In circumstances involving vehicle registrations, the department shall be required to make the findings required by subsection (c) before contracting with a contractor that is not a county treasurer.

License plates or decals to be furnished; time for new license plates; personalized license plates, display and cost; rules and regulations.

(a) Subject to the provisions of this section and K.S.A.

8-1,125

, and amendments thereto, the division of vehicles shall furnish to every owner whose vehicle shall be registered one license plate for such vehicle. Such license plate shall have displayed on it the registration number assigned to the vehicle and to the owner thereof, the name of the state, which may be abbreviated, and the year or years for which it is issued. The same type of license plates shall be issued for passenger motor vehicles, rented without a driver, as are issued for private passenger vehicles.

(b) During calendar year 1975 commencing on the effective date of this act, and during every fifth calendar year thereafter, the division of vehicles shall furnish one license plate for any type of vehicle an owner registers or has the registration thereof renewed, but during the succeeding four-year period following calendar year 1975 and during the succeeding four-year period following every fifth calendar year subsequent to 1975, the division of vehicles shall not furnish any license plate for the renewal of a vehicle's registration. During calendar year 1976 and during each calendar year thereafter in which a license plate is not issued for the renewal of registration of a vehicle, the division of vehicles shall furnish one decal for the license plate issued for a vehicle as provided in K.S.A.

8-134

, and amendments thereto, for each registration and renewal of registration of such vehicle. Notwithstanding the foregoing provisions of this subsection, whenever, in the discretion of the director of vehicles, it is determined that the license plates currently being issued and displayed are not deteriorating to the extent that their replacement is warranted, the director may adopt rules and regulations to extend the five-year issuance cycle provided for in this subsection by one year at a time, and in the same manner the director may further extend such cycle by one year at a time, successively as the director determines appropriate. If the cycle is extended at the expiration of the extended term, new license plates shall

again be issued in the manner and for the term provided in such rules and regulations, except that the owner of a motor vehicle currently registered may continue to display the license plate currently being issued and displayed for a period not to exceed three registration years from the date of the expiration of the extended term. The division shall furnish one decal for each such license plate in accordance with the provisions of this subsection.

(c) Any license plate issued pursuant to subsection (a) or (b) may be a personalized license plate subject to the additional fee set forth in subsection (d). The division shall allow an applicant for a personalized license plate to personalize a license plate design established by subsection (a), (b) or (d).

(d) One personalized license plate may be issued to any owner or lessee of a passenger vehicle or a truck licensed for a gross weight of not more than 20,000 pounds who makes proper application to the division of vehicles at renewal of registration date. Such application shall be on a form prescribed by the division and accompanied by a fee of $40, which shall be in addition to any other fee required to renew the registration of such passenger vehicle under the laws of this state. Such personalized license plate shall be displayed on the rear of the vehicle. One personalized license plate may be issued to any owner of a motorcycle upon proper application in the same manner provided in this subsection for passenger vehicles and trucks. The $40 fee shall be paid only once during the registration period for which such license plates were issued, and any subsequent renewals during the registration period shall be subject only to the registration fee prescribed by K.S.A.

8-143

, and amendments thereto. The division shall design distinctive, personalized license plates to be issued that shall contain not more than seven letters or numbers on truck or passenger vehicle license plates and not more than five letters or numbers on motorcycle license plates, or a combination thereof, to be designated by the applicant in lieu of the letters and numbers required by K.S.A.

8-147

, and amendments thereto, other than the letters required to designate the county in which such vehicle is registered. Unless the letters or numbers designated by the applicant have been assigned to another vehicle, or unless the letters or numbers designated by the applicant have a profane, vulgar, lewd or indecent meaning or connotation, as determined by the director of vehicles, the division shall assign such letters or numbers to the applicant's vehicle, and the letters or numbers, or combination thereof, so assigned shall be deemed the registration number of such vehicle. Subject to the foregoing provisions, all license plates issued under this section shall be manufactured in accordance with K.S.A.

8-147

, and amendments thereto. Such license plates shall be issued for a registration period of five years commencing in 1985 and each five years thereafter.

(e) The secretary of revenue shall adopt rules and regulations necessary to carry out the provisions of this act, including, without limitation, rules and regulations concerning: (1) The procedure for insuring that duplicate license plates are not issued throughout the state; (2) the procedure for reserving distinctive license plates for the purpose of obtaining the same on each annual renewal of registration; (3) the procedure for allowing the transfer of personalized license plates from one vehicle to another for which such license plates were originally issued, when the title to the original vehicle has not been transferred and the name or names of the owner or owners listed on the titles to both vehicles are identical; and (4) procedures necessary to coordinate this act with other laws of this state governing registration of vehicles. The director of vehicles shall remit all moneys received by the division of vehicles under this section to the state treasurer in accordance with the provisions of K.S.A.

75-4215

, and amendments thereto. Upon receipt of each such remittance, the state treasurer shall deposit the entire amount in the state treasury to the credit of the state highway fund.

The license plate shall be fastened in a place and position to be clearly visible, and shall be maintained free from foreign materials and in a condition to be clearly legible.

(d) During any period in which the construction of license plates has been suspended pursuant to the provisions of K.S.A.

8-132

, and amendments thereto, the plate, tag, token, marker or sign assigned to such vehicle shall be attached to and displayed on such vehicle in such place, position, manner and condition as shall be prescribed by the director of vehicles.

(e) A law enforcement officer shall issue a warning citation to anyone violating the provisions of subsection (b)(5). The provisions of this subsection shall expire and have no effect on and after January 1, 2022.

8-134a

, and amendments thereto. The registration of vehicles to which K.S.A.

8-134a

, and amendments thereto, applies shall expire in 1982 and thereafter in accordance with the provisions of subsections (b) and (c). Registration of vehicles shall be renewed annually upon application by the owner and by payment of the fees required by law. Except vehicles subject to K.S.A.

8-134a

, and amendments thereto, and passenger vehicles, the renewal shall take effect on January 1 of each year, but the owner of the vehicle shall have until and including the last day of February of each year to make application for such renewal. The division shall issue for such vehicles a February month decal to correspond with the statutory grace period. Criminal sanctions provided in K.S.A.

8-142

, and amendments thereto, for failure to display any license plate or plates or any registration decal required to be affixed to any such license plate for the current registration year shall not be enforced until March 1 of each year. An owner who has made proper application for renewal of registration of a vehicle prior to January 1, but who has not received the license plate or registration card for the ensuing year, shall be entitled to operate or permit the operation of such vehicle

upon the highways upon displaying thereon the license plate issued for the preceding year for such time as the director of vehicles finds necessary for issuance of such new license plate.

(b) Every passenger vehicle required by this act to be registered, except as otherwise provided, shall be registered for a period of 12 consecutive months. The division of vehicles, in order to initiate a system of registering or reregistering passenger vehicles during any month of a calendar year, may register or reregister a passenger vehicle for less than a 12-month period, prorating the annual registration fee, when in the director's opinion such proration tends to fulfill the purpose of the monthly registration system.

(c) Passenger vehicle registration, and the authority to legally operate, use or tow such vehicle on the highway shall expire at 12 midnight on the last day of the last month of the 12-month period for which such vehicle was registered, and the owner shall see that such vehicle is reregistered as required by this act. The director of vehicles shall designate the registration period for each passenger vehicle in order to as nearly as feasible equalize registration or reregistration within the 12 months of the year. Any vehicle after having once been registered shall upon reregistration, be registered for the same twelve-month period except when the certificate of title has been transferred as provided by law. In this case, the vehicle shall be registered by the division of vehicles in accordance with the system adopted.

(d) For the purpose of this act, hearses and electrically propelled vehicles shall be classified as passenger vehicles.

(e) Every owner who registers or reregisters a vehicle in a calendar year, and in any calendar year in which a license plate is not issued for the renewal of registration of such vehicle, shall be furnished by the division one decal for the license plate issued for such vehicle and required by K.S.A.

8-133

, and amendments thereto, to be affixed to the rear of such vehicle. Such decal shall be affixed to the number plate affixed to the rear of such vehicle and shall indicate the license plate number for which the decal is to be affixed and shall indicate the year in which such registration expires. The color of a decal shall be such that it contrasts with the color of the license plate to which it is to be affixed, and the director of vehicles shall change the color of such decals each year, without duplicating the same color in any five-year period or such extended period as the director designates under K.S.A.

8-132

(b), and amendments thereto. Such decals shall be so constructed that once a decal has been affixed to a license plate, it cannot be removed without destroying the decal, and the surface of such decals shall be capable of reflecting light. Consistent with the foregoing, the director of vehicles shall prescribe the size of and material to be used in the production of such decals, and the director of vehicles shall designate the location on a number plate where such decal shall be affixed.

(f) (1) The owner of a vehicle may, at the time of such registration or reregistration, purchase a park and recreation motor vehicle permit. Such permit shall cost $15 until such time as the amount for such permit is changed by rules and regulations of the secretary of wildlife and parks.

(2) Such permit shall be nontransferable and shall expire on the date of expiration of the vehicle registration.

(3) Except as provided in subsection (f)(4), the county treasurer shall remit all such moneys paid to the county treasurer to the state treasurer in accordance with the provisions of K.S.A.

75-4215

, and amendments thereto. Upon receipt of each such remittance, the state treasurer shall deposit the entire amount in the state treasury and shall be credited as provided in K.S.A.

32-991

, and amendments thereto.

(4) The county treasurer may collect and retain a service charge fee of up to $.50 for each park and recreation motor vehicle permit issued or sold by the county treasurer.

(5) As a condition of receiving the park and recreation motor vehicle permit, the applicant shall consent to the sharing of information, including, but not limited to, the applicant's name, address, email address and phone number, with the secretary of wildlife and parks by the division of motor vehicles.

(g) The secretary of revenue shall adopt rules and regulations necessary to accomplish the purpose of this act.

79-5118

, and amendments thereto, shall be registered or reregistered in accordance with the provisions of subsections (b) and (c) of K.S.A.

8-134

, and amendments thereto. The provisions of this section shall not apply to vehicles registered on an apportioned basis as part of a fleet under the provisions of K.S.A.

8-1,100

to

8-1,123

, inclusive, and amendments thereto, or vehicles registered under the provisions of K.S.A.

8-166

et seq., and amendments thereto.

(b) The division of vehicles, in order to initiate a system of registering or reregistering vehicles included in subsection (a) during any month of a calendar year, may register or reregister such vehicles for less than a twelve-month period, prorating the annual registration fee and taxes imposed under K.S.A.

79-5101

et seq., and amendments thereto, when in the director's opinion such tends to fulfill the purpose of the monthly registration of this section. The secretary of revenue may adopt rules and regulations for the administration of this section and to carry out the purpose of the act of which this section is a part.

KSA 8-135 — Transfer of ownership of vehicles; registration; fees and penalties; certificate of title, form, fee; assignment and reassignment; liens, statement of, release of, liability for failure to comply, notice of security interest, execution; purchase and sale of vehicle, requirements; written consent by lienholder; transfer-on-death; reaffirmation of sale; assignment of title form; electronic certificate of title; reassignment forms; export title; rebuilt salvage vehicle

Except as provided in K.S.A.

8-172

, and amendments thereto, and

8-1,147

, and amendments thereto, it shall be unlawful for any person, other than the person to whom the license plate was originally issued, to have possession thereof. When the ownership of a registered vehicle is transferred, the original owner of the license plate may register another vehicle under the same number, upon application and payment of a fee of $1.50, if such other vehicle does not require a higher license fee. If a higher license fee is required, then the transfer may be made upon the payment of the transfer fee of $1.50 and the difference between the fee originally paid and that due for the new vehicle.

(b) Subject to the provisions of K.S.A.

8-198

(a), and amendments thereto, upon the transfer or sale of any vehicle by any person or dealer, or upon any transfer in accordance with K.S.A.

59-3511

, and amendments thereto, the new owner thereof, within 60 days, inclusive of weekends and holidays, from date of such transfer shall make application to the division for registration or reregistration of the vehicle, but no person shall operate the vehicle on any highway in this state during the sixty-day period without having applied for and obtained temporary registration from the county treasurer or from a dealer. After the expiration of the sixty-day period, it shall be unlawful for the owner or any other person to operate such vehicle upon the highways of this state unless the vehicle has been registered as provided in this act. For failure to make application for registration as provided in this section, a penalty of $2 shall be added to other fees. When a person has a current motorcycle or passenger vehicle registration and license plate, including any registration decal affixed thereto, for a vehicle and has sold or otherwise disposed of the vehicle and has acquired another motorcycle or passenger vehicle and intends to transfer the registration and the license plate to the motorcycle or passenger vehicle acquired, but has not yet had the registration transferred in the office of the county treasurer, such person may operate the motorcycle or passenger vehicle acquired for a period of not to exceed 60 days by displaying the license plate on the rear of the vehicle acquired. If the acquired vehicle is a new vehicle such person also must carry the assigned certificate of title or manufacturer's statement of origin when operating the acquired vehicle, except that a dealer may operate such vehicle by displaying such dealer's dealer license plate.

(c) Certificate of title: No vehicle required to be registered shall be registered or any license plate or registration decal issued therefor, unless the applicant for registration shall present satisfactory evidence of ownership and apply for an original certificate of title for such vehicle. The following paragraphs of this subsection shall apply to the issuance of a certificate of title for a nonhighway vehicle, salvage vehicle or rebuilt salvage vehicle, as defined in K.S.A.

8-197

, and amendments thereto, except to the extent such paragraphs are made inapplicable by or are inconsistent with K.S.A.

8-198

, and amendments thereto, and to any electronic certificate of title, except to the extent such paragraphs are made inapplicable by or are inconsistent with K.S.A.

8-135d

, and amendments thereto, or with rules and regulations adopted pursuant to K.S.A.

8-135d

, and amendments thereto.

The provisions of paragraphs (1) through (14) shall apply to any certificate of title issued prior to January 1, 2003, which indicates that there is a lien or encumbrance on such vehicle.

(1) An application for certificate of title shall be made by the owner or the owner's agent upon a form furnished by the division and shall state all liens or encumbrances thereon, and such other information as the division may require. Notwithstanding any other provision of this section, no certificate of title shall be issued for a vehicle having any unreleased lien or encumbrance thereon, unless the transfer of such vehicle has been consented to in writing by the holder of the lien or encumbrance. Such consent shall be in a form approved by the division. In the case of members of the armed forces of the United States while the United States is engaged at war with any foreign nation and for a period of six months next following the cessation of hostilities, such application may be signed by the owner's spouse, parents, brother or sister. The county treasurer shall use reasonable diligence in ascertaining whether the facts stated in such application are true, and if satisfied that the applicant is the lawful owner of such vehicle, or otherwise entitled to have the same registered in such applicant's name, shall so notify the division, who shall issue an appropriate certificate of title. The certificate of title shall be in a form approved by the division, and shall contain a statement of any liens or encumbrances which the application shows, and such other information as the division determines.

(2) (A) The certificate of title shall contain upon the reverse side a form for assignment of title to be executed by the owner. This assignment shall contain a statement of all liens or encumbrances on the vehicle at the time of assignment. The certificate of title shall also contain on the reverse side blank spaces so that an abstract of mileage as to each owner will be available. The seller at the time of each sale shall insert and certify the mileage and the purchase price on the form

filed for application or reassignment of title, and the division shall insert such mileage on the certificate of title when issued to purchaser or assignee. The signature of the purchaser or assignee is required on the form filed for application or reassignment of title, acknowledging the odometer and purchase price certification made by the seller, except those vehicles that are exempt from odometer certification requirements pursuant to federal law shall be exempt from such requirement. Such title shall indicate whether the vehicle for which it is issued has been titled previously as a nonhighway vehicle or salvage vehicle. In addition, the reverse side shall contain two forms for reassignment by a dealer, stating the liens or encumbrances thereon. The first form of reassignment shall be used only when a dealer sells the vehicle to another dealer. The second form of reassignment shall be used by a dealer when selling the vehicle to another dealer or the ultimate owner of the vehicle. The reassignment by a dealer shall be used only where the dealer resells the vehicle, and during the time that the vehicle remains in the dealer's possession for resale, the certificate of title shall be dormant.

(B) When the ownership of any vehicle passes by operation of law, or repossession upon default of a lease, security agreement, or executory sales contract, the person owning such vehicle, upon furnishing satisfactory proof to the county treasurer of such ownership, may procure a certificate of title to the vehicle. When a vehicle is registered in another state and is repossessed in another state, the owner of such vehicle shall not be entitled to obtain a valid Kansas title or registration, except that when a vehicle is registered in another state, but is financed originally by a financial institution chartered in the state of Kansas or when a financial institution chartered in Kansas purchases a pool of motor vehicle loans from the resolution trust corporation or a federal regulatory agency, and the vehicle is repossessed in another state, such Kansas financial institution shall be entitled to obtain a valid Kansas title or registration.

(C) In addition to any other fee required for the issuance of a certificate of title, any applicant obtaining a certificate of title for a repossessed vehicle shall pay a fee of $3.

(3) Dealers shall execute, upon delivery to the purchaser of every new vehicle, a manufacturer's statement of origin stating the liens and encumbrances thereon. Such statement of origin shall be delivered to the purchaser at the time of delivery of the vehicle or at a time agreed upon by the parties, not to exceed 30 days, inclusive of weekends and holidays. The agreement of the parties shall be executed on a form approved by the division. In the event delivery of title cannot be made personally, the seller may deliver the manufacturer's statement of origin by restricted mail to the address of purchaser shown on the purchase agreement. The manufacturer's statement of origin may include an attachment containing assignment of such statement of origin on forms approved by the division. Upon the presentation to the division of a manufacturer's statement of origin, by a manufacturer or dealer for a new vehicle, sold in this state, a certificate of title shall be issued if there is also an application for registration, except that no application for registration shall be required for a travel trailer used for living quarters and not operated on the highways.

(4) The fee for each original certificate of title shall be $10 in addition to the fee for registration of such vehicle, trailer or semitrailer. The certificate of title shall be good for the life of the vehicle, trailer or semitrailer while owned or held by the original holder of the certificate of title.

(5) Except for a vehicle registered by a federally recognized Indian tribe, as provided in paragraph (16), upon sale and delivery to the purchaser of every vehicle subject to a purchase money security interest as provided in article 9 of chapter 84 of the Kansas Statutes Annotated, and amendments thereto, the dealer or secured party may complete a notice of security interest and when so completed, the purchaser shall execute the notice, in a form prescribed by the division, describing the vehicle and showing the name and address of the secured party and of the debtor and other information the division requires. On and after July 1, 2007, only one lien shall be taken or accepted for vehicles with a gross vehicle weight rating of 26,000 pounds or less. As used in this section "gross vehicle weight rating" shall have the meaning ascribed thereto in 49 C.F.R. Â§ 390.5, as in effect on July 1, 2017, or any later version as established in rules and regulations adopted by the state corporation commission. The dealer or secured party, within 30 days of the sale and delivery, may mail or deliver the notice of security interest, together with a fee of $2.50, to the division. The notice of security interest shall be retained by the division until it receives an application for a certificate of title to the vehicle and a certificate of title is issued. The certificate of title shall indicate any security interest in the vehicle. Upon issuance of the certificate of title, the division shall mail or deliver confirmation of the receipt of the notice of security interest, the date the certificate of title is issued and the security interest indicated, to the secured party at the address shown on the notice of security interest. The proper completion and timely mailing or delivery of a notice of security interest by a dealer or secured party shall perfect a security interest in the vehicle, as referenced in K.S.A. 2025 Supp.

84-9-311

, and amendments thereto, on the date of such mailing or delivery. The county treasurers shall mail a copy of the title application to the lienholder. For any vehicle subject to a lien, the county treasurer, division or contractor shall collect from the applicant a $1.50 service fee for processing and mailing a copy of the title application to the lienholder.

(6) It shall be unlawful for any person to operate in this state a vehicle required to be registered under this act, or to transfer the title to any such vehicle to any person or dealer, unless a certificate of title has been issued as herein provided. In the event of a sale or transfer of ownership of a vehicle for which a certificate of title has been issued, which certificate of title is in the possession of the transferor at the time of delivery of the vehicle, the holder of such certificate of title shall endorse on the same an assignment thereof, with warranty of title in a form prescribed by the division and printed thereon and the transferor shall deliver the same to the buyer at the time of delivery to the buyer of the vehicle or at a time agreed upon by the parties, not to exceed 60 days, inclusive of weekends and holidays, after the time of delivery. The agreement of the parties shall be executed on a form provided by the division. The requirements of this paragraph concerning delivery of an assigned title are satisfied if the transferor mails to the transferee by restricted mail the assigned certificate of title within the 60 days, and if the transferor is a dealer, as defined by K.S.A.

8-2401

, and amendments thereto, such transferor shall be deemed to have possession of the certificate of title if the transferor has made application therefor to the division. The buyer shall then present such assigned certificate of title to the division at the time of making application for registration of such vehicle. A new certificate of title shall be issued to the buyer, upon payment of the fee of $10. If such vehicle is sold to a resident of another state or country, the dealer or person making the sale shall notify the division of the sale and the division shall make notation thereof in the records of the division. When a person acquires a security interest that such person seeks to perfect on a vehicle subsequent to the issuance of the original title on such vehicle, such person shall require the holder of the certificate of title to surrender the same and sign an application for a mortgage title in form prescribed by the division. Upon such surrender such person shall immediately deliver the certificate of title, application, and a fee of $10 to the division. Delivery of the surrendered title, application and tender of the required fee shall perfect a security interest in the vehicle as referenced in K.S.A. 2025 Supp.

84-9-311

, and amendments thereto. On and after July 1, 2007, only one lien may be taken or accepted for security for an obligation to be secured by a lien to be shown on a certificate of title for vehicles with a gross vehicle weight rating, as defined in 49 C.F.R. Â§ 390.5, as in effect on July 1, 2017, or any later version as established in rules and regulations adopted by the state corporation commission, of 26,000 pounds or less. A refinancing shall not be subject to the limitations of this act. A refinancing is deemed to occur when the original obligation is satisfied and replaced by a new obligation. Lien obligations created before July 1, 2007, which are of a continuing nature shall not be subject to the limitations of this act until the obligation is satisfied. A lien in violation of this provision is void. Upon receipt of the surrendered title, application and fee, the division shall issue a new certificate of title showing the liens or encumbrances so created, but only one lien or encumbrance may be shown upon a title for vehicles with a gross vehicle rating of 26,000 pounds or less, and not more than two liens or encumbrances may be shown upon a title for vehicles in excess of 26,000 pounds gross vehicle weight rating. When a prior lienholder's name is removed from the title, there must be satisfactory evidence presented to the division that the lien or encumbrance has been paid. When the indebtedness to a lienholder, whose name is shown upon a title, is paid in full, such lienholder shall comply with the provisions of K.S.A.

8-1,157

, and amendments thereto.

(5) Any surplus of the proceeds of such sale, after paying to the county treasurer, the amount of the state's lien, and the cost of the officer in giving notice of and executing such warrant computed to the same extent as in judicial sales on execution, and of securing and preserving the property pending such sale, shall be delivered to the person lawfully entitled to such surplus amount. In the event that any truck or truck tractor for which the annual registration fee is being

paid quarterly shall be sold or otherwise disposed of, the entire balance remaining unpaid on such annual registration fee shall become immediately due and payable.

(6) No certificate of title shall be assigned or transferred or new certificate of title be issued for such vehicle until all the registration fees and penalties are paid in full. In the event such vehicle shall be repossessed by the enforcement of a lien or security interest on such vehicle, during any quarterly period for which the registration fees have not been paid, the person repossessing such vehicle or the person purchasing such vehicle at a repossession sale, may acquire a new certificate of title upon the payment of a fee equal to

If any truck or truck tractor that is registered under the provisions of this section is exchanged or traded by the owner for another truck or truck tractor, any registration fee and any quarterly installments that have been paid shall be applied to the registration fee due for the registration of the newly acquired vehicle. The application of any such registration fee or quarterly installment to the newly acquired vehicle shall not affect or reduce the original amount of the annual registration fee or any quarterly installment payment, for which such owner was originally liable.

(e) The division of vehicles may call to its aid the state highway patrol or any peace officer or any duly appointed representative of the department to enforce the provisions of this section within their respective jurisdiction and it shall be the duty of such officers to do so. The remedies for enforcement and collection provided in this section are cumulative and the use of one shall not be deemed to be a waiver of the right to use any other.

(a) An owner of a fleet, the vehicles of which are based in Kansas, and which is eligible for registration under the provisions of this act, or any apportioned fleet registration agreement, reciprocity agreement, arrangement, consent, or declaration made by the director of vehicles, may elect, at the time such owner's annual apportioned fleet registration fee is payable, to pay such annual apportioned fleet registration fee in equal quarterly installments, the first of which shall be due and payable at the time of such application, but not later than March 1 in each year, and each ensuing quarter thereafter shall be due and payable respectively on the first day of April, July and October. No owner shall be eligible for payment of apportioned fleet registration fees in quarterly installments unless the annual apportioned fleet registration fee for such owner's fleet exceeds $300. The election to pay annual apportioned fleet registration fees in quarterly installments shall not be construed so as to relieve any owner of the liability for payment of the entire amount of fees which would otherwise be due for the full registration year.

(b) If a fleet owner fails to pay any quarterly installment on or before the date the same is due and payable, the right to operate the fleet vehicles registered under the provisions of this act on the highways of this state shall terminate, and it shall be unlawful to operate such fleet vehicles on the highways of this state until the delinquent quarterly installment payment, including any penalty, shall have been paid in full.

(c) If a quarterly installment shall be delinquent more than 10 days beyond the due date of such installment, except for any case where it is determined by the director of vehicles that such delinquency is not due to negligence or intentional disregard of the provisions of this section, the entire balance of the annual apportioned registration fee remaining, including the delinquent quarterly installment, plus a penalty in a sum equal to 10% of the annual apportioned fleet registration fee shall be due and payable. Any such fleet owner so delinquent may be denied the privilege of paying the annual apportioned fleet registration fee for ensuing registration years on a quarterly basis. All such apportioned registration fees and penalties remaining unpaid shall constitute a debt due the state, which may be collected from the person owing the same by suit or otherwise. All such apportioned fleet registration fees remaining unpaid after the same are due and payable, and any penalty thereon shall constitute a first and prior lien in favor of the state upon the vehicles of a fleet registered hereunder and all other real and personal property of the fleet owner located within the state in the amount that such fees and penalty remain unpaid. Such lien shall attach at the time such unpaid fees and penalty accrue, and shall be paramount to all prior liens or encumbrances of any character, and to the rights of any holder of the legal title in or to any such fleet vehicles.

(d) When any installment payment has been delinquent more than 10 days, the division of vehicles shall forthwith file a notice of lien in the office of the register of deeds of the county where the principal place of business of such fleet owner is located, or any county where the vehicles of such fleet are based, or any other county in which such owner has any property. A copy of such notice of lien shall be mailed to the delinquent fleet owner. The notice of lien shall set forth the name and address of the fleet owner, the amount of the apportioned fleet registration fee and penalty payable and unpaid, and a description of the fleet vehicles to which applicable. It shall be the duty of each register of deeds in this state to index and file immediately all such notices of lien in the manner provided in the cases of financing statements, and no fee shall be charged for filing and indexing. The division of vehicles shall issue a release of lien upon payment of the apportioned fleet registration fee and penalty payable by such fleet owner, and such person may file the same with the register of deeds of any county in which such notice of lien has been filed, and no fee shall be charged for the release of lien.

Upon filing the notice of lien, the division of vehicles shall issue a tax warrant to the sheriff of any county in which the notice of lien has been filed and may issue further warrants as may be necessary, and such sheriff shall seize and hold all personal property subject thereto and proceed to advertise and sell the same or so much thereof as may be necessary, to satisfy the state's lien, together with all expenses of selling at public sale for cash, upon such notice as is provided by law in the case of a security agreement sale. Any surplus of the proceeds of such sale, after paying to the division of vehicles

the amount of the state's lien, the officer's cost of giving notice of and executing said warrant computed to the same extent as in judicial sales on execution, and the cost of securing and preserving the property pending such sale, shall be delivered to the person lawfully entitled thereto.

Same; sale of fleet vehicle not to affect liability for fee payment; addition of vehicle, transfer of registration; fees; loss of vehicle not being replaced, refund; conditions of refund.

(a) If a fleet owner sells or otherwise disposes of a vehicle which is part of such owner's fleet registered hereunder, the sale or disposal of such vehicle shall not affect or reduce such fleet owner's obligation or liability to pay the annual apportioned registration fee for such fleet or any apportioned quarterly installments for such fleet as determined by such fleet owner's original application.

(b) If any vehicle which is part of a fleet registered under the provisions of this act is disposed of by the fleet owner, and such owner desires to register an additional or newly acquired vehicle during the registration year, and such additional or newly acquired vehicle is eligible for and part of the owner's apportioned fleet, such additional or newly acquired vehicle may be registered as part of such owner's fleet for the remainder of the registration year without the payment of an additional apportioned registration fee, other than transfer fee and title fee, if the annual apportioned fleet registration fee applicable for the additional or newly acquired vehicle is the same as that of the vehicle which is being deleted by such owner. If the annual apportioned registration fee for the additional or newly acquired vehicle is greater than the annual apportioned registration fee for the vehicle being deleted, such fleet owner shall pay the full difference in apportioned registration fee. No certificate of title shall be assigned or transferred or a new certificate of title be issued for any vehicle which is part of such owner's fleet when such fleet owner is delinquent in the payment of apportioned fleet registration fees.

(c) Any owner of a truck or truck tractor based in Kansas and registered as a vehicle in a fleet registered on an apportioned basis for which applicable apportioned registration fees have been paid, which truck or truck tractor is sold, junked, repossessed, foreclosed by a mechanic's lien or has had title transferred by operation of law, and which vehicle is not being replaced in the fleet by another motor vehicle, may secure a refund by making application to the division of vehicles on a form provided and prescribed by the director of vehicles. Such refund shall include only the portion of the fee applicable to the Kansas apportioned registration fee for that vehicle for the remaining portion of the registration year. Such application for refund shall be accompanied by the Kansas base plate issued for that vehicle and the cab card issued therewith. In the event the owner of such vehicle is deceased and such vehicle will not be used on the highways, and title is not currently being transferred, the proper representative of the estate shall be entitled to such refund. Where the vehicle is registered on an apportioned basis under a quarterly fleet registration, as provided in K.S.A.

8-1,115

, and amendments thereto, such refund shall be made on the apportioned quarterly fee paid and unused and all remaining quarterly payments applicable to such motor vehicle shall be canceled. Notwithstanding any of the foregoing provisions of this section, refunds shall be made under the provisions of this section only where the amount exceeds $50.

check upon presentation, the division of vehicles shall immediately provide notice to the owner of a fleet registered hereunder that such owner's right to operate the vehicles of such fleet upon the highways of Kansas has been suspended. Upon the owner's receiving notice aforesaid, such owner shall return the identification devices issued for the vehicles of such owner's fleet or remit full payment to cover the amount of the insufficient or no fund check together with a penalty of ten dollars ($10) to the division of vehicles. If the insufficient or no fund check is not replaced by appropriate payment and penalty within ten (10) days of the date of notice, the division of vehicles may collect the debt by filing a notice of lien in the same manner and to the extent as provided in K.S.A.

8-1,115

. The amount of the insufficient or no fund check together with penalty shall constitute a debt due the state, which may be collected by suit or otherwise. Nothing in this subsection shall be construed so as to exclude criminal prosecutions as in other cases involving insufficient or no fund checks.

Upon payment of the insufficient or no fund check and penalty by the fleet owner, the division of vehicles shall give notice to the fleet owner of reinstatement of such owner's right to operate the vehicles of a fleet registered hereunder, and return any identification devices to said owner which may have been received by the division of vehicles.

(b) If the driver's license of any person expires while such person is outside of the state of Kansas and such person is on active duty in the armed forces of the United States, or is the spouse or a person who is residing with and is a dependent of such person on active duty, the license of such person shall be renewable, without examination, at any time prior to the end of the sixth month following the discharge of such person from the armed forces, or within 90 days after residence within the state is reestablished, whichever time is sooner. If the driver's license of any person under this subsection expires while such person is outside the United States, the division shall provide for renewal by mail, as long as the division has a photograph or digital image of such person maintained in the division's records. 8-235d

, and amendments thereto.

(2) Any licensee, whose driver's license expires on the licensee's 21

st

, and amendments thereto. A driver's license examiner shall administer the examination without charge and shall report the results of the examination on a form provided by the division.

(2) In lieu of the examination of the applicant's eyesight by the examiner, the applicant may submit a report on the examination of eyesight by a physician licensed to practice medicine and surgery or by a licensed optometrist. The report shall be based on an examination of the applicant's eyesight not more than three months prior to the date the report is submitted, and it shall be made on a form furnished by the division to the applicant.

(3) The division shall determine whether the results of the eyesight examination or report is sufficient for renewal of the license and, if the results of the eyesight examination or report is insufficient, the division shall notify the applicant of such fact and return the license fee. (5) When the division has good cause to believe that an applicant for renewal of a driver's license is incompetent or otherwise not qualified to operate a motor vehicle in accord with the public safety and welfare, the division may require such applicant to submit to such additional examinations as are necessary to determine that the applicant is qualified to receive the license applied for. Subject to paragraph (6), in so evaluating such qualifications, the division may request an advisory opinion of the medical advisory board, and the board is hereby authorized to render such opinions in addition to its duties prescribed by K.S.A.

8-255b

(b), and amendments thereto. Any such applicant who is denied the renewal of such a driver's license because of a mental or physical disability shall be afforded a hearing in the manner prescribed by K.S.A.

8-255

(c), and amendments thereto.

(6) Seizure disorders that are controlled shall not be considered a disability. In cases where such seizure disorders are not controlled, the director or the medical advisory board may recommend that such person be issued a driver's license to drive class C or M vehicles and restricted to operating such vehicles as the division determines to be appropriate to assure the safe operation of a motor vehicle by the licensee. Restricted licenses issued pursuant to this paragraph shall be subject to suspension or revocation. For the purpose of this paragraph, seizure disorders that are controlled means that the licensee has not sustained a seizure involving a loss of consciousness in the waking state within six months preceding the application or renewal of a driver's license and whenever a person licensed to practice medicine and surgery makes a written report to the division stating that the licensee's seizures are controlled. The report shall be based on an examination of the applicant's medical condition not more than three months prior to the date the report is submitted. Such report shall be made on a form furnished to the applicant by the division. Any physician who makes such report shall not be liable for any damages that may be attributable to the issuance or renewal of a driver's license and subsequent operation of a motor vehicle by the licensee.

(f) If the driver's license of any person expires while such person is outside the state of Kansas, the license of such person shall be extended for a period not to exceed six months and shall be renewable, without a driving examination, at any time prior to the end of the sixth month following the original expiration date of such license or within 10 days after such person returns to the state, whichever time is sooner. This subsection shall not apply to temporary drivers' licenses issued pursuant to K.S.A.

(2) the division may fulfill the requirements of paragraph (1)(D) by one or more of the following methods:

(A) Providing such information on the website of the agency; or

The division may forward information under this subsection by mail or by electronic means. (h) Notwithstanding any other provisions of law, any offender under subsection (a)(1)(D) who held a valid driver's license on the effective date of this act may continue to operate motor vehicles until the next anniversary of the date of birth of such offender. Upon such date such driver's license shall expire and the offender shall be subject to the provisions of this section.

Driver license compact.

The driver license compact is hereby enacted into law and entered into with all other jurisdictions legally joining therein in the form substantially as follows:

DRIVER LICENSE COMPACT

Article I. â■■

Findings and Declaration of Policy

(a) The party states find that:

(1) The safety of their streets and highways is materially affected by the degree of compliance with state laws and local ordinances relating to the operation of motor vehicles.

(2) Violation of such a law or ordinance is evidence that the violator engages in conduct which is likely to endanger the safety of persons and property.

(3) The continuance in force of a license to drive is predicated upon compliance with laws and ordinances relating to the operation of motor vehicles, in whichever jurisdiction the vehicle is operated.

(b) It is the policy of each of the party states to:

(1) Promote compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles by their operators in each of the jurisdictions where such operators drive motor vehicles.

(2) Make the reciprocal recognition of licenses to drive and eligibility therefor more just and equitable by considering the overall compliance with motor vehicle laws, ordinances and administrative rules and regulations as a condition precedent to the continuation or issuance of any license by reason of which the licensee is authorized or permitted to operate a motor vehicle in any of the party states.

Article II. â■■

Definitions

As used in this compact:

(a) "State" means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

Article III. â■■

Such report shall clearly identify the person convicted; describe the violation specifying the section of the statute, code or ordinance violated; identify the court in which action was taken; indicate whether a plea of guilty or not guilty was entered, or the conviction was a result of the forfeiture of bail, bond or other security; and shall include any special findings made in connection therewith.

Article IV. â■■

Effect of Conviction

(a) The licensing authority in the home state, for the purposes of suspension, revocation or limitation of the license to operate a motor vehicle, shall give the same effect to the conduct reported, pursuant to article III of this compact, as it would if such conduct had occurred in the home state, in the case of convictions for:

(1) Manslaughter or negligent homicide resulting from the operation of a motor vehicle;

(2) Driving a motor vehicle while under the influence of intoxicating liquor or a narcotic drug, or under the influence of any other drug to a degree which renders the driver incapable of safely driving a motor vehicle;

(4) Failure to stop and render aid in the event of a motor vehicle accident resulting in the death or personal injury of another.

(b) As to other convictions, reported pursuant to article III, the licensing authority in the home state shall give such effect to the conduct as is provided by the laws of the home state.

(b) Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until six months after the executive head of the withdrawing state has given notice of the withdrawal to the executive heads of all other party states. No withdrawal shall affect the validity or applicability by the licensing authorities of states remaining party to the compact of any report of conviction occurring prior to the withdrawal.

Article IX. â■■

The provisions of this compact shall be severable and if any phrase, clause, sentence or provisions of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. Nonresident Violator Compact.

The Nonresident Violator Compact, called "the compact," is hereby enacted into law and entered into with all other jurisdictions legally joining therein in the form substantially as follows:

NONRESIDENT VIOLATOR COMPACT

Article I

Findings, Declaration of Policy and Purpose

(a) The party jurisdictions find that:

(1) In most instances, a motorist who is cited for a traffic violation in a jurisdiction other than the motorist's home jurisdiction:

(i) must post collateral or bond to secure appearance for trial at a later date; or

(ii) if unable to post collateral or bond, is taken into custody until the collateral or bond is posted; or

(iii) is taken directly to court for trial to be held.

(2) In some instances, the motorist's driver's license may be deposited as collateral to be returned after the motorist has complied with the terms of the citation.

(3) The purpose of the practices described in paragraphs (1) and (2) is to ensure compliance with the terms of a traffic citation by the motorist who, if permitted to continue travelling after receiving the traffic citation, could return to such motorist's home jurisdiction and disregard such motorist's duty under the terms of the traffic citation.

(4) A motorist receiving a traffic citation in the motorist's home jurisdiction is permitted, except for certain violations, to accept the citation from the officer at the scene of the violation and to immediately continue travelling after promising or being instructed to comply with the terms of the citation.

(5) The practice described in paragraph (1) causes unnecessary inconvenience and, at times, a hardship for the motorist who is unable at the time to post collateral, furnish a bond, stand trial, or pay the fine, and thus is compelled to remain in custody until some arrangement can be made.

(6) The deposit of a driver's license as a bail bond, as described in paragraph (2), is viewed with disfavor.

(7) The practices described herein consume an undue amount of law enforcement time.

(b) It is the policy of the party jurisdictions to:

(1) Seek compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles in each of the jurisdictions.

(2) Allow motorists to accept a traffic citation for certain violations and proceed on their way without delay whether or not the motorist is a resident of the jurisdiction in which the citation was issued.

(3) Extend cooperation to its fullest extent among the jurisdictions for obtaining compliance with the terms of a traffic citation issued in one jurisdiction to a resident of another jurisdiction.

(4) Maximize effective utilization of law enforcement personnel and assist court systems in the efficient disposition of traffic violations.

(c) The purpose of this compact is to:

(1) Provide a means through which the party jurisdictions may participate in a reciprocal program to effectuate the policies enumerated in paragraph (b) above in a uniform and orderly manner.

(2) Provide for the fair and impartial treatment of traffic violators operating within party jurisdictions in recognition of the motorist's right of due process and the sovereign status of a party jurisdiction.

Article II

Article III

Procedure for Issuing Jurisdiction

(b) Personal recognizance is acceptable only if not prohibited by law. If mandatory appearance is required, it should take place immediately following issuance of the citation.

(c) Upon failure of a motorist to comply with the terms of a traffic citation, the appropriate official shall report the failure to comply to the licensing authority of the jurisdiction in which the traffic citation was issued. The report shall be made in accordance with procedures specified by the issuing jurisdiction and shall contain information as specified in the compact manual as minimum requirements for effective processing by the home jurisdiction.

(d) Upon receipt of the report, the licensing authority of the issuing jurisdiction shall transmit to the licensing authority in the home jurisdiction of the motorist, the information in a form and content as contained in the compact manual.

(e) The licensing authority of the issuing jurisdiction need not suspend the privilege of a motorist for whom a report has been transmitted.

(f) The licensing authority of the issuing jurisdiction shall not transmit a report on any violation if the date of transmission is more than six months after the date on which the traffic citation was issued.

(g) The licensing authority of the issuing jurisdiction shall not transmit a report on any violation where the date of issuance of the citation predates the most recent of the effective dates of entry for the two jurisdictions affected.

Article IV

Procedure for Home Jurisdiction

(a) Upon receipt of a report of a failure to comply from the licensing authority of the issuing jurisdiction, the licensing authority of the home jurisdiction shall notify the motorist and initiate a suspension action, in accordance with the home jurisdiction's procedures, to suspend the motorist's driver's license until satisfactory evidence of compliance with the terms of the traffic citation has been furnished to the home jurisdiction licensing authority. Due process safeguards will be accorded.

(b) The licensing authority of the home jurisdiction shall maintain a record of actions taken and make reports to issuing jurisdictions as provided in the compact manual.

Article V

Applicability of Other Laws

Except as expressly required by provisions of this compact, nothing contained herein shall be construed to affect the right of any party jurisdiction to apply any of its other laws relating to license to drive to any person or circumstance, or to invalidate or prevent any driver license agreement or other cooperative arrangements between a party jurisdiction and a nonparty jurisdiction.

Article VI

Compact Administrator Procedures

(a) For the purpose of administering the provisions of this compact and to serve as a governing body for the resolution of all matters relating to the operation of this compact, a board of compact administrators is established. The board shall be composed of one representative from each party jurisdiction to be known as the compact administrator. The compact administrator shall be appointed by the jurisdiction executive and will serve and be subject to removal in accordance with the laws of the jurisdiction the administrator represents. A compact administrator may provide for the discharge of such administrator's duties and the performance of functions as a board member by an alternate. An alternate may not be entitled to serve unless written notification of the alternate's identity has been given to the board.

(2) Vehicular traffic facing a green arrow signal, shown alone or in combination with another indication, may enter the intersection cautiously only to make the movement indicated by such arrow, or such other movement as is permitted by other indications shown at the same time. Such vehicular traffic shall yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection.

(4) The driver of a motorcycle or a person riding a bicycle facing any steady red signal, which fails to change to a green light within a reasonable period of time because of a signal malfunction or because the signal has failed to detect the arrival of the motorcycle or bicycle because of its size or weight, shall have the right to proceed subject to the rules stated herein. After stopping, the driver or rider shall yield the right-of-way to any vehicle in or near the intersection or approaching on a roadway so closely as to constitute an immediate hazard during the time such driver or rider is moving across or within the intersection or junction of roadways. The risk and needs of the person shall be determined by use of a risk assessment tool specified by the Kansas sentencing commission. The law enforcement agency maintaining custody and control of a person for imprisonment shall cause a certified copy of the judgment form or journal entry to be sent to the supervision office designated by the court and upon expiration of the term of imprisonment shall deliver the person to a location designated by the supervision office designated by the court. After the term of imprisonment imposed by the court, the person shall be placed on supervision to community correctional services or court services, as determined by the court, for a mandatory one-year period of supervision, which such period of supervision shall not be reduced. During such supervision, the person shall be required to participate in a multidisciplinary model of services for substance use disorders facilitated by a Kansas department for aging and disability services designated care coordination agency to include assessment and, if appropriate, referral to a community based substance use disorder treatment including recovery management and mental health counseling as needed. The multidisciplinary team shall include the designated care coordination agency, the supervision officer, the Kansas department for aging and disability services designated treatment provider and the person. A person for whom a warrant has been issued by the court alleging a violation of this supervision shall be considered a fugitive from justice if it is found that the warrant cannot be served. If it is found that the person has violated the provisions of this supervision, the court shall determine whether the time from the issuing of the warrant to the date of the court's determination of an alleged violation, or any part of it, shall be counted as time served on supervision. Any violation of the conditions of such supervision may subject such person to revocation of supervision and imprisonment in jail for the remainder of the period of imprisonment, the remainder of the supervision period, or any combination or portion thereof. The term of supervision may be extended at the court's discretion beyond one year, and any violation of the conditions of such extended term of supervision may subject such person to the revocation of supervision and imprisonment in jail of up to the remainder of the original sentence, not the term of the extended supervision.

(4) In addition to the provisions of subsection (b)(1), prior to sentencing for any conviction pursuant to subsection (b)(1)(A) or (b)(1)(B), the court shall order the person to participate in an alcohol and drug evaluation conducted by a provider in accordance with K.S.A.

(c) Any person 18 years of age or older convicted of violating this section or an ordinance which prohibits the acts that this section prohibits who had one or more children under the age of 18 years in the vehicle at the time of the offense shall have such person's punishment enhanced by one month of imprisonment. This imprisonment must be served consecutively to any other minimum mandatory penalty imposed for a violation of this section or an ordinance which prohibits the acts that this section prohibits. Any enhanced penalty imposed shall not exceed the maximum sentence allowable by law. During the service of the enhanced penalty, the judge may order the person on house arrest, work release or other conditional release.

(e) The court may establish the terms and time for payment of any fines, fees, assessments and costs imposed pursuant to this section. Any assessment and costs shall be required to be paid not later than 90 days after imposed, and any remainder of the fine shall be paid prior to the final release of the person by the court.

(f) (1) In lieu of payment of a fine imposed pursuant to this section, the court may order that the person perform community service specified by the court. The person shall receive a credit on the fine imposed in an amount equal to $5 for each full hour spent by the person in the specified community service. The community service ordered by the court shall be required to be performed not later than one year after the fine is imposed or by an earlier date specified by the court. If by the required date the person performs an insufficient amount of community service to reduce to zero the portion of the fine required to be paid by the person, the remaining balance of the fine shall become due on that date.

(2) The court may, in its discretion, waive any portion of a fine imposed pursuant to this section, except the $250 required to be remitted to the state treasurer pursuant to subsection (q)(3), upon a showing that the person successfully completed court-ordered education or treatment.

Prior to sentencing under the provisions of this section, the court shall request and shall receive from the division a record of all prior convictions obtained against such person for any violations of any of the motor vehicle laws of this state.

(4) Any such ordinance or resolution shall authorize the court to order that the convicted person pay restitution to any victim who suffered loss due to the violation for which the person was convicted.

(m) (1) Upon the filing of a complaint, citation or notice to appear alleging a person has violated a city ordinance prohibiting the acts prohibited by this section, and prior to conviction thereof, a city attorney shall request and shall receive from the:

For the purpose of this subsection, entering into a diversion agreement pursuant to K.S.A.

12-4413

(a) (1) Notwithstanding any other provisions of the uniform act regulating traffic on highways, when a person is stopped by a police officer for any of the offenses described in subsection (d) and such person is not immediately taken before a judge of the district court, the police officer may require the person stopped, subject to the provisions of subsection (c), to deposit with the officer a valid Kansas driver's license in exchange for a receipt therefor issued by such police officer, the form of which shall be approved by the division of vehicles. Such receipt shall be recognized as a valid temporary Kansas driver's license authorizing the operation of a motor vehicle by the person stopped until the date of the hearing stated on the receipt. The driver's license and a written copy of the notice to appear shall be delivered by the police officer to the court having jurisdiction of the offense charged as soon as reasonably possible. If the hearing on such charge is continued for any reason, the judge may note on the receipt the date to which such hearing has been continued and such receipt shall be recognized as a valid temporary Kansas driver's license until such date, but in no event shall such receipt be recognized as a valid Kansas driver's license for a period longer than 30 days from the date set for the original hearing. Any person who has deposited a driver's license with a police officer under this subsection shall have such license returned upon final determination of the charge against such person.

(2) In the event the person stopped deposits a valid Kansas driver's license with the police officer and fails to appear in the district court on the date set for appearance, or any continuance thereof, and in any event within 30 days from the date set for the original hearing, the court shall forward such person's driver's license to the division of vehicles with an

Upon receipt of such person's driver's license, the division shall suspend such person's privilege to operate a motor vehicle in this state until such person appears before the court having jurisdiction of the offense charged, the court makes a final disposition thereof and notice of such disposition is given by the court to the division. No new or replacement license shall be issued to any such person until such notice of disposition has been received by the division. The provisions of K.S.A.

8-256

, and amendments thereto, limiting the suspension of a license to one year, shall not apply to suspensions for failure to appear as provided in this subsection.

(b) No person shall apply for a replacement or new driver's license prior to the return of such person's original license which has been deposited in lieu of bond under this section. Violation of this subsection is a class C misdemeanor. The division may suspend such person's driver's license for a period of not to exceed one year from the date the division receives notice of the disposition of the person's charge as provided in subsection (a).

(c) (1) In lieu of depositing a valid Kansas driver's license with the stopping police officer as provided in subsection (a), the person stopped may elect to give bond in the amount specified in subsection (d) for the offense for which the person was stopped. When such person does not have a valid Kansas driver's license, such person shall give such bond. If any of the approved bank card issuers redeem the bank card draft at a discounted rate, such discount shall be charged against the amount designated as the fine for the offense. If such bond is not forfeited, the amount of the bond less the discount rate shall be reimbursed to the person providing the bond by the use of a bank card draft. Any such guaranteed arrest bond certificate shall be signed by the person to whom it is issued and shall contain a printed statement that such surety company or automobile club guarantees the appearance of such person and will, in the event of failure of such person to appear in court at the time of trial, pay any fine or forfeiture imposed on such person not to exceed an amount to be stated on such certificate.

(3) Such cash bond shall be taken in the following manner: The police officer shall furnish the person stopped a stamped envelope addressed to the judge or clerk of the court named in the written notice to appear and the person shall place in such envelope the amount of the bond, and in the presence of the police officer shall deposit the same in the United States mail. After such cash payment, the person stopped need not sign the written notice to appear, but the police officer shall note the amount of the bond mailed on the notice to appear form and shall give a copy of such form to the person. If the person stopped furnishes the police officer with a guaranteed arrest bond certificate or bank card draft, the police officer shall give such person a receipt therefor and shall note the amount of the bond on the notice to appear form and give a copy of such form to the person stopped. Such person need not sign the written notice to appear, and the police officer shall present the notice to appear and the guaranteed arrest bond certificate or bank card draft to the court having jurisdiction of the offense charged as soon as reasonably possible.

If the driver fails to substantially comply with the traffic citation, the driving privileges will be suspended by the division of vehicles until the court determines the person has substantially complied with the terms of the traffic citation and the court shall immediately electronically notify the division of vehicles of such substantial compliance. Upon receipt of notification of such compliance from the informing court, the division of vehicles shall terminate the suspension action. (3) The clerk of the district court and the clerk of the municipal court shall make forms available to any person seeking to petition the court to waive or reduce traffic fines, court costs or reinstatement fees.

(f) Except as provided further, the reinstatement fee established in this section shall be the only fee collected or moneys in the nature of a fee collected for such reinstatement. non-judicial personnel.

The director may require the applicant for licensing to appear at such time and place as may be designated by the director for examination to enable the director to determine the accuracy of the facts contained in the written application, either for initial licensure or renewal thereof. Every application under this section shall be verified by the applicant.

(d) All licenses shall be granted or refused within 30 days after application is received by the director. All licenses, except licenses issued to salespersons, shall expire, unless previously suspended or revoked, on December 31 of the calendar year for which they are granted, except that where a complaint respecting the cancellation, termination or nonrenewal of a sales agreement is in the process of being heard, no replacement application shall be considered until a final order is issued by the director. Applications for renewals, except for renewals of licenses issued to salespersons, received by the director after February 15 shall be considered as new applications. All salespersons' licenses shall expire, unless previously suspended or revoked, on June 30 of the calendar year for which they are granted. Applications for renewals of salespersons' licenses received by the director after July 15 shall be considered as new applications. All licenses for supplemental places of business existing or issued on or after January 1, 1994, shall expire on December 31 of the calendar year for which they are granted, unless previously suspended or revoked.

Those doing so shall be required to pay a supplemental license fee of $35. In addition to any other requirements, new vehicle dealers seeking to establish supplemental places of business shall also comply with the provisions of K.S.A.

8-2430

through

8-2432

, and amendments thereto. A new vehicle dealer establishing a supplemental place of business in a county other than such dealer's county of licensure but within such dealer's area of responsibility as defined in such dealer's franchise agreement shall be licensed only to do business as a new motor vehicle dealer in new motor vehicles at such supplemental place of business. Original inspections by the division of a proposed established place of business shall be made at no charge except that a $30 fee shall be charged by the division for each additional inspection the division must make of such premises in order to approve the same.

(g) The license of all persons licensed under the provisions of this act shall state the address of the established place of business, office, branch or supplemental place of business and must be conspicuously displayed therein. A change of address of the established place of business, office or branch to a different county shall require a new license and payment of the required fees but such new license and fees shall not be required for a change of address of a supplemental place of business, with respect to a new vehicle dealer, to a different county but within the dealer's area of responsibility as defined in their franchise agreement.

(h) Every salesperson, factory representative or distributor representative shall carry on their person a certification that the person holds a valid state license. The certification shall name the person's employer and shall be displayed upon request. An original copy of the state license for a vehicle salesperson shall be mailed or otherwise delivered by the

division to the employer of the salesperson for public display in the employer's established place of business. When a salesperson ceases to be employed as such, the former employer shall mail or otherwise return the original copy of the employee's state license to the division. A salesperson, factory representative or distributor representative who terminates employment with one employer may file an application with the director to transfer the person's state license in the name of another employer. The application shall be accompanied by a $12 transfer fee. A salesperson, factory representative or distributor representative who terminates employment, and does not transfer the state license, shall mail or otherwise return the certification that the person holds a valid state license to the division.

(i) If the director has reasonable cause to doubt the financial responsibility or the compliance by the applicant or licensee with the provisions of this act, the director may require the applicant or licensee to furnish and maintain a bond in such form, amount and with such sureties as the director approves, but such amount shall be not less than $5,000 nor more than $20,000, conditioned upon the applicant or licensee complying with the provisions of the statutes applicable to the licensee and as indemnity for any loss sustained by a retail or wholesale buyer or seller of a vehicle by reason of any act by the licensee constituting grounds for suspension or revocation of the license. Every applicant or licensee who is or applies to be a used vehicle dealer or a new vehicle dealer shall furnish and maintain a bond in such form, amount and with such sureties as the director approves, conditioned upon the applicant or licensee complying with the provisions of the statutes applicable to the licensee and as indemnity for any loss sustained by a retail or wholesale buyer or seller of a vehicle by reason of any act by the licensee in violation of any act which constitutes grounds for suspension or revocation of the license. The amount of such bond shall be $50,000. To comply with this subsection, every bond shall be a corporate surety bond issued by a company authorized to do business in the state of Kansas and shall be executed in the name of the state of Kansas for the benefit of any aggrieved retail or wholesale buyer or seller of a vehicle. The aggregate liability of the surety for all breaches of the conditions of the bond in no event shall exceed the amount of such bond. The surety on the bond shall have the right to cancel the bond by giving 30 days' notice to the director, and thereafter the surety shall be relieved of liability for any breach of condition occurring after the effective date of cancellation. Bonding requirements shall not apply to first or second stage manufacturers, factory branches, factory representatives or salespersons. Upon determination by the director that a judgment from a Kansas court of competent jurisdiction is a final judgment and that the judgment resulted from an act in violation of this act or would constitute grounds for suspension, revocation, refusal to renew a license or administrative fine pursuant to K.S.A.

8-2411

, and amendments thereto, the proceeds of the bond on deposit or in lieu of bond provided by subsection (j), shall be paid. The determination by the director under this subsection is hereby specifically exempted from the Kansas administrative procedure act and the Kansas judicial review act. Any proceeding to enforce payment against a surety following a determination by the director shall be prosecuted by the judgment creditor named in the final judgment sought to be enforced. Upon a finding by the court in such enforcement proceeding that a surety has wrongfully failed or refused to pay, the court shall award reasonable attorney fees to the judgment creditor.

(j) An applicant or licensee may elect to satisfy the bonding requirements of subsection (i) by depositing with the state treasurer cash, negotiable bonds of the United States or of the state of Kansas or negotiable certificates of deposit of any bank organized under the laws of the United States or of the state of Kansas. The amount of cash, negotiable bonds of the United States or of the state of Kansas or negotiable certificates of deposit of any bank organized under the laws of the United States or of the state of Kansas deposited with the state treasurer shall be in an amount of not less than $50,000. When negotiable bonds or negotiable certificates of deposit have been deposited with the state treasurer to satisfy the bonding requirements of subsection (i), such negotiable bonds or negotiable certificates of deposit shall remain on deposit with the state treasurer for a period of not less than two years after the date of delivery of the certificate of title to the motor vehicle which was the subject of the last motor vehicle sales transaction in which the licensee engaged prior to termination of the licensee's license. In the event a licensee elects to deposit a surety bond in lieu of the negotiable bonds or negotiable certificates of deposit previously deposited with the state treasurer, the state treasurer shall not release the negotiable bonds or negotiable certificates of deposits until at least two years after the date of delivery of the certificate of title to the motor vehicle which was the subject of the last motor vehicle sales transaction in which the licensee engaged prior to the date of the deposit of the surety bond. The cash deposit or market value of any such securities shall be equal to or greater than the amount of the bond required for the bonded area and any interest on those funds shall accrue to the benefit of the depositor.

(k) No license shall be issued by the director to any person to act as a new or used dealer, wholesaler, broker, salvage vehicle dealer, auction motor vehicle dealer, vehicle crusher, vehicle recycler, rebuilder, scrap metal recycler, salvage vehicle pool, second stage manufacturer, first stage converter, second stage converter or distributor unless the applicant for the vehicle dealer's license maintains an established place of business which has been inspected and approved by the division. First stage manufacturers, factory branches, factory representatives, distributor branches, distributor representatives and lending agencies are not required to maintain an established place of business to be issued a license.

(l) Dealers required under the provisions of this act to maintain an established place of business shall own or have leased and use sufficient lot space to display vehicles at least equal in number to the number of dealer license plates the dealer has had assigned.

(m) A sign with durable lettering at least 10 inches in height and easily visible from the street identifying the established place of business shall be displayed by every vehicle dealer. Notwithstanding the other provisions of this subsection, the height of lettering of the required sign may be less than 10 inches as necessary to comply with local zoning regulations.

(n) If the established or supplemental place of business or lot is zoned, approval must be secured from the proper zoning authority and proof that the use complies with the applicable zoning law, ordinance or resolution must be furnished to the director by the applicant for licensing.

(o) An established or supplemental place of business, otherwise meeting the requirements of this act may be used by a dealer to conduct more than one business, provided that suitable space and facilities exist therein to properly conduct the business of a vehicle dealer.

(p) If a supplemental place of business is not operated on a continuous, year-round basis, the dealer shall give the department 15 days' notice as to the dates on which the dealer will be engaged in business at the supplemental place of business.

(q) Any vehicle dealer selling, exchanging or transferring or causing to be sold, exchanged or transferred new vehicles in this state must satisfactorily demonstrate to the director that such vehicle dealer has a bona fide franchise agreement with the first or second stage manufacturer or distributor of the vehicle, to sell, exchange or transfer the same or to cause to be sold, exchanged or transferred.

No person may engage in the business of buying, selling or exchanging new motor vehicles, either directly or indirectly, unless such person holds a license issued by the director for the make or makes of new motor vehicles being bought, sold or exchanged, or unless a person engaged in such activities is not required to be licensed or acts as an employee of a licensee and such acts are only incidentally performed. For the purposes of this section, engaged in the business of buying, selling or exchanging new motor vehicles, either directly or indirectly, includes: (1) Displaying new motor vehicles on a lot or showroom; (2) advertising new motor vehicles, unless the person's business primarily includes the business of broadcasting, printing, publishing or advertising for others in their own names; or (3) regularly or actively soliciting or referring buyers for new motor vehicles.

(r) No person may engage in the business of buying, selling or exchanging used motor vehicles, either directly or indirectly, unless such person holds a license issued by the director for used motor vehicles being bought, sold or exchanged, or unless a person engaged in such activities is not required to be licensed or acts as an employee of a licensee and such acts are only incidentally performed. For the purposes of this section, engaged in the business of buying, selling or exchanging used motor vehicles, either directly or indirectly, includes: (1) Displaying used motor vehicles on a lot or showroom; (2) advertising used motor vehicles, unless the person's business primarily includes the business of broadcasting, printing, publishing or advertising for others in their own names; or (3) regularly or actively soliciting buyers for used motor vehicles.

(s) The director of vehicles shall publish a suitable Kansas vehicle salesperson's manual. Before a vehicle salesperson's license is issued, the applicant for an original license shall be required to pass a written examination based upon information in the manual. Thereafter, any salesperson licensee may be required to be re-tested at the discretion of the director based upon terms and conditions established by the director.

(t) No new license shall be issued nor any license renewed to any person to act as a salvage vehicle dealer until the division has received evidence of compliance with the junkyard and salvage control act as set forth in K.S.A.

68-2201

et seq., and amendments thereto.

(u) On and after the effective date of this act, no person shall act as a broker in the advertising, buying or selling of any new or used motor vehicle. Nothing herein shall be construed to prohibit a person duly licensed under the requirements of this act from acting as a broker in buying or selling a recreational vehicle as defined by K.S.A.

75-1212

(f), and amendments thereto, when the recreational vehicle subject to sale or purchase is a used recreational vehicle that has been previously titled and independently owned by another person for a period of 45 days or more, or is a new or used recreational vehicle repossessed by a creditor holding security in such vehicle.

(v) Nothing in this section shall be construed to prohibit a person not otherwise required to be licensed under this act from selling such person's own vehicle as an isolated and occasional sale.

, and amendments thereto. The term of such policy shall be continuous and shall remain in full force and effect until canceled under proper notice. All policies shall be issued in the name of the holder or applicant for the vehicle dealer's license and shall provide public liability and property damage insurance for the operation of any vehicle by prospective purchasers, owned or being offered for sale by the dealer when being operated by the owner or seller, the seller's agent, servants, employees, prospective customers or other persons. The limits of liability shall correspond to the amount required by law in this state for bodily injury or death of any one person, bodily injury or death in any one accident and property damage. Such insurance, when issued by an authorized insurer, may not be cancelled unless 30 days' notice by the insurance carrier has been given in writing to the director. (a) The annual fee for the first dealer license plate is $275, and the annual fee for additional dealer license plates shall be an amount equal to the amount required to register a passenger vehicle having a gross weight of less than 4,500 pounds, except that the annual fee for dealer license plates used by trailer dealers on trailers which they have purchased or own and are holding for resale shall be $25 for each plate. To determine the number of dealer license plates the dealer needs, the director may base the decision on the dealer's past sales, inventory and any other pertinent factors as the director may determine. After the end of the first year of licensure as a dealer, not more than one dealer license plate shall be issued to any dealer who has not reported to the division the sale of at least five motor vehicles in the preceding year. There shall be no refund of fees for dealer license plates in the event of suspension, revocation or voluntary cancellation of a license. The director is hereby authorized to designate by identifying symbols on a dealer's license plate the type of dealer's license that the person has been issued. 8-2435

, and amendments thereto.

(b) In addition to the provisions of subsection (a), and notwithstanding the terms and conditions of any franchise agreement, including any policy, bulletin, practice or guideline with respect thereto or performance thereunder, no first or second stage manufacturer of vehicles, factory branch, distributor, distributor or factory representative, officer or agent or any representative thereof, or any other person may do or cause to be done any of the following acts or practices referenced in this subsection, all of which are also declared to be a violation of the vehicle dealers and manufacturers licensing act, and amendments thereto:

(A) Pay any extra fee;

(C) remodel, renovate or recondition the dealer's existing facilities as a prerequisite to receiving a model or series of vehicles. The provisions of this subsection shall not apply to manufacturers of recreational vehicles;

(2) require a change in the capital structure of the new vehicle dealership, or the means by or through which the dealer finances the operation of the dealership, if the dealership at all times meets any reasonable capital standards determined by the manufacturer and in accordance with uniformly applied criteria;

(3) discriminate unreasonably among competing dealers of the same line-make in the sale of vehicles or availability of incentive programs or sales promotion plans or other similar programs, unless justified by obsolescence;

(4) unless required by subpoena or as otherwise compelled by law:

(A) Require a new vehicle dealer to release, convey or otherwise provide customer information if to do so is unlawful, or if the customer objects in writing to doing so, unless the information is necessary for the first or second stage manufacturer of vehicles, factory branch or distributor to meet its obligations to consumers or the new vehicle dealer, including vehicle recalls or other requirements imposed by state or federal law; or

(B) release to any unaffiliated third party any customer information which has been provided by the dealer to the manufacturer;

(5) unless the parties have reached a voluntary agreement where separate and adequate consideration has been offered and accepted in exchange for altering or foregoing the following limitations, through the use of written instrument, or otherwise:

(A) Prohibit or prevent a dealer from acquiring, adding or maintaining a sales or service operation for another line-make at the same or expanded facility at which the dealership is located if the prohibition or prevention of such arrangements would be unreasonable in light of all existing circumstances including, but not limited to, debt exposure, cost, return on investment, the dealer's and manufacturer's business plans and other financial and economic conditions and considerations;

(B) require a dealer to establish or maintain exclusive facilities, personnel or display space if the imposition of the requirement would be unreasonable in light of all existing circumstances, including, but not limited to, debt exposure, cost, return on investment, the dealer's and manufacturer's business plans and other financial and economic conditions and considerations;

The requirement for a dealer to meet reasonable facilities requirements shall not include any requirement that a dealer establish or maintain exclusive facilities.

In the event a dealer decides to add an additional franchise agreement to sell another line-make of new vehicles of a different first or second stage manufacturer or distributor from that currently sold in its existing facility, it shall be a rebuttable presumption that the decision to do so is reasonable. Any dealer adding a franchise agreement for an existing facility shall provide 60 days written notice of its intent to those other parties to franchise agreements it may have. The other party must respond to such notice within 60 days by requesting a hearing before the director in accordance with K.S.A.

8-2411

, and amendments thereto. Consent shall be deemed to have been given approving the addition of the line-make if no hearing is timely requested. A party objecting to the addition shall have the burden to overcome such presumption by a preponderance of the evidence;

(7) (A) through the use of written instrument, or otherwise, directly or indirectly condition the awarding of a franchise agreement to a prospective dealer, the addition of a line-make or franchise agreement to an existing dealer, the renewal of a franchise agreement, the approval of a dealer or facility relocation, the acquisition of a franchise agreement or the approval of a sale or transfer of a franchise agreement or other arrangement on the willingness of a dealer or a prospective dealer to enter into a site control agreement or exclusive use agreement as defined in this subsection;

(B) as used in this paragraph, "site control agreement" and "exclusive use agreement" include any agreement by or required by the first or second stage manufacturer of vehicles, factory branch or distributor ("manufacturer parties" in this paragraph) that has the effect of either:

(i) Requiring that the dealer establish or maintain exclusive dealership facilities in violation of the dealer and manufacturers licensing act;

(ii) restricting the ability of the dealer, or the ability of the dealer's lessor in the event the dealership facility is being leased, to transfer, sell, lease or change the use of the dealership premises, whether by sublease, lease, collateral pledge of lease or other similar agreement; or

(iii) which gives control of the premises to a designated party. "Site control agreement" and "exclusive use agreement" also include manufacturer parties restricting the ability of a dealer to transfer, sell or lease the dealership premises by right of first refusal to purchase or lease, option to purchase, or option to lease, except as otherwise allowed by K.S.A.

8-2416

, and amendments thereto, except that voluntary agreements where separate and adequate consideration has been offered and accepted are excluded;

(8) through the use of written instrument, or otherwise, require adherence to a performance standard or standards which are not applied uniformly to other similarly situated dealers. In addition to any other requirements by law, the following shall apply:

(A) A performance standard, sales objective or program for measuring dealer performance that may have a material effect on a dealer, including the dealer's right to payment under any incentive or reimbursement program and the application of the standard, sales objective or program by a manufacturer, distributor or factory branch shall be fair, reasonable, equitable and based on accurate information;

(B) a dealer that claims that the application of a performance standard, sales objective or program for measuring dealership performance does not meet the standards listed in subparagraph (A) may request a hearing before the director pursuant to K.S.A.

8-2411

, and amendments thereto; and

(C) a first or second stage manufacturer of vehicles, factory branch or distributor has the burden of proving by a preponderance of the evidence that the performance standard, sales objective or program for measuring dealership information complies with this subsection;

(9) in addition to any other provisions of law, a franchise agreement or other contract offered to a dealer by a first or second stage manufacturer of vehicles, factory branch or distributor may not contain any provision requiring a dealer to pay the attorney's fees of the first or second stage manufacturer of vehicles, factory branch or distributor related to disputes between the parties.

(c) The director may deny the application for the license within 30 days after receipt thereof by written notice to the applicant, stating the grounds for such denial. Upon request by the applicant whose license has been so denied, the applicant shall be granted an opportunity to be heard in accordance with the provisions of the Kansas administrative procedure act.

(d) If a licensee is a firm or corporation, it shall be sufficient cause for the denial, suspension or revocation of a license that any officer, director or trustee of the firm or corporation, or any member in case of a partnership, has been guilty of any act or omission which would be good cause for refusing, suspending or revoking a license to such party as an individual. Each licensee shall be responsible for the acts of its salespersons or representatives while acting as its agent.

(e) Any licensee or other person aggrieved by a final order of the director, may appeal to the district court as provided by the Kansas judicial review act.

(f) The revocation or suspension of a first or second stage manufacturer's or distributor's license may be limited to one or more municipalities or counties or any other defined trade area.

KSA 8-2411 — Violations; hearing; penalties; appeals

Violations; hearing; penalties; appeals.

(a) When any licensee is found to be allegedly violating any of the applicable provisions of this act, or any order or rule and regulation adopted pursuant thereto, the director upon the director's own motion or upon complaint may commence a hearing against the licensee, which hearing shall be conducted in accordance with the provisions of the Kansas administrative procedure act.

(b) Any person who is found to have violated any applicable provisions of this act, any rule and regulation adopted pursuant thereto or any applicable order of the director shall be subject to a civil penalty of not less than $50 nor more than $1,000 for each violation or such person's license may be suspended or revoked or both civil penalty and license suspension or revocation, except that in addition to any civil penalty imposed pursuant to this subsection, the director shall suspend or revoke the license of any person who is found to have violated the provisions of K.S.A.

, and amendments thereto, for three consecutive months.

In the event mediation is requested, any time frame applicable for taking action under the dealers and manufacturers licensing act shall be deemed stayed or tolled, as the case may be until the mediation is completed. The mediation shall be nonbinding, unless the parties reach agreement resolving the dispute.

KSA 8-2414 — Cancellation, termination or nonrenewal of franchise agreements between dealers and manufacturers or distributors; cause; hearing; burden of proof; compensation upon termination; effect of noncompliance by manufacturer or distributor

Cancellation, termination or nonrenewal of franchise agreements between dealers and manufacturers or distributors; cause; hearing; burden of proof; compensation upon termination; effect of noncompliance by manufacturer or distributor.

(a) No franchise agreement entered into between a vehicle dealer and a first or second stage manufacturer or distributor may be cancelled, terminated or not renewed by the first or second stage manufacturer or distributor unless 90 days notice has been given to the vehicle dealer and the director, which notice must state in full the reasons and causes for the cancellation, termination or nonrenewal of such franchise agreement, except that in the event of a showing of fraud, insolvency or failure to perform in the ordinary course of business, a notice of not less than 15 days may be approved by the director, with notice thereof to such vehicle dealer and upon written application by such first or second stage manufacturer or distributor. A notice required under this subsection shall be given by certified mail and the period of time given in the notice prior to cancellation, termination or nonrenewal shall be computed from the date of mailing thereof.

(b) A vehicle dealer, within a period of time equal to that provided for in the notice filed pursuant to subsection (a), may file a complaint with the director against a first or second stage manufacturer or distributor challenging the reasons and causes given for the proposed cancellation, termination or nonrenewal of the franchise agreement. Upon a complaint being filed, the director shall promptly set the matter for public hearing, in accordance with K.S.A.

8-2411

, and amendments thereto, for the purpose of determining whether there has been a violation of K.S.A.

8-2410

, and amendments thereto, or whether good cause exists for cancellation, termination or nonrenewal of the franchise agreement in accordance with the dealers and manufacturers licensing act. Notwithstanding the provisions of K.S.A.

8-2411

, and amendments thereto, the hearing may be set for a time which is not less than the number of days provided in the notice given pursuant to subsection (a), from the date the director gives notice thereof.

(c) The franchise agreement shall remain in full force and effect pending the determination by the director of the issues involved as provided by this act. If the director determines that the first or second stage manufacturer or distributor is acting in violation of this act or that good cause does not exist for the proposed action, the director shall order for the franchise agreement to be kept in full force and effect.

(d) The burden of proof shall be on the first or second stage manufacturer or distributor to show by a preponderance of the evidence that it did not act arbitrarily or unreasonably and that good cause did exist for the proposed cancellation,

termination or nonrenewal of the franchise agreement. The director shall order that the franchise agreement may be cancelled, terminated or not renewed if the director finds, after a hearing that the licensed vehicle dealer is acting in violation of this act or that the judgment of the first or second stage manufacturer or distributor is with good cause and the vehicle dealer's default is material.

(e) (1) In the event of cancellation, termination or nonrenewal of a franchise agreement, good cause as used in this section shall mean the failure of the new vehicle dealer to effectively carry out the performance provisions of the franchise agreement if all of the following have occurred:

(A) The new vehicle dealer was given notice by the first or second stage manufacturer or distributor of the failure prior to the notice of cancellation, termination or nonrenewal as required by subsection (a);

(B) the notification stated that the notice of failure of performance was provided pursuant to this article;

(C) the new vehicle dealer was afforded a reasonable opportunity to carry out the franchise agreement; and

(D) the failure continued for more than one year after the date notification was given.

(2) In the event of cancellation, termination or nonrenewal of a franchise agreement, good cause shall not exist where there has been a violation by the first or second stage manufacturer or distributor of K.S.A.

8-2410

, and amendments thereto, or any other provision of the dealers and manufacturers licensing act. Additionally, notwithstanding any agreement, the following alone shall not constitute good cause for the termination, cancellation or nonrenewal of a franchise agreement:

(A) A change in ownership of the new vehicle dealer's dealership. This subparagraph does not authorize any change in ownership which would have the effect of a sale or an assignment of the franchise agreement or a change in the principal management of the dealership without the first or second stage manufacturer's or distributor's prior written consent;

(B) the refusal of the new vehicle dealer to purchase or accept delivery of any new motor vehicles, parts, accessories or any other commodity or services not ordered by the new vehicle dealer;

(C) the fact that the new vehicle dealer owns, has an investment in, participates in the management of or holds a franchise agreement for the sale or service of another make or line of new motor vehicles, or that the new vehicle dealer has established another make or line of new motor vehicles or service in the same dealership facilities as those of the first or second stage manufacturer or distributor;

(D) the fact that the new vehicle dealer sells or transfers ownership of the dealership or sells or transfers capital stock in the dealership to the new vehicle dealer's spouse, son or daughter, except that the sale or transfer shall not have the effect of a sale or an assignment of the franchise agreement without the first or second stage manufacturer's or distributor's prior written consent or approved as allowed by K.S.A.

8-2416

, and amendments thereto.

(f) (1) In event of cancellation, termination or nonrenewal of a franchise agreement, whether voluntary or involuntary, the first or second stage manufacturer or distributor shall pay the new vehicle dealer, at a minimum:

(A) Dealer net acquisition cost for any new, undamaged and unsold new motor vehicle inventory purchased from the first or second stage manufacturer or distributor within 12 months prior to the receipt of notice of termination, cancellation or nonrenewal, provided the new motor vehicle has less than 500 miles registered on the odometer, not including mileage incurred in delivery to the new vehicle dealer or in transporting the vehicle between dealers for sale or delivery, plus any cost to the new vehicle dealer for returning the vehicle inventory to the first or second stage manufacturer or distributor;

(B) the dealer price listed in the current list or catalog or, if unavailable, the list or catalog actually utilized within the 12 months previous to termination, cancellation or nonrenewal, as the case may be, for any new, unused and undamaged parts, supplies, and accessories acquired from a first or second stage manufacturer, or distributor, or a source approved or recommended by it, less applicable allowances specified in advance of dealer purchase, plus 5% of the catalog or list price, as the case may be, for the cost of packing and returning the parts, supplies and accessories to the first or second stage manufacturer or distributor. Parts, supplies or accessories which are reconditioned or subject to reconditioning or rebuilding or other return in the ordinary course of business which are considered to be core parts in the trade practice and usage of the industry shall be valued for payment purposes at their core value, the price listed in the catalog or list

referenced above or the amount paid for expedited return of core parts, whichever is higher;

(C) fair market value for furnishings required to be purchased by the first or second stage manufacturer or distributor and signs which bear the trademark or trade name of the first or second stage manufacturer or distributor which were required or recommended to be purchased or leased from the first or second stage manufacturer or distributor, or their approved sources;

(D) dealer cost for special tools and equipment required to be purchased or leased by the first or second stage manufacturer or distributor within three years of the date of termination, cancellation or nonrenewal;

(E) dealer cost for computers and data processing systems which are in usable condition and were leased or purchased within three years of the date of termination, cancellation or nonrenewal of the franchise agreement up to an amount equal to the cost of meeting the minimum standards and requirements for the dealer to participate in promotional or incentive programs or perform the franchise agreement;

(F) the cost of transporting, handling, packing and loading of signs, special tools, equipment and furnishings.

(2) Upon termination, cancellation or nonrenewal of a franchise agreement by the first or second stage manufacturer or distributor, the first or second stage manufacturer or distributor shall also pay to the new vehicle dealer a sum equal to the current fair rental value of its established place of business for a period of one year from the effective date of termination, cancellation or nonrenewal, or the remainder of the lease, whichever is less. If the new vehicle dealer owns the dealership facilities, the first or second stage manufacturer or distributor shall pay the new vehicle dealer a sum equivalent to the reasonable rental value of the dealership facilities for one year or until the facilities are leased or sold, whichever is less. The rental payment required under this subsection is only required to the extent that the established place of business was being used for activities under the franchise agreement and only to the extent such facilities were not leased for unrelated purposes. The first or second stage manufacturer or distributor shall not be required to make the payment set forth under this subsection if the basis of the cancellation, termination or nonrenewal of such franchise agreement under this act is due to conviction of the dealer of a felony or any crime involving moral turpitude, or if the dealer has been adjudged guilty of the violation of any law of any state or the United States in connection with such person's operation as a dealer.

(3) To the extent the franchise agreement provides for payment or reimbursement to the new vehicle dealer in excess of that specified in this section, the provisions of the franchise agreement shall control.

(4) The first or second stage manufacturer or distributor shall pay the new vehicle dealer the sums specified in this subsection within 90 days after the tender of the property, subject to the new vehicle dealer providing evidence of good and clear title upon return of the property to the first or second stage manufacturer or distributor.

(5) Nothing in this subsection shall preclude or prohibit the first or second stage manufacturer or distributor or vehicle dealer from agreeing to other terms for additional payment or reimbursement, except that such terms shall include, at a minimum, the payment or reimbursement requirements contained in this subsection.

(6) The provisions of this subsection shall not apply to voluntary termination by dealers of recreational vehicles or to where the new vehicle dealer has voluntarily terminated its franchise agreement in conjunction with the sale of the business.

(g) Failure of the first or second stage manufacturer or distributor to give proper notice or maintain the franchise agreement in full force and effect pending determination by the director pursuant to this act, or to abide by the final order of the director, shall be cause for the director to refuse to issue a license to a replacement vehicle dealer or to a dealership which would be conducting business in the same trade area and selling the same make of vehicles where the vehicle dealer in question was engaged in business.

KSA 8-2415 — Correction of warranty defects; compensation to dealer; promotional allowances or incentive payments; claim for reimbursement from dealer

Correction of warranty defects; compensation to dealer; promotional allowances or incentive payments; claim for reimbursement from dealer.

(a) A first or second stage manufacturer or distributor shall pay reasonable compensation to any authorized new vehicle dealer who performs work to rectify warranty defects in the first or second stage manufacturer's or distributor's product.

(b) A first or second stage manufacturer or distributor shall pay any authorized new vehicle dealer all promotional allowances or other incentive payments submitted by the dealer as provided by the applicable provisions of such

programs subject to the applicable requirements of this act.

(c) (1) (A) A first or second stage manufacturer or distributor shall specify in writing to each of the first or second stage manufacturer's or distributor's dealers operating in this state the dealer's obligations for preparation, delivery and warranty services related to the first or second stage manufacturer's or distributor's products.

(B) The first or second stage manufacturer or distributor shall compensate the dealer for the warranty services that the first or second stage manufacturer or distributor requires the dealer to provide, including warranty and recall obligations related to repairing and servicing motor vehicles of the first or second stage manufacturer or distributor and all parts and components authorized by the manufacturer to be installed in or manufactured for installation in such motor vehicles.

(2) The first or second stage manufacturer or distributor shall provide to the dealer a schedule of compensation that specifies reasonable compensation that the first or second stage manufacturer or distributor will pay to the dealer for such warranty services, including for parts, labor and diagnostics.

(A) In determining the schedule of compensation for parts, the first or second stage manufacturer or distributor may multiply the price paid by the dealer for parts, including all shipping costs and other charges, by the sum of one and the dealer's average percentage markup. The dealer's average percentage markup is calculated by subtracting one from the result of dividing the total amounts charged by the dealer for parts used in warranty-like repairs by the total cost to the dealer for the parts in the retail service orders submitted pursuant to subparagraph (C).

(B) In determining the schedule of compensation for labor-related warranty services, the first or second stage manufacturer or distributor may calculate the dealer's retail labor rate by dividing the total amount of retail sales attributable to labor for warranty-like services by the number of hours of labor spent to generate the retail sales in the retail service orders submitted pursuant to subparagraph (C).

(C) (i) The dealer may establish its average percentage markup for parts or its labor rate by submitting to the first or second stage manufacturer or distributor copies of 100 sequential retail service orders paid by the dealer's customers, or all of the dealer's retail service orders paid by the dealer's customers in a 90-day period, whichever is less, for services provided within the previous 180-day period. The first or second stage manufacturer or distributor shall not consider retail service orders or portions of retail service orders attributable to routine maintenance such as tire service or oil service.

(ii) Within 30 days of receiving the dealer's submission, the first or second stage manufacturer or distributor may choose to audit the submitted orders. The first or second stage manufacturer or distributor shall then approve or deny the establishment of the dealer's average percentage markup or labor rate. If the first or second stage manufacturer or distributor approves the establishment of the dealer's average percentage markup or labor rate, the markup or rate calculated under this subparagraph shall go into effect 45 days after the date of the first or second stage manufacturer's or distributor's approval. If the first or second stage manufacturer or distributor denies the establishment of the dealer's average percentage markup or labor rate, the dealer may file a complaint with the director of vehicles, and a hearing shall be held as provided by K.S.A.

8-2411

, and amendments thereto. The first or second stage manufacturer or distributor shall have the burden of proof to establish that the first or second stage manufacturer's or distributor's denial was reasonable. If the director of vehicles finds that the denial was not reasonable, the denial shall be deemed a violation of this section and the director of vehicles shall then determine the dealer's average percentage markup or labor rate for purposes of calculating a reasonable schedule of compensation. In making such a determination, the director of vehicles shall not consider retail service orders or portions of retail service orders attributable to routine maintenance such as tire service or oil service.

(iii) A first or second stage manufacturer or distributor shall not require a dealer to establish an average percentage markup or labor rate by a methodology, or by requiring the submission of information, that is unduly burdensome or time-consuming to the dealer, including, but not limited to, requiring part-by-part or transaction-by-transaction calculations.

(iv) A dealer shall not request a change in the dealer's average percentage markup or labor rate more than once in any one-year period.

(3) The compensation to the dealer for warranty parts and labor shall not be less than the rates charged by the dealer for like parts and services to retail customers, provided the rates are reasonable.

(d) A first or second stage manufacturer or distributor shall not require unreasonable proof to establish compensation under this section, nor act unreasonably to delay payments or adjustments in the rate or charge for particular warranty work, promotional allowances or other incentive payments as circumstances or changes may justify or require such adjustments. A claim for compensation shall not be divided or the amount to be reimbursed reduced if the new vehicle dealer has reasonably substantiated the claim. A new vehicle dealer's failure to comply with the specific requirements of processing a claim may not constitute grounds for denial of the claim or reduction of the amount of compensation paid to the dealer if the dealer presents reasonable documentation or other evidence to substantiate the claim. If the claim is for warranty work, whether or not it includes parts, repairs or services, then the amount of compensation for the claims shall not be reduced or disallowed on the grounds the dealer failed to submit the claim fewer than 60 days after the dealer completed the work underlying the claim.

(e) A claim made by a new motor vehicle dealer for compensation under this section shall be either approved or disapproved within 30 days after the claim is submitted to the first or second stage manufacturer or distributor in the manner and on the forms the first or second stage manufacturer or distributor reasonably prescribes. An approved claim shall be paid within 30 days after its approval. If a claim is not specifically disapproved in writing or by electronic transmission within 30 days after the date on which the first or second stage manufacturer or distributor receives it, the claim shall be considered to be approved and payment shall follow within 30 days. A first or second stage manufacturer or distributor retains the right to audit claims for warranty work for a period of one year after the date on which the claim is paid and to chargeback any amounts paid on claims that are false or unsubstantiated. A first or second stage manufacturer or distributor retains the right to audit claims for promotional allowances or other incentive payments submitted by the dealer for a period of one year after the date on which the claim is paid and to chargeback any amounts paid on claims that are false or unsubstantiated. If there is evidence of fraud, this subsection does not limit the right of the manufacturer to audit for longer periods and chargeback for any fraudulent claim, subject to the limitation period under K.S.A.

60-513

(a)(3), and amendments thereto, in addition to any other available remedy. A claim for reimbursement by the first or second stage manufacturer or distributor of sums due following an audit must be presented to the dealer within 90 days of the audit of the item subject to the claim. A first or second stage manufacturer or distributor may not setoff or otherwise take control over funds owned, or under the control of the new vehicle dealer, or which are in an account designated for the new vehicle dealer when such action is based upon the findings of an audit or other claim with respect thereto until a final decision is issued with respect to any challenge or appeal by either party of any such audit or claim. This section may be enforced pursuant to K.S.A.

8-2411

, and amendments thereto.

KSA 8-2416 — Sale, transfer or assignment of dealership, notice and limitations; disapproval procedure; duties of manufacturer or distributor; appointment of successor

Sale, transfer or assignment of dealership, notice and limitations; disapproval procedure; duties of manufacturer or distributor; appointment of successor.

(a) A vehicle dealer shall not transfer, assign or sell a franchise agreement or interest in a dealership to another person unless the dealer first gives written notice to the first or second stage manufacturer or distributor of the dealer's decision to make such transfer, assignment or sale. The dealer shall provide the first or second stage manufacturer or distributor with any completed application forms and related information generally utilized by the first or second stage manufacturer or distributor to conduct its review of prospective new vehicle dealers, and a copy of all agreements regarding the proposed transfer, assignment or sale.

(b) The first or second stage manufacturer or distributor shall send a letter by certified mail to the dealer within 60 days of receipt of the information specified in subsection (a). The letter shall indicate any disapproval of the transfer, assignment or sale and shall specifically set forth the reasons for the disapproval. If the first or second stage manufacturer or distributor does not respond by letter within the 60-day period, its consent to the proposed transfer, assignment or sale is deemed to have been granted. A first or second stage manufacturer or distributor shall not arbitrarily or unreasonably withhold approval of the transfer, assignment or sale of a franchise agreement or an interest in a dealership. The first or second stage manufacturer or distributor may not approve or reject only a part of an agreement for the transfer,

assignment or sale, but must accept or reject the whole agreement. If the first or second stage manufacturer or distributor rejects an agreement, it may indicate changes to the agreement which would cause it to accept the proposed agreement. An agreement may not be rejected merely because it provides provisions which operate in the future, an option to undertake or refrain from an action, or because it is to operate over an extended period of time or as an installment agreement.

(c) Within 90 days after receipt of a notice of disapproval as provided in subsection (b), the new vehicle dealer may file a complaint with the director with respect to the first or second stage manufacturer or distributor's failure to approve the proposed transfer, assignment or sale. When such a complaint has been filed, the director shall inform the first or second stage manufacturer or distributor that a timely complaint has been filed and a hearing is required in accordance with the provisions of K.S.A.

8-2411

, and amendments thereto, to determine whether good cause exists to disapprove the transfer, assignment or sale. A disapproval shall not be final until the director or the director's designee makes a final determination as to good cause.

(d) A first or second stage manufacturer or distributor shall not fail or refuse to approve the transfer, assignment or sale of the business and assets of a new vehicle dealer, or refuse to continue the franchise agreement with the prospective transferee after the holding of a hearing on the complaint if the director or the director's designee determines that good cause does not exist for the first or second stage manufacturer or distributor to fail or refuse to approve such transfer, assignment or sale. The burden of proof shall be on the first or second stage manufacturer or distributor to show by a preponderance of the evidence that the disapproval of the transfer, assignment or sale was with good cause and the refusal is not unjust, unfair, inequitable or otherwise in violation of the dealers and manufacturers licensing act. Material factors to be considered may include, but are not limited to:

(1) Whether the basic financial and facility requirements of the franchise agreement will be met by the proposed transfer, assignment or sale;

(2) whether the proposed purchaser, transferee or assignee is capable of operating, managing and supervising such business; and

(3) the extent to which the refusal to approve will have a substantial and adverse effect upon the dealer's investment or return on investment.

(e) The first or second stage manufacturer or distributor shall have a right of first refusal to acquire the new vehicle dealer's assets or ownership in the event of a proposed change of all or substantially all of the dealer's ownership, or the transfer of all or substantially all of the new vehicle dealer's assets, if all of the following are met:

(1) The first or second stage manufacturer or distributor notifies the dealer in writing within the 60-day limit established under subsection (b) of its intent to exercise its right of first refusal;

(2) the exercise of the right of first refusal will result in the dealer and dealer's owners receiving consideration, terms and conditions that either are the same as or greater than that which they have contracted to receive in connection with the proposed change of all or substantially all of the dealer's ownership, or the transfer of all or substantially all of the new vehicle dealer's assets;

(3) the proposed change of all or substantially all of the dealership's ownership or the transfer of all or substantially all of the new vehicle dealer's assets does not involve the transfer of assets or the transfer or issuance of stock by the dealer or one or more dealer owners to a designated family member or members, including the spouse, child or grandchild, spouse of a child or grandchild, brother, sister or parent of the dealer owner, or one or more dealer owners, or to a qualified manager, or to a partnership or corporation controlled by any such person; or to a trust arrangement established or to be established for the purpose of allowing the new vehicle dealer to continue to qualify as such a dealer, so long as the new vehicle dealer continues to qualify as such pursuant to the first or second stage manufacturer or distributor's standards, or provides for the succession of the franchise agreement to designated family members or qualified management in the event of the death or incapacity of the dealer or its principal owner or owners; and

(4) except as otherwise provided in this subsection, the first or second stage manufacturer or distributor agrees to pay the reasonable expenses, including reasonable attorney fees, which do not exceed the usual, customary and reasonable fees charged for similar work done for other clients, incurred by the proposed owner or transferee prior to the first or second stage manufacturer or distributor's exercise of its right of first refusal in negotiating and implementing the contract for the proposed change of all or substantially all of the dealer ownership, or the transfer of all or substantially all of the new

vehicle dealer's assets. No payment of expenses and attorney fees shall be required if the dealer has not submitted or caused to be submitted an accounting of those expenses within 20 days of the dealer's receipt of the first or second stage manufacturer or distributor's written request for such an accounting. Such an expense accounting may be requested by a first or second stage manufacturer or distributor before exercising its right of first refusal.

Franchise agreements; prohibiting manufacturers from engaging in certain activities.

(a) As used in this section:

(1) "Manufacturer" means a first or second stage manufacturer of vehicles, factory branch, distributor or factory representative, officer or agent or any representative thereof;

(2) "substantial reimbursement" means an amount equal to or greater than the cost of the savings that would result if the dealer were to utilize a vendor of the dealer's own selection instead of using the vendor identified by the manufacturer; and

(3) "goods" does not include moveable displays, brochures and promotional materials containing material subject to the intellectual property rights of the manufacturer.

(b) Notwithstanding the terms and conditions of any franchise agreement, including any policy, bulletin, practice or guideline with respect thereto or performance thereunder, and in addition to the other provisions of the vehicle dealers and manufacturers licensing act, K.S.A.

8-2401

et seq., and amendments thereto:

(1) No manufacturer shall coerce or require any vehicle dealer to construct improvements to facilities or install new signs or other franchise or image elements that replace or substantially alter improvements, signs or franchise or image elements completed within the past 10 years that were required and approved by the manufacturer or one of its contractors or affiliates. For the purposes of this subsection, the term "substantially alter" does not include routine maintenance, including, but not limited to, interior painting that is reasonably necessary to keep a dealer facility in attractive condition.

(2) The 10-year period set forth under this section shall begin to run for a vehicle dealer, including that dealer's successors and assigns, on the date that the manufacturer gave final written approval of the facility, facility improvements or installation of signs or other franchise or image elements or the date that the dealer receives a certificate of occupancy, whichever is later.

(3) (A) No manufacturer shall require a vehicle dealer to purchase goods or services to make improvements to the dealer's facilities from a vendor selected, identified or designated by the manufacturer or one of its contractors or affiliates by agreement, program, incentive provision or bulletin or otherwise without allowing or making available to the dealer the option to obtain goods or services of substantially similar kind, quality and overall design from a vendor chosen by the dealer and approved by the manufacturer, except that approval by the manufacturer shall not be unreasonably withheld and the dealer's option to select a vendor shall not be available if the manufacturer provides substantial reimbursement for the goods or services offered.

(B) This section is not intended to prohibit a manufacturer from requiring changes or updates to signs that contain the manufacturer brand, logo or other intellectual property protected by federal intellectual property law more frequently than

every 10 years, provided the manufacturer offers the dealer compensation for the sign or pays for the sign if sign changes are required more than every five years.

(4) A manufacturer shall not use sales or service performance criteria for the purpose of canceling, terminating or non-renewing a franchise agreement or otherwise rely upon such criteria for purposes related to K.S.A.

8-2414

or

8-2416

, and amendments thereto, that fail to meet the requirements of this subsection. A standard measuring sales or service performance of any new vehicle dealer of the manufacturer shall not use criteria that:

(A) Are unfair, unreasonable, arbitrary or inequitable; or

(B) do not consider the relevant and material local and state or regional criteria, including prevailing economic conditions affecting the sales or service performance of a vehicle dealer or any relevant and material data and facts presented by the dealer in writing. Relevant and material criteria, data or facts include, but are not limited to: (i) Those motor vehicle dealerships of comparable size and comparable markets; (ii) demographics in the new vehicle dealer's area; (iii) geographic and market characteristics in the new vehicle dealer's area; (iv) the proximity of other new vehicle dealers of the same line and make; (v) the proximity of motor vehicle manufacturing facilities; (vi) the buying patterns and consumer preferences of motor vehicle purchases; and (vii) customer drive time and distance. If such performance measurement criteria are based in whole or in part on a survey, that survey must be based on a statistically significant and valid random sample or must survey a majority of new vehicle retail sales and warranty service customers of the dealer if the survey is one measuring customer satisfaction of the dealer's sales or service operations. A manufacturer, contractor or common entity or an affiliate that enforces against any vehicle dealer any such performance measurement criteria shall, upon the request of the dealer, describe in writing to the dealer, in detail, how the performance measurement criteria were calculated and uniformly applied and shall also provide any data upon which it relied in reaching the performance standard and applying it to the dealer.

(c) This section shall be a part of and supplemental to the vehicle dealers and manufacturers licensing act.

KSA 8-2446 — Recall repairs; compensation by manufacturer

Recall repairs; compensation by manufacturer.

(a) As used in this section:

(1) "Manufacturer" means a first or second stage manufacturer of vehicles, factory branch, distributor or factory representative, officer or agent or any representative thereof or any other person acting on their behalf;

(2) "stop-sale order" means a notification or its equivalent issued by a manufacturer to its franchised new vehicle dealer stating that certain motor vehicles in inventory shall not be sold or leased, at either retail or wholesale, due to a federal safety recall for a defect or noncompliance or a federal emissions recall; and

(3) "do-not-drive order" means a notification or its equivalent issued by the national highway traffic safety administration that prohibits the sale or operation of certain motor vehicles held in inventory due to a federal safety recall for a defect or non-compliance or a federal emissions recall.

(b) (1) A manufacturer shall compensate its new vehicle dealers for all labor and parts required to perform recall repairs. Compensation for recall repairs shall be reasonable. If parts or a remedy are not reasonably available to perform a recall service or repair on a used vehicle held for sale by a vehicle dealer authorized to sell and service new vehicles of the same line-make within 30 days of the manufacturer issuing the initial notice of recall, and the manufacturer has issued a stop-sale or do-not-drive order on the vehicle, then the manufacturer shall compensate the dealer at the prorated rate of at least 1% of the value of the vehicle per month beginning on the date that is 30 days after the date on which the stop-sale or do-not-drive order was provided to the dealer until the earlier of either:

(A) The date the recall or remedy parts are made available; or

(B) the date the dealer sells, trades or otherwise disposes of the affected used motor vehicle.

(2) The value of a used vehicle shall be the average trade-in value for used vehicles as indicated in an independent third party guide for the year, make and model of the recalled vehicle.

(3) In the alternative, a manufacturer may compensate its new vehicle dealers subject to a stop-sale or do-not-drive order under a national recall compensation program, provided that the compensation under the program is equal to or greater than that provided under this subsection, or the manufacturer and dealer otherwise agree.

(c) This section shall apply only to used vehicles subject to safety or emissions recalls pursuant to, and recalled in accordance with, federal law as well as rules and regulations adopted thereunder where a stop-sale or do-not-drive order has been issued and repair parts or remedy parts remain unavailable for 30 days or longer. Furthermore, this section shall apply only to new vehicle dealers holding an affected used vehicle for sale:

(1) In inventory at the time the stop-sale or do-not-drive order was issued; or

(2) that was taken into the used vehicle inventory of the dealer as a consumer trade-in incident to the purchase of a new vehicle from the dealer after the stop-sale or do-not-drive order was issued; and

(3) that are a line-make that the dealer is franchised to sell or on which the dealer is authorized to perform recall repairs.

(d) It shall be a violation of this section for a manufacturer to reduce the amount of compensation otherwise owed to a new vehicle dealer, or otherwise retaliate, whether through a chargeback, removal of the individual dealer from an incentive program or reduction in the amount owed under an incentive program or any other means, solely because the new vehicle dealer has made or submitted a claim for reimbursement under this section. This subsection shall not apply to an action by a manufacturer that is applied uniformly among all dealers of the same line-make in the state.

(e) A manufacturer may direct the manner and method in which a vehicle dealer must demonstrate the inventory status and identification of the affected used vehicle to determine eligibility under this section, provided that the manner and method may not be unduly burdensome and may not require information that is unduly burdensome to provide.

(f) Nothing in this section shall require a manufacturer to provide total compensation to a vehicle dealer for any single unit that would exceed the total average trade-in value of the affected used motor vehicle as originally determined under subsection (b).

(g) Any remedy provided to a vehicle dealer under this section is exclusive and may not be combined with any other state or federal recall compensation remedy. It shall not be deemed to supersede or otherwise replace the provisions of K.S.A.

21-5102

(e) The period within which a prosecution shall be commenced shall not include any period in which:

(1) The accused is absent from the state;

(2) the accused is concealed within the state so that process cannot be served upon the accused;

(3) the fact of the crime is concealed;

(4) a prosecution is pending against the defendant for the same conduct, even if the indictment or information which commences the prosecution is quashed or the proceedings thereon are set aside, or are reversed on appeal;

(5) an administrative agency is restrained by court order from investigating or otherwise proceeding on a matter before it as to any criminal conduct defined as a violation of any of the provisions of article 41 of chapter 25 and article 2 of chapter 46 of the Kansas Statutes Annotated, and amendments thereto, which may be discovered as a result thereof regardless of who obtains the order of restraint; or

(6) whether the fact of the crime is concealed by the active act or conduct of the accused, there is substantially competent evidence to believe two or more of the following factors are present:

(A) The victim was a child under 15 years of age at the time of the crime;

(B) the victim was of such age or intelligence that the victim was unable to determine that the acts constituted a crime;

(C) the victim was prevented by a parent or other legal authority from making known to law enforcement authorities the fact of the crime whether or not the parent or other legal authority is the accused; and

(D) there is substantially competent expert testimony indicating the victim psychologically repressed such victim's memory of the fact of the crime, and in the expert's professional opinion the recall of such memory is accurate and free of undue manipulation, and substantial corroborating evidence can be produced in support of the allegations contained in the complaint or information but in no event may a prosecution be commenced as provided in subsection (e)(6) later than the date the victim turns 28 years of age. Corroborating evidence may include, but is not limited to, evidence the defendant committed similar acts against other persons or evidence of contemporaneous physical manifestations of the crime.

(f) An offense is committed either when every element occurs, or, if a legislative purpose to prohibit a continuing offense plainly appears, at the time when the course of conduct or the defendant's complicity therein is terminated. Time starts to run on the day after the offense is committed.

(g) A prosecution is commenced when a complaint or information is filed, or an indictment returned, and a warrant thereon is delivered to the sheriff or other officer for execution. No such prosecution shall be deemed to have been commenced if the warrant so issued is not executed without unreasonable delay.

(h) As used in this section, "parent or other legal authority" shall include, but not be limited to, natural and stepparents, grandparents, aunts, uncles or siblings.

KSA 21-5108 — Burden of proof; defendant presumed innocent

Burden of proof; defendant presumed innocent.

(a) In all criminal proceedings, the state has the burden to prove beyond a reasonable doubt that a defendant is guilty of a crime. This standard requires the prosecution to prove beyond a reasonable doubt each required element of a crime.

(b) A defendant is presumed to be innocent until proven guilty. When there is a reasonable doubt as to which of two or more degrees of a crime the defendant is guilty, the defendant shall be convicted of the lowest degree only. When there is a reasonable doubt as to a defendant's guilt, the defendant shall be found not guilty.

(c) A defendant is entitled to an instruction on every affirmative defense that is supported by competent evidence. Competent evidence is that which could allow a rational fact finder to reasonably conclude that the defense applies. Once the defendant satisfies the burden of producing such evidence, the state has the burden of disproving the defense beyond a reasonable doubt.

(d) Issues raised under K.S.A.

21-5106

,

21-5107

and

21-5110

, and amendments thereto, are not affirmative defenses under subsection (c).

KSA 21-5109 — Multiple prosecutions for same act; lesser included crimes

Multiple prosecutions for same act; lesser included crimes.

(a) When the same conduct of a defendant may establish the commission of more than one crime under the laws of this state, the defendant may be prosecuted for each of such crimes. Each of such crimes may be alleged as a separate count

in a single complaint, information or indictment.

(b) Upon prosecution for a crime, the defendant may be convicted of either the crime charged or a lesser included crime, but not both. A lesser included crime is:

(1) A lesser degree of the same crime, except that there are no lesser degrees of murder in the first degree under subsection (a)(2) of K.S.A.

21-5402

, and amendments thereto;

(2) a crime where all elements of the lesser crime are identical to some of the elements of the crime charged;

(3) an attempt to commit the crime charged; or

(4) an attempt to commit a crime defined under paragraph (1) or (2).

(c) Whenever charges are filed against a person, accusing the person of a crime which includes another crime of which the person has been convicted, the conviction of the lesser included crime shall not bar prosecution or conviction of the crime charged if the crime charged was not consummated at the time of conviction of the lesser included crime, but the conviction of the lesser included crime shall be annulled upon the filing of such charges. Evidence of the person's plea or any admission or statement made by the person in connection therewith in any of the proceedings which resulted in the person's conviction of the lesser included crime shall not be admissible at the trial of the crime charged. If the person is convicted of the crime charged, or of a lesser included crime, the person so convicted shall receive credit against any prison sentence imposed or fine to be paid for the period of confinement actually served or the amount of any fine actually paid under the sentence imposed for the annulled conviction.

(d) Unless otherwise provided by law, when crimes differ only in that one is defined to prohibit a designated kind of conduct generally and the other to prohibit a specific instance of such conduct, the defendant:

(1) May not be convicted of the two crimes based upon the same conduct; and

(2) shall be sentenced according to the terms of the more specific crime.

(e) A defendant may not be convicted of identical offenses based upon the same conduct. The prosecution may choose which such offense to charge and, upon conviction, the defendant shall be sentenced according to the terms of that offense.

KSA 21-5110 — Effect of former prosecution

Effect of former prosecution.

(a) A prosecution is barred if the defendant was formerly prosecuted for the same crime, based upon the same facts, if such former prosecution:

(1) Resulted in either a conviction or an acquittal or in a determination that the evidence was insufficient to warrant a conviction;

(2) was terminated by a final order or judgment, even if entered before trial, which required a determination inconsistent with any fact or legal proposition necessary to a conviction in the subsequent prosecution; or

(3) was terminated without the consent of the defendant after the defendant had been placed in jeopardy, except where such termination shall have occurred by reason of:

(A) The illness or death of an indispensable party;

(B) the inability of the jury to agree; or

(C) the impossibility of the jury arriving at a verdict.

A conviction of an included crime is an acquittal of the offense charged.

(b) A prosecution is barred if the defendant was formerly prosecuted for a different crime, or for the same crime based upon different facts, if such former prosecution:

(1) Resulted in either a conviction or an acquittal and the subsequent prosecution is for a crime or crimes of which evidence has been admitted in the former prosecution and which might have been included as other counts in the complaint, indictment or information filed in such former prosecution or upon which the state then might have elected to rely; or was for a crime which involves the same conduct, unless each prosecution requires proof of a fact not required in

the other prosecution, or the crime was not consummated when the former trial began;

(2) was terminated by a final order or judgment, even if entered before trial, which required a determination inconsistent with any fact necessary to a conviction in the subsequent prosecution; or

(3) was terminated without the consent of the defendant after the defendant had been placed in jeopardy, except where such termination shall have occurred by reason of:

(A) The illness or death of an indispensable party;

(B) the inability of the jury to agree; or

(C) the impossibility of the jury arriving at a verdict, and the subsequent prosecution is for an offense of which the defendant could have been convicted if the former prosecution had not been terminated improperly.

(c) A prosecution is barred if the defendant was formerly prosecuted in a district court of the United States or in a state court of general jurisdiction of another state or in the municipal court of any city of this state for a crime which is within the concurrent jurisdiction of this state, if such former prosecution:

(1) Resulted in either a conviction or an acquittal, and the subsequent prosecution is for the same conduct, unless each prosecution requires proof of a fact not required in the other prosecution, or the offense was not consummated when the former trial began; or

(2) was terminated by a final order or judgment, even if entered before trial, which required a determination inconsistent with any fact necessary to a conviction in the prosecution in this state.

(d) A prosecution is not barred under this section:

(1) By a former prosecution before a court which lacked jurisdiction over the defendant or the offense;

(2) by a former prosecution procured by the defendant without the knowledge of a prosecuting officer authorized to commence a prosecution for the maximum offense which might have been charged on the facts known to the defendant, and with the purpose of avoiding the sentence which otherwise might be imposed; or

(3) if subsequent proceedings resulted in the invalidation, setting aside, reversal or vacating of the conviction, unless the defendant was adjudged not guilty.

(e) In no case where a conviction for a lesser included crime has been invalidated, set aside, reversed or vacated shall the defendant be subsequently prosecuted for a higher degree of the crime for which such defendant was originally convicted.

(f) A defendant is in jeopardy when such defendant is put on trial in a court of competent jurisdiction upon an indictment, information or complaint sufficient in form and substance to sustain a conviction, and in the case of trial by jury, when the jury has been impaneled and sworn, or where the case is tried to the court without a jury, when the court has begun to hear evidence.

(b) This section shall be a part of and supplemental to the Kansas criminal code.

KSA 21-5201 — Requirements of voluntary act or omission

Requirements of voluntary act or omission.

(a) A person commits a crime only if such person voluntarily engages in conduct, including an act, an omission or possession.

(b) A person who omits to perform an act does not commit a crime unless a law provides that the omission is an offense or otherwise provides that such person has a duty to perform the act.

KSA 21-5202 — Culpable mental state; definition of intentionally, knowingly, recklessly

Culpable mental state; definition of intentionally, knowingly, recklessly.

(a) Except as otherwise provided, a culpable mental state is an essential element of every crime defined by this code. A culpable mental state may be established by proof that the conduct of the accused person was committed "intentionally," "knowingly" or "recklessly."

(b) Culpable mental states are classified according to relative degrees, from highest to lowest, as follows:

(1) Intentionally;

(2) knowingly;

(3) recklessly.

(c) Proof of a higher degree of culpability than that charged constitutes proof of the culpability charged. If recklessness suffices to establish an element, that element also is established if a person acts knowingly or intentionally. If acting knowingly suffices to establish an element, that element also is established if a person acts intentionally.

(d) If the definition of a crime does not prescribe a culpable mental state, a culpable mental state is nevertheless required unless the definition plainly dispenses with any mental element.

(e) If the definition of a crime does not prescribe a culpable mental state, but one is nevertheless required under subsection (d), "intent," "knowledge" or "recklessness" suffices to establish criminal responsibility.

(f) If the definition of a crime prescribes a culpable mental state that is sufficient for the commission of a crime, without distinguishing among the material elements thereof, such provision shall apply to all the material elements of the crime, unless a contrary purpose plainly appears.

(g) If the definition of a crime prescribes a culpable mental state with regard to a particular element or elements of that crime, the prescribed culpable mental state shall be required only as to specified element or elements, and a culpable mental state shall not be required as to any other element of the crime unless otherwise provided.

(h) A person acts "intentionally," or "with intent," with respect to the nature of such person's conduct or to a result of such person's conduct when it is such person's conscious objective or desire to engage in the conduct or cause the result. All crimes defined in this code in which the mental culpability requirement is expressed as "intentionally" or "with intent" are specific intent crimes. A crime may provide that any other culpability requirement is a specific intent.

(i) A person acts "knowingly," or "with knowledge," with respect to the nature of such person's conduct or to circumstances surrounding such person's conduct when such person is aware of the nature of such person's conduct or that the circumstances exist. A person acts "knowingly," or "with knowledge," with respect to a result of such person's conduct when such person is aware that such person's conduct is reasonably certain to cause the result. All crimes defined in this code in which the mental culpability requirement is expressed as "knowingly," "known," or "with knowledge" are general intent crimes.

(j) A person acts "recklessly" or is "reckless," when such person consciously disregards a substantial and unjustifiable risk that circumstances exist or that a result will follow, and such disregard constitutes a gross deviation from the standard of care which a reasonable person would exercise in the situation.

KSA 21-5203 — Guilt without culpable mental state, when

Guilt without culpable mental state, when.

A person may be guilty of a crime without having a culpable mental state if the crime is:

(c) a violation of K.S.A.

8-1567

or

8-1567a

, and amendments thereto;

22-4901

et seq., and amendments thereto.

KSA 21-5204 — Culpable mental state; exclusions

Culpable mental state; exclusions.

Proof of a culpable mental state does not require proof:

(a) Of knowledge of the existence or constitutionality of the statute under which the accused is prosecuted, or the scope or meaning of the terms used in that statute; or

(b) that the accused had knowledge of the age of a minor, even though age is a material element of the crime with which the accused is charged.

KSA 21-5205 — Intoxication

Intoxication.

(a) The fact that a person charged with a crime was in an intoxicated condition at the time the alleged crime was committed is a defense only if such condition was involuntarily produced and rendered such person substantially incapable of knowing or understanding the wrongfulness of such person's conduct and of conforming such person's conduct to the requirements of law.

(b) An act committed while in a state of voluntary intoxication is not less criminal by reason thereof, but when a particular intent or other state of mind is a necessary element to constitute a particular crime, the fact of intoxication may be taken into consideration in determining such intent or state of mind.

KSA 21-5206 — Compulsion

Compulsion.

(a) A person is not guilty of a crime other than murder or voluntary manslaughter by reason of conduct which such person performs under the compulsion or threat of the imminent infliction of death or great bodily harm, if such person reasonably believes that death or great bodily harm will be inflicted upon such person or upon such person's spouse, parent, child, brother or sister if such person does not perform such conduct.

(b) The defense provided by this section is not available to a person who intentionally or recklessly places such person's self in a situation in which such person will be subjected to compulsion or threat.

Ignorance or mistake.

(a) A person's ignorance or mistake as to a matter of either fact or law, except as provided in K.S.A.

21-5204

, and amendments thereto, is a defense if it negates the existence of the culpable mental state which the statute prescribes with respect to an element of the crime.

(b) A person's reasonable belief that such person's conduct does not constitute a crime is a defense if:

KSA 21-5208 — Entrapment

Entrapment.

A person is not guilty of a crime if such person's criminal conduct was induced or solicited by a public officer or such officer's agent for the purposes of obtaining evidence to prosecute such person, unless:

(a) The public officer or such officer's agent merely afforded an opportunity or facility for committing the crime in furtherance of a criminal purpose originated by such person or a co-conspirator; or

(b) The crime was of a type which is likely to occur and recur in the course of such person's business, and the public officer or such officer's agent in doing the inducing or soliciting did not mislead such person into believing such person's conduct to be lawful.

KSA 21-5209 — Defense of lack of mental state

Defense of lack of mental state.

It shall be a defense to a prosecution under any statute that the defendant, as a result of mental disease or defect, lacked the culpable mental state required as an element of the crime charged. Mental disease or defect is not otherwise a defense.

KSA 21-5210 — Liability for crimes of another

Liability for crimes of another.

(a) A person is criminally responsible for a crime committed by another if such person, acting with the mental culpability required for the commission thereof, advises, hires, counsels or procures the other to commit the crime or intentionally aids the other in committing the conduct constituting the crime.

(b) A person liable under subsection (a) is also liable for any other crime committed in pursuance of the intended crime if reasonably foreseeable by such person as a probable consequence of committing or attempting to commit the crime intended.

(c) A person liable under this section may be charged with and convicted of the crime although the person alleged to have directly committed the act constituting the crime:

(1) Lacked criminal or legal capacity;

(2) has not been convicted;

(3) has been acquitted; or

(4) has been convicted of some other degree of the crime or of some other crime based on the same act.

KSA 21-5212 — Individual liability for corporate crime

Individual liability for corporate crime.

(a) An individual who performs criminal acts, or causes such acts to be performed, in the name of or on behalf of a corporation is legally responsible to the same extent as if such acts were in the person's own name or on the person's own behalf.

(b) An individual who has been convicted of a crime based on conduct performed by such individual for and on behalf of a corporation is subject to punishment as an individual upon conviction of such crime, although a lesser or different

punishment is authorized for the corporation.
