

NEW STUDY FINDS AI REPORT WRITING DID **NOT** SAVE OFFICERS TIME!

A new study put a competitor's AI-assisted report writing feature to the test— a product that claims to reduce report writing times by 82%.

The study concluded **NO** significant time savings.

WHY DID IT NOT SAVE OFFICERS TIME?

- ✗ Competitor intentionally inserts errors for correction
- ✗ Competitor does **not** separate officer and civilian speech.
- ✗ **NO** significant time savings!

WHY IS IT IMPORTANT TO SAVE OFFICERS TIME?

Saving time on paperwork leads to faster response times.

The screenshot displays the Truleo web application interface. At the top, there are three tabs: 'Transcript', 'Summary', and 'Report Narrative'. Below the tabs, there are three form fields: 'Report Type' with the value 'Domestic Incident', 'Severity of Charge' with 'Infraction', and 'Is this an arrest?' with 'Yes'. A dark blue circular callout on the right side of the interface contains the text 'Save Officers 10 HOURS of their time per week'. Below the forms, there is a video player showing a scene with trees and a person. To the right of the video player, a 'Generated Narrative' section is visible, containing a detailed text report of an incident. Below the narrative, there are 'Suggestions' with checkboxes and a warning icon. A dark blue button with a gear icon and the text 'Auto Generate Draft Narrative' is positioned at the bottom left of the screenshot, with a mouse cursor pointing at it.
