-8. For each city, village or incorporated town having a population of 500,000 or more inhabitants, there is established a license appeal commission consisting of the chairman of the Illinois Liquor Control Commission, the most senior member of the Illinois Liquor Control Commission who is not of the same political party as the chairman, and one person who is a resident of the particular city, village or incorporated town selected by the council or president and board of trustees, as the case may be, who shall serve for a term of 4 years and until his successor is selected and takes office. Neither the mayor, president of the board of trustees, nor any member of the council or board of trustees shall be eligible for membership on a license appeal commission. Each of the 2 members of the Illinois Liquor Control Commission shall receive a \$200 per diem for their work on the license appeal commission, and the other member shall receive an annual salary which shall be paid by the particular city, village or incorporated town. The secretary of the Illinois Liquor Control Commission shall be ex-officio the secretary for each license appeal commission.

235 ILCS 5/7-9

Sec. 7-9. Except as provided in this Section, any order or action of a local liquor control commissioner levying a fine or refusing to levy a fine on a licensee, granting or refusing to grant a license, revoking or suspending or refusing to revoke or suspend a license or refusing for more than 30 days to grant a hearing upon a complaint to revoke or suspend a license may, within 20 days after notice of such order or action, be appealed by any resident of the political subdivision under the jurisdiction of the local liquor control commissioner or any person interested, to the State Commission. In any

case where a licensee appeals to the State Commission from an order or action of the local liquor control commission having the effect of suspending or revoking a license, denying a renewal application, or refusing to grant a license, the licensee shall resume the operation of the licensed business pending the decision of the State Commission and the expiration of the time allowed for an application for rehearing. If an application for rehearing is filed, the licensee shall continue the operation of the licensed business until the denial of the application or, if the rehearing is granted, until the decision on rehearing. In any case in which a licensee appeals to the State Commission a suspension or revocation by a local liquor control commissioner that is the second or subsequent such suspension or revocation placed on that licensee within the preceding 12 month period, the licensee shall consider the suspension or revocation to be in effect until a reversal of the local liquor control commissioner's action has been issued by the State Commission and shall cease all activity otherwise authorized by the license. The State Commission shall expedite, to the greatest extent possible, its consideration of any appeal that is an appeal of a second or subsequent suspension or revocation within the past 12 month period. The appeal shall be limited to a review of the official record of the proceedings of such local liquor control commissioner if the county board, city council or board of trustees, as the case may be, has adopted a resolution requiring that such review be on the record. If such resolution is adopted, a certified official record of the proceedings taken and prepared by a certified court reporter or certified shorthand reporter shall be filed by the local liquor control commissioner within 5 days after notice of the filing of such appeal, if the appellant licensee pays for the cost of the transcript. The State Commission shall review the propriety of the order or action of the local liquor control commissioner and shall consider the following questions:

(a) whether the local liquor control commissioner has proceeded in the manner provided by law;

(b) whether the order is supported by the findings;

(c) whether the findings are supported by substantial evidence in the light of the whole record. The only evidence which may be considered in the review, shall be the evidence found in the certified official record of the proceedings of the local liquor control commissioner. No new or additional evidence shall be admitted or considered. The State Commission shall render a decision affirming, reversing or modifying the order or action reviewed within 30 days after the appeal was heard. In the event such appeal is from an order of a local liquor control commissioner of a city, village or incorporated town of 500,000 or more inhabitants, granting or refusing to grant a license or refusing for more than 30 days to grant a hearing upon a complaint to revoke or suspend a license, the matter of the propriety of such order or action shall be tried de novo by the license appeal commission as expeditiously as circumstances permit. In the event such appeal is from an order or action of a local liquor control commissioner of a city, village or incorporated town of 500,000 or more inhabitants, imposing a fine or refusing to impose a fine on a licensee, revoking or suspending or refusing to revoke or suspend a license, the license appeal commission shall determine the appeal by a review of the official record of the proceedings of such local liquor control commissioner. A certified record of the proceedings shall be promptly filed with the license appeal commission by such local liquor control commissioner after notice of the filing of such appeal if the appellant licensee pays for the cost of the transcript and promptly delivers the transcript to the local liquor control commission or its attorney. The review by the license appeal commission shall be limited to the questions:

(a) whether the local liquor control commissioner has proceeded in the manner provided by law;

(b) whether the order is supported by the findings;

(c) whether the findings are supported by substantial evidence in the light of the whole record. No new or additional evidence in support of or in opposition to such order or action under appeal shall be received other than that contained in such record of the proceedings. Within 30 days after such appeal was heard, the license appeal commission shall render its decision in accordance with the provisions of Section 7-5. In cities, villages and incorporated towns having a population of 500,000 or more inhabitants, appeals from any order or action shall lie to the license appeal commission of such city, village or incorporated town. All of the provisions of this Section and Section 7-10 relative to proceedings upon appeals before the State Commission and relative to appeals from the decisions of the State Commission shall apply also to proceedings upon appeals before any license appeal commission and appeals from the decisions of license appeal commission. In any trial de novo hearing before the State Commission or license appeal commission, the local liquor control commissioner shall be entitled to 10 days notice and to be heard. All such trial de novo hearings shall be open to the public and the Illinois Liquor Control Commission and the license appeal commission shall reduce all evidence offered thereto to writing. If after trial de novo hearing or review as provided herein, the State Commission or the license appeal commission (as the case may be) shall decide that the license has been improperly issued, denied, revoked, suspended or refused to be revoked or suspended or a hearing to revoke or suspend has been improperly refused or that the

licensee has been improperly fined or not fined, it shall enter an order in conformity with such findings, which order shall be in writing. A certified copy of the order shall be transmitted to the particular local liquor control commissioner and it shall be the duty of the local liquor control commissioner to take such action as may be necessary to conform with the order. In any trial de novo hearing before the State Commission or the license appeal commission, the licensee shall submit to examination and produce books and records material to the business conducted under the license in like manner as before the local liquor control commissioner, and the failure of the licensee to submit to such an examination or to produce such books and records, or to appear at the hearing on such appeal, shall constitute an admission that he has violated the provisions of this Act. In the event the appeal is from an order of the local liquor control commissioner denying a renewal application, the licensee shall have on deposit with the local liquor control commissioner an amount sufficient to cover the license fee for the renewal period and any bond that may be required.

235 ILCS 5/7-10

Sec. 7-10. A copy of the rule, regulation, order or decision of the State commission or the license appeal commission, in any proceeding before it, certified under the seal of said commission, shall be served upon each party of record to the proceeding before the commission and service upon any attorney of record for any such party shall be deemed service upon such party. Each party appearing before said commission shall enter his appearance and indicate to the commission his address for the service of a copy of any rule, regulation, order, decision or notice and the mailing of a copy of any rule, regulation or order of said commission or of any notice by said commission, in said proceeding, to said party at such address shall be deemed service thereof upon such party. Within 20 days after the service of any rule, regulation, order or decision of said commission upon any party to the proceeding, such party may apply for a rehearing in respect to any matters determined by said commission. If a rehearing is granted, the commission shall hold the rehearing and render a decision within 20 days from the filing of the application for rehearing with the secretary of the commission. The time for holding such rehearing and rendering a decision may be extended for a period not to exceed 30 days, for good cause shown, and by notice in writing to all parties of interest. No action for the judicial review of any decision of said commission shall be allowed unless the party commencing such action has first filed an application for a rehearing and the commission has acted upon said application. Only one rehearing may be granted by the commission on application of any one party.

235 ILCS 5/7-11 — Judicial review

Sec. 7-11. Judicial review. All final administrative decisions of the State Commission under this Act shall be subject to judicial review pursuant to the provisions of the Administrative Review Law and the rules adopted pursuant thereto. Judicial review may be requested by any party in interest, including but not limited to the local liquor control commissioner. The term "administrative decision" is defined as in Section 3-101 of the Code of Civil Procedure.

235 ILCS 5/7-12

Sec. 7-12. Whenever any licensee shall have been convicted by any court of a wilful violation of any of the provisions of this Act, he shall, in addition to the penalties for such offense, incur a forfeiture of his state and local license and all moneys that have been paid therefor; the local commission shall thereupon revoke his license or the State commission shall revoke his license as the case may be.

235 ILCS 5/7-13 — Granting licenses after revocation; waiting period; discretion

Sec. 7-13. Granting licenses after revocation; waiting period; discretion. When any license shall have been revoked for any cause, no license shall be granted to any person for the period of one year thereafter for the conduct of the business of manufacturing, distributing, or selling alcoholic liquor in the premises described in the revoked license unless the revocation order has been vacated or unless the revocation order was entered as to the licensee only. Nothing in this Section shall prohibit the issuance of a retail license authorizing the sale of alcoholic liquor incidental to a restaurant if

- (1) the primary business of the restaurant consists of the sale of food where the sale of liquor is incidental to the sale of food and the applicant is a completely new owner of the restaurant,
- (2) the immediately prior owner or operator of the premises where the restaurant is located operated the premises as a restaurant and held a valid retail license authorizing the sale of alcoholic liquor at the restaurant for at least part of the 24 months before the change of ownership, and
- (3) the restaurant is located 75 or more feet from a school.

235 ILCS 5/7-14 — Separate license for each premise; transfer to other premises

Sec. 7-14. Separate license for each premise; transfer to other premises. Licenses issued hereunder apply only to the premises described in the application and in the license issued thereon, and only one location shall be so described in each license. After a license has been granted for particular premises, the State Commission or the local commissioner, as the case may be, upon proper showing, may endorse upon said license permission to abandon the premises therein described and remove therefrom to other premises approved by him or it, but in order to obtain such approval the licensee shall file with the State Commission and local commissioner a request in writing and a statement under oath which shall show that the premises to which removal is to be made comply in all respects with the requirements of this Act. A transfer may only be requested to a premise within the same jurisdiction that issued the original local liquor license.

235 ILCS 5/7A-1

- (1) The name of the applicant;
- (2) the address of his warehouse (if he operates more than one such warehouse, he shall state the address of each such warehouse). Upon the receipt of the application in proper form, the Department shall issue to such applicant a certificate of registration bearing a distinctive number which he shall conspicuously display on the premises for which it is issued. The applications shall be made on forms prepared and furnished by the Department and shall contain such other information as the Department may reasonably require to carry out the provisions of this Act.

235 ILCS 5/7A-3

Sec. 7A-3. It shall be unlawful for any person to store any alcoholic liquors with or deliver any alcoholic liquors to any warehouseman who has not received a certificate of registration from the Department.

The name of the warehouseman and the number of his certificate of registration; 2. The address of the warehouse; 3. The name and address of each person from whom any alcoholic liquors were actually or constructively received by him as a warehouseman, the date on which same were so received, the number and size of the containers in which any alcoholic liquors were so received, and the number and size of the containers to the credit of each such person at the end of the preceding calendar month; and 4. Such records shall, at all times during business hours of the day, be subject to inspection by the Department or its duly authorized agents and employees. Such records shall be preserved for a period of two

- (2) years, unless the Department, in writing, authorizes their destruction or disposal at an earlier date. Such records, reflecting business done at any time after July 1, 1945, shall be preserved for a period of three

(3) years, unless the Department, in writing, authorizes their destruction or disposal at an earlier date.

235 ILCS 5/7A-6

235 ILCS 5/8-1

Sec. 8-1. A tax is imposed upon the privilege of engaging in business as a manufacturer or as an importing distributor of alcoholic liquor other than beer at the rate of \$0.185 per gallon until September 1, 2009 and \$0.231 per gallon beginning September 1, 2009 for cider containing not less than 0.5% alcohol by volume nor more than 7% alcohol by volume, \$0.73 per gallon until September 1, 2009 and \$1.39 per gallon beginning September 1, 2009 for wine other than cider containing less than 7% alcohol by volume, and \$4.50 per gallon until September 1, 2009 and \$8.55 per gallon beginning September 1, 2009 on alcohol and spirits manufactured and sold or used by such manufacturer, or as agent for any other person, or sold or used by such importing distributor, or as agent for any other person. A tax is imposed upon the privilege of engaging in business as a manufacturer of beer or as an importing distributor of beer at the rate of \$0.185 per gallon until September 1, 2009 and \$0.231 per gallon beginning September 1, 2009 on all beer, regardless of alcohol by volume, manufactured and sold or used by such manufacturer, or as agent for any other person, or sold or used by such importing distributor, or as agent for any other person. Any brewer manufacturing beer in this State shall be entitled to and given a credit or refund of 75% of the tax imposed on each gallon of beer up to 4.9 million gallons per year in any given calendar year for tax paid or payable on beer produced and sold in the State of Illinois. For purposes of this Section, "beer" means beer, ale, porter, stout, and other similar fermented beverages of any name or description containing one-half of one percent or more of alcohol by volume, brewed or produced from malt, wholly or in part, or from any substitute for malt. For the purpose of this Section, "cider" means any alcoholic beverage obtained by the alcohol fermentation of the juice of apples or pears including, but not limited to, flavored, sparkling, or carbonated cider. The credit or refund created by this Act shall apply to all beer taxes in the calendar years 1982 through 1986. The increases made by this amendatory Act of the 91st General Assembly in the rates of taxes imposed under this Section shall apply beginning on July 1, 1999. A tax at the rate of 1¢ per gallon on beer and 48¢ per gallon on alcohol and spirits is also imposed upon the privilege of engaging in business as a retailer or as a distributor who is not also an importing distributor with respect to all beer and all alcohol and spirits owned or possessed by such retailer or distributor when this amendatory Act of 1969 becomes effective, and with respect to which the additional tax imposed by this amendatory Act upon manufacturers and importing distributors does not apply. Retailers and distributors who are subject to the additional tax imposed by this paragraph of this Section shall be required to inventory such alcoholic liquor and to pay this additional tax in a manner prescribed by the Department. The provisions of this Section shall be construed to apply to any importing distributor engaging in business in this State, whether licensed or not. However, such tax is not imposed upon any such business as to any alcoholic liquor shipped outside Illinois by an Illinois licensed manufacturer or importing distributor, nor as to any alcoholic liquor delivered in Illinois by an Illinois licensed manufacturer or importing distributor to a purchaser for immediate transportation by the purchaser to another state into which the purchaser has a legal right, under the laws of such state, to import such alcoholic liquor, nor as to any alcoholic liquor other than beer sold by one Illinois licensed manufacturer or importing distributor to another Illinois licensed manufacturer or importing distributor to the extent to which the sale of alcoholic liquor other than beer by one Illinois licensed manufacturer or importing distributor to another Illinois licensed manufacturer or importing distributor is authorized by the licensing provisions of this Act, nor to alcoholic liquor whether manufactured in or imported into this State when sold to a "non-beverage user" licensed by the State for use in the manufacture of any of the following when they are unfit for beverage purposes: Patent and proprietary medicines and medicinal, antiseptic, culinary and toilet preparations; Flavoring extracts and syrups and food products; Scientific, industrial and chemical products, excepting denatured alcohol; Or for scientific, chemical, experimental or mechanical purposes; Nor is the tax imposed upon the privilege of engaging in any business in interstate commerce or otherwise, which business may not, under the Constitution and Statutes of the United States, be made the subject of taxation by this State. The tax herein imposed shall be in addition to all other occupation or privilege taxes imposed by the State of Illinois or political subdivision thereof. If any alcoholic liquor manufactured in or imported into this State is sold to a licensed manufacturer or importing distributor by a licensed manufacturer or importing distributor to be used solely as an ingredient in the manufacture of any beverage for human consumption, the tax imposed upon such purchasing manufacturer or importing distributor shall be reduced by the amount of the taxes which have been paid by the selling manufacturer or

importing distributor under this Act as to such alcoholic liquor so used to the Department of Revenue. If any person received any alcoholic liquors from a manufacturer or importing distributor, with respect to which alcoholic liquors no tax is imposed under this Article, and such alcoholic liquor shall thereafter be disposed of in such manner or under such circumstances as may cause the same to become the base for the tax imposed by this Article, such person shall make the same reports and returns, pay the same taxes and be subject to all other provisions of this Article relating to manufacturers and importing distributors. Nothing in this Article shall be construed to require the payment to the Department of the taxes imposed by this Article more than once with respect to any quantity of alcoholic liquor sold or used within this State. No tax is imposed by this Act on sales of alcoholic liquor by Illinois licensed foreign importers to Illinois licensed importing distributors. Before July 1, 2025, all of the proceeds of the additional tax imposed by Public Act 96-34 shall be deposited by the Department into the Capital Projects Fund. The remainder of the tax imposed by this Act shall be deposited by the Department into the General Revenue Fund. On and after July 1, 2025, the proceeds from the tax imposed by this Act shall be deposited as follows:

(1) 43% into the Capital Projects Fund; and

(2) 57% into the General Revenue Fund. A manufacturer of beer that imports or transfers beer into this State must comply with the provisions of this Section with regard to the beer imported into this State. The provisions of this Section 8-1 are severable under Section 1.31 of the Statute on Statutes.

235 ILCS 5/8-2 — Payments; reports

Sec. 8-2. Payments; reports. It is the duty of each manufacturer with respect to alcoholic liquor produced or imported by such manufacturer, or purchased tax-free by such manufacturer from another manufacturer or importing distributor, and of each importing distributor as to alcoholic liquor purchased by such importing distributor from foreign importers or from anyone from any point in the United States outside of this State or purchased tax-free from another manufacturer or importing distributor, to pay the tax imposed by Section 8-1 to the Department of Revenue on or before the 15th day of the calendar month following the calendar month in which such alcoholic liquor is sold or used by such manufacturer or by such importing distributor other than in an authorized tax-free manner or to pay that tax electronically as provided in this Section. Each manufacturer and each importing distributor shall make payment under one of the following methods:

(1) on or before the 15th day of each calendar month, file in person or by United States first-class mail, postage pre-paid, with the Department of Revenue, on forms prescribed and furnished by the Department, a report in writing in such form as may be required by the Department in order to compute, and assure the accuracy of, the tax due on all taxable sales and uses of alcoholic liquor occurring during the preceding month. Payment of the tax in the amount disclosed by the report shall accompany the report or,

(2) on or before the 15th day of each calendar month, electronically file with the Department of Revenue, on forms prescribed and furnished by the Department, an electronic report in such form as may be required by the Department in order to compute, and assure the accuracy of, the tax due on all taxable sales and uses of alcoholic liquor occurring during the preceding month. An electronic payment of the tax in the amount disclosed by the report shall accompany the report. A manufacturer or distributor who files an electronic report and electronically pays the tax imposed pursuant to Section 8-1 to the Department of Revenue on or before the 15th day of the calendar month following the calendar month in which such alcoholic liquor is sold or used by that manufacturer or importing distributor other than in an authorized tax-free manner shall pay to the Department the amount of the tax imposed pursuant to Section 8-1, less a discount which is allowed to reimburse the manufacturer or importing distributor for the expenses incurred in keeping and maintaining records, preparing and filing the electronic returns, remitting the tax, and supplying data to the Department upon request. The discount shall be in an amount as follows:

(1) For original returns due on or after January 1, 2003 through September 30, 2003, the discount shall be 1.75% or \$1,250 per return, whichever is less;

(2) For original returns due on or after October 1, 2003 through September 30, 2004, the discount shall be 2% or \$3,000 per return, whichever is less; and

(3) For original returns due on or after October 1, 2004, the discount shall be 2% or \$2,000 per return, whichever is less. The Department may, if it deems it necessary in order to insure the payment of the tax imposed by this Article, require returns to be made more frequently than and covering periods of less than a month. Such return shall contain such further information as the Department may reasonably require. It shall be presumed that all alcoholic liquors acquired or made by any importing distributor or manufacturer have been sold or used by him in this State and are the basis for the tax

imposed by this Article unless proven, to the satisfaction of the Department, that such alcoholic liquors are

(1) still in the possession of such importing distributor or manufacturer, or

(2) prior to the termination of possession have been lost by theft or through unintentional destruction, or

(3) that such alcoholic liquors are otherwise exempt from taxation under this Act. If any payment provided for in this Section exceeds the manufacturer's or importing distributor's liabilities under this Act, as shown on an original report, the manufacturer or importing distributor may credit such excess payment against liability subsequently to be remitted to the Department under this Act, in accordance with reasonable rules adopted by the Department. If the Department subsequently determines that all or any part of the credit taken was not actually due to the manufacturer or importing distributor, the manufacturer's or importing distributor's discount shall be reduced by an amount equal to the difference between the discount as applied to the credit taken and that actually due, and the manufacturer or importing distributor shall be liable for penalties and interest on such difference. The Department may require any foreign importer to file monthly information returns, by the 15th day of the month following the month which any such return covers, if the Department determines this to be necessary to the proper performance of the Department's functions and duties under this Act. Such return shall contain such information as the Department may reasonably require. Every manufacturer and importing distributor, except for a manufacturer or importing distributor that in the preceding year had less than \$50,000 of tax liability under this Article, shall also file, with the Department, a bond in an amount not less than \$1,000 and not to exceed \$100,000 on a form to be approved by, and with a surety or sureties satisfactory to, the Department. Such bond shall be conditioned upon the manufacturer or importing distributor paying to the Department all monies becoming due from such manufacturer or importing distributor under this Article. The Department shall fix the penalty of such bond in each case, taking into consideration the amount of alcoholic liquor expected to be sold and used by such manufacturer or importing distributor, and the penalty fixed by the Department shall be sufficient, in the Department's opinion, to protect the State of Illinois against failure to pay any amount due under this Article, but the amount of the penalty fixed by the Department shall not exceed twice the amount of tax liability of a monthly return, nor shall the amount of such penalty be less than \$1,000. The Department shall notify the State Commission of the Department's approval or disapproval of any such manufacturer's or importing distributor's bond, or of the termination or cancellation of any such bond, or of the Department's direction to a manufacturer or importing distributor that he must file additional bond in order to comply with this Section. The Commission shall not issue a license to any applicant for a manufacturer's or importing distributor's license unless the Commission has received a notification from the Department showing that such applicant has filed a satisfactory bond with the Department hereunder and that such bond has been approved by the Department. Failure by any licensed manufacturer or importing distributor to keep a satisfactory bond in effect with the Department or to furnish additional bond to the Department, when required hereunder by the Department to do so, shall be grounds for the revocation or suspension of such manufacturer's or importing distributor's license by the Commission. If a manufacturer or importing distributor fails to pay any amount due under this Article, his bond with the Department shall be deemed forfeited, and the Department may institute a suit in its own name on such bond. After notice and opportunity for a hearing the State Commission may revoke or suspend the license of any manufacturer or importing distributor who fails to comply with the provisions of this Section. Notice of such hearing and the time and place thereof shall be in writing and shall contain a statement of the charges against the licensee. Such notice may be given by United States registered or certified mail with return receipt requested, addressed to the person concerned at his last known address and shall be given not less than 7 days prior to the date fixed for the hearing. An order revoking or suspending a license under the provisions of this Section may be reviewed in the manner provided in Section 7-10 of this Act. No new license shall be granted to a person whose license has been revoked for a violation of this Section or, in case of suspension, shall such suspension be terminated until he has paid to the Department all taxes and penalties which he owes the State under the provisions of this Act. Every manufacturer or importing distributor who has, as verified by the Department, continuously complied with the conditions of the bond under this Act for a period of 2 years shall be considered to be a prior continuous compliance taxpayer. In determining the consecutive period of time for qualification as a prior continuous compliance taxpayer, any consecutive period of time of qualifying compliance immediately prior to the effective date of this amendatory Act of 1987 shall be credited to any manufacturer or importing distributor. A manufacturer or importing distributor that is a prior continuous compliance taxpayer under this Section and becomes a successor as the result of an acquisition, merger, or consolidation of a manufacturer or importing distributor shall be deemed to be a prior continuous compliance taxpayer with respect to the acquired, merged, or consolidated entity. Every prior continuous compliance taxpayer shall be exempt from the bond requirements of this Act until the Department has determined the taxpayer to be delinquent in the filing of any return or deficient in the payment of any tax under this Act. Any taxpayer who fails to pay an admitted or established

liability under this Act may also be required to post bond or other acceptable security with the Department guaranteeing the payment of such admitted or established liability. The Department shall discharge any surety and shall release and return any bond or security deposit assigned, pledged or otherwise provided to it by a taxpayer under this Section within 30 days after:

(1) such taxpayer becomes a prior continuous compliance taxpayer; or

(2) such taxpayer has ceased to collect receipts on which he is required to remit tax to the Department, has filed a final tax return, and has paid to the Department an amount sufficient to discharge his remaining tax liability as determined by the Department under this Act. (Text of Section after amendment by P.A. 104-451) Sec. 8-2. Payments; reports. It is the duty of each manufacturer with respect to alcoholic liquor produced or imported by such manufacturer, or purchased tax-free by such manufacturer from another manufacturer or importing distributor, and of each importing distributor as to alcoholic liquor purchased by such importing distributor from foreign importers or from anyone from any point in the United States outside of this State or purchased tax-free from another manufacturer or importing distributor, to pay the tax imposed by Section 8-1 to the Department of Revenue on or before the 15th day of the calendar month following the calendar month in which such alcoholic liquor is sold or used by such manufacturer or by such importing distributor other than in an authorized tax-free manner or to pay that tax electronically as provided in this Section. Each manufacturer and each importing distributor shall make payment under one of the following methods:

(1) on or before the 15th day of each calendar month, file in person or by United States first-class mail, postage pre-paid, with the Department of Revenue, on forms prescribed and furnished by the Department, a report in writing in such form as may be required by the Department in order to compute, and assure the accuracy of, the tax due on all taxable sales and uses of alcoholic liquor occurring during the preceding month. Payment of the tax in the amount disclosed by the report shall accompany the report or,

(2) on or before the 15th day of each calendar month, electronically file with the Department of Revenue, on forms prescribed and furnished by the Department, an electronic report in such form as may be required by the Department in order to compute, and assure the accuracy of, the tax due on all taxable sales and uses of alcoholic liquor occurring during the preceding month. An electronic payment of the tax in the amount disclosed by the report shall accompany the report. A manufacturer or distributor who files an electronic report and electronically pays the tax imposed pursuant to Section 8-1 to the Department of Revenue on or before the 15th day of the calendar month following the calendar month in which such alcoholic liquor is sold or used by that manufacturer or importing distributor other than in an authorized tax-free manner shall pay to the Department the amount of the tax imposed pursuant to Section 8-1, less a discount which is allowed to reimburse the manufacturer or importing distributor for the expenses incurred in keeping and maintaining records, preparing and filing the electronic returns, remitting the tax, and supplying data to the Department upon request. The discount shall be in an amount as follows:

(1) For original returns due on or after January 1, 2003 through September 30, 2003, the discount shall be 1.75% or \$1,250 per return, whichever is less;

(2) For original returns due on or after October 1, 2003 through September 30, 2004, the discount shall be 2% or \$3,000 per return, whichever is less; and

(3) For original returns due on or after October 1, 2004, the discount shall be 2% or \$2,000 per return, whichever is less. The Department may, if it deems it necessary in order to insure the payment of the tax imposed by this Article, require returns to be made more frequently than and covering periods of less than a month. Such return shall contain such further information as the Department may reasonably require. It shall be presumed that all alcoholic liquors acquired or made by any importing distributor or manufacturer have been sold or used by him in this State and are the basis for the tax imposed by this Article unless proven, to the satisfaction of the Department, that such alcoholic liquors are

(1) still in the possession of such importing distributor or manufacturer, or

(2) prior to the termination of possession have been lost by theft or through unintentional destruction, or

(3) that such alcoholic liquors are otherwise exempt from taxation under this Act. If any payment provided for in this Section exceeds the manufacturer's or importing distributor's liabilities under this Act, as shown on an original report, the manufacturer or importing distributor may credit such excess payment against liability subsequently to be remitted to the Department under this Act, in accordance with reasonable rules adopted by the Department. If the Department subsequently determines that all or any part of the credit taken was not actually due to the manufacturer or importing distributor, the manufacturer's or importing distributor's discount shall be reduced by an amount equal to the difference

between the discount as applied to the credit taken and that actually due, and the manufacturer or importing distributor shall be liable for penalties and interest on such difference. The Department may require any foreign importer to file monthly information returns, by the 15th day of the month following the month which any such return covers, if the Department determines this to be necessary to the proper performance of the Department's functions and duties under this Act. Such return shall contain such information as the Department may reasonably require. Every manufacturer and importing distributor, except for a manufacturer or importing distributor who is applying for a manufacturer's or importing distributor's license under this Act for the first time or a manufacturer or importing distributor who in the preceding year had less than \$50,000 of tax liability under this Article, shall also file, with the Department, a bond in an amount not less than \$1,000 and not to exceed \$100,000 on a form to be approved by, and with a surety or sureties satisfactory to, the Department. Such bond may be required as a condition to renew a license for subsequent annual license terms if a manufacturer or importing distributor exceeds \$50,000 in tax liability. Such bond shall be conditioned upon the manufacturer or importing distributor paying to the Department all monies becoming due from such manufacturer or importing distributor under this Article. The Department shall fix the penalty of such bond in each case, taking into consideration the amount of alcoholic liquor expected to be sold and used by such manufacturer or importing distributor, and the penalty fixed by the Department shall be sufficient, in the Department's opinion, to protect the State of Illinois against failure to pay any amount due under this Article, but the amount of the penalty fixed by the Department shall not exceed twice the amount of tax liability of a monthly return, nor shall the amount of such penalty be less than \$1,000. The Department shall notify the State Commission of the Department's approval or disapproval of any such manufacturer's or importing distributor's bond, or of the termination or cancellation of any such bond, or of the Department's direction to a manufacturer or importing distributor that he must file additional bond in order to comply with this Section. The State Commission shall not renew a license for any applicant for a manufacturer's or importing distributor's license if the State Commission has received a notification from the Department showing that such applicant is required to file and has not filed a satisfactory bond with the Department hereunder and that such bond has not been approved by the Department. Failure by any licensed manufacturer or importing distributor to keep a satisfactory bond in effect with the Department or to furnish additional bond to the Department, when required hereunder by the Department to do so, shall be grounds for the revocation or suspension of such manufacturer's or importing distributor's license by the Commission. If a manufacturer or importing distributor fails to pay any amount due under this Article, his bond with the Department shall be deemed forfeited, and the Department may institute a suit in its own name on such bond. After notice and opportunity for a hearing the State Commission may revoke or suspend the license of any manufacturer or importing distributor who fails to comply with the provisions of this Section. Notice of such hearing and the time and place thereof shall be in writing and shall contain a statement of the charges against the licensee. Such notice may be given by United States registered or certified mail with return receipt requested, addressed to the person concerned at his last known address and shall be given not less than 7 days prior to the date fixed for the hearing. An order revoking or suspending a license under the provisions of this Section may be reviewed in the manner provided in Section 7-10 of this Act. No new license shall be granted to a person whose license has been revoked for a violation of this Section or, in case of suspension, shall such suspension be terminated until he has paid to the Department all taxes and penalties which he owes the State under the provisions of this Act. Every manufacturer or importing distributor who has, as verified by the Department, continuously complied with the conditions of the bond under this Act for a period of 2 years shall be considered to be a prior continuous compliance taxpayer. In determining the consecutive period of time for qualification as a prior continuous compliance taxpayer, any consecutive period of time of qualifying compliance immediately prior to the effective date of this amendatory Act of 1987 shall be credited to any manufacturer or importing distributor. A manufacturer or importing distributor that is a prior continuous compliance taxpayer under this Section and becomes a successor as the result of an acquisition, merger, or consolidation of a manufacturer or importing distributor shall be deemed to be a prior continuous compliance taxpayer with respect to the acquired, merged, or consolidated entity. Every prior continuous compliance taxpayer shall be exempt from the bond requirements of this Act until the Department has determined the taxpayer to be delinquent in the filing of any return or deficient in the payment of any tax under this Act. Any taxpayer who fails to pay an admitted or established liability under this Act may also be required to post bond or other acceptable security with the Department guaranteeing the payment of such admitted or established liability. The Department shall discharge any surety and shall release and return any bond or security deposit assigned, pledged or otherwise provided to it by a taxpayer under this Section within 30 days after:

(1) such taxpayer becomes a prior continuous compliance taxpayer; or

(2) such taxpayer has ceased to collect receipts on which he is required to remit tax to the Department, has filed a final tax return, and has paid to the Department an amount sufficient to discharge his remaining tax liability as determined by the Department under this Act.

235 ILCS 5/8-3

Sec. 8-3. If it appears, after claim therefor filed with the Department, that an amount of tax or penalty or interest has been paid which was not due under this Article, whether as the result of a mistake of fact or an error of law, except as hereinafter provided, then the Department shall issue a credit memorandum or refund to the person who made the erroneous payment or, if that person died or became a person under legal disability, to his or her legal representative, as such. If it is determined that the Department should issue a credit or refund under this Article, the Department may first apply the amount thereof against any amount of tax or penalty or interest due hereunder from the person entitled to such credit or refund. For this purpose, if proceedings are pending to determine whether or not any tax or penalty or interest is due under this Article from such person, the Department may withhold issuance of the credit or refund pending the final disposition of such proceedings and may apply such credit or refund against any amount found to be due to the Department as a result of such proceedings. The balance, if any, of the credit or refund shall be issued to the person entitled thereto. If no tax or penalty or interest is due and no proceeding is pending to determine whether such taxpayer is indebted to the Department for tax or penalty or interest the credit memorandum or refund shall be issued to the claimant; or (in the case of a credit memorandum) the credit memorandum may be assigned and set over by the lawful holder thereof, subject to reasonable rules of the Department, to any other person who is subject to this Article, and the amount thereof shall be applied by the Department against any tax or penalty or interest due or to become due under this Article from such assignee. As to any claim filed hereunder with the Department on and after each January 1 and July 1, no amount of tax or penalty or interest, erroneously paid (either in total or partial liquidation of a tax or penalty or interest under this Article) more than 3 years prior to such January 1 and July 1, respectively, shall be credited or refunded. Notwithstanding any other provision of this Act to the contrary, for any period included in a claim for credit or refund for which the statute of limitations for issuing a notice of tax liability under this Act will expire less than 6 months after the date a taxpayer files the claim for credit or refund, the statute of limitations is automatically extended for 6 months from the date it would have otherwise expired. Any credit or refund that is allowed under this Act shall bear interest at the rate and in the manner specified in the Uniform Penalty and Interest Act. In case the Department determines that the claimant is entitled to a refund, such refund shall be made only from such appropriation as may be available for that purpose. If it appears unlikely that the amount appropriated would permit everyone having a claim allowed during the period covered by such appropriation to elect to receive a cash refund, the Department, by rule or regulation, shall provide for the payment of refunds in hardship cases and shall define what types of cases qualify as hardship cases.

235 ILCS 5/8-4

Sec. 8-4. If a person fails to file a return as required by this Article, or having filed an incorrect or insufficient return, fails to file a corrected or sufficient return, as the case may require, within 10 days after the giving of notice to him by the Department that such corrected or sufficient return is required, the Department shall determine the amount of tax due at any time within 3 years after the making of the earliest disposition of alcoholic liquor included in such determination, and shall give written notice, by means of a notice of tax liability, of such determination to such person. Protest thereto and demand for a hearing may be made and final assessments arrived at in accordance with Section 8-5.

235 ILCS 5/8-5

Sec. 8-5. As soon as practicable after any return is filed, the Department shall examine such return or amended return and shall correct such return according to its best judgment and information, which return so corrected by the Department shall be prima facie correct and shall be prima facie evidence of the correctness of the amount of tax due, as shown therein. Instead of requiring the licensee to file an amended return, the Department may simply notify the licensee of the correction or corrections it has made. Proof of such correction by the Department, or of the determination of the amount of tax due as provided in Sections 8-4 and 8-10, may be made at any hearing before the Department or in any legal proceeding by a reproduced copy of the Department's record relating thereto in the name of the Department under the certificate of the Director of Revenue. Such reproduced copy shall, without further proof, be admitted into evidence before the Department or in any legal proceeding and shall be prima facie proof of the correctness of the amount of tax due, as shown therein. If the return so corrected by the Department discloses the sale or use, by a licensed manufacturer or importing distributor, of alcoholic liquors as to which the tax provided for in this Article should have been paid, but has not

been paid, in excess of the alcoholic liquors reported as being taxable by the licensee, and as to which the proper tax was paid the Department shall notify the licensee that it shall issue the taxpayer a notice of tax liability for the amount of tax claimed by the Department to be due, together with penalties at the rates prescribed by Sections 3-3, 3-5 and 3-6 of the Uniform Penalty and Interest Act, which amount of tax shall be equivalent to the amount of tax which, at the prescribed rate per gallon, should have been paid with respect to the alcoholic liquors disposed of in excess of those reported as being taxable. No earlier than 90 days after the due date of the return, the Department may compare filed returns, or any amendments thereto, against reports of sales of alcoholic liquor submitted to the Department by other manufacturers and distributors. If a return or amended return is corrected by the Department because the return or amended return failed to disclose the purchase of alcoholic liquor from manufacturers or distributors on which the tax provided for in this Article should have been paid, but has not been paid, the Department shall issue the taxpayer a notice of tax liability for the amount of tax claimed by the Department to be due, together with penalties at the rates prescribed by Sections 3-3, 3-5, and 3-6 of the Uniform Penalty and Interest Act. In a case where no return has been filed, the Department shall determine the amount of tax due according to its best judgment and information and shall issue the taxpayer a notice of tax liability for the amount of tax claimed by the Department to be due as herein provided together with penalties at the rates prescribed by Sections 3-3, 3-5 and 3-6 of the Uniform Penalty and Interest Act. If, in administering the provisions of this Act, a comparison of a licensee's return or returns with the books, records and physical inventories of such licensee discloses a deficiency which cannot be allocated by the Department to a particular month or months, the Department shall issue the taxpayer a notice of tax liability for the amount of tax claimed by the Department to be due for a given period, but without any obligation upon the Department to allocate such deficiency to any particular month or months, together with penalties at the rates prescribed by Sections 3-3, 3-5 and 3-6 of the Uniform Penalty and Interest Act, which amount of tax shall be equivalent to the amount of tax which, at the prescribed rate per gallon, should have been paid with respect to the alcoholic liquors disposed of in excess of those reported being taxable, with the tax thereon having been paid under which circumstances the aforesaid notice of tax liability shall be prima facie correct and shall be prima facie evidence of the correctness of the amount of tax due as shown therein; and proof of such correctness may be made in accordance with, and the admissibility of a reproduced copy of such notice of the Department's notice of tax liability shall be governed by, all the provisions of this Act applicable to corrected returns. If the licensee dies or becomes a person under legal disability at any time before the Department issues its notice of tax liability, such notice shall be issued to the administrator, executor or other legal representative, as such, of the deceased or licensee who is under legal disability. If such licensee or legal representative, within 60 days after such notice of tax liability, files a protest to such notice of tax liability and requests a hearing thereon, the Department shall give at least 7 days' notice to such licensee or legal representative, as the case may be, of the time and place fixed for such hearing and shall hold a hearing in conformity with the provisions of this Act, and pursuant thereto shall issue a final assessment to such licensee or legal representative for the amount found to be due as a result of such hearing. If a protest to the notice of tax liability and a request for a hearing thereon is not filed within 60 days after such notice of tax liability, such notice of tax liability shall become final without the necessity of a final assessment being issued and shall be deemed to be a final assessment. Notwithstanding any other provisions of this Act, any amount paid as tax or in respect of tax paid under this Act shall be deemed assessed upon the date of receipt of payment. In case of failure to pay the tax, or any portion thereof, or any penalty provided for herein, when due, the Department may recover the amount of such tax, or portion thereof, or penalty in a civil action; or if the licensee dies or becomes a person under legal disability, by filing a claim therefor against his or her estate; provided that no such claim shall be filed against the estate of any deceased or of the licensee who is under legal disability for any tax or penalty or portion thereof except in the manner prescribed and within the time limited by the Probate Act of 1975, as amended. The collection of any such tax and penalty, or either, by any means provided for herein, shall not be a bar to any prosecution under this Act. In addition to any other penalty provided for in this Article, all provisions of the Uniform Penalty and Interest Act that are not inconsistent with this Act apply.

235 ILCS 5/8-6

Sec. 8-6. The Department, or any officer or employee designated in writing by the Director thereof, for the purpose of administering and enforcing the provisions of this Act, may hold investigations and hearings concerning any matters covered by this Act. In holding or conducting any hearing or investigation authorized under this Act, the Department or any officer or employee of the Department designated, in writing, by the Director thereof, may examine any books, papers, records or memoranda bearing upon the manufacture, importation, sale or use of alcoholic liquors by any licensee, and may require the attendance of such licensee or of any officer, agent or employee of such licensee, or of any person having knowledge of such facts, and may take testimony and require proof for its information. In the conduct of

any investigation or hearing, neither the Department nor any officer or employee thereof shall be bound by the technical rules of evidence, and no informality in any proceeding, or in the manner of taking testimony, shall invalidate any assessment, order, decision, rule or regulation made or approved or confirmed by the Department. The Director of Revenue or any duly designated officer or employee of the Department shall have power to administer oaths to such persons; and the Department shall have the power to issue subpoenas and subpoenas duces tecum, and the Department, or any other party to a proceeding pending before the Department, may apply to the circuit court to compel the attendance and testimony of witnesses and the production of books, papers, records and memoranda, by an attachment for contempt as provided for such purposes in civil cases. The Department or any officer or employee thereof, or any party in an investigation or hearing before the Department, may cause the depositions of witnesses within the State to be taken in the manner prescribed by law for like depositions in civil actions in courts of this State, and to that end compel the attendance of witnesses and the production of books, papers, records and memoranda. The books, papers, records and memoranda of the Department, or parts thereof, may be proved in any hearing, investigation or judicial proceeding by a reproduced copy thereof under the certificate of the Director of Revenue. Such reproduced copy shall, without further proof, be admitted into evidence before the Department or in any judicial proceeding.

235 ILCS 5/8-7

Sec. 8-7. All hearings provided for in Section 8-5 of this Act shall be held in the county wherein the licensee has his principal place of business; provided, that if the licensee does not have his or her principal place of business in this State, such hearing shall be held in Sangamon County. The Circuit Court of the county wherein any hearing is held by the Department shall have power to review all final administrative decisions of the Department in administering the provisions of this Act. If the administrative proceeding which is to be reviewed judicially is a claim for refund proceeding commenced in accordance with Section 8-3 of this Act and Section 2a of "An Act in relation to the payment and disposition of moneys received by officers and employees of the State of Illinois by virtue of their office or employment", approved June 9, 1911, as amended, the Circuit Court having jurisdiction of the proceeding for judicial review under this Section and under the Administrative Review Law, as amended, shall be the same court that entered the injunction which is provided for in Section 2a of "An Act in relation to the payment and disposition of moneys received by officers and employees of the State of Illinois by virtue of their office or employment", and which enables such claim proceeding to be processed and disposed of as a claim for refund proceeding rather than as a claim for credit proceeding. The provisions of the Administrative Review Law, and all amendments and modifications thereof, and the rules adopted pursuant thereto, shall apply to and govern all proceedings for the judicial review of final administrative decisions of the Department hereunder. The term "administrative decision" is defined as in Section 3-101 of the Code of Civil Procedure. Service of summons issued in such review proceeding upon the Director of Revenue or the Assistant Director of Revenue of the Department of Revenue shall be service upon the Department. The Department shall certify the record of its proceedings if the licensee shall pay to it the sum of 75¢ per page of testimony taken before the Department and 25¢ per page of all other matters contained in such record, except that these charges may be waived where the Department is satisfied that the aggrieved party is a poor person who cannot afford to pay such charges. Provided, however, before the delivery of such record to the person applying for same, the payment therefor shall be made as hereinabove provided, and in the event of nonpayment for the record as hereinabove provided within 30 days after notice that such record is available, the complaint may be dismissed by the court upon motion of the Department. No stay order shall be entered by the Circuit Court unless the plaintiff in the review proceedings shall file with the court a bond in an amount fixed and approved by the court to indemnify the State against all loss and injury which may be sustained by it on account of the review proceedings and to secure all costs which may be occasioned by such proceedings. Whenever notice is required by this Act, such notice may be given by United States registered or certified mail with return receipt requested, addressed to the person concerned at his or her last known address, and proof of such mailing shall be sufficient for the purposes of this Act. Whenever any proceeding provided by this Act is commenced before the Department, either by the Department or by a person subject to this Act, and such person thereafter dies or becomes a person under legal disability before such proceeding is concluded, the legal representative of the deceased or the guardian of the person under legal disability shall notify the Department of such death or legal disability. The legal representative, as such, shall then be substituted by the Department for such person. If the legal representative fails to notify the Department of his or her appointment as such legal representative, the Department may, upon its own motion, substitute such legal representative in the proceeding pending before the Department for the person who died or became a person under legal disability.

235 ILCS 5/8-8

Sec. 8-8. No person shall be excused from testifying or from producing any books, papers, records or memoranda in any investigation or upon any hearing, when ordered to do so by the Department or any officer or employee thereof, upon the ground that the testimony or evidence, documentary or otherwise, may tend to incriminate him or subject him to a criminal penalty, but no person shall be prosecuted or subjected to any criminal penalty for, or on account of, any transaction made or thing concerning which he may testify or produce evidence, documentary or otherwise, before the Department or an officer or employee thereof; provided, that such immunity shall extend only to a natural person who, in obedience to a subpoena, gives testimony under oath or produces evidence, documentary or otherwise, under oath. No person so testifying shall be exempt from prosecution and punishment for perjury committed in so testifying.

235 ILCS 5/8-9 — Tax information; confidentiality

Sec. 8-9. Tax information; confidentiality. All information received by the Department from returns filed under this Act, or from any investigation conducted under this Act, shall be confidential, except for official purposes, and any person who divulges any such information in any manner, except in accordance with a proper judicial order or as otherwise provided by law, shall be guilty of a Class B misdemeanor. Nothing in this Act prevents the Director of Revenue from publishing or making available to the public the names and addresses of persons filing returns under this Act, or reasonable statistics concerning the operation of the tax by grouping the contents of returns so that the information in any individual return is not disclosed. Nothing in this Act prevents the Director of Revenue from divulging to the United States Government or the government of any other state, or any officer or agency thereof, for exclusively official purposes, information received by the Department in administering this Act, provided that such other governmental agency agrees to divulge requested tax information to the Department. The furnishing upon request of information obtained by the Department from returns filed under this Act or investigations conducted under this Act to the Illinois Liquor Control Commission for official use is deemed to be an official purpose within the meaning of this Section. The furnishing upon request of the Auditor General, or his authorized agents, for official use, of returns filed and information related thereto under this Act is deemed to be an official purpose within the meaning of this Section. The furnishing of financial information to a home rule unit with a population in excess of 2,000,000 that has imposed a tax similar to that imposed by this Act under its home rule powers, upon request of the Chief Executive of the home rule unit, is an official purpose within the meaning of this Section, provided the home rule unit agrees in writing to the requirements of this Section. Information so provided is subject to all confidentiality provisions of this Section. The written agreement shall provide for reciprocity, limitations on access, disclosure, and procedures for requesting information. Nothing contained in this Act shall prevent the Director from divulging information to any person pursuant to a request or authorization made by the taxpayer or by an authorized representative of the taxpayer.

235 ILCS 5/8-10

Sec. 8-10. It is the duty of each manufacturer, importing distributor and foreign importer to keep, at his licensed address or place of business, complete and accurate records of all sales or other dispositions of alcoholic liquor, and complete and accurate records of all alcoholic liquor produced, manufactured, compounded or imported, whether for himself or for another, together with a physical inventory made as of the close of each period for which a return is required, covering all alcoholic liquors on hand. However, the Department of Revenue may grant an importing distributor a waiver to permit such records to be kept at a central business location within the State upon written request by the importing distributor. The central business location shall be located at a licensed importing distributor's premises. The Department of Revenue may in its discretion prescribe reasonable and uniform methods for keeping such records by manufacturers and importing distributors and foreign importers. In case of failure by manufacturers and importing distributors to keep such records or to make them available to the Department on demand, the Department shall determine the amount of tax due according to its best judgment and information, which amount so determined by the Department shall be prima facie correct, and the Department's notice of tax liability shall be given, and protest thereto and demand for a hearing may be made and final assessments arrived at, in accordance with the provisions of Section 8-5 hereof. It is the duty of each manufacturer, importing distributor and foreign importer, who imports alcoholic liquor into the State, and each non-resident dealer who ships alcoholic liquor into the State, to mail to the Department one duplicate invoice, together with a bill of lading, covering such shipment and stating the quantity and, except in the case of alcoholic liquor imported in bulk to be bottled by an authorized licensee in this State using his own label and brand, the invoice shall also state the brand, labels and size of containers. It is the duty of each manufacturer, importing distributor and foreign importer, who imports spirits into the State, and each non-resident dealer who ships spirits into the State, to mail to the State Commission monthly a report containing a compilation of the information required to be furnished to the Department by the preceding paragraph, except

that information concerning spirits imported in bulk need not be included. The report shall include all information mailed to the Department during the preceding month. All books and records, which manufacturers, importing distributors, non-resident dealers and foreign importers are required by this Section to keep, shall be preserved for a period of 3 years, unless the Department, in writing, authorizes their destruction or disposal at an earlier date.

235 ILCS 5/8-10.5 — Beer production quantity reporting

Sec. 8-10.5. Beer production quantity reporting.

(a) As used in this Section: "Directly" means that a licensed distributor was not used in the transaction. "Final packaging container" means the last vessel in which beer is held before

(i) consumption by an individual on the brewer's licensed premises; (ii) being placed in a keg, bottle, or can for consumption by an individual; or (iii) being removed for additional fermentation and aging in a cask or barrel.

(b) A brewer who is a class 1 brewer, class 2 brewer, class 3 brewer, or brew pub licensee shall accurately measure the quantity of beer transferred into its final packaging container to determine the brewer's tax liability by converting beer production into the amount of beer sold and to ensure compliance with any production or self-distribution quantity limitations under this Act applicable to the class 1 brewer, class 2 brewer, class 3 brewer, or brew pub. The measurement shall comply with 27 CFR 25.41 and 27 CFR 25.42. Any brewer subject to this Section shall file, on the same date as the brewer files similar reports with the U.S. Department of the Treasury's Tobacco and Alcohol Tax and Trade Bureau, with the Department and State Commission a report of their use of water along with their "Brewer's Report of Operations" filed with the U.S. Department of Treasury's Alcohol and Tobacco Tax and Trade Bureau and shall maintain and produce for examination and inspection by the Department and the State Commission utility bills for water for 3 years along with their "Brewer's Report of Operations" filed with the U.S. Department of Treasury's Alcohol and Tobacco Tax and Trade Bureau. The Department, in cooperation with the State Commission, may audit on an annual basis the amount a class 1 brewer, class 2 brewer, class 3 brewer, or brew pub licensee produces to determine compliance with this Act.

(c) A brewer's failure to comply with this Section shall result in the State Commission issuing a fine or suspending or revoking the brewer's license.

235 ILCS 5/8-11

Sec. 8-11. Every person licensed as a non-beverage user hereunder shall keep books and records which shall be available to investigators and/or auditors of the Department during regular business hours, and shall retain such books and records at his place of business in Illinois for a period of not less than three years. Such books and records shall be so kept as correctly to disclose:

(a) the quantity and kind of alcoholic liquors received, showing the name and address of the party from whom received and the permit number on which purchased;

(b) the quantity and kind of alcoholic liquors used;

(c) the quantity and kind of alcoholic liquors on hand at the close of each business day; and

(d) the names of products or purposes for which alcoholic liquors are used. No non-beverage user shall sell, give away or otherwise dispose of any alcoholic liquor purchased under his license as such non-beverage user, in any form fit for beverage purposes. Any non-beverage user who shall violate the provisions of this section shall pay as a penalty to the Department of Revenue, the sum of \$1.50 for each gallon of alcoholic liquor so diverted, and in addition thereto shall be subject to the penalties provided in Section 10-1 of this Act.

235 ILCS 5/9-1

Sec. 9-1. The words and phrases defined in this section and used in this Article, unless inconsistent with the context, shall be construed as follows: "Precinct" means any part of a city, village or incorporated town of over 200,000 population which was a "voting precinct" or an "election precinct" for voting at the last general election. "Political subdivision" means a township, road district, city, village or incorporated town, as the case may be. "Legal voter", insofar as the signing of a petition for a local option election is concerned, means a person who is registered to vote at the address shown opposite his signature on the petition or was registered to vote at such address when he signed the petition. "Annexed area" means a territory which has attached to and become a part of a different political subdivision or precinct. The term shall be an appropriate designation only until the area to which it attaches holds a referendum hereunder. "Disconnected area" means a territory which has detached or separated from a political subdivision or precinct. "Licensed establishment" means the premises specified in a retailer's license pursuant to paragraph

(d) of Section 5-1 and whose primary business is the sale of alcoholic beverages on the premises, which premises are located in any municipality having more than 2,000,000 inhabitants. In the phrase, "Shall the sale at retail of alcoholic liquor (or alcoholic liquor other than beer containing not more than 4% of alcohol by weight) (or alcoholic liquor containing more than 4% of alcohol by weight except in the original package and not for consumption on the premises) be prohibited in (or at)?" the proper name, whether of a "township", "road district", "precinct", "city", "village" or "incorporated town", or the street address of the licensed establishment, shall be understood to be inserted in the blank, and the same shall be inserted in the petitions filed by and the ballots prepared for the voters of any precinct, township, road district, city, village or incorporated town. "Clerk", with reference to cities, villages and incorporated towns, and precinct situated therein, means the town, city or village clerk, as the case may be; with reference to cities, villages and incorporated towns which have by ordinance created a Board of Election Commissioners, it means the Board of Election Commissioners; with

reference to road districts in counties not under township organization, it means the road district clerk; with reference to townships or parts of townships lying outside of cities, villages and incorporated towns in counties under township organization, it means the township clerk. "Election" as used in reference to cities, villages and incorporated towns, means an election at a time fixed by the general election law for choosing city, village or incorporated town officers. "Election" also means an election at a time fixed by the general election law for choosing county, township or road district officers. In case an election is to be held for officers of the city, village, incorporated town, township, or road district to which a proposition requested pursuant to this Article shall be submitted, or for the election of officers of a township or road district in which it is requested that such proposition be submitted to that part of a township or road district lying outside the corporate limits of a city, village or incorporated town, not less than 90 days nor more than 6 months following the filing of such petition, then the words "next ensuing election" as used herein shall mean the next ensuing election for officers of such city, village, incorporated town, township or road district, regardless of any intervening elections at which residents of such city, village, incorporated town, township or road district may vote.

235 ILCS 5/9-2

Sec. 9-2. When any legal voters of a precinct in any city, village or incorporated town of more than 200,000 inhabitants, as determined by the last preceding Federal census, desire to pass upon the question of whether the sale at retail of alcoholic liquor shall be prohibited in the precinct or at a particular street address within the precinct, they shall, at least 104 days before an election, file in the office of the clerk of such city, village or incorporated town, a petition directed to the clerk, containing the signatures of not less than 25% of the legal voters registered with the board of election commissioners or county clerk, as the case may be, from the precinct. Provided, however, that when the petition seeks to prohibit the sale at retail of alcoholic liquor at a particular street address of a licensed establishment within the precinct the petition shall contain the signatures of not less than 40% of the legal voters requested from that precinct. The petition shall request that the proposition "Shall the sale at retail of alcoholic liquor be prohibited in (or at)?" be submitted to the voters of the precinct at the next ensuing election at which such proposition may be voted upon. The submission of the question to the voters of such precinct at such election shall be mandatory when the petition has been filed in proper form with the clerk. If more than one set of petitions are presented to the clerk for submission at the same election, the petition presented first shall be given preference; however, the clerk shall provisionally accept any other set of petitions setting forth the same (or substantially the same) proposition. If the first set of petitions for a proposition is found to be in proper form and is not found to be invalid, it shall be accepted by the clerk and all provisionally accepted sets of petitions setting forth the same (or substantially the same) proposition shall be rejected by the clerk. If the first set of petitions for a proposition is found not to be in proper form or is found to be invalid, the clerk shall

(i) reject the first set of petitions, (ii) accept the first provisionally accepted set of petitions that is in proper form and is not found to be invalid, and (iii) reject all other provisionally accepted sets of petitions setting forth the same (or substantially the same) proposition. Notice of the filing of the petition and the result of the election shall be given to the Secretary of State at his offices in both, Chicago and Springfield, Illinois. A return of the result of the election shall be made to the clerk of the city, village or incorporated town in which the precinct is located. If a majority of the voters voting upon such proposition vote "YES", the sale at retail of alcoholic liquor shall be prohibited in the precinct or at the street address. If the sale at retail of alcoholic liquor at a particular street address is prohibited pursuant to this Section, the license for any establishment at that street address shall be void, and no person may apply for a license for the sale at retail of alcoholic liquor at an establishment at that street address unless such prohibition is discontinued pursuant to Section 9-10. In cities, villages and incorporated towns of 200,000 or less population, as determined by the last preceding Federal census, the vote upon the question of prohibiting the sale at retail of alcoholic liquor, or alcoholic liquor other than beer containing not more than 4% of alcohol by volume, or alcoholic liquor containing more than 4% of alcohol by weight in the original package and not for consumption on the premises, shall be by the voters of the political subdivision as a unit. When any legal voters of such a city, village or incorporated town desire to pass upon the question of whether the sale at retail of alcoholic liquor shall be prohibited in the municipality, they shall, at least 104 days before an election, file in the office of the clerk of the municipality, a petition directed to the clerk, containing the signatures of not less than 25% of the legal voters registered with the board of election commissioners or county clerk, as the case may be, from the municipality. The petition shall request that the proposition, "Shall the sale at retail of alcoholic liquor be prohibited in....?" be submitted to the voters of the municipality at the next ensuing election at which the proposition may be voted upon. The submission of the question to the voters of the municipality at such election shall be mandatory when the petition has been filed in proper form with the clerk. If more than one set of petitions are presented to the clerk for submission at the same election,

setting forth the same or different propositions, the petition presented first shall be given preference and the clerk shall refuse to accept any other set of petitions. Notice of the filing of the petition and the result of the election shall be given to the Secretary of State at his offices in both Chicago and Springfield, Illinois. A return of the result of the election shall be made to the clerk of the city, village or incorporated town. If a majority of the voters voting upon the proposition vote "Yes", the sale at retail of alcoholic liquor shall be prohibited in the municipality. In the event a municipality does not vote to prohibit the sale at retail of alcoholic liquor, the council or governing body shall ascertain and determine what portions of the municipality are predominantly residence districts. No license permitting the sale of alcoholic liquors shall be issued by the local liquor commissioner or licensing officer permitting the sale of alcoholic liquors at any place within the residence district so determined, unless the owner or owners of at least two-thirds of the frontage, 200 feet in each direction along the street and streets adjacent to the place of business for which a license is sought, file with the local liquor commissioner or licensing officer, his or their written consent to the use of such place for the sale of alcoholic liquors. In each township or road district lying outside the corporate limits of a city, village or incorporated town, or in a part of a township or road district lying partly within and partly outside a city, village or incorporated town, the vote of such township, road district or part thereof, shall be as a unit. When any legal voters of any such township, or part thereof, in counties under township organization, or any legal voters of such road district or part thereof, in counties not under township organization, desire to vote upon the proposition as to whether the sale at retail of alcoholic liquor shall be prohibited in such township or road district or part thereof, they shall, at least 90 days before an election, file in the office of the township or road district clerk, of the township or road district within which the election is to be held, a petition directed to the clerk and containing the signatures of not less than 25% of the legal voters registered with the county clerk from such township or road district or part thereof. The submission of the question to the voters of the township, road district or part thereof, at the next ensuing election shall be mandatory when the petition has been filed in proper form with the clerk. If more than one set of petitions are presented to the clerk for submission at the same election, setting forth the same or different propositions, the petition presented first shall be given preference and the clerk shall refuse to accept any other set of petitions. A return of the result of such election shall be made to the clerk of the township or road district in which the territory is situated, and shall also be made to the Secretary of State at his offices in both Chicago and Springfield, Illinois.

235 ILCS 5/9-6

Sec. 9-6. The proposition shall be in substantially the following form: -----
----- Shall the sale at retail of alcoholic liquor (or alcoholic liquor other than beer containing

235 ILCS 5/9-8

Sec. 9-8. The status of all the territory within any political subdivision or precinct, relative to the sale at retail of alcoholic liquor, or the sale at retail of alcoholic liquor other than beer containing not more than 4% of alcohol by weight, or the sale at retail of alcoholic liquor containing more than 4% of alcohol by weight except in the original package and not for consumption on the premises, as the case may be, shall remain the same, notwithstanding any change which may be made in the limits of any such political subdivision or precinct until the voters thereof have changed such status as to annexed or disconnected areas under the provisions of Section 9-9 of this Article, or until the voters have changed such status for areas other than annexed or disconnected areas under the provisions of Section 9-2 or Section 9-10.

235 ILCS 5/9-9

Sec. 9-9. The status of an annexed area or disconnected area, relative to the sale at retail of alcoholic liquor pursuant to Section 9-8, shall remain the same until changed in accordance with the following provisions:

(a) Upon the filing, in the office of the clerk of the political subdivision or precinct of which the annexed area or disconnected area becomes a part, of a petition directed to such clerk, containing the signatures of not less than 25% of the legal voters residing in such annexed or disconnected area, to submit to the voters thereof the proposition to continue its current status, the clerk shall certify that proposition to the proper election officials, who shall submit the proposition to

the voters of the annexed or disconnected area at an election in accordance with the general election law. The petition shall be supported by an affidavit made by one or more of the petitioners and stating that the signatures represent not less than 25% of the legal voters residing in the annexed or disconnected area. The provisions in Sections 9-1, 9-2, 9-4, 9-5, 9-6 and 9-7 shall apply except where they conflict with this Section, in which event the provisions of this Section shall control. If a majority of the voters voting upon such proposition in any such annexed or disconnected area vote "NO", the current status shall cease in that area; or

(b) Upon the filing in the office of the clerk of the political subdivision of which the annexed area or disconnected area becomes a part of a petition directed to such clerk containing the signatures of not less than 66 2/3% of all the legal voters residing in the annexed or disconnected area to change the status in that annexed or disconnected area relative to the sale at retail of alcoholic liquor by either:

- (1) discontinuing any existing prohibition, or
- (2) prohibiting the sale at retail of alcoholic liquor, or
- (3) prohibiting the sale at retail of alcoholic liquor other than beer containing not more than 4% of alcohol by weight, or
- (4) prohibiting the sale at retail of alcoholic liquor containing more than 4% of alcohol by weight except in the original package and not for consumption on the premises, the requirements for an election in subsection

(a) above shall be waived. The requirement of Section 9-4 regarding verification of a petition shall apply to this petition. Thirty days following the filing of such petition, the requested status, as specified in such petition, shall become effective in the annexed or disconnected area, unless within the 30 day period, written verified objections by a voter residing in the annexed or disconnected area are filed with the clerk. The objections shall be limited to an attack upon the validity of the petition and its execution. In such event, the clerk shall forthwith submit to the Circuit Court for the county in which the area is located, the petition and objections thereto. A hearing shall be held thereon within 30 days after the petition and objections are filed with the court. If the court finds that the petition is valid and properly executed, the court shall enter an order finding that the petition is valid. Thereupon, the requested status shall be effective. If the court finds that the petition is not valid, the petition shall be dismissed.

(c) A vote under subsection

(a) above or the filing of a valid petition under subsection

(b) above shall bar further proceedings under this Section for 47 months thereafter.

235 ILCS 5/9-10

Sec. 9-10. Upon the filing in the office of the clerk, at least 90 days before an election in any political subdivision or precinct, as the case may be, of a petition directed to such clerk, containing the signatures of not less than 25% or 40% of the legal voters of the territory which has prohibited the sale at retail of alcoholic liquor or the sale at retail of alcoholic liquor other than beer containing not more than 4% of alcohol by weight or the sale at retail of alcoholic liquor containing more than 4% of alcohol by weight except in the original package and not for consumption on the premises, or a petition directed to such clerk containing the signatures of not less than 25% of the legal voters of a municipality within which such territory is located, to submit to the voters thereof the proposition to continue such prohibition, the clerk shall certify such proposition to the proper election officials, who shall submit the proposition at such election to the voters of such political subdivision or precinct. Where such proposition is submitted pursuant to a petition signed by not less than 25% of the legal voters of a municipality within which such territory is located, the legal voters of the entire municipality may vote on the proposition. For the purposes of this Section, the number of legal voters shall be computed upon the same basis as is provided in Section 9-2 for the filing of a petition for referendum on the question of whether the sale at retail of alcoholic liquor shall be prohibited. So far as applicable, the provisions of Sections 9-1, 9-4, 9-5, 9-6 and 9-7 shall apply. The proposition shall be in the following form: - - - - -

- - - Shall the prohibition of the sale at retail of alcoholic liquor (or alcoholic liquor other than beer YES containing not more than 4% of alcohol by weight) or (alcoholic - - - - - liquor containing more than 4% of alcohol by weight in the original NO package and not for consumption on the premises) be continued in (or at)? - - - - -

- - - - - In a precinct referendum, the referendum ballot shall also contain a common description of the precinct in plain and nonlegal language, which may be prepared by the election official or adopted from the description on the petition, unless the election official responsible for conducting the election determines that a description cannot be included within the space limitations on the ballots to be used in the

election. If the description is not to be included on the ballot, the clerk shall prepare large printed copies of the description of the precinct together with a notice of the proposition which shall be prominently displayed in the precinct polling place at the election. If a majority of the voters voting upon such last mentioned proposition in any such political subdivision or precinct vote "NO", such prohibition shall cease in such political subdivision or precinct or at the applicable licensed establishment; and where such political subdivision or precinct is a city, village or incorporated town situated wholly or partly within the boundaries of a township or road district having a similar prohibition, a majority vote of the voters voting "NO" upon such proposition as above described will result in the prohibition ceasing in that part of the township or road district situated within such city, village or incorporated town. In the event the boundaries of such political subdivision or precinct have been altered or the numbers of any precincts have been changed subsequent to the original election making the territory prohibited territory and prior to the filing of such petition for resubmission of the question, only those voters actually residing in the prohibited territory shall be eligible as signers of such resubmission petition, except that this limitation shall not apply in the case of a resubmission petition signed by at least 25% of the legal voters of a municipality in which the prohibited territory is located. The petition mentioned in this Section shall be a public document and shall be subject to inspection by the public.

235 ILCS 5/9-10.1

Sec. 9-10.1. In the event a home rule municipality, as set forth in Article VII of the Illinois Constitution, changes the status of the municipality by ordinance so as to allow the sale at retail of alcoholic liquor in a municipality which has previously prohibited such sale pursuant to local referendum, such sale may be continued in that municipality even though it subsequently ceases to be a home rule municipality. The prohibition against the sale at retail of alcoholic beverages in such a municipality may thereafter be reinstated pursuant to Section 9-2 or by subsequent ordinance of the municipality.

235 ILCS 5/9-11

Sec. 9-11. A vote under the provisions of this Act in and for any political subdivision or precinct or licensed establishment upon the proposition to prohibit the sale at retail of alcoholic liquor or to prohibit the sale at retail of alcoholic liquor other than beer containing not more than 4% of alcohol by weight or to prohibit the sale at retail of alcoholic liquor containing more than 4% of alcohol by weight except in the original package and not for consumption on the premises or in and for any political subdivision or precinct upon the proposition to continue any of such prohibitions shall be a bar to the submission to the voters thereof of any of such propositions as applied to all or any part of that political subdivision or precinct for 47 months thereafter.

235 ILCS 5/9-12
