- (3) A police officer may not request a urine test unless the officer is certified by the Department of Public Safety Standards and Training as having completed at least eight hours of training in recognition of drug impaired driving and the officer has a reasonable suspicion that the person arrested has been driving while under the influence of an intoxicant other than intoxicating liquor or a combination of intoxicants.

If a person is subject to consecutive suspensions, the length of time that must elapse before the Department of Transportation may reinstate driving privileges or issue a hardship permit under ORS 813.520 shall be doubled.

(2) If a person refuses to submit to a urine test under ORS 813.131 (2), in addition to information described in ORS 813.130, the person asked to take the test shall be informed that if the person refuses to submit to the test, the person's driving privileges will be suspended for the same time period and with the same consequences as if the person had refused to submit to the breath test and that a suspension for refusal to submit to the urine test will be consecutive to any other suspension under the Motorist Implied Consent Law.

(4) May take into consideration whether the defendant will observe the restrictions contained in the diversion agreement.

(3) The form of the petition for an extension under this section shall be determined by the Supreme Court under ORS 1.525. The petition forms made available to a defendant by any city or state court shall conform to the requirements of the Supreme Court.

(4) The court may grant a petition for an extension filed under this section if the court finds that the defendant made a good faith effort to complete the conditions of the diversion agreement and that the defendant can complete the conditions of the diversion agreement within the requested extended diversion period.

(5) An extension granted under this section may be for no more than 180 days from the ending date of the original diversion period or for another time period the court allows under subsection (7) of this section.

(6) Except as provided in subsection (7) of this section, a court may grant a defendant only one extension of a diversion period under

this section.

(7) The court may extend the diversion period as necessary to allow the defendant sufficient time to complete the conditions of the diversion agreement if the defendant:

(a) Is a member of the Armed Forces of the United States, the reserve components of the Armed Forces of the United States or the National Guard;

(b) Is on active duty or has received orders that the defendant will be called to active duty; and

(c) Demonstrates that the military service will impair the defendant's ability to complete the conditions of the diversion agreement and no comparable treatment program described in ORS 813.233 is available.

(8) If the court grants the petition for an extension under this section, the following apply:

(a) If the defendant fully complies with the conditions of the diversion agreement within the extended diversion period, the court may dismiss the charge with prejudice under ORS 813.250.

(b) If the court finds that the defendant failed to comply with the diversion agreement within the extended diversion period, the court shall enter the guilty plea or no contest plea filed as part of the petition for a diversion agreement, shall enter a judgment of conviction and shall sentence the defendant.

(9) If the court denies the petition for an extension under this section, the court shall enter the guilty plea or no contest plea filed as part of the petition for a diversion agreement, shall enter a judgment of conviction and shall sentence the defendant. (a) Accept the guilty plea or no contest plea filed as part of the petition for a diversion agreement but withhold entry of a judgment of conviction; and

(b) Sign the petition and indicate thereon the date of allowance of the diversion period, the length of the diversion period and the date upon which the driving while under the influence offense occurred.

(2) The petition when signed and dated becomes the diversion agreement between the defendant and the court. The court shall make the agreement a part of the record of the case. The court shall notify the Department of Transportation of the diversion agreement in a form agreed to by the department and the State Court Administrator within 48 hours after allowing the petition. The department shall make the fact of the diversion agreement a part of the defendant's operating record.

During the diversion period the court shall stay the driving while under the influence of intoxicants offense proceeding pending completion of the diversion agreement or its termination.

(4) When the court denies a petition for a driving while under the influence of intoxicants diversion agreement, it shall continue the offense proceeding against the defendant. If the court requires attendance under this section, the court may require the defendant, as part of the diversion agreement, to pay a reasonable fee to the victim impact program to offset the cost of the defendant's participation. The fee shall be established for each county by the victim impact panel coordinator and steering committee of that county and shall be not less than \$5 or more than \$50. If the fee is collected in a municipal or justice court, \$290 of the fee shall be forwarded by the court to the Department of Revenue for deposit in the Criminal Fine Account, and the remainder of the fee shall be paid to the city or county treasurer.

(2) If less than the full filing fee is collected under subsection (1) of this section in a municipal or justice court, the money received shall be allocated first to the Department of Revenue for deposit in the Criminal Fine Account.

(1) At any time before the court dismisses with prejudice the charge of driving while under the influence of intoxicants, the court on its own motion or on the motion of the district attorney or city attorney may issue an order requiring the defendant to appear and show cause why the court should not terminate the diversion agreement. The order to show cause must:

- (a) State the reasons for the proposed termination;
- (b) Specify the amount of any fees owed and, if the amount owed is \$500 or less, inform the defendant that the court may dismiss with prejudice the charge of driving while under the influence of intoxicants if the person has complied with and performed all of the conditions of the diversion agreement and pays the remaining amount before or on the date of the hearing; and
- (c) Set an appearance date.

(2) The order to show cause shall be served on the defendant and on the defendant's attorney, if any. Service may be made by first class mail, postage paid, addressed to the defendant at the mailing address shown on the diversion petition and agreement or at any other address that the defendant provides in writing to the court.

(3) Except as provided in subsections (4), (5) and (6) of this section, the court shall terminate the diversion agreement and enter the guilty plea or no contest plea that was filed as part of the petition for the diversion agreement if the defendant fails to appear at the hearing on the order to show cause or if, at the hearing on the order to show cause, the court finds by a preponderance of the evidence that:

- (a) The defendant no longer qualifies for the diversion agreement under the conditions described in ORS 813.215; or
  - (b) The defendant failed to fulfill all of the terms of the diversion agreement.
- (4) If a defendant is a member of the Armed Forces of the United States, the reserve components of the Armed Forces of the United States or the National Guard and is on active duty, the court shall:

  - (b) Stay the termination proceeding if the defendant's military service prohibits the defendant's appearance by telephone or other communication device and prohibits the defendant from aiding and assisting the attorney who would appear on the defendant's behalf.

(5) If the defendant appears at the hearing on the order to show cause, the court shall dismiss with prejudice the charge of driving while under the influence of intoxicants if:

- (a) The defendant has complied with and performed all of the conditions of the diversion agreement except that the defendant owes \$500 or less of the fees required under ORS 813.200, 813.210, 813.235 and 813.240; and
- (b) The defendant pays the balance of the fees owed by 5 p.m. on the day the hearing is held. The defendant may also pay the balance of the fees owed before the day the hearing is held.

(6) A court may not terminate a diversion agreement under this section for failure to pay restitution under ORS 137.108 if the defendant has otherwise complied with and performed all of the conditions of the diversion agreement.

(7) Before the court dismisses with prejudice the charge of driving while under the influence of intoxicants under this section, the court shall enter a judgment containing a money award, as defined in ORS 18.005, for any remaining amount of restitution owed by the defendant.

Wherever possible a court shall designate agencies or organizations to perform the screening interview that are separate from those that may be designated to carry out a program of treatment.

(2) Monitoring of a defendant's progress under a diversion agreement shall be the responsibility of the agency or organization performing the screening interview. The agency or organization shall make a report to the court stating the defendant's successful completion or failure to complete all or any part of the treatment program specified by the screening interview. The form of the report shall be determined by agreement between the court and the agency or organization performing the screening interview. (2) If a police officer testifies in a proceeding arising from the arrest of a person for driving while under the influence of intoxicants that the officer has a valid permit to perform analysis of a person's breath, the defendant has the burden of moving forward with evidence to show that the officer does not have a valid permit. (1) In a prosecution for felony driving while under the influence of intoxicants under ORS 813.010, the state shall plead the prior convictions and shall prove the prior convictions unless the defendant stipulates to that fact prior to trial. If the defendant so stipulates and the trial is by jury:

(a) The court shall accept the stipulation regardless of whether or not the state agrees to it;

(b) The defendant's stipulation to the prior convictions constitutes a judicial admission to that element of the accusatory instrument. The stipulation shall be made a part of the record of the case, but shall not be offered or received in the presence of the jury;

(c) For the purpose of establishing the prior convictions solely as an element of the crime under ORS 813.010, neither the court nor the state shall reveal to the jury the prior convictions, but the prior convictions are established in the record by the defendant's stipulation; and

(d) The court shall not submit the accusatory instrument or evidence of the prior convictions to the jury.

(2) In a proceeding under ORS 813.010, the state may offer, and the court may receive and submit to the jury, evidence of the prior convictions for impeachment of the defendant or another purpose, other than establishing the prior convictions as an element of the offense, when the evidence of the prior convictions is otherwise admissible for that purpose. When evidence of the prior convictions has been admitted by the court, the state may comment upon, and the court may give instructions about, the evidence of the prior convictions only to the extent that the comments or instructions relate to the purpose for which the evidence was admitted.

(3) When the defendant stipulates to the prior convictions required as an element of felony driving while under the influence of intoxicants under ORS 813.010, if the jury finds the defendant guilty upon instruction regarding the balance of the elements of the crime, the court shall enter a judgment of guilty of felony driving while under the influence of intoxicants.

(4) As used in this section, "conviction" includes a juvenile adjudication. [1999 c.1049 §5; 2009 c.525 §2]

The validity of the prior convictions shall be determined prior to trial by the court.

The suspension shall be for a period described under Schedule II of ORS 809.428, except the department shall not reinstate any driving privileges to the person until the person complies with future responsibility filings. A person is entitled to administrative review under ORS 809.440 of a suspension imposed under this subsection.

(2) A person convicted of felony driving while under the influence of intoxicants, or a person convicted of misdemeanor driving while under the influence of intoxicants for a third or subsequent time, is subject to revocation of driving privileges as provided in ORS 809.235.

(3) The provisions of this section do not apply to convictions of driving while under the influence of intoxicants if the offense was committed while the person was riding a bicycle.

(1) If the Department of Transportation receives from a police officer a report that is in substantial compliance with ORS 813.120, the department shall suspend the driving privileges of the person in this state on the 30th day after the date of arrest or, if the report indicates that the person failed a blood test, on the 60th day after receipt of the report, unless, at a hearing described under this section, the department determines that the suspension would not be valid as described in this section. A suspension of driving privileges imposed under this subsection shall be for a period of time established under ORS 813.420.

(2) If the department receives from a police officer a report under ORS 813.120 and the person holds commercial driving privileges and the person was driving a motor vehicle or commercial motor vehicle and refused to submit to a test under ORS 813.100 or the person was driving a commercial motor vehicle and submitted to a breath or blood test and the person's blood, as shown by the test, had 0.04 percent or more by weight of alcohol, the department shall suspend the person's commercial driving privileges on the 30th day after the date of arrest or, if the report indicates that the person failed a blood test, on the 60th day after receipt of the report, unless, at a hearing described under this section, the department determines that the suspension would not be valid as described in this section. A commercial driving privileges suspension imposed under this subsection shall be for a period of time established under ORS 809.510 or 809.520.

(3) If the department receives from a police officer a report under ORS 813.120 and the person holds commercial driving privileges and the person was driving a motor vehicle that is not a commercial motor vehicle and submitted to a breath or blood test and the person's blood, as shown by the test, had 0.08 percent or more by weight of alcohol, the department shall suspend the person's commercial driving privileges on the 30th day after the date of arrest or, if the report indicates that the person failed a blood test, on the 60th day after receipt of the report, unless, at a hearing described under this section, the department determines that the suspension would not be valid as described in this section. A commercial driving privileges suspension imposed under this subsection shall be for a period of time established under ORS 809.510 or 809.520.

(4) If within 10 days from the date of arrest, or, if the person fails a blood test, within 10 days from the date the department sends notice of suspension, the department receives a request for a hearing from a person whose driving privileges or commercial driving privileges the department proposes to suspend under this section, the department shall provide a hearing in accordance with this section. The person shall request a hearing in the form and manner prescribed by the department by rule. Except as otherwise provided under this section, a hearing held by the department under this section is subject to the provisions for contested cases, other than appeal provisions, under ORS chapter 183. The applicable appeal provisions are as provided under ORS 813.450 and section 24, chapter 672, Oregon Laws 1985. Notwithstanding ORS 809.430, the department is not required to give any notice of intent to suspend or suspension in addition to that provided under ORS 813.100.

(5) Except as provided in subsection (6) of this section, a hearing required by this section is subject to all of the following:

(a) The hearing shall be conducted by an administrative law judge assigned from the Office of Administrative Hearings established under ORS 183.605.

(b) The administrative law judge shall conduct the hearing by telephone or other two-way electronic communication device.

(c) The department may authorize the administrative law judge to issue a final order in any case.

(d) A person who requests a hearing under this section and who fails, without just cause, to appear personally or through an attorney waives the right to a hearing. If a person waives a right to a hearing under this paragraph, the department is not required to make any showing at hearing.

(e) Except as provided in ORS 813.440 or upon remand under ORS 813.450, the department shall hold the hearing and issue a final order within 30 days of the date of the arrest or, if the person fails a blood test, within 60 days from the date the department received the report of the failure.

- (f) In connection with the hearing, the department or its authorized representative may administer oaths and shall issue subpoenas for the appearance of witnesses by telephone or other two-way electronic communication device at the hearing requested by the person or the department and the production of relevant documents.
- (g) The hearing shall be recorded by whatever means may be determined by the department and shall include testimony and exhibits, if any. The record of the proceedings may not be transcribed unless requested by a party to the proceeding.
- (6) Subject to subsection (7) of this section:
- (a) A person or a police officer may request that a hearing required by this section be conducted in person.
- (b) The department, by rule, shall establish the manner and time limitation requirements by which a person or a police officer may request that a hearing be conducted in person.
- (c) Unless there is an agreement between the person and the department that the hearing be conducted elsewhere, a hearing requested under this subsection shall be held either in the county where the alleged offense occurred or at any place within 100 miles of the place where the offense is alleged to have occurred, as established by the department by rule.
- (d) In connection with the hearing, the department or its authorized representative may administer oaths and shall issue subpoenas for the attendance of witnesses at the hearing requested under this subsection by the person and the production of relevant documents.
- (7) The chief administrative law judge may require that a hearing required by this section be conducted by telephone or other two-way electronic communication device when the judge determines that a hearing conducted in person would pose a significant risk to health or safety, including risks associated with travel to the hearing location.
- (8) This subsection shall be narrowly construed so as to effect the legislative purpose of limiting the scope of hearings under this section. The scope of a hearing under this section shall be limited to whether the suspension is valid as described in this subsection. A suspension under this section is valid if all of the following requirements have been met:
- (a) The person, at the time the person was requested to submit to a test under ORS 813.100, was under arrest for driving while under the influence of intoxicants in violation of ORS 813.010 or a municipal ordinance.
- (b) The police had reasonable grounds to believe, at the time the request was made, that the person arrested had been driving under the influence of intoxicants in violation of ORS 813.010 or of a municipal ordinance.
- (c) The person refused a test under ORS 813.100, or took a breath or blood test and the test disclosed that the level of alcohol in the person's blood at the time of the test was:
- (A) 0.08 percent or more by weight if the person was not driving a commercial motor vehicle;
- (B) 0.04 percent or more by weight if the person was driving a commercial motor vehicle; or
- (C) Any amount if the person was under 21 years of age.
- (d) If the report under ORS 813.120 indicates that the person was driving a commercial motor vehicle, the vehicle was in fact a commercial motor vehicle as defined in ORS 801.208.
- (e) The person had been informed under ORS 813.100 of rights and consequences as described under ORS 813.130.
- (f) The person was given written notice required under ORS 813.100.
- (g) If the person arrested submitted to a test under ORS 813.100, the person administering the test was qualified to administer the test under ORS 813.160.
- (h) If the person arrested submitted to a test under ORS 813.100, the methods, procedures and equipment used in the test complied with requirements under ORS 813.160.
- (9) A suspension imposed under this section shall remain in effect pending any appeal or remand of a final order issued under this section and there shall be no stay of the suspension pending appeal or remand.
- (10) Unless a person fails, without just cause, to appear personally or through an attorney at a hearing requested under this section, a person shall have the right to appeal any final order by the department after a hearing under this section by filing a petition. The following apply to this subsection:
- (a) The person shall file the petition in the circuit court for the county where the person resides or, if the person does not reside in Oregon, in the circuit court of the county in which the arrest took place within 30 days after issuance of the final order of the department.
- (b) The court upon receipt of the petition shall set the matter for hearing upon 10 days' notice to the department and the petitioner unless hearing is waived by both the department and the petitioner. When the Department of Transportation imposes a suspension under ORS 813.410, the suspension shall be for a period of time determined according to the following:

- (1) If the suspension is for refusal of a test under ORS 813.100 and the person is not subject to an increase in the suspension time for reasons described in ORS 813.430, the suspension shall be for a period of one year.
- (2) If the suspension is for refusal of a test under ORS 813.100 and the person is subject to an increase in the suspension time for reasons described in ORS 813.430, the suspension shall be for a period of three years.
- (3) If the suspension is because a breath or blood test under ORS 813.100 disclosed that the person had a level of alcohol in the person's blood that constituted being under the influence of intoxicating liquor under ORS 813.300 and the person is not subject to an increase in the suspension time for reasons described in ORS 813.430, the suspension shall be for a period of 90 days.
- (4) If the suspension is because a breath or blood test under ORS 813.100 disclosed that the person had a level of alcohol in the person's blood that constituted being under the influence of intoxicating liquor under ORS 813.300 and the person is subject to an increase in the suspension time for reasons described in ORS 813.430, the suspension shall be for a period of one year. **2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 813 - Driving Under the Influence of Intoxicants Section 813.430 - Grounds for increase in duration of suspension.**

This section establishes circumstances under which ORS 813.420 requires an increase in the time for suspension of driving privileges and under which ORS 813.520 requires an increase in the time before the Department of Transportation may issue a hardship permit. A person is subject to an increase in suspension time under this section if any of the following apply:

- (1) The person is presently participating in a driving while under the influence of intoxicants diversion program in this state or in any similar alcohol or drug rehabilitation program in this or another jurisdiction.
- (2) Within the five years preceding the date of arrest any of the following occurred:
  - (a) A suspension of the person's driving privileges under ORS 813.410 or 482.540 (1981 Replacement Part) became effective.
  - (b) The person was convicted of:
    - (A) Driving while under the influence of intoxicants in violation of:
      - (i) ORS 813.010;
      - (ii) The statutory counterpart to ORS 813.010 in another jurisdiction; or
      - (iii) A municipal ordinance in this state or another jurisdiction;
    - (B) A driving under the influence of intoxicants offense in another jurisdiction that involved the impaired driving of a vehicle due to the use of an intoxicant or a combination of intoxicants; or
    - (C) A driving offense in another jurisdiction that involved operating a vehicle while having a blood alcohol content above that jurisdiction's permissible blood alcohol content.
  - (c) The person commenced participating in a driving while under the influence of intoxicants diversion program in this state or in any similar alcohol or drug rehabilitation program in this or another jurisdiction.
- (3) For the purposes of subsection (2)(b) of this section, a conviction for a driving offense in another jurisdiction based solely on a person under 21 years of age having a blood alcohol content that is lower than the permissible blood alcohol content in that jurisdiction for a person 21 years of age or older does not constitute a prior conviction. **2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 813 - Driving Under the Influence of Intoxicants Section 813.440 - Grounds for hearing on validity of suspension; rules.**

- (1) Notwithstanding ORS 813.410, the Department of Transportation may provide a hearing to determine the validity of a suspension under ORS 813.410 only if the time requirements under ORS 813.410 could not be met because of any of the following:
  - (a) The person's physical incapacity, verified by a physician to the satisfaction of the department to be of a nature that would prevent the person from making the appropriate request or attending the hearing.
  - (b) A death in the immediate family of the person, verified to the satisfaction of the department.
  - (c) An error of the department.
  - (d) The inability of a subpoenaed police officer to appear due to the officer's illness, vacation or official duty conflicts. The department shall set forth by rule the conditions that constitute "official duty conflicts." A hearing may not be rescheduled more than once for reasons described in this paragraph.
  - (e) A request for a change of administrative law judge under ORS 183.645.
  - (f) The inability of the person's attorney to appear due to the attorney's illness, vacation or scheduling conflict arising from other

court or administrative hearing appearances. A hearing must be rescheduled no later than 45 days after the date of the original hearing and may not be rescheduled more than once for reasons described in this paragraph.

(g) Other just cause as defined by the department by administrative rule.

(2) A hearing held under this section is subject to the same provisions as a hearing held under ORS 813.410, except that the department is not required to hold the hearing and make the determination within the time required by ORS 813.410.

(3) The granting of a hearing under this section shall not delay the imposition of a suspension under ORS 813.410 within the time required under ORS 813.410. However, if a person establishes that the person was deprived by either department error or a subpoenaed police officer's illness, vacation or official duty conflicts of an opportunity to appear at a hearing, the department shall rescind the suspension and shall promptly schedule a subsequent hearing to determine the validity of the suspension under ORS 813.410. In other cases under this section, when the department is unable to hold the hearing within the time required by ORS 813.410, the department shall rescind any suspension imposed under ORS 813.410 only if the department determines, at a hearing held under this section, that the suspension was not valid as described under ORS 813.410.

(4) The following apply to this section:

(a) The department shall issue a final order within 10 days after the hearing described in this section.

(b) If the department has rescinded a suspension under subsection (3) of this section and if the department, at the hearing described in this section, determines that the suspension is valid as described under ORS 813.410, the department shall reinstate the suspension effective five days after the final order is issued.

(c) Notwithstanding ORS 809.430, no additional notice or order of suspension need be given. [1985 c.16 §169; 1985 c.672 §14; 1987 c.272 §5; 1993 c.600 §2; 1999 c.831 §1; 2001 c.294 §§9,10; 2003 c.75 §68; 2009 c.520 §1]

**2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 813 - Driving Under the Influence of Intoxicants Section 813.450 - Appeal from suspension for refusal or failure of breath test.**

(1) The petition to the circuit court appealing an order of the Department of Transportation after a hearing under ORS 813.410 shall state the nature of the petitioner's interest and the ground or grounds upon which the petitioner contends the order should be reversed or remanded.

(2) The court shall conduct the review without a jury. Review shall be limited to the record of the department's hearing.

(3) Any party to the proceedings before the circuit court may appeal from the judgment of the court to the Court of Appeals.

(4) Upon review in the circuit court and Court of Appeals, the court may affirm, reverse or remand the order as follows:

(a) If the court finds that the department has erroneously interpreted a provision of law and that a correct interpretation compels a particular action, it shall:

(A) Set aside or modify the order; or

(B) Remand the case to the department for further action under a correct interpretation of the provision of law.

(b) The court shall remand the order to the department if it finds the department's exercise of discretion to be any of the following:

(A) Outside the range of discretion delegated to the agency by law.

(B) Inconsistent with a department rule, an officially stated department position, or a prior department practice, if the inconsistency is not explained by the department.

(C) Otherwise in violation of a constitutional or statutory provision.

(c) The court shall set aside or remand the order if it finds that the order is not supported by substantial evidence in the record.

(5) Upon review, the court shall affirm the department's order unless the court finds a ground for setting aside, modifying or remanding to the department under a specified provision of this section.

(6) In any review under this section, the court shall also review de novo determinations made by an agency that are subject to ORS 183.650 (4). [1985 c.672 §23; 1999 c.849 §§196,197; 2003 c.75 §69]

**2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 813 - Driving Under the Influence of Intoxicants Section 813.460 - Department procedures upon verification of suspension of driving privileges of wrong person.**

If the Department of Transportation verifies to its satisfaction that it has suspended the driving privileges of the wrong person under ORS 813.410 because a person arrested for driving under the influence of intoxicants gave false identification at the time of the arrest, all the following apply:

(1) The department shall immediately rescind the suspension order under the false name and shall issue a suspension order for the period set forth in ORS 813.420 to the person arrested.

(2) The department shall issue the order in the manner set forth in ORS 809.430.

(3) No further notice of suspension need be given.

(4) The time limitations in ORS 813.410 (1), (2), (3), (4) and (5)(e) do not apply to a suspension order issued under this section.

**2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 813 - Driving Under the Influence of Intoxicants Section 813.470 - Department notation on record of person acquitted after suspension.**

The Department of Transportation shall make a notation on the driving record of a person indicating that the person was acquitted of

a charge of driving under the influence of intoxicants if:

- (1) The person's driving privileges were suspended because a breath or blood test under ORS 813.100 disclosed that the person had a level of alcohol in the person's blood that constituted being under the influence of intoxicating liquor under ORS 813.300;
- (2) An accusatory instrument was filed charging the person with driving under the influence of intoxicants in violation of ORS 813.010 arising out of the same incident that led to the suspension of the person's driving privileges;
- (3) The person was acquitted of the charge; and
- (4) The person presents the department with a certified copy of the judgment of acquittal from the court clearly showing the location of the court, the date of the arrest and the findings of the court. [1987 c.303 §2; 1993 c.305 §8; 1995 c.568 §8]

The Department of Transportation may not reinstate any driving privileges or issue any hardship permit under ORS 807.240 as provided under any of the following:

- (1) For a period of 90 days after the beginning of the suspension if the suspension is for refusal of a test under ORS 813.100 and the person is not subject to an increase in the time before a permit may be issued for reasons described in ORS 813.430.
- (2) For a period of 30 days after the beginning of the suspension if the suspension is because a breath or blood test under ORS 813.100 disclosed that the person had a level of alcohol in the person's blood that constituted being under the influence of intoxicating liquor under ORS 813.300 and the person is not subject to an increase in the time before a hardship permit may be issued for reasons described in ORS 813.430.
- (3) For a period of one year after the beginning of the suspension if the suspension is because a breath or blood test under ORS 813.100 disclosed that the person had a level of alcohol in the person's blood that constituted being under the influence of intoxicating liquor under ORS 813.300 and the person is subject to an increase in the time before a hardship permit may be issued for reasons described under ORS 813.430.
- (4) For a period of three years after the beginning of the suspension if the suspension is for refusal of a test under ORS 813.100 and the person is subject to an increase in the time before a hardship permit may be issued for reasons described in ORS 813.430.
- (5) To any person who has a mental or physical condition or impairment that affects the person's ability to safely operate a motor vehicle.
- (6) If the suspension is based upon a conviction for a violation of ORS 813.010 or is imposed under ORS 813.410 based upon ORS 813.100 to a person who has available public or private transportation sufficient to fulfill the person's transportation needs while the person is suspended.

**2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 818 - Vehicle Limits Section 818.010 - Maximum allowable weight.**

This section establishes maximum weight limitations for purposes of ORS 818.020. Except as provided in subsections (4) and (5) of this section or where an exemption under ORS 818.030 specifically provides otherwise, a loaded weight that exceeds the maximum allowable weight as determined by any of the following tables exceeds the maximum weight limitations for purposes of ORS 818.020:

(1) A vehicle exceeds the maximum allowable weight if the loaded weight of an axle or tandem axle is in excess of that determined by the formula in the following table:

---

Table I

The manufacturer's side wall tire rating (but not to exceed 600 pounds)  $\times$  the sum of the tire widths, in inches, of the wheels of the axle or tandem axles = maximum allowable weight.

---

For purposes of the table in this subsection tire width is determined by measuring the cross section of the tread of a wheel, the outer face of a track or the runner of a sled except for the following:

(a) For solid tires made of elastic material, tire width is determined by measuring the cross section between the flanges of the circumference of a wheel at the base of the tire as customarily measured and rated by the manufacturers of motor vehicles and tires.

(b) For pneumatic tires made of elastic material, tire width is the diameter of the cross section of the tire as customarily measured and rated by the manufacturers of motor vehicles and tires.

(2) A vehicle or combination of vehicles exceeds the maximum allowable weight if the loaded weight measured at any of the places designated on the following table exceeds the maximum allowable weight established on the table for measurement at that place:

---

Table II

Place for measurement	Maximum allowable weight in pounds
Any individual wheel	10,000
Any axle	20,000
Any tandem axles	34,000

---

(3) A vehicle, group of axles or combination of vehicles exceeds the maximum allowable weight if the loaded weight is in excess of maximum allowable weight as determined by the method in the following table that produces the lower allowable maximum weight:

---

Table III

(Maximum allowable weight determined by whichever of the following methods produces lower weight:)

Method A

The sum of permissible axle, tandem axles or group of axles weights as determined under Table I or II of this section is the maximum allowable weight.

**2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 818 - Vehicle Limits Section 818.105 - Request for unrestricted access to specified highway for overlength combination; mandated responses to request.**

(1) Any person who transports property, or causes property to be transported, by motor vehicle may request that a road authority, other than a city, authorize unrestricted access by truck tractor and semitrailer combinations in lengths in excess of that authorized under ORS 818.080 on a specific highway within the jurisdiction of the road authority.

(2) Within 60 days following receipt of a request, the road authority shall do one of the following:

(a) Grant the request and adopt a rule, resolution or ordinance as provided in ORS 810.060.

(b) Complete an evaluation of the request to determine whether the highway can safely accommodate the proposed operation. The evaluation shall consist of a test run as described in subsection (3) of this section and an examination of information about the highway as described in subsection (4) of this section.

(c) Produce a previous evaluation and determination that applies to the proposed operation.

(3) The following apply to a test run undertaken as part of an evaluation under subsection (2)(b) of this section:

(a) The party requesting the change in access shall provide a truck tractor and semitrailer combination for the test run. The combination must be equal to or greater in length than the truck tractor and semitrailer combinations for which access is requested.

(b) The road authority shall issue a single trip variance permit for the test run.

(c) During the test run, road authority staff shall precede and follow the test run combination to observe vehicle operability and to gather data to be used by the road authority to determine:

(A) Whether the test run combination maintained its lane of travel; and

(B) Whether the test run combination maintained appropriate speed, or there was adequate sight distance for trailing vehicles to pass the combination, or there was enough room for the combination to pull off the roadway to allow trailing vehicles to pass.

(4) In conducting an evaluation under subsection (2)(b) of this section, the road authority shall examine the following information about the highway:

(a) Average daily traffic flow;

(b) Accident rate;

(c) Pavement and shoulder conditions; and

(d) Any information the road authority has regarding proposed improvements or any peculiarities associated with the highway.

(5) All information gathered under subsections (3) and (4) of this section shall be analyzed by the road authority to determine whether the highway can safely accommodate the requested truck tractor and semitrailer length.

(6) The road authority shall give written notification to the person requesting access to the highway of the results of any evaluation done under subsection (2)(b) or (9) of this section.

(7) When an evaluation under subsection (2)(b) of this section results in a determination that the highway can safely accommodate the requested truck tractor and semitrailer length only if conditions are imposed on the operation, the road authority may require that any truck tractor and semitrailer combination of that length operate under a variance permit issued under ORS 818.200 that states the conditions of operation.

(8) When an evaluation under subsection (2)(b) of this section results in a determination that the highway cannot safely accommodate the requested truck tractor and semitrailer length, the requesting person may ask for further evaluation.

(9) When a person requests further evaluation under subsection (8) of this section, the road authority shall conduct a detailed investigation of the proposed operation that may include:

(a) A more detailed analysis of average daily traffic flow, including traffic peak hours and volumes;

(b) Analysis of roadway and shoulder width;

(c) Review of test run data, including any photographs or videotape;

(d) Truck volume compared to total traffic volume;

(e) Overlength truck volume compared to total traffic volume;

(f) Stopping sight distance for legal speed;

(g) Cost of spot improvements and facility improvements;

- (h) Accident history for the highway or similar highways; and
- (i) Potential risk of collisions between two trucks or a truck and an automobile.
- (10) When an evaluation under subsection (9) of this section results in a determination that the highway can safely accommodate the requested truck tractor and semitrailer length only if conditions are imposed on the operation, the road authority may require that any truck tractor and semitrailer combination of that length operate under a variance permit issued under ORS 818.200 that states the conditions of operation.
- (11) When an evaluation under subsection (9) of this section results in a determination that the highway cannot safely accommodate the requested truck tractor and semitrailer length, no further evaluation may be conducted unless improvements are made to the highway and a subsequent request is made. **2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 818 - Vehicle Limits Section 818.220 - Requirements, conditions and procedures for issuance of variance permit; duration; cancellation; rules.**

This section establishes requirements, conditions and procedures for issuance of variance permits under ORS 818.200 as follows:

(1) In issuing a permit, the road authority may:

(a) Grant a permit that is valid for a single trip, a number of trips or continuous operation.

(b) Establish seasonal or other time limitations on a permit.

(c) Establish any additional terms, limits or conditions on a permit that are necessary or desirable for the protection of the highways and streets and the public interest.

(d) Require the applicant to furnish public liability and property damage insurance in an amount fixed by the granting authority.

(e) Require the applicant to furnish indemnity insurance or an indemnity bond, in an amount fixed by the granting authority, to:

(A) Indemnify the road authority for any damage to the highways or streets that may be caused under the permit; and

(B) Indemnify the members, officers, employees and agents of the road authority from any claim that might arise out of the granting of the permit and the use of the highways under the permit.

(f) Require a demonstration by the applicant to establish that operation under a permit would:

(A) Stay on the right side of the center line of the traveled way at all times; and

(B) Allow sufficient room in the opposing traffic lane for the safe movement of other vehicles.

(2) A permit shall be in writing and shall specify:

(a) All highways or streets over which the permit is valid.

(b) Any vehicle, combination of vehicles, load, article, property, machine or thing allowed under the permit.

(c) Maximum dimensions and maximum weights allowed under the permit.

(3) A road authority may not issue a permit under this section:

(b) Until any insurance or bond required under this section is filed with and accepted by the granting authority.

(c) Until the granting authority has investigated any representations made in the application for the permit.

(d) If the sole purpose of the permit is to specify highways on which a vehicle or combination of vehicles may not travel.

(4) An application for a permit issued under this section shall be in writing and shall specify:

(a) The vehicle, combination of vehicles, load, article, property, machine or thing for which the permit is requested;

(b) The particular highways and streets for which the permit is sought; and

(c) Whether the permit is sought for a single trip, number of trips or continuous operation.

**to contest validity of custody and towing.**

A person provided notice under ORS 819.170 or 819.180 or any other person who reasonably appears to have an interest in the vehicle may request a hearing under this section to contest the validity of the towing and custody under ORS 819.120 or proposed towing and custody of a vehicle under ORS 819.110 by submitting a request for hearing with the appropriate authority not more than five days from the mailing date of the notice. The five-day period in this section does not include holidays, Saturdays or Sundays. Except as otherwise provided under ORS 801.040, a hearing under this section shall comply with all of the following:

If the person has already paid the towing and storage charges on the vehicle, the authority responsible for taking the vehicle into custody and towing the vehicle shall reimburse the person for the charges. New storage costs on the vehicle will not start to accrue, however, until more than 24 hours after the time the vehicle is officially released to the person under this paragraph.
  - (b) Valid, the appropriate authority shall order the vehicle to be held in custody until the costs of the hearing and all towing and storage costs are paid by the party claiming the vehicle. If the vehicle has not yet been towed, the appropriate authority shall order that the vehicle be towed.
- (5) A person who fails to appear at a hearing under this section is not entitled to another hearing unless the person provides reasons satisfactory to the appropriate authority for the person's failure to appear.
- (6) An appropriate authority is only required to provide one hearing under this section for each time the appropriate authority takes a vehicle into custody and tows the vehicle or proposes to do so.
- (7) A hearing under this section may be used to determine the reasonableness of the charge for towing and storage of the vehicle. Towing and storage charges set by law, ordinance or rule or that comply with law, ordinance or rule are reasonable for purposes of this subsection.
- (8) An authority shall provide a written statement of the results of a hearing held under this section to the person requesting the hearing.

(1) Any for-hire carrier, railroad or transportation company receiving property for transportation wholly within this state, from one point in this state to another point in this state, shall issue in accordance with the applicable provisions of ORS chapter 77 a receipt or bill of lading therefor, and shall be liable to the lawful holder thereof for any loss, damage or injury to such property caused by it, or by any common carrier to which such property may be delivered, or over whose line or lines such property may pass, when transported on a through bill of lading. No contract, receipt, rule, regulation or other limitation of any character whatsoever shall exempt such for-hire carrier, railroad or transportation company from such liability.

(2) Any for-hire carrier, railroad or transportation company so receiving property for transportation wholly within this state shall be liable to the lawful holder of such receipt or bill of lading, or to any party entitled to recover thereon, whether such receipt or bill of lading has been issued or not, for the full actual loss, damage or injury to such property caused by it, or by any common carrier to which such property may be delivered, or over whose line such property may pass when transported on a through bill of lading, notwithstanding any limitation of liability or limitation of the amount of recovery, or representation or agreement as to value in any such receipt or bill of lading, or in any contract, rule or regulation, or in any tariff filed with the Department of Transportation; and any such limitation, irrespective of the manner or form in which it is sought to be made, is unlawful and void.

"Ordinary livestock" includes all cattle, swine, sheep, goats, horses and mules, except such as are chiefly used for breeding, racing, show purposes or other special uses.

(4) The Department of Transportation may make the order referred to in subsection (3)(b) of this section in cases where rates dependent upon and varying with declared or agreed values would, in the opinion of the department, be just and reasonable under the circumstances and conditions surrounding the transportation. Any tariff schedule filed with the department pursuant to such order shall contain specific reference thereto and may establish rates varying with the value so declared and agreed upon. (b) The approval of the location and the engineering plans, including provisions for handling traffic during construction and the work to be performed by each party; and

(c) The sum to be advanced by the applicant or the account for the work to be done by the respondent.

(2) The Department of Transportation shall render as promptly as possible an interim order, effective within 20 days on such questions, reserving for later hearing and decision the question of the apportionment of costs. (3) In the final order apportioning costs, the sum advanced by the applicant or the account shall be credited against its share of the costs. In the final order there shall also be credited against applicant's share of the costs any increase in the costs found by the Department of Transportation to be directly attributable to respondent's willful failure or refusal, after the effective date of the interim order, to proceed with its own work or to integrate the work with that of applicant or its contractor. **2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 825 - Motor Carriers Section 825.480 - Substitute taxes for certain vehicles.**

(1)(a) In lieu of other fees provided in ORS 825.474, carriers engaged in operating motor vehicles in the transportation of logs, poles, peeler cores or piling may pay annual fees for such operation computed at the rate of \$11.60 for each 100 pounds of declared combined weight.

(b) Any carrier electing to pay fees under this method may, as to vehicles otherwise exempt from taxation, elect to be taxed on the mileage basis for movements of such empty vehicles over public highways whenever operations are for the purpose of repair, maintenance, servicing or moving from one exempt highway operation to another.

(2) The annual fees provided in subsections (1), (4) and (5) of this section may be paid on a monthly basis. Any carrier electing to pay fees under this method may not change an election during the same calendar year in which the election is made, but may be relieved from the payment due for any month during which a motor vehicle is not operated. A carrier electing to pay fees under this method shall report and pay these fees on or before the 10th of each month for the preceding month's operations. A monthly report shall be made on all vehicles on the annual fee basis including any vehicle not operated for the month.

(3)(a) In lieu of the fees provided in ORS 825.470 to 825.474, motor vehicles described in ORS 825.024 with a combined weight of less than 46,000 pounds that are being operated under a permit issued under ORS 825.102 may pay annual fees for such operation

computed at the rate of \$9.60 for each 100 pounds of declared combined weight.

(b) The annual fees provided in this subsection shall be paid in advance but may be paid on a monthly basis on or before the first day of the month. A carrier may be relieved from the fees due for any month during which the motor vehicle is not operated for hire if a statement to that effect is filed with the Department of Transportation on or before the fifth day of the first month for which relief is sought.

(4)(a) In lieu of other fees provided in ORS 825.474, carriers engaged in the operation of motor vehicles equipped with dump bodies and used in the transportation of sand, gravel, rock, dirt, debris, cinders, asphaltic concrete mix, metallic ores and concentrates or raw nonmetallic products, whether crushed or otherwise, moving from mines, pits or quarries may pay annual fees for such operation computed at the rate of \$11.50 for each 100 pounds of declared combined weight.

(b) Any carrier electing to pay fees under this method may, as to vehicles otherwise exempt for taxation, elect to be taxed on the mileage basis for movements of such empty vehicles over public highways whenever operations are for the purpose of repair, maintenance, servicing or moving from one exempt highway operation to another.

(5)(a) In lieu of other fees provided in ORS 825.474, carriers engaged in operating motor vehicles in the transportation of wood chips, sawdust, barkdust, hog fuel or shavings may pay annual fees for such operation computed at the rate of \$47 for each 100 pounds of declared combined weight.

(b) Any carrier electing to pay under this method may, as to vehicles otherwise exempt from taxation, elect to be taxed on the mileage basis for movement of such empty vehicles over public highways whenever operations are for the purpose of repair, maintenance, service or moving from one exempt highway operation to another. **2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 825 - Motor Carriers Section 825.482 - Review of flat fee rates.**

The Department of Transportation and the Oregon Transportation Commission shall review flat fee rates established under ORS 825.480 in each even-numbered year and shall recommend to the next following odd-numbered year regular session of the Legislative Assembly any adjustments to the flat fee rates that the department and the commission deem appropriate. [1989 c.992 §28; 2011 c.545 §67]

Note:

825.482 was enacted into law by the Legislative Assembly but was not added to or made a part of ORS chapter 825 or any series therein by legislative action. See Preface to Oregon Revised Statutes for further explanation.

**2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 825 - Motor Carriers Section 825.484 - Effect of carrier tax law on other taxes; offset of fees or taxes erroneously paid.**

(1) The fees or taxes listed in ORS 825.474, 825.476 and 825.480 shall be in addition to, and not in lieu of, other fees and taxes of the state, county or municipality which may be imposed, levied, assessed or collected against the business or property of such carrier. This section does not authorize the imposition of license fees by municipalities upon intercity carriers, or deprive any city within which a passenger motor vehicle, having a seating capacity of not more than seven passengers, is principally operated for hire, from imposing and collecting license fees upon and from such motor vehicle, or the owner or operator thereof, as to such portion of its operations as are wholly within the corporate limits of such city.

(2) ORS 319.510 to 319.880 do not apply to vehicles or fuels used therein when the vehicles are subject to, and report and pay:

(a) The tax for the use of Oregon highways based upon the combined weight of the vehicle and in accordance with the weight group rates prescribed in ORS 825.474, 825.476 and 825.480; or

(b) The road use assessment fee required under ORS 818.225.

(3) When an audit of the operations of a carrier shows that the use fuel taxes reported and paid under ORS chapter 319 should have been reported and paid under this chapter, or that fees or taxes reported and paid under this chapter should have been reported and paid under ORS chapter 319, the fees or taxes erroneously reported and paid under one chapter need not be refunded but may be considered an offset of fees or taxes due under the other chapter. **2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 825 - Motor Carriers Section 825.486 - Credit for fuel tax.**

Any tax paid under ORS 319.010 to 319.430 or 319.510 to 319.880 on motor vehicle fuel or fuel as defined in ORS 319.520, either directly by the collection of the tax by the vendor from the consumer or indirectly by adding the amount of the tax to the price of the fuel paid by the customer, is a credit against the amount of tax otherwise due and payable to the state under ORS 818.225, 825.474, 825.476 and 825.480. A credit under this section shall be allowed when the person claiming the credit submits to the Department of Transportation:

(1) A report under ORS 825.480, 825.490 or 825.492; and

(2) Satisfactory evidence along with the report showing the amount of tax paid by the person under ORS 319.010 to 319.430 or 319.510 to 319.880 during the period reported. [Formerly 767.832; 2015 c.77 §4]

**2023 Oregon Revised StatutesVolume : 19 - Utilities, Vehicle Code, Watercraft, AviationChapter 825 - Motor CarriersSection 825.490 - Due date of taxes and fees; audits; late charges, penalties and interest; refunds; reassessment for fraud or evasion.**

(1) On or before the last day of each month, except for the time of payment provided in ORS 825.480 and 825.492, all persons shall report and pay to the Department of Transportation the amount of taxes and fees due from them for the preceding calendar month. However, taxes and fees incurred after the 15th day of any month may be reported and paid to the department on or before the last day of the second calendar month following the month in which the taxes or fees were incurred. If no taxes or fees are due in any reporting period, the report shall so state. If payment is not made on or before the date it is due, there shall be added as a late payment charge a sum equal to 10 percent of the unpaid amount of the tax.

(2) The department may permit a person to report and pay motor carrier taxes and fees on a periodic basis other than the calendar-month basis prescribed in subsection (1) of this section, provided that the number of reporting periods in any 12-month period is not less than 12. If no taxes or fees are due in any reporting period, the report shall so state. If payment is not made on or before the date it is due, there shall be added as a late payment charge a sum equal to 10 percent of the unpaid amount of the tax.

(3) Whenever practicable, and in no event later than three years after any report of taxes or fees is filed, the department shall audit the report. If the department is not satisfied with the report filed or the amount received, including fees for temporary passes required under ORS 825.470, the department may calculate the remaining amount due based on any information available to the department. The department shall add a late payment charge equal to 10 percent of the remaining amount due.

(4) The department may require a person who fails to pay any tax or fee due to pay interest. Interest shall be computed at the rate of one percent per month, or fraction thereof, beginning on the last day of the month following the close of the month for which the remaining amount due was incurred, until paid.

(5) If the remaining amount due exceeds by at least five percent but not more than 15 percent the amount of taxes or fees reported or paid, a penalty of five percent of the remaining amount due shall be added thereto in addition to the 10 percent late payment charge provided in subsection (3) of this section.

(6) If the remaining amount due exceeds by more than 15 percent the amount of taxes or fees reported or paid, a penalty of 20 percent of the remaining amount due shall be added thereto in addition to the 10 percent late payment charge provided in subsection (3) of this section.

(7) The department shall give to the person concerned written notice of any amounts due.

(8) Except as provided in ORS 825.484 (3), the department shall refund to any person the amount of any overpayment caused by any incorrect report.

(9) Whenever the department has made an assessment pursuant to this section that has become final the department may not reopen or reassess such taxes, interest or penalties unless the department is satisfied that the taxpayer fraudulently or with intent to evade taxation destroyed, concealed or withheld any books, accounts, papers, records or memoranda required to be maintained by the taxpayer pursuant to this chapter or the rules of the department. **2023 Oregon Revised StatutesVolume : 19 - Utilities, Vehicle Code, Watercraft, AviationChapter 825 - Motor CarriersSection 825.492 - Annual and quarterly reports authorized.**

(1) Whenever in the judgment of the Department of Transportation the estimated annual tax payable by a carrier will be less than \$100, and the vehicles operated by the carrier are of less than 30,000 pounds combined weight, the department may authorize the carrier to file reports annually in lieu of monthly reports required by ORS 825.490 and 825.515. Annual reports and accompanying remittances shall be filed on or before the due date of February 28 for the preceding calendar year.

(2) At the request of a motor carrier, the department may authorize the carrier to file quarterly reports in lieu of monthly reports required by ORS 825.490 and 825.515. Quarterly reports and accompanying remittances due shall be filed on or before the due date as follows: First calendar quarter, May 31; second quarter, August 31; third quarter, November 30; fourth quarter, February 28.

(3) Such authorizations may be withdrawn at any time upon the mailing of notice to the carrier at the last address of record of the carrier with the department. Any provisions of ORS 825.490 and 825.515 otherwise applicable to reports and remittances shall be applicable to reports and remittances under this section. [Formerly 767.845; 2001 c.567 §11]

**2023 Oregon Revised StatutesVolume : 19 - Utilities, Vehicle Code, Watercraft, AviationChapter 825 - Motor CarriersSection 825.494 - Assessment by department upon failure to report tax or fee due.**

(1) If any person neglects or refuses to make a fee or tax report as required by this chapter, the Department of Transportation shall make a proposed assessment, based upon any information available to the department, for the period for which such person failed to make a report, of the amount of taxes and fees, including fees for temporary passes required under ORS 825.470, due for the period for which such proposed assessment is made.

(2) Each assessment shall bear interest at the rate of one percent per month, or fraction thereof, from the last day of the month

following the close of the month for which the assessment is imposed until paid.

(3) There shall be added to every such assessment a penalty of 25 percent of the amount thereof.

(4) The department shall give to such person written notice of such assessment.

(5) Whenever the department has made an assessment pursuant to this section that has become final the department may not reopen or reassess such taxes, fees, interest or penalties unless the department is satisfied that the taxpayer fraudulently or with intent to evade taxation destroyed, concealed or withheld any books, accounts, papers, records or memoranda required to be maintained by a person subject to this chapter or the rules of the department. **2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 825 - Motor Carriers Section 825.496 - Reassessment waiver or reduction upon request; charge for failure to appear at hearing.**

(1) Any person against whom an assessment is made under ORS 825.490 or 825.494, may petition the Department of Transportation for a reassessment within 30 days after service upon the person of notice. If a petition is not filed within the 30-day period, the assessment becomes final. If a petition for reassessment is filed within the 30-day period the department shall reconsider the assessment and, if the person has requested in the petition, shall grant such person a hearing and give the person 10 days' notice of the time and place of the hearing. The department has power to continue the hearing from time to time as may be necessary. The decision of the department upon a petition for reassessment shall become final 30 days after service of notice upon the person concerned.

(2) The department may waive or reduce the interest and penalties provided in ORS 825.490 or 825.494 (2) or (3) on those terms as the department considers proper if request for waiver or reduction is made within 30 days after service of notice of assessment upon the person concerned, or as part of the pleas made in the department's reconsideration of the assessment.

(3) Every assessment made by the department under ORS 825.490 to 825.496 becomes due and payable at the time it becomes final and if not paid to the department when due and payable there shall be added to the assessment a penalty of 10 percent of the amount of the tax.

(4) If any person who has requested a hearing pursuant to this section fails to appear at the scheduled hearing and failed to withdraw the petition for reassessment at least five days before the date of the hearing, the department may require such person to pay a charge of \$150 in addition to any other fees, taxes and charges which may be imposed under this chapter. The Department of Transportation shall collect and receive all fees, taxes, penalties and moneys due or to become due to the state under this chapter and ORS chapter 826 and, to that end, shall bring such actions or take such proceedings, including attachment and garnishment proceedings, in the name of the State of Oregon, as may be necessary. **2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 825 - Motor Carriers Section 825.500 - Calculation of interest and penalties for delinquent road use assessment fees and single-use nondivisible load permits; audit.**

(1) Interest and penalties for delinquent payments of road use assessment fees payable pursuant to the provisions of ORS 818.225 and of single-trip nondivisible load permits shall be calculated in the same manner that interest and penalties are calculated under ORS 825.490 and 825.494.

(2) An audit conducted by the Department of Transportation pursuant to its authority under this chapter may include an examination of records of the carrier pertaining to the road use assessment fee imposed under ORS 818.225. If the audit shows that movement by a carrier exceeds the mileage authorized by a single-trip nondivisible load permit, the department shall determine the amount of the road use assessment fee that is due. The department shall collect the amount due and may impose any penalties or additional assessments authorized by this chapter for delinquent payment of taxes. [Formerly 767.862; 1997 c.275 §28]

For payment of any weight-mile taxes and fees, the Department of Transportation may:

(1) Accept payment of taxes and fees by credit card. Any payment made by credit card shall be for the full amount of the tax or fee, except that a surcharge may be added to the amount tendered by the customer to offset fees charged to the department for acceptance and use of the credit card.

(2) Adopt reasonable rules as necessary or proper for the administration of this section. [Formerly 767.863]

**2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 825 - Motor Carriers Section 825.504 - Warrant procedure for collecting tax, fee, penalty or assessment.**

(1) If any tax, or fee in lieu of tax, reported due, or any final assessment made by the Department of Transportation under ORS 825.490, 825.494 and 825.496, including any penalties or charges therein imposed, or any final penalty imposed under ORS 825.950, 825.955 or 825.960, is not paid in full, the department may issue a warrant for the amount of the tax, fee or assessment, with the added penalties or charges, interest and the cost of executing the warrant. A copy of the warrant shall be mailed or delivered to the taxpayer by the department at the taxpayer's last-known address.

(2) At any time after issuing a warrant under this section, the department may record the warrant in the County Clerk Lien Record of any county of this state. Recording of the warrant has the effect described in ORS 205.125. After recording a warrant, the department may direct the sheriff for the county in which the warrant is recorded to levy upon and sell the real and personal property of the taxpayer found within that county, and to levy upon any currency of the taxpayer found within that county, for the application of the proceeds or currency against the amount reflected in the warrant and the sheriff's cost of executing the warrant. The sheriff shall proceed on the warrant in the same manner prescribed by law for executions issued against property pursuant to a judgment, and is entitled to the same fees as provided for executions issued against property pursuant to a judgment. The fees of the sheriff shall be added to and collected as a part of the warrant liability.

(3) In the discretion of the department a warrant under this section may be directed to any agent authorized by the department to collect amounts under this section, and in the execution of the warrant the agent has all of the powers conferred by law upon sheriffs, but is entitled to no fee or compensation in excess of actual expenses paid in the performance of such duty.

(4) Until a warrant issued under this section is satisfied in full, the department has the same remedies to enforce the claim for the tax, fee or assessment as if the state had recovered judgment against the taxpayer for the amount of the tax, fee or assessment.

(5) The procedures authorized by this section may also be used for collection of any fees and penalties imposed on persons registering vehicles under ORS chapter 826. [Formerly 767.865; 1997 c.275 §29; 2003 c.576 §222; 2011 c.661 §12]

**2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 825 - Motor Carriers Section 825.506 - Deposit or bond to secure payment of fees, taxes, charges and penalties.**

(1) If the Department of Transportation finds it necessary in order to insure the collection of any fees, taxes, charges or penalties imposed upon a carrier pursuant to this chapter or ORS 818.225, the department may at the time and as a condition of granting a certificate or permit, or continuing the same, or as a condition of issuing a motor vehicle registration device, require a carrier to deposit and keep on deposit with the department a sum in an amount determined proper by the department, taking into account the nature and scope of the carrier's operations. Moneys deposited under this section shall be deposited with the State Treasurer in an account separate and distinct from the General Fund. Interest earned by the account shall be credited to the account. The deposit required may be increased or reduced by the department at any time. In determining the necessity for an applicant or carrier to maintain a deposit the department shall consider the applicant or carrier's financial capability and responsibility and the department's prior experience, if any, in collecting fees, taxes, charges or penalties from the applicant, carrier or any person having a substantial interest or control, directly or indirectly, in or over the operations conducted or to be conducted under the carrier's authority.

(2) To secure payment of sums payable by the carrier the department may accept in lieu of such deposit:

(a) A bond in the form prescribed by the department; or

(b) Bonds, negotiable by delivery, of the State of Oregon, school districts therein, or obligations of the United States, or obligations for which the faith of the United States is pledged for the payment of both principal and interest, equal in amount to the amount of the requested deposit.

(3) So long as the deposit remains unencumbered the depositor is entitled to collect the interest upon the securities described in subsection (2)(b) of this section. The department shall hold the securities upon such terms as the department shall designate and approve pursuant to the provisions of this chapter, and shall deliver such securities to the State Treasurer, who shall receive and hold them subject to the lawful orders of the department. The State Treasurer and the surety of the treasurer shall be liable upon the official bond of the treasurer for their safekeeping. The depositors shall reimburse the State Treasurer for any expenses incurred by the treasurer in the mailing, insuring, shipping or delivering of any such securities, or of the interest coupons attached thereto as they mature.

(4) If a carrier ceases to be a carrier under this chapter, within a reasonable time of the receipt by the department of all payments due, the department shall refund or have returned to the carrier all deposits and securities remaining to the carrier's credit and shall release the surety on any bond given under this section.

(5) Any applicant or carrier required under this section to make a deposit to secure the payment of fees, taxes, charges or penalties may by proper petition demand a hearing on the necessity of such deposit or the reasonableness of the amount required. A hearing shall be granted and held within 10 days after the demand therefor. The decision of the department shall become final 10 days after service of the order upon the applicant or carrier concerned. [Formerly 767.870]

Such cancellation shall be effective not less than 30 days from the date of receipt, and no agreement between the parties

thereto shall operate to avoid this restriction upon cancellation.

(2) If any bond filed pursuant to ORS 825.506 becomes inoperative, the authority under the certificate or permit involved shall cease and be suspended insofar as it pertains to any affected vehicles until the requirements of ORS 825.506 have been met by the carrier. [Formerly 767.795]

The department may engage the services by entering into agreements to pay reasonable charges on a contingent fee or other basis.

(2) The department may assign to the collection agency, for collection purposes only, any of the fees, taxes, penalties and moneys due the state under this chapter and ORS chapter 826.

**2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 826 - Registration of Commercial Vehicles Section 826.009 - Proportional registration of commercial vehicles.**

Proportional registration allows commercial vehicles to comply with registration requirements of more than one jurisdiction and to have registration fees, taxes or other fixed fees apportioned among the jurisdictions in which the vehicles are being operated. A vehicle may be registered under proportional registration if the vehicle qualifies for proportional registration under an agreement entered into under ORS 826.007. If a vehicle is going to be proportionally registered as part of a fleet, ORS 826.011 must be complied with in addition to this section. A vehicle is registered in this state if the vehicle is proportionally registered under this section. The following apply to proportional registration:

(1) The terms of an agreement established under ORS 826.007 control all of the provisions of proportional registration, including but not limited to the following, except as otherwise provided by this section:

(a) Qualification.

(b) Apportionment of fees, taxes and other fixed fees.

(c) Application and information required.

(d) Requirements for type, manner of display, number or any other provision relating to registration plates, registration cards and other proof of registration.

(e) Any other provision relating to the registration of proportionally registered vehicles.

(2) When initially registered, the registration fees for vehicles registered under this section may be reduced according to the schedule provided under ORS 826.021.

(3) The registration period for proportionally registered vehicles is a period of four consecutive quarters. The period begins on the first day of any calendar quarter and ends on the last day of the fourth consecutive quarter. All vehicles within a proportionally registered fleet shall be registered for the same registration period. Each carrier may select the calendar quarter in which the registration will begin except that, if necessary for administrative convenience, the Department of Transportation may require a carrier to adopt a registration year chosen by the department.

(4) The department may issue appropriate registration cards, stickers, permits, tabs, plates or other suitable identification devices the department considers convenient for proportionally registered vehicles. The fees for such stickers, permits, tabs or plates are as provided under ORS 826.023.

(5) Any applicant whose application for proportional registration under this section has been accepted by the department shall preserve the records on which the application is based for a period of four years following the year or the period upon which said application is based. Upon request of the department, the applicant shall make such records available to the department at its office for audit as to accuracy of mileage, number of vehicles, weights, computations and payment of fees or shall pay the reasonable costs of an audit at the home office of the applicant by a duly appointed representative of the department. An applicant shall comply with any audit provisions under the agreement allowing the registration.

(6) If a provision concerning the registration of vehicles is not provided under the agreement or under this section, provisions of the vehicle code applicable to registration shall be applicable to proportionally registered vehicles.

(7) If a vehicle qualifies for proportional registration, the department may issue temporary proportional registration permits under ORS 826.029 to allow operation of the vehicles pending issuance of evidence of proportional registration.

(8) The department may allow a carrier to operate on expired registration plates and registration for up to one extra quarter if the renewal application has been submitted and the required fees for registration have been paid on or before the last day of the

registration period for the vehicles. The extension of time allowed by this subsection shall be granted only if the department determines that the extension is necessary for the administrative convenience of the department.

(9) Vehicles registered and identified under this section shall be deemed to be fully registered in this state for any type of movement or operation, except that in these instances in which a grant of authority is required for intrastate movement or operation, no such vehicle shall be operated in intrastate commerce in this state unless the owner thereof has been granted intrastate authority or right by the department and unless said vehicle is being operated in conformity with such authority and rights.

(10) Registration cards may be issued for proportionally registered vehicles. Registration cards issued for proportionally registered vehicles shall be carried on the vehicle at all times or, in the case of a combination of vehicles, the registration card for a trailer may be carried in the vehicle supplying the motive power.

(11) In accordance with provisions of the agreement establishing proportional registration, the department may suspend or cancel the exemptions, benefits or privileges granted thereunder to a person who violates any of the conditions or terms of such agreements or arrangements or who violates the laws of this state relating to vehicles or regulations lawfully promulgated thereunder.

(12) A vehicle may be registered under this section prior to issuance of a certificate of title for the vehicle. [Formerly 768.007]

(2) A carrier that pays in quarterly installments under this section shall pay a \$4 administrative processing fee with the first quarter payment for each year that the carrier pays in quarterly installments.

(3) Authorization for quarterly payment does not affect the registration period specified in ORS 826.009. [2003 c.618 §35]

**2023 Oregon Revised Statutes Volume : 19 - Utilities, Vehicle Code, Watercraft, Aviation Chapter 826 - Registration of Commercial Vehicles Section 826.011 - Proportional fleet registration.**

Any registrant of a fleet of commercial vehicles that are operated in this state and in other jurisdictions may register the fleet under proportional fleet registration under this section in lieu of registering the vehicles as provided under the vehicle code if the fleet qualifies for proportional fleet registration under this section. Proportional fleet registration allows fleets of commercial vehicles to comply with registration requirements of more than one jurisdiction and to have registration fees, taxes or other fixed fees apportioned among the jurisdictions in which vehicles from the fleet are being operated. The following apply to proportional fleet registration:

(1) A vehicle may be registered under proportional fleet registration if the vehicle qualifies for proportional registration under an agreement entered into under ORS 826.007 and if the vehicle is part of a fleet that qualifies under this section.

(2) Except as provided in this section, the terms of an agreement established under ORS 826.007 and the provisions of ORS 826.009 control all of the provisions of proportional fleet registration, including but not limited to, the following:

(a) Qualification.

(b) Apportionment of fees, taxes and other fixed fees.

(c) Application and information required.

(d) Requirements for type, manner of display, number or any other provision relating to registration plates, registration cards and other proof of registration.

(e) Any other provision relating to the registration or titling of proportionally registered vehicles.

(3) In order to register vehicles under proportional fleet registration under this section, the vehicles must be part of a fleet that includes one or more commercial vehicles as designated by the Department of Transportation.

(4) The initial application for proportional fleet registration shall be completed according to interstate agreements or administrative rules.

(5) The department may issue any distinctive proof of registration under this section the department considers convenient. The fee for the issuance of plates, stickers or other suitable identification for proportionally registered fleets is as provided under ORS 826.023.

(6) Vehicles acquired by the registrant after the commencement of the registration period and subsequently added to a proportionally registered fleet shall be proportionally registered according to interstate agreements or administrative rules.

(7) If any vehicle is withdrawn from a proportionally registered fleet, the registrant of such fleet shall so notify the department on appropriate forms to be prescribed by the department. The department may require the registrant to surrender proportional registration cards and such other identification devices issued with respect to such vehicle as the department may deem advisable. Procedures for obtaining credit for fees paid on vehicles that are withdrawn from a proportionally registered fleet are provided under ORS 826.027.

(8) In addition to any grounds for denial of proportional registration benefits under ORS 826.009, or an agreement under ORS 826.007, the department may deny the registrant of a proportionally registered fleet the right of any further benefits under proportional registration if the department determines that the person should have prorated more vehicles in this state. The denial

under this subsection may continue until the fees for such additional vehicle or vehicles that have been prorated have been paid.

Transportation shall prorate the fees as provided in this subsection according to the registration period elected by the registrant and approved by the department for the vehicle or fleet of vehicles. The proration of fees under this subsection shall be as follows except that in no case shall the fee on which Oregon fees are based be less than \$10:

If a local government receives information in a hearing on a land use application alleging that public safety requires a higher level of protection than the minimum established in commission rules and if the information is supported by evidence, the governing body shall consider the information and adopt findings explaining the bases for any decision regarding the need for more stringent requirements. Land use requirements regarding safety and compatibility shall consider the effects of mitigation measures or conditions that could reduce safety risks and incompatibility.

(2) The following requirements and conditions shall apply to safety risks associated with potential bird strike hazards resulting from new water impoundments proposed in close proximity to an airport identified under ORS 836.610 (1):

(a) No new water impoundments of one-quarter acre or larger shall be allowed:

(A) Within an approach corridor and within 5,000 feet from the end of a runway; or

(B) On land owned by the airport or airport sponsor where the land is necessary for airport operations;

(b) A local government may adopt regulations that limit the establishment of new water impoundments of one-quarter acre or larger for areas outside an approach corridor and within 5,000 feet of a runway only where the local government adopts findings of fact, supported by substantial evidence in the whole record, that the impoundments are likely to result in a significant increase in hazardous movements of birds feeding, watering or roosting in areas across the runways or approach corridors. The local government shall consider the effects of mitigation measures or conditions that could reduce safety risks and incompatibility;

(c) A local government may adopt regulations that limit the establishment of new water impoundments of one-quarter acre or larger between 5,000 feet and 10,000 feet of a runway outside an approach corridor and between 5,000 feet and 40,000 feet within an approach corridor for an airport with an instrument approach only where the local government adopts findings of fact, supported by substantial evidence in the whole record, that the impoundments are likely to result in a significant increase in hazardous movements of birds feeding, watering or roosting in areas across the runways or approach corridors. The local government shall consider the effects of mitigation measures or conditions that could reduce safety risks and incompatibility;

(d) If a local government receives information and supporting evidence in the hearing process that alleges a significant increase in hazardous movements of birds feeding, watering or roosting in areas across the runways or approach corridors, the local government shall consider the information and evidence and adopt findings as required by paragraphs (b) and (c) of this subsection explaining the bases for any decision regarding the need to limit the establishment of new water impoundments of one-quarter acre or larger; and

(e) Notwithstanding the requirements of paragraphs (a) to (c) of this subsection, wetlands mitigation required for projects located within the areas identified in paragraphs (a) to (c) of this subsection shall be authorized where it is not practicable to provide off-site mitigation.

(3) A local government that receives information under subsection (2)(d) of this section shall forward the information to the Federal Aviation Administration for review and comment prior to any final action by the local government to impose a compatibility or safety standard more stringent than required by rule of the Land Conservation and Development Commission.

(4) Subsection (2) of this section does not apply to a storm water management basin established by an airport identified under ORS 836.610 (1) or agricultural water impoundments in which the water is used directly for growing crops such as cranberries or rice.

(5) Subsection (2)(a) to (c) of this section does not apply to seaplane landing areas.

(6) As used in this section, "significant" means a level of increased flight activity by birds across approach corridors and runways that is more than incidental or occasional, considering the existing ambient levels of flight activity by birds in the vicinity. [1997 c.859 §9]

(1) In addition to initiatory action authorized by ORS 198.705 to 198.955, proceedings to establish a district may be initiated by:

(a) A resolution adopted by the governing body of the most populous county in the proposed district and filed with the governing body of the principal county in the proposed district, petitioning that body to call the election; or

(b) A resolution adopted by the governing body of any city owning an airport within the proposed district and filed with the governing body of the principal county in the proposed district, petitioning that body to call an election.

(2) The petition or resolution initiating formation may request that the election to establish the district be held at the same time as an election to establish a permanent rate limit on operating taxes within the meaning of section 11 (3)(c), Article XI of the Oregon Constitution. If the petition or resolution does so, the election shall be held at that time and shall also request that the proposition to be voted on include a proposed permanent rate limit for operating taxes for the district within the meaning of section 11 (3), Article XI of the Oregon Constitution. If the petition or resolution does so, the proposition to be voted on at the election shall include a proposed permanent rate limit for the district, in accordance with the petition or resolution.

(3) After initiatory action has been taken pursuant to this section, airport district formation shall be conducted and completed as provided by ORS 198.705 to 198.955 except that where areas from more than one county are proposed to be included in the district, the election for district board members may be held at a date later than the election for formation, if successful. The later election for board members may also propose establishment of a district permanent rate limit for operating taxes.

(4) No county or portion thereof shall be included within a district unless a majority of the electors in the county approve the inclusion of such county or portion thereof within the district.

(5) No district shall include an airport owned by a city unless the governing body of such city has adopted a resolution approving the inclusion of the airport within such district or a majority of the electors within the city voting on the proposal approve the inclusion of the airport. If the petition or resolution for initiating proceedings to establish the district

contains both requests authorized by ORS 838.010 (2), the county governing body that calls the election shall confer about the proposed permanent rate limit with the governing bodies of all counties and cities having territory in the proposed district and shall then determine the rate limit to be proposed for the district. The proposition submitted to the electors of the district for the purpose of establishing the district shall propose the rate limit specified by the county governing body.
