The total number of barrels of beer that the permit holder may sell and deliver under this clause in a calendar year may not exceed thirty thousand (30,000) barrels of beer. (B) Be the proprietor of a restaurant that is not subject to the minimum gross food sales or the minimum projected food sales set forth in 905 IAC 1-41-2. (C) Hold a beer retailer's permit, a wine retailer's permit, or a liquor retailer's permit for a restaurant established under clause (B). The delivery to a consumer may be made only in a quantity at any one (1) time of not more than one-half (1/2) barrel, but the beer may be contained in bottles or other permissible containers. (I) Sell the brewery's beer as authorized by this section for carryout on Sunday in a quantity at any one (1) time of not more than five hundred seventy-six (576) ounces. A brewer's beer may be sold under this clause at any address for which the brewer holds a brewer's permit issued under this chapter if the address is located within the same city boundaries in which the beer was manufactured. (J) With the approval of the commission, participate: (i) individually; or (ii) with other permit holders under this chapter, holders of artisan distiller's permits, holders of farm winery permits, or any combination of holders described in this item; in a trade show or an exposition at which products of each permit holder participant are displayed, promoted, and sold. (L) Transfer beer from a building described in clause (K) back to the brewery. (O) Receive liquor from the holder of a distiller's permit issued under IC 7.1-3-7 or the holder of an artisan distiller's permit under IC 7.1-3-27 that is located in the same county as the brewery for the purpose of carbonating and canning the liquor. Upon the completion of canning of the liquor, the product must be returned to the original production facility within forty-eight (48) hours. The activity under this clause is not an interest under IC 7.1-5-9. (P) Receive beer from another permit

holder under this subdivision for the purpose of bottling and packaging the beer. Upon completion of bottling and packaging the beer, the product must be returned to the original permit holder who manufactured the beer. The number of barrels of beer that a permit holder receives, bottles, and packages under this clause may not exceed the number of barrels of beer that the permit holder produced from raw materials at the licensed premises of the permit holder in the same calendar year. The activity under this clause is not an interest under IC 7.1-5-9. (Q) Sell or transfer beer directly to a food manufacturer located in Indiana that is registered with the federal Food and Drug Administration for the purpose of adding or integrating the beer into a product or recipe. All records required by the federal Alcohol and Tobacco Tax and Trade Bureau regarding the number of barrels of beer produced from raw materials at the licensed premises of a permit holder must be made available to the commission upon request. The activity under this clause is not an interest under IC 7.1-5-9. (6) If the brewer's brewery manufactures more than ninety thousand (90,000) barrels of beer in a calendar year for sale or distribution within Indiana, the permit holder may own a portion of the corporate stock of another brewery that: (A) is located in the same county as the brewer's brewery; (B) manufactures less than ninety thousand (90,000) barrels of beer in a calendar year; and (C) is the proprietor of a restaurant that operates under subdivision (5). (7) Provide complimentary samples of beer that are: (A) produced by the brewer; and (B) offered to consumers for consumption on the brewer's premises. (8) Own a portion of the corporate stock of a sports corporation that: (A) manages a minor league baseball stadium located in the same county as the brewer's brewery; and (B) holds a beer retailer's permit, a wine retailer's permit, or a liquor retailer's permit for a restaurant located in that stadium. (9) For beer described in IC 7.1-1-2-3(a)(4): (A) may allow transportation to and consumption of the beer on the licensed premises; and (B) may not sell, offer to sell, or allow sale of the beer on the licensed premises. (b) This section does not apply to a retailer's permit that is issued or transferred to the following: (1) A city market under IC 7.1-3-20-25. (2) A marina under IC 7.1-3-1-25. (3) A state park under IC 7.1-3-17.8. (4) A golf course. (5) A hotel or resort hotel. (6) A social or fraternal club. (7) A restaurant, the proprietor of which is the holder of: (A) a brewer's permit under IC 7.1-3-2-7(5); (B) a farm winery permit under IC 7.1-3-12-5; or (C) an artisan distiller's permit under IC 7.1-3-27-8. (8) A specialty or gourmet market (as defined in IC 7.1-1-3-45.5). This exception applies only to a retailer's permit with carryout privileges that was initially issued in September 2019. (c) Except as provided in subsections (d)

and (e), after May 14, 2017, a retailer permittee may not sell alcoholic beverages for carryout unless at least sixty percent (60%) of the retailer permittee's gross retail income from the sale of alcoholic beverages is derived from the sale of alcoholic beverages for consumption on the licensed premises. (d) This subsection applies only to a retailer's permit with carryout privileges that was issued to the current permit holder before November 1, 2016. Notwithstanding IC 7.1-3-1-1.5, a retailer permittee may continue to sell carryout after May 14, 2017, and is not required to comply with the gross retail income requirements. (e) This subsection applies to a retailer's permit with carryout privileges that was initially: (1) issued; or (2) transferred to the premises location; after October 31, 2016, and before May 15, 2017. Notwithstanding IC 7.1-3-1-1.5, a retailer permittee may continue to sell carryout after May 14, 2017, and is not required to comply with the gross retail income requirements until the retailer's permit is renewed. A retailer permittee may be issued a letter of extension, and subsequent renewals of the extension under IC 7.1-3-1-3.1 but the permit term may not be extended past April 1, 2018. A retailer permittee may continue to sell carryout while the extension is in effect. If the permit is transferred as to ownership or to a location that is not exempt under subsection (b), the gross retail income requirements of this section apply upon transfer of the permit. (f) Except for a retailer permittee described in subsection (d), a retailer permittee that has carryout privileges must apply for renewal of the carryout privileges when applying for renewal of the retailer's permit. The retailer permittee must provide the commission with a financial statement with information that shows the dollar amounts and percentages of the retailer permittee's gross retail income that is derived from sales of alcoholic beverages: (1) for consumption on the licensed premises; and (2) for carryout; during the one hundred eighty (180) days preceding the date of the application for renewal. (g) For subsequent applications for renewal, the commission may allow a retailer permittee to submit to the commission an affidavit of compliance that is signed by the permittee, or by a responsible officer or partner, under the penalties of perjury, that states that the requirements of subsection (c) continue to be met. If the commission has reasonable grounds to doubt the truthfulness of an affidavit of compliance, the commission may require the retailer permittee to provide audited financial statements. (h) If an applicant for renewal of carryout privileges does not meet the requirements of subsection (c) and the commission denies the application, the applicant may apply for a reinstatement of carryout privileges with the permittee's next application for renewal of the retailer's permit that is made in accordance with subsection (i). (i) An applicant: (1) for a retailer's permit and carryout privileges that has not opened for business; or (2) for carryout privileges that: (A) is the holder of a retailer's permit for an operating business; and (B) has had the previous application for carryout privileges or renewal of carryout privileges denied by the commission; must provide the commission with a verified certification stating that the projected gross retail income from alcoholic beverage sales during the business's first two (2) years of operations with carryout privileges will meet the requirements of subsection (c). Not more than one hundred eighty (180) days after the date the applicant begins or resumes alcoholic beverage sales with carryout privileges, the applicant shall provide a financial statement with sufficient information to show that during the first one hundred twenty (120) days of business operations with carryout privileges, sixty percent (60%) of the gross retail income from all alcoholic beverage sales was derived from sales of alcoholic beverages for consumption on the premises. (j) The commission may: (1) require that a financial statement submitted by an applicant under this chapter be audited by a certified public accountant; and (2) with the cooperation of the department of state revenue, verify the information provided by the applicant. (k) The information provided to the commission under this chapter regarding gross retail income is confidential information and may not be disclosed to the public under IC 5-14-3. However, the commission may disclose the information: (1) to the department of state revenue to verify the accuracy of the amount of gross retail income from sales of alcoholic beverages; and (2) in any administrative or judicial proceeding to revoke or suspend the holder's permit as a result of a discrepancy in the amount of gross retail income from sales of alcoholic beverages discovered by the department of state revenue. (l) Notwithstanding IC 6-8.1-7-1 or any other law, in fulfilling its obligations under this section, the department of state revenue may provide confidential information to the commission. The commission shall maintain the confidentiality of information provided by the department of state revenue under this chapter. However, the commission may disclose the information in any administrative or judicial proceeding to revoke or suspend the holder's permit as a result of any information provided by the department of state revenue. (m) If the commission does not grant or renew a retailer permittee's carryout privileges, the denial shall not affect the other rights, privileges, and restrictions of the retailer's permit, including the retailer permittee's ability to sell alcoholic beverages for on-premises consumption. (7) The contract between the bureau and a qualified service provider must include provisions specifically prohibiting the qualified service provider from using information concerning vehicle titles for any commercial, marketing, business, or other purpose not specifically contemplated by this chapter. (h) Subject to subsection (i), the bureau shall implement, and allow or require the use of, a statewide electronic lien and title system under this section as follows: (1) A statewide electronic lien system that is capable of processing: (A) certificate of title data in which a lien is notated; and (B) the notification, maintenance, and release of security interests in vehicles; through electronic means must be made available for voluntary use by vehicle lienholders not later than July 1, 2022. (2) Subject to subsection (j)(5), the bureau shall require that the statewide electronic lien system made available under subdivision (1) be used for processing: (A) certificate of title data in which a lien is notated; and (B) the notification, maintenance, and release of security interests in vehicles; after June 30, 2023. (3) A statewide electronic title system capable of processing vehicle titles through electronic means must be made available for voluntary use by vehicle dealers, lienholders, and owners not later than July 1, 2025. (4) The bureau shall require that the statewide electronic title system made available under subdivision (3) be used for processing vehicle titles after June 30, 2026. (i) Subsection (h) does not prohibit the bureau or any: (1) qualified vendor with whom the bureau contracts under subsection (f); or (2) qualified service provider with whom the bureau contracts under subsection (g); from implementing, making available, or requiring the use of a statewide electronic lien system described in subsection (h)(1) at the same time as, or in conjunction with, a statewide electronic title system described in subsection (h)(3), or from implementing, making available, or requiring the use of a statewide electronic lien system described in subsection (h)(1) or a statewide electronic title system described in subsection (h)(3) before the applicable dates otherwise set forth in subsection (h). (j) The following apply to the use of a statewide electronic lien system described in subsection (h)(1): (1) Notwithstanding section 5(b) of this chapter, if there are one (1) or more liens or encumbrances on a motor vehicle, the bureau may electronically transmit the lien to the first lienholder and notify the first lienholder of any additional liens. Subsequent lien satisfactions may be electronically transmitted to the bureau and must include the name and address of the person satisfying the lien. (2) Whenever the electronic transmission of lien notifications and lien satisfactions is used, a certificate of title need not be issued until the last lien is satisfied and a clear certificate of title can be issued to the owner of the motor vehicle. The bureau may print or issue electronically the clear certificate of title to the owner or subsequent assignee of the motor vehicle. (3) If a motor vehicle is subject to an electronic lien, the certificate of title for the motor vehicle is considered to be physically held by the lienholder for purposes of compliance with state or federal odometer disclosure requirements. (4) A certified copy of the bureau's electronic record of a lien is admissible in any civil, criminal, or administrative proceeding in Indiana as evidence of the existence of the lien. If a certificate of title is maintained electronically in a statewide electronic title system described in subsection (h)(3), a certified copy of the bureau's electronic record of the certificate of title is admissible in any civil, criminal, or administrative proceeding in Indiana as evidence of the existence and contents of the certificate of title. (5) All individuals and lienholders who conduct at least twelve (12) lien transactions annually must use the statewide electronic lien and title system implemented under this section to record information concerning the perfection and release of a security interest in a vehicle. (6) An electronic notice or release of a lien made through the statewide electronic lien and title system implemented under this section has the same force and effect as a notice or release of a lien made on a paper document. (7) The bureau may convert an existing paper lien to an electronic lien upon request of the primary lienholder. The bureau, or a third party contracting with the bureau under this section, is authorized to collect a fee not to exceed three dollars ($3) for each conversion performed under this subdivision. A fee under this subdivision may not be charged to a state agency or its agents. (8) Notwithstanding section 5 of this chapter, any requirement that a security interest or other information appear on a certificate of title is satisfied by the inclusion of that information in an electronic file maintained in an electronic title system. (k) Nothing in this section precludes the bureau from collecting a title fee for the preparation and issuance of a title. (l) The bureau may adopt rules under IC 4-22-2 to implement this section. Sec. 20. Except as otherwise provided in this chapter, the head lamps, the auxiliary driving lamp, the auxiliary passing lamp, or a combination of these lamps on motor vehicles, other than motorcycles or motor driven cycles, must be arranged so that the driver may select between distributions of light projected to different elevations. The lamps may, in addition, be arranged so that the selection can be made automatically, subject to the following limitations: (1) There must be an uppermost distribution of light, or composite beam, aimed and of an intensity to reveal persons and vehicles at a distance of at least three hundred fifty (350) feet ahead for all conditions of loading. (2) There must be a lowermost distribution of light, or composite beam, aimed and of an intensity to reveal persons and vehicles at a distance of at least one hundred (100) feet ahead. On a straight level road, under any condition of loading, none of the high-intensity part of the beam may be directed to strike the eyes of an approaching driver. (3) A new motor vehicle, other than a motorcycle or motor driven cycle, registered in Indiana after January 1, 1956, that has multiple-beam road lighting equipment must be equipped with a beam indicator that must be lighted whenever the uppermost distribution of light from the head lamps is in use. The beam indicator must not otherwise be lighted. The beam indicator must be designed and located so that when lighted the indicator is readily visible without glare to the driver of the vehicle so equipped. (b) A head lamp on a motorcycle or motor driven cycle must be of sufficient intensity to reveal a person or a vehicle at a distance of not less than: (1) one hundred (100) feet when the motorcycle or motor driven cycle is operated at a speed of less than twenty-five (25) miles per hour; (2) two hundred (200) feet when the motorcycle or motor driven cycle is operated at a speed of at least twenty-five (25) miles per hour; and (3) for a motorcycle, three hundred (300) feet when the motorcycle is operated at a speed of at least thirty-five (35) miles per hour. (c) If a motorcycle or motor driven cycle is equipped with a multiple beam head lamp, the upper beam must meet the minimum requirements set forth in this section and must not exceed the limitations set forth in section 20(1) of this chapter and the lowermost distribution of light as set forth in section 20(2) of this chapter. 2024 Indiana CodeTitle 9. Motor VehiclesArticle 20. Size and Weight RegulationChapter 4. General Weight Restrictions9-20-4-1. Maximum Weight Restrictions; Enforcement of Limits

Sec. 1. (a) Except as provided in subsections (b) and (c), a person may not operate or cause to be operated upon a highway a vehicle or combination of vehicles having weight in excess of one (1) or more of the following limitations: (1) The total gross weight, with load, in pounds of any vehicle or combination of vehicles may not exceed an overall gross weight on a group of two (2) or more consecutive axles produced by application of the following formula: W = 500 { [(LN) ÷ (N-1)] + 12N + 36 } where W equals the overall gross weight on any group of two (2) or more consecutive axles to the nearest five hundred (500) pounds, L equals the distance in feet between the extreme of any group of two (2) or more consecutive axles, and N equals the number of axles in the group under consideration, except that two (2) consecutive sets of tandem axles may carry a gross load of thirty-four thousand (34,000) pounds each, providing the overall distance between the first and last axles of the consecutive sets of tandem axles is thirty-six (36) feet or more. The overall gross weight limit, calculated under this subdivision, may not exceed eighty thousand (80,000) pounds. (2) The weight concentrated on the roadway surface from any tandem axle group may not exceed the following: (A) Thirty-four thousand (34,000) pounds total weight. (B) Twenty thousand (20,000) pounds on an individual axle in a tandem group. (3) A vehicle may not have a maximum wheel weight, unladen or with load, in excess of eight hundred (800) pounds per inch width of tire, measured between the flanges of the rim or an axle weight in excess of twenty thousand (20,000) pounds. (b) The enforcement of weight limits under this section is subject to the following: (1) It is lawful to operate within the scope of a permit, under weight limitations established by the Indiana department of transportation and in effect on July 1, 1956, as provided in IC 9-20-6. (2) It is lawful to operate or cause to be operated a vehicle or combination of vehicles on a heavy duty highway or an extra heavy duty highway designated by the Indiana department of transportation if operated within the imposed limitations. (3) Subsection (a) does not apply to any highway, road, street, or bridge for which a lesser weight limit is imposed by local authorities under IC 9-20-1-3 or IC 9-20-7-2. However, the local authority may by appropriate action establish and designate a county or city highway, road, or street or part of a highway, road, or street as a heavy duty highway subject to the weight limitations established under IC 9-20-5. (4) Vehicles operated on toll road facilities are subject to rules of weight adopted for toll road facilities by the Indiana department of transportation under IC 8-15-2 and are not subject to subsection (a) when operated on a toll road facility. (5) For purposes of a heavy duty vehicle that is equipped with an auxiliary power unit, the weight limitations provided in subsection (a) are increased by four hundred (400) pounds. (6) For purposes of a vehicle that uses natural gas as a motor fuel, the weight limitations provided in subsection (a) are increased by two thousand (2,000) pounds. (c) The greater of the weight limits imposed under subsection (a) or this subsection applies to vehicles operated upon a highway. The weight limits in effect on January 4, 1975, for any highway that is not designated as a heavy duty highway under IC 9-20-5 are the following: (1) The total gross weight, with load, in pounds of a vehicle or combination of vehicles may not exceed seventy-three thousand two hundred eighty (73,280) pounds. (2) The total weight concentrated on the roadway surface from a tandem axle group may not exceed sixteen thousand (16,000) pounds for each axle of a tandem assembly. (3) A vehicle may not have a maximum wheel weight, unladen or with load, in excess of eight hundred (800) pounds per inch width of tire, measured between the flanges of the rim, or an axle weight greater than eighteen thousand (18,000) pounds. (d) For purposes of this section, "auxiliary power unit" means an integrated system that: (1) provides heat, air conditioning, engine warming, or electricity to components on a heavy duty vehicle; and (2) is certified by the administrator of the United States Environmental Protection Agency under 40 CFR 89 as meeting applicable emission standards. (e) For purposes of this section, "heavy duty vehicle" means a vehicle that: (1) has a gross vehicle weight rating greater than eight thousand five hundred (8,500) pounds; and (2) is powered by a diesel engine. (b) A person who transports vehicles or loads and exceeds an exemption in subsection (a) is subject to permit requirements under this article. (c) The exemptions in subsection (a) do not apply to the following: (1) Weight limits imposed for bridges or sections of highways under IC 9-20-1-3. 2024 Indiana CodeTitle 9. Motor VehiclesArticle 20. Size and Weight RegulationChapter 4. General Weight Restrictions9-20-4-3. Violation of Load Limitations; Registered Weight of Vehicle; Assessment of Penalty; Class C Infraction

Sec. 3. (a) The gross weight declared by an applicant in an application for registration under this title determines and fixes the limit of the load, including the unladen weight of the vehicle or combination of vehicles fully equipped for service, that may be transported by a vehicle or combination of vehicles on the highways for the period for which the registration or license is granted. Except as provided in subsection (b), the transportation of a load on a registered and licensed vehicle or combination of vehicles in excess of the limit fixed in the application for registration subjects the person violating a provision of this title to the penalty provisions in this title or to the revocation of the license for the vehicle, or both. (b) Because of the various types of scales used and the variance in scale weights, a penalty may not be assessed if the actual scale weight of a vehicle or combination of vehicles with load does not exceed one and one-half percent (1 1/2%) of the registered weight of the vehicle or combination of vehicles, including load. (c) A person who violates this section commits a Class C infraction. In addition, the person shall pay the difference between the fee paid for registration of the vehicle and the fee for the registration of the vehicle plus a maximum load of a weight equal to the excess load being transported. Until the fee is paid, the person transporting the excess load is not permitted to move the transporting vehicle. [Pre-1991 Recodification Citation: 9-1-4-41(e) part.] As added by P.L.2-1991, SEC.8.

Sec. 2.2. (a) This section applies to overweight divisible loads (as defined in IC 9-13-2-120.7). (b) As used in this section, "equivalent single axle load" means the known quantifiable and standardized amount of damage to highway pavement structures equivalent to one (1) pass of a single eighteen thousand (18,000) pound dual tire axle, with all four (4) tires on the axle inflated to one hundred ten (110) pounds per square inch. (c) A permit issued under this section does not apply to a highway under a local authority's jurisdiction. (d) Subject to subsection (e), the Indiana department of transportation may, upon proper application in writing, grant a permit for transporting overweight vehicles and overweight divisible loads carrying resources on a highway in the state highway system, including state maintained routes through cities and towns. (i) Except as provided in subsection (k), the Indiana department of transportation may not issue more than eight thousand five hundred (8,500) single trip permits annually for applicants with a total equivalent single axle load calculation of more than 2.40 equivalent single axle load credit. (j) A trip permit limit set under subsection (i) and a permit weight limit set under subsection (g) do not include overweight divisible load permits obtained by shippers and carriers that obtained permits before January 1, 2021. (k) The Indiana department of transportation may temporarily increase the number of permits issued under subsection (i) by order of the commissioner in response to an emergency or changes in market conditions as defined by rules adopted under subsection (m). (l) The Indiana department of transportation may limit the number of permits issued under subsection (i) to an individual applicant. (m) The Indiana department of transportation shall adopt rules under IC 4-22-2 for the issuance, administration, fee structure, calculation of equivalent single axle load values, and enforcement of a permit under this section due to lack of transportation options for certain resources, supply chain interruptions, or supply dock backlogs. (n) The Indiana department of transportation may suspend overweight divisible load permitting if the department observes an unusual increase in: (1) infrastructure damage on a permitted route; or (2) the number of accidents associated with overweight divisible loads. (o) Not later

than July 1, 2023, the Indiana department of transportation shall submit a report to the legislative council and to the interim study committee on roads and transportation established by IC 2-5-1.3-4 in an electronic format under IC 5-14-6 regarding: (1) the fee structure and recommended changes to the fee structure for permits issued under this section; and (2) the impact of overweight divisible loads on roads and highways.
