2024 New York LawsVAT - Vehicle and TrafficTitle 4 - Registration of VehiclesArticle 14-B - Bus Taxation Proration and Reciprocity Agreement406 - Bus Taxation Proration Agreement.

ARTICLE I. Purposes and Principles. Section 1. Purposes of Agreement. It is the purpose of this agreement to set up a system whereby any contracting state may permit owners of fleets of busses operating in two or more states to prorate the registration of the busses in such fleets in each state in which the fleets operate on the basis of the proportion of miles operated within such state to total fleet miles, as defined herein. Section 2. Principle of Proration of Registration. It is hereby declared that in making this agreement the contracting states adhere to the principle that each state should have the freedom to develop the kind of highway user tax structure that it determines to be most appropriate to itself, that the method of taxation of interstate busses should not be a determining factor in developing its user tax structure, and that annual taxes or other taxes of the fixed fee type upon busses which are not imposed on a basis that reflects the amount of highway use should be apportioned among the states, within the limits of practicality, on the basis of vehicle miles traveled within each of the states. ARTICLE II. Definitions.(a) State. State shall include the states of the United States, the District of Columbia, the territories of the United States, the Provinces of Canada, and the States, Territories and Federal District of Mexico.(b) Contracting State. In order that this section may not be used for the purpose of evasion of registration fees, the administrators of the contracting states may make the final decision as to the proper base state, in

accordance with Article III (h) hereof, to prevent or avoid such evasion.(f) Bus. Bus shall mean any motor vehicle of a bus type engaged in the interstate transportation of passengers and subject to the jurisdiction of the Interstate Commerce Commission, or any agency successor thereto, or one or more state regulatory agencies concerned with the regulation of passenger transport.(g) Fleet. As to each contracting state, fleet shall include only those busses which actually travel a portion of their total miles in such state. A fleet must include three (3) or more busses.(h) Registration. Registration shall mean the registration of a bus and the payment of annual fees and taxes as set forth in or pursuant to the laws of the respective contracting states.(i) Proration of registration. Proration of registration shall mean registration of fleets of busses in accordance with Article IV of this agreement.(j) Reciprocity. Reciprocity shall mean that each contracting state, to the extent provided in this agreement, exempts a bus from registration and registration fees.ARTICLE III. General Provisions.(a) Effect on Other Agreements, Arrangements, and Understandings. On and after its effective date, this agreement shall supersede any reciprocal or other agreement, arrangement, or understanding between any two or more of the contracting states covering, in whole or in part, any of the matters covered by this agreement; but this agreement shall not affect any reciprocal or other agreement, arrangement, or understanding between a contracting state and a state or states not a party to this agreement.(b) Applicability to Exempt Vehicles. This agreement shall not require registration in a contracting state of any vehicles which are in whole or part exempt from registration under the laws or regulations of such state without respect to this agreement.(c) Inapplicability to Caravaned Vehicle. The benefits and privileges of this agreement shall not be extended to a vehicle operated on its own wheels, or in tow of a motor vehicle, transported for the purpose of selling or offering the same for sale to or by any agent, dealer, purchaser, or prospective purchaser.(d) Other Fees and Taxes. All other fees and taxes shall be paid to each state in accordance with the laws thereof.(e) Statutory Vehicle Regulations. This agreement shall not authorize the operation of a vehicle in any contracting state contrary to the laws or regulations thereof, except those pertaining to registration and payment of fees; and with respect to such laws or regulations, only to the extent provided in this agreement.(f) Violations. Each contracting state reserves the right to withdraw, by order of the administrator thereof, all or any part of the benefits or privileges granted pursuant to this agreement from the owner of any vehicle or fleet of vehicles operated in violation of any provision of this agreement. The administrator shall immediately give notice of any such violation and withdrawal of any such benefits or privileges to the administrator of each other contracting state in which vehicles of such owner are operated.(g) Cooperation. The administrator of each of the contracting states shall cooperate with the administrators of the others and each contracting state hereby agrees to furnish such aid and assistance to each other within its statutory authority as will aid in the proper enforcement of this agreement.(h) Interpretation. This agreement shall enter into force and become binding between and among the contracting states when enacted or otherwise entered into by any two states. Thereafter, it shall enter into force and become binding with respect to any state when enacted into law by such state. If the statutes of any state so authorize or provide, such state may become party to this agreement upon the execution thereof by an executive or administrative official thereof acting on behalf of and for such state.ARTICLE IV. Proration of Registration.(a) Applicability. Any owner of a fleet may register the busses of said fleet in any contracting state by paying to said state total registration fees in an amount equal to that obtained by applying the proportion of in-state fleet miles divided by the total fleet miles, to the total fees which would otherwise be required for regular registration of each and all of such vehicles in such contracting state.All fleet pro-rata registration fees shall be based upon the mileage proportions of the fleet during the period of twelve months ending on August thirty-first next preceding the commencement of the registration year for which registration is sought, except, that mileage proportions for a fleet not operated during such period in the state where application for registration is made will be determined by the administrator upon the sworn application of the applicant showing the operations during such period in other states and the estimated operations during the registration year for which registration is sought, in the state in which application is being made; or if no operations were conducted during such period a full statement of the proposed method of operation.If any busses operate in two or more states which permit the proration of registration on the basis of a fleet of busses consisting of a lesser number of vehicles than provided in Article II (g), such fleet may be prorated as to registration in such states, in which event the busses in such fleet shall not be required to register in any other contracting states if each such vehicle is registered in some contracting state except to the extent it is exempt from registration as provided in Article III (b).If the administrator of any state determines, based on his method of the operation thereof, that the inclusion of a bus or busses as a part of a fleet would adversely affect the proper fleet fee which should be paid to his state, having due regard for fairness and equity, he may refuse to permit any or all of such busses to be included in his state as a part of such fleet.(b) Total Fleet Miles. Total fleet miles, with respect to each contracting state, shall mean the total miles operated by the fleet (1) in such state, (2) in all other contracting states, (3) in other states having proportional registration provisions, (4) in states with which such contracting state has reciprocity, and (5) in such other states as the administrator determines should be included under the circumstances in order to protect or promote the interest of his state; except that in states having laws requiring proration on the basis of a different determination of total fleet miles, total fleet miles shall be determined on such basis.(c) Leased Vehicles. If a bus is operated by a person other than the owner as a part of a fleet which is subject to the provisions of this article, then the operator of such fleet shall be deemed to be the owner of said bus for the purposes of this article.(d) Extent of Privileges. Upon the registration of a fleet in a contracting state pursuant to this article, each bus in the fleet may be operated in both interstate and

intrastate operations in such state except as provided in Article III (e).(e) Application for Proration. The application for proration of registration shall be made in each contracting state upon substantially the application forms and supplements authorized by joint action of the administrators of the contracting states.(f) Issuance of Identification. Upon registration of a fleet, the state which is the base state of a particular bus of the fleet, shall issue the required license plates and registration card for such bus and each contracting state in which the fleet of which such bus is a part, operates, shall issue a special identification identifying such bus as a part of a fleet which has fully complied with the registration requirements of such state. The required license plates, registration cards and identification shall be appropriately displayed in the manner required by or pursuant to the laws of each respective state.(g) Additions to Fleet. If any bus is added to a prorated fleet after the filing of the original application, the owner shall file a supplemental application. The owner shall register such bus in each contracting state in like manner as provided for busses listed in an original application and the registration fee payable shall be determined on the mileage proportion used to determine the registration fees payable for busses registered under the original application.(h) Withdrawals from Fleet. If any bus is withdrawn from a prorated fleet during the period for which it is registered or identified, the owner shall notify the administrator of each state in which it is registered or identified, of such withdrawal and shall return the plates, and registration card or identification as may be required by or pursuant to the laws of the respective states.(i) Audits. The administrator of each contracting state shall, within the statutory authority of such administrator, make any information obtained upon an audit of records of any applicant for proration of registration available to the administrators of the other contracting states.(j) Errors in Registration. If it is determined by the administrator of a contracting state, as a result of such audits or otherwise, that an improper fee has been paid his state, or errors in registration found, the administrator may require the fleet owner to make the necessary corrections in the registration of his fleet and payment of fees.ARTICLE V. Reciprocity.(a) Grant of Reciprocity. Each of the contracting states grants reciprocity as provided in this article.(b) Applicability. The provisions of this agreement with respect to reciprocity shall apply only to a bus properly registered in the base state of the bus, which state must be a contracting state.(c) Non-applicability to Fleet Busses. The reciprocity granted pursuant to this article shall not apply to a bus which is entitled to be registered or identified as part of a prorated fleet.(d) Extent of Reciprocity. The reciprocity granted pursuant to this article shall permit the interstate operation of a bus and intrastate operation which is incidental to a trip of such bus involving interstate operation.(e) Other Agreements. Nothing in this agreement shall be construed to prohibit any of the contracting states from entering into separate agreements with each other for the granting of temporary permits for the intrastate operation of vehicles registered in the other state; nor to prevent any of the contracting states from entering into agreements to grant reciprocity for intrastate operation within any zone or zones agreed upon by the states.ARTICLE VI. Withdrawal or Revocation.Any contracting state may withdraw from this agreement upon thirty days written notice to each other contracting state, which notice shall be given only after the repeal of this agreement by the legislature of such state, if adoption was by legislative act, or after renunciation by the appropriate administrative official of such contracting state if the laws thereof empower him so to renounce.ARTICLE VII. Every owner of a trailer shall also make application for the registration thereof in the manner herein provided for an application to register a motor vehicle, but shall contain a statement showing the manufacturer's number or other identification satisfactory to the commissioner and no number plate for a trailer issued under the provisions of subdivision three of section four hundred two of this chapter shall be transferred to or used upon any other trailer than the one for which number plate is issued. The commissioner shall require proof, in the application for registration, or otherwise, as such commissioner may determine, that the motor vehicle for which registration is applied for is equipped with lights conforming in all respects to the requirements of this chapter, and no motor vehicle shall be registered unless it shall appear by such proofs that such motor vehicle is equipped with proper lights as aforesaid. The said application shall contain or be accompanied by such evidence of the ownership of the motor vehicle described in the application as may be required by the commissioner or his agent and which, with respect to new vehicles, shall include, unless otherwise specifically provided by the commissioner, the manufacturer's statement of origin. Applications received by an agent of the commissioner shall be forwarded to the commissioner as he shall direct for filing. No application for registration shall be accepted unless the applicant is at least sixteen years of age. 2. Registration record. Upon the receipt of a sufficient application for registration of a motor vehicle or trailer, as provided in this article, the commissioner, or the agent receiving it, shall register such motor vehicle or trailer and maintain a record of the registration of such vehicle under the distinctive number assigned to such motor vehicle or trailer as provided in this section, and the information in such record may be obtained upon payment of the fees specified in section two hundred two of this chapter. 3. Certificates of registration. a. Upon filing of such application and the payment of the fee hereinafter provided, the commissioner shall assign to such motor vehicle a distinctive number and, without expense to the applicant, issue and deliver in such manner as the commissioner may select to the owner a certificate of registration, in such form as the commissioner shall prescribe, and two number plates at a place within the state of New York named by the applicant in his or her application. A number plate, within the meaning of this chapter, may, in the discretion of the commissioner, be a plate of a permanent nature, treated with reflectorized material according to specifications prescribed by the commissioner, and with a date tag attached to such plate or to the vehicle as prescribed by regulations of the commissioner indicating the validity of the plate during a certain period and the issuance of such a number plate with such date tag to a person possessing such a number plate shall be deemed the issuance of a number plate. An additional fee, not to exceed twenty-five dollars, shall be paid to the commissioner whenever a set of reflectorized number plates is issued for any vehicle for which a registration fee is normally charged except that, with respect to any number plate which is specifically requested by the applicant, such fee shall be

paid to the commissioner upon approval of such request. In the event of the loss, mutilation or destruction of any certificate of registration, any number plate or set of number plates whether with or without a date tag or tags, or any date tag or set of date tags provided for in this article, the owner of a registered motor vehicle may file such statement and proof of the facts as the commissioner shall require, with a fee of three dollars, in the office of the commissioner, or, unless and until the commissioner shall otherwise direct, in the office of the agent who issued the certificate, plate, plates, tag or tags and the commissioner or his or her agent, as the case may be, shall issue a duplicate or substitute. It shall be the duty of every owner holding a certificate of registration to notify the commissioner in writing of any change of residence of such person within ten days after such change occurs, and to inscribe on such certificate, in the place provided by the commissioner, a record of such change of residence. b. During a registration period the commissioner may, upon application by the owner of a registered motor vehicle and upon payment of a fee of three dollars and seventy-five cents, change the distinctive number assigned to such motor vehicle and issue a new set of number plates provided the original registration and number plates are surrendered. Notwithstanding any inconsistent provision of this section, the difference collected between the fees set forth in this subdivision in effect on and after September first, two thousand nine and the fees set forth in this subdivision in effect prior to such date shall be deposited to the credit of the dedicated highway and bridge trust fund. c. The commissioner may waive the payment of fees required by paragraph a of this subdivision if the applicant is a victim of crime and the certificate of registration or number plates applied for are a replacement for those that were lost or destroyed as a result of the crime. d. In processing any application for a certificate of registration pursuant to this article or to title eleven of this chapter, the commissioner shall provide the applicant with informational materials describing the lead-acid battery management, return and collection requirements set forth in title seventeen of article twenty-seven of the environmental conservation law, and the used oil management, recycling and disposal requirements set forth in title twenty-three of article twenty-three of the environmental conservation law. Such informational materials shall be distributed at the first opportunity and periodically thereafter. 4. Carrying certificate of registration. Any magistrate, motor vehicle inspector, peace officer, acting pursuant to his special duties, or police officer may request that the operator of any motor vehicle produce for inspection the certificate of registration for such vehicle and such operator shall furnish to such magistrate, inspector, peace officer or police officer any information necessary for the identification of such vehicle and its owner, and all information required concerning his license to operate, if he is required by law to have such a license, and shall, if required, sign his name in the presence of such magistrate, inspector, peace officer or police officer as a further means of identification. The production of a license to a magistrate, inspector, peace officer or police officer shall be prima facie evidence in a prosecution for a violation of any provision of this chapter, other than section three hundred ninety-two of this chapter, that the person who so produced the license is the person identified on such license. Provided, however, that a photostatic copy of the certificate of registration may be produced in lieu of the original certificate. If a vehicle does not have affixed a validating sticker which indicates the plate number, the vehicle identification number and the expiration date of the registration, the failure to produce the certificate of registration, or a photostatic copy of such certificate, shall be presumptive evidence of operating a motor vehicle or trailer which is not registered as required by this article. 5. Times for registration, reregistration and renewal; proportionate fees. a. Registrations, reregistrations and renewals shall take effect and expire on dates determined by the commissioner. However, where the expiration date of the registration of any vehicle, except a taxi or an omnibus, falls on a Saturday, Sunday or state holiday, such registration shall be valid for the operation of such vehicle until midnight of the next day on which state offices shall be open for business. Provided, however, that renewal of a registration may be used preceding the expiration date of such registration including such expiration date. Provided, further, however, that where the required proof of registration consists of an expired registration for the same vehicle, issued to the same person applying for the registration or renewal, and the expired registration certificate and number plates and date tags issued for such registration had not been surrendered to the commissioner on or before the expiration date of such registration, the commissioner may in his discretion deem such application to be a renewal of the expired registration and require that the fee paid for such registration be computed as if the registration had been made prior to the date of expiration of the expired registration. b. The fee for the renewal of a registration shall be the same as the annual registration fee, and, where a registration or renewal is for a period of more or less than one calendar year, the annual fees as provided in this section shall be increased or reduced proportionately on a daily computation basis, except that where the annual registration fee for such vehicle would amount to ten dollars or less, the fee shall not be so prorated. c. Notwithstanding any other provision of this article, the commissioner shall issue registrations and renewals of registrations for motor vehicles for which a registration fee established in paragraph a of subdivision six of this section is required to be paid and for motor vehicles having a maximum gross weight of not more than eighteen thousand pounds for which a registration fee established in paragraph one of schedule B of subdivision seven of this section is required to be paid for a period of not less than two years. In addition, the full amount of any other charges, taxes or fees which would be required to be paid to, or collected by, the commissioner during the entire registration period if registrations were issued for twelve month periods shall be paid to the commissioner at the time of such registration or renewal of registration. The commissioner shall promulgate rules and regulations for the issuance of registration renewals extended as required in this paragraph. However, such regulations may provide that the initial issuance of extended renewals be accomplished over a two year period. The commissioner may by regulation exempt from the provisions of this paragraph registrations for motor vehicles issued in conjunction with any long-term registration program or registration reciprocity or proration agreement which this state has established or to which this state is a party. 5-a. Where an application is denied pursuant to this section, the commissioner may, in his or her discretion, deny a registration or renewal application to any other person for the same vehicle and may deny a registration or renewal application for any other motor vehicle registered in the name of the applicant where the commissioner has determined that such registrant's intent has been to evade the purposes of this subdivision and where the commissioner has reasonable grounds to believe that such registration or renewal will have the effect of defeating the purposes of this subdivision. Nothing in this paragraph shall be construed to prohibit the use of previously issued registration plates that have been restored, without deviation from their original alphanumeric or pictorial content, to such condition as otherwise satisfies all applicable requirements. Such plates shall be used only for the operation of the motor vehicle listed on the registration application and on other motor vehicles which would qualify for registration under this schedule owned by persons other than the registrant for the purpose of test driving by the registrant or his or her agent in anticipation of possible purchase. No such registration will be issued unless evidence of financial security, in a form prescribed by the commissioner, is submitted which provides coverage for the motor vehicle listed on the registration application and for non-owned motor vehicles being operated with such plates. Registration plates for such vehicles shall be of a type and design approved by the commissioner, and shall include the word VANPOOL on the face of the registration plate. Such plate shall be issued at the request of the registrant upon proof, satisfactory to the commissioner, that the vehicle is to be used for the purpose of vanpooling. K. Notwithstanding any inconsistent provision of this section, the difference collected between the increase of the percentage of the registration fees set forth in this schedule in effect on and after September first, two thousand nine and the percentage of the registration fees set forth in this schedule in effect prior to such date shall be deposited to the credit of the dedicated highway and bridge trust fund. L. Notwithstanding the provisions of paragraph K of this subdivision, no fee shall be charged upon the registration of any vehicle exempt from the payment of registration fees under paragraph b of subdivision six of this section. 8. Registration fees for trailers. a. A semitrailer, used with any device for converting it to a trailer, other than one being drawn by a tractor semitrailer combination as part of a double tandem combination, shall be registered as a trailer. For the purposes of this paragraph, the unladen weight of a coach or house trailer shall include the weight of any equipment permanently attached to or installed in such trailer. Notwithstanding the foregoing provisions and pursuant to regulations and limitations to be established by the commissioner and upon payment of a fee of two dollars and thirty cents therefor a temporary permit to move a coach or house trailer on the public highways from one site to another shall be issued to the owner thereof upon application therefor. Such application shall be made in the manner prescribed by the commissioner. b. For the purposes of this subdivision, as applied to a trailer other than a coach or house trailer or a semitrailer, maximum gross weight shall mean the weight of the trailer plus the weight of the maximum load to be carried by such trailer during the registration period. The weight of the trailer and such maximum load as stated on the application for registration shall be subject to audit and approval by the commissioner of motor vehicles. c. No person shall operate or move, or cause or knowingly permit to be operated or moved on any public highway of this state any combination of a tractor registered in this state and a semitrailer having a combined weight of vehicles and load in excess of the maximum gross weight of the tractor as stated on the application for registration of such vehicle. Correction of registration. a. Where a motor vehicle registered under this article requires registration in another class because of a change in its form or use, an application for the correct registration may be granted upon the surrendering of the certificate of registration and number plates and the payment of a fee of one dollar, together with the excess, if any, of the fee for the correct registration over the fee for the registration in the class in which the vehicle is registered, both fees to be computed as of the date of granting the correct registration; provided, however, that if the vehicle has already been registered in more than one class during the year, the class requiring the highest fee shall be taken as the basis in determining the additional fee, if any, to be paid instead of the class in which the vehicle is registered at the time of the application. b. Where a vehicle registered under the provisions of subdivisions seven or eight of this section on the basis of maximum gross weight requires a corrected registration because of a load in excess of the maximum load as certified in the application for registration, or the registrant desires to register the vehicle at a lower gross maximum weight, an application shall be made for correct registration. Upon the surrendering of the certificate of registration and the payment of a fee of two dollars together with the balance of the annual fee for the correct registration over the fee as previously registered, such corrected registration may be issued. No return of any part of the fee paid for the previous registration shall be made in case of a reduction of maximum gross weight certified in the application for a corrected registration. 9-a. Whenever a registration fee prescribed in subdivision six, seven or eight of this section shall amount to a fee other than a whole dollar amount, the fee required to be paid shall be rounded to the nearest twenty-five cents. 10. The registration fees imposed by this article upon motor vehicles, other than those of manufacturers and dealers, shall be in lieu of all taxes, general or local, to which motor vehicles may be subject. 11. A motor vehicle, which does not fall within the definition of the term bus, used to transport pupils, or pupils and teachers, to and from school and not otherwise used to transport passengers for hire shall not be registered as a taxicab or livery because of such use. 12. Registration fee for "forty and eight trains." Notwithstanding any of the provisions of this chapter, the annual registration fee for a motor vehicle, commonly described as a boxcar and/or locomotive, duck and tank and used only by La Societe des 40 Hommes et 8 Chevaux for civic demonstrations, convention purposes or social welfare work, shall be five dollars. 12-a. Permanent fleet registration. The commissioner may provide for a system of extended registration for vehicles a registrant wishes to register as a fleet. The fee required for the registration of each vehicle registered in such system shall be the same fee which would be required if the vehicle was otherwise registered under this section plus an additional two dollar administrative fee. The commissioner may establish the minimum number of vehicles required to be registered as a fleet, the types of vehicles which may be registered in a fleet, the term of validity of any such registration, qualifications for fleet registrants and, notwithstanding any other provisions of this article to the contrary, procedures for registration in a fleet, times and methods of payment of required fees and the display and/or surrender of number plates and tags or other evidence of fleet registration. The commissioner may prescribe rules and regulations to carry out the provisions of this subdivision. 13. Registration of motor vehicles, trailers and semitrailers operated upon public highways connecting portions of a farm or farms, municipal sanitary landfills, licensed motor vehicle repair shops and the point of sale of the vehicle. Motor vehicles, other than motor vehicles manufactured and equipped primarily for the transportation of passengers, trailers and semitrailers, to be operated by any person, upon a public highway for the purpose of traveling by the most direct route, but in no event further than twenty-five miles one-way from a point on the farm as designated by the vehicle owner and which designated point is set forth in an attachment to the vehicle registration, (a) between fields, buildings, and facilities managed or operated as part of a single farm enterprise in connection with the production, harvesting, processing or marketing on that farm of crops, livestock, or livestock products produced on that farm; or (b) for the purpose of transporting materials from a farm to the nearest available municipal sanitary landfill; or (c) for the purpose of transporting the motor vehicle, trailer or semitrailer to a motor vehicle repair shop licensed pursuant to this chapter for the repair or adjustment of equipment provided that, in addition to the route restrictions set forth in this subdivision, no such transport shall be authorized (i) if such vehicle has an out-of-service defect relating to load securement, brake systems, steering components and/or coupling devices, or

after it has been placed out-of-service; (ii) on any limited access highway; and (iii) during the period of one hour before sunset to one hour after sunrise; or (d) for the purpose of transporting the motor vehicle, trailer or semitrailer, at the time of first receipt, from its point of sale to a farm, may be registered as provided in this subdivision. Every owner of such vehicles may cause to be filed by mail or otherwise, with the commissioner or with any agent of the commissioner, an application for registration of such vehicle, addressed to the commissioner, and on a blank to be furnished by the commissioner for that purpose, containing the information required by subdivision one of this section and such other information as the commissioner shall require. The commissioner or agent shall make such investigation, as he or she shall determine necessary, and if satisfied that the vehicle is to be operated exclusively as provided in this subdivision shall, upon the payment of a fee of one dollar, assign to such vehicle a distinctive number and issue and deliver to the applicant a set of number plates and a certificate of registration in such form as the commissioner shall prescribe, indicating the extent to which the vehicle registered may be operated on the public highways and such vehicle may be operated only as so indicated. For the purposes of this subdivision, the terms "farm" and "crops, livestock or livestock products," shall have the same meaning as "land used in agricultural production" and "crops, livestock and livestock products," respectively, as defined in section three hundred one of the agriculture and markets law, except that farmers with an average gross sales value of at least one thousand dollars per year of crops, livestock, and livestock products shall be eligible to register vehicles pursuant to this subdivision. 15. A violation of this subdivision shall be a class A misdemeanor. 1-c. Itinerant vehicle collectors. An itinerant vehicle collector is any person who is engaged in the business of acquiring non-operable vehicles and who sells such vehicles or major component parts thereof to a vehicle dismantler or scrap processor. No person shall engage in business as an itinerant vehicle collector unless there shall have been issued to him a registration in accordance with the provisions of this section. A violation of this subdivision shall be a class A misdemeanor. 2. Application for registration. An application for registration as a vehicle dismantler, salvage pool, mobile car crusher or itinerant vehicle collector shall be made to the commissioner on a form prescribed by him which shall contain the name and address of the applicant and the names and addresses of all persons having a financial interest in the business. Such application shall contain a listing of all felony convictions and all other convictions relating to the illegal sale or possession of a motor vehicle or motor vehicle parts, and a listing of all arrests for any such violations by the applicant and any other person required to be named in such application. On and after January first, nineteen hundred ninety-two, such application for or renewal of

registration as a vehicle dismantler shall, in addition to the foregoing, contain a statement indicating that the applicant has purchased approved motor vehicle refrigerant recycling equipment or refrigerant recapturing equipment in accordance with section 38-0107 of the environmental conservation law. Applicants who are vehicle dismantlers must submit along with their application either a manufacturer's certificate issued upon purchase or an invoice with proof of payment. All such documents shall contain the name and address of the repair shop and manufacturer, the date purchased, and the serial numbers of the units acquired. The application shall also contain the business address of the applicant and may contain any other information required by the commissioner. 3. Fees. The annual fee for registration as a vehicle dismantler, salvage pool, mobile car crusher or itinerant vehicle collector shall be fifty dollars. Upon approval of an application, an appropriate registration shall be issued for a period of time determined by the commissioner and if issued for a period of more or less than one year, the fee shall be prorated on a monthly basis. Fees assessed under this section shall be paid to the commissioner for deposit to the general fund. 4. Requirements for registration. (a) Except as otherwise provided herein, no registration shall be issued or renewed unless the applicant has a permanent place of business at which the activity requiring registration is performed which conforms to section one hundred thirty-six of the general municipal law as such section applies and to all local laws or ordinances and the applicant and all persons having a financial interest in the business have been determined by the commissioner to be fit persons to engage in such business. However, the commissioner may issue a temporary registration pending final investigation of an application.(b) The provisions of this subdivision requiring a place of business at which the activity requiring registration is performed shall not apply to a mobile car crusher nor to an itinerant vehicle collector. However, the mobile car crusher or itinerant vehicle collector must otherwise comply with all applicable local licensing laws or ordinances.(c) Notwithstanding the provisions of paragraph (a) of this subdivision, the commissioner may issue a registration to an applicant for registration as a vehicle dismantler or salvage pool to a person who may not comply with local laws relating to zoning provided that the applicant has engaged in business at that location as a vehicle dismantler since September first, nineteen hundred seventy-three. However, the issuance of such registration shall not be a defense with respect to any action brought with respect to violation of any such local law.5. Records and identification.(a) Any records required by this section shall apply only to vehicles or parts of vehicles for which a certificate of title has been issued by the commissioner or which would be eligible to have such a certificate of title issued. Every person required to be registered pursuant to this section shall maintain a record of all motor vehicles, trailers, and major component parts thereof, coming into his or her possession together with a record of the disposition of any such motor vehicle, trailer or part thereof and the date such motor vehicle, trailer or part thereof is received and shall maintain proof of ownership for any motor vehicle, trailer or major component part thereof while in his or her possession. For the purposes of this article an inflatable restraint system shall be a major component part and a catalytic converter shall be a major component part. Such records shall be maintained in a manner and form prescribed by the commissioner. The commissioner may, by regulation, exempt vehicles or major component parts of vehicles from all or a portion of the record keeping requirements based upon the age of the vehicle if the commissioner deems that such record keeping requirements would not further the purposes of the motor vehicle theft prevention program established by section two hundred twenty-three of this chapter. Upon request of an agent of the commissioner or of any police officer and during his or her regular and usual business hours, a vehicle dismantler shall produce such records and permit said agent or police officer to examine them and any vehicles or parts of vehicles which are subject to the record keeping requirements of this section and which are on the premises. In addition, the commissioner shall require every vehicle dismantler to produce, every sixty days, all records regarding the number of catalytic converters they took in within such sixty-day period subject to the record keeping requirements of this section. Upon request of any agent of the commissioner and during his or her regular and usual business hours, a salvage pool, mobile car crusher or itinerant vehicle collector shall produce such records and permit said agent or police officer to examine them and any vehicles or parts of vehicles which are subject to the record keeping requirements of this section and which are on the premises. The failure to produce such records or to permit such inspection on the part of any person required to be registered pursuant to this section as required by this paragraph shall be a class A misdemeanor. If a vehicle dismantler has gained money or property by failing to produce records of the number of catalytic converters they take in as required by the commissioner pursuant to this paragraph, the court may order such defendant to pay an amount, fixed by the court, not to exceed double the amount of such defendant's gain from the commission of such offense.(b) Every vehicle dismantler and salvage pool shall display at his place of business at least one sign upon which his registration number and any other information required by the commissioner is affixed in a manner prescribed by the commissioner and further shall affix his registration number on all advertising, business cards, and vehicles used by him in connection with his business. The commissioner is hereby empowered to require, by regulation, that vehicle dismantlers and salvage pools mark, stamp or tag major component parts of vehicles in their possession in a manner prescribed by the commissioner so as to enable the part so marked to be identified as having come from a particular vehicle and from a particular vehicle dismantler and salvage pool. A violation of this paragraph shall be a class A misdemeanor.(c) For the purposes of this article, the term "catalytic converter" shall mean a device installed in the exhaust system of an internal combustion engine that utilizes catalytic action to oxidize hydrocarbon and carbon monoxide emissions to carbon dioxide and water.5-a. Improper display of signs. (a) The holder of a vehicle dismantler or salvage pool registration shall remove or cause to be removed any sign which contains the license number of the facility which is visible to the public and which is required to be displayed by this article or regulations promulgated thereunder if the registration is revoked or suspended or the vehicle dismantler or salvage pool is out of business. If the registration is only suspended, the holder may cover up the sign instead of removing it.(b) No person shall permit the display of any sign required to be displayed by this article or regulations promulgated thereunder indicating to the public that an official vehicle dismantler or salvage pool is operating unless a dismantler or salvage pool registration has been issued to that person and is currently valid.6. Suspension, revocation and refusal to renew a registration; civil

penalty. (a) A registration may be suspended or revoked, or renewal of a registration refused upon a conviction of any provision of the penal law relating to motor vehicle theft, illegal possession of a stolen vehicle or illegal possession of stolen motor vehicle parts, or after the registrant has had an opportunity to be heard upon any change of status of the registrant which would have resulted in refusal to issue a registration, any false statement in an application for a registration, an egregious and willful violation of title twenty-three of article twenty-seven of the environmental conservation law, any violation of subdivision five of this section or regulations promulgated by the commissioner with respect to this section, or any violation of title ten of this chapter.(b) Civil penalty. The commissioner, or any person deputized by him, in addition to or in lieu of revoking or suspending the registration of a registrant in accordance with the provisions of this article, may in any one proceeding by order require the registrant to pay to the people of this state a civil penalty in a sum not exceeding one thousand dollars for each violation and upon the failure of such registrant to pay such penalty within twenty days after the mailing of such order, postage prepaid, registered or certified, and addressed to the last known place of business of such registrant, unless such order is stayed by an order of a court of competent jurisdiction, the commissioner may revoke the registration of such registrant or may suspend the same for such period as he may determine. Civil penalties assessed under this subdivision shall be paid to the commissioner for deposit into the state treasury, and unpaid civil penalties may be recovered by the commissioner in a civil action in the name of the commissioner.(c) In addition, as an alternative to such civil action and provided that no proceeding for judicial review shall then be pending and the time for initiation of such proceeding shall have expired, the commissioner may file with the county clerk of the county in which the registrant is located a final order of the commissioner containing the amount of the penalty assessed. The filing of such final order shall have the full force and effect of a judgment duly docketed in the office of such clerk and may be enforced in the same manner and with the same effect as that provided by law in respect to executions issued against property upon judgments of a court of record.7. Registration as a dealer and as a vehicle dismantler or salvage pool. A person may be registered as a dealer under section four hundred fifteen of this chapter as well as a vehicle dismantler or a salvage pool under this section. However, any such person must obtain a separate registration for each activity and must maintain separate records for each activity.8. Vehicle rebuilders. (a) A vehicle rebuilder is any person engaged in the business of acquiring damaged vehicles for the purpose of repairing and reselling such vehicles. In order to engage in such business, a person must be registered as a vehicle dismantler pursuant to this section or as a dealer pursuant to section four hundred fifteen of this chapter.(b) A vehicle rebuilder shall maintain a record of all vehicles or major component parts thereof coming into his possession for the purpose of rebuilding and all major component parts used in connection with such rebuilding in a manner prescribed by the commissioner. Upon request of an agent of the commissioner or any police officer during his regular and usual business hours, a vehicle rebuilder shall produce such records and permit said agent or police officer to examine them and any vehicles or parts of vehicles which are subject to the record keeping requirements of this section and which are on the premises. The failure to produce such records or to permit such records or to permit such inspection as required by this paragraph shall be a class A misdemeanor.9. Scrap processor. (a) A scrap processor is any person required to be licensed under article six-C of the general business law who purchases material which is or may have been a vehicle or vehicle part for processing into a form other than a vehicle or vehicle part, but who, except as otherwise provided by regulation of the commissioner, does not sell any such material as a motor vehicle, a trailer or a major component part thereof. No person shall engage in business or operate as a scrap processor as defined in this paragraph unless he has given notice to the commissioner that he is a scrap processor and that he has complied with article six-C of the general business law, and he has been certified by the commissioner as a scrap processor. A violation of this paragraph shall be a class A misdemeanor.(b) A scrap processor shall maintain a record of vehicles and a record of major component parts by weight coming into his possession thereof in a manner prescribed by the commissioner. This paragraph shall not apply to any major component part included in a mixed load. Upon request of an agent of the commissioner or any police officer or during his regular and usual business hours, a scrap processor shall produce such records and permit such agent or police officer to inspect them and to inspect any vehicles or major component parts of vehicles at the time of the delivery of such vehicles or parts to him. The failure to produce such records or to permit such inspection as required by this paragraph shall be a class A misdemeanor.10. Scrap collectors and repair shops. (a) A scrap collector is any person, other than a governmental agency, whose primary business is the collection of miscellaneous scrap for disposal, who may as an incident of such business collect vehicular parts as scrap. No person shall engage in the business or operate as a scrap collector as defined in this paragraph unless he has given notice to the commissioner that he is a scrap collector and has been certified as a scrap collector by the commissioner. A violation of this provision shall be a class A misdemeanor. No person shall be certified as a scrap collector eligible to do business within a city having a population of one million or more, or any county contiguous to such city, unless such person complies with all local requirements applicable to such business.(b) If required by regulation of the commissioner, a scrap collector shall keep records of his acquisition and disposition of vehicular scrap in a manner prescribed by the commissioner. Upon request of an agent of the commissioner or any police officer, a scrap collector shall produce such records as may be required to be kept and permit said agent or police officer to inspect them during usual business hours or while business is being conducted. The failure to produce such records as required by this paragraph shall be a class A misdemeanor.(c) A repair shop registered pursuant to article twelve-A of this chapter which disposes of vehicular scrap to a certified scrap processor shall apply to the commissioner for certification to carry out this disposal. The repair shop shall include in the application for certification the names and addresses of those scrap processors with whom it arranges for the disposal of its scrap. Thereafter the repair shop shall give notice to the commissioner within thirty days of any change in the scrap processors with whom it deals. The failure to comply with this paragraph or to make fraudulent statements regarding the scrap processors with which a repair shop arranges for the disposal of vehicular scrap shall be a class A misdemeanor.11. Out-of-state businesses. A person doing

business in this state who does not have a place of business in this state, but has a place of business or engages in such business in another state or province of Canada and who would be required to be registered or certified pursuant to this section if it were in this state, shall apply to the commissioner for an identification number in a manner prescribed by the commissioner. Such identification number shall be issued provided that such person complies with all the laws and regulations of the jurisdiction in which he has his principal place of business or engages in such business applicable to such business.12. Identification of certified persons. Suspension or revocation of identification number or certification. An identification number and/or certification issued pursuant to subdivision eight, nine, ten or eleven of this section may be suspended or revoked upon conviction of any provision of the penal law relating to motor vehicle theft, illegal possession of a stolen vehicle or illegal possession of stolen motor vehicle parts. The commissioner may also revoke or suspend registration or certification, after an appropriate hearing where the holder of the registration or certification has had an opportunity to be heard, upon a finding of: (a) that there has been a change to the holder's status which would have resulted in a refusal to issue in the first instance, or (b) that the issuance was based upon a false statement by the holder, or (c) that there was a violation of the record keeping requirements, or (d) that there was a violation of the regulations promulgated by the commissioner pursuant to this section, or (e) that there was a violation of title X of this chapter.14. Restrictions on scrap processors. A certified scrap processor shall not purchase any material which may have been a vehicle or a major component part of a vehicle, if recognizable as such, from any person other than a dealer registered pursuant to section four hundred fifteen of this chapter, an insurance company, a governmental agency, a person in whose name a certificate of title or other ownership document has been issued for such vehicle or a person registered or certified or issued an identification number pursuant to this section. (b) The provisions of this subdivision requiring a place of business at which the activity requiring registration is performed shall not apply to a mobile car crusher nor to an itinerant vehicle collector. However, the mobile car crusher or itinerant vehicle collector must otherwise comply with all applicable local licensing laws or ordinances. (c) Notwithstanding the provisions of paragraph (a) of this subdivision, the commissioner may issue a registration to an applicant for registration as a vehicle dismantler or salvage pool to a person who may not comply with local laws relating to zoning provided that the applicant has engaged in business at that location as a vehicle dismantler since September first, nineteen hundred seventy-three. However, the issuance of such registration shall not be a defense with respect to any action brought with respect to violation of any such local law. 5. Records and identification. (a) Any records required by this section shall apply only to vehicles or parts of vehicles for which a certificate of title has been issued by the commissioner or which would be eligible to have such a certificate of title issued. Every person required to be registered pursuant to this section shall maintain a record of all motor vehicles, trailers, and major component parts thereof, coming into his or her possession together with a record of the disposition of any such motor vehicle, trailer or part thereof and the date such motor vehicle, trailer or part thereof is received and shall maintain proof of ownership for any motor vehicle, trailer or major component part thereof while in his or her possession. In addition, as an alternative to such civil action and provided that no proceeding for judicial review shall then be pending and the time for initiation of such proceeding shall have expired, the commissioner may file with the county clerk of the county in which the registrant is located a final order of the commissioner containing the amount of the penalty assessed. The filing of such final order shall have the full force and effect of a judgment duly docketed in the office of such clerk and may be enforced in the same manner and with the same effect as that provided by law in respect to executions issued against property upon judgments of a court of record.14. Restitution; assessment. a. Upon a determination that a registrant has done or failed to do any act for which suspension of the registrant's registration or a civil penalty against the registrant could be imposed, the person making such determination may make a finding of financial loss to any complainant or complainants resulting from the actions of the registrant. The person making such finding may provide that if the registrant makes restitution to the complainant or complainants for the amount or amounts so found, that payment of such restitution may be substituted in lieu of any suspension or civil penalty, or a specified portion thereof imposed upon the registrant. However, a finding of financial loss shall only be made if the complainant (i) agrees to accept the amount so found, if offered by the registrant, and (ii) is not a party to any litigation which is pending or which has gone to judgment in relation to the same matter in any civil court.b. The amount of financial loss which may be found and proposed as restitution shall be limited to an amount necessary to compensate the complainant or complainants for actual losses caused by the registrant's improper activity. Neither punitive nor incidental damages may be included in the finding of financial loss.c. If payment of restitution to the complainant is authorized in lieu of all or a portion of a suspension or civil penalty, in order for the registrant to exercise the option to make such payment, such payment must be made by means of a certified check or money order payable to the complainant or complainants delivered to an office of the department as directed by the commissioner or his agent within thirty days of the date of notice of suspension and/or civil penalty. Upon receipt of such certified check or money order, the department shall forward the same to the complainant or complainants. In the event that the registrant should fail to make payment for restitution within such thirty days, but, at a later time, pays such civil penalty, the department shall deduct from such civil penalty the amount assessed for restitution, and shall mail a check for such amount to the complainant or complainants.d. If payment of restitution may be substituted in lieu of a civil penalty or portion of a civil penalty, and the registrant does not exercise the option to make such payment, the civil penalty becomes due as provided in subdivision twelve of this section and the provisions of that subdivision and subdivision thirteen of this section relating to suspension of registration and recovery of civil penalties shall apply.e. Any payment made in compliance with such a finding of financial loss shall not preclude any civil action which may be brought by either the complainant or registrant, and any such finding may be considered but shall not be binding upon any court before which any such action is brought.15. Miscellaneous provisions. The commissioner may, in his or her discretion, limit the number of sets of number plates which shall be issued to any registrant. The provisions of subdivision three of section four hundred one of this title with respect to the fee for lost, mutilated or destroyed certificates and number plates shall apply to certificates and number plates issued under this section.In the event of the loss or theft of any dealer, manufacturer, or transporter number plate or set of such number plates whether with or without a date tag or tags, or any date tag or set of date tags, the dealer or manufacturer must immediately notify the police of such fact and in the event of loss, theft, mutilation or destruction of any such items the dealer or manufacturer must immediately file a statement and proof of the facts as the commissioner shall require. The commissioner, or any person deputized by him, in addition to imposing a civil penalty for unregistered operation as a dealer, may, in any one proceeding, make a determination that the unregistered dealer has caused a financial loss to a complainant or complainants and may increase the civil penalty by the amount of financial loss. The person making such finding may provide that if the unregistered dealer makes restitution to the complainant or complainants for the amount or amounts so found, that payment of such restitution may be substituted for the increase in the civil penalty caused by the finding of financial loss. However, a finding of financial loss shall only be made if the complainant (i) agrees to accept the amount so found, if offered by the unregistered dealer, and (ii) is not a party to any litigation which is pending or in which judgment has been entered in any civil action in any court of competent jurisdiction.e. Civil penalties assessed under this section shall be paid to the commissioner for deposit into the state treasury, and unpaid civil penalties may be recovered by the commissioner in a civil action in the name of the commissioner. The filing of such final order shall have the full force and effect of a judgment duly docketed in the office of such clerk and may be enforced in the same manner and with the same effect as that provided by law in respect to executions issued against property upon judgments of a court of record.f. As a condition of obtaining a registration certificate pursuant to this section, every dealer applicant who sold more than fifty motor vehicles in the previous calendar year shall obtain and continue in effect a surety bond in an amount of one hundred thousand dollars executed by a surety company authorized to transact business in the state by the department of financial services of the state. Recovery against a bond may be made by a person, including the state, who obtains a judgment against the new motor vehicle dealer, qualified dealer, or dealer for an act or omission on which the bond is conditioned if the act or omission occurred during the term of the bond. In no event shall the surety on a bond be liable for total claims in excess of the bond amount, regardless of the number or nature of claims made against the bond or the number of years the bond remained in force, nor shall any such surety bond provide coverage for transactions involving sales of any motor vehicles for which a bond is not required pursuant to the provisions of paragraph d of this subdivision. c. Any surety issuing a bond pursuant to this subdivision shall be required to provide sixty days' notice to the commissioner prior to the effective date of cancellation or lapse of the bond, and shall provide additional notice to the commissioner upon the date of the cancellation or lapse of such bond. Every new motor vehicle dealer registration certificate shall by its terms permit the sale or lease of the particular lines or makes of new motor vehicles only from a location or locations authorized for such sale or lease in the franchise or franchises between such new motor vehicle dealer and the manufacturers or distributors of such new motor vehicles. The commissioner may, in his or her discretion, issue such certificates of registration and number plates on a staggered expiration basis, in which event the fees set forth in subdivision six of this section for such certificate shall be prorated on a monthly basis. A new motor vehicle dealer registered under this section shall notify the commissioner of any change of address of the locations of his or her place or places of business and whether or not such locations are approved as locations for the sale or lease of new motor vehicles in a franchise and which lines or makes are so approved for sale or lease at each location pursuant to the franchise or franchises within thirty days after such change is made, and the commissioner shall be authorized to cancel the registration upon failure to give such notice. A copy of each franchise affected by any such change or other proof satisfactory to the commissioner shall accompany the notice to the commissioner. If any location shall cease to be approved by the new motor vehicle manufacturer or distributor for the sale or lease of the line or make of new motor vehicle, then such new motor vehicle dealer shall immediately cease selling or leasing such line or make of new motor vehicle from such location and shall notify the commissioner within thirty days of such change, after which such new motor vehicle dealer registration certificate shall be modified to reflect such change. b. If a dealer makes application, under penalty of perjury, for a registration certificate as a qualified dealer, the commissioner shall issue a registration as a qualified dealer to such dealer upon payment of the prescribed fee. c. (ii) Notwithstanding the provisions of article twelve-A of this chapter, a dealer engaged in displaying, advertising, storing and/or demonstrating mobility vehicles may, without obtaining a repair shop license pursuant to such article twelve-A, perform repairs on those parts of the mobility vehicle that are unique to the modifications made thereto and which are not part of the original manufactured motor vehicle. d. The commissioner may, in his or her discretion, issue such certificates of registration and number plates on a staggered expiration basis, in which event the fees set forth in subdivision six of this section for such certificate shall be prorated on a monthly basis. A registrant shall notify the commissioner of any change of address of his or her principal place of business within thirty days after such change is made, and the commissioner shall be authorized to cancel the registration upon failure to give such notice. e. A registration issued under this section may be renewed upon application therefor in such form as the commissioner may prescribe, upon payment of the fee as herein prescribed. f. Except as provided in paragraph (bb) of subdivision two of section four hundred sixty-three of this title and subparagraph (iii) of this paragraph: (i) The commissioner shall not issue any certificate of registration authorized by this section to any franchisor, manufacturer, distributor, distributor branch or factory branch, as such terms are defined in section four hundred sixty-two of this title, or to any subsidiary, affiliate or controlled entity thereof, except that the commissioner may renew such certificate previously issued or otherwise approved to operate to a franchisor prior to July first, two thousand six. Nothing in this section shall preclude the establishment of such facilities necessary to continue the ongoing operation of any holder of a certificate of registration authorized by this section or otherwise approved to operate to a franchisor provided such original certificate or approval was granted prior to July first, two thousand six. (ii) On or after the effective date of this subparagraph, the commissioner shall not issue any certificate of registration, or renew any certificate, unless the original certificate was issued before July first, two thousand six, to any motor vehicle dealer in which a franchisor, manufacturer, distributor, distributor branch or factory branch, as such terms are defined in section four hundred sixty-two of this title, or any subsidiary, affiliate or controlled entity thereof, has acquired, or possesses, a controlling interest in the franchise entity except: (1) when operating such franchise for a temporary period, not to exceed one year, during the transition from one owner of the motor vehicle dealership to another, provided, however, that such temporary period may be extended once for an additional period not to exceed one year for good cause. Provided that for franchisors of house coaches, the period of temporary ownership of a franchised house coach dealership may be extended in one year increments for good cause shown, except that the aggregate of such extensions shall not exceed five years; or (2) when operating such franchise temporarily

under a plan with an independent individual who is obligated to make a significant investment in the dealership that is subject to loss and has an ownership interest or expects to acquire full ownership in a reasonable period under reasonable terms and conditions, provided that a reasonable period shall be presumed to not exceed eight years. (iii) Notwithstanding any other provision of this paragraph or any provision of paragraph (bb) of subdivision two of section four hundred sixty-three of this title, the commissioner may renew any certificate of registration that was issued to a franchisor, manufacturer, distributor, distributor branch or factory branch, as such terms are defined in section four hundred sixty-two of this title, or to any subsidiary, affiliate or controlled entity thereof, prior to March twenty-sixth, two thousand fourteen; provided, however, that such franchisor, manufacturer, distributor, distributor branch or factory branch, or any subsidiary, affiliate or controlled entity thereof, is a manufacturer that manufactures or assembles exclusively zero emissions vehicles, or is a subsidiary, affiliate, or controlled entity of such a manufacturer; and provided further that a controlling interest in such original franchisor, manufacturer, distributor, distributor branch or factory branch or any subsidiary, affiliate or controlled entity was not transferred, sold or conveyed to another person or entity, other than to a subsidiary, affiliate or controlled entity of such franchisor, manufacturer, distributor, distributor branch or factory branch. For purposes of this paragraph, zero emission vehicles shall have the same meaning as under part two hundred eighteen of title six of the New York code of rules and regulations. (iv) Notwithstanding any other provision of this paragraph or any provision of paragraph (bb) of subdivision two of section four hundred sixty-three of this title, the commissioner may issue or renew any certificate of registration to a franchisor, manufacturer, distributor, distributor branch or factory branch, as such terms are defined in section four hundred sixty-two of this title, or to any subsidiary, affiliate or controlled entity thereof, that manufactures or assembles buses exclusively; provided, however, that such certificate shall be issued exclusively for the sale of buses to public transportation providers; and provided further, however, that such franchisor, manufacturer, distributor, distributor branch or factory branch, or any subsidiary, affiliate or controlled entity thereof: (1) is a manufacturer that manufactures or assembles exclusively buses, or is a subsidiary, affiliate, or controlled entity of such a manufacturer; and (2) sells such buses under such certificate of registration solely to public transportation providers. For purposes of this subparagraph, the term "public transportation provider" shall mean public transportation systems eligible to receive operating assistance under the provisions of section eighteen-b of the transportation law, and the term "public transportation system" shall mean: (A) any public benefit corporation constituting a transportation authority, or a subsidiary thereof, or any public transportation corporation constituted as an instrumentality of the state, or a subsidiary thereof, directly or through a contract with another entity, that provides mass transportation services to the general public; or (B) any Indian tribe or any county, city, town or village that provides mass transportation services to the general public directly or through a contract with another entity pursuant to section one hundred nineteen-r of the general municipal law. 8. Use. Transporter number plates issued under this section shall be used only for the limited operation of vehicles owned or controlled by the registrant for the purpose of weighing, testing, dismantling, transporting or delivering the same, or for the purpose of moving such vehicles in connection with making installations thereon or improvements thereto, or the repossession or foreclosure thereof, or for the operation, for demonstration purposes, of any vehicle owned by a manufacturer, or for transporting or delivering the vehicle upon which the plates are displayed and additional vehicles carried in whole or in part upon such vehicle. Except as provided in section four hundred sixteen of this article, dealer number plates issued under this section may be used for all purposes for which transporter plates may be used and, in addition, may be used for the operation of any vehicle owned or controlled by the registrant and held for sale or demonstration, except a vehicle rented to another, a vehicle used to transport passengers for hire, a vehicle commonly called a "tow truck" or "wrecker" and used by the dealer for such purposes, a vehicle equipped for the purpose of towing or pushing disabled or nonoperated vehicles or a commercial or suburban type vehicle used by the dealer for commercial purposes other than directly affecting the sale or demonstration of that particular vehicle. In addition, dealer, manufacturer, or transporter number plates may be used for any non-self-propelled device used for the transport of modular homes. Except as provided in section four hundred sixteen of this article, manufacturer number plates issued under this section may be used for all purposes for which transporter plates may be used and, in addition, may be used for the operation of any vehicle owned or controlled by the registrant and held for demonstration, except a vehicle rented to another, a vehicle used to transport passengers for hire, a vehicle commonly called a "tow truck" or "wrecker" and used by the manufacturer for such purposes, a vehicle equipped for the purpose of towing or pushing disabled or nonoperated vehicles or a commercial or suburban type vehicle used by the manufacturer for commercial purposes other than directly affecting the demonstration of that particular vehicle. Dealer, manufacturer, or transporter number plates issued upon renewal of a dealer, manufacturer, or transporter registration may be used during the thirty day period immediately preceding the expiration date of such registration, including such expiration date. 9. Suspension, revocation and refusal to issue or to renew a registration. The commissioner or any person deputized by him may deny the application of any person for registration under this section and suspend or revoke a registration under this section or refuse to issue a renewal thereof if he or such deputy determines that such applicant or registrant or any officer, director, stockholder, or partner, or any other person directly or indirectly interested in the business: a. Has made a material false statement in his application; or b. Has used or permitted the use of number plates contrary to law; or c. Has been guilty of fraud or fraudulent practices, or has practiced dishonest or misleading advertising; or d. Hearings; temporary suspension. (a) No registration shall be suspended or revoked, or renewal refused, except upon notice to the registrant and after an opportunity to be heard. Provided however, upon a written notice of temporary suspension delivered by certified mail to the registrant, a registration may be temporarily suspended pending a hearing. Any such notice of temporary suspension shall provide that the suspension is effective seventy-two hours after mailing of such notice and shall provide that a hearing be scheduled within ten days after the effective date of the temporary suspension. (b) The applicant may be heard in person or by counsel. The hearing shall be at such time and place as the commissioner shall prescribe. The commissioner or the commissioner's designee may inspect the pertinent books, records, letters and contracts of a registrant relating to any written complaint or charge against such registrant. The commissioner or the commissioner's designee shall have the power to subpoena and bring before a hearing officer any person in this state, and administer an oath to and take testimony of any person or cause the person's deposition to be taken. A subpoena issued under this section shall be regulated by the civil practice law and rules. 10. Suspension and revocation of number plates. The commissioner may suspend or revoke number plates issued pursuant to subdivision four of this section, if he determines that the registrant to whom these plates have been issued has used or permitted the use of such number plates contrary to law or to the regulations of the commissioner with respect to the use thereof. The registrant to whom such number plates have been issued shall have an opportunity to be heard, and the provisions of subdivision nine of this section shall apply to hearings held under this subdivision, and to review of determinations made by the commissioner hereunder. 11. Following the suspension or revocation of the certificate of registration of a dealer, manufacturer, or transporter or number plates, pursuant to this section, the failure of the holder or any other person possessing the certificate of registration, number plates or certificates of sale issued to a dealer pursuant to the regulations of the commissioner, to deliver the same to the suspending or revoking officer, peace officer acting pursuant to his or her special duties, police officer directed by the commissioner to secure possession thereof, or agent of the commissioner, displaying authorization to act in such capacity along with a certified copy of the order revoking or suspending such registration or number plates, shall be a misdemeanor. If any person shall fail to deliver a certificate of registration, number plates or certificates of sale as provided herein, the commissioner shall forthwith direct any peace officer acting pursuant to his or her special duties or police officer to secure possession thereof and to return the same to the commissioner. 12. The commissioner, or any person deputized by him, in addition to or in lieu of revoking or suspending the certificate of registration of a registrant in accordance with the provisions of this article, may in any one proceeding by order require the registrant to pay to the people of this state a penalty for a first violation a sum not exceeding one thousand dollars for each violation found to have been committed; and for a second or subsequent violation not arising out of the same incident both of which were committed within a period of thirty months, a sum of not more than one thousand five hundred dollars for each violation found to have been committed; provided, however, the penalty for each and any violation of paragraph c of subdivision nine of this section found to have been committed shall be no less than three hundred and fifty dollars and no more than one thousand five hundred dollars, except that if a finding of financial loss has been made pursuant to subdivision fourteen of this section, the amount of such penalty may be increased by the amount of financial loss so found, and upon the failure of such registrant to pay such penalty within twenty days after the mailing of such order, postage prepaid, registered or certified, and addressed to the last known place of business of such registrant, unless such order is stayed by an order of a court of competent jurisdiction, the commissioner may revoke the certificate of registration of such registrant or may suspend the same for such period as he may determine. Civil penalties assessed under this subdivision shall be paid to the commissioner for deposit into the state treasury, and unpaid civil penalties may be recovered by the commissioner in a civil action in the name of the commissioner. 13. In addition, as an alternative to such civil action and provided that no proceeding for judicial review shall then be pending and the time for initiation of such proceeding shall have expired, the commissioner may file with the county clerk of the county in which the registrant is located a final order of the commissioner containing the amount of the penalty assessed. The filing of such final order shall have the full force and effect of a judgment duly docketed in the office of such clerk and may be enforced in the same manner and with the same effect as that provided by law in respect to executions issued against property upon judgments of a court of record. 14. Restitution; assessment. a. Upon a determination that a registrant has done or failed to do any act for which suspension of the registrant's registration or a civil penalty against the registrant could be imposed, the person making such determination may make a finding of financial loss to any complainant or complainants resulting from the actions of the registrant. The person making such finding may provide that if the registrant makes restitution to the complainant or complainants for the amount or amounts so found, that payment of such restitution may be substituted in lieu of any suspension or civil penalty, or a specified portion thereof imposed upon the registrant. However, a finding of financial loss shall only be made if the complainant (i) agrees to accept the amount so found, if offered by the registrant, and (ii) is not a party to any litigation which is pending or which has gone to judgment in relation to the same matter in any civil court. b. The amount of financial loss which may be found and proposed as restitution shall be limited to an amount necessary to compensate the complainant or complainants for actual losses caused by the registrant's improper activity. Neither punitive nor incidental damages may be included in the finding of financial loss. c. If payment of restitution to the complainant is authorized in lieu of all or a portion of a suspension or civil penalty, in order for the registrant to exercise the option to make such payment, such payment must be made by means of a certified check or money order payable to the complainant or complainants delivered to an office of the department as directed by the commissioner or his agent within thirty days of the date of notice of suspension and/or civil penalty. Upon receipt of such certified check or money order, the department shall forward the same to the complainant or complainants. In the event that the registrant should fail to make payment for restitution within such thirty days, but, at a later time, pays such civil penalty, the department shall deduct from such civil penalty the amount assessed for restitution, and shall mail a check for such amount to the complainant or complainants. d. If payment of restitution may be substituted in lieu of a civil penalty

or portion of a civil penalty, and the registrant does not exercise the option to make such payment, the civil penalty becomes due as provided in subdivision twelve of this section and the provisions of that subdivision and subdivision thirteen of this section relating to suspension of registration and recovery of civil penalties shall apply. e. Any payment made in compliance with such a finding of financial loss shall not preclude any civil action which may be brought by either the complainant or registrant, and any such finding may be considered but shall not be binding upon any court before which any such action is brought. 15. Miscellaneous provisions. The commissioner may, in his or her discretion, limit the number of sets of number plates which shall be issued to any registrant. The provisions of subdivision three of section four hundred one of this title with respect to the fee for lost, mutilated or destroyed certificates and number plates shall apply to certificates and number plates issued under this section. In the event of the loss or theft of any dealer, manufacturer, or transporter number plate or set of such number plates whether with or without a date tag or tags, or any date tag or set of date tags, the dealer or manufacturer must immediately notify the police of such fact and in the event of loss, theft, mutilation or destruction of any such items the dealer or manufacturer must immediately file a statement and proof of the facts as the commissioner shall require. The provisions of section four hundred two and four hundred eleven of this title with respect to the care and display of number plates shall apply to number plates issued under this section. Registration under this section shall be upon the condition that the registrant shall conform to such reasonable requirements as shall be prescribed by the commissioner. The commissioner may, in his or her discretion, require a registrant to maintain a record in a prescribed form of all vehicles received or disposed of by him or her, which records shall be open at all times for inspection by the commissioner, his or her representatives and any peace officer, acting pursuant to his or her special duties, or police officer. If registration under this section shall be issued in the names of two or more persons as partners and a change occurs in the membership of such partnership, the registration shall not expire so long as any one of the persons named in such registration is a member of the partnership or carries on the business of the partnership as surviving member of the partnership. However, when any such change occurs and the registration does not expire, the partners or surviving member after such change shall forthwith file with the commissioner a statement regarding such partnership in such form and giving such information as the commissioner shall require, and the commissioner shall issue a new certificate of registration. 16. Unregistered operation; operation while suspended or revoked; procedures and penalties. a. The commissioner or any person deputized by him shall hear and determine any allegation that a person has operated as a dealer without being registered as required by subdivision three of this section or while registration is suspended or revoked. Upon a determination that a person has so operated, the commissioner or person deputized by him shall assess civil penalties as provided in paragraphs b and c of this subdivision. b. Except as provided in paragraph c of this subdivision, any person who operates as a dealer without being registered shall be required to pay to the people of this state a civil penalty in the sum of one thousand dollars. However, any such person against whom such penalty has been assessed may avoid all but five hundred dollars of such penalty by obtaining a registration as required by this article, provided that application for such registration is made not more than ten days after the imposition of such penalty. c. (i) Any person who operates as a dealer while his registration is revoked or suspended, shall pay to the people of this state a civil penalty in the sum of one thousand dollars. Such civil penalty may not be avoided. (ii) Any person who operates as a dealer without being registered as required by subdivision three of this section who has previously had a civil penalty assessed for unregistered operation shall pay to the people of this state a civil penalty in the sum of one thousand dollars. Any person who operates as a dealer without being registered as required by subdivision three of this section who has had two previous civil penalties assessed for unregistered operation not arising from the same incident all of which were committed within a period of thirty months shall pay to the people of this state a civil penalty in the sum of four thousand ten dollars. Such civil penalties may not be avoided. (iii) No person who operates as a dealer without being registered as required by subdivision three of this section or while his or her registration is revoked or suspended shall park a motor vehicle, which he or she owns or controls and holds for sale or demonstration, upon a public highway of this state without first being registered in accordance with the provisions of section four hundred one of this chapter. Any such person shall, in addition to any penalties imposed pursuant to paragraph b of this subdivision or subparagraph (ii) of this paragraph, be required to pay to the people of this state an additional civil penalty of three hundred dollars for each motor vehicle owned or controlled and held for sale or demonstration by such person which is parked upon the public highways of this state without first being registered in accordance with the provisions of section four hundred one of this chapter. d. The commissioner, or any person deputized by him, in addition to imposing a civil penalty for unregistered operation as a dealer, may, in any one proceeding, make a determination that the unregistered dealer has caused a financial loss to a complainant or complainants and may increase the civil penalty by the amount of financial loss. The person making such finding may provide that if the unregistered dealer makes restitution to the complainant or complainants for the amount or amounts so found, that payment of such restitution may be substituted for the increase in the civil penalty caused by the finding of financial loss. However, a finding of financial loss shall only be made if the complainant (i) agrees to accept the amount so found, if offered by the unregistered dealer, and (ii) is not a party to any litigation which is pending or in which judgment has been entered in any civil action in any court of competent jurisdiction. e. Civil penalties assessed under this section shall be paid to the commissioner for deposit into the state treasury, and unpaid civil penalties may be recovered by the commissioner in a civil action in the name of the commissioner. In addition, as an alternative to such civil action and provided that no proceeding for judicial review shall then be pending and the time for initiation of such proceeding shall have expired, the commissioner may file with the county clerk of the county in which the registrant is located a final order of the commissioner containing the amount of the penalty assessed. The filing of such final order shall have the full force and effect of a judgment duly docketed in the office of such clerk and may be enforced in the same manner and with the same effect as that provided by law in respect to executions issued against property upon judgments of a court of record. f. No allegation of unregistered operation as a dealer shall be heard or determined unless notice of such allegation has been

mailed to such person within two years after the date of the alleged unregistered operation. 17. Improper display of signs. a. The holder of a dealer registration shall remove or cause to be removed any sign which contains the registration number of the dealer which is visible to the public and which is required to be displayed by this article or regulations promulgated thereunder if the registration is revoked or suspended or the dealer is out of business. If the registration is only suspended, the holder may cover up the sign instead of removing it. b. No person shall permit the display of any sign required to be displayed by this article or regulations promulgated thereunder indicating to the public that an official dealer is operating unless a dealer registration has been issued to that person and is currently valid. 18. Rights of dealers. The rights of all new motor vehicle dealers under this article may be exercised from any location or locations which are from time to time approved by their franchisors and the commissioner as prescribed in this article. 2024 New York LawsVAT - Vehicle and TrafficTitle 4 - Registration of VehiclesArticle 17-A - Franchised Motor Vehicle Dealer Act463 - Unfair Business Practices by Franchisors.

(a) To order or accept delivery of any motor vehicle or vehicles, appliances, tools, machinery, equipment, parts or accessories therefor or any other commodity or commodities which shall not have been voluntarily ordered by said franchised motor vehicle dealer except any such items required by a recall campaign. (b) To order or accept delivery of any motor vehicle with special features, appliances, accessories or equipment not included in the list price of said motor vehicle as publicly advertised by the franchisor. (c) To contribute or pay money or anything of value into any cooperative or other advertising program or fund unless such program or fund shall be controlled by a dealer or group of dealers. (d) To participate in any training program unless such program is expressly limited to specific information necessary to sell or service the models of vehicles the dealer is authorized to sell or service under the dealer's franchise with that franchisor. A franchisor shall not unreasonably require an owner or dealer principal of a dealership to attend any meeting or training program. A franchisor who requires participation in a training program as authorized by this paragraph shall to the largest extent practicable make all reasonable efforts to limit or reimburse the expenses of a dealer incurred in attending such program. Nothing in this paragraph shall be deemed to prohibit any training program located within a dealer's own principal place of business. (e) To sell, or sell exclusively an extended service contract, extended maintenance plan or similar product, including, but not limited to, gap products offered, endorsed or sponsored by the franchisor by the following means: (1) by a statement made by the franchisor that failure to do so will substantially and adversely impact the dealer; or (2) by a provision in a franchise agreement that the dealer sell, or sell exclusively an extended service contract, extended maintenance plan

or similar product offered, endorsed or sponsored by the franchisor; or (3) by measuring the dealer's performance under the franchise based on the sale of extended service contracts, extended maintenance plans or similar products offered, endorsed or sponsored by the manufacturer or distributor; or (4) by requiring the dealer to exclusively promote the sale of extended service contracts, extended maintenance plans or similar products offered, endorsed or sponsored by the franchisor. Nothing in this section shall prohibit a franchisor from: (A) providing incentives to a dealer that makes the voluntary decision to sell or sell exclusively an extended service contract, extended maintenance plan or similar product, including, but not limited to, gap products offered, endorsed or sponsored by the franchisor, or (B) requiring that a dealer that sells an extended service contract, extended maintenance plan, or similar product that is not offered, endorsed or sponsored by the franchisor, disclose to the consumer the disclosures required under section seven thousand nine hundred five of the insurance law, and a separate statement, acknowledged by the consumer, that the extended service contract, extended maintenance plan or similar product is not offered, endorsed or sponsored by the franchisor, if that is the case. 2. It shall be unlawful for any franchisor, notwithstanding the terms of any franchise contract: (a) To refuse to deliver in reasonable quantity and within a reasonable time after receipt of a dealer's order to any franchised motor vehicle dealer any vehicle covered by such franchise which is publicly advertised by such franchisor to be available for immediate delivery. Provided, however, the failure to deliver any motor vehicle shall not be considered a violation of this article if such failure be due to acts of God, work stoppages or delays due to strikes or labor difficulties, freight embargoes, shortage of materials, a lack of manufacturing capacity or other causes over which the franchisor shall have no control. (b) To directly or indirectly coerce or attempt to coerce any franchised motor vehicle dealer to enter into any agreement with such franchisor or officer, agent or other representative thereof, or to do any other act prejudicial to the monetary interests or property rights of said dealer by threatening to terminate said dealer. Provided, however, that good faith notice to any franchised motor vehicle dealer of said dealer's violation of any terms or provisions of such franchise shall not constitute a violation of this article. (c) (1) To condition the renewal or extension of a franchise on a franchised motor vehicle dealer's substantial renovation of the dealer's place of business or on the construction, purchase, acquisition or rental of a new place of business by the franchised motor vehicle dealer unless the franchisor has advised the franchised motor vehicle dealer in writing of its intent to impose such a condition within a reasonable time prior to the effective date of the proposed date of renewal or extension (but in no case less than one hundred eighty days) and provided the franchisor demonstrates the need for such change in the place of business and the reasonableness of such demand in view of the need to service the public and the economic conditions existing in the automobile industry at the time such action would be required of the franchised motor vehicle dealer. As part of any such condition the franchisor shall agree, in writing, to supply the dealer with a reasonable quantity and mix of additional new motor vehicles which, as determined by a reasonable analysis of market conditions, are projected to meet the sales levels necessary to support the increased overhead incurred by the franchised motor vehicle dealer by reason of such renovation, construction, purchase, acquisition or rental of a new place of business. (2) To require a franchised motor vehicle dealer to purchase goods, building materials, or services for the dealer's place of business, including, but not limited to, office furniture, design features, flooring, and wall coverings, from a vendor chosen by the franchisor if goods, building materials, or services of substantially similar quality and design are available from other sources, provided, however, that the goods or building materials are not subject to the franchisor's intellectual property or trademark rights and the franchised motor vehicle dealer has received the franchisor's approval, which approval may not be unreasonably withheld. Nothing in this subdivision shall be construed to allow a franchised motor vehicle dealer to impair or eliminate a franchisor's intellectual property or trademark rights and trade dress usage guidelines, or to impair other intellectual property interests owned or controlled by the franchisor. (3) Except as necessary to comply with a health or safety law, or to comply with a technology requirement, which is necessary to sell or service a motor vehicle that the franchised motor vehicle dealer is authorized or licensed by the franchisor to sell or service, to require a franchised motor vehicle dealer to construct a new dealer facility or substantially alter or remodel an existing dealer facility before the date that is ten years after the date the construction of the new dealer facility or such alteration or remodeling at that location was completed and shall continue with any successor owner provided such owner has been designated and approved by the franchisor in the franchise agreement, and such construction, alteration or remodeling substantially complied with the franchisor's brand image standards or plans that the franchisor provided at the time the construction, alteration, or remodeling was completed. (i) As used in this subparagraph, "substantially alter": (A) refers to an alteration that has a major impact on the architectural features, characteristics, or integrity of a structure or lot; and (B) does not include routine maintenance, such as interior painting, reasonably necessary to keep a dealership facility in attractive condition. (ii) Nothing in this paragraph shall prohibit a franchisor from: (A) continuing a facility improvement program that is in effect as of the effective date of this paragraph with more than one franchised motor vehicle dealer in the state or to renewing or modifying such program; or (B) providing lump sum or regularly-scheduled payments to assist a franchised motor vehicle dealer in making a facility improvement, including construction, alteration or remodeling, or installing signage or a franchisor image element; (C) providing reimbursement to a franchised motor vehicle dealer on reasonable, written terms for a portion of the franchised motor vehicle dealer's cost of making a facility improvement, including construction, alteration or remodeling, the purchase of goods, building materials or services, or installing signage or a franchisor image element. (4) To deny a franchised motor vehicle dealer a franchisor image element payment, incentive or allowance if the franchised motor vehicle dealer, with the franchisor's approval, began construction, alterations or remodeling intended to comply with the franchisor's image element program before the franchisor substantially changed or terminated the program prior to the program's scheduled ending date provided the dealer is otherwise eligible for program payments and provided that after such substantial change or termination, the compensation payable to the dealer shall be limited to image element payments, incentives or allowances that the dealer would have earned through program's scheduled ending date, provided that the dealer complies with all

program requirements, and provided, further, that such program or payments are not otherwise prohibited by law or regulation. (5) To require or attempt to require a franchised motor vehicle dealer to establish or maintain exclusive dealership facilities unless justified by current and reasonably expected future economic conditions existing in the dealer's relevant market area at the time the request for exclusive facilities is made; provided that the foregoing shall not restrict the terms and conditions of any agreement for which the dealer has voluntarily accepted valuable consideration separate from the franchised motor vehicle dealer's right to sell and service motor vehicles for the franchisor. The fact that local market share, facing competitive brand dealerships have exclusive dealership facilities shall constitute evidence that current economic conditions may justify the requirement to establish and maintain exclusive dealership facilities. (6) To require a site control provision regarding the dealer's place of business to survive or continue after the termination of such dealer's franchise if the termination is due to the discontinuation of the line-make that was the subject of the agreement. (d) (1) To terminate, cancel or refuse to renew the franchise of any franchised motor vehicle dealer except for due cause, regardless of the terms of the franchise. A franchisor shall notify a franchised motor vehicle dealer, in writing, of its intention to terminate, cancel or refuse to renew the franchise of such dealer at least ninety days before the effective date thereof, stating the specific grounds for such termination, cancellation or refusal to renew. In no event shall the term of any such franchise expire without the written consent of the franchised motor vehicle dealer involved prior to the expiration of at least ninety days following such written notice except as hereinafter provided. (2) A change in ownership of a manufacturer or distributor that contemplates a continuation of that line make in the state shall not directly or indirectly, through actions of any parent of the manufacturer or distributor, subsidiary of the manufacturer or distributor, or common entity cause a termination, cancellation, or nonrenewal of a dealer agreement by a present or previous manufacturer or distributor of an existing agreement unless the manufacturer or distributor offers the new vehicle dealer an agreement substantially similar to that offered to other dealers of the same line make. (3) The provisions of subparagraphs one and two of this paragraph notwithstanding, a franchisor may terminate its franchise with a franchised motor vehicle dealer upon at least fifteen days written notice upon the occurrence of any of the following: (i) conviction of a franchised motor vehicle dealer, or one of its principal owners, of a felony or a crime punishable by imprisonment which substantially adversely affects the business of the franchisor, or (ii) the failure of the franchised motor vehicle dealer to conduct its customary sales and service operations for a continuous period of seven business days, except for acts of God or circumstances beyond the direct control of the franchised motor vehicle dealer or when any license required by the franchised motor vehicle dealer is suspended for a period of thirty days or less, or (iii) insolvency of the franchised motor vehicle dealer, or filing of any petition by or against the franchised motor vehicle dealer under any bankruptcy or receivership law. (e) (1) Any franchised motor vehicle dealer who receives a written notice of termination or a written notice of a franchisor's demand that the dealer substantially renovate an existing place of business, or buy, construct or rent a new place of business as a condition of franchise renewal or extension may have a review of the demand to change the place of business or the threatened termination by instituting an action, as provided in section four hundred sixty-nine of this article. If such action is commenced within four months of receipt of notice, such action shall serve to stay, without bond, the proposed termination or renovation or demand to change the place of business until the final judgment has been rendered in an adjudicatory proceeding or action, as provided in section four hundred sixty-nine of this article. (2) The issues to be determined in an action commenced pursuant to subparagraph one of this paragraph are whether the franchisor's notice of termination was issued with due cause and in good faith. The burden of proof shall be upon the franchisor to prove that due cause and good faith exist. The franchisor shall also have the burden of proving that all portions of its current or proposed sales and service requirements for the protesting franchised new motor vehicle dealer are reasonable. The determination of due cause shall be that there exists a material breach by a new motor vehicle dealer of a reasonable and necessary provision of a franchise if the breach is not cured within a reasonable time after written notice of the breach has been received from the manufacturer or distributor. (3) The franchisor shall provide notification in writing to the dealer that the dealer has one hundred eighty days to correct dealer sales and service performance deficiencies or breaches and that the franchise is subject to termination under this section if the dealer does not correct those deficiencies or breaches. If the termination is based upon performance of the dealer in sales and service then there shall be no due cause if the dealer substantially complies with the reasonable performance provisions of the franchise during such cure period and, no due cause if the failure to demonstrate such substantial compliance was due to factors which were beyond the control of such dealer. (f) To intentionally resort to or use any false or misleading advertisements. (g) To sell or offer to sell any new motor vehicle to any franchised motor vehicle dealer at a lower actual price therefor than the actual price offered to any other franchised motor vehicle dealer for the same model vehicle similarly equipped or to utilize any device including, but not limited to, sales promotion plans or programs which result in such lesser actual price. Provided, however, the provisions of this paragraph shall not apply to sales to a franchised motor vehicle dealer for: (i) resale to any unit of government; or (ii) donation or use by said dealer in a driver education program. This paragraph shall not be construed to prevent the offering of incentive programs or other discounts provided such incentives or discounts are reasonably available to all franchised motor vehicle dealers in this state on a proportionately equal basis. (h) To sell or offer to sell any new motor vehicle to any person, except a distributor, at a lower actual price therefor than the actual price offered and charged to a franchised motor vehicle dealer for the same model vehicle similarly equipped or to utilize any device which results in such lesser actual price. (i) To sell or offer to sell parts and/or accessories to any franchised motor vehicle dealer at a lower actual price therefor than the actual price offered to any other franchised motor vehicle dealer for similar parts and/or accessories for use in his own business. Provided, however, that nothing herein contained shall be construed to prevent a manufacturer or distributor, or any agent thereof, from selling to a franchised motor vehicle dealer, who operates and serves as a wholesaler of parts and accessories, such parts and accessories as may be ordered by such franchised motor vehicle dealer for resale to retail outlets at a lower actual price than the actual price offered a franchised motor vehicle dealer who

does not operate or serve as a wholesaler of parts and accessories. This paragraph shall not be construed to prevent the offering of incentive programs or other discounts provided the franchisor demonstrates that such incentives or discounts are reasonably available to all franchised motor vehicle dealers in the state on a proportionately equal basis. (j) To prevent or attempt to prevent, by contract or otherwise, any franchised motor vehicle dealer from changing the capital structure of its dealership, or the means by or through which it finances the operation of its dealership, or finances the acquisition or retention of inventory, provided the dealer at all times meets any capital standards agreed to between the dealer and the franchisor and as applied by the franchisor to all other comparable franchised motor vehicle dealers of the franchisor located within the state. (k) To unreasonably withhold consent to the sale or transfer of an interest, in whole or in part, to any other person or party by any franchised motor vehicle dealer or any partner or stockholder of any franchised motor vehicle dealer. If such consent to sale or transfer shall be withheld by the franchisor, the franchisor shall provide specific reasons for its withholding of consent within sixty days of receipt of the request for such consent provided such request is accompanied by proper documentation as may reasonably be required by the franchisor. Upon receipt of notice and reasons for the franchisor's withholding of consent, the franchised motor vehicle dealer may within one hundred twenty days have a review of the manufacturer's decision as provided in section four hundred sixty-nine of this article. (l) To require a franchised motor vehicle dealer to assent to a release, assignment, novation, waiver or estoppel which would relieve any person from liability imposed under this article, provided that this paragraph shall not be construed to prevent a franchised motor vehicle dealer from entering into a valid release or settlement agreement with a franchisor. (m) (1) To deny to the surviving spouse or heirs of an individual franchised motor vehicle dealer or of a partner of an unincorporated franchised motor vehicle dealer or of a stockholder of a corporate franchised motor vehicle dealer the right to succeed to the interest of the decedent in such franchised motor vehicle dealership enterprise or directly or indirectly to interfere with, hinder or prevent the continuance of the business of the franchised motor vehicle dealer by reason of such succession to the interest of the decedent. Provided, however, that the continuation of the business of the franchised motor vehicle dealer shall be conducted under competent management acceptable to the franchisor, whose acceptance shall not be unreasonably withheld. (2) Notwithstanding the foregoing, in the event the franchised motor vehicle dealer and franchisor have duly executed an agreement concerning succession rights prior to the individual dealer's, partner's or stockholder's death and if such agreement has not been revoked by the franchised motor vehicle dealer, such agreement shall be observed, even if it designates an individual other than the surviving spouse or heirs of the decedent. (n) To fail to indemnify and hold harmless its franchised motor vehicle dealers against any losses or damages including, but not limited to, court costs and attorneys' fees arising out of actions, claims or proceedings including, but not limited to, those based upon strict liability, negligence, misrepresentation, warranty (expressed or implied) or revocation as described in section 2-608 of the uniform commercial code, where the action, claim or proceeding directly relates to the manufacture, assembly or design of new motor vehicles, parts or accessories or other functions of the franchisor including, without limitation, the selection by the franchisor of parts or components for the vehicle or any damages to merchandise or vehicles occurring in transit where the carrier is designated by the franchisor, notwithstanding the terms of any franchise. If the action, claim or proceeding includes independent allegations against the franchised motor vehicle dealer, the franchisor shall bear only that portion of the costs, fees and judgment which is directly related to the manufacture, assembly or design of the vehicle, parts or accessories, or other function of the franchisor beyond the control of the franchised motor vehicle dealer. (o) (1) Upon a termination of a franchise by a franchisor or franchised motor vehicle dealer under this article, to refuse to accept a return of new and unused current model motor vehicle inventory which has been acquired from the franchisor, new and unused noncurrent model motor vehicle inventory which has been acquired from the franchisor within one hundred eighty days of the effective date of the termination; supplies, parts, equipment, signage, special tools, and furnishings purchased from the franchisor or its approved sources. The obligation of the franchisor, except with respect to signage shall be limited to the repurchase of the above property which is unaltered and undamaged, in good and useable condition, and, in the case of supplies, parts and equipment to those items which are currently listed in the franchisor's supplies and parts list. In the case of signage, the franchisor shall be obligated to repurchase any franchisor required signage, purchased within the five years preceding termination and which is in good and useable condition less depreciation as set forth in the Internal Revenue Code of one-fifteenth of the initial cost per year starting the year following the dealer's acquisition of the item. Furthermore, the obligation of the franchisor to repurchase supplies upon a termination, cancellation or nonrenewal by a franchised motor vehicle dealer shall be limited to supplies mandated by the franchisor. Parts eligible for repurchase shall include parts which have been renumbered in the current parts list but which are identical in design and material to the currently numbered part. The return rights afforded the franchised motor vehicle dealer under the provisions of the paragraph shall be in addition to those, if any, provided in the franchise agreement. (2) The franchisor shall pay fair and reasonable compensation for the above described property upon repurchase. In the case of new motor vehicle inventory, accessories and parts, fair and reasonable compensation shall in no instance be less than the net acquisition price paid by the franchised motor vehicle dealer to the franchisor or its approved sources. Upon a termination of a franchise by a franchisor, within thirty days of such termination, the franchisor shall send to the franchised motor vehicle dealer instructions on the methodology by which the franchised motor vehicle dealer must ship the above described property to the franchisor; the franchisor shall then remit payment for such property to the franchised motor vehicle dealer within sixty days after receipt of such property. (3) Upon a termination of a franchise by a franchised motor vehicle dealer where the franchise consists primarily of the distribution and sale of house coaches, the franchisor's repurchase obligations set forth in this paragraph shall not apply. (4) In addition to any other requirements of this subdivision, in the event a franchisor terminates a franchise due to termination of a line make, the franchisor shall compensate the dealer for any franchisor required facility construction, alterations or remodeling, or construction, alterations or remodeling required for participation in any incentive programs which were completed by

the dealer within three years of the date the franchisor announced the termination of the line make. For the purposes of this section, completion shall be deemed to occur at the later of the franchisor's final approval of the construction, alterations, or remodeling or the issuance of a certificate of occupancy. The compensation required under this section shall be in an amount equal to the dealer's cost for the facility upgrades less any assistance provided to the dealer within three years of the date the franchisor announced the termination of the line make by the manufacturer or distributor, and less the amount for depreciation as set forth in Internal Revenue Code of one thirty-ninth of the total initial cost of such construction, alterations, or remodeling per year starting the year following the dealer's completion of the facility construction, alterations, or remodeling. (5) In addition to the requirements of subparagraph four of this paragraph, in the event a franchisor terminates a franchise due to a termination of a line make, the franchisor shall compensate the dealer in an amount equal to the amount remaining on the terminated dealer's management computer system lease or contract, or one year of lease payments, whichever is less if the dealer management computer system will no longer be utilized as a result of the termination and the franchisor required the dealer to utilize the particular dealer management computer system. (p) To refuse to repurchase for cost, including transportation charges, a new vehicle which has been substantially damaged by the franchisor or its agent; or to sell or transfer to a franchised motor vehicle dealer a new motor vehicle which has been subjected to repairs with a retail value in excess of five percent of the lesser of the manufacturer's or distributor's suggested retail price where such repairs are performed after shipment from the franchisor including damage to the vehicle while in transit without so notifying the franchised motor vehicle dealer to whom such new motor vehicle so repaired is sold or transferred. Such notice shall be in writing, advise of such repairs, and be provided prior to the receipt of any payment for such motor vehicle. If the franchisor shall fail to provide such notice, any franchised motor vehicle dealer suffering a loss by reason of such failure shall be entitled to reimbursement from the franchisor who failed to provide such notice. (q) To provide directly or to grant to any person the right to perform warranty or recall service on any new motor vehicle line other than a house coach line but deny to said person the right to purchase the motor vehicles of that line for resale to consumers in this state as new motor vehicles provided, however, that this paragraph shall not prohibit a franchisor from: (1) authorizing warranty service by employees of a fleet operator or governmental entity on owned vehicles; or (2) authorizing such other persons to perform warranty service as the franchisor deems necessary to protect its interests as they may be affected by section one hundred ninety-eight-a of the general business law. A "fleet operator" shall be required to own for its own use or for the use of others the minimum number of vehicles of the current or preceding model year manufactured or sold by the same franchisor as determined by the standards of such franchisor applied on a general and consistent basis to substantially all fleet operators. Notwithstanding the preceding, a franchisor which withdraws from the United States market shall continue to allow its former franchised motor vehicle dealers to continue servicing and supplying parts, including service and parts supplied under the franchisor's warranty to vehicle owners, for a period of at least five years after such withdrawal from the United States market. (r) To establish or attempt to establish the actual resale price for any new motor vehicle, part or accessory charged by a franchised motor vehicle dealer in the state, provided, however, nothing contained herein shall prohibit publication of recommended resale prices or historical information by a franchisor. (s) To grant a commission to any person other than a franchised motor vehicle dealer within the state involved in the sale of a new motor vehicle by such franchised motor vehicle dealer without said franchised motor vehicle dealer's written consent. This prohibition shall not apply to sales incentive programs for employees of franchised motor vehicle dealers as long as the payments are made by the franchisor to such employees and not charged to the dealer. (t) To require or attempt to require by the terms of the franchise that any dispute arising out of or in connection with the interpretation, performance or nonperformance of the parties to the franchise or in any way related to the franchise be determined through the application of any other state's laws. (u) To use any subsidiary corporation, affiliated corporation, captive finance source or any other controlled corporation, partnership, association or person to accomplish what would otherwise be unlawful conduct under this article on the part of the franchisor. (v) To use a CSI (customer satisfaction index) or other system measuring a customer's degree of satisfaction with a franchised motor vehicle dealer as a sale or service provider unless any such system is designed and implemented in such a way that it is fair and equitable to both the franchisor and the franchised motor vehicle dealer. In any dispute between a franchisor and a franchised motor vehicle dealer the party claiming the benefit of the system as justification for acts in relation to the franchise shall have the burden of demonstrating the fairness and equity of the system both in design and implementation in relation to the pending dispute. Upon request of any franchised motor vehicle dealer, a franchisor shall disclose in writing to such dealer a description of how that system is designed and all relevant information pertaining to such dealer used in the application of that system to such dealer. (w) To withhold from a franchised motor vehicle dealer a new motor vehicle product of the same line make which the franchised motor vehicle dealer is authorized to sell under its franchise. Provided that the failure to deliver any motor vehicle shall not be considered to be a violation of this article if such failure is due to an act of God, work stoppages or delays due to strikes or labor difficulties, freight embargoes, shortages of materials, a lack of manufacturing capacity, or other causes over which the franchisor shall have no control. A franchised motor vehicle dealer shall be entitled to sell and service all the manufacturer's new motor vehicles which the franchised motor vehicle dealer is authorized to sell pursuant to the franchise, provided, however, a franchisor may impose reasonable facility, capital, training, tools and parts inventory requirements as a condition to the franchised motor vehicle dealer being permitted to sell such new motor vehicle products. Conditions imposed by the franchisor shall be reasonably applied to all of its franchised motor vehicle dealers. Franchised motor vehicle dealers who are presently parties to a franchise with the franchisor shall be offered the right to sell and service any new motor vehicle product of the same line make owned or generally distributed by such franchisor's franchised motor vehicle dealer within such franchised motor vehicle dealer's designated area of responsibility designated in the franchise agreement before any person not a party to such a franchise for the sale of motor vehicles within such area of responsibility is offered or granted a

franchise to sell such new motor vehicle product from a location within such area of responsibility. (x) To require a franchised motor vehicle dealer to agree to a term or condition in a franchise, or as a condition to the offer, grant or renewal of the franchise, lease or agreement, which: (1) unless preempted by federal law, requires the franchised motor vehicle dealer to waive trial by jury in actions involving the franchisor; or (2) unless preempted by federal law, specifies the jurisdiction, venues or tribunals in which disputes arising with respect to the franchise, lease or agreement shall or shall not be submitted for resolution or otherwise prohibits a franchised motor vehicle dealer from bringing an action in a particular forum otherwise available. (y) Subject to the provisions of paragraph (w) of this subdivision, to sell or offer to sell or lease or offer to lease a motor vehicle other than to a franchised motor vehicle dealer in this state; provided, however, that this paragraph shall not apply to sales or leases of new motor vehicles made by a franchisor to its employees, immediate family members of employees, retirees or immediate family members of retirees which are hereby authorized notwithstanding the provisions of section four hundred fifteen of this title. Nothing in this paragraph shall prohibit a franchisor from utilizing direct marketing designed to generate leads via mail, phone, or any other medium, provided that leads developed thereby are referred to the franchised motor vehicle dealers in this state and in proximity to the consumer pursuant to a fair and equitable system of allocating such leads or to the franchised motor vehicle dealer as specified by the consumer. The provisions of this paragraph shall not apply to franchisors of house coaches when the franchisor does not have any franchised house coach dealers in this state. (z) To refuse to allocate, sell, or deliver motor vehicles, to charge back or withhold payments or other things of value for which the franchisee is otherwise eligible, or to take or threaten to take any adverse action against a franchised motor vehicle dealer, in connection with or as a result of any new motor vehicle sold by the franchised motor vehicle dealer and subsequently exported, providing such dealer can demonstrate that he exercised due diligence and that the sale was made in good faith including that the dealer did not know nor reasonably should have known of the purchaser's intention to export the motor vehicle. A franchised motor vehicle dealer which causes a new motor vehicle to be registered in this state or in a foreign state and causes to be collected the appropriate sales and use tax, or that reasonably relied on a franchisor to complete a sale shall be presumed to have exercised good faith and due diligence. Prior to taking an adverse action, including a charge back, as a result of an export, a franchisor shall provide written notice to the franchised motor vehicle dealer of the adverse action, and, if a charge back, the specific amount of the charge back, and the vehicle or vehicles at issue. A dealer shall not be liable for the delivery of any vehicle sold through a franchisor's fleet program for any such delivery in which the sale or lease was not initiated or negotiated by the dealer and its function was to provide delivery on behalf of the franchisor. (aa) To: (1) sell directly to a franchised motor vehicle dealer or, to or through a franchised motor vehicle dealer in which the franchisor owns any interest or controls the management, directly or indirectly, motor vehicles, parts, warranties, or services at a price that is lower than the price which the franchisor charges to all other franchised motor vehicle dealers; or (2) sell directly to a consumer at retail new original equipment manufacturer's parts (OEM) at a price that is lower than the price which the franchisor makes available to franchised motor vehicle dealers; or (3) otherwise provide a franchised motor vehicle dealer in which the franchisor owns any interest or controls the management, directly or indirectly, goods or services at a price that is lower than the price charged to all other franchised motor vehicle dealers. (bb) On and after the effective date of this paragraph, to acquire any interest in any additional motor vehicle dealer in this state, with the exception of stock in a publicly held dealer when ownership is passive and for investment purposes only; provided, however, that nothing in this paragraph shall prohibit a franchisor and its affiliates that own an interest in a franchised motor vehicle dealership that operates or is approved to operate, within one hundred twenty days after the effective date of this paragraph, from selling or servicing a new line make of the franchisor or its affiliates that was not distributed in this state as of the effective date of this paragraph. Provided, further, that nothing in this paragraph shall prohibit a franchisor from acquiring any interest in any franchised motor vehicle dealership: (1) when operating such franchise for a temporary period, not to exceed one year, during the transition from one owner of the motor vehicle dealership to another, provided, however, that such temporary period may be extended once for an additional period not to exceed one year for good cause. Provided that for franchisors of house coaches, the period of temporary ownership of a franchised house coach dealership may be extended in one year increments for good cause shown, except that the aggregate of such extensions shall not exceed five years; or (2) when operating such franchise temporarily under a plan with an independent individual who is obligated to make a significant investment in the dealership that is subject to loss and has an ownership interest or expects to acquire full ownership in a reasonable period under reasonable terms and conditions, provided that a reasonable period shall be presumed to not exceed eight years; provided, however, that the exception provided in this subparagraph shall not apply to any franchisor, manufacturer, distributor, distributor branch or factory branch that holds a certificate or registration pursuant to subparagraph (iii) of paragraph f of subdivision seven of section four hundred fifteen of this title. (cc)(1) To enter into a franchise establishing an additional new motor vehicle dealer or relocating an existing new motor vehicle dealer into the relevant market area of an existing franchise motor vehicle dealer of the same line make unless the franchisor provides notice pursuant to the terms of this subdivision. All dealers that have a relevant market area that encompasses the proposed site shall be entitled to written notice, via certified mail return receipt requested, informing them of the proposed addition or relocation. Any new motor vehicle dealer may institute an action as provided in section four hundred sixty-nine of this article to protest the establishment or relocation of the new motor vehicle dealer following receipt of such notice, or following the end of any appeal procedure provided by the franchisor. In any action brought by the dealer, the franchisor shall have the burden of proving that there exists good cause for any such addition or relocation. Institution of an action pursuant to this subdivision shall serve to stay, without bond, the proposed addition or relocation until a final judgment has been rendered in a proceeding or action as provided in section four hundred sixty-nine of this article. (2) This subdivision shall not apply to: (i) the relocation or replacement, other than a replacement of a dealer who has moved within such area, of an existing new motor vehicle dealer within that dealer's own existing relevant market

area, provided that the relocation not be to a site within the relevant market area of a licensed new motor vehicle dealer for the same line make of motor vehicle, unless such existing franchise was previously located within such new motor vehicle dealer's relevant market area; or (ii) the addition of a new motor vehicle dealer or the establishment of a replacement new motor vehicle dealer, other than a replacement of a dealer who has moved within such area, at or within two miles of a location at which a former licensed new motor vehicle dealer for the same line make of new motor vehicle had ceased operating within the previous two years; or (iii) the relocation of an existing new motor vehicle dealer within two miles of the existing site of the new motor vehicle dealership if the franchise has been operating on a regular basis from the existing site for a minimum of three years immediately preceding the relocation; or (iv) the relocation of a new motor vehicle dealer of the same line make if that dealer or replacement dealer is moving further away from a motor vehicle dealer of of the same line make. (3) In determining whether good cause has been established for not entering into or relocating an additional new motor vehicle dealer for the same line make, there shall be individual findings with respect to the following: (i) the permanency of the investment of both the existing and proposed additional new motor vehicle dealers; (ii) growth or decline in population, density of population, and new car registrations in the area; (iii) effect on the consuming public in the area; (iv) whether it is injurious or beneficial to the public welfare for an additional new motor vehicle dealer to be established; (v) whether the new motor vehicle dealers of the same line make in that area are providing adequate competition and convenient customer care for the motor vehicles of the same line make including the adequacy of motor vehicle sales and service facilities, equipment, supply of motor vehicle parts, and qualified service personnel; (vi) whether the establishment of an additional new motor vehicle dealer or relocation of an existing new motor vehicle dealer in the relevant market area would increase competition in a manner beneficial to the long-term public interest; (vii) the effect on the dealer that proposed to relocate; and (viii) any other factor which may be deemed material by the finder of fact to the unique facts and circumstances presented. (dd) To unreasonably prevent or refuse to approve the relocation of a dealership to another site within that dealership's relevant market area. The dealership must provide prior written notice providing the address of the proposed new location and a site plan of the proposed facility. The franchisor must, within sixty days of receipt of such information, grant or deny the dealer's relocation request. Failure to timely deny the request shall be deemed consent to the relocation. (ee) To fail to reimburse a dealer in full for the actual cost of providing a loaner vehicle to any customer who is having a vehicle serviced at the dealership if the provision of such a loaner vehicle is required by the franchisor. For the purposes of this paragraph, actual cost shall not exceed the average cost in the dealer's region for the rental of a substantially similar make and model as the vehicle being serviced. (ff)(1) To modify the franchise of any franchised motor vehicle dealer unless the franchisor notifies the franchised motor vehicle dealer, in writing, of its intention to modify the franchise of such dealer at least ninety days before the effective date thereof, stating the specific grounds for such modification. (2) For purposes of this paragraph, the term "modify" or "modification" means any change or replacement of any franchise if such change or replacement may substantially and adversely affect the new motor vehicle dealer's rights, obligations, investment or return on investment. (3) If any franchised motor vehicle dealer who receives a written notice of modification institutes an action within one hundred twenty days of receipt of such notice as provided in section four hundred sixty-nine of this article to have a review of the threatened modification, such action shall serve to stay, without bond, the proposed modification until a final judgment has been rendered in an adjudicatory proceeding or action as provided in section four hundred sixty-nine of this article. A modification is deemed unfair if it is not undertaken in good faith; is not undertaken for good cause; or would adversely and substantially alter the rights, obligations, investment or return on investment of the franchised motor vehicle dealer under an existing franchise agreement. In any action brought by the dealer, the franchisor shall have the burden of proving that such modification is fair and not prohibited. (gg) To use an unreasonable, arbitrary or unfair sales or other performance standard in determining a franchised motor vehicle dealer's compliance with a franchise agreement. Before applying any sales, service or other performance standard to a franchised motor vehicle dealer, a franchisor shall communicate the performance standard in writing in a clear and concise manner. (hh) To require that a franchised motor vehicle dealer contribute monetarily to any program or promotion without first receiving the written consent of the franchised motor vehicle dealer to participate in such program or promotion. For purposes of this paragraph, the written consent specific to the particular program or promotion must be executed, by means of handwritten, typed or electronic signature, within sixty days prior to the start of the particular program or promotion, provided, however, that consent shall not be required to continue participation in a program or promotion to which the dealer has given written consent to renewal, and provided further, that the dealer shall be able to terminate such renewal upon reasonable written notice within thirty days following the start or renewal of the program or promotion. (ii) To allocate new motor vehicles to a franchised motor vehicle dealer based on a program that differentiates between vehicle sales by a franchised motor vehicle dealer within a territory or geographic area assigned to such dealer and vehicle sales outside of such territory or geographic area. (jj) To utilize a discriminatory, unreasonable, arbitrary or unfair system of allocation of new motor vehicle inventory. A franchisor shall communicate its system of allocation in writing in a clear and concise manner to all same line-make dealers located in this state. (kk) To refuse to disclose to any franchised motor vehicle dealer the manner and mode of distribution of vehicles in the franchised motor vehicle dealer's line make within the state, and an explanation of the allocation system, including the methodology used, in a clear and comprehensible form. 2-a. On and after the effective date of this subdivision, if a franchisor notifies a franchised motor vehicle dealer, in writing, of its decision to monitor the continued viability of the dealership, the franchisor shall include in such notice the specific reasons upon which the franchisor's decision is based. 2-b. It shall be unlawful for any franchisor to provide financial information particular to a franchised motor vehicle dealer, including but not limited to, selling prices and sales margins, that has been collected from such franchised motor vehicle dealer to any other franchised motor vehicle dealer including a franchised motor vehicle dealer in which the franchisor owns any interest or controls, directly or indirectly, the management thereof. Nothing

contained in this subdivision shall be deemed to prevent any franchisor from collecting and distributing any such financial information in an aggregate manner provided that the information from any motor vehicle dealer has been combined with the information from one or more franchised motor vehicle dealers such that the financial information from a particular dealer is no longer identifiable to such dealer. 3. In any action or proceeding instituted pursuant to the provisions of this section, there shall be available to the franchisor all of the defenses provided for under section thirteen-b of title fifteen, United States code, known as the Robinson-Patman Act.

2024 New York LawsVAT - Vehicle and TrafficTitle 4 - Registration of VehiclesArticle 17-A - Franchised Motor Vehicle Dealer Act464 - Obligations of Dealers Prior to Delivery to Retail Buyers.

§ 464. Obligations of dealers prior to delivery to retail buyers. Every franchisor shall specify in writing the delivery and preparation obligations of its franchised motor vehicle dealers prior to delivery of new motor vehicles to retail buyers.

2024 New York LawsVAT - Vehicle and TrafficTitle 4 - Registration of VehiclesArticle 17-A - Franchised Motor Vehicle Dealer Act465 - Procedures Relating to Warranties and Sales Incentives.

§ 465. Procedures relating to warranties and sales incentives. 1. Every franchisor shall properly fulfill any warranty agreement and/or franchisor's service contract, including but not limited to all warranty repairs, extended warranty repairs, factory compensated repairs, recalls, diagnostics, parts and other voluntary stop-sell repairs, and shall compensate each of its franchised motor vehicle dealers for all warranty, recall, diagnostic labor operations and parts where applicable in amounts which reflect reasonable compensation for such work. For purposes of this section, reasonable compensation shall be the reasonable labor time allowances defined by the retail labor time guide reasonably utilized by a franchised motor vehicle dealer for non-warranty customer paid labor operations. All warranty claims and/or claims under a franchisor's service contract made by franchised motor vehicle dealers shall be paid within thirty days following their approval. For diagnosis work, parts reimbursement, other than components, systems, fixtures, appliances, furnishings, accessories and features of a house coach that are designed, used and maintained primarily for nonvehicular residential purposes, and for labor reimbursement, reasonable compensation shall not be less than the price and rate charged by the franchised motor vehicle dealer for like services to non-warranty and/or non-service contract customers. For purposes of this section, the price and rate charged by the franchised motor vehicle dealer for parts may be established by submitting to the franchisor one hundred sequential nonwarranty customer-paid service repair orders or the number of sequential nonwarranty customer-paid service repair orders written within a ninety day period, whichever is less, covering repairs made no more than one hundred eighty days before the submission, and declaring the price and rate, including average markup for the franchised motor vehicle dealer as its reimbursement rate. The reimbursement rate so declared shall go into effect thirty days following the declaration and shall be presumed to be reasonable, however a franchisor may rebut such presumption by showing that such rate so established is unreasonable in light of the practices of all other franchised motor vehicle dealers in the vicinity offering the same line make. The franchised motor vehicle dealer shall not request a change in the reimbursement rate more often than once in each calendar year. In establishing the labor reimbursement rate, the franchisor shall not require a franchised motor vehicle dealer to establish said rate by a methodology, or by requiring information, that is unduly burdensome or time consuming to provide, including, but not limited to, a transaction by transaction calculation. For the purposes of this section, the following parts or types of repairs shall be excluded from the parts and/or labor calculations and the franchisor's reimbursement requirements under this section: (a) parts sold at wholesale; (b) tires; (c) routine maintenance not covered under any retail customer warranty such as fluids, filters and belts not provided in the course of repairs; (d) vehicle reconditioning; and (e) batteries replaced as part of a routine maintenance operation. If the franchisor rejects the declaration or attempts to rebut the declaration because of an error in the dealer's submission, the franchisor shall identify with specificity the reason for rejection and identify the error or errors within the submission. In the event the franchisor rejects or rebuts the dealer's initial declaration, the dealer shall have the opportunity, within sixty days to resubmit the full and corrected declaration addressing the alleged error or errors identified by the franchisor. The franchisor shall respond within sixty days. The one hundred eighty day requirement for the repair orders shall be stayed from the date of initial submission. In any action or proceeding held pursuant to this subdivision, the franchisor shall have the burden of proving that the rate declared by the dealer was unreasonable as described in this subdivision and that the proposed adjustment of the average percentage markup or rejection of the submission is reasonable pursuant to the provisions of this subdivision. A warranty claim timely made shall not be deemed invalid solely because unavailable parts cause additional use and mileage on the vehicle. 2. All warranty or sales incentive claims shall be either approved or disapproved within thirty days after their receipt. When any such claim is disapproved the franchised motor vehicle dealer shall be notified in writing of its disapproval within said period. Each such notice shall state the specific grounds upon which the disapproval is based. Failure to disapprove a claim within thirty days shall be deemed approval. 3. No franchisor shall conduct an audit or charge back any warranty payment, or any sales, advertising or marketing incentive payment ("incentive payments") or otherwise hold a franchised motor vehicle dealer liable for charges more than one year, or five years in the case of fraud, after the date the franchisor made such payment to the dealer, without providing a notice to a franchised motor vehicle dealer of, or a mechanism that makes available to a franchised motor vehicle dealer, information regarding errors or issues regarding such dealer's warranty, sales, advertising or marketing incentive claims that are the subject of the audit or chargeback. Nothing in this section shall be deemed to grant a dealer the right to access any file held by the manufacturer evaluating such dealer. In connection with a claim for warranty reimbursements, the dealer's failure to document properly one part of a warranty repair that contains more than one part shall not be the sole basis to charge back the entire repair. A

manufacturer shall not deny a claim submitted under this section based solely on a dealer's incidental failure to comply with a specific claim processing requirement, a clerical error, or other administrative technicality, provided that the failure does not call into question the legitimacy of the claim and that the dealer corrects the claim according to franchisor guidelines. 4. A franchisor shall not charge a dealer back subsequent to the payment of a warranty, sales, advertising or marketing incentive claim unless a representative of the franchisor has met in person at the dealership, or by telephone, with an officer or employee of the dealer designated by the dealer and explained in detail the basis for each of the proposed charge backs and thereafter given the dealer's representative a reasonable opportunity at the meeting, or during the telephone call, to explain the dealer's position relating to each of the proposed charge backs. In the event the dealer was selected for audit or review on the basis that some or all of the dealer's claims were viewed as excessive in comparison to average, mean or aggregate data accumulated by the franchisor, or in relation to claims submitted by a group of other franchisees, the franchisor shall, at or prior to the meeting or telephone call with the dealer's representative, provide the dealer with a written statement containing the basis or methodology upon which the dealer was selected for audit or review. 5. A franchisor shall not deny or charge back a payment for warranty work claimed by the dealer unless the franchisor satisfies its burden of proof that the dealer did not make a good faith effort to comply with the reasonable written procedures of the franchisor or that the dealer did not actually perform the work. 6. A franchisor shall not deny or charge back a sales, advertising or marketing incentive payment made to a dealer unless the claim was materially false or fraudulent or the dealer failed to reasonably substantiate the claim in accordance with the manufacturer's reasonable procedures. 7. After all internal dispute resolution processes provided through the franchisor have been resolved, the franchisor shall give notice to the dealer of the final amount of a proposed warranty, sales, advertising or marketing incentive charge back. If the dealer institutes an action pursuant to this article within thirty days of receipt of such notice, the proposed charge back shall be stayed, without bond, during the pendency of such action and until the final judgment has been rendered in an adjudicatory proceeding or action as provided in section four hundred sixty-nine of this article. The franchisor shall not impose the chargeback, debit the dealer's account, or otherwise seek to obtain all or any part of the chargeback funds from the dealer during the thirty-day period in which the dealer has the opportunity to file an action as set forth above.

§ 420-a. Dealer issued temporary registration. 1. Where a dealer having a registration under the provisions of section four hundred fifteen of this chapter sells or transfers a vehicle, he may issue a temporary registration for such vehicle, which registration shall permit, such vehicle to be operated as a duly registered vehicle for a period of thirty days from the date of issuance, other provisions of this chapter notwithstanding. Such temporary registration may be extended by the commissioner for an additional thirty days and shall consist of a form or forms which shall be obtained from the commissioner by the dealer, and executed, issued and displayed in accordance with the provisions of this section and in such manner as the commissioner shall prescribe. 2. A qualified dealer may obtain temporary registrations to be issued in accordance with the provisions of this section by applying to the commissioner and paying a fee of five dollars for each such temporary registration. The commissioner may limit the number of temporary registrations

given to a dealer at any one time or the number of unissued temporary registrations in the possession of a dealer at one time. 3. A qualified dealer may issue a temporary registration under this section only to a person to whom he has sold or transferred a vehicle. Such a temporary registration may not be issued for a vehicle which is eligible for issuance of a temporary certificate of registration pursuant to subdivision seven of section four hundred twenty of this article. The commissioner may, by regulation, exclude specific classes or types of vehicles from the provisions of this section. 4. Before issuing a temporary registration, a qualified dealer must have in his possession all application forms properly completed, all documents, fees and any other charges which must be submitted to the commissioner for the issuance of a registration by the commissioner. Such dealer must make application for registration for such vehicle and must submit all such forms, documents, fees and charges to the commissioner in a manner prescribed by the commissioner and, unless otherwise provided by the commissioner, within five calendar days of the date of issuance of the temporary registration. 5. Any registration issued by the commissioner as a result of an application submitted by a qualified dealer who has issued a temporary registration for such vehicle pursuant to this section shall be issued as of the date the dealer issued the temporary registration. 6. In order for a temporary registration issued pursuant to this section to be valid, it must be displayed on the vehicle for which it is issued in the manner prescribed by the commissioner. 7. A dealer may not make a separate charge for the issuance of a temporary registration. 8. The commissioner may refuse to issue temporary registrations to a dealer registered pursuant to section four hundred fifteen of this chapter or he may require the surrender of unissued temporary registrations in the possession of such dealer, if he determines that the dealer has not complied with the provisions of this section or any regulations promulgated thereunder. If the commissioner refuses to issue such temporary registrations or requires the surrender of such temporary registrations, a qualified dealer may request a hearing on such determination by making a written request for such hearing to the commissioner. Upon receipt of such request, a hearing must be held within ten days of receipt. 9. If a dealer registration expires or is suspended or revoked, or if a dealer goes out of business, all unissued temporary registrations in the possession of such dealer must be surrendered to the commissioner. Upon application by such dealer, the fee for such unissued temporary registrations shall be refunded upon surrender, except that no such refund shall be made if the dealer registration has been suspended or revoked or the commissioner has required that temporary registrations be surrendered pursuant to subdivision eight of this section. 10. The commissioner shall prescribe such rules and regulations as may be necessary to carry out the provisions of this section. 11. Fees; deposited. Fees assessed under this section shall be paid to the commissioner for deposit to the general fund, with the exception of the three dollar increase in the fee for issuance of temporary registrations pursuant to subdivision two of this section, which shall be deposited to the dedicated highway and bridge trust fund established pursuant to section eighty-nine-b of the state finance law and the dedicated mass transportation fund established pursuant to section eighty-nine-c of the state finance law and distributed according to the provisions of subdivision (d) of section three hundred one-j of the tax law.

2024 New York LawsVAT - Vehicle and TrafficTitle 4 - Registration of VehiclesArticle 17 - Other Provisions Relating to Registration and Possession420 - Transfer of Registration.

§ 420. Transfer of registration. 1. Upon the transfer of ownership or the destruction of a motor vehicle, motorcycle or trailer, its registration shall expire; and the seller, or the owner in case of destruction, shall remove the number plates from the vehicle. 2. Such seller or owner may, however, register another vehicle and use said number plates thereon, if appropriate, upon making application for such registration, paying a transfer fee of ten dollars, and paying the proportional excess, if any, of the annual fee for registering the second vehicle over the annual fee for registering the first vehicle for each day or fraction thereof constituting the unexpired registration period. If the number plates of the first vehicle are not appropriate for the second vehicle, the commissioner or his or her agent shall, upon the surrender of such number plates, furnish appropriate number plates. 3. Provided, however, that upon the death of an owner of a registered motor vehicle, motorcycle or trailer, its registration shall, unless the vehicle is destroyed, be deemed to continue in force as a valid registration until the end of the year or until the ownership of such vehicle is transferred by the executor or administrator of the estate of such owner or by the distributees of his personal property, whichever occurs first. If the ownership of such vehicle is transferred as exempt property under section 5-3.1 of the estates, powers and trusts law to the surviving spouse of the owner, the fee for the initial registration issued to such surviving spouse shall be the fee for such registration reduced by the amount of the fee remaining for the unexpired term of the registration issued to the deceased. 4. Provided, further, that upon the permanent removal of a vehicle from the state, the owner may remove the number plates and be entitled to the same privileges as though the vehicle had been sold or destroyed. 5. Provided, further, that a holder of manufacturers' and dealers' registration having a motor vehicle, motorcycle or trailer registered in his or its name under the provisions of this chapter may, if such vehicle is placed in stock for sale, also remove the number plates and be entitled to the same privileges as though the vehicle had been sold or destroyed. 6. Provided, further, that the registration of a vehicle registered in the names of two or more persons, as partners or otherwise, shall not expire upon a change in ownership of the vehicle so long as any of the persons named in such registration as owners of the vehicle is the owner or part owner of the vehicle. However, when any change in the ownership of such a vehicle occurs and the registration does not expire, the owner or owners after such change shall forthwith file with the commissioner a statement of the ownership of such vehicle in such form as the commissioner shall require, together with a fee of ten dollars, and the commissioner shall issue a new certificate of registration. 7. Where a dealer having registration under the provisions of section four hundred fifteen of this chapter sells or trades a vehicle to a person who has another vehicle duly registered under this chapter, or who had another vehicle previously so registered, and the registration of such vehicle is eligible for transfer to the purchased vehicle under the provisions of this section and the number plates of the first vehicle are appropriate, such dealer may issue on any date on which the registration of a motor vehicle may be used a temporary certificate of registration of the second vehicle under which such vehicle

may be operated as a duly registered vehicle for a period of thirty days from the date of issuance, other provisions of this chapter notwithstanding. Such temporary certificate of registration may be extended by the commissioner for an additional thirty days, except that in no event shall any such temporary certificate of registration be valid after the expiration date of the registration for the first vehicle. Such certificate shall be issued upon a form furnished by the commissioner and shall be executed in such manner as he shall prescribe. 8. The owner of a registered motor vehicle, motorcycle or trailer may transfer the registration and, if appropriate, the number plates thereof to another vehicle owned by him or her upon making application for such transfer, paying a transfer fee of ten dollars, and paying the proportionate excess, if any, of the annual fee for registering the second vehicle over the annual fee for registering the first vehicle for each day or fraction thereof constituting the unexpired registration period, provided, however, that the registration and number plates for the second vehicle, if such vehicle is registered in this state, are either surrendered to the commissioner or transferred to another vehicle as provided herein. If the number plates of the first vehicle are not appropriate for the second vehicle, the commissioner or his or her agent shall, upon the surrender of such number plates, furnish appropriate number plates. Whenever a total fee for reregistration prescribed in this section shall amount to a fee other than a whole dollar amount, the fee required to be paid shall be rounded to the nearest twenty-five cents.

Any person engaged in the business of buying or selling motor vehicles, trailers, or parts thereof, shall be presumed to have determined and to know the original vehicle identification numbers and special identification numbers on any motor vehicle, trailers or parts thereof purchased or sold by such person, both at the time of purchase and sale. 2. Any person engaged in the business of buying or selling motor vehicles, trailers, or parts thereof, who sells or offers for sale a motor vehicle, trailer, or part thereof, the original vehicle identification number or special identification number of which shall have been destroyed, removed, altered, defaced or so covered as to be effectually concealed, without having complied with regulations promulgated by the commissioner, shall be guilty of a class E felony. 3. Any person, other than a person engaged in the business of buying or selling motor vehicles, trailers, or parts thereof, who knowingly sells or offers for sale a motor vehicle, trailer, or part thereof, the original vehicle identification number or special identification number of which shall have been destroyed, removed, altered, defaced or so covered as to be effectually concealed shall be guilty of a class E felony. In any prosecution under this subdivision, the purchase of the motor vehicle, trailer or part from a dealer registered pursuant to section four hundred fifteen of this chapter, a vehicle dismantler registered pursuant to section four hundred fifteen-a of this chapter, or a motor vehicle repair shop registered pursuant to section three hundred ninety-eight-c of this chapter shall be presumptive evidence that the purchaser did not have knowledge of the destruction, removal, alteration, defacing or covering of the original vehicle identification number or special identification number. 4. For the purposes of this article, the term "original identification number" shall mean any number embossed, engraved, etched, affixed to a label, sticker or plate or similarly marked on any part of a motor vehicle, trailer or vehicle part which is assigned by the manufacturer for the purpose of identification of that particular motor vehicle, trailer or vehicle part and the location of which number is made available to the public.

§ 422. Special vehicle identification numbers. The commissioner may, by regulation, provide for the issuance of a special vehicle identification number. Such regulations shall be applicable whenever a special vehicle identification number is required by any provision of law. With respect to a vehicle part for which an inspection is required pursuant to subdivision two of section four hundred twenty-three-a of this chapter, a special identification number may consist of a distinguishing mark. Such special vehicle identification number shall be affixed only by or under the direction of a member of the department of motor vehicles who has the powers of a peace officer pursuant to section three hundred ninety-two-b of this chapter. A fee of twenty-five dollars shall be paid to the commissioner before such number shall be issued, except that no fee shall be required of a governmental agency.

2024 New York LawsVAT - Vehicle and TrafficTitle 4 - Registration of VehiclesArticle 17 - Other Provisions Relating to Registration and Possession423-A - Enforcement Procedures for Insuring the Retention of Vehicle Identification Numbers on Vehicles.

(b) The commissioner shall establish standards for determining whether an identification number on a motor vehicle, trailer or part thereof is destroyed, removed, altered, defaced or so covered as to be effectually concealed. Whenever a vehicle described in paragraph (a) of this subdivision is seized or confiscated, members of the state police, local police department or peace officers acting pursuant to their special duties, if warranted, shall arrest the supposed owner or custodian thereof, and cause prosecution to be brought in a court of competent jurisdiction. It shall be the duty of the appropriate agency or the department of motor vehicles to retain the custody of each motor vehicle, trailer or part seized pending the prosecution of the person arrested until the ownership of such motor vehicle, trailer or part shall have been ascertained. If the ownership of such motor vehicle, trailer or part cannot be ascertained, or if the owner or custodian is convicted of the theft or unlawful possession of said motor vehicle, trailer or part, such motor vehicle, trailer or part, if in the possession of the state police or any other state agency shall, at the direction of the office of general services, be held for, or delivered into the possession of, such office, and title shall vest in such office, or if in the possession of a local police department or other local authority, such motor vehicle or trailer shall be treated as an abandoned vehicle pursuant

to section twelve hundred twenty-four of this chapter, or such part may be sold by the local authority to a registered dealer or to a registered vehicle dismantler or certified scrap processor as defined in subdivision nine of section four hundred fifteen-a of this chapter. 2. Assignment of a new identification number. If a person other than the person arrested be the owner, the motor vehicle, trailer or part shall be returned to him as soon as he has arranged to have the department of motor vehicles affix a new number, or in the case of a part, inspect such part, and the department has done so, as provided in section four hundred twenty-two of this chapter. Prior to the return of the motor vehicle, trailer or part, or the transfer of custody of said motor vehicle, trailer or part, the arresting officer shall transmit notice of the arrest to the commissioner. 3. Disposition of certain motor vehicles, trailers and parts. (a) If the owner of a motor vehicle or trailer cannot be ascertained, or if the owner or custodian is arrested and convicted of the theft or unlawful possession of said motor vehicle or trailer, and such motor vehicle or trailer is held for or is in the possession of the office of general services, the office of general services shall sell the motor vehicle or trailer at public auction or by bid, or, it may be registered for use by the office or by a state agency in the performance of the duties of the office or of such state agency, provided that the department of motor vehicles first affixes a special identification number to the motor vehicle or trailer, if required. The special identification number shall thereafter be used for identification, registration and all purposes of this chapter, and the purchaser thereof may sell and transfer the motor vehicle or trailer bearing such a special identification number or numbers. (b) If the owner of a part or parts of a motor vehicle or trailer cannot be ascertained, or if the owner or custodian is arrested and convicted of the theft or unlawful possession thereof, and such part is held for or is in the possession of the office of general services, the office of general services shall sell such part or parts to a registered dealer or to a registered vehicle dismantler or a certified scrap processor as defined in subdivision nine of section four hundred fifteen-a of this chapter. (c) Notwithstanding any other provision of this section, ownership of an unidentifiable part in an otherwise identifiable vehicle, other than a stolen vehicle, held by the department or by a police department may be transferred to the owner of such vehicle provided that the department or police department has made findings that such owner had no knowledge that the part was unidentifiable and that such owner was neither responsible for rendering such part unidentifiable nor acting in concert with any person who rendered or had such part rendered unidentifiable. Such a transfer may be made to a person who is presumed to have determined and to know identification numbers on motor vehicles and parts pursuant to subdivision one of section four hundred twenty-one of this article only upon payment to the department or to the police department of an amount equal to the reasonable wholesale value of the part. Such a transfer may be made to any other person without any payment being made to the department or police department provided that the department or police department is satisfied that the person has been the owner of the vehicle with the unidentifiable part contained therein for a period of at least eighteen months. Such findings may only be made after an investigation and, if appropriate, a hearing. Such investigation shall be made promptly by the department or the police department upon the request of such owner. Proceeds from the transfer of any such part shall be paid into the general fund of the state if transferred by the department or the division of state police, or into the general fund of the appropriate local authority, if transferred by a local police department. No such part shall be so transferred until a special identification number has been affixed to such part and the appropriate fee has been paid by the owner of the vehicle. 4. Whenever a vehicle or part which is in the possession of the state police or any other state agency or a local police agency or other local authority is returned to an owner, the cost of making delivery of the vehicle or part shall be a charge upon such owner. With respect to motor vehicles, trailers and parts held by the state police or any other state agency, the commissioner of the office of general services, after consultation with the commissioner of motor vehicles, shall promulgate regulations to effectuate the provisions of this section. Such regulations may include, but shall not be limited to, provisions for the removal of parts from vehicles, the storage and sale of vehicles and parts and the recovery of costs incurred in performing the duties required herein. 5. Notwithstanding any other provision of law, if the commissioner is holding a vehicle or vehicle part, upon determination of the rightful owner of the vehicle or vehicle part, the commissioner shall give written notice to the owner to retrieve such vehicle or vehicle part. Fifteen days after the receipt of such notice by certified mail, the commissioner shall impose a storage charge of ten dollars a day for a vehicle and five dollars a day for a vehicle part or parts. Unpaid storage charges shall be a lien upon the vehicle or vehicle part and such lien may be foreclosed in accordance with article nine of the lien law. Any moneys collected as storage charges or as the result of foreclosure of liens for storage shall be used to fund the motor vehicle theft prevention program established by section two hundred twenty-three of this chapter.

They shall investigate any theft of a motor vehicle or trailer, of which they receive notice or have information, and arrest or cause the arrest of any person where reasonable grounds exist to believe that such person has stolen a motor vehicle or trailer, and, when necessary for such arrest, make complaint on information before the proper court or magistrate.

evidence in the course of a police investigation, required to be impounded by law, or in any other way taken into possession or held by an agency under circumstances in which the owner may not reasonably have knowledge of the status of the vehicle. Nothing contained herein shall preclude a police department, which has taken a vehicle into custody under these or other circumstances, from entering a vehicle into the New York statewide police information network as an impounded vehicle to facilitate location of the vehicle by its owner. 2. Any police officer, state trooper or peace officer acting pursuant to his or her special duties shall have the power to seize any motor vehicle or trailer in the state when there is good reason to believe that such motor vehicle or trailer has been stolen. Unless the vehicle is subject to the provisions of section four hundred twenty-three-a of this article, the appropriate agency shall contact the owner of such motor vehicle or trailer, if known, and, after any stolen vehicle alarm resulting from such theft has been cancelled, release the vehicle to such owner. If the owner thereof cannot be ascertained in accordance with procedures established by regulations of the commissioner, a local police agency shall dispose of such vehicle as an abandoned vehicle pursuant to section twelve hundred twenty-four of this chapter, and the state police shall hold such vehicle for, or deliver it to the office of general services.

The commissioner is directed to make public notification that registration fees shall be refunded and to send by first class mail a written notice and an application for refund of any registration fees to any person entitled to a registration fee refund according to subdivision one-a of this section that has been unable to obtain a registration fee refund during the period commencing September first, nineteen hundred ninety-seven and ending June thirtieth, nineteen hundred ninety-eight. Such written notice shall advise such person that a registration fee shall be refunded after an application for refund is filed with the commissioner. Such public notification shall be made through such newspapers throughout all regions of the state as may be designated by the commissioner. No application for a refund of registration fees shall be denied because of the failure to file an application therefor within two months of the expiration date of the first twelve month period of such registration if such registration was surrendered between September first, nineteen hundred ninety-seven and June thirtieth, nineteen hundred ninety-eight and the applicant therefor has not received credit for such registration fees pursuant to section four hundred twenty of the vehicle and traffic law. 2. Civil penalties assessed under this subdivision shall be paid to the commissioner for deposit into the state treasury, and unpaid civil penalties may be recovered by the commissioner in a civil action in the name of the commissioner. When the basis for the revocation is a finding of driving after having consumed alcohol pursuant to the provisions of section eleven hundred ninety-two-a of this chapter, the fee to be paid to the commissioner shall be one hundred dollars. Such fee is not refundable and shall not be returned to the applicant regardless of the action the commissioner may take on such person's application for reinstatement of such driving license. Such fee shall be in addition to any other fees presently levied but shall not apply to an applicant whose driver's license was revoked for failure to pass a reexamination or to an applicant who has been issued a conditional or restricted use license under the provisions of article twenty-one-A or thirty-one of this chapter. The provisions of this paragraph shall not apply to a temporary suspension pending a hearing, prosecution or investigation, nor to an indefinite suspension which is issued because of the failure of the person suspended to perform an act, which suspension will be terminated by the performance of the act. (j-1) (i) When a license issued pursuant to this article, or a privilege of operating a motor vehicle or of obtaining such a license, has been suspended based upon a failure to answer an appearance ticket or a summons or failure to pay a fine, penalty or mandatory surcharge, pursuant to subdivision three of section two hundred twenty-six, subdivision four of section two hundred twenty-seven, subdivision four-a of section five hundred ten or subdivision five-a of section eighteen hundred nine of this chapter, such suspension shall remain in effect until a termination of a suspension fee of seventy dollars is paid to the court or tribunal that initiated the suspension of such license or privilege. In no event may the aggregate of the fees imposed by an individual court pursuant to this paragraph for the termination of all suspensions that may be terminated as a result of a person's answers, appearances or payments made in such cases pending before such individual court exceed four hundred dollars. For the purposes of this paragraph, the various locations of the administrative tribunal established under article two-A of this chapter shall be considered an individual court. (ii) Any such fee collected by any court, judge, magistrate or other officer specified in subdivision one of section thirty-nine of the judiciary law, establishing a unified court budget, shall be paid to the state commissioner of taxation and finance on a monthly basis no later than ten days after the last day of each month. All such monies collected under this subdivision shall be deposited to the indigent legal services fund established by section ninety-eight-b of the state finance law. (iii) Any such fee collected by any other court, judge, magistrate or other officer shall, except as provided in paragraph (k) of this subdivision, be paid to the state comptroller within the first ten days of the month following collection. Every such payment to the comptroller shall be accompanied by a statement in such form and detail as the comptroller shall provide. All such monies collected under this subdivision shall be deposited to the indigent legal services fund established by section ninety-eight-b of the state finance law. (iv) Notwithstanding any other provision of this paragraph, fifty percent of all fees collected pursuant to this paragraph shall be deposited to the credit of the general fund. (k) Fees assessed for reapplication for a driver's license or reinstatement of driving privileges after revocation or required to be paid for termination of suspension as provided in paragraphs (h), (i) and (j) of this subdivision shall be paid to the commissioner for deposit to the general fund. Fees assessed for termination of suspension as provided in paragraph (j-1) of this subdivision and collected by an administrative tribunal established under article two-A of this chapter shall be paid over to the state comptroller to the credit of the indigent legal services fund established by section ninety-eight-b of the state finance law. 3. Waiver of fee. The commissioner may waive the payment of fees required by subdivision two of this section if the applicant: (i) is an incarcerated individual in an institution under the jurisdiction of a state department or agency, or (ii) is a victim of crime and the driver's license or learner's permit applied for is a replacement for one that was lost or destroyed as a result of the crime. 4. Driver responsibility assessment. (a) Any person who accumulates six or more points on his or her driving record for acts committed within an eighteen month period shall become liable to the department for payment of a driver responsibility assessment as provided in this subdivision. (b) The amount of the driver responsibility assessment under this section shall be one hundred dollars per year for a three-year period for the first six points on a driver's record and an additional twenty-five dollars per year for each additional point on such driver's record. (c) Upon receipt of evidence that a person is liable for the driver responsibility assessment required by this subdivision, the commissioner shall notify such person by first class mail to the address of such person on file with the department or at the current address provided by the United States postal service of the amount of such assessment, the time and manner of making required payments, and that failure to make payment shall result in the suspension of his or her driver's license or privilege of obtaining a driver's license. (d) If a person shall fail to pay any driver responsibility assessment as provided in this subdivision, the commissioner shall suspend such person's driver's license or privilege of obtaining a license. Such suspension shall remain in effect until any and all outstanding driver responsibility assessments have been paid in full. (e) Any completion of a motor vehicle accident prevention course approved pursuant to article twelve-B of this chapter shall not serve to reduce the calculation of points on a person's driving record for the purposes of this section. (f) Notwithstanding any other provision of law to the contrary, commencing April first, two thousand six and ending March thirty-first, two thousand fourteen, in each year, the first forty million seven hundred thousand dollars of fees collected pursuant to this subdivision and section eleven hundred ninety-nine of this chapter, in the aggregate, shall be paid to the state comptroller who shall deposit such money in the state treasury pursuant to section one hundred twenty-one of the state finance law to the credit of the general fund. Any such fees collected in excess of such amount shall be paid to the credit of the comptroller on account of the dedicated highway and bridge trust fund established pursuant to section eighty-nine-b of the state finance law. Commencing April first, two thousand fourteen and for each such fiscal year thereafter, any such fees collected pursuant to this subdivision and section eleven hundred ninety-nine of this chapter shall be paid to the credit of the comptroller on account of the dedicated highway and bridge trust fund established pursuant to section eighty-nine-b of the state finance law.

No motor carrier shall require or permit a driver to: (a) violate any provision of subdivision two of this section; or (b) be on duty or operate a for-hire vehicle having a seating capacity of nine or more passengers, including the driver, if by such person's general appearance or by such person's conduct or by other substantiating evidence, such person appears to have consumed a drug, controlled substance or an intoxicating liquor within the preceding eight hours before such driver operates such for-hire vehicle. 4. (a) Every motor carrier shall submit an affidavit to the commissioner attesting to compliance with this section. Such affidavit shall be submitted annually beginning no later than six months after the effective date of this subdivision, in a manner prescribed by regulations established by the commissioner. Any civil penalty assessed for a first violation shall not be less than five hundred dollars nor greater than two thousand five hundred dollars for each violation, false statement or misrepresentation found to have been made or committed, and for a second or subsequent violation, not arising out of the same incident, all of which were committed within a period of eighteen months, shall not be less than five hundred dollars nor greater than five thousand dollars for each violation, false statement or misrepresentation found to have been made or committed. Civil penalties assessed under this subdivision shall be paid to the commissioner for deposit into the dedicated highway and bridge trust fund established pursuant to section eighty-nine-b of the state finance law after reimbursing the department for the actual costs of public education activities undertaken by the department to implement this section, and unpaid civil penalties may be recovered by the commissioner in a civil action in the name of the commissioner. For purposes of this section, the term "motor carrier" shall mean any person, firm, corporation, association or entity which directs one or more drivers of a for-hire vehicle or vehicles, having a seating capacity of nine or more passengers, including the driver, and which operates such for-hire vehicle or vehicles in the business of transporting passengers for compensation, and the term "for-hire vehicle" shall mean a taxicab or livery having a seating capacity of nine or more passengers, including the driver, including an altered motor vehicle commonly referred to as a "stretch limousine" having a seating capacity of nine or more passengers, including the driver.

Serious traffic violations. (a) A serious traffic violation shall mean operating a commercial motor vehicle in violation of any provision of this chapter or the laws or ordinances of any other state or locality outside of this state that restricts or prohibits the use of a hand-held mobile telephone or a portable electronic device while operating a commercial motor vehicle or in violation of any provision of this chapter

or the laws of any other state, the District of Columbia or any Canadian province which (i) limits the speed of motor vehicles, provided the violation involved fifteen or more miles per hour over the established speed limit; (ii) is defined as reckless driving by state or local law or regulation; (iii) prohibits improper or erratic lane change; (iv) prohibits following too closely; (v) relates to motor vehicle traffic (other than parking, standing or stopping) and which arises in connection with a fatal accident; (vi) operating a commercial motor vehicle without first obtaining a commercial driver's license as required by section five hundred one of this title; (vii) operating a commercial motor vehicle without a commercial driver's license in the driver's possession; or (viii) operating a commercial motor vehicle without the proper class of commercial driver's license and/or endorsement for the specific vehicle being operated or for the passengers or type of cargo being transported.(b) Whether any specific violation which occurs without this state is a serious violation shall be dependent upon whether the state or province in which the violation occurs, reports such violation to the commissioner as, or deems it to be, a serious traffic violation under the provisions of the federal commercial motor vehicle safety act of nineteen hundred eighty-six, public law 99-570, title XII or the motor carrier safety improvement act of 1999, public law 106-159 and regulations promulgated thereunder.4-a. Dismissal. The court shall dismiss any charge of operating a commercial motor vehicle without a commercial driver's license in the driver's possession if, between the date the driver is charged with such violation and the appearance date for such violation, the driver supplies the court with proof that he or she held a valid commercial driver's license on the date of such violation. Such driver must also supply such proof to the law enforcement authority that issued the citation, prior to such driver's appearance in court.5. Limitation of effect of revocation or suspension. Any revocation or suspension of a commercial driver's license issued pursuant to this section shall be applicable only to that portion of the holder's driver's license or privilege which permits the operation of commercial motor vehicles, and the commissioner shall immediately issue a license, other than a commercial driver's license, to such person, provided that such person is otherwise eligible to receive such license and further provided that issuing a license to such person does not create a substantial traffic safety hazard.6. Application of section to persons not holding a commercial driver's license. Whenever a person who is not the holder of a commercial driver's license issued by the commissioner is convicted of a violation arising out of the operation of a commercial motor vehicle which would require the mandatory revocation or suspension of a commercial driver's license pursuant to this section or clause (i) or (ii) of subparagraph five of paragraph (b) or clause b of subparagraph three of paragraph (e) of subdivision two of section eleven hundred ninety-three, or clause c of subparagraph one of paragraph (d) of subdivision two of section eleven hundred ninety-four of this chapter, the privilege of such person to operate a commercial motor vehicle and/or to obtain a commercial driver's license issued by the commissioner will be suspended or revoked for the same periods of time and subject to the same conditions provided in this section, or clause (i) or (ii) of subparagraph five of paragraph (b) or clause b of subparagraph three of paragraph (e) of subdivision two of section eleven hundred ninety-three, or clause c of subparagraph one of paragraph (d) of subdivision two of section eleven hundred ninety-four of this chapter, which would be applicable to the holder of a commercial driver's license.7. Other revocation or suspension action not prohibited. The provisions of this section shall not be construed to prevent any person who has the authority to suspend or revoke a license to drive or privilege of operating pursuant to section five hundred ten of this chapter from exercising any such authority based upon a conviction for which suspension or revocation of a commercial driver's license by the commissioner is mandated.8. Disqualifications based upon record review. (a) Where the commissioner conducts a state record review pursuant to section 384.206 of title 49 of the code of federal regulations and he or she determines that: (i) a person applying for a commercial driver's license was convicted outside of this state of an offense set forth in section 383.51 of title 49 of the code of federal regulations while holding a commercial driver's license issued by another state; and (ii) such other state failed to impose the commercial driver's license disqualification, suspension or revocation set forth in section 383.51 of title 49 of the code of federal regulations for such offense, then the commissioner shall immediately suspend such person's commercial driver's license or privilege of operating a commercial motor vehicle. Provided, however, that where such licenses would have been subject to revocation upon a conviction for such conduct had it occurred in this state, the commissioner shall revoke such license. Such suspension or revocation shall be for the applicable period of time set forth for a conviction for such offense in such section 383.51 as it existed on the date of the violation.(b) Any suspension or revocation of a commercial driver's license issued pursuant to paragraph (a) of this subdivision shall be applicable only to that portion of the holder's driver's license or privilege which permits the operation of commercial motor vehicles, and the commissioner shall immediately issue a license, other than a commercial driver's license, to such person provided that such person is otherwise eligible to receive such license and further provided that issuing a license to such person does not create a substantial traffic safety hazard.9. Application of disqualifications to holders of a commercial learner's permit. Notwithstanding any other provision of law, any provision of this chapter relating to the revocation, suspension, downgrading, disqualification or cancellation of a commercial driver's license shall apply in the same manner to a commercial learner's permit.10. Consecutive disqualification periods. Notwithstanding any other provision of law, whenever a suspension, revocation or disqualification applicable to a commercial driver's license or commercial learner's permit is required by Part 383.51 of title 49 of the code of federal regulations and thereby imposed pursuant to this section or paragraph b or c of subdivision six of section five hundred ten or section eleven hundred ninety-three or eleven hundred ninety-four of this chapter, such suspension, revocation or disqualification shall take effect upon the expiration of the minimum period of a suspension, revocation or disqualification required by Part 383.51 of title 49 of the code of federal regulations and thereby imposed pursuant to this section or paragraph b or c of subdivision six of section five hundred ten or section eleven hundred ninety-three or eleven hundred ninety-four of this chapter which is currently in effect for such license or permit and arose from a separate incident. Provided, however, that the term or terms of any other suspension, revocation or disqualification applicable to a commercial driver's license or commercial learner's permit shall run concurrently if: (a) such suspension, revocation or disqualification is not required by Part 383.51 of title 49

of the code of federal regulations; or (b) such suspension, revocation or disqualification arose from the same incident. (b) Where revocation is mandatory pursuant to paragraph (a), (c), (d) or (e) of subdivision one of this section and the commercial motor vehicle was transporting hazardous materials, no new commercial driver's license shall be issued for at least three years nor thereafter except in the discretion of the commissioner, except that if such person has previously been found to have refused a chemical test pursuant to section eleven hundred ninety-four of this chapter or has a prior conviction of any of the following offenses: any violation of section eleven hundred ninety-two of this chapter, any violation of subdivision one or two of section six hundred of this chapter, or any felony involving the use of a motor vehicle pursuant to paragraph (a) of subdivision one of this section, or been convicted of operating a commercial motor vehicle when, as a result of prior violations committed while operating a commercial motor vehicle the driver's commercial driver's license is revoked, suspended, or canceled, or the driver is disqualified from operating a commercial motor vehicle, or has been convicted of causing a fatality through the negligent operation of a commercial motor vehicle, including but not limited to the crimes of vehicular manslaughter or criminally negligent homicide, then such commercial driver's license revocation shall be permanent. (c) The permanent commercial driver's license revocation required by paragraphs (a) and (b) of this subdivision may be waived by the commissioner after a period of ten years has expired from such sentence provided: (i) that during such ten year period such person has not been found to have refused a chemical test pursuant to section eleven hundred ninety-four of this chapter and has not been convicted of any one of the following offenses: any violation of section eleven hundred ninety-two of this chapter, any violation of subdivision one or two of section six hundred of this chapter, or any felony involving the use of a motor vehicle pursuant to paragraph (a) of subdivision one of this section, or has been convicted of operating a commercial motor vehicle when, as a result of prior violations committed while operating a commercial motor vehicle, the driver's commercial driver's license is revoked, suspended, or canceled, or the driver is disqualified from operating a commercial motor vehicle; or has been convicted of causing a fatality through the negligent operation of a commercial motor vehicle, including but not limited to the crimes of vehicular manslaughter or criminally negligent homicide; (ii) if any of the grounds upon which the permanent commercial driver's license revocation is based involved a finding of refusal to submit to a chemical test pursuant to section eleven hundred ninety-four of this chapter or a conviction of a violation of any subdivision of section eleven hundred ninety-two of this chapter, that such person provides acceptable documentation to the commissioner that such person has enrolled in and successfully completed an appropriate rehabilitation program; and (iii) after such documentation, if required, is accepted, that such person is granted a certificate of relief from disabilities or a certificate of good conduct pursuant to article twenty-three of the correction law by the court in which such person was last penalized. (d) Upon a third finding of refusal and/or conviction of any of the offenses which require a permanent commercial driver's license revocation, such permanent revocation may not be waived by the commissioner under any circumstances. (e) Where revocation is mandatory pursuant to paragraph (b) of subdivision one of this section such revocation shall be permanent and may not be waived by the commissioner under any circumstances. 3. Suspension. (a) A commercial driver's license shall be suspended by the commissioner for a period of sixty days where the holder is convicted of two serious traffic violations as defined in subdivision four of this section committed within a three year period, in separate incidents whether such convictions occurred within or outside of this state. (b) A commercial driver's license shall be suspended by the commissioner for a period of one hundred twenty days where the holder is convicted of three serious traffic violations as defined in subdivision four of this section committed within a three year period, in separate incidents whether such convictions occurred within or outside of this state. (c) A commercial drivers license shall be suspended by the commissioner for a period of sixty days where the holder is convicted of a violation of subdivision (g) of section eleven hundred eighty of this chapter, and (i) the recorded or entered speed upon which the conviction was based exceeded the applicable speed limit by more than twenty miles per hour or (ii) the recorded or entered speed upon which the conviction was based exceeded the applicable speed limit by more than ten miles per hour and the vehicle was either (A) in violation of any rules or regulations involving an out-of-service defect relating to brake systems, steering components and/or coupling devices, or (B) transporting flammable gas, radioactive materials or explosives. (d) A commercial driver's license shall be suspended by the commissioner: (i) for a period of one hundred eighty days where the holder was found to have operated a commercial motor vehicle designed or used to transport property as defined in subparagraphs (i) and (ii) of paragraph (a) of subdivision four of section five hundred one-a of this title, in violation of an out-of-service order as provided for in the rules and regulations of the department of transportation whether such violation was committed within this state or was the same or a similar violation involving an out-of-service order committed outside of this state; (ii) for a period of two years if, during any ten-year period, the holder is found to have committed two such violations not arising from the same incident whether such violations were committed within or outside of the state; (iii) for a period of three years if, during any ten-year period, the holder is convicted of three or more such violations not arising from the same incident whether such violations were committed within or outside of the state; (iv) for a period of one hundred eighty days if the holder is found to have operated a commercial motor vehicle designed or used to transport passengers or property as defined in subparagraphs (iii) and (v) of paragraph (a) of subdivision four of section five hundred one-a of this title, in violation of an out-of-service order, as provided for in the rules and regulations of the department of transportation, while transporting hazardous materials or passengers whether such violation was committed within this state or was the same or a similar violation committed outside of this state; (v) for a period of three years if, during any ten-year period, the holder is found to have committed two or more violations, not arising from the same incident, of operating a commercial motor vehicle designed or used to transport passengers or property as defined in subparagraphs (iii) and (v) of paragraph (a) of subdivision four of section five hundred one-a of this title, in violation of an out-of-service order, as provided for in the rules and regulations of the department of transportation, while transporting hazardous materials or passengers whether such violation was committed within this state or was the same or a similar violation involving an out-of-service order committed outside of this state.

(e) A commercial driver's license shall be suspended by the commissioner: (i) for a period of sixty days where the holder is convicted of a violation of section eleven hundred seventy-one or section eleven hundred seventy-six of this chapter whether such violation was committed within this state or was the same or a similar violation involving railroad grade crossings committed outside of this state. (ii) for a period of one hundred twenty days where the holder is convicted of a second violation of section eleven hundred seventy-one or section eleven hundred seventy-six of this chapter whether such violations were committed within or outside of this state, both of which were committed within a three year period. (iii) for a period of one year where the holder is convicted of a third violation of section eleven hundred seventy-one or section eleven hundred seventy-six of this chapter whether such violations were committed within or outside of this state, all of which were committed within a three year period. 4. Serious traffic violations. (a) A serious traffic violation shall mean operating a commercial motor vehicle in violation of any provision of this chapter or the laws or ordinances of any other state or locality outside of this state that restricts or prohibits the use of a hand-held mobile telephone or a portable electronic device while operating a commercial motor vehicle or in violation of any provision of this chapter or the laws of any other state, the District of Columbia or any Canadian province which (i) limits the speed of motor vehicles, provided the violation involved fifteen or more miles per hour over the established speed limit; (ii) is defined as reckless driving by state or local law or regulation; (iii) prohibits improper or erratic lane change; (iv) prohibits following too closely; (v) relates to motor vehicle traffic (other than parking, standing or stopping) and which arises in connection with a fatal accident; (vi) operating a commercial motor vehicle without first obtaining a commercial driver's license as required by section five hundred one of this title; (vii) operating a commercial motor vehicle without a commercial driver's license in the driver's possession; or (viii) operating a commercial motor vehicle without the proper class of commercial driver's license and/or endorsement for the specific vehicle being operated or for the passengers or type of cargo being transported. (b) Whether any specific violation which occurs without this state is a serious violation shall be dependent upon whether the state or province in which the violation occurs, reports such violation to the commissioner as, or deems it to be, a serious traffic violation under the provisions of the federal commercial motor vehicle safety act of nineteen hundred eighty-six, public law 99-570, title XII or the motor carrier safety improvement act of 1999, public law 106-159 and regulations promulgated thereunder. 4-a. Dismissal. The court shall dismiss any charge of operating a commercial motor vehicle without a commercial driver's license in the driver's possession if, between the date the driver is charged with such violation and the appearance date for such violation, the driver supplies the court with proof that he or she held a valid commercial driver's license on the date of such violation. Such driver must also supply such proof to the law enforcement authority that issued the citation, prior to such driver's appearance in court. 5. Limitation of effect of revocation or suspension. Any revocation or suspension of a commercial driver's license issued pursuant to this section shall be applicable only to that portion of the holder's driver's license or privilege which permits the operation of commercial motor vehicles, and the commissioner shall immediately issue a license, other than a commercial driver's license, to such person, provided that such person is otherwise eligible to receive such license and further provided that issuing a license to such person does not create a substantial traffic safety hazard. 6. Application of section to persons not holding a commercial driver's license. Whenever a person who is not the holder of a commercial driver's license issued by the commissioner is convicted of a violation arising out of the operation of a commercial motor vehicle which would require the mandatory revocation or suspension of a commercial driver's license pursuant to this section or clause (i) or (ii) of subparagraph five of paragraph (b) or clause b of subparagraph three of paragraph (e) of subdivision two of section eleven hundred ninety-three, or clause c of subparagraph one of paragraph (d) of subdivision two of section eleven hundred ninety-four of this chapter, the privilege of such person to operate a commercial motor vehicle and/or to obtain a commercial driver's license issued by the commissioner will be suspended or revoked for the same periods of time and subject to the same conditions provided in this section, or clause (i) or (ii) of subparagraph five of paragraph (b) or clause b of subparagraph three of paragraph (e) of subdivision two of section eleven hundred ninety-three, or clause c of subparagraph one of paragraph (d) of subdivision two of section eleven hundred ninety-four of this chapter, which would be applicable to the holder of a commercial driver's license. 7. Other revocation or suspension action not prohibited. The provisions of this section shall not be construed to prevent any person who has the authority to suspend or revoke a license to drive or privilege of operating pursuant to section five hundred ten of this chapter from exercising any such authority based upon a conviction for which suspension or revocation of a commercial driver's license by the commissioner is mandated. 8. Disqualifications based upon record review. (a) Where the commissioner conducts a state record review pursuant to section 384.206 of title 49 of the code of federal regulations and he or she determines that: (i) a person applying for a commercial driver's license was convicted outside of this state of an offense set forth in section 383.51 of title 49 of the code of federal regulations while holding a commercial driver's license issued by another state; and (ii) such other state failed to impose the commercial driver's license disqualification, suspension or revocation set forth in section 383.51 of title 49 of the code of federal regulations for such offense, then the commissioner shall immediately suspend such person's commercial driver's license or privilege of operating a commercial motor vehicle. Provided, however, that where such licenses would have been subject to revocation upon a conviction for such conduct had it occurred in this state, the commissioner shall revoke such license. Such suspension or revocation shall be for the applicable period of time set forth for a conviction for such offense in such section 383.51 as it existed on the date of the violation. (b) Any suspension or revocation of a commercial driver's license issued pursuant to paragraph (a) of this subdivision shall be applicable only to that portion of the holder's driver's license or privilege which permits the operation of commercial motor vehicles, and the commissioner shall immediately issue a license, other than a commercial driver's license, to such person provided that such person is otherwise eligible to receive such license and further provided that issuing a license to such person does not create a substantial traffic safety hazard. 9. Application of disqualifications to holders of a commercial learner's permit. Notwithstanding any other provision of law, any provision of this chapter relating to the

revocation, suspension, downgrading, disqualification or cancellation of a commercial driver's license shall apply in the same manner to a commercial learner's permit. 10. Consecutive disqualification periods. Notwithstanding any other provision of law, whenever a suspension, revocation or disqualification applicable to a commercial driver's license or commercial learner's permit is required by Part 383.51 of title 49 of the code of federal regulations and thereby imposed pursuant to this section or paragraph b or c of subdivision six of section five hundred ten or section eleven hundred ninety-three or eleven hundred ninety-four of this chapter, such suspension, revocation or disqualification shall take effect upon the expiration of the minimum period of a suspension, revocation or disqualification required by Part 383.51 of title 49 of the code of federal regulations and thereby imposed pursuant to this section or paragraph b or c of subdivision six of section five hundred ten or section eleven hundred ninety-three or eleven hundred ninety-four of this chapter which is currently in effect for such license or permit and arose from a separate incident. Provided, however, that the term or terms of any other suspension, revocation or disqualification applicable to a commercial driver's license or commercial learner's permit shall run concurrently if: (a) such suspension, revocation or disqualification is not required by Part 383.51 of title 49 of the code of federal regulations; or (b) such suspension, revocation or disqualification arose from the same incident.

The commissioner shall, upon a holder's status becoming "not-certified", notify the holder of such commercial driver's license by first class mail to the address of such person on file with the department or at the current address provided by the United States postal service of his or her "not-certified" medical certification status and that his or her commercial driver's license will be downgraded to a non-commercial driver's license unless he or she submits a current medical certificate and/or medical variance in accordance with Part 383.71(h) of title 49 of the code of federal regulations or changes his or her self-certification to driving only in excepted or intrastate commerce in accordance with Part 383.71(b)(ii)(B), (C) or (D) of title 49 of the code of federal regulations.

A motor vehicle that has been seized and not retrieved pursuant to the foregoing provisions of this section shall be forfeited to the local authority upon expiration of the period of the notice set forth in subdivision three of this section provided, however, in computing such period, the period of time during which a criminal prosecution is or was pending against the owner for a violation of this section shall be excluded. A proceeding to decree such forfeiture and to recover towing and

storage costs, if any, to the extent such costs exceed the fair market value of the vehicle may be brought by the local authority in the court in which the criminal action for aggravated unlicensed operation of a motor vehicle was commenced by petition for an order decreeing forfeiture of the motor vehicle accompanied by an affidavit attesting to facts showing that forfeiture is warranted. If the identity and address of the owner and/or lienholder is known to the local authority, ten days notice shall be given to such party, who shall have an opportunity to appear and be heard prior to entry of an order decreeing forfeiture. Where the court is satisfied that forfeiture of a motor vehicle is warranted in accordance with this section, it shall enter an order decreeing forfeiture of such vehicle. commenced or the criminal proceeding has been terminated in favor of the accused, as defined in subdivision three of section 160.50 of the criminal procedure law; and (ii) The person seeking to claim the motor vehicle has furnished satisfactory evidence of registration and financial security and, if the person was the operator of the vehicle at the time of the violation of paragraph (a) of subdivision three of section five hundred eleven of this article, satisfactory evidence of payment of any fines or penalties imposed in connection therewith; and (iii) Payment has been made for the reasonable costs of removal and storage of the motor vehicle. The owner of the motor vehicle shall be responsible for such payment provided, however, that if he or she was not the operator at the time of the offense, such person shall have a cause of action against such operator to recover such costs. Payment prior to release of the motor vehicle shall not be required in cases where the seized motor vehicle was stolen or rented or leased pursuant to a written agreement for a period of thirty days or less, however the operator of such a motor vehicle shall be liable for the costs of removal and storage of the motor vehicle to any entity rendering such service; and (iv) If the motor vehicle is held as evidence, the person seeking to claim the motor vehicle has presented a release from the prosecuting authority providing that the motor vehicle is not needed as evidence. (b) (i) Pending completion of forfeiture proceedings which have been commenced, the person seeking to claim the motor vehicle has posted a bond in a form satisfactory to such attorney general, district attorney or corporation counsel in an amount that shall not exceed an amount sufficient to cover the maximum fines or civil penalties which may be imposed for the violation underlying the seizure and all reasonable costs for removal and storage of such vehicle; and (ii) The persons seeking to claim the motor vehicle has furnished satisfactory evidence of registration and financial security. 6. Where a demand for the return of a motor vehicle is not made within ninety days after the termination of the criminal proceeding founded upon the charge of aggravated unlicensed operation of a motor vehicle in the first degree, such motor vehicle shall be deemed to be abandoned. Such vehicle shall be disposed of by the county, cities of New York, Yonkers, Rochester or Buffalo or the state, as applicable, in accordance with section twelve hundred twenty-four of this chapter or as otherwise provided by law. 7. Notice of the institution of the forfeiture proceeding shall be served: (a) By personal service pursuant to the civil practice law and rules upon all owners of the seized motor vehicle listed in the records maintained by the department, or for vehicles not registered in New York state, in the records maintained by the state of registration; and (b) By first class mail upon all individuals who have notified such attorney general, district attorney or corporation counsel that they are an owner of the vehicle and upon all persons holding a security interest in such motor vehicle which security interest has been filed with the department pursuant to the provisions of title ten of this chapter, at the address set forth in the records of such department, or for motor vehicles not registered in New York state, all persons holding a security interest in such motor vehicle which security interest has been filed with such state of registration, at the address provided by such state of registration. 8. Any owner who receives notice of the institution of a forfeiture action who claims an interest in the motor vehicle subject to forfeiture shall assert a claim for the recovery of the motor vehicle or satisfaction of the owner's interest in such motor vehicle by intervening in the forfeiture action in accordance with subdivision (a) of section one thousand twelve of the civil practice law and rules. Any person with a security interest in such vehicle who receives notice of the institution of the forfeiture action shall assert a claim for the satisfaction of such person's security interest in such vehicle by intervening in the forfeiture action in accordance with subdivision (a) of section one thousand twelve of the civil practice law and rules. If the action relates to a vehicle in which a person holding a security interest has intervened pursuant to this subdivision, the burden shall be upon the designated official to prove by clear and convincing evidence that such intervenor knew that such vehicle was or would be used for the commission of a violation of subparagraph (ii) of paragraph (a) of subdivision three of section five hundred eleven of the vehicle and traffic law and either (a) knowingly and unlawfully benefitted from such conduct or (b) voluntarily agreed to the use of the vehicle for the commission of such violation by consent freely given. For purposes of this subdivision, such intervenor knowingly and unlawfully benefited from the commission of such violation when he or she derived in exchange for permitting the use of such vehicle by a person or persons committing such specified violation a substantial benefit that would otherwise not have accrued as a result of the lawful use of such vehicle. "Benefit" means benefit as defined in subdivision seventeen of section 10.00 of the penal law. 9. No motor vehicle shall be forfeited under this section to the extent of the interest of a person who claims an interest in the motor vehicle, where such person pleads and proves that: (a) The use of such motor vehicle for the conduct that was the basis for a seizure occurred without the knowledge of such person, or if such person had knowledge of such use, without the consent of such person, and that such person did not knowingly obtain such interest in the motor vehicle in order to avoid the forfeiture of such vehicle; or (b) The conduct that was the basis for such seizure was committed by any person other than such person claiming an interest in the motor vehicle, while such motor vehicle was unlawfully in the possession of a person who acquired possession thereof in violation of the criminal laws of the United States or any state. 10. The court in which a forfeiture action is pending may dismiss said action in the interests of justice upon its own motion or upon an application as provided for herein. (a) At any time during the pendency of a forfeiture action, the designated official who instituted the action, or a defendant may apply for an order dismissing the complaint and terminating the forfeiture action in the interest of justice. (b) Such application for the relief provided in paragraph (a) of this subdivision must be made in writing and upon notice to all parties. The court may, in its discretion, direct that notice be given to any other person having an interest in the property. (c) An application for the relief provided for in paragraph (a) of this subdivision must be brought exclusively in the superior court in which the forfeiture action is pending. (d) The court may grant the relief provided in paragraph (a) of this subdivision if it finds that such relief is warranted by the existence of some compelling factor, consideration or circumstance demonstrating that forfeiture of the property or any part thereof, would not serve the ends of justice. Among the factors, considerations and circumstances the court may consider, among others, are: (i) the seriousness and circumstances of the crime to which the property is connected relative to the impact of forfeiture of property upon the person who committed the crime; or (ii) the adverse impact of a forfeiture of property upon innocent persons. (e) The court must issue a written

decision stating the basis for an order issued pursuant to this subdivision. 11. The district attorney, police department or superintendent of state police having custody of the seized motor vehicle, after such judicial determination of forfeiture, shall, by a public notice of at least twenty days, sell such forfeited motor vehicle at public sale. The net proceeds of any such sale, after deduction of the lawful expenses incurred, shall be paid into the general fund of the county wherein the seizure was made, provided, however, that the net proceeds of the sale of a motor vehicle seized in the cities of New York, Yonkers, Rochester and Buffalo shall be paid into the respective general funds of such cities, and provided further that the net proceeds of the sale of a motor vehicle seized by the state police shall be paid into the state police seized assets account. 12. In any action commenced pursuant to this section, where the court awards a sum of money to one or more persons in satisfaction of such person's or persons' interest or interests in the forfeited motor vehicle, the total amount awarded to satisfy such interest or interests shall not exceed the amount of the net proceeds of the sale of the forfeited motor vehicle, after deduction of the lawful expenses incurred by the county, cities of New York, Yonkers, Rochester or Buffalo or the state, as applicable, and storage of the motor vehicle between the time of seizure and the date of sale. 13. At any time within two years after the seizure, any person claiming an interest in a motor vehicle which has been forfeited pursuant to this section who was not sent notice of the commencement of the forfeiture action pursuant to subdivision seven of this section, or who did not otherwise receive actual notice of the forfeiture action, may assert in an action commenced before the justice of the supreme court before whom the forfeiture action was held such claim as could have been asserted in the forfeiture action pursuant to this section. The court may grant the relief sought upon such terms and conditions as it deems reasonable and just if the person claiming an interest in the motor vehicle establishes that he or she was not sent notice of the commencement of the forfeiture action and was without actual knowledge of the forfeiture action, and establishes either of the affirmative defenses set forth in subdivision nine of this section. 14. No action under this section for wrongful seizure shall be instituted unless such action is commenced within two years after the time when the motor vehicle was seized.

2024 New York LawsVAT - Vehicle and TrafficTitle 5 - Drivers' LicensesArticle 21 - Alcohol and Drug Rehabilitation Program520 - Statement of Findings and Declaration of Purpose.

§ 520. Statement of findings and declaration of purpose. The ever-increasing number of accidents, personal injuries and deaths resulting from alcohol or drug-related traffic offenses is a matter of great concern to the legislature. The diminished perception of intoxicated and impaired operators of motor vehicles presents a constant and intolerable threat to the lives and well-being of the citizens of the state. Efforts aimed at alleviating this threat have proven inadequate. The public interest in the cause of highway safety will be well served by the implementation of a permanent program of rehabilitation for those operators convicted of alcohol or drug-related traffic offenses and certain operators who have been adjudicated youthful offenders for alcohol or drug-related traffic offenses. The commissioner of motor vehicles should have the authority to offer to such operators an opportunity for rehabilitation, thereby reducing the threat aimed at themselves and the people of the state.

2024 New York LawsVAT - Vehicle and TrafficTitle 5 - Drivers' LicensesArticle 21 - Alcohol and Drug Rehabilitation Program523-A - Driver Improvement Clinic Programs.

§ 523-a. Driver improvement clinic programs. In addition to the driver rehabilitation program authorized by section eleven hundred ninety-six of this chapter, the commissioner may establish, by regulation, guidelines for alcohol and highway safety programs. The purpose of such programs should be to inform participants of the effects of alcohol on driving, to discuss problem drinking and its effects, to provide assistance to individuals with referral to alcoholism treatment agencies and to provide instruction with respect to proper driving techniques and driver attitude. The commissioner shall establish criteria for requiring attendance at such clinics, and may, pending attendance at such clinic, suspend the driver's license or privilege of any person who fails to attend such clinic as required by such regulations. Such criteria may provide for the required attendance at such clinic of any person who, as a result of the conviction for a moving traffic violation, is referred by the trial court for such attendance. The commissioner shall establish a fee to be paid by any person who attends any such program. Such fee shall be used to defray the ongoing expenses of the program. Where the commissioner has approved any driver improvement program conducted by local authorities, any such fee shall be paid to the agency conducting such program.

2024 New York LawsVAT - Vehicle and TrafficTitle 7 - Rules of the RoadArticle 24 - Traffic Signs, Signals and Markings1111 - Traffic-Control Signal Indications.

(a) Green indications: 1. Traffic, except pedestrians, facing a steady circular green signal may proceed straight through or turn right or left unless a sign at such place prohibits either such turn. Such traffic, including when turning right or left, shall yield the right of way to other traffic lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited. 2. Traffic, except pedestrians, facing a steady green arrow signal may cautiously enter the intersection only to make the movement indicated by such arrow, or such other movement as is permitted by other indications shown at the same time, except that a U-Turn may be made by traffic facing a left green arrow signal unless a sign prohibits such U-Turn or such U-Turn is in violation of any other provision of law. Such traffic shall yield the right of way to other traffic lawfully within the intersection or an adjacent cross walk at the time such signal is exhibited. 3. Unless otherwise directed by a pedestrian-control signal as provided in section eleven hundred twelve, pedestrians facing any steady green signal, except when the sole green signal is a turn arrow, may proceed across the roadway within any marked or unmarked crosswalk. (b) Yellow indications: 1. Traffic, except pedestrians, facing a steady circular yellow signal may enter the intersection; however, said traffic is thereby warned that the related green movement is being terminated or that a red indication will be exhibited immediately thereafter. 2. Traffic, except pedestrians, facing a steady yellow arrow signal may cautiously enter the intersection only to complete the movement indicated by such arrow or make such other movement as is permitted by other indications shown at the same time; however, said traffic is thereby warned that the related green arrow movement is being terminated or that a red indication will be exhibited immediately thereafter. 3. Unless otherwise directed by a pedestrian-control signal as provided in section eleven hundred twelve, pedestrians facing any steady yellow signal are thereby advised that there is insufficient time to cross the roadway before a red indication is shown and no pedestrian shall then start to cross the roadway. (d) Red indications: 1. Traffic, except pedestrians, facing a steady circular red signal, unless to make such other movement as is permitted by other indications shown at the same time, shall stop at a clearly marked stop line, but if none, then shall stop before entering the crosswalk on the near side of the intersection, or in the event there is no crosswalk, at the point nearest the intersecting roadway where the driver has a view of the approaching traffic on the intersecting roadway before entering the intersection and shall remain standing until an indication to proceed is shown except as provided in paragraph two of this subdivision. 2. Except in a city having a population of one million or more, unless a sign is in place prohibiting such turn: a. Traffic facing a steady circular red signal may cautiously enter the intersection to make a right turn after stopping as required by paragraph one of this subdivision, except that right turning traffic is not required to stop when a steady right green arrow signal is shown at the same time. Such traffic shall yield the right-of-way to pedestrians within a marked or unmarked crosswalk at the intersection and to other traffic lawfully using the intersection; b. Traffic, while on a one-way roadway, facing a steady red signal may cautiously enter the intersection to make a left turn onto a one-way roadway after stopping as required by paragraph one of this subdivision. Such traffic shall yield the right-of-way to pedestrians within a marked or unmarked crosswalk at the intersection and to other traffic lawfully using the intersection. c. On or after the effective date of this subparagraph, the sign which prohibits such turn shall be prominently displayed from all newly installed traffic signals where possible. Notwithstanding any other provision of law, any city having a population of one million or more, is hereby authorized and empowered to adopt a local law authorizing subparagraph a or b of this paragraph to be applicable within such city. Upon the adoption of such local law the exception provided herein for a city having a population of one million or more shall no longer be applicable within such city. 3. Traffic, except pedestrians, facing a steady red arrow signal may not enter the intersection to make the movement indicated by such arrow and, unless entering the intersection to make such other movement as is permitted by other indications shown at the same time, shall stop at a clearly marked stop line, but if none, then shall stop before entering the crosswalk on the near side of the intersection, or in the event there is no crosswalk at the point nearest the intersecting roadway where the driver has a view of the approaching traffic on the intersecting roadway before entering the intersection and shall remain standing until an indication to proceed is shown. 4. Unless otherwise directed by a pedestrian-control signal as provided in section eleven hundred twelve, pedestrians facing any steady red signal shall not enter the roadway. 5. Notwithstanding the provision of paragraph two of this subdivision, no school bus, while transporting pupils for any purpose, shall be permitted to proceed when facing a steady red signal. (e) Traffic shall obey signs requiring obedience to traffic-control signals at intersections other than those at which such signals are located. No intersection not controlled by such signs prior to the effective date of this section shall hereafter be made subject to such method of control and no ordinance, order, rule or regulation requiring such obedience shall hereafter be adopted. (f) In the event an official traffic-control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement

indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made at the signal.

(b) Flashing yellow indications. Vehicular traffic facing a circular yellow signal or yellow arrow with rapid intermittent flashes may proceed through the intersection or past such signal only with caution. (c) Flashing red arrows and flashing yellow arrow indications have the same meaning as the corresponding flashing circular indications, except that they apply only to drivers of vehicles intending to make the movement indicated by the arrow. In any such case, the defendant shall waive the right to a hearing under section eleven hundred ninety-four-a of this article and such waiver shall have the same force and effect as a finding of a violation of section eleven hundred ninety-two-a of this article entered after a hearing conducted pursuant to such section eleven hundred ninety-four-a. The defendant shall execute such waiver in open court, and, if represented by counsel, in the presence of his attorney, on a form to be provided by the commissioner, which shall be forwarded by the court to the commissioner within ninety-six hours. Upon receipt of a duly executed waiver pursuant to this paragraph, the commissioner shall take such administrative action and impose such sanctions as may be required by section eleven hundred ninety-four-a of this article.(d) In any case wherein the charge laid before the court alleges a violation of subdivision two-a of this section, any plea of guilty thereafter entered in satisfaction of such charge must include at least a plea of guilty to the violation of the provisions of subdivision two, two-a or three of this section, and no other disposition by plea of guilty to any other charge in satisfaction of such charge shall be authorized; provided, however, if the district attorney, upon reviewing the available evidence, determines that the charge of a violation of this section is not warranted, such district attorney may consent and the court may allow a disposition by plea of guilty to another charge in satisfaction of such charge, provided, however, in all such cases, the court shall set forth upon the record the basis for such disposition. Provided, further, however, that no such plea shall be accepted by the court unless such plea includes as a condition thereof the requirement that the defendant attend and complete the alcohol and drug rehabilitation program established pursuant to section eleven hundred ninety-six of this article, including any assessment and treatment required thereby; provided, however, that such requirement may be waived by the court upon application of the district attorney or the defendant demonstrating that the defendant, as a condition of the plea, has been required to enter into and complete an alcohol or drug treatment program prescribed pursuant to an alcohol or substance abuse screening or assessment conducted pursuant to section eleven hundred ninety-eight-a of this article or for other good cause shown. The provisions of this paragraph shall apply, notwithstanding any bars to participation in the alcohol and drug rehabilitation program set forth in section eleven hundred ninety-six of this article; provided, however, that nothing in this paragraph shall authorize the issuance of a conditional license unless otherwise authorized by law.11. No person

other than an operator of a commercial motor vehicle may be charged with or convicted of a violation of subdivision five or six of this section.12. Driving while intoxicated or while ability impaired by drugs--serious physical injury or death or child in the vehicle. Provided, however, that the failure to make such notations shall in no way affect a charge for a violation of subdivision two, two-a, three, four or four-a of this section.(b) Where a law enforcement officer alleges a violation of paragraph (b) of subdivision two-a of this section and the operator of the vehicle is a parent, guardian, or custodian of, or other person legally responsible for, a child aged fifteen years or less who is a passenger in such vehicle, then the officer shall report or cause a report to be made, if applicable, in accordance with title six of article six of the social services law. The provisions of this subparagraph shall apply, notwithstanding any bars to participation in the alcohol and drug rehabilitation program set forth in section eleven hundred ninety-six of this article; provided, however, that nothing in this paragraph shall authorize the issuance of a conditional license unless otherwise authorized by law. (iii) In any case wherein the charge laid before the court alleges a violation of subdivision one of this section and the operator was under the age of twenty-one at the time of such violation, any plea of guilty thereafter entered in satisfaction of such charge must include at least a plea of guilty to the violation of such subdivision; provided, however, such charge may instead be satisfied as provided in paragraph (c) of this subdivision, and, provided further that, if the district attorney, upon reviewing the available evidence, determines that the charge of a violation of subdivision one of this section is not warranted, such district attorney may consent, and the court may allow a disposition by plea of guilty to another charge in satisfaction of such charge; provided, however, in all such cases, the court shall set forth upon the record the basis for such disposition. (b) In any case wherein the charge laid before the court alleges a violation of subdivision one or six of this section while operating a commercial motor vehicle, any plea of guilty thereafter entered in satisfaction of such charge must include at least a plea of guilty to the violation of the provisions of one of the subdivisions of this section and no other disposition by plea of guilty to any other charge in satisfaction of such charge shall be authorized; provided, however, if the district attorney upon reviewing the available evidence determines that the charge of a violation of this section is not warranted, he may consent, and the court may allow, a disposition by plea of guilty to another charge is satisfaction of such charge. (c) Except as provided in paragraph (b) of this subdivision, in any case wherein the charge laid before the court alleges a violation of subdivision one of this section by a person who was under the age of twenty-one at the time of commission of the offense, the court, with the consent of both parties, may allow the satisfaction of such charge by the defendant's agreement to be subject to action by the commissioner pursuant to section eleven hundred ninety-four-a of this article. In any such case, the defendant shall waive the right to a hearing under section eleven hundred ninety-four-a of this article and such waiver shall have the same force and effect as a finding of a violation of section eleven hundred ninety-two-a of this article entered after a hearing conducted pursuant to such section eleven hundred ninety-four-a. The defendant shall execute such waiver in open court, and, if represented by counsel, in the presence of his attorney, on a form to be provided by the commissioner, which shall be forwarded by the court to the commissioner within ninety-six hours. To be valid, such form shall, at a minimum, contain clear and conspicuous language advising the defendant that a duly executed waiver: (i) has the same force and effect as a guilty finding following a hearing pursuant to section eleven hundred ninety-four-a of this article; (ii) shall subject the defendant to the imposition of sanctions pursuant to such section eleven hundred ninety-four-a; and (iii) may subject the defendant to increased sanctions upon a subsequent violation of this section or section eleven hundred ninety-two-a of this article. Upon receipt of a duly executed waiver pursuant to this paragraph, the commissioner shall take such administrative action and impose such sanctions as may be required by section eleven hundred ninety-four-a of this article. (d) In any case wherein the charge laid before the court alleges a violation of subdivision two-a of this section, any plea of guilty thereafter entered in satisfaction of such charge must include at least a plea of guilty to the violation of the provisions of subdivision two, two-a or three of this section, and no other disposition by plea of guilty to any other charge in satisfaction of such charge shall be authorized; provided, however, if the district attorney, upon reviewing the available evidence, determines that the charge of a violation of this section is not warranted, such district attorney may consent and the court may allow a disposition by plea of guilty to another charge in satisfaction of such charge, provided, however, in all such cases, the court shall set forth upon the record the basis for such disposition. Provided, further, however, that no such plea shall be accepted by the court unless such plea includes as a condition thereof the requirement that the defendant attend and complete the alcohol and drug rehabilitation program established pursuant to section eleven hundred ninety-six of this article, including any assessment and treatment required thereby; provided, however, that such requirement may be waived by the court upon application of the district attorney or the defendant demonstrating that the defendant, as a condition of the plea, has been required to enter into and complete an alcohol or drug treatment program prescribed pursuant to an alcohol or substance abuse screening or assessment conducted pursuant to section eleven hundred ninety-eight-a of this article or for other good cause shown. The provisions of this paragraph shall apply, notwithstanding any bars to participation in the alcohol and drug rehabilitation program set forth in section eleven hundred ninety-six of this article; provided, however, that nothing in this paragraph shall authorize the issuance of a conditional license unless otherwise authorized by law. 11. Provided, however, that the failure to make such notations shall in no way affect a charge for a violation of subdivision two, two-a, three, four or four-a of this section. (b) Where a law enforcement officer alleges a violation of paragraph (b) of subdivision two-a of this section and the operator of the vehicle is a parent, guardian, or custodian of, or other person legally responsible for, a child aged fifteen years or less who is a passenger in such vehicle, then the officer shall report or cause a report to be made, if applicable, in accordance with title six of article six of the social services law.

Where revocation is mandatory pursuant to subparagraph five of this paragraph for a conviction of a violation of subdivision five of section eleven hundred ninety-two of this article, such revocation shall be issued only by the commissioner and shall be applicable only to that portion of the holder's driver's license or privilege which permits the operation of commercial motor vehicles, and the commissioner shall immediately issue a license, other than a commercial driver's license, to such person provided that such person is otherwise eligible to receive such license and further provided that issuing a license to such person does not create a substantial traffic safety hazard. (12) Permanent revocation. (a) Notwithstanding any other provision of this chapter to the contrary, whenever a revocation is imposed upon a person for the refusal to submit to a chemical test pursuant to the provisions of section eleven hundred ninety-four of this article or conviction for any violation of section eleven hundred ninety-two of this article for which a sentence of imprisonment may be imposed, and such person has: (i) within the previous four years been twice convicted of any provisions of section eleven hundred ninety-two of this article or a violation of the penal law for which a violation of such section eleven hundred ninety-two is an essential element and at least one such conviction was for a crime, or has twice been found to have refused to submit to a chemical test pursuant to section eleven hundred ninety-four of this article, or has any combination of two such convictions and findings of refusal not arising out of the same incident; or (ii) within the previous eight years been convicted three times of any provision of section eleven hundred ninety-two of this article for which a sentence of imprisonment may be imposed or a violation of the penal law for which a violation of such section eleven hundred ninety-two is an essential element and at least two such convictions were for crimes, or has been found, on three separate occasions, to have refused to submit to a chemical test pursuant to section eleven hundred ninety-four of this article, or has any combination of such convictions and findings of refusal not arising out of the same incident, such revocation shall be permanent. (b) The permanent driver's license revocation required by clause (a) of this subparagraph shall be waived by the commissioner after a period of five years has expired since the imposition of such permanent revocation, provided that during such five-year period such person has not been found to have refused a chemical test pursuant to section eleven hundred ninety-four of this article while operating a motor vehicle and has not been convicted of a violation of any subdivision of section eleven hundred ninety-two of this article or section five hundred eleven of this chapter or a violation of the penal law for which a violation of any subdivision of such section eleven hundred ninety-two is an essential element and either: (i) that such person provides acceptable documentation to the commissioner that such person has voluntarily enrolled in and successfully completed an appropriate rehabilitation program; or (ii) that such person is granted a certificate of relief from disabilities or a certificate of good conduct pursuant to article twenty-three of the correction law. Provided, however, that the commissioner may, on a case by case basis, refuse to restore a license which otherwise would be restored pursuant to this item, in the interest of the public safety and welfare. (c) For revocations imposed pursuant to clause (a) of this subparagraph, the commissioner may adopt rules to permit conditional or restricted operation of a motor vehicle by any such person after a mandatory revocation period of not less than three years subject to such criteria, terms and conditions as established by the commissioner. (d) Upon (i) a finding of refusal after having been convicted three times within four years of a violation of any subdivision of section eleven hundred ninety-two of this article or of the penal law for which a violation of any subdivision of such section eleven hundred ninety-two is an essential element or any combination of three such convictions not arising out of the same incident within four years or (ii) a fourth conviction of any subdivision of section eleven hundred ninety-two of this article after having been convicted of any such subdivision of such section eleven hundred ninety-two or of the penal law for which a violation of any of such subdivisions of such section eleven hundred ninety-two is an essential element or any combination of three such convictions not arising out of the same incident within four years or (iii) a finding of refusal after having been convicted four times within eight years of a violation of any subdivision of section eleven hundred ninety-two of this article or of the penal law for which a violation of any of such subdivisions of such section eleven hundred ninety-two is an essential element or any combination of four such convictions not arising out of the same incident within eight years or (iv) a fifth conviction of any subdivision of section eleven hundred ninety-two of this article after having been convicted of such subdivision or of the penal law for which a violation of any of such subdivisions of such section eleven hundred ninety-two is an essential element or any combination of four such convictions not

arising out of the same incident within eight years, such revocation shall be permanent. (e) The permanent driver's license revocation required by clause (d) of this subparagraph may be waived by the commissioner after a period of eight years has expired since the imposition of such permanent revocation provided: (i) that during such eight-year period such person has not been found to have refused a chemical test pursuant to section eleven hundred ninety-four of this article while operating a motor vehicle and has not been convicted of a violation of any subdivision of section eleven hundred ninety-two of this article or section five hundred eleven of this chapter or a violation of the penal law for which a violation of any such subdivisions of such section eleven hundred ninety-two is an essential element; and (ii) that such person provides acceptable documentation to the commissioner that such person has voluntarily enrolled in and successfully completed an appropriate rehabilitation program; and (iii) after such documentation is accepted, that such person is granted a certificate of relief from disabilities or a certificate of good conduct pursuant to article twenty-three of the correction law. Notwithstanding the provisions of this clause, nothing contained in this clause shall be deemed to require the commissioner to restore a license to an applicant who otherwise has complied with the requirements of this item, in the interest of the public safety and welfare. (f) Nothing contained in this subparagraph shall be deemed to reduce a license revocation period imposed pursuant to any other provision of law. (c) Reissuance of licenses; restrictions. (1) Except as otherwise provided in this paragraph, where a license is revoked pursuant to paragraph (b) of this subdivision, no new license shall be issued after the expiration of the minimum period specified in such paragraph, except in the discretion of the commissioner. (2) Where a license is revoked pursuant to subparagraph two, three or eight of paragraph (b) of this subdivision for a violation of subdivision four of section eleven hundred ninety-two of this article, and where the individual does not have a driver's license or the individual's license was suspended at the time of conviction or youthful offender or other juvenile adjudication, the commissioner shall not issue a new license nor restore the former license for a period of six months after such individual would otherwise have become eligible to obtain a new license or to have the former license restored; provided, however, that during such delay period the commissioner may issue a restricted use license pursuant to section five hundred thirty of this chapter. (3) In no event shall a new license be issued where a person has been twice convicted of a violation of subdivision three, four or four-a of section eleven hundred ninety-two of this article or of driving while intoxicated or of driving while ability is impaired by the use of a drug or of driving while ability is impaired by the combined influence of drugs or of alcohol and any drug or drugs where physical injury, as defined in section 10.00 of the penal law, has resulted from such offense in each instance. (d) Suspension or revocation; sentencing. (1) Notwithstanding anything to the contrary contained in a certificate of relief from disabilities or a certificate of good conduct issued pursuant to article twenty-three of the correction law, where a suspension or revocation, other than a revocation required to be issued by the commissioner, is mandatory pursuant to paragraph (a) or (b) of this subdivision, the magistrate, justice or judge shall issue an order suspending or revoking such license upon sentencing, and the license holder shall surrender such license to the court. Except as hereinafter provided, such suspension or revocation shall take effect immediately. (2) Except where the license holder has been charged with a violation of article one hundred twenty or one hundred twenty-five of the penal law arising out of the same incident or convicted of such violation or a violation of any subdivision of section eleven hundred ninety-two of this article within the preceding five years, the judge, justice or magistrate may issue an order making said license suspension or revocation take effect twenty days after the date of sentencing. The license holder shall be given a copy of said order permitting the continuation of driving privileges for twenty days after sentencing, if granted by the court. The court shall forward to the commissioner the certificates required in sections five hundred thirteen and five hundred fourteen of this chapter, along with a copy of any order issued pursuant to this paragraph and the license, within ninety-six hours of sentencing. (e) Special provisions. (1) Suspension pending prosecution; procedure. a. Without notice, pending any prosecution, the court shall suspend such license, where the holder has been charged with a violation of subdivision two, two-a, three, four or four-a of section eleven hundred ninety-two of this article and either (i) a violation of a felony under article one hundred twenty or one hundred twenty-five of the penal law arising out of the same incident, or (ii) has been convicted of any violation under section eleven hundred ninety-two of this article within the preceding five years. b. The suspension under the preceding clause shall occur no later than twenty days after the holder's first appearance before the court on the charges or at the conclusion of all proceedings required for the arraignment. In order for the court to impose such suspension it must find that the accusatory instrument conforms to the requirements of section 100.40 of the criminal procedure law and there exists reasonable cause to believe that the holder operated a motor vehicle in violation of subdivision two, two-a, three, four or four-a of section eleven hundred ninety-two of this article and either (i) the person had been convicted of any violation under such section eleven hundred ninety-two of this article within the preceding five years; or (ii) that the holder committed a violation of a felony under article one hundred twenty or one hundred twenty-five of the penal law. At such time the holder shall be entitled to an opportunity to make a statement regarding the enumerated issues and to present evidence tending to rebut the court's findings. Where such suspension is imposed upon a pending charge of a violation of a felony under article one hundred twenty or one hundred twenty-five of the penal law and the holder has requested a hearing pursuant to article one hundred eighty of the criminal procedure law, the court shall conduct such hearing. If upon completion of the hearing, the court fails to find that there is reasonable cause to believe that the holder committed a felony under article one hundred twenty or one hundred twenty-five of the penal law and the holder has not been previously convicted of any violation of section eleven hundred ninety-two of this article within the preceding five years the court shall promptly notify the commissioner and direct restoration of such license to the license holder unless such license is suspended or revoked pursuant to any other provision of this chapter. (2) Bail forfeiture. A license shall be suspended where the holder forfeits bail upon a charge of a violation of any subdivision of section eleven hundred ninety-two of this article. Such suspension shall not be terminated until the holder submits to the jurisdiction of the court in which the bail was forfeited. (3) Permanent disqualification from operating certain motor vehicles. a. Except as otherwise provided herein, in addition

to any revocation set forth in subparagraph four or five of paragraph (b) of this subdivision, any person sentenced pursuant to subparagraph three of paragraph (d) of subdivision one of this section shall be permanently disqualified from operating any vehicle set forth in such paragraph. In addition, the commissioner shall not issue such person a license valid for the operation of any vehicle set forth therein by such person. The commissioner may waive such disqualification and prohibition hereinbefore provided after a period of five years has expired from such sentencing provided: (i) that during such five year period such person has not violated any of the provisions of section eleven hundred ninety-two of this article or any alcohol or drug related traffic offense in this state or in any jurisdiction outside this state; (ii) that such person provides acceptable documentation to the commissioner that such person is not in need of alcohol or drug treatment or has satisfactorily completed a prescribed course of such treatment; and (iii) after such documentation is accepted, that such person is granted a certificate of relief from disabilities or a certificate of good conduct pursuant to article twenty-three of the correction law. b. Any person who holds a commercial driver's license and is convicted of a violation of any subdivision of section eleven hundred ninety-two of this article who has had a prior finding of refusal to submit to a chemical test pursuant to section eleven hundred ninety-four of this article or has had a prior conviction of any of the following offenses: any violation of section eleven hundred ninety-two of this article; any violation of subdivision one or two of section six hundred of this chapter; or has a prior conviction of any felony involving the use of a motor vehicle pursuant to paragraph (a) of subdivision one of section five hundred ten-a of this chapter, shall be permanently disqualified from operating a commercial motor vehicle. The commissioner may waive such disqualification and prohibition hereinbefore provided after a period of ten years has expired from such sentence provided: (i) that during such ten year period such person has not been found to have refused a chemical test pursuant to section eleven hundred ninety-four of this article while operating a motor vehicle and has not been convicted of any one of the following offenses while operating a motor vehicle: any violation of section eleven hundred ninety-two of this article; any violation of subdivision one or two of section six hundred of this chapter; or has a prior conviction of any felony involving the use of a motor vehicle pursuant to paragraph (a) of subdivision one of section five hundred ten-a of this chapter; (ii) that such person provides acceptable documentation to the commissioner that such person is not in need of alcohol or drug treatment or has satisfactorily completed a prescribed course of such treatment; and (iii) after such documentation is accepted, that such person is granted a certificate of relief from disabilities or a certificate of good conduct pursuant to article twenty-three of the correction law. c. Upon a third finding of refusal and/or conviction of any of the offenses which require a permanent commercial driver's license revocation, such permanent revocation may not be waived by the commissioner under any circumstances. (4) Youthful offenders. Where a youth is determined to be a youthful offender, following a conviction of a violation of section eleven hundred ninety-two of this article for which a license suspension or revocation is mandatory, the court shall impose such suspension or revocation as is otherwise required upon conviction and, further, shall notify the commissioner of said suspension or revocation and its finding that said violator is granted youthful offender status as is required pursuant to section five hundred thirteen of this chapter. (5) Probation. When a license to operate a motor vehicle has been revoked pursuant to this chapter, and the holder has been sentenced to a period of probation pursuant to section 65.00 of the penal law for a violation of any provision of this chapter, or any other provision of the laws of this state, and a condition of such probation is that the holder thereof not operate a motor vehicle or not apply for a license to operate a motor vehicle during the period of such condition of probation, the commissioner may not restore such license until the period of the condition of probation has expired. (6) Application for new license. Where a license has been revoked pursuant to paragraph (b) of this subdivision, or where the holder is subject to a condition of probation as provided in subparagraph five of this paragraph, application for a new license may be made within forty-five days prior to the expiration of such minimum period of revocation or condition of probation, whichever expires last. (7) Suspension pending prosecution; excessive blood alcohol content. a. Except as provided in clause a-1 of this subparagraph, a court shall suspend a driver's license, pending prosecution, of any person charged with a violation of subdivision two, two-a, three or four-a of section eleven hundred ninety-two of this article who, at the time of arrest, is alleged to have had .08 of one percent or more by weight of alcohol in such driver's blood as shown by chemical analysis of blood, breath, urine or saliva, made pursuant to subdivision two or three of section eleven hundred ninety-four of this article. a-1. A court shall suspend a class DJ or MJ learner's permit or a class DJ or MJ driver's license, pending prosecution, of any person who has been charged with a violation of subdivision one, two, two-a and/or three of section eleven hundred ninety-two of this article. b. The suspension occurring under clause a of this subparagraph shall occur no later than at the conclusion of all proceedings required for the arraignment and the suspension occurring under clause a-1 of this subparagraph shall occur immediately after the holder's first appearance before the court on the charge which shall, whenever possible, be the next regularly scheduled session of the court after the arrest or at the conclusion of all proceedings required for the arraignment; provided, however, that if the results of any test administered pursuant to section eleven hundred ninety-four of this article are not available within such time period, the complainant police officer or other public servant shall transmit such results to the court at the time they become available, and the court shall, as soon as practicable following the receipt of such results and in compliance with the requirements of this subparagraph, suspend such license. In order for the court to impose such suspension it must find that the accusatory instrument conforms to the requirements of section 100.40 of the criminal procedure law and there exists reasonable cause to believe either that (a) the holder operated a motor vehicle while such holder had .08 of one percent or more by weight of alcohol in his or her blood as was shown by chemical analysis of such person's blood, breath, urine or saliva, made pursuant to the provisions of section eleven hundred ninety-four of this article or (b) the person was the holder of a class DJ or MJ learner's permit or a class DJ or MJ driver's license and operated a motor vehicle while such holder was in violation of subdivision one, two and/or three of section eleven hundred ninety-two of this article. At the time of such license suspension the holder shall be entitled to an opportunity to make a statement regarding these two issues and to present evidence tending to rebut the court's findings. c. Nothing

contained in this subparagraph shall be construed to prohibit or limit a court from imposing any other suspension pending prosecution required or permitted by law. d. Notwithstanding any contrary provision of this chapter, if any suspension occurring under this subparagraph has been in effect for a period of thirty days, the holder may be issued a conditional license, in accordance with section eleven hundred ninety-six of this article, provided the holder of such license is otherwise eligible to receive such conditional license. A conditional license issued pursuant to this subparagraph shall not be valid for the operation of a commercial motor vehicle. The commissioner shall prescribe by regulation the procedures for the issuance of such conditional license. e. If the court finds that the suspension imposed pursuant to this subparagraph will result in extreme hardship, the court must issue such suspension, but may grant a hardship privilege, which shall be issued on a form prescribed by the commissioner. For the purposes of this clause, "extreme hardship" shall mean the inability to obtain alternative means of travel to or from the licensee's employment, or to or from necessary medical treatment for the licensee or a member of the licensee's household, or if the licensee is a matriculating student enrolled in an accredited school, college or university travel to or from such licensee's school, college or university if such travel is necessary for the completion of the educational degree or certificate. The burden of proving extreme hardship shall be on the licensee who may present material and relevant evidence. A finding of extreme hardship may not be based solely upon the testimony of the licensee. In no event shall arraignment be adjourned or otherwise delayed more than three business days solely for the purpose of allowing the licensee to present evidence of extreme hardship. The court shall set forth upon the record, or otherwise set forth in writing, the factual basis for such finding. The hardship privilege shall permit the operation of a vehicle only for travel to or from the licensee's employment, or to or from necessary medical treatment for the licensee or a member of the licensee's household, or if the licensee is a matriculating student enrolled in an accredited school, college or university travel to or from such licensee's school, college or university if such travel is necessary for the completion of the educational degree or certificate. A hardship privilege shall not be valid for the operation of a commercial motor vehicle. (f) Notice of charges to parent or guardian. Notwithstanding the provisions of subdivision two of section eighteen hundred seven of this chapter, upon the first scheduled appearance of any person under eighteen years of age who resides within the household of his or her parent or guardian upon a charge of a violation of subdivision one, two and/or three of section eleven hundred ninety-two of this article, the local criminal court before which such first appearance is scheduled shall forthwith transmit written notice of such appearance or failure to make such appearance to the parent or guardian of such minor person; provided, however, that if an arraignment and conviction of such person follows such appearance upon the same day, or in case such person waives arraignment and enters a plea of guilty to the offense as charged in accordance with the provisions of section eighteen hundred five of this chapter, transmittal of notice of his or her conviction as provided in section five hundred fourteen of this chapter shall be sufficient and the notice required by this paragraph need not be given; provided further that the failure of a local criminal court to transmit the notice required by this paragraph shall in no manner affect the validity of a conviction subsequently obtained.

2024 New York LawsVAT - Vehicle and TrafficTitle 7 - Rules of the RoadArticle 31 - Alcohol and Drug-Related Offenses and Procedures Applicable Thereto1194-A - Driving After Having Consumed Alcohol; Under Twenty-One; Procedure.

(b) Every person under the age of twenty-one who is alleged to have operated a motor vehicle after having consumed alcohol as set forth in section eleven hundred ninety-two-a of this article, and who is not charged with violating any subdivision of section eleven hundred ninety-two of this article arising out of the same incident, is entitled to a hearing before a hearing officer in accordance with the provisions of this section. Unless otherwise provided by law, the license or permit to drive or any non-resident operating privilege of such person shall not be suspended or revoked prior to the scheduled date for such hearing. (i) The hearing shall be limited to the following issues: (1) did such person operate the motor vehicle; (2) was a valid request to submit to a chemical test made by the police officer in accordance with the provisions of section eleven hundred ninety-four of this article; (3) was such person less than twenty-one years of age at the time of operation of the motor vehicle; (4) was the chemical test properly administered in accordance with the provisions of section eleven hundred ninety-four of this article; (5) did the test find that such person had driven after having consumed alcohol as defined in section eleven hundred ninety-two-a of this article; and (6) did the police officer make a lawful stop of such person. The burden of proof shall be on the police officer to prove each of these issues by clear and convincing evidence. (ii) Every person who is entitled to a hearing pursuant to this subdivision has the right to be present at the hearing; the right to be represented by attorney, or in the hearing officer's discretion, by any other person the operator chooses; the right to receive and review discovery materials as provided in this subdivision; the right not to testify; the right to present evidence and witnesses in his own behalf, the right to cross examine adverse witnesses, and the right to appeal from an adverse determination in accordance with article three-A of this chapter. Any person representing the operator must conform to the standards of conduct required of attorneys appearing before state courts, and failure to conform to these standards will be grounds for declining to permit his continued appearance in the hearing. (iii) Hearings conducted pursuant to this subdivision shall be in accordance with this subdivision and with the provisions applicable to the adjudication of traffic infractions pursuant to the following provisions of part 124 of title fifteen of the codes, rules and regulations of the state of New York: paragraph (b) of section 124.1 regarding the opening statement; paragraph (b) of section 124.2 regarding the right to representation and to remain silent and paragraphs (a) through (e) of section 124.4 regarding the conduct of the hearing, procedure and recusal; provided, however, that nothing contained in this subparagraph shall be deemed to preclude a hearing officer from changing the order of a hearing conducted pursuant to this subdivision as justice may require and for good cause shown. (iv) The rules governing receipt of evidence in a court of law shall not apply in a hearing conducted pursuant to this subdivision except as follows: (1) on the merits of the charge, and whether or not a party objects, the hearing officer shall exclude from consideration the following: a privileged communication;

evidence which, for constitutional reasons, would not be admissible in a court of law; evidence of prior misconduct, incompetency or illness, except where such evidence would be admissible in a court of law; evidence which is irrelevant or immaterial; (2) no negative inference shall be drawn from the operator's exercising the right not to testify. (v) If, after such hearing, the hearing officer, acting on behalf of the commissioner, finds all of the issues set forth in this subdivision in the affirmative, the hearing officer shall suspend or revoke the license or permit to drive or non-resident operating privilege of such person in accordance with the time periods set forth in subdivision two of section eleven hundred ninety-three of this article. If, after such hearing, the hearing officer, acting on behalf of the commissioner, finds any of said issues in the negative, the hearing officer must find that the operator did not drive after having consumed alcohol. (vi) A person who has had a license or permit to drive or non-resident operating privilege suspended or revoked pursuant to the provisions of this section may appeal the finding of the hearing officer in accordance with the provisions of article three-A of this chapter. (c) Unless an adjournment of the hearing date has been granted, upon the operator's failure to appear for a scheduled hearing, the commissioner shall suspend the license or permit to drive or non-resident operating privilege until the operator petitions the commissioner and a rescheduled hearing is conducted, provided, however, the commissioner shall restore such person's license or permit to drive or non-resident operating privilege if such rescheduled hearing is adjourned at the request of a person other than the operator. Requests for adjournments shall be made and determined in accordance with regulations promulgated by the commissioner. If such a request by the operator for an adjournment is granted, the commissioner shall notify the operator of the rescheduled hearing, which shall be scheduled for the next hearing date. If a second or subsequent request by the operator for an adjournment is granted, the operator's license or permit to drive or non-resident operating privilege may be suspended pending the hearing at the time such adjournment is granted; provided, however, that the records of the department or the evidence already admitted furnishes reasonable grounds to believe such suspension is necessary to prevent continuing violations or a substantial traffic safety hazard; and provided further, that such hearing shall be scheduled for the next hearing date. If a police officer does not appear for a hearing, the hearing officer shall have the authority to dismiss the charge. Any person may waive the right to a hearing under this subdivision, in a form and manner prescribed by the commissioner, and may enter an admission of guilt, in person or by mail, to the charge of operating a motor vehicle in violation of section eleven hundred ninety-two-a of this article. Such admission of guilt shall have the same force and effect as a finding of guilt entered following a hearing conducted pursuant to this subdivision. 1-a. Hearing notice. The hearing notice issued to an operator pursuant to subdivision one of this section shall be in a form as prescribed by the commissioner. In addition to containing information concerning the time, date and location of the hearing, and such other information as the commissioner deems appropriate, such hearing notice shall also contain the following information: the date, time and place of the offense charged; the procedures for requesting an adjournment of a scheduled hearing as provided in this section, the operator's right to a hearing conducted pursuant to this section and the right to waive such hearing and plead guilty, either in person or by mail, to the offense charged. 2. Civil penalty. Unless otherwise provided, any person whose license, permit to drive, or any non-resident operating privilege is suspended or revoked pursuant to the provisions of this section shall also be liable for a civil penalty in the amount of one hundred twenty-five dollars, which shall be distributed in accordance with the provisions of subdivision nine of section eighteen hundred three of this chapter. 3. Refusal report and hearing. (a) Any person under the age of twenty-one who is suspected of operating a motor vehicle after having consumed alcohol in violation of section eleven hundred ninety-two-a of this chapter, and who is not charged with violating any subdivision of section eleven hundred ninety-two of this article arising out of the same incident, and who has been requested to submit to a chemical test pursuant to paragraph (a) of subdivision two of section eleven hundred ninety-four of this article and after having been informed that his license or permit to drive and any non-resident operating privilege shall be revoked for refusal to submit to such chemical test or any portion thereof, whether or not there is a finding of driving after having consumed alcohol, and such person refuses to submit to such chemical test or any portion thereof, shall be entitled to a hearing in accordance with a schedule promulgated by the commissioner, and such hearing shall occur within thirty days of, but not less than forty-eight hours from, the date of such refusal, provided, however, where the commissioner determines, based upon the availability of hearing officers and the anticipated volume of hearings at a particular location, that the scheduling of such hearing within thirty days would impair the timely scheduling or conducting of other hearings pursuant to this chapter, such hearing shall be scheduled at the next hearing date for such particular location. (b) Unless an adjournment of the hearing date has been granted, upon the operator's failure to appear for a scheduled hearing, the commissioner shall suspend the license or permit to drive or non-resident operating privilege until the operator petitions the commissioner and a rescheduled hearing is conducted, provided, however, the commissioner shall restore such person's license or permit to drive or non-resident operating privilege if such rescheduled hearing is adjourned at the request of a person other than the operator. Requests for adjournments shall be made and determined in accordance with regulations promulgated by the commissioner. If such a request by the operator for an adjournment is granted, the commissioner shall notify the operator of the rescheduled hearing, which shall be scheduled for the next hearing date. If a second or subsequent request by the operator for an adjournment is granted, the operator's license or permit to drive or non-resident operating privilege may be suspended pending the hearing at the time such adjournment is granted; provided, however, that the records of the department or the evidence already admitted furnishes reasonable grounds to believe such suspension is necessary to prevent continuing violations or a substantial traffic safety hazard; and provided further, that such hearing shall be scheduled for the next hearing date. If a police officer does not appear for a hearing, the hearing officer shall have the authority to dismiss the charge. Any person may waive the right to a hearing under this subdivision. (c) The hearing on the refusal to submit to a chemical test pursuant to this subdivision shall be limited to the following issues: (1) was a valid request to submit to a chemical test made by the police officer in accordance with the provisions of section eleven hundred ninety-four of this article; (2) was such person given sufficient warning, in clear or

unequivocal language, prior to such refusal that such refusal to submit to such chemical test or any portion thereof, would result in the revocation of such person's license or permit to drive or nonresident operating privilege, whether or not such person is found to have operated a motor vehicle after having consumed alcohol; (3) did such person refuse to submit to such chemical test or any portion thereof; (4) did such person operate the motor vehicle; (5) was such person less than twenty-one years of age at the time of operation of the motor vehicle; (6) did the police officer make a lawful stop of such person. If, after such hearing, the hearing officer, acting on behalf of the commissioner, finds on any one said issue in the negative, the hearing officer shall not revoke the operator's license or permit to drive or non-resident operating privilege and shall immediately terminate any outstanding suspension of the operator's license, permit to drive or non-resident operating privilege arising from such refusal. If, after such hearing, the hearing officer, acting on behalf of the commissioner, finds all of the issues in the affirmative, such hearing officer shall immediately revoke the license or permit to drive or any non-resident operating privilege in accordance with the provisions of paragraph (d) of subdivision two of section eleven hundred ninety-four of this article. A person who has had a license or permit to drive or non-resident operating privilege suspended or revoked pursuant to the provisions of this section may appeal the findings of the hearing officer in accordance with the provisions of article three-A of this chapter.

2024 New York LawsVAT - Vehicle and TrafficTitle 7 - Rules of the RoadArticle 31 - Alcohol and Drug-Related Offenses and Procedures Applicable Thereto1194 - Arrest and Testing.

(b) Field testing. Every person operating a motor vehicle which has been involved in an accident or which is operated in violation of any of the provisions of this chapter shall, at the request of a police officer, submit to a breath test to be administered by the police officer. If such test indicates that such operator has consumed alcohol, the police officer may request such operator to submit to a chemical test in the manner set forth in subdivision two of this section. 2. Chemical tests. (a) When authorized. Any person who operates a motor vehicle in this state shall be deemed to have given consent to a chemical test of one or more of the following: breath, blood, urine, or saliva, for the purpose of determining the alcoholic and/or drug content of the blood provided that such test is administered by or at the direction of a police officer with respect to a chemical test of breath, urine or saliva or, with respect to a chemical test of blood, at the direction of a police officer: (1) having reasonable grounds to believe such person to have been operating in violation of any subdivision of section eleven hundred ninety-two of this article and within two hours after such person has been placed under arrest for any such violation; or having reasonable grounds to believe such person to have been operating in violation of section eleven hundred ninety-two-a of this article and within two hours after the stop of such person for any such violation, (2) within two hours after a breath test, as provided in paragraph (b) of subdivision one of this section, indicates that alcohol has been consumed by such person and in accordance with the rules and regulations established by the police force of which the officer is a member; (3) for the purposes of this paragraph, "reasonable grounds" to believe that a person has been operating a motor vehicle after having consumed alcohol in violation of section eleven hundred ninety-two-a of this article shall be determined by viewing the totality of circumstances surrounding the incident which, when taken together, indicate that the operator was driving in violation of such subdivision. Such circumstances may include any visible or behavioral indication of alcohol consumption by the operator, the existence of an open container containing or having contained an alcoholic beverage in or around the vehicle driven by the operator, or any other evidence surrounding the circumstances of the incident which indicates that the operator has been operating a motor vehicle after having consumed alcohol at the time of the incident; or (4) notwithstanding any other provision of law to the contrary, no person under the age of twenty-one shall be arrested for an alleged violation of section eleven hundred ninety-two-a of this article. However, a person under the age of twenty-one for whom a chemical test is authorized pursuant to this paragraph may be temporarily detained by the police solely for the purpose of requesting or administering such chemical test whenever arrest without a warrant for a petty offense would be authorized in accordance with the provisions of section 140.10 of the criminal procedure law or paragraph (a) of subdivision one of this section. (b) Report of refusal. (1) If: (A) such person having been placed under arrest; or (B) after a breath test indicates the presence of alcohol in the person's system; or (C) with regard to a person under the age of twenty-one, there are reasonable grounds to believe that such person has been operating a motor vehicle after having consumed alcohol in violation of section eleven hundred ninety-two-a of this article; and having thereafter been requested to submit to such chemical test and having been informed that the person's license or permit to drive and any non-resident operating privilege shall be immediately suspended and subsequently revoked, or, for operators under the age of twenty-one for whom there are reasonable grounds to believe that such operator has been operating a motor vehicle after having consumed alcohol in violation of section eleven hundred ninety-two-a of this article, shall be revoked for refusal to submit to such chemical test or any portion thereof, whether or not the person is found guilty of the charge for which such person is arrested or detained, refuses to submit to such chemical test or any portion thereof, unless a court order has been granted pursuant to subdivision three of this section, the test shall not be given and a written report of such refusal shall be immediately made by the police officer before whom such refusal was made. Such report may be verified by having the report sworn to, or by affixing to such report a form notice that false statements made therein are punishable as a class A misdemeanor pursuant to section 210.45 of the penal law and such form notice together with the subscription of the deponent shall constitute a verification of the report. (2) The report of the police officer shall set forth reasonable grounds to believe such arrested person or such detained person under the age of twenty-one had been driving in violation of any subdivision of section eleven hundred ninety-two or eleven hundred ninety-two-a of this article, that said person had refused to submit to such chemical test, and that no chemical test was administered pursuant to the requirements of subdivision three of this section. The report shall be presented to the court upon arraignment of an arrested person, provided, however, in the case of a person under the age of twenty-one, for whom a test was authorized pursuant to the provisions of subparagraph two or three of

paragraph (a) of this subdivision, and who has not been placed under arrest for a violation of any of the provisions of section eleven hundred ninety-two of this article, such report shall be forwarded to the commissioner within forty-eight hours in a manner to be prescribed by the commissioner, and all subsequent proceedings with regard to refusal to submit to such chemical test by such person shall be as set forth in subdivision three of section eleven hundred ninety-four-a of this article. (3) For persons placed under arrest for a violation of any subdivision of section eleven hundred ninety-two of this article, the license or permit to drive and any non-resident operating privilege shall, upon the basis of such written report, be temporarily suspended by the court without notice pending the determination of a hearing as provided in paragraph (c) of this subdivision. Copies of such report must be transmitted by the court to the commissioner and such transmittal may not be waived even with the consent of all the parties. Such report shall be forwarded to the commissioner within forty-eight hours of such arraignment. (4) The court or the police officer, in the case of a person under the age of twenty-one alleged to be driving after having consumed alcohol, shall provide such person with a scheduled hearing date, a waiver form, and such other information as may be required by the commissioner. If a hearing, as provided for in paragraph (c) of this subdivision, or subdivision three of section eleven hundred ninety-four-a of this article, is waived by such person, the commissioner shall immediately revoke the license, permit, or non-resident operating privilege, as of the date of receipt of such waiver in accordance with the provisions of paragraph (d) of this subdivision. (c) Hearings. Any person whose license or permit to drive or any non-resident driving privilege has been suspended pursuant to paragraph (b) of this subdivision is entitled to a hearing in accordance with a hearing schedule to be promulgated by the commissioner. If the department fails to provide for such hearing fifteen days after the date of the arraignment of the arrested person, the license, permit to drive or non-resident operating privilege of such person shall be reinstated pending a hearing pursuant to this section. The hearing shall be limited to the following issues: (1) did the police officer have reasonable grounds to believe that such person had been driving in violation of any subdivision of section eleven hundred ninety-two of this article; (2) did the police officer make a lawful arrest of such person; (3) was such person given sufficient warning, in clear or unequivocal language, prior to such refusal that such refusal to submit to such chemical test or any portion thereof, would result in the immediate suspension and subsequent revocation of such person's license or operating privilege whether or not such person is found guilty of the charge for which the arrest was made; and (4) did such person refuse to submit to such chemical test or any portion thereof. If, after such hearing, the hearing officer, acting on behalf of the commissioner, finds on any one of said issues in the negative, the hearing officer shall immediately terminate any suspension arising from such refusal. If, after such hearing, the hearing officer, acting on behalf of the commissioner finds all of the issues in the affirmative, such officer shall immediately revoke the license or permit to drive or any non-resident operating privilege in accordance with the provisions of paragraph (d) of this subdivision. A person who has had a license or permit to drive or non-resident operating privilege suspended or revoked pursuant to this subdivision may appeal the findings of the hearing officer in accordance with the provisions of article three-A of this chapter. Any person may waive the right to a hearing under this section. Failure by such person to appear for the scheduled hearing shall constitute a waiver of such hearing, provided, however, that such person may petition the commissioner for a new hearing which shall be held as soon as practicable. (d) Sanctions. (1) Revocations. a. Any license which has been revoked pursuant to paragraph (c) of this subdivision shall not be restored for at least one year after such revocation, nor thereafter, except in the discretion of the commissioner. However, no such license shall be restored for at least eighteen months after such revocation, nor thereafter except in the discretion of the commissioner, in any case where the person has had a prior revocation resulting from refusal to submit to a chemical test, or has been convicted of or found to be in violation of any subdivision of section eleven hundred ninety-two or section eleven hundred ninety-two-a of this article not arising out of the same incident, within the five years immediately preceding the date of such revocation; provided, however, a prior finding that a person under the age of twenty-one has refused to submit to a chemical test pursuant to subdivision three of section eleven hundred ninety-four-a of this article shall have the same effect as a prior finding of a refusal pursuant to this subdivision solely for the purpose of determining the length of any license suspension or revocation required to be imposed under any provision of this article, provided that the subsequent offense or refusal is committed or occurred prior to the expiration of the retention period for such prior refusal as set forth in paragraph (k) of subdivision one of section two hundred one of this chapter. b. Any license which has been revoked pursuant to paragraph (c) of this subdivision or pursuant to subdivision three of section eleven hundred ninety-four-a of this article, where the holder was under the age of twenty-one years at the time of such refusal, shall not be restored for at least one year, nor thereafter, except in the discretion of the commissioner. Where such person under the age of twenty-one years has a prior finding, conviction or youthful offender adjudication resulting from a violation of section eleven hundred ninety-two or section eleven hundred ninety-two-a of this article, not arising from the same incident, such license shall not be restored for at least one year or until such person reaches the age of twenty-one years, whichever is the greater period of time, nor thereafter, except in the discretion of the commissioner. c. Any commercial driver's license which has been revoked pursuant to paragraph (c) of this subdivision based upon a finding of refusal to submit to a chemical test, where such finding occurs within or outside of this state, shall not be restored for at least eighteen months after such revocation, nor thereafter, except in the discretion of the commissioner, but shall not be restored for at least three years after such revocation, nor thereafter, except in the discretion of the commissioner, if the holder of such license was operating a commercial motor vehicle transporting hazardous materials at the time of such refusal. However, such person shall be permanently disqualified from operating a commercial motor vehicle in any case where the holder has a prior finding of refusal to submit to a chemical test pursuant to this section or has a prior conviction of any of the following offenses: any violation of section eleven hundred ninety-two of this article; any violation of subdivision one or two of section six hundred of this chapter; or has a prior conviction of any felony involving the use of a motor vehicle pursuant to paragraph (a) of subdivision one of section five hundred ten-a of this chapter. Provided that the commissioner may waive such permanent revocation after a period of

ten years has expired from such revocation provided: (i) that during such ten year period such person has not been found to have refused a chemical test pursuant to this section and has not been convicted of any one of the following offenses: any violation of section eleven hundred ninety-two of this article; refusal to submit to a chemical test pursuant to this section; any violation of subdivision one or two of section six hundred of this chapter; or has a prior conviction of any felony involving the use of a motor vehicle pursuant to paragraph (a) of subdivision one of section five hundred ten-a of this chapter; (ii) that such person provides acceptable documentation to the commissioner that such person is not in need of alcohol or drug treatment or has satisfactorily completed a prescribed course of such treatment; and (iii) after such documentation is accepted, that such person is granted a certificate of relief from disabilities or a certificate of good conduct pursuant to article twenty-three of the correction law by the court in which such person was last penalized. d. Upon a third finding of refusal and/or conviction of any of the offenses which require a permanent commercial driver's license revocation, such permanent revocation may not be waived by the commissioner under any circumstances. (2) Civil penalties. Except as otherwise provided, any person whose license, permit to drive, or any non-resident operating privilege is revoked pursuant to the provisions of this section shall also be liable for a civil penalty in the amount of five hundred dollars except that if such revocation is a second or subsequent revocation pursuant to this section issued within a five year period, or such person has been convicted of a violation of any subdivision of section eleven hundred ninety-two of this article within the past five years not arising out of the same incident, the civil penalty shall be in the amount of seven hundred fifty dollars. Any person whose license is revoked pursuant to the provisions of this section based upon a finding of refusal to submit to a chemical test while operating a commercial motor vehicle shall also be liable for a civil penalty of five hundred fifty dollars except that if such person has previously been found to have refused a chemical test pursuant to this section while operating a commercial motor vehicle or has a prior conviction of any of the following offenses while operating a commercial motor vehicle: any violation of section eleven hundred ninety-two of this article; any violation of subdivision two of section six hundred of this chapter; or has a prior conviction of any felony involving the use of a commercial motor vehicle pursuant to paragraph (a) of subdivision one of section five hundred ten-a of this chapter, then the civil penalty shall be seven hundred fifty dollars. No new driver's license or permit shall be issued, or non-resident operating privilege restored to such person unless such penalty has been paid. All penalties collected by the department pursuant to the provisions of this section shall be the property of the state and shall be paid into the general fund of the state treasury. (3) Effect of rehabilitation program. No period of revocation arising out of this section may be set aside by the commissioner for the reason that such person was a participant in the alcohol and drug rehabilitation program set forth in section eleven hundred ninety-six of this article. (e) Regulations. The commissioner shall promulgate such rules and regulations as may be necessary to effectuate the provisions of subdivisions one and two of this section. (f) Evidence. Evidence of a refusal to submit to such chemical test or any portion thereof shall be admissible in any trial, proceeding or hearing based upon a violation of the provisions of section eleven hundred ninety-two of this article but only upon a showing that the person was given sufficient warning, in clear and unequivocal language, of the effect of such refusal and that the person persisted in the refusal. (g) Results. Upon the request of the person who was tested, the results of such test shall be made available to such person. 3. Compulsory chemical tests. (a) Court ordered chemical tests. Notwithstanding the provisions of subdivision two of this section, no person who operates a motor vehicle in this state may refuse to submit to a chemical test of one or more of the following: breath, blood, urine or saliva, for the purpose of determining the alcoholic and/or drug content of the blood when a court order for such chemical test has been issued in accordance with the provisions of this subdivision. (b) When authorized. Upon refusal by any person to submit to a chemical test or any portion thereof as described above, the test shall not be given unless a police officer or a district attorney, as defined in subdivision thirty-two of section 1.20 of the criminal procedure law, requests and obtains a court order to compel a person to submit to a chemical test to determine the alcoholic or drug content of the person's blood upon a finding of reasonable cause to believe that: (1) such person was the operator of a motor vehicle and in the course of such operation a person other than the operator was killed or suffered serious physical injury as defined in section 10.00 of the penal law; and (2) a. either such person operated the vehicle in violation of any subdivision of section eleven hundred ninety-two of this article, or b. a breath test administered by a police officer in accordance with paragraph (b) of subdivision one of this section indicates that alcohol has been consumed by such person; and (3) such person has been placed under lawful arrest; and (4) such person has refused to submit to a chemical test or any portion thereof, requested in accordance with the provisions of paragraph (a) of subdivision two of this section or is unable to give consent to such a test. (c) Reasonable cause; definition. For the purpose of this subdivision "reasonable cause" shall be determined by viewing the totality of circumstances surrounding the incident which, when taken together, indicate that the operator was driving in violation of section eleven hundred ninety-two of this article. Such circumstances may include, but are not limited to: evidence that the operator was operating a motor vehicle in violation of any provision of this article or any other moving violation at the time of the incident; any visible indication of alcohol or drug consumption or impairment by the operator; the existence of an open container containing an alcoholic beverage in or around the vehicle driven by the operator; any other evidence surrounding the circumstances of the incident which indicates that the operator has been operating a motor vehicle while impaired by the consumption of alcohol or drugs or intoxicated at the time of the incident. (d) Court order; procedure. (1) An application for a court order to compel submission to a chemical test or any portion thereof, may be made to any supreme court justice, county court judge or district court judge in the judicial district in which the incident occurred, or if the incident occurred in the city of New York before any supreme court justice or judge of the criminal court of the city of New York. Such application may be communicated by telephone, radio or other means of electronic communication, or in person. (2) The applicant must provide identification by name and title and must state the purpose of the communication. Upon being advised that an application for a court order to compel submission to a chemical test is being made, the court shall place under oath the applicant and any other person

providing information in support of the application as provided in subparagraph three of this paragraph. After being sworn the applicant must state that the person from whom the chemical test was requested was the operator of a motor vehicle and in the course of such operation a person, other than the operator, has been killed or seriously injured and, based upon the totality of circumstances, there is reasonable cause to believe that such person was operating a motor vehicle in violation of any subdivision of section eleven hundred ninety-two of this article and, after being placed under lawful arrest such person refused to submit to a chemical test or any portion thereof, in accordance with the provisions of this section or is unable to give consent to such a test or any portion thereof. The applicant must make specific allegations of fact to support such statement. Any other person properly identified, may present sworn allegations of fact in support of the applicant's statement. (3) Upon being advised that an oral application for a court order to compel a person to submit to a chemical test is being made, a judge or justice shall place under oath the applicant and any other person providing information in support of the application. Such oath or oaths and all of the remaining communication must be recorded, either by means of a voice recording device or verbatim stenographic or verbatim longhand notes. If a voice recording device is used or a stenographic record made, the judge must have the record transcribed, certify to the accuracy of the transcription and file the original record and transcription with the court within seventy-two hours of the issuance of the court order. If the longhand notes are taken, the judge shall subscribe a copy and file it with the court within twenty-four hours of the issuance of the order. (4) If the court is satisfied that the requirements for the issuance of a court order pursuant to the provisions of paragraph (b) of this subdivision have been met, it may grant the application and issue an order requiring the accused to submit to a chemical test to determine the alcoholic and/or drug content of his blood and ordering the withdrawal of a blood sample in accordance with the provisions of paragraph (a) of subdivision four of this section. When a judge or justice determines to issue an order to compel submission to a chemical test based on an oral application, the applicant therefor shall prepare the order in accordance with the instructions of the judge or justice. In all cases the order shall include the name of the issuing judge or justice, the name of the applicant, and the date and time it was issued. It must be signed by the judge or justice if issued in person, or by the applicant if issued orally. (5) Any false statement by an applicant or any other person in support of an application for a court order shall subject such person to the offenses for perjury set forth in article two hundred ten of the penal law. (6) The chief administrator of the courts shall establish a schedule to provide that a sufficient number of judges or justices will be available in each judicial district to hear oral applications for court orders as permitted by this section. (e) Administration of compulsory chemical test. An order issued pursuant to the provisions of this subdivision shall require that a chemical test to determine the alcoholic and/or drug content of the operator's blood must be administered. The provisions of paragraphs (a), (b) and (c) of subdivision four of this section shall be applicable to any chemical test administered pursuant to this section. 4. Testing procedures. (a) Persons authorized to withdraw blood; immunity; testimony. (1) At the request of a police officer, the following persons may withdraw blood for the purpose of determining the alcoholic or drug content therein: (i) a physician, a registered professional nurse, a registered physician assistant, a certified nurse practitioner, or an advanced emergency medical technician as certified by the department of health; or (ii) under the supervision and at the direction of a physician, registered physician assistant or certified nurse practitioner acting within his or her lawful scope of practice, or upon the express consent of the person eighteen years of age or older from whom such blood is to be withdrawn: a clinical laboratory technician or clinical laboratory technologist licensed pursuant to article one hundred sixty-five of the education law; a phlebotomist; or a medical laboratory technician or medical technologist employed by a clinical laboratory approved under title five of article five of the public health law. This limitation shall not apply to the taking of a urine, saliva or breath specimen. (2) No person entitled to withdraw blood pursuant to subparagraph one of this paragraph or hospital employing such person, and no other employer of such person shall be sued or held liable for any act done or omitted in the course of withdrawing blood at the request of a police officer pursuant to this section. (3) Any person who may have a cause of action arising from the withdrawal of blood as aforesaid, for which no personal liability exists under subparagraph two of this paragraph, may maintain such action against the state if any person entitled to withdraw blood pursuant to paragraph (a) hereof acted at the request of a police officer employed by the state, or against the appropriate political subdivision of the state if such person acted at the request of a police officer employed by a political subdivision of the state. No action shall be maintained pursuant to this subparagraph unless notice of claim is duly filed or served in compliance with law. (4) Notwithstanding the foregoing provisions of this paragraph an action may be maintained by the state or a political subdivision thereof against a person entitled to withdraw blood pursuant to subparagraph one of this paragraph or hospital employing such person for whose act or omission the state or the political subdivision has been held liable under this paragraph to recover damages, not exceeding the amount awarded to the claimant, that may have been sustained by the state or the political subdivision by reason of gross negligence or bad faith on the part of such person. (5) The testimony of any person other than a physician, entitled to withdraw blood pursuant to subparagraph one of this paragraph, in respect to any such withdrawal of blood made by such person may be received in evidence with the same weight, force and effect as if such withdrawal of blood were made by a physician. (6) The provisions of subparagraphs two, three and four of this paragraph shall also apply with regard to any person employed by a hospital as security personnel for any act done or omitted in the course of withdrawing blood at the request of a police officer pursuant to a court order in accordance with subdivision three of this section. (b) Right to additional test. The person tested shall be permitted to choose a physician to administer a chemical test in addition to the one administered at the direction of the police officer. (c) Rules and regulations. The department of health shall issue and file rules and regulations approving satisfactory techniques or methods of conducting chemical analyses of a person's blood, urine, breath or saliva and to ascertain the qualifications and competence of individuals to conduct and supervise chemical analyses of a person's blood, urine, breath or saliva. If the analyses were made by an individual possessing a permit issued by the department of health, this shall be presumptive evidence that the examination was properly given. The provisions of this paragraph do not

prohibit the introduction as evidence of an analysis made by an individual other than a person possessing a permit issued by the department of health.

The following effect shall be given to evidence of blood-alcohol content, as determined by such tests, of a person arrested for violation of section eleven hundred ninety-two of this article:(a) Evidence that there was .05 of one per centum or less by weight of alcohol in such person's blood shall be prima facie evidence that the ability of such person to operate a motor vehicle was not impaired by the consumption of alcohol, and that such person was not in an intoxicated condition;(b) Evidence that there was more than .05 of one per centum but less than .07 of one per centum by weight of alcohol in such person's blood shall be prima facie evidence that such person was not in an intoxicated condition, but such evidence shall be relevant evidence, but shall not be given prima facie effect, in determining whether the ability of such person to operate a motor vehicle was impaired by the consumption of alcohol; and(c) Evidence that there was .07 of one per centum or more but less than .08 of one per centum by weight of alcohol in such person's blood shall be prima facie evidence that such person was not in an intoxicated condition, but such evidence shall be given prima facie effect in determining whether the ability of such person to operate a motor vehicle was impaired by the consumption of alcohol.3. Suppression. A defendant who has been compelled to submit to a chemical test pursuant to the provisions of subdivision three of section eleven hundred ninety-four of this article may move for the suppression of such evidence in accordance with article seven hundred ten of the criminal procedure law on the grounds that the order was obtained and the test administered in violation of the provisions of such subdivision or any other applicable law. (a) Evidence that there was .05 of one per centum or less by weight of alcohol in such person's blood shall be prima facie evidence that the ability of such person to operate a motor vehicle was not impaired by the consumption of alcohol, and that such person was not in an intoxicated condition; (b) Evidence that there was more than .05 of one per centum but less than .07 of one per centum by weight of alcohol in such person's blood shall be prima facie evidence that such person was not in an intoxicated condition, but such evidence shall be relevant evidence, but shall not be given prima facie effect, in determining whether the ability of such person to operate a motor vehicle was impaired by the consumption of alcohol; and (c) Evidence that there was .07 of one per centum or more but less than .08 of one per centum by weight of alcohol in such person's blood shall be prima facie evidence that such person was not in an intoxicated condition, but such evidence shall be given prima facie effect in determining whether the ability of such person to operate a motor vehicle was impaired by the consumption of alcohol. 3. 2. Curriculum. The form, content and method of presentation of the various aspects of such program shall be established by the commissioner. In the development of the form, curriculum and content of such program, the commissioner may consult with the commissioner of mental health, the director of the division of alcoholism and alcohol abuse, the director of the division of substance abuse services and any other state department or agency and request and receive assistance from them. The commissioner is also authorized to develop more than one curriculum and course content for such program in order to meet the varying rehabilitative needs of the participants. 3. Where available. A course in such program shall be available in at least every county in the state, except where the commissioner determines that there is not a sufficient number of alcohol or drug-related traffic offenses in a county to mandate the establishment of said course, and that provisions be made for the residents of said county to attend a course in another county where a course exists. 4. Eligibility. Participation in the program shall be limited to those persons convicted of alcohol or drug-related traffic offenses or persons who have been adjudicated youthful offenders for alcohol or drug-related traffic offenses, or persons found to have been operating a motor vehicle after having consumed alcohol in violation of section eleven hundred ninety-two-a of this article, who choose to participate and who satisfy the criteria and meet the requirements for participation as established by this section and the regulations promulgated thereunder; provided, however, in the exercise of discretion, the judge imposing sentence may prohibit the defendant from enrolling in such program. The commissioner or deputy may exercise discretion, to reject any person from participation referred to such program and nothing herein contained shall be construed as creating a right to be included in any course or program established under this section. In addition, no person shall be permitted to take part in such program if, during the five years immediately preceding commission of an alcohol or drug-related traffic offense or a finding of a violation of section eleven hundred ninety-two-a of this article, such person has participated in a program established pursuant to this article or been convicted of a violation of any subdivision of section eleven hundred ninety-two of this article other than a violation committed prior to November first, nineteen hundred eighty-eight, for which such person did not participate in such program. In the exercise of discretion, the commissioner or a deputy shall have the right to expel any participant from the program who fails to satisfy the requirements for participation in such program or who fails to satisfactorily participate in or attend any aspect of such program. Notwithstanding any contrary provisions of this chapter, satisfactory participation in and completion of a course in such program shall result in the termination of any sentence of imprisonment that may have been imposed by reason of a conviction therefor; provided, however, that nothing contained in this section shall delay the commencement of such sentence. 5. Effect of

completion. Except as provided in subparagraph nine of paragraph (b) of subdivision two of section eleven hundred ninety-three or in subparagraph three of paragraph (d) of subdivision two of section eleven hundred ninety-four of this article, upon successful completion of a course in such program as certified by its administrator, a participant may apply to the commissioner on a form provided for that purpose, for the termination of the suspension or revocation order issued as a result of the participant's conviction which caused the participation in such course. In the exercise of discretion, upon receipt of such application, and upon payment of any civil penalties for which the applicant may be liable, the commissioner is authorized to terminate such order or orders and return the participant's license or reinstate the privilege of operating a motor vehicle in this state. However, the commissioner shall not issue any new license nor restore any license where said issuance of restoral is prohibited by subdivision two of section eleven hundred ninety-three of this article. 6. Fees. The commissioner shall establish a schedule of fees to be paid by or on behalf of each participant in the program, and may, from time to time, modify same. Such fees shall defray the ongoing expenses of the program. Provided, however, that pursuant to an agreement with the department a municipality, department thereof, or other agency may conduct a course in such program with all or part of the expense of such course and program being borne by such municipality, department or agency. In no event shall such fee be refundable, either for reasons of the participant's withdrawal or expulsion from such program or otherwise. 7. Conditional license. (a) Notwithstanding any inconsistent provision of this chapter, participants in the program, except those penalized under paragraph (d) of subdivision one of section eleven hundred ninety-three of this article for any violation of subdivision two, three, or four of section eleven hundred ninety-two of this article, may, in the commissioner's discretion, be issued a conditional driver's license, or if the holder of a license issued by another jurisdiction valid for operation in this state, a conditional privilege of operating a motor vehicle in this state. Such a conditional license or privilege shall be valid only for use, by the holder thereof, (1) enroute to and from the holder's place of employment, (2) if the holder's employment requires the operation of a motor vehicle then during the hours thereof, (3) enroute to and from a class or an activity which is an authorized part of the alcohol and drug rehabilitation program and at which his attendance is required, (4) enroute to and from a class or course at an accredited school, college or university or at a state approved institution of vocational or technical training, (5) to or from court ordered probation activities, (6) to and from a motor vehicle office for the transaction of business relating to such license or program, (7) for a three hour consecutive daytime period, chosen by the administrators of the program, on a day during which the participant is not engaged in usual employment or vocation, (8) enroute to and from a medical examination or treatment as part of a necessary medical treatment for such participant or member of the participant's household, as evidenced by a written statement to that effect from a licensed medical practitioner, and (9) enroute to and from a place, including a school, at which a child or children of the holder are cared for on a regular basis and which is necessary for the holder to maintain such holder's employment or enrollment at an accredited school, college or university or at a state approved institution of vocational or technical training. Such license or privilege shall remain in effect during the term of the suspension or revocation of the participant's license or privilege unless earlier revoked by the commissioner.(b) The conditional license or privilege described in paragraph (a) of this subdivision shall be in a form prescribed by the commissioner, and shall have indicated thereon the conditions imposed by such paragraph.(c) Upon receipt of a conditional license issued pursuant to this section, any order issued by a judge, justice or magistrate pursuant to paragraph (c) of subdivision two of section eleven hundred ninety-three of this article shall be surrendered to the department.(d) The commissioner shall require applicants for a conditional license to pay a fee of seventy-five dollars for processing costs. Such fees assessed under this subdivision shall be paid to the commissioner for deposit to the general fund and shall be in addition to any fees established by the commissioner pursuant to subdivision six of this section to defray the costs of the alcohol and drug rehabilitation program.(e) The conditional license or privileges described in this subdivision may be revoked by the commissioner, for sufficient cause including, but not limited to, failure to register in the program, failure to attend or satisfactorily participate in the sessions, conviction of any traffic infraction other than one involving parking, stopping or standing or conviction of any alcohol or drug-related traffic offense, misdemeanor or felony. In addition, the commissioner shall have the right, after a hearing, to revoke the conditional license or privilege upon receiving notification or evidence that the offender is not attempting in good faith to accept rehabilitation. In the event of such revocation, the fee described in subdivision six of this section shall not be refunded.(f) It shall be a traffic infraction for the holder of a conditional license or privilege to operate a motor vehicle upon a public highway for any use other than those authorized pursuant to paragraph (a) of this subdivision. When a person is convicted of this offense, the sentence of the court must be a fine of not less than two hundred dollars nor more than five hundred dollars or a term of imprisonment of not more than fifteen days or both such fine and imprisonment. Additionally, the conditional license or privileges described in this subdivision shall be revoked by the commissioner upon receiving notification from the court that the holder thereof has been convicted of this offense.(g) Notwithstanding anything to the contrary contained in a certificate of relief from disabilities or a certificate of good conduct issued pursuant to article twenty-three of the correction law, any conditional license or privilege issued to a person convicted of a violation of any subdivision of section eleven hundred ninety-two of this article shall not be valid for the operation of any commercial motor vehicle. In addition, no such conditional license or privilege shall be valid for the operation of a taxicab as defined in this chapter.(h) Notwithstanding any inconsistent provision of this chapter, the conditional license described in this subdivision may, pursuant to regulations established by the commissioner, be issued to a person whose license has been suspended pending prosecution pursuant to subparagraph seven of paragraph (e) of subdivision two of section eleven hundred ninety-three of this article. (b) The conditional license or privilege described in paragraph (a) of this subdivision shall be in a form prescribed by the commissioner, and shall have indicated thereon the conditions imposed by such paragraph. (c) Upon receipt of a conditional license issued pursuant to this section, any order issued by a judge, justice or magistrate pursuant to paragraph (c) of subdivision two of section eleven hundred ninety-three of this article shall be surrendered to the department. (d) The commissioner

shall require applicants for a conditional license to pay a fee of seventy-five dollars for processing costs. Such fees assessed under this subdivision shall be paid to the commissioner for deposit to the general fund and shall be in addition to any fees established by the commissioner pursuant to subdivision six of this section to defray the costs of the alcohol and drug rehabilitation program. If an abandoned vehicle, at the time of abandonment, has no number plates affixed and is of a wholesale value, taking into consideration the condition of the vehicle, of one thousand two hundred fifty dollars or less, ownership shall immediately vest in the local authority having jurisdiction thereof and title to the vehicle shall vest in accordance with applicable law and regulations of the commissioner, provided however that a local authority shall not be required to obtain title to an abandoned vehicle that is subject to the provisions of this subdivision if the vehicle will be sold or otherwise disposed of as junk or salvage, dismantled for use other than as a motor vehicle, or otherwise destroyed. 3. (a) Except for vehicles governed by subdivision two, a local authority having custody of an abandoned vehicle shall make an inquiry concerning the last owner of such vehicle as follows: (i) abandoned vehicle with number plates affixed--to the jurisdiction which issued such number plates; (ii) abandoned vehicle with no number plates affixed--the department of motor vehicles. (b) Such local authority shall notify the last owner, if known, that the vehicle in question has been recovered as an abandoned vehicle and that, if unclaimed, it will be sold at public auction or by bid after ten days from the date such notice was given. If the agency described in paragraph (a) also notifies such local authority that a lien or mortgage exists such notice shall also be sent to the lienholder or mortgagee. The commissioner shall prescribe the methods of giving notice. Any person claiming such vehicle shall be required to pay the costs of removal and storage of such vehicle. (c) Ownership of such abandoned vehicles, if unclaimed, shall vest in such local authority ten days from the date such notice is given; or if the last owner cannot be ascertained, when notice of such fact is received. 4. For the purposes of this section, a local authority entitled to custody of an abandoned vehicle shall be the town in which the vehicle was abandoned, or if abandoned in a city or village, the city or village in which the vehicle was abandoned, except that if a vehicle is abandoned on property of the New York state thruway authority or property under the jurisdiction of the office of parks, recreation and historic preservation, the department of transportation, or a public authority or commission, such authority, office, department or commission shall be entitled to the custody of such vehicle. Notwithstanding any provision of this section to the contrary, the office of general services shall be entitled to the custody of any vehicle abandoned on state property subsequent to its sale by such office. The commissioner may, by regulation, provide that a county may act as the agent for a local authority for the purpose of removing and disposing of abandoned vehicles. 5. (a) Such local authority shall determine if an abandoned vehicle is suitable for operation on the public highways. If so, the vehicle shall be sold at public auction to the highest bidder or converted pursuant to subdivision six of this section. (b) If such local authority determines that an abandoned vehicle is not suitable for operation on the public highways, it shall sell the vehicle to a vehicle dismantler or scrap processor registered or certified pursuant to section four hundred fifteen-a of this chapter or to a vehicle dismantler or scrap processor who does not have a place of business in this state but who conforms to the laws and regulations of the state in which he has a place of business. (c) An abandoned vehicle without a vehicle identification number plate must be sold only to a vehicle dismantler or a scrap processor registered or certified pursuant to section four hundred fifteen-a of this chapter or to a vehicle dismantler or scrap processor who does not have a place of business in this state but who conforms to the laws and regulations of the state in which he has a place of business. Nothing contained herein shall be construed as preventing a local authority from applying for a replacement vehicle identification number plate. 6. (a) A local authority, if authorized by local law, may convert to its own use those abandoned vehicles not affected by subdivision two of this section or may, by sale or gift, transfer title to any of such vehicles to any other municipal corporation for use by its law enforcement agency, provided however, the total number of vehicles converted and/or transferred in any calendar year may not exceed one percent of the local authority's unclaimed abandoned vehicles not affected by subdivision two of this section or two such vehicles, whichever is greater. (b) Any proceeds from the sale of an abandoned vehicle less any expenses incurred by such local authority shall be held by the local authority without interest, for the benefit of the owner of such vehicle for a period of one year. If not claimed within such one year period, such proceeds shall be paid into the general fund of such local authority. 7. (a) No person shall cause any vehicle to be an abandoned vehicle. There shall be a rebuttable presumption that the owner of an abandoned vehicle caused such vehicle to be abandoned. A violation of this subdivision shall be punishable by a fine of not less than two hundred fifty dollars nor more than one thousand dollars. In a city having a population of one million or more, a violation of this subdivision shall in addition be punishable by a civil penalty of not less than two hundred fifty dollars nor more than one thousand dollars. (b) Notwithstanding any other provision of law, in addition to those persons otherwise authorized to enforce this subdivision and adjudicate violations thereof, this subdivision shall also be enforceable in a city having a population of one million or more by an agency or agencies designated for such purpose by the mayor of such city, and notices of violation may be returnable to the environmental control board of such city, which shall have the power to impose the civil penalties herein provided. Notwithstanding any other provision of law, service of a notice of violation for a violation of this subdivision committed in such city may be made upon an owner by first class mail, postage prepaid, and any such notice served by mail shall be returnable only to such environmental control board. Such service by first class mail shall be deemed complete upon mailing of the notice of violation, unless the notice of violation is returned to the sender by the United States postal service for any reason other than refusal of delivery. In addition, any notice of violation for a violation of this

subdivision may be served by a means prescribed in article three of the civil practice law and rules or article three of the business corporation law. Notwithstanding any other provision of law, such civil penalties imposed by such environmental control board shall be paid into the general fund of such city. Notwithstanding section one hundred fifty-five of this chapter or any other provision of law, where a person has been adjudicated by such environmental control board to be in violation of this subdivision, such adjudication shall not have the force and effect of a conviction of a traffic infraction or of a violation of any provision of this chapter for any purpose not specified in this subdivision. (c) Any final order issued pursuant to this subdivision by an environmental control board of a city having a population of one million or more shall constitute a judgment which may be entered in any place provided for the entry of civil judgments within the state, and may be enforced without court proceedings in the same manner as the enforcement of money judgments entered in civil actions; provided, however, that no such judgment shall be entered that exceeds the sum of ten thousand dollars for each respondent. Notwithstanding the preceding sentence, before a judgment based upon a default may be so entered, such environmental control board must have notified the respondent by first class mail in such form as such environmental control board may direct: (1) of the default decision and order and the penalty imposed; (2) that a judgment will be entered in any place provided for the entry of civil judgments in the state; and (3) that entry of such judgment may be avoided by requesting a stay of default for good cause shown and either requesting a hearing or entering a plea pursuant to the rules of such environmental control board within thirty days of the mailing of such notice. No judgment based upon a default may be so entered by the environmental control board within less than sixty days from the completion of service by mail of the notice of violation as provided in paragraph (b) of this subdivision. Any requirement of any provision of law other than this subdivision that relates to the manner of service of the notice of violation that precedes any final order of such environmental control board shall not apply to a final order issued pursuant to this subdivision. A judgment entered pursuant to this paragraph shall remain in full force and effect for eight years. (d) Notwithstanding any other provision of this chapter, where the environmental control board of a city having a population of one million or more has adjudicated any person to be in violation of this subdivision and the civil penalty therefor is not paid, such environmental control board shall notify the commissioner of motor vehicles of the judgment, who shall suspend any license of such person to operate a motor vehicle in this state, or, if such person is unlicensed, such person's privilege of obtaining a license issued by the commissioner, or, if such person is a non-resident, such person's privilege of operating a motor vehicle in this state, pending payment of such civil penalty. The procedures set forth in the first paragraph of subdivision seven of section five hundred ten of this chapter shall be applicable to a suspension pursuant to this paragraph. (e) For purposes of this subdivision only, the term "owner" means any person, corporation, partnership, firm, agency, association, lessor or organization who at the time of the issuance of a notice of violation for a violation of this subdivision: (i) is the beneficial or equitable owner of the abandoned vehicle; or (ii) has title to such vehicle; or (iii) is the registrant or co-registrant of such vehicle registered with the department of motor vehicles of this state or any other state, territory, district, province, nation or other jurisdiction; or (iv) uses such vehicle in its renting and/or leasing business; or (v) is an owner of such vehicle as defined by section one hundred twenty-eight of this chapter or subdivision (a) of section twenty-one hundred one of this chapter. 9. The last owner of an abandoned vehicle shall be liable to such local authority for the costs of removal and storage of such vehicle. 10. The commissioner shall prescribe by regulation such forms and procedures necessary or desirable to effectuate the provisions of this section. Such regulations may include procedures for the removal and disposition of vehicle identification numbers of abandoned vehicles and forms for local records for abandoned vehicles and inquiries relating to ownership of such vehicles.

Prohibit or regulate the operation and the stopping, standing or parking of vehicles in cemeteries and in public parks. 8. Notwithstanding any other provision of law, the regulation of TNCs and TNC drivers is governed exclusively by the provisions of the chapter of the laws of two thousand seventeen which added this section and any rules promulgated by the state through its agencies consistent with such chapter. No county, town, city or village may enact a tax or any

fee or other surcharge on a TNC, a TNC driver, or a TNC vehicle used by a TNC driver or require a license, permit, or additional insurance coverage or any other limitations or restrictions, except for a prohibition on pick-up pursuant to section one hundred eighty-two of the general municipal law, for a TNC, a TNC driver, or a TNC vehicle used by a TNC driver, where such fee, surcharge, unauthorized tax, license, permit, insurance coverage, limitation or restriction, relates to facilitating or providing TNC prearranged trips, or subjects a TNC, a TNC driver, or a TNC vehicle used by a TNC driver to operational, or other requirements. 2. 2024 New York LawsVAT - Vehicle and TrafficTitle 8 - Respective Powers of State and Local AuthoritiesArticle 44-C - Central Business District Tolling Program1701 - Legislative Findings and Declaration.

§ 1701. Legislative findings and declaration. The ongoing failures of the tracks, signals, switches, electrical power, and other transportation infrastructure throughout the subway system in the city of New York continue to have a significant deleterious impact on the health, safety, and livelihood of commuters, tourists, resident New Yorkers, as well as business and commerce in the metropolitan commuter transportation district, which is the recognized economic engine of the state of New York, and thereby have adversely affected the economy of the state of New York. Temporary actions have been taken to address the safety of subway, bus and commuter rail riders in the short term including an emergency declaration and increased capital funding for the subways in the most recently adopted state budget. The legislature, however, determines that a long-term and sustainable solution is necessary in order to ensure stable and reliable funding to repair and revitalize this significantly important mass transit asset. The legislature further finds and declares that traffic congestion in the city of New York ranks second worst among cities in the United States and third worst among cities in the world, and results in significant cost to the New York metropolitan area economy and in turn the state's economy at estimates exceeding one hundred billion dollars over the next five years. Travel speeds in the city of New York's central business district have dropped more than seventeen percent in two thousand sixteen to an average of 6.8 miles per hour and in Midtown Manhattan, the most congested area of the city-the area from fifty-ninth street to thirty-fifth street and from ninth avenue to the east river-the average vehicular speed is 4.7 miles per hour. Congestion in these areas is crippling and impacts the everyday lives of residents, commuters, taxi and for-hire vehicle traffic, bus transit and emergency services, and is a significant contributor to decreased air quality. These issues have been recognized by both the Fix NYC Advisory Panel and the Metropolitan Transportation Sustainability Advisory Workgroup as significant impediments to everyday New Yorkers. In order to ensure a safe and efficient mass transit system within the city of New York and to protect the public health and safety of New York's residents, a program to establish tolls for vehicles entering or remaining in the most congested area of the state is found to be necessary and to be a matter of substantial state concern.
