Appeal from the decision of the district court may be taken to any court of competent appellate jurisdiction.

G. Any period of suspension or revocation under this Chapter shall begin upon receipt by the department of the operator's license or proof of its loss, upon the expiration of the operator's license, or thirty days after the date the notice of suspension is mailed to the licensee by the department, whichever occurs first.

H. Except as provided in Subsections I and J of this Section, upon the expiration of the period of the suspension or revocation of any license, the department shall return the license to the licensee or in its discretion may issue him a new license but only after a reinstatement fee of sixty dollars has been paid to the department and the requirements of

R.S. 32:896 relative to proof of financial responsibility have been satisfied. Ten dollars of this fee shall be appropriated annually by the legislature for emergency medical services (EMS) needs and expenses. The collecting agency shall make a monthly report of the EMS funds collected under this provision to the state treasurer. The legislature shall appropriate the total as follows: fifty percent to the Louisiana Department of Health for the operation of emergency medical services, forty-five percent to the governing authority of the parish or municipality of origin to be used for the governing authority's emergency medical services and public safety needs, and five percent to the Department of Public Safety and Corrections for expenses incurred in the administration of these fees.

I.(1) The reinstatement fee for a license of a person who has been convicted of or forfeited bond on or entered a plea of guilty or nolo contendere to a charge of operating a motor vehicle while under the influence of beverages of high alcoholic content, of low alcoholic content, of narcotic drugs, or of central nervous system stimulants shall be one hundred dollars if one conviction appears listed on his record prior to application for reinstatement; two hundred dollars if two such convictions appear on his record prior to application for reinstatement; and three hundred dollars for each conviction on his record after the second conviction prior to application for reinstatement, and the requirements of R.S. 32:896 relative to proof of financial responsibility have been satisfied.

(2) After deposit in the Bond Security and Redemption Fund under the provisions of Article VII, Section 9 of the Constitution of Louisiana, an amount equal to forty dollars of each reinstatement fee for a single conviction and ninety dollars of each reinstatement fee for two or more convictions is hereby dedicated to the Department of Public Safety and Corrections, public safety services, for traffic control and DWI programs and shall be appropriated by the legislature each year for that purpose.

(3) Ten dollars of the fee levied under the provisions of this Subsection shall be paid into the state general fund to be appropriated annually by the legislature for emergency medical services (EMS) needs and expenses. The collecting agency shall make a monthly report of the EMS funds collected under this provision to the state treasurer. The legislature shall appropriate the total as follows: fifty percent to the Louisiana Department of Health for the operation of emergency medical services, forty-five percent to the governing authority of the parish or municipality of origin to be used for the governing authority's emergency medical services and public safety needs, and five percent to the Department of Public Safety and Corrections for expenses incurred in the administration of these fees.

J. If the suspension or revocation was due to mental or physical infirmities or disabilities, when such physical infirmities or disabilities are not the result of alcohol or drug abuse, upon the expiration of the period of the revocation of the license, the department shall return the license to the licensee or in its discretion may issue him a new license but only after a reinstatement fee in an amount equal to the issuance fees provided in R.S. 32:412 has been paid to the department.

K.(1) When any person's driver's license has been seized, suspended, or revoked, and the seizure, suspension, or revocation is connected to a charge or charges of violation of a criminal law, and the charge or charges do not result in a conviction, plea of guilty, or bond

forfeiture, the person charged shall not be required to pay any reinstatement fee if at the time for reinstatement of driver's license, it can be shown that the criminal charges have been dismissed or that there has been a permanent refusal to charge a crime by the appropriate prosecutor or there has been an acquittal. If however, at the time for reinstatement, the licensee has pending against him criminal charges arising from the arrest which led to his suspension or revocation of driver's license, the reinstatement fee shall be collected. Upon subsequent proof of final dismissal or acquittal, other than under Articles 893 or 894 of the Code of Criminal Procedure, the licensee shall be entitled to a reimbursement of the reinstatement fee previously paid. In no event shall exemption from this reinstatement fee or reimbursement of a reinstatement fee affect the validity of the underlying suspension or revocation.

(2) If a licensee qualifies for the exemption from the reinstatement fee or for a reimbursement of the reinstatement fee as provided in Paragraph (1), the licensee shall receive credit for the unexpired portion of the license which was seized, and shall be exempt from the payment of, or shall receive reimbursement for the payment of, the duplicate license fee and the handling fee with regard to the license which was seized.

(3) Reinstatement under this provision does not apply to the commercial driver's license (CDL) disqualification of the license.

L. The department shall forthwith suspend the license of any person, for a period of ninety days, upon receiving satisfactory evidence of conviction, plea of guilty, or nolo contendere of any person charged with a violation of R.S. 14:333, if the court has ordered, as part of the sentence, the suspension of such person's driving privileges.

A.(1)(a) Notwithstanding any other law to the contrary, a person shall be disqualified from driving a commercial motor vehicle for committing any offense specified in this Section. The disqualification offenses apply to violations occurring in this or any other state

or in any foreign jurisdiction complying with the requirements of the Federal Motor Carrier Safety Administration for commercial motor vehicles. The department shall suspend, revoke, or cancel the commercial driving privileges of a person who is disqualified to drive pursuant to this Section. If the Federal Motor Carrier Safety Administration so provides, the department may establish procedures by which a driver with a lifetime disqualification under Paragraph (2) of this Subsection may apply to have the disqualification reduced to a period of not less than ten years and be eligible for reinstatement of commercial driving privileges. Any subsequent offense specified in Paragraph (2) of this Subsection shall disqualify the individual from commercial driving privileges for life. Such individual shall not be eligible for reinstatement. If a driver is suspended or revoked from operating a Class "D" or "E" motor vehicle, he shall also be disqualified from operating a commercial motor vehicle.

A disqualification shall be imposed even if the conviction is set aside or dismissed pursuant to any provision of the Code of Criminal Procedure unless the conviction is set aside or dismissed because of an appeal of the conviction. The disqualification shall become part of the individual's official operating record.

(ii) Whenever a person has been disqualified from driving a commercial motor vehicle, such person shall be issued a Class "D" or "E" driver's license upon expiration of any license suspension, revocation, or cancellation resulting from the disqualifying offense and provided his Class "D" or "E" driving privileges are otherwise valid. The license shall be valid for the duration of the disqualification of his commercial motor vehicle privileges. When the license becomes invalid, the licensee shall apply for a renewal of the license if he desires to retain his Class "D" or "E" driving privileges. The license shall not be issued until the licensee's commercial driver's license has been surrendered to the office of motor vehicles. The driving record shall reflect the class of license previously held. When the licensee's privilege to operate a commercial motor vehicle has been restored, his commercial driver's license shall be returned to him if it has not expired during the duration of the disqualification. The notice shall include the disqualification and the violation that caused the disqualification.

(b) Any notice of disqualification the department receives from another jurisdiction shall be included in a person's official operating record in accordance with the reporting requirements of the Federal Motor Carrier Safety Administration.

B.(1)(a) Notwithstanding any other law to the contrary or Subsection A of this Section, an operator of a commercial motor vehicle shall not have any measured alcohol concentration or any detected presence of alcohol or a controlled dangerous substance while operating or taking part in operating, or in physical control of, a commercial motor vehicle.

(b) For purposes of this Subsection, an out-of-service order means a declaration by an authorized enforcement officer of a federal, state, Canadian, Mexican, or local jurisdiction, declaring that a commercial motor vehicle driver, a commercial motor vehicle, or a motor carrier operation is out-of-service pursuant to 49 C.F.R. 386.72, 392.5, 395.13, or 396.9, or other compatible laws, or pursuant to the North American Uniform Out-of-Service criteria.

(2) The procedures for testing commercial motor vehicle operators for alcohol or controlled substances, and for reporting the results shall, with any appropriate modifications, be the same as for other drivers. The department may enact special provisions by regulation to take into account the unique requirements imposed by this Section. An officer need only have a reasonable belief that such a driver is under the influence of alcohol or drugs which may impair the driver's ability to safely drive to place him out-of-service. If a person operating a commercial motor vehicle refuses to submit to an alcohol concentration or drug test, the officer shall inform him that he may be disqualified from driving for the time periods specified in this Section and may be subject to stiffer criminal and civil penalties.

D.(1) Except as otherwise provided in this Section, the department shall notify, in accordance with the reporting requirement of the Federal Motor Carrier Safety Administration, the licensing entity of another jurisdiction when any driver licensed by that jurisdiction is convicted in Louisiana of a traffic control violation, other than a parking violation, under either of the following circumstances:

(a) Regardless of the type of vehicle in which the violation occurred, the person convicted holds a commercial driver's license.

(b) Regardless of the type of license the person convicted holds, the violation occurred in a commercial motor vehicle.

(2) Licensing entities in other jurisdictions shall notify, in accordance with the reporting requirement of the Federal Motor Carrier Safety Administration, the department when a person holding a Louisiana driver's license is convicted of a traffic control violation, other than a parking violation, under either of the circumstances described in Paragraph (1) of this Subsection. When the department receives notice as provided for in this Paragraph, the conviction shall become part of the driver's official operating record.

E.(1) Unless a longer suspension or disqualification period is provided for in Subsections A through D of this Section, a commercial driver's license applicant or holder shall be disqualified from operating a school bus for a period of ten years for the following:

(a) Conviction of driving under the influence of alcohol or a controlled substance while operating a commercial motor vehicle or noncommercial motor vehicle.

(b) Refusal to submit to a chemical test for the purpose of determining the alcoholic content of his blood when arrested for an offense arising out of acts alleged to have been

committed while the driver was driving or in actual physical control of a commercial motor vehicle or noncommercial motor vehicle while believed to be under the influence of alcoholic beverages or a controlled substance.

(2) Upon application of the driver, the department may reinstate the "S" endorsement if the driver meets all of the following conditions:

(b) The driver has not refused to submit to a chemical test for the purpose of determining the alcoholic content of his blood when arrested for an offense arising out of acts alleged to have been committed while the driver was driving or in actual physical control of a commercial motor vehicle or noncommercial motor vehicle while believed to be under the influence of alcoholic beverages or a controlled substance for a period of five years after the disqualifying offense or refusal.

(c) The driver has successfully completed medical treatment or medically approved group therapy or special education courses for or about the disease of alcoholism, alcohol abuse, or drug abuse, in a suitable public or private institution or program approved by the appropriate state authority following the disqualifying offense or refusal.

F.(1)(a) If the office of motor vehicles receives credible information that a holder of a commercial license plate or commercial driver's license is suspected, but has not been convicted, of fraud related to the issuance of the commercial license plate or commercial driver's license, the office of motor vehicles shall require the driver to retake the skills or knowledge test, or a combination of both tests.

Additionally, evidence of his refusal shall be admissible in any criminal action or proceeding arising out of acts alleged to have been committed while the person under twenty-one years of age was driving or in actual physical control of a motor vehicle upon the public highways of this state after having consumed alcoholic beverages. However, such evidence shall not be admissible in a civil action or proceeding other than to suspend, revoke, or cancel his driving privileges.

(3) In all cases where a person is under arrest for a violation of R.S. 14:98, 98.6, or other law or ordinance that prohibits operating a vehicle while intoxicated who refuses to submit to a chemical test or tests if he has refused to submit to a chemical test on two previous and separate occasions of any previous such violation shall be advised that the consequences of such refusal shall be subject to criminal penalties under the provisions of R.S. 14:98.7.

B. In each instance that a person submits or refuses to submit to a chemical test, after being advised of the consequences of such refusal or submission as provided for in R.S. 32:661(C), the officer shall submit a report in a form approved by the secretary. The officer

shall certify that the officer had reasonable grounds to believe that the arrested person had been driving or was in actual physical control of a motor vehicle upon the public highways of this state while under the influence of alcoholic beverages, any drug, combination of drugs, or combination of alcohol and drugs; that the officer had followed the procedure in informing such person of his rights under R.S. 32:661(C); and that such person had submitted to the test or refused to submit to the test upon the request of the officer. In the case of a submission to the test, the officer shall provide complete information regarding the test as may be available at the time that the certified report is completed.

C. In cases where electronic signatures are used, the officer shall affix his electronic signature to the report in the manner approved by the Department of Public Safety and Corrections.

D. Repealed by Acts 2022, No. 393, §1.

RS 32:667 — Seizure of license; circumstances; temporary license

r municipal ordinance that prohibits operating

a vehicle while intoxicated, and the person either refuses to submit to an approved chemical test for intoxication, or submits to the test and the test results show a blood alcohol level of 0.08 percent or above by weight or, if the person is under the age of twenty-one, a blood alcohol level of 0.02 percent or above by weight, the following procedures shall apply:

(1) The officer shall seize the driver's license of the person under arrest and shall issue in its place a temporary receipt of license on a form approved by the Department of Public Safety and Corrections. Such temporary receipt shall authorize the person to whom it has been issued to operate a motor vehicle upon the public highways of this state for a period not to exceed thirty days from the date of arrest or as otherwise provided herein.

(2)(a) The temporary receipt shall also provide and serve as notice to the person that he has not more than thirty days from the date of arrest to make written request to the Department of Public Safety and Corrections for an administrative hearing in accordance with the provisions of R.S. 32:668.

(b) In the event the arrested person was unable to make a timely request for an administrative hearing during the thirty day period provided for in Subparagraph (a) of this Paragraph due to incarceration, hospitalization, or any other cause acceptable to the department, the person may submit such documentation to the department which shall establish the person's inability to timely request the administrative hearing. Any request for an administrative hearing pursuant to this Subparagraph shall be submitted no later than ninety days from the date of arrest. The department shall promulgate such rules as are necessary to implement this Subparagraph including a rule defining what is acceptable documentation to establish the person's inability to make a timely request for an administrative hearing. The denial of an administrative hearing request made pursuant to this Subparagraph may be reviewed in the same manner and under the same conditions as is provided in R.S. 32:668(C).

(3) In a case where a person submits to an approved chemical test for intoxication, but the results of the test are not immediately available, the law enforcement officer shall comply with Paragraphs (1) and (2) of this Subsection, and the person shall have thirty days

from the date of arrest to make written request for an administrative hearing. If after thirty days from the date of arrest the test results have not been received or if the person was twenty-one years of age or older on the date of arrest and the test results show a blood alcohol level of less than 0.08 percent by weight, then no hearing shall be held and the license shall be returned without the payment of a reinstatement fee. If the person was under the age of twenty-one years on the date of arrest and the test results show a blood alcohol level of less than 0.02 percent by weight, then no hearing shall be held and the license shall be returned without the payment of a reinstatement fee.

(4) If the vehicle is operable and a passenger in the vehicle who is not under the influence of alcohol has a valid driver's license, the officer shall allow the passenger to take control of the vehicle and shall not order or procure towing services for the vehicle. If the vehicle does not create a hazard or obstruction to traffic and the motoring public, and if there is no passenger in the vehicle who possesses a valid driver's license and who is not under the influence of alcohol, the officer, before ordering or procuring towing services, shall allow the arrestee a reasonable time and opportunity to contact another person to take possession or control of the vehicle on behalf of the arrestee. Reasonable time to notify and take possession of the vehicle shall be in the sole discretion of the officer. However, the law enforcement agency, the law enforcement officer, the state, and the political subdivision shall not be liable for damages, injuries, or deaths occasioned by the vehicle not being towed immediately or by another person taking possession or control of the vehicle on behalf of the arrestee. If a law enforcement officer violates the provisions of this Paragraph, his employing agency rather than the arrestee shall be responsible for the payment of any towing charges incurred.

B. If written request is not made by the end of the thirty-day period, the person's license shall be suspended as follows:

(1)(a) If the person submitted to the test and the test results show a blood alcohol level of 0.08 percent or above by weight, his driving privileges shall be suspended for one hundred eighty days from the date of suspension on first offense violation and for three hundred sixty-five days from the date of suspension on second and subsequent violations occurring within five years of the first offense. If the person was under the age of twenty-one years on the date of the test and the test results show a blood alcohol level of 0.02 percent or above by weight, his driving privileges shall be suspended for one hundred eighty days from the date of suspension.

(b) If the person submitted to the test and the test results show a blood alcohol level of 0.15 percent or above by weight, his driving privileges shall be suspended for two years from the date of suspension on first offense violation and for four years from the date of suspension for second offense violation.

(2) If the person refused to submit to the test, his driving privileges shall be suspended as follows:

(a) Except as otherwise provided in this Paragraph, one year from the date of suspension on a refusal.

(b) One year, without benefit of eligibility for a hardship license, in the event that a

fatality occurred or a person sustained serious bodily injury as a result of an accident and the person's intoxication is determined by a trier of fact to be the contributing factor of the fatality or serious bodily injury.

(c)(i) Two years from the date of suspension on the second and subsequent refusal occurring within ten years of the date of a refusal to submit to the test.

(ii) Two years from the date of suspension on the second and subsequent refusal occurring within ten years of the date of a refusal to submit to the test, without the benefit of eligibility for a hardship license in the event that a fatality occurred or a person sustained serious bodily injury as a result of an accident and the person's intoxication is determined by a trier of fact to be the contributing factor of the fatality or serious bodily injury.

(3)(a) However, any licensee who has had his license suspended for a first or second offense of operating a motor vehicle while under the influence of alcoholic beverages under the provisions of this Subsection and who either refused to submit to the test or who submitted to the test and the test showed a blood alcohol level of less than 0.15 percent shall, upon proof to the Department of Public Safety and Corrections that his motor vehicle has been equipped with a functioning ignition interlock device, be immediately eligible for and shall be granted a restricted license. In the event that the department fails or refuses to issue the restricted driver's license, the district court for the parish in which the licensee resides may issue an order directing the department to issue the restricted license either by ex parte order or after contradictory hearing.

(b) If the person submitted to the test as a result of a first violation and the test results show a blood alcohol level of 0.15 percent or above by weight, the person shall be eligible for a hardship license during the entire period of the imposed two-year suspension after the person has provided proof that his motor vehicle has been equipped with an ignition interlock device. A functioning ignition interlock device shall remain installed on his motor vehicle during the period of his driver's license suspension.

(c) If the person submitted to the test as a result of a second violation and the test results show a blood alcohol level of 0.15 percent or above by weight, the person shall be eligible for a hardship license during the entire four-year period of the suspension after the person has provided proof that his motor vehicle has been equipped with an ignition interlock device. A functioning ignition interlock device shall remain installed on his motor vehicle during the four-year period of his driver's license suspension.

(4) For the purposes of this Section, driving privileges shall include, but not be limited to, the operation or physical control of a watercraft upon the waterways of this state. Any suspension or revocation of driving privileges provided for in this Section shall also prohibit the operation or physical control of a watercraft upon the waterways of this state during the time period of the suspension or revocation.

C. The department shall develop a uniform statewide form for temporary receipt of licenses which shall be used by all state and local law enforcement officials. This form, or a separate form, shall be issued to the person arrested to provide a means for him to request an administrative hearing.

D.(1) Upon receipt of a request for an administrative hearing, the Department of

Public Safety and Corrections shall issue a document extending the temporary license, which shall remain in effect until the completion of administrative suspension, revocation, or cancellation proceedings. The Department of Public Safety and Corrections shall forward the record of the case to the division of administrative law for a hearing within sixty days of the receipt of the written request for an administrative hearing.

(2) Oversight review of rules and regulations promulgated by the secretary under the provisions of this Part shall be conducted by the House Committee on Transportation, Highways and Public Works and the Senate Committee on Transportation, Highways and Public Works.

E. The division of administrative law shall provide for a hearing to determine suspension or revocation of driving privileges. A continuance may be granted for good cause shown.

F. When a license has been suspended under the provisions of this Section and the person is also convicted of or pleads guilty to an offense arising out of the same occurrence, any suspension of license imposed for such offense shall run concurrently with the suspension provided by this Section and the total period of suspension shall not exceed the longer of the two periods.

G. Notwithstanding the provisions of any other law, any person whose license has been suspended under the provisions of this Section, shall, after completion of the period of suspension, be required to pay a reinstatement fee of fifty dollars to the department for the return of his license.

H.(1)(a) When any person's driver's license has been seized, suspended, or revoked, and the seizure, suspension, or revocation is connected to a charge or charges of violation of a criminal law, and the charge or charges do not result in a conviction, plea of guilty, or bond forfeiture, the person charged shall have his license immediately reinstated and shall not be required to pay any reinstatement fee if at the time for reinstatement of driver's license, it can be shown that the criminal charges have been dismissed or that there has been a permanent refusal to charge a crime by the appropriate prosecutor or there has been an acquittal. If, however, at the time for reinstatement, the licensee has pending against him criminal charges arising from the arrest which led to his suspension or revocation of driver's license, the reinstatement fee shall be collected. Upon subsequent proof of final dismissal or acquittal, other than under Code of Criminal Procedure Article 893 or 894, the licensee shall be entitled to a reimbursement of the reinstatement fee previously paid. In no event shall exemption from this reinstatement fee or reimbursement of a reinstatement fee affect the validity of the underlying suspension or revocation.

(b) When any person's driver's license has been suspended in connection to a first offense violation of R.S. 14:98, the office of motor vehicles shall suspend the person's driver's license consistent with the blood alcohol concentration reflected in the final case disposition and sentencing minutes. The administrative suspension for any chemical test submission shall be updated to be consistent with the blood alcohol concentration reflected in the final case disposition and sentencing minutes.

(2) If a licensee qualifies for the exemption from the reinstatement fee or for a

reimbursement of the reinstatement fee as provided in Paragraph (1) of this Subsection, the licensee shall receive credit for the unexpired portion of the license which was seized, and shall be exempt from the payment of, or shall receive reimbursement for the payment of, the duplicate license fee and the handling fee with regard to the license which was seized.

(3) Paragraph (1) of this Subsection shall not apply to a person who refuses to submit to an approved chemical test upon a second or subsequent arrest for R.S. 14:98 or 98.6, or a parish or municipal ordinance that prohibits driving a motor vehicle while intoxicated. However, this Paragraph shall not apply if the second or subsequent arrest occurs more than ten years after the prior arrest. The department's records of arrests made for operating a vehicle while intoxicated, as certified by the arresting officer pursuant to R.S. 32:666(B), shall be used to determine the application of the provisions of this Paragraph. In the event the suspension arising out of such arrest has been reversed or recalled including any reversal or recall as a result of an administrative hearing or judicial review, then that arrest related to that suspension shall not be used to determine if this Paragraph applies to a driver's license reinstatement.

I.(1) In addition to any other provision of law, an ignition interlock device shall be installed in any motor vehicle operated by any of the following persons whose driver's license has been suspended in connection with the following circumstances as a condition of the reinstatement of such person's driver's license:

(a) Any person who has refused to submit to an approved chemical test for intoxication, after being requested to do so, for a first, second, or subsequent arrest of R.S. 14:98 or 98.6 or a parish or municipal ordinance that prohibits operating a vehicle while intoxicated and whose driver's license has been suspended in accordance with law.

(b) Any person who has submitted to an approved chemical test for intoxication where the results indicate a blood alcohol level of 0.08 percent or above and whose driver's license has been suspended in accordance with the law for an arrest occurring within ten years of the first arrest.

(c) Any person who is arrested for a violation of R.S. 14:98, 98.6, or a parish or municipal ordinance that prohibits operating a vehicle while intoxicated and is involved, as a driver, in a traffic crash which involves moderate bodily injury or serious bodily injury as defined in R.S. 32:666(A).

(d) Any person who is arrested for a violation of R.S. 14:98, 98.6, or a parish or municipal ordinance that prohibits operating a vehicle while intoxicated and a minor child twelve years of age or younger was a passenger in the motor vehicle at the time of the commission of the offense.

(2) As to any person enumerated in Paragraph (1) of this Subsection, the ignition interlock device shall remain on the motor vehicle for a period of not less than six months. The ignition interlock device may be installed either prior to the reinstatement of the driver's license, if the person has lawfully obtained a restricted driver's license, or as a condition of the reinstatement of the driver's license. When the driver's license is suspended as described in this Subsection, the ignition interlock device shall remain on the motor vehicle for the same period as the suspension, with credit for time when the interlock device was installed

and functioning as part of a restricted driver's license, or with credit for time when the ignition interlock device is monitored in accordance with R.S. 32:378.2(M).

(3) The provisions of this Subsection shall not abrogate any other provision of law regarding the installation and maintenance of ignition interlock devices.

(4) When an ignition interlock device is required as a condition of reinstatement, the office of motor vehicles shall designate a restriction code and place such code on the license of a driver who is required to have an ignition interlock installed and maintained as a condition of reinstatement.

(5) The department's records of arrests made for operating a vehicle while intoxicated, as certified by the arresting officer pursuant to R.S. 32:666(B), shall be used to determine the application of the provisions of this Subsection. In the event the suspension arising out of such arrest has been reversed or recalled, then that arrest related to that suspension shall not be used to determine if this Subsection applies to a driver's license reinstatement.

J. Upon notice to the department that a driver has prematurely removed or disabled, or caused to be prematurely removed or disabled, an ignition interlock device required as condition of reinstatement pursuant to Subsection I of this Section, the department shall mail notice to the driver that his license is suspended until such time as the department receives sufficient proof that the driver has had the ignition interlock device properly reinstalled and paid all applicable reinstatement fees. Upon reinstatement, the driver shall receive credit only for the time period when the ignition interlock device was installed and functioning.

RS 32:667.1 — Seizure of license upon arrest for vehicular homicide; issuance of temporary license;

. 14:32.1 (vehicular homicide), and a certificate of arrest has not already been submitted to the office of motor vehicles pursuant to R.S. 32:666(B) for a submission or refusal to submit to the chemical test, the following procedure shall apply:

(1) The officer shall seize the driver's license of a person under arrest and shall issue in its place a temporary receipt of license on a form approved by the Department of Public Safety and Corrections. The temporary receipt shall authorize the person to whom it has been issued to operate a motor vehicle upon the public highways of this state for a period not to exceed thirty days from the date of arrest or until the hearing can be conducted as provided for in this Section, whichever occurs first.

(2) The temporary receipt shall also serve as notice to the person under arrest that he has fifteen days from the date of arrest to make a written request to the court for a contradictory hearing in accordance with the provisions of this Section.

B. If a written request is not made within the fifteen-day period, the person's license shall be suspended for one year, without benefit of eligibility for a hardship license.

C.(1) Upon receipt of a request for a contradictory hearing, the court shall issue a document extending the temporary license, which shall remain in effect until the completion of the suspension proceedings.

(2) The court shall conduct a contradictory hearing to determine whether a chemical test has been performed of the blood, urine, or other bodily substance of the person arrested and whether the test indicates the presence of alcohol, any drug, or any combination of drugs.

The scope of the hearing shall be limited to the issues provided for in this Paragraph.

(3) If the court determines that the test provided for in Paragraph (2) of this Subsection indicates the presence of alcohol, any drug, or any combination of drugs, then the court shall suspend the driver's license of any person arrested for a violation of R.S. 14:32.1 (vehicular homicide) for one year, without benefit of a hardship license.

D.(1) If the person is convicted of the crime of vehicular homicide, his license shall be suspended for a period of two years following his release from incarceration with credit for the time in which the license was suspended prior to conviction.

(2) If the charge of vehicular homicide does not result in a conviction, plea of guilty, or bond forfeiture, the person charged shall have his license immediately reinstated and shall not be required to pay any reinstatement fee if, at the time for reinstatement of driver's license, it can be shown that the criminal charges have been dismissed, there has been a permanent refusal to charge a crime by the appropriate prosecutor, or there has been an acquittal.

E. The court shall notify the Department of Public Safety and Corrections when it has suspended a license or taken any other action pursuant to the provisions of this Section.

RS 32:668 — Procedure following revocation or denial of license; hearing; court review; review of operating privilege

of any person or upon determining that the issuance of a license or permit shall be denied to the person, the Department of Public Safety and Corrections shall immediately notify the person in writing and upon his request shall afford him an opportunity for a hearing based upon the department's records or other evidence admitted at the hearing, and in the same manner and under the same conditions as is provided in R.S. 32:414 for notification and hearings in the case of suspension of licenses, except that no law enforcement officer shall be compelled by such person to appear or testify at such hearing, and there shall be a rebuttable presumption that any inconsistencies in evidence submitted by the department and admitted at the hearing shall be strictly construed in favor of the person regarding the revocation, suspension, or denial of license. The scope of such a hearing for the purposes of this Part shall be limited to the following issues:

(1) Whether a law enforcement officer had reasonable grounds to believe that the person, regardless of age, had been driving or was in actual physical control of a motor vehicle upon the public highways of this state, or had been driving or was in actual physical control of a motor-powered watercraft upon the public navigable waterways of this state, while under the influence of either alcoholic beverages or any drug, combination of drugs, or combination of alcohol and drugs.

(2) Whether the person was placed under arrest.

(3) Whether he was advised by the officer as provided in R.S. 32:661.

(4) Whether he voluntarily submitted to an approved chemical test and whether the test resulted in a blood alcohol reading of 0.08 percent or above by weight, or of 0.02 percent or above if he was under the age of twenty-one years on the date of the test.

(5) Whether he refused to submit to the test upon the request of the officer.

(6) Such additional matters as may relate to the legal rights of the person, including

compliance with regulations promulgated by the Department of Public Safety and Corrections and rights afforded to the person by law or jurisprudence.

B.(1)(a) In a case of first or second refusal, or a first or second submission to a test for intoxication, if suspension is otherwise proper, upon a showing of proof satisfactory to the department that an approved and functioning ignition interlock device has been installed in the vehicle the person shall drive, and that the suspension of driving privileges would prevent the person from earning a livelihood, the department may:

(i) Require the licensee to surrender his regular license and issue in its stead at a cost to the person of fifty dollars plus the cost of the license a special restricted operator's license designated as such by a large red R printed on the face of the license, to be effective for the remaining period of suspension.

(ii) Designate in writing, and upon application of the person to amend as necessary, the routes over which and the times during which the restricted licensee shall be permitted to operate designated motor vehicles in order to earn his livelihood, which written restrictions shall be attached to the restricted license and kept with it at all times.

(b) No person who has refused a chemical test for intoxication is eligible for a restricted license for the first ninety days of the suspension. When a person submits to a chemical test and the results show a blood alcohol level of 0.08 percent or above by weight, or of 0.02 percent or above if the person was under the age of twenty-one years on the date of the test, he is not eligible for a restricted license for the first thirty days of the suspension.

(c) However, any licensee who has had his license suspended for a first or second offense of operating a motor vehicle while under the influence of alcoholic beverages under the provisions of this Subsection, shall, upon proof of need to the Department of Public Safety and Corrections, be immediately eligible for and shall be issued an ignition interlock restricted license sufficient to maintain livelihood or allow the licensee to maintain the necessities of life. In the event that the department fails or refuses to issue the restricted driver's license, the district court for the parish in which the licensee resides may issue an order directing the department to issue the ignition interlock restricted license either by ex parte order or after contradictory hearing.

(2) However, the department shall immediately cancel and seize the restricted license upon receiving satisfactory evidence of violation of the restrictions, and no person shall have driving privileges of any kind for a period of six months from the receipt by the department of the cancelled restricted license.

C.(1) After a person has exhausted his remedies with the department, he shall have the right to file a petition in the appropriate court for a review of the final order of suspension or denial by the Department of Public Safety and Corrections in the same manner and under the same conditions as is provided in R.S. 32:414 in the cases of suspension, revocation, and cancellation of licenses. The court in its review of the final order of suspension or denial by the Department of Public Safety and Corrections may exercise any action it deems necessary under the law including ordering the department to grant the person restricted non-commercial driving privileges where appropriate as provided in Subsection B of this Section.

(2) Upon filing a petition for review, the licensee shall serve the Department of

Public Safety and Corrections with a copy of the petition and summons. Upon receipt of a copy of the petition for review, the department shall issue the licensee driving privileges, which shall be valid until the decision on the petition for review is final. The court on its own motion, or on the motion of either party, may modify or vacate such driving privileges upon a showing of good cause.

D. Any person who has his license suspended, revoked, or is subject to installation of an ignition interlock device pursuant to R.S. 32:667(I) or R.S. 14:98, 98.1, 98.2, 98.3, or 98.4 shall receive credit for the time period of which the ignition interlock device was installed.

B. When it has been finally determined that a nonresident's privilege to operate a motor vehicle in this state has been suspended, the Department of Public Safety shall give information in writing of the action taken to the motor vehicle administrator of the state of the person's residence and of any state in which he has a license.

The law enforcement agency by which such officer is employed shall designate in writing under what conditions the test or tests shall be administered.

C. In the case of all traffic or boating fatalities, the coroner or his designee shall perform or cause to be performed a toxicology screen on the deceased victim or victims for determining evidence of the presence of any drug, combination of drugs, or any other impairing substance which shall include the extracting of all bodily substance samples necessary for such toxicology screen. The coroner or his designee shall be responsible for ensuring that the body is not removed from his custody until such time as the bodily substance samples are extracted. The coroner's report shall be made available to the investigating law enforcement agency and may be admissible in any court of competent jurisdiction as evidence of the presence of any drug, combination of drugs, or any other impairing substance at the time of the fatality. Nothing in this Subsection shall be construed to limit the authority of the investigating law enforcement agency from conducting an investigation of the accident scene concurrently with the coroner or his designee.

D. Any chemical test or tests of a person's blood, urine, or other bodily substance for the purpose of determining the presence of any drug, combination of drugs, or any other impairing substance shall be administered in the same manner and subject to the provisions of Part XIV of this Chapter.

(ii) Determine that the insured is over fifty percent at fault in any accident shown on the abstract.

(iii) Provide to the insured a notice in writing that the insured has a right to appeal the determination of fault by requesting a hearing before the Department of Public Safety and Corrections. The notice shall contain the procedure for requesting the hearing and the address to which the request is to be transmitted.

(b) Should the insured not agree that the insured is over fifty percent at fault, the insured may appeal the matter to the Department of Public Safety and Corrections for determination. The department shall provide notice of the hearing to the insured, to the insurance company of the insured, and to each person who suffered personal injury or

property damage as a result of the accident. The notice shall be transmitted by first class mail to the last known address of the person.

(c) The Department of Public Safety and Corrections shall notify the insured and insurance company of their findings. If the Department of Public Safety and Corrections finds the insured not over fifty percent at fault in the accident, the insurance company shall remove any additional premium charged to the insured for that accident.

(4) Whenever it is determined that the person is not over 50% at fault, the department shall note such finding on the person's operating record.

(5) No insurance company shall increase an insured's premium for an accident in which he was not over 50% at fault.

(6)(a) The provisions of this Subsection shall not apply to accidents involving publicly owned emergency vehicles operated by any public safety or law enforcement officer, whether fulltime, parttime, or volunteer, including but not limited to firefighters in the employ of any municipality, parish or fire protection district; deputy sheriffs; municipal police officers; officers of the Louisiana State Police; officers of the enforcement division of the Department of Wildlife and Fisheries; and emergency medical vehicle operators with respect to accidents in which these persons are involved while engaged in the operation of a publicly owned emergency vehicle in the course and scope of their employment.

(b) No accident involving the operation of a publicly owned emergency vehicle by any of the persons described in this Paragraph shall be included on the individual officer's operating record nor shall any insurance company increase the premium on that person's privately owned vehicle because of that accident.

B. Notwithstanding any other fees as stipulated herein, the fee for furnishing motor vehicle reports that are derived from computer generated requests shall not exceed sixteen dollars for records from all sources.

C. When any person files a form, or furnishes information, which is provided for under this Chapter, and the person was not at that time required by law to file the form or furnish the information, that person may request that the form, and all of the information contained in the form, and any other information furnished by him be withdrawn from the files maintained by the commissioner. If the commissioner determines that the law as it existed at that time did not require the form to be filed, or the information to be submitted, he shall return the form to the person who filed it and shall delete from the files of the commissioner any information concerning the form and any other information furnished by that person.

From the proceeds of the sale the state treasurer shall, after paying the expenses thereof, satisfy the execution as hereinbefore provided when a cash deposit has been made.

(2) The haulers are covered under a general liability policy, issued by an insurance company authorized to do business in the state, with liability coverage and limits equal to or greater than those defined in R.S. 32:900(B)(2), and such proof of the coverage is provided to the secretary as he may, by rule, require.

E.(1) The owners of motor vehicles registered in other states or jurisdictions that require liability security shall maintain the security and proof thereof as required by their respective state or jurisdiction while the vehicle is operated in this state. Such notice shall set forth the date upon which the vehicle will no longer be in use, the intended period of nonuse, and the storage address of the vehicle. The owner shall attach a copy of any orders or other documentation that substantiates nonuse of the vehicle due to service out-of-state in the uniformed services.

B. An exemption pursuant to Subsection A of this Section terminates on the final date of nonuse as set forth in the notice or upon a subsequent report of liability security on the vehicle to the office of motor vehicles, whichever occurs first.

RS 32:861.2 — Waive penalty, procedure, or requirement; authority

assessment of a penalty, procedure, or requirement to the contrary for a registered owner's failure to maintain compulsory motor vehicle liability security, the commissioner of the Department of Public Safety and Corrections, public safety services, office of motor vehicles, may waive any penalty, procedure, or requirement if the motor vehicle liability security expired or cancelled when the motor vehicle's principal driver was the registered owner or owner's spouse or child who was in the hospital or has died, and the registered owner presents proof of such exceptional circumstance to the commissioner.

RS 32:862 — Proof of compliance

and the rules adopted under that law.

B.(1) The commissioner shall adopt rules to implement the provisions of this Section. The rules shall provide that documentation of insurance or other security shall be required for proof of compliance. The rules shall require that the original, a photocopy, or an image displayed on a mobile electronic device, of one of the following documents be produced as documentation of insurance: an insurance card; an insurance policy; or the declarations page of the insurance policy showing coverages. The rules shall require insurance and security companies to issue cards or similar documents, or an image of the card or similar documents capable of being displayed on a mobile electronic device, which indicate the existence of insurance or security coverage, may establish the form for the cards or similar documents, and may establish the form for the written declarations required by this Section.

(2) The provisions of this Subsection with regard to the documentation of insurance requirements shall not apply to new and used automobile dealers as defined by law. However, the rules shall provide for the use of affidavits to prove compliance when registration is sought by a licensed new or used motor vehicle dealer on behalf of a customer.

(3) The provisions of this Subsection shall not apply to renewals of registration by mail.

C. Each person who applies for the registration of a motor vehicle, or who applies for the renewal of a registration of a motor vehicle, or who applies for a motor vehicle inspection certificate shall provide proof of compliance and shall declare in writing that the applicant will remain in compliance during the time for which the registration, the renewal of registration, or the certificate is issued.

D. Each adult person who applies for a driver's license shall:

(1) Provide proof of compliance and declare in writing that the applicant will remain in compliance during the time for which the license is issued; or

(2) Declare in writing that the applicant does not own a motor vehicle which is currently registered or licensed in this state or any other state or in any territory.

E. When a minor person applies for a driver's license, the parent or guardian who has custody of the minor applicant shall:

(1) Provide proof of compliance for both the minor applicant and the parent or guardian, and declare in writing that the minor applicant and the parent or guardian will remain in compliance during the time for which the license is issued; or

(2) Declare in writing that the parent or guardian does not own a motor vehicle which is currently registered or licensed in this state or in any other state or in any territory.

F. As used in Subsections D and E of this Section, an application for a driver's license includes an initial application, an application for renewal, and an application for reissue to change the address of the applicant, to change any other information concerning the applicant, or to change the endorsements held by the applicant.

G. The prohibited actions and penalties for violations thereof are as follows:

(1) No person shall provide false or fraudulent information, documentation, or images or make false or fraudulent representations in connection with any application for the registration of a motor vehicle, or for a renewal of a registration of a motor vehicle, or for a motor vehicle inspection certificate, or for a driver's license.

(2) No person shall make a false declaration or execute a false affidavit in response to the requirements of this Section.

(3) No person shall alter or counterfeit any card or similar document, or produce or use a false or fraudulent image on a mobile electronic device, to show proof of compliance.

(5) When the commissioner finds that any person has violated the provisions of this Subsection, the commissioner may suspend, revoke, or cancel the driver's license held by the offender and may suspend, revoke, or cancel the registration of each motor vehicle owned by the offender.

H. No action taken by any person, whether private citizen or public officer or employee, with regard to any license, registration, or inspection certificate, or with regard to any document or electronic image which indicates compliance with this Part, shall create a presumption of the existence of insurance coverage, or be construed by any court as a warranty of the reliability or accuracy of the document or electronic image, or create any liability on the part of the state, or on the part of any department, office, or agency of the state, or on the part of any officer, employee, or agent of the state.

I. The display of an image of the insurance card on a mobile electronic device shall not serve as consent for a law enforcement officer, or any other person, to access other contents of the mobile electronic device in any manner other than to verify the image of the insurance card.

J.(1) A court of competent jurisdiction may require a person to produce a paper copy of the insurance identification card in any hearing or trial or in connection with discovery.

(2) The commissioner may require a person to produce a paper copy of the insurance identification card in connection with any inquiry or transaction conducted by, or on behalf of, the commissioner.

(2) Should the secretary determine that any person, whether in his application for registration of a motor vehicle or in his application for a motor vehicle inspection or otherwise, has submitted false information that the motor vehicle was covered by the security required by Section 861 of this Part, the secretary shall impose upon the owner or owner's

lessee the sanctions set forth in Subsection (A)(1), but for a longer minimum period, as set forth hereinafter.

(3)(a) Sanctions for a violation of Paragraph (1) of this Subsection shall be imposed until proof of required liability security is provided to the secretary and all reinstatement fees are paid. Sanctions for a violation of Paragraph (2) of this Subsection shall be imposed for a period of not less than twelve months nor more than eighteen months. However, in no event shall these sanctions be removed until such time as proof of the required security is provided to the secretary along with all appropriate fees required by law, including a reinstatement fee of one hundred dollars per violation of Paragraph (1) of this Subsection if the vehicle was not covered by the required security for a period of one to thirty days, two hundred fifty dollars if the vehicle was not covered by required security for a period of thirty-one to ninety days, and five hundred dollars if the vehicle was not covered by required security for a period in excess of ninety days. No reinstatement fee shall be imposed by the secretary if the vehicle was not covered by required security for a period of ten days or less and the insured surrenders the vehicle's license plate to the secretary within ten days or if the violation is the insured's first violation pursuant to Paragraph (1) of this Subsection and the lapse of insurance coverage was for ten days or less, provided that immediate notice of the cancellation is given within one to five days before issuing the violation. In addition, notice shall be transmitted to the insured through any digitized credentials established pursuant to R.S. 39:17.2(D) within one to five days before issuing the violation. The reinstatement fees for violations of Paragraph (2) of this Subsection shall be as follows: two hundred fifty dollars for a first violation, five hundred dollars for a second violation, and one thousand dollars for a third or subsequent violation. The reinstatement fee shall not be owed for an alleged violation of Paragraph (2) of this Subsection when proof of the required security is provided to the secretary within sixty days of the date of the notice. If at the time of reinstatement, a person has multiple violations and is within sixty days of the notice, the total amount of fees to be paid shall not exceed eight hundred fifty dollars for violations of Paragraph (1) of this Subsection and one thousand seventy-five dollars for violations of Paragraph (2) of this Subsection. At no time shall the total amount of fees, including administrative fees, exceed two hundred fifty dollars for persons sixty-five years or older. After sixty days of the date of the notice, all fees shall be considered final delinquent debt and therefore owed, and the eight-hundred-fifty-dollar limit for persons under sixty-five years shall no longer apply.

(b) Revenues from the reinstatement fees imposed by this Paragraph shall be used as follows:

(i) Notwithstanding any other provision of this Chapter to the contrary, except for R.S. 32:868, and after satisfying the requirements of the Bond Security and Redemption Fund, thirty-six percent of the revenues from the reinstatement fees shall be used as provided by law for the construction, maintenance, and operating expenses of new capital immovables and related movables.

(ii) In addition, fourteen percent of the revenues from the reinstatement fees shall be dedicated for obtaining equipment and related supplies to be used in connection with the

issuance of validation stickers.

(iii) In addition, twenty-six percent of the revenues from reinstatement fees shall be dedicated to increase the salaries of all full-time employees of the Department of Public Safety and Corrections, office of motor vehicles. Specifically, such monies derived from the reinstatement fees shall be used exclusively to fund the salary increases associated with the job reclassification and pay study submitted by the office of motor vehicles to the State Civil Service Commission on October 19, 1998, and approved by the Department of Civil Service effective December 31, 1998. Any use of the fees allocated by this Item for salary purposes other than those specified herein, including the use for annual merit increases, is expressly prohibited.

(c) Upon completion of the construction of the new capital immovables and related movables described in this Paragraph, forty percent of the revenue from reinstatement fees imposed by this Paragraph shall be deposited in the state general fund. However, fifteen percent of such revenues shall be reserved for maintenance and operating expenses of the complex.

(4) Fees shall be paid to the secretary, who shall remit them to the state treasurer to be credited to the Bond Security and Redemption Fund as provided in R.S. 32:853(B)(2).

B. The sanctions of Paragraph (A)(1) of this Section shall not be imposed, and any fine, fee, or other monetary sanction which has been remitted to the secretary pursuant to the sanctions of this Section, specifically including any reinstatement fee paid pursuant to Paragraph (A)(3) of this Section and any fee paid pursuant to Paragraph (D)(5) of this Section, shall be promptly refunded by the secretary to the person who paid it, if the owner or lessee furnishes any of the following within sixty days of the notice:

(1) An original, a photocopy, or an image of the card that is displayed on a mobile electronic device of a Louisiana auto insurance identification card showing that the required security is in effect on the vehicle and has been continuous without lapse or an original or photocopy of any written communication from an insurer either to the insured or to the secretary stating that the required security is in effect on the vehicle and has been continuous without lapse, any one of which shall constitute sufficient evidence that the required security on the vehicle has not lapsed.

(2) If such evidence is not furnished by the owner or lessee, any other evidence satisfactory to the secretary, that each of the following conditions are met:

(a) The vehicle was at the time in question in fact covered by the required security.

(b) The vehicle is currently covered by security as required by R.S. 32:861 and that the required security has been continuous without lapse.

(3) Documentation satisfactory to the department that the vehicle was damaged as a result of a natural disaster which is the subject of a state of emergency declared by the governor and was treated as debris and removed, provided such natural disaster occurred prior to the reported cancellation of liability insurance.

C. If the person applies for a registration during the same period for which the

surrendered plate would have been valid, credit shall be applied toward the purchase of a new plate. The credit shall be equal to the amount paid for the most recent registration of the motor vehicle multiplied by a fraction, the numerator of which is the unused months of said registration and the denominator of which is the number of months for which said registration was issued.

D.(1) When the secretary seeks to impose the sanctions required in this Section, he shall send written notice to the owner, lessee, or other person against whom sanctions are intended at the last address furnished to the department. Notwithstanding the provisions of R.S. 32:852(E), such notice may be sent by first class mail. A notice of noncompliance, issued by a law enforcement officer under the provisions of R.S. 32:863.1(C)(1), shall serve as notice to the owner, lessee, or other person. Prior to imposition of such sanctions, a hearing may be requested within ten days from the date of notice. Sanctions shall not be imposed until all rights for appeal have expired or been exhausted.

(2) At the hearing, the commissioner shall consider the correctness of his initial determination with regard to petitioner's violation of any provision of Subsection A or B of this Section. Should the commissioner find that his initial determination with regard to such a violation was correct, the revocation ordered by him shall be maintained and given effect. The commissioner shall rescind an ordered revocation only if he finds that petitioner violated no provision of Subsection A or B of this Section, and that the initial determination made by the commissioner was incorrect.

(3) Repealed by Acts 2001, No. 883, §2.

(4) Within ten days after a person has exhausted his remedies with the commissioner, he shall have the right to file a petition in the district court in the parish of his domicile for a review of the final order of revocation. The court may exercise any action it deems appropriate.

(5) The department may promulgate rules and regulations necessary to offset the administrative cost of this Section not to exceed twenty-five dollars.

E. When a person's motor vehicle registration is suspended or revoked according to the provisions of this Section, it shall remain suspended or revoked and the person shall be prohibited from renewing his driver's license, obtaining a duplicate driver's license, renewing his motor vehicle registration, or obtaining reissuance of his motor vehicle registration until the reinstatement requirements of this Section are satisfied.

(4) A certificate of self-insurance issued by the secretary under the provisions of R.S. 32:1042 qualifying the owner of the vehicle as a self-insurer.

B.(1) When a law enforcement officer stops a vehicle at an administrative violations checkpoint, or in connection with an alleged violation of the law, or for any other reason, or when a law enforcement officer investigates an accident, the law enforcement officer shall determine if the owner or lessee of each vehicle is in compliance with the provisions of this Section which require evidence of liability insurance or other security to be contained in the vehicle.

(2) When a law enforcement officer makes a compliance determination as required by Paragraph (1) of this Subsection, the officer shall also determine if the owner or lessee of each vehicle is compliant with the requirements of R.S. 32:861 by electronically verifying, as applicable by means within his capacity, that the documents evidencing compliance are current.

(3) If the owner or lessee is not in compliance with the provisions of this Part, the law enforcement officer shall take the actions specified in this Section.

C.(1)(a) If the operator of a motor vehicle is unable to show compliance with the provisions of this Part by displaying the required document when requested to do so, the motor vehicle shall be impounded and the operator shall be issued a notice of noncompliance with the provisions of this Part on a physical or electronic form provided by the department. Notwithstanding the provisions of R.S. 32:852(E), the notice may be sent by first class mail. A copy of the notice of noncompliance shall be provided to the towing or storage company and a copy shall be forwarded to the office of motor vehicles within three calendar days after the notice of noncompliance was served. The notice of noncompliance shall serve as notice of administrative hearings rights. In addition, the law enforcement officer shall remove the license plate from the vehicle if the vehicle is registered in Louisiana. The law enforcement officer shall deliver the vehicle license plate to the chief of the agency which employs the

officer, or to a person in that agency designated to receive confiscated license plates. In those cases in which a motor vehicle is not impounded, a copy of the notice of noncompliance shall be attached to the vehicle license plate and both shall be delivered to the nearest office of motor vehicles within three calendar days after the notice of noncompliance was served.

(b) The owner of the vehicle shall have three calendar days, excluding Saturdays, Sundays, and legal holidays, from the date that the notice of noncompliance was issued to present to the office of motor vehicles proof of insurance coverage or security in effect at the time of the issuance of the notice of noncompliance. If the vehicle was properly insured at the time the notice was issued, any valid license plate shall be returned within forty-eight hours, exclusive of legal holidays, to the owner of the vehicle at no cost to the owner. However, if, within sixty days from the date the notice of noncompliance is issued, the owner fails to provide proof of the fact that the vehicle was properly insured at the time the notice of noncompliance was issued, the chief administrative officer of the office of motor vehicles shall destroy, or shall cause to be destroyed, the license plate removed from that owner's vehicle and shall notify the secretary that the owner of the vehicle is not in compliance with the compulsory liability law. Upon receipt of such notification, the secretary shall revoke the registration of such vehicle. Sixty days after the date of issuance of the notice of noncompliance, the fees imposed in this Section shall be owed even if the owner subsequently provides proof the motor vehicle was insured, and all such fees shall be considered final delinquent debt.

(c) For a first offense there shall be a reinstatement fee of one hundred dollars, for a second offense there shall be a reinstatement fee of two hundred fifty dollars, and for any subsequent offense there shall be a reinstatement fee of five hundred dollars. The sticker shall bear the date upon which it was issued in written or stamped numerals or letters not less than three inches in height. This temporary sticker shall only be effective for a period of three calendar days beginning from the day on which the license plate is taken.

(3) The temporary stickers required by Paragraph (2) of this Subsection shall be designed and produced by the Department of Public Safety and Corrections, and the department shall supply such stickers, at no cost, to all law enforcement agencies authorized by law to enforce traffic laws.

(4) The Department of Public Safety and Corrections shall formulate and promulgate rules and regulations for the implementation of the provisions of this Section. To this end, no license shall be taken or destroyed pursuant to the authority granted in Paragraph (1) of this Subsection until such rules are properly promulgated in accordance with law. However, this limitation shall not be construed so as to otherwise limit the enforcement of laws relative

to operating a vehicle without proper insurance or security.

(5)(a) The administrative hearing shall be limited to a review of the issue of whether the vehicle was covered by a valid policy of insurance at the time of the alleged violation. The records of the department on the particular violation shall be prima facie proof of the violation, and the owner or operator shall have the burden of proving that the vehicle was covered by a valid policy of insurance or was self-insured pursuant to this Chapter at the time of the violation. The owner or operator may subpoena any witness to appear at the hearing, including the officer issuing the violation, to establish that the owner or operator was in compliance with the law at the time of the alleged violation. A request for a hearing shall not stay the sanctions required by this Part. If it is determined at the administrative hearing that the vehicle was covered by a valid policy of insurance or was self-insured pursuant to this Chapter at the time of the violation, but that such proof was not presented to the law enforcement officer at the time the vehicle was impounded, then the vehicle owner shall be required to pay the storage and wrecker fees of the person or company who impounded and towed the subject vehicle.

(b) The department or other agency that conducts the hearings shall promulgate such rules and regulations as are necessary to implement the requirements of this Section. Any action for judicial review of the decision from the administrative hearing shall be in the same manner and under the same conditions as provided in R.S. 32:414. No court shall issue an injunction, stay or other process preventing the enforcement of the sanctions required by this Part pending the hearing provided for in this Part, except as provided by R.S. 49:978.1.

(6) The impounded vehicle shall remain impounded and the registration shall remain suspended until such time as proof of valid insurance is given to the Department of Public Safety and Corrections. Notwithstanding any other provision of law to the contrary, in no event shall a car be released from impoundment until such time as proof, in writing, has been presented from the Department of Public Safety and Corrections that all penalties, fees, fines and requirements of this Section have been met.

(7) In those instances when there is a passenger in the motor vehicle under the age of twelve or when the driver or a passenger in the motor vehicle has a disability or when considering the location and the time of day of the stop, the law enforcement officer perceives that there would be a threat to the public safety or to the occupants in the motor vehicle, such law enforcement officer enforcing the provision of this Section may in lieu of the impoundment provisions of this Section, seize the license plate and issue a temporary sticker valid for three calendar days. Upon expiration of the sticker, the vehicle shall not be driven until the owner has complied with the requirements of this Section. In the event the vehicle is being driven after the expiration of the temporary sticker provided for herein, the vehicle shall be immediately impounded pursuant to the provisions of this Section.

D. Prior to reinstatement of registration and license plate privileges to any individual who cannot prove the required insurance coverage or security in effect at the time of the offense within three calendar days after the offense, the Department of Public Safety and Corrections shall collect a reinstatement fee of ten dollars to offset the costs of administering this Section. This ten-dollar fee shall be in addition to any other fines, fees, or penalties

owed prior to reinstatement of privileges.

E. The legislature hereby declares that the presence of a current license plate on a motor vehicle has become one indication that the motor vehicle is covered by liability security. The legislature further declares that the provisions of R.S. 47:505(B) which require owners of motor vehicles to surrender the license plates of motor vehicles when the lawful use of the motor vehicle by the owner has terminated has become an integral part of the enforcement of the laws requiring all motor vehicles to be covered by liability security. In order to inform the public of the requirements of R.S. 47:505(B) and to facilitate the enforcement of the laws requiring motor vehicle liability security, the office of motor vehicles shall provide notice of the requirements of R.S. 47:505(B) to each person to whom a motor vehicle registration is delivered or transmitted.

F. In the case where the driver is a minor child, the owner of the vehicle shall be responsible under this Section. If the owner of the vehicle is the minor child, the parents of the minor child shall be jointly subject to the provisions of this Section along with the minor child, unless the minor has been adjudicated emancipated, or is in the sole custody of another or only one parent under the law. If the minor is in the sole custody of another or only one parent under the law, the person or parent in whose sole custody the child has been placed will be jointly responsible with the minor child under this Section.

G. The only acceptable means of proof of a valid and current policy of insurance shall be one of the following:

- (1) The insurance identification card, a photocopy of the card, or an image of the card that is displayed on a mobile electronic device, declaration page, or policy issued by the insurer.
- (2) In the case of a self-insured vehicle as provided in R.S. 32:851 et seq., the certificate of self-insurance issued by the Department of Public Safety and Corrections.
- (3) The records of the Department of Public Safety and Corrections, if such records reflect that the motor vehicle is covered by a valid and current policy of liability insurance.
- (4) The law enforcement officer making the stop has a reasonable belief that the motor vehicle is covered by a valid and current policy of liability insurance.

(2) If the operator of the motor vehicle is issued a notice of noncompliance, the owner of the vehicle shall have thirty working days from the date that the notice of noncompliance was issued to present to the office of motor vehicles proof that insurance coverage was in effect at the time of the issuance of the notice of noncompliance or proof that insurance coverage was not required by the state in which the vehicle was registered.

(3) If the owner fails to provide the proof required in Paragraph (2) of this Subsection, there shall be a fine of one hundred dollars for a first offense, a fine of two

hundred fifty dollars for a second offense, and a fine of five hundred dollars for any subsequent offense.

C. Notwithstanding any other provision of law to the contrary, at the time any law enforcement officer stops a vehicle at an administrative violations checkpoint, or in connection with an alleged violation of the law, or for any other reason, or when a law enforcement officer investigates an accident and the owner or operator fails to have a document that evidences compulsory motor vehicle liability security contained in the motor vehicle, and the law enforcement officer is able to verify electronically that the owner or operator has current motor vehicle liability security covering the vehicle at the time of the traffic stop, the law enforcement officer shall be prohibited from issuing a citation resulting in a penalty, fine, or fee for failure to have a document that evidences proof of compulsory motor vehicle liability security contained in the motor vehicle.

If a person fails to make a timely payment and fails to pay the missed payment with the associated late fee before the next scheduled payment, the person shall be removed from the Reinstatement Relief Program and shall not be eligible to reenter the Reinstatement Relief

Program.

C. The commissioner may request such documentation and information from the person as is necessary to determine the amount of any payment and the number of any payment, including but not limited to income tax returns and prior bankruptcy filings.

D. If the person successfully completes the Reinstatement Relief Program, the office of motor vehicles shall issue documentation to the person indicating the amount of debt that was paid and the amount of debt that was forgiven.

(5) If any cancellation of a motor vehicle liability policy occurs at the request of the insured, the insurer is not obligated to cancel such policy earlier than ten days prior to actual receipt by the insurer of such request.

(6) If any cancellation of a motor vehicle liability insurance policy occurs as a result of the rescission or other cancellation of the sale of the motor vehicle on which the policy is issued, the insurer shall notify the secretary of the cancellation and the circumstances of the cancellation, and the insured shall not be liable for any penalty or fee imposed for failure to maintain the security required by law.

B. If the security provider has reported this information for a policy, bond, deposit, or other security item for a commercial motor vehicle in an untimely manner, the deputy secretary shall impose the late fee unless the deputy secretary determines that the security provider made a good faith effort to comply with these requirements but the delay was caused by circumstances outside the security provider's control. All fees collected under this Subsection shall be deposited in the Bond Security and Redemption Fund as provided in R.S. 32:853(B)(2).

C. The secretary shall keep a record of the information received from security providers concerning coverage of vehicles and persons by security required by R.S. 32:861, which information may be stored through automated electronic data processing means. After the department has complete vehicle liability security records, upon written request including the driver's license number for each person, the vehicle identification number for each vehicle, and the payment of a fee of fifteen dollars for each vehicle owned by a person about which inquiry is made, the secretary shall forward to the inquiring party such vehicle and driver liability security information as is contained in the records of the department. If the department's search of its records fails to show the existence of any liability insurance or other security as of the date about which inquiry is made, an official of the department will issue a sworn, notarized affidavit to that effect. Such an affidavit shall be prima facie evidence that on the date in question, the person or vehicle about which inquiry was made

Legitimate reasons for cancellation of insurance or other security shall include but shall not be limited to the transfer of ownership of the vehicle or the surrender of the license plate of the formerly insured vehicle. If the vehicle is sold within ten calendar days after the date liability security on the vehicle was cancelled or its license plate is surrendered within ten calendar days of the date of notice sent pursuant to Paragraph (1) of this Subsection, no administrative action shall be taken. The transfer of ownership of the vehicle may be established by presenting to the secretary a copy of the title transfer or a copy of the act of sale, donation, exchange, surrender to a salvage yard, or other transaction.

(3) If the original of the document presented as proof of transfer of ownership has not been notarized, the authenticity of the document may be established by an affidavit executed by the person to whom the notice is addressed in which that person recites the circumstances of the transfer of ownership of the vehicle and attests to the truthfulness and accuracy of the document presented as proof of transfer of ownership.

Notwithstanding the provisions of R.S. 32:1251 to the contrary, the commission shall consider the financial impact on both the

applicant and the existing dealership or dealerships.

C. The objection shall be in writing, and shall be received by the commission within a fifteen-day period after receipt of the notice. The fifteen-day objection period shall be waived upon written notification to the commission from all licensees, who are entitled to object, that the licensees have no objections to the proposed change or addition for which the notice of intent was issued. If timely objection is lodged, and prior to the issuance of the license, the commission shall hold a hearing within thirty days after receipt of the objection, or forty-five days after the request is made for the three-member panel, and issue its decision within ninety days after date of the hearing. Notice of hearing, and an opportunity to participate therein, shall be given to the manufacturer or distributor, to the applicant for the license as a motor vehicle dealer, and to the protesting dealership or dealerships. The absence of a timely protest shall not prevent the commission from considering the effect of the issuance of a license on other motor vehicle dealerships, located either within or outside the community or territory as part of its determination of whether or not the license sought should be issued.

D.(1) Whenever the commission receives a protest pursuant to the provisions of this Section, the commission shall consider the following in determining whether there is good cause to issue a license:

- (a) Whether the community or territory can support an additional dealership.
- (b) Notwithstanding the provisions of R.S. 32:1251 to the contrary, the financial impact on both the applicant and the existing dealership or dealerships.
- (c) Whether the existing motor vehicle dealerships of the same line makes, models, or classifications in the dealership's community or territory are providing adequate representation and convenient consumer care for the motor vehicles of the same line makes, models, or classifications located within that area.
- (d) Whether the issuance of the license would increase competition or be in the public interest, or both.

(2) The applicant and manufacturer or distributor shall have the burden of proof in demonstrating good cause by a preponderance of the evidence.

on Rouge, Louisiana 70804-9062

RS 32:1258 — Denial, revocation, grounds, imposition of a civil penalty, or suspension of license;
e

provisions of this Chapter, deny an application for a license or revoke or suspend a license after it has been granted for any of the following reasons:

- (1) On satisfactory proof of unfitness of the applicant or the licensee, as the case may be, under the standards established and set out in this Chapter.
- (2) For fraud practiced or any material misstatement made by an applicant in any application for license under the provisions of this Chapter.
- (3) For any failure to comply with any provision of this Chapter or with any rule or regulation adopted and promulgated by the commission under authority vested in it by this Chapter.

- (4) Change of condition after license is granted or failure to maintain the qualifications for license.
- (5) Continued or flagrant violation of any of the rules or regulations of the commission.
- (6) For any violation of any law relating to the sale, lease, rental, distribution, or financing of vehicles.
- (7) Should the applicant have been convicted of a felony or entered a plea of guilty or nolo contendere to a felony charge under the law of the United States or of this or any other state.
- (8) Upon a finding that, considering the matters set forth in the applicable paragraphs of R.S. 32:1254, the public interest is not served by the issuance of the license sought or continuance of the license previously granted.
- (9) Failure to provide any bond or insurance required by this Chapter.
- (10) Whenever a marine dealer intentionally removes marine engines from a boat package for the purpose of selling those engines separately in violation of a full-line marine engine dealer's area of responsibility, except that which may be done by a full-line dealer of that particular engine as it may be permitted under his full-line franchise agreement.
- B. The commission may without prior notice deny the application for a license within thirty days after receipt thereof by written notice to the applicant stating the grounds for such denial. Upon request by the applicant whose license has been so denied, the commission shall set the time and place of hearing a review of such denial, the same to be heard with reasonable promptness.
- C. The commission may suspend or revoke a license issued or impose a civil penalty only after a hearing of which the licensee affected shall be given at least ten days written notice specifying the grounds or reasons for suspension, revocation, or penalty. Such notice may be served as provided by law for the service of notices or by mailing a copy by registered or certified mail to the last known residence or business address of such licensee.
- D.(1) The hearing on denial of a license, suspension or revocation of a license, or imposition of a civil penalty shall be at such time and place as the commission may prescribe and the affected applicant or licensee shall be notified of such time and place at least ten days prior to the date of hearing. The hearing shall be scheduled to be held within sixty days of notification to the licensee or applicant of the violation. The commission shall in like manner also notify the person, firm, association, corporation, or trust with whom the applicant or licensee is associated, or in whose association he is about to enter. The commission shall have the power to compel the production of records and papers bearing upon the application or complaints. The commission shall have the power to subpoena and bring before it any person in this state, or take testimony of any such person by deposition in the same manner as prescribed by law in judicial procedure before courts of the state in civil cases. Any party to such hearing shall have the right to procure the attendance of witnesses in his behalf upon designating to the commission the person or persons sought to be subpoenaed.
- (2) If the commissioner shall determine that any applicant is not qualified to receive

a license, a license shall not be granted to said applicant, and if the commission shall determine that any licensee is guilty of a violation of any of the provisions of this Chapter or the rules and regulations of the commission his or its license may be suspended or revoked, or a civil penalty may be imposed, or both.

E. All licenses shall be granted or refused within thirty days after application therefor, and shall expire as provided in this Chapter, unless sooner revoked or suspended, except that where a complaint of unfair cancellation of a dealer franchise is in process of being heard, no replacement application for such franchise shall be considered until a decision is rendered by the commission.

RS 32:1259 — Injunctions; cease and desist orders

the commission office is located or the district court for the parish in which the alleged offender is domiciled to enforce the provisions of this Chapter and any other law, rule, or regulation relating to the business for which a license is granted under this Chapter.

B.(1) If it appears to the commission at any time that a person is violating the provisions of this Chapter or any rule or order of the commission issued pursuant to this Chapter, it shall notify the person engaged in such conduct to appear and show cause why a cease and desist order should not be issued prohibiting the proscribed conduct. An interlocutory cease and desist order may be granted with or without bond or other undertaking if one of the following occurs:

(a) Such an order is necessary to the performance of the duties delegated to the commission by this Chapter or is otherwise necessary or convenient to maintaining the status quo between two or more adverse parties before the commission.

(b) A party before the commission is entitled to relief demanded of the commission and all or part of the relief requires the restraint of some act prejudicial to the party.

(c) A person is performing or is about to perform or is procuring or allowing the performance of an act relating to the subject of a contested case pending before the commission, in violation of the rights of a party before the commission, and the act would tend to render the commission's order in that case ineffectual.

(d) Substantial injury to the rights of a person subject to the commission's jurisdiction is threatened irrespective of any remedy at law.

(2) Interlocutory cease and desist orders shall remain in effect until vacated or until incorporated into a final commission order. Permanent cease and desist orders may issue without regard to the enumerations in Paragraph (1) of this Subsection, but only in accordance with the provisions of this Chapter pertaining to the issuance of final commission orders. Appeal of any interlocutory cease and desist order shall be made to the commission prior to seeking judicial review under the provisions of this Chapter. Appeal of a permanent cease and desist order shall be conducted pursuant to the provisions of this Chapter pertaining to judicial review of final orders.

RS 32:1260 — Penalties; other relief

day such violation continues.

(2) On a second or subsequent violation, no civil penalty imposed shall exceed ten thousand dollars for each day such second or subsequent violation continues.

(3) In order to constitute a second or subsequent violation there must occur a lapse of at least one day following the first or previous violation.

(4) Any civil penalty imposed by the commission may, in the discretion of the commission, be suspended in whole or in part.

(5) No civil penalty imposed for the negligent filing or the untimely updating of information as required under the provisions of this Chapter or under the rules and regulations of the commission shall exceed one hundred dollars per day.

B.(1) In addition to the penalties provided under this Chapter, the commission is expressly empowered and authorized to order the renewal or reinstatement, as the case may be, of any franchise of a licensee which, after following the procedures under this Chapter, is found by the commission to have been unfairly cancelled or not renewed due to lack of

just provocation or cause.

(2) The commission's authority to order a renewal or reinstatement, as the case may be, shall be consistent with the terms of the unfairly canceled franchise agreement.

(3) The commission shall order the renewal for an additional full franchise term or reinstatement for the remaining term of the franchise, as the case may be, under the franchise agreement.

(4) In addition to the penalties provided under this Chapter, the commission is expressly empowered and authorized, after following the procedures of this Chapter, to order the issuance of a franchise to a qualified transferee, whose application for transfer, sale, or exchange has been unreasonably withheld by a manufacturer, distributor, or converter and who meets the criteria generally applied by the manufacturer in approving new motor vehicle or specialty vehicle dealers and who agrees to be bound by all the terms and conditions of the standard franchise.

C. The commission may render judgment for costs, or any part thereof, against any party to proceedings held or court reporter fees, commission attorney fees, the mileage and per diem of the commissioners, and other applicable and reasonable costs.

D. If the commission finds that it is necessary and appropriate for the protection of prospective motor vehicle or specialty vehicle dealers, because a distributor has failed to demonstrate that adequate arrangements have been made to fulfill the distributor obligations under the franchise to provide motor vehicles, equipment, signage, or other items included in the franchise, the commission may by order require the escrow of all fees, deposits, and other funds paid by the motor vehicle or specialty vehicle dealer until such obligations have been satisfied.

E. In addition to the penalties provided pursuant to this Chapter, the commission is expressly empowered and authorized, after following the procedures of this Chapter, to order the repurchase of all vehicles, signs, special tools, and automotive equipment and pay the costs to the licensee for the cost of transporting, handling, packing, and loading of vehicles, parts, signs, tools, and equipment subject to the repurchase requirements of R.S. 32:1268.

F. Upon the failure of any person to comply with any order of the commission issued as a result of a violation of this Chapter, or a rule or regulation adopted by the commission, the commission is authorized to file civil proceedings to enforce its order in the Twenty-Fourth Judicial District Court for the parish of Jefferson by rule to show cause conducted pursuant to the relevant provisions of the Louisiana Code of Civil Procedure. The commission shall be entitled to recover from such party all costs of the proceeding, including but not limited to court costs, discovery costs, and reasonable attorney fees incurred by the commission in enforcing its order.

RS 32:1261 — Unauthorized acts

icer, agent, or other representative thereof:

(a) To induce or coerce, or attempt to induce or coerce, any licensee:

(i) To order or accept delivery of any recreational product, motor vehicle or vehicles, appliances, equipment, parts or accessories therefor, or any other commodity or commodities which shall not have been voluntarily ordered.

(ii) To order or accept delivery of any vehicle with special features, appliances, accessories, or equipment not included in the list price of said vehicles as publicly advertised.

(iii) To order for any person any parts, accessories, equipment, machinery, tools, appliances, or any commodity whatsoever.

(iv) To assent to a release, assignment, novation, waiver, or estoppel which would relieve any person from liability to be imposed by law, unless done in connection with a settlement agreement to resolve a matter pending a commission hearing or pending litigation between a manufacturer, distributor, wholesaler, distributor branch or factory branch, or officer, agent, or other representative thereof.

(v) To enter into a franchise with a licensee or during the franchise term, use any written instrument, agreement, release, assignment, novation, estoppel, or waiver, to attempt to nullify or modify any provision of this Chapter, or to require any controversy between a

dealer and a manufacturer to be referred to any person or entity other than the commission, or duly constituted courts of this state or the United States, if such referral would be binding upon the dealer. Such instruments are null and void, unless done in connection with a settlement agreement to resolve a matter pending a commission hearing or pending litigation.

(vi) To waive the right to a jury trial.

(vii) To participate in an advertising group or to participate monetarily in an advertising campaign or contest or to purchase any promotional materials, showroom, or other display decorations or materials at the expense of such motor vehicle dealer or specialty dealer.

(viii) To adhere to performance standards that are not applied uniformly to other similarly situated motor vehicle dealers or specialty dealers. Any such performance standards shall be fair, reasonable, equitable, and based on accurate information. If dealership performance standards are based on a survey, the manufacturer, converter, distributor, wholesaler, distributor branch, or factory branch shall establish the objectivity of the survey process and provide this information to any motor vehicle dealer or specialty vehicle dealer of the same line make covered by the survey request. Each response to a survey used by a manufacturer in preparing an evaluation or performance-rating of a motor vehicle dealer shall be made available to that motor vehicle dealer, or it cannot be used by the manufacturer. However, if a customer requests that the manufacturer or distributor not disclose the consumer's identity to the dealer, the manufacturer may withhold the consumer's identity in providing the survey response to the dealer, and the manufacturer may use the response. Any survey used must have the following characteristics:

(aa) It was designed by experts.

(bb) The proper universe was examined.

(cc) A representative sample was chosen.

(dd) The data was accurately reported.

(ix) To release, convey, or otherwise provide customer information, if to do so is unlawful or if the customer objects in writing. This does not include information that is necessary for the manufacturer to meet its obligations to the dealer or consumers in regard to contractual responsibilities, vehicle recalls, or other requirements imposed by state or federal law. The manufacturer is further prohibited from providing any consumer information received from the dealer to any unaffiliated third party.

(x) To pay the attorney fees of the manufacturer or distributor related to hearings and appeals brought under this Chapter.

(b) To refuse to deliver to any licensee having a franchise or contractual arrangement for the retail sale of vehicles sold or distributed by such manufacturer, distributor, wholesaler, distributor branch or factory branch, any motor vehicle, publicly advertised for immediate delivery, within sixty days after such dealer's order shall have been received.

(c) To threaten to cancel any franchise or any contractual agreement existing between such manufacturer, distributor, wholesaler, distributor branch or factory branch and said dealer for any reason including but not limited to failure to meet performance standards.

(d) To unfairly, without just cause and due regard to the equities of such dealer,

cancel the franchise of any licensee. Failure to meet performance standards based on a survey of sales penetration in a regional, national, territorial, or other geographic area shall not be the sole cause for cancellation of a franchise. The nonrenewal of a franchise or selling agreement with such dealer or his successor without just provocation or cause, or the refusal to approve a qualified transferee or qualified successor to the dealer-operator as provided for in the franchise or selling agreement, or solely for failure to meet performance standards based on a survey of sales penetration in a regional, national, territorial, or other geographic area, shall be deemed an evasion of this Paragraph and shall constitute an unfair cancellation, regardless of the terms or provisions of such franchise or selling agreement. However, at least ninety-days notice shall be given to the dealer of any cancellation or nonrenewal of a franchise except for a cancellation arising out of the financial default of the motor vehicle dealer or fraudulent activity of the dealer principal which results in the conviction of a crime punishable by imprisonment. The provisions of this Subsection relating to performance standards shall not apply to recreational products dealers.

(e) To refuse to extend to a licensee the privilege of determining the mode or manner of available transportation facility that such dealer desires to be used or employed in making deliveries of vehicles to him or it.

(f) To resort to or use any false or misleading advertisement in connection with his business as such manufacturer of motor vehicles, distributor, wholesaler, distributor branch or factory branch, or officer, agent, or other representative thereof.

(g) To delay, refuse, or fail to deliver motor vehicles in reasonable quantities relative to the licensee's facilities and sales potential in the relevant market area. This Subparagraph shall not be valid, however, if such failure is caused by acts or causes beyond the control of the manufacturer, distributor, or other such party.

(h) To ship or sell motor vehicles or recreational products to a licensee prior to the licensee having been granted a license by the commission to sell such vehicles.

(i) To unreasonably withhold consent to the sale, transfer, or exchange of the franchise to a qualified transferee capable of being licensed as a dealer in this state, provided the transferee meets the criteria generally applied by the manufacturer in approving new dealers and agrees to be bound by all the terms and conditions of the standard franchises.

(j) To fail to respond in writing to a written request for consent as specified in Subparagraph (i) of this Paragraph within sixty days of receipt of a written request on the forms, if any, generally utilized by the manufacturer or distributor for such purposes and containing the information required therein. Failure to respond shall be deemed to be consent to the request.

(k)(i) To sell or offer to sell a new or unused motor vehicle directly to a consumer except when any one of the following conditions is met:

(aa) Operating an existing, licensed, and franchised motor vehicle dealership for a reasonable period, not to exceed two years.

(bb) Operating an existing, licensed, and franchised motor vehicle dealership which is for sale to any qualified independent person at a fair and reasonable price, not to exceed two years.

(cc) Operating in a bona fide relationship in which a person independent of a manufacturer has made a significant investment subject to loss in the dealership, and can reasonably expect to acquire full ownership of such dealership on reasonable terms and conditions.

(ii) After any of the conditions have been met under Subitems (aa) and (bb) of Item (i) of this Subparagraph, the commission may allow the manufacturer to continue operating an existing, licensed, and franchised motor vehicle dealership for longer than two years when, in the discretion of the commission, the best interest of the manufacturer, consuming public, and licensees are best served.

(l)(i) To condition the renewal or extension of a franchise on a dealer's substantial renovation of a facility or premises, if the renovation would be unreasonable under the circumstances.

(ii) To require, coerce, or attempt to coerce a dealer or successor dealer to construct or substantially alter a facility or premises, if the construction or alteration would be unreasonable under the circumstances.

(iii) To require, coerce, or attempt to coerce a dealer or successor dealer to construct or substantially alter a facility or premises, if the same area of the facility or premises has been constructed or substantially altered within the last ten years and the construction or alteration was required and approved by the manufacturer as a part of a facility upgrade program, standard, or policy. The provisions of this Subparagraph shall not apply to any construction, alteration, or improvement made to comply with any state or federal health or safety law, a manufacturer's or distributor's health or safety requirement, or to accommodate the technology requirements necessary to sell or to service a motor vehicle. For the purposes of this Subparagraph, "substantially alter" means to perform an alteration that substantially impacts the architectural features, characteristics, or integrity of a structure or lot. The term shall not include routine maintenance reasonably necessary to maintain a dealership in attractive condition or any item directly protected by federal intellectual property rights of the manufacturer.

(aa) If a facility upgrade program, standard, or policy under which the dealer completed a facility construction or substantial alteration does not contain a specific time period during which the manufacturer or distributor shall provide payments or benefits to a participating dealer, the manufacturer or distributor shall not deny the participating dealer any payment or benefit under the terms of the program, standard, or policy as it existed when the dealer began to perform under the program, standard, or policy for the balance of the ten-year period, regardless of whether the manufacturer's or distributor's program, standard, or policy has been changed or canceled, unless the manufacturer and dealer agree, in writing, to the change in payment or benefit.

(bb) As part of any facility upgrade program, standard, or policy, the manufacturer or distributor shall agree, in writing, to supply the dealer with an adequate supply and marketable model mix of motor vehicles to meet the sales levels necessary to support the increased overhead incurred by the dealer by reason of the facility construction or substantial alteration.

(iv) To require, coerce, or attempt to coerce a dealer to purchase facility construction or maintenance goods or services for items not trademarked or otherwise directly protected by federal intellectual property rights of the manufacturer from a vendor that is selected, identified, or designated by a manufacturer, distributor, affiliate, or captive finance source when the dealer may obtain facility construction or maintenance goods or services for items not trademarked or otherwise directly protected by federal intellectual property rights of the manufacturer of the same quality, material, and design from a vendor selected by the dealer, provided the dealer obtains prior approval from the manufacturer, distributor, or affiliate, for the use of the dealer's selected vendor. The approval by the manufacturer, distributor, or affiliate shall not be unreasonably withheld.

(aa) If the manufacturer, distributor, or affiliate does not approve the vendor chosen by the dealer and claims the vendor cannot supply facility construction or maintenance goods or services for items not trademarked or otherwise directly protected by federal intellectual property rights of the manufacturer that are the same quality, material, and design, the dealer may file a protest with the commission.

(bb) If a protest is filed, the commission shall promptly inform the manufacturer, distributor, affiliate, or captive finance source that a protest has been filed. The commission shall conduct a hearing on the merits of the protest within ninety days following the filing of a response to the protest. The manufacturer, distributor, or affiliate shall bear the burden of proving that the facility construction or maintenance goods or services for items not trademarked or otherwise directly protected by federal intellectual property rights of the manufacturer chosen by the dealer are not of the same quality, material, or design to those required by the manufacturer, distributor, or affiliate.

(cc) For the purposes of this Subparagraph, "goods" shall include signs or sign components to be purchased or leased by the dealer that are not trademarked or otherwise directly protected by the federal intellectual property rights of the manufacturer or distributor. The term shall not include moveable displays, brochures, and promotional materials containing material subject to the intellectual property rights of a manufacturer or distributor, special tools as reasonably required by the manufacturer, or parts to be used in repairs under warranty or recall obligations of a manufacturer or distributor.

(m) To fail to compensate its dealers for the work and services they are required to perform in connection with the dealer's delivery and preparation obligations according to the terms of compensation. The commission shall find the compensation to be reasonable or the manufacturer shall remedy any deficiencies.

(n) To fail to designate and provide to the commission in writing either the community or territory assigned to a licensee. The provisions of this Subparagraph shall not apply to trailers.

(o) To fail or refuse to sell or offer to sell to all motor vehicle franchisees in a line make, every motor vehicle sold or offered for sale under a franchise to any motor vehicle franchisee of the same-line make, or to unreasonably require a motor vehicle dealer to pay an extra fee, purchase unreasonable advertising displays or any other materials, or to remodel, renovate, or recondition its existing facilities as a prerequisite to receiving a certain

model or series of vehicles. However, the failure to deliver any such motor vehicle shall not be considered a violation of this Section if the failure is due to a lack of manufacturing capacity or to a strike or labor difficulty, a shortage of materials, a freight embargo or other cause of which the franchisor has no control. This Subparagraph shall not apply to recreational product manufacturers.

(p) To unreasonably discriminate among competing, similarly situated, same-line make dealers in the sales of vehicles, in the availability of such vehicles, in the terms of incentive programs or sales promotion plans, or in other similar programs.

(q) To terminate, cancel, or refuse to continue any franchise agreement based upon the fact that the motor vehicle dealer owns, has an investment in, participates in the management, or holds a franchise agreement for the sale or service of another make or line of new motor vehicles at a different dealership location, or intends to or has established another make or line of new motor vehicles in the same dealership facilities of the manufacturer or distributor.

(r) To demand compliance with facilities requirements that include any requirements that a motor vehicle dealer establish or maintain exclusive office, parts, service or body shop facilities, unless the requirements would be reasonable and justified by business considerations. The burden of proving that the requirements are reasonable and justified by business considerations is on the manufacturer. If the franchise agreement of the manufacturer or distributor requires the approval of the manufacturer or distributor for facility uses or modifications, the manufacturer or distributor shall approve or disapprove such a request in writing within sixty days of receipt of such request.

(s) To use any subsidiary, affiliate, or any other controlled person or entity, or to employ the services of a third party, to accomplish what would otherwise be illegal conduct under this Chapter on the part of the manufacturer or distributor.

(t)(i) To operate a satellite warranty and repair center, to authorize a person to perform warranty repairs, including emergency repairs, who is not a motor vehicle dealer, fleet owner, or an emergency services company or emergency services related company, or to authorize a motor vehicle dealer to operate a satellite warranty and repair center within the community or territory of a same-line or make motor vehicle dealer. This Subparagraph shall not apply to recreational product manufacturers. For the purposes of this Subparagraph, "fleet owner" means a person, including a governmental entity, who is approved and authorized by a manufacturer to perform warranty repairs and owns or leases vehicles for its own use or a renting or leasing company that rents, maintains, or leases vehicles to a third party. For the purposes of this Subparagraph, "emergency services company or emergency services related company" means a person who operates any vehicle designated and authorized to respond to an emergency. An emergency vehicle includes but is not limited to police and security vehicles, fire and rescue vehicles, medical vehicles, and civil emergency vehicles, including public utility crews dealing with gas, electricity, or water, or the repair of defective equipment on a scene. However, notwithstanding the provisions of this Subparagraph, a manufacturer or distributor who, as of January 1, 2024, was licensed by the Louisiana Motor Vehicle Commission, either directly or through a subsidiary, to lease motor vehicles, may

operate one or more licensed satellite warranty and repair centers in the state, if neither it, nor any common entity, has any franchised motor vehicle dealers within this state, or has ever had franchised motor vehicle dealers licensed in this state. This exception does not apply if the manufacturer or distributor acquires a controlling interest in a franchisor or a subsidiary or other entity controlled by the franchisor, or sold or transferred a controlling interest in the manufacturer or distributor to a franchisor or subsidiary or other entity controlled by the franchisor. "Common entity" means a person who is either directly or indirectly controlled by or has more than thirty percent of its equity interest directly or indirectly owned, beneficially or of record, through any form of ownership structure, by a manufacturer, a distributor, or a licensee, or an affiliate thereof or a person who has more than thirty percent of its equity interest directly or indirectly controlled or owned beneficially or of record, through any form of ownership or structure, by one or more persons who also directly or indirectly control or own, beneficially or of record, more than thirty percent of the equity interests of a manufacturer, a distributor, or any affiliate thereof.

(ii) The manufacturer may authorize a fleet owner to perform warranty repairs if the manufacturer determines that the fleet owner has the same basic level of requirements for special tools, technician certification, and training that are required of a franchise dealer but only those as determined by the manufacturer, in its sole discretion, that are necessary to perform the specified limited type of warranty repairs on the makes and models of motor vehicles for which the fleet owner is authorized to perform warranty repairs.

(iii) A manufacturer who has or has ever had franchised motor vehicle dealers in the state and authorizes a fleet owner to perform warranty repairs shall give notification of the authorization to the dealer located in the same area of responsibility where the fleet owner intends to perform the authorized warranty repairs.

(iv) The provisions of Items (ii) and (iii) of this Subparagraph shall not apply to manufacturers who authorize fleet owners whose commercial vehicles are used for the movement of property, freight, or goods in intrastate or interstate commerce.

(v) The commission has no authority over a fleet owner or an emergency services company or emergency services related company with respect to the requirements of this Subparagraph.

(vi) A repair facility of a fleet owner authorized pursuant to this Subparagraph to perform warranty repairs shall not be deemed a satellite warranty and repair center as defined in R.S. 32:1252 and shall not be required to be licensed by the commission pursuant to R.S. 32:1254.

(u) To make a change in the area of responsibility described in the franchise agreement or sales and service agreement of a dealer, without the franchisor, converter, or manufacturer giving said dealer and the commission no less than sixty days prior written notice by certified or registered mail.

(v) To attempt to induce or coerce, or to induce or coerce, any motor vehicle dealer to enter into any agreement with such manufacturer, distributor, wholesaler, distributor branch or factory branch or representative thereof, or to do any other act unfair to said dealer.

(w)(i) To coerce or attempt to coerce any retail motor vehicle dealer or prospective

retail motor vehicle dealer to offer to sell or sell any extended service contract or extended maintenance plan or gap product offered, sold, backed by, or sponsored by the manufacturer or distributor or affiliate or sell, assign, or transfer any retail installment sales contract or lease obtained by the dealer in connection with the sale or lease by him of motor vehicles manufactured or sold by the manufacturer or distributor, to a specified finance company or class of finance companies, leasing company or class of leasing companies, or to any other specified persons by any of the following:

(aa) By any statement, promise, or threat that the manufacturer or distributor will in any manner benefit or injure the dealer, whether the statement, suggestion, threat, or promise is express or implied or made directly or indirectly.

(bb) By any act that will benefit or injure the dealer.

(cc) By any contract, or any express or implied offer of contract, made directly or indirectly to the dealer, for handling the motor vehicle on the condition that the dealer shall offer to sell or sell any extended service contract or extended maintenance plan offered, sold, backed by, or sponsored by the manufacturer or distributor or that the dealer sell, assign, or transfer his retail installment sales contract on or lease of the vehicle, to a specified finance company or class of finance companies, leasing company or class of leasing companies, or to any other specified person.

(dd) Any such statements, threats, promises, acts, contracts, or offers of contracts, when their effect may be to lessen or eliminate competition.

(ii) Nothing contained in this Subparagraph shall prohibit a manufacturer or distributor from offering or providing incentive benefits or bonus programs to a retail motor vehicle dealer or prospective retail motor vehicle dealer who makes the voluntary decision to offer to sell or sell any extended service contract or extended maintenance plan offered, sold, backed, or sponsored by the manufacturer or distributor or to sell, assign, or transfer any retail installment sale or lease by him of motor vehicles manufactured or sold by the manufacturer or distributor to a specified finance company or leasing company.

(x) To charge back, deny vehicle allocation, withhold payments, or take any other adverse actions against a motor vehicle dealer because of a sale of a new motor vehicle that is exported from the United States, unless it is shown that the dealer knew or reasonably should have known on the date of the sale that the new motor vehicle was to be exported. A motor vehicle dealer shall be rebuttably presumed to have no knowledge of the export if the motor vehicle is sold by the dealer to a resident of the United States who titles and registers the motor vehicle in any state within the United States.

(y) To disqualify a manufacturer's sales or service satisfaction survey that pertains to a dealership employee's personal motor vehicle or specialty vehicle solely because it was mailed or communicated electronically from a dealership.

(2) For a motor vehicle dealer, specialty vehicle dealer, recreational product dealer, used motor vehicle dealer, or a motor vehicle salesman:

(a) To require a purchaser of a vehicle, as a condition of sale and delivery thereof, to also purchase special features, appliances, accessories, or equipment not desired or requested by the purchaser; however, this prohibition shall not apply as to special features,

appliances, accessories, or equipment which are permanently affixed to the vehicle.

(b) To represent and sell as a new vehicle any vehicle, the legal title of which has been transferred by a manufacturer, distributor, or dealer to an ultimate purchaser.

(c) To resort to or use any false or misleading advertisement in connection with his business as such vehicle dealer or motor vehicle salesman.

(d) To sell or offer to sell makes, models, or classifications of new vehicles for which no franchise and license to sell is held.

(e) Except as otherwise approved by the commission, to sell or offer to sell a vehicle from an unlicensed location.

(f) To deliver to a prospective purchaser a new or a used vehicle on a sale conditioned on financing, i.e., a spot delivery, except on the following terms and conditions which shall be in writing and shall be a part of the conditional sales contract or other written notification signed by the purchaser:

(i) That if the sale is not concluded by the financing of the sale to the purchaser within twenty-five days of the delivery, the sale contract shall be null and void.

(ii) That the vehicle being offered for trade-in by the purchaser shall not be sold by the dealer until the conditional sale is complete.

(iii) That there shall be no charge to the purchaser should the conditional sale not be completed, including but not limited to mileage charges or charges to refurbish the vehicle offered for trade-in. However, the purchaser shall be responsible for any and all damages to the vehicle or other vehicles damaged by the fault of the purchaser and any and all liability incurred by the purchaser during the purchaser's custody of the vehicle to the extent provided for in R.S. 22:1296.

(iv) That if the conditional sale is not completed, the dealer shall immediately refund to the purchaser upon return of the vehicle all sums placed with the dealership as a deposit or any other purpose associated with the attempted sale of the vehicle.

(v) That the prospective purchaser shall return the vehicle to the dealership within forty-eight hours of notification by the dealer that the conditional sale will not be completed.

(c) "Qualifying repair" means a repair to a vehicle included within the manufacturer, distributor, wholesaler, factory branch, or distributor branch's original new motor vehicle warranty, except that the vehicle on which the repair was performed exceeds the

chronological or mileage limit of the warranty, and the repair does not otherwise constitute warranty work and does not include any of the work described in Paragraph (8) of this Subsection.

(d) "Qualifying repair order" means a repair order that encompasses, in whole or in part, a qualifying repair or repairs.

(e) "Repair order" means an invoice paid by a retail customer and closed at the time of submission, which encompasses one or more repairs to or other work on a vehicle, and reflecting, in the case of a parts mark-up submission, the cost of each part and its sale price, and in the case of a labor rate submission, the labor hours charged to each job and the sale price of such labor.

(f) "Warranty work" means work, including diagnostic labor, performed by a dealer in order to fulfill the obligations of a manufacturer, distributor, wholesaler, factory branch, or distributor branch warranty. (2) It shall be a violation of this Chapter for a manufacturer, a distributor, a wholesaler, distributor branch, or factory branch to fail to adequately and fairly compensate its dealers for labor, parts, and other expenses incurred by such dealer to perform warranty work and the delivery and preparation obligations imposed on the dealer by a manufacturer, distributor, wholesaler, factory branch, or distributor branch.

(3) In no event shall any manufacturer, distributor, wholesaler, factory branch, or distributor branch pay a dealer for warranty work less than the rates charged by the dealer to the retail customer of the dealer for non-warranty qualifying repairs. Time allowances for the performance of warranty work shall be reasonable and adequate in relation to the nature and scope of the work for a qualified technician of ordinary skill to perform the work.

(4)(a) Subject to the provisions of Subparagraph (b) of this Paragraph, the parts mark-up or labor rate customarily charged by the dealer may be established or modified at the election of the dealer by formally submitting in writing, to the representative or pre-designated representative of the manufacturer, distributor, wholesaler, factory branch, or distributor branch, by electronic transmission or tangible delivery, either of the following:

(i) All consecutive repair orders that include one hundred sequential qualifying repair orders.

(ii) All repair orders closed during any period of ninety consecutive days.

(b) A dealer submitting repair orders pursuant to Subparagraph (a) of this Paragraph shall submit the option that produces the fewer number of repair orders, which includes repairs made no more than one hundred eighty days before the submission.

(5) The dealer shall calculate the labor rate by determining the total charges for labor from the qualifying repairs submitted and dividing that amount by the total number of hours that produced the total charges. The dealer shall calculate the parts mark-up by determining the total charges for parts from the qualifying repairs submitted, dividing that amount by the total cost of the purchase of such parts, subtracting one from that amount, and multiplying

by one hundred to produce a percentage.

(6) A dealer seeking to establish or modify the warranty labor rate or parts mark-up shall submit to the manufacturer, distributor, wholesaler, factory branch, or distributor branch either of the following:

(a) A single set of repair orders for the purpose of calculating both the labor rate and parts mark-up.

(b) A single set of repair orders for the purpose of calculating only the labor rate or parts mark-up.

(7) A dealer may not submit to establish or modify its parts mark-up, labor rate, or both, more than once in a twelve-month period.

(8) In calculating the labor rate or parts mark-up, the following shall not be included:

(9)(a) The submitted parts mark-up or labor rate shall be presumed accurate, and shall go into effect forty-five days after the manufacturer, distributor, wholesaler, factory branch, or distributor branch receives the submission unless, within the forty-five-day period, the manufacturer, distributor, wholesaler, factory branch, or distributor branch rebuts the presumption.

(b) If the manufacturer, distributor, wholesaler, factory branch, or distributor branch determines from any set of qualifying repair orders submitted by the dealer that the parts mark-up, labor rate, or both, calculated in accordance with the provisions of this Subsection, is substantially higher or lower than the rate currently on record with the manufacturer, distributor, wholesaler, factory branch, or distributor branch for labor, parts, or if applicable,

both, the manufacturer, distributor, wholesaler, factory branch, or distributor branch may request in writing, within forty-five days of receipt of the submitted parts mark-up or labor rate, additional repair orders for a period of either thirty days prior to or thirty days subsequent to the time for which the repair orders were submitted for purposes of establishing or modifying a rate. The manufacturer, distributor, wholesaler, factory branch, or distributor branch shall have forty-five days from receiving the additional repair orders to rebut the presumption in accordance with the provisions of this Paragraph, provided that any rebuttal utilizing the additional repair orders shall conform to the requirements of Paragraphs (4), (5), and (8) of this Subsection.

(c) The manufacturer, distributor, wholesaler, factory branch, or distributor branch may rebut the presumption by doing all of the following:

(11) If the dealer and the manufacturer, distributor, wholesaler, factory branch, or distributor branch do not agree on the parts mark-up or labor rate, the dealer may file a protest with the Louisiana Motor Vehicle Commission within sixty days of receiving the manufacturer's rejection and proposal. The commission shall notify the manufacturer, distributor, wholesaler, factory branch, or distributor branch and schedule a hearing. The manufacturer, distributor, wholesaler, factory branch, or distributor branch shall have the burden of proving by a preponderance of the evidence that the dealer's submitted parts mark-up or labor rate was materially inaccurate as described in Paragraph (9) of this Subsection.

If the Louisiana Motor Vehicle Commission decides in favor of the dealer, any increase in the dealer's parts mark-up or labor rate shall be effective, retroactively, forty-five days following the manufacturer, distributor, wholesaler, factory branch, or distributor branch's receipt of the original submission.

(12) If a manufacturer, distributor, wholesaler, factory branch, or distributor branch furnishes a part to a dealer, at either no cost or a reduced cost, to use in performing warranty work, the manufacturer, distributor, wholesaler, factory branch, or distributor branch shall compensate the dealer for the part in the same manner as warranty parts compensation under this Section by compensating the dealer on the basis of the dealer's mark-up on the cost for the part as listed in the manufacturer, distributor, wholesaler, factory branch, or distributor

branch's price schedule, minus the cost for the part.

(13) A manufacturer, distributor, wholesaler, factory branch, or distributor branch may not require a dealer to establish the parts mark-up or labor rate customarily charged by the dealer for parts or labor by an unduly burdensome or time-consuming method or by requiring information that is unduly burdensome or time-consuming to provide, including but not limited to part-by-part or transaction-by-transaction calculations.

(14) All claims made by the dealer for compensation under this Subsection shall be paid within thirty days after approval and shall be approved or disapproved within thirty days after receipt. When any claim is disapproved, the dealer shall be notified in writing of the grounds for disapproval.

(15) The obligations in this Subsection as they relate to recreational products may be modified by contract.

B.(1) Notwithstanding the terms of any franchise agreement, warranty, and sales incentive, audits of dealer records may be conducted by the manufacturer, distributor, distributor branch, or factory branch. Any audit for warranty parts or service compensation shall be for the twelve-month period immediately following the date of the payment of the claim by the manufacturer or distributor. However, a dealer shall not be held liable by virtue of an audit for failure to retain parts for a period in excess of six months. Any audit for sales incentives, service incentives, rebates, or other forms of incentive compensation shall only be for the twelve-month period immediately following the date of the final payment to the dealer under a promotion, event, program, or activity. In no event shall the manufacturer, distributor, distributor branch, or factory branch fail to allow the dealer to make corrections to the sales data in less than one hundred twenty days from the program period. Additionally, no penalty other than amounts advanced on a vehicle reported incorrectly shall be due in connection with the audit. With respect to vehicles sold during the time period subject to the audit, but submitted incorrectly to the manufacturer, distributor, or wholesale distributor branch or factory branch, the dealer shall be charged back for the amount reported incorrectly and credited with the amount due, if anything, on the actual sale date.

(2) No claim which has been approved and paid may be charged back to the dealer unless it can be shown that one or all of the following applies:

(a) The claim was false or fraudulent.

(b) The repairs were not properly made.

(c) The repairs were unnecessary to correct the defective condition under generally accepted standards of workmanship.

(d) The dealer failed to reasonably substantiate the repair in accordance with reasonable written requirements of the manufacturer or distributor, if the dealer was notified of the requirements prior to the time the claim arose and if the requirements were in effect at the time the claim arose.

(3) A manufacturer or distributor shall not deny a claim solely based on a dealer's incidental failure to comply with a specific claim processing requirement, or a clerical error, or other administrative technicality.

(4)(a) A dealer shall not be charged back on a claim when a dealer performs a repair

covered by the manufacturer's or distributor's warranty, and the dealer reasonably demonstrates that the repair resolved the condition which the customer presented for resolution, and the dealer documents what has been repaired and the process utilized to accomplish the repair.

(b) The provisions of Subparagraph (a) of this Paragraph shall not apply to recreational products dealers.

(5) Limitations on warranty parts or service compensation, sales incentive audits, rebates, or other forms of incentive compensation, chargebacks for warranty parts or service compensation, and service incentives and chargebacks for sales compensation only shall not be effective in the case of intentionally false or fraudulent claims.

(6) It shall be deemed an unfair act pursuant to this Chapter to audit a dealer more frequently than two sales-related and two service-related audits in a twelve-month period. Nothing in this Subsection shall limit a manufacturer's or distributor's ability to perform routine claim reviews in the normal course of business.

(7) No claim may be rejected as late if it has been submitted within sixty days of the date the repair order was written.

(8) The dealer shall not be charged back for any rebate paid to a consumer pursuant to a manufacturer's rebate program, provided the dealer acted in good faith when relying on the consumer's qualifying information and otherwise complied with the program guidelines and documentation requirements. A manufacturer's rebate program shall include but not be limited to a rebate program that targets college graduates, military personnel, first-time buyers, owner loyalty, family relationships, and any other similar program.

This notice shall be included on the buyer's order in a box and in bold print which is signed by the buyer and the seller or his representative next to the box. (2) "Stop sale order" means a notification issued by a manufacturer, distributor, factory branch, or distributor branch to its franchised new motor vehicle dealers stating that certain used vehicles in inventory shall not be sold or leased, at either retail or wholesale, due to a federal safety recall for a defect or a noncompliance, or a federal emissions recall.

B.(1)(a) A manufacturer shall compensate its new motor vehicle dealers for all labor and parts required by the manufacturer to perform recall repairs. Compensation for recall repairs shall be reasonable.

(b) If parts or a remedy are not reasonably available to perform a recall service or repair on an affected used vehicle held for sale by a dealer authorized to sell and service new vehicles of the same line-make or authorized to perform recall work on an affected vehicle within forty-five days of the manufacturer issuing the initial notice of recall, and the manufacturer has issued a stop sale order or do not drive order on the vehicle, the manufacturer shall compensate the dealer at a prorated rate of at least one and one-quarter percent of the value of the vehicle per month.

(i) When a stop sale order or do not drive order has been issued and repair parts or remedy remain unavailable on an affected used vehicle, compensation shall begin forty-five days after either of the following occurrences:

C.(1) Subject to the audit provisions of R.S. 32:1262, it shall be a violation of this Section for a manufacturer to reduce the amount of compensation otherwise owed to an individual new motor vehicle dealer solely because the new motor vehicle dealer has submitted a claim for reimbursement under this Section. This prohibition shall include reduction through a chargeback, surcharge, removal of the individual dealer from an incentive program, or reduction in amount owed under an incentive program.

(2) This Subsection shall not apply to an action by a manufacturer to any prospective change, modification, cancellation, or elimination of any incentive program that is applied uniformly among all dealers of the same line-make in the state.

D. Pursuant to the provisions of this Section, all reimbursement claims made by new motor vehicle dealers for recall remedies or repairs, or for compensation where no part or repair is reasonably available and the vehicle is subject to a stop sale order or do not drive order shall be subject to the same limitations and requirements as a warranty reimbursement claim made under R.S. 32:1262. However, a manufacturer may compensate its franchised dealers under a national recall compensation program provided the compensation under the program is equal to or greater than the compensation provided in Paragraph (B)(1) of this Section or as the manufacturer and dealer otherwise agree.

E. A manufacturer may direct the manner and method in which a dealer shall demonstrate the inventory status of an affected used motor vehicle to determine eligibility under this Section, provided such manner and method may not be unduly burdensome and may not require information that is unduly burdensome to provide.

F. Nothing in this Section shall require a manufacturer to provide total compensation to a dealer that would exceed the total average trade-in value of an affected used motor vehicle as originally determined in Paragraph (B)(2) of this Section.

(iv) That upon expiration of the franchise, the franchisor agrees not to seek to enforce any covenant of the unrenewed franchisee not to compete with the franchisor or franchisees of the franchisor.

RS 32:1267 — Succession; right of first refusal

interest of the dealer in the dealership upon the death or incapacity of the dealer.

(2) Unless good cause exists for refusal to honor the succession on the part of the manufacturer or distributor, any designated successor of a deceased or incapacitated dealer of a dealership may succeed to the ownership of the dealership under the existing franchise if:

- (i) The designated successor gives the manufacturer or distributor written notice of his or her intention to succeed to the ownership of the dealer within sixty days of the dealer's death or incapacity.
 - (ii) The designated successor agrees to be bound by all the terms and conditions of the franchise.
 - (3) The manufacturer or distributor may request, and the designated successor shall provide, promptly upon such request, personal and financial data reasonably necessary to determine whether the succession should be honored.
 - (4) If a manufacturer or distributor believes that good cause exists for refusing to honor the succession of a deceased or incapacitated dealer, the manufacturer or distributor may, not more than sixty days following receipt of notice of the designated successor's intent to succeed and receipt of such personal or financial data, serve upon the designated successor notice of its refusal to honor the succession and of its intent to discontinue the existing franchise with the dealer not earlier than six months from the date such notice is served.
 - (5) The notice must state the specific grounds for the refusal to honor the succession.
 - (6) If notice of refusal and discontinuance is not timely served upon the designated successor, the franchise shall continue in effect subject to termination only as otherwise permitted by this Chapter.
 - (7) In determining whether good cause for the refusal to honor the succession exists, the manufacturer or distributor has the burden of proving that the designated successor is not of good moral character or does not otherwise meet the manufacturer's or distributor's reasonable standards as a franchisee.
 - (8) If a manufacturer or distributor refuses to honor the succession to the ownership interest of a deceased or incapacitated owner for good cause, then and in such event:
 - (i) The manufacturer or distributor shall allow the designated successor a reasonable period of time which shall not be less than six months in which to consummate a sale of the dealership. Any such sale shall be subject to R.S. 32:1261(A)(1)(d).
 - (ii) Upon termination of the franchise pursuant to such refusal, the provisions of R.S. 32:1268 shall apply.
- B. In the event of a proposed sale or transfer of a dealership and if the franchise agreement has a right of first refusal in favor of the manufacturer or distributor, then, notwithstanding the terms of the franchise agreement, the manufacturer or distributor shall be permitted to exercise a right of first refusal to acquire the motor vehicle dealer's assets or ownership if all of the following requirements are met:
- (1) In order to exercise its right of first refusal, the manufacturer or distributor shall notify the motor vehicle dealer in writing within sixty days of his receipt of the completed proposal for the proposed sale or transfer and all related agreements.
 - (2) The applicability of R.S. 32:1261(A)(1)(I) shall not be expanded or changed.
 - (3) The exercise of the right of first refusal will result in the dealer receiving the same or greater consideration as he has contracted to receive in connection with the proposed change of ownership or transfer.
 - (4) The proposed sale or transfer of the dealership's assets does not involve the transfer or sale to a member or members of the family of one or more dealers, or to a qualified manager with at least two years management experience at the dealership of one or more of these dealers, or to a partnership or corporation controlled by such persons.
 - (5)(a) The manufacturer or distributor agrees to pay the reasonable expenses, including attorney fees which do not exceed the usual, customary, and reasonable fees charged for similar work done for other clients, incurred by the proposed owner or transferee prior to the manufacturer's or distributor's exercise of its right of first refusal in negotiating and implementing the contract for the proposed sale or transfer of the dealership or dealership assets. Such expenses and attorney fees shall be paid to the proposed new owner or transferee at the time of closing of the sale or transfer for which the manufacturer or distributor exercised its right of first refusal.
 - (b) No payment of such expenses and attorney fees shall be required if the new owner or transferee has not submitted or caused to be submitted an accounting of those expenses within thirty days of the dealer's receipt of the manufacturer's or distributor's written request for such an accounting. A manufacturer or distributor may request such accounting before exercising his right of first refusal.
 - (6) The dealer shall not have any liability to any person as a result of a manufacturer's exercising its right of first refusal and the manufacturer or distributor shall assume the defense of the selling dealer for any claim by the proposed owner or transferee arising from the exercise of the right of first refusal.

C. The provisions of this Section shall not apply to the succession of any marine dealer, motorcycle or all-terrain vehicle, or recreational vehicle.

(a) All new motor vehicles, recreational products, and specialty vehicles of the current and last prior model year delivered to the licensee and parts on hand purchased in the ordinary course of business that have not been damaged or substantially altered to the prejudice of the manufacturer while in the possession of the licensee. As to recreational products dealers, the repurchase of parts shall be limited to those listed in the manufacturer's price book. The motor vehicles, recreational products, and specialty vehicles and parts shall be repurchased at the cost to the licensee which shall include without limitation freight and advertising costs, less all allowances paid to the dealer, except that new automobiles shall be purchased on the schedule as follows:

(i) Vehicles with 0 - 1,000 miles at the cost to the licensee.

(ii) Vehicles with 1,001 - 6,000 miles at the cost to the licensee reduced by the net discount value of each mile in excess of 1,000 miles, where "net discount value" is determined according to the following formula: cost to the licensee multiplied by total mileage in excess of 1,000 miles divided by 100,000, and where "net cost" equals the dealer cost plus any charges by the manufacturer, distributor, or representative for distribution, delivery, advertising, and taxes, less all allowances paid to the dealer by the manufacturer, distributor, or representative for new, unsold, undamaged, and complete motor vehicles.

(iii) Vehicles with 6,001 miles or over - no obligation to repurchase.

(b) At fair market value, each undamaged sign owned by the dealer which bears a trademark or trade name used or claimed by the manufacturer, converter, distributor, or representative if the sign was purchased from or purchased at the request of the manufacturer, distributor, or representative. Fair market value shall be no less than cost of acquisition of the sign by the dealer.

(c) At fair market value, all special tools and automotive service equipment owned by the dealer which were recommended in writing and designated as special tools and equipment and purchased in the ordinary course of business from or at the request of the manufacturer, converter, distributor, or representative, if the tools and equipment are in usable and good condition except for reasonable wear and tear. Fair market value shall be no less than cost of acquisition of special tools and automotive service equipment by the dealer.

(i) The motor vehicle dealer submits to the manufacturer, by certified mail, return receipt requested, or commercial delivery service with verification of receipt, a final inventory of motor vehicles and parts, special tools, and automotive services on hand.

(ii) The motor vehicle dealer tenders the parts, special tools, and automotive service equipment to the manufacturer.

(b) After a specialty vehicle dealer terminates his franchise, the manufacturer or converter shall make required repurchases within thirty days after such dealer has submitted to the manufacturer by certified mail, return receipt requested, or commercial delivery service with verification of receipt, a final inventory of vehicles and parts on hand.

(c) After a recreational products dealer terminates his franchise, the manufacturer or converter shall make required repurchases within sixty days after such dealer has submitted to the manufacturer by certified mail, return receipt requested, or commercial delivery service with verification of receipt, a final inventory of vehicles and parts on hand. This

Subparagraph shall not apply to the repurchase of marine products and related items.

B. Failure to make such repurchase without just cause shall subject the manufacturer or converter to a penalty of one and one-half percent per month, or fraction thereof, of the inventory value or returnable recreational product, specialty and motor vehicles, and parts, signs, special tools, and automotive service equipment, payable to the dealer, as long as the repurchase is not made.

C.(1) Upon the involuntary termination, nonrenewal, or cancellation of any franchise by the manufacturer or converter, except for termination, nonrenewal, or cancellation resulting from a felony conviction, notwithstanding the terms of any franchise, whether entered into before or after the enactment of this Chapter or any of its provisions, the new motor vehicle or specialty vehicle dealer shall be allowed fair and reasonable compensation by the manufacturer or converter as agreed by the parties, or lacking agreement, as determined by the commission, for the dealership facilities if the facilities were required to be purchased or constructed as a precondition to obtaining the franchise or to its renewal; provided that if such facilities were leased and the lease were required as a precondition to obtaining the franchise or to its renewal, then the manufacturer or converter shall be liable for one year's payment of the rent or the remainder of the term of the lease, whichever is less.

(2) Payment under this Section shall entitle the manufacturers, converters, or distributors to possession and use of the facility.

(3) As used in this Section, "manufacturer" shall include a manufacturer, a converter, a distributor, a factory branch, distributor branch, or other subsidiary thereof.

(4) The obligation of the manufacturer or converter to purchase a dealership facility, pursuant to this Section, is equally applicable if an entity or person affiliated with the dealer is the owner or lessor of the facility.

D. Notwithstanding any provision of law to the contrary, the provisions of this Section shall not apply to a marine dealer, motorcycle or all-terrain vehicle dealer, or recreational vehicle dealer.

Any same-line makes, models, or classifications dealership whose area of responsibility includes the location of the proposed new marine dealership may object to the granting of the license.

B. Whenever the commission receives an application for a recreational products dealer's license which would relocate an existing marine dealership, it shall first notify the existing licensed marine dealership or dealerships selling the same-line makes, models, or classifications if the dealership's proposed new location is within the existing dealer's area of responsibility. The existing same-line makes, models, or classifications dealership or dealerships shall have the right to object to the granting of the license only if the proposed relocation is within a radius of seven miles of its facility.

However, without regard to distance, whenever the commission receives an application for the relocation of a marine dealership which would add an additional marine dealership to an existing same-line makes, models, or classifications dealership's area of responsibility, the affected dealership shall have the right to object.

C. The objection shall be in writing and shall be received by the commission within a fifteen-day period after receipt of the notice. The fifteen-day objection period shall be waived upon written notification to the commission from all licensees entitled to object that the licensees have no objections to the proposed change or addition for which the notice of intent

was issued. If a timely objection is lodged, and prior to the issuance of the license, the commission shall hold a hearing within thirty days after receipt of the objection and issue its decision within ninety days after date of the hearing. Notice of hearing and an opportunity to participate therein shall be given to the manufacturer or distributor, the applicant for the license as a marine dealer, and to the protesting dealership or dealerships.

D. Whenever the commission receives an objection pursuant to the provisions of Subsection A of this Section, or whenever the commission receives an objection pursuant to the assignment of the marine dealer's area of principal sales and service responsibility, the commission shall consider the following and may consider any other relevant factors in determining whether there is good cause to approve or reject the assignment of the marine dealer's area of principal sales and service responsibility, or to issue a license:

- (1) Whether the community or territory can support an additional marine dealership.
- (2) The financial impact on both the applicant and the existing marine dealership or dealerships.
- (3) Whether the existing marine dealerships of the same-line makes, models, or classifications in the dealership's area of responsibility are providing adequate representation, competition, and convenient consumer care for the marine products of the same-line makes, models, or classifications located within that area.
- (4) Whether the issuance of the license would increase competition, be in the public interest, or both.

E. In disputes between the marine dealers and manufacturers and distributors regarding the execution of an agreement that would add a new same-line make marine dealership or would add the same product line regardless of brand name within the area of responsibility of an existing marine dealer, the name brand of the boat determines whether a dealer may enter into a franchise for a particular boat package or boat package line. The marine motor, marine engine, boat trailer, or any accessory made a part of a boat package shall not be the subject of, or a consideration in, an area of responsibility dispute for violation involving the boat package.

F. A manufacturer or distributor of a marine motor or marine engine may, in its discretion, enter into a warranty service agreement with a marine dealer of a boat package that is packaged with its particular brand marine motor or engine without violating the area of responsibility of any other marine dealer that has a franchise of that brand marine motor or engine. However, the warranty service agreement shall not be construed to permit the marine dealer to sell the marine motor or engine separate from the boat package, and the marine dealer shall not hold itself out to be a full-line or loose marine motor or engine dealership.

G. The provisions of this Section shall not apply when the marine products consist of a trolling motor, boat trailer, or watercraft trailer.

RS 32:1270.1 — Unauthorized acts; marine products

(ii) To order for any person any parts, accessories, equipment, machinery, tools, appliances, or any commodity whatsoever.

(iii) To assent to a release, assignment, novation, waiver, or estoppel which would relieve any person from liability to be imposed by law, unless done in connection with a settlement agreement to resolve a matter pending a commission hearing or pending litigation involving a manufacturer, distributor, wholesaler, distributor branch or factory branch, or officer, agent, or other representative thereof.

(iv) To enter into a franchise with a licensee or during the franchise term, use any written instrument, agreement, release, assignment, novation, estoppel, or waiver, to attempt to nullify or modify any provision of this Chapter, or to require any controversy between a marine dealer and a manufacturer to be referred to any person or entity other than the

commission, or duly constituted courts of this state or the United States, if such referral would be binding upon the dealer. Such instruments are null and void, unless done in connection with a settlement agreement to resolve a matter pending a commission hearing or pending litigation.

(v) To waive the right to a jury trial.

(vi) To participate in an advertising group or to participate monetarily in an advertising campaign or contest or to purchase any promotional materials, showroom, or other display decorations or materials at the expense of such marine dealer.

(vii) To adhere to performance standards that are not applied uniformly to other similarly situated marine dealers. Any such performance standards shall be fair, reasonable, equitable, and based on accurate information. If marine dealership performance standards are based on a survey, the manufacturer, distributor, wholesaler, distributor branch, or factory branch shall establish the objectivity of the survey process and provide this information to any marine dealer of the same-line make covered by the survey request. Each response to a survey used by a manufacturer in preparing an evaluation or performance-rating of a marine dealer shall be made available to that marine dealer, or it cannot be used by the manufacturer. However, if a customer requests that the manufacturer or distributor not disclose the consumer's identity to the dealer, the manufacturer may withhold the consumer's identity in providing the survey response to the dealer, and the manufacturer may use the response. Any survey used must have the following characteristics:

(aa) It was designed by experts.

(bb) The proper universe was examined.

(cc) A representative sample was chosen.

(dd) The data was accurately reported.

(viii) To release, convey, or otherwise provide customer information, if to do so is unlawful or if the customer objects in writing. This does not include information that is necessary for the manufacturer to meet its obligations to the marine dealer or consumers in regard to contractual responsibilities, marine product recalls, or other requirements imposed by state or federal law. The manufacturer is further prohibited from providing any consumer information received from the marine dealer to any unaffiliated third party.

(ix) To pay the attorney fees of the manufacturer or distributor related to hearings and appeals brought under this Chapter.

(x) To order or accept delivery of any vehicle with special features, appliances, accessories, or equipment not included in the list price of the vehicle as publicly advertised.

(b) To refuse to deliver to any licensee having a franchise or contractual arrangement for the retail sale of marine products sold or distributed by such manufacturer, distributor, wholesaler, distributor branch or factory branch, any marine product, publicly advertised for immediate delivery, within sixty days after such marine dealer's order shall have been received.

(c) To threaten to cancel any franchise existing between such manufacturer, distributor, wholesaler, distributor branch or factory branch and the marine dealer for any reason.

- (d) To unfairly, without just cause and due regard to the equities of the marine dealer, cancel the franchise of the licensee. The nonrenewal of a franchise with a marine dealer or his successor without just provocation or cause, or the refusal to approve a qualified transferee or qualified successor to the dealer-operator as provided for in the selling agreement, shall be deemed a violation of this Subparagraph and shall constitute an unfair cancellation, regardless of the terms or provisions of such franchise. However, at least ninety days notice shall be given to the dealer of a cancellation or nonrenewal of a franchise except for a cancellation arising out of fraudulent activity of the dealer principal which results in the conviction of a crime punishable by imprisonment.
- (e) To refuse to extend to a licensee the privilege of determining the mode or manner of available transportation facility that such marine dealer desires to be used or employed in making deliveries of marine products to him or it.
- (f) To ship or sell marine products to a licensee prior to the licensee having been granted a license by the commission to sell such products.
- (g) To unreasonably withhold consent to the sale, transfer, or exchange of the dealership to a qualified transferee capable of being licensed as a marine dealer in this state, provided the transferee meets the criteria generally applied by the manufacturer in approving new marine dealers and agrees to be bound by all the terms and conditions of the standard franchises.
- (h) To fail to respond in writing to a written request for consent as specified in Subparagraph (g) of this Paragraph within sixty days of receipt of a written request on the forms, if any, generally utilized by the manufacturer or distributor for such purposes and containing the information required therein. Failure to respond shall be deemed to be consent to the request.
- (i) To sell or offer to sell a new or unused marine product directly to a consumer except as provided in this Chapter.
- (j) Repealed by Acts 2014, No. 770, §2.
- (k) To fail to designate and provide to the commission in writing the community or territory assigned to a licensee. The provisions of this Subparagraph shall not apply when the marine products consist of a trolling motor, boat trailer, or watercraft trailer.
- (l) To unreasonably discriminate among competing, similarly situated, same-line make dealers in the sales of the marine products, in the availability of such marine products, in the terms of incentive programs or sales promotion plans, or in other similar programs.
- (m) To use any subsidiary, affiliate, or any other controlled person or entity, or to employ the services of a third party, to accomplish what would otherwise be illegal conduct under this Chapter on the part of the manufacturer or distributor.
- (n) To make a change in the area of responsibility described in the franchise or sales and service agreement of a dealer, without the manufacturer or distributor giving the marine dealer and the commission no less than sixty days prior written notice by certified or registered mail.
- (2) For a marine dealer, used marine product dealer, marine product salesman:
- (a) To require a purchaser of a marine product, as a condition of sale and delivery

thereof, to also purchase special features, appliances, accessories, or equipment not desired or requested by the purchaser; however, this prohibition shall not apply as to special features, appliances, accessories, or equipment which are permanently affixed to the marine product.

(b) To represent and sell as a new marine product any marine product, the legal title of which has been transferred by a manufacturer, distributor, or dealer to an ultimate purchaser.

(c) To use any false or misleading advertisement in connection with his business as such marine dealer or marine product salesman.

(d) To sell or offer to sell makes, models, or classifications of new marine products for which no franchise and license to sell is held.

(e) Except as otherwise approved by the commission, to sell or offer to sell a marine product from an unlicensed location.

(f) To deliver to a prospective purchaser a new or a used marine product on a sale conditioned on financing, i.e., a spot delivery, except on the following terms and conditions which shall be in writing and shall be a part of the conditional sales contract or other written notification signed by the purchaser:

(i) That if the sale is not concluded by the financing of the sale to the purchaser within twenty-five days of the delivery, the sale contract shall be null and void.

(ii) That the marine product being offered for trade-in by the purchaser shall not be sold by the marine dealer until the conditional sale is complete.

(iii) That there shall be no charge to the purchaser should the conditional sale not be completed, including but not limited to mileage charges or charges to refurbish the marine product offered for trade-in. However, the purchaser shall be responsible for any and all damages to the marine product or other marine products damaged by the fault of the purchaser and any and all liability incurred by the purchaser during the purchaser's custody of the marine product to the extent provided for in R.S. 22:1296.

(iv) That if the conditional sale is not completed, the marine dealer shall immediately refund to the purchaser upon return of the marine product all sums placed with the dealership as a deposit or any other purpose associated with the attempted sale of the marine product.

(v) That the prospective purchaser shall return the marine product to the dealership within forty-eight hours of notification by the marine dealer that the conditional sale will not be completed. If the prospective purchaser does not return the marine product to the dealership within forty-eight hours of notification by the marine dealer, an authorized agent of the marine dealer shall have the right to recover the marine product without the necessity of judicial process, provided that such recovery can be accomplished without unauthorized entry into a closed dwelling, whether locked or unlocked and without a breach of peace.

(g) To pay a fee to any person in return for the solicitation, procurement, or production by that person of prospective purchasers for new and used marine products, except to a salesman licensed under the provisions of this Chapter.

(h) To fail to fully and completely explain each charge listed on a retail buyer's order or marine product invoice prior to the purchase of a marine product.

(i) When selling a marine product to a consumer, to assess any consumer services

fees, which shall include fees for treating the interior upholstery of the marine product, oil changes, roadside assistance, dealer inspections, or any other service offered by the dealer, without allowing the buyer to refuse such services and be exempt from payment for such services. The provisions of this Subparagraph shall not apply to dealer-added options or accessories which are permanently affixed to the marine product.

(3)(a) For any person or other licensee to modify a franchise during the term of the agreement or upon its renewal if the modification substantially and adversely affects the dealer's rights, obligations, investment, or return on investment without giving a sixty-day written notice of the proposed modification to the licensee and the commission unless the modifications are required by law, court order, or the commission. Within the sixty-day notice period, the licensee may file with the commission a complaint for a determination whether there is good cause for permitting the proposed modification. The party seeking to modify or replace an agreement shall demonstrate by a preponderance of the evidence that there is good cause for the modification or replacement. The commission shall schedule a hearing within sixty days to decide the matter. Multiple complaints pertaining to the same proposed modifications shall be consolidated for hearing. The proposed modification may not take effect pending the determination of the matter.

(b) In making a determination of whether there is good cause for permitting a proposed modification, the commission may consider any relevant factor including:

- (i) The reasons for the proposed modification.
- (ii) Whether the proposed modification is applied to or affects all licensees in a nondiscriminating manner.
- (iii) The degree to which the proposed modification will have a substantial and adverse effect upon the licensee's investment or return on investment.
- (iv) Whether the proposed modification is in the public interest.
- (v) The degree to which the proposed modification is necessary to the orderly and profitable distribution of marine products and other services by the licensee.
- (vi) Whether the proposed modification is offset by other modifications beneficial to the licensee.

(c) The decision of the commission shall be in writing and shall contain findings of fact and a determination of whether there is good cause for permitting the proposed modification. The commission shall deliver copies of the decision to the parties personally or by registered mail.

(4) For any employee of a licensee while acting in the scope of his employment, to accept any payment, commission, fee, or compensation of any kind from any person other than the employing licensee, unless such payment is fully disclosed to and approved by the employing licensee.

RS 32:1270.2 — Warranty; compensation; audits of marine dealer records

ducts or any officer, agent or other representative thereof to fail to adequately and fairly compensate its marine dealer for labor, parts, and other expenses incurred by such dealer to perform under and comply with a manufacturer's or a distributor's warranty agreement.

(2) In no event shall any manufacturer or distributor pay its marine dealer at a price or rate for warranty work that is less than that charged by the marine dealer to the retail customers of the marine dealer for nonwarranty work of like kind.

(3) Warranty work includes parts and labor performed.

(4) All claims made by the marine dealer for compensation under this Subsection shall be paid within thirty days after approval and shall be approved or denied within thirty days after receipt. When any claim is denied, the marine dealer shall be notified in writing of the grounds for denial.

(5) The obligations set forth in this Subsection may be modified by contract.

B.(1) Notwithstanding the terms of any franchise, warranty and sales, incentive, audits of marine dealer records may be conducted by the manufacturer, distributor, distributor branch, or factory branch. Any audit for warranty parts or service compensation shall be for the twelve-month period immediately following the date of the payment of the claim by the manufacturer or distributor. However, a marine dealer shall not be held liable by virtue of an audit for failure to retain parts for a period in excess of six months. Any audit for sales incentives, service incentives, rebates, or other forms of incentive compensation shall be only for the twelve-month period immediately following the date of the final payment to the marine dealer under a promotion, event, program, or activity. In no event shall the manufacturer, distributor, distributor branch, or factory branch fail to allow the marine dealer to make corrections to the sales data in less than one hundred twenty days from the program period. Additionally, no penalty other than amounts advanced on a marine product reported incorrectly shall be due in connection with the audit. With respect to marine products sold during the time period subject to the audit, but submitted incorrectly to the manufacturer, distributor, or wholesale distributor branch or factory branch, the marine dealer shall be charged back for the amount reported incorrectly and credited with the amount due, if anything, on the actual sale date.

(2) No claim which has been approved and paid may be charged back to the marine dealer unless it can be shown that one of the following applies:

(a) The claim was false or fraudulent.

(b) The repairs were not properly made.

(c) The repairs were unnecessary to correct the defective condition under generally accepted standards of workmanship.

(d) The marine dealer failed to reasonably substantiate the repair in accordance with reasonable written requirements of the manufacturer or distributor, if the marine dealer was notified of the requirements prior to the time the claim arose and if the requirements were in effect at the time the claim arose.

(3) A manufacturer or distributor shall not deny a claim solely based on a marine dealer's incidental failure to comply with a specific claim processing requirement, or a clerical error, or other administrative technicality.

(4) Limitations on warranty parts or service compensation, sales incentive audits, rebates, or other forms of incentive compensation, chargebacks for warranty parts or service compensation, and service incentives and chargebacks for sales compensation only shall not be effective in the case of intentionally false or fraudulent claims.

(5) It shall be deemed an unfair act pursuant to this Chapter to audit a marine dealer more frequently than two sales-related and two service-related audits in a twelve-month period. Nothing in this Subsection shall limit a manufacturer's or distributor's ability to perform routine claim reviews in the normal course of business.

(6) No claim may be rejected as late if it has been submitted within sixty days of the date the repair order was written.

RS 32:1270.3 — Sale of water-damaged marine products

ing of the extent of any water damage from flooding which occurred to the marine product prior to the transaction.

B. If a sale, transfer, or conveyance of a new or used marine product occurs in violation of Subsection A of this Section, the person receiving ownership and title to the marine product who is not otherwise aware of the damage at the time of the transaction may bring an action to set aside the transaction within one year from the date of the transaction and receive all monies or other property given as consideration for the marine product less a reasonable assessment for wear and tear.

C. For the purposes of this Section, a "water-damaged marine product" means any marine product whose power train, computer, or electrical system has been damaged by flooding.

RS 32:1270.4 — Succession; right of first refusal; marine dealers

ed in the ownership interest of the marine dealer in the marine dealership upon the death or incapacity of the marine dealer.

B. Unless good cause exists for refusal to honor the succession on the part of the manufacturer or distributor, any designated successor of a deceased or incapacitated marine dealer of a marine dealership may succeed to the ownership of the marine dealership under the existing franchise if:

(1) The designated successor gives the manufacturer or distributor written notice of his intention to succeed to the ownership of the marine dealer within sixty days of the marine dealer's death or incapacity.

(2) The designated successor agrees to be bound by all the terms and conditions of the franchise.

C. The manufacturer or distributor may request, and the designated successor shall provide, promptly upon such request, personal and financial data reasonably necessary to determine whether the succession should be honored.

D. E. The notice must state the specific grounds for the refusal to honor the succession.

F. If notice of refusal and discontinuance is not timely served upon the designated successor, the franchise shall continue in effect subject to termination only as otherwise permitted by this Part.

G. D. It shall not be unlawful for the marine dealer with due cause and pursuant to the marine dealer's own initiating action to terminate or fail to renew a franchise with a manufacturer, wholesaler, or distributor, and the manufacturer, wholesaler, or distributor shall repurchase inventory as provided pursuant to this Section. The manufacturer, distributor, or wholesaler shall pay an amount equivalent to the cost actually paid by the marine dealer, including discounts given and rebates paid per unit for any new, unused, undamaged, and unaltered from original invoice and delivery, and complete marine product. If a manufacturer, distributor, or wholesaler fails or refuses to repurchase as required by this Section within thirty days of the receipt of the inventory, without just cause, the manufacturer, distributor, or wholesaler shall be subjected to a penalty of the marine dealer's reasonable attorney fees, court costs, and interest on the inventory value of returnable marine products and parts required to be purchased computed at the rate of one and one-half percent per month from the thirty-first day, as long as such repurchase is not made.
- I. Notwithstanding any other provision of law to the contrary, it shall be unlawful for a manufacturer, distributor, or wholesaler, either by contract or practice, to assess repurchase or restocking charges, freight charges except for return charges, reimbursement of interest charges paid, and any similar charges to the marine dealer.
- J. - K. However, nothing in this Section shall require the repurchase of inventory if the heirs, legatees, or transferees and the manufacturer, distributor, or wholesaler enter into a new franchise to operate the marine dealership.

B. Whenever the commission receives an application for a recreation products dealer's license which would relocate an existing motorcycle or all-terrain vehicle dealership, it shall first notify any existing licensed motorcycle or all-terrain vehicle dealership selling the same-line makes, models, or classifications within a thirty-mile radius of the proposed relocation address of a dealership. Any existing same-line makes, models, or classifications dealership shall have the right to object to the granting of the license only if the proposed relocation is within a radius of seven miles of its facility. However, without regard to distance, whenever the commission receives an application for the relocation of a motorcycle or all-terrain vehicle dealership which would add an additional franchise to an existing same-line makes, models, or classifications dealership's area of responsibility, the affected motorcycle or all-terrain vehicle dealership shall have the right to object.

C. The objection shall be in writing and shall be received by the commission within a fifteen-day period after receipt of the notice. The fifteen-day objection period shall be waived upon written notification to the commission from all licensees entitled to object that the licensees have no objections to the proposed change or addition for which the notice of intent was issued. If timely objection is lodged, and prior to the issuance of the license, the commission shall hold a hearing within thirty days after receipt of the objection and issue its decision within ninety days after date of the hearing. Notice of

(iv) To assent to a release, assignment, novation, waiver, or estoppel which would relieve any person from liability to be imposed by law, unless done in connection with a settlement agreement to resolve a matter pending a commission hearing or pending litigation between a manufacturer, distributor, wholesaler, distributor branch or factory branch, or officer, agent, or other representative thereof.

(v) To enter into a franchise with a licensee or during the franchise term, use any written instrument, agreement, release, assignment, novation, estoppel, or waiver, to attempt to nullify or modify any provision of this Chapter, or to require any controversy between a dealer and a manufacturer to be referred to any person or entity other than the commission, or duly constituted courts of this state or the United States, if such referral would be binding upon the motorcycle or all-terrain vehicle dealer. Failure to respond shall be deemed to be consent to the request.
- (h)(i) To sell or offer to sell a new or unused motorcycle or all-terrain vehicle directly to a consumer except as provided in this Chapter, or to compete with a licensee in the same-line makes, models, or classifications operating under an agreement or franchise from the aforementioned manufacturer. - (n) To refuse to deliver to any licensee having a franchise or contractual arrangement for the retail sale of motorcycles or all-terrain vehicles sold or distributed by such manufacturer, distributor, wholesaler, distributor branch or factory branch, any motorcycle or all-terrain vehicle, publicly advertised for immediate delivery, within sixty days after such dealer's order shall have been received.

 - (ii) That the motorcycle or all-terrain vehicle being offered for trade-in by the purchaser shall not be sold by the motorcycle or all-terrain vehicle dealer until the conditional sale is complete.
 - (iii) That there shall be no charge to the purchaser should the conditional sale not be completed, including but not limited to mileage charges or charges to refurbish the motorcycle or all-terrain vehicle offered for trade-in. However, the purchaser shall be responsible for any and all damages to the motorcycle or all-terrain vehicle or other motorcycles or all-terrain vehicles damaged by the fault of the purchaser and any and all liability incurred by the purchaser during the purchaser's custody of the vehicle to the extent provided for in R.S. 22:1296.
 - (iv) That if the conditional sale is not completed, the motorcycle or all-terrain vehicle dealer shall immediately refund to the purchaser upon return of the motorcycle or all-terrain vehicle all sums placed with the dealership as a deposit or any other purpose associated with the attempted sale of the motorcycle or all-terrain vehicle.
 - (v) That the prospective purchaser shall return the motorcycle or all-terrain vehicle to the dealership within forty-eight hours of notification by the dealer that the conditional sale will not be completed. If the prospective purchaser does not return the motorcycle or all-terrain vehicle to the dealership within forty-eight hours of notification by the motorcycle or all-terrain vehicle dealer, an authorized agent of the motorcycle or all-terrain vehicle dealer shall have the right to recover the motorcycle or all-terrain vehicle without the necessity of judicial process, provided that such recovery can be accomplished without unauthorized entry into a closed dwelling, whether locked or unlocked and without a breach of peace.

 - (h) To fail to fully and completely explain each charge listed on a retail buyer's order or motorcycle or all-terrain vehicle invoice prior to the purchase of a motorcycle or all-terrain vehicle.
 - (i) When selling a motorcycle or all-terrain vehicle to a consumer, to assess any consumer services fees, which shall include fees for treating the interior upholstery of the vehicle, oil changes, roadside assistance, dealer inspections, or any other service offered by the dealer, without allowing the buyer to refuse such services and be exempt from payment for such services. The provisions of this Subparagraph shall not apply to dealer-added options or accessories which are permanently affixed to the motorcycle or all-terrain vehicle.
 - (j)(i) To fail to disclose to a purchaser in writing on the sales contract, buyer's order, or any other document that the motorcycle or all-terrain vehicle dealer may be participating in finance charges associated with the sale.
 - (ii) To participate in a finance charge that would result in a difference between the buy rate and the contract rate of more than three percentage points.
 - (iii) The provisions of this Subparagraph shall apply only to transactions subject to the Louisiana Motor Vehicle Sales Finance Act.
- (3)(a) For any person or other licensee to modify a franchise during the term of the agreement or upon its renewal if the modification substantially and adversely affects the franchisee's rights, obligations, investment, or return on investment without giving a sixty-day written notice of the proposed modification to the licensee and the commission unless the

RS 32:1270.13 — Warranty; compensation; audits of motorcycle or all-terrain vehicle dealer records

(2) In no event shall any manufacturer or distributor pay its motorcycle or all-terrain vehicle dealers at a price or rate for warranty work that is less than that charged by the motorcycle or all-terrain vehicle dealer to the retail customers of the motorcycle or all-terrain vehicle dealer for nonwarranty work of like kind.

(3) Warranty work includes parts and labor performed.

(4) All claims made by the motorcycle or all-terrain vehicle dealer for compensation under this Subsection shall be paid within thirty days after approval and shall be approved or denied within thirty days after receipt. When any claim is denied, the motorcycle or all-terrain vehicle dealer shall be notified in writing of the grounds for denial.

(5) The obligations in this Subsection as they relate to motorcycles or all-terrain vehicles may be modified by contract.

B.(1) Notwithstanding the terms of any franchise, warranty, and sales incentive, audits of motorcycle or all-terrain vehicle dealer records may be conducted by the manufacturer, distributor, distributor branch, or factory branch. Any audit for warranty parts or service compensation shall be for the twelve-month period immediately following the date of the payment of the claim by the manufacturer or distributor. However, a motorcycle or all-terrain vehicle dealer shall not be held liable by virtue of an audit for failure to retain parts for a period in excess of six months. Any audit for sales

incentives, service incentives, rebates, or other forms of incentive compensation shall be only for the twelve-month period immediately following the date of the final payment to the motorcycle or all-terrain vehicle dealer under a promotion, event, program, or activity. In no event shall the manufacturer, distributor, distributor branch, or factory branch fail to allow the motorcycle or all-terrain vehicle dealer to make corrections to the sales data in less than one hundred twenty days from the program period. Additionally, no penalty other than amounts advanced on a motorcycle or all-terrain vehicle reported incorrectly shall be due in connection with the audit. With respect to motorcycles or all-terrain vehicles sold during the time period subject to the audit, but submitted incorrectly to the manufacturer, distributor, or wholesale distributor branch or factory branch, the motorcycle or all-terrain vehicle dealer shall be charged back for the amount reported incorrectly and credited with the amount due, if anything, on the actual sale date.

(2) No claim which has been approved and paid may be charged back to the motorcycle or all-terrain vehicle dealer unless it can be shown that one of the following applies:

- (a) The claim was false or fraudulent.
 - (b) The repairs were not properly made.
 - (c) The repairs were unnecessary to correct the defective condition under generally accepted standards of workmanship.
 - (d) The motorcycle or all-terrain vehicle dealer failed to reasonably substantiate the repair in accordance with reasonable written requirements of the manufacturer or distributor, if the motorcycle or all-terrain vehicle dealer was notified of the requirements prior to the time the claim arose and if the requirements were in effect at the time the claim arose.
- (3) A manufacturer or distributor shall not deny a claim solely based on a motorcycle or all-terrain vehicle dealer's incidental failure to comply with a specific claim processing requirement, or a clerical error, or other administrative technicality.
- (4) Limitations on warranty parts or service compensation, sales incentive audits, rebates, or other forms of incentive compensation, chargebacks for warranty parts or service compensation, and service incentives and chargebacks for sales compensation only shall not be effective in the case of intentionally false or fraudulent claims.
- (5) It shall be deemed an unfair act pursuant to this Chapter to audit a motorcycle or all-terrain vehicle dealer more frequently than two sales-related and two service-related audits in a twelve-month period. Nothing in this Subsection shall limit a manufacturer's or distributor's ability to perform routine claim reviews in the normal course of business.

C. For the purposes of this Section, a "water-damaged motorcycle or all-terrain vehicle" means any motorcycle or all-terrain vehicle whose power train, computer, or electrical system has been damaged by flooding.

RS 32:1270.16 — Succession; right of first refusal

or to succeed in the ownership interest of the motorcycle or all-terrain vehicle dealer in the dealership upon the death or incapacity of the motorcycle or all-terrain vehicle dealer.

B. Unless good cause exists for refusal to honor the succession on the part of the manufacturer or distributor, any designated successor of a deceased or incapacitated motorcycle or all-terrain vehicle dealer of a dealership may succeed to the ownership of the dealership under the existing franchise if:

(1) The designated successor gives the manufacturer or distributor written notice of his intention to succeed to the ownership of the motorcycle or all-terrain vehicle dealer within sixty days of the motorcycle or all-terrain vehicle dealer's death or incapacity.

(2) The designated successor agrees to be bound by all the terms and conditions of the franchise.

C. The manufacturer or distributor may request, and the designated successor shall provide, promptly upon such request, personal and financial data reasonably necessary to determine whether the succession should be honored.

D. If a manufacturer or distributor believes that good cause exists for refusing to honor the succession of a deceased or incapacitated motorcycle or all-terrain vehicle dealer, the manufacturer or distributor may, not more than sixty days following receipt of notice of the designated successor's intent to succeed and receipt of such personal or financial data, serve upon the designated successor notice of its refusal to honor the succession and of its intent to discontinue the existing franchise with the motorcycle or all-terrain vehicle dealer not earlier than six months from the date such notice is served.

E. The notice must state the specific grounds for the refusal to honor the succession.

F. If notice of refusal and discontinuance is not timely served upon the designated successor, the franchise shall continue in effect subject to termination only as otherwise permitted by this Chapter.

G. In determining whether good cause for the refusal to honor the succession exists, the manufacturer or distributor has the burden of proving that the designated successor is not of good moral character or does not otherwise meet the manufacturer's or distributor's reasonable standards as a franchisee.

H. If a manufacturer or distributor refuses to honor the succession to the ownership interest of a deceased or incapacitated owner for good cause, then and in such event:

(1) The manufacturer or distributor shall allow the designated successor a reasonable period of time which shall not be less than six months in which to consummate a sale of the dealership. Any such sale shall be subject to R.S. 32:1270.11(1)(c).

(2) Upon termination of the franchise pursuant to such refusal, the provisions of R.S. 32:1270.17 shall apply.

RS 32:1270.17 — Requirements upon termination; penalty; indemnity; motorcycle or all-terrain

aler or all-terrain vehicle dealer, or ceases to sell a particular make of motorcycle or all-terrain vehicle and after notice to the manufacturer, converter, distributor, or representative

(a) All new motorcycles or all-terrain vehicles of the current and last prior model year delivered to the licensee and parts on hand that have not been damaged or substantially altered to the prejudice of the manufacturer while in the possession of the licensee. As to motorcycle or all-terrain vehicle dealers, the repurchase of parts shall be limited to those listed in the manufacturer's price book. The motorcycle or all-terrain vehicles and parts shall be repurchased at the cost to the licensee which shall include without limitation freight and advertising costs, less all allowances paid to the motorcycle or all-terrain vehicle dealer.

(b) At fair market value, each undamaged sign owned by the motorcycle or all-terrain vehicle dealer which bears a trademark or trade name used or claimed by the manufacturer, converter, distributor, or representative if the sign was purchased from or purchased at the

request of the manufacturer, distributor, or representative. Fair market value shall be no less than cost of acquisition of the sign by the motorcycle or all-terrain vehicle dealer.

(c) At fair market value, all special tools and service equipment owned by the motorcycle dealer or all-terrain vehicle dealer which were recommended in writing and designated as special tools and equipment and purchased from or purchased at the request of the manufacturer, converter, distributor, or representative, if the tools and equipment are in usable and good condition except for reasonable wear and tear. Fair market value shall be no less than cost of acquisition of special tools and service equipment by the motorcycle dealer or all-terrain vehicle dealer.

(2) The manufacturer, converter, distributor, or representative shall pay to the motorcycle or all-terrain vehicle dealer the costs of transporting, handling, packing, and loading of motorcycles or all-terrain vehicles, or parts, signs, tools, and equipment subject to repurchase.

(3) The manufacturer or converter shall make the required repurchase after the dealer terminates his franchise and within sixty days of the submission to it, by certified mail, return receipt requested, or commercial delivery service with verification of receipt, of a final inventory of motorcycles, all-terrain vehicles, and parts on hand.

B. Failure to make the repurchase without just cause shall subject the manufacturer or converter to a penalty of one and one-half percent per month, or fraction thereof, of the inventory value or returnable motorcycles or all-terrain vehicles, and parts, signs, special tools, and service equipment, payable to the dealer, as long as the repurchase is not made.

RS 32:1270.18 — Manufacturer termination of line-make; manufacturer bankruptcy; license; motorcycle or all-terrain vehicle franchise

n, cancellation, or nonrenewal of a licensee's franchise is the result of the termination, elimination, or cessation of a line-make by the manufacturer, distributor, or factory branch, whether by bankruptcy or otherwise, the license issued by the commission may remain in effect at the discretion of the commission pursuant to its rules.

RS 32:1270.19 — Motorcycle or all-terrain vehicle repairs

sumer with an itemized bill indicating repairs and services performed, parts replaced, or materials used, the total labor charge, and the identity of the mechanic, repairman, or supplier who performed the work. However, nothing in this Section shall prohibit a supplier of mechanical repairs and services from charging a service fee for the use of shop supplies such as rags, fender covers, small amounts of fluid, or other items which are not itemized, provided that such fee does not exceed five percent of the total invoice for mechanical repairs or thirty-five dollars, whichever is less.

RS 32:1270.20 — Unauthorized acts; recreational vehicles

hereof:

(a) To induce or coerce, or attempt to induce or coerce, any licensee:

(i) To order or accept delivery of any recreational vehicles, appliances, equipment, parts or accessories therefor, or any other commodity or commodities which shall not have been voluntarily ordered.

(ii) To order or accept delivery of any recreational vehicle with special features, appliances, accessories, or equipment not included in the list price of the recreational vehicle as publicly advertised.

(iii) To order for any person any parts, accessories, equipment, machinery, tools, appliances, or any commodity whatsoever.

(iv) To assent to a release, assignment, novation, waiver, or estoppel which would relieve any person from liability to be imposed by law, unless done in connection with a settlement agreement to resolve a matter pending a commission hearing or pending litigation between a manufacturer, distributor, wholesaler, or factory branch, or officer, agent, or other

representative thereof.

(v) To enter into a franchise with a licensee or during the franchise term, use any written instrument, agreement, release, assignment, novation, estoppel, or waiver, to attempt to nullify or modify any provision of this Chapter, or to require any controversy between a recreational vehicle dealer and a manufacturer to be referred to any person or entity other than the commission, or duly constituted courts of this state or the United States, if such referral would be binding upon the recreational dealer. Such instruments are null and void, unless done in connection with a settlement agreement to resolve a matter pending a commission hearing or pending litigation.

(vi) To waive the right to a jury trial.

(vii) To participate in an advertising group or to participate monetarily in an advertising campaign or contest or to purchase any promotional materials, showroom, or other display decorations or materials at the expense of such recreational vehicle dealer.

(viii) To release, convey, or otherwise provide customer information, if to do so is unlawful or if the customer objects in writing. This does not include information that is necessary for the manufacturer to meet its obligations to the recreational vehicle dealer or consumers in regard to contractual responsibilities, recreational vehicle recalls, or other requirements imposed by state or federal law. The manufacturer is further prohibited from providing any consumer information received from the recreational vehicle dealer to any unaffiliated third party.

(ix) To pay the attorney fees of the manufacturer or distributor related to hearings and appeals brought under this Chapter.

(b) To refuse to deliver to any licensee having a franchise or contractual arrangement for the retail sale of recreational vehicles sold or distributed by such manufacturer, distributor, wholesaler, or factory branch, any recreational vehicle, publicly advertised for immediate delivery, within sixty days after such recreational vehicle dealer's order shall have been received.

(c) To threaten to cancel any franchise or any contractual agreement existing between such manufacturer, distributor, wholesaler, or factory branch and the recreational vehicle dealer for any reason.

(d) To unfairly, without just cause and due regard to the equities of such recreational vehicle dealer, cancel the franchise of any licensee. The nonrenewal of a franchise with such recreational vehicle dealer or his successor without just provocation or cause, or the refusal to approve a qualified transferee or qualified successor to the dealer-operator as provided for in the franchise agreement, shall be deemed a violation of this Paragraph and shall constitute an unfair cancellation, regardless of the terms or provisions of such franchise. However, at least ninety-days notice shall be given to the recreational vehicle dealer of any cancellation or nonrenewal of a franchise except for a cancellation arising out of the financial default of the recreational vehicle dealer or fraudulent activity of the recreational vehicle dealer principal which results in the conviction of a crime punishable by imprisonment.

(e) To refuse to extend to a licensee the privilege of determining the mode or manner of available transportation facility that such recreational vehicle dealer desires to be used or employed in making deliveries of recreational vehicles to him or it.

(f) To use any false or misleading advertisement in connection with his business as such manufacturer of recreational vehicles, distributor, wholesaler, or factory branch, or officer, agent, or other representative thereof.

(g) To delay, refuse, or fail to deliver recreational vehicles in reasonable quantities relative to the licensee's facilities and sales potential in the relevant market area. This Subparagraph shall not be valid, however, if such failure is caused by acts or causes beyond the control of the manufacturer, distributor, or other such party.

(h) To ship or sell recreational vehicles to a licensee prior to the licensee having been granted a license by the commission to sell such recreational vehicles.

(i) To unreasonably withhold consent to the sale, transfer, or exchange of the franchise to a qualified transferee capable of being licensed as a recreational vehicle dealer in this state, provided the transferee meets the criteria generally applied by the manufacturer in approving new recreational vehicle dealers and agrees to be bound by all the terms and conditions of the standard franchises.

(j) To fail to respond in writing to a written request for consent as specified in Subparagraph (i) of this Paragraph within sixty days of receipt of a written request on the forms, if any, generally utilized by the manufacturer or distributor for such purposes and containing the information required therein. Failure to respond shall be deemed to be consent to the

request.

(k)(i) To sell or offer to sell a new or unused recreational vehicle directly to a consumer except as provided in this Chapter, or to compete with a licensee in the same-line makes, models, or classifications operating under an agreement or franchise from the aforementioned manufacturer. A manufacturer shall not, however, be deemed to be competing when any one of the following conditions are met:

(aa) Operating a dealership temporarily for a reasonable period, not to exceed two years.

(bb) Operating a bona fide retail dealership which is for sale to any qualified independent person at a fair and reasonable price, not to exceed two years.

(cc) Operating in a bona fide relationship in which a person independent of a manufacturer has made a significant investment subject to loss in the dealership, and can reasonably expect to acquire full ownership of such dealership on reasonable terms and conditions.

(ii) After any of the conditions have been met under Subitems (i)(aa) and (bb) of this Subparagraph, the commission shall allow the manufacturer to compete with licensees of the same-line makes, models, or classifications under an agreement or franchise from the manufacturer for longer than two years when, in the discretion of the commission, the best interest of the manufacturer, consuming public, and licensees are best served.

(l) To condition the renewal or extension of a franchise on a new recreational vehicle dealer's substantial renovation of the recreational vehicle dealer's place of business or on the construction, purchase, acquisition, or rental of a new place of business by the new recreational vehicle dealer, unless the manufacturer has advised the new recreational vehicle dealer in writing of its intent to impose such a condition within a reasonable time prior to the effective date of the proposed date of renewal or extension, but in no case less than one hundred eighty days, and provided the manufacturer demonstrates the need for such demand in view of the need to service the public and the economic conditions existing in the recreational vehicle industry at the time such action would be required of the new recreational vehicle dealer. As part of any such condition, the manufacturer shall agree, in writing, to supply the recreational vehicle dealer with an adequate supply and marketable model mix of recreational vehicles to meet the sales levels necessary to support the increased overhead incurred by the recreational vehicle dealer by reason of such renovation, construction, purchase, or rental of a new place of business.

(m) To fail to compensate its recreational vehicle dealers for the work and services they are required to perform in connection with the recreational vehicle dealer's delivery and preparation obligations according to the terms of compensation. The commission shall find the compensation to be reasonable or the manufacturer shall remedy any deficiencies.

(n) To fail to designate and provide to the commission in writing the community or territory assigned to a licensee.

(o) To unreasonably discriminate among competing, similarly situated, same-line make dealers in the sales of recreational vehicles, in the availability of such recreational vehicles, in the terms of incentive programs or sales promotion plans, or in other similar programs.

(p) To terminate, cancel, or refuse to continue any franchise agreement based upon the fact that the recreational vehicle dealer owns, has an investment in, participates in the management of, or holds a franchise agreement for the sale or service of another make or line of new recreational vehicles at a different dealership location, or intends to or has established another make or line of new recreational vehicles in the same dealership facilities of the manufacturer or distributor.

(q) To demand compliance with facilities requirements that include any requirements that a recreational vehicle dealer establish or maintain exclusive office, parts, service or body shop facilities, unless such requirements would be reasonable and justified by business considerations. The burden of proving that such requirements are reasonable and justified by business considerations is on the manufacturer. If the franchise agreement of the manufacturer or distributor requires the approval of the manufacturer or distributor for facility uses or modifications, the manufacturer or distributor shall approve or deny the request in writing within sixty days of receipt of such request.

(r) To use any subsidiary, affiliate, or any other controlled person or entity, or to employ the services of a third party, to accomplish what would otherwise be illegal conduct under this Chapter on the part of the manufacturer or distributor.

(s) To make a change in the area of responsibility described in the franchise agreement or sales and service agreement of a recreational vehicle dealer, without the franchisor or manufacturer giving the recreational vehicle dealer and the

commission no less than sixty days prior written notice by certified or registered mail.

(t) To induce or coerce, or attempt to induce or coerce, any recreational vehicle dealer to enter into any agreement with such manufacturer, distributor, wholesaler, distributor branch or factory branch or representative thereof, or to do any other act unfair to the recreational vehicle dealer.

(u)(i) To coerce or attempt to coerce any retail recreational vehicle dealer or prospective retail recreational vehicle dealer to offer to sell or sell any extended service contract or extended maintenance plan or gap product offered, sold, backed by, or sponsored by the manufacturer or distributor or affiliate or sell, assign, or transfer any retail installment sales contract or lease obtained by the dealer in connection with the sale or lease by him of recreational vehicles manufactured or sold by the manufacturer or distributor, to a specified finance company or class of finance companies, leasing company or class of leasing companies, or to any other specified persons by any of the following:

(aa) By any statement, promise, or threat that the manufacturer or distributor will in any manner benefit or injure the dealer, whether the statement, suggestion, threat, or promise is express or implied or made directly or indirectly.

(bb) By any act that will benefit or injure the dealer.

(cc) By any contract, or any express or implied offer of contract, made directly or indirectly to the dealer, for handling the recreational vehicle on the condition that the recreational vehicle dealer shall offer to sell or sell any extended service contract or extended maintenance plan offered, sold, backed by, or sponsored by the manufacturer or distributor or that the dealer sell, assign, or transfer his retail installment sales contract on or lease of the recreational vehicle, to a specified finance company or class of finance companies, leasing company or class of leasing companies, or to any other specified person.

(dd) Any such statements, threats, promises, acts, contracts, or offers of contracts, when their effect may be to lessen or eliminate competition.

(ii) Nothing contained in this Subparagraph shall prohibit a manufacturer or distributor from offering or providing incentive benefits or bonus programs to a retail recreational vehicle dealer or prospective retail recreational vehicle dealer who makes the voluntary decision to offer to sell or sell any extended service contract or extended maintenance plan offered, sold, backed, or sponsored by the manufacturer or distributor or to sell, assign, or transfer any retail installment sale or lease by him of recreational vehicles manufactured or sold by the manufacturer or distributor to a specified finance company or leasing company.

(2) For a recreational vehicle dealer or a recreational vehicle salesman:

(a) To require a purchaser of a recreational vehicle, as a condition of sale and delivery thereof, to also purchase special features, appliances, accessories, or equipment not desired or requested by the purchaser; however, this prohibition shall not apply as to special features, appliances, accessories, or equipment which are permanently affixed to the recreational vehicle.

(b) To represent and sell as a new recreational vehicle any vehicle, the legal title of which has been transferred by a manufacturer, distributor, or dealer to an ultimate purchaser.

(c) To use any false or misleading advertisement in connection with his business as such recreational vehicle dealer or recreational vehicle salesman.

(d) To sell or offer to sell makes, models, or classifications of new recreational vehicles for which no franchise and license to sell is held.

(e) Except as otherwise approved by the commission, to sell or offer to sell a recreational vehicle from an unlicensed location.

(f) To deliver to a prospective purchaser a new recreational vehicle on a sale conditioned on financing, i.e., a spot delivery, except on the following terms and conditions which shall be in writing and shall be a part of the conditional sales contract or other written notification signed by the purchaser:

(i) That if the sale is not concluded by the financing of the sale to the purchaser within twenty-five days of the delivery, the sale contract shall be null and void.

(ii) That the recreational vehicle being offered for trade-in by the purchaser shall not be sold by the recreational vehicle dealer until the conditional sale is complete.

(iii) That there shall be no charge to the purchaser should the conditional sale not be completed, including but not limited to mileage charges or charges to refurbish the recreational vehicle offered for trade-in. However, the purchaser shall be responsible for any and all damages to the recreational vehicle or other vehicles damaged by the fault of the purchaser and any and all liability incurred by the purchaser during the purchaser's custody of the recreational vehicle to the extent provided for in R.S. 22:1296.

(iv) That if the conditional sale is not completed, the recreational vehicle dealer shall immediately refund to the purchaser upon return of the recreational vehicle all sums placed with the dealership as a deposit or any other purpose associated with the attempted sale of the vehicle.

(v) That the prospective purchaser shall return the recreational vehicle to the dealership within forty-eight hours of notification by the recreational vehicle dealer that the conditional sale will not be completed. If the prospective purchaser does not return the recreational vehicle to the dealership within forty-eight hours of notification by the recreational vehicle dealer, an authorized agent of the recreational vehicle dealer shall have the right to recover the recreational vehicle without the necessity of judicial process, provided that such recovery can be accomplished without unauthorized entry into a closed dwelling, whether locked or unlocked, and without a breach of peace.

(g) To pay a fee to any person in return for the solicitation, procurement, or production by that person of prospective purchasers for new and used recreational vehicles, except to a recreational vehicle salesman licensed under the provisions of this Chapter.

(h) To fail to fully and completely explain each charge listed on a retail buyer's order or recreational vehicle invoice prior to the purchase of a recreational vehicle.

(i) When selling a recreational vehicle to a consumer, to assess any consumer services fees, which shall include fees for treating the interior upholstery of the recreational vehicle, oil changes, roadside assistance, dealer inspections, or any other service offered by the recreational vehicle dealer, without allowing the buyer to refuse such services and be exempt from payment for such services. The provisions of this Subparagraph shall not apply to dealer-added options or accessories which are permanently affixed to the recreational vehicle.

(j)(i) To fail to disclose to a purchaser in writing on the sales contract, buyer's order, or any other document that the recreational vehicle dealer may be participating in finance charges associated with the sale.

(ii) To participate in a finance charge that would result in a difference between the buy rate and the contract rate of more than three percentage points.

(iii) The provisions of this Subparagraph shall apply only to transactions subject to the Louisiana Motor Vehicle Sales Finance Act.

(3)(a) For any person or other licensee to modify a franchise during the term of the agreement or upon its renewal if the modification substantially and adversely affects the franchisee's rights, obligations, investment, or return on investment without giving a sixty-day written notice of the proposed modification to the licensee and the commission unless the modifications are required by law, court order, or the commission. Within the sixty-day notice period, the licensee may file with the commission a complaint for a determination whether there is good cause for permitting the proposed modification. The party seeking to modify or replace an agreement shall demonstrate by a preponderance of the evidence that there is good cause for the modification or replacement. The commission shall schedule a hearing within sixty days to decide the matter. Multiple complaints pertaining to the same proposed modifications shall be consolidated for hearing. The proposed modification may not take effect pending the determination of the matter.

(b) In making a determination of whether there is good cause for permitting a proposed modification, the commission may consider any relevant factor including:

(i) The reasons for the proposed modification.

(ii) Whether the proposed modification is applied to or affects all licensees in a nondiscriminating manner.

(iii) The degree to which the proposed modification will have a substantial and adverse effect upon the licensee's investment or return on investment.

(iv) Whether the proposed modification is in the public interest.

(v) The degree to which the proposed modification is necessary to the orderly and profitable distribution of recreational vehicles and other services by the licensee.

(vi) Whether the proposed modification is offset by other modifications beneficial to the licensee.

(c) The decision of the commission shall be in writing and shall contain findings of fact and a determination of whether there is good cause for permitting the proposed modification. The commission shall deliver copies of the decision to the parties personally or by registered mail.

(4) For any employee of a licensee while acting in the scope of his employment, to accept any payment, commission, fee, or compensation of any kind from any person other than the employing licensee, unless such payment is fully disclosed to and approved by the employing licensee.

RS 32:1270.21 — Indemnification of franchised recreational vehicle dealers

recreational vehicle dealers against any judgment for damages, including but not limited to court costs and reasonable attorney fees of the recreational vehicle dealer, arising out of complaints, claims, or lawsuits including but not limited to strict liability, negligence, misrepresentation, express or implied warranty, or rescission of sale to the extent that the judgment arises out of alleged defective or negligent manufacture, assembly, or design of recreational vehicles, parts, or accessories, or other functions by the manufacturer of converter, which are beyond the control of the recreational vehicle dealer.

RS 32:1270.22 — Payment to recreational vehicles dealers; penalties

representative thereof, to fail to pay a recreational vehicle dealer all monies due the recreational vehicle dealer, except manufacturer hold-back amounts, within thirty days of the date of completion of the transactions or submissions of the claims giving rise to the payments to the recreational vehicle dealers. Failure to make payments shall subject the manufacturer, distributor, wholesaler, factory branch, officer, agent, or other representative thereof, to a penalty of the one and one-half percent interest per month, or fraction thereof, until sums due the recreational vehicle dealer are fully paid.

RS 32:1270.23 — Warranty; compensation; audits of recreational vehicle dealer records

or officer, agent or other representative thereof, to fail to

adequately and fairly compensate its recreational vehicle dealers for labor, parts, and other expenses incurred by such dealer to perform under and comply with a manufacturer's or a distributor's warranty agreement.

(2) In no event shall any manufacturer or distributor pay its recreational vehicle dealers at a price or rate for warranty work that is less than that charged by the recreational vehicle dealer to the retail customers of the recreational vehicle dealer for nonwarranty work of like kind.

(3) Warranty work includes parts and labor performed.

(4) All claims made by the recreational vehicle dealer for compensation under this Subsection shall be paid within thirty days after approval and shall be approved or denied within thirty days after receipt. When any claim is denied, the recreational vehicle dealer shall be notified in writing of the grounds for denial.

(5) Notwithstanding any other laws to the contrary, the obligations in this Subsection may not be modified by contract.

B.(1) Notwithstanding the terms of any franchise agreement, warranty, and sales incentive, audits of recreational vehicle dealer records may be conducted by the manufacturer, distributor, or factory branch. Any audit for warranty parts or service compensation shall be for the twelve-month period immediately following the date of the payment of the claim by the manufacturer or distributor. However, a recreational vehicle dealer shall not be held liable by virtue of an audit for failure to retain parts for a period in excess of six months. Any audit for sales incentives, service incentives, rebates, or other forms of incentive compensation shall be only for the twelve-month period immediately following the date of the final payment to the recreational vehicle dealer under a promotion,

event, program, or activity. In no event shall the manufacturer, distributor, or factory branch fail to allow the recreational vehicle dealer to make corrections to the sales data in less than one hundred twenty days from the program period. Additionally, no penalty other than amounts advanced on a recreational vehicle reported incorrectly shall be due in connection with the audit. With respect to recreational vehicles sold during the time period subject to the audit, but submitted incorrectly to the manufacturer, distributor, or wholesale distributor branch or factory branch, the recreational vehicle dealer shall be charged back for the amount reported incorrectly and credited with the amount due, if anything, on the actual sale date.

(2) No claim which has been approved and paid may be charged back to the recreational vehicle dealer unless it can be shown that one of the following applies:

(a) The claim was false or fraudulent.

(b) The repairs were not properly made.

(c) The repairs were unnecessary to correct the defective condition under generally accepted standards of workmanship.

(d) The recreational vehicle dealer failed to reasonably substantiate the repair in accordance with reasonable written requirements of the manufacturer or distributor, if the recreational vehicle dealer was notified of the requirements prior to the time the claim arose and if the requirements were in effect at the time the claim arose.

(3) A manufacturer or distributor shall not deny a claim solely based on a recreational vehicle dealer's incidental failure to comply with a specific claim processing requirement, or a clerical error, or other administrative technicality.

(4) Limitations on warranty parts or service compensation, sales incentive audits, rebates, or other forms of incentive compensation, chargebacks for warranty parts or service compensation, and service incentives and chargebacks for sales compensation only shall not be effective in the case of intentionally false or fraudulent claims.

(5) It shall be deemed an unfair act pursuant to this Chapter to audit a recreational vehicle dealer more frequently than two sales-related and two service-related audits in a twelve-month period. Nothing in this Subsection shall limit a manufacturer's or distributor's ability to perform routine claim reviews in the normal course of business.

(6) No claim may be rejected as late if it has been submitted within sixty days of the date the repair order was completed.

RS 32:1270.24 — Recreational vehicle repairs

Indicating repairs and services performed, parts replaced, or materials used, the total labor charge, and the identity of the mechanic, repairman, or supplier who performed the work. However, nothing in this Section shall prohibit a supplier of mechanical repairs and services from charging a service fee for the use of shop supplies such as rags, fender covers, small amounts of fluid, or other items which are not itemized, provided that such fee does not exceed five percent of the total invoice for mechanical repairs or thirty-five dollars, whichever is less.

RS 32:1270.25 — Damage disclosure; recreational vehicles

damage or mechanical damage which the recreational vehicle has sustained that exceeds six percent of the manufacturer's wholesale price. Such notice shall be in writing and a copy thereof shall be delivered to the purchaser prior to or simultaneous with transfer of the recreational vehicle title.

B. Replacement of a new recreational vehicle's instrument panels, appliances, furniture, cabinetry, televisions, audio equipment, or similar residential components shall not be deemed "damage" pursuant to this Section if such items are

replaced with original manufacturers' parts and materials.

C. This Section shall apply to all instances of vehicular body or mechanical damage to recreational vehicles and to all actions involving such damage, notwithstanding the application of other codal, statutory, or regulatory provisions, including but not limited to Civil Code Articles 2520 et seq.

RS 32:1270.26 — Notice regarding recalls; recreational vehicles

with the following notice: "A new recreational vehicle may have been subject to a National Highway Traffic Safety Administration required recall which would be repaired in accordance with manufacturer standards approved by the National Highway Traffic Safety Administration. If such a repair is a concern before you purchase, please ask for a copy of the recall notice, if applicable, to the recreational vehicle being sold." This notice shall be included on the buyer's order in a box and in bold print which is signed by the buyer and the seller or his representative next to the box. If the buyer requests the recall notice, the recall notice shall be included in the sales transaction. If the selling recreational vehicle dealer performed the repair, the documents supporting the repair shall also be included in the sales transaction.

RS 32:1270.27 — Sale of water-damaged recreational vehicles

al vehicle in writing of the extent of any water damage from flooding which occurred to the recreational vehicle prior to the transaction.

B. If a sale, transfer, or conveyance of a new or used recreational vehicle occurs in violation of Subsection A of this Section, the person receiving ownership and title to the recreational vehicle who is not otherwise aware of the damage at the time of the transaction may bring an action to set aside the transaction within one year from the date of the transaction and receive all monies or other property given as consideration for the vehicle less a reasonable assessment for miles driven.

C. For the purposes of this Section, a "water-damaged vehicle" means any recreational vehicle whose power train, computer, or electrical system has been damaged by flooding.

RS 32:1270.28 — Succession; right of first refusal; recreational vehicle dealer

designated successor to succeed in the ownership interest of the recreational vehicle dealer in the dealership upon the death or incapacity of the recreational vehicle dealer.

(2) Unless good cause exists for refusal to honor the succession on the part of the manufacturer or distributor, any designated successor of a deceased or incapacitated recreational vehicle dealer of a dealership may succeed to the ownership of the dealership under the existing franchise if:

(a) The designated successor gives the manufacturer or distributor written notice of his intention to succeed to the ownership of the recreational vehicle dealer within sixty days of the recreational vehicle dealer's death or incapacity.

(b) The designated successor agrees to be bound by all the terms and conditions of the franchise.

(3) The manufacturer or distributor may request, and the designated successor shall provide, promptly upon such request, personal and financial data reasonably necessary to determine whether the succession should be honored.

(4) If a manufacturer or distributor believes that good cause exists for refusing to honor the succession of a deceased or incapacitated recreational vehicle dealer, the manufacturer or distributor may, not more than sixty days following receipt of notice of the designated successor's intent to succeed and receipt of such personal or financial data, serve upon the designated successor notice of its refusal to honor the succession and of its intent to discontinue the existing franchise with the dealer not earlier than six months from the date such notice is served.

(5) The notice must state the specific grounds for the refusal to honor the succession.

(6) If notice of refusal and discontinuance is not timely served upon the designated successor, the franchise shall continue in effect subject to termination only as otherwise permitted by this Chapter.

(7) In determining whether good cause for the refusal to honor the succession exists, the manufacturer or distributor has the burden of proving that the designated successor is not of good moral character or does not otherwise meet the manufacturer's or distributor's reasonable standards as a franchisee.

(8) If a manufacturer or distributor refuses to honor the succession to the ownership interest of a deceased or incapacitated owner for good cause, then and in such event:

(a) The manufacturer or distributor shall allow the designated successor a reasonable period of time which shall not be less than six months in which to consummate a sale of the dealership. Any such sale shall be subject to R.S. 32:1270.20(1)(d).

(b) Upon termination of the franchise pursuant to such refusal, the provisions of R.S. 32:1270.29 shall apply.

B. In the event of a proposed sale or transfer of a recreational vehicle dealership and if the franchise agreement has a right of first refusal in favor of the manufacturer or distributor, then, notwithstanding the terms of the franchise agreement, the manufacturer or distributor shall be permitted to exercise a right of first refusal to acquire the recreational vehicle dealer's assets or ownership if all of the following requirements are met:

(1) In order to exercise its right of first refusal, the manufacturer or distributor shall notify the recreational vehicle dealer in writing within sixty days of his receipt of the completed proposal for the proposed sale or transfer and all related agreements.

(2) The applicability of R.S. 32:1270.20(1)(l) shall not be expanded or changed.

(3) The exercise of the right of first refusal will result in the recreational vehicle dealer receiving the same or greater consideration as he has contracted to receive in connection with the proposed change of ownership or transfer.

(4) The proposed sale or transfer of the dealership's assets does not involve the transfer or sale to a member or members of the family of one or more recreational vehicle dealers, or to a qualified manager with at least two years management experience at the dealership of one or more of these recreational vehicle dealers, or to a partnership or corporation controlled by such persons.

(5)(a) The manufacturer or distributor agrees to pay the reasonable expenses, including attorney fees which do not exceed the usual, customary, and reasonable fees charged for similar work done for other clients, incurred by the proposed owner or transferee prior to the manufacturer's or distributor's exercise of its right of first refusal in negotiating and implementing the contract for the proposed sale or transfer of the dealership or dealership assets. Such expenses and attorney fees shall be paid to the proposed new owner or transferee at the time of closing of the sale or transfer for which the manufacturer or distributor exercised its right of first refusal.

(b) No payment of such expenses and attorney fees shall be required if the new owner or transferee has not submitted or caused to be submitted an accounting of those expenses within thirty days of the recreational vehicle dealer's receipt of the manufacturer's or distributor's written request for such an accounting. A manufacturer or distributor may request such accounting before exercising his right of first refusal.

(6) The recreational vehicle dealer shall not have any liability to any person as a result of a manufacturer's exercising its right of first refusal and the manufacturer or distributor shall assume the defense of the selling dealer for any claim by the proposed owner or transferee arising from the exercise of the right of first refusal.

RS 32:1270.30.1 — Establishment of new recreational vehicle dealerships or relocations; protests;

ense which would add a new recreational vehicle dealership or authorize an existing recreational vehicle dealership to deal in a new or additional make of a recreational vehicle, which would establish an additional franchise in that area, or which would authorize an existing recreational vehicle dealership to deal in additional makes, models, or classifications of recreational vehicles designated in the franchise or any addendum thereto, it shall first notify the existing licensed recreational vehicle dealership or dealerships selling the same line makes, models, or classifications within the community or territory in which the applicant proposes to conduct business. Any same line makes, models, or classifications dealership whose assigned community or territory includes the location of the proposed new recreational vehicle dealership may object to the granting of the license.

(2) The reopening or replacement of a dealership in a location where the same line makes, models, or classifications has been sold by a licensed recreational vehicle dealer within the previous two years shall not be considered an additional recreational vehicle dealer under Paragraph (1) of this Subsection.

B.(1) Whenever the commission receives an application for a recreational vehicle dealer's license which would relocate an existing recreational vehicle dealership, including the transfer of a franchise and relocation to an existing recreational vehicle dealership, it shall first notify the existing licensed recreational vehicle dealership or dealerships selling the same line makes, models, or classifications within the community or territory in which the applicant proposes to conduct business. The existing same line makes, models, or classifications dealership or dealerships shall have the right to object to the granting of the license only if the proposed relocation is within a certain radius of its facility. The radius shall be two hundred miles for a dealership selling motor homes and one hundred miles for a dealership selling towable recreational vehicles. However, without regard to distance, whenever the commission receives an application for the relocation of a recreational vehicle dealership which would add an additional franchise to an existing same line makes, models, or classifications in a dealership's community or territory, the affected dealership shall have the right to object.

(2) Whenever the commission receives a protest pursuant to the provisions of Paragraph (1) of this Subsection, the applicant and the manufacturer or distributor shall show, by a preponderance of the evidence, that the existing same line makes, models, or classifications recreational vehicle dealership or dealerships will not be substantially harmed by locating the dealership within the area. Notwithstanding the provisions of R.S. 32:1251 to the contrary, the commission shall consider the financial impact on both the applicant and the existing dealership or dealerships.

C. The objection shall be in writing and shall be received by the commission within a thirty-day period after receipt of the notice. The thirty-day objection period shall be waived upon written notification to the commission from all licensees, who are entitled to object, that the licensees have no objections to the proposed change or addition for which the notice of intent was issued. If timely objection is lodged, and prior to the issuance of the license, the commission shall hold a hearing within thirty days after receipt of the objection, or

forty-five days after the request is made for the three-member panel, and issue its decision within ninety days after date of the hearing. Notice of hearing, and an opportunity to participate therein, shall be given to the manufacturer or distributor, to the applicant for the license as a recreational vehicle dealer, and to the protesting dealership or dealerships. The absence of a timely protest shall not prevent the commission from considering the effect of the issuance of a license on other recreational vehicle dealerships, located either within or outside the community or territory as part of its determination of whether or not the license sought should be issued.

D.(1) Whenever the commission receives a protest pursuant to the provisions of this Section, the commission shall consider the following in determining whether there is good cause to issue a license:

- (b) Notwithstanding the provisions of R.S. 32:1251 to the contrary, the financial impact on both the applicant and the existing dealership or dealerships.

(2) The applicant and manufacturer or distributor shall have the burden of proof in demonstrating good cause by a preponderance of the evidence.

E. The provisions of this Section shall not apply to any dealership which has a validly binding dealer agreement with a manufacturer or distributor as of August 1, 2025, including any future, uninterrupted renewals thereof, that authorizes the sale of the same line makes, models, or classifications of recreational vehicles within a specified territory that would otherwise violate these provisions.

F. The provisions of this Section shall apply only to recreational vehicles as defined in R.S. 32:1252 and shall not apply to any other recreational products.

Findings and declaration of policy

(a) The party states find that:

(1) The safety of their streets and highways is materially affected by the degree of compliance with state and local ordinances relating to the operation of motor vehicles.

(2) Violation of such a law or ordinance is evidence that the violator engages in conduct which is likely to endanger the safety of persons and property.

(3) The continuance in force of a license to drive is predicated upon compliance with laws and ordinances relating to the operation of motor vehicles, in whichever jurisdiction the vehicle is operated.

(b) It is the policy of each of the party states to:

(1) Promote compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles by their operators in each of the jurisdictions where such operators drive motor vehicles.

(2) Make the reciprocal recognition of licenses to drive and eligibility therefor more just and equitable by considering the overall compliance with motor vehicle laws, ordinances and administrative rules and regulations as a condition precedent to the continuance or issuance of any license by reason of which the licensee is authorized or permitted to operate a motor vehicle in any of the party states.

ARTICLE II

Definitions

As used in this compact:

(a) "State" means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

Such report shall clearly identify the person convicted; describe the violation specifying the section of the statute, code or ordinance violated; identify the court in which action was taken; indicate whether a plea of guilty or not guilty was entered, or the conviction was a result of the forfeiture of bail, bond or other security; and shall include any special findings made in connection therewith.

ARTICLE IV

(a) The licensing authority in the home state, for the purposes of suspension, revocation or limitation of the license to operate a motor vehicle, shall give the same effect to the conduct reported, pursuant to Article III of this compact, as it would if such conduct had occurred in the home state, in the case of convictions for:

- (1) Manslaughter or negligent homicide resulting from the operation of a motor vehicle;
- (2) Driving a motor vehicle while under the influence of intoxicating liquor or a narcotic drug, or under the influence of any other drug to a degree which renders the driver incapable of safely driving a motor vehicle;
- (3) Any felony in the commission of which a motor vehicle is used;
- (4) Failure to stop and render aid in the event of a motor vehicle accident resulting in the death or personal injury of another.

(b) As to other convictions, reported pursuant to Article III, the licensing authority in the home state shall give such effect to the conduct as is provided by the laws of the home state.

(c) If the laws of a party state do not provide for offenses or violations denominated or described in precisely the words employed in subdivision (a) of this Article, such party state shall construe the denominations and descriptions appearing in subdivision (a) hereof as being applicable to and identifying those offenses or violations of a substantially similar nature and the laws of such party state shall contain such provisions as may be necessary to ensure that full force and effect is given to this Article.

- (1) The applicant has held such a license, but the same has been suspended by reason, in whole or in part, of a violation and if such suspension period has not terminated.
- (2) The applicant has held such a license, but the same has been revoked by reason, in whole or in part, of a violation and if such revocation has not terminated, except that after the expiration of one year from the date the license was revoked, such person may make application for a new license if permitted by law. The licensing authority may refuse to issue a license to any such applicant if, after investigation, the licensing authority determines that it will not be safe to grant to such person the privilege of driving a motor vehicle on the public highways.
- (3) The applicant is the holder of a license to drive issued by another party state and currently in force unless the applicant surrenders such license.

ARTICLE VI

Applicability of other laws

Except as expressly required by provisions of this compact, nothing contained herein shall be construed to affect the right of any party state to apply any of its other laws relating to licenses to drive to any person or circumstance, nor to invalidate or prevent any driver license agreement or other cooperative arrangement between a party state and a nonparty state.

NONRESIDENT VIOLATOR COMPACT

ARTICLE I

FINDINGS AND DECLARATION OF POLICY AND PURPOSE

A. The party jurisdictions find that:

(1) In most instances, a motorist who is cited for a traffic violation in a jurisdiction other than his home jurisdiction:

(a) Must post collateral or bond to secure appearance for trial at a later date;

(b) If unable to post collateral or bond, is taken into custody until the collateral bond is posted; or

(c) Is taken directly to court for trial.

(2) In some instances, the motorist's driver's license may be deposited as collateral to be returned after he has complied with the terms of the citation.

(3) The purpose of the practices described in Subparagraphs (1) and (2) above is to ensure compliance with the terms of a traffic citation by the motorist who, if permitted to continue on his way after receiving the traffic citation, could return to his or her home jurisdiction and disregard his or her duty under the terms of the traffic citation.

(4) A motorist receiving a traffic citation in his or her home jurisdiction is permitted, except for certain violations, to accept the citation from the officer at the scene of the violation and to immediately continue on his way after promising or being instructed to comply with the terms of the citation.

(5) The practice described in Subparagraph (1) above causes unnecessary inconvenience and, at times, a hardship for the motorist who at the time is unable to post collateral, furnish a bond, stand trial, or pay the fine and is thus compelled to remain in custody until some arrangement can be made.

(6) The deposit of a driver's license as a bail bond as directed in Subparagraph (2) above is viewed with disfavor.

(7) The practices described consume an undue amount of law enforcement time.

B. It is the policy of the party jurisdictions to:

B.(1) A person who is infected with tuberculosis in an active and communicable state, who is a patient in a hospital, and who refuses treatment for tuberculosis against medical advice may be detained and held in a hospital for a period not to exceed fifteen days by an emergency certificate executed by the hospital's infectious disease control physician or pulmonary disease physician in accordance with the procedure set forth in this Section.

(2) In such case, the hospital's infectious disease control physician or pulmonary disease physician and the patient's physician shall contact the state health officer through the nearest tuberculosis control unit or clinic of the office of public health for purposes of coordinating the patient's transfer to a state tuberculosis treatment facility pursuant to R.S. 40:31.24 within the fifteen days covered by the emergency certificate.

(3) If the patient violates in any way the emergency certificate issued pursuant to this Section, it shall be deemed to be a violation of a quarantine order and shall be subject to the sanctions set forth in R.S. 40:6(B).

(4) Upon expiration of the emergency certificate, the patient shall be released from the hospital, unless a court order pursuant to R.S. 40:31.24 transferring the patient to a treatment facility has been obtained.

C. The following procedure shall govern the preparation and issuance of an emergency certificate for the purpose of detaining and holding a patient pursuant to the provisions of this Section:

(1) The hospital's infectious disease control physician or pulmonary disease physician, or any hospital staff physician authorized to act in the role of the infectious disease control physician for the hospital may execute an emergency certificate to detain and hold a person infected with active, infectious, and communicable tuberculosis. Thereafter, the following tasks shall be completed as soon as possible with regard to a person detained and held pursuant to an emergency certificate:

(a) The infectious disease control physician or pulmonary disease physician must personally examine the patient and confer with the patient and the patient's treating physician.

(c) The infectious disease control physician or pulmonary disease physician must find current evidence that the patient has refused to take required tuberculosis medications and that the patient desires to leave the hospital against medical advice.

(d) The infectious disease control physician or pulmonary disease physician must conclude that the patient poses a present danger to himself or herself and others if the patient should leave the hospital against medical advice.

(2) The emergency certificate must state the date and hour of examination by the infectious disease control physician or pulmonary disease physician and must be signed by the physician at such time under penalty of perjury.

(3) Within a period of seventy-two hours following the execution of the emergency certificate by the hospital infectious disease control physician or pulmonary disease physician, there must be a follow-up examination of the patient by any hospital staff physician, who shall record his or her findings in the section provided for such findings in the emergency certificate. The information provided in this Section must also state the date and hour of the follow-up examination and must be signed at that time by the physician under the penalty of perjury. If the follow-up examination confirms the initial findings of the infectious disease control physician or pulmonary disease physician, the emergency certificate shall remain in full force and effect. If after the examination it is determined that circumstances have changed, that the patient is taking the required tuberculosis medications, and that the patient no longer poses a present threat to himself or herself and others, the emergency certificate shall expire upon the examining physician's signature attesting to this fact. If no follow-up examination occurs within the seventy-two hours following the execution of the emergency certificate, the emergency certificate shall be deemed to have expired by operation of law.

If, after this examination and diagnosis, the expert declares the case to be one of an obnoxious or communicable nature, liable to spread or to become dangerous to the general public health of the state, the state health officer shall instruct the local health officer as to what additional steps, if any, should be taken to isolate the case and prevent the spread of the infection any further. The state health officer shall require that the local health officer immediately conform to and put these instructions in operation. If the local health officer or other local authorities connected with the case fail to act immediately on these instructions or fail to act in the case in a manner satisfactory to the state health officer, the state health officer shall take charge of the case and manage it through his own officers or employees.

(4) Because the disease progresses so rapidly, patients most often do not attend an ALS clinic or long-term care clinic where their diagnosis would or could be reported to the Centers for Disease Control and Prevention (CDC), the organization tasked with counting those with ALS.

(5) The CDC program uses payor information and self-reporting to create their data and acknowledges that their numbers are likely low, but they are beholden to the methods outlined by Congress.

(6) Several studies have been done to show that in states with implemented efforts to count those living with ALS, the number dramatically increased in each state.

RS 40:381.1 — Repealed by Acts 1997, No. 1188, §2.

ton Rouge, Louisiana 70804-9062

RS 40:382 — Findings and purposes

d in safe, livable neighborhoods, and affordable to persons of low and moderate income.

(2) Many persons and families throughout this state occupy inadequate, overcrowded, unsafe, or unsanitary residential housing because they are unable to locate and secure suitable housing at a price that they can reasonably afford. This circumstance has resulted in undue concentrations of impoverished populations in certain areas, increased rates of crime, deterioration in human health, and other family and social dysfunctions, thereby seriously and adversely affecting the public health, safety, and welfare of persons residing in this state.

(3) In addition to the lack of suitable, affordable housing, there persist in numerous areas of this state conditions of economic distress, accompanied by physical deterioration of public facilities and the commercial and residential infrastructure.

(4) It is the goal and policy of this state that all its residents shall have access to decent, safe, sanitary, and affordable housing in safe and livable neighborhoods and it is the policy of this state to assure the availability, for rental or sale, of decent, safe, and sanitary housing that is affordable to all persons residing in this state.

(5) It is further the goal and policy of this state that, to the maximum extent feasible, persons and families benefiting from activities authorized under this Chapter be encouraged to become economically self-sufficient.

(6) Achieving permanent improvement in the living standards of persons of low and moderate income may require, in addition to providing enhanced housing opportunities, the delivery of social, educational, and other supportive services and the operation of programs to develop self-sufficiency and to provide economic and employment opportunities and other benefits for persons assisted under this Chapter.

(7) Persons of low and moderate income possess inadequate access to sources of equity and financing for the purchase and ownership of housing at rates and upon terms reasonably affordable to such persons.

(8) The adverse conditions described above cannot be remedied, nor can the above stated goals and policies be successfully carried out, through the ordinary functioning of private enterprise alone. These objectives may be attainable, however, by diligent efforts of public agencies acting both alone and cooperatively with private sector entities and enterprises. The actions of public agencies so taken are, therefore, not competitive with private enterprise.

(9) The clearance, replanning, and reconstruction of areas in which housing is unsafe or unsanitary or in which neighborhoods are unsafe or unlivable; the provision of decent, safe, and sanitary housing that is affordable to persons of low and moderate income, including the development, leasing, or sale thereof, and the provision of supportive services and programs benefiting persons and families receiving housing assistance under this Chapter are public uses and purposes and essential governmental functions for which public funds may be spent and private property acquired. The character of any expenditures of public funds contemplated under this Chapter, as necessary and proper public expenditures for essential government functions, is not altered because such expenditures may be made to, or in connection with, the activities of private sector entities or enterprises, whether nonprofit or for profit in nature.

(10) The amount of funding for decent, safe, and sanitary housing that is affordable to persons of low and moderate income and for associated services to benefit such persons has not kept pace either with the growing demand for such housing and services or with the needs of local housing authorities to operate and maintain their facilities and programs. Since local housing authorities have not possessed the power to tax, it is necessary to ensure other adequate funding sources for their activities. Accordingly, this state must provide to its local housing authorities sufficient power to adequately address the housing needs of persons of low and moderate income within this state, and to operate related programs, with funding derived from public and private sources as well as the federal government.

(11) The purposes of this Chapter will best be carried out by affording to local housing authorities of this state the maximum amount of flexibility, responsibility, and discretion. Therefore, in carrying out the purposes of this Chapter, such authorities shall be presumed to possess broad powers and legal prerogatives which will enable them to carry out their purposes in any manner not prohibited by law.

(12) Improved sources of financing must be made available to local housing authorities, and by local housing authorities to the private sector of the economy, to enable such authorities and private enterprise to increase the production of new housing, and to conserve and preserve the supply of existing housing, that is affordable for rental or sale to persons of low and moderate income.

units in the state substantially damaged in areas that must be repopulated to restore the economic base both of the core disaster areas and of the state, and created an unprecedented housing shortage throughout the state.

(2) Significant numbers of displaced residents from core disaster areas who were homeowners may fail to return to their neighborhoods or may be unwilling to make the investment to restore and occupy their housing units if other previously occupied housing units within such neighborhoods become blighted or remain uninhabitable and are permitted to deteriorate by neglect.

(3) In the aftermath of Hurricanes Katrina and Rita where thousands of Louisiana residents have been forced to find temporary housing outside of the state and which exodus from the state poses a serious threat to the economic stability of the state and local governmental subdivisions, the existence of blighted and uninhabitable housing units will stagnate reinvestment by property owners wanting to rebuild and will have a negative impact on livability in neighborhoods and communities. The existence of such blighted and uninhabitable housing creates public health problems, diminishes the property values of neighboring properties, has a negative effect on the quality of life of adjacent property owners, increases the risk of property damage through arson and vandalism, and discourages neighborhood stability and revitalization.

(4) Many blighted and abandoned residential housing properties should be rehabilitated and preserved to maintain the character of neighborhoods and simultaneously provide an opportunity to local governmental subdivisions to arrange for the renovation or rehabilitation of such residential housing properties to help alleviate the unprecedented housing crisis throughout the state.

officer to identify residential housing properties below minimum

habitability standards for the purpose of establishing a blighted housing property list which

may be a list of such properties throughout the local governmental subdivision or only within those parts of the local governmental subdivision as the governing body may designate by resolution.

(2) The ordinance may direct the public officer to exclude from the inventory of blighted housing property any property for which the expense to the local governmental subdivision of determining the cost of environmental remediation required under state or federal law would be excessive in the judgment of the local governing body.

(3) Each blighted housing property on the inventory so identified shall include the tax block and lot number, the name of the owner of record, if known, and the street address of the lot. No residential housing property in an area impacted by Hurricane Katrina or Hurricane Rita which was occupied as of August 28, 2005, shall be included on the inventory as a blighted housing property if the owner is eligible for and receives assistance under the Road Home Housing Program.

(4) Evidence of utility connections, including sewer, water, electric, or gas and billings to an occupant for the month of July or August 2005 shall be presumptive evidence that a residential housing property was occupied as of August 28, 2005.

(5) Residential housing properties that, as of June 13, 2006, were adjudicated or declared blighted by the local governmental subdivision in accordance with all applicable laws may be added to the blighted housing property list without any additional notice to the owner or secured parties.

B. Maintenance of blighted housing property list. (1) In those local governmental subdivisions in which an inventory has been conducted and blighted housing properties have been identified, the public officer shall establish and maintain a list of blighted housing properties, to be known as the "blighted housing property list".

(2) The local governmental subdivision may add properties to the blighted housing property list at any time and may delete properties at any time when the public officer finds that the property no longer meets the definition of a blighted housing property. Any party in interest may request that a residential housing property below minimum habitability standards be included on the blighted housing property list by filing an affidavit with the public officer of a local governmental subdivision certifying the basis for such person being a party in interest and the conditions of the property that make the property unfit for human habitation, occupancy, or use.

(3) Upon receipt of such an affidavit, the public officer or any qualified rehabilitation entity designated by the local governmental subdivision shall be empowered to inspect the property and make a determination as to whether the property should be declared a blighted housing property. A residential housing property that is below minimum habitability standards shall not be included on the blighted housing property list if rehabilitation is being performed by the owner in a timely manner, as evidenced by building permits issued and diligent pursuit of rehabilitation work authorized by those permits, or by the filing of a rehabilitation plan approved by the court.

C. Rules and regulations prescribing risk guidelines. The state housing agency, in conjunction with the state departments of environmental quality and health, shall adopt rules

and regulations prescribing guidelines and criteria for assessing and determining if a residential housing property is harmful to the health or welfare, including the economic welfare, of the residents of the local governmental subdivision wherein the residential housing property is located, or unfit for human habitation, occupancy, or use, and whether such property is undergoing rehabilitation in a timely manner within the meaning of Subsection B of this Section. The public officer shall apply such standards in conducting any inventory pursuant to this Section.

D. Notice to owners with properties on the blighted housing properties list.

(1) A public officer, within thirty days of the completion of the blighted housing property list, or any additions thereto, shall send a notice, by certified mail, return receipt requested, and by regular mail, to the owner of record of every property included on the list and shall cause the list, including periodic updates to the list, to be published in the official journal of the local governmental subdivision, which publication shall constitute public notice, and, to the extent that the local governmental subdivision maintains an informational web site, post the list on the local governmental subdivision's informational web site.

(2) The published and mailed notices shall identify property determined to be blighted housing property setting forth the owner of record, if known, the tax lot and block number, and street address.

(3) The public officer, in consultation with the tax collector, shall also send out a notice by regular mail to any mortgagee, servicing organization, or property tax processing organization that receives a duplicate copy of the tax bill. When the owner of record is not known for a particular property and cannot be ascertained by the exercise of reasonable diligence by the public officer, notice shall not be mailed but instead shall be posted on the property and published in the official journal of the local governmental subdivision.

(4) The mailed notice shall include the factual basis for the public officer's finding that the property is blighted housing property, specifying the information relied upon in making such finding, and the owner's right and procedures to appeal the finding.

E. Challenges to listing on blighted housing property list. (1) An owner or secured party may challenge the inclusion of his property on the blighted housing property list by appealing that determination to the hearing officer within sixty days of the owner's receipt of the certified notice.

(4) The owner or any party in interest may submit documentation including but not limited to photographs, repair invoices, bills, and construction contracts to challenge the inclusion of the property on the list.

(5) The hearing officer shall render a decision on the appeal within thirty days of the hearing and shall promptly, by certified mail, return receipt requested, notify the property owner of the decision and the reasons therefor.

F. Appeal of blighted property designation. The property owner may challenge an adverse determination of an appeal with the hearing officer, by filing an appeal in the court in the parish in which the property is located. Such action shall be instituted within thirty days of the date of the notice of decision mailed by the hearing officer. The failure to institute an action of appeal on a timely basis shall constitute a jurisdictional bar to challenging the adverse determination, except that, for good cause shown, the court may extend the deadline for instituting the action.

G. Removal of properties from blighted housing property list. The public officer shall promptly remove any property from the blighted housing property list that has been determined not to be a blighted housing property on appeal.

If the court approves the secured party's alternate plan, then the court shall appoint the public officer to act as monitor of the secured party's compliance. If the secured party fails to carry out any step in the approved alternate plan, then the local governmental subdivision may apply to the court to complete the local governmental subdivision's rehabilitation plan.

RS 40:600.86 — Short title; findings; purpose

in the state of Louisiana a serious shortage of affordable, accessible, decent, safe, and sanitary residential housing that is in compliance with Title II of the Americans with Disabilities Act, 42 U.S.C.A. §12131 et seq., the Fair Housing Act, 42 U.S.C.A. §3601 et seq., and Section 504 of the Rehabilitation Act, 29 U.S.C.A. §794.

(2) The legislature hereby finds and declares further that private enterprise and investment unaided has not been able to produce the needed construction of decent, safe, accessible, and sanitary residential housing at prices which persons and families of low or moderate income can afford, or to achieve the urgently needed rehabilitation of existing inadequate and substandard residential housing. The legislature further finds and declares that it is imperative that the supply of residential housing for persons and families of low or moderate income, senior citizens and persons with disabilities, that is in compliance with Title II of the Americans with Disabilities Act, 42 U.S.C.A. §12131 et seq., the Fair Housing Act, 42 U.S.C.A. §3601 et seq., and Section 504 of the Rehabilitation Act, 29 U.S.C.A. §794, be increased substantially and that private enterprise and investors be encouraged to sponsor, build, and rehabilitate residential housing for such persons and families.

(3) The legislature hereby finds and declares further that a major cause of the shortage of residential housing is the inadequate supply of funds available from private mortgage lenders for residential housing mortgage loans at interest rates within the financial means of persons and families of low or moderate income.

(4) The legislature hereby finds and declares that the limited resources available directly to the state or its agencies may be more effectively and efficiently utilized if a single corporation is authorized and directed to coordinate housing programs administered by the state or its agencies and instrumentalities.

(5) The legislature hereby finds and declares further that additional financial resources and technical skills must be available in local communities if the state is to mobilize the capacity of the private sector, including nonprofit community housing development organizations, to provide a more adequate supply of decent, safe, affordable, accessible, and sanitary housing.

(6) The legislature hereby finds and declares further that state leadership is needed to achieve an adequate supply of affordable and accessible housing for all residents of the state and that such leadership shall be provided through the corporation.

(7) The legislature hereby finds and declares further that this corporation should have the maximum amount of flexibility, responsibility, and discretion to assure that all the residents of the state shall have access to decent, safe, sanitary, accessible, and affordable housing; therefore, in carrying out the purposes of this Chapter, the corporation shall be presumed to possess broad powers and legal prerogatives which enable the corporation to carry out its purposes directly or indirectly through one or more nonprofit subsidiaries.

(8) The legislature hereby finds and declares further that a major cause of the shortage of residential housing available for persons and families of low or moderate income is the lack of a coordinated approach and clear statewide policy

regarding funds for such residential housing.

(9) The legislature hereby finds and declares further that providing housing for citizens with disabilities and senior citizens is a crucial responsibility of the state and that any coordinated approach or clear statewide policy regarding funds for residential housing shall take into account assuring that such housing remains available and affordable for senior citizens and persons with disabilities.

(1) Bottled water shall be subject to effective germicidal treatment by ozonation or carbonation at a minimum of three volumes of carbon dioxide or other equivalent disinfection approved by the department, except that the requirement for filtration and germicidal treatment shall not apply to a bottled water product for which an exemption has been granted by the department pursuant to the criteria as contained in R.S. 40:739.

(2) Bottled water shall not be transported or stored in bulk tanks or processed or bottled through equipment or lines used for any nonfood product.

(3) Bottled water which originates from a surface water source which is not protected from surface contamination shall be subjected to ozonation, filtration, or another effective process which removes or destroys the cysts of the parasite giardia lamblia.

C. Each bottled water plant operator shall develop and maintain written procedures for notification of the department, consumer notification and product recall and shall implement any said procedure as necessary with respect to any product for which the operator or department knows or has reason to believe circumstances exist that may adversely affect its safety for the consumer. In order to facilitate product identification or recall, each bottled water product shall contain a code that is designed to remain attached to the container during use and which contains either the date of manufacture or a lot or batch number.

D. A bottled water supplier who knows that a primary maximum contaminant level has been exceeded or has reason to believe that circumstances exist which may adversely affect the safety of bottled water, including but not limited to source contamination, spills, accidents, natural disasters, or breakdowns in treatment, shall notify the department promptly.

E. If the department determines, based upon representative samples, risk analysis, information provided by the bottled water supplier, and other information available to the department, that the circumstances present an imminent hazard to the public health and that a form of consumer notice or product recall can effectively avoid or significantly minimize the threat to public health, the department may order the water supplier to initiate a level of product recall approved by the department or, if appropriate, issue a form of notification to customers. The bottled water supplier shall be responsible for disseminating the notice in a manner designed to inform customers who may be affected by the problem. The water bottler shall where appropriate provide the notice to radio and television media or to the newspaper serving the affected public or shall in the alternative directly notify affected users where doing so in a manner approved by the department can effectively avoid or minimize the risk to health. Product recalls shall conform to the procedures and policies of 21 CFR Part 7.

F. Where a maximum contaminant level has been violated but circumstances, including risk analysis and representative samples, indicate that the violation of the maximum contaminant level has been promptly corrected and that already-distributed product will not cause illness and presents no significant health risk, a recall and media notification of consumers is unnecessary. In such circumstances where a recall or media notification is unnecessary, but where there may be significant consumer complaints of product taste or odor, the department may order the bottler to communicate

the exceedance of the maximum contaminant level and the implementation of corrective measures by direct mailings to affected customers or by newspaper publication.

G. Artesian water may be collected with the assistance of external force to enhance the natural underground pressure so long as such measures do not alter the physical properties, composition, and quality of the water.

H. Natural water shall not be modified by blending with water of another type or by deletion or addition of dissolved solids, except as related to disinfection or other treatment to reduce the concentration of any naturally present constituent which exceeds government sanctioned or approved safety standards or guidelines. It may be collected and transported by pumps, pipes, tunnels, trucks, or similar devices.

I. Spring water shall be collected only at the spring or through a bore hole that is adjacent to the point of emergence. Spring water collected with the assistance of external force to protect the water shall retain all the physical properties of and be of the same composition and quality as the water that flows naturally to the surface of the earth.

J. No person shall operate a bottled water plant or bottle water for the purpose of sale or distribution in this state without first obtaining a permit required by the state sanitary code demonstrating that the source, bottling facility treatment and bottling practices, and product water meet the requirements of this Part and regulations adopted hereunder. The department by regulation may establish a reasonable fee for a permit application, which fee shall be based on the cost of processing application and shall be the same for in-state and out-of-state bottlers. An annual renewal fee shall be established. The application fee and the annual renewal fee shall not exceed two hundred dollars.

K. For bottled water imported from outside the United States the required showing shall include a certification signed by the department or agency with jurisdiction over bottled water in the country of origin that describes the requirements of said country for the source, bottling facility, treatment, bottling practices, and product water; states the date of the last officially authorized inspection by the department or agency or acceptable third party inspection organization and review of said source, facility, treatment, bottling practices, and product water in light of such requirements; and certifies that said source, facility, treatment, bottling practices, and product water meet all of the requirements of the country of origin except those that are in conflict with U.S. state and federal laws and regulations.

L. As a condition of receiving a permit and annually thereafter, the bottler shall receive a plant inspection demonstrating compliance with the good manufacturing practices and operational requirements of this Part. Said inspection shall be conducted by the state in which the bottling facility is located, by the federal FDA, or by a third party inspection organization acceptable to the department.

M. A bottled water plant shall not be operated except under the supervision of a competent person qualified by experience, education, and training to operate and maintain the plant's facilities. Said person must hold a certificate demonstrating that he has successfully completed a technical training course, developed and administered by the department or by a third party organization that is acceptable to the department, that covers periodic instruction and testing in plant, source, and product sanitation; operation and maintenance of water treatment technology; and the maintenance and monitoring of source and product water quality in accordance with these bottled water standards.

RS 40:735 — Source water monitoring

analysis that his treatment reduces the contaminant(s) below the maximum contaminant levels in the finished product.

Approval of the source water product derived from a source other than a public water supply must be based upon a field inspection of the source and a review of information prepared by a professionally qualified hydrogeologist that shall demonstrate the integrity of the source and safety of the catchment operations and that shall include:

- (1) An evaluation of the chemical, physical, microbiological, and radiological characteristics of the source.
- (2) A report on the regional geology surrounding the site and the specific site geology. A description of the vertical and horizontal extent of the source aquifer using existing data; the information will be used to define the recharge area of the aquifer, or in the case of regional aquifers, the zone of influence of the subject source.
- (3) A report detailing the development of the source, the method of construction including spring design, well installation, surface catchment and intake structures, and transmission facilities as appropriate.
- (4) A watershed survey of the recharge area or zone of influence of subject source that identifies and evaluates actual and potential sources of contamination, and which shall be updated every three years, including any reported discharge that may affect the source.

(5) Based on the findings in Paragraph (4) of this Subsection, a plan for special monitoring of any significant contaminant source and for taking restrictive preventive or corrective measures as appropriate to protect the source water and the product water.

B. The plant operator shall be responsible for sampling and analysis of all approved sources for the contaminants specified in R.S. 40:733. Such monitoring shall be at least annually, except that analysis for microbiological contaminants shall be weekly if the source is other than a public water system.

C. Approved sources shall be monitored on a frequency of no less than once every four years for the contaminants listed in R.S. 40:740(B) or for which U. S. EPA under the Safe Drinking Water Act or the department requires source water monitoring.

D. Those systems using chlorination or chlorinated public water supplies shall also monitor for contaminants listed in R.S. 40:740(C). The definition of "source" as applied to R.S. 40:740(B) and (C) allows bottlers using public water supplies to take samples at the filler or from the source, all other bottlers being required to obtain samples from the groundwater source.

E. In lieu of source monitoring required by this Section, a plant operator using a public water system as its source may obtain and display a certificate from said system demonstrating that the public water system conducts the monitoring required by this Section.

F. In lieu of source water monitoring for any volatile organic contaminant covered by Subsections C and D of this Section that is confirmed to be present in the source water, the bottler may treat said source using granular activated carbon treatment or an equivalent treatment operated in accordance with good manufacturing practices as provided in 21 CFR 129.80.

G. The department may also exempt any water bottler from the monitoring requirements of Subsections C and D of this Section or reduce the frequency or scope of said source monitoring based on a showing satisfactory to the department that the source does not contain the compound(s) for which monitoring is required and is not vulnerable to contamination by the compound(s) because for surface water sources the compounds are not applied, manufactured, stored, disposed, or shipped upstream, and for groundwater sources, the compounds are not applied, manufactured, stored, disposed, or shipped in the groundwater recharge basin, or that a reliable indicator chemical may be monitored in lieu of said compound(s).

H. Where a bottled water plant operator, water dealer, or regulatory agency knows or has reason to believe that a contaminant not otherwise monitored is present in the source water because of a spill, release of a hazardous substance, or otherwise, and its presence would create a potential health hazard to consumers, the plant operator or water dealer upon receipt of such information shall monitor the source water for said contaminant.

I. Detection of contaminant in source monitoring required pursuant to R.S. 40:735 shall be followed immediately by a program of periodic monitoring to confirm the presence in the source water of said contaminant(s). If such listed unregulated contaminant(s) is confirmed to be present in the source water at a concentration that exceeds a published U.S. EPA health advisory, or a U.S. FDA or a department action level for drinking water, the plant operator or water dealer shall employ appropriate treatment techniques to remove or to reduce said contaminant in the product water below said concentration and shall employ a program of periodic monitoring for said contaminant in the source water until such time as said contaminant is not detectable in the source water.

J. The required source water monitoring shall be performed by qualified personnel and required analysis shall be performed by an approved laboratory. Records of the required sampling and analyses shall be maintained on file at the plant for not less than five years and shall be available for official review upon request of the department.

Water that is not in compliance with the requirements of this Part may not be identified, labeled, or advertised as "artesian water", "bottled water", "distilled water", "natural water", "purified water", "spring water", or "well water".

RS 40:739 — Waiver of filtration and germicidal treatment

's demonstration to the department's satisfaction that, based on review of long term baseline microbiological monitoring data of the source and product, and consideration of the nature and extent of source monitoring, source protection, and bottling sanitation procedures instituted by the bottler, filtration and germicidal treatment are not necessary to assure that the product will consistently comply with the microbiological standards herein. A waiver may be granted and maintained only upon a demonstration of all of the following:

- (1) That said bottled water product and source are in compliance with the Codex Alimentarius standard (CAC/AS 108) for natural mineral water, as amended, and the requirements of R.S. 40:733.
- (2) That said bottled water product and source are in compliance with the code of hygienic practice for the collecting, processing, and marketing of natural mineral water of the Codex Alimentarius, Alinorm 83/13A, as amended.

(3) That the bottler has submitted a basic hydrogeological survey of the source and an annual sanitary survey, both prepared by a professionally qualified hydrogeologist, demonstrating the integrity of the source, which sanitary survey shall include:

(a) Watershed surveillance consisting of an inspection of portions of the drainage area necessary to identify and evaluate actual and probable sources of contamination.

(b) Evaluation of source construction and protection and where appropriate, intake structures, and transmission facilities.

(c) Evaluation of finished water storage facilities.

(4) That continued compliance of the bottled water product and source with the Codex Alimentarius standards is demonstrated by an official testing performed once every two months by the authorities having jurisdiction, and by a weekly microbiological testing as described in the code of hygienic practices for the collecting, processing, and marketing of natural mineral water of the Codex Alimentarius, Alinorm 85/13A, and by an annual inspection by an independent organization acceptable to the department demonstrating compliance with the code of hygienic practices for the collecting, processing, and marketing of natural mineral water of the Codex Alimentarius, Alinorm 85/13A.

(5) That said bottled water product is bottled in an enclosed filling room/chamber that is under positive pressure of filtered purified air, and using facilities and good manufacturing practices that comply with the requirements of 21 CFR Part 129.

B. This exemption to the requirement for filtration and germicidal treatment for said bottled water product shall be renewed every year by the submission of an annual report establishing compliance with the microbiological standards described in 21 CFR Section 103.35 and the requirements of this Section pertaining to said water and source. Bottled water that is not in compliance with any of such requirements shall be subject to the requirement for filtration and germicidal treatment.

C. This exemption applies only to the requirement for filtration and germicidal treatment. All bottled water shall comply with all other provisions of this Part.
