(2) Whenever the price per case, draft package or special package of beer is increased to retail licensees by action of the brewer or beer wholesaler following a price decrease, the brewer or beer wholesaler may not increase its price to retailers on any item or items more than one-half of the price decrease previously granted, nor may the brewer or beer wholesaler selling such item or items to the beer wholesaler increase its price to such beer wholesaler more than one-half of the price decrease previously granted, provided, however, such restrictions on price increases by both brewers and beer wholesalers shall remain in effect for the period of one hundred eighty days. (3) Whenever a brewer or beer wholesaler lowers its price per case, draft package or special package of beer to any beer wholesaler in New York state it must lower its price on each item or items by the same amount to all beer wholesalers throughout New York state to whom such item or items is offered for sale. (4) Whenever a brewer or beer wholesaler, following a price decrease, raises its price per case, draft package or special package of beer to any beer wholesaler in New York state it must raise its price on each item or items by the same amount to all beer wholesalers throughout New York state to whom such item or items are offered for sale. c. Providing that for good cause shown to its satisfaction, the authority may grant waivers to licensees adversely affected by this section, under such terms and conditions as the authority deems appropriate. d. Requiring licensees to file with the authority reports certifying their prices of beer, the dates of any changes in the price of any item of beer, and such other matters as the authority may determine from time to time to be necessary to disclose accurately the price of beer during the previous twelve months and requiring licensees to keep forms, records and memoranda prescribed by the authority. 4. For the purpose of defraying the expenses incurred in the administration of this section, there shall be paid to the authority by each person hereafter applying for a license as brewer or beer wholesaler the following sums: brewer whose annual production is sixty thousand barrels per year or more, one thousand dollars; brewer whose annual production is less than sixty thousand barrels per year, one hundred dollars; beer wholesaler, one hundred dollars. A like sum shall be paid by each person hereafter applying for the issuance or renewal of any such license and such sum shall accompany the application and the license fee prescribed by this chapter for such license or renewal thereof, as the case may be. The sums prescribed by this subdivision shall not be pro-rated for any portion of the license fee and shall have no refund value. 5. For any violation of any provision of this section or of any rule or regulation duly promulgated under this section the authority may revoke, cancel or suspend a license or recover, as provided in section one hundred twelve of this chapter, the penal sum of the bond filed by the licensee.

2. Definitions. As used in this section, the following words shall have the following meanings:(a) "Agreement" means any contract, agreement, arrangement, course of dealing or commercial relationship between a brewer and a beer wholesaler pursuant to which a beer wholesaler is granted the right to purchase, offer for sale, resell, warehouse or physically deliver beer sold by a brewer.(b) "Brewer" means any person or entity engaged primarily in business as a brewer, manufacturer of alcoholic beverages, importer, marketer, broker or agent of any of the foregoing who sells or offers to sell beer to a beer wholesaler in this state or any successor to a brewer.(c) "Successor to a brewer" means any person or entity which acquires the business or beer brands of a brewer, without limitation, by way of the purchase, assignment, transfer, lease, or license or disposition of all or a portion of the assets, business or equity of a brewer in any transaction, including merger, corporate reorganization or consolidation or the formation of a partnership, joint venture or other joint marketing alliance.(d) "Beer wholesaler" and "wholesaler" means the holder of a wholesaler's license pursuant to section fifty-three of this article who purchases, offers to sell, resells, markets, promotes, warehouses or physically distributes beer sold by a brewer.(e) "Good cause" means and shall be limited to:(i) (A) The implementation by a brewer of a national or regional policy of consolidation which is reasonable, nondiscriminatory and essential. Such policy shall have been previously disclosed, in writing, in reasonable detail to the brewer's wholesalers, and shall result in a contemporaneous reduction in the number of a brewer's wholesalers not only for a brand in this state, but also for a brand in contiguous states or in a majority of the states in which the brewer sells the brand. All affected wholesalers and affected brewers shall be afforded ninety days prior notice of the implementation of such policy, and such notice shall be provided by the brewer implementing said policy. Further, an affected wholesaler who has actual knowledge of the intended implementation of such policy shall also notify each affected brewer.

The term "affected brewers" means all other brewers with an agreement with an affected wholesaler who is a multiple brands wholesaler. The term "affected wholesalers" means wholesalers who may reasonably be expected to experience a loss or diminishment of a right to distribute a brand, in whole or in part, as a consequence of a proposed consolidation policy.(B) An affected brewer receiving notice pursuant to this paragraph may, within one hundred twenty days after receiving such notice, terminate an agreement with a multiple brands wholesaler in the event: (1) the total case purchases computed in twenty-four twelve ounce equivalence units by the wholesaler of the products of the affected brewer amounted to two percent or less of the multiple brands wholesaler's total sales volume during the twelve month period preceding the notice; and (2) the affected brewer, prior to such termination, pays compensation to the multiple brands wholesaler.(ii) There is a failure by the beer wholesaler to comply with a material term of an agreement required by subdivision three of this section between the brewer and beer wholesaler, provided that: (A) the wholesaler was given written notice by the brewer of the failure to comply with the agreement as provided for in subdivision five of this section and in which the brewer states with particularity the basis for the brewer's determination of non-compliance, and upon the wholesaler's written request within ten days of receipt of the notice, the brewer has supplemented such notice by submitting to the wholesaler in writing the brewer's recommended plan of corrective action to cure the claimed defaults or deficiencies in a manner satisfactory to it; (B) the wholesaler was afforded a reasonable opportunity to assert good faith efforts to comply with the agreement by curing the claimed defaults or deficiencies specified in said notice within the time provided for in clause (C) of this subparagraph; and (C) the wholesaler was afforded fifteen days after receipt of such notice to submit a written plan of corrective action to comply with the agreement by curing the claimed non-compliance and seventy-five days to cure such non-compliance in accordance with the plan. Provided, however, that such period for cure may be increased or reduced to a commercially reasonable period by an order of a court in this state entered after a hearing at which the brewer has the burden to demonstrate that the claimed defaults or deficiencies can be substantially rectified in the period of time afforded the wholesaler or that, after receipt of notice of default or deficiency as provided for in subdivision five of this section, the wholesaler has intentionally engaged in an affirmative course of conduct in which the brewer's current marketing plans and other trade secrets are disclosed to a third party without the prior consent of the brewer or in which the wholesaler acts or threatens to act to significantly impair, harm or dilute the reputation or competitive position of the brewer or otherwise irreparably injure the brewer, its brands or trademarks. Provided, further however: (1) that such period for cure need not exceed forty-five days if within the twelve months immediately following a cure, the wholesaler intentionally engages in conduct which repeats the same specified default and deficiency which the brewer had deemed cured; and (2) that such period for cure need not exceed sixty days in the event that during the twelve month period preceding the notice, the total case purchases by the wholesaler of the affected products of the brewer account for less than one-half of one percent of the wholesaler's aggregate case purchases from all sources or one thousand cases. For purposes of this subdivision, case purchases of affected products whether package or draught shall be computed in twenty-four twelve ounce equivalence units.(f) "Good faith" means honesty in fact and the observance of reasonable commercial standards in the trade.(g) "Material modification" of an agreement or to "materially modify" means and includes a substantial and significant change in the competitive circumstances under which the agreement was entered into and is performed which is caused by a brewer without fault on the part of the wholesaler.(h) "Multiple brands wholesaler" means a wholesaler which pursuant to agreements with different brewers holds the rights to purchase, resell, warehouse or physically deliver two or more competing products in substantially the same geographic area or to the same customer class.(i) "Fair market value of distribution rights" means the amount a willing seller, under no compulsion to sell, would be willing to accept and a willing buyer, under no compulsion to purchase, would be willing to pay for the distribution rights.3. Written agreement required. Except as provided for in subdivision ten of this section, beer offered for sale in this state by a brewer to a beer wholesaler shall be sold and delivered pursuant to a written agreement which conforms to the provisions of this section and which sets forth all essential and material terms, requirements, standards of performance and conditions of the business relationship between a brewer and a beer wholesaler. Such agreement may be cancelled, terminated, materially modified or not renewed for good cause as defined in this section, provided the brewer has acted in good faith.4. Termination for cause and opportunity to cure. (a) No brewer may cancel, fail to renew, or terminate an agreement unless the party intending such action has good cause for such cancellation, failure to renew, or termination and in any case in which prior notification is required under this section, the party intending to act has furnished said prior notification as provided for in subdivision five of this section and the wholesaler has failed to cure such defaults or deficiencies after a period for cure, as provided for in clause (C) of subparagraph (ii) of paragraph (e) of subdivision two of this section.(b) No brewer shall amend or materially modify or otherwise terminate any essential and material term or requirement of an agreement unless the brewer has good cause therefor and has furnished the affected party with at least fifteen days prior notification as required by subdivision five of this section.(c) Notwithstanding any provision of this subdivision to the contrary:(i) Any brewer with an annual volume as defined in subparagraph (iv) of this paragraph of less than three hundred thousand barrels of beer and whose sales to an affected beer wholesaler are three percent or less of the beer wholesaler's total annual brand sales measured in case equivalent sales of twenty-four--twelve ounce units may terminate an agreement with any beer wholesaler without having good cause for such termination, as defined in paragraph (e) of subdivision two of this section, and shall not be subject to liability to the beer wholesaler under paragraph (b) of subdivision seven of this section provided that, prior to the effective date of the termination, the brewer pays the beer wholesaler the fair market value of the distribution rights which will be lost or diminished by reason of the termination. If such brewer and beer wholesaler cannot mutually agree to the fair market value of the applicable distribution rights lost or diminished by reason of the termination, then the brewer shall pay the beer wholesaler a good faith estimate of the fair market value of the applicable distribution rights.(ii) If the beer wholesaler being terminated under subparagraph (i) of this paragraph disputes that the payment made by the brewer was less than the fair market value of the

distribution rights, then the beer wholesaler may within forty-five days of termination submit the question of fair market value of the applicable distribution rights lost or diminished by reason of the termination to binding arbitration before a panel of three neutral arbitrators appointed in accordance with the commercial arbitration rules of the American Arbitration Association, which panel shall determine by majority decision whether the brewer's payment meets the requirements of subparagraph (i) of this paragraph. If the arbitration panel rules that the payment made by the brewer to the beer wholesaler upon termination was less than the fair market value of distribution rights lost or diminished by reason of the termination, then the brewer must pay the beer wholesaler the difference between the payment made to the beer wholesaler and the determined fair market value plus interest. If the arbitration panel rules that the payment made by the brewer to the beer wholesaler upon termination was more than the fair market value of distribution rights lost or diminished by reason of the termination, then the beer wholesaler must pay the brewer the difference between the payment made to the beer wholesaler and the determined fair market value plus interest. All arbitration fees and expenses shall be equally divided among the parties to the arbitration except if the arbitration panel determines that the brewer's payment upon termination was not a good faith estimate of the fair market value, then the panel may award up to one hundred percent of the arbitration costs to the brewer.(iii) Notwithstanding any provision of this section to the contrary, for purposes of this paragraph, the term "brewer" shall mean any person or entity engaged primarily in business as a brewer or manufacturer of beer.(iv) For the purpose of this paragraph, the term "annual volume" shall mean: (1) the aggregate number of barrels of beer, under trademarks owned by that brewery and brewed, directly or indirectly, by or on behalf of the brewer during the measuring period, on a worldwide basis, plus (2) the aggregate number of barrels of beer brewed, during the measuring period, directly or indirectly, by or on behalf of any person or entity which, at any time during the measuring period, controlled, was controlled by or was under common control with the brewer, on a worldwide basis. Annual volume shall not include beer brewed under contract for any other brewer. There shall be no double counting of the same barrels of beer under clauses one and two of this subparagraph.(v) For the purposes of this paragraph, the term "measuring period" shall mean the twelve month calendar period immediately preceding the date notice of termination, as required under subparagraph (i) of this paragraph, was given by a brewer to the beer wholesaler.5. Notice of default or deficiency. (a) Except as provided in paragraph (d) of this subdivision, no brewer may cancel, fail to renew or terminate an agreement unless the brewer or beer wholesaler furnished prior notification in accordance with paragraph (c) of this subdivision.(b) Notwithstanding any agreement, no brewer or beer wholesaler may materially amend or modify an essential and material term or requirement unless the brewer or beer wholesaler furnished prior notification in accordance with paragraph (c) of this subdivision.(c) The notification required under paragraphs (a) and (b) of this subdivision shall be in writing and sent to the affected party by certified mail. Such notification shall contain:(i) a statement of intent to cancel, not renew, otherwise terminate, materially amend or modify an agreement;(ii) a statement of all reasons therefor, stated with particularity; and(iii) the date on which such action shall take effect.(d) A brewer or beer wholesaler may cancel, fail to renew or otherwise terminate an agreement without furnishing the prior notification required under this section only:(i) in the event the affected party has made an assignment for the benefit of creditors or similar disposition of all or substantially all of the assets of such party's business;(ii) in the event of a conviction or plea of guilty or no contest to a felony which in the reasonable judgment of the brewer may adversely affect the goodwill or interests of the wholesaler or brewer;(iii) in the event of the revocation or suspension for thirty-one days or more of any license or permit required of the wholesaler for the normal operation of its business;(iv) in the event there was fraudulent conduct on the part of the brewer or beer wholesaler in its dealings with the other party;(v) in the event of the failure by either party to pay sums of money to the other party when due or if either the wholesaler or brewer takes any action which would provide grounds for immediate termination pursuant to the reasonable terms of a written enforceable agreement between them, which was freely entered into without threat of termination or other coercion or compulsion and was in full force and effect sixty days from the effective date of the chapter of the laws of nineteen hundred ninety-seven which amended this subparagraph;(vi) in the event the brewer and beer wholesaler voluntarily agree in writing to terminate the agreement.6. Right of action. If a brewer fails to comply with the provisions of this section, a beer wholesaler may maintain a civil action in a court of competent jurisdiction within this state for damages sustained in accordance with the laws of this state which shall govern all disputes arising under an agreement or by reason of its making and performance. In any such action the court may grant such equitable relief as is necessary or appropriate, considering the purposes of this section, to remedy the effects of any failure to comply with the provisions of this section or the effects of conduct prohibited hereunder, including declaratory judgment, mandatory or prohibitive injunctive relief, or preliminary or other interim equitable relief; provided, however, that permanent injunctive relief shall not be granted to prohibit the effectiveness of a termination or non-renewal of an agreement in furtherance of a policy of consolidation that is in compliance with subparagraph (i) of paragraph (e) of subdivision two of this section. In any legal action challenging any cancellation, termination or failure to renew, or where an issue is the brewer's compliance with the provisions of subparagraph (i) of paragraph (e) of subdivision two of this section, the brewer shall have the burden of proof that its action was based upon good cause, provided however, the wholesaler shall retain the burden of proof in all other respects. The rights and remedies provided in this section to a beer wholesaler with respect to an agreement with a brewer and to an affected wholesaler or an affected brewer shall be intended to supplement and not be exclusive of any rights and remedies otherwise available pursuant to any other statute, or at law or equity.7. Reasonable compensation. (a) Any brewer who shall implement a national or regional consolidation policy, pursuant to this section, shall not terminate its relationship with an affected wholesaler until compensation as provided for in this subdivision has been paid. Such brewer shall pay the affected beer wholesaler the fair market value of the distribution rights which will be lost or diminished by reason of the implementation of such policy, together with fair and reasonable compensation for other damages sustained.(b) Every brewer who without good cause amends, cancels, terminates, materially modifies or fails to renew any agreement, or who in

violation of this section causes a beer wholesaler to resign from an agreement or denies or withholds consent to any assignment, transfer or sale of a beer wholesaler's business assets or capital stock or other equity or debt securities, shall pay the affected beer wholesaler the fair market value of the beer wholesaler's business, including distribution rights, which have been lost or diminished as the result of the brewer's actions.(c) In the event that the brewer and the beer wholesaler are unable to agree on the compensation to be paid for the value of the beer wholesaler's business and assets, the matter may with the consent of both the brewer and the beer wholesaler, be submitted to a neutral arbitrator to be selected by the parties; if they cannot agree on such an arbitrator, the same shall be selected by a judge of a court of competent jurisdiction. No brewer or beer wholesaler may impose binding arbitration of any issue as a term or condition of an agreement. Arbitration costs shall be equally divided by the beer wholesaler and the brewer. The award of the arbitrator shall be confirmed by a court of competent jurisdiction in this state, the judgment of which shall be binding.8. Sale and transfer of beer wholesaler's business. No brewer shall unreasonably withhold or delay its approval of any assignment, sale or transfer of all or any portion of beer wholesaler's corporate equity or debt or assets, including the beer wholesaler's rights and obligations under the terms of an agreement, whenever the person or persons to be substituted meet objectively reasonable standards imposed by the brewer. A wholesaler who sells, assigns or transfers an agreement made pursuant to this section shall provide written notice of such sale, assignment or transfer to all other brewers with whom it has entered agreements.9. (a) A brewer qualified to do business in the state of New York may hold an interest in a limited partnership licensed by the authority as a wholesaler, when the brewer or its affiliate is a limited partner and the beer wholesaler is the general partner. Notwithstanding any other provision of law, such brewer may loan money to a general partner of an aforementioned limited partnership. Provided, however, any brewer or its affiliate who holds an interest in a limited partnership licensed by the authority as a wholesaler or who loans money to a general partner of such limited partnership may only exercise such control of the business as permitted by section 121-303 of the partnership law.(b) Notwithstanding subdivision (a) of this subdivision, no brewer or its affiliate may acquire or hold an interest in or loan money to a general partner of a multiple brands wholesaler unless and until all other brewers having agreements with said multiple brands wholesaler have been afforded sixty days prior written notice of the particular terms and conditions of the limited partnership or loan agreement or of any change therein. A "loan" for purposes of this subdivision shall not include bona fide credit terms for product purchases customarily extended by a brewer to wholesalers in the normal course of business.(c) For one hundred twenty days after the formation, licensing and commencement of operations as a beer wholesaler of a limited partnership or the making of a loan, and upon at least fifteen days prior notification as required by subdivision five of this section, a brewer may terminate an agreement with a multiple brands wholesaler in the event: (i) a competing brewer or its affiliate becomes a limited partner with or loans money to a general partner of a multiple brands wholesaler, (ii) by reason of said loan, the performance of a loan agreement, or the terms or conduct of the limited partnership, there is a reasonable likelihood that competition between brands of the competing brewers has been or may be significantly reduced in a relevant geographic area or market, and (iii) in lieu of other rights and remedies it might have under this chapter to terminate for good cause, the terminating brewer pays compensation to the multiple brands wholesaler.10. Coverage. (a) This section shall not apply to written agreements that were in effect prior to the effective date of this section which set forth all terms and conditions of material significance governing the relationship between the brewer and beer wholesaler, including but not limited to the grounds and procedures which govern: (i) termination of the relationship; (ii) approval and disapproval of managers; (iii) change in ownership; and (iv) whether or not the wholesaler is entitled to compensation in the event the wholesaler is terminated for deficient performance under such agreement or without good cause. Provided, however, that this section shall apply to any agreement entered into, and renewals, extensions, amendments or conduct constituting a material modification of an agreement on or after the effective date of this section.(b) Where an agreement between a brewer and beer wholesaler in effect prior to the effective date of this section is continuous in nature or has no specific duration or has no renewal provision and fails to set forth all terms and conditions of material significance governing the relationship between the brewer and beer wholesaler, including but not limited to the grounds and procedures which govern: (i) termination of the relationship; (ii) approval and disapproval of managers; (iii) change in ownership; and (iv) whether or not the wholesaler is entitled to compensation in the event the wholesaler is terminated for deficient performance under such agreement or without good cause; such agreement shall be considered for purposes of this section to have been renewed sixty days after the effective date of this section.11. The requirements of this section may not be altered, waived or modified by written or oral agreement in advance of a bona fide case and controversy arising under a written agreement complying with this section. (a) "Agreement" means any contract, agreement, arrangement, course of dealing or commercial relationship between a brewer and a beer wholesaler pursuant to which a beer wholesaler is granted the right to purchase, offer for sale, resell, warehouse or physically deliver beer sold by a brewer. (b) "Brewer" means any person or entity engaged primarily in business as a brewer, manufacturer of alcoholic beverages, importer, marketer, broker or agent of any of the foregoing who sells or offers to sell beer to a beer wholesaler in this state or any successor to a brewer. (c) "Successor to a brewer" means any person or entity which acquires the business or beer brands of a brewer, without limitation, by way of the purchase, assignment, transfer, lease, or license or disposition of all or a portion of the assets, business or equity of a brewer in any transaction, including merger, corporate reorganization or consolidation or the formation of a partnership, joint venture or other joint marketing alliance. (d) "Beer wholesaler" and "wholesaler" means the holder of a wholesaler's license pursuant to section fifty-three of this article who purchases, offers to sell, resells, markets, promotes, warehouses or physically distributes beer sold by a brewer. (e) "Good cause" means and shall be limited to: (i) (A) The implementation by a brewer of a national or regional policy of consolidation which is reasonable, nondiscriminatory and essential. Such policy shall have been previously disclosed, in writing, in reasonable detail to the brewer's wholesalers, and shall result in a contemporaneous reduction in the number of a brewer's wholesalers not only for a brand in this state, but also for a brand in contiguous states or in a majority of the states in

which the brewer sells the brand. All affected wholesalers and affected brewers shall be afforded ninety days prior notice of the implementation of such policy, and such notice shall be provided by the brewer implementing said policy. Further, an affected wholesaler who has actual knowledge of the intended implementation of such policy shall also notify each affected brewer. The term "affected brewers" means all other brewers with an agreement with an affected wholesaler who is a multiple brands wholesaler. The term "affected wholesalers" means wholesalers who may reasonably be expected to experience a loss or diminishment of a right to distribute a brand, in whole or in part, as a consequence of a proposed consolidation policy. (B) An affected brewer receiving notice pursuant to this paragraph may, within one hundred twenty days after receiving such notice, terminate an agreement with a multiple brands wholesaler in the event: (1) the total case purchases computed in twenty-four twelve ounce equivalence units by the wholesaler of the products of the affected brewer amounted to two percent or less of the multiple brands wholesaler's total sales volume during the twelve month period preceding the notice; and (2) the affected brewer, prior to such termination, pays compensation to the multiple brands wholesaler. (ii) There is a failure by the beer wholesaler to comply with a material term of an agreement required by subdivision three of this section between the brewer and beer wholesaler, provided that: (A) the wholesaler was given written notice by the brewer of the failure to comply with the agreement as provided for in subdivision five of this section and in which the brewer states with particularity the basis for the brewer's determination of non-compliance, and upon the wholesaler's written request within ten days of receipt of the notice, the brewer has supplemented such notice by submitting to the wholesaler in writing the brewer's recommended plan of corrective action to cure the claimed defaults or deficiencies in a manner satisfactory to it; (B) the wholesaler was afforded a reasonable opportunity to assert good faith efforts to comply with the agreement by curing the claimed defaults or deficiencies specified in said notice within the time provided for in clause (C) of this subparagraph; and (C) the wholesaler was afforded fifteen days after receipt of such notice to submit a written plan of corrective action to comply with the agreement by curing the claimed non-compliance and seventy-five days to cure such non-compliance in accordance with the plan. Provided, however, that such period for cure may be increased or reduced to a commercially reasonable period by an order of a court in this state entered after a hearing at which the brewer has the burden to demonstrate that the claimed defaults or deficiencies can be substantially rectified in the period of time afforded the wholesaler or that, after receipt of notice of default or deficiency as provided for in subdivision five of this section, the wholesaler has intentionally engaged in an affirmative course of conduct in which the brewer's current marketing plans and other trade secrets are disclosed to a third party without the prior consent of the brewer or in which the wholesaler acts or threatens to act to significantly impair, harm or dilute the reputation or competitive position of the brewer or otherwise irreparably injure the brewer, its brands or trademarks. Provided, further however: (1) that such period for cure need not exceed forty-five days if within the twelve months immediately following a cure, the wholesaler intentionally engages in conduct which repeats the same specified default and deficiency which the brewer had deemed cured; and (2) that such period for cure need not exceed sixty days in the event that during the twelve month period preceding the notice, the total case purchases by the wholesaler of the affected products of the brewer account for less than one-half of one percent of the wholesaler's aggregate case purchases from all sources or one thousand cases. For purposes of this subdivision, case purchases of affected products whether package or draught shall be computed in twenty-four twelve ounce equivalence units. (f) "Good faith" means honesty in fact and the observance of reasonable commercial standards in the trade. (g) "Material modification" of an agreement or to "materially modify" means and includes a substantial and significant change in the competitive circumstances under which the agreement was entered into and is performed which is caused by a brewer without fault on the part of the wholesaler. (h) "Multiple brands wholesaler" means a wholesaler which pursuant to agreements with different brewers holds the rights to purchase, resell, warehouse or physically deliver two or more competing products in substantially the same geographic area or to the same customer class. (i) "Fair market value of distribution rights" means the amount a willing seller, under no compulsion to sell, would be willing to accept and a willing buyer, under no compulsion to purchase, would be willing to pay for the distribution rights. 3. Written agreement required. Except as provided for in subdivision ten of this section, beer offered for sale in this state by a brewer to a beer wholesaler shall be sold and delivered pursuant to a written agreement which conforms to the provisions of this section and which sets forth all essential and material terms, requirements, standards of performance and conditions of the business relationship between a brewer and a beer wholesaler. Such agreement may be cancelled, terminated, materially modified or not renewed for good cause as defined in this section, provided the brewer has acted in good faith. 4. Termination for cause and opportunity to cure. (a) No brewer may cancel, fail to renew, or terminate an agreement unless the party intending such action has good cause for such cancellation, failure to renew, or termination and in any case in which prior notification is required under this section, the party intending to act has furnished said prior notification as provided for in subdivision five of this section and the wholesaler has failed to cure such defaults or deficiencies after a period for cure, as provided for in clause (C) of subparagraph (ii) of paragraph (e) of subdivision two of this section. (b) No brewer shall amend or materially modify or otherwise terminate any essential and material term or requirement of an agreement unless the brewer has good cause therefor and has furnished the affected party with at least fifteen days prior notification as required by subdivision five of this section. (c) Notwithstanding any provision of this subdivision to the contrary: (i) Any brewer with an annual volume as defined in subparagraph (iv) of this paragraph of less than three hundred thousand barrels of beer and whose sales to an affected beer wholesaler are three percent or less of the beer wholesaler's total annual brand sales measured in case equivalent sales of twenty-four--twelve ounce units may terminate an agreement with any beer wholesaler without having good cause for such termination, as defined in paragraph (e) of subdivision two of this section, and shall not be subject to liability to the beer wholesaler under paragraph (b) of subdivision seven of this section provided that, prior to the effective date of the termination, the brewer pays the beer wholesaler the fair market value of the distribution rights which will be lost or diminished by reason of the termination. If such brewer and beer wholesaler cannot mutually agree to the fair market value of

the applicable distribution rights lost or diminished by reason of the termination, then the brewer shall pay the beer wholesaler a good faith estimate of the fair market value of the applicable distribution rights. (ii) If the beer wholesaler being terminated under subparagraph (i) of this paragraph disputes that the payment made by the brewer was less than the fair market value of the distribution rights, then the beer wholesaler may within forty-five days of termination submit the question of fair market value of the applicable distribution rights lost or diminished by reason of the termination to binding arbitration before a panel of three neutral arbitrators appointed in accordance with the commercial arbitration rules of the American Arbitration Association, which panel shall determine by majority decision whether the brewer's payment meets the requirements of subparagraph (i) of this paragraph. If the arbitration panel rules that the payment made by the brewer to the beer wholesaler upon termination was less than the fair market value of distribution rights lost or diminished by reason of the termination, then the brewer must pay the beer wholesaler the difference between the payment made to the beer wholesaler and the determined fair market value plus interest. If the arbitration panel rules that the payment made by the brewer to the beer wholesaler upon termination was more than the fair market value of distribution rights lost or diminished by reason of the termination, then the beer wholesaler must pay the brewer the difference between the payment made to the beer wholesaler and the determined fair market value plus interest. All arbitration fees and expenses shall be equally divided among the parties to the arbitration except if the arbitration panel determines that the brewer's payment upon termination was not a good faith estimate of the fair market value, then the panel may award up to one hundred percent of the arbitration costs to the brewer. (iii) Notwithstanding any provision of this section to the contrary, for purposes of this paragraph, the term "brewer" shall mean any person or entity engaged primarily in business as a brewer or manufacturer of beer. (iv) For the purpose of this paragraph, the term "annual volume" shall mean: (1) the aggregate number of barrels of beer, under trademarks owned by that brewery and brewed, directly or indirectly, by or on behalf of the brewer during the measuring period, on a worldwide basis, plus (2) the aggregate number of barrels of beer brewed, during the measuring period, directly or indirectly, by or on behalf of any person or entity which, at any time during the measuring period, controlled, was controlled by or was under common control with the brewer, on a worldwide basis. Annual volume shall not include beer brewed under contract for any other brewer. There shall be no double counting of the same barrels of beer under clauses one and two of this subparagraph. (v) For the purposes of this paragraph, the term "measuring period" shall mean the twelve month calendar period immediately preceding the date notice of termination, as required under subparagraph (i) of this paragraph, was given by a brewer to the beer wholesaler. 5. Notice of default or deficiency. (a) Except as provided in paragraph (d) of this subdivision, no brewer may cancel, fail to renew or terminate an agreement unless the brewer or beer wholesaler furnished prior notification in accordance with paragraph (c) of this subdivision. (b) Notwithstanding any agreement, no brewer or beer wholesaler may materially amend or modify an essential and material term or requirement unless the brewer or beer wholesaler furnished prior notification in accordance with paragraph (c) of this subdivision. (c) The notification required under paragraphs (a) and (b) of this subdivision shall be in writing and sent to the affected party by certified mail. Such notification shall contain: (i) a statement of intent to cancel, not renew, otherwise terminate, materially amend or modify an agreement; (ii) a statement of all reasons therefor, stated with particularity; and (iii) the date on which such action shall take effect. (d) A brewer or beer wholesaler may cancel, fail to renew or otherwise terminate an agreement without furnishing the prior notification required under this section only: (i) in the event the affected party has made an assignment for the benefit of creditors or similar disposition of all or substantially all of the assets of such party's business; (ii) in the event of a conviction or plea of guilty or no contest to a felony which in the reasonable judgment of the brewer may adversely affect the goodwill or interests of the wholesaler or brewer; (iii) in the event of the revocation or suspension for thirty-one days or more of any license or permit required of the wholesaler for the normal operation of its business; (iv) in the event there was fraudulent conduct on the part of the brewer or beer wholesaler in its dealings with the other party; (v) in the event of the failure by either party to pay sums of money to the other party when due or if either the wholesaler or brewer takes any action which would provide grounds for immediate termination pursuant to the reasonable terms of a written enforceable agreement between them, which was freely entered into without threat of termination or other coercion or compulsion and was in full force and effect sixty days from the effective date of the chapter of the laws of nineteen hundred ninety-seven which amended this subparagraph; (vi) in the event the brewer and beer wholesaler voluntarily agree in writing to terminate the agreement. 6. Right of action. If a brewer fails to comply with the provisions of this section, a beer wholesaler may maintain a civil action in a court of competent jurisdiction within this state for damages sustained in accordance with the laws of this state which shall govern all disputes arising under an agreement or by reason of its making and performance. In any such action the court may grant such equitable relief as is necessary or appropriate, considering the purposes of this section, to remedy the effects of any failure to comply with the provisions of this section or the effects of conduct prohibited hereunder, including declaratory judgment, mandatory or prohibitive injunctive relief, or preliminary or other interim equitable relief; provided, however, that permanent injunctive relief shall not be granted to prohibit the effectiveness of a termination or non-renewal of an agreement in furtherance of a policy of consolidation that is in compliance with subparagraph (i) of paragraph (e) of subdivision two of this section. In any legal action challenging any cancellation, termination or failure to renew, or where an issue is the brewer's compliance with the provisions of subparagraph (i) of paragraph (e) of subdivision two of this section, the brewer shall have the burden of proof that its action was based upon good cause, provided however, the wholesaler shall retain the burden of proof in all other respects. The rights and remedies provided in this section to a beer wholesaler with respect to an agreement with a brewer and to an affected wholesaler or an affected brewer shall be intended to supplement and not be exclusive of any rights and remedies otherwise available pursuant to any other statute, or at law or equity. 7. Reasonable compensation. (a) Any brewer who shall implement a national or regional consolidation policy, pursuant to this section, shall not terminate its relationship with an affected wholesaler until compensation as provided for in this subdivision has been paid. Such

brewer shall pay the affected beer wholesaler the fair market value of the distribution rights which will be lost or diminished by reason of the implementation of such policy, together with fair and reasonable compensation for other damages sustained. (b) Every brewer who without good cause amends, cancels, terminates, materially modifies or fails to renew any agreement, or who in violation of this section causes a beer wholesaler to resign from an agreement or denies or withholds consent to any assignment, transfer or sale of a beer wholesaler's business assets or capital stock or other equity or debt securities, shall pay the affected beer wholesaler the fair market value of the beer wholesaler's business, including distribution rights, which have been lost or diminished as the result of the brewer's actions. (c) In the event that the brewer and the beer wholesaler are unable to agree on the compensation to be paid for the value of the beer wholesaler's business and assets, the matter may with the consent of both the brewer and the beer wholesaler, be submitted to a neutral arbitrator to be selected by the parties; if they cannot agree on such an arbitrator, the same shall be selected by a judge of a court of competent jurisdiction. No brewer or beer wholesaler may impose binding arbitration of any issue as a term or condition of an agreement. Arbitration costs shall be equally divided by the beer wholesaler and the brewer. The award of the arbitrator shall be confirmed by a court of competent jurisdiction in this state, the judgment of which shall be binding. 8. Sale and transfer of beer wholesaler's business. No brewer shall unreasonably withhold or delay its approval of any assignment, sale or transfer of all or any portion of beer wholesaler's corporate equity or debt or assets, including the beer wholesaler's rights and obligations under the terms of an agreement, whenever the person or persons to be substituted meet objectively reasonable standards imposed by the brewer. A wholesaler who sells, assigns or transfers an agreement made pursuant to this section shall provide written notice of such sale, assignment or transfer to all other brewers with whom it has entered agreements. 9. (a) A brewer qualified to do business in the state of New York may hold an interest in a limited partnership licensed by the authority as a wholesaler, when the brewer or its affiliate is a limited partner and the beer wholesaler is the general partner. Notwithstanding any other provision of law, such brewer may loan money to a general partner of an aforementioned limited partnership. Provided, however, any brewer or its affiliate who holds an interest in a limited partnership licensed by the authority as a wholesaler or who loans money to a general partner of such limited partnership may only exercise such control of the business as permitted by section 121-303 of the partnership law. (b) Notwithstanding subdivision (a) of this subdivision, no brewer or its affiliate may acquire or hold an interest in or loan money to a general partner of a multiple brands wholesaler unless and until all other brewers having agreements with said multiple brands wholesaler have been afforded sixty days prior written notice of the particular terms and conditions of the limited partnership or loan agreement or of any change therein. A "loan" for purposes of this subdivision shall not include bona fide credit terms for product purchases customarily extended by a brewer to wholesalers in the normal course of business. (c) For one hundred twenty days after the formation, licensing and commencement of operations as a beer wholesaler of a limited partnership or the making of a loan, and upon at least fifteen days prior notification as required by subdivision five of this section, a brewer may terminate an agreement with a multiple brands wholesaler in the event: (i) a competing brewer or its affiliate becomes a limited partner with or loans money to a general partner of a multiple brands wholesaler, (ii) by reason of said loan, the performance of a loan agreement, or the terms or conduct of the limited partnership, there is a reasonable likelihood that competition between brands of the competing brewers has been or may be significantly reduced in a relevant geographic area or market, and (iii) in lieu of other rights and remedies it might have under this chapter to terminate for good cause, the terminating brewer pays compensation to the multiple brands wholesaler. 10. Coverage. (a) This section shall not apply to written agreements that were in effect prior to the effective date of this section which set forth all terms and conditions of material significance governing the relationship between the brewer and beer wholesaler, including but not limited to the grounds and procedures which govern: (i) termination of the relationship; (ii) approval and disapproval of managers; (iii) change in ownership; and (iv) whether or not the wholesaler is entitled to compensation in the event the wholesaler is terminated for deficient performance under such agreement or without good cause. Provided, however, that this section shall apply to any agreement entered into, and renewals, extensions, amendments or conduct constituting a material modification of an agreement on or after the effective date of this section. (b) Where an agreement between a brewer and beer wholesaler in effect prior to the effective date of this section is continuous in nature or has no specific duration or has no renewal provision and fails to set forth all terms and conditions of material significance governing the relationship between the brewer and beer wholesaler, including but not limited to the grounds and procedures which govern: (i) termination of the relationship; (ii) approval and disapproval of managers; (iii) change in ownership; and (iv) whether or not the wholesaler is entitled to compensation in the event the wholesaler is terminated for deficient performance under such agreement or without good cause; such agreement shall be considered for purposes of this section to have been renewed sixty days after the effective date of this section. 11. The requirements of this section may not be altered, waived or modified by written or oral agreement in advance of a bona fide case and controversy arising under a written agreement complying with this section.

Each such manufacturer and wholesaler shall, on or before the respective delinquent notice date, give written notice of default, by first class mail, to all such licensees who have failed to make payment to the manufacturer or wholesaler on or before their final payment date for beer or wine products sold or delivered to such licensees during the previous credit period. Any such retail licensee receiving such notice shall not thereafter purchase beer or wine products except for cash until such time as the authority determines that its name shall not be published on the delinquent list as provided in this subdivision, or until such time as the authority permits sales or deliveries to such licensee as provided in subdivision five of this section. Each such manufacturer and wholesaler shall file with the authority, on or before each notification date, copies of the notices sent by it to all delinquent retail licensees, and in addition, if the authority shall so require, a written list setting forth the names and addresses of all such delinquent licensees. The authority, in its discretion, may extend for a period not exceeding three days the date for giving written notice of default to delinquent retail licensees and extend for three days the date for filing with the authority the copies of notices sent to such licensees and/or the written list of delinquent retail licensees. The authority shall, as soon as practicable after each notification date, compile, publish, and furnish each manufacturer and wholesaler licensed under this chapter a delinquent list containing the names and addresses of all retail licensees who have been reported by manufacturers and wholesalers pursuant to the provisions of this section or section one hundred one-aa of this article as having failed to make payment as required by this section or section one hundred one-aa of this article for beer or wine products sold or delivered to them, and no such manufacturer or wholesaler, on or after the fifth day after the receipt of such delinquent list, shall knowingly, wilfully or intentionally sell or deliver any beer or wine products to any such licensee whose name appears on such list, except for cash, until such time as the name of such licensee is removed therefrom, except as otherwise permitted by this section. The receipt of a delinquent list by a manufacturer or wholesaler shall constitute knowledge of the names of the retail licensees who have failed to make payment for beer or wine products as required by this section. The failure of any manufacturer or wholesaler to comply with the provisions of this section may, at the discretion of the authority, subject the license of such manufacturer or wholesaler to suspension for not more than five days for the first offense, and not more than thirty days for a subsequent offense. The authority may publish the delinquent list on its website; provided, however, that access shall be restricted to those manufacturers and wholesalers licensed under this chapter. Such publication shall be considered receipt thereof by all manufacturers and wholesalers.4. In the event that any dispute shall exist between any manufacturer or wholesaler and a retail licensee to whom such manufacturer or wholesaler shall have sold beer or wine products, either as to the fact of payment or as to the amount due for such beer or wine products or as to the quantity of the beer or wine products sold or delivered, which dispute cannot be adjusted between them, the authority is authorized to receive statements from each of the parties to such dispute as to the facts and circumstances thereof and to determine whether or not such retail licensee's name should be published on the delinquent list.5. The authority in the case of a retail licensee who has actually made payment for beer or wine products, or on good cause shown to it, may permit sales or deliveries to any retial licensee who has received notice of default or who is named on any delinquent list, on terms other than for cash, but within the limitations of this section, prior to the publication of the next delinquent list.6. The license of any retail licensee who purchases or accepts delivery of beer or wine products on any terms, other than as provided in this section, may be suspended for not more than five days for the first offense and not more than thirty days for a subsequent offense. The failure of any such retail licensee to pay any amount in default before the expiration of the period of suspension shall be deemed and punishable as a subsequent offense until paid. In addition, the authority may require any such retail licensee, after default in making payment in accordance with the provisions of this section to make payment in cash for beer or wine products subsequently delivered.7. Nothing contained in this section shall be construed to require any manufacturer or wholesaler to extend credit to any retail licensee nor to restrain any manufacturer or wholesaler from seeking to enforce by legal action or otherwise, payment of any

sum or sums of money due or alleged to be due to any such manufacturer or wholesaler for beer or wine products sold or delivered to any such retail licensee.8. There shall be paid to the liquor authority by each person applying after the effective date of this section for any license to sell beer or wine products to retailers or upon the renewal of such license, a sum equivalent to ten per centum of the annual license fee prescribed by this chapter for each such licensee. Such moneys shall be used by the authority to defray the expenses incurred in the administration of this section.9. Notwithstanding the law in effect at the time of the sale, the final payment date for beer and/or wine products sold prior to the effective date of this section for which payment has not been made shall be the first final payment date as determined by the provisions of this section. (1) A period beginning on Thursday, January first, two thousand four and ending on Sunday, January eighteenth, two thousand four; and (2) A period beginning on the first Monday succeeding the concluding day of each prior period and ending on the second succeeding Sunday thereafter. b. "Payment period" means the period ending on the twelfth day immediately following the last day of any credit period. c. "Final payment date" means the last day of a payment period. d. "Delinquent notice date" means the third business day immediately following a final payment date. e. "Notification date" means the day immediately following a delinquent notice date. f. "Retail licensee" means a person licensed pursuant to this chapter who purchases beer and/or wine products for resale for on or off premises consumption, except a person licensed to sell liquor and/or wine for off premises consumption. g. "Cash" means and includes currency and coin of the United States of America, certified check, money order, electronic funds transfer, bank officer's check or draft, or a check drawn on the account of the retail licensee payable to the manufacturer or wholesaler and dated no later than the date of delivery of the alcoholic beverages and which is honored upon presentment for payment; provided, however, that if any check or other instrument described in this paragraph tendered by a retail licensee on the delinquent list is not honored upon presentment for payment, the license of such retail licensee may be suspended for not more than fifteen days for the first offense, and not more than sixty days for a subsequent offense, which penalty shall be in addition to the penalty provided for by the provisions of subdivision six of this section, and provided further, that nothing in this section shall require a manufacturer or wholesaler to accept a check tendered by or drawn on the account of a retail licensee on the delinquent list unless the same has been certified. h. "Business payment card" means: (1) any credit card issued to a retail licensee for business or commercial use pursuant to an agreement that allows the holder thereof to obtain goods and services on the credit of the issuer or a debit card that provides access to a bank account of a retail licensee; (2) a credit or debit card from an issuer accepted by the manufacturer or wholesaler as permitted by the authority in regulation; and (3) such credit card shall not include cards in which a manufacturer or wholesaler has a financial interest or cards by which their use benefits a manufacturer or wholesaler. Such card must be issued in the same name as a retail licensee and registered to the same address as the address on the retail license, or as otherwise permitted by the authority in regulation. i. "Final cash invoice amount" means the amount charged by a manufacturer or wholesaler to a retail licensee pursuant to paragraphs (a) and (b) of subdivision two of this section. j. "Final business payment card invoice amount" means the amount charged by a manufacturer or wholesaler to a retail licensee pursuant to paragraph (c) of subdivision two of this section; and shall equal the final cash invoice amount plus three percent of the final cash invoice amount. The three percent represents the surcharges and fees that are charged to the manufacturer or wholesaler by the business payment card issuer or a person or entity associated with the issuer. 2. No manufacturer or wholesaler licensed under this chapter shall sell or deliver any beer, mead, cider or wine products to any retail licensee except as provided for in this section: (a) for cash to be paid at the time of delivery; (b) on terms requiring payment by such retail licensee for such beer, mead, cider, or wine products on or before the final payment date of any credit period within which delivery is made; or (c) by business payment card; provided that a manufacturer or wholesaler that exercises reasonable diligence to ensure the sale comports with the requirements of this section shall not be found to have violated this subdivision where a retail licensee uses a credit card other than a business payment card. Provided, however, that the sale of wine products, mead, or cider to a retail licensee by a wholesaler licensed under section fifty-eight, sixty-two, or seventy-eight of this chapter, or a licensed manufacturer of liquor, mead or wine or a cider producer's license, shall be governed by the provisions of section one hundred-one-aa of this article. 2-a. A manufacturer or wholesaler that accepts business payment cards shall clearly state the final cash invoice amount and the final business payment card invoice amount on an invoice provided to a retail licensee. Nothing in this section shall preclude, or permit a manufacturer or wholesaler to prevent, a retail licensee that receives such an invoice from electing to use any other form of payment method permitted pursuant to subdivision two of this section following receipt of such invoice. 2-b. Nothing herein contained shall be construed to require any manufacturer or wholesaler to accept business payment cards as a method of payment by any retail licensee, provided that if such payment method is made available it shall be available on equal terms to all retail licensees. 3. Each such manufacturer and wholesaler shall, on or before the respective delinquent notice date, give written notice of default, by first class mail, to all such licensees who have failed to make payment to the manufacturer or wholesaler on or before their final payment date for beer or wine products sold or delivered to such licensees during the previous credit period. Any such retail licensee receiving such notice shall not thereafter purchase beer or wine products except for cash until such time as the authority determines that its name shall not be published on the delinquent list as provided in this subdivision, or until such time as the authority permits sales or deliveries to such licensee as provided in subdivision five of this section. Each such manufacturer and wholesaler shall file with the authority, on or before each notification date, copies of the notices sent by it to all delinquent retail licensees, and in addition, if the authority shall so require, a written list setting forth the names and addresses of all such delinquent licensees. The authority, in its discretion, may extend for a period not exceeding three days the date for giving written notice of default to delinquent retail licensees and extend for three days the date for filing with the authority the copies of notices sent to such licensees and/or the written list of delinquent retail licensees. The authority shall, as soon as practicable after each notification date, compile, publish, and furnish each manufacturer and wholesaler licensed under this chapter a delinquent list

containing the names and addresses of all retail licensees who have been reported by manufacturers and wholesalers pursuant to the provisions of this section or section one hundred one-aa of this article as having failed to make payment as required by this section or section one hundred one-aa of this article for beer or wine products sold or delivered to them, and no such manufacturer or wholesaler, on or after the fifth day after the receipt of such delinquent list, shall knowingly, wilfully or intentionally sell or deliver any beer or wine products to any such licensee whose name appears on such list, except for cash, until such time as the name of such licensee is removed therefrom, except as otherwise permitted by this section. The receipt of a delinquent list by a manufacturer or wholesaler shall constitute knowledge of the names of the retail licensees who have failed to make payment for beer or wine products as required by this section. The failure of any manufacturer or wholesaler to comply with the provisions of this section may, at the discretion of the authority, subject the license of such manufacturer or wholesaler to suspension for not more than five days for the first offense, and not more than thirty days for a subsequent offense. The authority may publish the delinquent list on its website; provided, however, that access shall be restricted to those manufacturers and wholesalers licensed under this chapter. Such publication shall be considered receipt thereof by all manufacturers and wholesalers. 4. In the event that any dispute shall exist between any manufacturer or wholesaler and a retail licensee to whom such manufacturer or wholesaler shall have sold beer or wine products, either as to the fact of payment or as to the amount due for such beer or wine products or as to the quantity of the beer or wine products sold or delivered, which dispute cannot be adjusted between them, the authority is authorized to receive statements from each of the parties to such dispute as to the facts and circumstances thereof and to determine whether or not such retail licensee's name should be published on the delinquent list. 5. The authority in the case of a retail licensee who has actually made payment for beer or wine products, or on good cause shown to it, may permit sales or deliveries to any retial licensee who has received notice of default or who is named on any delinquent list, on terms other than for cash, but within the limitations of this section, prior to the publication of the next delinquent list. 6. The license of any retail licensee who purchases or accepts delivery of beer or wine products on any terms, other than as provided in this section, may be suspended for not more than five days for the first offense and not more than thirty days for a subsequent offense. The failure of any such retail licensee to pay any amount in default before the expiration of the period of suspension shall be deemed and punishable as a subsequent offense until paid. In addition, the authority may require any such retail licensee, after default in making payment in accordance with the provisions of this section to make payment in cash for beer or wine products subsequently delivered. 7. Nothing contained in this section shall be construed to require any manufacturer or wholesaler to extend credit to any retail licensee nor to restrain any manufacturer or wholesaler from seeking to enforce by legal action or otherwise, payment of any sum or sums of money due or alleged to be due to any such manufacturer or wholesaler for beer or wine products sold or delivered to any such retail licensee. 8. There shall be paid to the liquor authority by each person applying after the effective date of this section for any license to sell beer or wine products to retailers or upon the renewal of such license, a sum equivalent to ten per centum of the annual license fee prescribed by this chapter for each such licensee. Such moneys shall be used by the authority to defray the expenses incurred in the administration of this section. 9. Notwithstanding the law in effect at the time of the sale, the final payment date for beer and/or wine products sold prior to the effective date of this section for which payment has not been made shall be the first final payment date as determined by the provisions of this section.

2. It shall be unlawful for any person who sells liquors or wines to wholesalers or retailers(a) to discriminate, directly or indirectly, in price, in discounts for time of payment or in discounts on quantity of merchandise sold, between one wholesaler and another wholesaler, or between one retailer and another retailer purchasing liquor or wine bearing the same brand or trade name and of like age and quality; (b) to grant, directly or indirectly, any discount, rebate, free goods, allowance or other inducement of any kind whatsoever, except a discount or discounts for quantity of liquor or for quantity of wine and a discount not in excess of one per centum for payment on or before ten days from date of shipment.3. (a) No brand of liquor or wine shall be sold to or purchased by a wholesaler, irrespective of the place of sale or delivery, unless a schedule, as provided by this section, is transmitted to and received by the liquor authority, and is then in effect. Such schedule shall be transmitted to the authority in such form, manner, medium and format as the authority may direct; shall be deemed duly verified by the person submitting such schedule upon its transmission to the authority; and shall contain, with respect to each item, the exact brand or trade name, capacity of package, nature of contents, age and proof where stated on the label, the number of bottles contained in each case, the bottle and case price to wholesalers, the net bottle and case price paid by the seller, which prices, in each instance, shall be individual for each item and not in "combination" with any other item, the discounts for quantity, if any, and the discounts for time of payment, if any. Such brand of liquor or wine shall not be sold to wholesalers except at the price and discounts then in effect unless prior written permission of the authority is granted for good cause shown and for reasons not inconsistent with the purpose of this chapter. Such schedule shall be transmitted by (1) the owner of such brand, or (2) a wholesaler selling such brand and who is designated as agent for the purpose of filing such schedule if the owner of the brand is not licensed by the authority, or (3) with the approval of the authority, by a wholesaler, in the event that the owner of the brand is unable to transmit a schedule or designate an agent for such purpose.(b) No brand of liquor or wine shall be sold to or purchased by a retailer unless a schedule, as provided by this section, is transmitted to and received by the liquor authority, and is then in effect. Such schedule shall be transmitted to the authority in such form, manner, medium and format as the authority may direct; shall be deemed duly verified by the person submitting such schedule upon its transmission to the authority; and shall contain, with respect to each item, the exact brand or trade name, capacity of package, nature of contents, age

and proof where stated on the label, the number of bottles contained in each case, the bottle and case price to retailers, the net bottle and case price paid by the seller, which prices, in each instance, shall be individual for each item and not in "combination" with any other item, the discounts for quantity, if any, and the discounts for time of payment, if any. Such brand of liquor or wine shall not be sold to retailers except at the price and discounts then in effect unless prior written permission of the authority is granted for good cause shown and for reasons not inconsistent with the purpose of this chapter. Such schedule shall be transmitted by each manufacturer selling such brand to retailers and by each wholesaler selling such brand to retailers.(c) Provided however, nothing contained in this section shall require any manufacturer or wholesaler to list in any schedule to be filed pursuant to this section any item offered for sale to a retailer under a brand which is owned exclusively by one retailer and sold at retail within the state exclusively by such retailer.(d) The authority may make available the schedules in paragraphs (a) and (b) of this subdivision to all licensed wholesaler or retail establishments by way of controlled internet access.(e) As used in this subdivision the term "item" shall be deemed to include a sealed, pre-wrapped package consisting of a sealed container or containers of liquor, wine or wine products and other merchandise reasonably used in connection with the preparation, storage, promotion, gifting, or service of liquor, wine or wine products provided that such other merchandise shall not be potable or edible; provided however that any such wine, liquor or wine products sealed or pre-wrapped in combination with other items shall also be available individually for sale. For the purposes of this section, gift and promotional items shall only include those items that are complementary and directly associated with the sale of wine or liquor they are gifting or promoting and shall mean: (1) items that are de minimis in value, but in no instance shall merchandise be valued at more than fifteen dollars in total; (2) items that are imprinted with the wine or liquor brand logo on the gift or promotional item; and (3) items that are included as part of a manufactured pre-sealed package with the wine or liquor that is being gifted or promoted. Further, for the purposes of this section, gift or promotional items shall not include any food, non-alcoholic beverage, or other drink or food mix, nor shall these items be offered for sale to the general public as individual items.4. Each such schedule required by paragraph (a) of subdivision three of this section shall be filed on or before the twenty-fifth day of each month and the prices and discounts set forth therein shall become effective on the first day of the second succeeding calendar month and shall be in effect for such second succeeding calendar month. Each such schedule required by paragraph (b) of subdivision three of this section shall be filed on or before the fifth day of each month, and the prices and discounts set forth therein shall become effective on the first day of the calendar month following the filing thereof, and shall be in effect for such calendar month. Within ten days after the filing of such schedule the authority shall make them or a composite thereof available for inspection by licensees. Within three business days after such inspection is provided for, a wholesaler may amend his filed schedule for sales to retailers in order to meet lower competing prices and discounts for liquor or wine of the same brand or trade name, and of like age and quality, filed pursuant to this section by any licensee selling such brand, provided such amended prices are not lower and discounts are not greater than those to be met. Any amended schedule so filed shall become effective on the first day of the calendar month following the filing thereof and shall be in effect for such calendar month. All schedules filed shall be subject to public inspection, from the time that they are required to be made available for inspection by licensees, and shall not be considered confidential. Each manufacturer and wholesaler shall retain in his licensed premises for inspection by licensees a copy of his filed schedules as then in effect. The liquor authority may make such rules as shall be appropriate to carry out the purpose of this section.4-a. No licensee shall refuse to sell any brand of liquor or wine to any licensee authorized to purchase such brand of liquor or wine from such licensee at the price listed in the schedule of prices of such brand of liquor or wine required to be filed by such licensee with the authority pursuant to this section, provided the purchaser pays cash therefor, and except as herein provided.(a) A schedule of prices to wholesalers filed by the brand owner or its agent with the authority, pursuant to this section, may limit the distribution or resale of a brand to wholesalers by the filing by the brand owner or its agent with the authority of the names, addresses and license numbers of such wholesalers. Such list shall be filed each month together with the schedule of prices, and no name shall be added thereto or removed therefrom after filing except with permission of the authority.(b) Only those wholesalers listed, pursuant to paragraph (a) of this subdivision, may schedule the price to retailers for such brand, except that when not inconsistent with the purpose of this section, the authority may authorize any other wholesaler to schedule a price after furnishing the quantity, source of purchase and any other information the authority may require.(c) When distribution or resale of a brand has been restricted, pursuant to paragraph (a) of this subdivision, such brand shall not be sold or purchased by any wholesalers who are not listed in accordance with paragraph (a) of this subdivision.(d) For good cause shown to the satisfaction of the authority, permission may be granted for the filing of schedules limiting the distribution or resale of a brand to retailers.(e) Manufacturers and wholesalers may not require or compel retailers to purchase other brands in order to be able to buy a particular brand.(f) Nothing contained in this subdivision shall be construed as authority for permitting any conduct or activity by any brand owner or its agent or any wholesaler of liquor or wine proscribed by the antitrust laws of this state or the United States.(g) If any provision of any paragraph of this subdivision or any subdivision of this section or the application thereof to any person or circumstance shall be adjudged invalid by a court of competent jurisdiction, such order or judgment shall be confined in its operation to the controversy in which it was rendered and shall not affect or invalidate the remainder of any provision of this subdivision or any subdivision of this section or the application of any part thereof to any other person or circumstance and to this end the provisions of each paragraph of this subdivision and each subdivision of this section are hereby declared to be severable.5. (a) (i) Notwithstanding any other provision of law, each such schedule required by paragraph (a) of subdivision three of this section which is filed by a micro-winery, winery, or farm winery, or a class A, A-1, B, B-1, C, or D distiller shall be filed annually on or before the twenty-fifth day of November. The prices and discounts set forth therein shall become effective on the first day of the second succeeding calendar month and shall remain in effect for such twelve succeeding calendar months, unless a price change filing is made pursuant to

subparagraph (ii) of this paragraph.(ii) A micro-winery, winery, or farm winery, or a class A, A-1, B, B-1, C, or D distiller licensee may file a price schedule change at any time between the required annual filings. Each such price schedule change shall be filed on or before the twenty-fifth day of each month for a change in prices to become effective on the first day of the second succeeding calendar month and shall remain in effect until the effective date of the next filing.(b) (i) Notwithstanding any other provision of law, each such schedule required by paragraph (b) of subdivision three of this section which is filed by a micro-winery, winery, or farm winery licensee, or a class A, A-1, B, B-1, C, or D distiller shall be filed annually on or before the fifth day of December. The prices and discounts set forth therein shall become effective on the first day of the calendar month following the filing thereof, and shall remain in effect for such twelve succeeding calendar months, unless a price change filing is made pursuant to subparagraph (ii) of this paragraph.(ii) A micro-winery, winery, or farm winery, or a class A, A-1, B, B-1, C, or D distiller licensee may file a price schedule change at any time between the required annual filings. Each such price schedule change shall be filed on or before the fifth day of each month for a change in prices to become effective on the first day of the calendar month following the filing thereof and shall remain in effect until the effective date of the next filing.(c) Within ten days after the filing of such schedules the authority shall make them or a composite thereof available for inspection by licensees. Within three business days after such inspection is provided for, a wholesaler may amend his filed schedule for sales to retailers in order to meet lower competing prices and discounts for wine of the same brand or trade name, and of like age and quality, filed pursuant to this section by any licensee selling such brand, provided such amended prices are not lower and discounts are not greater than those to be met. Any amended schedule so filed shall become effective on the first day of the calendar month following the filing thereof and shall be in effect until the effective date of the next filing.(d) All schedules filed shall be subject to public inspection, from the time that they are required to be made available for inspection by licensees, and shall not be considered confidential. Each manufacturer and wholesaler shall retain in his licensed premises for inspection by licensees a copy of his filed schedules as then in effect. The liquor authority may make such rules as shall be appropriate to carry out the purpose of this subdivision.6. For the purpose of raising the moneys necessary to defray the expenses incurred in the administration of this section, on or before the tenth day after this act becomes a law, there shall be paid to the liquor authority by each manufacturer and wholesaler licensed under this chapter to sell to retailers liquors and/or wines, a sum equivalent to fifteen per centum of the annual license fee prescribed by this chapter for each such licensee. A like sum shall be paid by each person hereafter applying for any such license or the renewal of any such license, and such sum shall accompany the application and the license fee prescribed by this chapter for such license or renewal as the case may be. In the event that any other law requires the payment of a fee by any such licensee or applicant as set forth in this section for schedule listing, then and in such event the total fee imposed by this section and such other law or laws on each such licensee shall not exceed in the aggregate a sum equivalent to fifteen per centum of the annual license fee prescribed by this chapter for such license.7. The authority may revoke, cancel or suspend any license issued pursuant to this chapter, and may recover (as provided in section one hundred twelve of this chapter) the penal sum of the bond filed by a licensee, or both, for any sale or purchase in violation of any of the provisions of this section or for making a false statement in any schedule filed pursuant to this section or for failing or refusing in any manner to comply with any of the provisions of this section. (a) to discriminate, directly or indirectly, in price, in discounts for time of payment or in discounts on quantity of merchandise sold, between one wholesaler and another wholesaler, or between one retailer and another retailer purchasing liquor or wine bearing the same brand or trade name and of like age and quality; (b) to grant, directly or indirectly, any discount, rebate, free goods, allowance or other inducement of any kind whatsoever, except a discount or discounts for quantity of liquor or for quantity of wine and a discount not in excess of one per centum for payment on or before ten days from date of shipment. 3. (a) No brand of liquor or wine shall be sold to or purchased by a wholesaler, irrespective of the place of sale or delivery, unless a schedule, as provided by this section, is transmitted to and received by the liquor authority, and is then in effect. Such schedule shall be transmitted to the authority in such form, manner, medium and format as the authority may direct; shall be deemed duly verified by the person submitting such schedule upon its transmission to the authority; and shall contain, with respect to each item, the exact brand or trade name, capacity of package, nature of contents, age and proof where stated on the label, the number of bottles contained in each case, the bottle and case price to wholesalers, the net bottle and case price paid by the seller, which prices, in each instance, shall be individual for each item and not in "combination" with any other item, the discounts for quantity, if any, and the discounts for time of payment, if any. Such brand of liquor or wine shall not be sold to wholesalers except at the price and discounts then in effect unless prior written permission of the authority is granted for good cause shown and for reasons not inconsistent with the purpose of this chapter. Such schedule shall be transmitted by (1) the owner of such brand, or (2) a wholesaler selling such brand and who is designated as agent for the purpose of filing such schedule if the owner of the brand is not licensed by the authority, or (3) with the approval of the authority, by a wholesaler, in the event that the owner of the brand is unable to transmit a schedule or designate an agent for such purpose. (b) No brand of liquor or wine shall be sold to or purchased by a retailer unless a schedule, as provided by this section, is transmitted to and received by the liquor authority, and is then in effect. Such schedule shall be transmitted to the authority in such form, manner, medium and format as the authority may direct; shall be deemed duly verified by the person submitting such schedule upon its transmission to the authority; and shall contain, with respect to each item, the exact brand or trade name, capacity of package, nature of contents, age and proof where stated on the label, the number of bottles contained in each case, the bottle and case price to retailers, the net bottle and case price paid by the seller, which prices, in each instance, shall be individual for each item and not in "combination" with any other item, the discounts for quantity, if any, and the discounts for time of payment, if any. Such brand of liquor or wine shall not be sold to retailers except at the price and discounts then in effect unless prior written permission of the authority is granted for good cause shown and for reasons not inconsistent with the purpose of this chapter. Such schedule shall be transmitted by each manufacturer

selling such brand to retailers and by each wholesaler selling such brand to retailers. (c) Provided however, nothing contained in this section shall require any manufacturer or wholesaler to list in any schedule to be filed pursuant to this section any item offered for sale to a retailer under a brand which is owned exclusively by one retailer and sold at retail within the state exclusively by such retailer. (d) The authority may make available the schedules in paragraphs (a) and (b) of this subdivision to all licensed wholesaler or retail establishments by way of controlled internet access. (e) As used in this subdivision the term "item" shall be deemed to include a sealed, pre-wrapped package consisting of a sealed container or containers of liquor, wine or wine products and other merchandise reasonably used in connection with the preparation, storage, promotion, gifting, or service of liquor, wine or wine products provided that such other merchandise shall not be potable or edible; provided however that any such wine, liquor or wine products sealed or pre-wrapped in combination with other items shall also be available individually for sale. For the purposes of this section, gift and promotional items shall only include those items that are complementary and directly associated with the sale of wine or liquor they are gifting or promoting and shall mean: (1) items that are de minimis in value, but in no instance shall merchandise be valued at more than fifteen dollars in total; (2) items that are imprinted with the wine or liquor brand logo on the gift or promotional item; and (3) items that are included as part of a manufactured pre-sealed package with the wine or liquor that is being gifted or promoted. Further, for the purposes of this section, gift or promotional items shall not include any food, non-alcoholic beverage, or other drink or food mix, nor shall these items be offered for sale to the general public as individual items. 4. Each such schedule required by paragraph (a) of subdivision three of this section shall be filed on or before the twenty-fifth day of each month and the prices and discounts set forth therein shall become effective on the first day of the second succeeding calendar month and shall be in effect for such second succeeding calendar month. Each such schedule required by paragraph (b) of subdivision three of this section shall be filed on or before the fifth day of each month, and the prices and discounts set forth therein shall become effective on the first day of the calendar month following the filing thereof, and shall be in effect for such calendar month. Within ten days after the filing of such schedule the authority shall make them or a composite thereof available for inspection by licensees. Within three business days after such inspection is provided for, a wholesaler may amend his filed schedule for sales to retailers in order to meet lower competing prices and discounts for liquor or wine of the same brand or trade name, and of like age and quality, filed pursuant to this section by any licensee selling such brand, provided such amended prices are not lower and discounts are not greater than those to be met. Any amended schedule so filed shall become effective on the first day of the calendar month following the filing thereof and shall be in effect for such calendar month. All schedules filed shall be subject to public inspection, from the time that they are required to be made available for inspection by licensees, and shall not be considered confidential. Each manufacturer and wholesaler shall retain in his licensed premises for inspection by licensees a copy of his filed schedules as then in effect. The liquor authority may make such rules as shall be appropriate to carry out the purpose of this section. 4-a. No licensee shall refuse to sell any brand of liquor or wine to any licensee authorized to purchase such brand of liquor or wine from such licensee at the price listed in the schedule of prices of such brand of liquor or wine required to be filed by such licensee with the authority pursuant to this section, provided the purchaser pays cash therefor, and except as herein provided. (a) A schedule of prices to wholesalers filed by the brand owner or its agent with the authority, pursuant to this section, may limit the distribution or resale of a brand to wholesalers by the filing by the brand owner or its agent with the authority of the names, addresses and license numbers of such wholesalers. Such list shall be filed each month together with the schedule of prices, and no name shall be added thereto or removed therefrom after filing except with permission of the authority. (b) Only those wholesalers listed, pursuant to paragraph (a) of this subdivision, may schedule the price to retailers for such brand, except that when not inconsistent with the purpose of this section, the authority may authorize any other wholesaler to schedule a price after furnishing the quantity, source of purchase and any other information the authority may require. (c) When distribution or resale of a brand has been restricted, pursuant to paragraph (a) of this subdivision, such brand shall not be sold or purchased by any wholesalers who are not listed in accordance with paragraph (a) of this subdivision. (d) For good cause shown to the satisfaction of the authority, permission may be granted for the filing of schedules limiting the distribution or resale of a brand to retailers. (e) Manufacturers and wholesalers may not require or compel retailers to purchase other brands in order to be able to buy a particular brand. (b) Nonvending seating accommodations shall constitute not less than fifteen percentum of all permanent seating accommodations, in addition to those seating accommodations segregated pursuant to subdivision one of this section, and shall be equally distributed among each separately designated ticket price area. 3. (a) Immediately upon the effective date of this section, each facility operator shall designate not less than ten percentum of all non-season ticket seating as either nonalcohol seating accommodations or nonvending seating accommodations or both, and that such designations shall thereafter remain in effect up to and until the commencement of designations pursuant to paragraph (b) of this subdivision, or designations pursuant to subdivision four of this section. (c) A facility operator may petition the state liquor authority for an exemption from the provisions of subparagraphs (ii) and (iii) of paragraph (b) hereof as they relate to nonalcohol seating if it can be shown that the demand for such seating does not exceed the availability under subparagraph (i) of paragraph (b) hereof. The state liquor authority, in evaluating such petition, shall consider, among other things, the availability of such seating, the promotion of such seating, the method of merchandising tickets for such seating, and the location of such seating sections within the overall seating available in a given facility. In addition, the state liquor authority shall consider any voluntarily instituted alcohol reduction plan which includes, but is not necessarily limited to, the provision of low alcohol beer, the limitation on the number of servings of alcoholic beverages, or limitations on the size of such servings. (d) Nothing in this section shall be construed as prohibiting facility operators from relocating designated nonvending or nonalcohol seating accommodations in each year, provided that each facility maintains the levels of nonalcohol and nonvending seating accommodations provided for in this section. 4. The appointment of special patrolmen pursuant to this section shall not supersede in any way the authority of peace officers or police officers of the jurisdiction within which such facility is located, nor shall any patrolmen be deemed by virtue of such employment an employee of said municipality, or be entitled to any of the benefits arising from such employment, and such special patrolmen may be terminated by the commissioner at any time, without assigning cause therefore. (b) The special patrolmen appointed and approved pursuant to the provisions of this subdivision shall be the sole responsibility of the applying corporate entity, and such entity shall indemnify and defend the municipality for any and all liability arising from the acts or omissions of such officers. (b) For the purposes of this section, "facility operator" shall include the primary tenant of a facility defined in paragraph (a) of this subdivision. In those situations where the entity responsible for operation and management of said facility is other than the primary tenant, the person or persons so responsible shall constitute the "facility operator." If no facility operator pursuant to this section can be ascertained, then the facility owner shall also constitute the facility operator. In any event, the designation of such facility operator shall be included in all plans of compliance filed pursuant to subdivision six of this section. 8. The state liquor authority shall promulgate rules and regulations no later than January first, nineteen hundred eighty-nine, that provide for notification of facility operators of such facilities and sellers of alcoholic beverages at such facilities of the provisions of this section and that provide for the conspicuous posting at such facilities notices informing the public of the provisions of this section, indicating the nonalcohol and nonvending seating accommodations designated pursuant to this section, and the penalty for violating this section, and shall promulgate such other rules and regulations in furtherance of the provisions of this section. 9. The state liquor authority shall report to the governor and legislature no later than February first, nineteen hundred ninety-three on the compliance with the provisions of this section, any and all administrative or enforcement actions taken under the authority vested in it by the provisions of this section and the effectiveness of the provisions of this section in reducing the occurrence of alcohol-related incidents. 10. If any provision of this section shall be held void or unconstitutional, all other provisions and all other sanctions not expressly held to be void or unconstitutional shall continue in full force and effect. 12. (a) Notwithstanding any provision of this section to the contrary, a facility operator may reduce the total number of seats segregated as non-alcohol seating as necessary to assure local television broadcast of a particular sporting event when ninety-nine percent of all other seating is unavailable, so long as the facility operator, prior to the commencement of the sporting season, files with the state liquor authority for a plan of reduction in the consumption of alcoholic beverages that includes: (i) restrictions in those areas that were to be segregated as non-alcohol seating that exceed the limitations on non-vending, but which do not prohibit the consumption of alcohol in toto; (ii) the development of additional security personnel in those areas that were to be segregated as non-alcohol seating, or such other areas in which persons requesting non-alcohol seating are located; and (iii) a plan of marketing, promotion, method of merchandising and location of non-alcoholic seating, and a description of the seats to be declassified as non-alcohol seats. (b) The provisions of this subdivision shall apply only in those instances where a facility is operated with two percent of its seating segregated as non-alcohol seating in accordance with the provisions of this section. (c) In the event that a facility operator invokes the provisions of this subdivision for its intended purposes, the facility operator shall notify the state liquor authority at least three days before the particular sporting event of the utilization of this subdivision, the time period in which the provisions of this subdivision shall be in effect, and certify that such utilization is based on the unavailability of seating in all remaining sections of the facility. * NB Expired Effective July 1, 1993

The licensee shall maintain such general liability coverage during the term of its municipal permit or written authorization to use the contiguous municipal public space or non-contiguous municipal public space; and (g) use of any such contiguous or non-contiguous municipal public space meets all applicable federal, state or local laws, rules, regulations, guidance, conditions or requirements. 2. For the purposes of this section: (a) "non-contiguous municipal public space" shall mean space that: (i) is located in front of, behind, or to the side of the licensed premises; (ii) is within the property boundaries of the licensed premises as extended out; or within the property boundaries of the nearest adjacent properties on either side; (iii) does not extend further than the midline of any public roadway; (iv) is separated from the licensed premises only by one or more of the following: a pedestrian thoroughfare, a thoroughfare primarily restricted to use by bicycles, or a portion of a thoroughfare with such restrictions; and (v) otherwise complies with all applicable federal, state and local requirements. Compliance by the licensee with the provisions of any local law requiring posting of warning signs regarding bicycle lanes enacted on or before the effective date of this section shall be deemed to be in compliance with the provisions of this section. authorization to use such contiguous municipal public space or non-contiguous municipal public space, the licensee shall immediately cease exercising the privilege to sell and/or serve alcoholic beverages at retail for consumption on such municipal public space. The licensee shall then file a new alteration application removing the municipal public space from its licensed premises. The failure to file a new alteration application with the authority within ten business days of the revocation, cancellation, suspension, or other termination by the local municipality of the licensee's authorization to use such contiguous or non-contiguous municipal public space shall be cause for revocation, cancellation, suspension and/or imposition of a civil penalty against the license in accordance with section one hundred eighteen of this article. 5. 2024 New York LawsABC - Alcoholic Beverage ControlArticle 8 - General Provisions113 - Premises for Which No License Shall Be Granted.

2. In determining whether to issue such a license for such two year period, in addition to any other factors deemed relevant, the liquor authority shall, in the case of a license revoked due to the illegal sale of alcohol to a minor, determine whether the proposed subsequent licensee has obtained such premises through an arm's length transaction, and, if such transaction is not found to be an arm's length transaction, the liquor authority shall deny the issuance of such license. 3. The following sales shall be presumed not to be arm's length transactions unless adequate documentation is provided demonstrating that the sale, lease, management agreement, or other agreement giving the applicant control over the food and beverage at the premises, was not conducted, in whole or in part, for the purpose of permitting the original licensee to avoid the effect of the revocation:(a) a sale between relatives;(b) a sale between related companies or partners in a business; or(c) a sale, lease, management agreement, or other agreement giving the applicant control over the food and beverage at the premises, affected by other facts or circumstances that would indicate that the sale, lease, management agreement, or other agreement giving the applicant control over the food and beverage at the premises, is entered into for the primary purpose of permitting the original licensee to avoid the effect of the revocation. Exemption. No registrations shall be required for the following described ATVs: (a) ATVs owned and used by the United States, another state, or a political subdivision thereof, but such ATV shall display the name of the owner on the vehicle thereof. Such application shall be submitted to the department together with old certificate of registration, properly signed by the previous owner, and the required fee of ten dollars. The old certificate of registration, properly signed by the previous owner or other indicia as prescribed by regulation of the commissioner, shall constitute a temporary registration for such new owner for a period determined by the commissioner from the date such ATV was transferred to the new owner. In the event that such ATV was purchased from a registered dealer, the application must be accompanied by the old certificate of registration transferred to the dealer, the required fee, and by any other forms or documents completed and submitted as prescribed by the commissioner. 5. Destruction, theft or removal from state. It shall be the duty of every owner of an ATV registered pursuant to the provisions of this article to notify the department, in writing, of the destruction, theft or permanent removal of such ATV from the state, within fifteen days of acquiring knowledge thereof. No owner of an ATV shall operate or permit the same to be operated anywhere in this state other than on lands of the owner of the ATV without having in full force and effect the liability insurance coverage required by this section, and no person shall operate an ATV anywhere in this state other than on lands of the owner of the ATV with the knowledge that such insurance is not in full force and effect.

The operator of any ATV involved in any accident resulting in injuries to or death of any person or in which property damage in the estimated amount of six hundred dollars or more is sustained, shall immediately notify the nearest law enforcement agency and shall within ten days after such accident report the matter in writing to the department, with a copy thereof to the sheriff or police commissioner of the county in which said accident occurred. If such operator is physically incapable of making such report and there is another participant in the accident not so incapacitated such participant shall make the report within the allotted time after such accident. In the event that there is no other participant and the operator is other than the owner, then the owner shall within the prescribed period of time, after learning of the facts of such accident, report the matter to the department, together with such information as may have come to his knowledge relating to such accident. Every such operator of an ATV, or participant of any such accident, or the owner, of the ATV involved in any such accident, shall make such other and additional reports as the commissioner shall require. 2. Whenever any ATV meets with an accident involving a loss of life, personal injury or damage to property and the operator thereof has knowledge of such accident, he shall stop and give his name and address, the name and address of the owner thereof and the registration number assigned to said ATV to the injured person or the person sustaining the damage, or to a peace or police officer. In the event the person sustaining the damage is not present at the place where the damage occurred, the operator shall, as soon as physically able, report the same to the nearest law enforcement agency. 3. A peace, police, or judicial officer who investigates or receives information of an accident involving an ATV shall make a written report of the investigation or information received, and such additional facts relating to the accident as may come to his knowledge and mail the same within forty-eight hours to the department and keep a record thereof in his office. 4. Failure of any person to report an accident as herein provided or failure to give correctly the information required of him by the commissioner in connection with such report shall be a misdemeanor and shall constitute a ground for suspension or revocation of the ATV safety certificate of any person or the certificate of registration of any ATV involved in the accident. The commissioner may temporarily suspend the ATV safety certificate of the person failing to make such report or the certificate of registration of the ATV involved in the accident until such report has been filed.

Registration number. A registration number once assigned under this section shall remain with the vessel until the vessel is destroyed, abandoned or permanently removed from the state, or until changed or terminated by the commissioner. The filing of such final order shall have the full force and effect of a judgment duly docketed in the office of such clerk and may be enforced in the same manner and with the same effect as that provided by law in respect to executions issued against property upon judgment of a court of record. 4. 2024 New York LawsVAT - Vehicle and TrafficTitle 2 - Department of Motor Vehicles; CommissionerArticle 2-A - Adjudication of Traffic Infractions225 - Jurisdiction; Transfer of Cases; Hearing Officers; Regulations.

§ 225. Jurisdiction; transfer of cases; hearing officers; regulations. 1. Notwithstanding any inconsistent provision of law, all violations of this chapter or of a law, ordinance, order, rule or regulation relating to traffic, except parking, standing, stopping or pedestrian offenses, which occur within a city having a population of one million or more in which administrative tribunals have heretofore, been established, and which are classified as traffic infractions, may be heard and determined pursuant to the regulations of the commissioner as provided in this article. Whenever a crime and a traffic infraction arise out of the same transaction or occurrence, a charge alleging both offenses may be made returnable before the court having jurisdiction over the crime. Nothing herein provided shall be construed to prevent a court, having jurisdiction over a criminal charge relating to traffic or a traffic infraction, from lawfully entering a judgment of conviction, whether or not based on a plea of guilty, for any offense classified as a traffic infraction. 2. Whenever the commissioner or his deputy determines that a charge alleges an offense other than a traffic infraction, he shall, and where a charge cannot be disposed of because of the non-appearance of the motorist, he may notify the court of appropriate jurisdiction and request removal of the case to such court. Prior notice of such request need not be given the motorist involved. Upon receipt of such request, the court may grant an order transferring such case, provided that the date on which the charge or charges must be answered before the court shall not be earlier than the return date which appears on the complaint alleging the offense. Notice of transfer of cases involving other than traffic infractions shall be mailed to the motorist at the address appearing on such complaint not less than ten days before the date of appearance indicated on his summons and not less than fifteen days before his scheduled appearance in such court. Notice of transfer of cases which cannot be disposed of because of the non-appearance of the motorist shall be mailed to the motorist at the address appearing on such complaint not less than fifteen days before his scheduled appearance in such court. Such mailing shall constitute due notice of such transfer. Thereafter, such case shall be treated in the same manner as if the complaint had initially been filed with such court. 3. The commissioner shall appoint such hearing officers as shall be necessary to hear and determine cases as provided by this article and may promulgate such regulations as shall be necessary or desirable to effect the purposes of this article. Such regulations may provide for a schedule of monetary penalties to be used where an answer is made, other than before a hearing officer, admitting a charge, provided that no such penalty shall exceed the maximum fine established by law for the traffic infraction involved.

If a person charged with the violation admits to the violation as charged in the summons, he may complete an appropriate form prescribed by the commissioner and forward such form and summons, together with the appropriate part of his license, if required by the commissioner's regulations, to the office of the department specified on such summons. If a schedule of penalties for violations has been established, and such schedule appears on the answer form, a check or money order in the amount of the penalty for the violation charged if included in such schedule, must also be submitted with such answer. Unless permitted by the regulations of the commissioner, such plea may not be made by mail for any offense for which suspension or revocation of a driver's license is required by law, or for any other offense if the conviction thereof would result in a hearing pursuant to a highway safety program established under the provisions of subdivision three of section five hundred ten of this chapter.(c) Answer by mail - denial of charges. If the person charged with the violation denies part or all of the violation as charged in the summons, he may complete an appropriate form prescribed by the commissioner for that purpose and forward such form and summons to the office of the department specified on such summons. If a person shall fail to appear at a hearing, when such is provided for pursuant to this section, such person's license, or registration or privilege of operating or of operation, as appropriate, may be suspended pending appearance at a subsequent hearing, or the disposition of the charges involved. Any suspension permitted by this subdivision, if already in effect, may be terminated or if not yet in effect, may be withdrawn or withheld, prior to the disposition of the charges involved if such person shall appear and post security in the amount of forty dollars to guarantee his or her appearance at any required hearing. The security posted pursuant to this subdivision shall be returned upon appearance at the scheduled hearing or an adjourned hearing which results in a final disposition of the charge, and otherwise shall be forfeited. If a suspension has been imposed pursuant to this subdivision and the case is subsequently transferred pursuant to subdivision two of section two hundred twenty-five of this article, such suspension shall remain in effect until the person answers the charges in the court to which the case was transferred. Any suspension issued pursuant to this paragraph shall be subject to the provisions of paragraph (j-1) of subdivision two of section five hundred three of this chapter.(b) Failure to answer or appear in accordance with the requirements of this section and any regulations promulgated hereunder shall be deemed an admission to the violation as charged, and an appropriate order may be entered in the department's records, and a fine consistent with the provisions of this chapter and regulations of the commissioner may be imposed by the commissioner or person designated by the commissioner. Prior to entry of an order and imposition of a fine, the commissioner shall notify such person by mail at the address of such person on file with the department or at the current address provided by the United States postal service in accordance with section two hundred fourteen of this title: (i) of the violation charged; (ii) of the impending entry of such order and fine; (iii) that such order and fine may be filed as a judgment with the county clerk of the county in which the operator or registrant is located; and (iv) that entry of such order and imposition of such fine may be avoided by entering a plea or making an appearance within thirty days of the sending of such notice. In no case shall such an order and fine be entered and imposed more than two years after the date of the alleged violation. Upon application in such manner and form as the commissioner shall prescribe an order and fine shall be vacated upon the ground of excusable default. (b) Answer by mail -- admitting charge. If a person charged with the violation admits to the violation as charged in the summons, he may complete an appropriate form prescribed by the commissioner and forward such form and summons, together with the appropriate part of his license, if required by the commissioner's regulations, to the office of the department specified on such summons. If a schedule of penalties for violations has been established, and such schedule appears on the answer form, a check or money order in the amount of the penalty for the violation charged if included in such schedule, must also be submitted with such answer. Unless permitted by the regulations of the commissioner, such plea may not be made by mail for any offense for which suspension or revocation of a driver's license is required by law, or for any other offense if the conviction thereof would result in a hearing pursuant to a highway safety program established under the provisions of subdivision three of section five hundred ten of this chapter. (a) If the person charged with the violation shall fail to answer the summons as provided herein, the commissioner may suspend such person's license or driving privilege or, if the charge involves a violation of section three hundred eighty-five, section four hundred one or section five hundred eleven-a of this chapter by a registrant who was not the operator of the vehicle, the registration of such vehicle or the privilege of operation of any motor vehicle owned by such registrant may be suspended, until such person shall answer as provided in subdivision two of this section, or has

paid or has entered into an installment payment plan to pay the fine associated with a conviction entered as a result of the failure to appear in response to such summons, or the defendant has been acquitted of the charge that led to the suspension or such charge was otherwise dismissed. If a person shall fail to appear at a hearing, when such is provided for pursuant to this section, such person's license, or registration or privilege of operating or of operation, as appropriate, may be suspended pending appearance at a subsequent hearing, or the disposition of the charges involved. Any suspension permitted by this subdivision, if already in effect, may be terminated or if not yet in effect, may be withdrawn or withheld, prior to the disposition of the charges involved if such person shall appear and post security in the amount of forty dollars to guarantee his or her appearance at any required hearing. The security posted pursuant to this subdivision shall be returned upon appearance at the scheduled hearing or an adjourned hearing which results in a final disposition of the charge, and otherwise shall be forfeited. § 227. Hearings; determinations. 1. Every hearing for the adjudication of a traffic infraction, as provided by this article, shall be held before a hearing officer appointed by the commissioner. The burden of proof shall be upon the people, and no charge may be established except by clear and convincing evidence. The commissioner may prescribe, by rule or regulation, the procedures for the conduct of such hearings. 2. In any case wherein the people are not ready for the hearing on the scheduled hearing date, the hearing officer may order a dismissal of the charge or the adjournment of the hearing to a subsequent time. In any case wherein the people are not ready for the hearing at an ordered adjourned time and do not provide a minimum of seven days' notice to the department after having been not ready for a hearing on the charge for any reason previously, the charge shall be dismissed unless the hearing officer determines that a substantial traffic safety hazard would result from the dismissal. The commissioner shall promulgate regulations concerning the adjournment of hearings which may permit the dismissal of cases by a hearing officer for reasons not prescribed herein. 3. After due consideration of the evidence and arguments offered in a contested case, the hearing officer shall determine whether the charges have been established. Where the charges have not been established, an order dismissing the charges shall be entered. Where a determination is made that a charge has been established, either in a contested case or in an uncontested case where there is an appearance before a hearing officer, or if an answer admitting the charge otherwise has been received, an appropriate order shall be entered in the department's records. 4. a. An order entered upon the failure to answer or appear or after the receipt of an answer admitting the charge or where a determination is made that the charge has been established shall be civil in nature, but shall be treated as a conviction for the purposes of this chapter. The commissioner or his designee may include in such order an imposition of any penalty authorized by any provision of this chapter for a conviction of such violation, except that no penalty therefore shall include imprisonment, nor, if monetary, exceed the amount of the fine which could have been imposed had the charge been heard by a court. If the charge involves a violation of section three hundred eighty-five of this chapter, the driver's license or privileges may be suspended pending the payment of any penalty so imposed, or, if the charge involves a violation of section three hundred eighty-five of this chapter by a registrant who was not the operator of the vehicle, the registration of such vehicle or privilege of operation of any motor vehicle owned by such registrant may be suspended pending the payment of any penalty so imposed. Any suspension issued pursuant to this paragraph shall be subject to the provisions of paragraph (j-1) of subdivision two of section five hundred three of this chapter. b. Unpaid fines may be recovered by the commissioner in a civil action in the name of the commissioner. In addition, as an alternative to such civil action, and provided that no appeal is pending, the commissioner may file with the county clerk of the county in which the person resides a final order of the commissioner containing the amount of the fine or fines. The filing of such final order shall have the full force and effect of a judgment duly docketed in the office of such clerk and may be enforced in the same manner and with the same effect as that provided by law in respect to execution issued against property upon judgments of a court of record. No such civil action shall be commenced nor shall such final order be filed until at least thirty days after the department has posted by ordinary mail to the person at the address of such person on file with the department or at the current address provided by the United States postal service notice of the amount of such fine or fines and that such fine or fines are due and owing. * 5. All penalties and forfeited security collected pursuant to the provisions of this article shall be paid to the department of audit and control to the credit of the justice court fund and shall be subject to the

applicable provisions of section eighteen hundred three of this chapter. After such audit as shall reasonably be required by the comptroller, such penalties and forfeited security shall be paid quarterly or, in the discretion of the comptroller, monthly, to the appropriate jurisdiction in which the violation occurred in accordance with the provisions of section ninety-nine-a of the state finance law, except that the sum of four dollars for each violation occurring in such jurisdiction for which a complaint has been filed with the administrative tribunal established pursuant to this article shall be retained by the state. Notwithstanding any law to the contrary an additional annual sum of three million dollars collected from fines and assessed to the city of New York, shall be deposited into the general fund. Provided, however, that if the full costs of administering this article shall exceed the amounts received and retained by the state for any period specified by the commissioner, then such additional sums as shall be required to offset such costs shall be retained by the state out of the penalties and forfeited security collected pursuant to this article. * NB Effective until April 1, 2019 * 5. All penalties and forfeited security collected pursuant to the provisions of this article shall be paid to the department of audit and control to the credit of the justice court fund and shall be subject to the applicable provisions of section eighteen hundred three of this chapter. After such audit as shall reasonably be required by the comptroller, such penalties and forfeited security shall be paid quarterly or, in the discretion of the comptroller, monthly, to the appropriate jurisdiction in which the violation occurred in accordance with the provisions of section ninety-nine-a of the state finance law, except that the sum of four dollars for each violation occurring in such jurisdiction for which a complaint has been filed with the administrative tribunal established pursuant to this article shall be retained by the state. Provided, however, that if the full costs of administering this article shall exceed the amounts received and retained by the state for any period specified by the commissioner, then such additional sums as shall be required to offset such costs shall be retained by the state out of the penalties and forfeited security collected pursuant to this article. * NB Effective April 1, 2019 6. Unless a hearing officer shall determine that a substantial traffic safety hazard would result therefrom, he shall, pursuant to the regulations of the commissioner, delay for a period of thirty days the effective date of any suspension or revocation of a drivers license or vehicle registration imposed after a hearing pursuant to this article, unless such suspension was imposed because of the failure to pay a monetary penalty. Provided, however, the commissioner's regulations may provide for the immediate surrender of any item to be suspended or revoked and the issuance of appropriate temporary documentation to be used during such thirty day period.

Whenever such notice is so affixed, in lieu of inserting the name of the person charged with the violation in the space provided for the identification of said person, the words "owner of the vehicle bearing license" may be inserted to be followed by the plate designation and plate type as shown by the registration plates of said vehicle together with the expiration date; the make or model, and body type of said vehicle; a description of the charged violation, including but not limited to a reference to the applicable traffic rule or provision of this chapter; information as to the days and hours the applicable rule or provision of this chapter is in effect unless always in effect pursuant to rule or this chapter and where appropriate the word ALL when the days and/or hours in effect are every day and/or twenty-four hours a day; the meter number for a meter violation where appropriate; and the date, time and particular place of occurrence of the charged violation. Such notice shall fix a time when and place where a hearing shall be held before a hearing examiner to determine whether or not dismissal of a charged parking violation shall be set aside. 2024 New York LawsVAT - Vehicle and TrafficTitle 2 - Department of Motor Vehicles; CommissionerArticle 3 - Exemption of Non-Resident Owners and Operators250 - Exemption of Non-Resident Owners and Operators.

A person, firm, association or corporation having a place of business in a foreign country, state, territory or federal district and owning a motor vehicle, motorcycle or trailer used in connection with and garaged at such place of business which such owner is compelled to register in such foreign jurisdiction shall be deemed a resident of such foreign jurisdiction and a non-resident of this state within the meaning of this subdivision for the purpose of enjoying the privileges of this subdivision with respect to such vehicle. In case a non-resident becomes a resident of this state, he shall be entitled for a period not exceeding thirty days from the date he becomes a resident to the same exemption from registering his vehicles in this state as he would have enjoyed had he remained a non-resident. 2. A person of the age of sixteen years and upwards who shall be a nonresident of this state, and a resident of a state, territory, federal district or foreign country having laws, with which such person has complied, which require such person, in order to operate a motor vehicle or motorcycle therein, to be licensed, may operate or drive a motor vehicle or motorcycle on the public highways of this state without being so licensed under this chapter, provided, however, that the recognition granted under this subdivision shall, with respect to a person under the age of eighteen years, only permit the operation of a motor vehicle or motorcycle in this state in accordance with the same restrictions imposed upon New York residents operating or driving motor vehicles or motorcycles with class DJ or MJ licenses under subdivision three of section five hundred one of this chapter. A nonresident entitled to operate a motor vehicle or motorcycle as herein provided who shall become a resident of this state may operate or drive a motor vehicle or motorcycle on the public highways of this state for a period not exceeding thirty days from the date he becomes a resident pending the obtaining of a license to operate such motor vehicle or motorcycle in this state. The exemption granted in this subdivision shall not apply to persons whose privilege of operating a motor vehicle in this state, or whose former license to drive in this state, has been suspended or revoked, until such suspension or revocation has been terminated or privilege of operating a motor vehicle restored. 3. (a) The exemptions provided in subdivisions one and four of this section shall not apply to a motor vehicle, motorcycle or trailer, other than a semitrailer drawn by a tractor registered in this state which is operated on any public highway of this state to transport persons or property for hire or profit from one point in this state to another point in this state or which is operated in doing any work performed under a contract for a public improvement to which the state, a municipal corporation, a school district or a commission appointed pursuant to law is a party, except to transport machinery, tools or other plant equipment to be used in the performance of such a contract; provided, however, that the mere makeup or breakup of a tandem trailer combination on the New York state thruway shall not, with respect to the tractor hauling such tandem trailer combination, constitute, in and of itself, a point in this state for the purpose of determining whether there has been a transportation of property for hire or profit from one point in this state to another point in this state; provided, further, however, that the transportation by any tractor not registered in the state of New York of a trailer carrying property for profit, placed thereon within this state and consigned for delivery herein, shall be prohibited.(b) The commissioner may, in his discretion, waive the provisions of this subdivision with respect to any motor vehicle, motorcycle, trailer or semitrailer, duly registered in another state, territory, federal district or foreign country, provided that the owner thereof has registered annually in this state a number of vehicles equal to or in excess of the average number of vehicles said owner will have available annually in this state for hire or operation therein. The commissioner is hereby authorized and empowered to adopt and amend rules and regulations to effectuate the provisions of this paragraph. Such regulations may include a requirement that the owner file annually and at such time and in such manner as shall be prescribed by the commissioner, a sworn statement including, but not limited to the following information: (1) the owner's total number of motor vehicles, motorcycles, trailers and/or semitrailers registered in Canada and the United States; (2) the owner's total annual registration of such vehicles in this state; and (3) the total number of such vehicles which are rented, leased or used in this state for the preceding twelve month period or in the absence of any past experience, the total anticipated number of such vehicles that will be rented, leased or used in this state. Nothing herein contained shall be construed as requiring the granting of the waiver authorized by this paragraph.(c) The provisions of paragraph (a) of this subdivision, insofar as they require display of number plates

issued by the commissioner, shall not apply to any motor vehicle, other than a bus, which is duly registered in another state and displays registration and number plates as required by that state, which registration and number plates permit the transportation of persons for-hire within that state, provided the registrant has been issued a registration for such motor vehicle by the commissioner, has paid the appropriate annual fee as provided in schedule C of subdivision seven of section four hundred one of this chapter and displays proof of such registration on such vehicle in accordance with regulations promulgated by the commissioner. Notwithstanding any other provision of this chapter, the commissioner need not issue number plates to the registrant when issuing a registration intended to secure the authorization for operation within this state as provided by this paragraph.4. a. The provisions of this chapter relative to the registration of motor vehicles, motorcycles and trailers and the display of registration numbers shall not apply to a motor vehicle, motorcycle or trailer owned by a non-resident of the state who is a seasonal farm laborer, for a period extending from the first day of April to and including the thirtieth day of November in each year, provided that the owner thereof shall have complied with the provisions of the law of the foreign country, state, territory or federal district of his residence relative to registration of such motor vehicle, motorcycle or trailer, as the case may be, and the display of registration numbers thereof, and provided further that the owner thereof shall furnish proof to the commissioner that such owner has in effect with respect to such motor vehicle an automobile liability policy issued by an insurance company authorized to do business in this state or by an unauthorized insurer authorized to transact business in the jurisdiction of his residence in at least the amount of twenty-five thousand dollars because of bodily injury to or fifty thousand dollars because of death of one person in any one accident and, subject to said limit for one person, in at least the amount of fifty thousand dollars because of bodily injury to or one hundred thousand dollars because of death of two or more persons in any accident, and in at least the amount of ten thousand dollars because of injury to or destruction of property of others in any one accident.b. However, all said motor vehicles, motorcycles and trailers shall be subject to the provisions of article five of this chapter in the same manner as if they are registered in this state.d. A non-resident of the state who is a seasonal farm laborer shall be entitled to a period not exceeding thirty days from the date of his entrance into the state within which to file proof of financial security and pay the fee required and secure the certificate authorized in paragraph b of subdivision four of this section, provided, however, that the limitations contained in subdivision three of this section shall be applicable until such time as the certificate authorized in paragraph b of this subdivision is obtained.5. Where such non-resident has died prior to the commencement of an action brought pursuant to this section, service of process shall be made on the executor or administrator of such non-resident in the same manner and on the same notice as is provided in the case of the non-resident himself. Where an action has been duly commenced under the provisions of this section against a non-resident who dies thereafter, the court must allow the action to be continued against his executor or administrator upon motion with such notice as the court deems proper. 2. A summons in an action described in this section may issue in any court in the state having jurisdiction of the subject matter and be served as hereinafter provided. Service of such summons shall be made by mailing a copy thereof to the secretary of state at his office in the city of Albany, or by personally delivering a copy thereof to one of his regularly established offices, with a fee of ten dollars, and such service shall be sufficient service upon such non-resident provided that notice of such service and a copy of the summons and complaint are forthwith sent by or on behalf of the plaintiff to the defendant by certified mail or registered mail with return receipt requested. Where the summons is mailed to a foreign country, other official proof of the delivery of the mail may be filed in case the post-office department is unable to obtain such a return receipt. The foregoing papers shall be filed within thirty days after the return receipt or other official proof of delivery or the original envelope bearing a notation of refusal, as the case may be, is received by the plaintiff. Service of process shall be complete when such papers are filed. The return receipt or other official proof of delivery shall constitute presumptive evidence that the summons mailed was received by the defendant or a person qualified to receive his certified mail or registered mail; and the notation of refusal shall constitute presumptive evidence that the refusal was by the defendant or his agent. Service of such summons also may be made by mailing a copy thereof to the secretary of state at his office in the city of Albany, or by personally delivering a copy thereof to one of his regularly established offices, with a fee of ten dollars, and by delivering a duplicate copy thereof with the complaint annexed thereto, to the defendant personally without the state by a resident or citizen of the state of New York or a sheriff, under-sheriff, deputy-sheriff or constable of the county or other political subdivision in which the personal service is made, or an officer authorized by the laws of this state, to take acknowledgements of deeds to be recorded in this state, or an attorney and/or counselor at law, solicitor, advocate or barrister duly qualified to practice in the state or country where such service is made, or by a United States marshall or deputy United States marshall. A B-train assembly shall be excluded from the measurement of the length of a semitrailer when such semitrailer is in use between the tractor and the second semitrailer in a tractor-semitrailer-semitrailer combination of vehicles.(c) The length of buses having a carrying capacity of more than seven passengers shall not exceed forty-five feet, except that the length of articulated buses shall not exceed sixty-two feet. A house coach shall not exceed forty-five feet in length, provided however, that if a house coach exceeds forty feet in length, its wall-to-wall turning diameter shall not exceed ninety feet three inches and moreover, such house coach shall have permanently affixed to its body on the front passenger side door jamb, a data-plate on which the house coach manufacturer indicates the vehicle identification number and wall-to-wall turning diameter and attests to the fact that the wall-to-wall turning diameter is calculated in accordance with the Society of Automotive Engineers J-695 Standard as such standard existed on June first, two thousand three, regarding turning capability. In the event such a house coach exceeds either twenty-six thousand pounds gross vehicle weight rating, is greater than forty feet in length or exceeds both, the operator of such house coach must have a driver's license with a personal use vehicle endorsement as set forth in subparagraph (vii) of paragraph (b) of subdivision two of section five hundred one of the this chapter. This provision shall not apply to any city not wholly included within one county except such house coaches and fifth wheel trailers used for non-commercial purposes may be operated on that portion of interstate ninety-five which connects interstate two hundred eighty-seven with interstate two hundred ninety-five, that portion of interstate two hundred ninety-five which connects interstate ninety-five with interstate four hundred ninety-five and that portion of interstate four hundred ninety-five between interstate ninety-five and the Nassau-Queens county line.(d) The provisions of this subdivision shall not apply to fire vehicles.(e) Except in any city not wholly included within one county, any semitrailer with a length in excess of forty-eight feet, but not exceeding fifty-three feet, may be operated on any qualifying highway or specifically designated access highway if the distance between the kingpin of the semitrailer and the centerline of the rear axle does not exceed forty-three feet and if the semitrailer is equipped with a rear-end protective device of substantial construction consisting of a continuous lateral beam extending to within four inches of the lateral extremities of the semitrailer and located not more than twenty-two inches from the surface as measured with the vehicle empty and on a level surface. In addition, such vehicles may be operated on that portion of interstate ninety-five which connects interstate two hundred eighty-seven with interstate two hundred ninety-five, that portion of interstate two hundred ninety-five which connects interstate ninety-five with interstate four hundred ninety-five and that portion of interstate four hundred ninety-five between interstate ninety-five and the Nassau-Queens county line.(f) The length of any center panel of an altered livery shall not exceed one hundred inches unless the owner of such vehicle can demonstrate that the livery conforms to all applicable federal and state motor vehicle safety standards at the time of registration in accordance with section four hundred one of this chapter.(g) The length of a specialized material delivery vehicle, inclusive of load and bumpers, shall not be more than forty feet provided, however, that the portion of an attached boom or forklift that extends beyond the rear bumper by not more than five feet shall be excluded from the measurement of the length of a specialized material delivery vehicle. For the purposes of this paragraph, "specialized material delivery vehicle" shall mean a single unit truck having an attached boom or forklift for the purpose of hoisting, swinging, loading or unloading material from such truck. The provisions of this paragraph authorizing the exclusion from the measurement of the length of a specialized material delivery vehicle shall not apply unless the operator of such vehicle holds a valid commercial driver's license as defined by subdivision one of section five hundred one-a of this chapter.* NB There are 2 par (g)'s* (g) The length of a tow truck or car carrier, inclusive of load and bumpers, shall be not more than forty feet, except that a car carrier may have an overhang that extends beyond the rear bumper of such car carrier by not more than three feet and except, further, that a wheel lift that is less than fifteen feet in length shall not be included as part of the length of a tow truck or car carrier when such wheel lift is in use by such tow truck or car carrier to tow another motor vehicle.* NB There are 2 par (g)'s(h) The commissioner of motor vehicles in consultation with the commissioner of transportation may promulgate such rules and regulations as shall be necessary or desirable to effectuate the provisions of this subdivision.4. A combination of vehicles being operated on any qualifying highway or access highway;2. Vehicles of a corporation which is subject to the jurisdiction of the interstate commerce commission, the public service commission or other regulatory body and which are used in the construction, reconstruction, repair or maintenance of its property or facilities, provided that any such vehicle complies with the safety requirements of the laws and regulations of the United States and of this state pertaining to overlength vehicles;3. Vehicles hauling poles, girders, columns, or other similar objects of great length provided that any such vehicle complies with the safety requirements of the laws and regulations of the United States and of this state pertaining to such overlength vehicles;4. Fire vehicles;5. A vehicle or combination of vehicles which is disabled and unable to proceed under its own power and is being towed for a distance not in excess of ten miles

for the purpose of repairs or removal from the highway, except that the distance to the nearest exit of a controlled-access highway shall not be considered in determining such ten mile distance;6. Stinger-steered automobile transporters or stinger-steered boat transporters, while operating on qualifying and access highways. Stinger-steered boat transporters shall not, however, exceed seventy-five feet exclusive of an overhang of not more than three feet on the front and four feet on the rear of the vehicle and stinger-steered automobile transporters shall not exceed eighty feet exclusive of an overhang of not more than four feet on the front and six feet on the rear of the vehicle; and7. A combination of vehicles operating on any qualifying or access highways consisting of a power unit and two trailers or semitrailers with a total weight that shall not exceed twenty-six thousand pounds when the overall length is greater than sixty-five feet but shall not exceed eighty-two feet in which the trailers or semitrailers carry no property and constitute inventory property of a manufacturer, distributor, or dealer of such trailers or semitrailers.(c) Notwithstanding the provisions of paragraph (a) of this subdivision, an overhang of not more than three feet on the front and four feet on the rear of an automobile transporter or an overhang of not more than four feet on the front and six feet on the rear of a stinger-steered automobile transporter or an overhang of not more than three feet on the front and four feet on the rear of a boat transporter or stinger-steered boat transporter shall be permitted.5. In determining the number of wheels and axles on any vehicle or combination of vehicles within the meaning of this section, only two wheels shall be counted for each axle, and axles which are less than forty-six inches apart, from center to center, shall be counted as one axle. However, in the case of multiple tires or multiple wheels, the sum of the widths of all the tires on a wheel or combination of wheels shall be taken in determining tire width.6. The weight per inch width of tire on any one wheel of a single vehicle or a combination of vehicles equipped with pneumatic tires, when loaded, shall be not more than eight hundred pounds.7. The weight on any one wheel of a single vehicle or a combination of vehicles, equipped with pneumatic tires, when loaded, shall be not more than eleven thousand two hundred pounds.8. The weight on any one axle of a single vehicle or a combination of vehicles, equipped with pneumatic tires, when loaded, shall be not more than twenty-two thousand four hundred pounds.9. The weight on any two consecutive axles of a single vehicle or a combination of vehicles, equipped with pneumatic tires, when loaded, and when such axles are spaced less than eight feet from center to center, shall be not more than thirty-six thousand pounds, except where axles are spaced eight feet or greater, but less than ten feet, the weight on those two axles shall not exceed that permitted by paragraph (b) of subdivision ten of this section and, in addition, shall not exceed forty thousand pounds. Axles to be counted as provided in subdivision five of this section.10. A single vehicle or a combination of vehicles having three axles or more and equipped with pneumatic tires, when loaded, may have a total weight on all axles not to exceed thirty-four thousand pounds, plus one thousand pounds for each foot and major fraction of a foot of the distance from the center of the foremost axle to the center of the rearmost axle. Axles to be counted as provided in subdivision five of this section. In no case, however, shall the total weight exceed eighty thousand pounds except for a vehicle if operated by an engine fueled primarily by natural gas which may have a maximum gross weight of up to eighty-two thousand pounds. For any vehicle or combination of vehicles having a total gross weight less than seventy-one thousand pounds, the higher of the following shall apply:(a) the total weight on all axles shall not exceed thirty-four thousand pounds plus one thousand pounds for each foot and major fraction of a foot of the distance from the center of the foremost axle to the center of the rearmost axle, or(b) the overall gross weight on a group of two or more consecutive axles shall not exceed the weight produced by application of the following formula:W = 500 ((LxN)/(N-1) + (12xN)+36) where W equals overall gross weight on any group of two or more consecutive axles to the nearest five hundred pounds, L equals distance in feet from the center of the foremost axle to the center of the rearmost axle of any group of two or more consecutive axles, and N equals number of axles in group under consideration, except that two consecutive sets of tandem axles may carry a gross load of thirty-four thousand pounds each providing the overall distance between the first and last axles of such consecutive sets of tandem axles is thirty-six feet or more.For any vehicle or combination of vehicles having a total gross weight of seventy-one thousand pounds or greater, paragraph (b) shall apply to determine maximum gross weight which is permitted hereunder.10-a. (a) Notwithstanding the provisions of subdivisions seven, eight, nine, ten, eleven and twelve of this section, the calculation of weight pursuant to such subdivisions shall exclude the actual weight, not to exceed four hundred pounds, of a fully-functioning idle reduction device installed on a vehicle or combination of vehicles that are subject to such subdivisions, provided that the operator of such vehicle: (i) maintains written certification of the actual weight of such device and acceptable proof that it is fully functional; and (ii) provides such certification and proof, upon request, to a law enforcement officer or any other officer or employee authorized to enforce this section. Acceptable proof of the functionality of such device shall consist of written certification from the manufacturer of such idle reduction device, physical demonstration, or any other documentation acceptable to the commissioner of transportation as may be set forth in regulations promulgated by such commissioner after consultation with the commissioner of environmental conservation.(b) For the purposes of this subdivision, the following terms shall have the following meanings: (i) "auxiliary power unit" shall mean an integrated system that (A) provides heat, air conditioning, engine warming, or electricity to components on a vehicle which is subject to the provisions of this section and (B) is certified under part eighty-nine of title forty of the code of federal regulations (as may from time to time be amended) as meeting applicable emission standards; and (ii) "idle reduction device" shall mean an auxiliary power unit or other technology that is used to reduce long-duration idling (as such term is defined in paragraph seven of subdivision (a) of section 16104 of the United States code as may from time to time be amended) and allows for the main drive engine or auxiliary refrigeration engine to be shut down.11. Notwithstanding the provisions of this section, vehicles equipped with solid rubber tires and registered in this state prior to January first, nineteen hundred thirty-two shall be permitted to operate until January first, nineteen hundred thirty-three under tire and axle loadings prescribed by chapter four hundred ninety-eight of the laws of nineteen hundred thirty.12. Motor vehicles or vehicles

drawn by motor vehicles when equipped with metal tires shall not have weights more than forty per centum of those permitted in this section for pneumatic tires.13. For the purpose of this section, the width of pneumatic tires shall be ascertained by measuring the greatest width of the tire casing when tire is inflated. The width of solid rubber tires shall be ascertained by measuring the width of the tire base channel or between the flanges of the metal rim, provided that no vehicle equipped with solid rubber tires shall be operated upon a public highway, which has at any point less than one inch of rubber above the top or beyond the flange or rim. The width of metal tires shall be ascertained by measuring the width of contact of the tire with the road surface.14. No person shall operate or move a vehicle or a combination of vehicles over, on or through any bridge or structure on any highway if the weight of such vehicle, or combination of vehicles, and load, is greater than the posted capacity of the structure or exceeds the height of the posted clearance as shown by an official sign.15. Except where inconsistent with federal law, rules and regulations: (a) The commissioner of transportation is hereby authorized to continue to grant permits, and to charge fees therefor, for the operation or movement of a vehicle or combination of vehicles having weights or dimensions which exceed the limitations provided for in this section upon any highway under his or her jurisdiction except that such permit shall not be valid for the operation or movement of such vehicles on any state or other highway within any city not wholly included within one county. Such permits shall be issued in accordance with the terms and conditions contained in rules and regulations governing special hauling permits which have been or shall be promulgated by the commissioner of transportation and which may include, but not be limited to, a requirement that a vehicle or combination of vehicles being issued a permit shall be accompanied by one or more escort vehicles which is being operated by an individual having a valid escort certificate issued by the commissioner. The commissioner of transportation is authorized to promulgate rules and regulations governing the operation, use and equipment of escort vehicles and the duties and responsibilities of the operator of an escort vehicle. Any finding by the commissioner of transportation that an individual has violated such rules and regulations shall be grounds for the cancellation of an individual's escort certificate and a penalty not to exceed five hundred dollars per occurrence for the first violation and not to exceed one thousand dollars per occurrence for each subsequent violation. Prior to issuing such a finding, the commissioner of transportation shall afford an individual the right to a hearing pursuant to section one hundred forty-five of the transportation law. Such rules and regulations shall take into consideration, but shall not be limited to, the safety of the traveling public and the protection of the highways and the environment. Such rules and regulations shall also contain a schedule of fees to be charged for the issuance of such permits which fees shall cover, but shall not be limited to, the costs to the department of transportation for the administration of the permit program, and shall permit the commissioner of transportation to levy a surcharge of up to twenty dollars for the issuance and distribution of special hauling permits at regional offices of the department of transportation. The annual vehicle fee for a permit issued pursuant to subparagraphs (i), (ii), (ii-a) and (iii) of paragraph (f) of this subdivision shall be three hundred sixty dollars for vehicles with less than five axles, seven hundred fifty dollars for vehicles with five or six axles and nine hundred dollars for vehicles with seven or more axles. The annual vehicle fee for a permit issued pursuant to subparagraphs (iv), (v), and (vi) of paragraph (f) of this subdivision shall be four hundred eighty dollars for vehicles with less than five axles and one thousand dollars for vehicles with five or more axles. Additionally, the commissioner shall establish a fee schedule for the permitting of extra non-power combination units that may not exceed twenty-five dollars per vehicle and may offer discounts for multi-trailer registrations. Such fees shall not be charged to municipalities in this state. A permit issued by the commissioner to a municipality pursuant to this subdivision, that would otherwise be annual, shall not expire until such municipality removes such permitted vehicle from operation; provided, however, that any amendment to such permit shall remain subject to the commissioner's approval and nothing contained in this paragraph shall be deemed to alter the authority of the commissioner to revoke any such permit as authorized by this chapter. If the permit has routing requirements, such rules and regulations shall provide that if the routing anticipates the use of highways not under the jurisdiction of the commissioner of transportation, then he or she shall immediately notify the municipality or municipalities, having jurisdiction over such highway that an application for a permit has been received and request comment thereon. Said municipality or municipalities shall not have less than fifteen days to comment. Such rules and regulations shall also contain any other requirements deemed necessary by the commissioner of transportation.(b) Upon application in writing and good cause being shown, the department of transportation may issue a permit pursuant to this subdivision to operate or move a vehicle or a combination of vehicles, the weights or the dimensions of which exceed the limitations provided for in this section upon any highway under its jurisdiction except that such permit shall not be valid for the operation or movement of such vehicles on any state or other highway within any city not wholly included within one county. For any other public highway in any county not wholly included within a city which is not on the state system of highways the authority having jurisdiction over same may issue a similar permit, provided that the fee charged for such permit shall not exceed ten dollars.(c) Upon application in writing and good cause being shown, the city department of transportation of a city not wholly included within one county may issue a permit pursuant to this subdivision to operate or move a vehicle or a combination of vehicles the weights or the dimensions of which exceed the limitations provided for in the rules and regulations of the city department of transportation of such city upon all highways within such city including highways which are on the state system of highways. Such rules and regulations shall also contain any other requirements deemed necessary by the city commissioner of transportation.(d) Except during storms, floods, fires or other public emergencies, no such permit may be issued to include a towing operation involving more than two vehicles except three vehicle combinations consisting of a tractor, semitrailer and trailer or a tractor and two trailers within legal weight and width limits proceeding to or from any qualifying highway or access highway. Every such permit may designate the route to be traversed and contain any other restrictions

or conditions deemed necessary by the issuing authority. Every such permit shall be carried on the vehicle to which it refers and shall be open to the inspection of any peace officer, acting pursuant to his special duties, or police officer, or any other officer or employee authorized to enforce this section. All permits issued shall be revocable by the authority issuing them at the discretion of the authority without a hearing or the necessity of showing cause. Except for a vehicle having a maximum gross weight not exceeding eighty thousand pounds without regard to any axle weight limitation set forth herein or the maximum gross weight established by the formula commonly referred to as the bridge formula as set forth in subdivision ten of this section and except for state or municipally-owned single vehicles engaged in snow and ice control operations, or designed or fitted for snow and ice control operations while engaged in other public works operations on public highways which do not exceed the weight limits contained in subdivision seventeen-a of this section, no permit shall be issued to allow operation or movement of any vehicle or combination of vehicles whose weight exceeds the limitations otherwise prescribed in this section other than an annual permit issued pursuant to paragraph (f) of this subdivision except upon a finding by the department of transportation or the appropriate authority, as the case may be, that the load proposed is of one piece or item or otherwise cannot be separated into units of less weight provided, however, that any such permit issued upon such finding shall not be valid for the operation or movement of such vehicles on any state or other highway within any city not wholly included within one county. Bulk milk may be considered one piece or item.(e) The department of transportation or the issuing authority, as the case may be, shall establish criteria by rule or regulation under which any vehicle, combination of vehicles, or specified cargoes in specified circumstances or specified sites, routing or projects may be considered one piece or item for the purpose of a permit under this subdivision.(f) The department of transportation, or other issuing authority, may issue an annual permit for a vehicle designed and constructed to carry loads that are not of one piece or item, which is registered in this state. The provisions of section five hundred ten of this chapter shall apply to such suspension, except as otherwise provided herein.(f) If the vehicle is the subject of a permit issued pursuant to paragraph (f) of subdivision fifteen of this section and if the registered owner of a vehicle fails to appear on the return date or subsequent adjourned date of a summons, appearance ticket or notice of violation issued pursuant to this subdivision or fails to pay a fine imposed pursuant to this subdivision, the registration of

the vehicle or the privilege of operating the vehicle in this state shall be suspended for a period not to exceed one year. The suspension shall remain in effect until the registered owner's appearance or payment of the fine. The commissioner or the commissioner's agent may deny a registration application of any other person for the same vehicle where the commissioner has reasonable grounds to believe that such registration will have the effect of defeating the purpose of this paragraph.20. Notwithstanding the provisions of sections three hundred eighty-five, sixteen hundred thirty, sixteen hundred thirty-one, sixteen hundred forty, sixteen hundred forty-two, sixteen hundred fifty and sixteen hundred sixty of this chapter, nor of any other law, statute, ordinance, rule or regulation, the state, a city, county, town, village, public authority, including the port of New York and New Jersey authority, or commission, or any department, agency, subdivision or other entity thereof, shall not enact nor enforce any law, statute, ordinance, rule or regulation with respect to vehicle dimensions or weights which shall violate any of the provisions of the federal surface transportation assistance act of nineteen hundred eighty-two. Any such law, statute, ordinance, rule or regulation which results in a notification of an imminent loss or withholding of federal highway aid to the state shall to the degree inconsistent hereafter be deemed null and void and shall not be enforced.20-a. If a vehicle or combination of vehicles is operated in violation of this section, an appearance ticket or summons may be issued to the registrant of the vehicle, or if a combination of vehicles, to the registrant of the hauling vehicle rather than the operator. In the event the vehicle is operated by a person other than the registrant, any appearance ticket or summons issued to the registrant shall be served upon the operator, who shall be deemed the agent of the registrant for the purpose of receiving such appearance ticket or summons. Such operator-agent shall transmit such ticket or summons to the registrant of the vehicle or the hauling vehicle. If the registrant does not appear on the return date, a notice establishing a new return date and either containing all pertinent information relating to the charge which is contained on the summons or appearance ticket or accompanied by a copy of the information or complaint shall also be mailed by certified or registered mail by or on behalf of the court or administrative tribunal before whom the appearance ticket or summons is returnable to the registrant at the address given on the registration certificate for the vehicle, or if no registration certificate is produced at the time the appearance ticket or summons is issued, to the address of the registrant on file with the department or given to the person issuing the appearance ticket or summons. Whenever proceedings in a court or administrative tribunal of this state result in a conviction for a violation of this section, and the court or administrative tribunal has made the mailing specified herein, the court or administrative tribunal shall levy a mandatory surcharge, in addition to any sentence or other surcharge required or permitted by law, in the amount of thirty dollars. This mandatory surcharge shall be paid to the clerk of the court or administrative tribunal that rendered the conviction. Within the first ten days of the month following collection of the mandatory surcharge by a town or village court, the court shall pay such money to the state comptroller who shall, pursuant to subdivision two of section ninety-nine-a of the state finance law, credit such money to the account of the town or village which sent the mandatory surcharge. If such collecting authority is any other court of the unified system or administrative tribunal it shall, within such period, pay such money to the state comptroller who shall deposit such money into the state treasury. The provisions of this subdivision shall not apply to owner-operators of any motor vehicle or to any motor vehicle or trailer which is registered in the name of a person whose principal business is the lease or rental of motor vehicles or trailers unless the motor vehicle or trailer is being operated by an employee of the registrant or for a community of interest other than the lease or rental agreement between the parties to the lease or rental agreement.21. The court may impose any sentence authorized by this chapter provided, however, any such sentence must include a fine as provided in this section.22. In any case wherein the charge laid before the court alleges a violation of this section, any plea of guilty thereafter entered in satisfaction of such charge must include at least a plea of guilty to a violation of one of the subdivisions of this section. No other disposition by plea of guilty to any other charge in satisfaction of such charge shall be authorized. Provided, however, if the district attorney upon reviewing the available evidence determines that the charge of a violation of this section is not warranted, or suspension of registration is not, under the circumstances, appropriate he may consent, and the court may allow, a disposition by plea of guilty to that or another charge in satisfaction of such charge and, may waive suspension of registration as required by this section, provided, however, the court must impose at least the minimum fine as authorized in this section for the offense of conviction.23. Except on highways designated as part of the interstate system, the provisions of subdivisions six, seven, eight, nine, ten, eleven and twelve of this section shall not apply to any fire vehicle, as such term is defined in section one hundred fifteen-a of this chapter.24. The provisions of subdivisions six, seven, eight, nine, ten, eleven and twelve of this section shall not apply to any tow truck that is transporting a disabled vehicle from the place where such vehicle became disabled to the nearest appropriate repair facility and has a gross vehicle weight that is equal to or exceeds the gross vehicle weight of the disabled vehicle being transported. (ii) If the legislative body of a county not wholly contained within a city determines that any specific segment of the state highway system is not capable of safely accommodating motor vehicles with a width of one hundred two inches, plus safety devices, such body may notify the commissioner of transportation of such determination and request that the commissioner designate such segment as one where the width of motor vehicles may not exceed ninety-six inches, plus safety devices. Before making such notification, such county legislative body shall consult with units of local government within the county in which the specific segment of such system is located, as well as the county legislative body of any county adjacent to the requesting county that might be directly affected by such exemption. As part of such consultations, consideration shall be given to any potential alternative route that: (A) can safely accommodate motor vehicles having the widths set forth in this paragraph; and (B) serves the area in which such segment is located. The county legislative body shall transmit with such notification specific evidence of safety problems that supports such determination and the results of consultations regarding any alternative route. If the commissioner of transportation determines, upon request by a county legislative body or on the commissioner's own initiative, that any segment of the state highway system is not capable of safely accommodating motor vehicles having the widths set forth in this paragraph, the

commissioner shall exempt such segment from the provisions of this paragraph. (b) The provisions of paragraph (a) of this subdivision shall not apply to vehicles and implements or combinations thereof, not over twelve feet in width and used solely for farm purposes, except upon any highway at any time on which operation is prohibited by order of the department of transportation. (c) The provisions of paragraph (a) of this subdivision shall not apply to vehicles and implements or combinations thereof, between twelve and up to seventeen feet in width, used solely for farm purposes when the following requirements are met: (i) the vehicle and implement or combination thereof is operated during the period from one-half hour before sunrise to one-half hour after sunset; (ii) red or orange fluorescent flags not smaller than eighteen inches square, and reflectors are placed on the extreme corners of the load; (iii) two flashing amber lights in compliance with regulations prescribed by the commissioner of transportation are attached to the rear of the load or, if the vehicle hauling such implement is equipped with hazard lights which are visible from the rear of the load, such lights are flashing; and (iv) if the vehicle or load extends beyond the center line of a highway or if the vehicle is being operated during any time when, due to rain, sleet, snow, hail, fog, insufficient light, or for any other reason, visibility for a distance of one thousand feet ahead is not clear, the vehicle is preceded by an escort vehicle which is equipped with a warning sign and flashing lights in compliance with regulations prescribed by the commissioner of transportation. (d) The provisions of paragraph (a) of this subdivision shall not apply to vehicles and implements or combinations thereof, not over thirteen feet in width and designed and intended for use solely for farm purposes when owned or in the possession of a dealer in farm implements and equipment, during the same period and under the same conditions and restrictions as set forth in paragraph (b) of this subdivision; nor shall paragraph (a) of this subdivision apply to the transportation of such vehicles, implements and combinations thereof as a load on another vehicle, such vehicle and load not to exceed thirteen feet in width, during the same period and under the same conditions and restrictions as set forth in paragraph (b) of this subdivision. (e) The provisions of paragraph (a) of this subdivision shall not apply to omnibuses or buses used solely for the transportation of children to and from school, but the width of such omnibuses shall not exceed ninety-eight inches. (f) Notwithstanding the provisions of paragraph (a) of this subdivision, the maximum width for omnibuses or buses having a carrying capacity of more than seven passengers shall not exceed one hundred two inches, provided, however, that when omnibuses or buses are operated wholly within a city, such city may, by local law or ordinance but subject to paragraph (h) of this subdivision, limit the width of omnibuses or buses to not more than ninety-eight inches. (g) Notwithstanding the provisions of paragraph (a) of this subdivision, racks for carrying hay, straw or unthreshed grain may have a width of ten feet at the top of the rack. In no case shall the width at the base of the rack exceed one hundred two inches, nor shall the width of a rack exceed one hundred two inches at any portion thereof while on any qualifying highway. (h) Notwithstanding the provisions of paragraph (a) of this subdivision, a house coach used for non-commercial purposes may exceed the maximum width applicable on the highway upon which such house coach is traveling if such excess width is wholly attributable to an awning and its support hardware that is no less than seven and one-half feet off the ground and extends no more than six inches beyond the body of the vehicle on the passenger side and four inches beyond the body of the vehicle on the driver's side. A fifth wheel trailer designed to provide temporary living quarters for recreational, camping, or travel use not to exceed four hundred square feet in the set-up mode and used for non-commercial purposes may exceed the maximum width applicable on the highway upon which such fifth wheel trailer is traveling if such excess width is wholly attributable to an awning and its support hardware that is no less than seven and one-half feet off the ground and extends no more than six inches beyond the body of the vehicle on the passenger side. This provision shall not apply to any city not wholly included within one county except such house coaches and fifth wheel trailers used for non-commercial purposes may be operated on that portion of interstate ninety-five which connects interstate two hundred eighty-seven with interstate two hundred ninety-five, that portion of interstate two hundred ninety-five which connects interstate ninety-five with interstate four hundred ninety-five and that portion of interstate four hundred ninety-five between interstate ninety-five and the Nassau-Queens county line. (i) The commissioner of transportation may promulgate such rules and regulations as shall be necessary or desirable to effectuate the provisions of this subdivision. 2. The height of a vehicle from under side of tire to top of vehicle, inclusive of load, shall be not more than thirteen and one-half feet. Any damage to highways, bridges or highway structures resulting from the use of a vehicle exceeding thirteen feet in height where such excess height is the proximate cause of the accident shall be compensated for by the owner and operator of such vehicle. 3. (a) The length of a single vehicle, inclusive of load and bumpers, shall be not more than forty feet unless otherwise provided in this subdivision. (b) The length of a semitrailer or trailer shall not exceed forty-eight feet provided, however, that the length of any trailer or semitrailer being operated in combination with another trailer or semitrailer shall not exceed twenty-eight and one-half feet. A B-train assembly shall be excluded from the measurement of the length of a semitrailer when such semitrailer is in use between the tractor and the second semitrailer in a tractor-semitrailer-semitrailer combination of vehicles. (c) The length of buses having a carrying capacity of more than seven passengers shall not exceed forty-five feet, except that the length of articulated buses shall not exceed sixty-two feet. A house coach shall not exceed forty-five feet in length, provided however, that if a house coach exceeds forty feet in length, its wall-to-wall turning diameter shall not exceed ninety feet three inches and moreover, such house coach shall have permanently affixed to its body on the front passenger side door jamb, a data-plate on which the house coach manufacturer indicates the vehicle identification number and wall-to-wall turning diameter and attests to the fact that the wall-to-wall turning diameter is calculated in accordance with the Society of Automotive Engineers J-695 Standard as such standard existed on June first, two thousand three, regarding turning capability. In the event such a house coach exceeds either twenty-six thousand pounds gross vehicle weight rating, is greater than forty feet in length or exceeds both, the operator of such house coach must have a driver's license with a personal use vehicle endorsement as set forth in subparagraph (vii) of paragraph (b) of subdivision two of section five hundred one of the this chapter. This provision shall not apply to any city not wholly included within one county except such house coaches and fifth wheel trailers

used for non-commercial purposes may be operated on that portion of interstate ninety-five which connects interstate two hundred eighty-seven with interstate two hundred ninety-five, that portion of interstate two hundred ninety-five which connects interstate ninety-five with interstate four hundred ninety-five and that portion of interstate four hundred ninety-five between interstate ninety-five and the Nassau-Queens county line. (d) The provisions of this subdivision shall not apply to fire vehicles. (e) Except in any city not wholly included within one county, any semitrailer with a length in excess of forty-eight feet, but not exceeding fifty-three feet, may be operated on any qualifying highway or specifically designated access highway if the distance between the kingpin of the semitrailer and the centerline of the rear axle does not exceed forty-three feet and if the semitrailer is equipped with a rear-end protective device of substantial construction consisting of a continuous lateral beam extending to within four inches of the lateral extremities of the semitrailer and located not more than twenty-two inches from the surface as measured with the vehicle empty and on a level surface. In addition, such vehicles may be operated on that portion of interstate ninety-five which connects interstate two hundred eighty-seven with interstate two hundred ninety-five, that portion of interstate two hundred ninety-five which connects interstate ninety-five with interstate four hundred ninety-five and that portion of interstate four hundred ninety-five between interstate ninety-five and the Nassau-Queens county line. (f) The length of any center panel of an altered livery shall not exceed one hundred inches unless the owner of such vehicle can demonstrate that the livery conforms to all applicable federal and state motor vehicle safety standards at the time of registration in accordance with section four hundred one of this chapter. (g) The length of a specialized material delivery vehicle, inclusive of load and bumpers, shall not be more than forty feet provided, however, that the portion of an attached boom or forklift that extends beyond the rear bumper by not more than five feet shall be excluded from the measurement of the length of a specialized material delivery vehicle. For the purposes of this paragraph, "specialized material delivery vehicle" shall mean a single unit truck having an attached boom or forklift for the purpose of hoisting, swinging, loading or unloading material from such truck. The provisions of this paragraph authorizing the exclusion from the measurement of the length of a specialized material delivery vehicle shall not apply unless the operator of such vehicle holds a valid commercial driver's license as defined by subdivision one of section five hundred one-a of this chapter. * NB There are 2 par (g)'s * (g) The length of a tow truck or car carrier, inclusive of load and bumpers, shall be not more than forty feet, except that a car carrier may have an overhang that extends beyond the rear bumper of such car carrier by not more than three feet and except, further, that a wheel lift that is less than fifteen feet in length shall not be included as part of the length of a tow truck or car carrier when such wheel lift is in use by such tow truck or car carrier to tow another motor vehicle. * NB There are 2 par (g)'s (h) The commissioner of motor vehicles in consultation with the commissioner of transportation may promulgate such rules and regulations as shall be necessary or desirable to effectuate the provisions of this subdivision. 4. (a) The total length of a combination of vehicles, inclusive of load and bumpers, shall not be more than sixty-five feet. (b) The provisions of paragraph (a) of this subdivision shall not apply to: 1. A combination of vehicles being operated on any qualifying highway or access highway; 2. Vehicles of a corporation which is subject to the jurisdiction of the interstate commerce commission, the public service commission or other regulatory body and which are used in the construction, reconstruction, repair or maintenance of its property or facilities, provided that any such vehicle complies with the safety requirements of the laws and regulations of the United States and of this state pertaining to overlength vehicles; 3. Vehicles hauling poles, girders, columns, or other similar objects of great length provided that any such vehicle complies with the safety requirements of the laws and regulations of the United States and of this state pertaining to such overlength vehicles; 4. Fire vehicles; 5. A vehicle or combination of vehicles which is disabled and unable to proceed under its own power and is being towed for a distance not in excess of ten miles for the purpose of repairs or removal from the highway, except that the distance to the nearest exit of a controlled-access highway shall not be considered in determining such ten mile distance; 6. Stinger-steered automobile transporters or stinger-steered boat transporters, while operating on qualifying and access highways. Stinger-steered boat transporters shall not, however, exceed seventy-five feet exclusive of an overhang of not more than three feet on the front and four feet on the rear of the vehicle and stinger-steered automobile transporters shall not exceed eighty feet exclusive of an overhang of not more than four feet on the front and six feet on the rear of the vehicle; and 7. A combination of vehicles operating on any qualifying or access highways consisting of a power unit and two trailers or semitrailers with a total weight that shall not exceed twenty-six thousand pounds when the overall length is greater than sixty-five feet but shall not exceed eighty-two feet in which the trailers or semitrailers carry no property and constitute inventory property of a manufacturer, distributor, or dealer of such trailers or semitrailers. (c) Notwithstanding the provisions of paragraph (a) of this subdivision, an overhang of not more than three feet on the front and four feet on the rear of an automobile transporter or an overhang of not more than four feet on the front and six feet on the rear of a stinger-steered automobile transporter or an overhang of not more than three feet on the front and four feet on the rear of a boat transporter or stinger-steered boat transporter shall be permitted. 5. In determining the number of wheels and axles on any vehicle or combination of vehicles within the meaning of this section, only two wheels shall be counted for each axle, and axles which are less than forty-six inches apart, from center to center, shall be counted as one axle. However, in the case of multiple tires or multiple wheels, the sum of the widths of all the tires on a wheel or combination of wheels shall be taken in determining tire width. 6. The weight per inch width of tire on any one wheel of a single vehicle or a combination of vehicles equipped with pneumatic tires, when loaded, shall be not more than eight hundred pounds. 7. The weight on any one wheel of a single vehicle or a combination of vehicles, equipped with pneumatic tires, when loaded, shall be not more than eleven thousand two hundred pounds. 8. The weight on any one axle of a single vehicle or a combination of vehicles, equipped with pneumatic tires, when loaded, shall be not more than twenty-two thousand four hundred pounds. 9. The weight on any two consecutive axles of a single vehicle or a combination of vehicles, equipped with pneumatic tires, when loaded, and when such axles are spaced less than eight feet from center to center, shall be not more than thirty-six thousand pounds, except where axles are spaced eight feet or

greater, but less than ten feet, the weight on those two axles shall not exceed that permitted by paragraph (b) of subdivision ten of this section and, in addition, shall not exceed forty thousand pounds. Axles to be counted as provided in subdivision five of this section. 10. A single vehicle or a combination of vehicles having three axles or more and equipped with pneumatic tires, when loaded, may have a total weight on all axles not to exceed thirty-four thousand pounds, plus one thousand pounds for each foot and major fraction of a foot of the distance from the center of the foremost axle to the center of the rearmost axle. Axles to be counted as provided in subdivision five of this section. In no case, however, shall the total weight exceed eighty thousand pounds except for a vehicle if operated by an engine fueled primarily by natural gas which may have a maximum gross weight of up to eighty-two thousand pounds. For any vehicle or combination of vehicles having a total gross weight less than seventy-one thousand pounds, the higher of the following shall apply: (a) the total weight on all axles shall not exceed thirty-four thousand pounds plus one thousand pounds for each foot and major fraction of a foot of the distance from the center of the foremost axle to the center of the rearmost axle, or (b) the overall gross weight on a group of two or more consecutive axles shall not exceed the weight produced by application of the following formula: W = 500 ((LxN)/(N-1) + (12xN)+36) where W equals overall gross weight on any group of two or more consecutive axles to the nearest five hundred pounds, L equals distance in feet from the center of the foremost axle to the center of the rearmost axle of any group of two or more consecutive axles, and N equals number of axles in group under consideration, except that two consecutive sets of tandem axles may carry a gross load of thirty-four thousand pounds each providing the overall distance between the first and last axles of such consecutive sets of tandem axles is thirty-six feet or more. For any vehicle or combination of vehicles having a total gross weight of seventy-one thousand pounds or greater, paragraph (b) shall apply to determine maximum gross weight which is permitted hereunder. 10-a. (a) Notwithstanding the provisions of subdivisions seven, eight, nine, ten, eleven and twelve of this section, the calculation of weight pursuant to such subdivisions shall exclude the actual weight, not to exceed four hundred pounds, of a fully-functioning idle reduction device installed on a vehicle or combination of vehicles that are subject to such subdivisions, provided that the operator of such vehicle: (i) maintains written certification of the actual weight of such device and acceptable proof that it is fully functional; and (ii) provides such certification and proof, upon request, to a law enforcement officer or any other officer or employee authorized to enforce this section. Acceptable proof of the functionality of such device shall consist of written certification from the manufacturer of such idle reduction device, physical demonstration, or any other documentation acceptable to the commissioner of transportation as may be set forth in regulations promulgated by such commissioner after consultation with the commissioner of environmental conservation. (b) For the purposes of this subdivision, the following terms shall have the following meanings: (i) "auxiliary power unit" shall mean an integrated system that (A) provides heat, air conditioning, engine warming, or electricity to components on a vehicle which is subject to the provisions of this section and (B) is certified under part eighty-nine of title forty of the code of federal regulations (as may from time to time be amended) as meeting applicable emission standards; and (ii) "idle reduction device" shall mean an auxiliary power unit or other technology that is used to reduce long-duration idling (as such term is defined in paragraph seven of subdivision (a) of section 16104 of the United States code as may from time to time be amended) and allows for the main drive engine or auxiliary refrigeration engine to be shut down. 11. A vehicle or combination of vehicles equipped with any solid rubber tires shall not have weights more than eighty per centum of those permitted in this section for pneumatic tires. Notwithstanding the provisions of this section, vehicles equipped with solid rubber tires and registered in this state prior to January first, nineteen hundred thirty-two shall be permitted to operate until January first, nineteen hundred thirty-three under tire and axle loadings prescribed by chapter four hundred ninety-eight of the laws of nineteen hundred thirty. 12. Motor vehicles or vehicles drawn by motor vehicles when equipped with metal tires shall not have weights more than forty per centum of those permitted in this section for pneumatic tires. 13. For the purpose of this section, the width of pneumatic tires shall be ascertained by measuring the greatest width of the tire casing when tire is inflated. The width of solid rubber tires shall be ascertained by measuring the width of the tire base channel or between the flanges of the metal rim, provided that no vehicle equipped with solid rubber tires shall be operated upon a public highway, which has at any point less than one inch of rubber above the top or beyond the flange or rim. The width of metal tires shall be ascertained by measuring the width of contact of the tire with the road surface. 14. No person shall operate or move a vehicle or a combination of vehicles over, on or through any bridge or structure on any highway if the weight of such vehicle, or combination of vehicles, and load, is greater than the posted capacity of the structure or exceeds the height of the posted clearance as shown by an official sign. 15. Except where inconsistent with federal law, rules and regulations: (a) The commissioner of transportation is hereby authorized to continue to grant permits, and to charge fees therefor, for the operation or movement of a vehicle or combination of vehicles having weights or dimensions which exceed the limitations provided for in this section upon any highway under his or her jurisdiction except that such permit shall not be valid for the operation or movement of such vehicles on any state or other highway within any city not wholly included within one county. Such permits shall be issued in accordance with the terms and conditions contained in rules and regulations governing special hauling permits which have been or shall be promulgated by the commissioner of transportation and which may include, but not be limited to, a requirement that a vehicle or combination of vehicles being issued a permit shall be accompanied by one or more escort vehicles which is being operated by an individual having a valid escort certificate issued by the commissioner. The commissioner of transportation is authorized to promulgate rules and regulations governing the operation, use and equipment of escort vehicles and the duties and responsibilities of the operator of an escort vehicle. Any finding by the commissioner of transportation that an individual has violated such rules and regulations shall be grounds for the cancellation of an individual's escort certificate and a penalty not to exceed five hundred dollars per occurrence for the first violation and not to exceed one thousand dollars per occurrence for each subsequent violation. Prior to issuing such a finding, the commissioner of transportation shall afford an individual the right to a hearing pursuant to section one hundred forty-five of the transportation law.

Such rules and regulations shall take into consideration, but shall not be limited to, the safety of the traveling public and the protection of the highways and the environment. Such rules and regulations shall also contain a schedule of fees to be charged for the issuance of such permits which fees shall cover, but shall not be limited to, the costs to the department of transportation for the administration of the permit program, and shall permit the commissioner of transportation to levy a surcharge of up to twenty dollars for the issuance and distribution of special hauling permits at regional offices of the department of transportation. The annual vehicle fee for a permit issued pursuant to subparagraphs (i), (ii), (ii-a) and (iii) of paragraph (f) of this subdivision shall be three hundred sixty dollars for vehicles with less than five axles, seven hundred fifty dollars for vehicles with five or six axles and nine hundred dollars for vehicles with seven or more axles. The annual vehicle fee for a permit issued pursuant to subparagraphs (iv), (v), and (vi) of paragraph (f) of this subdivision shall be four hundred eighty dollars for vehicles with less than five axles and one thousand dollars for vehicles with five or more axles. Additionally, the commissioner shall establish a fee schedule for the permitting of extra non-power combination units that may not exceed twenty-five dollars per vehicle and may offer discounts for multi-trailer registrations. Such fees shall not be charged to municipalities in this state. A permit issued by the commissioner to a municipality pursuant to this subdivision, that would otherwise be annual, shall not expire until such municipality removes such permitted vehicle from operation; provided, however, that any amendment to such permit shall remain subject to the commissioner's approval and nothing contained in this paragraph shall be deemed to alter the authority of the commissioner to revoke any such permit as authorized by this chapter. If the permit has routing requirements, such rules and regulations shall provide that if the routing anticipates the use of highways not under the jurisdiction of the commissioner of transportation, then he or she shall immediately notify the municipality or municipalities, having jurisdiction over such highway that an application for a permit has been received and request comment thereon. Said municipality or municipalities shall not have less than fifteen days to comment. Such rules and regulations shall also contain any other requirements deemed necessary by the commissioner of transportation. (b) Upon application in writing and good cause being shown, the department of transportation may issue a permit pursuant to this subdivision to operate or move a vehicle or a combination of vehicles, the weights or the dimensions of which exceed the limitations provided for in this section upon any highway under its jurisdiction except that such permit shall not be valid for the operation or movement of such vehicles on any state or other highway within any city not wholly included within one county. For any other public highway in any county not wholly included within a city which is not on the state system of highways the authority having jurisdiction over same may issue a similar permit, provided that the fee charged for such permit shall not exceed ten dollars. (c) Upon application in writing and good cause being shown, the city department of transportation of a city not wholly included within one county may issue a permit pursuant to this subdivision to operate or move a vehicle or a combination of vehicles the weights or the dimensions of which exceed the limitations provided for in the rules and regulations of the city department of transportation of such city upon all highways within such city including highways which are on the state system of highways. The rules and regulations of such city department of transportation shall contain a schedule of fees to be charged for the issuance of such permits which fees shall cover, but shall not be limited to, the costs to the city for the administration of the permit program. Such rules and regulations shall also contain any other requirements deemed necessary by the city commissioner of transportation. (d) Except during storms, floods, fires or other public emergencies, no such permit may be issued to include a towing operation involving more than two vehicles except three vehicle combinations consisting of a tractor, semitrailer and trailer or a tractor and two trailers within legal weight and width limits proceeding to or from any qualifying highway or access highway. Every such permit may designate the route to be traversed and contain any other restrictions or conditions deemed necessary by the issuing authority. Every such permit shall be carried on the vehicle to which it refers and shall be open to the inspection of any peace officer, acting pursuant to his special duties, or police officer, or any other officer or employee authorized to enforce this section. All permits issued shall be revocable by the authority issuing them at the discretion of the authority without a hearing or the necessity of showing cause. Except for a vehicle having a maximum gross weight not exceeding eighty thousand pounds without regard to any axle weight limitation set forth herein or the maximum gross weight established by the formula commonly referred to as the bridge formula as set forth in subdivision ten of this section and except for state or municipally-owned single vehicles engaged in snow and ice control operations, or designed or fitted for snow and ice control operations while engaged in other public works operations on public highways which do not exceed the weight limits contained in subdivision seventeen-a of this section, no permit shall be issued to allow operation or movement of any vehicle or combination of vehicles whose weight exceeds the limitations otherwise prescribed in this section other than an annual permit issued pursuant to paragraph (f) of this subdivision except upon a finding by the department of transportation or the appropriate authority, as the case may be, that the load proposed is of one piece or item or otherwise cannot be separated into units of less weight provided, however, that any such permit issued upon such finding shall not be valid for the operation or movement of such vehicles on any state or other highway within any city not wholly included within one county. Bulk milk may be considered one piece or item. (e) The department of transportation or the issuing authority, as the case may be, shall establish criteria by rule or regulation under which any vehicle, combination of vehicles, or specified cargoes in specified circumstances or specified sites, routing or projects may be considered one piece or item for the purpose of a permit under this subdivision. (f) The department of transportation, or other issuing authority, may issue an annual permit for a vehicle designed and constructed to carry loads that are not of one piece or item, which is registered in this state. Motor carriers having apportioned vehicles registered under the international registration plan must either have a currently valid permit at the time this provision becomes effective or shall have designated New York as its base state or one of the eligible jurisdictions of operation under the international registration plan in order to be eligible to receive a permit issued pursuant to subparagraph (i), (ii) or (ii-a) of this paragraph. No permit issued pursuant to this paragraph shall be valid for the operation or movement of vehicles on any state or other highway within any city not wholly

included within one county unless such permit was issued by the city department of transportation of such city. Effective January first, two thousand five, no vehicle or combination of vehicles issued a permit pursuant to this paragraph shall cross a bridge designated as an R-posted bridge by the commissioner of transportation or any other permit issuing authority absent a determination by such commissioner or permit issuing authority that the permit applicant has demonstrated special circumstances warranting the crossing of such bridge or bridges and a determination by such commissioner or permit issuing authority that such bridge or bridges may be crossed safely, provided, however, that in no event shall a vehicle or combination of vehicles issued a permit under this paragraph be permitted to cross a bridge designated as an R-posted bridge if such vehicle or combination of vehicles has a maximum gross weight exceeding one hundred two thousand pounds, and provided further, however, that nothing contained herein shall be deemed to authorize any vehicle or combination of vehicles to cross any such bridge within any city not wholly included within one county unless such vehicle or combination of vehicles has been issued a valid permit by the city department of transportation of such city pursuant to this subdivision. No vehicle having a model year of two thousand six or newer shall be issued a permit pursuant to this paragraph unless each axle of such vehicle or combination of vehicles, other than steerable or trackable axles, is equipped with two tires on each side of the axle, any air pressure controls for lift axles are located outside the cab of the vehicle and are beyond the reach of occupants of the cab while the vehicle is in motion, the weight on any grouping of two or more axles is distributed such that no axle in the grouping carries less than eighty percent of any other axle in the grouping and any liftable axle is steerable or trackable; and, further provided, after December thirty-first, two thousand nineteen, no permit shall be issued pursuant to this paragraph to a vehicle of any model year that does not meet the requirements of this provision, except that such permits may be issued prior to January first, two thousand twenty to a vehicle that does not meet the requirement concerning axle grouping weight distribution, but meets all other requirements of this section. Such new certificate of registration shall expire on the expiration date of the one replaced. (c) If a certificate of registration under this section shall be issued and, subsequent thereto, the business name of any such shop is changed, or in the event that the owners of a business incorporate said business with no change in the actual ownership and operation thereof, such owner or owners thereof shall forthwith file with the commissioner a statement regarding the change of name in such form and with such information as the commissioner shall require. (d) Fees assessed under this section shall be paid to the commissioner for deposit to the general fund. 4. For the purposes of paragraphs (g), (h), (i), (j) and (k) of this

subdivision, it shall be presumed that the actions of any employee of a motor vehicle repair shop shall be attributable to, and deemed to be the actions of, such motor vehicle repair shop. 2. Civil penalty; suspension for failure to pay. (a) The commissioner, or any person deputized by him, may, by order, require a registrant or an unregistered repair shop to pay to the people of this state a penalty as hereinafter provided. Such penalty may be imposed in addition to or in lieu of revoking or suspending the certificate of registration of a registrant in accordance with the provisions of this article, or such a penalty may be imposed upon a finding that a registrant or an unregistered repair shop: (i) has been grossly negligent in the performance of any repair or adjustment covered by this article; or (ii) has grossly overcharged for such repair or adjustment. (b) Such penalty for a first violation shall be in a sum not exceeding seven hundred fifty dollars for each violation found to have been committed, and for a second or subsequent violation not arising out of the same incident both of which were committed within a period of thirty months, be in a sum of not more than one thousand dollars for each violation found to have been committed; provided, however, the penalty for each and any violation of paragraph (g) of subdivision one of this section found to have been committed shall be no less than three hundred and fifty dollars and no more than one thousand dollars, except that if a finding of financial loss has been made pursuant to subdivision three of this section, the amount of such penalty may be increased by the amount of financial loss so found. (c) Upon the failure of a registrant or an unregistered repair shop to pay such penalty, or, where the order so permits, to make restitution as provided in subdivision three of this section, within thirty days after the mailing of such order, postage prepaid, registered or certified, and addressed to the last known place of business of such registrant or unregistered repair shop, unless such order is stayed as provided in subdivision three of section three hundred ninety-eight-f of this chapter, the commissioner may revoke the certificate of registration of such registrant or may suspend the same for such period as he may determine or may seek to recover unpaid civil penalties in a civil action in the name of the commissioner. Civil penalties assessed under this subdivision shall be paid to the commissioner for deposit into the state treasury. (d) In addition, as an alternative to such civil action and provided that no proceeding for judicial review shall then be pending and the time for initiation of such proceeding shall have expired, the commissioner may file with the county clerk of the county in which the registrant is located a final order of the commissioner containing the amount of the penalty assessed. The filing of such final order shall have the full force and effect of a judgment duly docketed in the office of such clerk and may be enforced in the same manner and with the same effect as that provided by law in respect to executions issued against property upon judgments of a court of record. 3. Restitution; assessment. (a) Upon a determination that a registrant or an unregistered repair shop has done or failed to do any act for which suspension of the registrant's registration or a civil penalty against the registrant or unregistered repair shop could be imposed, the person making such determination may make a finding of financial loss to any complainant or complainants resulting from the actions of the registrant or unregistered repair shop. The person making such finding may provide that if the registrant or unregistered repair shop makes restitution to the complainant or complainants for the amount or amounts so found, that payment of such restitution may be substituted in lieu of any suspension or civil penalty, or a specified portion thereof imposed upon the registrant or unregistered repair shop. However, a finding of financial loss shall only be made if the complainant (i) agrees to accept the amount so found, if offered by the registrant or unregistered repair shop, and (ii) is not a party to any litigation which is pending or which has gone to judgment in relation to the same matter in any civil court. (b) The amount of financial loss which may be found and proposed as restitution shall be limited to an amount necessary to repair the vehicle or vehicles in question and/or any amount of overcharge which may be found. Neither punitive nor incidental damages may be included in the finding of financial loss. (c) If payment of restitution to the complainant is authorized in lieu of all or a portion of a suspension or civil penalty, in order for the registrant or unregistered repair shop to exercise the option to make such payment, such payment must be made by means of a certified check or money order payable to the complainant or complainants delivered to an office of the department as directed by the commissioner or his agent within thirty days of the date of notice of suspension and/or civil penalty. Upon receipt of such certified check or money order, the department shall forward the same to the complainant or complainants. In the event that the registrant or unregistered repair shop should fail to make payment for restitution within such thirty days, but, at a later time, pays such civil penalty, the department shall deduct from such civil penalty payment the amount assessed for restitution, and shall mail a check for such amount to the complainant or complainants. (d) If payment of restitution may be substituted in lieu of a civil penalty or portion of a civil penalty, and the registrant or unregistered repair shop does not exercise the option to make such payment, the civil penalty becomes due as provided in subdivision two of this section and the provisions of that subdivision relating to suspension of registration and recovery of civil penalties shall apply. (e) Any payment made in compliance with such a finding of financial loss shall not preclude any civil action which may be brought by the complainant, registrant or unregistered repair shop, and any such finding may be considered but shall not be binding upon any court before which any such action is brought. 4. Surrender of certificate of registration. Upon the suspension or revocation of a certificate of registration by the commissioner and the issuance of notice thereof, the registrant shall immediately deliver the certificate of registration to the commissioner or to any peace officer, acting pursuant to his special duties, or police officer directed by the commissioner to secure possession thereof, or agent of the commissioner, displaying authorization to act in such capacity along with a certified copy of the order revoking or suspending such registration, and the failure to so deliver the certificate within thirty days shall constitute a traffic infraction and shall be punishable in the manner provided in section eighteen hundred of this chapter.

(b) No certificate of registration shall be suspended or revoked, penalty imposed or determination of gross negligence or gross

overcharging made as provided for pursuant to paragraph (h) of subdivision one of section three hundred ninety-eight-e of this article, until such registrant shall have been given the opportunity to be heard, upon written notice to the registrant, before an officer or employee of the department designated for such purpose by the commissioner, provided, however, that where a notice of hearing is mailed to a registrant at the address shown in the records of the department and such registrant fails to attend such hearing, the commissioner may suspend such registration pending the registrants attendance at such hearing. Requests for adjournment of such hearings shall be granted in accordance with regulations promulgated by the commissioner. A suspension pending attendance at a hearing shall not be appealable. (c) The commissioner acting by such officer or employee in the department as he may designate, shall have the power to subpoena and bring before such officer or employee so designated any person in this state, or document, record or other relevant evidence, and administer an oath to and take the testimony of any such person or cause his deposition to be taken. A subpoena issued pursuant to this action shall be regulated by the civil practice law and rules. (d) In the event a certificate of registration is revoked or an application is denied, no such certificate shall be issued to such former registrant or applicant for at least six months, nor thereafter, except in the discretion of the commissioner. 2. Review board. The commissioner shall establish a review board. Such board shall consist of persons who have been engaged in the automotive repair shop business for at least five years representing the automobile repair shop industry, persons who shall be laymen having no association with the automotive repair shop industry representing consumers, and persons who are attorneys admitted to practice in this state and who have no interest in or represent as an attorney an automotive repair shop. Members of the review board shall be appointed insofar as is practicable to provide for representation of different geographic areas of the state, and shall serve in no other capacity in the department of motor vehicles. The number of persons appointed to such review board shall be determined by the commissioner and shall be appointed to serve at his pleasure. Three persons, one of whom shall be automotive repair shop industry representatives, one of whom shall be consumer representatives, and one of whom shall be an attorney appointed pursuant to the provisions of this subdivision, shall as a panel review each appeal from a determination of the hearing officer. Such attorney shall serve as the chairman of such panel with respect to any such review. Members of the review board shall be entitled to their actual and necessary expenses incurred in the performance of their duties thereunder, and shall be entitled to a per diem allowance as determined by the commissioner and approved by the director of the division of the budget not to exceed one hundred dollars except that those members who serve as the chairman of a panel at appeal proceedings may be entitled to a per diem allowance in an amount so determined and approved but not exceeding one hundred fifty dollars. 3. Appeals. (a) The review board will review and determine all appeals filed pursuant to this article. Such determination may be to affirm, reverse or modify the initial determination of the hearing officer, or to remand the case for a further hearing to determine additional facts. Any review by such board shall be based solely on the record upon which the initial determination is made and upon any written brief which may be submitted by or on behalf of the applicant or registrant. (b) (1) Whenever a certificate of registration is suspended or revoked, an application for such registration denied, determination of gross negligence or gross overcharging made, the sealing of a premises ordered or penalty imposed by the commissioner pursuant to this article, except where such action is required by statute based upon a conviction, the registrant, applicant, or owner of the premises as such term is defined in paragraph (a) of subdivision five-a of section three hundred ninety-eight-i of this article may appeal such determination pursuant to the provisions of this article and such regulations as may be promulgated by the commissioner. (2) No appeal shall be reviewed unless it is submitted within sixty days after written notice of the determination appealed from is mailed to the registrant or applicant. (3) Any person desiring to appeal pursuant to this article shall do so in a form and manner as provided by regulations promulgated by the commissioner. The transcript of any hearing will only be reviewed if it is submitted by the appellant who shall bear the expense of furnishing such transcript. (4) The fee for filing an appeal shall be ten dollars. No appeal shall be deemed filed or submitted unless any required fee has been paid. (5) The submission of a written request to file such an appeal shall stay the operation of the initial determination until after a review is had and a determination has been made; provided, however, that failure to timely submit such appeal and comply with the provisions of this subdivision shall remove the stay imposed by this paragraph. Such review shall be made and decided as expeditiously as possible; provided that an appeal of an order directing the sealing of the premises pursuant to subdivision five-a of section three hundred ninety-eight-i of this article shall, to the extent possible, be given priority over all other appeals filed pursuant to this article. (c) Whenever the same facts give rise to a hearing involving any other license or registration issued by the commissioner, a combined hearing may be held. If the registrant appeals only from a determination made with respect to his repair shop registration, he shall be entitled to a review as provided in subdivision one of this section; however, if he appeals from any determination or determinations made with respect to any other license or registration, as well as a determination with respect to his repair shop registration, the appeals procedure established in article three-A of this chapter shall be followed in lieu of the procedure established in subdivision three of this section. 4. Judicial review. The determination of the review board shall be subject to review by the supreme court in the manner provided in article seventy-eight of the civil practice law and rules.

The term "fraudulent practices" as used in this section shall include, but shall not be limited to, any conduct or representation on the part of the licensee, or any partner, officer, agent, or employee of a licensee, tending to induce another or to give the impression that a license to operate a motor vehicle or motorcycle, or any other license, registration or service granted by the commissioner, may be obtained by any means other than the ones prescribed by law, or furnishing or obtaining the same by illegal or improper means, or requesting, accepting, exacting or collecting money for such purpose. Notwithstanding the renewal of a license, the commissioner may revoke or suspend such license for causes and violations, as prescribed by this section, occurring during the two license periods immediately preceding the renewal of such license. The commissioner, or any person deputized by him, in addition to or in lieu of revoking or suspending a license to conduct a driving school in accordance with the provisions of this section, may by order require the licensee to pay to the people of this state a penalty in a sum not exceeding five hundred dollars for each violation, and upon the failure of such licensee to pay such penalty within twenty days after the mailing of such order, postage prepaid, registered or certified, and addressed to the last known place of business of such licensee, unless such order is stayed by a court of competent jurisdiction or in accordance with the provisions of article three-A of this chapter, the commissioner may revoke the license of such licensee or may suspend the same for such period as he may determine. Civil penalties assessed under this subdivision shall be paid to the commissioner for deposit into the state treasury, and unpaid civil penalties may be recovered by the commissioner in a civil action in the name of the commissioner. In addition, as an alternative to such civil action, and provided that no proceeding for judicial review shall then be pending and the time for initiation of such proceeding shall have expired, the commissioner may file with the county clerk of the county in which the licensee is located a final order of the commissioner containing the amount of the penalty assessed. The filing of such final order shall have the full force and effect of a judgment duly docketed in the office of such clerk and may be enforced in the same manner and with the same effect as that provided by law in respect to executions issued against property upon judgments of a court of record. 6. Hearing. Except where a

refusal to issue a license or renewal, or revocation or suspension, is based solely on a court conviction or convictions, a licensee or applicant shall have an opportunity to be heard, such hearing to be held at such time and place as the commissioner shall prescribe. Provided, however, upon a written notice of temporary suspension delivered by certified mail to the licensee, a license may be temporarily suspended pending a hearing. Any such notice of temporary suspension shall provide that the suspension is effective seventy-two hours after mailing of such notice and shall provide that a hearing be scheduled within ten days after the effective date of the temporary suspension. A licensee or applicant entitled to a hearing shall be given due notice thereof. The sending of a notice of a hearing by registered mail to the last known address of a licensee or applicant ten days prior to the date of the hearing shall be deemed due notice. The commissioner, or the person deputized by him to conduct a hearing, shall have power to subpoena witnesses, administer oaths to witnesses and take testimony of any person or cause his deposition to be taken. A subpoena issued under this section shall be regulated by the civil practice law and rules. Officers or employees in the department of taxation and finance, making service of such subpoenas are not entitled to fees and mileage. 7. Supervision; records. The commissioner shall approve the form of contract used by all licensees, and may prescribe reasonable rules governing the terms which may be included in such contracts. Every licensee shall keep such records as the commissioner may by regulation require. The records of the licensee shall be open to the inspection of the commissioner or his representatives at all times during reasonable business hours. The commissioner shall prescribe such reasonable rules and regulations as he may deem necessary to carry out the provisions of this section. 7-a. Certification of driving time. The commissioner shall establish by regulation a certification process by drivers' schools of the amount of time a holder of a learner's permit has spent operating a motor vehicle or motorcycle while under the immediate supervision of a driving instructor holding an instructor's certificate issued pursuant to subdivision eight of this section. A certificate issued pursuant to this section shall be deemed to be proof of all or a portion of the supervised driving experience required under certification pursuant to paragraph (d) of subdivision two of section five hundred two of this chapter. 8. Instructors. (a) No person shall be employed by a licensee as a driving instructor, nor shall any person give instructions for hire in the operation of motor vehicles or motorcycles unless such person is the holder of a driver's license valid for operation in this state and an instructor's certificate issued by the commissioner. Such certificates shall be issued only to persons of good reputation and moral character, whose driving records, as determined by the commissioner, qualify them as instructors in the operation of motor vehicles or motorcycles. An application for an instructor's certificate must identify the driving school or schools in which the applicant is to act as an instructor and shall contain such other information as the commissioner shall prescribe. Each such application shall be accompanied by a fee of ten dollars which shall in no event be refunded. Such certificate shall be issued without payment of any additional fee and shall be limited to use in connection with the business of the specified driving school or schools. Such certificate shall be valid until the date of expiration prescribed by the commissioner and may be validated for use in connection with the business of other driving schools without payment of any additional fee. The fee for annual renewal thereof shall be ten dollars. Upon renewal, the commissioner may, in his discretion, issue a renewal which shall be valid for up to a two-year period. The fee for a two-year renewal shall be twenty dollars. Fees for renewal of a certificate valid for a period of less than two years shall be prorated on a quarterly basis and any portion of a quarter shall be considered a quarter. (b) The commissioner or any employee of the department of motor vehicles deputized by him, may suspend or revoke an instructor's certificate for any of the following causes: (1) expiration, suspension or revocation of the required license of such instructor; (2) the commissioner has determined that the driving record of such instructor indicates that such instructor does not possess the qualities or competence necessary or desirable for a driving instructor; (3) such instructor has failed to comply with the rules and regulations prescribed by the commissioner; (4) conviction of such instructor of a felony or any crime involving violence, dishonesty, deceit, indecency, degeneracy or moral turpitude; and (5) such instructor has been guilty of fraud or fraudulent practices. 8-a. Fees; deposited. Fees assessed under this section shall be paid to the commissioner for deposit to the general fund. 9. Employees. A licensee may employ, in connection with a driving school a person who has been convicted of a crime, in accordance with article twenty-three-A of the correction law. 10. Judicial review. The action of the commissioner in refusing to issue or renew, or revoking or suspending a license or instructor's certificate may be reviewed in a proceeding under article seventy-eight of the civil practice law and rules. 11. Penalties. (a) A violation of any of the provisions of this section shall constitute a misdemeanor. (b) During the pendency of any criminal prosecution based upon a violation of this section or if any such prosecution has been terminated and the defendant has been sentenced to pay a fine as provided in this chapter, no proceeding to recover civil penalties under this section shall be commenced and any such pending proceeding shall be stayed. 12. Unlicensed operation; procedures and penalties. (a) The commissioner or any person deputized by him shall hear and determine any allegation that a person has operated a drivers' school without being licensed as required by subdivision two of this section. Upon a determination that a person has so operated, the commissioner or person deputized by him shall assess civil penalties as provided in paragraphs (b) and (c) of this subdivision. (b) Except as provided in paragraph (c) of this subdivision, any person who operates a drivers' school without being licensed shall be required to pay to the people of this state a civil penalty in the sum of one thousand dollars. However, any such person against whom such penalty has been assessed may avoid all but five hundred dollars of such penalty by obtaining a license as required by this section, provided that application for such license is made not more than ten days after the imposition of such penalty. (c) (i) Any person who operates a drivers' school while his drivers' school license is revoked or suspended, shall pay to the people of this state a civil penalty in the sum of one thousand dollars. Such civil penalty may not be avoided. (ii) Any person who operates a drivers' school without being licensed as required by subdivision two of this section who has previously had a civil penalty assessed for unlicensed operation shall pay to the people of this state a civil penalty in the sum of one thousand dollars. Such civil penalty may not be avoided. (d) Civil penalties assessed under this section shall be paid to the commissioner for deposit into the state treasury, and unpaid civil penalties

may be recovered by the commissioner in a civil action in the name of the commissioner. In addition, as an alternative to such civil action, and provided that no proceeding for judicial review shall then be pending and the time for initiation of such proceeding shall have expired, the commissioner may file with the county clerk of the county in which the licensee is located a final order of the commissioner containing the amount of the penalty assessed. The filing of such final order shall have the full force and effect of a judgment duly docketed in the office of such clerk and may be enforced in the same manner and with the same effect as that provided by law in respect to executions issued against property upon judgments of a court of record.

The refusal to issue a license may be reviewed by a proceeding under article seventy-eight of the civil practice law and rules. Such license shall be renewed annually upon the payment of a fee of twenty-five dollars, such renewal to take effect on the first day of July in each year. Upon renewal, the commissioner may, in his discretion, issue a license which shall be valid for a two year period. The fee for any such two year renewal shall be fifty dollars. The provisions of subdivisions five and six of section three hundred ninety-four of this chapter shall be applicable with respect to this section. The holder of a license issued pursuant to section three hundred ninety-four of this chapter or the holder of a certificate of registration issued pursuant to section four hundred fifteen of this chapter shall not be required to secure a license under this section in order to conduct a business for which a license is required by this section but any such licensee, or registrant, who shall conduct such business, shall be subject to the same visitation and regulation by the commissioner with reference to such business as provided in this section with respect to a licensee under this section. As used in this section the phrase "licenses to drive motor vehicles" includes the term "learners' permits". A violation of any of the provisions of this section shall constitute a misdemeanor.

§ 309. Legislative findings. 1. The legislature hereby finds and declares that the safety of the motoring public depends on a modern system of periodic motor vehicle inspection. 2. In nineteen hundred fifty-nine New York state recognized the need for inspection of motor vehicles to assure its citizens that their safety would be protected by removing from its highways those cars whose mechanical condition did not meet rigid standards of safety. 3. The introduction of anti-pollution devices and newly developed safety attachments to modern automobiles requires that experimental inspection stations be established to permit the testing of new methods of periodic motor vehicle inspection. 4. The creation of new techniques of periodic motor vehicle inspection has become the concern of the federal government, and federal funds are now available for the development of criteria for modern inspection methods. Therefore, legislation should be enacted to promote the advancement of the periodic motor vehicle inspection program in New York state.

Provided, however, a license to operate an official inspection station or a certificate to inspect vehicles shall be suspended or revoked or renewal thereof shall be refused by the commissioner or any person duly deputized, upon a third or subsequent willful violation, all within a period of eighteen months, of any rule or regulation of the commissioner requiring an inspection station to inspect the muffler or exhaust system of a motorcycle as set forth in subdivision (c) of section 79.28 of title 15 of the codes, rules and regulations of the state of New York. Civil penalties assessed under this subdivision shall be paid to the commissioner for deposit into the state treasury, and unpaid civil penalties may be recovered by the commissioner in a civil action in the name of the commissioner. In addition, as an alternative to such civil action and provided that no proceeding for judicial review shall then be pending and the time for initiation of such proceeding shall have expired, the commissioner may file with the county clerk of the county in which the registrant is located or the certified inspector resides a final order of the commissioner containing the amount of the penalty assessed. (2) Declaration of purpose. The legislature is concerned over the rising toll of motor vehicle accidents and the suffering and loss thereby inflicted. The legislature determines that it is a matter of grave concern that motorists shall be financially able to respond in damages for their negligent acts, so that innocent victims of motor vehicle accidents may be recompensed for the injury and financial loss inflicted upon them. The legislature finds and declares that the public interest can best be served in satisfying the insurance requirements of this article by private enterprise operating in a competitive market to provide proof of financial security through the methods prescribed herein. Nothing in this article shall be construed to affect any change in the application of article twenty-three of the insurance law to automobile liability insurance rate-making or to effect the development of various methods of doing or operating an automobile liability insurance business.

If an owner shall have filed a financial security deposit, or shall have qualified as a self-insurer under section three hundred sixteen of this article, the term "insurance identification card" shall mean a card issued by the department which evidences that such deposit has been filed or that such owner has so qualified. (a) Affording coverage as defined in the minimum provisions prescribed in a regulation which shall be promulgated by the superintendent at least ninety days prior to effective date of this act. The superintendent before promulgating such regulations or any amendment thereof, shall consult with all insurers licensed to write automobile liability insurance in this state and shall not prescribe minimum provisions which fail to reflect the provisions of automobile liability insurance policies, other than motor vehicle liability policies as defined in section three hundred forty-five of this chapter, issued within this state at the date of such regulation or amendment thereof. Nothing contained in such regulation or in this article shall prohibit any insurer from affording coverage under an owner's policy of liability insurance more liberal than that required by said minimum provisions. Every such owner's policy of liability insurance shall provide insurance subject to said regulation against loss from the liability imposed by law for damages, including damages for care and loss of services, because of bodily injury to or death of any person and injury to or destruction of property arising out of the ownership, maintenance, use, or operation of a specific motor vehicle or motor vehicles within the state of New York, or elsewhere in the United States in North America or the Dominion of Canada, subject to a limit, exclusive of interest and costs, with respect to each such motor vehicle except a tow truck, of twenty-five thousand dollars because of bodily injuries to and fifty thousand dollars because of death of one person in any one accident and, subject to said limit for one person, to a limit of fifty thousand dollars because of bodily injury to and one hundred thousand dollars because of death of two or more persons in any one accident, and to a limit of ten thousand dollars because of injury to or destruction of property of others in any one accident provided, however, that such policy need not be for a period coterminous with the registration period of the vehicle insured. The limit, exclusive of interest and costs, with respect to a tow truck shall be a combined single limit of at least three hundred thousand dollars because of bodily injury or death to one or more persons or because of injury or destruction of property of others in any one accident, and to a limit of twenty-five thousand dollars because of damage to a vehicle in the care, custody and control of the insured. Any insurer authorized to issue an owner's policy of liability insurance as provided for in this article may, pending the issue of such a policy, make an agreement, to be known as a binder, or may, in lieu of such a policy, issue a renewal endorsement or evidence of renewal of an existing policy; each of which shall be construed to provide indemnity or protection in like manner and to the same extent as such a policy. The provisions of this article shall apply to such binders, renewal endorsements or evidences of renewal. Every such policy issued insuring private passenger vehicles and every renewal policy, renewal endorsement, or other evidence of renewal issued shall have attached thereto a rating information form which clearly specifies and defines the rating classification assigned thereto, including any applicable merit rating plan; and (b) In the case of a vehicle registered in this state, a policy issued by (i) an insurer duly authorized to transact business in this state or (ii) where a vehicle is registered by a not-for-profit organization that is tax-exempt under section 501(c)(3) of the federal internal revenue code, a risk retention group not chartered in this state but which is registered with the superintendent under the federal liability risk retention act of 1986, comprised entirely of organizations that are tax-exempt under section 501(c)(3) of the federal internal revenue code and where the risk retention group qualifies as a charitable risk pool under section 501(n) of the federal internal revenue code, provided that the vehicle being registered does not have a seating capacity of more than fifteen passengers, is not a limousine or luxury limousine, and where such vehicles are not solely for personal use by a director, officer, authorized person, or key person, their relatives or related parties; or (c) In the case of a vehicle lawfully registered in another state, or in both this state and another state, (i) a policy issued by an authorized insurer, or (ii) where a vehicle is registered by a not-for-profit organization that is tax-exempt under section 501(c)(3) of the federal internal revenue code, a risk retention group not chartered in this state but which is registered with the superintendent under the federal liability risk retention act of 1986, comprised entirely of organizations that are tax-exempt under section 501(c)(3) of the federal internal revenue code and where the risk retention group qualifies as a charitable risk pool under section 501(n) of the federal internal revenue code, provided that the vehicle being registered does not have a seating capacity of more than fifteen passengers, is not a limousine or luxury limousine, and where such vehicles are not solely for personal use by a director, officer, authorized person, or key person, their

relatives or related parties, or (iii) a policy issued by an unauthorized insurer authorized to transact business in another state if such unauthorized insurer files with the commissioner in form to be approved by them a statement consenting to service of process and declaring its policies shall be deemed to be varied to comply with the requirements of this article; and (d) The form of which has been approved by the superintendent, except in the case of a risk retention group not chartered in this state. No such policy shall be issued or delivered in this state until a copy of the form of policy shall have been on file with the superintendent for at least thirty days, unless sooner approved in writing by the superintendent, nor if within said period of thirty days the superintendent shall have notified the carrier in writing that in the superintendent's opinion, specifying the reasons therefor, the form of policy does not comply with the laws of this state. 5. The term "certificate of insurance" shall mean any evidence issued by or on behalf of an insurance company duly authorized to transact business in this state, or a risk retention group authorized to issue an owner's policy of liability insurance pursuant to subdivision four of this section, stating in such form as the commissioner may prescribe or approve that such company or such risk retention group has issued an owner's policy of liability insurance on the motor vehicle or vehicles designated therein. Such certificate shall contain information as required by the commissioner including at least the following except as otherwise provided: (a) The name and address of the person to whom the policy was issued. (b) The number and effective period of the policy. If all of the motor vehicles owned by one person during a defined period are insured under the same owner's policy of liability insurance the certificate of insurance may so state and it shall then not be necessary to identify the specific vehicle insured. The requirements of this article for an owner's policy of liability insurance may be fulfilled by the policies of one or more insurance carriers which policies together meet such requirements. (c) As to new policies, a statement that at least ten per cent of the annual premium due on the policy has been paid. For the purposes of this paragraph a transfer of insurance from one company to another by an agent or broker shall not be considered the issuance of a new policy. 6. The term "financial security bond" shall mean for each motor vehicle a bond executed by the owner and by a surety company duly authorized to transact business in this state. The provisions of subdivision (e) of section three hundred forty-nine of this chapter shall apply to such bond. 7. The term "financial security deposit" shall mean for each motor vehicle the deposit with the commissioner of twenty-five thousand dollars in cash, or securities, such as may legally be purchased by savings banks or trust funds, of a market value of twenty-five thousand dollars and an additional deposit in an amount determined by the commissioner to be sufficient to satisfy the requirements of article fifty-one of the insurance law. 8. The term "self-insurer" shall mean a person who shall have been determined by the commissioner in accordance with section three hundred sixteen to be financially responsible. 9. The word "state" when used in this article shall unless the context clearly indicates otherwise, mean any state, territory or possession of the United States, the District of Columbia or any province of the Dominion of Canada. 10. "Insurance Identification Card" shall mean a card issued by or on behalf of an insurance company or bonding company duly authorized to transact business in this state, or a risk retention group authorized to issue an owner's policy of liability insurance pursuant to subdivision four of this section, stating in such form as the commissioner may prescribe or approve that such company or such risk retention group has issued an owner's policy of liability insurance or a financial security bond on the motor vehicle or vehicles designated therein. Such card shall contain such information and shall be valid during such period as may be prescribed by the commissioner. If an owner shall have filed a financial security deposit, or shall have qualified as a self-insurer under section three hundred sixteen of this article, the term "insurance identification card" shall mean a card issued by the department which evidences that such deposit has been filed or that such owner has so qualified.

§ 312-a. Issuance and termination of liability insurance and maintenance of records. 1. Upon issuance of an owner's policy of liability insurance or other financial security required by this chapter, an insurer shall issue proof of insurance in accordance with the regulations promulgated by the commissioner pursuant to paragraph (b) of subdivision two of section three hundred thirteen of this article. 2. The commissioner shall make a record of all notices of termination received by him. After such record has been made, the notices need not be retained by the commissioner.

2024 New York LawsVAT - Vehicle and TrafficTitle 3 - Safety Responsibility; Financial Security; Equipment; Inspection; Size and Weight; and Other ProvisionsArticle 6 - Motor Vehicle Financial Security Act312 - Registration of Motor Vehicles.

(b) The owner of such motor vehicle shall maintain proof of financial security continuously throughout the registration period and his failure to produce proof of financial security when requested to do so upon demand of a magistrate, motor vehicle inspector, peace officer, acting pursuant to his special duties, or police officer, while such vehicle is being operated upon the public highway, shall be presumptive evidence of operating a motor vehicle without proof of financial security. Upon the production of proof of financial security such presumption is removed. Production of proof of financial security may be made by mailing such proof to the court having jurisdiction in the matter, and any necessary response by such court or acknowledgement of the production of such proof may also be made by mail. When insurance with respect to any motor vehicle, other than a motorcycle, is terminated the owner shall surrender forthwith his registration certificate and number plates of the vehicle to the commissioner unless proof of financial security otherwise is maintained in compliance with this article. 2. No financial security bond shall be accepted by the commissioner unless it is conditioned for payments in amount and under the same terms and conditions as are required for an owner's policy of liability insurance. 3. No financial security deposit shall be accepted by the commissioner except in accordance with the provisions of section three hundred fourteen. 4. The commissioner is hereby authorized to promulgate reasonable

regulations to provide effective administration and enforcement of the provisions of this article in accordance with the purposes thereof. 5. Notwithstanding any inconsistent provisions of this article, the commissioner may by regulation, in lieu of the provisions of subdivision one requiring the submission of a certificate of insurance or evidence of a financial security bond, require that an insurance identification card be presented each time a vehicle is registered or a registration is renewed in this state.

2024 New York LawsVAT - Vehicle and TrafficTitle 3 - Safety Responsibility; Financial Security; Equipment; Inspection; Size and Weight; and Other ProvisionsArticle 6 - Motor Vehicle Financial Security Act313 - Notice of Termination.

(b) Every insurer shall retain a copy of the notice of termination mailed pursuant to this chapter and shall retain the certificate of mailing obtained from the postal service upon the mailing of the original of said notice. A copy of a notice of termination and the certificate of mailing, when kept in the regular course of the insurer's business, shall constitute conclusive proof of compliance with the mailing requirements of this chapter. 2. (a) Upon the termination of an owner's policy of liability insurance, other than an owner's policy of liability insurance for a motorcycle, at the request of the insured or by cancellation by the insurer, the insurer shall file a notice of termination with reference to such policy, as opposed to any insured vehicle or vehicles under such policy, with the commissioner not later than thirty days following the effective date of such cancellation or other termination, in accordance with the regulations required by paragraph (c) of this subdivision. An insurer shall not file a notice of termination with the commissioner except as required by this subdivision. (b) Upon the issuance of an owner's policy of liability insurance the insurer shall file a notice or confirmation of issuance with reference to such policy not later than fourteen days following the effective date of such issuance, and not later than seven days following the effective date for policies issued after January first, two thousand one, in accordance with the regulations required by paragraph (c) of this subdivision. (c) The commissioner shall promulgate regulations establishing procedures for issuance of proof of insurance and for reporting by insurers of notices of termination and policy issuance, either electronically or by paper copy, at the option of the department. Such reporting shall be required for every cancellation or termination which is effective on or after July first, nineteen hundred eighty-four and for every policy issuance which is effective on or after January first, two thousand; provided, however, that should the commissioner find, after testing of reporting procedures, that it would be feasible to require reporting for policy cancellations, terminations or issuances effective on an earlier date, he may by regulation so require reporting on such earlier date, but in no event shall reporting be required for cancellations or terminations effective prior to February first, nineteen hundred eighty-four nor for policy issuances effective prior to September first, nineteen hundred ninety-nine. Insurers shall cooperate fully with the commissioner in any such testing of reporting procedures. (d) Upon application by an insurer, the commissioner may extend the period for filing of notices of termination by such insurer for up to fifteen days, and for seven days for policies issued by an insurer. Extensions shall not be granted unless the insurer demonstrates to the satisfaction of the commissioner that compliance with the notice period would result in substantial hardship to the insurer. The commissioner shall maintain a list of extensions granted pursuant to this paragraph. 3. A cancellation or termination for which notice is required to be filed with the commissioner pursuant to subdivision two of this section shall not be effective with respect to persons other than the named insured and members of the insured's household until the insurer has filed a notice thereof with the commissioner or until another insurance policy covering the same risk has been procured, except that a notice filed with the commissioner, in the format prescribed by the commissioner, within the period prescribed in subdivision two of this section shall be effective as of the date certified therein, regardless of whether a suspension order is issued pursuant to section three hundred eighteen of this article. A receipt from the department stating that a notice of termination has been filed shall be deemed conclusive evidence of such filing. An insurer shall cooperate with the commissioner in attempting to identify persons not in compliance with this article in cases where the information reported by the insurer does not correspond with records maintained by the department. 4. Notwithstanding any other provision of this article to the contrary, the commissioner shall establish a pilot program to maintain an up-to-date insured vehicle identification database to assist in identifying uninsured motor vehicles. Such databases shall be implemented by the department pursuant to standards prescribed by the commissioner or an agent designated by the commissioner which shall seek technical assistance from affected insurers and the New York Automobile Insurance Plan. This program shall utilize all information collected pursuant to this section and shall also include the following elements: (a) In addition to and in conjunction with the provisions of subdivision two of this section, insurers that write private passenger or commercial motor vehicle insurance in this state shall also submit to the department, either electronically or by paper copy, at the option of the department, information that identifies those policies that have been cancelled, terminated or non-renewed and all policies that have been issued, the date when such insurance lapses, and any other information that the commissioner deems necessary to efficiently identify and track uninsured vehicles in this state such as a policyholder's address, policy number, vehicle registration number, and vehicle identification number. The department may exempt from such pilot program the transfer of information on certain classifications of vehicles that are in the opinion of the department generally insured and which it is difficult to identify uninsured vehicles within such classification, such as large commercial vehicle fleets; (b) The department shall forward to each motor vehicle insurer, at such times as deemed necessary and appropriate by the commissioner, a listing of all the registrants the department has on file as insured with that insurer. Such insurer shall then review the listing within thirty days of receipt of the listing and report to the department which of the registrants the insurer does not insure; (c) The commissioner shall, in conjunction with the superintendent of state police and local law enforcement officials formulate a means to allow such database to be easily accessible to on-duty law enforcement personnel in the performance of their official duties for the purpose of verifying whether an operator maintains proper insurance coverage and to increase compliance with the motor vehicle financial security laws under this article and article eight of this title; (d) In developing the mechanism to electronically transfer information to the department, the commissioner shall consult

with the superintendent of financial services and insurers to adopt a standardized system of organizing, recording and transferring such information so as to minimize insurer administrative expenses. The commissioner shall to the maximum extent possible utilize nationally recognized electronic data information systems such as those developed by the American National Standards Institute or the American Association of Motor Vehicle Administrators; (e)(1) Either simultaneously or after the up-dated database system has been established, the commissioner shall develop a computer indicator that can be imprinted on a vehicle registration sticker or on a sticker to be affixed to the insured's license plate. Such indicator system shall enable law enforcement personnel and other authorized persons when acting in the course of their official duties to access the department's database so that such persons can ascertain whether a vehicle is properly insured or not insured; (2) Such computer indicator system shall enable authorized persons in the performance of their official duties to access information such as the registrant's name, vehicle identification number, name of insurer, current status of insurance, vehicle registration number and other information that the commissioner deems necessary to implement the provisions of this section. The commissioner in developing such computer indicator system shall enable authorized persons in the performance of their official duties to access only such information that is necessary to detect uninsured motor vehicles or accomplish other goals clearly established and authorized by law. Such computer indicator system shall be designed to protect the personal privacy interests of motorists; (f) The commissioner shall maintain an insured vehicle database system that is accurate to within a period of fourteen days and a computer indicator system described in paragraph (e) of this subdivision within twenty-four months of the effective date of this subdivision and to within seven days by January first, two thousand one. The commissioner shall submit to the legislature a report within eighteen months from the date this subdivision takes effect which outlines the progress being made to implement such database and computer indicator system. After such database and computer indicator system is established and put into operation, the commissioner shall make recommendations to the legislature to alter, minimize or eliminate the need for the issuance of insurance identification cards, simplify the requirements to demonstrate proof of financial security and certificate of insurance currently required by this article, eliminate the requirement for production of proof of financial security to accompany applications for registrations or renewals thereof provided that such database indicates that the registrant is insured, and the repeal or modification of section three hundred twelve-a of this article. The commissioner shall also make recommendations to the legislature to streamline and shorten the notice termination requirements of subdivisions one, two and three of this section and section three hundred eighteen of this article. Such report shall be submitted to the legislature within twelve months from the date such database and indicator system has been implemented; (g) To minimize the cost of this program, the commissioner, if he deems it necessary and prudent, can initially limit the scope of this project to a select number of vehicle classifications or insurers; (h) Notwithstanding any other provision of law, information obtained by the department pursuant to this section shall not be disclosed, used, sold, accessed, utilized in any manner or released by the department to any person, corporation, or state and local agency, except in response to a specific, individual request for such information authorized pursuant to the federal driver's privacy protection act (18 U.S.C. 2721 et.seq.). The department shall institute measures to ensure that only authorized persons are permitted to access such information for the purposes specified by this section. Persons who knowingly release or disclose information from such database for a purpose other than those described as authorized by this section or to a person not entitled to receive it shall be guilty of a misdemeanor for each such release or disclosure; and (i) The commissioner may postpone implementation of such pilot database and computer indicator system for a period of time not to exceed eighteen months if he or she determines that the program is not ready for implementation. Should the commissioner determine that such system cannot be implemented during the eighteen months extension, then the commissioner shall report to the legislature the reasons why such program cannot be implemented and request that the law be amended to delay its implementation date.

§ 314. Acceptance of financial security deposits. 1. All moneys or securities delivered to the commissioner as a financial security deposit shall be placed by the commissioner in the custody of the commissioner of taxation and finance and shall be subject to execution to satisfy any judgment for damages for bodily injury or death, or injury to or destruction of property, arising out of the ownership, maintenance, use or operation of the motor vehicle with respect to which the deposit has been accepted, and subject to the same limits on amounts required by this article for an owner's policy of liability insurance, and if such moneys or securities shall be otherwise subjected to attachment or any execution, the depositor shall immediately furnish such additional moneys or securities, not otherwise subject to attachment or execution, to meet the requirements of this article. 2. The commissioner shall not accept such moneys or securities as a financial security deposit unless accompanied by evidence that there are no unsatisfied judgments against such person registered in the office of the county clerk of the county where such person resides.

2024 New York LawsVAT - Vehicle and TrafficTitle 3 - Safety Responsibility; Financial Security; Equipment; Inspection; Size and Weight; and Other ProvisionsArticle 6 - Motor Vehicle Financial Security Act315 - Release of Financial Security Bonds or Deposits.

§ 315. Release of financial security bonds or deposits. 1. The commissioner, upon the surrender of the registration and number plates for a motor vehicle for which a financial security bond or deposit was accepted by the commissioner, shall permit the cancellation of any such bond or shall direct that any such deposit be returned by the commissioner of taxation and finance. The commissioner shall not release such bond or deposit in the event any action for damages upon a liability referred to in this article is

then pending or any judgment upon any such liability then outstanding and unsatisfied, or in the event the commissioner has received notice that such person has within the period of three months immediately preceding been involved as a driver in any motor vehicle accident. An affidavit of the applicant of non-existence of such facts shall be sufficient evidence thereof in the absence of evidence to the contrary in the records of the bureau. 2. The commissioner, subject to such reasonable regulations as he may establish shall permit the form of proof of financial security acceptable under this article to be substituted for another form of proof of financial security which may already have been accepted by the commissioner as complying with the provisions of this article.

2024 New York LawsVAT - Vehicle and TrafficTitle 3 - Safety Responsibility; Financial Security; Equipment; Inspection; Size and Weight; and Other ProvisionsArticle 6 - Motor Vehicle Financial Security Act316 - Self-Insurers.

§ 316. Self-insurers. The commissioner, in his discretion, may upon the application of a person having registered in his name in this state more than twenty-five motor vehicles, issue a certificate of self-insurance when he is reasonably satisfied that such person is possessed and will continue to be possessed of financial ability to respond to judgments obtained against such person, arising out of the ownership, maintenance, use or operation of any such person's motor vehicles. Upon due notice and hearing, the commissioner may, in his discretion and upon reasonable grounds, cancel a certificate of self-insurance. As a condition to the issuance of a certificate of self-insurance, the registrant shall pay annually in addition to any other fee prescribed by this chapter, a fee of one dollar and fifty cents for each motor vehicle registered in his name and the aggregate amount of such fees shall be applied in reduction of the assessment levied pursuant to section three hundred seventeen. As a further condition to the issuance of a certificate of self-insurance, the registrant shall pay annually in addition to any other fee prescribed by this chapter, an amount per vehicle to be determined by the Motor Vehicle Accident Indemnification Corporation pursuant to section five thousand two hundred seven of the insurance law for each motor vehicle registered in his name and the aggregate amount of such fees shall be transmitted by the commissioner to the Motor Vehicle Accident Indemnification Corporation continued pursuant to section five thousand two hundred three of the insurance law to be applied in reduction of assessments levied by said corporation pursuant to section five thousand two hundred seven of the insurance law. Notwithstanding the provisions of any other section, for the purposes of this section, the term "motor vehicle" shall include "snowmobiles" as defined by subdivision six of § 8-0105 of the conservation law.

2024 New York LawsVAT - Vehicle and TrafficTitle 3 - Safety Responsibility; Financial Security; Equipment; Inspection; Size and Weight; and Other ProvisionsArticle 6 - Motor Vehicle Financial Security Act317 - Expenses of Administering Article.

2. Estimate of expenses. (a) The commissioner annually, as soon as practicable, shall estimate the total amount of expenses which shall be incurred during the succeeding fiscal year in connection with the administration of this article. Such expenses, in addition to the direct costs of personal service, shall include the cost of maintenance and operation, the cost of retirement contributions made and workers' compensation premiums paid by the state for or on account of personnel, rentals for space occupied in state-owned or state-leased buildings, the amounts paid to a city, county, town, village or the division of state police for the enforcement of orders issued pursuant to this article and all other direct or indirect costs.(b) The commissioner shall on or before February first assess the total amount of such expenses, as so estimated, pro rata upon all insurance carriers subject to the provisions of this section in proportion to the premiums reported by such carriers to the department of financial services for policies or contracts of automobile bodily injury insurance on risks subject to this article resident or located in this state for the year prior to the previous calendar year.(c) For fiscal years beginning on and after April first, nineteen hundred eighty-three, each such insurance carrier shall make partial payments of the assessment levied against it as follows, one-quarter of the total on March tenth of the preceding fiscal year and one-quarter on June tenth, one-quarter on September tenth, and the balance on December tenth of the fiscal year, or on such other dates as the budget director may prescribe. Provided, however, that the payment due March tenth, nineteen hundred eighty-three for the fiscal year beginning April first, nineteen hundred eighty-three shall not be required to be paid until June tenth, nineteen hundred eighty-three. If the total amount due from any such carrier is less than one hundred dollars, no partial payment shall be made and the total amount due shall be paid on or before September thirtieth of the fiscal year.3. Final assessment. (a) The commissioner and the department of audit and control annually, as soon as practicable after April first, shall ascertain the total amount of expenses incurred during the preceding fiscal year in connection with the administration of this article. An itemized statement of the expenses so ascertained shall be open to public inspection in the office of the commissioner for thirty days after notice to those liable to be assessed for such expenses.(b) As soon as practicable after January first, each insurance carrier subject to the provisions of this section shall file with the commissioner a report of the total amount of gross direct premiums, less return premiums thereon received during the preceding calendar year for policies or contracts of automobile bodily injury insurance on risks subject to this article resident or located in this state.(c) The commissioner shall then determine the amount of expenses due from each insurance carrier subject to the provisions of this section based upon the final determination of total expenses and the final amount of premiums filed by the insurance carriers and shall notify each such insurance carrier of such assessment. Within thirty days of receipt of such notification each such carrier shall pay the total amount of such assessment less the total amount paid as a result of the estimated assessments. If the total amount of the final assessment is less than the amount already paid, such excess payment shall be refunded to such insurance carrier or at the option of the assessed applied to assessments for the succeeding fiscal year as requested by such insurance carriers.(d) To fully fund such pilot database system and bar code program established pursuant to subdivision four of section three hundred thirteen of this article, the commissioner shall utilize the following three sources of revenue: (1) twenty-five percent of all civil penalties imposed upon persons fined pursuant to paragraph (b) of subdivision one-a of

section three hundred eighteen of this article, (2) monies obtained from grants that may be awarded to the commissioner from the motor vehicle theft and insurance fraud prevention fund, and (3) pro rata assessments upon all insurance carriers subject to the provisions of this section in proportion to the premium estimates filed by such carriers.4. The commissioner shall levy and collect such assessments and pay the same into the state treasury, subject to the provisions of section one hundred twenty-one of the state finance law. (b) The commissioner shall on or before February first assess the total amount of such expenses, as so estimated, pro rata upon all insurance carriers subject to the provisions of this section in proportion to the premiums reported by such carriers to the department of financial services for policies or contracts of automobile bodily injury insurance on risks subject to this article resident or located in this state for the year prior to the previous calendar year. (c) For fiscal years beginning on and after April first, nineteen hundred eighty-three, each such insurance carrier shall make partial payments of the assessment levied against it as follows, one-quarter of the total on March tenth of the preceding fiscal year and one-quarter on June tenth, one-quarter on September tenth, and the balance on December tenth of the fiscal year, or on such other dates as the budget director may prescribe. Provided, however, that the payment due March tenth, nineteen hundred eighty-three for the fiscal year beginning April first, nineteen hundred eighty-three shall not be required to be paid until June tenth, nineteen hundred eighty-three. If the total amount due from any such carrier is less than one hundred dollars, no partial payment shall be made and the total amount due shall be paid on or before September thirtieth of the fiscal year. 3. Final assessment. (a) The commissioner and the department of audit and control annually, as soon as practicable after April first, shall ascertain the total amount of expenses incurred during the preceding fiscal year in connection with the administration of this article. An itemized statement of the expenses so ascertained shall be open to public inspection in the office of the commissioner for thirty days after notice to those liable to be assessed for such expenses. (b) As soon as practicable after January first, each insurance carrier subject to the provisions of this section shall file with the commissioner a report of the total amount of gross direct premiums, less return premiums thereon received during the preceding calendar year for policies or contracts of automobile bodily injury insurance on risks subject to this article resident or located in this state. (c) The commissioner shall then determine the amount of expenses due from each insurance carrier subject to the provisions of this section based upon the final determination of total expenses and the final amount of premiums filed by the insurance carriers and shall notify each such insurance carrier of such assessment. Within thirty days of receipt of such notification each such carrier shall pay the total amount of such assessment less the total amount paid as a result of the estimated assessments. If the total amount of the final assessment is less than the amount already paid, such excess payment shall be refunded to such insurance carrier or at the option of the assessed applied to assessments for the succeeding fiscal year as requested by such insurance carriers. (d) To fully fund such pilot database system and bar code program established pursuant to subdivision four of section three hundred thirteen of this article, the commissioner shall utilize the following three sources of revenue: (1) twenty-five percent of all civil penalties imposed upon persons fined pursuant to paragraph (b) of subdivision one-a of section three hundred eighteen of this article, (2) monies obtained from grants that may be awarded to the commissioner from the motor vehicle theft and insurance fraud prevention fund, and (3) pro rata assessments upon all insurance carriers subject to the provisions of this section in proportion to the premium estimates filed by such carriers. 4. The commissioner shall levy and collect such assessments and pay the same into the state treasury, subject to the provisions of section one hundred twenty-one of the state finance law.

(b) Such motor vehicle shall not be registered or reregistered in the name of such person, or in any other name where the commissioner has reasonable grounds to believe that such registration or reregistration will have the effect of defeating the purposes of this article, and no other motor vehicle shall be registered in the name of such person during the period of such suspension. (c) Suspension shall not be made under this subdivision upon the basis of a lapse or termination of insurance if the registration certificate and number plates of the motor vehicle are surrendered prior to the time at which the termination of insurance becomes effective. Such surrender shall be made to such officers of the department as the commissioner shall direct, but the registrant at his option may surrender the registration and number plates to any county clerk who is acting as an agent of the commissioner pursuant to section two hundred five of this chapter. Such county clerk may accept a surrender of registration and number plates and require the payment of a fee of one dollar whether such surrender is made before or after the effective date of termination of insurance. The county clerk shall retain any such fee which may have been collected, and shall return such registration certificates and number plates, or dispose of the same, only as prescribed by the commissioner. For the purposes of this section the expiration of a registration without renewal of such registration shall be deemed to be a surrender of registration as of the date of expiration. (d) Suspension shall not be made under this subdivision upon the basis of a lapse or termination of insurance if the vehicle has been, or will be, prior to the date of such lapse or termination, removed from the United States in North America and the Dominion of Canada for the purpose of international traffic, provided that the owner of such vehicle, prior to the date of such lapse or termination, has filed with the commissioner a statement, in a form prescribed by him, indicating that the vehicle has been, or will be, so removed, and agreeing to notify the commissioner immediately upon return of the vehicle to the United States in North America or the Dominion of Canada. Upon receipt of the foregoing statement the commissioner shall restrict the use of the registration to such international traffic until new proof of financial security has been secured for the vehicle. (e) Suspension need not be made under this subdivision upon the basis of a lapse or termination of insurance if the period of time during which the motor vehicle remained both registered and uninsured was not more than seven days. The commissioner shall promulgate regulations

governing the conditions under which suspension action may be withheld pursuant to this paragraph. 1-a. (a) The suspension of a registration provided in subdivision one of this section shall take effect on the date specified in the order of suspension and shall remain in effect until the registration certificate and number plates of the motor vehicle have been surrendered to the commissioner and thereafter for a period of time equal to the time from the date of termination of financial security to the date of such surrender or to the date upon which subsequent financial security was obtained or to the date on which the registrant no longer had an insurable interest in the vehicle. (b) Notwithstanding the provisions of paragraph (a) of this subdivision, an order of suspension issued pursuant to paragraph (a) or (e) of this subdivision may be terminated if the registrant pays to the commissioner a civil penalty in the amount of eight dollars for each day up to thirty days for which financial security was not in effect, plus ten dollars for each day from the thirty-first to the sixtieth day for which financial security was not in effect, plus twelve dollars for each day from the sixty-first to the ninetieth day for which financial security was not in effect. Of each ten dollar penalty collected, eight dollars will be deposited in the general fund and two dollars shall be deposited in the dedicated highway and bridge trust fund established pursuant to section eighty-nine-b of the state finance law and the dedicated mass transportation fund established pursuant to section eighty-nine-c of the state finance law and distributed according to the provisions of subdivision (d) of section three hundred one-j of the tax law. Of each twelve dollar penalty collected, eight dollars will be deposited into the general fund and four dollars shall be deposited in the dedicated highway and bridge trust fund established pursuant to section eighty-nine-b of the state finance law and the dedicated mass transportation fund established pursuant to section eighty-nine-c of the state finance law and distributed according to the provisions of subdivision (d) of section three hundred one-j of the tax law. The foregoing provision shall apply only once during any thirty-six month period and only if the registrant surrendered the certificate of registration and number plates to the commissioner not more than ninety days from the date of termination of financial security or submits to the commissioner new proof of financial security which took effect not more than ninety days from the termination of financial security. (c) No number plates shall be returned to the registrant until proof of financial security is submitted to the commissioner. (d) The provisions of this subdivision relating to termination of suspension upon payment of a civil penalty shall be applicable to a registrant only one time during any three year period. (e) If a registrant has not surrendered his certificate of registration and number plates or obtained financial security within ninety days from the date of termination of financial security, the commissioner shall suspend the driver's license of any such registrant. Such suspension shall take effect on the date specified in such order and shall remain in effect from the date of surrender of such license and thereafter for the period of time of the suspension of the registrant's registration. (g) Any civil penalty paid pursuant to paragraph (b) of this subdivision shall be separate and distinct from any civil penalty assessed pursuant to subdivision five of section three hundred nineteen of this chapter. 2. (a) The commissioner upon receipt of evidence that the owner of a motor vehicle registered in this state, or an unregistered motor vehicle, has operated, or permitted such motor vehicle to be operated upon the public highways of this or any other state while proof of financial security was not in effect with respect to such vehicle, shall revoke the registration, if any, of the vehicle and the driver's license, if any, of such owner. (b) Such motor vehicle shall not be registered in the name of such person, or in any other name where the commissioner has reasonable grounds to believe that such registration will have the effect of defeating the purpose of this article, and no other motor vehicle shall be registered in the name of such person, nor any driver's license issued to such person, for a period of one year from the date of such revocation. 3. (a) The commissioner, upon receipt of evidence that a person, other than the owner, has operated upon the public highways of this state a motor vehicle registered in this state, or an unregistered motor vehicle, with knowledge that proof of financial security was not in effect with respect to such vehicle, shall revoke the driver's license of such person, or if he is a non-resident, the non-resident driving privileges of such person. (b) No new driver's license shall be issued, or non-resident driving privilege restored to such person for a period of one year from the date of such revocation. (c) This subdivision shall not apply to any person who at the time of operation of such motor vehicle had in effect an operator's policy of liability insurance, as hereinafter defined, with respect to his operation of such vehicle or to a police officer or member of the state police who is compelled to assume the custody and operation of a motor vehicle of another because such motor vehicle was (1) stolen from or lost by the owner, (2) abandoned, either by the owner or any other person with or without the owner's consent, (3) is being operated by a person disabled so as not to be able to operate it properly, or (4) is being operated by an intoxicated person. 4. (a) The commissioner, upon receipt of evidence that the owner of a motor vehicle not registered in this state has operated or permitted such motor vehicle to be operated upon the public highways of this state while proof of financial security was not in effect with respect to such vehicle, shall revoke such person's privilege to operate any motor vehicle in this state and the privilege of the operation within this state of any motor vehicle owned by him. (b) Such non-resident privileges shall not be restored for a period of one year from the date of such revocation. 5. (a) The commissioner, upon receipt of evidence that a person, other than the owner of the vehicle, has operated upon the public highways of this state a motor vehicle not registered in this state, with knowledge that proof of financial security was not in effect with respect to such vehicle shall revoke the driver's license of such person, or if he is a non-resident, the non-resident privileges of such person. (b) No new driver's license shall be issued, or non-resident privilege restored to such person for a period of one year from the date of such revocation. (c) This subdivision shall not apply to any person who at the time of operation of such motor vehicle had in effect an operator's policy of liability insurance, as hereinafter defined, with respect to his operation of such motor vehicle or to a police officer or member of the state police who is compelled to assume the custody and operation of a motor vehicle of another because such motor vehicle was (1) stolen from or lost by the owner, (2) abandoned, either by the owner or any other person with or without the owner's consent, (3) is being operated by a person disabled so as not to be able to operate it properly, or (4) is being operated by an intoxicated person. 6. Notice of revocation pursuant to this section may be given to the owner of a vehicle registered in this state or to a driver licensed in this state, by mailing the same to such owner or licensee at the

address contained in the certificate of registration for the vehicle owned by such person or to the address contained on his or her driving license or to the current address provided by the United States postal service. 7. Failure of such owner or licensee to deliver a certificate of registration, number plates or driver's license to the commissioner after revocation thereof or as otherwise provided in section three hundred twelve shall constitute a misdemeanor. 8. An operator's policy of liability insurance, as used in this section, shall mean a policy issued by an insurance carrier duly authorized to transact business in the state which shall insure the person named therein as insured, against loss from the liability imposed upon him by law for damages, including damages for care and loss of services, because of bodily injury to or death of any person and injury to or destruction of property arising out of the use by him of any motor vehicle not owned by him, subject to the same minimum provisions and approval required by subdivision four of section three hundred eleven of this chapter, with respect to an owner's policy of liability insurance. With respect to a non-resident, such policy may also be issued by a non-admitted insurance carrier provided the requirements of this article with respect to issuance of an owner's policy of liability insurance by such carrier have been met. 9. (a) If a motor vehicle has been involved in an accident, and its registration or the driver's license of its operator, or both, have been revoked pursuant to this section, then neither such vehicle nor any other motor vehicle shall be registered or reregistered in the name of its owner or of any other person legally responsible for its use, nor shall any driver's license be issued to such owner, person or operator until one year has passed since the date of such revocation and, as the case may be, the commissioner has received the payments and evidence required by paragraph (c) below. (b) If a motor vehicle not registered in this state is involved in an accident in this state and the privilege of its operation within this state has been revoked, then neither its owner, any person legally responsible for its use nor its operator shall exercise the privilege of the operation of such vehicle within this state or the privilege of operation within this state of any motor vehicle, until one year has passed since the date of revocation and, as the case may be, the commissioner has received the payments and evidence as required in (c) below. (c) The payments and evidence referred to in paragraphs (a) and (b) above shall be evidence, satisfactory to the commissioner, (1) That no cause of action based upon such accident against such owner, person legally responsible or operator has been commenced within a period of one year from the date of the accident or a release thereof has been given to such owner, person or operator, or (2) That no judgment arising out of such cause of action for amounts within the limits stated in paragraph (a) of subdivision four of section three hundred eleven against such owner, person or operator remains unsatisfied, except that such registration and licensing privileges may be restored on compliance with the procedures permitting the payment of a judgment in installments provided in section three hundred thirty-four and (3) That all civil penalties required to be paid to the department pursuant to the provisions of subdivision five of section three hundred nineteen of this chapter have been paid. 10. The provisions of subdivision seven of section five hundred ten of this chapter shall apply to a revocation under this article. 11. (a) Where the license or privileges of any person, or the registration of a motor vehicle registered in his name, has been suspended or revoked under article six of this chapter, and the motor vehicle accident indemnification corporation or an insurer has paid any amount towards satisfaction of a judgment against such person, or has obtained a judgment against such person as a result of payments made to third parties such license, privileges or registration shall be suspended, or the suspension or revocation thereof shall be continued, as provided in this subdivision. (b) If the license, privileges or registration of such person has not been restored, the suspension or revocation thereof shall be continued pending the satisfaction of the requirements of paragraph (d) of this subdivision. (c) If the license, privileges or registration of such person has been restored, the commissioner shall suspend such license or privilege, and may suspend such registration, pending the satisfaction of the requirements of paragraph (d) of this subdivision. (d) Such suspensions and revocations shall be continued until such person has repaid to the corporation or to such insurer any amount so paid by it together with interest thereon at six per centum per annum from the date of such payment, unless such person submits to the procedure provided for the payment of judgments in installments under section three hundred thirty-four of this chapter. (e) A discharge in bankruptcy shall not relieve a person of the penalties and disabilities provided in this article. 12. (a) If the owner or operator of a motor vehicle in any manner involved in an accident occurring in this state resulting in death or bodily injuries to any person fails to produce satisfactory evidence as proof of financial security within forty-eight hours after the accident, the motor vehicle shall be subject to impoundment and any peace officer, acting pursuant to his special duties, or any police officer is authorized to impound and store such motor vehicle. If said motor vehicle is subject to impoundment and is not so impounded, the owner or his representative shall cause said motor vehicle to be stored in a public garage or storage place in this state as selected by the owner or representative and shall continue such storage for the period of time provided in this section. The aforementioned storage shall constitute "impoundment" within the meaning of this section. The cost of storage of any such impounded motor vehicle shall be borne by the owner. So long as the impoundment is in force no person shall remove the impounded vehicle or permit it to be removed from its place of impoundment except upon the order of the commissioner. (b) Immediately upon impoundment, the owner or his representative shall: 1. Notify the bailee of the impounded motor vehicle of the fact that the same is stored as an impounded vehicle, 2. Notify the commissioner in writing of the street address and city or municipality where said motor vehicle is stored, and 3. If the owner is a resident of this state, return the registration certificate and registration plates with respect to such motor vehicle to the commissioner. If the owner or his representative fails to store said motor vehicle as required by subdivision (a) and fails to return such registration certificate and registration plates, the commissioner is authorized to direct any peace officer acting pursuant to his special duties, or police officer to impound and store said motor vehicle at the expense of the owner and to take possession of the registration certificate and registration plates and return the same to the commissioner of motor vehicles. (c) The impoundment shall continue until (1) there is a final disposition of the claim for death or bodily injury of the person, resulting from the accident in which said motor vehicle was involved, by payment of a judgment or settlement by the owner, or by a final judgment in his favor, or (2) one year has elapsed since the date of the accident and no filing has been made pursuant to section five thousand two hundred

eight of the insurance law, or (3) a release of the motor vehicle upon order of the commissioner. The commissioner may order the release of said motor vehicle upon the depositing with the commissioner of taxation and finance of security or a bond in such form and amount as may be approved by the commissioner. If said motor vehicle is not released from impoundment after the lapse of one year, the commissioner may dispose of it by public sale and remit the proceeds from the sale to the commissioner of taxation and finance to be held pending the final disposition of the claim. (d) If repairs to an impounded motor vehicle are desired by the owner, he, with the permission of the commissioner, may authorize the motor vehicle to be taken to such repair shop or garage as he may select for the purpose of having it repaired at the owner's expense. Upon completion of such repairs, the motor vehicle shall be impounded as provided in subdivision (a). Where the commissioner is satisfied by such evidence as he deems sufficient, that any motor vehicle is so damaged that it cannot be restored to operable condition, he may, in his discretion, upon such conditions as he deems proper, consent to the release of said motor vehicle from impoundment. (e) No owner of a motor vehicle subject to impoundment hereunder shall transfer title to said motor vehicle nor his interest therein unless he furnishes to the commissioner security, in an amount which the commissioner is satisfied is equivalent to the value of said vehicle or his interest therein. (f) Nothing herein contained shall affect the rights or remedies of any person holding a prior valid lien on an impounded vehicle, including the right to take possession, existing at the effective date of this section or the right of the bailee to a lien for storage of the impounded vehicle; provided, that such person shall, after the sale of such vehicle for the satisfaction of any liens thereon, remit to the commissioner as deposits of security under this article on behalf of the former owner or purchaser of such vehicle any sums which such owner or purchaser would otherwise be entitled to receive. (g) Any person who wilfully violates any of the provisions of this subdivision shall, in addition to any other penalty provided by law, be liable to the people of this state for a penalty in an amount not less than one hundred dollars nor more than one thousand dollars for each violation. 13. (a) Subject to the provisions of paragraph (b), no revocation or suspension order shall be issued pursuant to this section, or if such revocation or suspension order has been issued, it shall be terminated, if the commissioner shall determine that the person involved was not aware of the fact that financial security was not in effect and the failure to have such financial security in effect was caused solely by the negligence or malfeasance of a person other than such person. (b) The burden of proving lack of knowledge that financial security was not in effect and that such failure resulted solely from the negligence or malfeasance of another shall be upon the person seeking to avoid revocation or suspension action. Such facts shall be established by clear and convincing evidence, either by the submission of affidavits or at a hearing called in the discretion of the commissioner. 14. No registration and/or license, which has been revoked pursuant to this section because the holder was convicted of driving without insurance in violation of subdivision one of section three hundred nineteen of this chapter, shall be restored until all civil penalties, required to be paid to the department pursuant to the provisions of subdivision five of section three hundred nineteen of this chapter, have been paid. 15. Notwithstanding any provisions of this section, a restricted use license or privilege of operating a motor vehicle in this state may be issued to a person who has had his license or such privilege revoked or suspended pursuant to any provision of this section in accordance with article twenty-one-A of this chapter.

2024 New York LawsVAT - Vehicle and TrafficTitle 3 - Safety Responsibility; Financial Security; Equipment; Inspection; Size and Weight; and Other ProvisionsArticle 6 - Motor Vehicle Financial Security Act319 - Penalties.

§ 319. Penalties. 1. Any owner of a motor vehicle registered in this state, or an unregistered motor vehicle, who shall operate such motor vehicle or permit it to be operated in this state without having in full force and effect the financial security required by the provisions of this chapter and any other person who shall operate in this state any motor vehicle registered in this state, or an unregistered motor vehicle, with the knowledge that the owner thereof does not have in full force and effect such proof of financial security, except a person who, at the time of operation of such motor vehicle, had in effect an operator's policy of liability insurance, as defined in section three hundred eighteen, with respect to his operation of such vehicle shall be guilty of a traffic infraction and upon conviction may be fined not less than one hundred fifty dollars or more than one thousand five hundred dollars or may be imprisoned for not more than fifteen days or both. In addition to the penalties herein set forth, such person, upon conviction, shall also become liable for payment to the department of the civil penalty provided in subdivision five of this section. 2. When the production of an insurance identification card is required by any provision of this chapter, no person shall produce an insurance identification card which indicates insurance coverage which is not in effect. In any prosecution or proceeding alleging a violation of this subdivision, it shall be an affirmative defense that the person so charged did not have knowledge that the insurance indicated on such card was not in effect. A violation of this subdivision shall be a misdemeanor. 3. Every person who operates a vehicle registered in this state, or a vehicle required to be registered in this state, shall, when required by the commissioner's regulations, produce an insurance identification card when requested by any peace officer, acting pursuant to his special duties, police officer or magistrate. The failure to so produce such a card shall be presumptive evidence that such person was operating the vehicle without having in effect financial security required by the provisions of this chapter. 4. Where the commissioner finds, other than by means of the receipt of a certificate of conviction, that a person has violated any provision of subdivision one of this section, such person shall become liable for payment to the department of the civil penalty provided in subdivision five of this section. However, the enforcement of such civil penalty, and of any revocation order based upon such finding, shall be stayed at the request of the person against whom such civil penalty and revocation order has been issued until after a hearing, provided such person was not both the operator and the owner of the motor vehicle which was being operated without the required financial security being in effect. After such hearing, the stay of enforcement of the civil penalty and revocation order shall be vacated unless it is found by a preponderance of the evidence that such person, (a) if he was the operator and not the owner of the motor vehicle, had no knowledge that the

financial security required for such motor vehicle was not in effect; or (b) if he was the owner and not the operator of the motor vehicle, that he did not permit, either expressly or impliedly, the operation of such motor vehicle. 5. The civil penalty for a violation of subdivision one of this section shall be seven hundred fifty dollars.

2024 New York LawsVAT - Vehicle and TrafficTitle 3 - Safety Responsibility; Financial Security; Equipment; Inspection; Size and Weight; and Other ProvisionsArticle 7 - Motor Vehicle Safety Responsibility Act335 - Security and Proof Required Following Accident.

Upon receipt of notice of such accident, the insurance carrier or surety company which issued such policy or bond shall furnish for filing with the commissioner a written notice that such policy or bond was in effect at the time of such accident or shall notify the commissioner in such manner as he may require in case such policy or bond was not in effect at the time of such accident. In case any such operator (or chauffeur) or owner has no license to operate issued under this chapter or no motor vehicle registered in his name in this state, he shall not be allowed a license or registration until he has complied with this article to the same extent as would be necessary if he had held an operator's or chauffeur's license and a motor vehicle registration issued under this chapter at the time of the accident.(b) Such security, where ordered, shall be in such form and in such amount as the commissioner may require, but in no case in excess of the amount of proof required by section three hundred forty-one of this article. The commissioner may reduce the amount of security ordered in any case within six months after the date of the accident, if, in his judgment, the amount ordered is too large. In case the security originally ordered has been deposited, the excess deposited over the reduced amount ordered shall be returned to the depositor or his personal representative forthwith, notwithstanding the provisions of subdivision (c) of this section.(c) Security furnished in compliance with the requirements of this section shall be placed by the commissioner in the custody of the commissioner of taxation and finance and shall be applicable only to the payment of a judgment against the depositor for damages arising out of the accident in question in an action at law begun not later than one year after the date of such accident or, upon assignment of the depositor, made not later than one year after the date of such accident, to the settlement of a claim arising out of such accident, or upon assignment of the depositor, made after the expiration of one year after the date of such accident, to the settlement of an action at law begun not later than one year after the date of such accident. All of such payments made out of the deposited security shall be made as follows: Payment shall first be made to each of the judgment creditors and to each of the claimants who have agreed to settle their claims, whose damages were evaluated by the commissioner, in an amount not greater than

the amount fixed in their respective evaluations. Whenever the commissioner shall be given evidence, satisfactory to him, that the amounts of all claims for damages against the depositor arising out of such accident are fixed, either by judgment or settlement agreement, payment shall be made out of any balance remaining after the first distribution to each of those persons whose judgments or settlement amounts have not been fully paid but whose damages were evaluated by the commissioner, in proportion to the amounts of their respective evaluations unless there is sufficient to make payment in full; and any balance remaining after the first and second distributions are completed shall be paid to those judgment creditors and those claimants who have agreed to settle their claims but whose damages were not evaluated, in proportion to the amounts of their respective judgments or settlement amounts unless there is sufficient to make payment in full. Such deposit, or any balance thereof, shall be returned to the depositor or his personal representative whenever after the expiration of such year, the commissioner shall be given evidence, satisfactory to him, that there is no such action pending and no such judgment unsatisfied or whenever, before the expiration of such year, the commissioner shall be given evidence, satisfactory to him, that there is no such judgment unsatisfied and that there is no existing cause of action against the depositor for damages arising out of such accident.(c-1) After security, furnished in compliance with the requirements of this section, has remained on deposit for five years, the commissioner shall make a determination as to whether the deposit, or any balance thereof, is returnable to the depositor or the person entitled thereto. In the event that such deposit, or any balance thereof, is determined to be returnable, but remains unclaimed by the depositor or the person entitled thereto for a period of one year following the date of such determination, such unclaimed deposit, or any balance thereof, shall be deemed abandoned property subject to the provisions of the abandoned property law.(d) The provisions of subdivision (a) of this section shall not apply to the owner of a motor vehicle operated by one having obtained possession or control thereof without the expressed or implied consent of such owner, to a police officer or member of the state police who is compelled to assume the custody and operation of a motor vehicle of another because such motor vehicle was (1) stolen from or lost by the owner, (2) abandoned, either by the owner or any other person with or without the owner's consent, (3) is being operated by a person disabled so as not to be able to operate it properly, or (4) is being operated by an intoxicated person; or to either the owner or operator of a motor vehicle involved in an accident wherein no damage or injury was caused to other than the person or property of such owner or operator.(e) In lieu of deposit of security when required pursuant to the provisions of this section the commissioner may accept a written agreement, executed and acknowledged by the person required to deposit security and any person who has sustained bodily injury, including death, or damage to his property, or his legal representative, providing for the payment of an agreed amount in installments, with respect to the claims of such person for injuries or damages resulting from the accident. In the event of default in payment of any installment under such agreement, then upon notice of such default the commissioner shall forthwith suspend the license and registration certificates and registration plates of the person in default until release has been filed with the commissioner indicating that the entire agreed amount has been paid. But in no case shall such agreement be used in lieu of proof of maintenance of financial responsibility in the future required pursuant to the provisions of this section. (b) Such security, where ordered, shall be in such form and in such amount as the commissioner may require, but in no case in excess of the amount of proof required by section three hundred forty-one of this article. The commissioner may reduce the amount of security ordered in any case within six months after the date of the accident, if, in his judgment, the amount ordered is too large. In case the security originally ordered has been deposited, the excess deposited over the reduced amount ordered shall be returned to the depositor or his personal representative forthwith, notwithstanding the provisions of subdivision (c) of this section. (c) Security furnished in compliance with the requirements of this section shall be placed by the commissioner in the custody of the commissioner of taxation and finance and shall be applicable only to the payment of a judgment against the depositor for damages arising out of the accident in question in an action at law begun not later than one year after the date of such accident or, upon assignment of the depositor, made not later than one year after the date of such accident, to the settlement of a claim arising out of such accident, or upon assignment of the depositor, made after the expiration of one year after the date of such accident, to the settlement of an action at law begun not later than one year after the date of such accident. All of such payments made out of the deposited security shall be made as follows: Payment shall first be made to each of the judgment creditors and to each of the claimants who have agreed to settle their claims, whose damages were evaluated by the commissioner, in an amount not greater than the amount fixed in their respective evaluations. Whenever the commissioner shall be given evidence, satisfactory to him, that the amounts of all claims for damages against the depositor arising out of such accident are fixed, either by judgment or settlement agreement, payment shall be made out of any balance remaining after the first distribution to each of those persons whose judgments or settlement amounts have not been fully paid but whose damages were evaluated by the commissioner, in proportion to the amounts of their respective evaluations unless there is sufficient to make payment in full; and any balance remaining after the first and second distributions are completed shall be paid to those judgment creditors and those claimants who have agreed to settle their claims but whose damages were not evaluated, in proportion to the amounts of their respective judgments or settlement amounts unless there is sufficient to make payment in full. Such deposit, or any balance thereof, shall be returned to the depositor or his personal representative whenever after the expiration of such year, the commissioner shall be given evidence, satisfactory to him, that there is no such action pending and no such judgment unsatisfied or whenever, before the expiration of such year, the commissioner shall be given evidence, satisfactory to him, that there is no such judgment unsatisfied and that there is no existing cause of action against the depositor for damages arising out of such accident. (c-1) After security, furnished in compliance with the requirements of this section, has remained on deposit for five years, the commissioner shall make a determination as to whether the deposit, or any balance thereof, is returnable to the depositor or the person entitled thereto. In the event that such deposit, or any balance thereof, is determined to be returnable, but remains unclaimed by the depositor or the person entitled thereto for a period of one year following the date of such determination, such

unclaimed deposit, or any balance thereof, shall be deemed abandoned property subject to the provisions of the abandoned property law. (d) The provisions of subdivision (a) of this section shall not apply to the owner of a motor vehicle operated by one having obtained possession or control thereof without the expressed or implied consent of such owner, to a police officer or member of the state police who is compelled to assume the custody and operation of a motor vehicle of another because such motor vehicle was (1) stolen from or lost by the owner, (2) abandoned, either by the owner or any other person with or without the owner's consent, (3) is being operated by a person disabled so as not to be able to operate it properly, or (4) is being operated by an intoxicated person; or to either the owner or operator of a motor vehicle involved in an accident wherein no damage or injury was caused to other than the person or property of such owner or operator. (e) In lieu of deposit of security when required pursuant to the provisions of this section the commissioner may accept a written agreement, executed and acknowledged by the person required to deposit security and any person who has sustained bodily injury, including death, or damage to his property, or his legal representative, providing for the payment of an agreed amount in installments, with respect to the claims of such person for injuries or damages resulting from the accident. In the event of default in payment of any installment under such agreement, then upon notice of such default the commissioner shall forthwith suspend the license and registration certificates and registration plates of the person in default until release has been filed with the commissioner indicating that the entire agreed amount has been paid. But in no case shall such agreement be used in lieu of proof of maintenance of financial responsibility in the future required pursuant to the provisions of this section.

§ 336. Duty of courts to report judgments. The clerk of the court, or the court where it has no clerk, shall, upon written request of the judgment creditor or his attorney, forward to the commissioner a certified copy of transcript of any judgment for damages, the rendering and non-payment of which judgment requires the commissioner to suspend the operator's or chauffeur's license and/or the registrations in the name of the judgment debtor hereunder, such copy or transcript to be forwarded to the commissioner immediately upon the expiration of fifteen days after such judgment has become final by expiration without appeal of the time within which appeal might have been perfected or by final affirmance on appeal, and has not been otherwise stayed, or satisfied.

2024 New York LawsVAT - Vehicle and TrafficTitle 3 - Safety Responsibility; Financial Security; Equipment; Inspection; Size and Weight; and Other ProvisionsArticle 7 - Motor Vehicle Safety Responsibility Act337 - Suspension, Duration.

(b) The suspension required in section three hundred thirty-five shall remain in effect, the motor vehicle in any manner involved in such accident shall not be registered in the name of the person whose license and/or registration certificate was so suspended, or in any other name where the commissioner has reasonable grounds to believe that such registration will have the effect of defeating the purposes of this article, and no other motor vehicle shall be registered in the name of such person nor any new licenses issued to such person, unless and until such person complies with the requirement with respect to furnishing security, or unless and until such person has obtained a release, or a favorable judgment in an action at law to recover damages resulting from such accident or unless such person shall have satisfied in the manner herein provided any judgment rendered against such person in such an action, or unless such judgment rendered against such person is discharged in bankruptcy, and at all events until such person gives and thereafter maintains proof of his financial responsibility. Provided, however, that any person whose license or registration became subject to suspension or has been suspended pursuant to subdivision (a) of section three hundred thirty-five, whether or not such person has furnished security and proof of financial responsibility, shall be relieved from furnishing or maintaining proof of financial responsibility if (1) one year has elapsed since the date of the accident, (2) nine months have elapsed since the date of compliance with any suspension order made against such person because of such accident, (3) such person has neither paid nor agreed in writing to pay anything for damages resulting from such accident, (4) no suit for damages because thereof has been brought against such person and (5) such person is not required to furnish or maintain proof of financial responsibility for some reason other than for having been involved in such accident. If a suit or suits for damages resulting from such accident shall have been brought and such suit or suits shall have resulted in a judgment or judgments, the successful person in such suit or suits shall be relieved from furnishing or maintaining proof of financial responsibility forthwith provided such person is not required to furnish or maintain such proof for reasons other than for having been involved in such accident and, in case such person has furnished security because of having been involved in such accident, it shall be returned to such person or the personal representative of such person forthwith notwithstanding the provisions of subdivision (c) of section three hundred thirty-five. The fact of having been involved in such accident shall not bar the issuance of license and registration to a person who has been relieved from furnishing or maintaining proof of financial responsibility pursuant to the provisions of this paragraph. (c) A discharge in bankruptcy following the rendering of any such judgment shall not relieve the judgment debtor from any of the requirements of this article unless otherwise provided in subdivisions (a) and (b) of this section.

2024 New York LawsVAT - Vehicle and TrafficTitle 3 - Safety Responsibility; Financial Security; Equipment; Inspection; Size and Weight; and Other ProvisionsArticle 7 - Motor Vehicle Safety Responsibility Act338 - Application to Non-Resident, Other Persons.

(b) All of the provisions of this article shall apply to any person who is not a resident of this state under the same circumstances as

they would apply to a resident; and, in such event, such a non-resident shall not operate any motor vehicle in this state nor shall any motor vehicle owned by him be operated in this state, unless and until such non-resident or the owner of the motor vehicle, if another person, has complied with the requirements of this article with respect to furnishing security and giving proof of financial responsibility in the future. (c) Upon conviction of a non-resident or in case of any unsatisfied judgment rendered against a non-resident which conviction or unsatisfied judgment results in suspension of such non-resident's driving privileges in this state and/or the prohibition of the operation within this state of any motor vehicle owned by such non-resident, the commissioner shall transmit a certified copy of any record of any such conviction or any such unsatisfied judgment or any other action pursuant to this article resulting in suspension of a non-resident's driving privileges in this state and/or the prohibition of the operation within this state of any motor vehicle owned by such non-resident to the motor vehicle commissioner or officer performing the functions of a commissioner in the state in which such non-resident resides. In case a non-resident's failure to comply with the provisions of section three hundred thirty-five results in suspension of such non-resident's rights and privileges in this state and/or prohibition of the operation within the state of any motor vehicle owned by such non-resident, the commissioner shall transmit a certified copy of the record of such action to the motor vehicle commissioner or officer performing the functions of the commissioner in the state in which such non-resident resides, if the law of such other state provides for action in relation thereto similar to that provided for in subdivision (d) of this section. (d) The commissioner shall take action as required anywhere in this article, upon receiving proper evidence that any resident of this state, has in any other state had his driving privileges suspended and/or the operation of any motor vehicle owned by him prohibited pursuant to a law of such other state providing for such suspension or prohibition because of a conviction or because of an unsatisfied judgment which would require the commissioner to suspend a non-resident's driving privileges had such a conviction or judgment been rendered in this state against a non-resident, provided, however, that no suspension or prohibition shall be effective until twenty days have elapsed from the date upon which notice of suspension shall have been mailed to the operator or owner during which period such operator or owner shall be permitted to submit evidence of satisfaction of the judgment or other evidence relating thereto. Upon receipt of a certification that the operating privilege of a resident of this state has been suspended, revoked or cancelled in any such other state pursuant to a law providing for its suspension, revocation or cancellation for failure to deposit security for the payment of a judgment as may arise out of a motor vehicle accident under circumstances which would require the commissioner to suspend a non-resident's operating privilege had the accident occurred in this state, the commissioner shall suspend the license of such resident if he was the operator, and all of his registrations if he was the owner of a motor vehicle involved in such accident. Such suspension shall continue until such resident furnishes evidence of his compliance with the law of such other state relating to the deposit of such security. In case such person is one who is furnished proof of financial responsibility by his employer, he shall not be required to furnish security. The commissioner shall designate the restrictions imposed by this section on the face of such person's operator's or chauffeur's license. If the owner of a motor vehicle is one who is required to furnish coverage for the vehicle under section three hundred seventy of this chapter, or one whose vehicles are operated under a permit or a certificate of convenience and necessity issued pursuant to the public service law or is a self-insurer, proof by the owner on behalf of another as provided by this section may be made if there is filed with the commissioner satisfactory evidence that such owner has complied with the law with respect to his liability for damage caused by the operation of his vehicles by providing the required insurance or other coverage or that he is a self-insurer.

2024 New York LawsVAT - Vehicle and TrafficTitle 3 - Safety Responsibility; Financial Security; Equipment; Inspection; Size and Weight; and Other ProvisionsArticle 7 - Motor Vehicle Safety Responsibility Act345 - Motor Vehicle Liability Policy.

(b) Such owner's policy of liability insurance (1) Shall designate by explicit description or by appropriate reference, all motor vehicles with respect to which coverage is thereby intended to be granted. (2) Shall insure as insured the person named therein and any other person using or responsible for the use of any such motor vehicle or motor vehicles with the consent, express or implied, of such named insured. (3) Shall insure the insured or such other person against loss from the liability imposed by law for damages, including damages for care and loss of services because of bodily injury to or death of any person and injury to or destruction of property arising out of the ownership, maintenance, use, or operation of such motor vehicle or motor vehicles within the state of New York, or elsewhere in the United States in North America or the Dominion of Canada, subject to a limit, exclusive of interest and cost, with respect to each such motor vehicle, except a tow truck, of twenty-five thousand dollars because of bodily injury to or fifty thousand dollars because of death of one person in any one accident and, subject to said limit for one person, to a limit of fifty thousand dollars because of bodily injury to or one hundred thousand dollars because of death of two or more persons in any one accident, and to a limit of ten thousand dollars because of injury to or destruction of property of others in any one accident. The limit, exclusive of interest and costs, with respect to a tow truck shall be a combined single limit of three hundred thousand dollars because of bodily injury of death to one or more persons or because of injury or destruction of property of others in any one accident, and to a limit of twenty-five thousand dollars because of damage to a vehicle in the care, custody and control of the insured. (c) Such operator's policy of liability insurance shall insure the person named therein as insured against loss from the

liability imposed upon him by law for damages, including damages for care and loss of services, because of bodily injury to or death of any person and injury to or destruction of property arising out of the use by him of any motor vehicle not owned by him, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to an owner's policy of liability insurance. (d) Such motor vehicle liability policy shall provide for the name and address of the named insured, the coverage afforded by the policy, the premium charged therefor, the policy period and the limits of liability, and shall contain an agreement that the insurance thereunder is provided in accordance with the coverage defined in this article as respects bodily injury and death or property damage or both and is subject to all the provisions of this article. (e) Such motor vehicle liability policy shall not insure any liability on account of bodily injury to or death of an employee of the insured for which benefits are payable under any workmen's compensation law. Nor is any such policy required to insure any liability on account of (1) damage to property of others in charge of the insured or of his agents or employees (2) bodily injury to or death of the insured, or (3) except as provided in paragraphs one and two of subsection (g) of section three thousand four hundred twenty of the insurance law, bodily injury to or death of the spouse of the insured, or for injury to property of the spouse of the insured; and any insurance of any such liability afforded by such a policy shall be subject to the provisions of subsection (f) of this section. (f) Such motor vehicle liability policy may, however, grant any lawful coverage in excess of or in addition to the coverage herein specified and such excess or additional coverage shall not be subject to the provisions of this article. (g) Several policies of one or more insurance carriers which together meet the requirements of this section shall be termed "motor vehicle liability policy" within the meaning of this article. (h) No motor vehicle liability policy shall be issued or delivered in this state until a copy of the form of policy shall have been on file with the superintendent of financial services for at least thirty days, unless sooner approved in writing by the superintendent of financial services, nor if within said period of thirty days the superintendent of financial services shall have notified the carrier in writing that in his opinion, specifying the reasons therefor, the form of policy does not comply with the laws of this state. The superintendent of financial services shall approve any form of policy which discloses the name and address of the insured, the coverage afforded by such policy, the premium charged therefor, the policy period, the limit of liability and the agreement that the insurance thereunder is provided in accordance with the coverage defined in this section and is subject to all the provisions of this article. (i) Every motor vehicle liability policy shall be subject to the following provisions which need not be contained therein: (1) The liability of any company under a motor vehicle liability policy shall become absolute whenever loss or damage covered by said policy occurs, and the satisfaction by the insured of a final judgment for such loss or damage shall not be a condition precedent to the right or duty of the carrier to make payment on account of such loss or damage. No such policy shall be cancelled or annulled as respects any loss or damage by any agreement between the carrier and the insured after the said insured has become responsible for such loss or damage, and any such cancellation or annullment shall be void. If the death of the insured shall occur after the insured has become liable during the policy period for loss or damage covered by the policy, the policy shall not be deemed terminated by such death with respect to such liability and the company shall be liable thereunder in the same manner and to the same extent as though death had not occurred. Upon the recovery of a final judgment against any person for any such loss or damage, if the judgment debtor or the decedent whom he represents was at the accrual of the cause of action insured against liability therefor under a motor vehicle liability policy, the judgment creditor shall be entitled to have the insurance money applied to the satisfaction of the judgment. But the policy may provide that the insured, or any other person covered by the policy, shall reimburse the company for payments made on account of any accident, claim or suit involving a breach of the terms, provisions or conditions of the policy; and further, if the policy shall provide for limits in excess of the limits designated in this section, the insurance carrier may plead against such judgment creditor, with respect to the amount of such excess limits of liability, any defenses which it may be entitled to plead against the insured. Any such policy may further provide for the prorating of the insurance thereunder with other applicable valid and collectible insurance. If the death, insolvency or bankruptcy of the insured shall occur within the policy period, the policy during the unexpired portion of such period shall cover the legal representatives of the insured. No statement made by the insured or on his behalf, and no violation of the terms of the policy, shall operate to defeat or avoid the policy so as to bar recovery within the limits provided in subdivision (b) of this section. (2) The policy, the written application therefor (if any) and any rider or endorsement, which shall not conflict with the provisions of this article, shall constitute the entire contract between the parties. (3) Any insurance carrier authorized to issue motor vehicle liability policies as provided for in this article may, pending the issue of such a policy, execute an agreement, to be known as a binder; or may, in lieu of such a policy issue an indorsement to an existing policy; each of which shall be construed to provide indemnity or protection in like manner and to the same extent as such a policy. The provisions of this section shall apply to such binders and endorsements.

(d) No such bond shall be cancelled unless ten days' prior written notice of cancellation is given the commissioner but cancellation of such bond shall not prevent recovery thereon with respect to any right or cause of action arising prior to the date of cancellation. (e) If a final judgment rendered against the principal on the bond filed with the commissioner as provided in this article shall not be satisfied within fifteen days after its rendition, the judgment creditor may, for his own use and benefit and at his sole expense, bring an action on said bond in the name of the state against the company or persons executing such bond.

A person, firm, association or corporation engaged in the business of renting or leasing rental vehicles to be operated upon the public highways for carrying passengers shall be subject to the provisions of this section in the same manner and to the same extent as if such person, firm, association or corporation were actually engaged in the business of carrying or transporting passengers for hire.Notwithstanding the provisions of subdivision one of this section, a person, firm, association or corporation engaged in the business of renting or leasing motor vehicles, having registered in this state more than twenty-five motor vehicles subject to the provisions of this section and who qualifies as hereinafter provided, may file a

If a vehicle subject to the provisions of this section or section three hundred seventy-one of this chapter shall be operated on a public highway without having the minimum corporate surety bond or policy of liability insurance, unless the owner shall have filed an approved certificate of insurance therefor, the driver's license, privileges and registration certificate or privilege of operation within this state of the owner and operator shall be subject to revocation and suspension as provided in articles six and seven of this chapter, in the same manner as if such vehicle were a private passenger vehicle, not used to carry persons for hire or profit.6. A bond or policy of insurance executed pursuant to the provisions of this subdivision need not be approved or filed notwithstanding any inconsistent provision of this section. 2. Any person, firm, association or corporation operating a motor vehicle or motorcycle as to which a bond or policy of insurance is required by this section who or which shall operate such vehicle, or cause the same to be operated, while such a bond or policy, or evidence thereof as required by this section, is not on file with the commissioner, and in full force and effect shall be guilty of a misdemeanor. 3.
