Sec. 520. (a) A "motor vehicle liability policy" as used in this chapter, shall mean an owner's or an operator's policy of liability insurance, certified as provided in section 518 or section 519 as proof of financial responsibility, and issued, except as otherwise provided in section 519, by an insurance carrier duly authorized to transact business in this state, to or for the benefit of the person named therein as insured. (b) Such owner's policy of liability insurance: (1) Shall designate by explicit description or by appropriate reference all motor vehicles with respect to which coverage is thereby to be granted; and (2) Shall insure the person named therein and any other person, as insured, using any such motor vehicle or motor vehicles with the express or implied permission of such named insured, against loss from the liability imposed by law for damages arising out of the ownership, maintenance or use of such motor vehicle or motor vehicles within the United States of America or the Dominion of Canada, subject to limits exclusive of interest and costs, with respect to each such motor vehicle, as follows: $20,000.00 because of bodily injury to or death of 1 person in any 1 accident and, subject to said limit for 1 person, $40,000.00 because of bodily injury to or death of 2 or more persons in any 1 accident, and $10,000.00 because of injury to or destruction of property of others in any 1 accident; (3) When a certificate is filed showing that a policy or policies have been issued covering all motor vehicles owned by the insured but not insuring such person when operating any motor vehicle not owned by him, it shall be unlawful for such person to operate any motor vehicle not owned by him or not covered by such certificate. (c) Such operator's policy of liability insurance shall insure the person named as insured therein against loss from the liability imposed upon him by law for damages arising out of the use by him of any motor vehicle not owned by him, within the same territorial limits and subject to the same limits of liability as are set forth above with respect to an owner's policy of liability insurance. (d) Such motor vehicle liability policy shall state the name and address of the named insured, the coverage afforded by the policy, the policy period, and the limits of liability, and shall contain an agreement or be indorsed that insurance is provided thereunder in accordance with the coverage defined in this chapter as respects bodily injury and death or property damage, or both, and is subject to all the provisions of this chapter. (e) Such motor vehicle liability policy need not insure any liability under any workmen's compensation law nor any liability on account of bodily injury to or death of an employee of the insured while engaged in the employment, other than domestic, of the insured, or while engaged in the operation, maintenance or repair of any such motor vehicle nor any liability for damage to property owned by, rented to, in charge of, or transported by the insured. (f) Every motor vehicle liability policy shall be subject to the following provisions which need not be contained therein: (1) The liability of the insurance carrier with respect to the insurance required by this chapter shall become absolute whenever injury or damage covered by said motor vehicle liability policy occurs; said policy may not be cancelled or annulled as to such liability by any agreement between the insurance carrier and the insured after the occurrence of the injury or damage; no statement made by the insured or on his behalf and no violation of said policy shall defeat or void said policy, and except as hereinafter provided, no fraud, misrepresentation, assumption of liability or other act of the insured in obtaining or retaining such policy, or in adjusting a claim under such policy, and no failure of the insured to give any notice, forward any paper or otherwise cooperate with the insurance carrier, shall constitute a defense as against such judgment creditor. (2) The satisfaction by the insured of a judgment for such injury or damage shall not be a condition precedent to the right or duty of the insurance carrier to make payment on account of such injury or damage. (3) If any person shall secure final judgment against the insured for loss or damage covered by any such policy and if

such judgment is not satisfied within 30 days after it shall have become final, then such judgment creditor shall be entitled to recover under the terms of such policy in the same manner and to the same extent as the insured, except as hereinafter provided. (4) The insurance carrier shall have the right to settle any claim covered by the policy, and if such settlement is made in good faith, the amount thereof shall be deductible from the limits of liability specified in subparagraph (2) of paragraph (b) of this section. (5) The policy, the written application therefor, if any, and any rider or indorsement which does not conflict with the provisions of this chapter, shall constitute the entire contract between the parties. (6) The insurance carrier shall not be liable on any judgment if it has not had prompt notice of and reasonable opportunity to appear in and defend the action in which such judgment was rendered, or if the judgment has been obtained through collusion between the judgment creditor and the insured. (g) Any policy which grants the coverage required for a motor vehicle liability policy may also grant any lawful coverage in excess of or in addition to the coverage specified for a motor vehicle liability policy and such excess or additional coverage shall not be subject to the provisions of this chapter. With respect to a policy which grants such excess or additional coverage the term "motor vehicle liability policy" shall apply only to that part of the coverage which is required by this section. (h) Any motor vehicle liability policy may provide that the insured shall reimburse the insurance carrier for any payment the insurance carrier would not have been obligated to make under the terms of the policy except for the provisions of this chapter. (i) Any motor vehicle liability policy may provide for the prorating of the insurance thereunder with other valid and collectible insurance. (j) The requirements for a motor vehicle liability policy may be fulfilled by the policies of 1 or more insurance carriers which policies together meet such requirements. (k) Any carrier authorized to issue motor vehicle liability policies may, pending the issuance of such a policy, execute an agreement, to be known as a "binder", or may, in lieu of such a policy, issue an indorsement to an existing policy. Every such binder or indorsement shall be subject to the provisions of this section and shall be construed to provide indemnity or insurance in like manner and to the same extent as a motor vehicle liability policy. Sec. 618a. (1) Unless the operator of a motor vehicle involved in an accident knows or reasonably should know that serious impairment of a bodily function or death has resulted from the accident, the operator or any other occupant of the motor vehicle who possesses a valid driver license shall remove the motor vehicle from the main traveled portion of the roadway into a safe refuge on the shoulder, emergency lane, or median or to a place otherwise removed from the roadway, and, if the motor vehicle is located in a place that would block, delay, or otherwise interfere with the movement of a streetcar on a streetcar track, away from the streetcar track, if both of the following apply: (a) Moving the motor vehicle may be done safely. (b) The motor vehicle is capable of being

normally and safely operated and can be operated under its own power in its customary manner without further damage or hazard to the traffic elements or to the roadway. (2) A person who violates subsection (1) is responsible for a civil infraction. (3) The operator or any other person who removes a motor vehicle from the main traveled portion of the roadway as provided in this section before the arrival of a police officer is not prima facie at fault regarding the cause of the traffic accident solely by reason of moving the motor vehicle as provided in this section. (4) The decision of the operator or any other person to remove or not to remove a motor vehicle from the main traveled portion of the roadway as provided in this section is not admissible in a civil action as evidence that a serious impairment of bodily function has or has not resulted from the accident. (5) A law enforcement agency or police officer may, without the consent of the owner or operator and with the assistance of the state transportation department, other road agencies, fire department, emergency management, other local public safety agencies, street railway, or towing or recovery companies under the direction of any of those entities remove and dispose of motor vehicles and cargoes of vehicles involved in accidents, including any personal property, from the main traveled portion of a roadway and the right-of-way if the vehicle, cargo, or personal property is blocking the roadway or right-of-way or may otherwise endanger public safety, or from the streetcar track if the motor vehicle, cargo, or personal property is blocking the streetcar track or may delay or interfere with the movement of a streetcar on a streetcar track. (6) Except as otherwise provided in this subsection, an entity that moves a motor vehicle, cargo, or personal property as described in subsection (5), and any of the entity's officers, employees, or agents, or anyone acting in good faith under, and within the scope of, the authority conferred under subsection (5), is not liable for any damages or claims that may arise from the exercise or the failure to exercise any authority granted under subsection (5). This subsection does not apply to the transport of a motor vehicle from the scene of an accident, or if the conduct of the individual acting under the authority conferred under subsection (5) constitutes gross negligence. As used in this subsection, "gross negligence" means that term as defined in section 606a. (7) The owner or carrier, if any, of a motor vehicle, cargo, or personal property removed or disposed of under subsection (5) shall reimburse the public agency, departments, street railway, and towing companies, if any, for all documented reasonable costs incurred in that removal and disposal. (2) Except as otherwise provided in subsection (5), a person may transport or possess alcoholic liquor in a container that is open or uncapped or upon which the seal is broken within the

passenger area of a vehicle upon a highway or other place open to the general public or generally accessible to motor vehicles, including an area designated for the parking of vehicles in this state, if the vehicle does not have a trunk or compartment separate from the passenger area, and the container is in a locked glove compartment, behind the last upright seat, or in an area not normally occupied by the operator or a passenger. (3) A person who violates this section is guilty of a misdemeanor. As part of the sentence, the person may be ordered to perform community service and undergo substance abuse screening and assessment at his or her own expense as described in section 703(1) of the Michigan liquor control code of 1998, 1998 PA 58, MCL 436.1703. A court shall not accept a plea of guilty or nolo contendere for a violation of this section from a person charged solely with a violation of section 625(6). (4) This section does not apply to a passenger in a chartered vehicle authorized to operate by the state transportation department. Sec. 624b. (1) An individual less than 21 years of age shall not knowingly transport or possess alcoholic liquor in a motor vehicle as an operator or occupant unless the individual is employed by a licensee under the Michigan liquor control code of 1998, 1998 PA 58, MCL 436.1101 to 436.2303, a common carrier designated by the liquor control commission under the Michigan liquor control code of 1998, 1998 PA 58, MCL 436.1101 to 436.2303, the liquor control commission, or an agent of the liquor control commission and is transporting or having the alcoholic liquor in a motor vehicle under the individual's control during regular working hours and in the course of the individual's employment. This section does not prevent an individual less than 21 years of age from knowingly transporting alcoholic liquor in a motor vehicle if an individual at least 21 years of age is present inside the motor vehicle. An individual who violates this subsection is guilty of a misdemeanor. As part of the sentence, the individual may be ordered to perform community service and undergo substance abuse screening and assessment at his or her own expense as described in section 703(1) of the Michigan liquor control code of 1998, 1998 PA 58, MCL 436.1703. (2) Within 30 days after the conviction for a violation of subsection (1) by the operator of a motor vehicle, which conviction has become final, the arresting law enforcement officer or the officer's superior may make a complaint before the court from which the warrant was issued. The complaint must be under oath and must describe the motor vehicle in which alcoholic liquor was possessed or transported by the operator, who is less than 21 years of age, in committing the violation and requesting that the motor vehicle be impounded as provided in this section. Upon the filing of the complaint, the court shall issue to the owner of the motor vehicle an order to show cause why the motor vehicle should not be impounded. The order to show cause must fix a date and time for a hearing, that is not less than 10 days after the issuance of the order. The order must be served by delivering a true copy to the owner not less than 3 full days before the date of hearing or, if the owner cannot be located, by sending a true copy by certified mail to the last known address of the owner. If the owner is a nonresident of the state, service may be made upon the secretary of state as provided in section 403. (3) If the court determines upon the hearing of the order to show cause, from competent and relevant evidence, that at the time of the commission of the violation the motor vehicle was being driven by the individual less than 21 years of age with the express or implied consent or knowledge of the owner in violation of subsection (1), and that the use of the motor vehicle is not needed by the owner in the direct pursuit of the owner's employment or the actual operation of the owner's business, the court may authorize the impounding of the vehicle for a period of not less than 15 days or more than 30 days. The court's order authorizing the impounding of the vehicle must authorize a law enforcement officer to take possession without other process of the motor vehicle wherever located and to store the vehicle in a public or private garage at the expense and risk of the owner of the vehicle. The owner of the vehicle may appeal the order to the circuit court and the provisions governing the taking of appeals from judgments for damages apply to the appeal. This section does not prevent a bona fide lienholder from exercising rights under a lien. (4) A person who knowingly transfers title to a motor vehicle for the purpose of avoiding this section is responsible for a civil infraction and shall be ordered to pay a civil fine of not more than $100.00. (5) A law enforcement agency, upon determining that an individual less than 18 years of age allegedly violated this section, shall notify the parent or parents, custodian, or guardian of the individual as to the nature of the violation if the name of a parent, guardian, or custodian is reasonably ascertainable by the law enforcement agency. The notice required by this subsection must be made not later than 48 hours after the law enforcement agency determines that the individual who allegedly violated this section is less than 18 years of age and may be made in person, by telephone, or by first-class mail. (c) The individual operating the vehicle under subdivision (a) and the individual who is monitoring the vehicle for purposes of subdivision (b) may lawfully operate a motor vehicle in the United States. (3) A university researcher or an employee of the state transportation department or the department who is engaged in research or testing of automated motor vehicles may operate an automated motor vehicle if the operation is in compliance with subsection (2). (4) An automated motor vehicle may be operated on a street or highway in this state. (5) When engaged, an automated driving system allowing for operation without a human operator is considered the driver or operator of a vehicle for purposes of determining conformance to any applicable traffic or motor vehicle laws and is deemed to satisfy electronically all physical acts required by a driver or operator of the vehicle. An automated vehicle roadway system provider is not an operator of a vehicle. (6) A person may operate a platoon on a street or highway of this state if the person files a plan for general platoon operations with the department of state police and the state transportation department before starting platoon operations. If the plan is not rejected by either the department of state police or the state transportation department within 30 days after receipt of the plan, the person is allowed to operate the platoon. (7) All of the following apply to a platoon: (a) Vehicles in a platoon are not considered a combination of vehicles for purposes of this act. (b) The lead vehicle in a platoon is not considered to draw the other vehicles. (c) If the platoon includes a commercial motor vehicle, an appropriately endorsed driver who holds a valid commercial driver license shall be present behind the wheel of each commercial motor vehicle in the platoon. Sec. 666a. (1) An operator of a motor vehicle or automated motor vehicle shall not operate a motor vehicle or automated motor vehicle on an automated vehicle roadway or automated vehicle roadway lane without complying with section 642(3). A person that violates this subsection is responsible for a civil infraction and may be fined as provided in section 907. (2) A sworn statement of an authorized agent of the state transportation department or a police officer from the department of state police, based upon the inspection of data produced by the automated vehicle roadway system, is prima facie evidence of the facts attested to in the sworn statement. Any data indicating a violation of subsection (1) must be available for inspection in any proceeding for a violation of subsection (1). Data of noncompliance with subsection (1) that contain personal identification information must be destroyed within 90 days after final disposition of the matter. Any data that does not indicate a violation of subsection (1) that contain personal identification information must be destroyed within 10 days of collection. (3) Evidence obtained pursuant to subsection (2) that the operator of a motor vehicle or automated motor vehicle violated subsection (1), together with proof that the individual was at the time of the violation the registered owner of the motor vehicle or automated motor vehicle, creates a rebuttable presumption that the registered owner of the motor vehicle or automated motor vehicle is the person that did not comply with subsection (1). For purposes of this subsection, the owner of a leased or rental motor vehicle or automated motor vehicle shall provide the name and address of the person to whom the vehicle was leased or rented at the time of the noncompliance. The presumption under this subsection is rebutted if either of the following applies: (a) The registered owner of the motor vehicle or automated motor vehicle files an affidavit with the clerk of the court that states that he or she was not the operator of the motor vehicle or automated motor vehicle at the time of the violation and provides reasonable proof to accompany the affidavit. (b) A certified copy of a police report showing that the motor vehicle or automated motor vehicle had been reported to the police as stolen before the time of the violation is presented before the appearance date on the citation. (4) Notwithstanding section 742, a citation for a violation of subsection (1) may be executed by mailing a copy of the citation by first-class mail to the address of the owner of the motor vehicle or automated motor vehicle as shown on the records of the secretary of state. If the summoned individual fails to appear on the date of return set out in the citation previously mailed by first-class mail pursuant to this subsection, a copy of the citation must be sent by certified mail, with return receipt requested. If the summoned individual fails to appear on either of the dates of return set out in the copies of the citation mailed pursuant to this subsection, the citation must be executed in the manner provided by law for personal service. (5) The automated vehicle roadway system shall not produce data for any purpose other than the operation of the automated vehicle roadway system or noncompliance with subsection (1). (3) This section must not be construed to prohibit a vehicle traveling in the appropriate direction from traveling in any lane of a freeway having 3 or more lanes for travel in the same direction. However, a city, village, township, or county may not enact an ordinance that regulates the same subject matter as any provision of this subsection. The driver of a truck with a gross weight of more than 10,000 pounds, a truck tractor, or a combination of a vehicle and trailer or semitrailer shall drive the vehicle or combination of vehicles only in either of the 2 lanes farthest to the right, except for a reasonable distance when making a left turn or where a special hazard exists that requires the use of an alternative lane for safety reasons. of this state, subject to subsection (27): (i) Except as provided in subsection (26), a violation or attempted violation of any of the following: (A) This section, except a violation of subsection (2), or a violation of any prior enactment of this section in which the defendant operated a vehicle while under the influence of intoxicating or alcoholic liquor or a controlled substance, or a combination of intoxicating or alcoholic liquor and a controlled substance, or while visibly impaired, or with an unlawful bodily alcohol content. Sec. 625a. (1) A peace officer may arrest a person without a warrant under either of the following circumstances: (a) The peace officer has reasonable cause to believe the person was, at the time of an accident in this state, the operator of a vehicle involved in the accident and was operating the vehicle in violation of section 625 or a local ordinance substantially corresponding to section 625. (b) The person is found in the driver's seat of a vehicle parked or stopped on a highway or street within this state if any part of the vehicle intrudes into the roadway and the peace officer has reasonable cause to believe the person was operating the vehicle in violation of section 625 or a local ordinance substantially corresponding to section 625. (2) A peace officer who has reasonable cause to believe that a person was operating a vehicle upon a public highway or other place open to the public or generally accessible to motor vehicles, including an area designated for the parking of vehicles, within this state and that the person by the consumption of alcoholic liquor, a controlled substance, or other intoxicating substance or a combination of them may have affected his or her ability to operate a vehicle, or reasonable cause to believe that a person was operating a commercial motor vehicle within the state while the person's blood, breath, or urine contained any measurable amount of alcohol, a controlled substance, or any other intoxicating substance or while the person had any detectable presence of alcoholic liquor, a controlled substance or any other intoxicating substance, or any combination of them, or reasonable cause to believe that a person who is less than 21 years of age was operating a vehicle upon a public highway or other place open to the public or generally accessible to motor vehicles, including an area designated for the parking of vehicles, within this state while the person had any bodily alcohol content as that term is defined in section 625(6), may require the person to submit to a preliminary chemical breath analysis. The following provisions apply to a preliminary chemical breath analysis administered under this subsection: (a) A peace officer may arrest a person based in whole or in part upon the results of a preliminary chemical breath analysis. (b) The results of a preliminary chemical breath analysis are admissible in a criminal prosecution for a crime enumerated in section 625c(1) or in an administrative hearing for 1 or more of the following purposes: (i) To assist the court or hearing officer in determining a challenge to the validity of an arrest. This subparagraph does not limit the introduction of other competent evidence offered to establish the validity of an arrest. (ii) As evidence of the defendant's breath alcohol content, if offered by the defendant to rebut testimony elicited on cross-examination of a defense witness that the defendant's breath alcohol content was higher at the time of the charged offense than when a chemical test

was administered under subsection (6). (iii) As evidence of the defendant's breath alcohol content, if offered by the prosecution to rebut testimony elicited on cross-examination of a prosecution witness that the defendant's breath alcohol content was lower at the time of the charged offense than when a chemical test was administered under subsection (6). (c) A person who submits to a preliminary chemical breath analysis remains subject to the requirements of sections 625c, 625d, 625e, and 625f for purposes of chemical tests described in those sections. (d) Except as provided in subsection (5), a person who refuses to submit to a preliminary chemical breath analysis upon a lawful request by a peace officer is responsible for a civil infraction. (3) A peace officer shall use the results of a preliminary chemical breath analysis conducted under this section to determine whether to order a person out-of-service under section 319d. A peace officer shall order out-of-service as required under section 319d a person who was operating a commercial motor vehicle and who refuses to submit to a preliminary chemical breath analysis as provided in this section. This section does not limit use of other competent evidence by the peace officer to determine whether to order a person out-of-service under section 319d. (4) A person who was operating a commercial motor vehicle and who is requested to submit to a preliminary chemical breath analysis under this section must be advised that refusing a peace officer's request to take a test described in this section is a misdemeanor punishable by imprisonment for not more than 93 days or a fine of not more than $100.00, or both, and will result in the issuance of a 24-hour out-of-service order. (5) A person who was operating a commercial motor vehicle and who refuses to submit to a preliminary chemical breath analysis upon a peace officer's lawful request is guilty of a misdemeanor punishable by imprisonment for not more than 93 days or a fine of not more than $100.00, or both. (6) The following provisions apply to chemical tests and analysis of a person's blood, urine, or breath, other than a preliminary chemical breath analysis: (a) The amount of alcohol or presence of a controlled substance or other intoxicating substance in a driver's blood or urine or the amount of alcohol in a person's breath at the time alleged as shown by chemical analysis of the person's blood, urine, or breath is admissible into evidence in any civil or criminal proceeding and is presumed to be the same as at the time the person operated the vehicle. (b) A person arrested for a crime described in section 625c(1) must be advised of all of the following: (i) If he or she takes a chemical test of his or her blood, urine, or breath administered at the request of a peace officer, he or she has the right to demand that a person of his or her own choosing administer 1 of the chemical tests. (ii) The results of the test are admissible in a judicial proceeding as provided under this act and will be considered with other admissible evidence in determining the defendant's innocence or guilt. (iii) He or she is responsible for obtaining a chemical analysis of a test sample obtained at his or her own request. (iv) If he or she refuses the request of a peace officer to take a test described in subparagraph (i), a test must not be given without a court order, but the peace officer may seek to obtain a court order. (v) Refusing a peace officer's request to take a test described in subparagraph (i) will result in the suspension of his or her operator's or chauffeur's license and vehicle group designation or operating privilege and in the addition of 6 points to his or her driver record. (c) A sample or specimen of urine or breath must be taken and collected in a reasonable manner. Only a licensed physician, or an individual operating under the delegation of a licensed physician under section 16215 of the public health code, 1978 PA 368, MCL 333.16215, qualified to withdraw blood and acting in a medical environment, may withdraw blood at a peace officer's request to determine the amount of alcohol or presence of a controlled substance or other intoxicating substance in the person's blood, as provided in this subsection. Liability for a crime or civil damages predicated on the act of withdrawing or analyzing blood and related procedures does not attach to a licensed physician or individual operating under the delegation of a licensed physician who withdraws or analyzes blood or assists in the withdrawal or analysis in accordance with this act unless the withdrawal or analysis is performed in a negligent manner. (d) A chemical test described in this subsection must be administered at the request of a peace officer having reasonable grounds to believe the person has committed a crime described in section 625c(1). A person who takes a chemical test administered at a peace officer's request as provided in this section must be given a reasonable opportunity to have a person of his or her own choosing administer 1 of the chemical tests described in this subsection within a reasonable time after his or her detention. The test results are admissible and must be considered with other admissible evidence in determining the defendant's innocence or guilt. If the person charged is administered a chemical test by a person of his or her own choosing, the person charged is responsible for obtaining a chemical analysis of the test sample. (e) If, after an accident, the driver of a vehicle involved in the accident is transported to a medical facility and a sample of the driver's blood is withdrawn at that time for medical treatment, the results of a chemical analysis of that sample are admissible in any civil or criminal proceeding to show the amount of alcohol or presence of a controlled substance or other intoxicating substance in the person's blood at the time alleged, regardless of whether the person had been offered or had refused a chemical test. The medical facility or person performing the chemical analysis shall disclose the results of the analysis to a prosecuting attorney who requests the results for use in a criminal prosecution as provided in this subdivision. A medical facility or person disclosing information in compliance with this subsection is not civilly or criminally liable for making the disclosure. (f) If, after an accident, the driver of a vehicle involved in the accident is deceased, a sample of the decedent's blood must be withdrawn in a manner directed by the medical examiner to determine the amount of alcohol or the presence of a controlled substance or other intoxicating substance, or any combination of them, in the decedent's blood. The medical examiner shall give the results of the chemical analysis of the sample to the law enforcement agency investigating the accident and that agency shall forward the results to the department of state police. (g) The department of state police shall promulgate uniform rules in compliance with the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, for the administration of chemical tests for the purposes of this section. An instrument used for a preliminary chemical breath analysis may be used for a chemical test described in this subsection if approved under rules promulgated by the department of state police. (7) The provisions of subsection (6) relating to chemical testing do not limit the introduction of any other admissible evidence bearing upon any of the following questions: (a) Whether the person was impaired by, or under the influence of, alcoholic liquor, a controlled substance or other intoxicating

substance, or a combination of alcoholic liquor, a controlled substance, or other intoxicating substance. (b) Whether the person had an alcohol content of 0.08 grams or more per 100 milliliters of blood, per 210 liters of breath, or per 67 milliliters of urine or, beginning 5 years after the state treasurer publishes a certification under section 625(28), the person had an alcohol content of 0.10 grams or more per 100 milliliters of blood, per 210 liters of breath, or per 67 milliliters of urine. (c) If the person is less than 21 years of age, whether the person had any bodily alcohol content within his or her body. As used in this subdivision, "any bodily alcohol content" means either of the following: (i) An alcohol content of 0.02 grams or more but less than 0.08 grams per 100 milliliters of blood, per 210 liters of breath, or per 67 milliliters of urine or, beginning 5 years after the state treasurer publishes a certification under section 625(28), the person had an alcohol content of 0.02 grams or more but less than 0.10 grams or more per 100 milliliters of blood, per 210 liters of breath, or per 67 milliliters of urine. (ii) Any presence of alcohol within a person's body resulting from the consumption of alcoholic liquor, other than the consumption of alcoholic liquor as a part of a generally recognized religious service or ceremony. (8) If a chemical test described in subsection (6) is administered, the test results must be made available to the person charged or the person's attorney upon written request to the prosecution, with a copy of the request filed with the court. The prosecution shall furnish the results at least 2 days before the day of the trial. The prosecution shall offer the test results as evidence in that trial. Failure to fully comply with the request bars the admission of the results into evidence by the prosecution. (9) A person's refusal to submit to a chemical test as provided in subsection (6) is admissible in a criminal prosecution for a crime described in section 625c(1) only to show that a test was offered to the defendant, but not as evidence in determining the defendant's innocence or guilt. The jury must be instructed accordingly. (10) As used in this section: (a) "Controlled substance" means that term as defined in section 7104 of the public health code, 1978 PA 368, MCL 333.7104. (b) "Intoxicating substance" means that term as defined in section 625. History:Add. 1960, Act 148, Eff. Aug. 17, 1960 ;-- Am. 1964, Act 104, Eff. Aug. 28, 1964 ;-- Am. 1967, Act 253, Eff. The court shall order the defendant to attend the pretrial conference and may accept a plea by the defendant at the conclusion of the pretrial conference. The court may adjourn the pretrial conference upon the motion of a party for good cause shown. Not more than 1 adjournment shall be granted to a party, and

the length of an adjournment must not exceed 14 days. (3) Except for delay attributable to the unavailability of the defendant, a witness, or material evidence or due to an interlocutory appeal or exceptional circumstances, but not a delay caused by docket congestion, the court shall finally adjudicate, by a plea of guilty or nolo contendere, entry of a verdict, or other final disposition, a case in which the defendant is charged with a misdemeanor violation of section 625(1), (3), (6), (7), or (8) or section 625m or a local ordinance substantially corresponding to section 625(1), (3), (6), or (8) or section 625m, within 77 days after the person is arrested for the violation or, if an arrest warrant is issued or reissued, not more than 77 days after the date the issued or reissued arrest warrant is served, whichever is later. The court shall not dismiss a case or impose any other sanction for a failure to comply with this time limit. The 77-day time limit does not apply to a violation of section 625(1), (3), (7), or (8) or section 625m punishable as a felony or a violation of section 625(1), (3), (6), (7), or (8) or section 625m joined with a felony charge. (4) Before accepting a plea of guilty or nolo contendere under section 625 or a local ordinance substantially corresponding to section 625(1), (2), (3), (6), or (8), the court shall advise the accused of the maximum possible term of imprisonment and the maximum possible fine that may be imposed for the violation and shall advise the defendant that the maximum possible license sanctions that may be imposed will be based upon the master driving record maintained by the secretary of state under section 204a. (5) Before imposing sentence for a violation of section 625(1), (3), (4), (5), (6), (7), or (8) or a local ordinance substantially corresponding to section 625(1), (3), (6), or (8), the court shall order the person to undergo screening and assessment by a person or agency designated by the office of substance abuse services to determine whether the person is likely to benefit from rehabilitative services, including alcohol or drug education and alcohol or drug treatment programs. Except as otherwise provided in this subsection, the court may order the person to participate in and successfully complete 1 or more appropriate rehabilitative programs as part of the sentence. If the person was convicted under section 625(1)(c) or has 1 or more prior convictions, the court shall order the person to participate in and successfully complete 1 or more appropriate rehabilitative programs as part of the sentence, including, but not limited to, an alcohol treatment program or a self-help program for a period of not less than 1 year. The treatment plan must be devised from an assessment performed by an appropriately licensed alcohol assessor and approved by the court. If the person has 2 or more prior convictions, the court shall order the person to undergo an assessment that uses a standardized evidence-based instrument performed by a provider or other licensed or certified substance use disorder professional to determine whether he or she has a diagnosis for alcohol dependence and would likely benefit from a United States Food and Drug Administration approved medication-assisted treatment that is indicated for the treatment of alcohol dependence, as specified in the most recent Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association. A person may request an independent assessment that uses a standardized evidence-based instrument and that is performed by a provider or other licensed or certified substance use disorder professional to determine whether he or she has a diagnosis for alcohol dependence and would likely benefit from a United States Food and Drug Administration approved medication-assisted treatment that is indicated for the treatment of alcohol dependence, as specified in the most recent Diagnostic and Statistical Manual of Mental Disorders published by the American Psychiatric Association. A court shall grant a request for an independent assessment and shall consider the results of the independent assessment along with the assessment required under this subsection when determining if the court will refer the person to a rehabilitative program that offers 1 or more forms of United States Food and Drug Administration-approved medications for the treatment of alcohol dependence. Only a provider may recommend that a person take medication-assisted treatment. A person always maintains the right to refuse ingestion or injection of medication. Only a provider may determine the type, dosage, and duration of the medication-assisted treatment. If the person refuses to take the medication-assisted treatment, the court shall not hold that person in contempt. As used in this subsection, "provider" means an individual with prescribing authority under the public health code, 1978 PA 368, MCL 333.1101 to 333.25211, who regularly communicates with the treatment team during the defendant's recovery and who has training or experience that demonstrates the provider's ability to treat and manage patients with alcohol dependency. If no other identified funding source is available, the person shall pay for the costs of the screening, assessment, or assessments, as applicable, and rehabilitative services ordered under this subsection. This subsection does not require the person to successfully complete an ordered rehabilitative program before driving a vehicle with an ignition interlock device on a restricted license. As used in this subsection, "other licensed or certified substance use disorder professional" means an individual or organization licensed or credentialed in this state to treat substance use disorders, including individuals certified by the Michigan certification board for addiction professionals and individuals who have training in providing assessments for alcohol dependency. (6) If the judgment and sentence are appealed to circuit court, the court may ex parte order the secretary of state to stay the suspension, revocation, or restricted license issued by the secretary of state pending the outcome of the appeal. If the person is a resident without a license or permit to operate a vehicle in the state, the secretary of state shall not issue the person a license or permit for 1 year or, for a second or subsequent refusal within 7 years, for 2 years. (b) If the person was operating a commercial motor vehicle, for the first refusal, suspend all vehicle group designations on the person's operator's or chauffeur's license or permit or nonresident privilege to operate a commercial motor vehicle or, if the person is a resident without a license or permit to operate a commercial motor vehicle in the state, not issue the person an operator's or chauffeur's license with vehicle group designations, for 1 year. Not more than 1 adjournment shall be granted to a party and the length of an adjournment shall not exceed 14 days. A hearing under this subsection shall be scheduled to be held within 45 days after the date of arrest for the violation. The hearing officer shall not impose any sanction for a failure to comply with these time limits. (3) Except for delay attributable to the unavailability of the defendant, a witness, or material evidence, or due to an interlocutory appeal or exceptional circumstances, but not a delay caused by docket congestion, a hearing shall be finally adjudicated within 77 days after the date of arrest. Proceedings at which evidence was presented need not be transcribed and transmitted if the sole reason for review is to determine whether the court will order the issuance of a restricted license. The parties to the proceedings for judicial review may stipulate that the record be shortened. A party unreasonably refusing to stipulate to a shortened record may be taxed by the court in which the petition is filed for the additional costs. The court may permit subsequent corrections to the record. Money in the fund at the end of the fiscal year shall remain in the fund, and shall not revert to the general fund. (2) The department of state police shall administer the fund. Money in the fund shall be used only to administer the fund, to purchase and maintain breath alcohol testing equipment, and to provide training to law enforcement personnel of this state in the use of that breath alcohol testing equipment. (3) The department of treasury shall, before November 1 of each year, notify the department of state police of the balance in the fund at the close of the preceding fiscal year. (4) The department of state police shall promulgate rules to implement subsection (2). (5) The drunk driving caseflow assistance fund is created as a separate fund in the state treasury. The purpose of the fund is to promote the timely disposition of cases in which the defendant is charged with a violation of any of the following or a local ordinance substantially corresponding to any of the following: (a) Section 625 or 625m. (b) Section 80176, 81134, 81135, or 82127 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.80176, 324.81134, 324.81135, and 324.82127. (6) Money in the fund shall be expended only as provided in subsection (8). (7) The state treasurer shall credit the drunk driving caseflow assistance fund with deposits of proceeds from the collection of revenue from license reinstatement fees as provided for in section 320e, and all income from investment credited to the fund by the state treasurer. The state treasurer may invest money contained in the drunk driving caseflow assistance fund in any manner authorized by law for the investment of state money. However, an investment shall not interfere with any apportionment, allocation, or payment of money as required by this section. The state treasurer shall credit to the fund all income earned as a result of an investment. Money in the fund at the end of the fiscal year shall remain in the fund and shall not revert to the general fund. (8) The state court administrator, at the direction of the supreme court and upon confirmation of the amount by the state treasurer, shall distribute from the drunk driving caseflow assistance fund the total amount available in a fiscal year to each district of the district court and each municipal court as provided in this section. The state court administrator, after reimbursement of costs as provided in this subsection, shall distribute the balance of the drunk driving caseflow assistance fund annually to each district of the district court and each municipal court in an amount determined by multiplying the amount available for distribution by a fraction, the numerator of which is the number of cases in which the defendant was charged with a violation enumerated in subsection (5) in the prior calendar year in that district of the district court or that municipal court as certified by the state court administrator and the denominator of which is the total number of cases in all districts of the district court and all municipal courts in which the defendant was charged with a violation enumerated in subsection (5) in the calendar year. The state court administrative office shall be reimbursed annually from the drunk driving caseflow assistance fund for all reasonable costs associated with the administration of this section, including judicial and staff training, on-site management assistance, and software development and conversion. Sec. 625k. (1) An ignition interlock device (BAIID) manufacturer seeking certification of a device in this state shall do all of the following: (a) Complete an application to the department for certification of the BAIID. (b) Submit a report from a department-approved or National Highway Traffic Safety Administration-approved laboratory certifying that the BAIID meets or exceeds the model specifications for BAIIDs, 78 FR 26849 – 26867 (May 8, 2013), or any subsequent version. Subject to subsection (5), the department shall provide a list of all manufacturers of approved certified devices to each person who is approved to be issued a restricted license that permits the person to drive a vehicle only if equipped with a BAIID. The department shall rotate the order of the providers with each list provided under this subsection. Any model of an ignition interlock device certified by a department-approved laboratory as complying with the model specifications for breath alcohol ignition interlock devices (BAIIDs), 57 FR 11772-11787 (April 7, 1992), that was installed in a vehicle before the effective date of the amendatory act that added this subdivision may be used in this state for the 24 months after the effective date of the amendatory act that added this subdivision. (c) Ensure that a BAIID is capable of recording a digital image of the individual providing the sample, and record the time and date the sample was provided on or logically associated with the digital image. A BAIID presented to the department for certification may include additional technological features, including, but not limited to, the ability to remotely report information collected by the device. (d) Agree to ensure proper record keeping in a format approved by the department and provide testimony relating to any aspect of the installation, service, repair, use, removal, or interpretation of any report or information recorded in the data storage system of a device or performance of any other duties required by this act at no cost on behalf of the state or any political subdivision of the state. (2) The secretary of state shall promulgate rules to implement this section in compliance with the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328. (3) The manufacturer of an ignition interlock device shall bear the cost of that device's certification. (4) A laboratory that certifies an ignition interlock device as provided in this section shall immediately notify the department of that certification. (5) The department shall not include the manufacturer of a certified ignition interlock device on the list of manufacturers published under subsection (1) unless the manufacturer complies with all of the following: (a) The manufacturer has filed copies of all of the following with the department: (i) A bond executed as provided in section 625o or a letter of credit. (ii) Proof of liability insurance issued by an insurance company authorized to do business in this state specifying all of the following: (A) That the policy is current and shall remain valid during the duration of device approval. (B) The name and model number of the device model covered by the policy. (C) That the policy has a minimum coverage of $1,000,000.00 per occurrence and $3,000,000.00 in the aggregate. (D) That the policy will indemnify the department and any other person injured as a result of any defects in manufacture, materials, design, calibration, installation, or operation of the device. (iii) An affidavit that the ignition interlock device meets or exceeds all of the following conditions: (A) Meets the definition in section 20d. (B) Is set to periodically take samples while the vehicle is in operation. After the vehicle is in operation, the device requires a first retest sample within 5 to 15 minutes of the operator starting the vehicle. The device prompts second and subsequent retests

within 15 to 45 minutes of the first retest. The operator of the vehicle is afforded not more than 5 minutes to provide a passing retest sample for each retest prompted by the device. The device accepts multiple attempts to provide a retest sample without initiating a lockout. If the device detects an alcohol content of 0.025 grams or more per 210 liters of breath in the person who offers a breath sample or if a breath sample is not given within the allotted time the device does all of the following: (I) Emits a visible or audible warning signal. (II) Renders the vehicle inoperable as soon as the vehicle is no longer being operated, requiring the operator to provide a breath sample containing a breath alcohol level of less than 0.025 grams per 210 liters of breath before the vehicle may be restarted. (III) Disables the free restart as defined by the National Highway Traffic Safety Administration standards. (IV) Activates a violation reset. The device initiates an audible or visual cue that warns the driver that the device will enter a permanent lockout in 5 days. (b) Agrees to have service locations within 50 miles of any location within this state. A manufacturer may request a waiver of this requirement from the secretary of state if the manufacturer is unable to secure an installation facility within 50 miles of any location in this state. Subject to review, the secretary of state may determine whether the manufacturer's waiver request shall be approved. The secretary of state shall only approve a waiver of the 50-mile requirement and designate a location not meeting the 50-mile requirement as a service center if the service center employs a BAIID certified installer who shall perform any installation or service to a BAIID at that location. If the secretary of state approves a waiver of the 50-mile requirement, that waiver applies only to the approved location. A manufacturer shall make a separate request for a waiver of the 50-mile requirement for any additional installation facility not meeting the 50-mile requirement. (c) Agrees to provide an ignition interlock device without cost to a person whose gross income for the immediately preceding tax year based on his or her state income tax return was less than 150% of the official poverty line for that same tax year established in the poverty guidelines issued by the secretary of health and human services under 42 USC 9902. A person in whose vehicle an ignition interlock device is installed without cost under this subdivision shall pay a maintenance fee to the installer of not more than $2.00 per day. (d) Agrees to comply with the reporting requirements of the secretary of state. (e) Agrees to periodically monitor installed ignition interlock devices and if monitoring indicates that the device has been circumvented, tampered with, or that a person with a breath alcohol level of 0.025 or more grams per 210 liters of breath has attempted to operate the motor vehicle, or both, to communicate all of the relevant information concerning these facts to the secretary of state, and to the court if appropriate. (6) A manufacturer that has made a filing under subsection (5) shall immediately notify the department if the device no longer meets the requirements of subsection (5). (7) Upon the request of the department, the BAIID manufacturer shall, at no cost to this state, provide the department with not less than 2 BAIIDs for each model that is certified under this section for demonstration and training purposes by the department. (8) Upon the request of the department, the BAIID manufacturer shall, at no cost to this state, install 1 of each device that is certified under this section in a vehicle provided by the department. Any service performed under this subsection, including, but not limited to, installation, maintenance, calibration, or removal, shall be completed at no cost to this state. (9) Upon the request of the department, for each BAIID model approved by the department, the BAIID manufacturer shall provide a total of not less than 10 hours of training to department employees at no cost to this state. This training shall be held at the times and locations within the state designated by the department. The training shall be designed to familiarize department employees with the installation, operation, service, repair, and removal of the BAIIDs and include the training and instructions that a BAIID installer will give to customers. The BAIID manufacturer shall also provide the department, upon request, with the following information: (a) A detailed description of the device, including complete instructions for installation, operation, service, repair, and removal of the BAIID. (b) Complete technical specifications, including detailed explanations and definitions of all data log entries. (10) A BAIID manufacturer shall notify the department not less than 15 days before implementation of any modification, upgrade, or alteration to any hardware, software, or firmware of a device certified for use in this state. The notification shall include both of the following: (a) A description and explanation of the modification, upgrade, or alteration and proof satisfactory to the department that these modifications, upgrades, or alterations do not adversely affect the ability of the device to satisfy the requirements of this section and section 625l. (b) A comprehensive plan of action for the phasing out of the use of the current device. This plan of action must be approved by the department prior to the implementation of the plan of action. (11) Any equipment in the possession of the department that was retained for certification of the device shall be modified, upgraded, or altered simultaneously with the implementation of a plan of action under subsection (10). The department, in its discretion, may retain a BAIID device regardless of whether the device is no longer the current version or model of that device. (12) Material modifications to a certified BAIID device may require recertification under this section as determined by the department. (13) A BAIID manufacturer shall apply to the department annually for recertification of BAIID devices it manufactures. (14) The department is responsible for approving BAIID service centers for operation in this state. The department shall not approve a BAIID service center unless all of the following conditions are satisfied: (a) Only service centers that are BAIID manufacturer and vendor approved shall install, service, or remove BAIIDs approved for use in this state. (b) Except as provided in subdivision (d), beginning July 1, 2016, a BAIID shall only be installed, serviced, or removed in a motor vehicle repair facility. As used in this subdivision, "motor vehicle repair facility" means that term as defined in section 2 of the motor vehicle service and repair act, 1974 PA 300, MCL 257.1302. (c) A service center shall be located in a fixed facility within this state. (d) A business that installs, services, or removes a BAIID, including a BAIID manufacturer's corporate office located in this state, that is installing, repairing, or removing BAIID devices on the effective date of the amendatory act that amended this section may install, service, and remove BAIIDs in this state without being certified as a motor vehicle repair facility under the motor vehicle service and repair act, 1974 PA 300, MCL 257.1302 to 257.1340, if the business employs a certified BAIID installer to perform any installation, service, or removal of a BAIID. (e) Each service center shall have not less than 1 individual who is a mechanic and who possesses a specialty certification in BAIID service under section 10(1)(j) of the motor vehicle service and repair act, 1974 PA 300, MCL 257.1310, and holds a BAIID

certification under this section to work as a BAIID installer. (f) Each service center shall maintain and make available for inspection records that prove that each certified BAIID installer working at the service center has been properly trained by the BAIID manufacturer to service the BAIID for which the center is a vendor. (g) Each service center shall provide a designated waiting area for customers that is separate from the area in which BAIIDs are installed or serviced. (h) Only certified BAIID installers and representatives of the BAIID manufacturer or the department shall be allowed to observe the installation or removal of a BAIID. (i) Adequate security measures shall be taken to ensure that unauthorized personnel are not allowed access to proprietary materials of BAIID manufacturers or files of customers. (j) BAIID manufacturer service centers shall install, maintain, service, and remove all BAIIDs handled by that service center and perform any other services determined necessary by the department for using those BAIIDs in this state. (k) The BAIID manufacturer shall inform the department of a change in its service center's business address 15 days prior to the date of any relocation. (l) BAIIDs approved for use in this state shall only be serviced by service centers located within this state, unless the customer is unable to return to this state for service because of a significant personal hardship. (m) If a BAIID is serviced by a service center outside of this state, the BAIID service provider shall ensure that all of the following requirements are met: (i) The BAIID operates using the same firmware that is used for devices in this state. (ii) The data recorded by the BAIID remain intact on the device for later retrieval by a service center in this state or the data are transferred to a BAIID manufacturer database for review. (n) Service centers shall make the addresses of their locations available to the department. (o) BAIIDs for use in this state shall be installed and shall be removed only in a service center approved by the department for installing that device under this subsection. (p) Each application for approval shall be for a single service center. A separate service center application is required for each additional service center. (q) Before issuance of approval, the department may require an on-site evaluation to ensure compliance with the requirements of this section and section 625l. (r) The department's approval of a service center shall be for a period of 1 year. The renewal process shall be the same as the initial service center approval process under this section. (15) The department may conduct inspections of a manufacturer or a BAIID service center to ensure compliance with this act and rules promulgated to implement this act. The manufacturer shall pay for the actual costs to the department in conducting an inspection under this subsection. (16) An individual shall not install, service, or remove a BAIID in this state without being certified by the department under this section. (17) All BAIID installations shall be done in a workmanlike manner by a BAIID certified installer at an approved service center and shall be in accordance with the standards set forth in this section and with the requirements of the manufacturer. All BAIIDs installed shall be in working order and shall perform in accordance with the standards set forth in this act. All connections shall be covered with a tamper seal. (18) Upon completion of the installation of a BAIID required under this act, the approved BAIID certified installer shall provide the customer with installation verification in the form and format designated by the department. (19) A manufacturer shall ensure that BAIID certified installers meet the following requirements: (a) Possess the appropriate certification from the department under this section. (b) Possess and maintain all necessary training and skills required to install, examine, troubleshoot, and verify the proper operation of BAIIDs. (c) Possess the tools, test equipment, and manuals needed to install, inspect, download, calibrate, repair, maintain, service, and remove BAIID devices. (d) Provide all persons who will use the vehicle with written and hands-on training regarding the operation of a vehicle equipped with the BAIID and ensure that each of those persons demonstrates a properly delivered alveolar breath sample and an understanding of how the abort test feature works. (20) An individual who has been convicted of an alcohol-related driving offense or any offense classified as a felony in this state or elsewhere within 5 years before the date of filing an application for approval as a BAIID certified installer is not eligible for approval as a BAIID certified installer under this act. (21) The following requirements apply to a BAIID certified installer under this act: (a) Be not less than 18 years of age. (b) Possess a valid driver license. Sec. 625n. (1) Except as otherwise provided in this section and section 304 and in addition to any other penalty provided for in this act, the judgment of sentence for a conviction for a violation of section 625(1) described in section 625(9)(b) or (c), a violation of section 625(3) described in section 625(11)(b) or (c), a violation of section 625(4), (5), or (7), or a violation of section 904(4) or (5), or, beginning October 31, 2010, a violation of section 626(3) or (4), may require 1 of the following with regard to the vehicle used in the offense if the defendant owns the vehicle in whole or in part or leases the vehicle: (a) Forfeiture of the vehicle if the defendant owns the vehicle in whole or in part. (b) Return of the vehicle to the lessor if the defendant leases the vehicle. (2) The vehicle may be seized under a seizure order issued by the court having jurisdiction upon a showing of probable cause that the vehicle is subject to forfeiture or return to the lessor. (3) The forfeiture of a vehicle is subject to the interest of the holder of a security interest who did not have prior knowledge of or consent to the violation. (4) Within 14 days after the defendant's conviction for a violation described in subsection (1), the prosecuting attorney may file a petition with the court for the forfeiture of the vehicle or to have the court order return of a leased vehicle to the lessor. The prosecuting attorney shall give notice by first-class mail or other process to the defendant and his or her attorney, to all owners of the vehicle, and to any person holding a security interest in the vehicle that the court may require forfeiture or return of the vehicle. (5) If a vehicle is seized before disposition of the criminal proceedings, a defendant who is an owner or lessee of the vehicle may move the court having jurisdiction over the proceedings to require the seizing agency to file a lien against the vehicle and to return the vehicle to the owner or lessee pending disposition of the criminal proceedings. The court shall hear the motion within 7 days after the motion is filed. If the defendant establishes at the hearing that he or she holds the legal title to the vehicle or that he or she has a leasehold interest and that it is necessary for him or her or a member of his or her family to use the vehicle pending the outcome of the forfeiture action, the court may order the seizing agency to return the vehicle to the owner or lessee. If the court orders the return of the vehicle to the owner or lessee, the court shall order the defendant to post a bond in an amount equal to the retail value of the vehicle, and shall also order the seizing agency to file a lien against the vehicle. (6) Within 14 days after notice by the prosecuting attorney is given under subsection (4), the defendant, an owner, lessee, or holder of a security interest may file a claim of interest in the vehicle with the court. Within 21 days after the expiration of the period for filing claims, but before or at sentencing, the court shall hold a hearing to determine the legitimacy of any claim, the extent of any co-owner's equity interest, the liability of the defendant to any co-lessee, and whether to order the vehicle forfeited or returned to the lessor. In considering whether to order forfeiture, the court shall review the defendant's driving record to determine whether the defendant has multiple convictions under section 625 or a local ordinance substantially corresponding to section 625, or multiple suspensions, restrictions, or denials under section 904, or both. If the defendant has multiple convictions under section 625 or multiple suspensions, restrictions, or denials under section 904, or both, that factor shall weigh heavily in favor of forfeiture. (7) If a vehicle is forfeited under this section, the unit of government that seized the vehicle shall sell the vehicle pursuant to the procedures under section 252g(1) and dispose of the proceeds in the following order of priority: (a) Pay any outstanding security interest of a secured party who did not have prior knowledge of or consent to the commission of the violation. (b) Pay the equity interest of a co-owner who did not have prior knowledge of or consent to the commission of the violation. (c) Satisfy any order of restitution entered in the prosecution for the violation. (d) Pay any outstanding accrued towing and storage fees. (e) Pay the claim of each person who shows that he or she is a victim of the violation to the extent that the claim is not covered by an order of restitution. (f) Pay any outstanding lien against the property that has been imposed by a governmental unit. (g) Pay the proper expenses of the proceedings for forfeiture and sale, including, but not limited to, expenses incurred during the seizure process and expenses for maintaining custody of the property, advertising, and court costs. (h) The balance remaining after the payment of items (a) through

(g) shall be distributed by the court having jurisdiction over the forfeiture proceedings to the unit or units of government substantially involved in effecting the forfeiture. Seventy-five percent of the money received by a unit of government under this subdivision shall be used to enhance enforcement of the criminal laws and 25% of the money shall be used to implement the William Van Regenmorter crime victim's rights act, 1985 PA 87, MCL 780.751 to 780.834. A unit of government receiving money under this subdivision shall report annually to the department of management and budget the amount of money received under this subdivision that was used to enhance enforcement of the criminal laws and the amount that was used to implement the William Van Regenmorter crime victim's rights act, 1985 PA 87, MCL 780.751 to 780.834. (8) The court may order the defendant to pay to a co-lessee any liability determined under subsection (6). The order may be enforced in the same manner as a civil judgment. (9) The return of a vehicle to the lessor under this section does not affect or impair the lessor's rights or the defendant's obligations under the lease. (10) A person who knowingly conceals, sells, gives away, or otherwise transfers or disposes of a vehicle with the intent to avoid forfeiture or return of the vehicle to the lessor under this section is guilty of a misdemeanor punishable by imprisonment for not more than 1 year or a fine of not more than $1,000.00, or both. (11) The failure of the court or prosecutor to comply with any time limit specified in this section does not preclude the court from ordering forfeiture of a vehicle or its return to a lessor, unless the court finds that the owner or claimant suffered substantial prejudice as a result of that failure. (12) The forfeiture provisions of this section do not preclude the prosecuting attorney from pursuing a forfeiture proceeding under any other law of this state or a local ordinance substantially corresponding to this section. Sec. 698. (1) A motor vehicle may be equipped with not more than 2 side cowl or fender lamps that emit an amber or white light without glare. (2) A motor vehicle may be equipped with not more than 1 running board courtesy lamp on each side that emits a white or amber light without glare. (3) Backing lights of red, amber, or white may be mounted on the rear of a motor vehicle if the switch controlling the light is so arranged that the light may be turned on only if the vehicle is in reverse gear. The backing lights when unlighted must be covered or otherwise arranged so as not to reflect objectionable glare in the eyes of an operator of a vehicle approaching from the rear. (4) Unless both covered and unlit, a vehicle operated on the highways of this state must not be equipped with a lamp or a part designed to be a reflector unless expressly required or permitted by this chapter or that meets the standards prescribed in 49 CFR 571.108. Except as otherwise provided, a lamp or a part designed to be a reflector, if visible from the front, must display or reflect a white or amber light; if visible from either side, must display or reflect an amber or red light; and if visible from the rear, must display or reflect a red light. (5) The use or possession of flashing, oscillating, or rotating lights of any color is prohibited except as otherwise provided by law or under the following circumstances: (a) A police vehicle must be equipped with flashing, rotating, or oscillating red or blue lights, for use in the performance of police duties. (b) A fire vehicle or ambulance available for public use or for use of the United States, this state, or any unit of this state, whether publicly or privately owned, must be equipped with flashing, rotating, or oscillating red lights and used as required for safety. (c) An authorized emergency vehicle may be equipped with flashing, rotating, or oscillating red lights for use when responding to an emergency call if when in use the flashing, rotating, or oscillating red lights are clearly visible in a 360-degree arc from a distance of 500 feet. (d) Flashing, rotating, or oscillating amber or green lights, placed in a position as to be visible throughout an arc of 360 degrees, must be used by a state, county, or municipal vehicle engaged in the removal of ice, snow, or other material from the highway and in other operations designed to control ice and snow, or engaged in other non-winter operations. This subdivision does not prohibit the use of a flashing, rotating, or oscillating green light by a fire service. (e) A vehicle used for the cleanup of spills or a necessary emergency response action taken under state or federal law or a vehicle operated by an employee of the department of natural resources or the department of environment, Great Lakes, and energy that responds to a spill, emergency response action, complaint, or compliance activity may be equipped with flashing, rotating, or oscillating amber or green lights. The lights described in this subdivision must not be activated unless the vehicle is at the scene of a spill, emergency response action, complaint, or compliance activity. This subdivision does not prohibit the use of a flashing, rotating, or oscillating green light by a fire service. (f) A vehicle to perform public utility service, a vehicle owned or leased by and licensed as a business for use in the collection and hauling of refuse, an automobile service car or wrecker, a vehicle of a peace officer, a vehicle operated by a rural letter carrier or a person under contract to deliver newspapers or other publications by motor route, a vehicle utilized for snow or ice removal under section 682c, a private security guard vehicle as authorized in subsection (7), a motor vehicle while engaged in escorting or transporting an oversize load that has been issued a permit by the state transportation department or a local authority with respect to highways under its jurisdiction, a vehicle owned by the National Guard or a United States military vehicle while traveling under the appropriate recognized military authority, a motor vehicle while towing an implement of husbandry, or an implement of husbandry may be equipped with flashing, rotating, or oscillating amber lights. However, a wrecker may be equipped with flashing, rotating, or oscillating red lights that must be activated only when the wrecker is engaged in removing or assisting a vehicle at the scene of a traffic accident or disablement. The flashing, rotating, or oscillating amber lights must not be activated except when the warning produced by the lights is required for public safety. A vehicle engaged in authorized highway repair or maintenance may be equipped with flashing, rotating, or oscillating amber or green lights. This subdivision does not prohibit the operator of a vehicle utilized for snow or ice removal under section 682c that is equipped with flashing, rotating, or oscillating amber lights from activating the flashing, rotating, or oscillating amber lights when that vehicle is traveling between locations at which it is being utilized for snow or ice removal. (g) A vehicle engaged in leading or escorting a funeral procession or any vehicle that is part of a funeral procession may be equipped with flashing, rotating, or oscillating purple or amber lights that must not be activated except during a funeral procession. (h) An authorized emergency vehicle may display flashing, rotating, or oscillating white lights in conjunction with an authorized emergency light as prescribed in this section. (i) A private motor vehicle of a physician responding to an emergency call may be equipped with and the physician may use flashing, rotating, or oscillating red lights mounted on the

roof section of the vehicle either as a permanent installation or by means of magnets or suction cups and clearly visible in a 360-degree arc from a distance of 500 feet when in use. The physician shall first obtain written authorization from the county sheriff. (j) A public transit vehicle may be equipped with a flashing, oscillating, or rotating light mounted on the roof of the vehicle approximately 6 feet from the rear of the vehicle that displays a white light to the front, side, and rear of the vehicle, which light may be actuated by the driver for use only in inclement weather such as fog, rain, or snow, when boarding or discharging passengers, from 1/2 hour before sunset until 1/2 hour after sunrise, or when conditions hinder the visibility of the public transit vehicle. As used in this subdivision, "public transit vehicle" means a motor vehicle, other than a station wagon or passenger van, with a gross vehicle weight rating of more than 10,000 pounds. (k) A person engaged in the manufacture, sale, or repair of flashing, rotating, or oscillating lights governed by this subsection may possess the lights for the purpose of employment, but shall not activate the lights upon the highway unless authorized to do so under subsection (6). (l) A vehicle used as part of a neighborhood watch program may be equipped with flashing, rotating, or oscillating amber lights, if the vehicle is clearly identified as a neighborhood watch vehicle and the neighborhood watch program is working in cooperation with local law enforcement. The lights described in this subdivision must not be activated when the vehicle is not being used to perform neighborhood watch program duties. (6) A person shall not sell, loan, or otherwise furnish a flashing, rotating, or oscillating blue or red light designed primarily for installation on an authorized emergency vehicle to a person except a police officer, sheriff, deputy sheriff, authorized physician, volunteer or paid fire fighter, volunteer ambulance driver, licensed ambulance driver or attendant of this state, a county or municipality within this state, a person engaged in the business of operating an ambulance or wrecker service, or a federally recognized nonprofit charitable organization that owns and operates an emergency support vehicle used exclusively for emergencies. This subsection does not prohibit an authorized emergency vehicle, equipped with flashing, rotating, or oscillating blue or red lights, from being operated by a person other than a person described in this section if the person receives authorization to operate the authorized emergency vehicle from a police officer, sheriff, deputy sheriff, authorized physician, volunteer or paid fire fighter, volunteer ambulance driver, licensed ambulance driver or attendant, a person operating an ambulance or wrecker service, or a federally recognized nonprofit charitable organization that owns and operates an emergency support vehicle used exclusively for emergencies, except that the authorization must not permit the person to operate lights as described in subsection (5)(a), (b), (c), (i), or (j), or to exercise the privileges described in section 603. (7) A private motor vehicle of a security guard agency or alarm company licensed under the private security business and security alarm act, 1968 PA 330, MCL 338.1051 to 338.1092, may display flashing, rotating, or oscillating amber lights. The flashing, rotating, or oscillating amber lights must not be activated on a public highway when a vehicle is in motion. (8) This section does not prohibit, restrict, or limit the use of lights authorized or required under sections 697, 697a, and 698a. (9) A person who operates a vehicle in violation of this section is responsible for a civil infraction and shall be ordered to pay a civil fine of not more than $100.00. History:1949, Act 300, Eff. 2024 Michigan Compiled LawsChapter 257 - Motor VehiclesAct 300 of 1949 - Michigan Vehicle Code (257.1 - 257.923)300-1949-VI - Chapter VI Obedience to and Effect of Traffic Laws (257.601...257.750)300-1949-VI-EQUIPMENT - Equipment (257.683... 257.714b)Section 257.705 - Brake Equipment.

Sec. 705. (1) Brake equipment shall be required as follows: (a) A motor vehicle, other than a motorcycle or moped, and a low-speed vehicle when operated upon a highway shall be equipped with brakes adequate to control the movement of and to stop and hold the vehicle, including 2 separate means of applying the brakes, each of which means shall be effective to apply the brakes to at least 2 wheels. If these 2 separate means of applying the brakes are connected in any way, they shall be constructed in a way that failure of 1 part of the operating mechanism shall not leave the motor vehicle without brakes on at least 2 wheels. (b) A motorcycle or moped when operated upon a highway shall be equipped with at least 2 brakes, 1 on the front wheel and 1 on the rear wheel, that may be operated by hand or foot. (c) A trailer or semitrailer of a gross weight of 15,001 pounds or more when operated upon a highway shall be equipped with brakes operating on all wheels and designed to be applied by the driver of the towing motor vehicle from its cab. (d) A new motor vehicle, trailer, or semitrailer sold in this state and operated upon the highways shall be equipped with brakes on all wheels, except a motorcycle or moped, and except that a semitrailer, pole trailer, or trailer of less than 3,000 pounds gross weight need not be equipped with brakes if the gross weight of a trailer or pole trailer, no part of the load of which rests upon the towing vehicle, does not exceed 40% of the gross weight of the towing vehicle, and if the gross weight of the towing vehicle and the gross weight of a semitrailer or pole trailer, part of the load of which rests upon the towing vehicle, does not exceed 40% of the gross weight of the towing vehicle when connected to the semitrailer or pole trailer. This subdivision does not apply to a trailer or semitrailer owned by a farmer and used exclusively in connection with the farming operations of the farmer and not used for hire. (e) Every bus, school bus, truck, or truck tractor shall be equipped with brakes operating on all wheels, except that a truck or truck tractor that has 3 or more axles need not have brakes on the front wheels if the vehicle was manufactured before July 25, 1980. (f) In any combination of motor driven vehicles, means shall be provided for applying the rearmost trailer brakes, for a trailer equipped with brakes, in approximate synchronism with the brakes on the towing vehicle and developing the required braking effort on the rearmost wheels at the fastest rate; or means shall be provided for applying braking effort first on the rearmost trailer equipped with brakes; or both of the above means capable of being used alternatively may be employed. (g) A motor vehicle and combination of vehicles, except pole trailers, motorcycles, and mopeds, shall be equipped with parking brakes adequate to hold the vehicle on any grade on which it is operated, under all conditions of loading on a surface free from snow, ice, or loose material. The parking brakes shall be capable of being applied in conformance with the foregoing requirements by the driver's muscular effort or by spring action or by equivalent means. Their operation may be assisted by the service brakes or other source of power if failure of the service brake actuation system or other power assisting mechanism will not prevent the parking brakes from being applied in conformance with the foregoing requirements. The parking brakes shall be designed in a manner that when once applied they shall remain applied with the required effectiveness despite exhaustion of any source of energy or leakage of any kind. The same brake drums, brake shoes, and lining assemblies, brake shoe anchors, and mechanical brake shoe actuation mechanism normally associated with the wheel brake assemblies may be used for both the service brakes and the parking brakes. If the means of applying the parking brakes and the service brakes are connected in any way, they shall be constructed in a manner that failure of 1 part shall not leave the vehicle without operative brakes. (h) The brake shoes operating within or upon the drums of the vehicle wheels of a motor vehicle may be used for both service and hand operation. (2) A motor vehicle or combination of motor-drawn vehicles shall be capable at all times and under all conditions of loading, of being stopped on a dry, smooth, level road free from loose material within the distances specified in this subsection, or shall be capable of being decelerated at a sustained rate corresponding to these distances upon initial application of the service (foot) brake.Feet to stop from 20 miles per hourDeceleration in feet per secondVehicles or combination of vehicles having brakes on all wheels3014Vehicles or combination of vehicles not having brakes on all wheels4010.7(3) Subsection (2) does not apply to a combination of motor-drawn vehicles under all of the following circumstances: (a) The drawn vehicle is an implement of husbandry. (b) The motor vehicle hauling the implement of husbandry does not exceed a maximum speed of 25 miles per hour if the implement of husbandry being drawn is not equipped with brakes that meet the standards set forth in 49 CFR 393.40 and this act. (c) If the implement of husbandry being drawn does not exceed any other implement or component design maximum speed limitation, the combination of vehicles shall not exceed that maximum speed limitation. (4) Nothing in this act or rules promulgated under this act requires a slasher saw table to be equipped with brakes. (5) All brakes shall be maintained in good working order and shall be adjusted in a manner as to operate as equally as practicable with respect to the wheels on the opposite side of the vehicle. (1) A person shall not operate a motor vehicle with any of the following: (a) A sign, poster, nontransparent material, window application, reflective film, or nonreflective film upon or in the front windshield, the side windows immediately adjacent to the driver or front passenger, or the sidewings adjacent to and forward of the driver or front passenger, except that a tinted film may be used along the top edge of the windshield and the side windows or sidewings immediately adjacent to the driver or front passenger if the material does not extend more than 4 inches from the top of the windshield, or lower than the shade band, whichever is closer to the top of the windshield. (b) A rear window or side window to the rear of the driver composed of, covered by, or treated with a material that creates a total solar reflectance of 35% or more in the visible light range, including a silver or gold reflective film. (c) An object that obstructs the vision of the driver of the vehicle, except as authorized by law. (2) A person shall not drive a motor vehicle if driver visibility through the rear window is obstructed, unless the vehicle is equipped with 2 rearview mirrors, 1 on each side, adjusted so that the operator has a clear view of the highway behind the vehicle. (3) This section does not apply to any of the following: (a) The use of draperies, louvers, or other special window treatments, except those specifically designated in this section, on the rear window, or a side window to the rear of the driver if the vehicle is equipped with 2 outside rearview mirrors, 1 on each side, adjusted so that the driver has a clear view of the highway behind the vehicle. (b) The use of a nonreflective, smoked or tinted glass, nonreflective film, perforated window screen, or other decorative window application on the rear window or a side window to the rear of the driver. (c) The placement of a necessary certificate or sticker that does not obstruct the driver's clear view of the roadway or an intersecting roadway. (d) A vehicle registered in another state, territory, commonwealth of the United States, or another country or province. (e) A special window treatment or application determined necessary by a physician or optometrist, for the protection of a person who is light sensitive or photosensitive, if the owner or operator of a motor vehicle has in possession a letter signed by a physician or optometrist, indicating that the special window treatment or application is a medical necessity. However, the special window treatment or application shall not interfere with or obstruct the driver's clear vision of the highway or an intersecting highway. (4) Except as provided in subsection (5), the windshield on each motor vehicle shall be equipped with a device for cleaning rain, snow, or other moisture from the windshield, which device shall be so constructed as to be controlled or operated by the driver of the vehicle. A vehicle licensed as an historical vehicle is exempt from this subsection if the vehicle was not originally equipped with such a device. Each windshield wiper upon a motor vehicle shall be maintained in good working order. (5) A truck with a gross weight over 10,000 pounds, a truck tractor, a bus, or a truck regardless of weight carrying hazardous materials on which a placard is required to be posted pursuant to 49 CFR parts 100 to 199 having a windshield shall be equipped with not less than 2 automatically operating windshield wiper blades, 1 on each side of the centerline of the windshield, for cleaning rain, snow, or other moisture from the windshield. The blades shall be in such condition as to provide clear vision for the driver, unless 1 blade is so arranged as to clean an area of the windshield extending to within 1 inch of the limit of vision through the windshield at each side. However, in driveaway-towaway operations, this subsection applies only to the operated vehicle. In addition, 1 windshield wiper blade suffices under this subsection when the driven vehicle in a driveaway-towaway operation constitutes part or all of the property being transported and has no provision for 2 blades. A truck and truck tractor, manufactured after June 30, 1953, that depends upon vacuum to operate the windshield wipers, shall be so constructed that the operation of the wipers is not materially impaired by change in the intake manifold pressure. (6) A truck with a gross weight over 10,000 pounds, a truck tractor, a bus, or a truck regardless of weight carrying hazardous materials on which a placard is required to be posted under 49 CFR parts 100 to 199 shall not be operated on the highways at any time unless it is equipped with a hot air windshield defroster or an electrically heated windshield or other device to heat and maintain the windshield in operable condition at all times. Sec. 710. (a) A person shall not operate on a public highway of this state a vehicle or special mobile equipment which has metal or plastic track or a tire which is equipped with metal that comes in contact with the surface of the road or which has a partial contact

of metal or plastic with the surface of the road, except as provided in subsections (c), (d), and (e). (b) A person shall not operate on a highway a vehicle which has a tire that has on its periphery a block, stud, flange, cleat, spike, or other protuberance of a material other than rubber which projects beyond the tread of the traction surface of the tire, except as provided in subsections (c), (d), and (e). A person may, however, use farm machinery with a tire having a protuberance which will not injure a highway. A person may also use a tire chain of reasonable proportion upon a vehicle when required for safety because of snow, ice, or other condition tending to cause a vehicle to skid. (c) A person may operate on a highway a vehicle which has a pneumatic tire in which wire of .075 inches in diameter or less is embedded if the tire is constructed so that the percent of metal in contact with the highway does not exceed 5% of the total tire area in contact with the roadway, except that during the first 1,000 miles of use or operation of the tire the metal in contact with the highway shall not exceed 20% of the area. (d) The department of state highways and transportation shall promulgate rules establishing acceptable standards to permit the use of a tire with studs or other traction devices to be used on a street or highway after April 1, 1975. The rules shall make separate provision for the extreme winter snow and ice conditions of the Upper Peninsula and the northern Lower Peninsula. The rules shall include a restriction on the amount and dimension of protrusions that may be allowed on a tire, the type of material that may be used in a stud, traction device, or tire, and the amount of road wear that a tire with studs or other traction devices may cause on a street or highway. (e) A person may operate on a highway a vehicle which has a pneumatic tire in which are inserted ice grips or tire studs if the person is a law enforcement officer operating a vehicle owned by a law enforcement agency, a person operating an ambulance, or a United States postal service rural carrier driving a vehicle the rural carrier owns and maintains as a prerequisite to employment in the postal service. (f) A person shall not operate a vehicle on a highway when a tire in use on that vehicle is unsafe as provided in subsection (h). (g) A person in the business of selling tires shall not sell or offer for sale for highway use a tire which is unsafe as provided in subsection (h). (h) A tire is unsafe if it is in any of the following conditions: (i) Has a part of the belting material, tire cords, or plys exposed. (ii) Has evidence of cord or tread separations. (iii) Is worn to or below the minimum tread level in 2 or more adjacent major grooves at 3 or more locations spaced around the circumference of the tire. Minimum allowable tread levels are as follows:motorcycles and moped1/32 inch front and rearpassenger cars and vehicles weighingless than 10,000 pounds2/32 inch front and rearvehicles weighing 10,000 poundsor more4/32 inch front and 2/32 rearMeasurements shall not be made at locations of tread wear indicators or tie bars. A motor vehicle licensed as an historic vehicle under section 803a is exempt from the tread depth requirements of this subsection. (iv) Has a marking "not for highway use", "for racing purposes only", "for farm use only", or "unsafe for highway use". (v) Has been regrooved or recut below the original tread design depth except in the case of special purpose designed tires having extra undertread rubber provided for this purpose and identified as those tires. Sec. 710c. (1) A person shall not operate a motor vehicle on a public highway or street of this state unless the vehicle is equipped with a bumper or other energy absorption system with an analogous function which bumper or system is securely bolted or

permanently attached on both the front and rear of the vehicle. The bumper or energy absorption system shall be maintained in good operational condition, except as provided in subsection (5). Notwithstanding subsection (6), a person shall not drive a vehicle having a raised or lifted body height unless the vehicle is equipped with bumpers that comply with this subsection and subsection (2). (2) A person shall not operate a motor vehicle of a type defined in subsection (8) that exceeds either of the following limits:Vehicle TypeFrame HeightBumper HeightPassenger vehicle12 inches22 inchesOther motor vehicle:Less than 4,501 pounds GVWR24 inches26 inches4,501 to 7,500 pounds GVWR24 inches28 inches7,501 to 10,000 pounds GVWR26 inches30 inches(3) If the GVWR cannot be determined on a motor vehicle other than a passenger vehicle, the limitations for a motor vehicle having less than 4,501 pounds GVWR shall apply. (4) Notwithstanding subsection (2), a person shall not operate a motor vehicle having lift blocks between the front axle and springs, or with lift blocks that exceed 4 inches in height between the rear axle and springs in addition to those provided by the original manufacturer. Any body lift block shall be of single piece construction and shall not use more than a 3-inch spacer. Any suspension lift block shall use an alignment pin between the axle and the spring, and shall be of single piece construction. Spring shackle replacements shall not exceed the original equipment manufacture length by more than 2 inches, and coil spring spacers are prohibited. All steering components shall be geometrically arranged to function as original equipment manufacture. Welded pitman arms, drag links, and tie rods are prohibited. All parts used to modify the original suspension or height of a motor vehicle shall be factory manufactured and shall meet or exceed the original manufacturer's specifications. (5) A person shall not modify a vehicle to be in violation of this section, alter or add to an original frame resulting in an increase in height of the vehicle, or cause the vehicle body or chassis to come in contact with the ground, expose the fuel tank to damage from collision, or cause the wheels to come in contact with the body. No part of the suspension on a vehicle shall extend below the lowest portion of a wheel rim on the vehicle. A part of the original suspension system shall not be disconnected or modified to defeat the safe operation of the suspension system. This section does not prohibit the installation of heavy duty equipment including bumpers, shock absorbers, and overload springs within the limitations of this section, or the removal of a bumper when necessary to install a snowplow, lift ramp, or similar device while the device is in place and operational. (6) This section shall not be construed to establish standards stricter than those formulated by the United States department of transportation for bumpers on a passenger motor vehicle sold within the United States. (7) This section does not apply to a vehicle having a manufacturer's design which intrinsically precludes conformance with this section, a vehicle with a GVWR of 10,001 pounds or more, a vehicle designed to carry 16 or more passengers including the driver, implements of husbandry, or a road tractor, truck or truck tractor owned by a wood harvester or contractor and used exclusively in connection with wood harvesting and logging operations, or a vehicle which has an unaltered bumper or suspension system as supplied by the manufacturer. The operator of a vehicle cited for a violation of this section may assert as an affirmative defense that the vehicle in question, at the time of the violation, met original manufacturer's specifications for equipment which affected its bumper or frame height. The operator shall establish by a preponderance of this evidence the affirmative defense asserted pursuant to this subsection. (8) As used in this section: (a) "Bumper height" means the vertical distance between the ground and the highest point of the bottom of the bumper, as measured to a level surface when the vehicle is unladen with the vehicle tires inflated to the manufacturer's recommended pressure. If the bottom of the bumper cannot be determined due to vehicle design, the measurement shall be made from the lowest point on the rearmost portion of the rear horizontal bumper bar, or the vertical distance between the lowest point on the forwardmost portion of the front horizontal bumper bar, as measured to a level surface when the vehicle is unladen with the vehicle tires inflated to the manufacturer's recommended pressure. (b) "Frame" means the main longitudinal structural members of the chassis of the vehicle as equipped from the factory or, for a vehicle with unitized body construction, the lowest main longitudinal structural members of the body of the vehicle. (c) "Frame height" means the vertical distance between the ground and the lowest point on the frame, measured when the vehicle is unladen on a level surface at the lowest point on the frame midway between the front axle and the second axle on the vehicle with the vehicle tires inflated to the manufacturer's recommended pressure. (d) "GVWR" means the original manufacturer's gross vehicle weight rating as defined in section 18b. (e) "Multipurpose passenger motor vehicle" means a motor vehicle, other than a truck or passenger vehicle, designed to carry 10 passengers or less and constructed either on a truck chassis or with special features for occasional off-road operation. (f) "Other motor vehicle" means any truck, multipurpose passenger motor vehicle, or other motor vehicle having a GVWR of 10,000 pounds or less, not including a passenger vehicle or motorcycle. (g) "Passenger vehicle" means a motor vehicle with motive power designed to carry 10 passengers or less, or a van having a GVWR of 5,000 pounds or less, but not including a multipurpose passenger motor vehicle, motorcycle, or truck. (1) Except as provided in this section, or as otherwise provided by law, a rule promulgated under the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, or federal regulation, each driver transporting a child in a motor vehicle shall properly secure that child in a child restraint system that meets the standards prescribed in 49 CFR 571.213. (2) A driver transporting a child as required under subsection (1) shall position the child in the child restraint system in a rear seat, if the vehicle is equipped with a rear seat. If all available rear seats are occupied by children, then a

child may be positioned in the child restraint system in the front seat. A child in a rear-facing child restraint system may be placed in the front seat only if the front passenger air bag is deactivated. In addition, a child must be seated and positioned in a child restraint system as follows: (a) A child must be restrained in a rear-facing child restraint system until the child meets either of the following conditions: (i) The child has reached the weight or height limit of the rear-facing child restraint system set by the manufacturer. (ii) The child is 2 years of age or older. (b) A child who meets either of the conditions in subdivision (a)(i) or (ii) must be restrained in a forward-facing child restraint system with an internal harness until the child meets either of the following conditions: (i) The child has reached the weight or height limit of the forward-facing child restraint system set by the manufacturer. (ii) The child is 5 years of age or older. (c) A child who meets either of the conditions in subdivision (b)(i) or (ii) must be restrained in a belt-positioning child booster seat secured with a lap-shoulder safety belt until the child meets either of the following conditions: (i) The child has reached the height of 4 feet 9 inches. (ii) The child is 8 years of age or older. (3) If a child is secured in a child restraint system under subsection (2)(a) to (c), the child must be secured in a child restraint system that is appropriate for the child's weight and height and configured according to the child restraint system manufacturer's and vehicle manufacturer's instructions and the standards prescribed in 49 CFR 571.213. (4) Except as otherwise provided in this subsection, a child who meets either of the conditions in subsection (2)(c)(i) or (ii) but is less than 13 years of age must be restrained with a properly adjusted and fastened safety belt that meets the standards prescribed in 49 CFR 571.209. In addition, the child must be positioned in a rear seat, if the vehicle is equipped with a rear seat. If all available rear seats are occupied by children, then the child may be positioned with a properly adjusted and fastened safety belt in the front seat. A child described in this subsection may be restrained in a belt-positioning child booster seat under subsection (2)(c) until the child has reached the weight or height limit of the child booster seat set by the manufacturer. To maximize safety, the legislature recommends that a child be secured in a child restraint system for as long as the child is within the weight and height limits described in subsection (2)(a)(i), (b)(i), or (c)(i). (5) A child who is 13 years of age or older but less than 16 years of age must be secured as required in section 710e. (6) This section does not apply if the motor vehicle being driven is a bus, school bus, taxicab, moped, motorcycle, or other motor vehicle not required to be equipped with safety belts under federal law or regulations. (7) A person who violates this section is responsible for a civil infraction. (8) Points must not be assessed under section 320a for a violation of this section. ***** 257.682.amended THIS AMENDED SECTION IS EFFECTIVE 91 DAYS AFTER ADJOURNMENT OF THE 2024 REGULAR SESSION SINE DIE ***** Sec. 682. (1) The operator of a vehicle overtaking or meeting a school bus that has stopped and is displaying 2 alternately flashing red lights located at the same level shall bring the vehicle to a full stop not less than 20 feet from the school bus and shall not proceed until the school bus resumes motion or the visual signals are no longer actuated. The operator of a vehicle that fails to stop for a school bus as required by this subsection, that passes a school bus in violation of this subsection, or that fails to stop for a school bus in violation of an ordinance that is substantially similar to this subsection, is responsible for a civil infraction and must be ordered to pay a civil fine of not less than $100.00 and not more than $500.00. A citation issued under this subsection is not a citation for a camera-based violation under subsection (4), and a civil fine for a violation of this subsection must be applied as provided in section 909(1). (2) Except where a crosswalk or pedestrian walkway is present, the operator of a vehicle on a highway that has been divided into 2 roadways by leaving a raised intervening space, or by a physical barrier, or clearly indicated dividing sections so constructed as to impede vehicular traffic, is not required to stop upon meeting a school bus that has stopped across the raised intervening space, physical barrier, or dividing section. (3) In a proceeding for a violation of subsection (1), proof that the particular vehicle described in the citation was in violation of subsection (1), together with proof that the defendant named in the citation was, at the time of the violation, the registered owner of the vehicle, constitutes a rebuttable presumption that the registered owner of the vehicle was the driver of the vehicle at the time of the violation. (4) Notwithstanding any provision of law to the contrary, if the operator of a vehicle fails to stop for a school bus as required under subsection (1), or passes a school bus in violation of subsection (1), or fails to stop for a school bus in violation of an ordinance that is substantially similar to subsection (1), and the school bus is equipped with a stop-arm camera system under section 20 of the pupil transportation act, 1990 PA 187, MCL 257.1820, the photograph captured or video recorded by the stop-arm camera system may be used as evidence in a proceeding for a camera-based violation. A school district that uses a stop-arm camera system shall provide a photograph captured or video recorded by a stop-arm camera system for use as evidence in a proceeding for a camera-based violation if requested by an investigating law enforcement agency. A photograph or video recorded by a stop-arm camera system is admissible as evidence in a proceeding for a camera-based violation to the extent permitted by the rules of evidence of this state. However, a photograph captured or video recorded by a stop-arm camera system, is not required for the prosecution of a violation of subsection (1). (5) For a camera-based violation, the operator of a vehicle is responsible for a civil infraction and must be ordered to pay a civil fine of not less than $100.00 and not more than $500.00. (6) For a camera-based violation, by not later than 30 days after receiving stop-arm camera system information as described in section 20 of the pupil transportation act, 1990 PA 187, MCL 257.1820, a law enforcement agency may review that information to determine if there is sufficient evidence that a violation of subsection (1) occurred and, if there is sufficient evidence that a violation occurred, may issue a citation. (7) For a camera-based violation, if a law enforcement agency determines that it has sufficient evidence that a violation of subsection (1) has occurred, the law enforcement agency may initiate an action by mailing via first-class mail a citation to the operator of the vehicle involved in the violation. The mailing must include all of the following information: (a) A copy of the captured photograph or selected images from a recorded video showing the vehicle involved in the violation. (b) If the violation is based on a recorded video, a method to review the recorded video on a website. (c) The date, time, and location of the alleged violation. (d) A statement of the facts inferred from the captured photograph or recorded video. (8) Notwithstanding any provision of law to the contrary, a civil fine for a camera-based violation must be paid to the county treasurer or the county treasurer's designee, who shall distribute the paid civil fines not less than monthly to the school district that operates the school bus. A school district that receives money under this subsection must use that money for school transportation safety-related purposes. (1) A village or city having a population of fewer than 30,000 individuals based upon the 2010 decennial census may by resolution allow the operation of golf carts on the streets of that village or city, subject to the requirements of this section. A township having a population of fewer than 30,000 individuals based upon the 2010 decennial census may by resolution, unless disapproved by the county board of commissioners under subsection (3), allow the operation of golf carts on the streets of that township, subject to the requirements of this section. (2) If a village, city, or township allows the operation of golf carts on the streets of that village, city, or township, that village, city, or township may require those golf carts and the operators of those golf carts to be recorded on a list maintained by that village, city, or township. A village, city, or township shall not charge a fee for listing golf carts or the operators of those golf carts. (3) A county board of commissioners may, by resolution, disapprove the operation of golf carts on the streets of a township located within that county if the county board of commissioners conducts a hearing and determines that 1 or more of the following apply: (a) The operation of golf carts on the streets of that township would cause significant environmental damage. (b) The operation of golf carts on the streets of that township would cause a significant concern of public safety. (4) The county board of commissioners shall provide public notice of a hearing under subsection (3) at

This subsection does not prohibit a person from crossing a state trunk line highway when operating a golf cart on a street of a village, city, or township, using the most direct line of crossing. (9) The legislative body of a local unit of government may request the state transportation department to authorize the local unit of government to adopt an ordinance authorizing the operation of golf carts on a state trunk line highway, other than an interstate highway, located within the local unit of government. The request shall describe how the authorization would meet the requirements of subsection (10). The state transportation department shall solicit comment on the request from the local units of government where the state trunk line highway is located. The state transportation department shall consider comments received on the request before making a decision on the request. The state transportation department shall grant the request in whole or in part or deny the request not more than 60 days after the request is received. If the state transportation department grants a request in whole or in part under this subsection, the local unit of government that submitted the request may adopt an ordinance authorizing the operation of golf carts on the state trunk line highway that was the subject of the request. A county may submit a request for authorization under this subsection on behalf of 1 or more local units of government located within that county if requested by those local units of government. (10) The state transportation department shall authorize operation of a golf cart under subsection (9) only on a state trunk line highway that is not an interstate highway within a local unit of government that has already adopted an ordinance under subsection (1), that serves as a connector between portions of the local unit of government that only connect through the state trunk line highway, and that meets 1 or more of the following requirements: (a) Provides access to tourist attractions, food service establishments, fuel, motels, or other services. (b) Serves as a connector between 2 segments of the same county road that run along discontinuous town lines. (11) The state transportation department may permanently or temporarily close a state trunk line highway to the operation of golf carts otherwise authorized under subsection (9) after written notice to the clerk of the local unit of government that requested the authorization under subsection (9). The notice shall be in writing and sent by first-class United States mail or personally delivered not less than 30 days before the adoption of the rule or order closing the state trunk line highway. The notice shall set forth specific reasons for the closure. The state transportation department is not required to develop a plan for an alternate route for a state trunk line highway that it has temporarily closed to the operation of golf carts. (12) Where a usable and designated path for golf carts is provided adjacent to a highway or street, a person operating a golf cart may, by local ordinance, be required to use that path. (13) A person operating a golf cart shall not pass between lines of traffic, but may pass on the left of traffic moving in his or her direction in the case of a 2-way street or on the left or right of traffic in the case of a 1-way street, in an unoccupied lane. Sec. 662. (1) A bicycle, electric personal assistive mobility device, electric skateboard, or commercial quadricycle being operated on a roadway between 1/2 hour after sunset and 1/2 hour before sunrise shall be equipped with a lamp on the front that emits a white light visible from a distance of at least 500 feet to the front and with a red reflector on the rear that shall be visible from all distances from 100 feet to 600 feet to the rear when directly in front of lawful lower beams of head lamps on a motor vehicle. A lamp emitting a red light visible from a distance of 500 feet to the rear may be used in addition to the red reflector. (2) A bicycle shall be equipped with a brake that enables the operator to make the braked wheels skid on dry, level, clean pavement. (3) An electric personal assistive mobility device, electric skateboard, or commercial quadricycle shall enable the operator to bring it to a controlled stop. (4) A person shall not sell, offer for sale, or deliver for sale in this state a bicycle or a pedal for use on a bicycle, either of which was manufactured after January 1, 1976, unless it is equipped with a type of reflex reflector located on the front and rear surfaces of the pedal. The reflector elements may be either integral with the construction of the pedal or mechanically attached, but shall be sufficiently recessed from the edge of the pedal, or of the reflector housing, to prevent contact of the reflector element with a flat surface placed in contact with the edge of the pedal. The pedal reflectors shall be visible from the front and rear of the bicycle during the nighttime from a distance of 200 feet when directly exposed to the lower beam head lamps of a motor vehicle. (5) A person shall not sell, offer for sale, or deliver for sale in this state a bicycle manufactured after January 1, 1976 or an electric personal assistive mobility device unless it is equipped with either tires that have reflective sidewalls or with wide-angle prismatic spoke reflectors. If the bicycle or the electric personal assistive mobility device is manufactured with reflective sidewalls, the reflective portion of the sidewall shall form a continuous circle on the sidewall, and may not be removed from the tire without removal of tire material. If the bicycle is equipped with wide-angle prismatic spoke reflectors, the reflectors of the front wheel shall be essentially colorless or amber, and the reflectors on the rear wheel shall be essentially colorless or red. Reflective sidewalls or spoke reflectors shall cause the bicycle to be visible from all distances from 100 feet to 600 feet when viewed under lawful low beam motor vehicle head lamps under normal atmospheric conditions. Sec. 662a. (1) Except as otherwise provided in this section, an individual riding an electric bicycle is subject to the same requirements under this act as an individual riding a bicycle. (2) Beginning on January 1, 2018, a manufacturer or distributor of electric bicycles offered for sale or distribution in this state shall permanently affix in a prominent location on the electric bicycle a

label that contains the classification number, top assisted speed, and motor wattage of the electric bicycle. The label required under this subsection shall be printed in Arial font and shall be at least 9-point type. (3) A person shall not tamper with or modify an electric bicycle so as to change the manufactured motor-powered speed capability or motor engagement of the electric bicycle without replacing the label required under subsection (2) with an appropriate label printed in Arial font and in at least 9-point type. For purposes of this act, a device shall not be considered an electric bicycle if the motor is modified in a manner that no longer meets the criteria described in section 13e, or if the motor exceeds 750 watts. (4) All of the following apply to a class 3 electric bicycle: (a) A class 3 electric bicycle shall not be operated by an individual less than 14 years of age. An individual less than 14 years of age may ride as a passenger on a class 3 electric bicycle that is designed to accommodate passengers. (b) An individual less than 18 years of age who operates or rides as a passenger on a class 3 electric bicycle shall wear a properly fitted and fastened bicycle helmet that meets federal standards established by the United States Consumer Product Safety Commission or the American Society for Testing and Materials. (5) An electric bicycle shall comply with applicable equipment and manufacturing requirements for electric bicycles established under federal law, including standards adopted by the United States Consumer Product Safety Commission and compiled in 16 CFR part 1512. (6) Except as otherwise provided in subsection (7), an individual may operate an electric bicycle on any part of a highway that is open to a bicycle, including, but not limited to, a lane designated for the exclusive use of bicycles and the shoulder. (7) An individual shall not operate an electric bicycle within a city that prohibits the use of nonemergency motor vehicles, unless the city council of that city, by majority vote, adopts a resolution allowing the operation of electric bicycles within city limits. An individual shall not operate an electric bicycle within the Mackinac Island State Park, unless he or she has obtained the required permit from the Mackinac Island State Park Commission created in part 767 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.76701 to 324.76709, or unless the Mackinac Island State Park Commission authorizes the operation of electric bicycles within its jurisdiction. If a city described in this subsection or the Mackinac Island State Park Commission authorizes the operation of electric bicycles within its jurisdiction, the city or the Mackinac Island State Park Commission may regulate the operation of electric bicycles within its jurisdiction. (8) An individual may operate a class 1 electric bicycle on a linear trail that has an asphalt, crushed limestone, or similar surface, or a rail trail. A local authority or agency of this state having jurisdiction over a trail described in this subsection may regulate or prohibit the operation of a class 1 electric bicycle on that trail. (9) An individual may operate a class 2 or class 3 electric bicycle on a linear trail that has an asphalt, crushed limestone, or similar surface, or a rail trail if authorized by the local authority or agency of this state having jurisdiction over the trail. (10) Except as otherwise provided in this subsection, an individual shall not operate an electric bicycle on a trail that is designated as nonmotorized and that has a natural surface tread that is made by clearing and grading the native soil with no added surfacing materials. A local authority or agency of this state having jurisdiction over a trail described in this subsection may allow and regulate the operation of an electric bicycle on that trail. (11) This state or a local authority or agency of this state shall administer the provisions of this section in a manner that complies with the Americans with disabilities act of 1990, Public Law 101-336, and the persons with disabilities civil rights act, 1976 PA 220, MCL 37.1101 to 37.1607. (12) Before an entity described in subsections (7) to (10) may prohibit, authorize, or regulate the use of electric bicycles within its jurisdiction, that entity shall hold a public hearing on the matter. (13) Subsections (6) to (10) do not apply to the use of electric bicycles on a congressionally authorized public trail system. History:Add. 2017, Act 139, Eff. Jan. 28, 2018

Sec. 649. (1) The driver of a vehicle approaching an intersection shall yield the right of way to a vehicle that has entered the intersection from a different highway. (2) When 2 vehicles enter an intersection from different highways at approximately the same time, the driver of the vehicle on the left shall yield the right of way to the vehicle on the right. (3) The right of way rules in subsections (1) and (2) are modified at through highways and otherwise as provided in subsection (4) and in this chapter. (4) The driver of a vehicle approaching an intersection that is controlled by a traffic control signal shall do all of the following, if the signal facing the driver exhibits no colored lights or colored lighted arrows, exhibits a combination of colored lights or colored lighted arrows that fails to clearly indicate the assignment of right of way, or the signals are otherwise malfunctioning: (a) Stop at a clearly marked stop line, or, if there is no clearly marked stop line, stop before entering the crosswalk on the near side of the intersection, or, if there is no crosswalk, stop before entering the intersection. (b) Yield the right of way to all vehicles in the intersection or approaching on an intersecting road, if those vehicles will constitute an immediate hazard during the time the driver is moving across or within the intersection. (c) Exercise ordinary care while proceeding through the intersection. (5) Subsection (4) does not apply to either of the following: (a) An intersection that is controlled by a traffic control signal that is flashing yellow unless certain events occur, including, but not limited to, activation by an emergency vehicle. (b) A traffic control signal that is located in a school zone and is flashing yellow only during prescribed periods of time. (6) The driver of a vehicle approaching a yield sign, in obedience to the sign, shall slow down to a speed reasonable for the existing conditions and shall yield the right of way to a vehicle in the intersection or approaching on another highway so closely as to constitute an immediate hazard during the time the driver would be moving across or within the intersection. However, if required for safety to stop, the driver shall stop before entering the crosswalk on the near side of the intersection or, if there is not a crosswalk, at a clearly marked stop line; but if there is not a crosswalk or a clearly marked stop line, then at the point nearest the intersecting roadway where the driver has a view of

approaching traffic on the intersecting roadway. (7) The driver of a vehicle traveling at an unlawful speed forfeits a right of way that the driver might otherwise have under this section. (8) Except when directed to proceed by a police officer, the driver of a vehicle approaching a stop intersection indicated by a stop sign shall stop before entering the crosswalk on the near side of the intersection, or if there is not a crosswalk shall stop at a clearly marked stop line; or if there is not a crosswalk or a clearly marked stop line, then at the point nearest the intersecting roadway where the driver has a view of approaching traffic on the intersecting roadway. After having stopped, the driver shall yield the right of way to a vehicle that has entered the intersection from another highway or that is approaching so closely on the highway as to constitute an immediate hazard during the time when the driver would be moving across or within the intersection. (9) When a vehicle approaches the intersection of a highway from an intersecting highway or street that is intended to be, and is constructed as, a merging highway or street, and is plainly marked at the intersection with appropriate merge signs, the vehicle shall yield right of way to a vehicle so close as to constitute an immediate hazard on the highway about to be entered and shall adjust its speed so as to enable it to merge safely with the through traffic. However, after a traffic engineering investigation the state highway commission acting jointly with the commissioner of the Michigan state police may give preference to a city street or a county road over a state trunk line highway, and shall erect appropriate signs. Sec. 716. (1) Unless specifically declared to be a civil infraction, it is a misdemeanor for a person to drive or move or for the owner to cause or permit to be driven or moved on a highway a vehicle or vehicles of a size or weight exceeding the limitations stated in this chapter or otherwise in violation of this chapter, and the maximum size and weight specified in this chapter are lawful throughout this state, and local authorities shall not alter those size and weight limitations except as express authority is granted in this chapter. (2) The provision of this chapter governing size, weight, and load do not apply to a fire apparatus, to an implement of

husbandry, a boat lift or oversized hydraulic boat trailer owned and operated by a marina or watercraft dealer used exclusively in a commercial boat storage operation and incidentally moved upon a highway, a combination of vehicles described in, and under the conditions provided by, subsection (4), or to a vehicle operated under the terms of a special permit issued as provided in this chapter. (3) The state transportation department, under the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, may promulgate rules permitting and regulating the operation of a vehicle or vehicles of a size or weight that exceeds the size or weight limitations in this chapter. The rules may restrict or proscribe the conditions of operation of a vehicle or vehicles of a size or weight that exceeds the size or weight limitations in this chapter, if the restriction or proscription is necessary to protect the public safety or to prevent undue damage to a road foundation or surface, a structure, or an installation. The rules may provide for a reasonable inspection fee for an inspection of a vehicle or vehicles to determine whether their sizes and weights are in conformance with this act, and may require other security necessary to compensate for damage caused by the vehicle or vehicles described in this subsection. (4) A wrecker and a disabled vehicle, or a wrecker and a combination of a disabled vehicle and 1 trailer, that exceeds the size and weight limitations in this chapter may be operated upon the highways of this state under the following conditions: (a) The wrecker is specifically designed for such towing operations, is equipped with flashing, oscillating, or rotating amber or red lights as permitted under section 698, and is capable of utilizing the lighting and braking systems of the disabled vehicle or combination of disabled vehicles if those systems are operational. (b) For a combination of disabled vehicles, the wrecker is issued a special permit under section 725 by the state transportation department. The special permit is valid for the entire towing distance, and the operator of the wrecker may remove the disabled vehicles from the roadway at any lawful point of his or her choosing within that distance. (c) For a single disabled vehicle, the wrecker is issued a special permit under section 725 by the state transportation department for the transport of the disabled vehicle. A wrecker operator is not subject to mileage limitations for a special permit issued for purposes of this subdivision. (d) The wrecker does not operate on any highway, road, street, or structure included on a list provided by the state transportation department unless the disabled vehicle or combination of vehicles is located on 1 of those roads or structures. (5) The owner or operator of a wrecker that does not comply with subsection (4)(d) is responsible for a civil infraction and shall pay a civil fine of not less than $250.00 or more than $500.00. The civil fine imposed under this subsection is in addition to any fine that may be imposed under section 724 or 725. History:1949, Act 300, Eff. Sept. 23, 1949 ;-- Am. 1970, Act 177, Imd. Eff. 2024 Michigan Compiled LawsChapter 257 - Motor VehiclesAct 300 of 1949 - Michigan Vehicle Code (257.1 - 257.923)300-1949-VI - Chapter VI Obedience to and Effect of Traffic Laws (257.601...257.750)300-1949-VI-SIZE-WEIGHT-AND-LOAD - Size, Weight and Load (257.716...257.750)Section 257.717 - Maximum Permissible Width of Vehicle or Load; Extension Beyond Center Line of Highway; Permit; Designation of Highway for Operation of Vehicle or Vehicle Combination; Special Permit; Boat Lift or Trailer; Snowplow Blade; Violation as Civil Infraction; Charging Owner.

Sec. 717. (1) The total outside width of a vehicle or the load on a vehicle shall not exceed 96 inches, except as otherwise provided in this section. (2) A person may operate or move an implement of husbandry of any width on a highway as required, designed, and intended for farming operations, including the movement of implements of husbandry being driven or towed and not hauled on a trailer, without obtaining a special permit for an excessively wide vehicle or load under section 725. The operation or movement of the implement of husbandry shall be in a manner so as to minimize the interruption of traffic flow. A person shall not operate or move an implement of husbandry to the left of the center of the roadway from a half hour after sunset to a half hour before sunrise, under the conditions specified in section 639, or at any time visibility is substantially diminished due to weather conditions. A person operating or moving an implement of husbandry shall follow all traffic regulations. (3) The total outside width of the load of a vehicle hauling concrete pipe, ferrous pipe, agricultural products, or unprocessed logs, pulpwood, or wood bolts shall not exceed 108 inches. (4) Except as provided in subsections (2) and (5) and this subsection, if a vehicle that is equipped with pneumatic tires is operated on a highway, the maximum width from the outside of 1 wheel and tire to the outside of the opposite wheel and tire shall not exceed 102 inches, and the outside width of the body of the vehicle or the load on the vehicle shall not exceed 96 inches. However, a truck and trailer or a tractor and semitrailer combination hauling pulpwood or unprocessed logs may be operated with a maximum width of not to exceed 108 inches in accordance with a special permit issued under section 725. (5) The total outside body width of a school bus, a bus, a trailer coach, a trailer, a semitrailer, a truck camper, or a motor home shall not exceed 102 inches. However, an appurtenance of a school bus, a trailer coach, a truck camper, or a motor home that extends not more than 6 inches beyond the total outside body width does not violate this section. (6) A vehicle shall not extend beyond the center line of a state trunk line highway except when authorized by law. Except as provided in subsection (2), if the width of the vehicle makes it impossible to stay away from the center line, a permit shall be obtained under section 725. (7) The director of the state transportation department, a county road commission, or a local authority may designate a highway under the agency's jurisdiction as a highway on which a person may operate a vehicle or vehicle combination that is not more than 102 inches in width, including load, the operation of which would otherwise be prohibited by this section. The agency making the designation may require that the owner or lessee of the vehicle or of each vehicle in the vehicle combination secure a permit before operating the vehicle or vehicle combination. This subsection does not restrict the issuance of a special permit under section 725 for the operation of a vehicle or vehicle combination. This subsection does not permit the operation of a vehicle or vehicle combination described in section 722a carrying a load described in that section if the operation would otherwise result in a violation of that section. (8) The director of the state

transportation department, a county road commission, or a local authority may issue a special permit under section 725 to a person operating a vehicle or vehicle combination if all of the following are met: (a) The vehicle or vehicle combination, including load, is not more than 106 inches in width. (b) The vehicle or vehicle combination is used solely to move new motor vehicles or parts or components of new motor vehicles between facilities that meet all of the following: (i) New motor vehicles or parts or components of new motor vehicles are manufactured or assembled in the facilities. (ii) The facilities are located within 10 miles of each other. (iii) The facilities are located within the city limits of the same city and the city is located in a county that has a population of more than 400,000 and less than 500,000 according to the most recent federal decennial census. (c) The special permit and any renewals are each issued for a term of 1 year or less. (9) A person may move or operate a boat lift of any width or an oversized hydraulic boat trailer owned and operated by a marina or watercraft dealer in a commercial boat storage operation on a highway under a multiple trip permit issued on an annual basis as specified under section 725. The operation or movement of the boat lift or trailer shall minimize the interruption of traffic flow. It shall be used exclusively to transport a boat between a place of storage and a marina or in and around a marina. A boat lift or oversized hydraulic boat trailer may be operated, drawn, or towed on a street or highway only when transporting a vessel between a body of water and a place of storage or when traveling empty to or from transporting a vessel. A boat lift shall not be operated on limited access highways. A person moving or operating a boat lift or oversized hydraulic boat trailer shall follow all traffic regulations and shall ensure the route selected has adequate power and utility wire height clearance. (10) A person may operate or move a truck to which a snowplow blade that is wider than 96 inches but no more than 132 inches wide is mounted without obtaining a special permit for an excessively wide vehicle or load under section 725. This subsection only applies between October 1 and May 1 of each year. A person operating a truck described in this subsection shall minimize the overwidth condition of the snowplow blade when not engaged in snow removal by angling the plow blade or any other method. This subsection does not apply to a person operating construction equipment for snow removal. (11) A person who violates this section is responsible for a civil infraction. The owner of the vehicle may be charged with a violation of this section. History:1949, Act 300, Eff. Sept. 23, 1949 ;-- Am. 1951, Act 68, Eff. Sept. 28, 1951 ;-- Am. 1952, Act 69, Imd. Eff. ***** 257.719 SUBSECTIONS (2)(a) AND (3)(b) MAY NOT APPLY: See subsection (9) ***** Sec. 719. (1) A vehicle unloaded or with load shall not exceed a height of 13 feet 6 inches. The owner of a vehicle that collides with a lawfully established bridge or viaduct is liable for all damage and injury resulting from a collision caused by the height of the vehicle, whether the clearance of the bridge or viaduct is posted or not. (2) Lengths described in this subsection shall be known as the normal length maximum. Except as provided in subsection (3), the following vehicles and combinations of vehicles shall not be operated on a highway in this state in excess of these lengths: (a) Subject to subsection (9), any single vehicle: 40 feet; a crib vehicle on which logs are loaded lengthwise of the vehicle: 42.5 feet; any single bus or motor home: 45 feet. (b) Articulated buses: 65 feet. A combination of a truck and semitrailer or trailer, or a truck tractor, semitrailer, and trailer, or a truck tractor and semitrailer or trailer designed and used to transport boats from the manufacturer: 75 feet. A stinger-steered combination: 80 feet. The load on the combinations of vehicles described in this subdivision may extend an additional 3 feet beyond the front and 4 feet beyond the rear of the combinations of vehicles, except that the load on a stinger-steered combination may extend an additional 4

feet beyond the front and 6 feet beyond the rear. Retractable extensions used to support and secure the load that do not extend beyond the allowable overhang for the front and rear shall not be included in determining length of a loaded vehicle or vehicle combination. (d) Truck tractor and semitrailer combinations: no overall length, the semitrailer: 50 feet. (e) Except as provided in subdivision (j), truck and semitrailer or trailer: 59 feet. (f) Except as provided in subdivisions (g) and (k), truck tractor, semitrailer, and trailer, or truck tractor and 2 semitrailers: 59 feet. (g) A truck tractor, semitrailer, and trailer, or a truck tractor and 2 semitrailers, in which no semitrailer or trailer is more than 28-1/2 feet long: 65 feet. This subdivision only applies while the vehicle is being used for a business purpose reasonably related to picking up or delivering a load and only if each semitrailer or trailer is equipped with a device or system capable of mechanically dumping construction materials or dumping construction materials by force of gravity. (h) More than 1 motor vehicle, wholly or partially assembled, in combination, utilizing 1 tow bar or 3 saddle mounts with full mount mechanisms and utilizing the motive power of 1 of the vehicles in combination: 55 feet. (i) A recreational vehicle that has its own motive power, in combination with a trailer: 65 feet or, if the operator of the recreational vehicle has a group commercial motor vehicle designation on his or her operator's or chauffeur's license, 75 feet. (j) Truck and trailer combinations designed and used to transport agricultural drainage tubing: 75 feet. (k) A towaway trailer transporter combination: 82 feet. As used in this subdivision, "towaway trailer transportation combination" means that term as defined in 49 USC 31111. (3) Notwithstanding subsection (2), the following vehicles and combinations of vehicles shall not be operated on a designated highway of this state in excess of these lengths: (a) Truck tractor and semitrailer combinations: no overall length limit, the semitrailer 53 feet. City, village, or county authorities may prohibit stops of vehicles with a semitrailer longer than 50 feet within their jurisdiction unless the stop occurs along appropriately designated routes, or is necessary for emergency purposes or to reach shippers, receivers, warehouses, and terminals along designated routes. (b) Except as provided in subsection (2)(k), truck and semitrailer or trailer combinations: 65 feet, except that a person may operate a truck and semitrailer or trailer designed and used to transport saw logs, pulpwood, and tree length poles that does not exceed an overall length of 70 feet or a crib vehicle and semitrailer or trailer designed and used to transport saw logs that does not exceed an overall length of 75 feet. A crib vehicle and semitrailer or trailer designed to and used to transport saw logs shall not exceed a gross vehicle weight of 164,000 pounds. A person may operate a truck tractor and semitrailer designed and used to transport saw logs, pulpwood, and tree length wooden poles with a load overhang to the rear of the semitrailer which does not exceed 6 feet if the semitrailer does not exceed 50 feet in length. (c) Notwithstanding subsection (5)(d), a truck tractor with a log slasher unit and a log saw unit: no overall limit if the length of each unit does not exceed 28-1/2 feet, or the overall length of the log slasher unit and the log saw unit, as measured from the front of the first towed unit to the rear of the second towed unit while the units are coupled together, does not exceed 58 feet. The coupling devices of the truck tractor and units set forth in this subdivision shall meet the requirements established under the motor carrier safety act of 1963, 1963 PA 181, MCL 480.11 to 480.25. (d) Except as provided in subsection (2)(k), truck tractor and 2 semitrailers, or truck tractor, semitrailer, and trailer combinations: no overall length limit, if the length of each semitrailer or trailer does not exceed 28-1/2 feet each, or the overall length of the semitrailer and trailer, or 2 semitrailers as measured from the front of the first towed unit to the rear of the second towed unit while the units are coupled together does not exceed 58 feet. (e) More than 1 motor vehicle, wholly or partially assembled, in combination, utilizing 1 tow bar or 3 saddle mounts with full mount mechanisms and utilizing the motive power of 1 of the vehicles in combination: 97 feet. (f) Truck tractor and lowboy semitrailer combinations: no maximum overall length, if the lowboy semitrailer does not exceed 59 feet, except as otherwise permitted under this subdivision. A lowboy semitrailer more than 59 feet in length shall not operate with more than any combination of 4 axles on the lowboy unless an oversized load permit is issued by the state transportation department or a local authority with respect to highways under its jurisdiction. As used in this subdivision, "lowboy semitrailer" means a flatbed semitrailer with a depressed section that has the specific purpose of being lowered and raised for loading and unloading. (4) Notwithstanding any other provision of this section, a combination of a truck and semitrailer, or truck tractor and semitrailer, used exclusively to transport assembled motor vehicles or bodies that have a trailer length of 53 feet may have a load that extends an additional 3 feet beyond the front of the trailer and 4 feet beyond the rear of the trailer. Retractable extensions used to support and secure the load that do not extend beyond the allowable overhang for the front and rear shall not be included in determining length of a loaded vehicle or vehicle combination. The total overall length loaded of the combination of vehicles described in this subsection shall not exceed 79 feet. (5) The following combinations and movements are prohibited: (a) A truck shall not haul more than 1 trailer or semitrailer, and a truck tractor shall not haul more than 2 semitrailers or 1 semitrailer and 1 trailer in combination at any 1 time, except that a farm tractor may haul 2 wagons or trailers, or garbage and refuse haulers may, during daylight hours, haul up to 4 trailers for garbage and refuse collection purposes, not exceeding in any combination a total length of 55 feet and at a speed limit not to exceed 15 miles per hour. (b) A combination of vehicles or a vehicle shall not have more than 11 axles, except when operating under a valid permit issued by the state transportation department or a local authority with respect to a highway under its jurisdiction. (c) Any combination of vehicles not specifically authorized under this section is prohibited. (d) Except as provided in subsection (3)(c), a combination of 2 semitrailers pulled by a truck tractor, unless each semitrailer uses a fifth wheel connecting assembly that conforms to the requirements of the motor carrier safety act of 1963, 1963 PA 181, MCL 480.11 to 480.25. (e) Except as provided in subsection (2)(c), a vehicle or a combination of vehicles shall not carry a load extending more than 3 feet beyond the front of the lead vehicle. (f) A vehicle described in subsections (2)(e) and (3)(e) employing triple saddle mounts unless all wheels that are in contact with the roadway have operating brakes. (6) All combinations of vehicles under this section shall employ connecting assemblies and lighting devices that are in compliance with the motor carrier safety act of 1963, 1963 PA 181, MCL 480.11 to 480.25. (7) The total gross weight of a truck tractor, semitrailer, and trailer combination or a truck tractor and 2 semitrailers combination that exceeds 59 feet in length shall not exceed a ratio of 400 pounds per engine net horsepower delivered to

clutch or its equivalent specified in the handbook published by the Society of Automotive Engineers, Inc. (SAE), 1977 edition. (8) A person who violates this section is responsible for a civil infraction. The owner of the vehicle may be charged with a violation of this section. (9) The provisions in subsections (2)(a) and (3)(b) prescribing the length of a crib vehicle on which logs are loaded lengthwise do not apply unless 23 USC 127(d) is amended to allow crib vehicles carrying logs to be loaded as described in this section. (10) As used in this section: (a) "Designated highway" means a highway approved by the state transportation department or a local authority with respect to a highway under its jurisdiction. (b) "Length" means the total length of a vehicle, or combination of vehicles, including any load the vehicle is carrying. Length does not include devices described in 23 CFR 658.16 and 23 CFR part 658, appendix D, 23 CFR 658.16 and 23 CFR part 658, appendix D, as on file with the secretary of state are adopted by reference. A safety or energy conservation device shall be excluded from a determination of length only if it is not designed or used for the carrying of cargo, freight, or equipment. Semitrailers and trailers shall be measured from the front vertical plane of the foremost transverse load supporting structure to the rearmost transverse load supporting structure. Vehicle components not excluded by law shall be included in the measurement of the length, height, and width of the vehicle. (c) "Stinger-steered combination" means a truck tractor and semitrailer combination in which the fifth wheel is located on a drop frame located behind and below the rearmost axle of the power unit. (b) A special permit issued by the jurisdictional authority under section 725. (2) A jurisdictional authority may issue to a mobile home or park model trailer transport company, a mobile home or park model trailer manufacturer, or a mobile home or park model trailer dealer an annual permit to move on a street or highway, in the ordinary course of that company's, manufacturer's, or dealer's business, a mobile home or park model trailer that conforms to each of the following: (a) The mobile home or park model trailer is not more than 12 feet wide. Sec. 720. (1) A person shall not drive or move a vehicle on a highway unless the vehicle is so constructed or loaded as to prevent its contents from dropping, sifting, leaking, blowing off, or otherwise escaping from the vehicle. This requirement does not apply to a vehicle transporting agricultural or horticultural products when hay, straw, silage, or residue from a product, but not including the product itself, or when materials such as water used to preserve and handle agricultural or horticultural products while in transportation, escape from the vehicle in an amount that does not interfere with other traffic on the highway. The tailgate, faucets, and taps on a vehicle shall be securely closed to prevent spillage during transportation whether the vehicle is loaded or empty, and the vehicle shall not have any holes or cracks through which material can escape. Any highway maintenance vehicle engaged in either ice or snow removal shall be exempt from this section. (2) Actual spillage of material on the highway or proof of that spillage is not necessary to prove a violation of this section. (3) Except as provided in this section, a vehicle carrying a load, other than logs or tubular products, which is not completely enclosed shall meet either of the following requirements: (a) Have the load covered with firmly secured canvas or a similar type of covering. A device used to comply with the requirement of this subdivision shall not exceed a width of 108 inches nor by design or use have the capability to carry cargo by itself. (b) Have the load securely fastened to the body or the frame of the vehicle with binders of adequate number and of adequate breaking strength to prevent the dropping off or shifting of the load. (4) A company or individual who loads or unloads a vehicle or causes it to be loaded or unloaded, with knowledge that it is to be driven on a public highway, in a manner so as to cause a violation of subsection (1) shall be prima facie liable for a violation of this section. (5) Subsection (3) does not apply to a person operating a vehicle to transport agricultural commodities or to a person operating a farm truck or implement of husbandry transporting sand, gravel, and dirt necessary in the normal operation of a farm. However, a person operating a vehicle to transport agricultural commodities or sand, gravel, and dirt in the normal operation of the farm who violates subsection (1) or (4) is guilty of a misdemeanor and is subject to the penalties prescribed in subsection (9). (6) Subsection (3)(a) does not apply to a motor vehicle transporting items of a load that because of their weight will not fall off the moving vehicle and that have their centers of gravity located at least 6 inches below the top of the enclosure nor to a motor vehicle carrying metal that because of its weight and density is so loaded as to prevent it from dropping or falling off the moving vehicle. (7) Subsection (3)(a) does not apply to motor vehicles and other equipment engaged in work upon the surface of a highway or street in a designated work area. (8) A person shall not drive or move on a highway a vehicle equipped with a front end loading device with a tine protruding parallel to the highway beyond the front bumper of the vehicle unless the tine is carrying a load designed to be carried by the front end loading device. This subsection does not apply to a vehicle designed to be used or being used to transport agricultural commodities, to a vehicle en route to a repair facility, or to a vehicle engaged in construction activity. As used in this subsection, "agricultural commodities" means that term as defined in section 722. (9) A person who violates this section is guilty of a misdemeanor punishable by a fine of not more than $500.00 or imprisonment for not more than 90 days, or both. (10) As used in this section, "logs" means sawlogs, pulpwood, or tree length poles. History:1949, Act 300, Eff. Sept. 23, 1949 ;-- Am. 1959, Act 215, Imd. Eff. Sec. 721. (1) Except as otherwise provided in subsection (5), a passenger vehicle or a pickup truck shall not be driven upon a highway drawing or having attached to the passenger vehicle or pickup truck more than 1 vehicle or trailer. (2) The drawbar or other connection between 2 vehicles, 1 of which is towing or drawing the other on a highway, shall not exceed 15 feet in length from 1

vehicle to the other. If the connection consists of a chain, rope, or cable, there shall be displayed upon the connection a red flag or other signal or cloth not less than 12 inches both in length and width. (3) A vehicle or trailer towed or drawn by a vehicle shall be attached to the vehicle with forms of coupling devices in a manner so that when the combination is operated in a linear alignment on a level, smooth, paved surface, the movement of the towed or drawn vehicle or trailer does not deviate more than 3 inches to either side of the path of the towing vehicle that tows or draws it. The vehicle or trailer shall also be connected to the towing vehicle by suitable safety chains or devices, 1 on each side of the coupling and at the extreme outer edge of the vehicle or trailer. Each chain or device and connection used shall be of sufficient strength to haul the vehicle or trailer when loaded. In the case of an implement of husbandry with a gross vehicle weight rating or gross combination weight rating of 10,000 pounds or less, the safety chains or devices required under this subsection shall conform to the federal motor carrier safety regulations requirements contained in 49 CFR 393.70(d)(5). (4) A pickup truck with a fifth wheel assembly shall not tow a semitrailer unless the fifth wheel assembly conforms to the standards prescribed in the motor carrier safety act of 1963, 1963 PA 181, MCL 480.11 to 480.25. (5) Notwithstanding subsection (1), a pickup truck with a towing rating equal to, or greater than, the weight being towed, equipped with a fifth wheel assembly that conforms with the standards prescribed in the motor carrier safety act of 1963, 1963 PA 181, MCL 480.11 to 480.25, towing attached with a semitrailer designed for recreational living purposes may tow an additional trailer or semitrailer under the following conditions: (a) The additional trailer or semitrailer shall be attached as provided in subsection (3). The safety chains described in subsection (3) shall be securely attached at the extreme outer edge of the attached trailer or semitrailer with a locking mechanism. The towing vehicle hitch shall be of substantial material and shall be attached in a proper and skillful manner to the frame of the towing vehicle. (b) The total length of the pickup truck, semitrailer designed for recreational living purposes, and additional trailer or semitrailer, and load, shall not exceed 75 feet on any highways in this state. (c) The gross weight of the additional trailer or semitrailer towed or drawn shall not exceed the empty weight of the pickup truck or the empty weight of the semitrailer. (6) For the purposes of this section, a pickup truck towing a semitrailer and additional trailer shall be considered a passenger vehicle and shall comply with the speed limit requirements of section 627(5). (7) A person who violates this section is responsible for a civil infraction. History:1949, Act 300, Eff. Sept. 23, 1949 ;-- Am. 1978, Act 510, Eff. Aug. 1, 1979 ;-- Am. 1990, Act 75, Imd. Eff. ***** 257.722.amended THIS AMENDED SECTION IS EFFECTIVE 91 DAYS AFTER ADJOURNMENT OF THE 2024 REGULAR SESSION SINE DIE ***** Sec. 722. (1) Except as otherwise provided in this section, the maximum axle load must not exceed the number of pounds designated in the following provisions that prescribe the distance between axles: (a) If the axle spacing is 9 feet or more between axles, the maximum axle load must not exceed 18,000 pounds for vehicles equipped with high pressure pneumatic or balloon tires. (b) If the axle spacing is less than 9 feet between 2 axles but more than 3-1/2 feet, the maximum axle load must not exceed 13,000 pounds for high pressure pneumatic or balloon tires. (c) If the axles are spaced less than 3-1/2 feet apart, the maximum axle load must not exceed 9,000 pounds per axle. (d) Subdivisions (a), (b), and (c) shall be known as the normal loading maximum. (2) When normal loading is in effect, the state transportation department, or a local authority with respect to highways under its jurisdiction, may designate certain highways, or sections of those highways, where bridges and road surfaces are adequate for heavier loading, and revise a designation as needed, on which the maximum tandem axle assembly loading must not exceed 16,000 pounds for any axle of the assembly, if there is no other axle within 9 feet of any axle of the assembly. (3) A combination of vehicles may operate on designated highways with not more than 1 tandem axle assembly having a gross weight of 16,000 pounds per axle, if there is no other axle within 9 feet of the assembly. On a combination of truck tractor and semitrailer having not more than 5 axles, 2 consecutive tandem axle assemblies may operate on designated highways at a gross permissible weight of 16,000 pounds per axle, if there is no other axle within 9 feet of any axle of either assembly. (4) Notwithstanding subsection (3), on a combination of truck tractor and semitrailer having not more than 5 axles, 2 consecutive sets of tandem axles may carry a gross permissible weight of not to exceed 17,000 pounds on any axle of the tandem axles if there is no other axle within 9 feet of any axle of the tandem axles and if the first and last axles of the consecutive sets of tandem axles are not less than 36 feet apart and the gross vehicle weight does not exceed 80,000 pounds to pick up and deliver agricultural commodities between the national truck network or special designated highways and any other highway. This subsection is not subject to the maximum axle loads of subsections (1), (2), and (3). For purposes of this subsection, a "tandem axle" means 2 axles spaced more than 40 inches but not more than 96 inches apart or 2 axles spaced more than 3-1/2 feet but less than 9 feet apart. This subsection does not apply during that period when reduced maximum loads are in effect under subsection (8). (5) The seasonal reductions described under subsection (8) to the loading maximums and gross vehicle weight requirement of subsection (12) do not apply to a person hauling agricultural

commodities if the person who picks up or delivers the agricultural commodity either from a farm or to a farm notifies the county road commission for roads under its authority not less than 48 hours before the pickup or delivery of the time and location of the pickup or delivery. The county road commission shall issue a permit to the person and charge a fee that does not exceed the administrative costs incurred. The permit must contain all of the following: (a) The designated route or routes of travel for the load. (b) The date and time period requested by the person who picks up or delivers the agricultural commodities during which the load may be delivered or picked up. (c) A maximum speed limit of travel, if necessary. (d) Any other specific conditions agreed to between the parties. (6) The seasonal reductions described under subsection (8) to the loading maximums and gross vehicle weight requirements of subsection (12) do not apply to public utility vehicles under the following circumstances: (a) For emergency public utility work on restricted roads, as follows: (i) If required by the county road commission, the public utility or its subcontractor shall notify the county road commission, as soon as practical, of the location of the emergency public utility work and provide a statement that the vehicles that were used to perform the emergency utility work may have exceeded the loading maximums and gross vehicle weight requirements of subsection (12) as reduced under subsection (8). The notification may be made via facsimile or electronically. (ii) The public utility vehicle travels to and from the site of the emergency public utility work while on a restricted road at a speed not greater than 35 miles per hour. (b) For nonemergency public utility work on restricted roads, as follows: (i) If the county road commission requires, the public utility or its subcontractor shall apply to the county road commission annually for a seasonal truck permit for roads under its authority before seasonal weight restrictions are effective. The county road commission shall issue a seasonal truck permit for each public utility vehicle or vehicle configuration the public utility or subcontractor anticipates will be utilized for nonemergency public utility work. The county road commission may charge a fee for a seasonal truck permit that does not exceed the administrative costs incurred for the permit. The seasonal truck permit must contain all of the following: (A) The seasonal period requested by the public utility or subcontractor during which the permit is valid. (B) A unique identification number for the vehicle and any vehicle configuration to be covered on the seasonal truck permit requested by the public utility or subcontractor. (C) A requirement that travel on restricted roads during weight restrictions will be minimized and only utilized when necessary to perform public utility work using the public utility vehicle or vehicle configuration and that nonrestricted roads must be used for travel when available and for routine travel. (D) A requirement that in the case of a subcontractor the permit is only valid while the subcontractor vehicle is being operated in the performance of public utility work. (E) A requirement that a subcontractor vehicle or vehicle configuration must display signage on the outside of the vehicle to identify the vehicle as operating on behalf of the public utility. (ii) If the county road commission requires notification, the county road commission shall provide a notification application for the public utility or its subcontractor to use when requesting access to operate on restricted roads and the public utility or its subcontractor shall provide notification to the county road commission, via facsimile or electronically, not later than 24 hours before the time of the intended travel. A subcontractor using a vehicle on a restricted road shall have a copy of any notification provided to a county road commission in the subcontractor's possession while performing the relevant nonemergency work. Notwithstanding this subsection or an agreement under this subsection, if the county road commission determines that the condition of a particular road under its jurisdiction makes it unusable, the county road commission may deny access to all or any part of that road. The denial must be made and communicated via facsimile or electronically to the public utility or its subcontractor within 24 hours after receiving notification that the public utility or subcontractors intends to perform nonemergency work that requires use of that road. Any notification that is not disapproved within 24 hours after the notice is received by the county road commission is considered approved. The notification application required under this subparagraph may include all of the following information: (A) The address or location of the nonemergency work. (B) The date or dates of the nonemergency work. (C) The route to be taken to the nonemergency work site. (D) The restricted road or roads intended to be traveled upon to the nonemergency work site or sites. (E) In the case of a subcontractor, the utility on whose behalf the subcontractor is performing services. (7) The normal size of tires must be the rated size as published by the manufacturers, and the maximum wheel load permissible for any wheel must not exceed 700 pounds per inch of width of tire. (8) Except as provided in this subsection and subsection (9), during the months of March, April, and May in each year, the maximum axle load allowable on concrete pavements or pavements with a concrete base is reduced by 25% from the maximum axle load as specified in this chapter, and the maximum axle loads allowable on all other types of roads during these months are reduced by 35% from the maximum axle loads as specified. The maximum wheel load must not exceed 525 pounds per inch of tire width on concrete and concrete base or 450 pounds per inch of tire width on all other roads during the period the seasonal road restrictions are in effect. Subject to subsection (5), this subsection does not apply to vehicles transporting agricultural commodities or, subject to subsection (6), public utility vehicles on a highway, road, or street under the jurisdiction of a local road agency, or a school bus. In addition, this subsection does not apply to a vehicle delivering propane fuel to a residence if the vehicle's propane tank is filled to not more than 50% of its capacity and the vehicle is traveling at not more than 35 miles per hour. The state transportation department and each local authority with highways and streets under its jurisdiction to which the seasonal restrictions prescribed under this subsection apply shall post all of the following information on the homepage of its website or, if a local authority does not have a website, then on the website of a statewide road association of which it is a member: (a) The dates when the seasonal restrictions are in effect. (b) The names of the highways and streets and portions of highways and streets to which the seasonal restrictions apply. (9) The state transportation department for roads under its jurisdiction and a county road commission for roads under its jurisdiction may grant exemptions from seasonal weight restrictions for milk on specified routes when requested in writing. Approval or denial of a request for an exemption must be given by written notice to the applicant within 30 days after the date of submission of the application. If a request is denied, the written notice must state the reason for denial and alternate routes for which

the permit may be issued. The applicant may appeal to the state transportation commission or the county road commission. These exemptions do not apply on county roads in counties that have negotiated agreements with milk haulers or haulers of other commodities during periods of seasonal load limits before April 14, 1993. This subsection does not limit the ability of these counties to continue to negotiate such agreements. (10) The state transportation department, or a local authority with respect to highways under its jurisdiction, may suspend the restrictions imposed by this section when and where conditions of the highways or the public health, safety, and welfare warrant suspension, and impose the restricted loading requirements of this section on designated highways at any other time that the conditions of the highway require. (11) For the purpose of enforcing this act, the gross vehicle weight of a single vehicle and load or a combination of vehicles and loads must be determined by weighing individual axles or groups of axles, and the total weight on all the axles is the gross vehicle weight. In addition, the gross axle weight must be determined by weighing individual axles or by weighing a group of axles and dividing the gross weight of the group of axles by the number of axles in the group. For purposes of subsection (12), the overall gross weight on a group of 2 or more axles must be determined by weighing individual axles or several axles, and the total weight of all the axles in the group is the overall gross weight of the group. (12) The loading maximum in this subsection applies to interstate highways, and the state transportation department, or a local authority with respect to highways under its jurisdiction, may designate a highway, or a section of a highway, for the operation of vehicles having a gross vehicle weight of not more than 80,000 pounds that are subject to the following load maximums: (a) Twenty thousand pounds on any 1 axle, including all enforcement tolerances. (b) A tandem axle weight of 34,000 pounds, including all enforcement tolerances. (c) An overall gross weight on a group of 2 or more consecutive axles equaling:W=500[(LN)/(N-1)+12N+36]where W = overall gross weight on a group of 2 or more consecutive axles to the nearest 500 pounds, L = distance in feet between the extreme of a group of 2 or more consecutive axles, and N = number of axles in the group under consideration; except that 2 consecutive sets of tandem axles may carry a gross load of 34,000 pounds each if the first and last axles of the consecutive sets of tandem axles are not less than 36 feet apart. The gross vehicle weight must not exceed 80,000 pounds including all enforcement tolerances. Except for 5 axle truck tractor, semitrailer combinations having 2 consecutive sets of tandem axles, vehicles having a gross weight in excess of 80,000 pounds or in excess of the vehicle gross weight determined by application of the formula in this subsection are subject to the maximum axle loads of subsections (1), (2), and (3). As used in this subsection, "tandem axle weight" means the total weight transmitted to the road by 2 or more consecutive axles, the centers of which may be included between parallel transverse vertical planes spaced more than 40 inches but not more than 96 inches apart, extending across the full width of the vehicle. Except as otherwise provided in this section, vehicles transporting agricultural commodities have the weight load maximums under this subsection. (13) The axle loading maximums under subsections (1), (2), (3), and (4) are increased by 10% for vehicles transporting agricultural commodities or raw timber, excluding farm equipment and fuel, from the place of harvest or farm storage to the first point of delivery on a road in this state. However, the axle loading maximums as increased under this subsection do not alter the gross vehicle weight restrictions under this act. This subsection does not apply to either of the following: (a) A vehicle utilizing an interstate highway. (b) A vehicle utilizing a road that is subject to seasonal weight restrictions under subsection (8) during the time that the seasonal weight restrictions are in effect. (14) Notwithstanding any other provision of this section, a vehicle or combination of vehicles that have a gross weight of 82,000 pounds or less and that is operated by an engine that is fueled wholly or partially by compressed or liquefied natural gas may exceed the axle loading maximums under subsections (1), (2), (3), and (4) and the weight load maximums under subsection (12) by an amount equal to the difference between the weight of the vehicle attributable to the natural gas tank and fueling system carried by that vehicle and the weight of a comparable diesel tank and fueling system. A vehicle or combination of vehicles described in this subsection may exceed the axle loading maximums under subsections (1), (2), (3), and (4) and the weight load maximums under subsection (12) by a total of not more than 2,000 pounds for all axles of the truck, truck tractor, or power unit. (15) Notwithstanding any other provision of this section, a vehicle or combination of vehicles that have a gross weight of 82,000 pounds or less and that are powered wholly or partially by electric batteries may exceed the axle loading maximums under subsections (1), (2), (3), and (4) and the weight load maximums under subsection (12) by a total of not more than 2,000 pounds for all axles of the truck, truck tractor, or power unit. (16) As used in this section: (a) "Agricultural commodities" means those plants and animals useful to human beings produced by agriculture and includes, but is not limited to, forages and sod crops, grains and feed crops, field crops, dairy and dairy products, poultry and poultry products, cervidae, livestock, including breeding and grazing, equine, fish, and other aquacultural products, bees and bee products, berries, herbs, fruits, vegetables, flowers, seeds, grasses, nursery stock, mushrooms, fertilizer, livestock bedding, farming equipment, fuel for agricultural use, and maple sap. Agricultural commodities do not include trees or lumber. (b) "Emergency public utility work" means work performed to restore public utility service or to eliminate a danger to the public due to a natural disaster, an act of God, or an emergency situation, whether or not a public official has declared an emergency. (c) "Farm storage" means any of the following: (i) An edifice, silo, tank, bin, crib, interstice, or protected enclosed structure, or more than 1 edifice, silo, tank, bin, crib, interstice, or protected enclosed structure located contiguous to each other. (ii) An open environment used for the purpose of temporarily storing a crop. (d) "Public utility" means a public utility under the jurisdiction of the public service commission or a transmission company. (e) "Public utility vehicle" means a vehicle owned or operated by a public utility or operated by a subcontractor on behalf of a public utility. (f) "Transmission company" means either an affiliated transmission company or an independent transmission company as those terms are defined in section 2 of the electric transmission line certification act, 1995 PA 30, MCL 460.562. ***** 257.722 THIS SECTION IS AMENDED EFFECTIVE 91 DAYS AFTER ADJOURNMENT OF THE 2024 REGULAR SESSION SINE DIE: See 257.722.amended ***** Sec. 722. (1) Except as otherwise provided in this section, the maximum axle load shall not exceed the number of pounds designated in the following provisions that prescribe the distance between axles: (a) If the axle spacing is 9 feet or more between axles, the maximum axle load shall not exceed 18,000 pounds for vehicles equipped with high pressure pneumatic or balloon tires. (b) If the axle spacing is less than 9 feet between 2 axles but more than 3-1/2 feet, the maximum axle load shall not exceed 13,000 pounds for high pressure pneumatic or balloon tires. (c) If the axles are spaced less than 3-1/2 feet apart, the maximum axle load shall not exceed 9,000 pounds per axle. (d) Subdivisions (a), (b), and (c) shall be known as the normal loading maximum. (2) When normal loading is in effect, the state transportation department, or a local authority with respect to highways under its jurisdiction, may designate certain highways, or sections of those highways, where bridges and road surfaces are adequate for heavier loading, and revise a designation as needed, on which the maximum tandem axle assembly loading shall not exceed 16,000 pounds for any axle of the assembly, if there is no other axle within 9 feet of any axle of the assembly. (3) A combination of vehicles may operate on designated highways with not more than 1 tandem axle assembly having a gross weight of 16,000 pounds per axle, if there is no other axle within 9 feet of the assembly. On a combination of truck tractor and semitrailer having not more than 5 axles, 2 consecutive tandem axle assemblies may operate on designated highways at a gross permissible weight of 16,000 pounds per axle, if there is no other axle within 9 feet of any axle of either assembly. (4) Notwithstanding subsection (3), on a combination of truck tractor and semitrailer having not more than 5 axles, 2 consecutive sets of tandem axles may carry a gross permissible weight of not to exceed 17,000 pounds on any axle of the tandem axles if there is no other axle within 9 feet of any axle of the tandem axles and if the first and last axles of the consecutive sets of tandem axles are not less than 36 feet apart and the gross vehicle weight does not exceed 80,000 pounds to pick up and deliver agricultural commodities between the national truck network or special designated highways and any other highway. This subsection is not subject to the maximum axle loads of subsections (1), (2), and (3). For purposes of this subsection, a "tandem axle" means 2 axles spaced more than 40 inches but not more than 96 inches apart or 2 axles spaced more than 3-1/2 feet but less than 9 feet apart. This subsection does not apply during that period when reduced maximum loads are in effect under subsection (8). (5) The seasonal reductions described under subsection (8) to the loading maximums and gross vehicle weight requirement of subsection (12) do not apply to a person hauling agricultural commodities if the person who picks up or delivers the agricultural commodity either from a farm or to a farm notifies the county road commission for roads under its authority not less than 48 hours before the pickup or delivery of the time and location of the pickup or delivery. The county road commission shall issue a permit to the person and charge a fee that does not exceed the administrative costs incurred. The permit shall contain all of the following: (a) The designated route or routes of travel for the load. (b) The date and time period requested by the person who picks up or delivers the agricultural commodities during which the load may be delivered or picked up. (c) A maximum speed limit of travel, if necessary. (d) Any other specific conditions agreed to between the parties. (6) The seasonal reductions described under subsection (8) to the loading maximums and gross vehicle weight requirements of subsection (12) do not apply to public utility vehicles under the following circumstances: (a) For emergency public utility work on restricted roads, as follows: (i) If required by the county road commission, the public utility or its subcontractor shall notify the county road commission, as soon as practical, of the location of the emergency public utility work and provide a statement that the vehicles that were used to perform the emergency utility work may have exceeded the loading maximums and gross vehicle weight requirements of subsection (12) as reduced under subsection (8). The notification may be made via facsimile or electronically. (ii) The public utility vehicle travels to and from the site of the emergency public utility work while on a restricted road at a speed not greater than 35 miles per hour. (b) For nonemergency public utility work on restricted roads, as follows: (i) If the county road commission requires, the public utility or its subcontractor shall apply to the county road commission annually for a

seasonal truck permit for roads under its authority before seasonal weight restrictions are effective. The county road commission shall issue a seasonal truck permit for each public utility vehicle or vehicle configuration the public utility or subcontractor anticipates will be utilized for nonemergency public utility work. The county road commission may charge a fee for a seasonal truck permit that does not exceed the administrative costs incurred for the permit. The seasonal truck permit shall contain all of the following: (A) The seasonal period requested by the public utility or subcontractor during which the permit is valid. (B) A unique identification number for the vehicle and any vehicle configuration to be covered on the seasonal truck permit requested by the public utility or subcontractor. (C) A requirement that travel on restricted roads during weight restrictions will be minimized and only utilized when necessary to perform public utility work using the public utility vehicle or vehicle configuration and that nonrestricted roads shall be used for travel when available and for routine travel. (D) A requirement that in the case of a subcontractor the permit is only valid while the subcontractor vehicle is being operated in the performance of public utility work. (E) A requirement that a subcontractor vehicle or vehicle configuration shall display signage on the outside of the vehicle to identify the vehicle as operating on behalf of the public utility. (ii) If the county road commission requires notification, the county road commission shall provide a notification application for the public utility or its subcontractor to use when requesting access to operate on restricted roads and the public utility or its subcontractor shall provide notification to the county road commission, via facsimile or electronically, not later than 24 hours before the time of the intended travel. A subcontractor using a vehicle on a restricted road shall have a copy of any notification provided to a county road commission in the subcontractor's possession while performing the relevant nonemergency work. Notwithstanding this subsection or an agreement under this subsection, if the county road commission determines that the condition of a particular road under its jurisdiction makes it unusable, the county road commission may deny access to all or any part of that road. The denial shall be made and communicated via facsimile or electronically to the public utility or its subcontractor within 24 hours after receiving notification that the public utility or subcontractors intends to perform nonemergency work that requires use of that road. Any notification that is not disapproved within 24 hours after the notice is received by the county road commission is considered approved. The notification application required under this subparagraph may include all of the following information: (A) The address or location of the nonemergency work. (B) The date or dates of the nonemergency work. (C) The route to be taken to the nonemergency work site. (D) The restricted road or roads intended to be traveled upon to the nonemergency work site or sites. (E) In the case of a subcontractor, the utility on whose behalf the subcontractor is performing services. (7) The normal size of tires shall be the rated size as published by the manufacturers, and the maximum wheel load permissible for any wheel shall not exceed 700 pounds per inch of width of tire. (8) Except as provided in this subsection and subsection (9), during the months of March, April, and May in each year, the maximum axle load allowable on concrete pavements or pavements with a concrete base is reduced by 25% from the maximum axle load as specified in this chapter, and the maximum axle loads allowable on all other types of roads during these months are reduced by 35% from the maximum axle loads as specified. The maximum wheel load shall not exceed 525 pounds per inch of tire width on concrete and concrete base or 450 pounds per inch of tire width on all other roads during the period the seasonal road restrictions are in effect. Subject to subsection (5), this subsection does not apply to vehicles transporting agricultural commodities or, subject to subsection (6), public utility vehicles on a highway, road, or street under the jurisdiction of a local road agency, or a school bus. In addition, this subsection does not apply to a vehicle delivering propane fuel to a residence if the vehicle's propane tank is filled to not more than 50% of its capacity and the vehicle is traveling at not more than 35 miles per hour. The state transportation department and each local authority with highways and streets under its jurisdiction to which the seasonal restrictions prescribed under this subsection apply shall post all of the following information on the homepage of its website or, if a local authority does not have a website, then on the website of a statewide road association of which it is a member: (a) The dates when the seasonal restrictions are in effect. (b) The names of the highways and streets and portions of highways and streets to which the seasonal restrictions apply. (9) The state transportation department for roads under its jurisdiction and a county road commission for roads under its jurisdiction may grant exemptions from seasonal weight restrictions for milk on specified routes when requested in writing. Approval or denial of a request for an exemption shall be given by written notice to the applicant within 30 days after the date of submission of the application. If a request is denied, the written notice shall state the reason for denial and alternate routes for which the permit may be issued. The applicant may appeal to the state transportation commission or the county road commission. These exemptions do not apply on county roads in counties that have negotiated agreements with milk haulers or haulers of other commodities during periods of seasonal load limits before April 14, 1993. This subsection does not limit the ability of these counties to continue to negotiate such agreements. (10) The state transportation department, or a local authority with respect to highways under its jurisdiction, may suspend the restrictions imposed by this section when and where conditions of the highways or the public health, safety, and welfare warrant suspension, and impose the restricted loading requirements of this section on designated highways at any other time that the conditions of the highway require. (11) For the purpose of enforcing this act, the gross vehicle weight of a single vehicle and load or a combination of vehicles and loads shall be determined by weighing individual axles or groups of axles, and the total weight on all the axles shall be the gross vehicle weight. In addition, the gross axle weight shall be determined by weighing individual axles or by weighing a group of axles and dividing the gross weight of the group of axles by the number of axles in the group. For purposes of subsection (12), the overall gross weight on a group of 2 or more axles shall be determined by weighing individual axles or several axles, and the total weight of all the axles in the group shall be the overall gross weight of the group. (12) The loading maximum in this subsection applies to interstate highways, and the state transportation department, or a local authority with respect to highways under its jurisdiction, may designate a highway, or a section of a highway, for the operation of vehicles having a gross vehicle weight of not more than 80,000 pounds that are subject to the following load

maximums: (a) Twenty thousand pounds on any 1 axle, including all enforcement tolerances. (b) A tandem axle weight of 34,000 pounds, including all enforcement tolerances. (c) An overall gross weight on a group of 2 or more consecutive axles equaling:W=500[(LN)/(N-1)+12N+36]where W = overall gross weight on a group of 2 or more consecutive axles to the nearest 500 pounds, L = distance in feet between the extreme of a group of 2 or more consecutive axles, and N = number of axles in the group under consideration; except that 2 consecutive sets of tandem axles may carry a gross load of 34,000 pounds each if the first and last axles of the consecutive sets of tandem axles are not less than 36 feet apart. The gross vehicle weight shall not exceed 80,000 pounds including all enforcement tolerances. Except for 5 axle truck tractor, semitrailer combinations having 2 consecutive sets of tandem axles, vehicles having a gross weight in excess of 80,000 pounds or in excess of the vehicle gross weight determined by application of the formula in this subsection are subject to the maximum axle loads of subsections (1), (2), and (3). As used in this subsection, "tandem axle weight" means the total weight transmitted to the road by 2 or more consecutive axles, the centers of which may be included between parallel transverse vertical planes spaced more than 40 inches but not more than 96 inches apart, extending across the full width of the vehicle. Except as otherwise provided in this section, vehicles transporting agricultural commodities shall have weight load maximums as set forth in this subsection. (13) The axle loading maximums under subsections (1), (2), (3), and (4) are increased by 10% for vehicles transporting agricultural commodities or raw timber, excluding farm equipment and fuel, from the place of harvest or farm storage to the first point of delivery on a road in this state. However, the axle loading maximums as increased under this subsection do not alter the gross vehicle weight restrictions set forth in this act. This subsection does not apply to either of the following: (a) A vehicle utilizing an interstate highway. (b) A vehicle utilizing a road that is subject to seasonal weight restrictions under subsection (8) during the time that the seasonal weight restrictions are in effect. (14) Notwithstanding any other provision of this section, a vehicle that has a gross weight of 80,000 pounds or less and that is operated by an engine that is fueled wholly or partially by compressed or liquefied natural gas may exceed the axle loading maximums under subsections (1), (2), (3), and (4) and the weight load maximums under subsection (12) by an amount equal to the difference between the weight of the vehicle attributable to the natural gas tank and fueling system carried by that vehicle and the weight of a comparable diesel tank and fueling system. The amount by which a vehicle described in this subsection may exceed the axle loading maximums under subsections (1), (2), (3), and (4) and the weight load maximums under subsection (12) shall not exceed 2,000 pounds. (15) As used in this section: (a) "Agricultural commodities" means those plants and animals useful to human beings produced by agriculture and includes, but is not limited to, forages and sod crops, grains and feed crops, field crops, dairy and dairy products, poultry and poultry products, cervidae, livestock, including breeding and grazing, equine, fish, and other aquacultural products, bees and bee products, berries, herbs, fruits, vegetables, flowers, seeds, grasses, nursery stock, mushrooms, fertilizer, livestock bedding, farming equipment, fuel for agricultural use, and maple sap. Agricultural commodities do not include trees or lumber. (b) "Emergency public utility work" means work performed to restore public utility service or to eliminate a danger to the public due to a natural disaster, an act of God, or an emergency situation, whether or not a public official has declared an emergency. (c) "Farm storage" means any of the following: (i) An edifice, silo, tank, bin, crib, interstice, or protected enclosed structure, or more than 1 edifice, silo, tank, bin, crib, interstice, or protected enclosed structure located contiguous to each other. (ii) An open environment used for the purpose of temporarily storing a crop. (d) "Public utility" means a public utility under the jurisdiction of the public service commission or a transmission company. state. (2) A truck pulling a trailer, a truck tractor pulling a semitrailer and trailer combination, or a truck tractor pulling 2 semitrailers shall not transport a flammable gas or a compressed flammable gas, in bulk, as defined by 49 C.F.R. parts 100 to 180, within this state. (3) A truck or a truck tractor pulling a semitrailer shall not transport a flammable liquid, in bulk, which has a flash point at or below 70 degrees Fahrenheit in this state, unless the truck or the semitrailer has a water capacity of less than 13,800 gallons. This subsection does not apply to those vehicles registered with the motor carrier division of the department of state police on or before January 1, 1986. (4) A truck or truck tractor pulling a semitrailer shall not transport a flammable liquid, in bulk, which has a flash point at or below 70 degrees Fahrenheit in a quantity of more than 13,400 gallons. Sec. 723. (1) All towing or platform bed wreckers or road service vehicles in operation upon the public highways of this state shall have the name, city, and state or the registered logo or emblem of the registered owner of the vehicle, and lessee of the vehicle if the vehicle is being operated under lease, painted or permanently attached on each side of the vehicle in letters of not less than 3 inches in height, not lower than the bottom edge of the door. This information shall be in sharp color contrast to the background. 2024 Michigan Compiled LawsChapter 257 - Motor VehiclesAct 300 of 1949 - Michigan Vehicle Code (257.1 - 257.923)300-1949-VI - Chapter VI Obedience to and Effect of Traffic Laws (257.601...257.750)300-1949-VI-SIZE-WEIGHT-AND-LOAD - Size, Weight and Load (257.716...257.750)Section 257.724 - Stopping Vehicle for Weighing; Shifting or Removing Load; Civil Fine and Costs; Moving Vehicle to Place of Safekeeping; Impoundment; Lien; Foreclosure Sale; Powers of Authorized Agent; Unlawful Weight as Civil Infraction; Fine; Driving Duly Marked Vehicle; Failure to Stop as Misdemeanor.

Sec. 724. (1) A police officer, a peace officer, or an authorized agent of the state transportation department or a county road commission having reason to believe that the weight of a vehicle and load is unlawful may require the driver to stop and submit to a weighing of the vehicle by either portable or stationary scales approved and sealed as a legal weighing device by a qualified person using testing equipment certified or approved by the department of agriculture and rural development as a legal weighing device and may require that the vehicle be driven to the nearest weigh station of the state transportation department for the purpose of allowing a police officer, peace officer, or agent of the state transportation department or county road commission to determine whether the vehicle is loaded in conformity with this chapter. (2) When the officer or agent, upon weighing a vehicle and load, determines that the weight is unlawful, the officer or agent may require the driver to stop the vehicle in a suitable place and remain standing until that portion of the load is shifted or removed as necessary to reduce the gross axle load weight of the vehicle to the limit permitted under this chapter. All material unloaded as provided under this subsection shall be cared for by the owner or operator of the vehicle at the risk of the owner or operator. A judge or magistrate imposing a civil fine and costs under this section that are not paid in full immediately or for which a bond is not immediately posted in the amount of the civil fine and costs shall order the driver or owner to move the vehicle at the driver's own risk to a place of safekeeping within the jurisdiction of the judge or magistrate, inform the judge or magistrate in writing of the place of safekeeping, and keep the vehicle until the fine and costs are paid or sufficient bond is furnished or until the judge or magistrate is satisfied that the fine and costs will be paid. The officer or agent who has determined, after weighing a vehicle and load, that the weight is unlawful, may require the driver to proceed to a judge or magistrate within the county. If the judge or magistrate is satisfied that the probable civil fine and costs will be paid by the owner or lessee, the judge or magistrate may allow the driver to proceed, after the load is made legal. If the judge or magistrate is not satisfied that the owner or lessee, after a notice and a right to be heard on the merits is given, will pay the amount of the probable civil fine and costs, the judge or magistrate may order the vehicle to be impounded until trial on the merits is completed under conditions set forth in this section for the impounding of vehicles after the civil fine and costs have been imposed. Removal of the vehicle, and forwarding, care, or preservation of the load shall be under the control of and at the risk of the owner or driver. Vehicles impounded are subject to a lien, subject to a prior valid bona fide lien of prior record, in the amount of the civil fine and costs and if the civil fine and costs are not

paid within 90 days after the seizure, the judge or magistrate must certify the unpaid judgment to the prosecuting attorney of the county in which the violation occurred, who shall proceed to enforce the lien by foreclosure sale in accordance with procedure authorized in the case of chattel mortgage foreclosures. When the duly authorized agent of the state transportation department or county road commission is performing duties under this chapter, the agent has all the powers conferred upon peace officers by the general laws of this state. (3) Subject to subsection (4), an owner of a vehicle or a lessee of the vehicle of an owner-operator, or other person, who causes or allows a vehicle to be loaded and driven or moved on a highway when the weight of that vehicle violates section 722 is responsible for a civil infraction and must pay a civil fine in an amount equal to 3 cents per pound for each pound of excess load over 1,000 pounds when the excess is 2,000 pounds or less; 6 cents per pound of excess load when the excess is over 2,000 pounds but not over 3,000 pounds; 9 cents per pound for each pound of excess load when the excess is over 3,000 pounds but not over 4,000 pounds; 12 cents per pound for each pound of excess load when the excess is over 4,000 pounds but not over 5,000 pounds; 15 cents per pound for each pound of excess load when the excess is over 5,000 pounds but not over 10,000 pounds; and 20 cents per pound for each pound of excess load when the excess is over 10,000 pounds. If a person operates a vehicle in violation of increased axle loading maximums provided for under section 722(13), the owner or lessee of the vehicle is responsible for a civil infraction and must pay the civil fine under this subsection that applies to the amount of weight by which the vehicle exceeds the original loading maximum. (4) If the court determines that the motor vehicle or the combination of vehicles was operated in violation of this section, the court must impose a fine as follows: (a) If the court determines that the motor vehicle or the combination of vehicles was operated in such a manner that the gross weight of the vehicle or the combination of vehicles would not be lawful by a proper distribution of the load upon all the axles of the vehicle or the combination of vehicles, the court must impose a fine for the violation according to the schedule provided for in subsection (3). (b) If the court determines that the motor vehicle or the combination of vehicles would be lawful by a proper distribution of the load upon all of the axles of the vehicle or the combination of vehicles, but that 1 or more axles of the vehicle exceeded the maximum allowable axle weight by more than 1,000 pounds but less than 4,000 pounds, the court must impose a misload fine of $200.00 per axle. Not more than 3 axles shall be used in calculating the fine to be imposed under this subdivision. This subdivision does not apply to a vehicle subject to the maximum loading provisions of section 722(12) or to a vehicle for which a fine as calculated under the schedule in subsection (3) would be less than the fine as calculated under this subsection. (c) If the court determines that the motor vehicle or the combination of vehicles would meet the loading conditions specified in a special permit that was issued under section 725 by a proper distribution of the load upon all of the axles of the vehicle or the combination of vehicles, but that 1 or more axles of the vehicle exceeded the permitted axle weight by 1,000 pounds or less, the court must impose a misload fine of $200.00 per axle. If the court determines that the motor vehicle or the combination of vehicles would meet the loading conditions specified in a special permit that was issued under section 725 by a proper distribution of the load upon all of the axles of the vehicle or the combination of vehicles, but that 1 or more axles of the vehicle exceeded the permitted axle weight by more than 1,000 pounds, the court must impose a fine for the violation according to the schedule provided in subsection (3) for the amount of pounds exceeding the permitted axle weight. Not more than 3 axles shall be used in calculating the fine to be imposed under this subdivision. If the court determines that the load was misloaded, the conditions of the special permit remain valid. The imposition of a fine does not void the special permit. (d) If the court determines that the motor vehicle or the combination of vehicles would be lawful by a proper distribution of the load upon all of the axles of the vehicle or the combination of vehicles, but that 1 or more axles of the vehicle exceeded the permitted axle weight by at least 4,000 pounds but no more than 8,000 pounds, the court must impose a misload fine of $400.00 per axle. Not more than 3 axles shall be used in calculating the fine to be imposed under this subdivision. (e) If the court determines that the motor vehicle or the combination of vehicles would be lawful by a proper distribution of the load upon all of the axles of the vehicle or the combination of vehicles, but that 1 or more axles of the vehicle exceeded the permitted axle weight by more than 8,000 pounds, the court must impose a fine for the violation according to the schedule provided in subsection (3). (5) A driver or owner of a truck or truck tractor, a truck or truck tractor with other vehicles in combination, or any special mobile equipment who fails to stop at or bypasses any scales or weighing station is responsible for a civil infraction. (6) An agent or authorized representative of the state transportation department or a county road commission shall not stop a truck or vehicle in movement upon a road or highway within the state for any purpose, unless the agent or authorized representative is driving a duly marked vehicle, clearly showing and denoting the branch of government represented. (7) A driver or owner of a vehicle who knowingly fails to stop when requested or ordered to do so and submit to a weighing by a police officer, a peace officer, or an authorized agent of the state transportation department, or a representative or agent of a county road commission, authorized to require the driver to stop and submit to a weighing of the vehicle and load by means of a portable scale, is guilty of a misdemeanor punishable by imprisonment for not more than 90 days or a fine of not more than $100.00, or both. A driver or person who dumps his or her load when ordered to submit to a weigh or who otherwise attempts to commit or commits an act to avoid a vehicle weigh is in violation of this section. Sec. 724a. (1) The axle weight requirements of this chapter do not apply to a vehicle equipped with lift axles during the period in which axles are raised to negotiate an intersection, driveway, or other turn and until the lift axles are fully engaged after the period of time or the distance necessary to negotiate that intersection, driveway, or other turn. (2) If a vehicle is to be weighed to determine whether the vehicle is being operated in violation of this act or a rule promulgated under this act or of a local ordinance substantially corresponding to this act or a rule promulgated under this act and the vehicle is equipped with lift axles that have been raised to allow the vehicle to negotiate an intersection, driveway, or other turn, the vehicle shall be weighed only after the lift axles have been fully lowered and are under operational pressure as provided in subsection (1). (3) As used in this section, "lift axle" means an axle on a vehicle that can be raised or lowered by mechanical means. History:Add. 2004, Act 420, Eff. Jan. 1, 2006

Sec. 725. (1) Upon receipt of a written application and good cause being shown, a jurisdictional authority may issue a written special permit authorizing an applicant to operate upon or remove from a highway maintained by that jurisdictional authority a vehicle or combination of vehicles that are any of the following: (a) Of a size, weight, or load exceeding the maximum specified in this chapter. (b) Otherwise not in conformity with this chapter. (2) The application for a special permit shall be on a form prescribed by the jurisdictional authority and shall specifically describe the vehicle or vehicles and load to be operated or moved and the particular highways upon which the special permit to operate is requested. (3) A jurisdictional authority may issue a special permit and charge a fee that does not exceed the administrative costs incurred authorizing the operation of the following upon a highway: (a) Traction engines or tractors having movable tracks with transverse corrugations upon the periphery of those movable tracks on farm tractors. (b) Other farm machinery otherwise prohibited under this chapter. (c) A vehicle of a size or weight otherwise prohibited under this chapter that is hauling farm machinery to or from a farm. (4) A special permit shall specify the trip or trips and date or dates for which it is valid and the jurisdictional authority granting the special permit may restrict or prescribe conditions of operation of a vehicle or vehicles, if necessary, to protect the safety of the public or to ensure against undue damage to the road foundations, surfaces, structures, or installations, and may require a reasonable inspection fee and other security as that jurisdictional authority determines necessary to compensate for damages caused by the movement. A special permit may be issued on an annual basis. Except as otherwise provided in this section, the fee charged by the state transportation department for an intrastate or an out-of-state vehicle for a single trip shall be $50.00 and for multiple trips or on an annual basis shall be $100.00. Except as otherwise provided in this section, the fee charged by the state transportation department for an intrastate or an out-of-state vehicle for a permit issued under subsection (11) shall be $264.00. Except as otherwise provided in this section, the fee charged by a jurisdictional authority other than the state transportation department for an intrastate or an out-of-state vehicle for a single trip shall be not more than $50.00 and for multiple trips or on an annual basis shall be not more than $100.00. Effective October 1, 1998, the fee charged by a jurisdictional authority other than the state transportation department for a special permit under this subsection shall be the fee charged on September 30, 1997. The fee charged by a jurisdictional authority other than the state transportation department for a special permit under this subsection may be increased above the amount charged on September 30, 1997 subject to the maximums allowed by this subsection subject to a prior public hearing with reasonable notice. However, the fee charged by a jurisdictional authority other than the state transportation department for a special permit under this subsection that is more than $50.00 for a single trip or that is more than $100.00 for multiple trips or on an annual basis, or both, on September 30, 1997 shall not be increased. (5) The fee charged by the state transportation department for an intrastate or an out-of-state vehicle or combination of vehicles that exceed the maximum size specified in this chapter but do not exceed the maximum weight or load specified in this chapter or are otherwise not in conformity with this chapter shall be $15.00 for a single trip and $30.00 for multiple trips or on an annual basis. The fee charged by the state transportation department for an intrastate or out-of-state vehicle or combination of vehicles that exceed the maximum size specified in this chapter but do not exceed the maximum weight or load specified in this chapter or are otherwise not in conformity with this chapter for a permit issued under subsection (11) shall be $264.00. The fees charged under this subsection may be increased not more than once each year based on the percentage increase in the United States consumer price index for all urban consumers for the immediately preceding 12-month period rounded to the nearest whole dollar. This subsection takes effect October 1, 1998. (6) The fee charged by a jurisdictional authority other than the state transportation department for an intrastate or an out-of-state vehicle or combination of vehicles of a size exceeding the maximum specified in this chapter but not exceeding the maximum weight or load specified in this chapter shall not exceed the administrative costs incurred by that jurisdictional authority in issuing the permit. This subsection takes effect October 1, 1998. (7) A special permit issued under this section shall be carried in the vehicle or combination of vehicles to which it refers and shall be open to inspection by a police officer or authorized agent of a jurisdictional authority granting the special permit. A person shall not violate any of the terms or conditions of the special permit. (8) A person who violates this section is responsible for a civil infraction. (9) A jurisdictional authority issuing

a special permit to move a mobile home under this section and a person who is issued a special permit to move a mobile home under this section are subject to section 719a. (10) Nothing in this section shall be construed to allow a jurisdictional authority to impose fees upon or enact regulations regarding a vehicle or combination of vehicles engaged in silvicultural operations if the vehicle or combination of vehicles is not in excess of the size, weight, or load maximums specified in this chapter and is otherwise in conformity with this chapter. This subsection does not excuse a vehicle or combination of vehicles engaged in silvicultural operations from the seasonal weight reductions described in section 722. (11) Beginning no later than 2 years after the effective date of the 2018 amendatory act that added this subsection, the state transportation department shall allow an applicant to obtain an annual permit for the movement of construction equipment under this section to exceed the size, load, or size and load maximums specified in this chapter for a power unit without requiring a separate permit for each individual piece of equipment carried by that power unit. (12) Beginning no later than 2 years after the effective date of the 2018 amendatory act that added this subsection, all of the following apply to an annual permit for the movement of construction equipment issued by the state transportation department under subsection (11): (a) The permit may be stored and presented by the holder of the permit using a mobile device. (b) The permit shall not contain any restrictions on daily operating hours and shall only include Memorial Day weekend, the Fourth of July holiday, and Labor Day weekend as restricted holidays. Except as otherwise provided in this subdivision, the permit shall not restrict travel on weekends. The permit may contain restrictions on travel when the permit holder is traveling within a county that has a population greater than 150,000. The restricted holidays described in this subdivision do not apply to a permit issued for a vehicle used to transport an implement of husbandry. (c) The permit shall not require travel of more than 10 miles per hour below the posted speed limit. (13) As used in this section, "jurisdictional authority" means the state transportation department, a county road commission, or a local authority having jurisdiction over a highway upon which a vehicle is proposed to be moved pursuant to a permit required under this section. Sec. 726. (1) Subject to subsection (4), local authorities and county road commissions with respect to highways under their jurisdiction, except state trunk line highways, by ordinance or resolution, may do any of the following: (a) Prohibit the operation of trucks or other commercial vehicles on designated highways or streets. (b) Impose limitations as to the weight of trucks or other commercial vehicles on designated highways or streets. (c) Provide that only certain highways or streets may be used by trucks or other commercial vehicles. (2) Any prohibitions, limitations, or truck route designations established under subsection (1) shall be designated by appropriate signs placed on the highways or streets. The design and placement of the signs shall be consistent with the requirements of section 608. (3) If a township has established a prohibition or limitation under subsection (1) on any county primary road that an adjoining township determines diverts traffic onto a border highway or street shared by the township and the adjoining township, the adjoining township may submit a written objection to the county road commission having jurisdiction over the county primary road, along with a copy to the township that established the prohibition or limitation, 60 days after the township approves the prohibition or limitation. The written objection shall explain how the prohibition or limitation diverts traffic onto the border highway or street shared by the township and the adjoining township. The county road commission shall then investigate the objection. The township and adjoining township shall cooperate with that investigation and negotiate in good faith to resolve the objection. If the objection is not resolved within 60 days after the township receives the copy of the written objection, the county road commission shall either approve or void the prohibition or limitation that is the subject of the objection within 60 days after the 60-day period described in this subsection, and the decision shall be final. As used in this subsection, "county primary road" means a highway or street designated as a county primary road under 1951 PA 51, MCL 247.671 to 247.675. (4) An ordinance or resolution described in subsection (1)(a) does not apply to a vehicle that is used to transport agricultural products, farm machinery, farm supplies, or a combination of these items, to or from a farm or as necessary for agricultural production. (5) A person who violates a

prohibition, limitation, or truck route designation established under subsection (1) is responsible for a civil infraction. History:1949, Act 300, Eff. Sept. 23, 1949 ;-- Am. 1978, Act 510, Eff. Each citation shall be numbered consecutively, be in a form as determined by the secretary of state, the attorney general, the state court administrator, and the director of the department of state police and shall consist of the following parts: (a) The original which shall be a complaint or notice to appear by the officer and shall be filed with the court in which the appearance is to be made. Sec. 728. (1) When a person is arrested without a warrant for a violation of this act punishable as a misdemeanor, or an ordinance substantially corresponding to a provision of this act and punishable as a misdemeanor, under conditions not referred to in section 617, 619, or 727, the arresting officer shall prepare, as soon as possible and as completely as possible, an original and 3 copies of a written citation to appear in court containing the name and address of the person, the violation charged, and the time and place when and where the person shall appear in court. The officer shall inform the offender of the violation and shall give the second copy of the citation to the alleged offender. If the arrested person demands, he or she shall be arraigned by a magistrate or probate court as provided in section 727 in lieu of being given the citation. (2) The time specified in the citation to appear shall be within a reasonable time after the arrest. (3) The place specified in the citation to appear shall be before a magistrate or probate court within the county in which the violation charged is alleged to have been committed and who has jurisdiction of the violation. (4) Appearance may be made in person, by representation, or by mail. If appearance is made by representation or mail, the magistrate may accept the plea of guilty or not guilty for purposes of arraignment, with the same effect as though the person personally appeared before him or her. The magistrate, by giving 5 days' notice of the date of appearance, may require appearance in person at the time and place designated in the citation. (5) If a nonresident is arrested without warrant for a violation of this act that is punishable as a misdemeanor, or an ordinance substantially corresponding to a provision of this act and punishable as a misdemeanor, under conditions not referred to in section 727, the arresting officer, upon demand of the arrested person, immediately shall take the person for arraignment by a magistrate in the vicinity to answer to the complaint made against the person. If a magistrate is not available or an immediate trial cannot be had, the person arrested may recognize to the officer for his or her appearance by leaving with the officer a guaranteed appearance certificate or a sum of money not to exceed $100.00, in which case the following provisions apply: (a) The officer making the arrest shall give a receipt to the person arrested for the guaranteed

appearance certificate or the money deposited together with a written citation as provided in subsection (1). (b) If the alleged offender fails to appear as required in the citation, the guaranteed appearance certificate or deposit shall be forfeited as in other cases of default in bail in addition to any other penalty provided in this chapter. (c) At or before the completion of his or her tour of duty, a police officer taking a certificate or deposit of money shall deliver the certificate or deposit of money either to the magistrate named in the citation together with a report of the facts relating to the arrest, or to the police chief or person authorized by the police chief to receive certificates and deposits. The police chief or person authorized by the police chief shall deposit with the court the certificate or the money deposited and the citation in the same manner as prescribed for citations in section 728a. Failure to make a report and deliver the money deposited is embezzlement of public money. (d) "Guaranteed appearance certificate" means a card or certificate containing a printed statement that a surety company authorized to do business in this state guarantees the appearance of the person whose signature appears on the card or certificate, and that the company, if the person fails to appear in court at the time of trial or sentencing or to pay any fines or costs imposed under this act, will pay any fine, costs, or bond forfeiture imposed on the person in a total amount not to exceed $200.00. (6) An officer making an arrest under this chapter for a misdemeanor without a warrant, except under section 727, is not entitled to any fees for making the arrest or the issuance of a citation under this section. (7) An officer or magistrate who violates this section is guilty of misconduct in office and subject to removal from office. (8) A police officer may issue a citation to a person who is an operator of a motor vehicle involved in an accident if, based upon personal investigation, the officer has reasonable cause to believe that the person has committed a misdemeanor under this act in connection with the accident. The officer shall prepare an original and 3 copies of the citation, setting forth the name and address of the person, the violation that may be charged against the person, and the time and place of the appearance of the person in court. The citation shall inform the person of the office, bureau, or department to which requests for a change or adjournment of the court date may be made. (9) If the citation is issued to a person who is operating a commercial motor vehicle, the citation shall contain the vehicle group designation and indorsement description of the vehicle operated by the person at the time of the alleged violation. (12) Beginning on the effective date of the amendatory act that added this subsection and ending December 31, 2018, an individual whose driving privileges were suspended under this section may reinstate his or her operator's license without payment of a fee to the secretary of state for the reinstatement. (1) If an individual was assessed a driver responsibility fee under section 732a(2)(b)(iii) or (iv), (c), or (d), the individual may engage in 10 hours of participation in a workforce training payment

program created under section 732c as an alternative to paying that fee or any unpaid portion of that fee. (2) An individual may engage in workforce training under subsection (1) by obtaining a workforce training form from the secretary of state or the department of treasury. The department of treasury shall mail to each individual who is required to pay a driver responsibility fee under section 732a(2)(b)(iii) or (iv), (c), or (d) a 1-time-only written notice of the option of completing workforce training as an alternative to paying that driver responsibility fee. The notice shall include a statement that workforce training forms for that purpose can be obtained from the department of state or from the department of treasury. The notice shall be sent to the last known address of the individual as shown in the records of the department of treasury. The secretary of state shall make workforce training forms available to the public at all branch offices and on the department's website for purposes of this section and shall provide workforce training forms to the department of treasury for purposes of this section. (3) If an individual chooses to engage in workforce training under this section, the individual shall complete the workforce training form obtained under subsection (2) and return the form to the department of treasury in the manner prescribed by the department of treasury. Upon receiving a properly completed workforce training form under this subsection, the department of treasury shall inform the department of state that the individual intends to complete workforce training under this section as an alternative to paying a driver responsibility fee or any portion of a driver responsibility fee. If the secretary of state is notified by the department of treasury that the individual has elected to complete workforce training under this section as an alternative to paying the fee, that fee shall be held in abeyance for a period of 45 days. If the individual's license is suspended for failing to pay the driver responsibility fee or portion of the driver responsibility fee, the department of state shall, upon payment of the reinstatement fee, reinstate the individual's driver license. (4) An individual who engages in workforce training under this section shall be allowed only 1 opportunity to complete the workforce training alternative for each driver responsibility fee owed. However, the department of treasury may allow an individual to withdraw from that workforce training before the expiration of the 45-day period for completing that workforce training for good cause shown. If the individual is allowed to withdraw from workforce training for good cause shown, that opportunity for completing workforce training shall not be considered in the number of opportunities to perform workforce training under this subsection, but the individual is subject to the suspension of his or her driving privileges under section 732a(5). (5) Upon completing workforce training under this section, the individual may request the person with whom he or she engaged in workforce training under this section to verify on the workforce training form in the manner designated by the secretary of state that he or she successfully completed that workforce training. Upon verification, the individual may return the workforce training form to the department of treasury for purposes of this section. Any person who falsely verifies workforce training under this subsection and any individual who falsely requests the verification of workforce training under this section or who returns a community service form to the department of treasury under this subsection knowing that his or her workforce training is falsely verified is responsible for a state civil infraction and may be fined not more than $200.00. (6) The department of treasury shall waive the driver responsibility fee or any portion of the driver responsibility fee otherwise required to be paid under section 732a(2)(b)(iii) or (iv), (c), or (d) upon receiving verification that the individual successfully completed the workforce training requirements of this section. The department of treasury shall notify the department of state when it has waived the fee under this section or, if the fee is not waived under this section, that the 45-day period has expired and the fee has not been waived. If the secretary of state is notified by the department of treasury that the fee has not been waived, the department of state shall enter that information into the records of the department and shall suspend the individual's driver license and proceed as provided by law for the individual's failure to pay the driver responsibility fee or to complete workforce training under this section. If the nonresident defendant requests a formal hearing, the hearing shall be scheduled as provided in section 747. . (4) If the person who is released upon his or her personal recognizance as provided in subsection (2) fails to appear as required in the citation or for a scheduled formal hearing, the court having jurisdiction and venue over the civil infraction shall enter a default judgment against the person. Sec. 667. (1) When a person driving a vehicle approaches a railroad grade crossing under any of the following circumstances, the driver shall stop the vehicle not more than 50 feet but not less than 15 feet from the nearest rail of the railroad, and shall not proceed until the driver can do so safely: (a) A clearly visible electric or mechanical signal device gives warning of the immediate approach

of a railroad train or other on-track equipment. (b) A crossing gate is lowered or a flagman gives or continues to give a signal of the approach or passage of a railroad train or other on-track equipment. (c) A railroad train or other on-track equipment approaching within approximately 1,500 feet of the highway crossing gives a signal audible from that distance, and the railroad train or on-track equipment by reason of its speed or nearness to the crossing is an immediate hazard. (d) An approaching railroad train or other on-track equipment is plainly visible and is in hazardous proximity to the crossing. (2) A person shall not drive a vehicle through, around, or under a crossing gate or barrier at a railroad crossing while the gate or barrier is closed or is being opened or closed or against the direction of a police officer. Sec. 667a. (1) The department of state police or the state transportation department; the county board of commissioners, board of county road commissioners, or county sheriff; or other local authority having jurisdiction over a highway or street may authorize the installation and use of unmanned traffic monitoring devices at a railroad grade crossing with flashing signals and gates on a highway or street under their respective jurisdictions. Each device shall be sufficiently marked or identified or a sign shall be placed at the approach to the crossing indicating that the crossing is monitored by an unmanned traffic monitoring device. (2) Beginning 31 days after the installation of an unmanned traffic monitoring device at a railroad grade crossing described in subsection (1), a person is responsible for a civil infraction as provided in section 667 if the person violates a provision of that section on the basis of evidence obtained from an unmanned traffic monitoring device. However, for the first 30 days after the installation of an unmanned traffic monitoring device, a person shall be issued a written warning only. It is an affirmative defense to a charge of violating section 667 that the mechanical warning devices at the crossing were malfunctioning. (3) A sworn statement of a police officer from the state or local authority having jurisdiction over the highway or street upon which the railroad grade crossing described in subsection (1) is located, based upon inspection of photographs, microphotographs, videotape, or other recorded images produced by an unmanned traffic monitoring device, is prima facie evidence of the facts contained therein. Any photographs, microphotographs, videotape, or other recorded images indicating such a violation shall be available for inspection in any proceeding to adjudicate the responsibility for a violation of section 667. Any photographs, videotape, or digital images of the violation shall be destroyed 90 days after final disposition of the citation. (4) In a prosecution for a violation of section 667 established by an unmanned traffic monitoring device under this section, prima facie evidence that the vehicle described in the citation issued was operated in violation of section 667, together with proof that the defendant was at the time of the violation the registered owner of the vehicle, shall constitute in evidence a rebuttable presumption that the registered owner of the vehicle was the person who committed the violation. The presumption is rebutted if the registered owner of the vehicle files an affidavit by regular mail with the clerk of the court that he or she was not the operator of the vehicle at the time of the alleged violation or testifies in open court under oath that he or she was not the operator of the vehicle at the time of the alleged violation. The presumption also is rebutted if a certified copy of a police report, showing that the vehicle had been reported to the police as stolen before the time of the alleged violation of this section, is presented before the appearance date established on the citation. For purposes of this subsection, the owner of a leased or rental vehicle shall provide the name and address of the person to whom the vehicle was leased or rented at the time of the violation. (5) Notwithstanding section 742, a citation for a violation of section 667 on the basis of evidence obtained from an unmanned traffic monitoring device may be executed by mailing by first-class mail a copy to the address of the owner of the vehicle as shown on the records of the secretary of state. If the summoned person fails to appear on the date of return set out in the citation previously mailed by first-class mail under this subsection, a copy shall be sent by certified mail-return receipt requested. If the summoned person fails to appear on either of the dates of return set out in the copies of the citation mailed under this section, the citation shall be executed in the manner provided by law for personal service. The court may issue a warrant for the arrest of a person who fails to appear within the time limit established on the citation if a sworn complaint is filed with the court for that purpose. (6) If there is a fatality resulting from a train-vehicle crash at a public railroad grade crossing, the state transportation department shall convene a diagnostic study team review, if there has not been a diagnostic study team review at the crossing in the last 2 years. However, a diagnostic study team review is not required if the initial law enforcement investigation of the fatality indicates that the motorist's consumption of alcohol or a controlled substance or his or her disregard of an existing traffic control device conveying a "stop" message contributed to the fatality, or that the fatality was a suicide. The diagnostic study team review shall be conducted within 120 days after the state transportation department is made aware of the fatality. If the diagnostic study team review reaches consensus that warning device enhancements are needed, the state transportation department shall order those improvements. The cost for the improvements shall be financed consistent with the financing of similar projects by the state transportation department according to its annual prioritization of grade crossing safety improvements. Sec. 668. (1) The state transportation department with respect to highways under its jurisdiction and the county road commissions and local authorities with respect to highways under their jurisdiction may designate certain grade crossings of railways by highways as "stop" crossings, and erect signs at the crossings notifying drivers of vehicles upon the highway to come to a complete stop before crossing the railway tracks. When a crossing is designated and signposted as provided in this subsection, the driver of a vehicle shall stop not more than 50 feet but not less than 15 feet from the railway tracks. The driver shall then traverse the crossing when it may be done in safety. (2) The state transportation department with respect to highways under its jurisdiction and the county road commissions and local authorities with respect to highways under their jurisdiction may designate certain grade crossings of railways by highways as yield crossings, and erect signs at the crossings notifying drivers of vehicles upon the highway to yield. Yield signs may be mounted on the same post as the crossbuck sign. Drivers of vehicles approaching a yield sign at the grade crossing of a railway shall maintain a reasonable speed based upon existing conditions and shall yield the right-of-way. The cost of yield sign installations shall be borne equally by the railroad and the governmental authority under whose jurisdiction the highway rests. The erection of or failure to erect, replace, or maintain a stop or yield sign or other railroad warning device, unless the device or sign was ordered by public authority, is not a basis for an action of negligence against the state transportation department, county road commissions, the railroads, or local authorities. (3) If other on-track equipment does not trigger the activation of an electric or mechanical signal device, and employees of the railroad have followed all applicable railroad operating rules, there is no basis for a civil action against the railroad that operated the other on-track equipment, the state transportation department, a county road commission, or a local authority, or an employee or agent of the railroad that operated the other on-track equipment, the state transportation department, a county road commission, or a local authority. (4) A person who fails to stop or yield as required by this section is responsible for a civil infraction. History:1949, Act 300, Eff. Sept. 23, 1949 ;-- Am. 1953, Act 76, Eff. Sec. 669. (1) Except as provided in subsections (2), (3), and (4), the driver of a motor vehicle transporting 16 or more passengers including the driver, a motor vehicle carrying passengers for hire, or a motor vehicle that is required to be marked or placarded under 49 CFR parts 100 to 180, before crossing a railroad track at grade, shall activate the vehicle hazard warning lights and stop the vehicle within 50 feet but not less than 15 feet from the nearest rail. While stopped, the driver shall listen and look in both directions along the track for an approaching railroad train or other on-track equipment and for signals indicating the approach of a railroad train or other on-track equipment, and shall not proceed until the driver can do so safely. After stopping as required in this subsection, and upon proceeding when it is safe to do so, the driver of the vehicle shall cross only in a gear of the vehicle that does not require changing gears while traversing the crossing. The driver shall not shift gears while crossing the track or tracks. (2) A stop need not be made at a railroad track grade crossing where a police officer or a traffic-control signal directs traffic to proceed. (3) A stop need not be made at an inactive railroad track grade crossing. As used in this subsection, "inactive railroad track" means a railroad track that meets all of the following requirements: (a) The track has been covered or removed. (b) All signs, signals, and other warning devices are removed. (4) A stop shall not be made at a railroad grade crossing marked with a sign reading "exempt". Exempt signs may be erected only by or with the consent of the state transportation department after notice to and an opportunity to be heard by the primary railroad operating over that crossing. Sec. 669a. (1) This state adopts motor carrier safety regulations 49 C.F.R. 392.10 and 392.11 on file with the office of the secretary of state, to provide for the safe transportation of persons and property over railroad-highway grade crossings with the intent of

following the policies and procedures of the United States department of transportation's federal motor carrier safety administration as they relate to title 49 of the code of federal regulations. For purposes of this subsection, "commercial motor vehicle" means that term as defined in section 7a. (2) The driver of a commercial motor vehicle shall comply with a lawful order or direction of a police officer guiding, directing, controlling, or regulating traffic at a railroad-highway grade crossing. (3) The driver of a commercial motor vehicle shall not cross a railroad-highway grade crossing unless the vehicle has sufficient undercarriage clearance. (4) The driver of a commercial motor vehicle shall not cross a railroad-highway grade crossing unless the vehicle can be driven completely through the crossing without stopping. Sec. 670. (1) A person shall not operate or move a caterpillar tractor, shovel, derrick, roller, boiler, machinery, or other structure or object upon rollers, or other equipment or structure, which, because of its limited power, or weight, character, or load, has a normal operating speed of 4 miles per hour or less, or which has a vertical load or body clearance of less than 9 inches above the level surface of the roadway, upon or across the tracks of a railroad at grade level without first complying with this section, except this section shall not apply to the movement of electrically propelled cars on fixed rails or to their loads. (2) Notice of the intended crossing described in subsection (1) shall be given to the nearest agent or officer of the railroad in time to afford protection to its locomotives, trains, or cars at the crossing. (3) Before making the crossing, the person operating or moving the vehicle or equipment shall first stop not less than 15 feet or more than 50 feet from the nearest rail of the track and while stopped shall listen and look in both directions along the track for an approaching railroad train or other on-track equipment and for signals indicating the approach of a railroad train or other on-track equipment, and shall not proceed until the crossing can be made safely. (4) A crossing shall not be made when warning is given by automatic signal or crossing gates or a flagman or otherwise of the immediate approach of a railroad train or car. (2) Every stop, yield, or merge sign shall be reflectorized or illuminated at night. Every stop, yield, or merge sign shall be located as near as practicable at the nearest line of the crosswalk thereat, or, if none, at the nearest line of the roadway. Sec. 627. (1) An individual operating a vehicle on a highway shall operate that vehicle at a careful and prudent speed not greater than nor less than is reasonable and proper, having due regard to the traffic, surface, and width of the highway and of any other condition existing at the time. An individual shall not operate a vehicle on a highway at a speed greater than that which will permit a stop within the assured, clear distance ahead. A violation of this subsection shall be known and may be referred to as a violation of the basic speed law or "VBSL". (2) Except as provided in subsection (1), it is lawful for the operator of a vehicle to operate that vehicle on a highway at a speed not exceeding the following: (a) Fifteen miles per hour on a highway segment within the boundaries of a mobile home park, as that term is defined in section 2 of the mobile home commission act, 1987 PA 96, MCL 125.2302. (b) Twenty-five miles per hour on a highway segment within a business district. (c) Twenty-five miles per hour on a highway segment within the boundaries of a public park. A local authority may decrease the speed limit to not less than 15 miles per hour in a public park under its jurisdiction. (d) Twenty-five miles per hour on a highway segment within the boundaries of a residential subdivision, including a condominium subdivision, consisting of a system of interconnected highways with no through highways and a limited number of dedicated highways that serve as entrances to and exits from the subdivision. (e) Twenty-five miles per hour on a highway segment that is part of the local street system as designated by a local jurisdiction and approved by the state transportation

commission under 1951 PA 51, MCL 247.651 to 247.675, and that is within land that is zoned for residential use by the governing body of an incorporated city or village under the Michigan zoning enabling act, 2006 PA 110, MCL 125.3101 to 125.3702, unless another speed is fixed and posted. (f) Twenty-five miles per hour on a highway segment with 60 or more vehicular access points within 1/2 mile. (g) Thirty miles per hour on a highway segment with not less than 50 vehicular access points but no more than 59 vehicular access points within 1/2 mile. (h) Thirty-five miles per hour on a highway segment with not less than 45 vehicular access points but no more than 49 vehicular access points within 1/2 mile. (i) Forty miles per hour on a highway segment with not less than 40 vehicular access points but no more than 44 vehicular access points within 1/2 mile. (j) Forty-five miles per hour on a highway segment with not less than 30 vehicular access points but no more than 39 vehicular access points within 1/2 mile. (3) An individual operating a truck with a gross weight of 10,000 pounds or more, a truck-tractor, a truck-tractor with a semi-trailer or trailer, or a combination of these vehicles shall not exceed a speed of 35 miles per hour during the period when reduced loadings are being enforced in accordance with this chapter. (4) Where the posted speed limit is greater than 65 miles per hour, an individual operating a school bus, a truck with a gross weight of 10,000 pounds or more, a truck-tractor, or a truck-tractor with a semi-trailer or trailer or a combination of these vehicles shall not exceed a speed of 65 miles per hour on a limited access freeway or a state trunk line highway. (5) All of the following apply to the speed limits described in subsection (2): (a) A highway segment adjacent to or lying between 2 or more areas described in subsection (2)(a), (b), (c), or (d) is not considered to be within the boundaries of those areas. (b) A highway segment of more than 1/2 mile in length with a consistent density of vehicular access points equal to the number of vehicular access points described in subsection (2)(f), (g), (h), (i), or (j) must be posted at the speed limit specified in the adjoining segment. A separate determination must be made for each adjoining highway segment where vehicular access point density is different. (c) A speed limit may be posted on highways less than 1/2 mile in length by prorating in 1/10 mile segments the vehicular access point density described in subsection (2)(f), (g), (h), (i), or (j). (6) An individual operating a vehicle on a highway, when entering and passing through a work zone described in section 79d(a) where a normal lane or part of the lane of traffic has been closed due to highway construction, maintenance, or surveying activities, shall not exceed a speed of 45 miles per hour unless a different speed limit is determined for that work zone by the state transportation department, a county road commission, or a local authority, based on accepted engineering practice. The state transportation department, a county road commission, or a local authority shall post speed limit signs in each work zone described in section 79d(a) that indicate the speed limit in that work zone and shall identify that work zone with any other traffic control devices necessary to conform to the Michigan manual on uniform traffic control devices. An individual operating a vehicle shall not exceed a speed limit established under this section or a speed limit established under section 628. For a work zone that has a speed limit in effect only where workers are present, the state transportation department, a county road commission, or a local authority is authorized to include 1 or more flashing lights and an illuminated changeable digital message displaying the speed limit on the speed limit sign required under this subsection. As used in this subsection: (a) "Illuminated changeable digital message" means an electronic message that displays the speed limit in a numerical format. (b) "Present" means located in proximity to a roadway that is not protected by a guardrail or barrier. (c) "Speed limit sign" includes, but is not limited to, a sign that displays illuminated changeable digital messages. (7) The state transportation department, a county road commission, or a local authority shall decrease the speed limit in a hospital highway zone by up to 10 miles per hour upon request of a hospital located within that hospital highway zone. The state transportation department, county road commission, or local authority may decrease the speed limit in a hospital highway zone by more than 10 miles per hour if the decrease is supported by an engineering and safety study. The state transportation department, county road commission, or local authority shall post speed limit signs in a hospital highway zone that indicate the speed limit in that hospital highway zone and shall identify that hospital highway zone with any other traffic control devices necessary to conform to the Michigan manual on uniform traffic control devices. If a change in a sign, signal, or device, is necessitated by a speed limit decrease described in this subsection, the hospital requesting the decrease shall pay the cost of doing so. As used in this subsection, "hospital highway zone" means a portion of state trunk line highway maintained by the state transportation department that has a posted speed limit of at least 50 miles per hour and has 2 or fewer lanes for travel in the same direction, traverses along property owned by a hospital, contains an ingress and egress point from hospital property, and extends not more than 1,000 feet beyond the boundary lines of hospital property in both directions in a municipality. (8) Subject to subsection (17), the maximum speed limit on all limited access freeways upon which a speed limit is not otherwise fixed under this act is 70 miles per hour, which shall be known as the "limited access freeway general speed limit". The minimum speed limit on all limited access freeways upon which a minimum speed limit is not otherwise fixed under this act is 55 miles per hour. (9) Subject to subsection (17), the speed limit on all trunk line highways and all county highways upon which a speed limit is not otherwise fixed under this act is 55 miles per hour, which shall be known as the "general speed limit". (10) Except as otherwise provided in this subsection, the speed limit on all county highways with a gravel or unimproved surface upon which a speed limit is not otherwise fixed under this act is 55 miles per hour, which shall be known as the "general gravel road speed limit". Upon request of a municipality located within a county with a population of 1,000,000 or more, the county road commission, in conjunction with the requesting municipality, may lower the speed limit to 45 miles per hour on the requested road segment and if a sign, signal, or device is erected or maintained, taken down, or regulated as a result of a request by a municipality for a speed limit of 45 miles per hour, the municipality shall pay the costs of doing so. If a municipality located within a county with a population of 1,000,000 or more requests a speed different than the speed described in this subsection, the county road commission, in conjunction with the department of state police and the requesting municipality, may conduct a speed study of free-flow traffic on the fastest portion of the road segment in question for the purpose of establishing a modified speed limit. A speed study conducted under this subsection must be completed between 3 and 14 days after a full gravel road maintenance protocol

has been performed on the road segment. A full gravel road maintenance protocol described in this subsection must include road grading and the application of a dust abatement chemical treatment. Following a speed study conducted under this subsection, the speed limit for the road segment must be established at the nearest multiple of 5 miles per hour to the eighty-fifth percentile of speed of free-flow traffic under ideal conditions for vehicular traffic, and must not be set below the fiftieth percentile speed of free-flow traffic under ideal conditions for vehicular traffic. A speed study conducted under this subsection is the responsibility of the department of state police, and if a sign, signal, or device is erected or maintained, taken down, or regulated as a result of a request by a municipality under this subsection, the municipality shall pay the costs of doing so. (11) A public record of all traffic control orders establishing statutory speed limits authorized under this section must be filed with the office of the clerk of the county in which the county highway is located or at the office of the city or village clerk or administrative office of the airport, college, or university in which the local highway is located, and a certified copy of the traffic control order is evidence in every court of this state of the authority for the issuance of that traffic control order. The public record filed with the county, city, or village clerk or administrative office of the airport, college, or university must not be required as evidence of authority for issuing a traffic control order in the case of signs temporarily erected or placed at points where construction, maintenance, or surveying activities is in progress. A traffic and engineering investigation is not required for a traffic control order for a speed limit established under subsection (2). A traffic control order must, at a minimum, contain all of the following information: (a) The name of the road. (b) The boundaries of the segment of the road on which the speed limit is in effect. (c) The basis on which the speed limit is in effect. (d) The section of law, including a reference to the subsection, under which the speed limit is established. (12) Except for speed limits described in subsections (1), (2)(d), (2)(e), and (9), speed limits established under this section are not valid unless properly posted. In the absence of a properly posted sign, the speed limit in effect is the basic speed law described in subsection (1). Speed limits established under subsection (2)(b), (f), (g), (h), (i), and (j) are not valid unless a traffic control order is filed as described in subsection (11). (13) Nothing in this section prevents the establishment of a modified speed limit after a speed study as described in section 628. A modified speed limit established under section 628 supersedes a speed limit established under this section. (14) All signs erected or placed under this section must conform to the Michigan manual on uniform traffic control devices. (15) If upon investigation the state transportation department or county road commission and the department of state police determine that it is in the interest of public safety, they may order city, village, airport, college, university, and township officials to erect and maintain, take down, or regulate speed limit signs, signals, and devices as directed. In default of an order, the state transportation department or county road commission may cause designated signs, signals, and devices to be erected and maintained, removed, or regulated in the manner previously directed and pay the costs for doing so out of the designated highway fund. An investigation, including a speed study, conducted under this subsection is the responsibility of the department of state police. (16) An individual who violates a speed limit established under this section is responsible for a civil infraction. (17) No later than January 5, 2018, the state transportation department and the department of state police shall increase the speed limits on at least 600 miles of limited access freeway to 75 miles per hour if an engineering and safety study and the eighty-fifth percentile speed of free-flowing traffic under ideal conditions of that section contain findings that the speed limit may be raised to that speed, and the department shall increase the speed limit of 900 miles of trunk line highway to 65 miles per hour if an engineering and safety study and the eighty-fifth percentile speed of free-flowing traffic under ideal conditions of that section contain findings that the speed limit may be raised to that speed. (18) As used in this section: (a) "Traffic control order" means a document filed with the proper authority that establishes the legal and enforceable speed limit for the highway segment described in the document. (b) "Vehicular access point" means a driveway or intersecting roadway. History:1949, Act 300, Eff. Sept. 23, 1949 ;-- Am. 1957, Act 190, Eff. Sept. 27, 1957 ;-- Am. 1959, Act 76, Eff. Sec. 627a. (1) As used in this section: (a) "Regularly scheduled school session" means that part of a day scheduled for student instruction until final dismissal of the student body for that day. (b) "School" means an educational institution operated by a local school district or by a private, denominational, or parochial organization. School does not include either of the following: (i) An educational institution that the department of education determines has its entire student population in residence at the institution. (ii) An educational institution to which all students are transported in motor vehicles. (c) "School zone" means school property on which a school building is located and the adjacent property. A school zone extends not more than 1,000 feet from the school property line in any direction. If 2 or more schools occupy the same property or adjacent properties, 1 of the following applies, as applicable: (i) If the hours of instruction at the schools are the same, then a single combined school zone shall be established. (ii) If

the hours of instruction at the schools are different, overlapping school zones shall be established. (2) A school zone speed limit on a highway segment in a school zone, which, except as otherwise provided in this subsection, shall be in force not more than 30 minutes before the first regularly scheduled school session, rounded to the nearest multiple of 5 minutes, until school commences, and from dismissal until not more than 30 minutes after the last regularly scheduled school session, rounded to the nearest multiple of 5 minutes, may be decreased by not more than 20 miles per hour less than the speed limit normally posted but shall be not less than 25 miles per hour. A school superintendent may begin the 30-minute period before the first regularly scheduled school session described in this subsection at a time that is less than 30 minutes before the first regularly scheduled school session and that extends beyond the time school commences, may begin the 30-minute period after dismissal at a time other than dismissal, and, if a school has an off-campus lunch period, may designate the period provided for off-campus lunch as a period during which the school zone speed limit described in this subsection applies. (3) School zone speed limits shall not apply to a limited access highway or a highway segment over which a pedestrian overhead walkway is erected, if the walkway is adjacent to school property. (4) Notwithstanding the requirements for a school zone as defined in subsection (1)(c), if a school is located in an area that requires school children to cross a state trunk line highway or county highway that has a speed limit of 35 miles per hour or more to attend that school, the school superintendent may submit a request to the state transportation commission, county road commission, or local authority having jurisdiction over the roadway, as applicable, for a school crossing as permitted under section 613a. If, based on the traffic engineering studies, the road authority determines the need for a lower speed limit, the road authority may designate the crossing as a school zone. Before submitting a request, the school superintendent shall have completed a school route plan as prescribed by section 7A-1 of the Michigan manual of uniform traffic control devices. (5) If a school is in session year-round, a sign reading "All Year School" shall be posted on the same signpost as and immediately below the school zone sign. (6) Louvered signs, digital message signs, and flashing lights may be installed to supplement or replace permanent signs required under this section. Signs erected and maintained as required under this section shall conform to the Michigan manual on uniform traffic control devices. (7) A person who violates a speed limit established under this section is responsible for a civil infraction. History:Add. 1978, Act 42, Imd. Eff. Mar. 7, 1978 ;-- Am. 1979, Act 21, Eff. ***** 257.627c.added THIS ADDED SECTION IS EFFECTIVE 91 DAYS AFTER ADJOURNMENT OF THE 2024 REGULAR SESSION SINE DIE ***** Sec. 627c. (1) Beginning 1 year after the effective date of the amendatory act that added section 2c, the state transportation department may install and use or authorize the installation and use of an automated speed enforcement system in a work zone that is not separated from traffic by concrete barriers on a street or highway under the jurisdiction of the state transportation department. The installation and use of automated speed enforcement systems is subject to all of the following: (a) A sign must be placed 1 mile before the start of a work zone where an automated speed enforcement system is installed and used under this section indicating that the work zone is monitored by an automated speed enforcement system. (b) A digital display must be placed on or near the automated speed enforcement system that shows the speed of an approaching vehicle as measured by the automated speed enforcement system. (c) Prioritization must be given to work zones that meet the following factors: (i) The work zone is active and located on a freeway with a speed limit of 45 miles per hour or more. (ii) Workers are exposed or there are traffic hazards, including, but not limited to, lane shifts, lane splits, lane width reductions, closed shoulders, and rough pavement. (iii) The work zone will be active for 30 days or more. (iv) There are no significant obstructions to line of sight for the automated speed enforcement system. (d) Automated speed enforcement systems must be used in an equitable manner to avoid causing a disparate impact on specific communities. (e) Not more than 4 automated speed enforcement systems may be installed and used at the same time within the jurisdiction of a state transportation department region office. (f) The state transportation department may install and use an automated speed enforcement system only by contracting with a third-party vendor. (g) An automated speed enforcement system must be activated and detecting vehicle speed for the purpose of enforcing this section only while workers are present in the work zone. (2) Except for an individual operating a police vehicle, a fire department or fire patrol vehicle, or a public or private ambulance as provided in section 632, if an individual violates an applicable speed limit described in section 627 by exceeding a posted speed limit by 10 miles per hour or more in a work zone while workers are present, on the basis of a recorded image produced by an automated speed enforcement system, all of the following apply: (a) An individual must be issued a written warning using a form that is created by the automated speed enforcement unit under subsection (7) for either of the following violations as described in this subsection: (i) A first violation. (ii) A violation that occurs more than 3 years after that individual's most recent violation. (b) For a second violation as described in this subsection that occurs less than 3 years after a written warning is issued under subdivision (a), the individual is responsible for a civil infraction and must be ordered to pay a civil fine of not more than $150.00. (c) For a third or subsequent violation as described in this subsection that occurs less than 3 years after a second or subsequent violation, the individual is responsible for a civil infraction and must be ordered to pay a civil fine of not more than $300.00. (3) A sworn statement of an automated speed enforcement system operator, based on inspecting a recorded image produced by an automated speed enforcement system, is prima facie evidence of the facts contained in the recorded image. A

recorded image indicating a violation must be available for inspection in any proceeding to adjudicate the responsibility for a violation of this section. A recorded image indicating a violation must be destroyed as soon as the period for contesting the violation has lapsed, including any period for appeals, or as soon as the individual pays the civil fine in full, whichever occurs first. (4) All of the following apply to a recorded image and any other data collected by an automated speed enforcement system: (a) The image and data may be used only for the purpose of adjudicating a violation of this section. (b) Except to the extent necessary to adjudicate a violation of this section, the image and data are confidential and exempt from disclosure under the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246. (c) The image and data must not be shared with or sold to any private or public third party not involved with installing and using the automated speed enforcement system. (5) In a proceeding for a violation of this section, prima facie evidence that the vehicle described in the citation issued was operated in violation of this section, together with proof that the individual who was issued the citation was at the time of the violation the registered owner of the vehicle, creates a rebuttable presumption that the registered owner of the vehicle was the individual who committed the violation. The presumption is rebutted if the registered owner of the vehicle files an affidavit by regular mail with the clerk of the court stating that the registered owner was not the operator of the vehicle at the time of the alleged violation or testifies in open court under oath that the registered owner was not the operator of the vehicle at the time of the alleged violation. The presumption also is rebutted if a certified copy of a police report, showing that the vehicle had been reported to the police as stolen before the time of the alleged violation of this section, is presented before the appearance date established on the citation. For purposes of this subsection, the owner of a leased or rented vehicle shall provide the name and address of the individual to whom the vehicle was leased or rented at the time of the violation. (6) Notwithstanding section 742, a citation for a violation of this section may be executed by the state transportation department or a person designated by the state transportation department by mailing by first-class mail a copy to the address of the registered owner of the vehicle as shown on the records of the secretary of state. The state transportation department shall also file the citation with the court having jurisdiction over the offense. If the summoned individual fails to appear on the date of return set out in the citation mailed under this subsection, the clerk of the court shall enter a default after certifying, on a form furnished by the court, that the defendant has not made a scheduled appearance or has not answered the citation within the time provided by law. (7) Subject to appropriation, an automated speed enforcement unit is created within the state transportation department composed of individuals appointed by the director of the state transportation department, to do all of the following: (a) Oversee the implementation and use of automated speed enforcement systems under this section. (b) Train and certify automated speed enforcement system operators to operate and monitor automated speed enforcement systems and provide sworn statements under subsection (3). (c) Create a form for the written warning described in subsection (2) and any other new written forms or notices necessary for enforcing this section. (8) The state transportation department shall develop guidelines for installing and using automated speed enforcement systems. In developing the guidelines, the state transportation department shall consider best practices for installing and using automated speed enforcement systems and recommendations from the manufacturers of automated speed enforcement systems. The guidelines must include, but are not limited to, procedures for each of the following: (a) Determining where to place an automated speed enforcement system. (b) Regular calibration and maintenance of an automated speed enforcement system. (9) By not later than March 1 of each year after the effective date of the amendatory act that added this section, the state transportation department shall submit to the members of the house of representatives and senate committees with jurisdiction over transportation, and make publicly available on the state transportation department website, a report on the use of automated speed enforcement systems in this state that includes, at a minimum, all of the following: (a) The number of citations given under this section. (b) The age and sex of the individuals given citations under this section. (c) The locations where automated speed enforcement systems are installed and used, and where citations have been given. (d) An accounting of both of the following relating to automated speed enforcement systems installed and used under this section: (i) The costs of installing and using. (ii) The revenue generated. (10) As used in this section, "present" means located in proximity to a roadway that is not protected by a guardrail or barrier. History:Add. 2024, Act 164, Eff. (sine die)

2024 Michigan Compiled LawsChapter 257 - Motor VehiclesAct 300 of 1949 - Michigan Vehicle Code (257.1 - 257.923)300-1949-VI - Chapter VI Obedience to and Effect of Traffic Laws (257.601...257.750)300-1949-VI-SPEED-RESTRICTIONS - Speed Restrictions (257.627...257.633)Section 257.628 - Maximum or Minimum Speed Limit; Determination; Petition by Township Board; Modified Speed Limit; Public Record of Traffic Control Order; Speed Limit Signs, Signals, or Devices; Violation as Civil Infraction; Definitions.

Sec. 628. (1) If the county road commission, the township board, and the department of state police unanimously determine upon the basis of an engineering and traffic investigation that the speed of vehicular traffic on a county highway is greater or less than is reasonable or safe under the conditions found to exist upon any part of the highway, then acting unanimously they may establish a reasonable and safe maximum or minimum speed limit on that county highway that is effective at the times determined when appropriate signs giving notice of the speed limit are erected on the highway. A township board may petition the county road commission or the department of state police for a proposed change in the speed limit. A township board that does not wish to continue as part of the process provided by this subsection shall notify in writing the county road commission. A public record of a traffic control order establishing a modified speed limit authorized under this subsection must be filed at the office of the county clerk of the county in which the limited access freeway or state trunk line highway is located, and a certified copy of a traffic control order is evidence in every court of this state of the authority for the issuance of that traffic control order. As used in this subsection, "county road commission" means the board of county road commissioners elected or appointed under section 6 of chapter IV of

1909 PA 283, MCL 224.6, or, in the case of a charter county with a population of 1,500,000 or more with an elected county executive that does not have a board of county road commissioners, the county executive. (2) In the case of a county highway, a township board may petition the county road commission, or in counties where there is no road commission but there is a county board of commissioners, the township board may petition the county board of commissioners for any of the following: (a) A proposed change in the speed limit without the necessity of a speed study consistent with the methods prescribed for establishing speed limits under section 627. (b) A proposed change in the speed limit consistent with the provisions for establishing speed limits under this section. (c) The posting of an advisory sign or device for the purpose of drawing the attention of vehicle operators to an unexpected condition on or near the roadway that is not readily apparent to road users. (3) The state transportation department and the department of state police shall jointly determine any modified maximum or minimum speed limits on limited access freeways or trunk line highways consistent with the requirements of this section. A public record of a traffic control order establishing a modified speed limit authorized under this subsection must be filed at the office of the county clerk of the county in which the limited access freeway or trunk line highway is located, and a certified copy of a traffic control order is evidence in every court of this state of the authority for the issuance of that traffic control order. (4) A local road authority shall determine any modified speed limits on local highways consistent with the requirements of this section. A public record of a traffic control order establishing a modified speed limit authorized under this subsection must be filed at the office of the city or village or administrative office of the airport, college, or university in which the local highway is located, and a certified copy of the traffic control order is evidence in every court of this state of the authority for the issuance of that traffic control order. (5) A speed limit established under this section must be determined in accordance with traffic engineering practices that provide an objective analysis of the characteristics of the highway and by the eighty-fifth percentile speed of free-flowing traffic under ideal conditions on the fastest portion of the highway segment for which the speed limit is being posted. The speed limit must be in multiples of 5 miles per hour and rounded to a multiple that is within 5 miles per hour of the eighty-fifth percentile speed. A speed limit established under this section may be set below the eighty-fifth percentile speed if an engineering and safety study demonstrates a situation with hazards to public safety that are not reflected by the eighty-fifth percentile speed, but must not be set below the fiftieth percentile speed. (6) If a highway segment includes 1 or more features with a design speed that is lower than the speed limit determined under subsection (5), the road authority may post advisory signs. (7) If upon investigation the state transportation department or county road commission and the department of state police find it in the interest of public safety, they may order township, city, or village officials to erect and maintain, take down, or regulate the speed limit signs, signals, or devices as directed, and in default of an order the state transportation department or county road commission may cause the designated signs, signals, and devices to be erected and maintained, taken down, regulated, or controlled, in the manner previously directed, and pay for the erecting and maintenance, removal, regulation, or control of the sign, signal, or device out of the highway fund designated. (8) Signs posted under this section must conform to the Michigan manual on uniform traffic control devices. (9) An individual who violates a speed limit established under this section is responsible for a civil infraction. (10) As used in subsections (2) to (9), "county road commission" means any of the following: (a) The board of county road commissioners elected or appointed under section 6 of chapter IV of 1909 PA 283, MCL 224.6. (b) In the case of the dissolution of the county road commission under section 6 of chapter IV of 1909 PA 283, MCL 224.6, the county board of commissioners. (c) In the case of a charter county with a population of 1,500,000 or more with an elected county executive that does not have a board of county road commissioners, the county executive. (d) In the case of a charter county with a population of more than 750,000 but less than 1,000,000 with an elected county executive that does not have a board of county road commissioners, the department of roads. (11) As used in this section: (a) "Design speed" means that term as used and determined under "A Policy on Geometric Design of Highways and Streets", seventh ed., 2018, issued by the American Association of State Highway and Transportation Officials. (b) "Local road authority" means the governing body of a city, village, airport, college, or university. (c) "Traffic control order" means a document filed with the proper authority that establishes the legal and enforceable speed limit for the highway segment described in the document. This subdivision does not apply to a snowmobile. (b) Within a business district of a political subdivision described in subsection (1), 10 miles per hour. (3) An individual who violates this section is responsible for a civil infraction. (4) As used in this section: (a) "Historic snowmobile" means that term as defined in section 82101 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.82101. (b) "Snowmobile" means a vehicle that meets all of the following requirements: (i) Is engine-driven. (ii) Has an endless belt tread. (iii) Was originally manufactured solely for operation over snow. (iv) Is steered by 2 sled-type runners or skis that are in contact with the snow and the distance between the centers of the spindles of which is, except for a historic snowmobile, not more than 48 inches. Sec. 631. (1) A person shall not drive a vehicle upon a public bridge, causeway, or viaduct at a speed or with a load which is greater than the maximum speed or load which can be maintained with safety to the structure, when the structure is signposted as provided in this section. Sec. 675. (1) Except as otherwise provided in this section and this chapter, a vehicle stopped or parked upon a highway or street shall be stopped or parked with the wheels of the vehicle parallel to the roadway and within 12 inches of any curb existing at the right of the vehicle. (2) A local authority may by ordinance permit parking of a vehicle on a 1-way roadway with the vehicle's left wheels adjacent to and within 12 inches of any curb existing at the left of the vehicle. (3) A local authority may by ordinance permit angle parking on a roadway, except that angle parking is not permitted on a state trunk line highway unless authorized by the state transportation department. (4) The state transportation commission with respect to state trunk line highways and a board of county road commissioners with respect to county roads, acting jointly with the director of the department of state police, may place signs prohibiting or restricting the stopping, standing, or parking of vehicles on a highway where, in the opinion of the officials as determined by an engineering survey, the stopping, standing, or parking is dangerous to those using the highway or where the stopping, standing, or parking of vehicles would unduly interfere with the free movement of traffic on the highway or street. The signs shall be official signs and a person shall not stop, stand, or park a vehicle in violation of the restrictions stated on the signs. The signs shall be installed only after a proper traffic order is filed with the county clerk. Upon the application to the state transportation commission by a home rule city affected by an order, opportunity shall be given to the city for a hearing before the state transportation commission, under the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, except when an ordinance of the home rule city prohibits or restricts the parking of vehicles on a state trunk line highway; when the home rule city, by lawfully authorized official action, requests the state transportation department to prohibit or restrict parking on a state trunk line highway; or when the home rule city enters into a construction agreement with the state transportation department providing for the prohibition or restriction of parking on a state trunk line highway during or after the period of construction. Traffic control orders, so long as they affect parking upon a state trunk line highway within the corporate limits of a home rule city, are considered "rules" within the meaning of the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328, and upon application for a hearing by a home rule city, the proceedings before the state transportation commission shall be considered a "contested case" within the meaning of that act. (5) A disabled person may apply, on a form prescribed by the secretary of state, for a serially numbered nontransferable temporary or permanent windshield placard for the personal use of the disabled person. An individual who has a religious objection to having a medical examination may personally apply at a branch office of the secretary of state for a serially numbered nontransferable temporary or permanent windshield placard for the personal use of the disabled individual. If it appears obvious that the individual has a qualifying disability, the individual is not required to present a medical statement attesting to the disability. The application for and the issuance of the serially numbered nontransferable temporary or permanent windshield placard is subject to all of the following: (a) The secretary of state may issue to a disabled person with a temporary disability a temporary windshield placard that is valid for a period of not more than 6 months. (b) The secretary of state may issue to a disabled person with a permanent disability an original or renewal permanent windshield placard that is valid for a period of not more than 4 years. (c) An original or permanent windshield placard expires on the disabled person's fifth birthday after the date of issuance. (d) A renewal permanent windshield placard expires on the disabled person's fourth birthday after the date of renewal. (e) Except as otherwise provided in this subsection, not more than 45 days immediately preceding the expiration of his or her certificate or placard, a person holding a permanent windshield placard may apply for a new or renewal placard as provided in this section. However, if the person will be out of state during the 45 days immediately preceding expiration of the placard or for other good cause shown cannot apply for a placard within the 45-day period, the person may apply for a new or renewal placard not more than 6 months before the placard expires. A placard issued or renewed under this subdivision expires as provided in this subsection. (f) Upon application in the manner prescribed by the secretary of state for replacement of a lost, stolen, or destroyed placard described in this section, a disabled person or organization that provides specialized services to disabled persons may be issued a placard that in substance duplicates the original certificate or placard for a fee of $10.00. (g) A placard described in this section may be used by a person other than the disabled person for the sole purpose of transporting the disabled person. An organization that provides specialized services to disabled persons may apply for and receive a permanent windshield placard to be used in any motor vehicle actually transporting a disabled person. If the organization ceases to transport disabled persons, the placard shall be returned to the secretary of state for cancellation and destruction. (h) The secretary of state shall not issue a permanent placard to an individual under this section unless that individual has provided proof of Michigan residency. (6) A disabled person with a certificate of identification, windshield placard, special registration plates issued under section 803d, a special registration plate issued under section 803f that has a tab for persons with disabilities attached, a certificate of identification or windshield placard from another state, or special registration plates from another state issued for persons with disabilities is entitled to courtesy in the parking of a vehicle. The courtesy shall relieve the disabled person or the person transporting the disabled person from liability for a violation with respect to parking, other than in violation of this act. A local authority may by ordinance prohibit parking on a street or highway to create a fire lane or to provide for the accommodation of heavy traffic during morning and afternoon rush hours, and the privileges extending to veterans and physically disabled persons under this subsection do not supersede that ordinance. (7) Except as otherwise provided in subsection (20), an application for an initial free parking sticker shall contain a certification by a physician, physician assistant, certified nurse practitioner, or physical therapist licensed to practice in this state attesting to the nature and estimated duration of the applicant's disabling condition and verifying that the applicant qualifies for a free parking sticker. An individual who has a religious objection to having a medical examination may personally apply at a

branch office of the secretary of state for an initial free parking sticker. If it appears obvious that the individual is unable to do 1 or more of the acts listed in subdivisions (a) to (d), the individual is not required to present a certification by a physician, a physician assistant, a certified nurse practitioner, or a physical therapist attesting to the nature and estimated duration of the applicant's disabling condition or verifying that the applicant qualifies for a free parking sticker. The applicant qualifies for a free parking sticker if the applicant is a licensed driver and the physician, physician assistant, certified nurse practitioner, or physical therapist certifies or, if an individual is not required to have a certification by a physician, a physician assistant, a certified nurse practitioner, or a physical therapist, it is obvious that the applicant is unable to do 1 or more of the following: (a) Manage, manipulate, or insert coins, or obtain tickets or tokens in parking meters or ticket machines in parking lots or parking structures, due to the lack of fine motor control of both hands. (b) Reach above his or her head to a height of 42 inches from the ground, due to a lack of finger, hand, or upper extremity strength or mobility. (c) Approach a parking meter due to his or her use of a wheelchair or other device. (d) Walk more than 20 feet due to an orthopedic, neurological, cardiovascular, or lung condition in which the degree of debilitation is so severe that it almost completely impedes the ability to walk. (8) To be entitled to free parking in a metered space or in a publicly owned parking structure or area, a vehicle must properly display 1 of the following: (a) A windshield placard bearing a free parking sticker issued under this act. (b) A valid windshield placard issued by another state. (c) A certificate of identification issued by another state. (d) A license plate for persons with disabilities issued by another state. (e) A special registration plate with a tab for persons with disabilities attached issued by another state. (9) A vehicle that does not properly display 1 of the items listed in subsection (8) is not entitled to free parking in a metered parking space or in a publicly owned parking area or structure, and the disabled person or vehicle operator shall pay all parking fees and may be responsible for a civil infraction. (10) Blindness that is not accompanied by an incapacity described in subsection (7) does not entitle a person to a free parking sticker. (11) The secretary of state shall attach a free parking sticker, in contrasting colors, to the windshield placard of a person certified as having an incapacity described in subsection (7). (12) A windshield placard issued under this section shall be displayed on the interior rearview mirror of the vehicle or, if there is no interior rearview mirror, on the lower left corner of the dashboard while the vehicle is parked or being parked by or under the direction of a disabled person pursuant to this section. (13) Upon conviction of an offense involving a violation of the special privileges conferred upon a holder of a windshield placard or free parking sticker, a magistrate or judge trying the case, as a part of any penalty imposed, may confiscate the windshield placard or free parking sticker and return the confiscated item or items to the secretary of state together with a certified copy of the sentence imposed. Upon receipt of a windshield placard or free parking sticker from a judge or magistrate, the secretary of state shall cancel and destroy the placard or sticker, and the disabled person to whom it was issued shall not receive another placard or sticker until he or she submits a completed application and presents a current medical statement attesting to his or her condition. A law enforcement officer who observes a misuse of a windshield placard or free parking sticker may immediately confiscate the placard or sticker and forward it with a copy of his or her report to the secretary of state. (14) A person who intentionally makes a false statement of material fact or commits or attempts to commit a deception or fraud on a medical statement attesting to a disability, submitted in support of an application for a windshield placard, free parking sticker, special registration plate, or tab for persons with disabilities under this section, section 803d, or section 803f, is guilty of a misdemeanor punishable by a fine of not more than $500.00 or imprisonment for not more than 30 days, or both. (15) A person who commits or attempts to commit a deception or fraud by 1 or more of the following methods is guilty of a misdemeanor punishable by a fine of not more than $500.00 or imprisonment for not more than 30 days, or both: (a) Using a windshield placard or free parking sticker issued under this section or by another state to provide transportation to a disabled person, if the person is not providing transportation to a disabled person. (b) Altering, modifying, or selling a windshield placard or free parking sticker issued under this section or by another state. (c) Copying or forging a windshield placard or free parking sticker described in this section or selling a copied or forged placard or sticker described in this section. In the case of a violation of this subdivision, the fine described in this subsection shall be not less than $250.00. (d) Using a copied or forged windshield placard or free parking sticker described in this section. (e) Making a false statement of material fact to obtain or assist an individual in obtaining a placard or sticker described in this section, a special registration plate under section 803d, or a tab for persons with disabilities under section 803f. (f) Knowingly using or displaying a placard or sticker described in this section that has been canceled by the secretary of state. (16) Except as otherwise provided in this section, a person who violates this section is responsible for a civil infraction. (17) The secretary of state may cancel, revoke, or suspend a windshield placard or free parking sticker under any of the following circumstances: (a) The secretary of state determines that a windshield placard or free parking sticker was fraudulently or erroneously issued. (b) The secretary of state determines that a person has made or is making an unlawful use of his or her windshield placard or free parking sticker. (c) The secretary of state determines that a check or draft used to pay the required fee is not paid on its first presentation and is not paid upon reasonable notice or demand or that the required fee is paid by an invalid credit card. (d) The secretary of state determines that the person is no longer eligible to receive or use a windshield placard or free parking sticker. (e) The secretary of state determines that the owner has committed an offense under this act involving a windshield placard or free parking sticker. (f) A person has violated this act and the secretary of state is authorized under this act to cancel, revoke, or suspend a windshield placard or free parking sticker for that violation. (g) The secretary of state receives notice from another state or foreign country that a windshield placard or free parking sticker issued by the secretary of state has been surrendered by the owner or seized in conformity with the laws of that other state or foreign country or has been improperly used or displayed in violation of the laws of that other state or foreign country. (18) Before a cancellation, revocation, or suspension under subsection (17), the person affected by that action shall be given notice and an opportunity to be heard. (19) A windshield placard issued to a disabled person shall bear the first letter and the last 3 digits of the disabled person's driver or

chauffeur's license number or official state personal identification card number. (20) For purposes of this section only, the secretary of state may accept an application for a windshield placard, special registration plate, or free parking sticker from a disabled person that is signed by a physician, physician assistant, certified nurse practitioner, or physical therapist licensed or certified to practice in another state if the application is accompanied by a copy of that physician's, physician assistant's, certified nurse practitioner's, or physical therapist's current medical license or certification issued by that state. (21) This section does not require new or additional third party reimbursement or worker's compensation benefits for services rendered. (22) As used in this section, "disabled person" means a person who is determined by a physician, a physician assistant, a physical therapist, or an optometrist as specifically provided in this section licensed to practice in this state to have 1 or more of the following physical characteristics: (a) Blindness as determined by an optometrist, a physician, or a physician assistant. (b) Inability to walk more than 200 feet without having to stop and rest. (c) Inability to do both of the following: (i) Use 1 or both legs or feet. (ii) Walk without the use of a wheelchair, walker, crutch, brace, prosthetic, or other device, or without the assistance of another person. (d) A lung disease from which the person's forced expiratory volume for 1 second, when measured by spirometry, is less than 1 liter, or from which the person's arterial oxygen tension is less than 60 mm/hg of room air at rest. (e) A cardiovascular condition that causes the person to measure between 3 and 4 on the New York heart classification scale, or that renders the person incapable of meeting a minimum standard for cardiovascular health that is established by the American Heart Association and approved by the department of public health. (f) An arthritic, neurological, or orthopedic condition that severely limits the person's ability to walk. (g) The persistent reliance upon an oxygen source other than ordinary air. (2) If a leased vehicle is leased or rented for 30 days or less, the leased vehicle owner may avoid liability for a violation described in subsection (1) if the leased vehicle owner provides all of the following information to the clerk of the court or parking violations bureau issuing the violation not later than 30 days after the leased vehicle owner has received notice of the violation: (a) The lessee's or renter's name, address, and operator's or chauffeur's license number. (b) A copy of the signed rental or lease agreement or an expedited rental agreement without signature as part of a master rental agreement, including proof of the date and time the possession of the vehicle was given to the lessee or renter and the date and time the vehicle was returned to the leased vehicle owner or the leased vehicle owner's authorized agent under the agreement. (3) If a leased vehicle is leased or rented for 30 days or less, the leased vehicle owner is liable for a violation of a local ordinance or state statute relating to a standing or parked vehicle if 1 or more of the following occur: (a) The leased vehicle owner does not provide the information described in subsection (2) within the 30-day period specified in that subsection. (b) The court or parking violations bureau issuing the violation proceeds against the lessee or renter of the vehicle and the lessee or renter of the vehicle is not convicted

Sec. 675c. (1) Except as provided in section 675b, if a vehicle is stopped, standing, or parked in violation of section 672, 674, 674a, 675, or 676, or other state statute, or a local ordinance prohibiting or restricting the stopping, standing, or parking of a vehicle and the violation is a civil infraction, the person in whose name that vehicle is registered in this state or another state at the time of the violation is prima facie responsible for that violation and subject to section 907. (2) The owner of a vehicle cited for a stopping, standing, or parking violation pursuant to subsection (1) may assert as an affirmative defense that the vehicle in question, at the time of the violation, was in the possession of a person whom the owner had not knowingly permitted to operate the vehicle. (3) The registered owner of a vehicle who is found to be responsible for a civil infraction as the result of subsection (1) or a leased vehicle owner as defined in section 675b that is found to be responsible for a civil infraction described in section 675b has the right to recover in a civil action against the person who parked, stopped, or left standing the vehicle in question damages including, but not limited to, the amount of any civil fine or costs, or both, imposed pursuant to section 907. The registered owner of a vehicle or the leased vehicle owner may provide in a written agreement that the person who parked, stopped, or left standing the vehicle in violation of a state statute or local ordinance, when the violation is a civil infraction, shall indemnify the registered owner or the leased vehicle owner for the damages incurred including, but not limited to, any civil fine and costs imposed upon the registered owner for that civil infraction. With regard to a leased vehicle, this subsection does not apply if the court or parking violations bureau issuing the violation finds that the lessee or renter of the vehicle is not responsible for the violation and it is determined that the lessee or renter did not violate the terms of the rental contract or lease agreement. (4) A police officer who issues a citation for a vehicle that is stopped, standing, or parked in violation of a state statute or a local ordinance prohibiting or restricting the stopping, standing, or parking of a vehicle may issue the citation for the violation to the operator of the vehicle if the operator is present at the time of the violation. The manual shall correlate with and so far as possible conform to the federal manual then current as approved by the United States Department of Transportation, Federal Highway Administration, and may be revised whenever necessary to carry out the provisions of this act. It is the policy of this state to achieve, insofar as is practicable, uniformity in the design, shape, and color scheme of traffic signs, signals, and guide posts erected and maintained upon the streets and highways within this state with other states. Definitions and meanings found in the manual adopted under this section are supplemental to the definitions in chapter I. Sec. 612. (1) When traffic is controlled by traffic control signals, not fewer than 1 signal shall be located over the traveled portion of the roadway so as to give vehicle operators a clear indication of the right-of-way assignment from their normal positions approaching the intersection. The vehicle signals shall exhibit different colored lights successively, 1 at a time, or with arrows. Red arrow and yellow arrow indications have the same meaning as the corresponding circular indications, except that they apply only to vehicle operators intending to make the movement indicated by the arrow. The following colors shall be used, and the terms and lights shall indicate and apply to vehicle operators as follows: (a) If the signal exhibits a green indication, vehicular traffic facing the signal may proceed straight through or turn right or left unless a sign at that place prohibits either turn. Vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians and bicyclists lawfully within the intersection or an adjacent crosswalk at the time the signal is exhibited. (b) If the signal exhibits a steady yellow indication, vehicular traffic facing the signal shall stop before entering the nearest crosswalk at the intersection or at a limit line when marked, but if the stop cannot be made in safety, a vehicle may be driven cautiously through the intersection. (c) If the signal exhibits a steady red indication, the following apply: (i) Vehicular traffic facing a steady red signal alone shall stop before entering the crosswalk on the near side of the intersection or at a limit line when marked or, if there is no crosswalk or limit line, before entering the intersection and shall remain standing until a green indication is shown, except as provided in subparagraph (ii). (ii) Vehicular

traffic facing a steady red signal, after stopping before entering the crosswalk on the near side of the intersection or at a limit line when marked or, if there is no crosswalk or limit line, before entering the intersection, may make a right turn from a 1-way or 2-way street into a 2-way street or into a 1-way street carrying traffic in the direction of the right turn or may make a left turn from a 1-way or 2-way street into a 1-way roadway carrying traffic in the direction of the left turn, unless prohibited by sign, signal, marking, light, or other traffic control device. The vehicular traffic shall yield the right of way to pedestrians and bicyclists lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection. (d) If the signal exhibits a steady green arrow indication, vehicular traffic facing the green arrow signal, shown alone or in combination with another indication, may cautiously enter the intersection only to make the movement indicated by the arrow or other movement permitted by other indications shown at the same time. The vehicular traffic shall yield the right-of-way to pedestrians and bicyclists lawfully within an adjacent crosswalk and to other traffic lawfully using the intersection. (2) If a traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section apply except for those provisions that by their nature cannot apply. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of a sign or marking, the stop shall be made at the signal. (3) A person who violates subsection (1) or (2) is responsible for a civil infraction. (4) A vehicle operator who approaches a person using a wheelchair or a device to aid the person to walk at a crosswalk or any other pedestrian crossing shall take necessary precautions to avoid accident or injury to the person using the wheelchair or device. A person who violates this subsection is guilty of a misdemeanor. (5) A sign prohibiting a turn on a red signal as provided in subsection (1)(c)(ii) shall be located above or adjacent to the traffic control signal or as close as possible to the point where the turn is made, or at both locations, so that 1 or more of the signs are visible to a vehicle operator intending to turn, at the point where the turn is made. An additional sign may be used at the far side of the intersection in the direct line of vision of the turning vehicle operator. (6) Subject to federal law, a temporary traffic control signal may be located on, over, or adjacent to the traveled portion of the roadway. History:1949, Act 300, Eff. Pedestrians facing the signal are advised that there is insufficient time to cross the roadway and a pedestrian then starting to cross shall yield the right of way to all vehicles. (c) Steady red indication. Pedestrians facing the signal shall not enter the highway unless they can do so safely and without interfering with vehicular traffic. (d) Red with arrow. Pedestrians facing the signal shall not enter the highway unless they can do so safely without interfering with vehicular traffic. (2) If special pedestrian control signals are installed, they shall be placed at the far end of each crosswalk and shall indicate a "walk" or "don't walk" interval. (b) Don't walk (steady burning or flashing) interval—A pedestrian shall not start to cross the highway in the direction of the signals, but a pedestrian who has partially completed crossing on the walk interval of the signal shall proceed to a sidewalk or safety island while the don't walk interval of the signal is showing. If the weight is not correctly stated or is not satisfactory, the secretary of state shall determine the actual weight. Each application for registration of a vehicle under subdivisions (j) and (m) must have attached to the application a scale weight receipt of the vehicle fully equipped as of the time the application is made. The scale weight receipt is not necessary if there is presented with the application a registration receipt of the previous year that shows on its face the weight of the motor vehicle as registered with the secretary of state and that is accompanied by a statement of the applicant that there has not been a structural change in the motor vehicle that has increased the weight and that the previous registered weight is the true weight. (2) A manufacturer is not exempted under this act from paying ad valorem taxes on vehicles in stock or bond, except on the specified number of motor vehicles registered. A dealer is exempt from paying ad valorem taxes on vehicles in stock or bond. (3) Until October 1, 2027, the tax for a vehicle with an empty weight over 10,000 pounds imposed under subsection (1)(a) and the taxes imposed under subsection (1)(c), (d), (e), (f), (i), (j), (m), (o), and (p) are each increased as follows: (a) A regulatory fee of $2.25, which must be credited to the traffic law enforcement and safety fund created in section 819a and used to regulate highway safety. (4) Except as otherwise provided in this subsection, if a tax required to be paid under this section is not received by the secretary of state on or before the expiration date of the registration plate, the secretary of state shall collect a late fee of $10.00 for each registration renewed after the expiration date. An application for a renewal of a registration using the regular mail and postmarked before the expiration date of that registration must not be assessed a late fee. The late fee collected under this subsection must be deposited into the general fund. The secretary of state shall waive the late fee collected under this subsection if all of the following are satisfied: (a) The registrant presents proof of storage insurance for the vehicle for which the late fee is assessed that is valid for the period of time between the expiration date of the most recent registration and the date of application for the renewal. (b) The registrant requests in person at a department branch office that the late fee be waived at the time of application for the renewal. (5) In addition to the registration taxes under this section, the secretary of state shall collect taxes charged under section 801j and credit revenues to a regional transit authority created under the regional transit authority act, 2012 PA 387, MCL 124.541 to 124.558, minus necessary collection expenses as provided in section 9 of article IX of the state constitution of 1963. (7) Beginning January 1, 2017, the registration fee imposed under this section for a vehicle using 4 or more tires is increased as follows: (a) If the vehicle is a plug-in hybrid electric vehicle, the registration fee for that vehicle is increased by $30.00 for a vehicle with an empty weight of 8,000 pounds or less, and $100.00 for a vehicle with an empty weight of more than 8,000 pounds. As used in this subdivision and subsection (8)(a), "plug-in hybrid electric vehicle" means a vehicle that can use batteries to power an electric motor and use another fuel, such as gasoline or diesel, to power an internal combustion engine or other propulsion source, and that may use electricity from the grid to run the vehicle some or all of the time. (b) If the vehicle is an electric vehicle, the registration fee for that vehicle is increased by $100.00 for a vehicle with an empty weight of 8,000 pounds or less, and $200.00 for a vehicle with an empty weight of more than 8,000 pounds. As used in this subdivision and subsection (8)(b), "electric vehicle" means a vehicle that is propelled solely by electrical energy and that is not capable of using gasoline, diesel fuel, or alternative fuel to propel the vehicle. (8) Beginning January 1, 2017, if the tax on gasoline imposed under section 8 of the motor fuel tax act, 2000 PA 403, MCL 207.1008, is increased above 19 cents per gallon, the secretary of state shall increase the fees collected under subsection (7) as follows: (a) For a plug-in hybrid electric vehicle, $2.50 per each 1 cent above 19 cents per gallon. (b) For an electric vehicle, $5.00 per each 1 cent above 19 cents per gallon. (e) "List price" means the manufacturer's suggested base list price as published by the secretary of state, or the manufacturer's suggested retail price as shown on the label required to be affixed to the vehicle under 15 USC 1232, if the secretary of state has not at the time of the sale of the vehicle published a manufacturer's suggested retail price for that vehicle, or the purchase price of the vehicle if the manufacturer's suggested base list price is unavailable from the sources described in this subdivision. (f) "Purchase price" means the gross proceeds received by the seller in consideration of the sale of the motor vehicle being registered. History:1949, Act 300, Eff. Sec. 801g. (1) Notwithstanding section 801(1)(j) or 801(1)(k), for a truck, truck tractor, or road tractor engaged in interstate commerce, for which a registration fee otherwise would be provided in section 801(1)(j) or 801(1)(k), the fee may be apportioned under the international registration plan according to the miles traveled in this state in relation to the total miles traveled by the vehicle, if the apportionment is permitted by a reciprocal compact, agreement, or other arrangement entered into by the Michigan highway reciprocity board. (2) For the purposes of this section, "international registration plan" means a method of licensing trucks and bus fleets proportionally among 2 or more member jurisdictions and includes an apportioned fee that is determined according to the fleet's percentage of miles generated in the various jurisdictions. Upon payment of the apportioned fee there shall be issued 1 registration plate and 1 cab card for each vehicle with the cab card indicating the jurisdictions in which the unit is registered and the registered weight for each jurisdiction. (3) If the apportionment is permitted, and if at the time of purchase a person elects to have the fees apportioned and the registration is valid for at least 12 months, the annual international registration plan plates may be purchased by paying any out of state portion and 1/2 the amount apportioned for Michigan fees and an extra $10.00 service fee per vehicle upon purchase and the balance within 180 days before the date of expiration. The secretary of state shall notify a person who has elected to use the installment option of this subsection informing the person of the amount due and of the penalties that shall be imposed if payment is not received within 180 days before the date of expiration. If a person is once late on paying the balance, a penalty of 25% of the outstanding balance shall be assessed and collected in addition to the fee. If a person is twice late in paying the balance within a 2-year period, then a penalty of 25% of the outstanding balance shall be assessed and collected in addition to the fee, and the person is ineligible to elect the apportionment payment plan for the next 2 registration years following the year of the delinquency. The secretary of state shall suspend the registration of any vehicle for which the registration fee is not paid in full and transmit a statement of the delinquent balance, including the penalty, to the department of treasury for collection. (4) If a person surrenders a registration plate purchased under section 801(1)(j) or 801(1)(k) for a registration under this section for the same vehicle, the apportioned fee for the exchange registration shall bear the same relationship to the fee required under this section for a 12-month registration as the length of time the exchange registration bears to 12 months. Partial months shall be considered as whole months in the calculation of the required fee and in the determination of the length of time between the application for a registration and the last day of the month of expiration. The calculation shall include any refund as a credit provided for in section 801b(8). The fee required for the registration shall be rounded off to whole dollars as provided in section 801. (5) If a person does not surrender a registration plate purchased under section 801(1)(j) or 801(1)(k) for a registration under this section, the apportioned fee shall be determined as provided for in this section except the apportioned fee for a registration purchased shall bear the same relationship to the fee required under this section for a 12-month registration as the length of time the registration bears to 12 months. Partial months shall be considered as whole months in the calculation of the required fee and in the determination of the length of time between the application for a registration and the last day of the month of expiration. The fee required for this registration shall be rounded off to whole dollars as provided in section 801. Fees under this subsection shall not be prorated for less than 6 months. (6) Upon proper application for registration of a vehicle under this section, the secretary of state may issue a temporary registration which shall be valid for not more than 45 days from the date of issuance. (7) The secretary of state may designate an owner or registrant having a fleet of motor vehicles currently registered under this section to act as an agent for the secretary of state for the purpose of issuing to himself or herself a temporary registration. Upon issuance of a temporary registration an agent shall make proper application for an international registration plan registration to the secretary of state within 5 days after issuance of the temporary registration. (8) An owner issued a temporary registration under this section is liable for the fees provided in this section. (9) If the owner of a vehicle for which a temporary registration is issued under this section fails to pay the registration fee as required in this section, the secretary of state shall suspend the registrations of all vehicles registered by that owner under this section. The registrations shall remain suspended until the fee is paid. History:Add. 1980, Act 505, Imd. Eff. Jan. 22, 1981 ;-- Am. 1984, Act 330, Imd. Eff. Dec. 26, 1984 ;-- Am. 1986, Act 311, Imd. Eff. Determination of Owner's Compliance.

Sec. 801h. (1) Notwithstanding any other provision in this act, the owner or lessee of a fleet of 300 or more vehicles that are or will be registered under section 801 may apply to the secretary of state for special registration plates for any number of 300 or more vehicles in a fleet. An application shall be on a form prescribed by the secretary of state and include an agreement that, at a minimum, the applicant agrees to pay annual fleet registration taxes under this section in a manner determined by the secretary of state. (2) Upon approval of the application and payment of the required registration taxes, the secretary of state may issue the applicant a registration plate under section 224 and a registration certificate under section 222 for each vehicle. The registration plate and certificate shall each be in a format as prescribed by the secretary of state. (3) The name, emblem, trademark, or logo of the company issued fleet registration plates under this section shall be prominently displayed on the right and left sides of all vehicles registered under this section by that applicant. The name, emblem, trademark, or logo shall contain letters, figures, or numerals in sharp contrast to the background of the name, emblem, trademark, or logo and shall be of a size, shape, and color that is readily legible during daylight hours from a distance of 50 feet. This subsection does not apply to passenger vehicle rental fleets. (4) The registration tax for each vehicle registered under this section shall be paid annually. Registration taxes under this section are payable in full not later than the due date provided in section 226. If the owner of a vehicle registered under this section fails to pay the annual registration tax for that vehicle, the secretary of state shall collect a late fee of $100.00 for the individual vehicle registration for that vehicle, in addition to the registration tax. If the owner of a vehicle registered under this section fails to comply with the terms of the fleet registration plate agreement provided in subsection (1), except as otherwise provided in this subsection, the secretary of state shall immediately suspend the registration of all vehicles registered by that owner under this section. The registration shall remain suspended and the owner shall not apply for the registration or reregistration of a vehicle under this section until payment in full of the tax, and late fee, if applicable, owed is made. After providing notice to the owner, the secretary of state shall notify law enforcement of any plate suspended under this section. The secretary of state shall not suspend the registration of all vehicles registered under a fleet vehicle registration plate agreement under subsection (1) for failure to timely pay the annual registration tax for an individual vehicle registered under the fleet vehicle registration plate agreement. (5) At any time an owner or lessee in good standing may add a vehicle to the list of vehicles registered under this section. To add a vehicle, the owner or lessee shall make application to the secretary of state, in a form prescribed by the secretary of state, accompanied by the registration taxes required under section 801. (6) At any time an owner or lessee may delete the registration of a vehicle from the list of vehicles registered under this section. To delete a vehicle, the owner shall notify the secretary of state of the proposed deletion in a form prescribed by the secretary of state and, except as otherwise provided in this subsection, surrender to the secretary of state the registration plate assigned to the deleted vehicle. The secretary of state shall collect a late fee of $100.00 from a vehicle owner who does not return a fleet registration plate to the secretary of state within 30 days after deleting that vehicle's registration under this subsection. A vehicle owner is not required to surrender a fleet registration plate assigned to a deleted vehicle if the fleet registration plate is properly transferred to another vehicle in that fleet and the registration for the vehicle to which the fleet registration plate is transferred is transferred within 30 days after the deleted vehicle is removed from the fleet. A vehicle owner shall surrender to the secretary of state a fleet registration plate that has been transferred from a deleted vehicle to another vehicle in the same fleet as provided in this subsection when the registration for that vehicle expires or when that vehicle is deleted from the fleet. (7) A vehicle not titled or leased in the name of the applicant is not eligible for registration under this section. A vehicle registered under section 801g is not eligible for registration under this section. (8) The secretary of state or the authorized representative of the secretary of state may visit and examine the vehicle registration records of an owner whose vehicles are registered under this act. This authority only applies to visits during the regular business hours of the owner and to those vehicles and records necessary for the secretary of state to determine an owner's compliance with this section. Sec. 801j. (1) Except as otherwise provided in subsection (6), in addition to the required vehicle registration tax under section 801(1)(p), a regional transit authority created under the regional transit authority act, 2012 PA 387, MCL 124.541 to 124.558, may charge an additional tax on vehicle registrations issued to residents of a public transit region of not more than $1.20 for each $1,000.00 or fraction of $1,000.00 of the vehicle's list price as used in calculating the tax under section 801(1)(p). The authority may

charge the additional tax only upon the approval of a majority of the electors in a public transit region voting on the tax at an election held on the regular November election date as provided in section 641(1)(d) of the Michigan election law, 1954 PA 116, MCL 168.641. (2) In addition to any other requirements imposed by law, the ballot question proposing authorization of the tax under subsection (1) shall specify how the proceeds of the tax shall be expended. (3) The tax collected under this section shall only be used by the regional transit authority for comprehensive transportation purposes as defined by law for purposes of section 9 of article IX of the state constitution of 1963. (4) A proposal for a tax under this section shall not be placed on the ballot under subsection (1) unless the proposal is adopted by a resolution of the board of directors of the regional transit authority and certified by the board of directors not later than 70 days before the election to the county clerk of each county within the public transit region for inclusion on the ballot. (5) Except as otherwise provided in subsection (6), if a majority of voters in a public transit region approve a tax under subsection (1), no later than 1 year after voter approval, the secretary of state shall collect the tax on all vehicles registered to residents of the public transit region under section 801(1)(p) and shall credit the tax collected to the regional transit authority, minus necessary collection expenses as provided in section 9 of article IX of the state constitution of 1963. Necessary collection expenses incurred by the secretary of state under this subsection shall be based upon an established cost allocation methodology. (6) This section does not apply to a company test vehicle. As used in this subsection, "company test vehicle" means a vehicle that is owned by a manufacturer and that satisfies 1 or both of the following: (a) The vehicle is part of a product testing program as defined by the United States department of treasury under treas. reg. 1.132-5(n)(2001). (b) The vehicle is furnished by the manufacturer to an employee of the manufacturer for the purpose of testing, evaluating product quality and performance, reporting defects, or suggesting product or production improvements as an ordinary and necessary business expense of the manufacturer. This recommendation is not binding on the courts that have jurisdiction over civil infractions but is intended to act as a normative guide for judges and district court magistrates and a basis for public evaluation of disparities in the imposition of civil fines and costs throughout this state. (9) If a person has received a civil infraction citation for defective safety equipment on a vehicle under section 683, the court shall waive a civil fine, costs, and assessments on receipt of certification by a law enforcement agency that repair of the defective equipment was made before the appearance date on the citation. (10) A default in the payment of a civil fine or costs ordered under subsection (2), (3), or (4) or a justice system assessment ordered under subsection (12), or an installment of the fine, costs, or assessment, may be collected by a means authorized for the enforcement of a judgment under chapter 40 of the revised judicature act of 1961, 1961 PA 236, MCL 600.4001 to 600.4065, or under chapter 60 of the revised judicature act of 1961, 1961 PA 236, MCL 600.6001 to 600.6098. (11) Before the effective date of 2024 PA 22, the court may waive any civil fine, cost, or assessment against an individual who received a civil infraction citation for a violation of section 710d if the individual, before the appearance date on the citation, supplies the court with evidence of acquisition, purchase, or rental of a child seating system meeting the requirements of section 710d. Beginning on the effective date of 2024 PA 22, the court may waive any civil fine, cost, or assessment against an individual who received a civil infraction citation for a violation of section 710d if the individual, before the appearance date on the citation, supplies the court with evidence of acquisition of a child seating system that meets the requirements of section 710d and evidence that the individual has received education from a certified child passenger safety technician. (12) In addition to any civil fines or costs ordered to be paid under this section, the judge or district court magistrate shall order the defendant to pay a justice system assessment of $40.00 for each civil infraction determination, except for a parking violation or a violation for which the total fine and costs imposed are $10.00 or less. On payment of the assessment, the clerk of the court shall transmit the assessment collected to the state treasury to be deposited into the justice system fund created in section 181 of the revised judicature act of 1961, 1961 PA 236, MCL 600.181. An assessment levied under this subsection is not a civil fine for purposes of section 909. (13) If a person has received a citation for a violation of section 223, the court shall waive any civil fine, costs, and assessment on receipt of certification by a law enforcement agency that the person, before the appearance date on the citation, produced a valid registration certificate that was valid on the date the violation of section 223 occurred. (14) If a person has received a citation for a violation of section 328(1) for failing to produce a certificate of insurance under section 328(2), the court may waive the fee described in section 328(3)(c) and shall waive any fine, costs, and any other fee or assessment otherwise authorized under this act on receipt of verification by the court that the person, before the appearance date on the citation, produced valid proof of insurance that was in effect when the violation of section 328(1) occurred. Insurance obtained after the violation occurred does not make the person eligible for a waiver under this subsection. (15) If a person is determined to be responsible or responsible "with explanation" for a civil infraction under this act or a local ordinance that substantially corresponds to a provision of this act and the civil infraction arises out of the ownership or operation of a commercial quadricycle, the person must be ordered to pay costs as provided in subsection (4) and a civil fine of not more than $500.00. (16) As used in this section, "moving violation" means an act or omission prohibited under this act or a local ordinance that substantially corresponds to this act that involves the operation of a motor vehicle and for which a fine may be assessed. ***** 257.907 THIS SECTION IS AMENDED EFFECTIVE 91 DAYS AFTER ADJOURNMENT OF THE 2024 REGULAR SESSION SINE DIE: See 257.907.amended ***** Sec. 907. (1) A violation of this act, or a local ordinance that substantially

corresponds to a provision of this act, that is designated a civil infraction must not be considered a lesser included offense of a criminal offense. (2) Permission may be granted for payment of a civil fine and costs to be made within a specified period of time or in specified installments but, unless permission is included in the order or judgment, the civil fine and costs must be payable immediately. Except as otherwise provided, a person found responsible or responsible "with explanation" for a civil infraction must pay costs as provided in subsection (4) and 1 or more of the following civil fines, as applicable: (a) Except as otherwise provided, for a civil infraction under this act or a local ordinance that substantially corresponds to a provision of this act, the person shall be ordered to pay a civil fine of not more than $100.00. (b) If the civil infraction was a moving violation that resulted in an at-fault collision with another vehicle, an individual, or any other object, the civil fine ordered under this section is increased by $25.00 but the total civil fine must not be more than $100.00. (c) For a violation of section 240, the civil fine ordered under this subsection is $15.00. (d) For a violation of section 312a(4)(a), the civil fine ordered under this section must not be more than $250.00. (e) For a first violation of section 319f(1), the civil fine ordered under this section must not be less than $2,500.00 or more than $2,750.00; for a second or subsequent violation, the civil fine must not be less than $5,000.00 or more than $5,500.00. (g) For a violation of section 319g(1)(g), the civil fine ordered under this section must not be less than $2,750.00 or more than $25,000.00. (h) For a violation of section 602b, the civil fine ordered under this section must be as follows: (i) For a violation of section 602b(1), either of the following: (A) If the violation does not involve an accident, $100.00 for a first offense and $250.00 for a second or subsequent offense. (B) If the violation involves an accident, $200.00 for a first offense and $500.00 for a second or subsequent offense. (ii) For a violation of section 602b(2), either of the following: (A) If the violation does not involve an accident, $200.00 for a first offense and $500.00 for a second or subsequent offense. (B) If the violation involves an accident, $400.00 for a first offense and $1,000.00 for a second or subsequent offense. (i) For a violation of section 674(1)(s) or a local ordinance that substantially corresponds to section 674(1)(s), the civil fine ordered under this section must not be less than $100.00 or more than $250.00. (j) For a violation of section 676a(3), the civil fine ordered under this section must not be more than $10.00. (k) For a violation of section 676c, the civil fine ordered under this section is $1,000.00. (l) For a violation of section 682 or a local ordinance that substantially corresponds to section 682, the civil fine ordered under this section must not be less than $100.00 or more than $500.00. (m) For a violation of section 710d, the civil fine ordered under this section must not be more than $10.00, subject to subsection (11). (n) For a violation of section 710e, the civil fine and court costs ordered under this subsection must be $25.00. (3) Except as provided in this section, if an individual is determined to be responsible or responsible "with explanation" for a civil infraction under this act or a local ordinance that substantially corresponds to a provision of this act while driving a commercial motor vehicle, the individual must be ordered to pay costs as provided in subsection (4) and a civil fine of not more than $250.00. (4) If a civil fine is ordered under subsection (2) or (3), the judge or district court magistrate shall summarily tax and determine the costs of the action, which are not limited to the costs taxable in ordinary civil actions, and may include all expenses, direct and indirect, to which the plaintiff has been put in connection with the civil infraction, up to the entry of judgment. Costs must not be ordered in excess of $100.00. A civil fine ordered under subsection (2) or (3) must not be waived unless costs ordered under this subsection are waived. Except as otherwise provided by law, costs are payable to the general fund of the plaintiff. (5) In addition to a civil fine and costs ordered under subsection (2) or (3) and subsection (4) and the justice system assessment ordered under subsection (12), the judge or district court magistrate may order the individual to attend and complete a program of treatment, education, or rehabilitation. (6) A district court magistrate shall impose the sanctions permitted under subsections (2), (3), and (5) only to the extent expressly authorized by the chief judge or only judge of the district court district. (7) Each district of the district court and each municipal court may establish a schedule of civil fines, costs, and assessments to be imposed for civil infractions that occur within the respective district or city. If a schedule is established, it must be prominently posted and readily available for public inspection. A schedule need not include all violations that are designated by law or ordinance as civil infractions. A schedule may exclude cases on the basis of a defendant's prior record of civil infractions or traffic offenses, or a combination of civil infractions and traffic offenses. (8) The state court administrator shall annually publish and distribute to each district and court a recommended range of civil fines and costs for first-time civil infractions. This recommendation is not binding on the courts having jurisdiction over civil infractions but is intended to act as a normative guide for judges and district court magistrates and a basis for public evaluation of disparities in the imposition of civil fines and costs throughout this state. (9) If a person has received a civil infraction citation for defective safety equipment on a vehicle under section 683, the court shall waive a civil fine, costs, and assessments on receipt of certification by a law enforcement agency that repair of the defective equipment was made before the appearance date on the citation. (10) A default in the payment of a civil fine or costs ordered under subsection (2), (3), or (4) or a justice system assessment ordered under subsection (12), or an installment of the fine, costs, or assessment, may be collected by a means authorized for the enforcement of a judgment under chapter 40 of the revised judicature act of 1961, 1961 PA 236, MCL 600.4001 to 600.4065, or under chapter 60 of the revised judicature act of 1961, 1961 PA 236, MCL 600.6001 to 600.6098. (11) The court may waive any civil fine, cost, or assessment against an individual who received a civil infraction citation for a violation of section 710d if the individual, before the appearance date on the citation, supplies the court with evidence of acquisition, purchase, or rental of a child seating system meeting the requirements of section 710d. (12) In addition to any civil fines or costs ordered to be paid under this section, the judge or district court magistrate shall order the defendant to pay a justice system assessment of $40.00 for each civil infraction determination, except for a parking violation or a violation for which the total fine and costs imposed are $10.00 or less. On payment of the assessment, the clerk of the court shall transmit the assessment collected to the state treasury to be deposited into the justice system fund created in section 181 of the revised judicature act of 1961, 1961 PA 236, MCL 600.181. An assessment levied under this subsection is not a civil fine for

purposes of section 909. (13) If a person has received a citation for a violation of section 223, the court shall waive any civil fine, costs, and assessment, on receipt of certification by a law enforcement agency that the person, before the appearance date on the citation, produced a valid registration certificate that was valid on the date the violation of section 223 occurred. (14) If a person has received a citation for a violation of section 328(1) for failing to produce a certificate of insurance under section 328(2), the court may waive the fee described in section 328(3)(c) and shall waive any fine, costs, and any other fee or assessment otherwise authorized under this act on receipt of verification by the court that the person, before the appearance date on the citation, produced valid proof of insurance that was in effect at the time the violation of section 328(1) occurred. Insurance obtained subsequent to the time of the violation does not make the person eligible for a waiver under this subsection. (15) If a person is determined to be responsible or responsible "with explanation" for a civil infraction under this act or a local ordinance that substantially corresponds to a provision of this act and the civil infraction arises out of the ownership or operation of a commercial quadricycle, the person must be ordered to pay costs as provided in subsection (4) and a civil fine of not more than $500.00. (16) As used in this section, "moving violation" means an act or omission prohibited under this act or a local ordinance that substantially corresponds to this act that involves the operation of a motor vehicle and for which a fine may be assessed. Sec. 908. (1) If a defendant defaults in the payment of a civil fine, costs, or both, or of any installment, as ordered pursuant to section 907(2), the court, upon the motion of the plaintiff or upon its own motion, may require the defendant to show cause why the default should not be treated as in civil contempt and may issue a summons or order to show cause or a bench warrant of arrest for the defendant's appearance. (2) When a corporation or an association is ordered to pay a civil fine or costs, the persons authorized to make disbursement shall pay the fine or costs, and their failure to do so shall be civil contempt unless they make the showing required in this section. (3) Unless the defendant shows that the default was not attributable to an intentional refusal to obey the order of the court or to a failure on his or her part to make a good faith effort to obtain the funds required for payment, the court shall find that the default constitutes a civil contempt and may order the defendant committed until the civil fine, costs, or both, or a specified part thereof, is paid. (4) If it appears that the default in the payment of a civil fine or costs does not constitute civil contempt, the court may enter an order allowing the defendant additional time for payment, reducing the amount of payment or of each installment, or revoking the fine or costs or the unpaid portion thereof in whole or in part. (5) The term of imprisonment on civil contempt for nonpayment of a civil fine or costs shall be specified in the order of commitment, and shall not exceed 1 day for each $10.00 of the fine and costs. Sec. 32. (1) Before beginning repair work, a motor vehicle repair facility shall give to the customer a written estimate that itemizes as closely as possible the price for labor and parts necessary for the work. A facility shall not charge for work done or parts supplied in excess of the estimated price, or in excess of the limit stated by the customer in the waiver described in subsection (3), without the knowing written or oral consent of the customer, obtained at some time after the facility determines that the estimated price or stated limit is insufficient and before any work that is not estimated or is in excess of the limit is done or the parts that are not estimated or are in excess of the limit are supplied. If a waiver is not signed under subsection (3) and the estimated price is exceeded by not more than 10% or $50.00, whichever is lesser, the facility is not required to obtain the written or oral consent of the customer for the excess charge unless specifically requested by the customer. This section shall not be construed as requiring a motor vehicle repair facility, mechanic, or mechanic trainee to give a written estimated price if the facility, mechanic, or trainee agrees not to perform the requested repair. If the actual cost of a repair is less than the agreed on estimated cost, the customer shall pay only the actual cost. (2) If a facility or mechanic informs the customer that the price for repair will exceed the written estimate or the stated limit in the waiver and the customer does not want the repair work performed, the customer is responsible for all reasonable costs to return the vehicle to the condition it was in at the time it entered the facility. The waiver shall be in 14 point or larger bold capital type face and executed with 1 copy to the customer who is requesting the repairs. The waiver shall read as follows: "I, _____, voluntarily authorize _____ to provide services or parts in the repair of the below described motor vehicle without receiving an estimate of repair costs. (7) If requested by a customer, a facility shall explain exactly why a replaced part is defective or nonfunctional, or otherwise why it was replaced. Sec. 2. If a new motor vehicle has any defect or condition that impairs the use or value of the new motor vehicle to the consumer or which prevents the new motor vehicle from conforming to the manufacturer's express warranty, the manufacturer or a new motor vehicle dealer of that type of motor vehicle shall repair the defect or condition as required under section 3 if the consumer initially reported the defect or condition to the manufacturer or the new motor vehicle dealer within 1 of the following time periods, whichever is earlier: (a) During the term the manufacturer's express warranty is in effect. (b) Not later than 1 year from the date of delivery of the new motor vehicle to the original consumer. History:1986, Act 87, Eff. June 25, 1986Popular Name:Lemon Law

Sec. 3. (1) If a defect or condition that was reported to the manufacturer or new motor vehicle dealer pursuant to section 2 continues to exist and the new motor vehicle has been subjected to a reasonable number of repairs as determined under subsection (5), the manufacturer shall within 30 days, do either of the following as applicable: (a) If the new motor vehicle was purchased, either replace the new motor vehicle with a comparable replacement motor vehicle currently in production and acceptable to the consumer or accept return of the vehicle and refund to the consumer the purchase price. A consumer shall have the right to demand a refund. (b) If the new motor vehicle was leased, the consumer has the right to a refund of the lease price paid by the consumer. The consumer may agree to accept a comparable replacement vehicle in lieu of a refund for the lease price paid. If the consumer agrees to accept a replacement vehicle, the lease agreement shall not be altered except with respect to the identification of the vehicle. (2) The purchase price or lease price includes the cost of any options or other modifications installed or made by or for the manufacturer, and the amount of all other charges made by or for the manufacturer, less a reasonable allowance for the consumer's use of the vehicle, and less an amount equal to any appraised damage that is not attributable to normal use or to the defect or condition. A reasonable allowance for use is the purchase or lease price of the new motor vehicle multiplied by a fraction having as the denominator 100,000 miles and having as the numerator the miles directly attributable to use by the consumer and any previous consumer prior to his or her first report of a defect or condition that impairs the use or value of the new motor vehicle plus all mileage directly attributable to use by a consumer beyond 25,000 miles. If a vehicle is replaced or refunded under the provisions of this section, if towing services and rental vehicles were not made available without cost to the consumer, the manufacturer shall also reimburse the consumer for those towing costs and reasonable costs for a comparable rental vehicle that were incurred as a direct result of the defect or condition. (3) If a court or an alternative dispute settlement procedure described in section 5 determines that a consumer has provided sufficient evidence that the vehicle did not provide reliable transportation for ordinary personal or household use for any period beyond the first 25,000 mileage usage period of the vehicle, the court or the alternative dispute settlement procedure may reduce the vehicle usage deduction for mileage beyond the first 25,000 mileage usage period only for the period beyond the 25,000 mileage usage period that the court or alternative dispute settlement procedure determines that the vehicle did not provide useful transportation for ordinary personal or household use. To determine if the vehicle did or did not provide useful transportation for ordinary personal and household use, the court or the alternative dispute settlement procedure shall consider all of the following: (a) The number of repairs. (b) The cost of the repairs. (c) The number of days the vehicle was out of service. (d) Whether the vehicle's need for repair significantly affected the consumer's ability to use the vehicle for personal or household functions. (4) The provisions of this act do not affect the obligations of a consumer under a loan, sales, or lease contract or the secured interest of a secured party. The secured party shall consent to the replacement of the security interest with a corresponding security interest on a replacement motor vehicle that is accepted by the consumer in exchange for the motor vehicle having a defect or condition pursuant to subsection (1), if the replacement motor vehicle is comparable in value to the original motor vehicle. If for any reason the security interest in the new motor vehicle having a defect or condition pursuant to subsection (1) is not able to be

replaced with a corresponding security interest on a new motor vehicle accepted by the consumer, the consumer shall accept a refund. A refund required under this subsection or subsection (1) shall be made to the consumer and the secured party, if any, as their interests exist at the time the refund is to be made. The lessor, if any, shall be notified if a refund is made to a lessee under this act. A lessor shall not assess a fee for early termination of a lease under this act. (5) It shall be presumed that a reasonable number of attempts have been undertaken to repair a defect or condition if 1 of the following occurs: (a) The same defect or condition that substantially impairs the use or value of the new motor vehicle to the consumer has been subject to repair a total of 4 or more times by the manufacturer or new motor vehicle dealer within 2 years of the date of the first attempt to repair the defect or condition, and the defect or condition continues to exist. Any repair performed on the same defect made pursuant to subsection (6) shall be included in calculating the number of repairs under this section. The consumer or his or her representative, before availing himself or herself of a remedy provided under subsection (1), and any time after the third attempt to repair the same defect or condition, shall give written notification, by return receipt service, to the manufacturer of the need for repair of the defect or condition in order to allow the manufacturer an opportunity to cure the defect or condition. The manufacturer shall notify the consumer as soon as reasonably possible of a reasonably accessible repair facility. After delivery of the vehicle to the designated repair facility, the manufacturer has 5 business days to repair the defect or condition. (b) The new motor vehicle is out of service because of repairs for a total of 30 or more days or parts of days during the term of the manufacturer's express warranty, or within 1 year from the date of delivery to the original consumer, whichever is earlier. The consumer, or his or her representative, before availing himself or herself of a remedy provided under subsection (1), and after the vehicle has been out of service for at least 25 days in a repair facility, shall give written notification by return receipt service to the manufacturer of the need for repair of the defect or condition in order to allow the manufacturer an opportunity to cure the defect or condition. The manufacturer shall notify the consumer as soon as reasonably possible of a reasonably accessible repair facility. After delivery of the vehicle to the designated repair facility, the manufacturer has 5 business days to repair the defect or condition. (6) Any repairs required to be made under this act shall be made even if the repairs need to be performed after the expiration of the manufacturer's express warranty. The defect needing repair must be a continuation of the original attempt to repair the defect. (7) The term of an express warranty, and the 1-year, 30-day, and 5-day periods of time provided for in this section shall be extended because repair services were not available to the consumer because of war, invasion, strike, fire, flood, or other natural disaster. No. 2020-1 - Executive Reorganization Order (257.929 - 257.929)Section 257.929 - Transfer of Michigan Council on Future Mobility From Department of Transportation to the Department of Labor and Economic Opportunity by Type III Transfer; Abolishment of Michigan Council on Future Mobility; Creation of the Michigan Council on Future Mobility and Electrification as Advisory Body Within Department of Labor and Economic Opportunity; Composition; Powers, Duties, and Functions; Implementation and Transfer of Powers, Duties, and Functions.

Michigan has long been the hub of mobility, and for over 100 years, the economic fortunes of its businesses, communities, and families have been closely tied to that sector of industry. Today, the mobility sector is undergoing a period of unprecedented change. To secure its future prosperity, and to remain the global leader in this sector, Michigan must keep pace with this change. This will require a concerted, coordinated, and sustained effort across state government, as well as productive partnerships with stakeholders in the public and private sectors. The Department of Labor and Economic Opportunity, with its focus on aligning and strengthening this state's economic and workforce development activities, is well suited to serve as the locus of this effort. Section 1 of article 5 of the Michigan Constitution of 1963 vests the executive power of the State of Michigan in the governor. (8) Nine individuals appointed by the governor who represent the interests of local government or are business, policy, research, or technological leaders in future mobility; and one individual appointed by the governor who is representative of insurance interests. (c) A member of the Michigan Senate designated by its majority leader, a member of the Michigan Senate designated by its minority leader, a member of the Michigan House of Representatives designated by its speaker, and a member of the Michigan House of Representatives designated by its minority leader may participate as non-voting ex officio members of the Council. (d) Of the Council members initially appointed under section 2(b)(8), three members must be appointed for a term of four years, three members must be appointed for a term of three years, two members must be appointed for a term of two years, and two members must be appointed for a term of one year. After the initial appointments, a member of the Council appointed under section 2(b)(8) must be appointed for a term of four years. (e) Council members appointed under section 2(b)(1)-(7) are ex officio members and serve at the pleasure of the governor. (15) Subsections (8) to (14) do not apply to any of the following: (a) A dog trained or used for fighting, or the first- or second-generation offspring of a dog trained or used for fighting, that is used by a law enforcement agency of this state or a county, city, village, or township. (b) A certified leader dog recognized and trained by a national guide dog association for the blind or for persons with disabilities. (c) A corporation licensed under the private security business and security alarm act, 1968 PA 330, MCL 338.1051 to 338.1092, when a dog trained or used for fighting, or the first- or second-generation offspring of a dog trained or used for fighting, is used in accordance with the private security business and security alarm act, 1968 PA 330, MCL 338.1051 to 338.1092. (16) Except as provided in subsection (20), an animal that has been used to fight in violation of this section or that is involved in a violation of subsections (8) to (14) must be confiscated by a law enforcement officer and must not be returned to the owner, trainer, or possessor of the animal. The animal must be taken to a local animal control agency. If an animal owner, trainer, or possessor is convicted of violating subsection (2) or subsections (8) to (14), the court shall award the animal involved in the violation to the animal control agency for evaluation and disposition. (17) An animal control agency taking custody of an animal under subsection (16) shall give notice within 72 hours after seizure of the animal by registered mail to the last known address of the animal's owner, if the owner of the animal is known. If the owner of the animal is unknown, an animal control agency taking custody of an animal under subsection (16) shall give notice within 72 hours after seizure of the animal by 1 of the following methods: (a) Posting at the location of the seizure. (b) Delivery to a person residing at the location of the seizure. (c) Registered mail to the location of the seizure. (18) The notice required under subsection (17) must include all of the following: (a) A description of each animal seized. (b) The time, date, location, and description of circumstances under which the animal was seized. (c) The address and telephone number of the location where the animal is being held and contact information for the individual present at that location from whom security deposit or bond information may be obtained. (d) A statement that the owner or possessor of the animal may post a security deposit or bond that may prevent the forfeiture of the animal for the duration of the criminal, forfeiture, or other court proceeding until the court makes a final determination regarding the animal's disposition, that failure to post a security deposit or bond within 14 days after the date on the notice will result in forfeiture of the animal, and that the owner or possessor of the animal may, before the expiration of the 14-day period described in this subdivision, request a hearing on whether the requirement to post a security deposit or bond is justified or whether the cost associated with the security deposit or bond is fair and reasonable for the care of and provision for the seized animal. Notice of a request for a hearing under this subdivision must be served on the animal control agency holding the animal before the expiration of the 14-day period described in this subdivision. At a hearing on whether the requirement to post a security deposit or bond is justified, the prosecuting attorney has the burden to establish by a preponderance of the evidence that a violation of this section occurred. If the court finds that the prosecuting attorney has met its burden, the animal will be forfeited to the animal control agency that seized the animal unless the owner or possessor of the animal posts the required security deposit or bond. An owner or possessor's failure to appear at a scheduled hearing requested under this subdivision will result in automatic forfeiture of the animal if the date of the scheduled hearing is more than 14 days after the date on the notice described in this subdivision. (e) A statement that the owner or possessor of the animal is responsible for all costs described in subsection (6), unless the court determines that the seizure of the animal was not substantially justified by law. (19) An animal control agency that has custody of a seized animal under subsection (16) shall hold the animal for a period of 14 consecutive days, including weekends and holidays, beginning on the date notice was given under subsection (17). After the expiration of the 14 days, if the owner or a possessor of the animal has not posted a security deposit or bond as provided in subsection (20), the animal is forfeited, and the animal control agency may dispose of the animal by adoption, transfer to another animal control agency, or humane euthanasia. (20) The owner or possessor of an animal seized under subsection (16) may prevent forfeiture and disposition of the animal by an animal control agency for the duration of the criminal, forfeiture, or other court proceeding until the court makes a final determination regarding the animal's disposition by posting a security deposit or bond with the court within 14 days after the date on the notice described in subsection (18). The bond must be in a sufficient amount to secure payment of all costs described in subsection (6) during a 30-day period of boarding and veterinary treatment of the animal after examination by a licensed veterinarian. The animal control agency shall determine the amount of the bond no later than 72 hours after the seizure of the animal, and shall make the amount of the bond available to the owner or possessor of the animal upon request. The owner or possessor of the animal shall provide proof of the security deposit or bond to the animal control agency no later than 14 days after the date on the notice described in subsection (18). (21) An animal control agency that is holding or requiring to be held a seized animal as provided in this section may draw on a security deposit or bond posted under subsection (20) or (22) to cover the actual reasonable costs incurred in the seizure, care, keeping, and disposition of the animal as described in subsection (6) from the date of the seizure to the date of the official disposition of the animal in the criminal action. (22) If a security deposit or bond has been posted under subsection (20), and trial in the criminal action does not occur within the initial 30-day bond period or is continued to a later date, the owner or possessor shall post an additional security deposit or bond in an amount determined sufficient to cover the costs described in subsection (6) as anticipated to be incurred by the animal control agency caring for the animal. The additional security deposit or bond must be calculated in 30-day increments and continue until the criminal action is resolved. If the owner or possessor of the animal fails to post a new security deposit or bond with the court before the previous security deposit or bond expires, the animal is forfeited to the animal control agency caring for the

animal. (23) If the owner or possessor that posted a security deposit or bond under subsection (20) or (22) is found not guilty in the criminal action, the amount of the security deposit or bond posted to prevent disposition of the animal may be returned to the owner or possessor at the court's discretion, and, subject to subsections (25) and (26), the animal must be returned to the owner. (24) If a security deposit or bond is posted by an owner or possessor of an animal under subsection (20) or (22) and the court determines that the animal is a dangerous animal or lacks any useful purpose under subsection (26), the posting of the security deposit or bond must not prevent disposition of the animal. (25) Upon receiving an animal seized under this section, or at any time thereafter, an animal control agency may humanely euthanize the animal or have the animal euthanized if, in the opinion of a licensed veterinarian, the animal is injured or diseased past recovery or the animal's continued existence is inhumane so that euthanasia is necessary to relieve pain and suffering. This subsection applies to an animal whether or not a security deposit or bond has been posted under subsection (20) or (22). (26) An animal control agency that receives an animal under this section may apply to the district court or municipal court for a hearing to determine whether the animal must be humanely euthanized because of its lack of any useful purpose or the public safety threat it poses. The court shall hold a hearing not more than 30 days after the filing of the application and shall give notice of the hearing to the owner of the animal. Upon a finding by the court that the animal lacks any useful purpose or poses a threat to public safety, the animal control agency shall humanely euthanize the animal or have the animal euthanized. Expenses incurred in connection with the housing, care, upkeep, or euthanasia of the animal by an animal control agency, or by a person, firm, partnership, corporation, or other entity, may, in the court's discretion, be assessed against the owner of the animal. (27) Subject to subsections (16), (25), and (26), all animals being used or to be used in fighting, equipment, devices, and money involved in a violation of subsection (2) must be forfeited to this state. All other instrumentalities, proceeds, and substituted proceeds of a violation of subsection (2) are subject to forfeiture under chapter 47 of the revised judicature act of 1961, 1961 PA 236, MCL 600.4701 to 600.4710. (28) The seizing agency may deposit money seized under subsection (27) into an interest-bearing account in a financial institution. As used in this subsection, "financial institution" means a state or nationally chartered bank or a state or federally chartered savings and loan association, savings bank, or credit union whose deposits are insured by an agency of the United States government and that maintains a principal office or branch office located in this state under the laws of this state or the United States. (29) An attorney for a person who is charged with a violation of subsection (2) involving or related to money seized under subsection (27) must be afforded a period of 60 days within which to examine that money. This 60-day period will begin to run after notice of forfeiture is given but before the money is deposited into a financial institution under subsection (28). If the attorney general, prosecuting attorney, or city or township attorney fails to sustain his or her burden of proof in forfeiture proceedings under subsection (27), the court shall order the return of the money, including any interest earned on money deposited into a financial institution under subsection (28). (30) This section does not apply to conduct that is permitted by and is in compliance with any of the following: (a) Part 401 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.40101 to 324.40120. (b) Part 435 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.43501 to 324.43561. (c) Part 427 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.42701 to 324.42714. (d) Part 417 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.41701 to 324.41712. (31) This section does not prohibit a person from being charged with, convicted of, or punished for any other violation of law that is committed by that person while violating this section. Sec. 50. (1) As used in this section and section 50b: (a) "Adequate care" means the provision of sufficient food, water, shelter, sanitary conditions, exercise, and veterinary medical attention in order to maintain an animal in a state of good health. (b) "Animal" means a vertebrate other than a human being. (c) "Animal control shelter" means a facility operated by a county, city, village, or township to impound and care for animals found in streets or otherwise at large contrary to an ordinance of the county, city, village, or township or state law. (d) "Animal protection shelter" means a facility operated by a person, humane society, society for the prevention of cruelty to animals, or any other nonprofit organization, for the care of homeless animals. (e) "Breeder" means a person that breeds animals other than livestock or dogs for remuneration, or that is a large-scale dog breeding kennel as that term is defined in section 1 of 1969 PA 287, MCL 287.331. (f) "Licensed veterinarian" means a person licensed or otherwise authorized to practice veterinary medicine under article 15 of the public health code, 1978 PA 368, MCL 333.16101 to 333.18838. (g) "Livestock" means that term as defined in section 3 of the animal industry act, 1988 PA 466, MCL 287.703. (h) "Neglect" means to fail to sufficiently and properly care for an animal to the extent that the animal's health is jeopardized. (i) "Person" means an individual, partnership, limited liability company, corporation, association, governmental entity, or other legal entity. (j) "Pet shop" means that term as defined in section 1 of 1969 PA 287, MCL 287.331. (k) "Sanitary conditions" means space free from health hazards including

excessive animal waste, overcrowding of animals, or other conditions that endanger the animal's health. This definition does not include any condition resulting from a customary and reasonable practice pursuant to farming or animal husbandry. (l) "Shelter" means adequate protection from the elements and weather conditions suitable for the age, species, and physical condition of the animal so as to maintain the animal in a state of good health. Shelter, for livestock, includes structures or natural features such as trees or topography. Shelter, for a dog, includes 1 or more of the following: (i) The residence of the dog's owner or other individual. (ii) A doghouse that is an enclosed structure with a roof and of appropriate dimensions for the breed and size of the dog. The doghouse must have dry bedding when the outdoor temperature is or is predicted to drop below freezing. (iii) A structure, including a garage, barn, or shed, that is sufficiently insulated and ventilated to protect the dog from exposure to extreme temperatures or, if not sufficiently insulated and ventilated, contains a doghouse as provided under subparagraph (ii) that is accessible to the dog. (m) "State of good health" means freedom from disease and illness, and in a condition of proper body weight and temperature for the age and species of the animal, unless the animal is undergoing appropriate treatment. (n) "Tethering" means the restraint and confinement of a dog by use of a chain, rope, or similar device. (o) "Water" means potable water that is suitable for the age and species of animal and that is made regularly available unless otherwise directed by a licensed veterinarian. (2) An owner, possessor, breeder, operator of a pet shop, or person having the charge or custody of an animal shall not do any of the following: (a) Fail to provide an animal with adequate care. (b) Cruelly drive, work, or beat an animal, or cause an animal to be cruelly driven, worked, or beaten. (c) Carry or cause to be carried in or upon a vehicle or otherwise any live animal having the feet or legs tied together, other than an animal being transported for medical care or a horse whose feet are hobbled to protect the horse during transport, or in any other cruel and inhumane manner. (d) Carry or cause to be carried a live animal in or upon a vehicle or otherwise without providing a secure space, rack, car, crate, or cage in which livestock may stand and in which all other animals may stand, turn around, and lie down during transportation, or while awaiting slaughter. As used in this subdivision, for purposes of transportation of sled dogs, "stand" means sufficient vertical distance to allow the animal to stand without its shoulders touching the top of the crate or transportation vehicle. (e) Abandon an animal or cause an animal to be abandoned, in any place, without making provisions for the animal's adequate care, unless premises are vacated for the protection of human life or the prevention of injury to a human. An animal that is lost by an owner or custodian while traveling, walking, hiking, or hunting is not abandoned under this section when the owner or custodian has made a reasonable effort to locate the animal. (f) Negligently allow any animal, including one who is aged, diseased, maimed, hopelessly sick, disabled, or nonambulatory to suffer unnecessary neglect, torture, or pain. (g) Tether a dog unless the tether is at least 3 times the length of the dog as measured from the tip of its nose to the base of its tail and is attached to a harness or nonchoke collar designed for tethering. This subdivision does not apply if the tethering of the dog occurs while the dog is being groomed, trained, transported, or used in a hunt or event where a shorter tether is necessary for the safety and well-being of the dog and others. (3) If an animal is impounded and is being held by an animal control shelter or its designee or an animal protection shelter or its designee or a licensed veterinarian pending the outcome of a criminal action charging a violation of this section or section 50b, before final disposition of the criminal charge, the prosecuting attorney may file a civil action in the court that has jurisdiction of the criminal action, requesting that the court issue an order forfeiting the animal to the animal control shelter or animal protection shelter or to a licensed veterinarian before final disposition of the criminal charge. The prosecuting attorney shall serve a true copy of the summons and complaint upon the defendant and upon a person with a known ownership interest or known security interest in the animal or a person who has filed a lien with the secretary of state on the animal. The forfeiture of an animal under this section encumbered by a security interest is subject to the interest of the holder of the security interest if he or she did not have prior knowledge of or did not consent to the commission of the crime. Upon the filing of the civil action, the court shall set a hearing on the complaint. The hearing must be conducted within 14 days of the filing of the civil action, or as soon as practicable. The hearing must be before a judge without a jury. At the hearing, the prosecuting attorney has the burden of establishing by a preponderance of the evidence that a violation of this section or section 50b occurred. If the court finds that the prosecuting attorney has met this burden, the court shall order immediate forfeiture of the animal to the animal control shelter or animal protection shelter or the licensed veterinarian unless the defendant, within 72 hours of the hearing, submits to the court clerk cash or other form of security in an amount determined by the court to be sufficient to repay all reasonable costs incurred, and anticipated to be incurred, by the animal control shelter or animal protection shelter or the licensed veterinarian in caring for the animal from the date of initial impoundment to the date of trial. If cash or other security has been submitted, and the trial in the action is continued at a later date, any order of continuance must require the defendant to submit additional cash or security in an amount determined by the court to be sufficient to repay all additional reasonable costs anticipated to be incurred by the animal control shelter or animal protection shelter or the licensed veterinarian in caring for the animal until the new date of trial. If the defendant submits cash or other security to the court under this subsection the court may enter an order authorizing the use of that cash or other security before final disposition of the criminal charges to pay the reasonable costs incurred by the animal control shelter or animal protection shelter or the licensed veterinarian in caring for the animal from the date of impoundment to the date of final disposition of the criminal charges. The testimony of a person at a hearing held under this subsection is not admissible against him or her in any criminal proceeding except in a criminal prosecution for perjury. The testimony of a person at a hearing held under this subsection does not waive the person's constitutional right against self-incrimination. An animal seized under this section or section 50b is not subject to any other civil action pending the final judgment of the forfeiture action under this subsection. (4) A person who violates subsection (2) is guilty of a crime as follows: (a) Except as otherwise provided in subdivisions (c) to (f), if the violation involved 1 animal, the person is guilty of a misdemeanor punishable by 1 or more of the following and may be ordered to pay the costs of prosecution: (i) Imprisonment for not more than 93 days. (ii) A fine of not more than $1,000.00. (iii) Community

service for not more than 200 hours. (b) Except as otherwise provided in subdivisions (c) to (f), if the violation involved 2 or 3 animals or the death of any animal, the person is guilty of a misdemeanor punishable by 1 or more of the following and may be ordered to pay the costs of prosecution: (i) Imprisonment for not more than 1 year. (ii) A fine of not more than $2,000.00. (iii) Community service for not more than 300 hours. (c) If the violation involved 4 or more animals but fewer than 10 animals or the person had 1 prior conviction under subsection (2), the person is guilty of a felony punishable by 1 or more of the following and may be ordered to pay the costs of prosecution: (i) Imprisonment for not more than 2 years. (ii) A fine of not more than $2,000.00. (iii) Community service for not more than 300 hours. (d) If the violation involved 10 or more animals but fewer than 25 animals or the person had 2 prior convictions for violating subsection (2), the person is guilty of a felony punishable by 1 or more of the following and may be ordered to pay the costs of prosecution: (i) Imprisonment for not more than 4 years. (ii) A fine of not more than $5,000.00. (iii) Community service for not more than 500 hours. (e) If the violation involved 25 or more animals or the person has had 3 or more prior convictions for violating subsection (2), the person is guilty of a felony punishable by 1 or more of the following and may be ordered to pay the costs of prosecution: (i) Imprisonment for not more than 7 years. (ii) A fine of not more than $10,000.00. (iii) Community service for not more than 500 hours. (f) If the person is a breeder, or if the person is an operator of a pet shop and he or she has had 5 or more prior convictions for violating 1969 PA 287, MCL 287.331 to 287.340, the person is guilty of a felony punishable by imprisonment for not more than 2 years or a fine of not more than $5,000.00, or both. (5) The court may order a person convicted of violating subsection (2) to be evaluated to determine the need for psychiatric or psychological counseling and, if determined appropriate by the court, to receive psychiatric or psychological counseling. The evaluation and counseling shall be at the defendant's own expense. (6) This section does not prohibit a person from being charged with, convicted of, or punished for any other violation of law arising out of the same transaction as the violation of this section. (7) The court may order a term of imprisonment imposed for a violation of this section to be served consecutively to a term of imprisonment imposed for any other crime including any other violation of law arising out of the same transaction as the violation of this section. (8) As a part of the sentence for a violation of subsection (2), the court may order the defendant to pay the costs of the care, housing, and veterinary medical care for the animal, as applicable. If the court does not order a defendant to pay all of the applicable costs listed in this subsection, or orders only partial payment of these costs, the court shall state on the record the reason for that action. (9) As a part of the sentence for a violation of subsection (2), the court may, as a condition of probation, order the defendant not to own or possess an animal for a period of time not to exceed the period of probation. If a person is convicted of a second or subsequent violation of subsection (2), the court may order the defendant not to own or possess an animal for any period of time, including permanent relinquishment of animal ownership. (10) A person who owns or possesses an animal in violation of an order issued under subsection (9) is subject to revocation of probation if the order is issued as a condition of probation. A person who owns or possesses an animal in violation of an order issued under subsection (9) is also subject to the civil and criminal contempt power of the court, and if found guilty of criminal contempt, may be punished by imprisonment for not more than 90 days or a fine of not more than $500.00, or both. (11) As part of the sentence imposed under subsection (4)(e), the court may place the defendant on probation for any term of years, but not less than 5 years. (12) This section does not prohibit the lawful killing or other use of an animal, including the following: (a) Fishing. (b) Hunting, trapping, or wildlife control regulated under the natural resources and environmental protection act, 1994 PA 451, MCL 324.101 to 324.90106. (c) Horse racing. (d) The operation of a zoological park or aquarium. (e) Pest or rodent control regulated under part 83 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.8301 to 324.8336. (f) Farming or a generally accepted animal husbandry or farming practice involving livestock. (g) Scientific research under 1969 PA 224, MCL 287.381 to 287.395. (h) Scientific research or the lawful killing of an animal under sections 2226, 2671, 2676, and 7333 of the public health code, 1978 PA 368, MCL 333.2226, 333.2671, 333.2676, and 333.7333. (i) The lawful killing or use of an animal under the animal industry act, 1988 PA 466, MCL 287.701 to 287.746. (13) This section does not apply to a veterinarian or a veterinary technician lawfully engaging in the practice of veterinary medicine under part 188 of the public health code, 1978 PA 368, MCL 333.18801 to 333.18838. (3) In a prosecution for a violation of subsection (1), evidence that the defendant initiated or continued conduct directed toward a service animal described in subsection (1) after being requested to avoid or discontinue that conduct or similar conduct by a person with a disability being served or assisted by the service animal shall give rise to a rebuttable

(5) As used in this section: (a) "Harass" means to engage in any conduct directed toward a service animal described in subsection (1) that is likely to impede or interfere with the service animal's performance of its duties or that places the person with a disability being served or assisted by the service animal in danger of injury. (b) Whether the handler has sufficient control of the miniature horse. (c) Whether the miniature horse is housebroken. (d) Whether the miniature horse's presence in a specific facility compromises legitimate safety requirements that are necessary for safe operation. (2) A public accommodation shall not ask a person with a disability to remove a service animal from the premises because of allergies or fear of the animal. A public accommodation may ask a person with a disability to remove his or her service animal from the premises only if either of the following applies: (a) The service animal is out of control and its handler does not take effective action to control the service animal. (b) The service animal is not housebroken. (3) Except as otherwise provided in subsection (2) and this subsection, a public accommodation shall modify its policies, practices, and procedures to permit the use of a service animal in training by an animal raiser or trainer, if the animal raiser or trainer is being accompanied by the service animal in training for the purpose of training or socializing the animal. A public accommodation shall not ask an animal raiser or trainer to remove a service animal in

training from the premises because of allergies or fear of the animal. A public accommodation may ask an animal raiser or trainer to remove his or her service animal in training only if either of the following applies: (a) The service animal in training is out of control and the animal raiser or trainer does not take effective action to control the animal. (b) The service animal in training is not housebroken. (4) If a public accommodation properly excludes a service animal under subsection (2) or a service animal in training under subsection (3), the public accommodation shall give the person with a disability or the animal raiser or trainer the opportunity to obtain goods, services, or accommodations without having the animal on the premises. (5) A service animal must be under the control of the person with a disability and must have a harness, leash, or other tether. If the person with a disability is unable because of a disability to use a harness, leash, or other tether or the use of a harness, leash, or other tether would interfere with the service animal's safe and effective performance of work or tasks, the service animal must be otherwise under the control of the person with a disability. (6) A service animal in training must be under the control of the animal raiser or trainer and must have a harness, leash, or other tether. If the use of a harness, leash, or other tether would interfere with the animal's safe and effective performance of work, tasks, training, or socialization, the service animal in training must be otherwise under the control of the animal raiser or trainer. (7) A public accommodation is not responsible for the care or supervision of a service animal or service animal in training. (8) If it is not obvious what service a service animal provides, staff of a public accommodation shall not ask about a person with a disability's disability, require medical documentation, require a special identification card or training documentation for the service animal, or ask that the service animal demonstrate its ability to perform work or a task. Subject to subsection (9), staff may make the following 2 inquiries to determine whether an animal qualifies as a service animal: (a) Whether the service animal is required because of a disability. (b) What work or task the service animal has been trained to perform. (9) A public accommodation shall not do either of the following: (a) Require documentation when making an inquiry under subsection (8). (b) Make an inquiry under subsection (8) if it is readily apparent that the service animal is trained to work or perform tasks for a person with a disability. (10) A public accommodation shall permit a person with a disability to be accompanied by his or her service animal and shall permit an animal raiser or trainer to be accompanied by his or her service animal in training in all areas of a place of public accommodation where members of the public, program participants, clients, customers, patrons, or invitees are permitted to go, including public areas of establishments that sell or prepare food, even if state or local health codes prohibit animals on the premises. A public accommodation may exclude a service animal or a service animal in training from a facility if the animal's presence interferes with legitimate safety requirements of the facility such as a surgery or burn unit in a hospital in which a sterile field is required. (11) A public accommodation shall not do any of the following: (a) Isolate a person with a disability accompanied by his or her service animal. (b) Isolate an animal raiser or trainer accompanied by his or her service animal in training. (c) Treat a person with a disability accompanied by his or her service animal less favorably than other patrons. (g) Ask or require a person with a disability or animal raiser or trainer to pay a surcharge, regardless of whether individuals accompanied by pets are required to pay a surcharge, or to comply with other requirements that are not applicable to individuals that are not accompanied by pets. (12) An animal raiser or trainer is liable for damage to a public accommodation or injury to an individual caused by his or her service animal in training. If a public accommodation normally charges people for damage caused, the public accommodation may charge a person with a disability for damage caused by his or her service animal. (13) A public accommodation that violates subsection (1), (3), (4), (8), (9), (10), (11), or (13) is guilty of a misdemeanor.
