(e) (1) A manufacturer may not unreasonably withhold consent to the transfer of a franchise under subsection (d) of this section.

(2) If an owner, partner, or stockholder of a dealership seeks to sell, assign, or otherwise transfer a franchise or any right under a franchise, the owner, partner, or stockholder shall provide written notice to the manufacturer of the proposed transfer.

(3) Within 20 days after a manufacturer receives written notice of a proposed transfer from a transferor, the manufacturer shall provide the transferor with all forms and requests for information that the manufacturer considers necessary to evaluate the proposed transfer.

(i) However, the factory branch may not unreasonably withhold consent to the transfer of a franchise under subsection (h) of this section.

(j) A manufacturer, distributor, or factory branch may not impose a condition on the approval of the sale or transfer of the ownership of a dealership, by the sale of the business, stock transfer, or otherwise, if the condition would violate the provisions of this title if imposed on an existing dealer.

(k) (1) A manufacturer, distributor, or factory branch violates this section if, without a statement of specific grounds consistent with this title for the action, the manufacturer, distributor, or factory branch takes action to prevent or refuse to approve:

(i) The sale, assignment, or transfer of the ownership of a dealership by the sale of the business, stock transfer, or otherwise;

(ii) The sale, transfer, or assignment of a dealer franchise; or

(3) (i) An applicant for approval of a sale, assignment, or transfer of ownership of a dealership or an existing dealer denied the sale, assignment, or transfer may institute an action for damages in the circuit court for the county in which the dealer's principal place of business is located, if:

2. The action taken in violation of this section to deny the sale, assignment, or transfer of ownership or the change in executive management or the condition imposed on the sale, assignment, or transfer is the proximate cause of the failure of the contract for the sale, assignment, or transfer of ownership of the dealership.

(ii) An action for damages under this section must be instituted within 2 years of the violation of this section.

(iv) Heating, air-conditioning, or both;

(v) A potable water supply system including a faucet and sink;

(vi) Separate 110–125 volt electrical power supply; or

(vii) An LP gas supply.

(b) In addition to the other grounds specified in Subtitle 1 of this title for refusal, suspension, or revocation of a license, the Administration may refuse to grant a license under this subtitle to any person and may suspend, revoke, or refuse to renew the license of any person if it finds that the person has:

(1) Made any material misrepresentation in transferring a vehicle or truck component part to a dealer or distributor;

(2) Failed to comply with any written warranty agreement; or

(3) Failed to reasonably compensate any franchised dealer who does work under:

(i) The vehicle preparation and delivery obligations of the dealer; or

(ii) Any outstanding express or implied new vehicle or truck component parts warranty.

(c) (1) A licensee shall specify in writing to each of its motor vehicle dealers licensed in the State:

(i) The dealer's obligation for vehicle preparation, delivery, warranties, and recalls on its products;

(ii) The schedule of compensation to be paid to the dealers for parts, including parts assemblies, and labor, including diagnostic labor and associated administrative requirements, in connection with the service obligations established under item (i) of this paragraph; and

(iii) A time allowance for the performance of labor described in this paragraph that is reasonable and adequate.

(2) Reasonable compensation under this section may not be less than:

(i) With respect to labor for warranty or recall repairs, the dealer's current labor rate for nonwarranty repairs of a like kind for retail customers; and

(ii) With respect to any part, the dealer's cost plus its current retail mark-up percentage charged to retail customers for nonwarranty repairs of a like kind.

(3) (i) For purposes of paragraph (2) of this subsection, the dealer's labor rate or parts mark-up percentage shall be established by a submission to the licensee of whichever of the following produces fewer repair orders closed, as of the date of submission, within the preceding 180 days:

1. 100 qualifying sequential customer-paid repair orders; or

2. 90 days of qualifying customer-paid repair orders.

(ii) With respect to parts, a schedule of compensation established under this subsection shall be equal to the parts mark-up percentage as reflected in qualifying repair orders, calculated by dividing the total charges for parts in the repair orders by the total dealer cost for the parts minus one.

(iii) 1. A dealer may not make a submission under this subsection more than once in 1 year.

2. For purposes of subparagraph 1 of this subparagraph, a revision or supplement to a submission to correct or clarify the submission does not constitute a new submission.

(4) Repair orders for labor or parts in connection with any of the following may not constitute a qualifying repair order under paragraph (2) of this subsection:

(i) Accessories;

(ii) Repairs for manufacturer, distributor, or factory branch special events, promotions, or service campaigns;

(iii) Repairs related to collision;

(iv) Vehicle emission or safety inspections required by law;

(5) If a licensee gives a dealer a part at no cost to use in performing a repair under a recall, campaign service action, or warranty repair, the licensee shall compensate the dealer for the part by paying the dealer the parts mark-up percentage established under this subsection on the cost for the part listed on the licensee's price schedule.

(6) (i) The schedule of compensation submitted under paragraph (3) of this subsection shall be presumed to be accurate and reasonable.

(ii) The licensee shall approve or rebut the dealer's submission within 30 days of receipt.

(iii) If the licensee approves a dealer's submission, the licensee shall begin compensating the dealer under the schedule within 30 days after the date of approval.

(iv) In the absence of a timely rebuttal by the licensee, the schedule of compensation submitted by the dealer shall go into effect on the 31st day following the licensee's receipt of the schedule.

(v) Any rebuttal of the schedule of compensation by the licensee shall:

1. Be delivered to the dealer within 30 days of the licensee's receipt of the schedule; and
2. Consist of reasonable substantiating evidence that the declared rate is materially inaccurate.

(vi) In the event of a timely rebuttal, on resolution of the matter by agreement of the parties or by administrative, judicial, or other action, a licensee's payment obligations under the resulting schedule of compensation shall begin on the 31st day following a final order unless otherwise provided for by the fact finder.

(vii) 1. To the extent that any action commenced under subsection (d) of this section or § 15–213 or § 15–214 of this subtitle involves the application of paragraph (3) of this subsection, the issues shall be limited to whether the labor rate or parts mark-up percentage stated in the dealer's submission was materially inaccurate.

2. A licensee shall have the burden of proving under this subparagraph that the dealer's submission was materially inaccurate.

(viii) 1. A licensee may verify a dealer's effective rates once annually.

2. If a licensee finds that a dealer's effective rates have increased or decreased, the licensee may increase or decrease, respectively, the warranty reimbursement rate prospectively.

(7) A licensee may not directly or indirectly:

(i) Calculate its own labor rate or parts mark-up percentage on a warranty reimbursement rate submission by the licensee's dealer under this section, or require a dealer to calculate a labor rate or parts mark-up percentage, by any method not required under this section, including a method that is unduly burdensome or time-consuming or that requires information that is unduly burdensome or time-consuming to provide such as:

1. A part-by-part or transaction-by-transaction calculation; or
2. Presentation of information as to, or calculations based on, the dealer's or other dealers' warranty compensation;

(ii) Establish or implement a special part or component number for parts used in warranty fulfillment, if the special part or component number results in reduced compensation for the dealer unless the part is used for specific, limited repair situations;

(iii) Require or coerce a dealer to change the prices for which it sells parts or labor for retail customer repairs;

(iv) Take adverse action against a dealer because the dealer seeks compensation under this section, by:

1. Implementing a process that is inconsistent with the licensee's obligations to the dealer under this subtitle; or
2. Failing to act in good faith;

(v) Conduct any warranty or retail customer repair audit, or other service-related audit, solely because the dealer makes a request for warranty reimbursement at retail rates in the ordinary course of business; or

(vi) Establish, implement, enforce, or apply any policy, standard, rule, program, or incentive regarding the compensation due under this section other than in a uniform manner among the licensee's dealers in the State.

(8) The provisions of paragraphs (1) through (7) of this subsection do not apply to travel trailers or parts of systems, fixtures, appliances, furnishings, accessories, and features of motor homes that are not manufactured by the manufacturer of the motor home as a part of the unit.

(9) (i) A claim filed under this section by a dealer with a manufacturer or distributor shall be:

1. In the manner and form reasonably prescribed by the manufacturer or distributor; and
2. Approved or disapproved within 30 days of receipt.

(ii) A claim not approved or disapproved within 30 days of receipt shall be deemed approved.

(iii) Payment of or credit issued on a claim filed under this section shall be made within 30 days of approval.

(10) A dealer's failure to comply with a specific requirement of the manufacturer or distributor may not constitute grounds for denial of the claim or reduction of the amount of compensation paid to the dealer if the dealer presents documentation or other reasonable evidence to substantiate that the repair and the claim were done according to manufacturer warranty guidelines.

(11) (i) If a claim filed under this section is shown by the manufacturer or distributor to be false or unsubstantiated, the manufacturer or distributor may charge back the claim within 9 months from the date the claim was paid or credit issued.

(ii) This paragraph does not limit the right of a manufacturer or distributor to:

1. Conduct an audit of any claim filed under this section; or
2. Charge back for any claim that is proven to be fraudulent.

(iii) An audit under this paragraph shall be conducted according to generally accepted accounting principles.

(12) A licensee may not prohibit a dealer from, or take any adverse action against a dealer for, providing to a customer information given to the dealer by a manufacturer related to any condition that may substantially affect motor vehicle safety, durability, reliability, or performance.

(13) A dealer may provide the information specified in paragraph (12) of this subsection only to a customer that has:

- (i) Purchased the vehicle for which the information pertains from the dealer; or
- (ii) Had the vehicle for which the information pertains serviced by the dealer.

(14) A licensee may not deny a claim, reduce the amount of compensation to a dealer, or process a charge back to a dealer for performing covered warranty or required recall repairs on a vehicle:

- (i) For resolving a condition covered by the licensee's original warranty;
- (ii) For remedying a safety-related defect that is subject to an outstanding recall under federal law;
- (iii) If the dealer properly performed the repairs and submitted the claims; or
- (iv) If the dealer discovered the need for repairs:
 1. During the course of a separate repair requested by the customer; or
 2. Through notice of an outstanding recall under federal law for a safety-related defect.

(d) As to any person licensed under this subtitle, instead of or in addition to revocation, suspension, or nonrenewal of a license under this section, the Administrator:

- (1) May order the licensee to pay a fine not exceeding \$50,000 for each violation of this subtitle; and
- (2) May order the licensee to compensate any person for financial injury or other damage suffered as a result of the violation.

§ 16-703

Article I

Findings and Declaration of Policy

(a) The party states find that:

(1) The safety of their streets and highways is materially affected by the degree of compliance with state laws and local ordinances relating to the operation of motor vehicles.

(2) Violation of such a law or ordinance is evidence that the violator engages in conduct which is likely to endanger the safety of persons and property.

(3) The continuance in force of a license to drive is predicated upon compliance with laws and ordinances relating to the operation of motor vehicles, in whichever jurisdiction the vehicle is operated.

(b) It is the policy of each of the party states to:

(1) Promote compliance with the laws, ordinances, and administrative rules and regulations relating to the operation of motor vehicles by their operators in each of the jurisdictions where such operators drive motor vehicles.

(2) Make the reciprocal recognition of licenses to drive and eligibility therefor more just and equitable by considering the overall compliance with motor vehicle laws, ordinances and administrative rules and regulations as a condition precedent to the continuance or issuance of any license by reason of which the licensee is authorized or permitted to operate a motor vehicle in any of the party states.

Article II

Definitions

As used in this Compact:

(a) "State" means a state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

(b) "Home state" means the state which has issued and has the power to suspend or revoke the use of the license or permit to operate a motor vehicle.

(c) "Conviction" means a conviction of any offense related to the use or operation of a motor vehicle which is prohibited by state law, municipal ordinance or administrative rule or regulation, or a forfeiture of bail, bond or other security deposited to secure appearance by a person charged with having committed any such offense, and which conviction or forfeiture is required to be reported to the licensing authority.

Article III

Reports of Conviction

The licensing authority of a party state shall report each conviction of a person from another party state occurring within its jurisdiction to the licensing authority of the home state of the licensee. Such report shall clearly identify the person convicted; describe the violation specifying the section of the statute, code or ordinance violated; identify the court in which action was taken; indicate whether a plea of guilty or not guilty was entered, or the conviction was a result of the forfeiture of bail, bond or other security; and shall include any special findings made in connection therewith.

Article IV

Effect of Conviction

(a) The licensing authority in the home state, for the purposes of suspension, revocation or limitation of the license to operate a motor vehicle, shall give the same effect to the conduct reported, pursuant to Article III of this Compact, as it would if such conduct had occurred in the home state, in the case of convictions for:

(1) Manslaughter or negligent homicide resulting from the operation of a motor vehicle;

(2) Driving a motor vehicle while under the influence of intoxicating liquor or a narcotic drug, or under the influence of any other drug to a degree which renders the driver incapable of safely driving a motor vehicle;

(3) Any felony in the commission of which a motor vehicle is used;

(4) Failure to stop and render aid in the event of a motor vehicle accident resulting in the death or personal injury of another.

(b) As to any other convictions, reported pursuant to Article III, the licensing authority in the home state shall record the conviction on the individual's driving record, but may not assess points for the conviction.

(c) If the laws of a party state do not provide for offenses or violations denominated or described in precisely the words employed in subdivision (a) of this article, such party state shall construe the denominations and descriptions appearing in subdivision (a) hereof as being applicable to and identifying those offenses or violations of a substantially similar nature, and the laws of such party state shall contain such provisions as may be necessary to ensure that full force and effect is given to this article.

Article V

Applications for New Licenses

Upon application for a license to drive, the licensing authority in a party state shall ascertain whether the applicant has ever held, or is the holder of a license to drive issued by any other party state. The licensing authority in the state where application is made shall not issue a license to drive to the applicant if:

(1) The applicant has held such a license, but the same has been suspended by reason, in whole or in part, of a violation and if such suspension period has not terminated.

(2) The applicant has held such a license, but the same has been revoked by reason, in whole or in part, of a violation and if such revocation has not terminated, except that after the expiration of 1 year from the date the license was revoked, such person may make application for a new license if permitted by law. The licensing authority may refuse to issue a license to any such applicant if, after investigation, the licensing authority determines that it will not be safe to grant to such person the privilege of driving a motor vehicle on the public highways.

(3) The applicant is the holder of a license to drive issued by another party state and currently in force unless the applicant surrenders such license.

Article VI

Applicability of Other Laws

Except as expressly required by provisions of this Compact, nothing contained herein shall be construed to affect the right of any party state to apply any of its other laws relating to licenses to drive to any person or circumstance, nor to invalidate or prevent any driver license agreement or other cooperative arrangement between a party state and a nonparty state.

Article VII

Compact Administrator and Interchange of Information

(a) The head of the licensing authority of each party state shall be the administrator of this Compact for his state. The administrators, acting jointly, shall have the power to formulate all necessary and proper procedures for the exchange of information under this Compact.

Article VIII

Entry into Force and Withdrawal

(a) This Compact shall enter into force and become effective as to any state when it has enacted the same into law.

(b) Any party state may withdraw from this Compact by enacting a statute repealing the same, but no such withdrawal shall take effect until 6 months after the executive head of the withdrawing state has given notice of the withdrawal to the executive heads of all other party states. No withdrawal shall affect the validity or applicability by the licensing authorities of states remaining party to the Compact of any report of conviction occurring prior to the withdrawal.

Article IX

Construction and Severability

This Compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this Compact shall be severable and if any phrase, clause, sentence or provision of this Compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this Compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this Compact shall be held contrary to the constitution of any state party thereto, the Compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

(2) A registered owner of a motor vehicle shall not be liable for a civil penalty imposed under this section if the operator of the motor vehicle has been convicted of failure or refusal to pay a toll under § 21-1413 of this subtitle for the same violation.

(5) A person alleged to be liable receiving the citation for a toll violation under this section may:

(i) Pay the video toll and the civil penalty directly to the Authority;

(ii) Request to pay the video toll and civil penalty through the installment plan under § 21–1417 of this subtitle; or

(2) The citation, including the certificate, shall constitute prima facie evidence of liability for the toll violation and civil penalty.

(f) Adjudication of liability under this section:

(4) May not be considered in the provision of motor vehicle insurance coverage.

(g) (1) If, at the time of a video toll transaction, a motor vehicle is operated by a person other than the registered owner without the express or implied consent of the registered owner, and if the registered owner by the date stated on the notice of toll due provides the Authority or its duly authorized agent with a notarized admission by the person accepting liability which shall include that person's name, address, and driver's license identification number, then the person accepting liability shall be liable under this section and shall be sent a notice of toll due.

(2) If the registered owner is a lessor of motor vehicles, and at the time of the video toll transaction the motor vehicle involved was in the possession of a lessee, and the lessor by the date stated on the notice of toll due provides the Authority or its duly authorized agent with a copy of the lease agreement or other documentation acceptable to the

(4) If a motor vehicle or registration plate number is reported to a law enforcement agency as stolen at the time of the video toll transaction, and the registered owner by the date stated on the notice of toll due provides to the Authority or its duly authorized agent a copy of the police report substantiating that the motor vehicle was stolen at the time of the video toll transaction, then the registered owner of the motor vehicle is not liable under this section.

(h) (1) The Authority may refer a delinquent account for unpaid video tolls and associated civil penalties to the Central Collection Unit for collection.

§ 22-301

(a) "Driveaway or towaway operation" means any operation in which any motor vehicle, trailer, or semitrailer, singly or in combination, new or used, is the commodity being transported, when one set or more of wheels of the vehicle are on the roadway during the transportation, whether or not the vehicle furnishes the motive power.

(b) Every motor vehicle, trailer, semitrailer, and pole trailer, and any combination of these vehicles, while operating on a highway in this State, shall be equipped with brakes in compliance with the requirements of this title. All the vehicles and combinations of vehicles shall be equipped with service brakes complying with the performance requirements of § 22-302 of this subtitle and, except as provided in subsection (l) of this section, adequate to control the movement of and to stop and hold the vehicle under all conditions of loading, and on any grade incident to its operation.

(c) (1) All the vehicles and combinations of vehicles, except motorcycles, shall be equipped with parking brakes adequate to hold the vehicle on any grade on which it is operated, under all conditions of loading, on a surface free from snow, ice, or loose material.

(2) The parking brakes shall be capable of being applied in conformance with the foregoing requirements by the driver's muscular effort or by spring action or by equivalent means. Their operation may be assisted by the service brakes or other source of power, provided that failure of the service brake actuation system or other power assisting mechanism will not prevent the parking brakes from being applied in conformance with the foregoing requirements.

(3) The parking brakes shall be so designed that when once applied they shall remain applied with the required effectiveness despite exhaustion of any source of energy or leakage of any kind.

(4) The same brake drums, brake shoes and lining assemblies, brake shoe anchors and mechanical brake shoe actuation mechanism normally associated with the wheel brake assemblies may be used for both the service brakes and the parking brakes. If the means of applying the parking brakes and the service brakes are connected in any way, they shall be so constructed that failure of any one part does not leave the vehicle without operative brakes.

(d) Every vehicle shall be equipped with brakes acting on all wheels, except:

(1) Trailers, semitrailers, or pole trailers of a registered gross weight not exceeding 3,000 pounds, provided that:

(i) The total weight on and including the wheels of the trailer or trailers does not exceed 40 percent of the gross weight of the towing vehicle when connected to the trailer or trailers; and

(ii) The combination of vehicles, consisting of the towing vehicle and its total towed load, is capable of complying with the performance requirements of § 22-302 of this subtitle;

(2) Trailers, semitrailers, or pole trailers of a registered gross weight exceeding 3,000 pounds and not exceeding 10,000 pounds that:

(i) Have 2 or more axles;

(ii) Are equipped with brakes acting on all wheels of at least 1 axle; and

(iii) As part of a combination of vehicles, consisting of the towing vehicle and the total load, is capable of complying with the performance requirements of § 22-302 of this subtitle;

(3) Any vehicle being towed in driveaway or towaway operations, provided that the combination of vehicles is capable of complying with the performance requirements of § 22-302 of this subtitle;

(4) Trucks, truck tractors, and special mobile equipment manufactured before July 24, 1980 with three or more axles need not have brakes on the front wheels. However, the trucks and truck tractors must be capable of complying with the performance requirements of § 22-302 of this subtitle;

(5) The wheel of a sidecar attached to a motorcycle or to a motor-driven cycle, or the front wheel of a motor-driven cycle need not be equipped with brakes, provided that the motorcycle or motor-driven cycle is capable of complying with the performance requirements of § 22-302 of this subtitle; and

(6) Any vehicle equipped with at least 2 steerable axles need not have brakes on the wheels of 1 of the axles. However, the vehicle must be capable of complying with the performance requirements of § 22-302 of this subtitle.

(e) (1) Every trailer, semitrailer, and pole trailer equipped with air or vacuum actuated brakes, and every trailer, semitrailer, and pole trailer with a registered gross weight in excess of 10,000 pounds, manufactured or assembled after June 1, 1970, shall be equipped with brakes acting on all wheels and of a character to be applied automatically and promptly, and remain applied for at least 15 minutes on breakaway from the towing vehicle.

(2) Every trailer, semitrailer, and pole trailer with a registered gross weight of more than 3,000 pounds and not more than 10,000 pounds, manufactured or assembled after June 1, 1970, shall be equipped with brakes acting on all wheels of at least 1 axle and of a character to be applied automatically and promptly, and remain applied for at least 15 minutes on

breakaway from the towing vehicle.

(f) Every motor vehicle manufactured or assembled after June 1, 1970, and used to tow a trailer, semitrailer, or pole trailer equipped with brakes, shall be equipped with means for providing that, in case of breakaway of the towed vehicle, the towing vehicle will be capable of being stopped by the use of its service brakes.

(g) Air brake systems installed on trailers manufactured or assembled after June 1, 1970, shall be so designed that the supply reservoir used to provide air for the brakes is safeguarded against backflow of air from the reservoir through the supply line.

(h) (1) Air Brakes. After June 1, 1971, every towing vehicle, when used to tow another vehicle equipped with air controlled brakes, in other than driveaway or towaway operations, shall be equipped with two means for emergency application of the trailer brakes. One of these means shall apply the brakes automatically in the event of a reduction of the towing vehicle air supply to a fixed pressure, which shall be not lower than 20 pounds per square inch nor higher than 45 pounds per square inch. The other means shall be a manually controlled device for applying and releasing the brakes, readily operable by a person seated in the driving seat, and its emergency position or method of operation shall be clearly indicated. In no instance may the manual arrangement be arranged to permit its use to prevent operation of the automatic means. The automatic and the manual means required by this section may be, but are not required to be, separate.

(2) Vacuum Brakes. After June 1, 1970, every towing vehicle used to tow other vehicles equipped with vacuum brakes, in operations other than driveaway or towaway operations, shall have, in addition to the single control device required by subsection (i) of this section, a second control device that can be used to operate the brakes on towed vehicles in emergencies. The second control shall be independent of brake air, hydraulic, and other pressure, and independent of other controls, unless the braking system is so arranged that failure of the pressure on which the second control depends will cause the towed vehicle brakes to be applied automatically. The second control is not required to provide modulated braking.

(i) Except as provided in subsection (l) of this section, after June 1, 1971, every motor vehicle, trailer, semitrailer, and pole trailer, and every combination of these vehicles, except motorcycles, equipped with brakes shall have the braking system so arranged that one control device can be used to operate all service brakes. This requirement does not prohibit vehicles from being equipped with an additional control device to be used to operate brakes on the towed vehicles. This regulation does not apply to driveaway or towaway operations unless the brakes on the individual vehicles are designed to be operated by a single control on the towing vehicle, nor does it apply to the operation of electric trailer brakes.

(j) (1) Air Brakes. Every bus, truck, or truck tractor with air operated brakes shall be equipped with at least one reservoir sufficient to insure that, when fully charged to the maximum pressure as regulated by the air compressor governor cut-out setting, a full service brake application may be made without lowering the reservoir pressure by more than 20 percent. Each reservoir shall be provided with means for readily draining accumulated oil or water.

(2) Vacuum Brakes. After June 1, 1971, every truck with three or more axles equipped with vacuum assist type brakes and every truck tractor and truck used for towing a vehicle equipped with vacuum brakes shall be equipped with a reserve capacity or a vacuum reservoir sufficient to insure that, with the reserve capacity or reservoir fully charged and with the engine stopped, a full service brake application may be made without depleting the vacuum supply by more than 40 percent.

(3) Reservoir Safeguarded. All motor vehicles, trailers, semitrailers, and pole trailers, when equipped with air or vacuum reservoirs or reserve capacity as required by this section, shall have reservoirs or reserve capacity so safeguarded by a check valve or equivalent device that, in the event of failure or leakage in its connection to the source of compressed air or vacuum, the stored air or vacuum is not depleted by the leak or failure.

(k) (1) Air Brakes. Every bus, truck, or truck tractor using compressed air for the operation of its own brakes or the brakes on any towed vehicle, shall be provided with a warning signal, other than a pressure gauge, readily audible or visible to the driver, which will operate at any time that the air reservoir pressure of the vehicle is below 50 percent of the air compressor governor cut-out pressure. In addition, the vehicle shall be equipped with a pressure gauge visible to the driver, which indicates in pounds per square inch the pressure available for braking.

(2) Vacuum Brakes. After June 1, 1971, every truck tractor and truck used for towing a vehicle equipped with vacuum operated brakes and every truck with three or more axles using vacuum in the operation of its brakes, except those in driveaway or towaway operations, shall be equipped with a warning signal, other than a gauge indicating vacuum, readily

audible or visible to the driver, which will operate at any time the vacuum in the vehicle's supply reservoir or reserve capacity is less than 8 inches of mercury.

(3) Combination of Warning Devices. When a vehicle required to be equipped with a warning device is equipped with both air and vacuum power for the operation of its own brakes or the brakes on a towed vehicle, the warning devices may be, but are not required to be, combined into a single device that serves both purposes. A gauge or gauges indicating pressure or vacuum is not an adequate means of satisfying this requirement.

(l) (1) In this subsection, "surge brakes" means a braking system designed to activate the brakes of a vehicle being towed as a result of the forward pressure of the vehicle against the towing vehicle during deceleration.

(2) A trailer or semitrailer may be equipped with surge brakes if:

(i) The trailer or semitrailer has a manufacturer's gross vehicle weight rating, or registered weight, whichever is less, of 10,000 pounds or less;

(ii) The combined gross vehicle weight rating, combined registered weight, and the gross combination weight of the trailer or semitrailer and the towing vehicle is 26,000 pounds or less;

(iii) The vehicle or combination of vehicles is not designed or used to transport 16 or more passengers including the driver of the towing vehicle;

(iv) The actual gross weight of the trailer or semitrailer and load does not exceed the manufacturer's gross vehicle weight rating or registered weight, whichever is less;

(v) The actual gross weight of the towing vehicle and load does not exceed the manufacturer's gross vehicle weight rating or registered weight, whichever is less;

(vi) The trailer or semitrailer brakes are designed and connected in such a manner that in case of accidental breakaway of the towed vehicle, the brakes will apply automatically;

(vii) The vehicle or combination of vehicles is not used to transport hazardous materials of a type and quantity that requires placarding;

(viii) The vehicle or combination of vehicles is not used to transport liquids or gases contained in packaging that exceeds a capacity of 119 gallons;

(ix) The trailer or semitrailer has a gross weight rating, registered weight, or gross weight, whichever is greater, that is not more than one and one-half times the gross weight rating or registered weight, whichever is less, of the towing vehicle; and

(x) For vehicles used for commercial purposes, the trailer or semitrailer is used only in intrastate commerce.

(2) Decelerating to a stop from not more than 20 miles per hour at not less than the feet per second tabulated in subsection (c) of this section for its classification; and

(3) Stopping from a speed of 20 miles per hour in not more than the distance tabulated in subsection (c) of this section for its classification, this distance to be measured from the point at which movement of the service brake pedal or control begins.

§ 22-304

(a) The Administrator is authorized to require an inspection of the braking system on any motorcycle and to disapprove any braking system on a vehicle that he finds will not comply with the performance ability standard set forth in § 22-302 of this subtitle or that, in his opinion, is equipped with a braking system that is not so designed or constructed as to insure reasonable and reliable performance in actual use.

(b) The Administrator may refuse to register or may suspend or revoke the registration of any vehicle referred to in this section when he determines that the braking system on it does not comply with the provisions of this section.

(c) A person may not operate on any highway any vehicle referred to in this section if the Administrator has disapproved the braking system on the vehicle.

§ 22-305

(a) In this section, "hydraulic brake fluid" means the liquid medium through which force is transmitted to the brakes in the hydraulic brake system of a vehicle.

(b) Hydraulic brake fluid shall be distributed and serviced with due regard for the safety of the occupants of the vehicle and the public.

(c) After public hearing following due notice, the Administrator shall adopt and enforce regulations for the administration of this section and shall adopt and publish standards and specifications for hydraulic brake fluid.

(d) A person may not distribute, have for sale, offer for sale, or sell any hydraulic brake fluid unless it complies with the requirements of this section.

§ 22-401

(a) Every motor vehicle when operated on a highway shall be equipped with a horn in good working order and capable of emitting sound audible under normal conditions from a distance of not less than 200 feet, but no horn or other warning device may emit an unreasonably loud or harsh sound or a whistle.

(b) The driver of a motor vehicle shall, when reasonably necessary to insure safe operation, give audible warning with his horn, but may not otherwise use the horn when on a highway.

(c) No vehicle may be equipped with nor may any person use on a vehicle any siren, whistle, or bell, except as otherwise permitted in this section.

(d) It is permissible, but not required, that any vehicle be equipped with a theft alarm signal device that is so arranged that it cannot be used by the driver as an ordinary warning signal.

(e) Every emergency vehicle shall be equipped with a siren, whistle, or bell capable of emitting sound audible under normal conditions from a distance of not less than 500 feet. However, the siren may not be used except when the vehicle

is operated in response to an emergency call or in the immediate pursuit of an actual or suspected violator of the law, in which latter events the driver of the vehicle shall sound the siren when reasonably necessary to warn pedestrians and other drivers of the approach of the vehicle.

§ 22-402

(a) Every motor vehicle with an internal combustion engine shall be equipped with an exhaust muffler system in good working order and in constant operation to prevent excessive or unusual noise, and no person may use a muffler cutout, bypass, or similar device on a motor vehicle on a highway. Noise levels in excess of those adopted by the Administrator under § 22-601 of this title are excessive.

(b) A person may not use on the exhaust or "tail pipe" of a motor vehicle any extension or other device to cause excessive or unusual noise.

(c) (1) No motor vehicle may be operated, nor may the owner or lessee of a motor vehicle permit it to be operated, on any highway in this State unless the engine power and exhaust mechanism is equipped, adjusted, and operated to prevent:

(ii) The discharge of smoke from any other part of the engine in such amounts and of such opacity as to partially obscure persons or objects from view.

(2) In this subsection, "smoke" means small gasborne and airborne particles, exclusive of water vapor, from a process of combustion in sufficient numbers to be observable.

(3) A motor vehicle engine may not be allowed to operate for more than 5 consecutive minutes when the vehicle is not in motion, except as follows:

(i) When a vehicle is forced to remain motionless because of traffic conditions or mechanical difficulties over which the operator has no control;

(iii) To bring the vehicle to the manufacturer's recommended operating temperature; or

(iv) When it is necessary to accomplish the intended use of the vehicle.

(4) For a period of 1 year from July 1, 1971, this subsection shall be enforced by issuance of a warning. One year from July 1, 1971, it shall be enforced in the same manner as other violations of this section.

(5) This subsection does not apply to Class L (historic) vehicles.

§ 22-405

(a) A person may not drive a motor vehicle on any highway unless the motor vehicle is equipped with tires in safe operating condition, in accordance with requirements approved by the Administrator.

(b) A person may not drive a trailer on any highway unless the trailer is equipped with tires in safe operating condition, in accordance with requirements approved by the Administrator.

(c) The Administrator shall adopt rules of safe operating conditions capable of being employed by a police officer for visual inspection of tires maintained on vehicles, including visual comparisons with simple measuring devices. The requirements shall encompass effects on tread wear and depth of tread.

(d) If a police officer, at any time, has reasonable cause to believe that a vehicle is unsafe or equipped with tires in violation of the provisions of this section, the police officer may require the driver of the vehicle to stop and submit the vehicle tire to an inspection. (ii) Any similar or other product that the Administration approves.

(b) A person may not drive on any highway in this State any motor vehicle manufactured or assembled after June 1, 1937, and registered in this State, unless the vehicle is equipped with safety glass wherever glass is used in the motor vehicle in doors, windows, windshields, and wings.

(c) A person may not sell any motor vehicle manufactured or assembled after June 1, 1937, registered or intended to be registered in this State and driven or intended to be driven on any highway in this State, unless the vehicle is equipped with safety glass wherever glass is used in the motor vehicle in doors, windows, windshields, and wings. Each sale in violation of this provision is a separate offense.

(d) The owner of any motor vehicle may not have broken glass in the windshield of the vehicle replaced with any glass other than safety glass.

(e) The owner of any motor vehicle may not have safety glass, broken or otherwise, in doors, windows, or wings of the motor vehicle replaced with any glass other than safety glass.

(f) A person may not install in the doors, windows, windshields, and wings of any motor vehicle any glass other than glass required by subsections (d) and (e) of this section.

(g) (1) (i) The Administration shall compile, maintain, and publish a list, by name, of the types of glass approved by it as conforming to the specifications and requirements of safety glass as set forth in this section.

(ii) The Administration shall adopt regulations establishing standards and requirements for aftermarket safety glass replacement that:

1. Require that the products and services used meet or exceed original equipment manufacturer specifications;

Require the use of motor vehicle safety glass that meets American National Standards Institute Z26.1 in accordance with Federal Motor Vehicle Safety Standard 205 and any other applicable federal motor vehicle safety standard adopted by the National Highway Transportation Safety Administration; and
3. Meet or exceed the standards and requirements of the American National Standards Institute/Auto Glass Safety Council/Automotive Glass Replacement Safety Standard.

(2) The Administration may not register any motor vehicle that is subject to the provisions of this section unless it is equipped with an approved type of safety glass and shall suspend the registration of any motor vehicle subject to this section that the Administration finds is not so equipped until the vehicle is made to conform to the requirements of this section.

(h) In case of any violation of any provision of this section by any common carrier or person operating under a permit issued by the Public Service Commission of Maryland, the permit shall either be revoked or, in the discretion of the Commission, suspended until the provision is complied with to the satisfaction of the Commission.

(i) (1) Except as provided in paragraph (4) of this subsection, a person may not operate a vehicle registered under § 13-912, § 13-913, § 13-917, or § 13-937 of this article on a highway in this State if:

(i) In the case of a vehicle registered under § 13-912 of this article, there is affixed to any window of the vehicle any tinting materials added to the window after manufacture of the vehicle that do not allow a light transmittance through the window of at least 35%; and

(ii) In the case of a vehicle registered under § 13-913, § 13-917, or § 13-937 of this article, there is affixed to any window to the immediate right or left of the driver any window tinting materials added after manufacture of the vehicle that do not allow a light transmittance through the window of at least 35%.

(2) If a police officer observes that a vehicle is being operated in violation of paragraph (1) of this subsection, the officer may stop the driver of the vehicle and, in addition to a citation charging the driver with the offense, issue to the driver a safety equipment repair order in accordance with the provisions of § 23-105 of this article.

(3) A person may not install on a window of a vehicle any window tinting material that does not comply with the light transmittance requirements specified in paragraph (1) of this subsection.

(4) (i) A person who must be protected from the sun for medical reasons is exempt from the provisions of paragraph (1) of this subsection if the owner has, in the vehicle at the time the vehicle is stopped by a police officer, a written certification in the manner and format required by the Automotive Safety Enforcement Division of the Department of State Police that details the owner's medical need for tinted windows with a light transmittance of less than the allowed 35%, from a physician licensed to practice medicine in the State.

(ii) 1. Except as provided in subsubparagraph 2 of this subparagraph, a written certification under this paragraph shall be valid for a period of time that the licensed physician determines the owner needs the enhanced tinted windows, not to exceed 2 years.

2. If the licensed physician determines that the owner's medical condition is permanent, a written certification under this paragraph shall be valid indefinitely.

(iii) This subsection does not apply to tinting materials that:

1. Are affixed in such a manner so as to be easily removed; and
2. Are being used to protect a child less than 10 years of age from the sun.

(iv) Nothing in this subsection may be construed to:

1. Allow any tinting materials to be added to the windshield of a vehicle below the AS1 line or below 5 inches from the top of the windshield;
2. Prohibit a person from operating the vehicle while the person for whom the written certification is required is not present in the vehicle, provided that the written certification is in the vehicle; or
3. Alter or restrict the authority of the Administrator to adopt regulations regarding vehicle windows, except with respect to the light transmittance requirements specified in this section.

(c) A person may not carry in a motor vehicle used to carry explosives, a cargo tank truck used to carry flammable liquids or compressed gases, or a motor vehicle using compressed gas as a fuel, a flare, fusee, or signal produced by flame.

(d) (1) No flare, fusee, electric lantern, warning device, or warning flag may be used to comply with this section unless the equipment is of a type that has been submitted to and approved by the Administrator.

(2) After June 30, 1974, no portable reflector warning device may be used to equip a vehicle that is required by this section to be so equipped unless it meets the requirements specified in the applicable federal motor vehicle safety standards. Vehicles equipped with portable reflector devices before July 1, 1974, may continue to use a device conforming to the requirements of a Type 2 device as specified in the Society of Automotive Engineers recommended

standards until such time as the device is replaced. Replacement devices shall conform to the applicable federal standards.

§ 22-408

(a) Whenever any truck, passenger bus, truck tractor, trailer, semitrailer, or pole trailer, or any motor vehicle towing a mobile home is disabled on the roadway or shoulder of any highway outside of any municipal corporation at any time when lighted lamps are required on vehicles, the driver of the vehicle shall display the following warning devices on the highway during the time the vehicle is so disabled on the highway, except as provided in subsection (b), (c) or (e) of this section:

(1) A lighted fusee, a lighted red electric lantern, or a portable red emergency reflector shall be immediately placed at the traffic side of the vehicle in the direction of the nearest approaching traffic; and

(2) As soon thereafter as possible, but in any event within 15 minutes or before any fusee used for this purpose burns out, whichever occurs first, the driver shall place three liquid-burning flares (pot torches), three lighted red electric lanterns, or three portable red emergency reflectors on the roadway of the highway in the following order:

(i) One, approximately 100 feet from the disabled vehicle in the center of the lane occupied by the vehicle and toward traffic approaching in that lane;

(ii) One, approximately 100 feet in the opposite direction from the disabled vehicle and in the center of the traffic lane occupied by the vehicle; and

§ 23-203

(a) (1) By rules and regulations, the Administration and the Secretary shall provide for the establishment of facilities to conduct any tests or inspections required to be performed under this subtitle.

(2) If the Administration and the Secretary determine that the system can be installed and operated more effectively and economically by an independent contractor than if installed and operated by the Administration and the Secretary, the Administration and the Secretary may award the installation and operation of the inspection facilities to an independent contractor selected in accordance with the bidding procedures established by the laws of this State.

(3) (i) If, on or after July 1, 1991, the Administration and Secretary are required by federal law to extend the emissions control program to additional areas of the State and the Administration and Secretary determine that the inspection facilities can be installed and operated more effectively and economically by one or more independent contractors than if installed and operated by the Administration and Secretary, the Administration and Secretary may:

1. Award the installation and operation of the inspection facilities to one independent contractor for the installation and operation of all inspection facilities in this State; or

(2) The establishment of a decentralized retesting option in the State does not result in a loss of emissions reduction benefits to the State under the federal Clean Air Act.

(d) If the Administration and the Secretary determine that the criteria listed in subsection (c) of this section have not been met in a given year, they shall determine, on or before March 1 of the succeeding year, whether the criteria have been satisfied in the intervening period.

(e) Notwithstanding subsections (a) and (b) of this section, if the program is awarded to an independent contractor to operate centralized inspection facilities and if the Administration and the Secretary have determined that the criteria listed in subsection (c) of this section have been satisfied, the Administration and the Secretary shall propose regulations to:

(1) Allow the owner of a vehicle that fails an exhaust emissions test or emissions equipment and misfueling inspection at a centralized inspection facility to have the vehicle retested at either a centralized inspection facility or an approved certified repair facility;

(2) Allow a certified repair facility to retest vehicles if approved for that purpose by the Department of the Environment;

§ 24-209

(a) The State Highway Administration may conduct appropriate studies to determine whether the safety and general welfare of a residential community are threatened by noise, vibration, or incidence of truck traffic on any State highway. In determining whether or not to conduct such a study, the Administration shall consider the number of complaints about truck traffic received, if any, from residents of an area.

(b) If the State Highway Administration determines that a threat exists and that the safety and general welfare of the residential community would be promoted by the adoption of restrictions on the use of the State highway by trucks, the Administration may establish routes, speed limits, time restrictions, weight restrictions, or other measures with respect to truck traffic on the State highway, which will minimize the adverse effects of that traffic on the residential area or cause that traffic to avoid the residential area entirely.

(c) Under this section, truck traffic may be prohibited entirely on any State highway or part of a State highway, if an adequately functional alternate route is available to carry the truck traffic, taking into consideration the amount of additional fuel that would be required over the alternate route and the economic impact on the citizens of this State caused by the alternate route.

(d) The provisions of this section:

(1) Do not apply to any Class E (truck) vehicles of 10,000 pounds or less gross vehicle weight; and

(2) Do not preclude the making of local deliveries of supplies or services in any residential communities.

§ 25-301

Article I

Parties and Title

This agreement shall be known as the Potomac River Bridges Towing Compact and the parties to this agreement are the Commonwealth of Virginia, the State of Maryland, and the District of Columbia.

Article II

Findings and Purpose

The Woodrow Wilson Memorial Bridge, Rochambeau Memorial Bridge, George Mason Memorial Bridge, Theodore Roosevelt Memorial Bridge, Francis Scott Key Bridge, Chain Bridge, Arland D. Williams, Jr. Memorial Bridge, and American Legion Bridge all pass through the territorial jurisdiction of two or more of the three parties. Experience has shown that traffic back ups often prevent state troopers, state police officers, or police officers of the appropriate jurisdiction from arriving at the scene of a disabled or abandoned vehicle to take corrective action. The purpose of this Compact is to facilitate the prompt and orderly removal of disabled and abandoned vehicles from the bridges by giving all three parties jurisdiction to exercise appropriate authority anywhere on the bridges.

Article III

Authority to Direct Traffic and Authorize Removal of Vehicle

The parties hereby give one another all necessary power and authority to have their respective state troopers, state police officers, or local law enforcement officers direct traffic and authorize the removal of disabled or abandoned vehicles, trailers, semitrailers, or the parts or contents thereof, from any part of the Potomac River bridges, to the same extent and in the same manner that such state troopers, state police officers, and law enforcement officers may exercise such authority in their own jurisdictions. However, no party, acting through its state troopers, state police officers, or local law enforcement officers, shall have the authority to direct or authorize the towing or removal of any vehicle or other thing to a destination outside its own jurisdiction, unless the consent of a state trooper, state police officer, or law enforcement officer of the destination jurisdiction has been first obtained.

Article IV

Disposition of Towed Vehicles

All vehicles and their contents towed or removed from the Potomac River bridges pursuant to this Compact shall be subject to the exclusive jurisdiction of the place to which such vehicle and its contents are taken, and the handling and disposition of such vehicle and its contents shall be governed by the laws and procedures of that jurisdiction.

Article V

No Agency Relationship

Each of the parties shall act solely on its own authority within the jurisdiction granted. This Compact shall not be construed as creating any agency relationship between the parties.

Article VI

Effective Date

The provisions of this Compact shall take effect thirty days after the legislative bodies of parties having jurisdiction over one or several of the bridges identified in Article II have enacted compacts substantially identical to this Compact.

Article VII

Termination

The Governor of the Commonwealth of Virginia or the State of Maryland, or the Mayor of the District of Columbia may withdraw from this Compact at any time upon thirty days written notice to the other parties.

[Previous](#)[Next](#)

§ 5-103

(a) It is the policy of the State that:

(1) it is necessary to regulate and control beer franchise agreements and relationships between beer manufacturers and beer distributors:

(i) to foster and promote temperance in the consumption of beer; and

(ii) to promote respect for and obedience to the laws that control the distribution and sale of beer; and

(2) temperance and obedience to the laws that control the distribution and ultimate sale of beer is promoted by legislation that encourages beer distributors to make investments in their facilities to serve retail license holders by protecting them against the termination of beer distributorships, or other acts described in this subtitle, without good cause for the termination or other acts.

(b) It is necessary to accomplish this policy to eliminate the undue stimulation of sales of beer in the State by beer manufacturers that induce or coerce, or attempt to induce or coerce, beer distributors to act detrimentally to the orderly and lawful distribution of beer by:

(1) threatened or actual termination of the beer manufacturer and beer distributor relationship, directly or indirectly;

(2) the establishment of dual beer distributors of a brand or brands of beer in a sales territory presently served by a beer distributor; or

(3) the sale of the same brand or brands of beer in one sales territory by more than one franchisee.

(c) The General Assembly further recognizes the distinction between the nature of the distribution of beer and other alcoholic beverages in that distributors of alcoholic beverages other than beer are franchised by manufacturers to distribute many brands of various kinds of alcoholic beverages and are not as vulnerable to the economic pressures of the manufacturers as are beer distributors, which traditionally handle mainly one, two, or three brands of beer in their distributorships.

[Previous](#)[Next](#)

§ 5-104

A beer manufacturer may not:

(1) induce or coerce, or attempt to induce or coerce, a beer distributor to accept delivery of an alcoholic beverage, any form of advertisement, or another commodity that the beer distributor did not order;

(3) fail or refuse to deliver to a beer distributor with a beer franchise agreement any beer that the beer manufacturer or its agents advertised publicly for immediate sale promptly after the beer manufacturer received an order from the beer distributor.

[Previous](#)[Next](#)

§ 5-105

If a franchisor designates a sales territory for which a franchisee is primarily responsible or in which a franchisee is required to concentrate its efforts, the franchisor may not enter into a beer franchise agreement with another beer distributor to establish an additional franchisee for its brand or brands of beer in that sales territory.

[Previous](#)[Next](#)
