§ 31-10.3-2. Statement of intent and purpose.
(a)
The purpose of this chapter is to implement the federal Commercial Motor Vehicle Safety Act of 1986 (CMVSA) (see now 49 U.S.C. § 31101 et seq.), as may be amended from time to time and reduce or prevent commercial motor vehicle accidents, fatalities, and injuries by:
(1)
Permitting drivers to hold only one license;
(2)
Disqualifying commercial drivers who have committed certain serious traffic violations, or other specified offenses;
(3)
Strengthening commercial driver licensing and testing standards.
(b)
It is the intent of this chapter to have an operator's license serve as the base license to which classifications, endorsements, and restrictions can be added which may change the classification to a commercial or chauffeur's license. If the person commits any offense which results in a withdrawal of the commercial license or privilege under this chapter and the offense would be cause for withdrawal of the base license or privilege, the department shall withdraw the commercial endorsements, restrictions, or classifications and for the required fee(s) issue an operator's license or privilege.
(c)
If any offense would cause withdrawal of the base license and commercial or chauffeur's license but for different terms that person may be restored to the base license after the time specified in the applicable section(s) within this title upon payment of the required fee(s). If an offense is committed which, except for this chapter, causes a license or privilege withdrawal of a base license, it shall be cause for removing the commercial or chauffeur classification(s), restriction(s), and endorsement(s) or privileges to operate a commercial vehicle for the time specified in this title.
(d)
This chapter is a remedial law which shall be liberally construed to promote the public health, safety, and welfare. To the extent that this chapter conflicts with general driver licensing provisions, this chapter shall prevail. Where this chapter is silent, the general driver licensing provisions shall apply. This chapter applies to every person who operates a commercial motor vehicle in interstate, foreign, or intrastate commerce and to all employers of these persons.

(c)
The department shall not issue a commercial license unless the applicant meets the following qualifications in addition to all other applicable qualifications adopted by policy or regulation:
(1)
The applicant shall be at least twenty-one (21) years of age; except for intrastate operations, the applicant must be at least eighteen (18) years of age. This exception shall not apply to school bus drivers and drivers of placarded vehicles.
(2)
The applicant shall not currently be under a license or privilege withdrawal in this or any other state, Mexico, or province of Canada.

Within the three (3) years immediately preceding the application, the applicant shall not have committed any of the offenses for which license withdrawal is mandatory upon conviction and shall not have engaged in any conduct for which a license withdrawal may be implemented.
(4)
The applicant shall not have been found to have committed a disqualifying offense under the Federal Commercial Motor Vehicle Safety Act of 1986 (now 49 U.S.C. § 31101 et seq.), as may be amended from time to time.

§ 31-10.3-15. Persons not eligible for licensing.
(a)
The department shall not issue any license pursuant to this chapter:
(1)
To any person, as a commercial driver, who is under the age of twenty-one (21) years; except for intrastate operations, the applicant must be at least eighteen (18) years of age. This exception shall not apply to school bus drivers and drivers of placarded vehicles.
(2)
To any person whose license or privilege has been suspended, canceled, revoked or otherwise withdrawn during suspension, cancellation, revocation, or withdrawal and not until the person has complied with all requirements for reinstatement.
(3)
To any person who is a habitual drunkard, or is addicted to controlled substances.
(4)
To any person who is required by this chapter to take an examination, unless the person shall have successfully passed the examination.
(5)
To any person when the administrator has good cause based on clear and convincing evidence to believe that the person does not meet a standard of physical or mental fitness for motor vehicle licensure established pursuant to § 31-10-44(b), and that the person's physical or mental condition prevents him or her from being able to operate a motor vehicle with safety upon the highways. However, an insulin dependent person shall not automatically be denied a license. Each case shall be decided individually; certification by a physician that the person is being regularly monitored, that the person's condition is stable and under control, and that the person is otherwise medically qualified to safely operate a motor vehicle shall be conclusive and a license strictly limited to intrastate use shall be issued. The license must clearly state on its face that the license is restricted to intrastate use only; provided, however, nothing contained in this section shall prohibit the issuance of an interstate license as long as all federal regulations are met.
(6)
To any person who is required under the laws of this state to file or deposit proof of financial responsibility and who has not deposited that proof.
(7)
To any person when, after a hearing, the administrator has good cause to conclude that the operation of a motor vehicle on the highways by the person is likely to pose an imminent safety risk to the general public by reason of the person's past conduct in motor vehicle operation during the preceding two (2) year period. The hearing shall focus exclusively upon whether a declination to issue a license is necessary in order to protect public safety, relying upon findings of the circumstances under which each past motor vehicle offense was committed, the likelihood of recurrence, and the deterrent effect that might reasonably be expected from the declination.
(b)
The department shall notify in writing any person whose application for a license has been denied pursuant to subsection (a) of this section. The notice shall contain the factual and legal basis for the denial, the procedure for requesting a hearing, and the rights afforded the individual pursuant to § 31-11-7(d) — (f). When physical or mental fitness is the basis for the denial, the notice shall refer to the specific functional standard promulgated pursuant to § 31-10-44(b), which was relied upon by the department. Upon his or her request the department shall afford the license applicant an opportunity for a hearing as early as practical and no later than twenty (20) days after receipt of the request.
(c)
The hearing procedures afforded the applicant shall conform to the provisions of § 31-11-7(d) — (f).

(b)

The division of motor vehicles shall issue an operator's or chauffeur's license pursuant to this chapter to every qualifying applicant, including, but not limited to, any current or past recipient of a grant of deferred action under the Deferred Action for Childhood Arrivals (DACA) program, provided any applicant subject to the DACA program shall provide evidence of having received the

grant from the United States Citizenship and Immigration Services.
(c)
The division of motor vehicles shall issue special licenses to those licensees who have indicated that they desire to donate tissue or organs, which conform to the provisions of the Revised Uniform Anatomical Gift Act, chapter 18.6.1 of title 23.

(f)
If an applicant has been adjudicated for committing one moving motor vehicle violation, has been involved in one reportable motor vehicle accident, or both, he or she shall be summoned for a hearing before a judge of the traffic tribunal at which time the driving record will be reviewed. (g)
Any person who is under the age of twenty-one (21) years shall, upon payment of the required fee and upon meeting the qualifications for the receipt of an operator's or chauffeur's license, be issued a license that shall be readily distinguishable in color from those licenses issued to persons who are twenty-one (21) years of age or older. § 31-11-7. Authority of division of motor vehicles to suspend license.
(a)(1)
The division of motor vehicles is authorized to suspend the license of an operator or chauffeur without preliminary hearing upon a showing by its records or other sufficient evidence that the licensee:
(i)
Has been adjudicated by a court of competent jurisdiction to have:
(A)
Committed an offense for which mandatory revocation or suspension of license is required upon conviction or adjudication;
(B)
Committed with such frequency of offenses against traffic regulations governing the movement of vehicles as to indicate a disrespect for traffic laws and a disregard for the safety of other persons on the highways;
(C)
Been a reckless or negligent driver of a motor vehicle;
(D)
Permitted an unlawful or fraudulent use of a license;
(E)
Committed an offense in another state which, if committed in this state, would be grounds for suspension or revocation;
(F)
Committed any offense enumerated in § 31-9-1;
(ii)
Is the subject of an order issued pursuant to § 14-1-67; or
(iii)
Poses an imminent safety risk to the general public as determined by the application of objectively ascertainable standards.
(2)
Except for paragraph (1)(ii) of this subsection, the suspension shall be for any length of time, not exceeding one year, that the division of motor vehicles shall determine is necessary in order to protect public safety based upon its findings of the circumstances under which the offense was committed, the likelihood of recurrence, and the deterrent effect that might reasonably be expected to result from the hardship a suspension or prospective suspension would entail. Any license suspended pursuant to paragraph (1)(ii) of this subsection shall be for the length of time set forth in the court order.
(b)

Upon suspending the license of any person as authorized by subsection (a) of this section, the division of motor vehicles shall immediately notify the licensee in writing of the factual and legal basis for the suspension, the procedure for requesting a hearing, and the rights afforded the individual pursuant to subsections (d) — (f) of this section. When physical or mental fitness is the basis for the suspension determination, the notice shall reference the specific functional standard promulgated pursuant to § 31-10-44(b), which was relied upon by the division of motor vehicles. Upon his or her request the division of motor vehicles shall afford the licensee an opportunity for a hearing as early as practical and no later than twenty (20) days after receipt of the request.
(c)
Except as authorized in subsection (a) of this section, whenever the division of motor vehicles proposes to suspend the license of any person, the division of motor vehicles shall afford a hearing to the licensee prior to suspending the person's license. When a licensee requests a hearing, no action to suspend his or her license shall be taken until a hearing decision has been rendered in accordance with subsections (d) — (f) of this section. The division of motor vehicles shall notify the licensee in writing of the factual and legal basis for the proposed suspension, the procedure for requesting a hearing, and the rights afforded the individual pursuant to subsections (d) — (f) of this section. When physical or mental fitness is the basis for the suspension recommendation, the notice shall reference the specific functional standard promulgated pursuant to § 31-10-44(b), which was relied upon by the division of motor vehicles.
(d)
The division of motor vehicles shall ensure that the hearing procedures afforded pursuant to subsection (b) and (c) of this section provide for: (1) an in person hearing before an impartial decision-maker; (2) the opportunity to compel the production of documents and witnesses, including members of the division of motor vehicles 's Medical Advisory Board; (3) the opportunity to confront and cross-examine witnesses; (4) access to all of the evidence upon which the division of motor vehicles relied in making its determination to suspend; and (5) the right to present any and all relevant evidence including the right to obtain and present the results of a recently administered road test. During any hearing, the division of motor vehicles shall bear the burden of proof as to the existence of the grounds for the suspension. The division of motor vehicles shall further ensure that during a hearing to determine the physical or mental fitness of a licensee, proof of the lack of physical or mental fitness shall be by clear and convincing evidence. The presumption of inability to operate a motor vehicle with safety established by the functional standards promulgated pursuant to § 31-10-44(b), shall be rebuttable by evidence that notwithstanding an individual's functional limitation, he or she is able to safely operate a motor vehicle.
(e)
For the purpose of the hearing procedures described in subsection (d) of this section, the administrator of the division of motor vehicles or his or her duly authorized agent may administer oaths and may issue subpoenas for the attendance of witnesses and the production of relevant books and papers, and may require a reexamination of the licensee.
(f)

The division of motor vehicles may either rescind its order of suspension, determine suspension is not warranted; may continue, modify, or extend the suspension of the license; or may revoke the license.

2024 Rhode Island General LawsTitle 31 - Motor and Other VehiclesChapter 31-13 - Traffic Control DevicesSection 31-13-6. - Meaning of traffic control signals.

§ 31-13-6. Meaning of traffic control signals.
Traffic control signals shall have the following meanings for vehicles and pedestrians:
(1)
Steady green signals shall have the following meanings:
(i)
Vehicular traffic facing a circular green signal is permitted to proceed straight through or turn right or left or make a U-turn movement, except as such movement is prohibited by lane-use signs, turn prohibition signs, lane markings, separate turn signal, or other traffic control devices.
(A)
Vehicular traffic, including vehicles turning right or left or making a U-turn movement, shall yield the right-of-way to:
(I)
Pedestrians lawfully within an associated crosswalk; and
(II)
Other vehicles lawfully within the intersection.
(B)
Vehicular traffic turning left or making a U-turn movement to the left shall yield the right-of-way to other vehicles approaching from the opposite direction so closely as to constitute an immediate hazard during the time when such turning vehicle is moving across or within the intersection.
(ii)
Pedestrians facing a circular green signal, unless otherwise directed by a pedestrian signal or other traffic control device, are permitted to proceed across the roadway within any marked or unmarked associated crosswalk. The pedestrian shall yield the right-of-way to vehicles lawfully within the intersection or so close as to create an immediate hazard at the time that the green signal is first displayed.
(iii)
A bicyclist facing a green bicycle signal may proceed straight through or turn right or left unless a sign at that place prohibits either turn. The bicyclist shall yield the right-of-way to other vehicles within the intersection at the time the green bicycle signal is shown.
(iv)
Vehicular traffic facing a green arrow signal, displayed alone or in combination with another signal, is permitted to cautiously enter the intersection only to make the movement indicated by the arrow, or such other movement as is permitted by other signals displayed at the same time.
(A)
Vehicular traffic, including vehicles turning right or left or making a U-turn movement, shall yield the right-of-way to:
(I)
Pedestrians lawfully within an associated crosswalk; and
(II)
Other vehicles lawfully within the intersection.
(v)
Pedestrians facing a green arrow signal, unless otherwise directed by a pedestrian signal or other traffic control device, shall not cross the roadway.
(2)
Steady yellow signals shall have the following meanings:
(i)
Vehicular traffic facing a steady circular yellow signal is warned that the related green movement is being terminated and that a steady red signal will be displayed immediately thereafter when vehicular traffic shall not enter the intersection. The rules set forth

concerning vehicular operation under the movement(s) being terminated shall continue to apply while the steady circular yellow signal indication is displayed.
(ii)
A bicyclist facing a steady yellow bicycle signal is thereby warned that the related right-of-way is being terminated and that a red bicycle signal will be shown immediately. A bicyclist facing a steady yellow bicycle signal shall stop at a clearly marked stop line, but if none, shall stop before entering the marked crosswalk on the near side of the intersection, or if there is no marked crosswalk, then before entering the intersection. If a bicyclist cannot stop safely, the bicyclist may proceed cautiously through the intersection.
(iii)
Vehicular traffic facing a steady yellow arrow signal is warned that the related green arrow movement or the related flashing arrow movement is being terminated. The rules set forth concerning vehicular operation under the movement(s) being terminated shall continue to apply while the steady yellow arrow signal is displayed.
(iv)
Pedestrians facing a steady circular yellow or yellow arrow signal, unless otherwise directed by a pedestrian signal or other traffic control device, shall not start to cross the roadway.
(3)
Steady red signals shall have the following meanings:
(i)
Vehicular traffic facing a steady circular red signal, unless entering the intersection to make another movement permitted by another signal, shall stop at a clearly marked stop line; but if there is no stop line, traffic shall stop before entering the crosswalk on the near side of the intersection; or if there is no crosswalk, then before entering the intersection; and shall remain stopped until a signal to proceed is displayed, or as provided below:
(A)
Except when a traffic control device is in a place prohibiting a turn on red or a steady red arrow signal is displayed, vehicular traffic facing a steady circular red signal is permitted to enter the intersection to turn right. The right to proceed with the turn shall be subject to the rules applicable after making a stop at a stop sign.
(ii)
Vehicular traffic facing a steady red arrow signal shall not enter the intersection to make the movement indicated by the arrow, unless entering the intersection to make another movement permitted by another signal, and shall stop at a clearly marked stop line; but if there is no stop line, before entering the crosswalk on the near side of the intersection; or if there is no crosswalk, then before entering the intersection; and shall remain stopped until a signal or other traffic control device permitting the movement indicated by the red arrow is displayed.
(iii)
Pedestrians facing a steady circular red or steady red arrow signal shall not enter the roadway, unless otherwise directed by a pedestrian signal or other traffic control device.
(iv)
A bicyclist facing a steady red bicycle signal shall stop at a clearly marked stop line, but if none, before entering the marked crosswalk on the near side of the intersection, or if there is no marked crosswalk, then before entering the intersection. The bicyclist shall remain stopped until a green bicycle signal is shown.
(4)
Flashing yellow signals shall have the following meanings:
(i)
Vehicular traffic on an approach to an intersection facing a flashing circular yellow signal is permitted to cautiously enter the intersection to proceed straight through or turn right or left or make a U-turn except as such movement is prohibited by lane-use signs, turn prohibition signs, lane markings, turn signals, or other traffic control devices.
(A)
Such vehicular traffic, including vehicles turning right or left or making a U-turn, shall yield the right-of-way to:
(I)
Pedestrians lawfully within an associated crosswalk; and
(II)
Other vehicles lawfully within the intersection.
(B)
Vehicular traffic turning left or making a U-turn to the left shall yield the right-of-way to other vehicles approaching from the opposite direction so closely as to constitute an immediate hazard during the time when the turning vehicle is moving across or within the intersection.
(ii)
When a flashing circular yellow signal(s) is displayed as a beacon to supplement another traffic control device, road users are notified that there is a need to pay extra attention to the message contained thereon or that the regulatory or warning requirements of the other traffic control device, which may not be applicable at all times, are currently in force.
(iii)

Vehicular traffic, on an approach to an intersection facing a flashing yellow arrow signal, displayed alone or in combination with another signal, is permitted to cautiously enter the intersection only to make the movement indicated by such arrow, or other such movement as is permitted by other signal displayed at the same time.
(A)
Vehicular traffic, including vehicles turning right or left or making a U-turn, shall yield the right-of-way to:
(I)
Pedestrians lawfully within an associated crosswalk; and
(II)
Other vehicles lawfully within the intersection.
(B)
Vehicular traffic turning left or making a U-turn to the left shall yield the right-of-way to other vehicles approaching from the opposite direction so closely as to constitute an immediate hazard during the time when the turning vehicle is moving across or within the intersection.
(iv)
Pedestrians facing any flashing yellow signal at an intersection, unless otherwise directed by a pedestrian signal or other traffic control device, are permitted to proceed across the roadway within any marked or unmarked associated crosswalk. Pedestrians shall yield the right-of-way to vehicles lawfully within the intersection at the time that the flashing yellow signal is first displayed.
(5)
Flashing red signals shall have the following meanings:
(i)
Vehicular traffic, on an approach to an intersection facing a flashing circular red signal shall stop at a clearly marked stop line; but if there is no stop line, before entering the crosswalk on the near side of the intersection; or if there is no crosswalk, at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection. The right to proceed shall be subject to the rules applicable after making a stop at a stop sign.
(ii)
When a flashing circular red signal(s) is displayed as a beacon to supplement another traffic control device, road users are notified that there is a need to pay extra attention to the message contained thereon or that the regulatory requirements of the other traffic control device, which may not be applicable at all times, are currently in force.
(iii)
Vehicular traffic, on an approach to an intersection, facing a flashing red arrow signal if intending to turn in the direction indicated by the arrow shall stop at a clearly marked stop line; but if there is no stop line, before entering the crosswalk on the near side of the intersection; or if there is no crosswalk, at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway before entering the intersection. The right to proceed with the turn shall be limited to the direction indicated by the arrow and shall be subject to the rules applicable after making a stop at a stop sign.
(iv)
Pedestrians facing any flashing red signal at an intersection, unless otherwise directed by a pedestrian control signal or other traffic control device, are permitted to proceed across the roadway within any marked or unmarked associated crosswalk. Pedestrians shall yield the right-of-way to vehicles lawfully within the intersection at the time that the flashing red signal is first displayed.

In every event, speed shall be so controlled as may be necessary to avoid colliding with any person, vehicle, or other conveyance on or entering the highway in compliance with legal requirements and the duty of all persons to use due care. § 31-14-12.1. Special speed limits in highway construction and maintenance operations.

(a)
Whenever the department of transportation or local governing unit with jurisdiction over the highways determines that the preexisting established speed limit through a highway construction or maintenance operation is greater than is reasonable or safe with respect to the conditions expected to exist in that operation, it may, on highways under its respective jurisdiction, determine and declare reasonable and safe absolute maximum temporary speed limits applicable through all or part of the operation. A temporary speed limit so determined and declared shall become effective and shall suspend the applicability of any other speed limit prescribed in this chapter when appropriate signs of the design prescribed by the department giving notice of the limits are erected at or along the operation. When these signs are erected, the total of fines, penalties, and costs assessed upon conviction shall be twice the amount otherwise set by the general laws.
(b)
When street, highway or bridge construction, or a maintenance operation is present, the department of transportation or local governing unit with jurisdiction over the street or highway shall erect signs declaring that the fine for a conviction of a traffic violation, as defined by § 31-41.1-4, through the "temporary traffic control zone" shall be doubled. When these signs are erected, the total of the fines, penalties, and costs assessed upon conviction shall be twice the amount otherwise set by the general laws. The prescribed legend for the signs shall be established by the department of transportation.
(c)
For the purposes of this section, "temporary traffic control zone" means that portion of a bridge, street, or highway that is identified by official traffic-control devices. The zone includes the entire section of roadway between the first advance warning sign through the last traffic control device, where traffic returns to its normal path and conditions. This zone shall exist throughout the duration of the construction or maintenance operation or as long as the signs remain.

(a)
No person shall drive a vehicle over any bridge or other elevated structure constituting a part of a highway at a speed which is greater than the maximum speed which can be maintained with safety to the bridge or structure, when the structure is signposted as provided in this section.
(b)
The state traffic commission upon request from any local authority shall, or upon its own initiative may, conduct an investigation of any bridge or other elevated structure constituting a part of a highway. If it shall find that the structure cannot with safety to itself withstand vehicles traveling at the speed otherwise permissible under this chapter, the commission shall determine and declare the maximum speed of vehicles which the structure can withstand, and shall cause or permit suitable signs stating the maximum speed to be erected and maintained at a distance of one hundred feet (100′) before each end of the structure.
(c)
Upon the trial of any person charged with a violation of this section, proof of the determination of the maximum speed by the commission and the existence of the signs shall constitute conclusive evidence of the maximum speed which can be maintained with safety to the bridge or structure.

Where no special hazard exists that requires lower speed for compliance with § 31-14-1, the speed of any vehicle not in excess of the limits specified in this section or established as authorized in this title shall be lawful, but any speed in excess of the limits

specified in this section or established as authorized in this title shall be prima facie evidence that the speed is not reasonable or prudent and that it is unlawful:
(1)
Twenty-five miles per hour (25 mph) in any business or residence district;
(2)
Fifty miles per hour (50 mph) in other locations during the daytime;

(5)
The provisions of subdivision (4) of this subsection shall not apply except when appropriate warning signs are posted in proximity with the boundaries of the area within three hundred feet (300′) of the school house grounds, entrances, and exits.
(b)

§ 31-14-3. Conditions requiring reduced speed.
(a)
The driver of every vehicle shall, consistent with the requirements of § 31-14-1, drive at an appropriate reduced speed when approaching and crossing an intersection or railroad grade crossing; when approaching and going around a curve; when approaching a hill crest; when traveling upon any narrow or winding roadway; when a special hazard exists with respect to pedestrians or other traffic or by reason of weather or highway conditions; and in the presence of emergency vehicles displaying flashing lights as provided in § 31-24-31, tow trucks, transporter trucks, highway maintenance equipment displaying flashing lights (while performing maintenance operations), roadside assistance vehicles displaying flashing amber lights while assisting a disabled motor vehicle, and any nonemergency vehicle that is stationary and located on the shoulder or breakdown lane of a roadway or highway. Violations of this section are subject to fines enumerated in § 31-41.1-4.
(b)
When an authorized vehicle, as described in subsection (a), is parked or standing within twelve feet (12′) of a roadway and, if required pursuant to subsection (a), is giving a warning signal by appropriate light, the driver of every other approaching vehicle shall, as soon as it is safe, and when not otherwise directed by an individual lawfully directing traffic, do one of the following:
(1)
Move the vehicle into a lane that is not the lane nearest the parked or standing authorized highway maintenance equipment displaying flashing lights (while performing maintenance operations), tow truck, transporter trucks, roadside assistance vehicles, emergency vehicle, or nonemergency vehicle and continue traveling in that lane until safely clear of the authorized highway maintenance equipment displaying flashing lights (while performing maintenance operations), tow truck, transporter trucks, roadside assistance vehicles, emergency vehicle, or nonemergency vehicle. This paragraph applies only if the roadway has at least two (2) lanes for traffic proceeding in the direction of the approaching vehicle and if the approaching vehicle may change lanes safely and without interfering with any vehicular traffic; or
(2)
Slow the vehicle, maintaining a safe speed for traffic conditions, and operate the vehicle at a reduced speed until completely past the authorized highway maintenance equipment displaying flashing lights (while performing maintenance operations), tow truck, transporter trucks, roadside assistance vehicle, emergency vehicle, or nonemergency vehicle. This paragraph applies only if the roadway has only one lane for traffic proceeding in the direction of the approaching vehicle or if the approaching vehicle may not change lanes safely and without interfering with any vehicular traffic.

A person may not operate a motor vehicle upon a bicycle lane except when making a turn, entering or leaving the roadway or a parking lane, or when required in the course of official duty. § 31-15-18. Unsafe passing of a person operating a bicycle; penalty.

(a)

A driver of a motor vehicle commits the offense of unsafe passing of a person operating a bicycle if the driver violates any of the following requirements:

(1)

The driver of a motor vehicle may only pass a person operating a bicycle by driving to the left of the bicycle at a safe distance and returning to the lane of travel once the motor vehicle is safely clear of the overtaken bicycle. For the purposes of this subdivision, a "safe distance" means a distance that is sufficient to prevent contact with the person operating the bicycle if the person were to fall into the driver's lane of traffic. This subdivision does not apply to a driver operating a motor vehicle:

(i)

In a lane that is separate from and adjacent to a designated bicycle lane;

(ii)

At a speed not greater than fifteen miles per hour (15 mph); or

(iii)

When the driver is passing a person operating a bicycle on the person's right side and the person operating the bicycle is turning left.

(2)

The driver of a motor vehicle may drive to the left of the center of a roadway to pass a person operating a bicycle proceeding in the same direction only if the roadway to the left of the center is unobstructed for a sufficient distance to permit the driver to pass the person operating the bicycle safely and avoid interference with oncoming traffic. This subdivision does not authorize driving to the left of center of a roadway when prohibited under § 31-15-1 (failure to drive on right), § 31-15-3 (passing of vehicles proceeding in opposite directions) or § 31-15-13 (divided highway).

(b)

The driver of a motor vehicle that passes a person operating a bicycle shall return to an authorized lane of traffic as soon as practicable.

(c)

Violations of this section are subject to the fine enumerated in § 31-41.1-4.

§ 31-15-19. Two-way left turn lanes.

A two-way left turn lane may be designated near the center of a roadway for use by vehicles making left turns in both directions from or into the roadway.

(1)

Two-way left turn lanes shall be designated by distinctive roadway markings consisting of parallel double yellow lines, interior line dashed and exterior line solid on each side of the lane. The department of transportation may determine and prescribe standards and specifications governing length, width, and positioning of the distinctive pavement markings. All pavement markings designating a two-way left turn lane shall conform to the department of transportation's standards and specifications.

(2)

A vehicle shall not be driven in a designated two-way left turn lane except when preparing for or making a left turn from or into a highway or when preparing for or making a U-turn when otherwise permitted by law, and shall not be driven in that lane for more

than two hundred feet (200′) while preparing for and making the turn or while preparing to merge into the adjacent lanes of travel. A left turn or U-turn shall not be made from any other lane where a two-way left turn lane has been designated.
(3)
This section shall not prohibit driving across a two-way left turn lane.
(4)
Raised pavement markers may be used to simulate painted lines described in this section when such markers are placed in accordance with standards established by the department of transportation.
(5)
Upon any vehicle entering the turn lane, no other vehicle proceeding in the opposite direction shall enter that turn lane if that entrance would prohibit the vehicle already in the lane from making the intended turn.
(6)
When vehicles enter the turn lane proceeding in opposite directions, the first vehicle to enter the lane shall have the right-of-way.
(7)
Violations of this section are subject to fines enumerated in § 31-41.1-4.

The general assembly further declares that it is in the interest of the public health, safety, and welfare that the rental of motorized bicycles, motor scooters and motorized tricycles in the town of New Shoreham be supervised, regulated, and controlled in accordance with the provisions of this chapter.

§ 31-19.3-10. Appeals to superior court.
(a)
Any person, firm, or corporation aggrieved by a decision of the town council pursuant to § 31-19.3-6 or 31-19.3-7 may appeal to the superior court for Washington County by filing a complaint setting forth the reasons of appeal within twenty (20) days after the decision has been filed in the office of the town clerk. The town council shall file the original documents acted upon by it and constituting the record of the case appealed from, or certified copies of them, together with any other facts that may be pertinent, with the clerk of the court within ten (10) days after being served with a copy of the complaint. When the complaint is filed by someone other than the original applicant or appellant, the original applicant or appellant and the members of the town council shall be made parties to the proceedings. The appeal shall not stay proceedings upon the decision appealed from, but the court may, in its discretion, grant a stay on appropriate terms and make any other orders that it deems necessary for an equitable disposition of the appeal.
(b)
If, before the date set for the hearing in the superior court, application is made to the court for leave to present additional evidence before the town council and it is shown to the satisfaction of the court that the additional evidence is material and that there were good reasons for the failure to present it at the hearing before the town council, the court may order that the additional evidence be taken before the town council upon conditions determined by the court. The town council may modify its findings and decision by reason of the additional evidence and shall file that evidence and any modifications, new findings, or decisions with the superior court.
(c)
The review shall be conducted by the superior court without a jury. The court shall consider the record of the hearing before the town council and if it shall appear to the court that additional evidence is necessary for the proper disposition of the matter, it may allow any party to the appeal to present the evidence in open court, which evidence along with the record shall constitute the record upon which the determination of the court shall be made.
(d)
The court shall not substitute its judgment for that of the town council as to the weight of the evidence on questions of fact. The court may affirm the decision of the town council or remand the case for further proceedings, or may reverse or modify the decision if substantial rights of the appellant have been prejudiced because of findings, inferences, conclusions or decisions which are:
(1)

In violation of constitutional, statutory, or ordinance provisions;
(2)
In excess of the authority granted to the town council by statute or ordinance;
(3)
Made upon unlawful procedure;
(4)
Affected by other error of law;
(5)
Clearly erroneous in view of the reliable, probative, and substantial evidence of the whole record; or
(6)
Arbitrary or capricious or characterized by abuse of discretion or clearly unwarranted exercise of discretion.

§ 31-21.1-4. Traffic stop study.
(a)
The attorney general is authorized to and shall conduct a study of routine traffic stops by the Rhode Island state police and each municipal police department. The study shall include the collection and analysis of the data received from the police department pursuant to this section, which shall include the following information for each traffic stop conducted by the police:
(1)
The date, time and general location of the traffic stop;
(2)
The race or ethnicity, gender, and approximate age of the driver stopped; provided that the identification of these characteristics shall be based on the observation and perception of the police officer making the stop and the information shall not be requested of the person stopped;
(3)
The reason for the stop;
(4)
Whether a search was instituted as a result of the stop;
(5)
The scope of any search conducted;
(6)
Whether the search was conducted pursuant to consent, probable cause, or reasonable suspicion to suspect a crime;
(7)
Whether any contraband, including money, was seized in the course of the search, and if so, the nature of the contraband;
(8)
Whether any warning or citation was issued as a result of the stop;
(9)
Whether an arrest was made as a result of either the stop or the search;
(10)
The approximate duration of the stop; and
(11)
Whether the vehicle is registered in Rhode Island or out of the state.
(b)
Not later than ninety (90) days after July 13, 2000, the attorney general, with the advice of the committee, shall develop a form, in both printed and electronic format, to be used by each police officer when making a traffic stop to record the data required under this chapter.
(c)
Beginning January 15, 2001, and monthly thereafter, each municipal police department and the Rhode Island state police shall transmit to the attorney general a report containing:
(1)
All of the forms collected to date of motorists who were stopped;
(2)
Any complaints filed by motorists who believed they were the subject of racial profiling, provided that no information revealing the identity of the complainant, witnesses or the law enforcement officer involved in the traffic stop shall be used, transmitted or disclosed in violation of the provisions of Chapter 28.6 of Title 42, the Law Enforcement Officers' Bill of Rights; and
(3)
Any other information the police department or Rhode Island state police deem appropriate.
(d)
The study authorized under this chapter shall include a multi-variate analysis of the collected data in accordance with general statistical standards. The attorney general shall collect data for a period of not less than twenty-four (24) months and report its findings and conclusions to the governor and the general assembly not later than thirty (30) months after the commencement of the

collection of data under this chapter. The report, findings and conclusions submitted pursuant to this subsection shall be deemed a public record.
(e)
In addition, the attorney general, with the advice of the committee, shall prepare on a quarterly basis a summary report of the monthly data provided by each police department and the state police for that quarterly period. The report shall be a public record. The summary report shall include a monthly breakdown by race for each police department of the number of traffic stops made and of searches conducted, and any other information deemed appropriate by the attorney general with the advice of the committee. The report shall be released not more than ninety (90) days after the end of each quarterly period. No information revealing the identity of any individual shall be contained in the report.
(f)
Upon July 13, 2000, the attorney general with the advice of the committee shall procure the services of an organization, company, person or other entity with sufficient expertise in the field of statistics to assist with the implementation of this chapter. The organization, company, person or other entity so retained shall assist the attorney general and the committee with the design of the methodology for gathering statistics pursuant to this chapter, monitor compliance with the act throughout the study, and conduct a statistical analysis at the conclusion of the study to determine the extent to which racial profiling exists within the state.
(g)
Appropriate funding shall be made available to implement the provisions of this chapter.
(h)
The department of attorney general shall be exempt from the provisions of chapter 2 of title 37 in connection with its procurement of equipment and services necessary to the implementation of this chapter.

§ 31-21.2-2. Findings.
(a)
Municipal and state law enforcement officers play a vital role in protecting the public from crime. The vast majority of police officers discharge their duties professionally and without bias.
(b)
The use by police officers of race, ethnicity, or national origin solely in deciding which persons should be subject to traffic stops, searches and seizures is improper.
(c)
In many communities nonwhite drivers in Rhode Island, subjected to discretionary searches, are twice as likely as whites to be searched.
(d)
In some instances, law enforcement practices may have the unintended effect of promoting racially disparate stops and searches.
(e)
Racial profiling harms individuals subjected to it because they experience fear, anxiety, humiliation, anger, resentment and cynicism when they are unjustifiably treated as criminal suspects.
(f)
Racial profiling damages law enforcement and the criminal justice system as a whole by undermining public confidence and trust in the police, the courts, and criminal law, and thereby undermining law enforcement efforts and ability to solve and reduce crime.
(g)
A comprehensive solution is needed to address racial profiling at the state and local levels.

§ 31-21.2-3. Ban on racial profiling.
No state or municipal law enforcement officer or law enforcement agency shall engage in racial profiling. For purposes of this chapter, “racial profiling” means the detention, interdiction or other disparate treatment of an individual on the basis, in whole or in part, of the racial or ethnic status of such individual, except when such status is used in combination with other identifying factors seeking to apprehend a specific suspect whose racial or ethnic status is part of the description of the suspect, which description is timely and reliable.

§ 31-21.2-5. Law enforcement practices.

(a)
Unless there exists reasonable suspicion or probable cause of criminal activity, no motor vehicle stopped for a traffic violation shall be detained beyond the time needed to address the violation. Nothing contained herein shall prohibit the detention of a motor vehicle for a reasonable period of time for the arrival of a canine unit or subsequent criminal investigation if there is reasonable suspicion or probable cause of criminal activity.
(b)
No operator or owner-passenger of a motor vehicle shall be requested to consent to a search by a law enforcement officer of his or her motor vehicle, that is stopped solely for a traffic violation, unless there exists reasonable suspicion or probable cause of criminal activity. No pedestrian shall be requested to consent to a search by a law enforcement officer of his or her person, unless there exists reasonable suspicion or probable cause of criminal activity. No juvenile shall be requested to consent to a search by a law enforcement officer unless there exists reasonable suspicion or probable cause of criminal activity. In those instances in which a warrant would be required, a law enforcement officer must advise the juvenile that he or she may refuse to consent to, or limit the scope of, any requested search. The determination of age of the individual shall be based on the perception of the officer making a good faith effort in advance of requesting consent. Nothing contained in this subsection shall be construed to prohibit a law enforcement officer from conducting a pat down search for weapons based upon a reasonable belief that the officer's personal safety may be jeopardized.
(c)
Each search conducted by a law enforcement officer that does not result in criminal charges shall be documented in a computer-aided dispatch (CAD) entry or other police-generated report. Each search conducted by a law enforcement officer that results in criminal charges shall be documented in a police-generated report. The CAD entry or formal police report shall include the date, time, and location of the stop/search, along with the "reasonable suspicion" or "probable cause" leading to the search. The CAD entry or formal police report shall also include the race, age, and gender of the individual(s) searched and the results of the search. The document, exclusive of information identifying the law enforcement officer, shall be a public record, subject to the access to public records act, § 38-2-2(4)(D), law enforcement exemptions. For purposes of this section, "computer-aided dispatch" (CAD) means an electronic system used by public safety agencies to facilitate incident response and communications in the field that electronically records information on call taking, dispatching, location verification, mapping, and other functions for public safety.
(d)
With the exception of operators who are subject to federal motor carrier regulations, no operator of a motor vehicle shall be requested to provide any documentation or identification other than a driver's license, motor vehicle registration, and/or proof of insurance when the motor vehicle has been stopped solely for a traffic violation, unless there exists reasonable suspicion or probable cause of criminal activity or the operator has failed to produce a valid driver's license.
(e)
If a violation of the traffic laws in this title is used to stop a motor vehicle for non-related investigatory reasons, the law enforcement officer shall document in writing or electronically the investigatory basis for the stop. The documentation of such stops shall commence no later than twelve (12) months after passage of this act and shall be assessed every six (6) months by the respective police department as to whether the suspicion was justified and the data be made publicly available, subject to the access to public records act, § 38-2-2(4)(D), law enforcement exemptions.
(f)
Any evidence obtained as a result of a search prohibited by subsection (a) or (b) shall be inadmissible in any judicial proceeding. Nothing contained herein shall be construed to preclude any search otherwise based upon any legally sufficient cause.
(g)
Law enforcement agencies using video and/or audio surveillance cameras in their vehicles shall adopt written policies and procedures regarding the use of such cameras, which shall be public records, and which shall include, but not be limited to, the following standards:
(1)
All motor vehicle stops conducted by police vehicles with such equipment shall be recorded barring exceptions outlined below. In an effort to objectively memorialize relevant observations, the recording shall begin no later than when an officer first signals the vehicle to stop; and, barring conditions that could compromise a sensitive investigation, jeopardize the safety of a vehicle occupant or cooperating victim/witness and/or unforeseen equipment malfunction, the recording shall continue until the motor vehicle stop is completed and the stopped vehicle departs, or until the officer's participation in the motor vehicle stop ends;
(2)
Law enforcement agencies that acquire video and/or audio surveillance cameras for use in their vehicles shall:
(i)
Notify the office of highway safety of the Rhode Island department of transportation that such equipment has been acquired and will be in use and the department of transportation shall post notice of such use on its website;
(ii)
Issue a press release advising the public that such equipment will be in use; and
(iii)

Post notice on its website that such equipment will be in use;
(3)
A chain of custody of the video/audio recordings, hereafter referred to as "recording(s)," shall be maintained;
(4)(i)
A driver of a motor vehicle who was recorded by a video/audio surveillance camera, and/or his or her legal counsel, shall have the right to view the in-car recording at the police station, provided that the viewing does not compromise an active investigation;
(ii)
A passenger of a motor vehicle who was recorded by a video/audio surveillance camera, and/or his or her legal counsel, shall have the right to view the in-car recording at the police station if that passenger became the subject of the police interaction recorded, provided that the viewing does not compromise an active investigation;
(5)
The policy shall address the period of retention for such recordings, and procedures to be used to ensure that the recording equipment is in proper working order, and shall bar the destruction of any recording of an incident that is the subject of a pending complaint, misconduct investigation, or civil or criminal proceeding. Such recordings shall be retained for a minimum of ten (10) days after the final resolution of such investigation or proceeding, including the time for any appeal;
(6)
The policy shall explicitly prohibit any violation of these requirements, including any attempts to disengage or tamper with the video/audio surveillance equipment, deliberately and prematurely erase or alter a recording, or to otherwise fail to record stops as specified herein barring the aforementioned limited exceptions; and
(7)
The video/audio surveillance recordings regulated by this section shall not be deemed public records under the access to public records act, § 38-2-1 et seq. A court may impose any appropriate remedy in any civil or criminal proceeding where a knowing and willful violation of these standards is found to have been committed.
(h)
Law enforcement officers shall advise any motorist who is stopped of the reason for the stop.
(i)
Law enforcement agencies with mobile display terminals in police vehicles shall adopt policies and procedures governing their use that shall include the criteria necessary to initiate a record check on a motor vehicle license or registrant. All law enforcement agencies must comply with state and federal guidelines related to the use and access of Rhode Island law enforcement telecommunication system (RILETS) and National Criminal Identification Center (NCIC).
(j)
The policies and procedures established by this section shall be added to, and prominently placed in, all relevant departmental policy and training manuals. Other appropriate training about the requirements of this chapter shall also be provided to all officers.

(a)
The office of highway safety of the Rhode Island department of transportation or a designee to be chosen by the department of transportation by January 1, 2017, is authorized to and shall conduct a study of routine traffic stops by the Rhode Island state police and each municipal police department in order to determine whether racial disparities in traffic stops exist, and to examine whether searches of vehicles and motorists are being conducted in a disparate manner.
(b)
The office of highway safety of the Rhode Island department of transportation or its designee shall, no later than January 1, 2016, develop a form or electronic equivalent to be used by each police officer when making a traffic stop to record the data required under this chapter, which form shall include for each motor vehicle stop, the race and ethnicity of the driver based on the officer's perception, and the information listed in § 31-21.1-4.
(c)
The office of highway safety of the Rhode Island department of transportation or its designee shall advise the Rhode Island state police and each municipal police department of the date that data collection shall commence. (d)
A traffic stop data collection card or electronic equivalent shall be completed for each routine traffic stop by the Rhode Island state police and municipal police department during the term of this study.
(e)
Upon commencement of data collection, and monthly thereafter, each municipal police department and the Rhode Island state police

shall transmit to the office of highway safety of the Rhode Island department of transportation or its designee all forms or electronic data collected to date of motorists who were stopped, and any other information the police department or the Rhode Island state police deem appropriate. Data collection shall continue for forty-eight (48) months following commencement of data collection.
(f)
Appropriate funding may be made available to implement the provision of this chapter and completion of this study shall be contingent upon such funding.
(g)
The study shall include a multivariate analysis of the collected data in accordance with general statistical standards and shall be substantially similar to the study prepared pursuant to chapter 21.1 of this title. The study shall be prepared by an organization, company, person, or other entity with sufficient expertise in the field of statistics and the study of traffic stop data collection to assist with the implementation of this chapter, and chosen by the office of highway safety of the Rhode Island department of transportation or its designee. The study shall be released on an annual basis, with the first release not later than eighteen (18) months after commencement of data collection under this chapter. The report, findings, and conclusions submitted pursuant to this subsection shall be a public record.
(h)
The office of highway safety of the Rhode Island department of transportation, or its designee, shall be exempt from the provisions of chapter 2 of title 37 in connection with its procurement of equipment and services necessary to the implementation of this chapter.

On a quarterly basis, a summary report of the monthly data provided by each police department and the state police for that quarterly period shall be issued. The report shall be a public record. The summary report shall include, at a minimum, a monthly breakdown by race, age, gender, and outcome for operators for each police department of the number of traffic stops made and of searches conducted. For those police departments collecting data through the use of mobile display terminals in police vehicles, the report shall also include a breakdown by race and outcome for operators. The report shall be released not more than ninety (90) days after the end of each quarterly period. No information revealing the identity of any individual shall be contained in the report.
(j)
Every law enforcement agency collecting data pursuant to this chapter shall ensure that supervisory personnel review each officer’s stop and search documentation and data results on a monthly basis to ensure compliance with all policies, prohibitions, and documentation requirements.
(k)
The head of every law enforcement agency subject to this chapter, or his or her designee, shall review the data on a regular basis in an effort to determine whether any racial disparities in the agency’s traffic stops enforcement exists, and to appropriately respond to any such disparities. It is understood that disparities may or may not equate to racial profiling.
(l)
An organization chartered for the purpose of combating discrimination, racism, or of safeguarding civil liberties, or of promoting full, free, or equal employment opportunities, and/or a governmental or quasi-governmental entity may seek appropriate relief in a civil action against any police department for failing to collect or transmit the data required in this chapter, and may be awarded its costs, including attorney’s fees, for bringing such an action. As a condition precedent to the filing of a civil action by an organization under this section, the organization shall send a notice to the office of highway safety of the Rhode Island department of transportation or its designee identifying the police department which is failing to collect or transmit the data and the organization shall then allow fifteen (15) days to elapse.
(m)
The office of highway safety of the Rhode Island department of transportation or its designee shall consult with community, police and civil rights representatives in the development of the form required by subsection (b) and on at least a quarterly basis shall consult on other issues that arise relating to the implementation and enforcement of this chapter including the information generated by the issuance of the reports required by subsection (i).

2024 Rhode Island General LawsTitle 31 - Motor and Other VehiclesChapter 31-23.1 - Vehicle Equipment Safety CompactSection 31-23.1-1. - Compact enacted.

§ 31-23.1-1. Compact enacted.
The vehicle equipment safety compact is enacted into law and entered into with all other jurisdictions legally joining in it in the form substantially as follows:
Findings and Purposes
(a)
The party states find that:
(1)
Accidents and deaths on their streets and highways present a very serious human and economic problem with a major deleterious effect on the public welfare.
(2)
There is a vital need for the development of greater interjurisdictional cooperation to achieve the necessary uniformity in the laws, rules, regulations and codes relating to vehicle equipment, and to accomplish this by any means that will minimize the time between the development of demonstrably and scientifically sound safety features and their incorporation into vehicles.
(b)
The purposes of this compact are to:
(1)
Promote uniformity in regulation of and standards for equipment.
(2)
Secure uniformity of law and administrative practice in vehicular regulation and related safety standards to permit incorporation of desirable equipment changes in vehicles in the interest of greater traffic safety.

(3)
To provide means for the encouragement and utilization of research which will facilitate the achievement of the foregoing purposes, with due regard for the findings set forth in subdivision (a) of this article.
(c)
It is the intent of this compact to emphasize performance requirements and not to determine the specific detail of engineering in the manufacture of vehicles or equipment except to the extent necessary for the meeting of such performance requirements.
As used in this compact:
(a)
“Vehicle” means every device in, upon or by which any person or property is or may be transported or drawn upon a highway, excepting devices moved by human power or used exclusively upon stationary rails or tracks.
(b)
“State” means a state, territory or possession of the United States, the District of Columbia, or the commonwealth of Puerto Rico.
(c)
“Equipment” means any part of a vehicle or any accessory for use thereon which affects the safety of operation of such vehicle or the safety of the occupants.
(a)
There is created an agency of the party states to be known as the “vehicle equipment safety commission” referred to here as “the commission”. The commission shall be composed of one commissioner from each party state who shall be appointed, serve, and be subject to removal in accordance with the laws of the state which he or she represents. If authorized by the laws of that party state, a commissioner may provide for the discharge of his or her duties and the performance of his or her functions on the commission, either for the duration of his or her membership or for any lesser period of time, by an alternate. No such alternate shall be entitled to serve unless notification of his or her identity and appointment shall have been given to the commission in whatever form that the commission may require. Each commissioner, and each alternate, when serving in the place and stead of a commissioner, shall be entitled to be reimbursed by the commission for expenses actually incurred in attending commission meetings or while engaged in the business of the commission.
(b)
The commissioners shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor of that action. Action of the commission shall be only at a meeting at which a majority of the commissioners, or their alternates, are present.
(c)
The commission shall have a seal.
(d)
The commission shall elect annually, from among its members, a chairman, a vice chairman and a treasurer. The commission may appoint an executive director and fix his or her duties and compensation. The executive director shall serve at the pleasure of the commission, and together with the treasurer shall be bonded in any amount that the commission shall determine. The executive director also shall serve as secretary. If there be no executive director, the commission shall elect a secretary in addition to the other officers provided by this subdivision.
(e)
Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director with the approval of the commission, or the commission if there be no executive director, shall appoint, remove or discharge such personnel as may be necessary for the performance of the commission’s functions, and shall fix the duties and compensation of such personnel.
(f)
The commission may establish and maintain independently or in conjunction with any one or more of the party states, a suitable retirement system for its full time employees. Employees of the commission shall be eligible for social security coverage in respect of old age and survivor’s insurance provided that the commission takes such steps as may be necessary pursuant to the laws of the United States, to participate in such program of insurance as a governmental agency or unit. The commission may establish and maintain or participate in such additional programs of employee benefits as may be appropriate.
(g)
The commission may borrow, accept or contract for the services of personnel from any party state, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two (2) or more of the party states or their subdivisions.
(h)
The commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials, and services, conditional or otherwise, from any state, the United States, or any other governmental agency and may receive, utilize and dispose of the same.
(i)
The commission may establish and maintain any facilities that may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest in it.

(j)
The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy of them and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states. The bylaws shall provide for appropriate notice to the commissioners of all commission meetings and hearings and the business to be transacted at those meetings or hearings. This notice shall also be given to those agencies or officers of each party state as the laws of that party state may provide.
(k)
The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the preceding year, and embodying such recommendations as may have been issued by the commission. The commission may make such additional reports as it may deem desirable.
The commission shall have power to:
(a)
Collect, correlate, analyze and evaluate information resulting or derivable from research and testing activities in equipment and related fields.
(b)
Recommend and encourage the undertaking of research and testing in any aspect of equipment or related matters when, in its judgment, appropriate or sufficient research or testing has not been undertaken.
(c)
Contract for any equipment research and testing that one or more governmental agencies may agree to have contracted for by the commission, provided that the governmental agency or agencies shall make available the funds necessary for that research and testing.
(d)
Recommend to the party states changes in law or policy with emphasis on uniformity of laws and administrative rules, regulations, or codes which would promote effective governmental action or coordination in the prevention of equipment-related highway accidents or the mitigation of equipment-related highway safety problems.
(a)
In the interest of vehicular and public safety, the commission may study the need for or desirability of the establishment of or changes in performance requirements, or restrictions for any item of equipment. As a result of such a study, the commission may publish a report relating to any item or items of equipment, and the issuance of such a report shall be a condition precedent to any proceedings or other action provided or authorized by this article. No less than sixty (60) days after the publication of a report containing the results of such a study, the commission upon due notice shall hold a hearing or hearings at such place or places as it may determine.
(b)
Following the hearing or hearings provided for in subdivision (a) of this article, and with due regard for standards recommended by appropriate professional and technical associations and agencies, the commission may issue rules, regulations, or codes embodying performance requirements or restrictions for any item or items of equipment covered in the report, which in the opinion of the commission will be fair and equitable and effectuate the purposes of this compact.
(c)
Each party state obligates itself to give due consideration to any and all rules, regulations, and codes issued by the commission and declares its policy and intent to be the promotion of uniformity in the laws of the several party states relating to equipment.
(d)
The commission shall send prompt notice of its action in issuing any rule, regulation or code pursuant to this article to the appropriate motor vehicle agency of each party state and that notice shall contain the complete text of the rule, regulation or code.
(e)
If the constitution of a party state requires, or if its statutes provide, the approval of the legislature by appropriate resolution or act may be made a prior condition to the taking effect in that party state of any rule, regulation or code. In such event, the commissioner of that party state shall submit any commission rule, regulation, or code to the legislature as promptly as may be in lieu of administrative acceptance or rejection of it by the party state.
(f)
Except as otherwise specifically provided in or pursuant to subdivisions (e) and (g) of this article, the appropriate motor vehicle agency of a party state shall in accordance with its constitution or procedural laws adopt the rule, regulation or code within six (6) months of the sending of the notice, and upon adoption, the rule, regulation or code shall have the force and effect of law in that state.
(g)
The appropriate motor vehicle agency of a party state may decline to adopt a rule, regulation or code issued by the commission pursuant to this article if that agency specifically finds, after public hearing on due notice, that a variation from the commission’s rule, regulation or code is necessary to the public safety, and incorporates in that finding the reasons upon which it is based. Any such finding shall be subject to review by whatever procedure for review of administrative determinations as may be applicable pursuant to the laws of the party state. Upon request, the commission shall be furnished with a copy of the transcript of any hearings

held pursuant to this subdivision.
(a)
The commission shall submit to the executive head or designated officer or officers of each party state a budget of its estimated expenditures for that period as may be required by the laws of that party state for presentation to its legislature.
(b)
Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states. The total amount of appropriations under any of these budgets shall be apportioned among the party states as follows: one-third (
1
/
3
) in equal shares; and the remainder in proportion to the number of motor vehicles registered in each party state. In determining the number of registrations, the commission may employ whatever source or sources of information as, in its judgment present the most equitable and accurate comparisons among the party states. Each of the commission's budgets of estimated expenditures and requests for appropriations shall indicate the source or sources used in obtaining information concerning vehicular registrations.
(c)
The commission shall not pledge the credit of any party state. The commission may meet any of its obligations in whole or in part with funds available to it under article III(h) of this compact, provided that the commission takes specific action setting aside those funds prior to incurring any obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it under article III(h) of this compact, the commission shall not incur any obligation prior to the allotment of funds by party states adequate to meet them.
(d)
The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its rules. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant and the report of the audit shall be included in and become part of the annual reports of the commission.
(e)
The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.
(f)
Nothing contained in this compact shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.
(a)
The commission shall adopt rules and regulations with respect to conflict of interest for the commissioners of the party states, and their alternates, if any, and for the staff of the commission and contractors with the commission to the end that no member or employee or contractor shall have a pecuniary or other incompatible interest in the manufacture, sale or distribution of motor vehicles or vehicular equipment or in any facility or enterprise employed by the commission or on its behalf for testing, conduct of investigations or research. In addition to any penalty for violation of any rules and regulations that may be applicable under the laws of the violator's jurisdiction of residence, employment or business, any violation of a commission rule or regulation adopted pursuant to this article shall require the immediate discharge of any violating employee and the immediate vacating of membership, or relinquishing of status as a member on the commission by any commissioner or alternate. In the case of a contractor, any violation of any rule or regulation shall make any contract of the violator with the commission subject to cancellation by the commission.
(b)
Nothing contained in this article shall be deemed to prevent a contractor for the commission from using any facilities subject to the contractor's control in the performance of the contract even though those facilities are not devoted solely to work of or done on behalf of the commission; nor to prevent such a contractor from receiving remuneration or profit from the use of those facilities.
The commission may establish any advisory and technical committees as it may deem necessary, membership on which may include private citizens and public officials, and may cooperate with and use the services of any of these committees and the organizations which the members represent in furthering any of its activities.
(a)
This compact shall enter into force when enacted into law by any six (6) or more states. Thereafter, this compact shall become effective as to any other state upon its enactment of it.
(b)
Any party state may withdraw from this compact by enacting a statute repealing it, but no withdrawal shall take effect until one year after the executive head of the withdrawing state has given notice in writing of the withdrawal to the executive heads of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of that withdrawal.
This compact shall be liberally construed so as to effectuate its purposes. The provisions of this compact shall be severable and if

any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States or the applicability of it to any government, agency, person or circumstances is held invalid, the validity of the remainder of this compact and the applicability of it to any government, agency, person or circumstance shall not be affected by it. If this compact shall be held contrary to the constitution of any state participating in it, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

§ 31-23.2-1. Declaration of findings and purpose.
(a)
The general assembly finds:
(1)
That purchasers, when buying motor vehicles, rely heavily on the odometer reading as an index of the condition and value of the vehicle;
(2)

That purchasers are entitled to rely on the odometer reading as an accurate reflection of the mileage actually traveled by the vehicle;
(3)
That an accurate indication of the mileage traveled by a motor vehicle, assists the purchaser in determining its safety and reliability; and
(4)
That motor vehicles move in the current of interstate and foreign commerce or affect that commerce.
(b)
It is therefore the purpose of this chapter to prohibit tampering with odometers on motor vehicles, to establish certain safeguards for the protection of purchasers with respect to the sale of motor vehicles having altered or reset odometers, and to create civil and criminal sanctions for the violation of the provisions of this chapter.

§ 31-23-4. Brake equipment required.
(a)
Every motor vehicle, other than a motorcycle or motor-driven cycle, when operated upon a highway, shall be equipped with brakes adequate to control the movement of and to stop and hold the vehicle, including two (2) separate means of applying the brakes, each of which means shall be effective to apply the brakes to at least two (2) wheels. If these two separate means of applying the brakes are connected in any way, they shall be so constructed that failure of any one part of the operating mechanism shall not leave the motor vehicle without brakes on at least two (2) wheels.
(b)
Every motorcycle, and motor-driven cycle, when operated upon a highway shall be equipped with at least one brake, which may be operated by hand or foot, and which is adequate to control and stop the vehicle.
(c)
Every trailer or semi-trailer of a gross weight of four thousand pounds (4,000 lbs.) or more, when operated upon a highway, shall be equipped with brakes adequate to control the movement of and to stop and to hold the vehicle, and so designed as to be applied by the driver of the towing motor vehicle from the driver’s normal operating position, and the brakes shall be so designed and connected that in case of an accidental breakaway of the towed vehicle, the brakes shall be automatically applied.
(d)
Every new motor vehicle, trailer or semi-trailer sold in this state and operated upon the highways shall be equipped with service brakes upon all wheels of the vehicle, except any motorcycle or motor-driven cycle, and except that any semi-trailer of less than four thousand pounds (4,000 lbs.) gross weight need not be equipped with brakes.
(e)
In any combination of motor-drawn vehicles, means shall be provided for applying:
(1)
The rearmost trailer brakes, of any trailer equipped with brakes, in approximate synchronism with the brakes on the towing vehicle and developing the required braking effort on the rearmost wheels at the fastest rate; or
(2)
Braking effort first on the rearmost trailer equipped with brakes; or
(3)
Both of the above means capable of being used alternatively may be employed.
(f)
Every motor vehicle, trailer, semi-trailer, and pole trailer, and any combination of those vehicles, except motorcycles and motor-driven cycles, shall be equipped with parking brakes adequate to hold the vehicle on any grade on which it is operated under

all conditions of loading on a surface free from snow, ice, or loose material. The parking brakes shall be capable of being applied in conformance with the requirements in this subsection by the driver's muscular effort, by spring action, or by equivalent means. The operation may be assisted by the service brakes or other source of power, provided that failure of the service brake actuation system or other power assisting mechanism will not prevent the parking brakes from being applied in conformance with the requirements in this subsection. The parking brakes shall be so designed that when once applied they shall remain applied with the required effectiveness, despite exhaustion of any source of energy or leakage of any kind. The same brake drums, brake shoes and lining assemblies, brake shoe anchors, and mechanical brake shoe actuation mechanism normally associated with the wheel brake assemblies may be used for both the service brakes and the parking brakes. If the means of applying the parking brakes and the service brakes are connected in any way, they shall be so constructed that failure of any one part shall not leave the vehicle without operative brakes.

(g)

The brake shoes operating within or upon the drums on the vehicle wheels of any motor vehicle may be used for both service and hand operation.

(h)

It shall be unlawful to sell, offer for sale, or distribute brake linings for use on motor vehicles, unless they are of a type and meet specifications promulgated by the administrator of the division of motor vehicles. The administrator of the division of motor vehicles is authorized and empowered to adopt and amend regulations governing types and promulgate specifications of brake linings which comply with approved standards, as promulgated by the vehicle equipment safety commission, and shall establish and maintain an approved list of brake linings meeting the specifications as established in this chapter. Any person who violates the provisions of this section shall be guilty of a civil violation and is subject to fines enumerated in § 31-41.1-4.

(b)
With respect to all public highways, the overall gross weight on a group of two (2) or more consecutive axles of a vehicle or combination of vehicles, shall be determined by the following bridge gross weight formula:
$W = 500 [(LN /(N-1)) + 12N + 36]$
where W = the overall gross weight on any group of two or more consecutive axles to the nearest five hundred pounds (500 lbs.); L = the distance in feet between the extremes of any group of two (2) or more consecutive axles; and N = the number of axles in the group under consideration. This overall gross weight of any vehicle or combination of vehicles may not exceed eighty thousand pounds (80,000 lbs.) except as specified in §§ 31-25-1, 31-25-2, and 31-25-21.
(c)

Single axle limits shall be as defined in § 31-25-13. Nothing in this chapter shall be construed to abrogate any of the “grandfather rights” in existence as of April 1, 1989.

§ 31-25-21. Power to permit excess size or weight of loads.
(a)
The department of transportation, with respect to highways under its jurisdiction, may, in its discretion, upon application in writing and good cause being shown for it, approve the issuance of a special permit in writing authorizing the applicant to operate or move a vehicle, or combination of vehicles, of a size or weight of vehicle or load exceeding eighty thousand pounds (80,000 lbs.) or otherwise not in conformity with the provisions of chapters 1 — 27 of this title upon any highway under the jurisdiction of the party granting the permit and for the maintenance of which the party is responsible. Permits that have been issued for a full year shall not be required to be renewed for the period of time for which payment has been made and the application and other required documentation has been completed and filed. Provided, that neither the department of transportation nor the local authorities may approve the issuance of permits for divisible loads weighing in excess of the limits set by the director of the department of transportation by and through the rules and regulations promulgated by the department of transportation entitled “rules and regulations regarding overweight and oversize vehicle permits”.
(1)
Provided, however, that for milk products, any vehicle carrying fluid milk products shall be considered a load that cannot be easily dismantled or divided.
(b)
The director of the department of transportation may enter into agreements with other states, the District of Columbia, and Canadian provinces providing for the reciprocal enforcement of the overweight or over-dimensional vehicle permit laws of those jurisdictions entering into the agreement.
(c) Single trip non-divisible permit fee.
A fee of forty dollars ($40.00) shall be paid to the department of transportation for the issuance of each non-divisible single trip permit. Upon approval of the application, the department of transportation shall provide the approved permit. The driver must possess the permit and documentation as required by the permit at all times.
(d) Annual construction equipment blanket permit fee.
An annual fee of four hundred dollars ($400) paid to the department of transportation shall exempt the payor from the necessity of paying single trip permit fees for non-divisible construction equipment loads of less than one hundred thirty thousand pounds (130,000 lbs.) as found in subsection (c). However, payment of the fee shall not be deemed to authorize noncompliance with the rules and regulations promulgated by the department of transportation entitled “rules and regulations regarding overweight and oversize vehicle permits”.
(e)
Blanket construction equipment permits may be issued, as determined by the department of transportation, for intrastate movement of non-divisible construction equipment loads upon payment of the fee set forth in subsection (d). If used in conjunction with an annual divisible load permit, the limits and requirements of the blanket construction equipment permit shall supersede the

requirements of the divisible load permit. The driver must possess both permits and all required documentation. The duration of the blanket permit may not exceed one year. The construction equipment permit load shall be limited to a minimum overall length of fifty-five feet (55′), a maximum overall length of eighty feet (80′), a maximum width of twelve feet four inches (12′ 4″), a maximum gross weight of one hundred thirty thousand pounds (130,000 lbs.), and a maximum axle weight of twenty-five thousand pounds (25,000 lbs.); provided, that the department of transportation, with respect to highways under its jurisdiction, may, in its discretion and upon application and for good cause shown, approve the issuance of a single trip non-divisible permit authorizing the applicant to exceed one hundred thirty thousand pounds (130,000 lbs.) for non-divisible loads. A flashing amber light shall be in operation above the highest point of the vehicle and shall be visible from both the front and rear of the vehicle; and signs and red warning flags shall be affixed to all extremities. All blanket permits issued in accordance with this section shall be effective during daylight and night-time hours for all over-dimensional moves made and travel shall be allowed on state highways.

2024 Rhode Island General LawsTitle 31 - Motor and Other VehiclesChapter 31-27 - Motor Vehicle OffensesSection 31-27-2.1. - Refusal to submit to chemical test. [Effective until July 1, 2025.]

§ 31-27-2.1. Refusal to submit to chemical test. [Effective until July 1, 2025.]
(a)
Any person who operates a motor vehicle within this state shall be deemed to have given his or her consent to chemical tests of his or her breath, blood, saliva and/or urine for the purpose of determining the chemical content of his or her body fluids or breath. No more than two (2) complete tests, one for the presence of intoxicating liquor and one for the presence of toluene or any controlled substance, as defined in § 21-28-1.02, shall be administered at the direction of a law enforcement officer having reasonable grounds to believe the person to have been driving a motor vehicle within this state while under the influence of intoxicating liquor, toluene, or any controlled substance, as defined in chapter 28 of title 21, or any combination of these. The director of the department of health is empowered to make and file, with the secretary of state, regulations that prescribe the techniques and methods of chemical analysis of the person’s body fluids or breath and the qualifications and certification of individuals authorized to administer the testing and analysis.
(b)
If a person, for religious or medical reasons, cannot be subjected to blood tests, the person may file an affidavit with the division of

motor vehicles stating the reasons why he or she cannot be required to take blood tests and a notation to this effect shall be made on his or her license. If that person is asked to submit to chemical tests as provided under this chapter, the person shall only be required to submit to chemical tests of his or her breath, saliva or urine. When a person is requested to submit to blood tests, only a physician or registered nurse, or a medical technician certified under regulations promulgated by the director of the department of health, may withdraw blood for the purpose of determining the alcoholic content in it. This limitation shall not apply to the taking of breath, saliva or urine specimens. The person tested shall be permitted to have a physician of his or her own choosing, and at his or her own expense, administer chemical tests of his or her breath, blood, saliva and/or urine in addition to the tests administered at the direction of a law enforcement officer. If a person, having been placed under arrest, refuses upon the request of a law enforcement officer to submit to the tests, as provided in § 31-27-2, none shall be given.

(1)

At the initial traffic tribunal appearance, the magistrate shall review the incident, action, and/or arrest reports submitted by the law enforcement officer to determine if there exists reasonable grounds to believe that the person had been driving a motor vehicle while under the influence of intoxicating liquor, toluene, or any controlled substance as defined in chapter 28 of title 21, or any combination thereof. The magistrate shall also determine if the person had been informed of the penalties incurred as a result of failing to submit to a chemical test as provided in this section and that the person had been informed of the implied consent notice contained in subsection (c)(10) of this section. For the purpose of this subsection only, “driving a motor vehicle while under the influence of any controlled substance as defined in chapter 28 of title 21” shall be indicated by the presence or aroma of a controlled substance on or about the person or vehicle of the individual refusing the chemical test or other reliable indicia or articulable conditions that the person was impaired due to their intake of a controlled substance.

(2)

If the magistrate determines that subsection (b)(1) of this section has been satisfied they shall promptly order that the person’s operator’s license or privilege to operate a motor vehicle in this state be immediately suspended. Said suspension shall be subject to the hardship provisions enumerated in § 31-27-2.8.

(c)

A traffic tribunal judge or magistrate, or a district court judge or magistrate, pursuant to the terms of subsection (d) of this section, shall order as follows:

(1)

Impose, for the first violation, a fine in the amount of two hundred dollars ($200) to five hundred dollars ($500) and shall order the person to perform ten (10) to sixty (60) hours of public community restitution. The person’s driving license in this state shall be suspended for a period of six (6) months to one year. The traffic tribunal judge or magistrate shall require attendance at a special course on driving while intoxicated or under the influence of a controlled substance and/or alcohol or drug treatment for the individual. The traffic tribunal judge or magistrate may prohibit that person from operating a motor vehicle that is not equipped with an ignition interlock system and/or blood and urine testing as provided in § 31-27-2.8.

(2)

Every person convicted of a second violation within a five-year (5) period, except with respect to cases of refusal to submit to a blood test, shall be guilty of a misdemeanor; shall be imprisoned for not more than six (6) months; shall pay a fine in the amount of six hundred dollars ($600) to one thousand dollars ($1,000); perform sixty (60) to one hundred (100) hours of public community restitution; and the person’s driving license in this state shall be suspended for a period of one year to two (2) years. The judge or magistrate shall require alcohol and/or drug treatment for the individual. The sentencing judge or magistrate shall prohibit that person from operating a motor vehicle that is not equipped with an ignition interlock system and/or blood and urine testing as provided in § 31-27-2.8.

(3)

Every person convicted for a third or subsequent violation within a five-year (5) period, except with respect to cases of refusal to submit to a blood test, shall be guilty of a misdemeanor; and shall be imprisoned for not more than one year; fined eight hundred dollars ($800) to one thousand dollars ($1,000); shall perform not less than one hundred (100) hours of public community restitution; and the person’s operator’s license in this state shall be suspended for a period of two (2) years to five (5) years. The sentencing judge or magistrate shall prohibit that person from operating a motor vehicle that is not equipped with an ignition interlock system and/or blood and urine testing as provided in § 31-27-2.8. The judge or magistrate shall require alcohol or drug treatment for the individual. Provided, that prior to the reinstatement of a license to a person charged with a third or subsequent violation within a three-year (3) period, a hearing shall be held before a judge or magistrate. At the hearing, the judge or magistrate shall review the person’s driving record, his or her employment history, family background, and any other pertinent factors that would indicate that the person has demonstrated behavior that warrants the reinstatement of his or her license.

(4)

For a second violation within a five-year (5) period with respect to a case of a refusal to submit to a blood test, a fine in the amount of six hundred dollars ($600) to one thousand dollars ($1,000); the person shall perform sixty (60) to one hundred (100) hours of public community restitution; and the person’s driving license in this state shall be suspended for a period of two (2) years. The judicial officer shall require alcohol and/or drug treatment for the individual. The sentencing judicial officer shall prohibit that person from operating a motor vehicle that is not equipped with an ignition interlock system as provided in § 31-27-2.8. Such a violation with respect to refusal to submit to a chemical blood test shall be a civil offense.

(5)
For a third or subsequent violation within a five-year (5) period with respect to a case of a refusal to submit to a blood test, a fine in the amount of eight hundred dollars ($800) to one thousand dollars ($1,000); the person shall perform not less than one hundred (100) hours of public community restitution; and the person's driving license in this state shall be suspended for a period of two (2) to five (5) years. The sentencing judicial officer shall prohibit that person from operating a motor vehicle that is not equipped with an ignition interlock system as provided in § 31-27-2.8. The judicial officer shall require alcohol and/or drug treatment for the individual. Such a violation with respect to refusal to submit to a chemical test of blood shall be a civil offense. Provided, that prior to the reinstatement of a license to a person charged with a third or subsequent violation within a three-year (3) period, a hearing shall be held before a judicial officer. At the hearing, the judicial officer shall review the person's driving record, his or her employment history, family background, and any other pertinent factors that would indicate that the person has demonstrated behavior that warrants the reinstatement of their license.
(6)
For purposes of determining the period of license suspension, a prior violation shall constitute any charge brought and sustained under the provisions of this section or § 31-27-2.
(7)
In addition to any other fines, a highway safety assessment of five hundred dollars ($500) shall be paid by any person found in violation of this section, the assessment to be deposited into the general fund. The assessment provided for by this subsection shall be collected from a violator before any other fines authorized by this section.
(8)
In addition to any other fines and highway safety assessments, a two-hundred-dollar ($200) assessment shall be paid by any person found in violation of this section to support the department of health's chemical testing programs outlined in §§ 31-27-2(f) and 31-27-2(g), that shall be deposited as general revenues, not restricted receipts.
(9)
No fines, suspensions, assessments, alcohol or drug treatment programs, course on driving while intoxicated or under the influence of a controlled substance, or public community restitution provided for under this section can be suspended.
(10)
Implied consent notice for persons eighteen (18) years of age or older: "Rhode Island law requires you to submit to a chemical test of your blood, breath, or urine for the purpose of determining the chemical content of your body fluids or breath. If you refuse this testing, certain penalties can be imposed and include the following: for a first offense, your Rhode Island driver's license or privilege to operate a motor vehicle in this state can be suspended for six (6) months to one year or modified to permit operation in connection with an ignition interlock device for a period specified by law; a fine from two hundred dollars ($200) to five hundred dollars ($500) can be imposed; and you can be ordered to perform ten (10) to sixty (60) hours of community service and attend a special course on driving while intoxicated or under the influence of a controlled substance and/or alcohol or drug treatment. If you have had one or more previous offenses within the past five (5) years, your refusal to submit to a chemical test of breath or urine at this time can have criminal penalties, including incarceration up to six (6) months for a second offense and up to one year for a third or subsequent offense, and can carry increased license suspension or ignition interlock period, fines, and community service. All violators shall pay a five hundred dollar ($500) highway safety assessment fee, a two hundred dollar ($200) department of health chemical testing programs assessment fee, and a license reinstatement fee. Refusal to submit to a chemical test of blood shall not subject you to criminal penalties for the refusal itself, but if you have one or more previous offenses other civil penalties may increase. You have the right to be examined at your own expense by a physician selected by you. If you submit to a chemical test at this time, you have the right to have an additional chemical test performed at your own expense. You will be afforded a reasonable opportunity to exercise these rights. Access to a telephone will be made available for you to make those arrangements. You may now use a telephone."
Use of this implied consent notice shall serve as evidence that a person's consent to a chemical test is valid in a prosecution involving driving under the influence of liquor, controlled substances, and/or drugs.
(d)
Upon suspending or refusing to issue a license or permit as provided in subsection (a), the traffic tribunal or district court shall immediately notify the person involved in writing, and upon his or her request, within fifteen (15) days, afford the person an opportunity for a hearing as early as practical upon receipt of a request in writing. Upon a hearing, the judge may administer oaths and may issue subpoenas for the attendance of witnesses and the production of relevant books and papers. If the judge finds after the hearing that:
(1)
The law enforcement officer making the sworn report had reasonable grounds to believe that the arrested person had been driving a motor vehicle within this state while under the influence of intoxicating liquor, toluene, or any controlled substance, as defined in chapter 28 of title 21, or any combination of these;
(2)
The person, while under arrest, refused to submit to the tests upon the request of a law enforcement officer;
(3)
The person had been informed of his or her rights in accordance with § 31-27-3; and

(4)
The person had been informed of the penalties incurred as a result of noncompliance with this section, the judge shall sustain the violation. The judge shall then impose the penalties set forth in subsection (c) of this section. Action by the judge must be taken within seven (7) days after the hearing or it shall be presumed that the judge has refused to issue his or her order of suspension.
(e)
For the purposes of this section, any test of a sample of blood, breath, or urine for the presence of alcohol that relies, in whole or in part, upon the principle of infrared light absorption is considered a chemical test.
(f)
If any provision of this section, or the application of any provision, shall, for any reason, be judged invalid, the judgment shall not affect, impair, or invalidate the remainder of the section, but shall be confined in this effect to the provisions or application directly involved in the controversy giving rise to the judgment.

Provided, that prior to the reinstatement of a license to a person charged with a third or subsequent violation within a three-year (3) period, a hearing shall be held before a judicial officer. At the hearing, the judicial officer shall review the person's driving record, his or her employment history, family background, and any other pertinent factors that would indicate that the person has demonstrated behavior that warrants the reinstatement of their license.

(6)

For purposes of determining the period of license suspension, a prior violation shall constitute any charge brought and sustained under the provisions of this section or § 31-27-2.

(7)

In addition to any other fines, a highway safety assessment of five hundred dollars ($500) shall be paid by any person found in violation of this section, the assessment to be deposited into the general fund. (10)

Implied consent notice for persons eighteen (18) years of age or older: "Rhode Island law requires you to submit to a chemical test of your blood, breath, saliva, or urine for the purpose of determining the chemical content of your body fluids or breath. If you

refuse this testing, certain penalties can be imposed and include the following: for a first offense, your Rhode Island driver's license or privilege to operate a motor vehicle in this state can be suspended for six (6) months to one year or modified to permit operation in connection with an ignition interlock device and/or blood and urine testing for a period specified by law; a fine from two hundred dollars ($200) to five hundred dollars ($500) can be imposed; and you can be ordered to perform ten (10) to sixty (60) hours of community service and attend a special course on driving while intoxicated or under the influence of a controlled substance and/or alcohol or drug treatment. If you have had one or more previous offenses within the past ten (10) years, your refusal to submit to a chemical test of breath or urine at this time can have criminal penalties, including incarceration up to six (6) months for a second offense and up to one year for a third or subsequent offense, and can carry increased license suspension or ignition interlock and/or blood and urine testing periods, fines, and community service. All violators shall pay a five hundred dollar ($500) highway safety assessment fee, a two hundred dollar ($200) department of health chemical testing programs assessment fee, and a license reinstatement fee. Refusal to submit to a chemical test of blood shall not subject you to criminal penalties for the refusal itself, but if you have one or more previous offenses other civil penalties may increase. You have the right to be examined at your own expense by a physician selected by you. If you submit to a chemical test at this time, you have the right to have an additional chemical test performed at your own expense. You will be afforded a reasonable opportunity to exercise these rights. Access to a telephone will be made available for you to make those arrangements. You may now use a telephone."

Use of this implied consent notice shall serve as evidence that a person's consent to a chemical test is valid in a prosecution involving driving under the influence of liquor, controlled substances, and/or drugs.

(d)

Upon suspending or refusing to issue a license or permit as provided in subsection (a), the traffic tribunal or district court shall immediately notify the person involved in writing, and upon his or her request, within fifteen (15) days, afford the person an opportunity for a hearing as early as practical upon receipt of a request in writing. Upon a hearing, the judge may administer oaths and may issue subpoenas for the attendance of witnesses and the production of relevant books and papers. If the judge finds after the hearing that:

(1)

The law enforcement officer making the sworn report had reasonable grounds to believe that the arrested person had been driving a motor vehicle within this state while under the influence of intoxicating liquor, toluene, or any controlled substance, as defined in chapter 28 of title 21, or any combination of these;

(2)

The person, while under arrest, refused to submit to the tests upon the request of a law enforcement officer;

(3)

The person had been informed of his or her rights in accordance with § 31-27-3; and

(4)

The person had been informed of the penalties contained in the implied consent notice set forth in subsection (c)(10) of this section, the judge shall sustain the violation. The judge shall then impose the penalties set forth in subsection (c) of this section. Action by the judge must be taken within seven (7) days after the hearing or it shall be presumed that the judge has refused to issue his or her order of suspension.

(e)

For the purposes of this section, any test of a sample of blood, breath, or urine for the presence of alcohol that relies, in whole or in part, upon the principle of infrared light absorption is considered a chemical test.

(f)

If any provision of this section, or the application of any provision, shall, for any reason, be judged invalid, the judgment shall not affect, impair, or invalidate the remainder of the section, but shall be confined in this effect to the provisions or application directly involved in the controversy giving rise to the judgment.

§ 31-27-2.2. Driving under the influence of liquor or drugs, resulting in death.

(a)

When the death of any person other than the operator ensues as a proximate result of an injury received by the operation of any vehicle, the operator of which is under the influence of any intoxicating liquor, toluene, or any controlled substance as defined in chapter 28 of title 21, or any combination of these, the person so operating the vehicle shall be guilty of "driving under the influence of liquor or drugs, resulting in death".

(b)
Any person charged with the commission of the offense set forth in subsection (a) of this section shall, upon conviction, be punished as follows:
(1)(i)
Every person convicted of a first violation shall be punished by imprisonment in the state prison for not less than five (5) years and for not more than fifteen (15) years, in any unit of the adult correctional institutions in the discretion of the sentencing judge, by a fine of not less than five thousand dollars ($5,000) nor more than ten thousand dollars ($10,000) and his or her license to operate a motor vehicle shall be revoked for a period of five (5) years. The license privilege shall not be reinstated until evidence satisfactory to the administrator of the division of motor vehicles establishes that no grounds exist which would authorize the refusal to issue a license, and until the person gives proof of financial responsibility pursuant to chapter 32 of this title.
(ii)
In addition, the person convicted may be required to successfully complete alcohol or drug treatment in a program of their choice, at their own expense, as authorized by a judge of the superior court, and may successfully complete the program before any license to operate a motor vehicle is renewed.
(2)
Every person convicted of a second or subsequent violation within a five (5) year period in this state or any other state, provided the out-of-state conviction was based on the same blood-alcohol concentration as set forth in § 31-27-2 shall be punished by imprisonment in the state prison for not less than ten (10) years and for not more than twenty (20) years, in any unit of the adult correctional institutions in the discretion of the sentencing judge, by a fine of not less than ten thousand dollars ($10,000) nor more than twenty thousand dollars ($20,000) and his or her license to operate a motor vehicle shall be revoked for a period of five (5) years. In addition, the person convicted may be required to successfully complete alcohol or drug treatment, at their own expense, in a program established by the director of the department of corrections. The license privilege shall not be reinstated whether the convictions occurred in this or any other state until evidence satisfactory to the superior court, following a hearing establishes that no grounds exist which would authorize the refusal to issue a license, and until the person gives proof of financial responsibility pursuant to chapter 32 of this title.

§ 31-27-2.3. Revocation of license upon refusal to submit to preliminary breath test.
(a)
When a law enforcement officer has reason to believe that a person is driving or in actual physical control of any motor vehicle in this state while under the influence of alcohol, the law enforcement officer may require the person to submit to a preliminary breath analysis for the purpose of determining the person’s blood alcohol content. The breath analysis must be administered immediately upon the law enforcement officer’s formulation of a reasonable belief that the person is driving or in actual control of a motor vehicle while under the influence of alcohol, or immediately upon the stop of the person, whichever is later in time. Any chemical breath analysis required under this section must be administered with a device and in a manner approved by the director of the department of health for that purpose. The result of a preliminary chemical breath analysis may be used for the purpose of guiding the officer in deciding whether an arrest should be made. When a driver is arrested following a preliminary breath analysis, tests may be taken pursuant to § 31-27-2.1. The results of a preliminary breath test may not be used as evidence in any administrative or court proceeding involving driving while intoxicated or refusing to take a breathalyzer test, except as evidence of probable cause in making the initial arrest.
(b)
If a person refuses, upon a lawful request of a law enforcement officer, to submit to a test under subsection (a) of this section, that person shall be guilty of an infraction and shall be subject to the penalty provided in § 31-41.1-4. However, it shall be a defense to a charge of refusing a validly requested preliminary breath analysis that the medical condition of a person precluded the giving of any such test.

(c)
If a person as set forth in subsection (a) of this section refuses, upon the request of a law enforcement officer, to submit to a test as provided in § 31-27-2.1, none shall be given, but a judge of the family court, upon receipt of a report or testimony of a law enforcement officer: that he or she had probable cause to stop the arrested person and reasonable grounds to believe the arrested person had been driving a motor vehicle within this state while impaired by intoxicating liquor, toluene, or any controlled substance, as defined in chapter 28 of title 21, or any combination of these; that the person had been informed of his or her rights in accordance with § 31-27-3; that the person had been informed of the implied consent notice contained in subsection (h) of this section; and that the person had refused to submit to the test upon the request of a law enforcement officer; shall promptly order a hearing on whether the person's operator's license or privilege to operate a motor vehicle in this state shall be suspended. (3)
On a second violation of this section, the person's driving license shall be suspended until he or she is twenty-one (21) years of age. The sentencing judge shall require alcohol and/or drug treatment for the individual.
(4)
On a third or subsequent violation, the person's driving license shall be suspended for an additional period of two (2) years and the sentencing judge shall require alcohol and/or drug treatment for the individual.
(5)
No suspensions, assessments, driving while intoxicated school, or alcohol and/or drug treatment programs under this section can be suspended, shortened, altered, or changed.

Notwithstanding any other sentencing and disposition provisions contained in this chapter, if a Rhode Island traffic tribunal magistrate makes a finding that a motorist was operating a vehicle in the state while under the influence of drugs, toluene, or any controlled substance as evidenced by the presence of controlled substances on or about the person or vehicle, or other reliable indicia or articulable conditions thereof and intoxicating liquor based on a preliminary breath test, results from a breathalyzer that indicates blood alcohol concentration or both, the magistrate may require an ignition interlock system in addition to blood and/or urine testing as a condition to operating a motor vehicle as provided in this section.
(b)
Notwithstanding any other provisions contained in this chapter, any mandatory period of license suspension shall, upon request, be

reduced by the imposition of an ignition interlock system and/or blood and urine testing ordered by the court or traffic tribunal as follows:

(1)

For a violation of § 31-27-2(d)(1), a person shall be subject to a minimum thirty-day (30) license suspension and an imposition of an ignition interlock system and/or blood and urine testing for three (3) months to one year.

(2)

For a violation of § 31-27-2.1(c)(1), a person shall be subject to a minimum thirty-day (30) license suspension and an imposition of an ignition interlock system and/or blood and urine testing for a period of six (6) months to two (2) years.

(3)

For a violation of § 31-27-2(d)(2), a person shall be subject to a minimum forty-five-day (45) license suspension and an imposition of an ignition interlock system and/or blood and urine testing for a period of six (6) months to two (2) years.

(4)

For a violation of § 31-27-2.1(c)(2), a person shall be subject to a minimum sixty-day (60) license suspension and an imposition of an ignition interlock system and/or blood and urine testing for a period of one to four (4) years.

(5)

For a violation of § 31-27-2(d)(3), a person shall be subject to a minimum sixty-day (60) license suspension and imposition of an ignition interlock system and/or blood and urine testing for a period of one to four (4) years.

(6)

For a violation of § 31-27-2.1(c)(3), a person shall be subject to a minimum ninety-day (90) license suspension and imposition of an ignition interlock system and/or blood and urine testing for a period of two (2) to ten (10) years.

(7)

No license suspension shall be subject to more than a thirty-day (30) license suspension based solely upon the imposition of an ignition interlock system.

(i)

If a conviction pursuant to § 31-27-2(d)(1) or § 31-27-2.1(c)(1) is a first offense, or upon an initial suspension pursuant to § 31-27-2.1(b)(1), where there has been a finding or determination that the motorist was under the influence of intoxicating liquor only, the magistrate shall, upon request, immediately grant a conditional hardship license after a finding of need pursuant to this section and upon proof of the installation of an ignition interlock device.

(ii)

If a conviction pursuant to § 31-27-2(d)(1) or § 31-27-2.1(c)(1) is a first offense, or upon an initial suspension pursuant to § 31-27-2.1(b)(1), where there has been a finding or determination that the motorist was under the influence of drugs, toluene, or a controlled substance, but not intoxicating liquor, the judge or magistrate shall, upon request immediately grant a conditional hardship license after a finding of need pursuant to this section and upon proof of blood and urine testing pursuant to this section.

(iii)

If a conviction pursuant to § 31-27-2(d)(1) or § 31-27-2.1(c)(1) is a first offense, or upon an initial suspension pursuant to § 31-27-2.1(b)(1), where there has been a finding or determination that the motorist was under the influence of intoxicating liquor, toluene, a controlled substance, or any combination thereof, the magistrate shall, upon request immediately grant a conditional hardship license after a finding of need pursuant to this section and upon proof of the installation of an ignition interlock device, subject also to the following testing:

(A)

The testing of either blood or urine is being performed by or monitored by a licensed physician with knowledge and clinical experience in the diagnosis and treatment of drug-related disorders, a licensed or certified psychologist, social worker, or EAP professional with like knowledge, or a substance abuse counselor certified by the National Association of Alcohol and Drug Abuse Counselors (all of whom shall be licensed in Rhode Island).

(B)

The motorist is required to pay for the substance abuse professional, any testing, retesting, monitoring, and reporting costs of the blood and urine testing.

(C)

Samples are to be collected, tested and confirmed by a federally certified laboratory by means of gas chromatography/mass spectrometry or technology recognized as being at least as scientifically accurate.

(D)

Samples are to be taken weekly for the first sixty (60) days, thereafter in accordance with the recommendation of the substance abuse professional. The samples taken thereafter may be ordered randomly, but must be provided by the motorist within twenty-four (24) hours of the request. The substance abuse professional shall report to the department of the attorney general within twenty-four (24) hours any failure by the motorist to comply with a request for a sample.

(E)

A positive test of urine or blood that evidences any controlled substances shall be reported by the substance abuse professional to the motorist and to the department of the attorney general within twenty-four (24) hours of receipt of the results. The motorist may, at his or her own expense, have an opportunity to have the sample retested or reevaluated by an independent testing facility which shall

provide the result directly to the substance abuse professional. The attorney general may request, at any time, a copy of any or all test results from the substance abuse professional, who shall forward the requested results within forty-eight (48) hours.
(F)
Upon completion of the license suspension, conditional hardship, ignition interlock and substance abuse testing periods, a finalized report shall be presented to the department of motor vehicles prior to any license reinstatement.
(G)
If a judge or magistrate determines that a motorist either failed, without good cause, to comply with a sample request or tested positive for any controlled substance, he or she may exercise his or her discretion and revoke the conditional hardship license, extend the time period for the ignition interlock system and/or substance abuse testing for an additional period of up to twelve (12) months and/or impose an additional loss of license for up to twenty-four (24) months.
(H)
A motorist who has failed, without good cause, to comply with a sample request or tested positive for any controlled substance for a second time within twelve (12) months of the first failure and/or positive test determination shall be guilty of a misdemeanor punishable by up to one year imprisonment, or a fine of up to one thousand dollars ($1,000), or both.
(c)
However, in any case where a motorist is convicted of an alcohol-related offense pursuant to the provisions of this chapter, the judge or magistrate may exercise his or her discretion in the granting of the hardship license by imposing up to a ninety (90) day loss of license prior to any imposition of the hardship license. The hardship license shall be valid for twelve (12) continuous hours per day for any valid reason approved in advance by the sentencing judge or magistrate, which shall include employment, medical appointments, job training, schooling, or religious purposes. The hardship license shall not be for less than twelve (12) continuous hours per day. A hardship license shall only be granted in conjunction with the installation of an ignition interlock device and/or blood and urine testing. Any conditional driving privileges must be set by the sentencing judge or magistrate after a hearing in which the motorist must provide proof of employment status and hours of employment, or any other legitimate reasons justifying a hardship license. These shall include, but not be limited to, any unemployment training, schooling, medical appointments, therapy treatments, or any other valid requests set forth by sworn affidavit. Once said hardship period has concluded, the motorist must still be subject to the conditions of the ignition interlock system and/or blood and urine testing as set forth under this section for the period of time as directed by the court. Any individual who violates the requirements of this subsection shall be subject to the penalties enumerated in § 31-11-18.1.
(d)
Any person convicted of an offense of driving under the influence of liquor or drugs resulting in death, § 31-27-2.2; driving under the influence of liquor or drugs resulting in serious bodily injury, § 31-27-2.6; driving to endanger resulting in death, § 31-27-1; or driving to endanger resulting in serious bodily injury, § 31-27-1.1; may, in addition to any other penalties provided by law, be prohibited from operating a motor vehicle that is not equipped with an approved ignition interlock system and/or blood and urine testing for one to five (5) years.
(e)
Any person who operates a motor vehicle with a suspended license during the period of suspension, and the reason for the suspension was due to a conviction of driving under the influence of drugs or alcohol or a sustained violation or conviction of refusal to submit to a chemical test, shall be subject to the further use of the ignition interlock system and/or blood and urine testing for a period of six (6) months subsequent to the penalties enumerated in § 31-11-18.1.
(f)
When the court orders the use of an ignition interlock system, the judge or magistrate shall cause an appropriate notation to be made on the person’s record that clearly sets forth the requirement for, and the period of the use of, the ignition interlock system.
(g)
In addition to the requirements of subsection (f) of this section, the court or traffic tribunal shall:
(1)
Require proof of the installation of the ignition interlock system and periodic reporting by the person for the purpose of verification of the proper operation of the ignition interlock system;
(2)
Require the person to have the ignition interlock system monitored for the proper use and accuracy by a person, firm, corporation, or other association to be approved by the division of motor vehicles at least once every six (6) months, or more frequently as the circumstances may require; and
(3)
Require the person to pay the reasonable cost of leasing or buying, monitoring, and maintenance of the ignition interlock system.
(4)
The requirements under subsection (g) of this section shall be the responsibility of the probation department or justice assistance, if the individual is under their control, or the division of motor vehicles if the individual is not monitored as a condition of the individual’s plea or finding of guilt.
(h)
Any person granted a conditional hardship license upon proof of installation of an ignition interlock device, may operate that motor

vehicle during the entire twelve-hour (12) period of operation granted by the sentencing judge or magistrate including during the scope of the person's employment and/or any other valid reason approved by the sentencing judge or magistrate.
(i)
If a person is required, in the course of the person's employment, to operate a motor vehicle owned or provided by the person's employer, the person may operate that motor vehicle in the course of the person's employment without installation of an ignition interlock system if the court makes specific findings expressly permitting the person to operate, in the course of the person's employment, a motor vehicle that is not equipped with an ignition interlock system.
(j)(1)
Any person subject to an ignition interlock order and/or blood and urine testing who violates such order shall be guilty of a misdemeanor punishable by up to one year imprisonment, or a fine of up to one thousand dollars ($1,000), or both.
(2)
For a second violation within six (6) months from entry of the order, the person violating the order shall be imprisoned for a term of not less than ten (10) days and not more than one year.
(k)
For the purposes of this subsection, a violation of the interlock order, includes, but is not limited to:
(1)
Altering, tampering, or in any way attempting to circumvent the operation of an ignition interlock system that has been installed in the motor vehicle of a person under this section;
(2)
Operating a motor vehicle that is not equipped with an ignition interlock system; or
(3)
Soliciting or attempting to have another person start a motor vehicle equipped with an ignition interlock system for the purpose of providing an operable motor vehicle to a person who is prohibited from operating a motor vehicle that is not equipped with an ignition interlock system.
(l)
Any person who attempts to start, or starts, a motor vehicle equipped with an ignition interlock system, tampers with, or in any way attempts to circumvent, the operation of an ignition interlock system that has been installed in the motor vehicle for the purpose of providing an operable motor vehicle to a person who is prohibited from operating a motor vehicle that is not equipped with an ignition interlock system, shall be guilty of a misdemeanor punishable by up to one year imprisonment or a fine of up to one thousand dollars ($1,000), or both.

§ 31-27-2.9. Administration of chemical test.
(a)
Notwithstanding any provision of § 31-27-2.1, if an individual refuses to consent to a chemical test as provided in § 31-27-2.1, and a peace officer, as defined in § 12-7-21, has probable cause to believe that the individual has violated one or more of the following sections: 31-27-1, 31-27-1.1, 31-27-2.2, or 31-27-2.6 and that the individual was operating a motor vehicle under the influence of any intoxicating liquor, toluene or any controlled substance as defined in chapter 21-28, or any combination thereof, a chemical test may be administered without the consent of that individual provided that the peace officer first obtains a search warrant authorizing administration of the chemical test. The chemical test shall determine the amount of the alcohol or the presence of a controlled substance in that person's blood, saliva or breath.
(b)
The chemical test shall be administered in accordance with the methods approved by the director of the department of health as provided for in subdivision 31-27-2(c)(4). The individual shall be afforded the opportunity to have an additional chemical test as established in subdivision 31-27-2(c)(6).
(c)
Notwithstanding any other law to the contrary, including, but not limited to, chapter 5-37.3, any health care provider who, as authorized by the search warrant in subsection (a):
(i)
Takes a blood, saliva or breath sample from an individual; or
(ii)
Performs the chemical test; or
(iii)
Provides information to a peace officer pursuant to subsection (a) above and who uses reasonable care and accepted medical practices shall not be liable in any civil or criminal proceeding arising from the taking of the sample, from the performance of the

chemical test or from the disclosure or release of the test results.
(d)
The results of a chemical test performed pursuant to this section shall be admissible as competent evidence in any civil or criminal prosecution provided that evidence is presented in compliance with the conditions set forth in subdivisions 31-27-2(c)(3), 31-27-2(c)(4) and 31-27-2(c)(6).
(e)
All chemical tests administered pursuant to this section shall be audio and video recorded by the law enforcement agency which applied for and was granted the search warrant authorizing the administration of the chemical test.

§ 31-27-2. Driving under influence of liquor or drugs. [Effective until July 1, 2025.]
(a)
Whoever drives or otherwise operates any vehicle in the state while under the influence of any intoxicating liquor, drugs, toluene, or any controlled substance as defined in chapter 28 of title 21, or any combination of these, shall be guilty of a misdemeanor, except as provided in subsection (d)(3), and shall be punished as provided in subsection (d) of this section.
(b)(1)
Any person charged under subsection (a), whose blood alcohol concentration is eight one-hundredths of one percent (.08%) or more by weight, as shown by a chemical analysis of a blood, breath, or urine sample, shall be guilty of violating subsection (a). This provision shall not preclude a conviction based on other admissible evidence, including the testimony of a drug recognition expert or evaluator, certified pursuant to training approved by the Rhode Island department of transportation office on highway safety. Proof of guilt under this section may also be based on evidence that the person charged was under the influence of intoxicating liquor, drugs, toluene, or any controlled substance defined in chapter 28 of title 21, or any combination of these, to a degree that rendered the person incapable of safely operating a vehicle. The fact that any person charged with violating this section is, or has been, legally entitled to use alcohol or a drug shall not constitute a defense against any charge of violating this section.
(2)
[Deleted by P.L. 2021, ch. 170, § 1 and P.L. 2021, ch. 171, § 1.]
(c)
In any criminal prosecution for a violation of subsection (a), evidence as to the amount of intoxicating liquor, toluene, or any controlled substance as defined in chapter 28 of title 21, or any combination of these, in the defendant’s blood at the time alleged as shown by a chemical analysis of the defendant’s breath, blood, saliva or urine or other bodily substance, shall be admissible and competent, provided that evidence is presented that the following conditions have been complied with:
(1)
The defendant has consented to the taking of the test upon which the analysis is made. Evidence that the defendant had refused to submit to the test shall not be admissible unless the defendant elects to testify.
(2)
A true copy of the report of the test result was hand delivered at the location of the test or mailed within seventy-two (72) hours of the taking of the test to the person submitting to a breath test.
(3)
Any person submitting to a chemical test of blood, urine, saliva or other body fluids shall have a true copy of the report of the test result mailed to him or her within thirty (30) days following the taking of the test.
(4)
The test was performed according to methods and with equipment approved by the director of the department of health of the state of Rhode Island and by an authorized individual.
(5)
Equipment used for the conduct of the tests by means of breath analysis had been tested for accuracy within thirty (30) days preceding the test by personnel qualified as hereinbefore provided, and breathalyzer operators shall be qualified and certified by the department of health within three hundred sixty-five (365) days of the test.
(6)
The person arrested and charged with operating a motor vehicle while under the influence of intoxicating liquor, toluene, or any controlled substance as defined in chapter 28 of title 21 or any combination of these in violation of subsection (a), was afforded the opportunity to have an additional chemical test. The officer arresting or so charging the person shall have informed the person of this right and afforded him or her a reasonable opportunity to exercise this right, and a notation to this effect is made in the official records of the case in the police department. Refusal to permit an additional chemical test shall render incompetent and inadmissible in evidence the original report.
(d)(1)(i)

Every person found to have violated subsection (b)(1) shall be sentenced as follows: for a first violation whose blood alcohol concentration is eight one-hundredths of one percent (.08%), but less than one-tenth of one percent (.1%), by weight, or who has a blood presence of any scheduled controlled substance as defined in chapter 28 of title 21, shall be subject to a fine of not less than one hundred dollars ($100), nor more than three hundred dollars ($300); shall be required to perform ten (10) to sixty (60) hours of public community restitution, and/or shall be imprisoned for up to one year. The person's driving license shall be suspended for a period of one year to two (2) years, and the individual shall be sentenced to not less than ten (10) days, nor more than one year, in jail. (ii)

Every person convicted of a second violation within a five-year (5) period whose blood alcohol concentration is fifteen hundredths of one percent (.15%) or above, by weight as shown by a chemical analysis of a blood, breath, or urine sample, or who is under the influence of a drug, toluene, or any controlled substance as defined in subsection (b)(1), shall be subject to mandatory imprisonment of not less than six (6) months, nor more than one year; a mandatory fine of not less than one thousand dollars ($1,000); and a mandatory license suspension for a period of two (2) years from the date of completion of the sentence imposed under this subsection. The person's driving license shall be suspended for a period of two (2) years to three (3) years, and the individual shall be sentenced to not less than one year and not more than three (3) years in jail. The sentence may be served in any unit of the adult correctional institutions in the discretion of the sentencing judge; however, not less than forty-eight (48) hours of imprisonment shall be served consecutively. (ii)

Every person convicted of a third or subsequent violation within a ten-year (10) period whose blood alcohol concentration is fifteen hundredths of one percent (.15%) above by weight as shown by a chemical analysis of a blood, breath, or urine sample, or who is under the influence of a drug, toluene, or any controlled substance as defined in subsection (b)(1), shall be subject to mandatory imprisonment of not less than three (3) years, nor more than five (5) years; a mandatory fine of not less than one thousand dollars ($1,000), nor more than five thousand dollars ($5,000); and a mandatory license suspension for a period of three (3) years from the date of completion of the sentence imposed under this subsection. (iii)

In addition to the foregoing penalties, every person convicted of a third or subsequent violation within a five-year (5) period, regardless of whether any prior violation and subsequent conviction was a violation and subsequent conviction under this statute or under the driving under the influence of liquor or drugs statute of any other state, shall be subject, in the discretion of the sentencing judge, to having the vehicle owned and operated by the violator seized and sold by the state of Rhode Island, with all funds obtained by the sale to be transferred to the general fund.

(4)

Whoever drives or otherwise operates any vehicle in the state while under the influence of any intoxicating liquor, drugs, toluene, or any controlled substance as defined in chapter 28 of title 21, or any combination of these, when his or her license to operate is suspended, revoked, or cancelled for operating under the influence of a narcotic drug or intoxicating liquor, shall be guilty of a felony punishable by imprisonment for not more than three (3) years and by a fine of not more than three thousand dollars ($3,000). The court shall require alcohol and/or drug treatment for the individual; provided, the penalties provided for in this subsection (d)(4) shall not apply to an individual who has surrendered his or her license and served the court-ordered period of suspension, but who, for any reason, has not had his or her license reinstated after the period of suspension, revocation, or suspension has expired; provided, further, the individual shall be subject to the provisions of subsection (d)(2)(i), (d)(2)(ii), (d)(3)(i), (d)(3)(ii), or (d)(3)(iii) regarding subsequent offenses, and any other applicable provision of this section.

For purposes of determining the period of license suspension, a prior violation shall constitute any charge brought and sustained under the provisions of this section or § 31-27-2.1.

(ii)

Any person over the age of eighteen (18) who is convicted under this section for operating a motor vehicle while under the influence of alcohol, other drugs, or a combination of these, while a child under the age of thirteen (13) years was present as a passenger in the motor vehicle when the offense was committed shall be subject to immediate license suspension pending prosecution. (ii)

Any person convicted of a violation under this section shall be assessed a fee of eighty-six dollars ($86).

(7)(i)
If the person convicted of violating this section is under the age of eighteen (18) years, for the first violation he or she shall be required to perform ten (10) to sixty (60) hours of public community restitution and the juvenile's driving license shall be suspended for a period of six (6) months, and may be suspended for a period up to eighteen (18) months. § 31-27-2. Driving under influence of liquor or drugs. [Effective July 1, 2025.]
(a)
Whoever drives or otherwise operates any vehicle in the state while under the influence of any intoxicating liquor, drugs, toluene, or any controlled substance as defined in chapter 28 of title 21, or any combination of these, shall be guilty of a misdemeanor, except as provided in subsection (d)(3), and shall be punished as provided in subsection (d) of this section.
(b)(1)
Any person charged under subsection (a), whose blood alcohol concentration is eight one-hundredths of one percent (.08%) or more by weight, as shown by a chemical analysis of a blood, breath, or urine sample, shall be guilty of violating subsection (a). This provision shall not preclude a conviction based on other admissible evidence, including the testimony of a drug recognition expert or evaluator, certified pursuant to training approved by the Rhode Island department of transportation office on highway safety. Proof of guilt under this section may also be based on evidence that the person charged was under the influence of intoxicating liquor, drugs, toluene, or any controlled substance defined in chapter 28 of title 21, or any combination of these, to a degree that rendered the person incapable of safely operating a vehicle. The fact that any person charged with violating this section is, or has been, legally entitled to use alcohol or a drug shall not constitute a defense against any charge of violating this section.
(2)

[Deleted by P.L. 2021, ch. 170, § 1 and P.L. 2021, ch. 171, § 1.]

(c)

In any criminal prosecution for a violation of subsection (a), evidence as to the amount of intoxicating liquor, toluene, or any controlled substance as defined in chapter 28 of title 21, or any combination of these, in the defendant's blood at the time alleged as shown by a chemical analysis of the defendant's breath, blood, saliva or urine or other bodily substance, shall be admissible and competent, provided that evidence is presented that the following conditions have been complied with:

(1)

The defendant has consented to the taking of the test upon which the analysis is made. Evidence that the defendant had refused to submit to the test shall not be admissible unless the defendant elects to testify.

(2)

A true copy of the report of the test result was hand delivered at the location of the test or mailed within seventy-two (72) hours of the taking of the test to the person submitting to a breath test.

(3)

Any person submitting to a chemical test of blood, urine, saliva or other body fluids shall have a true copy of the report of the test result mailed to him or her within thirty (30) days following the taking of the test.

(4)

The test was performed according to methods and with equipment approved by the director of the department of health of the state of Rhode Island and by an authorized individual.

(5)

Equipment used for the conduct of the tests by means of breath analysis had been tested for accuracy within thirty (30) days preceding the test by personnel qualified as hereinbefore provided, and breathalyzer operators shall be qualified and certified by the department of health within three hundred sixty-five (365) days of the test.

(6)

The person arrested and charged with operating a motor vehicle while under the influence of intoxicating liquor, toluene, or any controlled substance as defined in chapter 28 of title 21 or any combination of these in violation of subsection (a), was afforded the opportunity to have an additional chemical test. The officer arresting or so charging the person shall have informed the person of this right and afforded him or her a reasonable opportunity to exercise this right, and a notation to this effect is made in the official records of the case in the police department. Refusal to permit an additional chemical test shall render incompetent and inadmissible in evidence the original report.

§ 31-27-4.2. Minimal requirements.
(a)
In any criminal action brought under § 31-27-4.1 or 31-27-4.2 in which a high speed pursuit occurs, the following definitions and minimal requirements of the high speed pursuit shall apply and shall be complied with by the charging police department.
(b)
Any police department charging a suspect under the provisions of this chapter shall limit the use of continued high speed vehicular pursuits to those situations which involve:
(1)
The attempted apprehension of persons wanted for the commission of felonious and/or misdemeanor acts that threaten, have threatened, or will threaten the health, life, or safety of a person or persons; or
(2)
The pursuit of a motor vehicle operator who has committed flagrant moving motor vehicle violations which have endangered the lives and safety of others, and was operating in a reckless manner before the pursuit was initiated, and is continuing to operate in a manner that recklessly endangers the lives and safety of others, including, but not limited to, driving under the influence of liquor or drugs.
(c) Definition.
A “high speed pursuit” is the active attempt by a police officer in an authorized emergency vehicle to apprehend the occupants of a running motor vehicle at speeds in excess of fifteen miles per hour (15 MPH) over the speed limit.
(d) Responsibilities of pursuing officer(s).
Upon initiation of a high speed pursuit the officer(s) shall:
(1)
As soon as practical communicate to his or her dispatcher his or her location and direction of travel.
(2)
Provide the reason for the high speed pursuit.
(3)
Communicate the ongoing status of the pursuit at regular intervals including any significant change of circumstances which might affect the decision to either continue or discontinue the pursuit.

(4)
Activate all audio (sirens) and visual (emergency lights) warning devices until the high speed pursuit is terminated.
(5)
Adhere to all the provisions of §§ 31-12-6 through 31-12-9.
(6)
Terminate the high speed pursuit when in his or her judgment the dangers created by the pursuit outweigh the need for immediate apprehension.
(e) Responsibilities of the officer in charge and/or field supervisor.
In all continued high speed pursuit situations, command responsibility rests with the officer in charge and/or the field supervisor. It shall be the duty of the officer in charge and/or the field supervisor to provide adequate supervision to the officer involved in the high speed pursuit and to:
(1)
Track the location of the pursuit.
(2)
Review and consider as many facts of the pursuit as are available.
(3)
Consider the potential and real dangers of the continuation of the pursuit.
(4)
Order the termination of the high speed pursuit when in his or her judgment the dangers created by the pursuit outweigh the need for immediate apprehension.
(f) Interjurisdictional pursuits.
Whenever there exists the possibility of a high speed pursuit extending into another jurisdiction, the officer in charge shall order the surrounding jurisdictions to be notified of the high speed pursuit and of its potential for extending into their jurisdictions. If the high speed pursuit enters a jurisdiction different from the jurisdiction from which it began, then the high speed pursuit policy of the entered jurisdiction shall apply and control and the entered jurisdiction shall have the authority consistent with its policies to terminate the high speed pursuit. For purposes of this chapter, the state police shall have statewide jurisdiction.
(g)(1) Reports.
Whenever a high speed pursuit occurs, each officer involved shall submit a written report to be kept on file of his or her participation in the pursuit and the factual reasons justifying the officer's participation in the pursuit.
(2)
The officer in charge shall also file a written report giving a complete account of the pursuit including his or her factual reason for continuing or terminating the pursuit.
(h)
Each police department shall enact policies and procedures which are consistent with these minimum requirements and to provide copies of those policies to the attorney general's department.
(i)
Nothing in this chapter shall be construed to create any additional civil liability upon individuals or their employers who engage in high speed pursuits.

2024 Rhode Island General LawsTitle 31 - Motor and Other VehiclesChapter 31-27 - Motor Vehicle OffensesSection 31-27-4.3. - Forfeiture of motor vehicle.

§ 31-27-4.3. Forfeiture of motor vehicle.
(a)
Any motor vehicle including, but not limited to, cars, trucks, vessels, or motorcycles, which has been or is being used in violation of § 31-27-4.1, may be seized and upon conviction forfeited; provided, that no motor vehicle as enumerated in this section used by any person shall be forfeited under the provisions of this chapter unless it shall appear that the owner of the vehicle had knowledge, actual or constructive, and was a consenting party to the alleged illegal act.
(b)(1)
The motor vehicle taken or detained under this section shall not be repleviable, but shall be deemed to be in the custody of the law enforcement agency making the seizure. Whenever a motor vehicle is forfeited under this chapter it shall be retained and utilized by the law enforcement agency that seized the vehicle where the use of the vehicle is reasonably related to the law enforcement duties of the seizing agency. If the seized vehicle is inappropriate for use by law enforcement agency for reasons including, but not limited to, style, size, or color, the seizing agency shall be allowed to apply the proceeds of sale or the trade-in value of the vehicle towards the purchase of an appropriate vehicle for use for activities reasonably related to law enforcement duties.
(2)
As to the proceeds from the sale of the property under subdivision (1) of this subsection, the distribution shall be as follows:
(i)

All proceeds of the forfeiture of the motor vehicle shall be distributed as follows: all costs of advertising administrative forfeitures and costs for any damage to any state or municipal vehicles which occurred as a result of the high speed pursuit shall first be deducted from the amount forfeited. Of the remainder, eighty percent (80%) of the proceeds shall be divided among the state and local law enforcement agencies proportionately based upon their contribution to the investigation of the criminal activity related to the asset being forfeited, and twenty percent (20%) of the proceeds shall be provided to the state victims' indemnity fund.
(ii)
Each state or local law enforcement agency shall be entitled to keep the proceeds from sales of forfeited vehicles. The funds shall be used for law enforcement purposes. The funds received by a state law enforcement agency shall be maintained in a separate account by the general treasurer. The funds received by a local law enforcement agency shall be maintained in a separate account by the local agency's city or town treasurer.
(c)
Each law enforcement agency making any seizure(s) which result(s) in a forfeiture pursuant to this section shall certify and file with the state treasurer between January 1 and January 30 an annual report detailing the vehicle or money forfeited during the previous calendar year and the use or disposition of the property or money. The report shall be made in the form and manner that may be provided or specified by the treasurer and the annual law enforcement agency reports as provided in this subsection shall be provided to the local governmental body governing the agency and to the house and senate judiciary committees.
(d)
Any law enforcement agency whose duty it is to enforce the laws of this state is empowered to authorize designated officers or agents to carry out the seizure provisions of this chapter. It shall be the duty of any officer or agent so authorized or designated or authorized by law, upon or by means of which any violation of this chapter has taken place or is taking place, to seize the vehicle and to place it in the custody of the person who is authorized or designated for that purpose by the respective law enforcement agency pursuant to those provisions.

2024 Rhode Island General LawsTitle 31 - Motor and Other VehiclesChapter 31-27 - Motor Vehicle OffensesSection 31-27-4.4. - Motor vehicle forfeiture procedure.

§ 31-27-4.4. Motor vehicle forfeiture procedure.
(a)
Any criminal complaint, information, or indictment charging a violation of § 31-27-4.1 shall set forth with reasonable particularity the motor vehicle that the attorney general seeks to forfeit pursuant to this section.
(b)(1)
The court may, upon application of the attorney general, enter a restraining order or injunction, require any person claiming any interest in the subject vehicle to execute a satisfactory performance bond to the state, or take any other action to preserve the availability of the vehicle subject to forfeiture described in § 31-27-4.3, whether prior or subsequent to the filing of a complaint, indictment, or information.
(2)
Written notice and an opportunity for a hearing shall be afforded to persons appearing to have an interest in the vehicle, the hearing, however, to be limited to the issues of whether:
(i)
There is a substantial probability that the state will prevail on the issue of forfeiture and that failure to enter the order will result in the vehicle being destroyed, conveyed, encumbered or further encumbered, removed from the jurisdiction of the court, depreciated in value or otherwise made unavailable for forfeiture; and
(ii)
The need to preserve the availability of the vehicle through the entry of the requested order outweighs the hardship on any party against whom the order is to be entered.
(c)(1)
A temporary restraining order under this section may be entered upon application of the attorney general without notice or opportunity for a hearing when a complaint, information, or indictment has not yet been filed with respect to the vehicle if the attorney general demonstrates that there is probable cause to believe that the vehicle with respect to which the order is sought would, in the event of conviction, be subject to forfeiture under § 31-27-4.3 and that provision of notice will jeopardize the availability of the vehicle for forfeiture. The temporary restraining order shall expire within ten (10) days of the date on which it is entered unless extended for good cause shown or unless the party against whom it is entered consents to an extension for a longer period.
(2)
A hearing requested by any party in interest concerning an order entered under this subsection shall be held at the earliest possible time and prior to the expiration of the temporary order.
(3)
The court may receive and consider, at the hearing held pursuant to this subsection, evidence and information that would be inadmissible in court.

(d)
Upon conviction of a person for the covered offense, the court may enter a judgment of forfeiture of the vehicle described in § 31-27-4.1 to the state and may also authorize the attorney general to seize the motor vehicle ordered forfeited upon any terms and conditions that the court shall deem proper. Following the entry of an order declaring the vehicle forfeited, the court may, upon application of the attorney general:
(1)
Enter appropriate restraining orders or injunctions;
(2)
Require the execution of satisfactory performance bonds, appoint receivers, conservators, appraisers, accountants, or trustees; or
(3)
Take any other action to protect the interest of the state in the property ordered forfeited.
(e)
All right, title, and interest in the vehicle described in § 31-27-4.1 vests in the state upon the commission of the act giving rise to forfeiture under this chapter. Any such vehicle that is subsequently transferred to any person may be the subject of a special verdict of forfeiture and shall be ordered forfeited to the state, unless the transferee establishes in a hearing pursuant to subsection (f) of this section that he or she is a bona fide purchaser for value of the vehicle who at the time of purchase was reasonably without cause to believe that the vehicle was subject to forfeiture.
(f)
Procedures subsequent to the special verdict of forfeiture shall be as follows:
(1)
Following the entry of an order of forfeiture under this section, the state shall publish notice of the order and of its intent to dispose of the vehicle once per week for at least three (3) weeks in any manner that the attorney general may provide by regulation. The attorney general shall also, to the extent practicable, provide written notice to all parties known to have an interest in the vehicle and all parties whose identity is reasonably subject to discovery and who may have an interest in the forfeited vehicle.
(2)
Any person, other than the defendant, asserting any interest in the vehicle that has been ordered forfeited to the state pursuant to this section may, within one hundred eighty (180) days of the final publication of notice or his or her receipt of notice under subdivision (1) of this subsection, whichever is earlier, petition the court for a hearing to adjudicate the validity of his or her alleged interest in the vehicle.
(3)
The petition shall be signed by the petitioner under penalty of perjury and shall set forth the nature and extent of the petitioner’s right, title, or interest in the vehicle; any additional facts supporting the petitioner’s claim; and the relief sought.
(4)
The hearing on the petition shall, to the extent practicable and consistent with the interest of justice, be held within thirty (30) days of the filing of the petition. The court may consolidate the hearing on the petition with a hearing on any other petition filed by a person other than the defendant and concerning the same vehicle.
(5)
At a hearing, the petitioner may testify and present evidence and witnesses on his or her own behalf, and cross-examine witnesses who appear at the hearing. The state may present evidence and witnesses in rebuttal and in defense of its claim to the vehicle and cross-examine witnesses who appear at the hearing. In addition to testimony and evidence presented at the hearing, the court shall consider the relevant portions of the record of the criminal case that resulted in the order of forfeiture.
(6)
In accordance with its findings at the hearing, the court shall amend the order of forfeiture if it determines that the petitioner has established by a preponderance of the evidence that:
(i)
The petitioner has a right, title, or interest in the vehicle, and the right, title or interest was vested in the petitioner rather than the defendant or was superior to any right, title, or interest of the defendant at the time of the commission of the acts which gave rise to the forfeiture of the vehicle under this section; or
(ii)
The petitioner is a bona fide purchaser for value of any right, title or interest in the vehicle and was at the time of purchase reasonably without cause to believe that the property was subject to forfeiture under this section.
(7)
Following the court’s disposition of all petitions filed under this section, or if no such petitions are filed, following the expiration of the period provided in this section for the filing of the petitions, the state shall have clear title to the vehicle that is the subject of the order of forfeiture and shall transfer good and sufficient title to any subsequent purchaser, transferee, or fund as provided in this chapter.
(8)
Except as provided in this section, no party claiming an interest in the vehicle subject to forfeiture under this section may:
(i)

Intervene in a trial or appeal of a criminal case involving the forfeiture of the property; or
(ii)
Commence any action against the state concerning the validity of the alleged interest.
(g)
In order to facilitate the identification or location of the vehicle declared forfeited and to facilitate the disposition of petitions filed pursuant to this section after the entry of an order declaring a vehicle forfeited to the state, the court may, upon application of the attorney general, order that the testimony of any witness relating to the forfeited vehicle be taken by deposition and that any designated book, paper, document, record, recording (electronic or otherwise), or other material not privileged, be produced at the same time and place, in the same manner as provided for the taking of depositions under the Rules of Civil Procedure.
(h)
If the vehicle described in § 31-27-4.1: (1) cannot be located; (2) has been transferred to, sold to or deposited with a third party; (3) has been placed beyond the jurisdiction of the court; (4) has been substantially diminished in value by any act or omission of the defendant; the court shall order the forfeiture of any other property of the defendant up to the value of the subject property.
(i)
The court shall have jurisdiction to enter orders as provided in this section without regard to the location of any property that may be subject to forfeiture under this section or that has been ordered forfeited under this section.

The temporary placard, however, shall be a red placard with a white international symbol of access, certificate number, the words “Rhode Island Disability Parking Permit” and shall bear the expiration dates upon its face. A preliminary placard shall be similar to that issued to a person with a permanent, long-term, or temporary disability. The preliminary placard shall be effective for twenty-one (21) days, and may be issued by an applicant’s licensed physician, if in the medical provider’s opinion the applicant’s medical condition merits the issuance of a preliminary placard while the division considers the applicant’s qualifications for any type of disability parking permit. The preliminary placard shall be an orange placard with a white international symbol of access, certificate number, the words “Rhode Island Disability Parking Permit” and shall bear the expiration date upon its face and shall be displayed on the dashboard of the vehicle in a manner that it is clearly visible from the front. The division of motor vehicles shall promulgate rules governing the issuance and use of preliminary placards. Applicants shall not be charged any fee associated with the issuance of a preliminary placard. Physicians submitting false information to the division of motor vehicles to obtain a preliminary placard on anyone’s behalf may be subject to the penalties set forth in § 11-18-1.3. Prior to the appeal hearing, the applicant shall be provided with any and all documents relied upon by the division in denying the application. If an application contains a physician certification that the applicant is sufficiently disabled to require a placard or motorcycle sticker, and the division has not provided specific reasons in its denial letter to the applicant, the hearing officer shall summarily order that a placard or motorcycle sticker be provided to the applicant. At all other hearings of application denials where a physician certification has been provided, the division shall bear the burden of proof that the individual is not entitled to a placard or motorcycle sticker pursuant to this chapter.

The certificate of entitlement to the placard or motorcycle sticker shall be renewed every six (6) years for individuals with a long-term disability, as defined in subsection (d) of this section, and the renewal application shall require a physician’s certification that the condition has not changed since the previous approval, and six (6) years for individuals with a permanent disability as defined in subsection (h) of this section, in accordance with a schedule prepared by the division of motor vehicles that uses the last name of an individual to determine the month of renewal. If an application or subsequent renewal is accompanied by a physician’s certification that the applicant’s condition is a chronic, permanent impairment and that application is approved, then any subsequent renewal shall be authorized upon receipt of a notarized affidavit from the applicant or applicant’s, guardian or legal representative or a certificate from the applicant’s physician that his or her condition has not changed since the previous approval.

§ 31-3.1-14. Transfer by operation of law.
(a)
If the interest of any owner in a vehicle passes to another other than by voluntary transfer, the transferee shall, except as provided in subsection (b), promptly mail or deliver to the division of motor vehicles the last certificate of title, if available, proof of the transfer, and his or her application for a new certificate in the form the division of motor vehicles prescribes.
(b)
If the interest of the owner is terminated or the vehicle is sold under a security agreement by a lienholder named in the certificate of title, the transferee shall promptly mail or deliver to the division of motor vehicles the last certificate of title, his or her application for a new certificate in the form the division of motor vehicles prescribes, and an affidavit made by or on behalf of the lienholder that the vehicle was repossessed and that the interest of the owner was lawfully terminated or sold pursuant to the terms of the security agreement. If the lienholder succeeds to the interest of the owner and holds the vehicle for resale, the lienholder need not secure a new certificate of title but, upon transfer to another person shall promptly mail or deliver to the transferee or to the division of motor vehicles, the certificate, affidavit, and other documents and articles required to be sent to the division of motor vehicles by the transferee.
(c)
A person holding a certificate of title whose interest in the vehicle has been extinguished or transferred other than by voluntary transfer shall mail or deliver the certificate to the division of motor vehicles upon request of the division of motor vehicles. The delivery of the certificate pursuant to the request of the division of motor vehicles does not affect the rights of the person surrendering the certificate, and the action of the division of motor vehicles in issuing a new certificate of title as provided in this section is not conclusive upon the rights of an owner or lienholder named in the old certificate.

§ 31-3.1-19. Perfection of security interests.
(a)
Unless excepted by § 31-3.1-18, a security interest in a vehicle of a type for which a certificate of title is required is not valid against creditors of the owner or subsequent transferees or lienholders of the vehicle unless perfected as provided in this chapter.
(b)
A security interest is perfected by the delivery to the division of motor vehicles of the existing certificate of title, if any, an

application for a certificate of title containing the name and address of the lienholder, and the date of his or her security agreement. A security interest may also be perfected by the execution of a security lien statement and the required fee of fifty dollars ($50.00) and registration card.
(c)
If a vehicle is subject to the security interest when brought into this state, the validity of the security interest is determined by the law of the jurisdiction where the vehicle was when the security interest attached, subject to the following:
(1)
If the parties understood at the time the security interest attached that the vehicle would be kept in this state and it was brought into this state within the following thirty (30) days for purposes other than transportation through this state, the validity of the security interest in this state is determined by the law of this state.
(2)
If the security interest was perfected under the law of the jurisdiction where the vehicle was when the security interest attached, the following rules apply:
(i)
If the name of the lienholder is shown on an existing certificate of title issued by that jurisdiction, his security interest continues perfected in this state.
(ii)
If the name of the lienholder is not shown on an existing certificate of title issued by that jurisdiction, the security interest continues perfected in this state for four (4) months after a first certificate of title of the vehicle is issued in this state and beyond that if, within the four (4) month period, it is perfected in this state. The security interest may also be perfected in this state after the expiration of the four (4) month period. If done at that time, perfection dates from the time of perfection in this state.
(3)
If the security interest was not perfected under the law of the jurisdiction where the vehicle was when the security interest attached, it may be perfected in this state. If done at that time, perfection dates from the time of perfection in this state.
(4)
A security interest may be perfected under subsection (c)(2)(ii) or subsection (c)(3) either as provided in subsection (b), or by the lienholder delivering to the division of motor vehicles a notice of security interest in the form the division of motor vehicles prescribes and the required fee.

If an owner creates a security interest in a vehicle:
(1)
The owner shall immediately execute the application, in the space provided for it on the certificate of title or on a separate form the division of motor vehicles prescribes, to name the lienholder on the certificate, showing the name and address of the lienholder and the date of his security agreement, and cause the certificate of application and the required fee and registration card to be delivered to the lienholder.

(a)
The application for the first certificate of title of a vehicle in this state shall be made by the owner to the division of motor vehicles on the form it prescribes and shall contain:
(1)
The name, residence, and mailing address of the owner;
(2)
A description of the vehicle including, so far as the following data exists: its make, model, identifying number, type of body, the number of cylinders, and whether new or used;
(3)
The date of purchase by the applicant, the name and address of the person from whom the vehicle was acquired, and the names and addresses of any lienholders in the order of their priority and the dates of their security agreements; and
(4)
Any further information the division reasonably requires to identify the vehicle and to enable it to determine whether the owner is entitled to a certificate of title, and the existence or nonexistence of security interests in the vehicle.
(b)
If the application refers to a vehicle purchased from a dealer, it shall contain the name and address of any lienholder holding a security interest created or reserved at the time of the sale and the date of this security agreement and be signed by the dealer as well as the owner, and the dealer or buyer shall promptly mail or deliver the application to the division. The buyer shall also complete a security lien statement as provided in § 31-3.1-19.
(c)
If the application refers to a vehicle last previously registered in another state or country, the application shall contain or be accompanied by:
(1)
Any certificate of title issued by the other state or country;
(2)
Any other information and documents the division reasonably requires to establish the ownership of the vehicle and the existence or nonexistence of a security interest in it; and

(3)
The certificate of a person authorized by law that the identifying number of the vehicle has been inspected and found to conform to the description given in the application, or any other proof of the identity of the vehicle the division reasonably requires.

If the division of motor vehicles is not satisfied as to the ownership of the vehicle or that there are no undisclosed security interests in it, the division of motor vehicles may register the vehicle but shall either:

This amount will be conditioned to indemnify any prior owner and lienholder and any subsequent purchaser of the vehicle or person acquiring any security interest in it, and their respective successors in interest, against any expense, loss, or damage, including reasonable attorney's fees, by reason of the issuance of the certificate of title of the vehicle or an account of any defect in or undisclosed security interest upon the right, title, and interest of the applicant in and to the vehicle. Any interested person has a right of action to recover on the bond for any breach of its conditions, but the aggregate liability of the surety to all persons shall not exceed the amount of the bond. The bond, and any deposit accompanying it, shall be returned at the end of three (3) years or prior to that time if the vehicle is no longer registered in this state and the currently valid certificate of title is surrendered to the division of motor vehicles unless the division of motor vehicles has been notified of the pendency of an action to recover on the bond.

§ 31-32-24. “Motor vehicle liability policy” defined.
(a) Certification.
“Motor vehicle liability policy” as the term is used in this chapter means an “owner’s policy” or an “operator’s policy” of liability insurance, certified as provided in § 31-32-21 or 31-32-22 as proof of financial responsibility for the future, and issued, except as otherwise provided in § 31-32-22, by an insurance carrier duly authorized to transact business in this state, to or for the benefit of the person named in it as insured.
(b) Owner’s policy.
The owner’s policy of liability insurance:
(1)
Shall designate by explicit description or by appropriate reference all vehicles with respect to which coverage is to be granted by it; and
(2)
Shall insure the person named in it and any other person, as insured, using any vehicle or vehicles with the express or implied permission of the named insured, against loss from the liability imposed by law for damages arising out of the ownership, maintenance, or use of that vehicle or vehicles within the United States of America or the Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each vehicle, as follows:
(i)
Twenty-five thousand dollars ($25,000) because of bodily injury to or death of one person in any one accident; and
(ii)
Subject to the limit for one person, fifty thousand dollars ($50,000) because of bodily injury to or death of two (2) or more persons in any one accident; and
(iii)
Twenty-five thousand dollars ($25,000) because of injury to or destruction of property of others in any one accident or seventy-five thousand dollars ($75,000) combined single limit.
(c) Operator’s policy.
The operator’s policy of liability insurance shall insure the person named as insured in it against loss from the liability imposed upon him or her by law for damages arising out of the use by him or her of any motor vehicle not owned by him or her, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to an owner’s policy of liability insurance.
(d) Required statements in policies.
The motor vehicle liability policy shall state the name and address of the named insured, the coverage afforded by the policy, the premium charged for that coverage, the policy period, and the limits of liability, and shall contain an agreement or be endorsed that insurance is provided under the policy in accordance with the coverage defined in this chapter as respects bodily injury and death or property damage, or both, and is subject to all the provisions of this chapter.
(e) Policy need not insure under workers’ compensation law or employees.
The motor vehicle liability policy need not insure any liability under any workers’ compensation law nor any liability on account of bodily injury to or death of an employee of the insured while engaged in the employment other than domestic of the insured, or while engaged in the operation, maintenance, or repair of any vehicle, nor any liability for damage to property owned by, rented to, in charge of, or transported by the insured.
(f) Provisions incorporated in policy.
Every motor vehicle liability policy shall be subject to the following provisions which need not be contained in it:
(1)
The liability of the insurance carrier with respect to the insurance required by this chapter shall become absolute whenever injury or damage covered by the motor vehicle liability policy occurs; the policy may not be cancelled or annulled as to the liability by any agreement between the insurance carrier and the insured after the occurrence of the injury or damage; no statement made by the insured or on his or her behalf and no violation of the policy shall defeat or void the policy.
(2)
The satisfaction by the insured of a judgment for an injury or damage shall not be a condition precedent to the right or duty of the insurance carrier to make payment on account of the injury or damage.
(3)
The insurance carrier shall have the right to settle any claim covered by the policy. If the settlement is made in good faith, the amount of it shall be deductible from the limits of liability specified in subsection (b)(2) of this section.
(4)
The policy, the written application for it, if any, and any rider or endorsement which does not conflict with the provisions of this

chapter, shall constitute the entire contract between the parties.
(g) Excess or additional coverage.
Any policy which grants the coverage required for a motor vehicle liability policy may also grant any lawful coverage in excess of or in addition to the coverage specified for a motor vehicle liability policy, and the excess or additional coverage shall not be subject to the provisions of this chapter. With respect to a policy which grants the excess or additional coverage, the term “motor vehicle liability policy” shall apply only to that part of the coverage which is required by this section.
(h) Reimbursement provision permitted.
Any motor vehicle liability policy may provide that the insured shall reimburse the insurance carrier for any payment the insurance carrier would not have been obligated to make under the terms of the policy except for the provisions of this chapter.
(i) Proration of insurance permitted.
Any motor vehicle liability policy may provide for the prorating of the insurance it provides with other valid and collectible insurance.
(j) Multiple policies.
The requirements for a motor vehicle liability policy may be fulfilled by the policies of one or more insurance carriers which policies together meet the requirements.
(k) Binders.
Any binder issued pending the issuance of a motor vehicle liability policy shall be deemed to fulfill the requirements for such a policy.

Whenever any car rental agency offers a collision damage waiver on the vehicle at an additional cost, it shall notify the lessee by providing the following language, (in ten (10) point type) in all rental agreements:
“Notice: This contract offers, for an additional charge, a collision damage waiver to cover your responsibility for damage to the vehicle. “Read the collision damage waiver disclosure provision contained in this rental agreement before signing this agreement.”
(b)
The following uniform collision damage waiver provision shall be contained in every rental agreement:

Notwithstanding any other provision of law to the contrary, all other funds in the fund shall be dedicated to the department of transportation, subject to annual appropriation by the general assembly. The director of transportation shall submit to the general assembly, budget office and office of the governor annually an accounting of all amounts deposited in and credited to the fund together with a budget for proposed expenditures for the succeeding fiscal year in compliance with §§ 35-3-1 and 35-3-4. On order of the director of transportation, the state controller is authorized and directed to draw his or her orders upon the general treasurer for the payments of any sum or portion of the sum that may be required from time to time upon receipt of properly authenticated vouchers.

(c)

At any time the amount of the fund is insufficient to fund the expenditures of the department of transportation, not to exceed the amount authorized by the general assembly, the general treasurer is authorized, with the approval of the governor and the director of administration, in anticipation of the receipts of monies enumerated in this section to advance sums to the fund, for the purposes specified in this section, any funds of the state not specifically held for any particular purpose. However, all the advances made to the fund shall be returned to the general fund immediately upon the receipt by the fund of proceeds resulting from the receipt of monies to the extent of the advances.

Every distributor shall, on or before the twentieth (20th) day of each month, render a report to the tax administrator, upon forms to be obtained from the tax administrator, of the amount (number of gallons) of fuels purchased, sold, or used by the distributor within this state and the amount of fuels sold by the distributor without this state from fuels within this state during the preceding calendar

2024 Rhode Island General LawsTitle 31 - Motor and Other VehiclesChapter 31-36 - Motor Fuel TaxSection 31-36-9. - Assessment on determination of incorrectness of report or on failure to file report.

§ 31-36-9. Assessment on determination of incorrectness of report or on failure to file report.
(1) Deficiency determination; interest.
If the tax administrator is not satisfied with any statement or report or the amount of tax paid to the tax administrator by any person, the tax administrator may compute and determine the amount required to be paid upon the basis of the facts contained in the statement or report or upon the basis of any information in the tax administrator’s possession or that may come into the tax administrator’s possession. One or more deficiency determinations may be made of the amount due for one or for more than one month. The amount of the determination, exclusive of penalties, shall bear interest at the annual rate provided by § 44-1-7, as amended, from the twenty-fifth day after the close of the month for which the amount, or any portions of it, should have been paid until the date of payment.
(2) Pecuniary penalties for deficiencies.
If any part of the deficiency for which a deficiency determination is made is due to negligence or intentional disregard of the provisions of this chapter, a penalty of ten percent (10%) of the amount of the determination shall be added to it. If any part of the deficiency for which a deficiency determination is made is due to fraud or an intent to evade the provisions of this chapter, a penalty of fifty percent (50%) of the amount of the determination shall be added to it.
(3) Notice of determination.
The tax administrator shall give to the distributor or other person against whom any claim is asserted a written notice of the tax administrator’s determination. Except in the case of fraud, intent to evade the provisions of this article, failure to make a return, or claim for additional amount pursuant to subsections (6) to (9) of this section, every notice of a deficiency determination shall be mailed within three (3) years after the twenty-fifth day of the calendar month following the month for which the amount is proposed to be determined or within three (3) years after the return is filed, whichever period expires later, unless a longer period is agreed upon by the tax administrator and the taxpayer.
(4) Determination without report; interest and penalties.
If any person fails to file a report, the tax administrator shall make an estimate of the amount (number of gallons) of fuels purchased, sold or used which is subject to tax. The estimate shall be made for the month or months in respect to which the person failed to file a report and shall be based upon any information which is in the tax administrator’s possession or may come into the tax administrator’s possession. Upon the basis of this estimate, the tax administrator shall compute and determine the amount required

to be paid to the state, adding to the sum thus arrived at a penalty equal to ten percent (10%) of it. One or more determinations may be made for one or for more than one month. The amount of the determination, exclusive of penalties, shall bear interest at the annual rate provided by § 44-1-7, as amended, from the twenty-fifth day after the close of the month for which the amount or any portion of it should have been paid until the date of payment. If the failure of any person to file a report is due to fraud or an intent to evade the provisions of this chapter, a penalty of fifty percent (50%) of the amount required to be paid by the person, exclusive of penalties, shall be added to it in addition to the ten percent (10%) penalty provided in this section. After making his or her determination the tax administrator shall mail a written notice of the estimate, determination, and penalty.

(5) Jeopardy determinations.

If the tax administrator believes that collection of any tax or any amount of tax required to be collected and paid to the state or of any determination will be jeopardized by delay, the tax administrator shall thereupon make a determination of the tax or amount of tax required to be collected, including interest and penalties, if any, noting that fact upon the determination. The amount so determined shall be due and payable immediately upon the mailing by the tax administrator of the notice of that determination.

(6) Finality of determination; time payment due.

Unless a hearing shall have been requested as provided in subsection (7) of this section, any determination made by the tax administrator under subsections (1) — (4) of this section shall become final and shall be paid within ten (10) days after mailing by the tax administrator of the notice of the determination. If the determination is not so paid, a further penalty of ten percent (10%) of the amount of the determination, exclusive of interest and other penalties, shall be added to it.

(7) Hearing by administrator on application.

Any person aggrieved by any assessment, deficiency, or otherwise, shall notify the tax administrator in writing within thirty (30) days from the date of mailing by the tax administrator of the notice of the assessment and shall request a hearing relative to it. The tax administrator shall, as soon as practicable, fix a time and place for the hearing and shall, after the hearing, determine the correct amount of the tax, interest, and penalties; provided, that when a jeopardy assessment or determination shall be made the hearing shall not be had unless the jeopardy assessment with penalties and interest shall have been paid. The tax administrator may decrease or increase the amount of any determination.

(8) Petition for judicial review; citation and hearing.

After a hearing, and provided all taxes, interest, and penalties as determined by the tax administrator have been paid, any person aggrieved by the determination may, within fifteen (15) days from the date of mailing by the tax administrator of the determination, petition the sixth division of the district court, setting forth the reasons why the assessment is alleged to be erroneous and praying relief from it. The clerk of the court shall then issue a citation, substantially in the form provided in § 44-5-26, to summon the tax administrator to answer the petition, and the court shall proceed to hear the petition and to determine the correct amount of the tax, interest, and penalties.

(9) Judgment on review.

If, upon final determination of the petition, it shall appear that the tax administrator’s assessment was correct, the court shall confirm the assessment; or, if incorrect, the court shall determine the proper amount of the tax, interest, and penalties, and it shall appear that the petitioner, by reason of the payment of the tax, interest, and penalties, is entitled to recover the payment or any part of it, the court may order a refund with interest at the annual rate provided by § 44-1-7, as amended, or order a credit, as the circumstances may warrant. If a refund is so ordered, it shall be paid by the general treasurer upon certification of the tax administrator with the approval of the director of administration. If it shall appear that the state is entitled to a greater amount of tax, interest, and penalties than assessed or determined by the tax administrator and paid by the petitioner, the court shall order the payment by the petitioner of any additional amount that the court shall determine, and the petitioner shall immediately pay the amount to the tax administrator. A party aggrieved by a final order of the court may seek review thereof in the supreme court by writ of certiorari in accordance with the procedures contained in § 8-8-32.

(10) Interest and penalties on delinquent payments.

Any person who fails to pay any tax to the state or any amount of tax required to be collected and paid to the state, except amounts of determinations made by the tax administrator under subsections (1) — (4) of this section within the time required, shall pay a penalty of ten percent (10%) of the tax or amount of the tax, in addition to the tax or amount of the tax, plus interest at the annual rate provided by § 44-1-7, as amended, from the date on which the tax or amount of the tax required to be collected became due and payable to the state until date of payment.

§ 31-41.1-5. Failure to answer or appear.

(a)

In the event the person charged with a violation does not pay the fine administratively in accordance with the provisions of § 31-41.1-3, then he or she shall have waived his or her right to dispose of the offense without personal appearance, and the person charged with the violation must then appear before the traffic tribunal or municipal court on the date specified on the summons. If the person charged with the violation shall fail to appear on the specified date, a judge or magistrate may enter default judgment, and after hearing any evidence presented, determine whether the charges have been established. If the charges are not established, an order dismissing the charges shall be entered. If a determination is made that a charge has been established, an appropriate order shall be entered in the records of the traffic tribunal, including any order of suspension of the license or driving privilege of the person so charged in the same manner as set forth in § 31-41.1-6.

(b)

The order shall be mailed to the person charged with the violation at his or her last known address.

2024 Rhode Island General LawsTitle 31 - Motor and Other VehiclesChapter 31-41.1 - Adjudication of Traffic OffensesSection 31-41.1-6. - Hearings.

§ 31-41.1-6. Hearings.

(a)

Every hearing for the adjudication of a traffic violation, as provided by this chapter, shall be held before a judge or magistrate of the traffic tribunal or a judge of the municipal court, where provided by law. The burden of proof shall be upon the state, city, or town and no charge may be established except by clear and convincing evidence. A verbatim recording shall be made of all proceedings. The chief magistrate of the traffic tribunal may prescribe, by rule or regulation, the procedures for the conduct of the hearings and for pre-hearing discovery.

(b)

After due consideration of the evidence and arguments, the judge or magistrate shall determine whether the charges have been established, and appropriate findings of fact shall be made on the record. If the charges are not established, an order dismissing the charges shall be entered. If a determination is made that a charge has been established or if an answer admitting the charge has been received, an appropriate order shall be entered in the records of the traffic tribunal.

(c)

An order entered after the receipt of an answer admitting the charge or where a determination is made that the charge has been established shall be civil in nature, and shall be treated as an adjudication that a violation has been committed. A judge or magistrate may include in the order the imposition of any penalty authorized by any provisions of this title for the violation, including, but not limited to, license suspension, and/or in the case of a motorist under the age of twenty (20), community service, except that no penalty for it shall include imprisonment. A judge or magistrate may order the suspension or revocation of a license or of a registration in the name of the defendant in accordance with any provisions of this title that authorize the suspension or revocation of a license or of a registration, or may order the suspension of the license and the registration of the defendant for the willful failure to pay a fine previously imposed. In addition, after notice and opportunity to be heard, a judge or magistrate may order the suspension of the registration of the vehicle with which the violation was committed, if the defendant has willfully failed to pay a fine previously imposed.

(d)

A judge or magistrate may, as authorized by law, order a motorist to attend a rehabilitative driving course operated under the jurisdiction of a college or university accredited by the state of Rhode Island, or the trained personnel of the department of revenue. An order to attend a course may also include a provision to pay reasonable tuition for the course in an amount not to exceed the fee established by the college or university accredited by the state of Rhode Island or the department of revenue for driver retraining. The order shall contain findings of fact. Failure to comply with an order of attendance may, after notice and hearing, result in the suspension or revocation of a person’s license or registration.

(e)

Unless a judge or magistrate determines that a substantial traffic safety hazard would result from it, he or she may delay for a period not to exceed thirty (30) days the effective date of any suspension or revocation of a driver’s license or vehicle registration imposed pursuant to this chapter. However, the regulations may provide for the immediate surrender of any item to be suspended or revoked and the issuance of appropriate temporary documentation to be used during the thirty-day (30) period. Any order for immediate surrender of a driver’s license or vehicle registration shall contain a statement of reasons for it.

§ 31-41.1-8. Appellate review.
(a) Appeals panels.
The chief magistrate of the traffic tribunal shall establish one or more appeals panels, each consisting of three (3) members of the traffic tribunal, and shall select a presiding member for each appeals panel from the members so appointed. No member of the traffic tribunal shall serve as a member of an appeals panel hearing the appeal of a determination by that member. The chief judge shall also designate any other personnel of the traffic tribunal that may be necessary to assist an appeals panel in carrying out its functions.
(b) Right of appeal.

Any person who is aggrieved by a determination of a judge or magistrate may appeal the determination pursuant to the provisions of this section.
(c) Appeals panel.
Each appeal filed pursuant to this section shall be reviewed by an appeals panel, which shall make a determination of the appeal, and shall cause an appropriate order to be entered in the records of the traffic tribunal.
(d) Time limitations.
No appeal shall be reviewed if it is filed more than ten (10) days after notice was given of the determination from which it was appealed, unless it is determined that failure to file was due to excusable neglect. Notice shall be complete upon mailing.
(e) Appeal procedures.
Any person desiring to file an appeal from an adverse determination pursuant to this section shall do so in a form and manner provided by the clerk of the traffic tribunal. The transcript of any hearing that formed the basis for the determination will be reviewed only if it is submitted by the appellant. The appeals panel shall not substitute its judgment for that of the judge or magistrate as to the weight of the evidence on questions of fact. The appeals panel may affirm the decision of the judge or magistrate, or it may remand the case for further proceedings or reverse or modify the decision if the substantial rights of the appellant have been prejudiced because the judge's findings, inferences, conclusions or decisions are:

In violation of constitutional or statutory provisions;
(2)
In excess of the statutory authority of the judge or magistrate;
(3)
Made upon unlawful procedure;
(4)
Affected by other error of law;

(6)
Arbitrary or capricious or characterized by abuse of discretion or clearly unwarranted exercise of discretion.
(g) Transcript of hearings.
Transcripts of the record of any hearing may be obtained at the cost of the traffic tribunal, if prepared by the tribunal, or at a rate specified in the contract between the court and the contractor, if prepared by a private contractor.
(h) Fees.
The fee for filing an appeal shall be twenty-five dollars ($25.00), and this fee shall be deposited into the general fund. In addition to the appeal filing fee, the traffic tribunal shall apply a technology surcharge assessed in accordance with § 8-15-11. No appeal shall be accepted unless the required fee has been paid or if forma pauperis status has been granted.
(i) Stays pending appeal.
Whenever a determination has not been made within thirty (30) days after an appeal has been finally submitted, a stay of execution will be deemed granted by operation of law, and the license, certificate, permit, or privilege affected will be automatically restored pending final determination by the appeals panel.

Such systems shall be limited to systems which monitor and detect violations of traffic control signals. For purposes of this chapter an automated traffic violation detection system means a system with one or more motor vehicle sensors which produces images of motor vehicles being operated in violation of traffic signal laws. A municipality shall be permitted to install, at up to no more than three (3) designated “Don’t Block the Box” intersections within the municipality, an automated traffic detection system to monitor violations of § 31-15-12.2; provided, however, that the provisions allowing such “Don’t Block the Box” monitoring shall sunset on January 15, 2027, at which time such use as provided in this section shall no longer be permitted.

No automated traffic violation detection system shall be installed pursuant to this section which has not been approved for use by the director of the state department of transportation. The director of the state department of transportation shall promulgate regulations for the approval and operation of said systems pursuant to the administrative procedures act, chapter 35 of title 42. Systems shall be approved if the director is satisfied they meet standards of efficiency and accuracy. All systems installed for use under this chapter must be able to record the image of the vehicle and the license plates of the vehicle.
(c)
In the event that the system is to be installed other than by the state department of transportation on state-maintained streets or roads, the director of the department of transportation must approve such installation.

(d)
The officer issuing the summons shall certify under penalties of perjury that the evidence obtained from the automated traffic-violation-detection system was sufficient to demonstrate a violation of the motor vehicle code. Such certification shall be sufficient in all prosecutions pursuant to this chapter to justify the entry of a default judgment upon sufficient proof of actual notice in all cases where the summons is not answered within the time period permitted.
(e)
The summons shall contain all the information provided for on the uniform summons as referred to in § 31-41.1-1 and the rules of procedure promulgated by the chief magistrate of the traffic tribunal, subject to the approval of the supreme court pursuant to § 8-6-2.

In addition to the summons, the following information shall be attached to the summons:
(1)
Copies of two (2) or more photographs, or microphotographs, or other recorded images taken as proof of the violation;
(2)
A signed statement by a trained law enforcement officer that, based on inspection of recorded images, the motor vehicle was being operated in violation of § 31-13-4;
(3)
A statement that recorded images are evidence of a violation of this chapter; and
(4)
A statement that the person who receives a summons under this chapter may either pay the civil penalty in accordance with the provisions of § 31-41.1-3, or elect to stand trial for the alleged violation.

§ 31-44.1-2. Rent increases for mobile and manufactured home lots.
(a)
Any person who owns, operates, or maintains a mobile and manufactured home park pursuant to the provisions of chapter 44 of this title shall give the mobile home owners of the park sixty (60) days written notice prior to any lot rent increase going into effect. The written notice shall set forth the current rent, the proposed rent, and the date upon which the increase shall take effect.
(b)
If a majority of the mobile home owners of the park believe that the rent increase is " excessive" as defined in this section, they may request in writing from the American Arbitration Association that binding arbitration take place between the park owner or operator and the mobile home owners. The association will authenticate on a confidential basis the request and the signatures of a majority of the park mobile home owners, who shall be made aware of the costs involved in seeking binding arbitration under this section. For purposes of determining a majority under this section, there shall be one vote per mobile home unit. The names of the mobile home owners requesting the binding arbitration shall not be disclosed by the American Arbitration Association to the park owner or operator. Upon authentication that a majority of the owners are requesting mediation, the commission shall appoint an impartial and qualified arbitrator, to arbitrate the dispute. The park owner or operator and the mobile home owners will cooperate with the arbitrator in an effort to resolve their differences. The costs and expenses of the arbitrator shall be borne equally by the park owner or operator and the mobile home owners.
(c)
An "excessive" rent increase for purposes of this section is an increase which is unreasonable based on the park owner's or operator's total expenses, including debt service and a reasonable return on the park owner's investment or equity in the park, provided, that the debt service is directly related to acquisition of the mobile home park. Debt service used to or otherwise employed for purposes other than that which is directly related to the acquisition or capital management of the mobile home park shall be excluded. Further, the arbitrator shall perform an analysis as to the mobile home park owner's need for rent increase and services provided to the park. This analysis shall be performed for a period of not less than three (3) years prior to the application for rental increase. Specifically excluded in any such analysis shall be any debt service incurred using the mobile home park as collateral or other security for investment, enterprises, businesses or similar ventures separate and apart from the mobile home park.
(d)
The arbitrator will promptly hear the dispute and render a decision based on the " excessive" rent increase standard as defined in this section. For purposes of determining a reasonable return on the park owner's investment or equity, the arbitrator shall perform a risk

analysis and consider alternative and comparative investments. The costs of the arbitration shall be borne by the losing party in the arbitration.
(e)
No lot rent increase shall go into effect until the earlier of:
(i)
Completion of the binding arbitration process, or
(ii)
One hundred twenty (120) days after the written notice given under subsection (a) of this section.

(a)
A tenancy may be terminated by a park owner or operator pursuant to chapter 18 of title 34, provided, that jurisdiction as it relates to this chapter shall be in the district court but subject to one or more of the following reasons and limitations which shall take precedence over any conflicting state statute or local ordinance:

§ 31-44-3.1. Sale of mobile home parks — Tenants association right of first refusal.

(a)

In any instance in which a mobile home park owner has been sent a certified letter from an incorporated home owner households

association indicating that the association has at least fifty-one percent (51%) of the home owner households residing within that park as members, and has articles of incorporation specifying all rights and powers, including the power to negotiate for, acquire, and operate the mobile home park on behalf of the member residents, then, before a mobile home park may be sold for any purpose and before it may be leased for any purpose that would result in a discontinuance, the owner shall notify the association by certified mail return receipt requested of any bona fide offer that the owner intends to accept, to buy the park or to lease it for a use that would result in a discontinuance. The park owner shall also give notice by certified mail return receipt requested to the incorporated homeowners' association of any intention to sell or lease the park for a use which will result in a discontinuance within fourteen (14) days of any advertisement or other public notice by the owner or his or her agent that the park is for sale or the land upon which the park is located is for lease. Nothing in this section shall limit the association from acting as an agent of the residents in any other cause of action, objective or purpose in advancing a stated purpose in the articles of incorporation of the homeowners' association.

(b)

The notice of pending bona fide sale from the owner must contain at a minimum the following if known and available and applicable to the sale:

(1)

An affidavit from the buyer or lessee stating the offered purchase price or offered lease payment;

(2)

The terms of seller financing, including the amount, the interest rate and its amortization rate;

(3)

The terms of assumable financing, if any, including the amount, the interest rate and its amortization rate;

(4)

The legal description and a statement of appraised or assessed value of property included in any land trade involved in the sale of the park;

(5)

Proposed improvements to the property to be made by the owner in connection with the sale, or other economic concessions by the owner in connection with the sale, if any;

(6)

A statement that the owner will allow reasonable access to the property by parties involved in the potential purchase including, but not limited to, the tenants' association, consultants, and lenders;

(7)

A statement that the owner will make available to the residents copies of any easements either on or off the property to which the owner is a party and copies of all permits or licenses in force within seven (7) days of a signed purchase and sale agreement with the residents;

(8)

A statement that the owner will make available to the residents a survey and legal description of the park, plus an itemized list of monthly operating expenses, utility consumption rates, taxes, insurance and capital expenditures for each of the past three (3) years within seven (7) days of a signed purchase and sale agreement with the residents;

(9)

A statement that the owner will make available to the tenants' association the most recent rent roll, a list of tenants, a list of vacant units and a statement of the vacancy rate at the park for the three (3) preceding calendar years within seven (7) days of a signed purchase and sale agreement with the residents;

(10)

A statement that the owner will make available to the tenants' association any available data relating to the past and present existence of hazardous waste either on the property or in close proximity within seven (7) days of a signed purchase and sale agreement with the residents;

(11)

A statement that the owner will make available to the tenants' association any available data relating to the water, sewer and electrical systems of the park within seven (7) days of a signed purchase and sale agreement with the residents;

(12)

A statement that the owner will make available to the tenants' association all income and operating expenses relating to the property to be purchased for the three (3) preceding calendar years within seven (7) days of a signed purchase and sale agreement with the residents and any other information that may be required by the lender. Any additional information that is required by the lender shall be kept strictly confidential.

(c)

Any incorporated home owners' association entitled to notice under this section shall have the right to purchase, in the case of a third party bona fide offer to purchase, or to lease in the case of a third party bona fide offer to lease, the park, provided it meets the same price and the same terms and conditions of any offer of which it is entitled to notice under this section by:

(1)

Executing a contract or purchase and sale or lease agreement with the owner within forty-five (45) days of notice of the offer; and

(2)

Obtaining any necessary financing or guarantees within an additional one hundred thirty-five (135) days.

(d)

No owner shall unreasonably refuse to enter into, or unreasonably delay the execution of a purchase and sale or lease agreement with a home owners' association that has made a bona fide offer to meet the same price and the same terms and conditions of an offer for which notice is required to be given pursuant to this section.

(e)

The deposit monies must be credited to the purchase price of the mobile home park.

(f)

The incorporated home owners' association will use diligent efforts to obtain a commitment for financing from a lender by making immediate application for financing upon signing of the purchase and sale agreement. In the event that the incorporated home owners' association, with the exercise of reasonable efforts, is unable to obtain necessary financing or comply with other contingencies of the purchase and sale agreement, the incorporated home owners' association shall immediately notify the park owner and the deposit shall be returned to the incorporated home owners' association.

(g)

If the incorporated home owners' association shall default in the performance of its obligations as a purchaser under the terms of the purchase and sale agreement, the park owner shall have, as sole and exclusive remedy for the default, the right to retain the deposit as liquidated damages in full settlement and discharge of all obligations of the incorporated home owners' association without further recourse in law or equity.

(h)

Failure of the incorporated home owners' association to execute a purchase and sale agreement or lease within the forty-five (45) day period or to obtain a binding commitment for financing within the one hundred thirty-five (135) day period shall serve to terminate the right of the association to purchase or lease the mobile park home.

(i)

Residents shall have a total of one hundred eighty (180) days from the receipt of notice of a bona fide sale to complete a transaction under the right of first refusal legislation. Any delays by the seller in supplying requested information as stated in this legislation or any delay resulting from litigation involving the sale and/or litigation affecting the marketability of the title of the mobile home park shall result in the same number of days over the due date being added to the one hundred eighty (180) days available to the residents for a right of first refusal purchase unless the litigation is frivolous and prompted for the sole purpose of delay by the home owners association.

(j)

The time periods provided in this section may be extended by agreement of the association and the owner.

(k)

Nothing in this section shall be construed to require an owner to provide financing to any association or to prohibit an owner from requiring an association which is offering to lease a park to have within its possession a sum equivalent to the capitalized value of the proposed rent of the park and requiring that a portion of that sum, of an amount necessary to pay the rent on the park for a period of no greater than two (2) years, be kept in escrow for that purpose during the term of the lease.

(l)

The right of first refusal created in this section shall inure to a home owners' association for the time periods provided in this section, beginning on the date of notice to the home owners' association. The effective period of the right of first refusal shall apply separately for each substantially different bona fide offer to purchase the park or to lease it for a purpose that would result in a discontinuance, and for each offer the same as an offer made more than three (3) months prior to the later offer. However, in the case of the same offer made by a prospective buyer who has previously made an offer for which notice to a home owners' association was required by this section, the right of first refusal shall apply only if the subsequent offer is made more than six (6) months after the earlier offer. The right of first refusal shall not apply with respect to any offer received by the owner for which notice to a home owners' association is not required pursuant to this section.

(m)

No right of first refusal shall apply to a government taking by eminent domain or negotiated purchase, a forced sale pursuant to a foreclosure, transfer by gift, devise, or operation of law, or a sale to a person who would be included within the table of descent and distribution if there were to be a death intestate of a park owner.

(n)

In any instance in which the incorporated home owners' association of a mobile home park is not the successful purchaser or lessee of the mobile home park, the seller or lessor of the park shall prove compliance with this section by filing an affidavit of compliance in the official land evidence records of the city or town where the property is located within seven (7) days of the sale or lease of the park.

(o)

In any instance in which the incorporated homeowners' association of a mobile home park is the successful purchaser or lessee of the mobile home park, the association shall have the right to distinguish in terms of lease conditions and rent and fees as between members of said association and non-members of said association. For purposes of this chapter, members of a homeowners' association and non-members of a homeowners' association shall not be deemed residents of a similar class.

§ 31-44-3.2. Mobile home parks — Discontinuance.
(a)(1)
In any instance in which a mobile home park is to be sold or leased for any purpose which would result in a discontinuance of the mobile home park, the mobile home park owner shall give at least one year written notice by certified mail return receipt requested to each mobile home resident of the proposed sale or lease.
(2)
The mobile home park owner shall pay to any resident who is entitled to receive notice pursuant to this section, relocation benefits of up to four thousand dollars ($4,000) or the actual relocation expenses incurred, whichever is less. The relocation benefits shall be payable within ten (10) days of the departure of the resident and the removal of the mobile home unit from the park. In the event that the resident fails to remove the unit from the park and the park owner is required to remove the unit, the relocation benefits shall be reduced by an amount equal to the documented out of pocket moving costs incurred by the park owner for the physical removal of the unit.
(3)
Any mobile home park owner shall provide to each resident who is entitled to receive relocation benefits pursuant to this section, a rental agreement. The agreement shall begin on the date of the issuance of the notice of discontinuance. The provisions of the rental agreement shall not alter in any manner the tenancy arrangement existing between the park owner and resident prior to issuance of the notice of discontinuance, except with respect to the amount of annual rent, which may be increased by an amount not to exceed the increase in the consumer price index for urban consumers, published by the United States department of labor, bureau of labor statistics, from the calendar year immediately preceding the date upon which the rental agreement is commenced plus the proportionate amount of any documented increase in real estate taxes or other municipal fee or charge; provided, that the total amount of the increase shall not exceed ten percent (10%) of the annual rent charged in the immediately preceding year. Once a resident has received a notice of discontinuance, his or her rent, and fees, shall not be increased unless a year has passed from the date of the last increase imposed upon the resident.
(b)
Any new resident taking up residence at the park, after the initial notice of discontinuance has been mailed, shall be given a copy of the notice in hand prior to his or her signing a lease and/or placing his or her unit in the park. The new resident shall be provided a form upon which he or she shall acknowledge in writing having received a copy of the notice.
(c)

§ 31-44-3. Rules and regulations.
The following requirements and restrictions shall apply to all mobile- and manufactured-home parks:
(1)
A mobile- and manufactured-home park licensee shall promulgate reasonable rules and regulations that shall specify standards for mobile and manufactured homes in the park, entry requirements, and rules governing the rental or occupancy of a mobile- and manufactured-home lot and mobile- and manufactured-home park;
(2)
Current rules and regulations promulgated by a mobile- and manufactured-home park licensee shall be delivered by the licensee to a prospective resident prior to entering into a rental agreement, and to the resident(s) as soon as promulgated and whenever revised. A

copy of the rules and regulations shall be filed with the director and posted in a conspicuous place in the mobile- and manufactured-home park;

(3)

Any rule or change in rent that does not apply uniformly to all mobile- and manufactured-home residents of a similar class shall create a rebuttable presumption that the rule or change in rent is unreasonable;

(4)(i)

A mobile- and manufactured-home park licensee shall not impose any conditions of rental or occupancy that restricts the mobile- and manufactured-home owner in his or her choice of a seller of fuel, furnishings, goods, services, accessories, or other utilities connected with the rental or occupancy of a mobile- and manufactured-home lot;

(ii)

The licensee who purchases electricity or gas (natural, manufactured, or similar gaseous substance) from any public utility or municipally owned utility or who purchases water from a water system for the purpose of supplying or reselling the electricity or gas to any other person to whom he leases, lets, rents, subleases, sublets, or subrents the premises upon which the electricity, gas, or water is to be used, shall not charge, demand, or receive directly or indirectly, any amount for the resale of any electricity, gas, or water greater than that amount charged by the public utility or municipally owned utility from which the electricity, gas, or water was purchased or by the public water system from which the water was purchased;

(iii)

However, if the licensee incurs costs in bringing the utility service to individual units, or in utilizing individual meters, or in some similar cost, the licensee will be entitled to a return for the investment;

(iv)

The park operator shall post in a conspicuous place the prevailing utility rate schedule as published by the serving utility;

(5)

If any mobile- and manufactured-home park licensee adds, changes, deletes, or amends any rule governing the rental or occupancy of a mobile- and manufactured-home lot in a mobile- and manufactured-home park, a new copy of all those rules shall be furnished to all mobile- and manufactured-home residents in the park, and filed with the department for its review, recommendations, and recording for future reference at least forty-five (45) days prior to the effective date of the addition, change, deletion, or amendment. The new copy furnished to the resident shall be signed by both the mobile- and manufactured-home park owner and the mobile- and manufactured-home park resident. Any mobile park resident who believes the rule change is in violation of the chapter, may file a complaint with the director in accordance with § 31-44-17. The complaint shall be filed within twenty (20) days of receipt of written notice of the change. The complaint shall specify the rule in dispute and contain the basis by which the change violates this chapter;

(6)

If any mobile- and manufactured-home park licensee changes the rent or fees associated with a mobile- and manufactured-home lot, notice of the change shall be given to the mobile- and manufactured-home resident at least sixty (60) days prior to the effective date of the change. Any mobile park resident who believes that the rule change is in violation of this chapter, may file a complaint with the director in accordance with § 31-44-17. The complaint shall be filed within twenty (20) days after receipt of written notice of the change. The complaint shall specify the basis by which the change violates this chapter;

(7)

The owners of individual mobile and manufactured homes shall be entitled to have as many occupants in their homes as is consistent with the number of bedrooms and/or bed spaces certified by the manufacturer; provided that the occupancy does not violate any provision of the general laws or other municipal regulations. All bedrooms shall consist of a minimum of fifty square feet (50 sq. ft.) of floor area and bedrooms designed and certified for two (2) or more people shall consist of seventy square feet (70 sq. ft.) of floor area plus fifty square feet (50 sq. ft.) for each person in excess of two (2). If there is sufficient bed space, according to the criteria set forth in this subdivision, additional rent or charges may not be imposed by a park owner or manager for any person or persons moving in with current resident owners of a mobile and manufactured home;

(8)

A prospective resident shall not be charged an entrance fee for the privilege of leasing or occupying a mobile- and manufactured-home lot, except as provided in § 31-44-4; provided, that when a mobile and manufactured home is transported onto the mobile- and manufactured-home park, an entrance fee may be charged. However, if the park owner received a commission for the sale of the mobile and manufactured home, no entrance fee shall be charged. A reasonable charge for the fair value of the owner’s cost in obtaining, preparing, and maintaining a lot, or for the fair value of services performed in placing a mobile and manufactured home on a lot, shall not be considered an entrance fee, but shall be deemed a hook-up fee or maintenance fee and shall be detailed in the fee schedule. No tenant, or person seeking space in a mobile- and manufactured-housing park, shall be required to purchase manufactured housing from any particular person unless the person designated is the park owner or operator and the requirement is imposed only in connection with the initial leasing or renting of a newly-constructed lot or space not previously leased or rented to any other person. A resident may remove and replace a mobile and manufactured home; provided, that the resident shall install the mobile and manufactured home in accordance with present park standards regarding structural requirements and aesthetic maintenance in the mobile- and manufactured-home park where the replacement occurs, and in accordance with minimum standards for mobile and manufactured homes established by the United States Department of Housing and Urban Development. No fee shall be charged by the licensee to residents as a result of the resident’s installation of cable television;

(9)
Prior to signing a lease, a licensee shall disclose, in writing, to the prospective resident:
(i)
The rental for the space or lot; and
(ii)
Any charges, including service charges, imposed by the licensee. The licensee shall disclose the rent and charges that were in effect during the three (3) preceding years, or the period during which the licensee has operated the mobile home park, whichever is shorter;
(10)
A copy of the fee schedule shall be filed with the commission and posted in a conspicuous place in the mobile- and manufactured-home park; and
(11)(i)
A resident shall not be charged a fee for keeping a pet in a mobile- and manufactured-home park unless the park owner or management actually provides special facilities or services for pets. If special pet facilities are maintained by the park owner or management, the fee charged shall reasonably relate to the cost of maintenance of the facilities or services and the number of pets kept in the park;
(ii)
If the park owner or management of a mobile- and manufactured-home park implements a rule or regulation prohibiting residents from keeping pets in the park, the new rule or regulation shall not apply to prohibit the residents from continuing to keep the pets currently in the park if the pet otherwise conforms with the previous park rules or regulations relating to pets. However, if the pet dies, the resident shall have the right to replace the pet;
(iii)
Any rule or regulation prohibiting residents from keeping pets in a mobile- and manufactured-home park shall not apply to guide, signal, or service animals;
(12)

2024 Rhode Island General LawsTitle 31 - Motor and Other VehiclesChapter 31-44 - Mobile and Manufactured HomesSection 31-44-4. - Sale of mobile and manufactured homes.

§ 31-44-4. Sale of mobile and manufactured homes.
(a)
No owner of a mobile and manufactured home park shall deny any resident the right to sell his or her mobile and manufactured home owned by him or her while the mobile and manufactured home is in the park or require the resident to remove the mobile and manufactured home because of the sale of the home, except as provided in this section.
(b)
A mobile and manufactured home park licensee, directly or indirectly engaged in the business of selling mobile and manufactured homes, may impose conditions on the rental or occupancy of a new lot, including the right to sell the first unit or impose an entrance fee on that lot.
(c)

An owner of a mobile home or manufactured home remaining within the park may utilize one of the following methods in selling the home to a qualified buyer:

(1)

Sell the home through his or her own individual efforts;

(2)

List the home with a licensed real estate broker at a commission not to exceed ten percent (10%);

(3)

List the home with park licensee at a commission not to exceed ten percent (10%).

The mobile and manufactured home commission shall provide recommendations for screening of prospective purchasers by the park licensees.

(d)

No licensee shall exact a commission or fee with respect to the price realized by the resident, except as provided in this section, unless he or she has acted as agent for the resident in a sale pursuant to a written contract.

(e)

No owner of a mobile and manufactured home park shall make or enforce any rules which require any resident to sell his or her mobile and manufactured home to the owner.

No owner of a mobile and manufactured home park shall make any rule or enter into a contract, which shall abrogate or limit the tenant's right to place "for sale" signs on or in his or her mobile manufactured housing. However, the park owner may by rule or contract provision impose reasonable limitations as to size, quality registration of the signs, requirements that the posting of the signs be pursuant to bona fide efforts to sell, and removal when the home is no longer being offered for sale. No limitation as to size or quality shall restrict the use of painted or printed signs which are two feet (2′) by two feet (2′) or less in size and which contains no more than "for sale," "address" and "phone number".

(f)

An owner may refuse to sell a mobile and manufactured home, allow a mobile and manufactured home to remain in the park, or to approve entry to the mobile and manufactured home park for good cause. For the purpose of this section, "good cause" means a reasonable cause for the owner to believe:

(1)

That the purchaser will not meet the entry requirements for the park and the entry requirements are equally applied by the owner to all purchasers and prospective residents;

(2)

That the purchaser intends to utilize that purchased mobile and manufactured home for an illegal purpose or for any purpose that would disturb the quiet enjoyment of the other residents of the park;

(3)

That the purchaser is or will be financially unable to pay the rent for the mobile and manufactured home space or lot upon which the purchased mobile and manufactured home is located;

(4)

An owner may require the removal of a mobile home being sold whose age and condition does not meet the standards of mobile homes in the park; or

(5)

No owner or operator of a mobile and manufactured home park shall require a mobile or manufactured home at the time of sale or foreclosure, which is safe, sanitary, and in conformance with aesthetic standards, to be removed from the park; provided that this clause (5) shall not apply where the owner or operator has initiated the foreclosure as mortgagee.

(6)

Any resident or prospective resident who is aggrieved pursuant to this subsection, shall have the right to petition the director for a hearing within twenty (20) days of the alleged violation by the owner. Said hearing shall occur within thirty (30) days from the receipt of said petition. The director or his or her designee shall take all reasonable action to effectuate prompt resolution of said claim and shall render a decision within fifteen (15) days of the conclusion of said hearing.

(g)

A mobile and manufactured home shall be presumed to be safe if it is established that the mobile and manufactured home was constructed to any nationally recognized building or construction code or standard. Failure to meet any standard or code shall raise no presumption that the mobile manufactured home is unsafe; nor may the failure be used as a reason for withholding approval of an on site sale.

(h)

The mobile and manufactured home park owner shall have the burden of showing that a mobile and manufactured home is unsafe, unsanitary, or fails to meet the aesthetic standards of the development. No aesthetic standard shall be applied against a mobile and manufactured home if the standard relates to physical characteristics, such as size, original construction materials, or color which cannot be changed without undue hardship to the tenant.

(i)

Any homeowner wishing to sell his or her home must request in writing a statement of the park owner's intentions regarding the

conditions of the dwelling. Within ten (10) days of the receipt of the request of the homeowner for the park owner's intentions, the park owner must approve the home's condition for resale or deliver a written statement specifying ways in which the home is not safe, sanitary, or in conformance with aesthetic standards. Failure of the park owner to respond within ten (10) days shall be deemed approval of the home's condition for resale.

(j)

In the event of resale or resiting of a mobile and manufactured home, the local building official in the city or town where the mobile and manufactured home is to be located shall, upon the request of either party, inspect the unit and shall issue a certificate of approval in the case of an on site sale or a certificate of occupancy in the case of resiting, to the owner of the unit, provided the authority finds the unit safe for human habitation and the site meets local zoning requirements. A fee of not more than thirty dollars ($30.00) may be charged for the inspection by building officials.

(k)

No licensee shall discriminate in the treatment of tenants of mobile and manufactured homes as the result of the sale of the home, whether the tenant is the tenant prior or subsequent to the sale.

(l)

Every person who sells a mobile and/or manufactured home shall warrant to the buyer that the home is free and clear of all liens and if the seller violates the warranty, then the seller shall be strictly liable to the buyer in damages.

(m)

Every person who sells a mobile and/or manufactured home in this state which will be located at a mobile or manufactured home park in this state and retains a secured interest in the mobile and/or manufactured home shall file a notice of the lien with the recorder of deeds of the city or town within which the park is located as allowed by the provisions of § 34-13-8 and with the uniform commercial code division of the department of state.

(n)

Prior to the execution of a purchase and sale agreement, every owner of a mobile and manufactured home park, shall disclose to the prospective purchaser the rental history for the preceding three (3) years of the land on which the home will be located.

(o)

The owner of a mobile and manufactured home park shall not require the purchaser to provide the names of more than three (3) references from whom the park owner can seek information concerning the behavior and financial reliability of the purchaser; nor shall the purchaser be required to obtain a written report from any reference; the park owner shall not require the purchaser to submit copies of any personal income tax returns in order to obtain approval for residency in the park. However, the park owner may require the purchaser to document the amount and source of his or her gross monthly income or means of financial support. If the park owner or management rejects a purchaser as a prospective homeowner, the ownership or management shall inform the selling homeowner in writing no later than ten (10) days of its reasons for the rejection. If the approval of a purchaser is withheld for any reason other than those stated in these articles, the park owner or management may be held liable for all damages proximately resulting in it.

(p)

The park owner or management may require the right of prior approval of a purchaser of a mobile and manufactured home that will remain in the park and that the selling homeowner or his or her agent give notice of the sale to the park owner or management before the close of the sale. Approval cannot be withheld if the purchaser has the financial ability to pay the rent and charges of the park unless the park owner or management reasonably determines that, based on the purchaser's prior tenancies, he or she will not comply with the rules and regulations of the park.

(q)

If the park owner or management collects a fee or charge from a prospective purchaser of a mobile and manufactured home in order to obtain a financial report or credit rating, the full amount of the fee or charge shall be credited toward payment of the first month's rent for that mobile and manufactured home purchaser.

(r)

If, for whatever reason, the prospective purchaser is rejected by the park owner or management, the park owner or management shall refund to the prospective purchaser the full amount of that fee or charge within thirty (30) days from the date of rejection. If the prospective purchaser is approved by the park owner or management, but, for whatever reason, the prospective purchaser elects not to purchase the mobile or manufactured home, the park owner or management may retain the fee, or a portion of it, to defray its administrative costs under this section.

(s)

No owner or operator of a mobile and manufactured home park shall require any person as a precondition to renting, leasing, or otherwise occupying a space for mobile and manufactured housing in a mobile and manufactured home park to pay any fee of any kind, unless services are actually rendered. The park owner or management shall not perform any service unless so requested in writing.

§ 31-46-1. Duty of insurance company and salvage motor vehicle dealer.
(a)
Any insurance company taking possession of a motor vehicle for which a certificate of title has been issued in this state, that has been declared a total loss because of damage to that vehicle, in settlement of a claim for damage or theft shall within ten (10) days deliver to the division of motor vehicles the certificate of title of that vehicle and obtain a salvage certificate of title for that vehicle as prescribed for by the administrator of the division of motor vehicles. If the insurance company is unable to obtain the certificate of title of the vehicle for more than thirty (30) days after payment of the total loss claim on the vehicle, the insurance company or its agent may apply for and obtain, free and clear of all liens and claims of ownership, a salvage certificate of title in the insurance company’s name without delivering the certificate of title to the division of motor vehicles. The application shall be accompanied by evidence that the insurance company has paid a total loss claim on the vehicle and has attempted to obtain the certificate of title by sending at least two (2) written attempts, sent by certified mail or by another commercially available delivery service providing proof of delivery and addressed to the last known owner of the vehicle and any known lienholders, at the address shown on the records of the appropriate registry, in the state in which the vehicle is registered.
(b)
If:
(1)
A motor vehicle dealer, the primary business of which is the sale of salvage motor vehicles on behalf of insurance companies, is asked by an insurance company to take possession of a motor vehicle for which a certificate of title has been issued in this state;
(2)
The motor vehicle is the subject of an insurance claim; and
(3)
Subsequently a total loss claim is not paid by the insurance company with respect to the motor vehicle, the motor vehicle dealer may, if the motor vehicle has been abandoned at the facility of the motor vehicle dealer for more than thirty (30) days, apply for and obtain, free and clear of all liens and claims of ownership, a salvage certificate of title in the dealer’s name without surrendering the certificate of title to the division of motor vehicles. The application shall be accompanied by evidence that the motor vehicle dealer made at least two (2) written attempts, sent by certified mail or by another commercially available delivery service providing proof of delivery and addressed to the last known owner of the vehicle and any known lienholders, at the address shown on the records of the appropriate registry, in the state in which the vehicle is registered, to have the vehicle removed from the motor vehicle dealer’s facility. § 31-47.1-1. Legislative findings.
The general assembly finds and declares that:
(1)
Air quality in Rhode Island does not meet the national and state ambient air quality standard for ozone;
(2)
Poor air quality has an adverse effect on the health of all Rhode Island residents, particularly the elderly, the very young and those with respiratory ailments;
(3)
Motor vehicle emissions account for a substantial amount of air pollution problems in the state;
(4)
There is a dramatic need to reduce motor vehicle emissions in Rhode Island;
(5)
The Clean Air Act Amendments of 1990 (42 U.S.C. § 7401 et seq.) mandates that the states formulate and implement individual programs to systematically improve ambient air quality, including a program to reduce emissions through the inspection and maintenance of motor vehicles;
(6)
Should Rhode Island fail to act in a timely manner to improve its ambient air quality pursuant to the Clean Air Act Amendments of 1990, notwithstanding the continued adverse effect air pollution will have on the environment and citizenry of the state, the United States department of transportation will withhold highway funding until compliance is attained, the United States environmental protection agency will withhold grants to support air pollution planning and control programs until compliance is attained, require new emissions be offset by emissions reductions at a ratio of two (2) to one, and will implement a motor vehicle emissions inspection program in the state. In addition, the citizens of the state of Rhode Island may seek injunctive relief under the provisions of the Clean Air Act (42 U.S.C. § 7401 et seq.).
(7)
The general assembly enacted legislation mandating a centralized system for motor vehicle emissions inspections and maintenance during the January 1993 session;
(8)
The centralized motor vehicle emission inspection and maintenance program was never implemented;
(9)
A decentralized system for motor vehicle emission inspection is more desirable than a centralized system;
(10)
Designing, promulgating and implementing a decentralized system for motor vehicle emissions inspection and maintenance will improve air quality, protect the health of Rhode Islanders, assure compliance with the federal clean air act and allow the removal of sanctions imposed on the state of Rhode Island.

(a)

Beginning in fiscal year 2015, a fee of fifty-five dollars ($55.00) is to be charged for each motor vehicle inspected. The amount of fees collected shall provide for the cost of the inspection, the costs of administering the motor vehicle emissions inspection program and other costs provided by law. The fee must be paid for each motor vehicle inspected at an emissions inspection station at the time of the inspection and is payable whether a compliance certificate, waiver certificate, or no certificate is issued. There shall be no fee charged for one reinspection of a vehicle that failed an initial inspection when the reinspection is conducted at the AIRS that conducted the initial inspection.

Of the fifty-five dollars ($55.00) fee, nineteen dollars ($19.00) shall be retained by the inspection station owner to cover the costs of performing the inspection. The remaining thirty-six dollars ($36.00) shall be remitted to the program manager. The program manager shall retain no more than four dollars ($4.00) of the fee and remit no less than thirty-two dollars ($32.00) for deposit in the Rhode Island highway maintenance account. Be it further provided that twenty dollars ($20.00) generated from the fee be deposited into the Rhode Island highway maintenance fund according to the schedule provided in subsection (b) of § 39-18.1-5. The general assembly shall annually appropriate such sums as may be required to cover the costs of administering the program by the division of motor vehicles and the department of environmental management.

The general assembly finds and declares that:

(1)

Exhaust emissions from heavy-duty diesel engines used in trucks and buses traveling within Rhode Island contribute significantly to air pollution within the state;

(2)

Heavy-duty diesel engines in a poor state of repair emit higher levels of pollution than engines that are well maintained;

(3)

Citizens of Rhode Island frequently raise concerns about emissions from heavy-duty diesel engines;

(4)
These emissions diminish the quality of life and health of our citizens;
(5)
Technology exists to determine the level of exhaust emissions from heavy-duty vehicles;

§ 31-47.3-1.1. Purpose.
This act shall be known and may be cited as “An Act Concerning Government Responsibility To Protect Public Health From Diesel Pollution.” The general purposes of this act are to:
(1)
Minimize human exposure to and health risks from diesel pollution;
(2)
Reduce health costs, missed school days, lost worker productivity and premature mortality linked to exposure to the diesel particulate matter (PM) and other diesel pollutants;
(3)
Achieve maximum feasible diesel particulate matter emissions reductions and diminished human exposure that is additional to the impact of federal diesel emission rules, which focus mostly on new engines;

(4)
Advance the state’s climate protection goals and climate action plan by reducing the amount of black carbon pollution emitted by diesels; and
(5)
Achieve health benefits for Rhode Island by ensuring state contracting and leasing takes advantage of retrofits that are occurring in the marketplace.

§ 31-47.3-1. Legislative findings.
(a)
Diesel emissions, due in large part to their high concentrations of particulate matter, are associated with severe and multiple health risks to the citizens of Rhode Island, including increased risks of cancer, decreased lung function, aggravated asthma, heart attacks and premature death. Reducing diesel pollution will also help advance the state’s climate protection goals and climate action plan by reducing black carbon pollution.
(b)
Diesel exhaust also contains nitrogen oxides, which contribute to the formation of ground-level ozone, or smog. Rhode Island continues to be classified as a “serious-nonattainment area” for ozone.
(c)
Reducing diesel pollution may help to stem the tide of the asthma epidemic in Rhode Island where more than one in ten (10) citizens have asthma. Rhode Island ranks eighth (8th) in the U.S. for the worst asthma rates overall, and has the fifth (5th) highest rate for children. Rhode Islanders pay about forty-one million dollars ($41,000,000) per year in asthma-associated health costs. Asthma is the most common chronic disease in children and responsible for the most school absences in Rhode Island.
(d)
The EPA, recognizing the harmful effects of diesel emissions, issued new fuel and engine emission standards that will reduce particulate matter emissions from engines model year 2007 and newer ninety percent (90%) below previous levels.
(e)
The same technology that reduces emissions by up to ninety percent (90%) for new engines can be retrofitted onto existing engines, which will continue to operate for years.
(f)
As a first step in tackling the diesel pollution problem in Rhode Island, school buses should be given high priority.

§ 31-47.3-3. Reducing emissions from school buses.
(a) Purpose.
To reduce health risks from diesel particulate matter (DPM) to Rhode Island school children by significantly reducing tailpipe emissions from school buses, and preventing engine emissions from entering the passenger cabin of the buses.
(b)
Requirements for Rhode Island school buses:
(1)
By September 1, 2010, no full-size school bus with an engine model year 1993 or older may be used to transport school children in Rhode Island; and,
(2)
By September 1, 2010 any new bus added to current bus fleets or after September 1, 2010 whenever a new contract is entered into by a city, town, school district or the state all busses included in that contract shall be equipped with a closed crankcase ventilation system and either: (i) Shall be equipped with a Level 1, Level 2, or Level 3 device verified by the US Environmental Protection Agency or the California Air Resources Board; or (ii) Shall be equipped with an engine of model year 2007 or newer; or (iii) Shall achieve the same or higher diesel PM reductions through the use of alternative fuel such as compressed natural gas verified by CARB/EPA to reduce DPM emissions at a level equivalent to or higher than subparagraph (b)(2)(ii) above; and,
(3)
Providing there is sufficient federal or state monies, by September 1, 2012, all full-sized school buses transporting children in Rhode Island must be retrofitted with a closed crankcase ventilation system and either: (i) be equipped with a level 1, level 2, or level 3 device verified by the US Environmental Protection Agency or the California Air Resources Board; or (ii) be equipped with an engine of model year 2007 or newer; or (iii) achieve the same or higher diesel PM reductions through the use of an alternative fuel such as compressed natural gas verified by CARB/EPA to reduce DPM emissions at a level equivalent to or higher than subparagraph (b)(3)(ii) above.
(c)
Financial assistance to defray costs of pollution reductions called for in (b)(2):
(1)
The director shall work with the Rhode Island department of transportation or other authorized agencies to maximize the allocation of federal grants and loan monies provided for Rhode Island pursuant to the congestion mitigation and air quality improvement program (CMAQ) for diesel emissions reductions in federal FY 2008 and thereafter until the retrofit goals in this act are met.
(2)
Drawing upon any available federal or state monies, the director shall establish and implement a system of providing reimbursements consistent with this section to municipalities, vendors, or school bus owners for the purchase and installation of any CARB/EPA-verified emission control retrofit device together with the purchase and installation of closed crankcase ventilation system (CCV) retrofit device. To the extent practicable, in kind services will also be utilized to offset some of the costs. Incentive recipients must also certify that newly purchased or retrofitted buses with a level 3 technology will operate in the state of Rhode Island for a minimum of four (4) years unless the bus fleet owner’s contract with the school district or state has expired.
(d)
Priority community provision:
(1)
When federal funds or funds from state or other sources become available, for use under subsection (c), these shall be allocated by the director, to the extent practicable, as follows: (i) First, for control of emissions from school buses operating primarily in urban core or urban ring cities. Buses operating primarily in urban core or urban ring cities must be retrofitted to the best available standard as defined in paragraph (d)(3); (ii) Next, for control of emissions from buses not operating primarily in urban core or urban ring cities. (iii) Lastly, for buses operating primarily in urban core or urban ring cities already retrofitted with a level 1, level 2, or level 3 and/or crankcase ventilator device but that do not meet the best available standard as defined in paragraph (d)(3). Buses already meeting the best available standard as defined in paragraph (d)(3) will not be considered for this retrofitting program and municipalities, vendors, or school bus owners owning equipment retrofitted either prior to the implementation of this retrofit program or through another retrofit program with a level 1, level 2, level 3 and/or crankcase ventilator device will not be reimbursed as outlined in paragraph (c)(2).
(2)
Fleet owners currently holding contracts with Rhode Island school districts, and Rhode Island school districts owning their own fleets must comply with the retrofitted prioritization scheme as determined by the director and work with DEM to ensure that (i) By September 1, 2012 all buses are retrofit as outlined in paragraph (b)(3); and (ii) By September 1, 2010 no new bus may be added to their current fleets unless they meet standards outlined in paragraph (b)(2).

(3)
The “best available” standard is attained by all new buses (engine MY2007 and newer); by diesel buses engine model year 2003 to 2006, inclusive, that have been retrofitted with level 3-verified diesel particulate filters and closed crankcase ventilation systems; provided, however, that if DEM finds that the cost of a level 3 verified diesel particulate filter is not reasonable or otherwise not appropriate for use on a particular engine, the standard shall be at least a level 1 verified diesel emission control device and closed crankcase ventilation system; by diesel buses engine model year 1994 to 2002, inclusive, that has been retrofitted with at least level 1 verified diesel emission control devices and closed crankcase ventilation systems; and by natural gas buses that achieve the same or better emissions standards as a 2007 engine model year diesel bus.
(4)
“Urban core cities” means Central Falls, Newport, Providence, Pawtucket, and Woonsocket
(5)
“Urban ring cities” means North Providence, East Providence, West Warwick, Cranston, and Warwick.
(e)
To achieve the pressing public health and environmental goals of this act, DEM shall identify opportunities to achieve maximize PM reductions from diesel powered heavy duty vehicle or equipment that is owned by, operated by, or on behalf of, or leased by, or operating under a contract to a state agency or state or regional public authority (except vehicles that are specifically equipped for emergency response) and diesel powered waste collection and recycling vehicles that are owned, leased, or contracted to perform the removal or transfer or municipal, commercial or residential waste, or recycling services. No later than January 1, 2008, DEM shall present a report to the general assembly, governor, house committee on environment and natural resources, and the senate committee on environment and agriculture on such opportunities to maximum PM reductions from the aforementioned fleets including legislative changes, regulatory changes, funding sources, contract requirements, procurement requirements, and other mechanisms that will bring about maximum PM reductions from these two priority fleets. This report shall explore funding sources beyond CMAQ, including but not limited to Diesel Reductions Emissions Reduction Act (DERA) funds under the Federal Energy Act.
(f) Severability.
If any clause, sentence, paragraph, section or part of this act shall be adjudged by any court of competent jurisdiction to be invalid and after exhaustion of all further judicial review, the judgment shall not affect, impair or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, section or part of this act directly involved in the controversy in which the judgment shall have been rendered.

Effective upon passage of this legislation, any solicitation for a public works contract with the state, and any contract entered into as a result of such solicitation, shall include provisions requiring all heavy duty vehicles used in the performance of such contract to adhere to the following requirements:
(1)
Contractors shall establish staging zones, provided that such space is available at no extra cost, for diesel vehicles away from the general public or sensitive receptors, including, but not limited to, hospitals, schools, and residential neighborhoods, to minimize the impact of emissions from idling vehicles.
(2)
Idling of diesel engines shall be limited to no more than five (5) minutes, except in cases where the engine must idle to perform normal operations, as with a cement truck.
(3)
Onroad and nonroad heavy-duty diesel vehicles, including generators, shall use only ultra-low sulfur diesel fuel.

§ 31-47.3-5.1. Establishment of the Rhode Island clean diesel fund.
(a)
There is hereby authorized and created within the Rhode Island department of environmental management (DEM) a Rhode Island clean diesel fund for the purpose of reducing emissions from heavy-duty diesel engines operating on state roads and helping companies improve supply chain efficiency as described in the United States Environmental Protection Agency’s SmartWay Program. The clean diesel fund will solicit projects that undertake eligible clean diesel measures and award grants from the fund to

reimburse applicants for undertaking these measures.
(b)
DEM shall promulgate rules and regulations pursuant to chapter 35 of title 42 containing a list of eligible clean diesel measures that shall include, but not be limited to, the following:
(1)
Aerodynamic technologies;
(2)
Clean alternative fuel conversions;
(3)
Diesel emission reduction solutions;
(4)
Engine repowers;
(5)
Idle reduction technologies;
(6)
Low-rolling resistance tires;
(7)
Vehicle replacements;
(8)
Replacement or upgrades of transport refrigeration units or transport refrigeration unit generator sets; and
(9)
Routine maintenance shown to improve fuel efficiency or decrease emissions including, but not limited to, oil changes and cleaning of diesel particulate filters.
(c)
Equipment eligible for grant funding must:
(1)
Be intended for on-road use;
(2)
Be registered with the Rhode Island division of motor vehicles;
(3)
Be kept or garaged in Rhode Island as indicated on the vehicle registration issued by the division of motor vehicles;
(4)
Have been certified to DEM that fifty percent (50%) or more of vehicle miles traveled, or hours of operation, shall be projected to be in Rhode Island for at least five (5) years following the grant award; and
(5)
Meet any other criteria established in DEM rules and regulations promulgated by DEM pursuant to chapter 35 of title 42.
(d) Administrative costs.
The cost of administration and outreach by DEM shall not in any year exceed two hundred thousand dollars ($200,000), or ten percent (10%), of the fund appropriation, whichever is greater.
(e) Project priority list.
DEM shall promulgate rules and regulations pursuant to chapter 35 of title 42 that contain a project priority list for the Rhode Island clean diesel fund and the process through which an eligible applicant may submit an application for inclusion of a project on the project priority list. Upon issuance of the project priority list by DEM, the project priority list shall be used by DEM to determine the order in which grants shall be awarded.
(f) Awarding of grants.
DEM shall only award grant funds after verifying that the eligible measures outlined in the application have been implemented successfully by the applicant. If the final invoice price of an eligible measure is less than the initial quoted price, the grant award shall be reduced accordingly. Grants shall not be awarded to aid in compliance with existing mandates in state or federal law.
(g) Grant amounts.
For each eligible measure implemented by the applicant, DEM shall only issue grants for up to fifty percent (50%) of the total project cost. DEM shall promulgate rules and regulations pursuant to chapter 35 of title 42 that set the exact reimbursement amount for each eligible measure. The total project cost shall include both the material and labor needed to implement each eligible measure. No one applicant shall be awarded more than twenty-five percent (25%) of the grant funds appropriated during a given fiscal year, provided that the total grants requested exceed the amount appropriated. ActSection 31-47.3-5. - Use of emission control technology in new public works contracts.

§ 31-47.3-5. Use of emission control technology in new public works contracts.

(a)

Effective upon passage of this legislation, the department of transportation (DOT) shall implement contract requirements specified in subsection (b) on at least one project to be out to bid no later than September 30, 2010. Performance of the project, if deemed practicable by the director of DOT, must be started no later than six (6) months after the project bid has been awarded. DOT shall provide a summary report of the results of the project, implementation of these provisions and any recommendations to the governor and the general assembly no later than sixty (60) days after project completion. In selecting the project, the DOT shall prioritize otherwise eligible projects that:

(1)

Each have a total individual budget of no less than six million dollars ($6,000,000);

(2)

Serve areas in Rhode Island:

(i)

With highest population density; and/or

(ii)

Exposed to a disproportionate amount of air pollution from diesel fleets.

(b)

Beginning January 1, 2013, any solicitation for a public works contract or contracts with the state funded in whole or in part by federal monies and having a total project cost of at least five million dollars ($5,000,000), and any contract entered into as a result of such solicitation, shall include provisions requiring all heavy duty vehicles used in the performance of such contract to adhere to the following requirements:

(1)

Subject to the provisions of subdivisions (2) through (4), onroad and nonroad heavy-duty diesel vehicles, including generators, shall be powered by engines with properly operating and maintained Level 3 controls. Provided, however, that if the department of environmental management (DEM) finds that no Level 3 verified emission control devices have been verified and are otherwise appropriate for use on particular engines, Level 2 verified devices shall be required; if neither Level 3 nor Level 2 devices have been verified and are otherwise appropriate for use on particular engines, Level 1 verified devices shall be required; and

(2)

emission control technology requirements of subdivision (1) shall not apply to:

(i)

Vehicles and equipment dedicated for snow removal;

(ii)

Farm equipment;

(iii)

Vehicles that are specially equipped and used for emergency response and vehicles that are used during a declared state of emergency and for the life of the project associated with the state of emergency;

(iv)

Vehicles that are used to deliver equipment or material to and from the project site;

(v)

Standby generators; and

(vi)

Vehicles used on the project for less than thirty (30) total work days over the life of the project; and

(3)

Unregulated, or pre-Tier 1 diesel engines are exempt from the requirements in subdivision (1). No later than December 1, 2011, DEM shall initiate a stakeholder process to determine how to reduce particulate emissions from unregulated, or pre-Tier 1 diesel engines, and how to create a statewide inventory of heavy duty diesel vehicles and how this inventory is published. The stakeholder process shall include representatives from industries that utilize pre-Tier 1 diesel engines. DEM shall report findings and recommendations from the stakeholder process to the governor and the general assembly no later than July 1, 2012; and

(4)

Emission controls shall be required only to the extent of available reimbursement from project funds covering the equipment purchase and installation labor costs of the controls, provided that at least one percent (1%) of the total of each project budget shall be dedicated for such reimbursement.

(i)

Funds shall be generally allocated to pay for the most cost-effective emission controls in terms of particulate pollution reduction per dollar spent.

(ii)

Dedicated funds, subject to this subdivision (4), remaining after all eligible vehicles and equipment have been retrofit and reimbursement to contractors has been rendered subject to the provisions of this statute, may be considered part of the overall

project budget as determined by the state.
(c) Implementation.
The requirements of subsections (a) and (b) shall be implemented as specified by the state, and shall include the following:
(1)
A blind bidding process;
(2)
When project bids are awarded, the state shall notify the contractor in writing of the total budget for retrofits according to the provisions of subdivision (b)(4);
(3)
Contractors must select vehicles and equipment to be retrofitted according to the requirements of subsection (b) within the budget specified by the state. Contractors shall give priority to retrofitting vehicles and equipment that:
(i)
Will likely spend the most time operating on the project;
(ii)
Will disproportionately expose the surrounding community and sensitive receptors including, but not limited to, hospitals, schools and residential neighborhoods to diesel pollution; and
(iii)
Are most cost-effective in terms of emission controls for particulate pollution reduction per dollar spent.
(4)
Construction shall not proceed until the contractor submits an equipment list of all heavy-duty vehicles to be used on site, in the format specified by the department of environmental management, including the following:
(i)
Contractor and subcontractor names and addresses, plus contact person responsible for the vehicles and or equipment; and
(ii)
Documentation, including the technology type, EPA/CARB verification number/control Level, manufacturer, make, model, serial number of the retrofit device; the date the retrofit was installed; or in the case of a delayed shipment for retrofit parts and/or equipment, proof of purchase and the expected ship date from the manufacturer, for the retrofitted vehicles to be used on the project; and
(5)
Equipment, as further defined in subdivisions (c)(3) and (4), not meeting the requirements of this section shall not be used on the project site; provided, however, that:
(i)
If the contractor can provide documentation demonstrating that a retrofit was ordered for noncompliant equipment, but not arrived yet, and that the failure to retrofit in a timely manner was caused by circumstances beyond the contractor's control, the noncompliant equipment may begin work on the project and operate on site for a maximum thirty (30) total work days or for additional time if authorized by the procuring agency.
(ii)
If the contractor subsequently needs to bring on site equipment not on the equipment list specified in subdivision (4), the contractor shall submit written notification within forty-eight (48) hours to the procuring agency and the additional equipment shall be used on the project site for no more than thirty (30) total work days or for additional time if authorized by the procuring agency; provided that noncompliant equipment shall not be authorized for use more than three times during the life of the project.
(d) Reporting.
(1)
The contractor shall submit monthly summary reports to the project manager, updating the equipment list, including diesel fuel use for the reporting time period for all equipment used in the performance of the contract. The addition or deletion of any equipment shall be included in the summary and noted in the monthly report.
(2)
By December 1, 2013, and December 1 of each subsequent year through 2015, the state shall submit contractors' monthly summary reports, along with all inventory lists and equipment lists to DEM in the form requested.
(3)
By February 1, 2013, and February 1 of each subsequent year through 2015, DEM shall create and submit a summary report to the legislature. The report will be made accessible to the public by posting on the DEM website.

The appropriate emissions control technology for specific vehicle groups;
(B)
The types of projects that shall require emissions controls;
(C)
The appropriate funding mechanism for continued implementation of the program;
(D)
The reporting requirements necessary to track and number heavy duty vehicles in use, and the number of retrofits that are achieved under the program, and
(E)
The appropriate enforcing agent for the program.
(5)
DEM shall provide written notice and opportunity for a public meeting and comment on the draft of the report due February 1, 2013.
(e)
DEM, DOT and other state agencies may promulgate regulations regarding the solicitation, bidding and awarding of public works projects as defined in subdivisions 31-47.3-5(b)(1), (b)(2), (c)(4), and (d)(1) and regarding enforcement as defined in § 31-47.3-6, provided that the scope of the rulemaking authority granted hereunder shall be narrowly construed. No rule promulgated hereunder shall expand the scope of or impose more stringent limitations than those expressly set forth in this act.
(f) Funding.
(1)
All costs associated with the purchase and installation by a contractor of the emission control technologies for a specific project in order to comply with the contract provisions required by subsections (a) and (b) shall be fully reimbursed from project funds within sixty (60) days of the technology installation; provided that the compliant control technology is installed within thirty (30) work days after the applicable vehicle is brought onto the project site unless it meets the requirements provided in subdivision (c)(5).
(2)
Retrofits installed with funds from the project shall remain on the heavy-duty diesel vehicle for the useful life of the emission control device or the vehicle or in the event the vehicle is sold out-of-state the retrofit technology may be removed at the contractor’s expense and used on a piece of equipment that performs work within Rhode Island no later than one year from the date it was removed from the original equipment.

§ 31-47-1.1. Legislative findings and intent.
WHEREAS, the General Assembly has conducted extensive hearings on the issue of mandatory automobile insurance and finds that:
(1)
Mandatory automobile liability insurance will not guarantee that all drivers will carry automobile liability insurance and in other states with mandatory automobile insurance nearly twenty percent (20%) to twenty-five percent (25%) of drivers do not comply with the state mandate and drive without insurance;
(2)
Because of the evidence described in subdivision (1), Rhode Island drivers will need to carry additional insurance, to protect themselves from harm by uninsured motorists;
(3)
All presently uninsured drivers who try to acquire automobile insurance will be placed in the assigned risk pool regardless of a good driving record, at an excessive rate;
(4)
The state of Rhode Island ranks the eighth (8th) highest in the country for the cost of automobile insurance litigation per capita, this high cost of legal action adds to the already high cost of automobile insurance;
(5)
No-fault insurance can reduce the cost of automobile insurance by reducing litigation and right-to-sue, but evidence also indicates that no-fault insurance can increase the cost of insurance if not properly enacted;
(6)
A proposed rate increase in the Rhode Island Auto Insurance Plan of thirty-four percent (34%) has been granted without full disclosure by insurance companies of their investments, profits, losses, administrative costs and other pertinent information to justify the rate increase;
(7)
Fraud, theft and inflated automobile repair costs are significant elements of the increased cost of automobile insurance which must be reduced;
(8)(i)
The Governor of the state has agreed to immediately institute a blue ribbon task force to investigate the causes for the high cost of automobile insurance, recommend remedies to reduce the cost of automobile insurance and prepare legislation for introduction. The scope of the task force shall include, but not be limited to, the reviewing of:
(A)
Procedures and processes concerning claims, appraisals, adjustments and auto repair charges,
(B)
Costs of litigation, including the imposition of ceiling or caps on legal fees,
(C)
Disclosure by insurance companies of all costs to do business, including those that affect premium rates,
(D)
Enforcement and restitution procedures.
(ii)

The task force shall make specific recommendations to the general assembly pertaining to the alternatives of no-fault insurance, traditional liability and so-called “choice” legislation which provides an option of no-fault or traditional liability insurance.

(a)
This chapter shall be known and may be cited as the “Motor Vehicle Reparation Act.”
(b)
The legislature is concerned over the rising toll of motor vehicle accidents and the suffering and loss inflicted by them. The legislature has determined that it is a matter of grave concern that motorists shall be financially able to respond in damages for their negligent acts, so that innocent victims of motor vehicle accidents may be recompensed for the injury and financial loss inflicted upon them.

Any order of suspension or impoundment issued under this chapter may be terminated at any time if the administrator of the division of motor vehicles determines upon a showing of proof of financial security that the operator or owner of the motor vehicle was in compliance with financial security requirements of this chapter at the time of the traffic offense or accident which resulted in the order against the person. That determination may be made without a hearing. This section does not apply unless the person shows good cause for the person’s failure to present satisfactory proof of financial responsibility to the court, traffic tribunal, or administrator of the division of motor vehicles prior to the issuance of the order.

§ 31-47-12. Police officers and agents of administrator of the division of motor vehicles — Fees collected, forms of proof.
(a)
For the purpose of enforcing the provisions of this chapter, every police officer of a state, town, or municipality is deemed an agent of the administrator of the division of motor vehicles. Any police officer who, in the performance of his or her duties as authorized by law, becomes aware of a person whose license is under an order of suspension, or whose certificate of registration and registration plates are under an order of impoundment, pursuant to this section may confiscate the license, certificate of registration, and registration plates, and return them to the administrator of the division of motor vehicles. Any forms used by law enforcement agencies in administering this section shall be prescribed by the administrator of the division of motor vehicles, the cost of which

shall be borne by these agencies. No police officer, law enforcement agency employing a police officer, or political subdivision or governmental agency that employs a police officer shall be liable in a civil action for damages or loss to persons arising out of the performance of the duty required or authorized by this section. “Police officer” means the full-time police from the rank of patrol up to and including the rank of colonel or chief of any police department in any city or town within the state of Rhode Island or of the state police.

(b)

All fees, except court costs, collected under this chapter shall be paid into the state treasury and credited to the highway safety fund in a special account hereby created, to be known as the “financial responsibility compliance special account.” This special account shall be used exclusively to cover costs incurred by the division of motor vehicles in the administration of this chapter, and by any law enforcement agency employing any police officer who returns any license, certificate of registration, and registration plates to the administrator of the division of motor vehicles pursuant to this chapter.

(c)

The administrator of the division of motor vehicles, court, or traffic tribunal may require proof of financial security. A person may demonstrate proof of financial responsibility under this section by presenting to the court, traffic tribunal, or administrator of the division of motor vehicles any of the following documents or a copy of these documents:

(1)

A certificate of proof of financial responsibility;

(2)

A bond or certification of the issuance of a bond;

(3)

A certificate of deposit of money or securities; or

(4)

A certificate of self insurance.

(d)

At the time of investigation of a motor vehicle offense or accident by a police officer or when a motor vehicle is stopped by a police officer for probable cause, the police officer making the investigation or stopping the motor vehicle shall ask for evidence of proof of financial security as defined in this chapter. Proof of financial responsibility may be provided using a mobile electronic device; provided, however, that the police officer requiring the proof of financial responsibility shall be prohibited from viewing any other content on the mobile electronic device. Any person utilizing an electronic device to provide proof of insurance shall assume any and all liability for any damage sustained to the mobile electronic device. If the evidence is not provided, a citation to appear before the traffic tribunal shall be issued to the operator. However, any citation issued solely for failing to provide evidence of financial responsibility shall be held by the issuing police officer or law enforcement agency for at least one business day before submitting the citation to the traffic tribunal. Any operator who receives a citation for failing to provide valid evidence of financial responsibility shall have the opportunity to provide evidence of financial responsibility that existed at the time of the violation within the one-business-day period, at which time the issuing police officer or law enforcement agency shall withdraw the citation, and the motorist shall not be required to appear before the traffic tribunal. Notwithstanding this provision, police officers who issue a citation for lack of evidence of financial responsibility, in addition to one or more other citations, need not wait the one-business-day waiting period before submitting the citation for lack of evidence of financial responsibility to the traffic tribunal. The traffic tribunal may, by rule and regulation, prescribe the procedures for processing the citations. Motor vehicles may not be stopped solely for the purpose of checking for evidence of proof of financial security.

(e)(1)

Upon a first offense, one must provide proof of current insurance and a binder or release letter covering the cost of the accident, as long as the accident does not include bodily injury or death.

(2)

In addition, penalties do not release the motorist from any pending matter before any other appropriate court.

(f)

Any operator of a motor vehicle registered in this state who shall operate a motor vehicle without proof of financial security, as defined in this chapter, being in full force and effect on the date of the motor vehicle stop or accident, may be subject to suspension of license and fines as follows:

(1)

For a first offense, a suspension of up to thirty (30) days and may be fined one hundred dollars ($100) up to two hundred and fifty dollars ($250);

(2)

For a second offense, a suspension of up to six (6) months and may be fined five hundred dollars ($500); and

(3)

For a third and subsequent offense, a suspension of up to one year. Additionally, any person violating this section a third or subsequent time shall be punished as a civil violation and may be fined one thousand dollars ($1,000).

(b)

(c)

§ 31-48-5. Forfeiture.
(a)
The following are subject to forfeiture unless obtained by theft, fraud or conspiracy to defraud and the rightful owner is known or can be identified and located:
(1)
Any tool,
(2)
Any implement, or
(3)
Any instrumentality, including, but not limited to, any motor vehicle or motor vehicle part, whether owned or not owned by the person from whose possession or control it was seized, which is used or possessed either in violation of § 31-48-3 or to promote or facilitate a violation of § 31-48-3.
(b)
Any motor vehicle, other conveyance, or motor vehicle part used by any person as a common carrier is subject to forfeiture under this section where the owner or other person in charge of the motor vehicle, other conveyance, or motor vehicle part is a consenting party to a violation of § 31-48-3.
(c)(1)
Any motor vehicle, motor vehicle part, other conveyance, tool, implement, or instrumentality is not subject to forfeiture under this

section by reason of any act or omission which the owner proves to have been committed or omitted without the owner's knowledge or consent.

(2)

Seizing agencies will utilize their best efforts to identify any seized motor vehicle or motor vehicle part to determine ownership or the identity of any person having a right or interest in a seized motor vehicle or motor vehicle part. In its reasonable identification and owner location attempts, the seizing agency will cause the stolen motor vehicle files of the local or state police to be searched for stolen or wanted information on motor vehicles similar to the seized motor vehicle or consistent with the seized motor vehicle part.

(d)

Where a motor vehicle or motor vehicle part has an apparent value in excess of one thousand dollars ($1,000):

(1)

The seizing agency shall consult with an expert, either law enforcement investigative personnel specially trained and experienced in motor vehicle theft investigative procedures and motor vehicle identification examination techniques, or by expert employees of not-for-profit motor vehicle theft prevention agencies specially trained and experienced in motor vehicle theft investigation procedures and motor vehicle identification examination technique.

(2)

The seizing agency shall also request searches of the on-line and off-line files of the National Crime Information Center (NCIC) and the National Automobile Theft Bureau (NATB) when the local or state police files have been searched with negative results.

(e)

A forfeiture of a motor vehicle, motor vehicle part, or other conveyance encumbered by a bona fide security interest is subject to the interest of the secured party where the secured party neither had knowledge of nor consented to the act or omission forming the ground for the forfeiture.

(f)

Property, described in subsection (a) of this section, seized and held for forfeiture, shall not be subject to replevin and is subject only to the order and judgments of a court of competent jurisdiction hearing the forfeiture proceedings.

(g)(1)

The attorney general shall bring an action for forfeiture in a court of competent jurisdiction. The forfeiture action shall be brought within sixty (60) days from the date of seizure except where the attorney general, by sound exercise of discretion determines that no forfeiture action should be brought because of the rights of property owners, lienholders, or secured creditors, or because of exculpatory, exonerating, or mitigating facts and circumstances.

(2)

The attorney general shall give notice of the forfeiture proceeding by mailing a copy of the complaint in the forfeiture proceeding to each person whose right, title, or interest is of record in the division of motor vehicles, or any other department or agency of the state, or any other state or territory of the United States, or of the federal government if that property is required to be registered in any department.

(3)

Notice of the proceeding shall be given to any other person as may appear, from the facts and circumstances, to have any right, title, or interest in or to the property.

(4)

The owner of the property, or any person having, or claiming, right, title, or interest in the property may within sixty (60) days after the mailing of the notice file a verified answer to the complaint and may appear at the hearing on the action for forfeiture.

(5)

The attorney general shall show at a forfeiture hearing, by a preponderance of the evidence, that the property was used in the commission of a violation of § 31-48-3, or was used or possessed to facilitate the violation.

(6)

The owner of property may show by a preponderance of the evidence that the owner did not know, and did not have reason to know, that the property was to be used or possessed in the commission of any violation or that any of the exceptions to forfeiture are applicable.

(7)

Unless the attorney general shall make the showing required of it, the court shall order the property released to the owner. Where the attorney general has made that showing, the court may order:

(i)

The property be destroyed by the agency which seized it or some other agency designated by the court,

(ii)

The property be delivered and retained for use by the agency which seized it or some other agency designated by the court, or

(iii)

The property be sold at public sale.

(h)

A copy of a forfeiture order shall be filed with each federal or state department with which the property is required to be registered.

The order, when filed, constitutes authority for the issuance to the agency to whom the property is delivered and retained for use or to any purchaser of the property of a title certificate, registration certificate, or other special certificate as may be required by law considering the condition of the property.

(i)

Proceeds from sale at public auction, after payment of all reasonable charges and expenses incurred by the agency designated by the court to conduct the sale in storing and selling the property, shall be paid to the general fund of the state of Rhode Island.

(j)

No motor vehicle, either seized under § 31-48-4 or forfeited under this section, shall be released by the seizing agency or used or sold by an agency designated by the court unless any altered, counterfeited, defaced, destroyed, disguised, falsified, forged, obliterated, or removed vehicle identification number is corrected by the issuance and affixing of either an assigned or replacement vehicle identification number plate as may be appropriate under laws or regulations of this state.

(k)

No motor vehicle part having any altered, counterfeited, defaced, destroyed, disguised, falsified, forged, obliterated, or removed vehicle identification number may be disposed of upon forfeiture except by its destruction. This provision shall not apply to any motor vehicle part which is assembled with and constitutes part of a motor vehicle.

(l)

No motor vehicle or motor vehicle part shall be forfeited under this section solely on the basis that it is unidentifiable. Instead of forfeiture, any seized motor vehicle or motor vehicle part which is unidentifiable shall be the subject of a written report sent by the seizing agency to the division of motor vehicles, which report shall include a description of the motor vehicle or motor vehicle part, its color, if any, the date, time, and place of its seizure, the name of the person from whose possession or control it was seized, the grounds for its seizure, and the location where the same is held or stored.

(m)

When a seized unidentifiable motor vehicle or motor vehicle part has been held for sixty (60) days or more after the notice to the division of motor vehicles specified in subsection (k) of this section have been given, the seizing agency or its agent shall cause the motor vehicle or motor vehicle part to be sold at public sale to the highest bidder. Notice of the time and place of sale shall be posted in a conspicuous place for at least thirty (30) days prior to the sale of the premises where the motor vehicle or motor vehicle part has been stored.

(n)

When a seized unidentifiable motor vehicle or motor vehicle part has an apparent value of one thousand dollars ($1,000) or less, the seizing agency shall authorize the disposal of the motor vehicle or motor vehicle part, provided that no disposition shall be made less than sixty (60) days after the date of seizure.

(o)

The proceeds of the public sale of an unidentifiable motor vehicle or motor vehicle part shall be deposited in the general fund of the state after deduction of any reasonable and necessary towing and storage charges.

(p)

Seizing agencies will utilize their best efforts to arrange for the towing and storing of motor vehicles and motor vehicles parts in the most economical manner possible. In no event shall the owner of a motor vehicle or a motor vehicle part be required to pay more than the minimum reasonable costs of towing and storage.

(q)

A seized motor vehicle or motor vehicle part that is neither forfeited nor unidentifiable shall be held subject to the order of the court in which the criminal action is pending or, if a request for its release from custody is made until the attorney general has notified the defendant or the defendant’s attorney of the request and both the prosecution and defense have been afforded a reasonable opportunity for an examination of the property to determine its true value and to produce or reproduce, by photographs or other identifying techniques, legally sufficient evidence for introduction at trial or other criminal proceedings. Upon expiration of a reasonable time for the completion of the examination which shall not exceed fourteen (14) days from the date of service upon the defense of the notice of request for return of property as provided in this chapter, the property shall be released to the person making the request after satisfactory proof of the person’s entitlement to the possession of it. However, upon application by either party with notice to the other, the court may order retention of the property if it determines that retention is necessary in the furtherance of justice.

(r)

When a seized vehicle is forfeited, restored to its owner, or disposed of as unidentifiable, the seizing agency shall retain a report of the transaction for a period of at least one year from the date of the transaction.

(s)

When an applicant for a certificate of title or salvage certificate presents to the division of motor vehicles proof that the applicant purchased or acquired a motor vehicle at a public sale conducted pursuant to this section and that fact is attested to by the seizing agency, the division of motor vehicles shall issue a certificate of title, salvage certificate for the motor vehicle upon receipt of the statutory fee, properly executed application for a certificate of title, or other certificate of ownership, and the affidavit of the seizing agency that a state-assigned number was applied for and affixed to the motor vehicle proper to the time that the motor vehicle was released by the seizing agency to the purchaser.

§ 31-48-6. Civil proceedings.
(a)
The attorney general or any aggrieved person may institute civil proceedings against any person in a court of competent jurisdiction seeking relief from conduct constituting a violation of any provision of this chapter. If the plaintiff in a proceeding proves the alleged violation, or its threat, by a preponderance of the evidence, any court of competent jurisdiction after due provision for the rights of innocent persons, shall grant relief by entering any appropriate order or judgment, including, but not limited to:
(1)
Ordering any defendant to be divested of any interest in any property;
(2)
Imposing reasonable restrictions upon the future activities or investments of any defendant, including prohibiting any defendant from engaging in the same type of endeavor as the defendant was previously engaged in;

(c)
Any person injured, directly or indirectly, by conduct constituting a violation by any person of § 31-48-3 shall, in addition to any other relief, have a cause of action for threefold the actual damages sustained by the person.
(d)
A final judgment or decree rendered against the defendant in any civil or criminal proceeding shall estop the defendant in any subsequent civil action or proceeding brought by any person as to all matters as to which the judgment or decree would be an estoppel as between the parties to the civil or criminal proceeding.
(e)
Notwithstanding any other provision of law providing a shorter period of limitations, a civil action under this section may be commenced at any time within five (5) years after the conduct made unlawful under § 31-48-3 terminates or the cause of action accrues or within any longer statutory period that may be applicable. If any action is brought by a prosecutor to punish, prevent or restrain any activity made unlawful under § 31-48-3, the running of the period of limitations shall be suspended during the pendency of the action and for two (2) years following its termination.
(f)
Personal service of any process in an action under this section may be made upon any person outside the state if the person has engaged in any conduct constituting a violation of § 31-48-3 in this state. The person shall be deemed to have submitted to the jurisdiction of the courts of this state for the purposes of this provision.

Obtaining any civil remedy under this section shall not preclude obtaining any other civil or criminal remedy under this act or any other provision of law. Civil remedies under this section are supplemental and not exclusive.

(c) Written designation of succession unaffected.
This chapter does not preclude the owner of a new motor vehicle dealership from designating any person as the owner's successor by written instrument filed with the manufacturer or distributor and, in the event there is a conflict between that written instrument and the provisions of this section, the written instrument shall govern.

§ 31-5.1-4.2. Establishing new dealerships and relocating existing dealerships.
(a)
In the event that a manufacturer seeks to enter into a franchise establishing an additional new motor vehicle dealership, adding an additional location for an existing new motor vehicle dealership, or relocating an existing new motor vehicle dealership within or into a relevant market area where the same line or make is then represented, except when the corporation operating the new motor vehicle dealership contains one or more officers who were also officers of a dealership operating at the same location as the new motor vehicle dealership immediately prior to the establishment of the new motor vehicle dealership, the manufacturer shall in writing by certified mail first notify the department and each new motor vehicle dealer in the same line or make in the relevant market area of the intention to establish an additional dealership to add an additional location for an existing new motor vehicle dealership, or to relocate an existing dealership within or into that market area. Within thirty (30) days of receiving notice or within thirty (30) days after the end of any appeal procedure provided by the manufacturer, any affected new motor vehicle dealership may file with the department a protest to the establishing or relocating of the new motor vehicle dealership or adding an additional location for an existing new motor vehicle dealership. When a protest is filed, the department shall inform the manufacturer that a timely protest has been filed, and that the manufacturer shall not establish or relocate the proposed new motor vehicle dealership or add the proposed additional location for an existing new motor vehicle dealership until the department has held a hearing, nor until the department has determined that there is good cause for not permitting the new motor vehicle dealership. For the purposes of this section, the reopening in a relevant market area of a new motor vehicle dealership shall be deemed the establishment of an additional new motor vehicle dealership.
(b)
In determining whether good cause has been established for entering into or relocating an additional franchise for the same line or make, or adding an additional location for an existing new motor vehicle dealership, the department shall take into consideration the existing circumstances, including, but not limited to:
(1)
Permanence of the investment of the existing new motor vehicle dealer(s) in the community;
(2)
Whether the new motor vehicle dealers of the same line or make in that relevant market area are providing adequate consumer care for the motor vehicles of the line or make in the market area which shall include the adequacy of motor vehicle sales and service facilities, equipment, supply of motor vehicle parts, and qualified service personnel;
(3)
Whether there is reasonable evidence that after the granting of the new motor vehicle dealership, that the market would support all of the dealerships of that line or make in the relevant market area;
(4)
Whether it is injurious to the public welfare for an additional new motor vehicle dealership to be established;
(5)
The growth or decline in population and new motor vehicle registrations during the past five (5) years in the relevant market area;
(6)
Whether the manufacturer is motivated principally by good faith to establish an additional or new motor vehicle dealer and not by non-economic considerations;

(7)
Whether the manufacturer has denied its existing new motor vehicle dealers of the same line or make the opportunity for reasonable growth, market expansion, or relocation;
(8)
The reasonably expected or anticipated vehicle market for the relevant market area, including demographic factors such as age of population, income, size class preference, product popularity, retail lease transactions, or other factors affecting sales to consumers in the relevant market area;
(9)
Growth or decline in population, density of population, and new car registrations in the relevant market area;
(10)
Distance, travel time, traffic patterns, and accessibility between the existing new dealership of the same new line make and the location of the proposed new or relocated dealership;
(11)
The amount of business transacted by existing new motor vehicle dealers of the line or make when compared with the amount of business available to them;
(12)
Whether the existing new motor vehicle dealers of the line or make are receiving vehicles and parts in quantities promised by the manufacturer, factory branch or distributor and on which promised quantities existing new motor vehicle dealers based their investment and scope of operations.
(c)
Any parties to a hearing by the department concerning the establishing or relocating of a new motor vehicle dealership or adding an additional location for an existing new motor vehicle dealership shall have a right to a review of the decision in a court of competent jurisdiction.
(d)
At any hearing conducted by the department under this section, the manufacturer or dealer seeking to establish an additional new motor vehicle dealership, relocate an existing new motor vehicle dealership, or add an additional location for an existing new motor vehicle dealership shall bear the burden of proof in establishing that good cause exists for it.
(e)
Every person, firm or corporation who prior to the retail sale of a motor vehicle, converts or otherwise assembles, installs or affixes a body, cab or special equipment to a chassis or who adds to, subtracts from or modifies a previously assembled or manufactured motor vehicle shall be required to comply with the requirements of this section.

2024 Rhode Island General LawsTitle 31 - Motor and Other VehiclesChapter 31-5.1 - Regulation of Business Practices Among Motor Vehicle Manufacturers, Distributors, and DealersSection 31-5.1-4. - Violations.

§ 31-5.1-4. Violations.
(a)
It shall be deemed a violation of this chapter for any manufacturer or motor vehicle dealer to engage in any action that is arbitrary, in bad faith, or unconscionable and that causes damage to any of the parties involved or to the public.
(b)
It shall be deemed a violation of this chapter for a manufacturer, or officer, agent, or other representative of a manufacturer, to coerce, or attempt to coerce, any motor vehicle dealer:
(1)
To order or accept delivery of any motor vehicle or vehicles, equipment, parts, or accessories for them, or any other commodity or commodities that the motor vehicle dealer has not voluntarily ordered.
(2)
To order or accept delivery of any motor vehicle with special features, accessories, or equipment not included in the list price of that motor vehicle as publicly advertised by the manufacturer of the vehicle.
(3)
To participate monetarily in an advertising campaign or contest, or to purchase any promotional materials, or training materials, showroom, or other display decorations, or materials at the expense of the new motor vehicle dealership.
(4)
To enter into any agreement with the manufacturer or to do any other act prejudicial to the new motor vehicle dealer by threatening to terminate or cancel a franchise or any contractual agreement existing between the dealer and the manufacturer; except that this subdivision is not intended to preclude the manufacturer or distributor from insisting on compliance with the reasonable terms or provisions of the franchise or other contractual agreement. Notice in good faith to any new motor vehicle dealer of the new motor vehicle dealer’s violation of those terms or provisions shall not constitute a violation of the chapter.

(5)
To refrain from participation in the management of, investment in, or acquisition of any other line of new motor vehicle or related products. This subdivision does not apply unless the new motor vehicle dealer maintains a reasonable line of credit for each make or line of new motor vehicles, the new motor vehicle dealer remains in compliance with any reasonable facilities requirements of the manufacturer; and no change is made in the principal management of the new motor vehicle dealer.
(6)
To assent to a release, assignment, novation, waiver, or estoppel in connection with the transfer or voluntary termination of a franchise, or that would relieve any person from the liability to be imposed by this law; or to require any controversy between a new motor vehicle dealer and a manufacturer, distributor, or representative to be referred to any person other than the duly constituted courts of this state or of the United States of America, or to the department of revenue of this state, if that referral would be binding upon the new motor vehicle dealer.
(7)
To order for any person any parts, accessories, equipment, machinery, tools, or any commodities.
(c)
It shall be deemed a violation of this chapter for a manufacturer, or officer, agent, or other representative:
(1)
To refuse to deliver in reasonable quantities and within a reasonable time after receipt of the dealer's order, to any motor vehicle dealer having a franchise or contractual arrangement for the retail sale of new motor vehicles sold or distributed by the manufacturer, any motor vehicles covered by the franchise or contract, specifically publicly advertised by the manufacturer to be available for immediate delivery. However, the failure to deliver any motor vehicle shall not be considered a violation of this chapter if that failure is due to an act of God, work stoppage, or delay due to a strike or labor difficulty, shortage of materials, a freight embargo, or other cause over which the manufacturer, distributor, or wholesaler, its agent, shall have no control.
(2)
To refuse to deliver, or otherwise deny, to any motor vehicle dealer having a franchise or contractual arrangement for the retail sale of new motor vehicles sold or distributed by the manufacturer any particular new motor vehicle model made or distributed by the manufacturer under the name of the division of the manufacturer of which the dealer is an authorized franchise.
(3)
It shall be deemed a prima facie violation of this chapter for any automotive vehicle division manufacturer to require any separate franchise or contractual arrangement with any new motor vehicle dealer already a party to a franchise or contractual arrangement with that automotive vehicle division for the retail sale of any particular new motor vehicle model made or distributed by that division.
(4)
To coerce, or attempt to coerce, any motor vehicle dealer to enter into any agreement with the manufacturer, or their officers, agents, or other representatives, or to do any other act prejudicial to the dealer, by threatening to cancel any franchise or any contractual agreement existing between the manufacturer and the dealer. Notice in good faith to any motor vehicle dealer of the dealer's violation of any terms or provisions of the franchise or contractual agreement shall not constitute a violation of this chapter.
(5)
To resort to or use any false or misleading advertisement in connection with his or her business as a manufacturer, an officer, agent, or other representative.
(6)
To sell or lease any new motor vehicle to, or through, any new motor vehicle dealer at a lower actual price therefore than the actual price offered to any other new motor vehicle dealer for the same model vehicle similarly equipped or to utilize any device, including, but not limited to, sales promotion plans or programs, that result in a lesser actual price. The provisions of this paragraph shall not apply to sales to a new motor vehicle dealer for resale to any unit of the United States government or to the state or any of its political subdivisions. A manufacturer may not reduce the price of a motor vehicle charged to a dealer or provide different financing terms to a dealer in exchange for the dealer's agreement to:
(i)
Maintain an exclusive sales or service facility;
(ii)
Build or alter a sales or service facility; or
(iii)
Participate in a floor plan or other financing.
(7)
To sell or lease any new motor vehicle to any person, except a manufacturer's employee, at a lower actual price than the actual price offered and charged to a new motor vehicle dealer for the same model vehicle similarly equipped or to utilize any device which results in a lesser actual price. The provisions of this paragraph shall not apply to sales to a new motor vehicle dealer for resale to any unit of the United States government, or to the state or any of its political subdivisions.
(8)
To offer in connection with the sale of any new motor vehicle or vehicles, directly or indirectly, to a fleet purchaser, within or

without this state, terms, discounts, refunds, or other similar types of inducements to that purchaser without making the same offer or offers available to all of its new motor vehicles dealers in this state. No manufacturer may impose or enforce any restrictions against new motor vehicle dealers in this state or their leasing, rental, or fleet divisions or subsidiaries that are not imposed or enforced against any other direct or indirect purchaser from the manufacturer. The provisions of this paragraph shall not apply to sales to a new motor vehicle dealer for resale to any unit of the United States government, or to the state or any of its political subdivisions.

(9)

To use or consider the performance of a motor vehicle dealer relating to the sale of the manufacturer's vehicles or the motor vehicle dealer's ability to satisfy any minimum sales or market share quota or responsibility relating to the sale of the manufacturer's new vehicles in determining:

(i)

The motor vehicle dealer's eligibility to purchase program, certified, or other used motor vehicles from the manufacturer;

(ii)

The volume, type, or model of program, certified, or other used motor vehicles that a motor vehicle dealer is eligible to purchase from the manufacturer;

(iii)

The price of any program, certified, or other used motor vehicle that the dealer is eligible to purchase from the manufacturer; or

(iv)

The availability or amount of any discount, credit, rebate, or sales incentive that the dealer is eligible to receive from the manufacturer for the purchase of any program, certified, or other used motor vehicle offered for sale by the manufacturer.

(10)

To offer to sell or to sell parts or accessories to any new motor vehicle dealer for use in the dealer's own business for the purpose of repairing or replacing the same parts or accessories or a comparable part or accessory, at a lower actual price than the actual price charged to any other new motor vehicle dealer for similar parts or accessories to use in the dealer's own business. In those cases where new motor vehicle dealers operate or serve as wholesalers of parts and accessories to retail outlets, these provisions shall be construed to prevent a manufacturer, or its agents, from selling to a new motor vehicle dealer who operates and services as a wholesaler of parts and accessories, any parts and accessories that may be ordered by that new motor vehicle dealer for resale to retail outlets at a lower actual price than the actual price charged a new motor vehicle dealer who does not operate or serve as a wholesaler of parts and accessories.

(11)

To prevent, or attempt to prevent, by contract or otherwise, any new motor vehicle dealer from changing the capital structure of his or her dealership or the means by which, or through which the dealer finances the operation of his or her dealership. However, the new motor vehicle dealer shall at all times meet any reasonable capital standards agreed to between the dealership and the manufacturer, provided that any change in the capital structure by the new motor vehicle dealer does not result in a change in the executive management control of the dealership.

(12)

To prevent, or attempt to prevent, by contract or otherwise, any new motor vehicle dealer, or any officer, partner, or stockholder of any new motor vehicle dealer, from selling or transferring any part of the interest of any of them to any other person or persons or party or parties. Provided, however, that no dealer, officer, partner, or stockholder shall have the right to sell, transfer, or assign the franchise or power of management or control without the consent of the manufacturer, except that the consent shall not be unreasonably withheld.

(13)

To obtain money, goods, services, anything of value, or any other benefit from any other person with whom the new motor vehicle dealer does business, on account of, or in relation to, the transactions between the dealer and that other person, unless that benefit is promptly accounted for and transmitted to the new motor vehicle dealer.

(14)

To compete with a new motor vehicle dealer operating under an agreement or franchise from the manufacturer in the state of Rhode Island, through the ownership, operation, or control of any new motor vehicle dealers in this state, or by participation in the ownership, operation, or control of any new motor vehicle dealer in this state. A manufacturer shall not be deemed to be competing when operating, controlling, or owning a dealership, either temporarily for a reasonable period, but in any case not to exceed one year, which one-year (1) period may be extended for a one-time, additional period of up to six (6) months upon application to, and approval by, the motor vehicle dealers license and hearing board, which approval shall be subject to the manufacturer demonstrating the need for this extension, and with other new motor vehicle dealers of the same line or make being given notice and an opportunity to be heard in connection with said application, or in a bona fide relationship in which an independent person had made a significant investment subject to loss in the dealership and can reasonably expect to acquire full ownership of the dealership on reasonable terms and conditions within a reasonable period of time.

(15)

To refuse to disclose to any new motor vehicle dealer, handling the same line or make, the manner and mode of distribution of that line or make within the relevant market area.

(16)
To increase prices of new motor vehicles that the new motor vehicle dealer had ordered for private retail consumers prior to the new motor vehicle dealer's receipt of the written, official price increase notification. A sales contract signed by a private retail consumer shall constitute evidence of an order, provided that the vehicle is in fact delivered to that customer. In the event of manufacturer price reductions or cash rebates paid to the new motor vehicle dealer, the amount of any reduction or rebate received by a new motor vehicle dealer shall be passed on to the private retail consumer by the new motor vehicle dealer. Price reductions shall apply to all vehicles in the dealer's inventory that were subject to the price reduction. Price differences applicable to new model or series motor vehicles at the time of the introduction of new models or series shall not be considered a price increase or price decrease. Price changes caused by either: (i) The addition to a motor vehicle of required or optional equipment; (ii) Revaluation of the United States dollar, in the case of foreign-make vehicles or components; or (iii) An increase in transportation charges due to increased rates imposed by common carriers, shall not be subject to the provisions of this subdivision.
(17)
To release to any outside party, except under subpoena or as otherwise required by law, or in an administrative, judicial, or arbitration proceeding involving the manufacturer or new motor vehicle dealer, any business, financial, or personal information that may be, from time to time, provided by the new motor vehicle dealer to the manufacturer, without the express written consent of the new motor vehicle dealer.
(18)
To unfairly discriminate among its new motor vehicle dealers with respect to warranty reimbursement, or any program that provides assistance to its dealers, including internet listings; sales leads; warranty policy adjustments; marketing programs; and dealer recognition programs.
(19)
To unreasonably withhold consent to the sale, transfer, or exchange of the franchise to a qualified buyer capable of being licensed as a new motor vehicle dealer in this state.
(20)
To fail to respond, in writing, to a request for consent as specified in subdivision (19) of this subsection within sixty (60) days of the receipt of a written request on the forms, if any, generally utilized by the manufacturer or distributor for those purposes and containing the information required therein. The failure to respond shall be deemed to be a consent to the request. A manufacturer may not impose a condition on the approval of a sale, transfer, or exchange of the franchise if the condition would violate the provisions of this chapter if imposed on an existing dealer.
(21)
To unfairly prevent a new motor vehicle dealer from receiving fair and reasonable compensation for the value of the new motor vehicle dealership.
(22)
To require that a new motor vehicle dealer execute a written franchise agreement that does not contain substantially the same provisions as the franchise agreement being offered to other new motor vehicle dealers handling the same line or make. In no instance shall the term of any franchise agreement be of a duration of less than three (3) years.
(23)
To require that a new motor vehicle dealer provide exclusive facilities, personnel, or display space taking into consideration changing market conditions, or that a dealer execute a site control agreement giving a manufacturer control over the dealer's facilities.
(24)
To require that a dealer expand facilities without a guarantee of a sufficient supply of new motor vehicles to justify that expansion or to require that a dealer expand facilities to a greater degree than is necessary to sell and service the number of vehicles that the dealer sold and serviced in the most recent calendar year.
(25)
To prevent a dealer from adjusting his or her facilities to permit a relocation of office space, showroom space, and service facilities so long as the relocation is within five hundred (500) yards of the present location.
(26)
To engage in any predatory practice against a new motor vehicle dealer.
(27)
To prevent, prohibit, or coerce any new motor vehicle dealer from charging any consumer any fee allowed to be charged by the dealer under Rhode Island law or regulation except as related to eligible participants under a military discount program in which the dealer voluntarily participates and receives financial compensation from the manufacturer or distributor, to the extent that such a program is not offered to the general public.
(d)
It shall be a violation of this chapter for a manufacturer to terminate, cancel, or fail to renew the franchise of a new motor vehicle dealer except as provided in this subsection:
(1)
Notwithstanding the terms, provisions, or conditions of any franchise, whether entered into before or after the enactment of this

chapter or any of its provisions, or notwithstanding the terms or provisions of any waiver, whether entered into before or after the enactment of this chapter or any of its provisions, no manufacturer shall cancel, terminate, or fail to renew any franchise with a licensed new motor vehicle dealer unless the manufacturer has:

(i)

Satisfied the notice requirement of this subsection;

(ii)

Has good cause for the cancellation, termination, or nonrenewal;

(iii)

Has not committed any violations set forth in subsection (b) of this section; and

(iv)

Has acted in good faith as defined in this chapter and has complied with all provisions of this chapter.

(2)

Notwithstanding the terms, provisions, or conditions of any franchise or the terms or provisions of any waiver, good cause shall exist for the purposes of a termination, cancellation, or nonrenewal when:

(i)

There is a failure by the new motor vehicle dealer to comply with a provision of the franchise, which provision is both reasonable and of material significance to the franchise relationship, provided that the dealer has been notified, in writing, of the failure within one hundred eighty (180) days after the manufacturer first acquired knowledge of that failure;

(ii)

If the failure by the new motor vehicle dealer, as provided in paragraph (i) of this subdivision, relates to the performance of the new motor vehicle dealer in sales or service, then good cause shall be defined as the failure of the new motor vehicle dealer to comply with reasonable performance criteria established by the manufacturer if the new motor vehicle dealer was apprised by the manufacturer, in writing, of that failure; and:

(A)

The notification stated that notice was provided of failure of performance pursuant to paragraph (i) of this subdivision;

(B)

The new motor vehicle dealer was afforded a reasonable opportunity, for a period of not less than six (6) months, to comply with those criteria; and

(C)

The new motor vehicle dealer did not demonstrate substantial progress towards compliance with the manufacturer’s performance criteria during that period.

(3)

The manufacturer shall have the burden of proof for showing that the notice requirements have been complied with; that there was good cause for the franchise termination; cancellation or nonrenewal; and that the manufacturer has acted in good faith.

(i)

Notwithstanding the terms, provisions, or conditions of any franchise, prior to the termination, cancellation, or nonrenewal of any franchise, the manufacturer shall furnish notification of the termination, cancellation, or nonrenewal to the new motor vehicle dealer as follows:

(A)

In the manner described in paragraph (ii) of this subdivision; and

(B)

Not fewer than ninety (90) days prior to the effective date of the termination, cancellation, or nonrenewal; or

(C)

Not fewer than fifteen (15) days prior to the effective date of the termination, cancellation, or nonrenewal for any of the following reasons:

(I)

Insolvency of the new motor vehicle dealer, or the filing of any petition by, or against, the new motor vehicle dealer under any bankruptcy or receivership law;

(II)

Failure of the new motor vehicle dealer to conduct his customary sales and service operations during his or her customary business hours for seven (7) consecutive business days;

(III)

Final conviction of the new motor vehicle dealer, or any owner or operator of the dealership, of a crime which is associated with or related to, the operation of the dealership;

(IV)

Revocation of any license that the new motor vehicle dealer is required to have to operate a dealership; or

(D)

Not fewer than one hundred eighty (180) days prior to the effective date of the termination or cancellation where the manufacturer or distributor is discontinuing the sale of the product line.

(ii)
Notification under this subsection shall be in writing, shall be by certified mail or personally delivered to the new motor vehicle dealer, and shall contain:
(A)
A statement of intention to terminate, cancel, or not to renew the franchise;
(B)
A statement of the reasons for the termination, cancellation, or nonrenewal; and
(C)
The date on which the termination, cancellation, or nonrenewal shall take effect.
(iii)
Upon the involuntary or voluntary termination, nonrenewal, or cancellation of any franchise, by either the manufacturer or the new motor vehicle dealer, notwithstanding the terms of any franchise whether entered into before or after the enactment of this chapter or any of its provisions, the new motor vehicle dealer shall be allowed fair and reasonable compensation by the manufacturer for the following:
(A)
The new motor vehicle dealer's cost, less allowances paid by the manufacturer, of each new, undamaged, unsold, and unaltered, except for dealer-installed, manufacturer-authorized accessories, motor vehicle, regardless of model year purchased from the manufacturer or another dealer of the same line or make in the ordinary course of business within twenty-four (24) months of termination, having five hundred (500) or fewer miles recorded on the odometer that is in the new motor vehicle dealer's inventory at the time of termination, nonrenewal, or cancellation.
(B)
The new motor vehicle dealer's cost of each new, unused, undamaged, and unsold part or accessory that is in the current parts catalogue, or is identical to a part or accessory in the current parts catalogue except for the number assigned to the part or accessory due to a change in the number after the purchase of the part or accessory, and that is still in the original, resalable merchandising package and in an unbroken lot, except that, in the case of sheet metal, a comparable substitute for the original package may be used.
(C)
The fair market value of each undamaged sign, normal wear and tear excepted, owned by the dealer that bears a trademark or trade name used or claimed by the manufacturer that was purchased as a requirement of the manufacturer.
(D)
The fair market value of all special tools, and automotive services equipment owned by the dealer that: (I) Were recommended in writing and designated as special tools and equipment; (II) Were purchased as a requirement of the manufacturer; and (III) Are in usable and good condition except for reasonable wear and tear.
(E)
The cost of transporting, handling, packing, storing, and loading any property that is subject to repurchase under this section.
(F)
The payments above are due within sixty (60) days from the date the dealer submits an accounting to the manufacturer of the vehicle inventory subject to repurchase, and for other items within sixty (60) days from the date the dealer submits an accounting of the other items subject to repurchase, provided, the new motor vehicle dealer has clear title (or will have clear title upon using the repurchase funds to obtain clear title) to the inventory and other items and is in a position to convey that title to the manufacturer. If the inventory or other items are subject to a security interest, the manufacturer, wholesaler, or franchisor may make payment jointly to the dealer and the holder of the security interest. In no event shall the payments be made later than ninety (90) days of the effective date of the termination, cancellation, or nonrenewal.
(iv)
In the event the termination, cancellation, or nonrenewal is involuntary and not pursuant to subsection (3)(i)(C) of this section and:
(A)
The new motor vehicle dealer is leasing the dealership facilities from a lessor other than the manufacturer, the manufacturer shall pay the new motor vehicle dealer a sum equivalent to the rent for the unexpired term of the lease or (2) two year's rent, whichever is less; or
(B)
If the new motor vehicle dealer owns the facilities, the manufacturer shall pay the new motor vehicle dealer a sum equivalent to the reasonable rental value of the facilities for two (2) years; if:
(I)
The new motor vehicle dealer is unable to reasonably utilize the facilities for another purpose;
(II)
The new motor vehicle dealer, or the manufacturer acting as its agent, is unable to make arrangements for the cancellation or assumption of its lease obligations by another party in the case of leased facilities, or is unable to sell dealer-owned facilities; and
(III)
Only to the extent those facilities were required as a condition of the franchise and used to conduct sales and service operations related to the franchise product.

(v)
In addition to any injunctive relief and any other damages allowable by this chapter, if the manufacturer is discontinuing the product line or fails to prove that there was good cause for the termination, cancellation, or nonrenewal, or if the manufacturer fails to prove that the manufacturer acted in good faith, then the manufacturer shall pay the new motor vehicle dealer fair and reasonable compensation for the value of the dealership as an ongoing business.
In addition to the other compensation described in paragraphs (iii) and (iv) above and in this section, the manufacturer shall also reimburse the dealer for any costs incurred for facility upgrades or alterations required by the manufacturer within two (2) years of the effective date of the termination.
(vi)
If a manufacturer is discontinuing the product line and thus, as a result a franchise for the sale of motor vehicles is subject to termination, cancellation, or nonrenewal, the manufacturer shall:
(A)
Authorize the dealer, at the dealer's option, that remains a franchised dealer of the manufacturer regardless of the discontinuation of a product line, to continue servicing and supplying parts (without prejudice to the right of the manufacturer to also authorize other franchised dealers to provide service and parts for a discontinued product line), including services and parts pursuant to a warranty issued by the manufacturer for any goods or services marketed by the dealer pursuant to the motor vehicle franchise for a period of not less than five (5) years from the effective date of the termination, cancellation, or nonrenewal;
(B)
Continue to reimburse the dealer that remains a franchised dealer of the manufacturer regardless of the discontinuation of a product line or another franchised dealer of the manufacturer in the area for warranty parts and service in an amount, and on terms not less favorable than, those in effect prior to the termination, cancellation, or nonrenewal;
(C)
The manufacturer shall continue to supply the dealer that remains a franchised dealer of the manufacturer regardless of the discontinuation of a product line or another franchised dealer of the manufacturer in the area with replacement parts for any goods or services marketed by the dealer pursuant to the franchise agreement for a period of not less than five (5) years from the effective date of the termination, cancellation, or nonrenewal, at a price, and on terms not less favorable than, those in effect prior to the termination, cancellation, or nonrenewal;
(vii)
The requirements of this section do not apply to a termination, cancellation, or nonrenewal due to the sale of the assets or stock of the motor vehicle dealer.
(D)
To be entitled to facilities assistance from the manufacturer as described above, the dealer shall have the obligation to mitigate damages by listing the dealership facilities for lease or sublease with a licensed real estate agent within thirty (30) days after the effective date of the termination of the franchise and thereafter be reasonably cooperating with such real estate agent in the performance of the agent's duties and responsibilities. If the dealer is able to lease or sublease the dealership facilities on terms that are consistent with local zoning requirements to preserve the right to sell motor vehicles from the dealership facilities and the terms of the dealer's lease, the dealer shall be obligated to pay the manufacturer the net revenue received from such mitigation, but only following receipt of facilities assistance payments pursuant to this chapter, and only up to the total amount of facilities assistance payments that the dealer has received.
(e)
It shall be deemed a violation of this chapter for a motor vehicle dealer:
(1)
To require a purchaser of a new motor vehicle, as a condition of the sale and delivery thereof, to also purchase special features, equipment, parts, or accessories not desired or requested by the purchaser. This prohibition shall not apply as to special features, equipment, parts, or accessories that are already installed on the car before sale by the dealer.
(2)
To represent and sell as a new motor vehicle any motor vehicle that is a used motor vehicle.
(3)
To resort to or use any false or misleading advertisement in connection with his or her business as a motor vehicle dealer.
(4)
To engage in any deception or fraudulent practice in the repair of motor vehicles.

§ 31-5.1-5. Delivery obligations.

Every manufacturer shall specify to the dealer the delivery and preparation obligations of its motor vehicle dealers prior to delivery of new motor vehicles to retail buyers. A copy of the delivery and preparation obligations of its motor vehicle dealers, and a schedule of the compensation to be paid to its motor vehicle dealers for the work and services they shall be required to perform in connection with the delivery and preparation obligations, shall be filed with the department by every motor vehicle manufacturer, and shall constitute the dealer's only responsibility for product liability as between the dealer and the manufacturer. The compensation as set forth on the schedule shall be in accordance with §§ 6A-2-329 and 31-5.1-6.

§ 31-5.1-6.1. Obligations during recalls.
(a)
A manufacturer shall compensate its new motor vehicle dealers for all labor and parts required by the manufacturer to perform recall repairs. Compensation for recall repairs shall be at the dealer retail rate in effect at the time the recall repair work is performed. The dealer retail rate for parts and labor shall be at the same rates as those provided for under § 31-5.1-6. If parts or a remedy are not reasonably available to perform a recall service or repair on a used vehicle held for sale by the dealer authorized to sell new vehicles of the same line-make within thirty (30) days of the manufacturer issuing the initial notice of recall and the manufacturer has issued a "Stop-Sale," or "Do-Not-Drive," order on the vehicle, the manufacturer shall compensate the dealer at a rate of at least one and one-half percent (1.5%) of the value of the vehicle per month, or portion of a month, while the recall or remedy parts are unavailable and the "Stop-Sale," or "Do-Not-Drive," order remains in effect. A "Stop-Sale" shall be defined as a notification issued by a vehicle manufacturer to its franchised dealerships stating that certain used vehicles in inventory shall not be sold or leased, at retail and/or wholesale, due to a federal safety recall for a defect or a noncompliance, or a federal or California emissions recall.
(b)
The value of a used vehicle shall be the average trade-in value for used vehicles as indicated in an independent, third-party guide for the year, make, model, and mileage of the recalled vehicle on the later of:
(1)
The date the "Stop-Sale" or "Do-Not-Drive" order was issued; or
(2)
The date the vehicle is taken in the used motor vehicle inventory.
(c)
This section shall apply only to used vehicles subject to safety or emissions recalls pursuant to and recalled in accordance with federal law and regulations adopted thereunder and where a "Stop-Sale," or "Do-Not-Drive," order has been issued; provided, further, that this section shall apply only to new motor vehicle dealers holding used vehicles for sale that are a line-make that the dealer is franchised to sell or on which the dealer is authorized to perform recall repairs. This section further shall apply only to new motor vehicle dealers holding an affected used motor vehicle for sale that was:
(1)
In inventory at the time the "Stop-Sale" or "Do-Not-Drive" order was issued;
(2)
Taken in the used motor vehicle inventory of the new motor vehicle dealer as a consumer trade-in incident to the purchase of a new motor vehicle before or after the "Stop-Sale" or "Do-Not-Drive" order was issued; or
(3)
Properly taken in the used motor vehicle inventory of the new motor vehicle dealer as a lease return vehicle returned to the new motor vehicle dealer before or after the "Stop-Sale" or "Do-Not-Drive" order was issued in accordance with the terms of the applicable contract.
(d)
It shall be a violation of this section for a manufacturer to reduce the amount of compensation otherwise owed to a new motor vehicle dealer, whether through a chargeback; removal from an incentive program; reduction in amount owed under an incentive program; or any other means, because the new motor vehicle dealer has submitted a claim for reimbursement under this section, or was otherwise compensated for a vehicle subject to a recall where a "Stop-Sale," or "Do-Not-Drive," order has been issued.
(e)
All reimbursement claims made by new motor vehicle dealers pursuant to this section for recall remedies or repairs, or for compensation where no part or repair is reasonably available and the vehicle is subject to a "Stop-Sale" or "Do-Not-Drive" order, shall be subject to the same limitations and requirements as a warranty reimbursement claim made under § 31-5.1-6. Claims shall be either approved or disapproved within thirty (30) days after they are submitted to the manufacturer in the manner and on the forms the manufacturer reasonably prescribes. All claims shall be paid within thirty (30) days of approval of the claim by the manufacturer. Any claim not specifically disapproved in writing within thirty (30) days after the manufacturer receives a properly submitted claim shall be deemed to be approved. In the alternative, a manufacturer may compensate its franchised dealers under a national recall compensation program provided the compensation under the program is equal to or greater than that provided under

subsection (a) of this section or the manufacturer and dealer otherwise agree.
(f)
Nothing in this section shall require a manufacturer to provide total compensation to a new motor vehicle dealer that would exceed the total average trade-in value of the affected used motor vehicle as determined under subsection (b) of this section.
(g)
Any remedy provided to a dealer under this section is exclusive and may not be combined with any other state recall compensation remedy.

P.L. 2017, ch. 471, § 1.

2024 Rhode Island General LawsTitle 31 - Motor and Other VehiclesChapter 31-5.1 - Regulation of Business Practices Among Motor Vehicle Manufacturers, Distributors, and DealersSection 31-5.1-6. - Warranty agreement.

§ 31-5.1-6. Warranty agreement.
(a)
Every manufacturer shall properly fulfill any warranty agreement and adequately and fairly compensate each of its motor vehicle dealers for labor and parts. In no event shall that compensation fail to include reasonable compensation for diagnostic work, as well as repair service and labor. All claims made by motor vehicle dealers for labor and parts shall be paid in accord with the provisions of this section. Any delay in payment after approval or disapproval that is caused by conditions beyond the reasonable control of the manufacturer shall not constitute a violation of this section. Reimbursement for warranty repairs or diagnostic work shall be at the dealer retail rate in effect at the time the warranty repair or diagnostic work is performed. Compensation for parts used in warranty service shall be fair and reasonable, as determined by methods described in subsection (b). Compensation for labor used in warranty service shall be fair and reasonable, as determined by methods described in subsection (c).
(b)
The retail rate customarily charged by the dealer for parts shall be established by the dealer submitting to the manufacturer or distributor one hundred (100) sequential non-warranty customer-paid service repair orders that contain warranty-like parts, or sixty (60) consecutive days of non-warranty customer-paid service repair orders that contain warranty-like parts, whichever is less, covering repairs made no more than one hundred eighty (180) days before the submission and declaring the average percentage markup. The average of the markup rates shall be presumed to be fair and reasonable, however, a manufacturer or distributor may, not later than thirty (30) days after submission, rebut that presumption by reasonably substantiating that the rate is unfair and unreasonable in light of the practices of all other franchised motor vehicle dealers in the vicinity offering the same line-make vehicles. The retail rate shall go into effect thirty (30) days following the declaration, subject to audit of the submitted repair orders by the franchisor and a rebuttal of the declared rate as described above. If the declared rate is rebutted, the manufacturer or distributor shall propose an adjustment of the average percentage markup based on that rebuttal not later than thirty (30) days after submission. If the dealer does not agree with the proposed average percentage markup, the dealer may file a protest with the department not later than thirty (30) days after receipt of that proposal by the manufacturer or distributor. If the protest is filed, the department shall inform the manufacturer or distributor that a timely protest has been filed and that a hearing will be held on the protest. In any hearing held pursuant to this subsection, the manufacturer or distributor shall have the burden of proving that the rate declared by the dealer was unfair and unreasonable as described in this subsection and that the proposed adjustment of the average percentage markup is fair and reasonable pursuant to the provisions of this subsection.
(c)
The retail rate customarily charged by the dealer for labor may be established by submitting to the manufacturer or distributor all non-warranty customer-paid service repair orders covering repairs made during the month prior to the submission and dividing the amount of the dealer’s total labor sales by the number of total labor hours that generated those sales. The average labor rate shall be presumed to be fair and reasonable, provided a manufacturer or distributor may, not later than thirty (30) days after submission, rebut the presumption by reasonably substantiating that the rate is unfair and unreasonable in light of the practices of all other franchised motor vehicle dealers in the vicinity offering the same line-make vehicles. The average labor rate shall go into effect thirty (30) days following the declaration, subject to audit of the submitted repair orders by the franchisor and a rebuttal of the declared rate. If the declared rate is rebutted, the manufacturer or distributor shall propose an adjustment of the average labor rate based on the rebuttal not later than thirty (30) days after submission. If the dealer does not agree with the proposed average labor rate, the dealer may file a protest with the department not later than thirty (30) days after receipt of that proposal by the manufacturer or distributor. If a protest is filed, the department shall inform the manufacturer or distributor that a timely protest has been filed and that a hearing will be held on the protest. In any hearing held pursuant to this subsection, the manufacturer or distributor shall have the burden of proving that the rate declared by the dealer was unfair and unreasonable as described in this subsection and that the proposed adjustment of the average labor rate is fair and reasonable pursuant to the provisions of this subsection.
(d)
In calculating the retail rate customarily charged by the dealer for parts and labor, the following work shall not be included in the calculation:
(1)

Repairs for manufacturer or distributor special events, specials, or promotional discounts for retail customer repairs;
(2)
Parts sold at wholesale;
(3)
Engine assemblies and transmission assemblies;
(4)
Routine maintenance not covered under any retail customer warranty, such as fluids, filters, and belts not provided in the course of repairs;
(5)
Nuts, bolts, fasteners, and similar items that do not have an individual part number;
(6)
Tires; and
(7)
Vehicle reconditioning.
(e)
If a manufacturer or distributor furnishes a part or component to a dealer at no cost, to use in performing repairs under a recall, campaign service action, or warranty repair, the manufacturer or distributor shall compensate the dealer for the part or component in the same manner as warranty parts compensation under this section by compensating the dealer the average markup on the cost for the part or component as listed in the manufacturer's or distributor's price schedule less the cost for the part or component.
(f)
A manufacturer or distributor may not require a dealer to establish the retail rate customarily charged by the dealer for parts and labor by an unduly burdensome or time-consuming method or by requiring information that is unduly burdensome or time consuming to provide, including, but not limited to, part-by-part or transaction-by-transaction calculations. A dealer may not declare an average percentage markup or average labor rate more than twice in one calendar year.
(g)
A manufacturer or distributor may not otherwise recover its costs from dealers within this state, including an increase in the wholesale price of a vehicle or surcharge imposed on a dealer solely intended to recover the cost of reimbursing a dealer for parts and labor pursuant to this section, provided a manufacturer or distributor shall not be prohibited from increasing prices for vehicles or parts in the normal course of business.
(h)
Each manufacturer or distributor shall perform all warranty obligations, include in written notices of factory recalls to owners and dealers the expected date by which necessary parts and equipment will be available to dealers for the correction of the defects, and compensate dealers for repairs necessitated by such recall.
(i)
A claim filed under this section by a dealer with a manufacturer or distributor shall be:
(1)
In the manner and form prescribed by the manufacturer or distributor; and
(2)(i)
Approved or disapproved within (30) days of receipt.
(ii)
A claim not approved or disapproved within thirty (30) days of receipt shall be deemed approved.
(iii)
Payment of, or credit issued on, a claim filed under this section shall be made within thirty (30) days of approval.
(3)(i)
If a claim filed under this section is shown by the manufacturer or distributor to be false or unsubstantiated, the manufacturer or distributor may charge back the claim within twelve (12) months from the date the claim was paid or credit issued.
(ii)
A manufacturer or distributor shall not charge back a claim based solely on a motor vehicle dealer's incidental failure to comply with a specific claim processing requirement, such as a clerical error or other administrative technicality that does not put into question the legitimacy of the claim after the motor vehicle dealer properly resubmits the claim in accordance with the manufacturer's or distributor's submission guidelines.
(iii)
A dealer shall have no less than sixty (60) days from the date of notification by a manufacturer or distributor of a charge back to the dealer to resubmit a claim for payment or compensation if the claim was denied for a dealer's incidental failure as set forth in subsection (i)(3)(ii), whether the chargeback was a direct or an indirect transaction.
(iv)
This subdivision does not limit the right of a manufacturer or distributor to charge back for any claim that is proven to be fraudulent.

§ 31-5.2-3. Replacement of nonconforming vehicle.
(a)(1)
If the manufacturer, its agent, or its authorized dealer or lessor does not conform the motor vehicle to any applicable express or implied warranty by curing any nonconformity after a reasonable number of attempts, the manufacturer shall accept return of the vehicle from the consumer or lessee and, at the consumer's or lessee's option, refund the full contract price or lease price of the vehicle including all credits and allowances for any trade-in vehicle, less a reasonable allowance for use, or replace it with a comparable new motor vehicle in good working order.
(2)
A manufacturer replacing a motor vehicle shall have thirty (30) calendar days from the date of return of the motor vehicle under the provisions of this chapter to deliver a comparable motor vehicle. If, within that thirty (30) days, no comparable motor vehicle has been delivered, the manufacturer shall refund the full contract price or lease price less a reasonable allowance for use.
(3)(i)
In instances in which a vehicle is replaced by a manufacturer under the provisions of this chapter, the manufacturer shall reimburse the consumer or lessee for any fees for the transfer of registration or any sales tax incurred by the consumer or lessee as a result of that replacement.
(ii)
In instances in which a vehicle which was financed by the manufacturer or its subsidiary or agent is replaced under the provisions of this chapter, the manufacturer, subsidiary, or agent shall not require the consumer or lessee to enter into any refinancing agreement with an interest rate or other financial terms which are less favorable to the consumer or lessee than those stated in the original financing agreement.
(iii)
In instances in which a refund is tendered under the provisions of this chapter, the manufacturer shall also reimburse the consumer

or lessee for incidental costs including sales tax, registration fee, finance charges, and any cost of nonremovable options added by an authorized dealer or lessor.
(iv)
Whenever a vehicle is replaced or refunded under the provisions of this chapter, in instances in which towing services and rental vehicles of comparable year and size were not made available at no cost to the consumer or lessee, the manufacturer shall also reimburse the consumer or lessee for towing and reasonable rental costs that were a direct result of vehicle nonconformity.
(4)
Refunds shall be made to the consumer or lessee and to the lienholder, if any, as their interests may appear.
(5)
A reasonable allowance for use shall be obtained by multiplying the total contract price or lessee cost of the vehicle by a fraction having as its denominator one hundred thousand (100,000) and having as its numerator the number of miles that the vehicle traveled prior to the consumer's first report of the nonconformity to the manufacturer, its agent, or its dealer or lessor plus the number of miles that it traveled during any subsequent period when the vehicle was not out of service by reason of repair.
(6)
A consumer or lessee shall have the option of retaining the use of any vehicle returned under the provisions of this chapter until such time as the consumer or lessee has been tendered a full refund or replacement vehicle acceptable to the consumer or lessee. The use of any vehicle retained by a consumer or lessee after its return to a manufacturer under the provisions of this chapter shall, in instances in which a refund is tendered, be reflected in the above-mentioned reasonable allowance for use.
(b)
If applicable, refunds shall be made to the lessor and lessee as their interests may appear on the records of ownership as follows: the lessee shall receive the lessee cost and the lessor shall receive the lease price less the aggregate deposit and rental payments previously paid to the lessor for the leased vehicle. If it is determined that the lessee is entitled to a refund pursuant to this chapter, the consumer's lease agreement with the lessor shall be terminated upon payment of the refund and no penalty for early termination shall be assessed.

§ 31-5.2-5. Time allowed for correction of nonconformity.
(a)
A reasonable number of attempts shall be presumed to have been undertaken to conform a motor vehicle to any applicable express or implied warranties if:
(1)
The same nonconformity has been subject to repair four (4) or more times by the manufacturer or its agents or authorized dealers or lessors within the term of protection, but the nonconformity continues to exist or the nonconformity has recurred within the term of protection, or
(2)
The vehicle is out of service by reason of the repair of any nonconformity for a cumulative total of thirty (30) or more calendar days during the term of protection; provided, however, that the manufacturer shall be afforded one additional opportunity, not to exceed seven (7) calendar days, to cure any nonconformity arising during the term of protection, notwithstanding the fact that the additional opportunity to cure commences after the term of protection.
(b)
The additional opportunity to cure shall commence on the day the manufacturer first knows or should have known that the limits specified in subsection (a)(1) or (a)(2) have been met or exceeded. The term of protection, the thirty (30) calendar day period specified in subsection (a)(2), and the additional opportunity to cure shall be extended by any period of time during which repair services are not available to the consumer or lessee as a direct result of a war, invasion, fire, flood or other natural disaster. The term

of protection, the thirty (30) calendar day period and the additional opportunity to cure shall also be extended by that period of time during which repair services are not available as a direct result of a strike. During a strike, however, the manufacturer, its agent, or its authorized dealer or lessor shall make provision for the free use of a vehicle of comparable year and size by any consumer or lessee whose vehicle is out of service by reason of repair during a strike. The burden shall be on the manufacturer to show that any event claimed as a reason for an extension under the provisions of this section was the direct cause for the failure of the manufacturer, its agent or lessor, or its authorized dealer to cure any nonconformity during the time of that event. Extensions for concurrent events shall not be cumulative.

§ 31-5.2-7.1. Procedure.

(a)

In addition to any settlement procedure provided for in § 31-5.2-7, the department of the attorney general shall provide an independent arbitration procedure for the settlement of disputes between consumers or lessees and manufacturers concerning motor vehicles which do not conform to all applicable express or implied warranties. There shall be established the motor vehicle arbitration board which shall consist of five (5) members. The board shall consist of the attorney general or his or her designee, who shall serve as director, a member of the general public appointed by the attorney general, the director of the department of revenue or his or her designee, the president of the Rhode Island Automobile Dealers' Association or his or her designee, and the administrator of the division of motor vehicles or his or her designee, only one of whom shall be directly involved in the manufacture, distribution, sale, lease, or service of any automobile product. Members shall be persons interested in consumer disputes, and shall serve without compensation.

(b)

An owner or lessee of any motor vehicle purchased or leased which fails to conform to the applicable express or implied warranties may either initiate a request with the department of attorney general for arbitration by the motor vehicle arbitration board or take part in the settlement procedure set forth in § 31-5.2-7 if in existence. The consumer or lessee shall set forth, on a complaint form prescribed by the department of attorney general, any information he or she deems relevant to the resolution of the dispute and shall file the complaint with a nonrefundable filing fee of twenty dollars ($20.00). The attorney general shall decide if the complaint is eligible under chapter 5.2 of this title. Upon acceptance of the complaint, the attorney general shall notify the manufacturer of the filing of a request for arbitration and shall obtain from the manufacturer, in writing on a form prescribed by the attorney general, any information the manufacturer deems relevant to the resolution of the dispute. The manufacturer shall return the form, along with a non-refundable fifty dollar ($50.00) filing fee, within twenty (20) days of receipt. The department of attorney general shall then refer the matter to the motor vehicle arbitration board created pursuant to subsection (a) of this section.

(c)

The motor vehicle arbitration board shall investigate, gather, and organize all information necessary for a fair and timely decision in each dispute. The board may issue subpoenas to compel the attendance of witnesses and the production of documents, papers, and records relevant to the dispute.

(d)

At all arbitration proceedings before the board the parties may present oral or written testimony, present witnesses and evidence relevant to the dispute, cross examine witnesses, and be represented by counsel.

(e)

The motor vehicle arbitration board may forward a copy of all written testimony, including all documentary evidence, to an independent technical expert, who shall review the material and be able to advise and consult with the board. An expert shall sit as a non-voting member of the board whenever oral testimony is presented. The expert shall provide advice and counsel to the board as a part of its deliberation process and shall aid the board in preparing its findings and facts.

(f)

The motor vehicle arbitration board shall grant the relief specified in § 31-5.2-3 of this chapter and any other relief available under the applicable warranties or the Magnuson-Moss Warranty Federal Trade Commission Improvement Act, 88 Stat. 2183 (1975), 15 U.S.C. section 2301 et seq., as in effect on October 1, 1982, to the consumer or lessee if a reasonable number of attempts, as provided in § 31-5.2-5(1) and (2) have been undertaken to correct one or more nonconformities that substantially impair the motor

vehicle. The motor vehicle arbitration board shall dismiss the dispute if it finds, after considering all the evidence presented, that the consumer or lessee is not entitled to relief under this chapter.
(g)(1)
The board shall, as expeditiously as possible, but not later than ninety (90) days from the date the director deems the dispute eligible for arbitration, render a fair decision based on the information gathered and disclose its findings and the reasons for it to the parties involved. The consumer or lessee shall accept or reject the decision within five (5) days of its filing.
(2)
If the decision is favorable to the consumer or lessee, the manufacturer shall within thirty (30) days after the rendering of the decision, either comply with the terms of the decision if the consumer or lessee elects to accept the decision or appeal the finding to superior court. No appeal by a manufacturer shall be heard unless the petition for such appeal is filed with the clerk of the superior court within thirty (30) days of issuance of the finding of the motor vehicle arbitration board and is accompanied by a bond in a principal sum equal to the money award made by the state-certified arbitrator plus two thousand five-hundred dollars ($2,500) for anticipated attorneys' fees, secured by cash or its equivalent, payable to the consumer. The liability of the surety of any bond filed pursuant to this section shall be limited to the indemnification of the consumer in the action. Such bond shall not limit or impair any right of recovery otherwise available pursuant to law, nor shall the amount of the bond be relevant in determining the amount of recovery to which the consumer shall be entitled. In the event that any motor vehicle arbitration board decision, resulting in an award of a refund or replacement, is upheld by the court, recovery by the consumer shall include continuing damages in the amount of twenty-five dollars ($25.00) per day for each day, subsequent to the day the motor vehicle was returned to the manufacturer pursuant to § 31-5.2-3, that said vehicle was out of use as a direct result of any nonconformity not issuing from owner negligence, accident, vandalism or any attempt to repair or substantially modify the vehicle by a person other than the manufacturer, its agent or authorized dealer; provided, however, that the manufacturer did not make a comparable vehicle available to the consumer free of charge. In addition to any other recovery, any prevailing consumer shall be awarded reasonable attorneys' fees and costs. If the court finds that the manufacturer did not have any reasonable basis for its appeal or that the appeal was frivolous, the court shall double the amount of the total award made to the consumer. The motor vehicle arbitration board shall contact the consumer or lessee, within ten (10) working days after the date for performance, to determine whether performance has occurred.
(h)
The motor vehicle arbitration board shall maintain the records of each dispute as deemed necessary, including an index of disputes by brand name and model. The motor vehicle arbitration board shall, at intervals of no more than six (6) months, compile and maintain statistics indicating the record of manufacturer compliance with arbitration decisions and the number of refunds or replacement awarded. The summary shall be a public record.
(i)
The motor vehicle arbitration board automobile dispute settlement procedure shall be prominently posted in the place of business of each new car dealer or lessor licensed by the department of revenue to engage in the sale or lease of that manufacturer's new motor vehicles. The display of this public notice shall be a condition of licensure under the general laws. The board shall determine the size, type face, form and wording of the sign required by this section, which shall include the telephone number and the address to which requests for the motor vehicle arbitration board arbitration services may be sent.
(j)
The motor vehicle arbitration board shall adopt regulations, in accordance with the provisions of the general laws to carry out the purposes of this section. Written copies of the regulations and appropriate arbitration hearing procedures shall be provided to any person upon request.

If a manufacturer has established an informal dispute settlement procedure which complies in all respects with the provisions of 16 CFR Part 703, or which has been approved by the federal trade commission or by the attorney general of this state, the provisions of § 31-5.2-3 concerning refunds or replacement shall not apply to any consumer or lessee who has not first resorted to that manufacturer's procedure or to the procedure set forth in § 31-5.2-7.1. This section shall not apply unless the manufacturer, its agents, or its authorized dealer or lessor shall have provided the consumer or lessee with clear and conspicuous written notice of the procedure at the time of delivery of the motor vehicle. A decision resulting from an informal dispute settlement procedure shall be binding upon the manufacturer if the consumer or lessee elects to accept the decision. The manufacturer shall perform its obligations as set forth in the decision within a reasonable period of time not to exceed thirty (30) calendar days from the rendering of the decision. In no event shall a consumer or lessee who has resorted to an informal dispute settlement procedure be precluded from seeking the rights and/or remedies provided by this chapter. Any applicable statute of limitation including, but not limited to, that set forth in § 31-5.2-12 shall be tolled during the period from the initiation of a dispute settlement procedure until thirty (30) days following the rendering of a final decision in the process.

(a)
No dealer shall sell a used motor vehicle to a consumer without giving the consumer a written warranty which shall at minimum apply for the following terms:

(d)
If a new car warranty is in effect at the time of the sale of the used motor vehicle, then the warranty specified in this section shall be required only for the period of time, if any, between the expiration of the new car warranty and the period specified in subsection (a) of this section.

§ 31-5.4-3. Failure to honor warranty.
(a)
If the dealer or his or her agent fails to correct a malfunction or defect as required by the warranty specified in this section which substantially impairs the value of the used motor vehicle to the consumer after a reasonable period of time, the dealer shall accept the return of the used motor vehicle from the consumer and refund to the consumer the full purchase price including sales or compensating use tax, less a reasonable allowance for any damage not attributable to normal wear or usage, and an adjustment for any modifications which either increase or decrease the market value of the vehicle. In determining the purchase price to be refunded, the purchase price shall be deemed equal to the sum of the actual cash difference paid for the used motor vehicle plus, if the dealer elects to not return any vehicles traded-in by the consumer, the wholesale value of those traded-in vehicles as listed in the National Auto Dealers' Association Used Car Guide, or any other guide that may be specified in regulations promulgated by the administrator of the division of motor vehicles, as adjusted for mileage, improvements, and any major physical or mechanical defects in the traded-in vehicle at the time of trade-in. The contract of sale for the used motor vehicle shall include conspicuous language indicating that if the consumer should be entitled to a refund pursuant to this section, the value of any vehicle traded-in by the consumer, if the dealer elects to not return it to the consumer, for purposes of determining the amount of the refund will be determined by reference to the National Auto Dealers' Association Used Car Guide wholesale value, or any other guide that may be approved by the administrator of the division of motor vehicles, as adjusted for mileage, improvements, and any major physical or mechanical defects, rather than the value listed in the sales contract. Refunds shall be made to the consumer and lienholder, if any, as their interests may appear on the records of ownership kept by the division of motor vehicles. If the amount to be refunded to the lienholder will be insufficient to discharge the lien, the dealer shall notify the consumer in writing by registered or certified mail that the consumer has thirty (30) days to pay the lienholder the amount which, together with the amount to be refunded by the dealer, will be sufficient to discharge the lien. The notice to the consumer shall contain conspicuous language warning the consumer that failure to pay those funds to the lienholder within thirty (30) days will terminate the dealer's obligation to provide a refund. If the consumer fails to make the payment within thirty (30) days, the dealer shall have no further responsibility to provide a refund under this section. Alternatively, the dealer may elect to offer to replace the used motor vehicle with a comparably priced vehicle, with any adjustment in price that the parties may agree to. The consumer shall not be obligated to accept a replacement vehicle, but may instead elect to receive the refund provided under this section. It shall be an affirmative defense to any claim under this section that:
(1)
The malfunction or defect does not substantially impair the used motor vehicle's value; or
(2)
The malfunction or defect is the result of abuse, neglect, or unreasonable modifications or alterations of the used motor vehicle.
(b)
It shall be presumed that a dealer has had a reasonable opportunity to correct a malfunction or defect in a used motor vehicle, if:
(1)
The same malfunction or defect has been subject to repair three (3) or more times by the selling dealer or his or her agent within the warranty period, but the same malfunction or defect continues to exist; or
(2)
The vehicle is out of service by reason of repair or malfunction or defect for a cumulative total of fifteen (15) or more days during the warranty period. That period shall not include days when the dealer is unable to complete the repair because of the unavailability of necessary repair parts. The dealer shall be required to exercise due diligence in attempting to obtain necessary repair parts. If, however, a vehicle has been out of service for a cumulative total of forty-five (45) days, even if a portion of that time is attributable to the unavailability of replacement parts, the consumer shall be entitled to the replacement or refund remedies provided in this section.
(c)
The term of any warranty, service contract, or repair insurance shall be extended by any time period during which the used motor

vehicle is in the possession of the dealer or his or her duly authorized agent for the purpose of repairing the used motor vehicle under the terms and obligations of the warranty, service contract, or repair insurance.
(d)
The term of any warranty, service contract, or repair insurance, and the fifteen (15) days out-of-service period, shall be extended by any time during which repair services are not available to the consumer because of a war, invasion or strike, fire, flood, or other natural disaster.

The notice shall be at least eight and one-half inches (8½") by eleven inches (11") in size, in bold print one inch in height, and shall state, “NO WARRANTY AS TO CONDITION — SOLD AS IS”.
(b)
Whenever any dealer enters into an agreement with a consumer for a purchase of a motor vehicle, any waiver or disclaimer of the rights set forth in this chapter shall be printed on the bill of sale in a type size larger and of a different color than any other type on the bill of sale. The waiver shall be separately initialed by the purchaser and the dealer.

§ 31-5-14. Penalties for violations by dealers.
(a)
Upon the complaint of the department, any person violating any of the provisions of §§ 31-5-1 — 31-5-20, shall, upon conviction for the first offense, be punished by a fine of not less than fifty dollars ($50.00) nor more than one hundred dollars ($100), or by imprisonment for not less than ten (10) days nor more than thirty (30) days, or by both a fine and imprisonment. For a second or subsequent conviction, that person shall be fined not less than one hundred dollars ($100) nor more than one thousand dollars ($1,000), or by imprisonment for not less than thirty (30) days nor more than six (6) months, or by both a fine and imprisonment.
(b)
If the department shall have reason to believe that any person, firm, corporation, or association is violating the provisions of this chapter, the department may issue its order to the person, firm, corporation, or association commanding them to appear before the department, at a hearing to be held not sooner than ten (10) days nor later than twenty (20) days after issuance of the order, to show cause why the department should not issue an order to the person to cease and desist from violating the provisions of this chapter. The order to show cause may be served on any person, firm, corporation, or association named in it by any person in the same manner that a summons in a civil action may be served, or by mailing a copy of the order to the person at any address at which he or she has done business or at which he or she lives. If at the hearing the department shall be satisfied that the person is in fact violating any provision of this chapter, then the department shall order the person in writing to cease and desist from the violation. All these hearings shall be conducted in accordance with chapter 35 of title 42. If the person shall subsequently fail to comply with the order of the department, the superior court for Providence County shall have jurisdiction upon the complaint of the department to restrain and enjoin the person from violating this chapter.
(c)
In addition to the fines described in subsection (a) of this section, the department may impose fines on holders of any license issued by the department pursuant to this chapter of not less than fifty dollars ($50.00) nor more than one thousand dollars ($1,000), for violations of any of the provisions of §§ 31-5-1 — 31-5-20 and §§ 31-5-33 — 31-5-39, or for violation of any rules or regulations promulgated pursuant to § 31-5-2.

§ 31-5-15. Examination of records — Altered or reset odometers.
(a)
The department or its duly authorized representative may inspect the pertinent books, records, letters, and contracts of the licensee relating to any written complaint made against the licensee. If the licensee is found guilty of violating any of the provisions of §§ 31-5-1 — 31-5-20, or any lawful order of the department, the actual cost of each of the examinations shall be paid by the licensee within thirty (30) days after demand for them by the department, and the department may maintain an action for the recovery of the cost in any court of competent jurisdiction.
(b)

The department finds that purchasers, when buying motor vehicles, rely heavily on the odometer reading as an index of the condition and value of the vehicle; that purchasers are entitled to rely on the odometer reading as an accurate reflection of the mileage actually traveled by the vehicle; and that an accurate indication of the mileage traveled by a motor vehicle assists the purchaser in determining its safety and reliability. For the protection of purchasers with respect to the sale of motor vehicles having altered or reset odometers, licensed motor vehicle dealers are directly responsible to their retail/wholesale customers to repurchase the motor vehicles bearing altered or reset odometers for the original selling price paid by the customer, or an amount as determined by the department.

(5)

A signed affidavit by a person who witnessed the motor vehicle being operated in violation of this chapter; and

2024 Rhode Island General LawsTitle 31 - Motor and Other VehiclesChapter 31-6.1 - Bus Taxation Proration and Reciprocity AgreementSection 31-6.1-1. - Agreement enacted.

§ 31-6.1-1. Agreement enacted.

The Bus Taxation Proration Agreement is enacted into law and entered into with all jurisdictions legally joining in the form substantially as follows:

(a) Purposes of agreement.

It is the purpose of this agreement to set up a system by which any contracting state may permit owners of fleets of buses operating in two or more states to prorate the registration of the buses in such fleets in each state in which the fleets operate on the basis of the proportion of miles operated within such state to total fleet miles, as defined in this agreement.

(b) Principle of proration of registration.

It is declared that in making this agreement the contracting states adhere to the principle that each state should have the freedom to develop the kind of highway user tax structure that it determines to be most appropriate to itself; that the method of taxation of interstate buses should not be a determining factor in developing its user tax structure; and that annual taxes or other taxes of the fixed fee type upon buses, which are not imposed on a basis that reflects the amount of highway use, should be apportioned among the states, within the limits of practicality, on the basis of vehicle miles traveled within each of the states.

(a)

"State". State shall include the states of the United States, the District of Columbia, the territories of the United States, the provinces of Canada, and the states, territories and federal district of Mexico.

(b)

"Contracting state". Contracting state shall mean a state which is a party to this agreement.

(c)

"Administrator". Administrator shall mean the official or agency of a state administering the fee involved, or, in the case of proration of registration, the official or agency of a state administering the proration of registration in that state.

(d)

"Person". Person shall include any individual, firm, co-partnership, joint venture, association, corporation, estate, trust, business trust, receiver, syndicate, or any other group or combination acting as a unit.

(e)

"Base state". Base state shall mean the state from or in which the bus is most frequently dispatched, garaged, serviced, maintained, operated, or otherwise controlled, or also in the case of a fleet bus the state to which it is allocated for registration under statutory requirements. In order that this section may not be used for the purpose of evasion of registration fees, the administrators of the contracting states may make the final decision as to the proper base state, in accordance with article III(h) of this agreement, to prevent or avoid any evasion.

(f)

"Bus". Bus shall mean any motor vehicle of a bus type engaged in the interstate transportation of passengers and subject to the jurisdiction of the interstate commerce commission, or any agency successor to it, or one or more state regulatory agencies concerned with the regulation of passenger transport.

(g)

"Fleet". As to each contracting state, fleet shall include only those buses which actually travel a portion of their total miles in such state. A fleet must include three (3) or more buses.

(h)

"Registration". Registration shall mean the registration of a bus and the payment of annual fees and taxes as set forth in or pursuant to the laws of the respective contracting states.

(i)

"Proration of registration". Proration of registration shall mean registration of fleets of buses in accordance with article IV of this agreement.

(j)

"Reciprocity". Reciprocity shall mean that each contracting state, to the extent provided in this agreement, exempts a bus from registration and registration fees.

(a) Effect on other agreements, arrangements, and understandings.

On and after its effective date, this agreement shall supersede any reciprocal or other agreement, or understanding between any two or more of the contracting states covering, in whole or in part, any of the matters covered by this agreement. But this agreement shall not affect any reciprocal or other agreement, arrangement, or understanding between a contracting state and a state or states not a party to this agreement.

(b) Applicability to exempt vehicles.

This agreement shall not require registration in a contracting state of any vehicles which are in whole or part exempt from registration under the laws or regulations of such state without respect to this agreement.

(c) Inapplicability to caravanned vehicle.

The benefits and privileges of this agreement shall not be extended to a vehicle operated on its own wheels, or in tow of a motor vehicle, transported for the purpose of selling or offering the same for sale to or by any agent, dealer, purchaser, or prospective purchaser.

(d) Other fees and taxes.

This agreement does not waive any fees or taxes charged or levied by any state in connection with the ownership or operation of vehicles other than registration fees as defined in this agreement. All other fees and taxes shall be paid to each state in accordance with laws of that state.

(e) Statutory vehicle regulations.

This agreement shall not authorize the operation of a vehicle in any contracting state contrary to the laws or regulations except those pertaining to registration and payment of fees; and with respect to such laws or regulations, only to the extent provided in this agreement.

(f) Violations.

Each contracting state reserves the right to withdraw, by order of its administrator, all or any part of the benefits or privileges granted pursuant to this agreement from the owner of any vehicle or fleet of vehicles operated in violation of any provision of this agreement. The administrator shall immediately give notice of any violation and withdrawal of any benefits or privileges to the administrator of each other contracting state in which vehicles of an owner are operated.

(g) Cooperation.

The administrator of each of the contracting states shall cooperate with the administrators of the others and each contracting state agrees to furnish such aid and assistance to each other within its statutory authority as will aid in the proper enforcement of this agreement.

(h) Interpretation.

In any dispute between or among contracting states arising under this agreement, the final decision regarding interpretation of questions at issue relating to this agreement shall be reached by joint action of the contracting states, acting through its administrators, and shall upon determination be placed in writing.

(i) Effect of headings.

Article and section headings contained in this agreement shall not be deemed to govern, limit, modify or in any manner affect the scope, meaning, or intent of the provisions of any article or part of it.

(j) Entry into force.

This agreement shall enter into force and become binding between and among the contracting states when enacted or otherwise entered into by any two (2) states. Subsequently, it shall enter into force and become binding with respect to any state when enacted into law by that state. If the statutes of any state so authorize or provide, a state may become party to this agreement upon the execution of it by an executive or administrative official of the state acting on behalf of and for the state.

(a) Applicability.

Any owner of a fleet may register the buses of that fleet in any contracting state by paying to that other state the total registration fees in an amount equal to that obtained by applying the proportion of in-state fleet miles divided by the total fleet miles, to the total fees which would otherwise be required for regular registration of each and all of those vehicles in the other contracting state.

(1)

All fleet pro-rata registration fees shall be based upon the mileage proportions of the fleet during the period of twelve (12) months ending on August 31 next preceding the commencement of the registration year for which registration is sought. The mileage proportions for a fleet not operated during that period in the state where application for registration is made will be determined by the administrator upon the sworn application of the applicant showing the operations during that period in other states, and the estimated operations during the registration year for which registration is sought in the state in which application is being made. If no operations were conducted during such period a full statement of the proposed method of operation shall be used.

(2)

If any buses operate in two (2) or more states which permit the proration of registration on the basis of a fleet of buses consisting of a lesser number of vehicles than provided in article II(g), that fleet may be prorated as to registration in those states, in which event the buses in that fleet shall not be required to register in any other contracting states if each vehicle is registered in some contracting state except to the extent it is exempt from registration as provided in article III(b).

(3)

If the administrator of any state determines, based on his or her method of the operation, that the inclusion of a bus or buses as a part of a fleet would adversely affect the proper fleet fee which should be paid to his or her state, having due regard for fairness and equity, the administrator may refuse to permit any or all of those buses to be included in his or her state as a part of such fleet.

(b) Total fleet miles.

Total fleet miles, with respect to each contracting state, shall mean the total miles operated by the fleet (1) in such state, (2) in all other contracting states, (3) in other states having proportional registration provisions, (4) in states with which that contracting state has reciprocity, and (5) in those other states that the administrator determines should be included under the circumstances in order to protect or promote the interest of his or her state; except that in states having laws requiring proration on the basis of a different determination of total fleet miles, total fleet miles shall be determined on this basis.

(c) Leased vehicles.

If a bus is operated by a person other than the owner as a part of a fleet which is subject to the provisions of this article, then the operator of that fleet shall be deemed to be the owner of that bus for the purposes of this article.
(d) Extent of privileges.
Upon the registration of a fleet in a contracting state pursuant to this article, each bus in the fleet may be operated in both interstate and intrastate operations in that state except as provided in article III(e).
(e) Application for proration.
The application for proration of registration shall be made in each contracting state upon substantially the application forms and supplements authorized by joint action of the administrators of the contracting states.
(f) Issuance of identification.
Upon registration of a fleet, the state which is the base state of a particular bus of the fleet shall issue the required license plates and registration card for the bus and each contracting state in which the fleet (of which the bus is a part) operates shall issue a special identification identifying the bus as a part of a fleet which has fully complied with the registration requirements of that state. The required license plates, registration cards and identification shall be appropriately displayed in the manner required by or pursuant to the laws of each respective state.
(g) Additions to fleet.
If any bus is added to a prorated fleet after the filing of the original application, the owner shall file a supplemental application. The owner shall register the bus in each contracting state in like manner as provided for buses listed in an original application and the registration fee payable shall be determined on the mileage proportion used to determine the registration fees payable for buses registered under the original application.
(h) Withdrawals from fleet.
If any bus is withdrawn from a prorated fleet during the period for which it is registered or identified, the owner shall notify the administrator of each state in which it is registered or identified of that withdrawal and shall return the plates, and registration card or identification as may be required by or pursuant to the laws of the respective states.
(i) Audits.
The administrator of each contracting state shall, within the statutory authority of the administrator, make any information obtained upon an audit of records of any applicant for proration of registration available to the administrators of the other contracting states.
(j) Errors in registration.
If it is determined by the administrator of a contracting state, as a result of these audits or otherwise, that an improper fee has been paid that state, or if errors in registration are found, the administrator may require the fleet owner to make the necessary corrections in the registration of his or her fleet and payment of fees.
(a) Grant of reciprocity.
Each of the contracting states grants reciprocity as provided in this article.
(b) Applicability.
The provisions of this agreement with respect to reciprocity shall apply only to a bus properly registered in the base state of the bus, which state must be a contracting state.
(c) Non-applicability to fleet buses.
The reciprocity granted pursuant to this article shall not apply to a bus which is entitled to be registered or identified as part of a prorated fleet.
(d) Extent of reciprocity.
The reciprocity granted pursuant to this article shall permit the interstate operation of a bus and intrastate operation which is incidental to a trip of such bus involving interstate operation.
(e) Other agreements.
Nothing in this agreement shall be construed to prohibit any of the contracting states from entering into separate agreements with each other for the granting of temporary permits for the intrastate operation of vehicles registered in the other state; nor to prevent any of the contracting states from entering into agreements to grant reciprocity for intrastate operation within any zone or zones agreed, upon by the states.
Any contracting state may withdraw from this agreement upon thirty (30) days' written notice to any other contracting state, which notice shall be given only after the repeal of this agreement by the legislature of such state, if adoption was by legislative act, or after renunciation by the appropriate administrative official of the contracting state if the laws of that state empower the administrator so to renounce.
This compact shall be liberally construed so as to effectuate its purposes. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the applicability of it to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability of it to any government, agency, person, or circumstance shall not be affected by the invalidity. If this compact shall be held contrary to the constitution of any state participating in it, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the state affected as to all severable matters.

(a)
This chapter shall be liberally construed and applied to promote its remedial purposes and policies.
(b)
The purposes and policies of this chapter are:
(1)
To regulate agreements between suppliers and their wholesalers to benefit the economy and enhance competition in this state and to promote moderation and obedience to the laws of this state and the United States controlling the distribution and sale of malt beverages;
(2)
To protect wholesalers substantial initial and continuing investments of money, time and effort in their distributorships and to stimulate greater investment of those resources in these small businesses by assuring their continuation on a fair, equitable and nondiscriminatory basis;
(3)
To enhance competition in the malt beverage industry by:
(i)
Assuring the wholesaler is free to manage its business enterprise in the manner the wholesaler deems best, including the wholesaler's right independently to establish its selling prices, to determine the efforts and resources which the wholesaler will exert to promote and develop the sale of a supplier's products; and
(ii)
Assuring the public and suppliers that wholesalers will price competitively, devote reasonable efforts and resources to sales of all supplier's products marketed in this state and maintain satisfactory sales levels.
(4)
To govern all relations between suppliers and their wholesalers, including any renewals to agreements between them, to the full extent consistent with the constitutions of this state and the United States.
(c)
The effect of this chapter may not be varied by agreement. Any agreement purporting to do so is void and unenforceable to that extent only.

(2)
For the purposes of this chapter, the disregard of the risk, when viewed in light of the nature and purpose of the server's conduct and the circumstances known to him or her, must involve a gross deviation from the standard of conduct that a reasonable and prudent person would observe in the same situation.

Specific serving practices that are admissible as evidence of reckless conduct include, but are not limited to, the following:
(1)
Active encouragement of intoxicated individuals to consume substantial amounts of liquor;

§ 3-5-10. Residence of licensees and qualifications of persons and corporations as licensee.
(a)(1)
Except as otherwise provided, licenses are issued only to citizens who are residents of this state. It is not required that dining car companies, sleeping car companies, railroad companies operating in this state, or companies operating passenger-carrying marine vessels in this state be citizens of this state in order to be eligible to receive retailers' Class G licenses. Retailer's licenses may, however, be issued to corporations incorporated in any other of the United States which are authorized by the secretary of state to

transact business in this state.
(2)
Notwithstanding the provisions of subsection (a)(1) of this section, no license shall be issued, granted, renewed, or transferred to any trust or trustee or to any corporation of which any share or shares of stock or other indicia of ownership or control are owned or held by any trust, or trustee, business organization, or other entity or person other than a natural person or corporation authorized by the secretary of state to transact business in this state; provided, however, that this subsection shall not affect any grant, renewal, or transfer of a license which occurred prior to the effective date of this subsection [June 15, 2000].
(b)(1)
In applications for beverage licenses by corporations except those having more than twenty-five (25) stockholders, the names and addresses of all officers and members of the board of directors and of all stockholders shall be filed with the board, body, or official to whom application is made. No beverage license shall be issued to the corporation unless each officer, director or stockholder is a suitable person to hold a license within the discretion of the board, body or official to whom application is made.
(2)
All those corporations holding beverage licenses shall report to the board, body or official who issued the licenses the name of any newly elected officer or director and the acquisition by any person of more than ten percent (10%) of any class of corporate stock, within thirty (30) days after the election or acquisition. Thereupon, the board, body or official may call a hearing, at its discretion, to determine whether the new officer, director or stockholder is a suitable person under this section and the board, body or official may revoke or suspend the license if the new officer or director or stockholder is not a suitable person to hold a license.
(3)
No person shall acquire fifty percent (50%) or more of any class of the stock of any corporation licensed under this section, except corporations having more than twenty-five (25) stockholders, unless permission for the acquisition is first given by the board, body or official who issued the license. Application for permission to acquire stock is subject to the provisions of § 3-5-19 relating to the transfer of a license to another person except that it shall not be necessary that a new bond be given. Unless the board, body or official determines that the person seeking permission to acquire fifty per cent (50%) or more of the corporation’s stock is a suitable person to hold a license, the permission shall not be given.
(4)
The beverage license of a corporation is subject to suspension or revocation for failure to comply with any of the provisions of this section or for any fraud or misrepresentation in connection with the beverage license.
(c)
Applicants for beverage licenses shall make full disclosure in their applications for a license of any interest, whether direct or indirect, by any other person, firm or corporation in the license applied for, and failure to do so or any misrepresentation by the applicant may be cause for denial of the application or revocation of the license if granted by the board, body or official issuing the license.

§ 3-6-14.1. Pricing restrictions — Affirmation of price compliance.

(a)

No holder of a certificate of compliance for distilled spirits or vinous beverages shall ship, transport, or deliver within this state, or sell or offer for sale, to a wholesaler, any brand of distilled spirits or vinous beverages at a bottle or case price higher than the lowest price at which that item is then being sold or offered for sale or shipped, transported, or delivered by the holder of a certificate of compliance to any wholesaler in any other state of the United States or in the District of Columbia or to any state, including an agency of the state, which owns and operates retail liquor outlets.

(b)

Prior to the shipment of distilled spirits or vinous beverages, the holder of a certificate of compliance, or the authorized representative of the holder, shall file with the department a written affirmation under oath by the holder of the certificate of compliance certifying that at the time of filing the bottle or case price to the wholesaler is no higher than the lowest price at which each item of distilled spirits or vinous beverages is being sold, offered for sale, shipped, transported, or delivered by that holder to any wholesaler in any other state in the United States or in the District of Columbia, or to any state or agency of a state which owns and operates retail liquor outlets.

(c)

A holder of a certificate of compliance may file the affirmation required by this section once and may certify that the affirmation remains in full force and effect until amended as set forth in this title.

(d)

In determining the lowest price for which any item or distilled spirits or vinous beverages is or was sold, offered for sale, shipped, transported or delivered by the holder of a certificate of compliance to a wholesaler in any other state or in the District of Columbia or to any state or state agency which owns and operates retail liquor outlets, appropriate reductions will be made for all discounts, rebates, free goods, allowances and other inducements of any kind whatever offered or given to the wholesaler in another state or in the District of Columbia or to any state agency which owns and operates retail liquor outlets. Differentials in price which make only due allowances for differences in state taxes and fees and for the actual cost of delivery are permissible. As used in this section, "state taxes and fees" means the excise taxes imposed or the fees required by any state or the District of Columbia upon or based

upon a gallon of alcoholic liquor and “gallon” means one hundred twenty-eight (128) fluid ounces.
(e)
This section shall not preclude the holder of a certificate of compliance from lowering prices to any wholesaler in any other state of the United States or in the District of Columbia, or to any state or agency of a state which owns and operates retail liquor outlets at any time but notice of this change shall be set forth in an amendment to the affirmation on file in the office of the department. This amendment shall be under oath and shall be filed within ten (10) days from the date of this change in price.
(f)
The department shall enforce the provisions of this section and make any regulations that are necessary to carry out its provisions.

(b)

The holder must also furnish information concerning the brand, type of container, quantity, and other information that may be required by the department. The department is empowered to promulgate any rules and regulations that may be necessary for the enforcement of this subsection.
