1. Except as otherwise provided in this subsection, when a person deemed to have future driving privileges pursuant to NRS 483.447 has accumulated 3 or more demerit points, but less than 12, the Department shall notify the person of this fact. If, after the Department mails the notice, the person presents proof to the Department that he or she has successfully completed a course of traffic safety approved by the Department and a signed statement which indicates that the successful completion of the course was not required pursuant to a court order entered pursuant to NRS 484A.7043 or a plea agreement, the Department shall cancel not more than 3 demerit points from the person's driving record. Such a person is not eligible for a restricted license during this 1-year period. 5. If the Department determines by its records that a person deemed to have future driving privileges is not eligible for a driver's license pursuant to this section, the Department shall notify the person by mail of that fact. 6. Except as otherwise provided in subsection 7, the Department shall suspend the future driving privileges of a person pursuant to this section 30 days after the date on which the Department mails the notice to the person required by subsection 5. 7. If a written request for a hearing is received by the Department: (a) The suspension of the future driving privileges of the person requesting the hearing is stayed until a determination is made by the Department after the hearing. (b) The hearing must be held, within 45 days after the request is received, in the county in which the person resides unless the person and the Department agree that the hearing may be held in some other county. The scope of the hearing must be limited to whether the records of the Department accurately reflect the driving history of the person. (Added to NRS by 2003, 1235; A 2021, 3306)

1. If a driver who holds a Nevada driver's license violates a written promise to appear pursuant to a citation that was prepared manually or electronically for a violation of a traffic law or ordinance occurring within this State other than one governing standing or parking, the clerk of the court shall immediately notify the Department on a form approved by the Department. 2. 2024 Nevada Revised Statutes Chapter 483 - Drivers' Licenses; Driving Schools and Driving Instructors NRS 483.473 - Establishment of uniform system of demerit points; schedule of demerits; assessment of points.

1. As used in this section, "traffic violation" means conviction of a moving traffic violation in any municipal court, justice court or district court in this State or a finding by any municipal court or justice court in this State that a person has committed a civil infraction pursuant to NRS 484A.703 to 484A.705, inclusive. The term includes a finding by a juvenile court that a child has violated a traffic law or ordinance other than one governing standing or parking. The term does not include a conviction or a finding by a juvenile court of a violation of the speed limit posted by a public authority under the circumstances described in subsection 1 of

NRS 484B.617. 2. The Department shall establish a uniform system of demerit points for various traffic violations occurring within this State affecting the driving privilege of any person who holds a driver's license issued by the Department and persons deemed to have future driving privileges pursuant to NRS 483.447. The system must be based on the accumulation of demerits during a period of 12 months. 3. The system must be uniform in its operation, and the Department shall set up a schedule of demerits for each traffic violation, depending upon the gravity of the violation, on a scale of one demerit point for a minor violation of any traffic law to eight demerit points for an extremely serious violation of the law governing traffic violations. If a conviction of two or more traffic violations committed on a single occasion is obtained, points must be assessed for one offense or civil infraction, and if the point values differ, points must be assessed for the offense or civil infraction having the greater point value. Details of the violation must be submitted to the Department by the court where the conviction or finding is obtained. The Department may provide for a graduated system of demerits within each category of violations according to the extent to which the traffic law was violated. (Added to NRS by 1985, 1166; A 1987, 656; 1995, 2440, 2441, 2442; 1997, 2524; 2003, 1238; 2021, 3308)

2024 Nevada Revised Statutes Chapter 483 - Drivers' Licenses; Driving Schools and Driving Instructors NRS 483.475 - Demerit points: Cancellation for successful completion of course of traffic safety; limitations; suspension of license; cumulative period for suspension; notice; hearing.

1. Except as otherwise provided in this subsection, when a person who holds a driver's license has accumulated 3 or more demerit points, but less than 12, the Department shall notify the person of this fact. If, after the Department mails the notice, the driver presents proof to the Department that he or she has successfully completed a course of traffic safety approved by the Department and a signed statement which indicates that the successful completion of the course was not required pursuant to a plea agreement or court order entered pursuant to NRS 484A.7043, the Department shall cancel not more than 3 demerit points from the person's driving record. If the driver accumulates 12 or more demerit points before completing the course of traffic safety, the person will not be entitled to have demerit points cancelled upon the completion of the course, but must have his or her license suspended. A person may attend a course only once in 12 months for the purpose of reducing demerit points. The 3 demerit points may only be cancelled from a driver's record during the 12-month period immediately following the driver's successful completion of the course of traffic safety. The provisions of this subsection do not apply to a person whose successful completion of a course of traffic safety was required pursuant to a plea agreement or court order entered pursuant to NRS 484A.7043. 2. Any reduction of demerit points applies only to the demerit record of the driver and does not affect the person's driving record with the Department or insurance record. 3. The Department shall use a cumulative period for the suspension of licenses pursuant to subsection 1. The periods of suspension are: (a) For the first accumulation of 12 demerit points during a 12-month period, 6 months. A driver whose license is suspended pursuant to this paragraph is eligible for a restricted license during the suspension. (b) For the second accumulation within 3 years of 12 demerit points during a 12-month period, 1 year. A driver whose license is suspended pursuant to this paragraph is eligible for a restricted license during the suspension. (c) For the third accumulation within 5 years of 12 demerit points during a 12-month period, 1 year. A driver whose license is suspended pursuant to this paragraph is not eligible for a restricted license during the suspension. 4. The Department shall suspend for 1 year the license of a driver who is convicted of a sixth traffic offense within 5 years, is found to have committed a sixth civil infraction punishable pursuant to NRS 484A.703 to 484A.705, inclusive, within 5 years or has accumulated a combined total of six civil infractions and offenses within 5 years, if all six civil infractions or offenses have been assigned a value of 4 or more demerit points. A driver whose license is suspended pursuant to this subsection is not eligible for a restricted license during the suspension. 5. If the Department determines by its records that the license of a driver must be suspended pursuant to this section, it shall notify the driver by mail that his or her privilege to drive is subject to suspension. 6. Except as otherwise provided in subsection 7, the Department shall suspend the license 30 days after it mails the notice required by subsection 5. 7. If a written request for a hearing is received by the Department: (a) The suspension of the license is stayed until a determination is made by the Department after the hearing. (b) The hearing must be held within 45 days after the request is received in the county where the driver resides unless the driver and the Department agree that the hearing may be held in some other county. The scope of the hearing must be limited to whether the records of the Department accurately reflect the driving history of the driver. 2024 Nevada Revised Statutes Chapter 483 - Drivers' Licenses; Driving Schools and Driving Instructors NRS 483.477 - Attendance at school for training drivers upon suspension.

In addition to suspending the license of a driver pursuant to NRS 483.470 and 483.475, the Department may, for good cause, require the driver to attend, at his or her own expense, a drivers' training school approved by the Department. (Added to NRS by 1985, 1167)

2024 Nevada Revised Statutes Chapter 483 - Drivers' Licenses; Driving Schools and Driving Instructors NRS 483.480 - Department may require examination before suspension or revocation of license; no additional fee or examination for reinstatement under certain circumstances.

1. The Department, having good cause to believe that a licensed driver is incompetent or otherwise not qualified to be licensed, may upon written notice of at least 5 days to the licensee require the licensee to submit to an examination. Upon the conclusion of the examination, the Department shall take action as may be appropriate and may suspend or revoke the license of the person or permit the person to retain the license, or may issue a license subject to restrictions as permitted under NRS 483.360 or restrictions as to the

type or class of vehicles that may be driven. Refusal or neglect of the licensee to submit to the examination is grounds for suspension or revocation of the license. 2. Except for the suspension of a driver's license pursuant to subsection 3 of NRS 483.465, the Department shall not charge an additional fee or require an additional examination for the reinstatement of a revoked or suspended license if the additional fee or examination arises out of the same offense for which the license was previously revoked or suspended and the driver has previously reinstated the license after that offense. 1. Except as otherwise provided in this section, after a driver's license has been suspended or revoked and one-half of the period during which the driver is not eligible for a license has expired, the Department may, unless the statute authorizing the suspension or revocation prohibits the issuance of a restricted license, issue a restricted driver's license to an applicant permitting the applicant to drive a motor vehicle: (a) To and from work or in the course of his or her work, or both; or (b) To acquire supplies of medicine or food or receive regularly scheduled medical care for himself, herself or a member of his or her immediate family. Before a restricted license may be issued, the applicant must submit sufficient documentary evidence to satisfy the Department that a severe hardship exists because the applicant has no alternative means of transportation and that the severe hardship outweighs the risk to the public if the applicant is issued a restricted license. 2. If the driver's license of a person assigned to a program established pursuant to NRS 484C.392 is suspended or revoked, the Department may issue a restricted driver's license to an applicant that is valid while he or she is participating in and complying with the requirements of the program and that permits the applicant to drive a motor vehicle: (a) To and from a testing location established by a designated law enforcement agency pursuant to NRS 484C.393; (b) If applicable, to and from work or in the course of his or her work, or both; (c) To and from court appearances; (d) To and from counseling; or (e) To receive regularly scheduled medical care for himself or herself. 3. Except as otherwise provided in NRS 62E.630, after a driver's license has been revoked or suspended pursuant to title 5 of NRS or NRS 392.148, the Department may issue a restricted driver's license to an applicant permitting the applicant to drive a motor vehicle: (a) If applicable, to and from work or in the course of his or her work, or both; or (b) If applicable, to and from school. 4. After a driver's license has been suspended pursuant to NRS 483.443, the Department may issue a restricted driver's license to an applicant permitting the applicant to drive a motor vehicle: (a) If applicable, to and from work or in the course of his or her work, or both; (b) To receive regularly scheduled medical care for himself, herself or a member of his or her immediate family; or (c) If applicable, as necessary to exercise a court-ordered right to visit a child. 5. A driver who violates a condition of a restricted license issued pursuant to subsection 1 or 2 is guilty of a misdemeanor and, if the license of the driver was suspended or revoked for: (a) A violation of NRS 484C.110, 484C.210 or 484C.430; (b) A homicide resulting from driving or being in actual physical control of a vehicle while under the influence of intoxicating liquor or a controlled substance or resulting from any other conduct prohibited by NRS 484C.110, 484C.130 or 484C.430; or (c) A violation of a law of any other jurisdiction that prohibits the same or similar conduct as set forth in paragraph (a) or (b), the driver shall be punished in the manner provided pursuant to subsection 2 of NRS 483.560. 6. The periods of suspensions and revocations required pursuant to this chapter and NRS 484C.210 must run consecutively, except as otherwise provided in NRS 483.465 and 483.475, when the suspensions must run concurrently. 7. Whenever the Department suspends or revokes a license, the period of suspension, or of ineligibility for a license after the revocation, begins upon the effective date of the revocation or suspension as contained in the notice thereof. 8. Any person for whom a court provides an exception relating to the installation of an ignition interlock device pursuant to subsection 4 of NRS 484C.210 or subsection 2 of NRS 484C.460 is eligible for a restricted driver's license under this section while the person is participating in and complying with the requirements of a program established pursuant to NRS 484C.392. 9. A person who is required to install an ignition interlock device pursuant to NRS 484C.210 or 484C.460 shall install the device not later than 14 days after the date on which the order was issued. If the driver's license of a person assigned to a program established pursuant to NRS 484C.392 is suspended or revoked, the Department may issue a restricted driver's license to an applicant that is valid while he or she is participating in and complying with the requirements of the program and that permits the applicant to drive a motor vehicle: (a) To and from a testing location established by a designated law enforcement agency pursuant to NRS 484C.393; (b) If applicable, to and from work or in the course of his or her work, or both; (c) To and from court appearances; (d) To and from counseling; or (e) To receive regularly scheduled medical care for himself or herself. 3. Except as otherwise provided in NRS 62E.630, after a driver's license has been revoked or suspended pursuant to title 5 of NRS or NRS 392.148, the Department may issue a restricted driver's license to an applicant permitting the applicant to drive a motor vehicle: (a) If applicable, to and from work or in the course of his or her work, or both; or (b) If applicable, to and from school. 4. After a driver's license has been suspended pursuant to NRS 483.443, the Department may issue a restricted driver's license to an applicant permitting the applicant to drive a motor vehicle: (a) If applicable, to and from work or in the course of his or her work, or both; (b) To receive regularly scheduled medical care for himself, herself or a member of his or her immediate family; or (c) If applicable, as necessary to exercise a court-ordered right to visit a child. 5. A driver who violates a condition of a restricted license issued pursuant to subsection 1 or 2 is guilty of a misdemeanor and, if the license of the driver was suspended or revoked for: (a) A violation of NRS 484C.110, 484C.210 or 484C.430; (b) A homicide resulting from driving or being in actual physical control of a vehicle while under the influence of intoxicating liquor or a controlled substance or resulting from any other conduct prohibited by NRS 484C.110, 484C.130 or 484C.430; or (c) A violation of a law of any other jurisdiction that prohibits the same or similar conduct as set forth in paragraph (a) or (b), the driver shall be punished in the manner provided pursuant to subsection 2 of NRS 483.560. 6. The periods of suspensions and revocations required pursuant to this chapter and NRS 484C.210 must run consecutively, except as otherwise provided in NRS 483.465 and 483.475, when the suspensions must run concurrently. 7. Whenever the Department suspends or revokes a license, the period of suspension, or of ineligibility for a license after the revocation, begins upon the effective date of the revocation or suspension as contained in the notice thereof. 8. If the Department receives a copy of an order requiring a person to install an ignition interlock device in a motor vehicle pursuant to NRS 484C.460, the Department shall issue an ignition interlock privilege to the person after he or she submits proof of compliance with the order. A person who is required to install an ignition interlock device pursuant to NRS 484C.210 or 484C.460 shall install the device not later than 14 days after the date on which the order was issued. A driver who violates any condition of an ignition interlock privilege issued pursuant to this subsection is guilty of a misdemeanor and shall be punished in the same manner provided in subsection 2 of NRS 483.560 for driving a vehicle while a driver's license is cancelled, revoked or suspended. 1. A vehicle must not be driven to the left side of the center of a two-lane, two-directional highway and overtaking and passing another vehicle proceeding in the same direction, unless such left side is clearly visible and is free of oncoming traffic for a sufficient distance ahead to permit such overtaking and passing to be completely made without interfering with the safe operation of any vehicle approaching from the opposite direction or any vehicle overtaken. 2. A vehicle must not be driven to the left side of the highway at any time: (a) When approaching the crest of a grade or upon a curve in the highway where the driver's view is obstructed within such distance as to create a hazard in the event another vehicle might approach from the opposite direction. (b) When approaching within 100 feet or traversing any intersection or railroad grade crossing. (c) When the view is obstructed upon approaching within 100 feet of any bridge, viaduct or tunnel. 3. 1. The Department of Transportation with respect to highways constructed under the authority of chapter 408 of NRS, and local authorities with respect to highways under their jurisdiction, may determine those zones of highways where overtaking and passing to the left or making a left-hand turn would be hazardous, and may by the erection of official traffic-control devices indicate such zones. When such devices are in place and clearly visible to an ordinarily observant person, every driver of a vehicle shall obey the directions thereof. 2. Except as otherwise provided in subsections 3 and 4, a driver shall not drive on the left side of the highway within such zone or drive across or on the left side of any pavement striping designed to mark such zone throughout its length. 3. A driver may drive across a pavement striping marking such zone to an adjoining highway if the driver has first given the appropriate turn signal and there will be no impediment to oncoming or following traffic. 4. Except where otherwise provided, a driver may drive across a pavement striping marking such a zone to make a left-hand turn if the driver has first given the appropriate turn signal in compliance with NRS 484B.413, if it is safe and if it would not be an impediment to oncoming or following traffic. 5. A person who violates any provision of this section may be subject to any additional penalty set forth in NRS 484B.130 or 484B.135. Upon a highway which has been divided into three clearly marked lanes, a vehicle must not be driven in the extreme left lane at any time. A vehicle on such a highway must not be driven in the center lane except: (a) When overtaking and passing another vehicle where the highway is clearly visible and the center lane is clear of traffic for a safe distance; (b) In preparation for a left turn; or (c) When the center lane is allocated exclusively to traffic moving in the direction in which the vehicle is proceeding and a sign is posted to give notice of such allocation. 3. If a highway has been designed to provide a single center lane to be used only for turning by traffic moving in both directions, the following rules apply: (a) A vehicle may be driven in the center turn lane only for the purpose of making a left-hand turn onto or from the highway. (b) A vehicle must not travel more than 200 feet in a center turn lane before making a left-hand turn from the highway. (c) A vehicle must not travel more than 50 feet in a center turn lane after making a left-hand turn onto the highway before merging with traffic. 4. If a highway has been designed to provide a single right lane to be used only for turning, a vehicle must: (a) Be driven in the right turn lane only for the purpose of making a right turn; and (b) While being driven in the right turn lane, not travel through an intersection. 5. When a vehicle enters an intersection controlled by a traffic-control signal which is installed and has its vehicular signals uncovered, but is inoperative at the time the vehicle enters the intersection, the driver of the vehicle shall proceed as if a stop sign had been erected at each entrance to the intersection and shall stop at a clearly marked stop line or, if there is none, before entering the crosswalk on the near side of the intersection or, if there is none, at the point nearest the intersection where the driver has a view of approaching traffic on the through highway. After making such a stop, the driver shall proceed cautiously, yielding to vehicles which have previously completed a stop or are within the intersection. 5. Except as otherwise provided in subsection 4, this section does not apply at intersections controlled by official traffic-control devices or to vehicles approaching each other from opposite directions, when the driver of one of the vehicles is intending to or is making a left turn. After having stopped or, in the event of a yield sign, slowed or stopped, the driver shall yield the right-of-way to other vehicles which have entered the intersection from such through highway or which are approaching so closely on such through highway as to constitute an immediate hazard during the time such driver is moving across or within the intersection. 2. The driver of a vehicle shall stop in obedience to a stop sign or yield in compliance with a yield sign, in compliance with the manner prescribed in subsection 1, prior to entering an intersection if a stop sign or a yield sign is erected at one or more entrances thereto although not a part of a through highway and shall proceed cautiously, yielding to vehicles not so obligated to stop or yield and which are within the intersection or approaching so closely as to constitute an immediate hazard during the time such driver is moving across or within the intersection. Except as otherwise provided in NRS 484B.307, it is unlawful for any driver to disobey the instructions of any official traffic-control device placed in accordance with the provisions of chapters 484A to 484E, inclusive, of NRS, unless at the time otherwise directed by a police officer. 2. No provision of chapters 484A to 484E, inclusive, of NRS for which such devices are required may be enforced against an alleged violator if at the time and place of the alleged violation the device is not in proper position and sufficiently legible to be seen by an ordinarily observant person. Whenever a particular provision of chapters 484A to 484E, inclusive, of NRS does not state that such devices are required, the provision is effective even though no devices are erected or in place. 3. Whenever devices are placed in position approximately conforming to the requirements of chapters 484A to 484E, inclusive, of NRS, such devices are presumed to have been so placed by the official act or direction of a public authority, unless the contrary is established by competent evidence. 4. Any device placed pursuant to the provisions of chapters 484A to 484E, inclusive, of NRS and purporting to conform to the lawful requirements pertaining to such devices is presumed to comply with the requirements of chapters 484A to 484E, inclusive, of NRS unless the contrary is established by competent evidence. 5. A person who violates any provision of subsection 1 may be subject to any additional penalty set forth in NRS 484B.130 or 484B.135. (Added to NRS by 1969, 1489; A 2003, 3237; 2013, 428; 2015, 1568)—(Substituted in revision for NRS 484.278)

2024 Nevada Revised Statutes Chapter 484B - Rules of the Road NRS 484B.303 - Disobedience of directions of device for control of traffic unlawful; additional penalty for violation committed in work zone or pedestrian safety zone.

1. Whenever official traffic-control devices are erected indicating that no right or left turn is permitted, it is unlawful for any driver of a vehicle to disobey the directions of any such devices. 2. A person who violates any provision of this section may be subject to any additional penalty set forth in NRS 484B.130 or 484B.135. (Added to NRS by 1969, 1498; A 2003, 3241; 2015, 1569)—(Substituted in revision for NRS 484.335)

2024 Nevada Revised Statutes Chapter 484B - Rules of the Road NRS 484B.307 - Traffic controlled by official traffic-control devices exhibiting different colored lights: Rights and duties of vehicular traffic and pedestrians depending upon particular signal displayed; exceptions for person driving motorcycle, moped or trimobile or riding bicycle, electric bicycle or electric scooter; signals placed over individual lanes; certain restrictions upon local authorities; additional penalty for violation committed in pedestrian safety zone.

1. Whenever traffic is controlled by official traffic-control devices exhibiting different colored lights, or colored lighted arrows, successively one at a time or in combination as declared in the manual and specifications adopted by the Department of Transportation, only the colors green, yellow and red may be used, except for special pedestrian-control devices carrying a word legend as provided in NRS 484B.283. The lights, arrows and combinations thereof indicate and apply to drivers of vehicles and pedestrians as provided in this section. 2. When the signal is circular green alone: (a) Vehicular traffic facing the signal may proceed straight through or turn right or left unless another device at the place prohibits either or both such turns. Such vehicular traffic, including vehicles turning right or left, must yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time the signal is exhibited. (b) Pedestrians facing such a signal may proceed across the highway within any marked or unmarked crosswalk, unless directed otherwise by another device as provided in NRS 484B.283. 3. Where the signal is circular green with a green turn arrow: (a) Vehicular traffic facing the signal may proceed to make the movement indicated by the green turn arrow or such other movement as is permitted by the circular green signal, but the traffic must yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection at the

time the signal is exhibited. Drivers turning in the direction of the arrow when displayed with the circular green are thereby advised that so long as a turn arrow is illuminated, oncoming or opposing traffic simultaneously faces a steady red signal. (b) Pedestrians facing such a signal may proceed across the highway within any marked or unmarked crosswalk, unless directed otherwise by another device as provided in NRS 484B.283. 4. Where the signal is a green turn arrow alone: (a) Vehicular traffic facing the signal may proceed only in the direction indicated by the arrow signal so long as the arrow is illuminated, but the traffic must yield the right-of-way to pedestrians lawfully within the adjacent crosswalk and to other traffic lawfully using the intersection. (b) Pedestrians facing such a signal shall not enter the highway until permitted to proceed by another device as provided in NRS 484B.283. 5. Where the signal is a green straight-through arrow alone: (a) Vehicular traffic facing the signal may proceed straight through, but must not turn right or left. Such vehicular traffic must yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time the signal is exhibited. (b) Pedestrians facing such a signal may proceed across the highway within the appropriate marked or unmarked crosswalk, unless directed otherwise by another device as provided in NRS 484B.283. 6. Where the signal is a steady yellow signal alone: (a) Vehicular traffic facing the signal is thereby warned that the related green movement is being terminated or that a steady red indication will be exhibited immediately thereafter, and such vehicular traffic must not enter the intersection when the red signal is exhibited. (b) Pedestrians facing such a signal, unless otherwise directed by another device as provided in NRS 484B.283, are thereby advised that there is insufficient time to cross the highway. 7. Where the signal is a flashing yellow turn arrow, displayed alone or in combination with another signal: (a) Vehicular traffic facing the signal is permitted to cautiously enter the intersection only to make the movement indicated by the arrow signal, or other such movement as is permitted by other signal indications displayed at the same time. Such vehicular traffic must yield the right-of-way to pedestrians lawfully within the intersection or an adjacent crosswalk and yield the right-of-way to other traffic lawfully within the intersection. (b) Pedestrians facing such a signal, unless otherwise directed by another device as provided in NRS 484B.283, are thereby advised that there may be insufficient time to cross the highway, but may proceed across the highway within the appropriate marked or unmarked crosswalk. 8. Where the signal is a steady red signal alone: (a) Vehicular traffic facing the signal must stop before entering the crosswalk on the nearest side of the intersection where the sign or pavement marking indicates where the stop must be made, or in the absence of any such crosswalk, sign or marking, then before entering the intersection, and, except as otherwise provided in paragraphs (c) and (d), must remain stopped or standing until the green signal is shown. (b) Pedestrians facing such a signal shall not enter the highway, unless permitted to proceed by another device as provided in NRS 484B.283. (c) After complying with the requirement to stop, vehicular traffic facing such a signal and situated on the extreme right of the highway may proceed into the intersection for a right turn only when the intersecting highway is two-directional or one-way to the right, or vehicular traffic facing such a signal and situated on the extreme left of a one-way highway may proceed into the intersection for a left turn only when the intersecting highway is one-way to the left, but must yield the right-of-way to pedestrians and other traffic proceeding as directed by the signal at the intersection. (d) After complying with the requirement to stop, a person driving a motorcycle, moped or trimobile or riding a bicycle, an electric bicycle or an electric scooter may proceed straight through or turn right or left if: (1) The person waits for two complete cycles of the lights or lighted arrows of the applicable official traffic-control device and the signal does not change because of a malfunction or because the signal failed to detect the presence of the motorcycle, moped, trimobile, bicycle, electric bicycle or electric scooter; (2) No other device at the place prohibits either or both such turns, if applicable; and (3) The person yields the right-of-way to pedestrians and other traffic proceeding as directed by the signal at the intersection. (e) Vehicular traffic facing the signal may not proceed on or through any private or public property to enter the intersecting street where traffic is not facing a red signal to avoid the red signal. 9. Where the signal is a steady red with a green turn arrow: (a) Except as otherwise provided in paragraph (b), vehicular traffic facing the signal may enter the intersection only to make the movement indicated by the green turn arrow, but must yield the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection. Drivers turning in the direction of the arrow are thereby advised that so long as the turn arrow is illuminated, oncoming or opposing traffic simultaneously faces a steady red signal. (b) A person driving a motorcycle, moped or trimobile or riding a bicycle, an electric bicycle or an electric scooter facing the signal may proceed straight through or turn in the direction opposite that indicated by the green turn arrow if: (1) The person stops before entering the crosswalk on the nearest side of the intersection where the sign or pavement marking indicates where the stop must be made or, in the absence of any such crosswalk, sign or marking, before entering the intersection; (2) The person waits for two complete cycles of the lights or lighted arrows of the applicable official traffic-control device and the signal does not change because of a malfunction or because the signal failed to detect the presence of the motorcycle, moped, trimobile, bicycle, electric bicycle or electric scooter; (3) No other device at the place prohibits the turn, if applicable; and (4) The person yields the right-of-way to pedestrians lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection. (c) Pedestrians facing such a signal shall not enter the highway, unless permitted to proceed by another device as provided in NRS 484B.283. 10. If a person violates paragraph (d) of subsection 8 or paragraph (b) of subsection 9 and that violation results in an injury to another person, the violation creates a rebuttable presumption of all facts necessary to impose civil liability for the injury. 11. If a signal is erected and maintained at a place other than an intersection, the provisions of this section are applicable except as to those provisions which by their nature can have no application. Any stop required must be made at a sign or pavement marking indicating where the stop must be made, but in the absence of any such device the stop must be made at the signal. 12. Whenever signals are placed over the individual lanes of a highway, the signals indicate, and apply to drivers of vehicles, as follows: (a) A downward-pointing green arrow means that a driver facing the signal may drive in any lane over which the green signal is shown. (b) A red "X" symbol means a driver facing the signal must not enter or drive in any lane over which the red signal is shown. 13. A

local authority shall not adopt an ordinance or regulation or take any other action that prohibits vehicular traffic from crossing an intersection when: (a) The red signal is exhibited; and (b) The vehicular traffic in question had already completely entered the intersection before the red signal was exhibited. For the purposes of this paragraph, a vehicle shall be considered to have "completely entered" an intersection when all portions of the vehicle have crossed the limit line or other point of demarcation behind which vehicular traffic must stop when a red signal is displayed. 14. A person who violates any provision of this section may be subject to the additional penalty set forth in NRS 484B.135. (Added to NRS by 1969, 1490; A 1973, 1323; 1979, 1802; 1981, 864; 2007, 665; 2013, 428; 2015, 1569; 2019, 1887)—(Substituted in revision for NRS 484.283)

2024 Nevada Revised Statutes Chapter 484B - Rules of the Road NRS 484B.310 - Flashing signals.

Whenever an illuminated flashing red or yellow signal is used in conjunction with an official traffic-control device, it shall require obedience by vehicular traffic as follows: 1. When a red lens is illuminated with rapid intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk in an intersection or at a limit line when marked, or, if none, then before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a required stop. 2. When a yellow lens is illuminated with rapid intermittent flashes, drivers of vehicles may proceed past such signal and through the intersection or other hazardous location only with caution. 1. It is unlawful for any person to place, maintain or display upon or in view of any highway any unauthorized sign, signal, marking or device which purports to be or is an imitation of or resembles an official traffic-control device or railroad sign or signal, or which attempts to direct the movement of traffic, or which hides from view or interferes with the effectiveness of any such device, sign or signal, and except as otherwise provided in subsections 4 and 5, a person shall not place or maintain nor may any public authority permit upon any highway any sign, signal, marking or street banner bearing thereon any commercial advertising. 2. If a franchisee receives revenues from commercial advertising authorized by subsection 1 and the franchisee is obligated to repay a bond issued by the State of Nevada, the franchisee shall use all revenue generated by the advertising authorized by subsection 1 to meet its obligations to the State of Nevada as set forth in the financing agreement and bond indenture, including, without limitation, the payment of operations and maintenance obligations, the funding of reserves and the payment of debt service. 1. A person shall not drive a motor vehicle at a speed in excess of 15 miles per hour in an area designated as a school zone except: (a) On a day on which school is not in session; (b) During the period from a half hour after school is no longer in operation to a half hour before school is next in operation; (c) If the zone is designated by an operational speed limit beacon, during the hours when the pupils of the school are in class and the yellow lights of the speed limit beacon are not flashing in the manner which indicates that the speed limit is in effect; or (d) If the zone is not designated by an operational speed limit beacon, during the times when the sign designating the school zone indicates that the speed limit is not in effect. 2. A person shall not drive a motor vehicle at a speed in excess of 25 miles per hour in an area designated as a school crossing zone except: (a) On a day on which school is not in session; (b) During the period from a half hour after school is no longer in operation to a half hour before school is next in operation; (c) If the zone is designated by an operational speed limit beacon, during the hours when the pupils of the school are in class and the yellow lights of the speed limit beacon are not flashing in the manner which indicates that the speed limit is in effect; or (d) If the zone is not designated by an operational speed limit beacon, during the times when the sign designating the school zone indicates that the speed limit is not in effect. 3. There is a presumption in favor of reducing the violation if the person pays the entire amount of the fine and all fees due before the date on which the person is first required to make an appearance relating to the citation, whether by personal appearance or through his or her counsel, but such a presumption may be overcome if the driving record of the person demonstrates a pattern of moving traffic violations. 5. 1. Except as otherwise provided in subsection 2, an evidentiary test of breath to determine the concentration of alcohol in a person's breath may be used to establish that concentration only if two consecutive samples of the person's breath are taken and: (a) The difference between the concentration of alcohol in the person's breath indicated by the two samples is less than or equal to 0.02; (b) If the provisions of paragraph (a) do not apply, a third evidentiary test of breath is administered and the difference between the concentration of alcohol in the person's breath indicated by the third sample and one of the first two samples is less than or equal to 0.02; or (c) If the provisions of paragraphs (a) and (b) do not apply, a fourth evidentiary test is administered. Except as otherwise provided in NRS 484C.160, the fourth evidentiary test must be a blood test. 2. If the person fails to provide the second or third consecutive sample, or to submit to the fourth evidentiary test, the results of the first test may be used alone as evidence of the concentration of alcohol in the person's breath. If for some other reason a second, third or fourth sample is not obtained, the results of the first test may be used with all other evidence presented to establish the concentration. 3. If a person refuses or otherwise fails to provide a second or third consecutive sample or submit to a fourth evidentiary test, such refusal or failure constitutes a failure to submit to a required test as provided in NRS 484C.160. (Added to NRS by 1985, 1226; A 1991, 957; 1993, 2074; 1995, 1886; 1999, 2457; 2015, 2537)—(Substituted in revision for NRS 484.386)

1. As agent for the Department, the officer who requested that a test be given pursuant to NRS 484C.150 or 484C.160 or who obtained the result of a test given pursuant to NRS 484C.150 or 484C.160 shall immediately serve an order of revocation of the license, permit or privilege to drive on a person who failed to submit to a test requested by the police officer pursuant to NRS 484C.160 or who has a concentration of alcohol of 0.08 or more in his or her blood or breath or has a detectable amount of a controlled substance or prohibited substance in his or her blood or urine for which he or she did not have a valid prescription, as defined in NRS 453.128, or hold a valid registry identification card, as defined in NRS 678C.080, if that person is present, and shall seize the license or permit to drive of the person. The officer shall then, unless the information is expressly set forth in the order of revocation, advise the person of his or her right to administrative and judicial review of the revocation pursuant to NRS 484C.230 and, except as otherwise provided in this subsection, that the person has a right to request a temporary license. The officer shall also, unless the information is expressly set forth in the order of revocation, advise the person that he or she is required to install an ignition interlock device pursuant to NRS 484C.210. If the person currently is driving with a temporary license that was issued pursuant to this section or NRS 484C.230, the person is not entitled to request an additional temporary license pursuant to this section or NRS 484C.230, and the order of revocation issued by the officer must revoke the temporary license that was previously issued. If the person is entitled to request a temporary license, the officer shall issue the person a temporary license on a form approved by the Department if the person requests one, which is effective for only 7 days including the date of issuance. The officer shall immediately transmit the person's license or permit to the Department along with the written certificate required by subsection 2.

2. When a police officer has served an order of revocation of a driver's license, permit or privilege on a person pursuant to subsection 1, or later receives the result of an evidentiary test which indicates that a person, not then present, had a concentration of alcohol of 0.08 or more in his or her blood or breath or had a detectable amount of a controlled substance or prohibited substance in his or her blood or urine for which he or she did not have a valid prescription, as defined in NRS 453.128, or hold a valid registry identification card, as defined in NRS 678C.080, the officer shall immediately prepare and transmit to the Department, together with the seized license or permit and a copy of the result of the test, if any, a written certificate that the officer had reasonable grounds to believe that the person had been driving or in actual physical control of a vehicle: (a) With a concentration of alcohol of 0.08 or more in his or her blood or breath or with a detectable amount of a controlled substance or prohibited substance in his or her blood or urine for which he or she did not have a valid prescription, as defined in NRS 453.128, or hold a valid registry identification card, as defined in NRS 678C.080, as determined by a chemical test; or (b) While under the influence of intoxicating liquor or a controlled substance or with a prohibited substance in his or her blood or urine and the person refused to submit to a required evidentiary test. The certificate must also indicate whether the officer served an order of revocation on the person and whether the officer issued the person a temporary license.

3. The Department, upon receipt of such a certificate for which an order of revocation has not been served, after examining the certificate and copy of the result of the chemical test, if any, and finding that revocation is proper, shall issue an order revoking the person's license, permit or privilege to drive by mailing the order to the person at the person's last known address. The order must indicate the grounds for the revocation and the period during which the person is not eligible for a license, permit or privilege to drive and state that the person has a right to administrative and judicial review of the revocation and to have a temporary license. The order must also state whether the person is required to install an ignition interlock device pursuant to NRS 484C.210. The order of revocation becomes effective 5 days after mailing.

4. Notice of an order of revocation and notice of the affirmation of a prior order of revocation or the cancellation of a temporary license provided in NRS 484C.230 is sufficient if it is mailed to the person's last known address as shown by any application for a license. The date of mailing may be proved by the certificate of any officer or employee of the Department, specifying the time of mailing the notice. The notice is presumed to have been received upon the expiration of 5 days after it is deposited, postage prepaid, in the United States mail. 1. At any time while a person is not eligible for a license, permit or privilege to drive following an order of revocation issued pursuant to NRS 484C.220, the person may request in writing a hearing by the Department to review the order of revocation, but the person is only entitled to one hearing. A person who is issued a temporary license is not subject to and is exempt during the period of the judicial review from the requirement to install an ignition interlock device pursuant to NRS 484C.210. 5. If a hearing officer grants a continuance of a hearing at the request of the person whose license was revoked, or a court does so after issuing a stay of the revocation, the officer or court shall notify the Department, and the Department shall cancel the temporary license and notify the holder by mailing the order of cancellation to the person's last known address. 2024 Nevada Revised Statutes Chapter 484D - Equipment, Inspections and Size, Weight and Load of Vehicles NRS 484D.200 - Use and display of blue tail lamps by certain vehicles of or associated with Department of Transportation or local governmental agency; conditions.

1. An authorized vehicle used by the Department of Transportation or a local governmental agency for the construction, maintenance or repair of highways, or a vehicle owned or operated by a person who contracts with the Department or a local governmental agency to aid motorists or mitigate traffic incidents, may be equipped with lamps located toward the rear of the vehicle that emit nonflashing blue light. The nonflashing blue light may be used: (a) For vehicles that perform construction, maintenance or repair of highways, including, without limitation, vehicles used for the removal of snow, when the vehicle is engaged in such construction, maintenance or repair; (b) For other authorized vehicles of the Department of Transportation or a local governmental agency used in the construction, maintenance or repair of highways: (1) In an area designated as a temporary traffic control zone in which construction, maintenance or repair of a highway is conducted; and (2) At a time when the workers who are performing the construction, maintenance or repair of the highway are present; and (c) For a vehicle owned or operated by a person who contracts with the Department of Transportation or a local governmental agency to aid motorists or mitigate traffic incidents, at a time when the vehicles or the workers who are performing the aid or mitigation are present. 2. As used in this section, "traffic incident" has the meaning ascribed to it in NRS 484B.607. (Added to NRS by 2003, 3236; A 2017, 104; 2019, 1230; 2023, 56)—(Substituted in revision for NRS 484.584)

The lamps used to display such warning to the rear shall be mounted at the same level and as widely spaced laterally as practicable, and shall show simultaneously flashing amber or red lights, or any shade of color between amber and red. Whenever a vehicle has been equipped with such lamps they shall be kept in good operating condition. These warning lamps shall be visible from a distance of not less than 500 feet in normal sunlight. 6. Any motor vehicle may be equipped with not more than two lamps designed and of sufficient intensity for the purpose of revealing objects only in the direction of the turn while the vehicle is turning or while the turn signal lamps are operating to signal an intention to turn. Except as hereinafter provided, the headlamps or the auxiliary driving lamp or the auxiliary passing lamp, or combination thereof, on motor vehicles other than motorcycles or mopeds shall be so arranged that the driver may select at will between distributions of light projected to different elevations, and such lamps may, in addition, be so arranged that such selection can be made automatically, subject to the following limitations: 1. There shall be an uppermost distribution of light, or composite beam, so aimed and of such intensity to reveal persons and vehicles at a distance of at least 350 feet ahead for all conditions of loading. 2. There shall be a lowermost distribution of light, or composite beam, so aimed and of sufficient intensity to reveal persons and vehicles at a distance of at least 100 feet ahead; and on a straight, level road under any condition of loading none of the high-intensity portion of the beam shall be directed to strike the eyes of an approaching driver. 3. Every new motor vehicle, other than a motorcycle or moped, registered in this State after January 1, 1956, which has multiple-beam road lighting equipment shall be equipped with a beam indicator, which shall be lighted whenever the uppermost distribution of light from the headlamps is in use, and shall not otherwise be lighted. The indicator shall be so designed and located that when lighted it will be readily visible without glare to the driver of the vehicle so equipped. 1. A person shall not drive, move, stop or park any vehicle, or cause or knowingly permit any vehicle to be driven, moved, stopped or parked, except for purposes of repair, on any highway if such vehicle: (a) Is in such unsafe condition as to endanger any person or property. (b) Is not equipped with lamps, reflectors, brakes, horn and other warning and signaling devices, windows, windshield, mirrors, safety glass, mufflers, fenders and tires, and other parts and equipment in the position, condition and adjustment required by the laws of this State as to such parts and equipment of a vehicle on the highways of the State at the time, under the conditions and for the purposes provided in such laws. 2. With respect to any vehicle being driven, moved, stopped or parked on any highway, it is unlawful for any person to do any act forbidden, or fail to perform any act required, by the laws of this State relating to the lamps, brakes, fenders and other parts and equipment, size, weight and load as to such vehicle on the highways. 3. 2024 Nevada Revised Statutes Chapter 484D - Equipment, Inspections and Size, Weight and Load of Vehicles NRS 484D.250 - Equipment required.

1. Every motor vehicle, trailer, semitrailer, house trailer and pole trailer, and any combination of those vehicles operating upon a highway must be equipped with brakes in compliance with the requirements of this chapter. 2. Every such vehicle and combination of vehicles, except: (a) Special mobile equipment towed by a motor vehicle at a speed of 20 miles per hour or less; (b) Trailers, semitrailers and house trailers having a gross weight of 3,000 pounds or less, except as provided in subsection 6; and (c) Pole dollies when used in the transportation of poles at a speed of 20 miles per hour or less by a public utility or agency engaged in the business of supplying electricity or telephone service, when the transportation is between storage yards or between a storage yard and a job location where the poles are to be used, must be equipped with service brakes complying with the performance requirements of NRS 484D.255 and adequate to control the movement of and to stop and hold that vehicle under all conditions of loading, and on any grade incident to its operation. 3. Every such vehicle and combination of vehicles, except motorcycles or mopeds, must be equipped with parking brakes adequate to hold the vehicle or combination of vehicles on any grade on which it is operated, under all conditions of loading, on a surface free from snow, ice or loose material. The parking brakes must be capable of being applied in conformance with the foregoing requirements by the driver's muscular effort or by spring action or by equivalent means. Their operation may be assisted by the service brakes or other source of power, provided that failure of the service brake actuation system or other power-assisting mechanism will not prevent the parking brakes from being applied in conformance with the foregoing requirements. The parking brakes must be so designed that when once applied they remain applied with the required effectiveness despite exhaustion of any source of energy or leakage of any kind. The same brake drums, brake shoes and lining assemblies, brake-shoe anchors and mechanical brake-shoe actuation mechanism normally associated with the wheel brake assemblies may be used for both the service brakes and the parking brakes. If the means of applying the parking brakes and the service brakes are connected in any way, they must be so constructed that failure of any one part will not leave the vehicle without operative brakes. 4. Every vehicle must be equipped with brakes acting on all wheels except: (a) Trailers, semitrailers, house trailers or pole trailers, manufactured or assembled before July 1, 1975, having a gross weight of 3,000 pounds or less. (b) Any vehicle being towed in driveaway or towaway operations, provided the combination of vehicles is capable of complying with the performance requirements of NRS 484D.255. (c) Trucks and truck-tractors having three or more axles, which need not have brakes on the front wheels, except that when those vehicles are equipped with at least two steerable axles, the wheels of one steerable axle need not have brakes. However, those trucks and truck-tractors must be capable of complying with the performance requirements of NRS 484D.255. (d) Special mobile equipment. (e) Any vehicle with three wheels in contact with the ground, two of which are equipped with brakes if the vehicle is capable of complying with the performance requirements of NRS 484D.255. 5. Every trailer, semitrailer, house trailer

and pole trailer equipped with air- or vacuum-actuated brakes and every trailer, semitrailer, house trailer and pole trailer with a gross weight in excess of 3,000 pounds, manufactured or assembled after July 1, 1969, must be equipped with brakes acting on all wheels and of such character as to be applied automatically and promptly, and remain applied for at least 15 minutes, upon breakaway from the towing vehicle. 6. Every trailer, semitrailer, house trailer or pole trailer of 3,000 pounds or more gross weight or equaling more than 40 percent of the towing vehicle, manufactured or assembled before July 1, 1975, must be equipped with brakes on at least two wheels. 7. Except as otherwise provided by law, every motor vehicle used to tow a trailer, semitrailer, house trailer or pole trailer equipped with brakes must be equipped with means for providing that, in case of breakaway of the towed vehicle, the towing vehicle will be capable of being stopped by the use of its service brakes. 8. Air brake systems installed on trailers must be so designed that the supply reservoir used to provide air for the brakes is safeguarded against backflow of air from the reservoir through the supply line. 9. Every motor vehicle, trailer, semitrailer, house trailer or pole trailer, manufactured or assembled after July 1, 1975, and operating upon a highway must be equipped with service brakes on all wheels of every vehicle, except: (a) A trailer, semitrailer, house trailer or pole trailer of less than 1,500 pounds gross weight need not be equipped with brakes; and (b) Three-axle trucks, trucks and truck-tractors need only be equipped with brakes on all wheels of the two rear axles. [Part 6 1/2:166:1925; added 1939, 316; A 1953, 152]—(NRS A 1965, 167; 1969, 1216; 1971, 1472; 1975, 130, 1078; 1979, 854)—(Substituted in revision for NRS 484.593)

1. Every motor vehicle and combination of vehicles, at all times and under all conditions of loading, upon application of the service brake, shall be capable of: (a) Developing a braking force that is not less than the percentage of its gross weight tabulated in subsection 2 for its classification; (b) Decelerating to a stop from not more than 20 miles per hour at not less than the feet per second per second tabulated in subsection 2 for its classification; and (c) Stopping from a speed of 20 miles per hour, in not more than the distance tabulated in subsection 2 for its classification, such distance to be measured from the point at which movement of the service brake pedal or control begins. 2. The required braking forces, decelerations and braking distances are tabulated as follows:

Classification	Braking force as a percentage of gross weight	Deceleration in feet per second squared	Stopping distance in feet from 20 m.p.h.
Passenger vehicles with a seating capacity of 10 people or less including driver, not having manufacturer's gross vehicle weight rating of 10,000 pounds or less	52.8%	17	25
All motorcycles and mopeds	43.5%	14	30
Single-unit vehicles with manufacturer's gross vehicle weight rating of 10,000 pounds or less	43.5%	14	30
Single-unit vehicles with manufacturer's gross weight rating of more than 10,000 pounds	43.5%	14	40
Combination of a two-axle towing vehicle and trailer with a gross trailer weight of 3,000 pounds or less	43.5%	14	40
Buses, regardless of the number of axles, not having a manufacturer's gross weight rating of 10,000 pounds or less	43.5%	14	40
All combinations of vehicles in driveaway-towaway operations	43.5%	14	40
All other vehicles and combinations of vehicles	43.5%	14	50

3. Tests for deceleration and stopping distance shall be made on a substantially level (not to exceed plus or minus 1-percent grade), dry, smooth, hard surface that is free from loose material. [Part 6 1/2:166:1925; added 1939, 316; A 1953, 152]—(NRS A 1969, 1219; 1975, 1080; 2009, 400)—(Substituted in revision for NRS 484.595)

2024 Nevada Revised Statutes Chapter 484D - Equipment, Inspections and Size, Weight and Load of Vehicles NRS 484D.260 - Maintenance.

All brakes shall be maintained in good working order and shall be so adjusted as to operate as equally as practicable with respect to the wheels on opposite sides of the vehicle. [Part 6 1/2:166:1925; added 1939, 316; A 1953, 152]—(Substituted in revision for NRS 484.597)

2024 Nevada Revised Statutes Chapter 484D - Equipment, Inspections and Size, Weight and Load of Vehicles NRS 484D.265 - Equipment for towing vehicle.

1. Every towing vehicle, when used to tow another vehicle equipped with air-controlled brakes, in other than driveaway or towaway operations, shall be equipped with two means for emergency application of the trailer brakes. One of these means shall apply the brakes automatically in the event of a reduction of the towing vehicle air supply to a fixed pressure, which shall be not lower than 20 pounds per square inch nor higher than 45 pounds per square inch. The other means shall be a manually controlled device for applying and releasing the brakes, readily operable by a person seated in the driving seat, and its emergency position or method of operation shall be clearly indicated. In no instance may the manual means be so arranged as to permit its use to prevent operation of the automatic means. The automatic and the manual means required by this section may be, but are not required to be, separate. 2. Every towing vehicle used to tow other vehicles equipped with vacuum brakes, in operations other than driveaway or towaway operations, shall have, in addition to the single-control device required by NRS 484D.270, a second control device which can be used to operate the brakes on towed vehicles in emergencies. The second control shall be independent of brake air, hydraulic and other pressure, and independent of other controls, unless the braking system is so arranged that failure of the pressure upon which the second control depends will cause the towed vehicle brakes to be applied automatically. The second control is not required to provide modulated braking. (Added to NRS by 1969, 1209)—(Substituted in revision for NRS 484.599)

2024 Nevada Revised Statutes Chapter 484D - Equipment, Inspections and Size, Weight and Load of Vehicles NRS 484D.270 -

Arrangement of system; device for control.

Every motor vehicle, trailer, semitrailer, house trailer and pole trailer, and every combination of such vehicles, except motorcycles and mopeds, equipped with brakes shall have the braking system so arranged that one control device can be used to operate all service brakes. The braking system on the towed vehicle may be surge actuated brakes. This requirement does not prohibit vehicles from being equipped with an additional control device to be used to operate brakes on the towed vehicles. This regulation does not apply to driveaway or towaway operations unless the brakes on the individual vehicles are designed to be operated by a single control on the towing vehicle. (Added to NRS by 1969, 1210; A 1975, 131, 1081; 2009, 401)—(Substituted in revision for NRS 484.601)

2024 Nevada Revised Statutes Chapter 484D - Equipment, Inspections and Size, Weight and Load of Vehicles NRS 484D.275 - Reservoirs.

1. Every bus, truck or truck-tractor with air-operated brakes shall be equipped with at least one reservoir sufficient to insure that, when fully charged to the maximum pressure as regulated by the air compressor governor cutout setting, a full service brake application may be made without lowering such reservoir pressure by more than 30 percent. Each reservoir shall be provided with means for readily draining accumulated oil or water. 2. Every truck with three or more axles equipped with vacuum-assistor type brakes and every truck-tractor and truck used for towing a vehicle equipped with vacuum brakes shall be equipped with a reserve capacity or a vacuum reservoir sufficient to insure that, with the reserve capacity or reservoir fully charged and with the engine stopped, a full service brake application may be made without depleting the vacuum supply by more than 30 percent. 3. All motor vehicles, trailers, semitrailers and pole trailers, when equipped with air or vacuum reservoirs or reserve capacity as required by this section, shall have such reservoirs or reserve capacity so safeguarded by a check valve or equivalent device that in the event of failure or leakage in its connection to the source of compressed air or vacuum, the stored air or vacuum shall not be depleted by the leak or failure. (Added to NRS by 1969, 1210)—(Substituted in revision for NRS 484.603)

2024 Nevada Revised Statutes Chapter 484D - Equipment, Inspections and Size, Weight and Load of Vehicles NRS 484D.280 - Warning signals and devices for certain buses, trucks and truck-tractors.

1. Every bus, truck or truck-tractor using compressed air for the operation of its own brakes or the brakes on any towed vehicle shall be provided with a warning signal, other than a pressure gauge, readily audible or visible to the driver, which will operate at any time the air reservoir pressure of the vehicle is below 50 percent of the air compressor governor cutout pressure. In addition, each such vehicle shall be equipped with a pressure gauge visible to the driver, which indicates in pounds per square inch the pressure available for braking. 2. Every truck-tractor and truck used for towing a vehicle equipped with vacuum-operated brakes and every truck with three or more axles using vacuum in the operation of its brakes, except those in driveaway or towaway operations, shall be equipped with a warning signal, other than a gauge indicating vacuum, readily audible or visible to the driver, which will operate at any time the vacuum in the vehicle's supply reservoir or reserve capacity is less than 8 inches of mercury. 3. When a vehicle required to be equipped with a warning device is equipped with both air and vacuum power for the operation of its own brakes or the brakes on a towed vehicle, the warning devices may be, but are not required to be, combined into a single device which will serve both purposes. A gauge or gauges indicating pressure or vacuum shall not be deemed to be an adequate means of satisfying this requirement. (Added to NRS by 1969, 1210)—(Substituted in revision for NRS 484.605)

2024 Nevada Revised Statutes Chapter 484D - Equipment, Inspections and Size, Weight and Load of Vehicles NRS 484D.285 - Conditions for use of compression brakes; penalty.

1. The driver of a vehicle which is equipped with a device for braking that uses the compression of the engine of the vehicle shall not use the device at any time unless: (a) The device is equipped with an operational muffler; or (b) The driver reasonably believes that an emergency requires the use of the device to protect the physical safety of a person or others from an immediate threat of physical injury or to protect against an immediate threat of damage to property. 2. A person who violates the provisions of this section is guilty of a civil infraction punishable pursuant to NRS 484A.703 to 484A.705, inclusive. 2024 Nevada Revised Statutes Chapter 484D - Equipment, Inspections and Size, Weight and Load of Vehicles NRS 484D.610 - Height of vehicle: Maximum ground clearance; exceptions.

1. A motor vehicle must not be operated on any highway of this State if the lowest portion of its body, as measured from the surface on which the vehicle stands, exceeds, for passenger cars, 24 inches, and for a truck or other motor vehicle having manufacturer's gross vehicle weight rating: (a) Of 4,500 pounds or less, 28 inches. (b) Of more than 4,500 pounds but less than 7,501 pounds, 30 inches. (c) Of 7,501 pounds but less than 10,001 pounds, 32 inches. 2. The measurement taken to determine compliance with this section must be taken from level ground to a portion of the body or parts attached to the body which have not been added or altered from the manufacturer's original body design. 3. This section does not apply to a motor vehicle which: (a) Was manufactured before 1935; or (b) Has a manufacturer's gross vehicle weight rating of 10,001 pounds or more. (Added to NRS by 1987, 1472)—(Substituted in revision for NRS 484.7385)

2024 Nevada Revised Statutes Chapter 484D - Equipment, Inspections and Size, Weight and Load of Vehicles NRS 484D.615 - Length of vehicle: Restrictions; special permit; exceptions.

1. Except as otherwise provided in subsection 2, the length of a bus may not exceed 45 feet and the length of a motor truck may not exceed 40 feet. 2. A passenger bus which has three or more axles and two sections joined together by an articulated joint with a trailer which is equipped with a mechanically steered rear axle may not exceed a length of 65 feet. 3. Except as otherwise provided in subsections 4, 7 and 9, no combination of vehicles, including any attachments thereto coupled together, may exceed a length of 70 feet. 4. The Department of Transportation, by regulation, shall provide for the operation of combinations of vehicles in excess of 70 feet in length. The regulations must establish standards for the operation of such vehicles which must be consistent with their safe operation upon the public highways and with the provisions of 23 C.F.R. § 658.23. Such standards must include: (a) Types and number of vehicles to be permitted in combination; (b) Horsepower of a motor truck; (c) Operating speeds; (d) Braking ability; and (e) Driver qualifications. The operation of such vehicles is not permitted on highways where, in the opinion of the Department of Transportation, their use would be inconsistent with the public safety because of a narrow roadway, excessive grades, extreme curvature or vehicular congestion. 5. Combinations of vehicles operated under the provisions of subsection 4 may, after obtaining a special permit issued at the discretion of, and in accordance with procedures established by, the Department of Transportation, carry loads not to exceed the values set forth in the following formula: $W=500 [LN/(N-1) + 12N + 36]$, wherein: (a) W equals the maximum load in pounds carried on any group of two or more consecutive axles computed to the nearest 500 pounds; (b) L equals the distance in feet between the extremes of any group of two or more consecutive axles; and (c) N equals the number of axles in the group under consideration. The distance between axles must be measured to the nearest foot. If a fraction is exactly one-half foot, the next largest whole number must be used. The permits may be restricted in such manner as the Department of Transportation considers necessary and may, at the option of the Department, be cancelled without notice. No such permits may be issued for operation on any highway where that operation would prevent this State from receiving federal money for highway purposes. 6. Upon approving an application for a permit to operate combinations of vehicles pursuant to subsection 5, the Department of Transportation shall withhold issuance of the permit until the applicant has furnished proof of compliance with the provisions of NRS 706.531. 7. The load upon any motor vehicle operated alone, or the load upon any combination of vehicles, must not extend beyond the front or the rear of the vehicle or combination of vehicles for a distance of more than 10 feet, or a total of 10 feet both to the front or the rear, and a combination of vehicles and load thereon may not exceed a total of 75 feet without having secured a permit pursuant to subsection 4 or NRS 484D.600. The provisions of this subsection do not apply to the booms or masts of shovels, cranes or water well drilling and servicing equipment carried upon a vehicle if: (a) The booms or masts do not extend by a distance greater than two-thirds of the wheelbase beyond the front tires of the vehicle. (b) The projecting structure or attachments thereto are securely held in place to prevent dropping or swaying. (c) No part of the structure which extends beyond the front tires is less than 7 feet from the roadway. (d) The driver's vision is not impaired by the projecting or supporting structure. 8. Lights and other warning devices which are required to be mounted on a vehicle pursuant to this chapter must not be included in determining the length of a vehicle or combination of vehicles and the load thereon. 9. This section does not apply to: (a) Vehicles used by a public utility for the transportation of poles; (b) A combination of vehicles consisting of a truck-tractor drawing a semitrailer that does not exceed 53 feet in length; (c) A combination of vehicles consisting of a truck-tractor drawing a semitrailer and a trailer, neither of which exceeds 28 1/2 feet in length; (d) A driveaway saddle mount with full mount vehicle transporter combination that does not exceed 97 feet in length; or (e) A towaway trailer transporter combination that does not exceed: (1) Eighty-two feet in length; and (2)

Twenty-six thousand pounds in weight. 10. As used in this section: (a) "Driveaway saddle mount with full mount vehicle transporter combination" means a vehicle combination designed and specifically used to tow up to three trucks or truck-tractors, each connected by a saddle to the frame or fifth wheel of the forward vehicle of the truck-tractor in front of it. (b) "Motortruck" has the meaning ascribed to it in NRS 482.073. (c) "Towaway trailer transporter combination" has the meaning ascribed to it in 49 U.S.C. § 31111. (Added to NRS by 1967, 975; A 1969, 636; 1971, 723; 1973, 441; 1979, 1807; 1985, 659; 1989, 269; 1993, 1200; 1997, 100; 2003, 404; 2005, 73; 2007, 317; 2019, 293)—(Substituted in revision for NRS 484.739)

1. The Board of Directors of the Department of Transportation may by resolution authorize the movement of vehicles upon the public highways, including without limitation motor vehicles, tractors, trailers, semitrailers and combinations thereof, of a size and weight in excess of the limits prescribed by this chapter, to such extent as may be authorized by any legislation enacted by the Congress of the United States permitting such increases without forfeiture of this State's eligibility for federal aid in highway construction and maintenance. 2. The Board of Directors of the Department of Transportation may by resolution establish a reasonable fee or fees to be charged by the Department for the issuance of permits authorizing the operation of oversize or overweight vehicles as provided in this chapter. The fee or fees so established must be in an amount set so that the aggregate amounts received from the fee or fees do not exceed the estimated costs of administering the permit system. (Added to NRS by 1965, 1145; A 1975, 206; 1979, 1808; 1987, 1794; 1989, 1313)—(Substituted in revision for NRS 484.743)

The civil penalties provided in this section are mandatory, must be collected immediately upon entry of an order imposing the penalty and must not be reduced under any circumstances by the court. 4. A person found to have committed a violation of a limitation of weight imposed by NRS 484D.615 to 484D.675, inclusive, shall be punished by a civil penalty that is equal to twice the amount of the civil penalty specified in subsection 1 if that violation occurred on or after February 1 but before May 1 on a highway designated by the Director of the Department of Transportation as restricted pursuant to NRS 408.214. An operator's policy of liability insurance must state, in addition to the requirements of NRS 485.3091, that: (a) The insurer is only liable under the policy for liability incurred by the insured while the named insured is the operator of a motor vehicle or while a motor vehicle owned by the insured is not being operated by any person; (b) The policy does not provide coverage for any vicarious liability imposed on the owner of the motor vehicle as a result of the operation by another person of a motor vehicle owned by the insured or for any liability imposed by NRS 41.440 or 483.300; and (c) The coverage provided by the policy may not meet the requirements of the financial responsibility laws of other states, unless such extended coverage is expressly included in the policy. No operator's policy of liability insurance may be delivered or issued for delivery in this State unless the insured has signed an endorsement stating that he or she has read and understood the policy and its limitations. 4. An owner of a motor vehicle which is registered or required to be registered in this State and who holds an operator's policy of liability insurance shall not permit another person to operate the motor vehicle if the owner knows or should have known that the person does not have liability insurance to cover the person's own operation of that motor vehicle. 5. or refuse to surrender, upon demand, to a peace officer or to an authorized representative of the Department the evidence of insurance. (d) Knowingly permit the operation of the motor vehicle in violation of subsection 3 of NRS 485.186. 2. Except as otherwise provided in subsection 4, any person who violates subsection 1 or 2 is guilty of a misdemeanor. Except as otherwise provided in this subsection, in addition to any other penalty, a person sentenced pursuant to this subsection shall be punished by a fine of not less than \$600 nor more than \$1,000 for each violation. The fine must be reduced to \$100 for the first violation if the person obtains a motor vehicle liability policy by the time of sentencing, unless: (a) The person has registered the vehicle as part of a fleet of vehicles pursuant to subsection 5 of NRS 482.215; or (b) The person has been issued a certificate of self-insurance pursuant to NRS 485.380. 4. A court: (a) Shall not find a person guilty or fine a person for a violation of paragraph (a), (b) or (c) of subsection 1 or for a violation of subsection 2 if the person presents evidence to the court that the insurance required by NRS 485.185 was in effect at the time demand was made for it. (b) Except as otherwise provided in paragraph (a), may impose a fine of not more than \$1,000 for a violation of paragraph (a), (b) or (c) of subsection 1, and suspend the balance of the fine on the condition that the person presents proof to the court each month for 12 months that the insurance required by NRS 485.185 is currently in effect. 5. The provisions of paragraphs (b) and (c) of subsection 1 do not apply if the motor vehicle in question displays a valid permit issued by the Department pursuant to subsection 1 or 2 of NRS 482.3955, or NRS 482.396 or 482.3965 authorizing the movement or operation of that vehicle within the State for a limited time. (Added to NRS by 1987, 1089; A 1987, 1443; 1989, 1844; 1993, 157, 1443, 2485, 2492; 1995, 576, 2357, 2735; 1997, 662; 1999, 2727; 2001, 922; 2015, 3514)

2024 Nevada Revised Statutes Chapter 485 - Motor Vehicles: Insurance and Financial Responsibility NRS 485.190 - Department to determine amount of security required; hearing; suspension of license and registration; procedure regarding erroneous information.

1. If, 20 days after the receipt of a report of a crash involving a motor vehicle within this State which has resulted in bodily injury or death, or damage to the property of any one person in excess of \$750, the Department does not have on file evidence satisfactory to it that the person who would otherwise be required to file security under subsection 2 has been released from liability, has been finally adjudicated not to be liable or has executed an acknowledged written agreement providing for the payment of an agreed amount in installments with respect to all claims for injuries or damages resulting from the crash, the Department shall upon request set the matter for a hearing as provided in NRS 485.191. 2. The Department shall, immediately after a determination adverse to an operator or owner is made in a hearing pursuant to NRS 485.191, suspend the license of each operator and all registrations of each owner of a motor vehicle involved in such a crash, and, if the operator is a nonresident, the privilege of operating a motor vehicle within this State, and, if the owner is a nonresident, the privilege of the use within this State of any motor vehicle owned by him or her, unless the operator or owner, or both, immediately deposit security in the sum so determined by the Department at the hearing. If erroneous information is given to the Department with respect to the matters set forth in paragraph (a), (b) or (c) of subsection 1 of NRS 485.200, the Department shall take appropriate action as provided in this section after it receives correct information with respect to those matters. [Part 4:127:1949; 1943 NCL § 4439.04]—(NRS A 1961, 139; 1965, 264, 1275; 1973, 1545; 1981, 1862; 1987, 1090; 1993, 2486; 1999, 3579; 2007, 2050; 2015, 1647)

1. Any operator or owner of a motor vehicle who was involved in a crash and who is not exempt from the requirements of depositing security by the provisions of NRS 485.200, is entitled to a hearing before the Director or a representative of the Director before a determination of the amount of security required pursuant to NRS 485.190, and before the suspension of his or her operator's license or registration as provided in subsection 2 of NRS 485.190. The hearing must be held in the county of residence of the operator. If the operator and owner reside in different counties and the hearing would involve both of them, the hearing must be held in the county which will be the most convenient for the summoning of witnesses. 2. The owner or operator must be given at least 30 days' notice of the hearing in writing with a brief explanation of the proceedings to be taken against the owner or operator and the possible consequences of a determination adverse to the owner or operator. 3. If the operator or owner desires a hearing, the owner or operator shall, within 15 days, notify the Department in writing of such intention. If the owner or operator does not send this notice within the 15 days, he or she waives his or her right to a hearing, except that, the Director may for good cause shown permit the owner a later opportunity for a hearing. (Added to NRS by 1973, 1544; A 1981, 1863; 1987, 1091; 1999, 3580; 2015, 1647)

2024 Nevada Revised Statutes Chapter 485 - Motor Vehicles: Insurance and Financial Responsibility NRS 485.193 - Scope of hearing.

The hearing must be held to determine: 1. Whether or not there is a reasonable possibility that a judgment may be rendered against the owner or operator as a result of the crash in which the owner or operator was involved if the issue is brought before a court of

competent jurisdiction; and 2. The amount of security that may be required of the operator or owner to satisfy any judgment for damages that may be rendered against the owner or operator. (Added to NRS by 1973, 1544; A 1981, 85; 2015, 1647)

In case of the refusal of any witness to attend or testify or produce any papers required by such subpoena the Director may report to the district court in and for the county in which the hearing is pending by petition, setting forth: (a) That due notice has been given of the time and place of attendance of the witness or the production of the books and papers; (b) That the witness has been subpoenaed in the manner prescribed in this chapter; (c) That the witness has failed and refused to attend or produce the papers required by subpoena before the Director in the cause or proceeding named in the subpoena, or has refused to answer questions propounded to the witness in the course of such hearing, and asking an order of the court compelling the witness to attend and testify or produce the books or papers before the Director. 3. The court, upon petition of the Director, shall enter an order directing the witness to appear before the court at a time and place to be fixed by the court in such order, the time to be not more than 10 days from the date of the order, and then and there show cause why the witness has not attended or testified or produced the books or papers before the Director. A certified copy of the order shall be served upon the witness. If it shall appear to the court that the subpoena was regularly issued by the Director, the court shall thereupon enter an order that the witness appear before the Director at the time and place fixed in the order and testify or produce the required books or papers, and upon failure to obey the order the witness shall be dealt with as for contempt of court. (Added to NRS by 1973, 1545)

The person depositing the security shall specify in writing the person or persons on whose behalf the deposit is made and, at any time while the deposit is in the custody of the Department or the State Treasurer, the person depositing it may, in writing, amend the specification of the person or persons on whose behalf the deposit is made to include an additional person or persons, but a single deposit of security is applicable only on behalf of persons required to furnish security because of the same crash. [Part 8:127:1949; 1943 NCL § 4439.08]—(NRS A 1961, 141; 1981, 1128; 1995, 2737; 1999, 3581; 2015, 1649)

1. The license, all registrations and the nonresident's operating privilege suspended as provided in NRS 485.190 must remain so suspended and may not be renewed nor may any license or registration be issued to any such person until: (a) The person deposits or there is deposited on his or her behalf the security required under NRS 485.190; (b) Two years have elapsed following the date of the crash and evidence satisfactory to the Department has been filed with it that during that period no action for damages arising out of the crash has been instituted; or (c) Evidence satisfactory to the Department has been filed with it of a release from liability, or a final adjudication of nonliability, or an acknowledged written agreement, in accordance with NRS 485.190. 2. Upon receipt of a certification that the operating privilege of a resident of this State has been suspended or revoked in any other state pursuant to a law providing for its suspension or revocation for failure to deposit security for the payment of judgments arising out of a motor vehicle crash, under circumstances which would require the Department to suspend a nonresident's operating privilege had the crash occurred in this State, the Department shall suspend the license of the resident if the resident was the operator, and all of his or her registrations if the resident was the owner of a motor vehicle involved in that crash. The suspension must continue until the resident furnishes evidence of compliance with the law of the other state relating to the deposit of that security. If the Department denies the validity of the claim, the claimant, upon notice to the Attorney General, has a right to appeal to the First Judicial District Court of the State of Nevada, in and for Carson City, and present proof of the validity of the claim. If, after hearing, the court is satisfied the claimant is rightfully entitled to the deposit, the court shall enter a decree that the money be paid to the claimant. The decree must be certified to the State Board of Examiners, stating the amount thereby found to be due, and the State Board of Examiners shall allow the amount and certify it to the State Controller who shall draw a warrant therefor on the State Treasurer, who shall pay the warrant out of the State Highway Fund. 6. 1. The nonresident owner of a motor vehicle not registered in this State or a nonresident operator of a motor vehicle may give proof of financial responsibility by filing with the Department a written certificate of an insurance carrier authorized to transact business: (a) If the insurance provides coverage for the vehicle, in the state in which the motor vehicle described in the certificate is registered; or (b) If the insurance provides coverage for the operator only, in the state in which the insured resides, if the certificate otherwise conforms to the provisions of this chapter. 2. The Department shall accept the proof upon condition that the insurance carrier complies with the following provisions with respect to the policies so certified: (a) The insurance carrier shall execute a power of attorney authorizing the Director to accept service on its behalf of notice or process in any action arising out of a crash involving a motor vehicle in this State; and (b) The insurance carrier shall agree in writing that the policies shall be deemed to conform with the laws of this State relating to the terms of liability policies for owners of motor vehicles. 3. If any insurance carrier not authorized to transact business in this State, which has qualified to furnish proof of financial responsibility, defaults in any undertakings or agreements, the Department shall not thereafter accept as proof any certificate of that carrier whether theretofore filed or thereafter tendered as proof, as long as the default continues. 1. An owner's policy of liability insurance must: (a) Designate by explicit description or by appropriate reference all motor vehicles with respect to which coverage is thereby to be granted; and (b) Insure the person named therein and any other person, as insured, using any such motor vehicle with the express or implied permission of the named insured, against loss from the liability imposed by law for damages arising out of the ownership, maintenance or use of such motor vehicle within the United States of America or the Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each such motor vehicle, as follows: (1) Because of bodily injury to or death of one person in any one crash, \$25,000; (2) Subject to the limit for one person, because of bodily injury to or death of two or more persons in any one crash, \$50,000; and (3) Because of injury to or destruction of property of others in any one crash, \$20,000. 2. An operator's policy of liability insurance must insure the person named as insured therein against loss from the liability imposed upon the person by law for damages arising out of the person's use of any motor vehicle within the same territorial limits and subject to the same limits of liability as are set forth in paragraph (b) of subsection 1. 3. A motor vehicle liability policy must state the name and address of the named insured, the coverage afforded by the policy, the premium charged therefor, the period of effectiveness and the limits of liability, and must contain an agreement or be endorsed that insurance is provided thereunder in accordance with the coverage defined in this chapter as respects bodily injury and death or property damage, or both, and is subject to all the provisions of this chapter. 4. A motor vehicle liability policy need not insure any liability under any workers' compensation law nor any liability on account of bodily injury to or death of an employee of the insured while engaged in the employment, other than domestic, of the insured, or while engaged in the operation, maintenance or repair of any motor vehicle owned by the insured nor any liability for damage to property owned by, rented to, in charge of or transported by the insured. 5. Every motor vehicle liability policy is subject to the following provisions which need not be contained therein: (a) The liability of the insurance carrier with respect to the insurance required by this chapter becomes absolute whenever injury or damage covered by the policy occurs. The policy may not be cancelled or annulled as to such liability by any agreement between the

insurance carrier and the insured after the occurrence of the injury or damage. No statement made by the insured or on behalf of the insured and no violation of the policy defeats or voids the policy. (b) The satisfaction by the insured of a judgment for injury or damage is not a condition precedent to the right or duty of the insurance carrier to make payment on account of the injury or damage. (c) The insurance carrier may settle any claim covered by the policy, and if such a settlement is made in good faith, the amount thereof is deductible from the limits of liability specified in paragraph (b) of subsection 1. (d) The policy, the written application therefor, if any, and any rider or endorsement which does not conflict with the provisions of this chapter constitute the entire contract between the parties. 6. Any policy which grants the coverage required for a motor vehicle liability policy may also grant any lawful coverage in excess of or in addition to the coverage specified for a motor vehicle liability policy, and the excess or additional coverage is not subject to the provisions of this chapter. 7. Any motor vehicle liability policy may provide for the prorating of the insurance thereunder with other valid and collectible insurance. 8. The requirements for a motor vehicle liability policy may be fulfilled by the policies of one or more insurance carriers, which policies together meet those requirements. 9. Any binder issued pending the issuance of a motor vehicle liability policy shall be deemed to fulfill the requirements for such a policy. (Added to NRS by 1957, 726; A 1963, 222; 1967, 1203; 1969, 178; 1973, 837; 1979, 1516; 1981, 628; 1987, 1094; 2015, 1652; 2017, 1341)

When an insurance carrier has issued a motor vehicle liability policy, the insurance so issued must not be cancelled or terminated until at least 10 days after a notice of cancellation or termination of the insurance has been mailed first class or delivered to the insured and, if the insurance carrier has certified the policy under NRS 485.308 or 485.309, a notice has also been filed in the office of the Department. A policy subsequently procured and certified, on the effective date of its certification, terminates the insurance previously certified with respect to any motor vehicle designated or the person named as the insured operator in both certificates. If the effective date of the termination is within 3 years after the date of reinstatement of a license, registration or privilege, the Department shall suspend the license and registration or privilege. (Added to NRS by 1957, 727; A 1961, 146; 1967, 1204; 1985, 1061, 1178; 1987, 1096; 1999, 3586)

This chapter shall not be held to apply to or affect policies insuring solely the insured named in the policy against liability resulting from the maintenance or use by persons in the insured's employ or on his or her behalf of motor vehicles not owned by the insured. (Added to NRS by 1957, 728)

2024 Nevada Revised Statutes Chapter 485 - Motor Vehicles: Insurance and Financial Responsibility NRS 485.3098 - Other proof may be required.

If a person who surrenders his or her license and registration pursuant to paragraph (b) of subsection 1 applies for a license or registration within a period of 3 years after the date proof of financial responsibility was originally required, the application must be refused unless the applicant re-establishes proof of financial responsibility for the remainder of the 3-year period. 1. No license may be issued to an automobile wrecker until the automobile wrecker has procured and filed with the Department a good and sufficient bond in the amount of \$50,000, with a corporate surety thereon licensed to do business in the State of Nevada, approved as to form by the Attorney General, and conditioned that the applicant conducts business as a wrecker without fraud or fraudulent representation, and without violation of the provisions of NRS 487.047 to 487.200, inclusive, or 487.710 to 487.890, inclusive. The Department may, by agreement with any automobile wrecker who has been licensed for 5 years or more by the Department or a department of motor vehicles in another state, reduce the amount of the bond of the wrecker, if the business of that wrecker has been conducted satisfactorily for the preceding 5 years, but no bond may be in an amount less than \$5,000. The Department shall make the necessary investigation to determine whether a wrecker licensed in another state has conducted its business satisfactorily. 2. The bond may be continuous in form and the total aggregate liability on the bond must be limited to the payment of the total amount of the bond. 3. Interest earned on the certificate accrues to the account of the applicant. 5. A deposit made pursuant to subsection 4 may be disbursed by the Director, for good cause shown and after notice and opportunity for hearing, in an amount determined by the Director to compensate a person injured by an action of the licensee, or released upon receipt of: (a) A court order requiring the Director to release all or a specified portion of the deposit; or (b) A statement signed by the person in whose name the deposit is made and acknowledged before any person authorized to take acknowledgments in this State, requesting the Director to release the deposit, or a specified portion thereof, and stating the purpose for which the release is requested. 6. When a deposit is made pursuant to subsection 4, liability under the deposit is in the amount prescribed by the Department. If the amount of the deposit is reduced or there is an outstanding judgment for which the licensee is liable under the deposit, the license is automatically suspended. The license must be reinstated if the licensee: (a) Files an additional bond pursuant to subsection 1; (b) Restores the deposit with the Department to the original amount required under this section; or (c) Satisfies the outstanding judgment for which he or she is liable under the deposit. 7. A deposit made pursuant to subsection 4 may be refunded: (a) By order of the Director, 3 years after the date the licensee ceases to be licensed by the Department, if the Director is satisfied that there are no outstanding claims against the deposit; or (b) By order of court, at any time within 3 years after the date the licensee ceases to be licensed by the Department, upon evidence satisfactory to the court that there are no outstanding claims against the deposit. 8. 1. No applicant may be granted a license to operate a salvage pool until he or she has procured and filed with the Department a good and sufficient bond in the amount of \$50,000, with a corporate surety thereon licensed to do business in the State of Nevada, approved as to form by the Attorney General, and conditioned that the applicant conducts business as an operator of a salvage pool without fraud or fraudulent representation, and without violation of the provisions of NRS 487.400 to 487.510, inclusive. The Department may, by agreement with any operator of a salvage pool who has been licensed by the Department for 5 years or more, allow a reduction in the amount of his or her bond, if his or her business has been conducted satisfactorily for the preceding 5 years, but no bond may be in an amount less than \$5,000. 2. The bond may be continuous in form and the total aggregate liability on the bond must be limited to the payment of the total amount of the bond. 3. The bond must provide that any person injured by the action of the operator of the salvage pool in violation of any of the provisions of NRS 487.400 to 487.510, inclusive, may apply to the Director for compensation from the bond. The Director, for good cause shown and after notice and opportunity for hearing, may determine the amount of compensation and the person to whom it is to be paid. The surety shall then make the payment. 4. In lieu of a bond an operator of a salvage pool may deposit with the Department, under the terms prescribed by the Department: (a) A like amount of lawful money of the United States; or (b) A savings certificate of a bank, credit union, savings and loan association or savings bank situated in Nevada, which must indicate an account of an amount equal to the amount of the bond which would otherwise be required by this section and that this amount is unavailable for withdrawal except upon order of the Department. Interest earned on the certificate accrues to the account of the applicant. 5. A deposit made pursuant to subsection 4 may be

disbursed by the Director, for good cause shown and after notice and opportunity for hearing, in an amount determined by the Director to compensate a person injured by an action of the licensee, or released upon receipt of: (a) A court order requiring the Director to release all or a specified portion of the deposit; or (b) A statement signed by the person under whose name the deposit is made and acknowledged before any person authorized to take acknowledgments in this State, requesting the Director to release the deposit, or a specified portion thereof, and stating the purpose for which the release is requested. 6. When a deposit is made pursuant to subsection 4, liability under the deposit is in the amount prescribed by the Department. If the amount of the deposit is reduced or there is an outstanding judgment of a court for which the licensee is liable under the deposit, the license is automatically suspended. The license must be reinstated if the licensee: (a) Files an additional bond pursuant to subsection 1; (b) Restores the deposit with the Department to the original amount required under this section; or (c) Satisfies the outstanding judgment for which the licensee is liable under the deposit. 7. A deposit made pursuant to subsection 4 may be refunded: (a) By order of the Director, 3 years after the date the licensee ceases to be licensed by the Department, if the Director is satisfied that there are no outstanding claims against the deposit; or (b) By order of court, at any time within 3 years after the date the licensee ceases to be licensed by the Department, upon evidence satisfactory to the court that there are no outstanding claims against the deposit. 8. Any money received by the Department pursuant to subsection 4 must be deposited with the State Treasurer for credit to the Motor Vehicle Fund. 2024 Nevada Revised Statutes Chapter 488 - Watercraft NRS 488.291 - Abandonment prohibited; evidence of responsibility for abandonment; removal of vessel from public waterway.

1. A person shall not abandon a vessel upon a public waterway or public or private property without the consent of the owner or person in lawful possession or control of the property. 2. The abandonment of any vessel in a manner prohibited by subsection 1 is prima facie evidence that the last registered owner of record, unless the registered owner has notified the Department or other appropriate agency of his or her relinquishment of title or interest therein, is responsible for the abandonment. The person so responsible is liable for the cost of removal and disposition of the vessel. 3. A game warden, sheriff or other peace officer of this state may remove or order the removal of a vessel from a public waterway when: (a) The vessel is left unattended and is adrift, moored, docked, beached, run aground, trailered or made fast to land in: (1) Such a position as to interfere with navigation; (2) Such a condition as to create a hazard to other vessels using the waterway, to public safety or to the property of another; or (3) A location owned or administered by a public entity. (b) The vessel is found upon a waterway and a report has previously been made that the vessel has been stolen or embezzled. (c) The person in charge of the vessel is by reason of physical injuries or illness incapacitated to such an extent as to be unable to provide for its custody or removal. (d) An officer arrests a person operating or in control of the vessel for an alleged offense, and the officer is required or permitted to take, and does take, the person arrested before a magistrate without unnecessary delay. (e) The vessel seriously interferes with navigation or otherwise poses a critical and immediate danger to navigation or to the public health, safety or welfare. (Added to NRS by 1993, 221; A 2003, 1575; 2023, 543)

2024 Nevada Revised Statutes Chapter 488 - Watercraft NRS 488.293 - Authority of peace officer to identify registered owner of vessel abandoned on private property; peace officer to notify Department of removal of abandoned vessel; law enforcement agency to notify owner or holder of security interest regarding location of and procedure for claiming vessel; waiver of interest in vessel; transfer of ownership to law enforcement agency.

1. A peace officer may attempt to identify the registered owner of a vessel abandoned on private property by inspection of the vessel and any trailer to which it is attached and may supply the information to the property owner. The property owner must declare by affidavit the reasons why he or she believes the property to be abandoned. The property owner must give 5 days' notice to the last registered owner before causing the removal of the vessel. If the last registered owner is unknown or cannot be notified, the vessel may immediately be removed to a secure location designated by a peace officer. 2. A peace officer shall, within 48 hours after directing the removal of an abandoned vessel on a public waterway or public or private property, notify the Department of the status of the vessel. 3. A law enforcement agency that has custody of an abandoned vessel shall, if the agency knows or can reasonably

discover the name and address of the owner of the vessel or any person who holds a security interest in the vessel, notify the owner or the holder of the security interest of the location of the vessel and the method by which the vessel may be claimed. The notice must be sent by certified or registered mail. 4. If the abandoned vessel is held by a law enforcement agency as evidence in the investigation or prosecution of a criminal offense, the notice required by subsection 3 must be sent: (a) Upon the decision of the law enforcement agency or district attorney not to pursue or prosecute the case; (b) Upon the conviction of the person who committed the offense; or (c) If the case is otherwise terminated. 5. Failure to reclaim the vessel within 180 days after the date the notice is mailed constitutes a waiver of interest in the vessel by any person having an interest in the vessel and the vessel shall be deemed abandoned for all purposes. 6. If all recorded interests in a vessel are waived, as provided in subsection 5 or by written disclaimer, the Department may issue a certificate of ownership to the law enforcement agency that has custody of the vessel. If a certificate of ownership is to be issued to the law enforcement agency and the vessel is subject to the requirements for hull numbers prescribed by the United States Coast Guard but does not comply with those requirements, the Department shall assign a state hull number to the vessel. This subsection does not preclude the subsequent return of a vessel, or any component part thereof, by a law enforcement agency to the registered owner of the vessel upon presentation by the registered owner of satisfactory proof of ownership. 7. A law enforcement agency to which a certificate of ownership is issued pursuant to subsection 6 may use, sell or destroy the vessel, and shall keep a record of the disposition of the vessel. If the law enforcement agency: (a) Sells the vessel, all proceeds from the sale of the vessel become the property of the law enforcement agency. (b) Destroys the vessel, the law enforcement agency shall, within 10 days, give notice of the destruction of the vessel to the Department. 2024 Nevada Revised Statutes Chapter 488 - Watercraft NRS 488.470 - Requirements for evidentiary test of breath to determine concentration of alcohol in breath; refusal or failure to submit to test.

1. Except as otherwise provided in subsection 2, an evidentiary test of breath to determine the concentration of alcohol in a person's breath may be used to establish that concentration only if two consecutive samples of the person's breath are taken and: (a) The difference between the concentration of alcohol in the person's breath indicated by the two samples is less than or equal to 0.02; (b) If the provisions of paragraph (a) do not apply, a third evidentiary test of breath is administered and the difference between the concentration of alcohol in the person's breath indicated by the third sample and one of the first two samples is less than or equal to 0.02; or (c) If the provisions of paragraphs (a) and (b) do not apply, a fourth evidentiary test is administered. Except as otherwise provided in NRS 488.460, the fourth evidentiary test must be a blood test. 2. If the person fails to provide the second or third consecutive sample, or to submit to the fourth evidentiary test, the results of the first test may be used alone as evidence of the concentration of alcohol in the person's breath. If for some other reason a second, third or fourth sample is not obtained, the results of the first test may be used with all other evidence presented to establish the concentration. 3. If a person refuses or otherwise fails to provide a second or third consecutive sample or submit to a fourth evidentiary test, such refusal or failure constitutes a failure to submit to a required evidentiary test as provided in NRS 488.460. (Added to NRS by 1997, 329; A 1999, 2466; 2015, 2544)

2024 Nevada Revised Statutes Chapter 488 - Watercraft NRS 488.480 - Admissibility of evidence of failure to submit to evidentiary test and results of test; availability of results of test; presumption of accuracy and reliability of testing device;

judicial notice of certification of operator of testing device; other evidence not precluded.

1. If a person refuses to submit to a required chemical test provided for in NRS 488.450 or 488.460, evidence of that refusal is admissible in any criminal action arising out of acts alleged to have been committed while the person was: (a) Operating or in actual physical control of a power-driven vessel or sailing vessel under way while under the influence of intoxicating liquor or a controlled substance; or (b) Engaging in any other conduct prohibited by NRS 488.410, 488.420 or 488.425. 2. Except as otherwise provided in subsection 3 of NRS 488.450, a court may not exclude evidence of a required test or failure to submit to such a test if the peace officer or other person substantially complied with the provisions of NRS 488.450 to 488.500, inclusive. 3. If a person submits to a chemical test provided for in NRS 488.450 or 488.460, full information concerning that test must be made available, upon request, to the person or the person's attorney. 4. Evidence of a required test is not admissible in a criminal proceeding unless it is shown by documentary or other evidence that the device for testing a person's breath or other sample was certified pursuant to NRS 484C.610 or 484C.640, as applicable, and was calibrated, maintained and operated as provided by the regulations of the Committee on Testing for Intoxication adopted pursuant to NRS 484C.620, 484C.630 or 484C.640. 5. If the device for testing a person's breath or other sample has been certified by the Committee on Testing for Intoxication to be accurate and reliable pursuant to NRS 484C.610 or 484C.640, it is presumed that, as designed and manufactured, the device is accurate and reliable for the purpose of testing a person's breath or other sample to determine the concentration of alcohol, a controlled substance or another prohibited substance in the person's breath or other sample. 6. A court shall take judicial notice of the certification by the Director of a person to operate testing devices of one of the certified types. If a test to determine the amount of alcohol, a controlled substance or another prohibited substance in a person's breath or other sample has been performed with a certified type of device by a person who is certified pursuant to NRS 484C.630 or 484C.640, it is presumed that the person operated the device properly. 7. This section does not preclude the admission of evidence of a test of a person's breath or other sample where the: (a) Information is obtained through the use of a device other than one of a type certified by the Committee on Testing for Intoxication. (b) Test has been performed by a person other than one who is certified by the Director. 8. As used in this section, "Director" means the Director of the Department of Public Safety. (Added to NRS by 1987, 628; A 1993, 2078; 1997, 331; 1999, 1033, 2466, 3434, 3440; 2001, 172; 2005, 60, 159; 2023, 549, 3264)

The failure or inability to obtain such a test does not preclude the admission of evidence relating to the refusal to submit to a test or relating to a test taken upon the request of a peace officer. 3. A test obtained under the provisions of this section may not be substituted for or stand in lieu of the test required by NRS 488.460. (Added to NRS by 1987, 628; A 1999, 2467, 3435; 2001, 172; 2005, 160; 2023, 550)
